The total indebtedness of the Territory is \$392,500, divided into \$100,000 in bonds bearing five per cent., and \$292,500 in bonds bearing six per cent. These bonds are payable in 1901-2-3 and 4, or sooner, at the option of the Territory, the option beginning on \$90,000 of the bonds after May 1, 1886.

TERRITORIAL AUDITOR.

The voluminous report of the Territorial Auditor shows the transactions in detail of his office for the two years ending November 30th, 1884. The total amount of the warrants issued by the Auditor for the biennial period is \$572,996.04. Of this amount, \$248,305.03 were expended for the construction of public buildings, leaving the current expenses of the Territory \$324,691.01 for the two years, an average of \$162,345.51 per year. The report shows one hundred and seventy-four insurance companies doing business in the Territory, of which all but three are outside corporations. The total premiums paid to these companies for the two years ending January 1, 1884, were \$1,094,157.70. Total losses paid, \$379,288.13, showing a gross profit to the companies of \$714,869.51. The tax levied on companies under the law and paid to the Auditor, amounted to \$10,102.23, and the fees from April 7, 1883, to November, 1884, \$7,185.

THE PUBLIC SCHOOLS.

The report of the Superintendent of Public Instruction makes a very interesting and encouraging exhibit of the condition of the public schools in the Territory. There are eighty-five organized counties, but only sixty-five of these have made the returns required by law, the remainder being comparatively new. From the returns made the following facts and figures are gained:

Number of children Jan. 1, 1884, over seven and under twenty years	77,499
“ enrolled in the public schools.....	50,031
Per cent. of attendance of those enrolled.....	65
Average cost for tuition per month for each pupil	\$2 20

Total number of teachers employed.....	2,911
Number of male teachers.....	863

Average pay of teachers per month, males.....	\$38 43
" " " " " females.....	\$31 72

Receipts by Treasurers of school corporations from April 1, 1883, to June 30, 1884.....	\$1,603,562 99
Total expenditures.....	\$1,306,878 72

This does not include sums paid to County Superintendents, expended for county and territorial institutes or for the erection of the University, Agricultural College or Normal School buildings. The grand total, including all expenditures for educational purposes by the Territory, (not private insitutions) is \$1,786,676.99.

The Superintendent's report has been received too late for careful examination and consequently too late for any extended comment or recommendation, but enough has been gained by even a cursory reading to warrant me in saying that it deserves the careful examination of the Legislature. I particularly invite attention to that part of the report which discusses the question of amendment to the existing law, and also to the remarks of the Superintendent regarding the issue of school bonds and warrants

THE UNIVERSITY OF DAKOTA.

The report of the Regents of the University of Dakota is incorporated in the Superintendent's report and gives an exhibit of the expenditures in the building of the University and its maintenance for the past year. The Regents say: "In accordance with the purposes of the act creating this board, we have expended nearly \$5,000 to complete the wing of the building which was partially built by Clay county. We have also erected and enclosed a main building, the walls of which are of Sioux Falls quartzite and the trimmings of stone from Stone City. The extreme size of this building is 68 by 116 feet. It is three stories high, with tower 111 feet 6 inches high from the grade line. It is roofed with iron shingles. The Board have not had sufficient money to complete the second and third stories in the main building. They ask an appropriation for the ensuing biennial term, amounting in the aggregate to \$59,450.

THE NORTH DAKOTA UNIVERSITY.

The report of the Regents of the North Dakota University is a clear and comprehensive statement of what has been done and what it is hoped to do for that institution. I have but just received the report, which, like others, has been unfortunately delayed, and must refer the Legislature to the document itself for details. The construction fund, appropriated by the last Legislature, will fall about \$5,000 short of paying in full for the main building that has been erected. For other necessary buildings, heating apparatus, pay of president and professors, fuel and janitor's services, a further appropriation will be needed, the amount of which will have to be ascertained later. The building which is completed is 150 by 54 feet, three stories and a basement, and I am told is admirably adapted to its purpose. An observatory 22.9 by 28.5, with two wings 20.9 by 16.8 and 20.9 by 15.8 also has been constructed in fulfillment of the bond given to the Territory.

The Regents ask for a very large appropriation; not too large, perhaps, for the upbuilding of a university that will honor the Territory, but too large for the present scanty revenue at hand to meet it. The time will soon come, I hope and believe, when we will have ample means for such meritorious purposes. Till then our enthusiasm must be tempered by judgment, and what we would do, wait upon what we *can* do.

THE AGRICULTURAL COLLEGE.

The Trustees of the Agricultural College, at Brookings, are required under the law to report directly to the Legislature. I am informed that the Institution has opened under flattering auspices, and that its success can scarcely be doubted. A building 68x80 feet, three stories and a basement in height, has been erected, which, when entirely finished, will accommodate three hundred pupils. Three of the rooms were finished and school opened in September last.

THE NORMAL SCHOOL.

No report has been received from the Normal School at Madison or Spearfish. The building of the Madison school is of frame, two stories high, 70x50 feet, with a side projection for entrance. The plan is to veneer the structure with brick. It will accommodate two hundred students in classes. There were fifty-four students in attendance last year.

The Spearfish school building is of brick, 45x30 feet, and two stories high. Three terms of the school have been held. The report of the Trustees was received but yesterday, but is transmitted herewith.

THE DEAF AND DUMB SCHOOL.

The Deaf Mute School, at Sioux Falls, has an attractive site, and the new building provided for by the last Legislature has been completed and occupied. No communication whatever has been received from the governing board. It is 57x99 feet on the ground, and two stories and a basement in height. The material is Sioux Falls stone, with pressed brick trimmings. There is a present attendance of thirty-one, and the superintendent has the names of over eighty additional deaf mutes now residents of the Territory. The management suggest the desirability of constructing an additional building.

TERRITORIAL PENITENTIARIES.

The report of the Directors of the Southern Penitentiary, at Sioux Falls, shows the following receipts and expenditures:

Total receipts from Jan. 1, 1883, to Nov. 29, 1884.....	\$ 87,547 00
Total expenditures for same period.....	86,598 70
Average number of prisoners for 1883.....	45
" " " " 1884.....	74
Average cost of maintenance for all persons per week (including officers) for 1883.....	\$1.60
Average cost of maintenance for all persons per week (including officers) for 1884.....	1.30
Average cost of caring for prisoners per week, including all expenses except pay of officers, for 1883, per prisoner.....	3.00
Average cost per week per prisoner, for officers and guards, for 1883.....	2.39
" " " " 1884.....	2.06

The prisoners have performed 7,379 $\frac{1}{4}$ days labor in the quarry and construction of new buildings, and 5,570 $\frac{1}{4}$ days in and about the prison.

No complete report has yet been received from the Directors, and this vexatious delay renders it impossible to summarize many facts which might prove interesting and require comment. It seems that the prisoners have performed 7,379 $\frac{1}{4}$ days labor in the quarry and in the construction of new buildings, and 5,570 $\frac{1}{4}$ days in and about the prison. I am unable to say what this latter service consisted of; but taking it for granted that it was labor,

which represents the earning capacity of the prisoners, if under a contract, there was a total of 12,949½ days work represented, from which an income may be estimated. It seems that the Directors have been offered 45 cents a day for the labor of prisoners, and at this rate the work performed during the past year would amount to \$5,827.27. I am inclined to think the earnings of the prisoners in the quarries for the past year would amount to considerably more than this, but the Directors seem to think that this labor can not be profitably continued.

The total appropriation by the last Legislature for the Sioux Falls prison, for two years, excluding buildings, repairs and improvements, was \$77,625.00.

The total amount expended for maintenance, officers, employes, fuel, medicine, clothing, etc., was \$54,462.46.

The average number of prisoners for the two years being 59½, it will be seen that the total cost per prisoner per year was \$477.48, and per week \$9.18. The cost of keeping the prisoners at the Detroit House of Correction was \$78 per year, or \$1.50 per week, per man. The expense of transporting, however, was much greater, averaging about \$466 per man, while to the present prison it averages but \$101. With a small number of convicts a penitentiary is an expensive institution to maintain, and, though the time had come when the territory demanded a place of her own for the reception of prisoners, this expense is considerably greater than when they were sent to a neighboring state. The expenditure per capita will diminish of course as the number increases, and it does not appear even now that the cost is very much greater than in states east, having something like an equal number of convicts. Below give a comparison, approximately correct, between our prison and the state's prison of Vermont, which last year had 105 prisoners in her penitentiary (the number now at Sioux Falls).

Total cost of salaries and labor for two years in Vermont prison	\$ 12,918 37
Total cost at Sioux Falls for two years, not including pay of directors or warden	22,432 28
Total cost of maintenance of Vermont prison, for two years, not counting buildings, repairs and improvements	37,203 00
Total cost of Sioux Falls for two years, not including fuel, clothing or lights	23,400 00
Total cost per week per inmate in Vermont	3 43
Average cost per inmate at Sioux Falls, as per directors' statement	3 00

Cost per week per inmate, in Vermont, for salaries and labor.....	1 19
“ “ “ at Sioux Falls, for officers and guards.....	2 06
Average number of inmates to each person employed regularly in Vermont.....	7¼
Average number of inmates to each person employed regularly at Sioux Falls.....	6¼
Average amount per year for four years paid Vermont as income from prison.....	\$ 10,095 72
Estimated amount paid the territory by prison at Sioux Falls.....	5,827 00
Net cost per week per inmate in Vermont.....	1 57
Estimated cost per inmate per week, for ensuing two years at Sioux Falls.....	2 25

These are but hasty figures and based on insufficient data, but it is hoped that the complete report of the directors of the Sioux Falls penitentiary will show a full statement of all expenditures in detail, in order that a reliable comparison may be made with what is recognized as one of the most economical state institutions in the country.

The estimate of the directors of the southern penitentiary for the ensuing two years is in round numbers \$68,800. This is for the ordinary running expenses of the prison, and is made on a basis of one hundred and thirty-five prisoners. No calculation is made for the earnings of prisoners. The estimate of the directors of the Bismarck prison, for the same purpose, is \$56,652. This is based on an estimate of sixty prisoners and eighteen employes for two years. The directors of the latter prison also ask for an appropriation to make certain improvements amounting in all to \$47,900. Some of these improvements, such as a workshop, heating and plumbing, temporary yard wall, sewerage, etc., are necessary to the occupation of the prison. The directors also submit a full report of their expenditures in constructing the prison, with such recommendations and suggestions as they have thought necessary. The building seems to be well adapted to its purpose, and is a fair beginning to what will ultimately be made, no doubt, when the wants of the territory require it, a structure of harmonious design and finish.

The prison at Sioux Falls is of an imposing design, and would be regarded anywhere as an admirable structure for the purpose. The completion of the United States wing and the warden's residence adds much to the appearance of the structure and makes it altogether one of the most complete penitentiary buildings in the west. The whole edifice is capable of accommodating two hundred prisoners, but the possession of the wing constructed for the general

government is still uncertain. The directors have been in correspondence with the attorney general of the United States with a view to assuming control of it, agreeing in return to care for all United States prisoners free of charge. What will be done, or whether under the law any contract of this character can be made is a matter of some doubt. The whole prison is capable of accommodating two hundred prisoners. If the United States wing can be controlled by the territory, the accommodations thus furnished together with those afforded by the Bismarck prison will in my judgment be sufficient for the necessities of the territory until the next meeting of the Legislature. It is important, however, that this question be settled and a careful estimate be made in order that the present legislature may make such preparations as appear necessary. It is probable that something definite will be known before the adjournment, when action can be taken.

ASYLUMS.

One building of the North Dakota Insane Asylum at Jamestown, provided for by the last Legislature, has been completed, and the report of the trustees is presented herewith. This asylum, which is designed on the modern cottage plan, can of course, be enlarged to any extent. The present building will accommodate fifty patients. The increase in the number of insane is very large, and although accommodations are already provided in the territory for two hundred and fifty, I fear that additional provision must be made to meet the necessities of the next two years. There are already fifty patients or more (the full capacity of the Jamestown building) in the institution at Yankton. The trustees of the Jamestown hospital ask for an appropriation for an additional building, and submit an estimate therefor. They also ask for an appropriation of \$68,500 for the maintenance and improvement of the present hospital. This amount can be materially reduced in my judgment without seriously impairing the efficiency of the institution. The building, which has been erected, is a plain but neat and substantial structure, and is well adapted, I believe, to its purpose. It seems to have been erected also with fair regard to economy, but the land on which it stands has cost a much larger sum than was anticipated. The trustees make a full explanation of the matter in their report and the reasons which induced them to select the present site.

♦

A very full and complete report is submitted by the Trustees of the "Dakota Hospital for the Insane" at Yankton, containing tables of much interest. The full capacity of the present building, including the wing which has lately been completed, is two hundred. It appears that one hundred and eight patients from South Dakota alone were admitted to the asylum in the past year, a gain of sixty-eight over the year previous. At the same rate of increase there will be two hundred and ninety-one patients in South Dakota at the end of two years. If the fifty belonging to the North are removed, there will remain room for ninety-seven at Yankton, which will of course furnish accommodations for a year yet. From a hasty examination, however, it would appear necessary as I have already stated, to make arrangements for enlarging both asylums by the close of 1886.

The Trustees of the Yankton asylum estimate that \$28,000 will enable them to build the additional wing contemplated, while \$15,000 will be required for furniture. If an appropriation for the building be made, I think the furnishing can await the action of a subsequent Legislature, as it would scarcely be necessary to have the wing ready for occupancy before the end of two years.

The full amount asked for by the Trustees is (with wing) \$125,948.05—without wing, \$92,188.05.

The present institution seems to have been managed with judgement and economy. The average cost of caring for patients has been but slightly over \$2.22 per week per patient. At Rochester, Minn., the cost has been \$3.44 per week, and at St. Peter, Minn., \$3.54. I invite the close attention of the Legislature to the reports of both Boards of Trustees, which accompany this communication.

GRAIN AND WAREHOUSE COMMISSIONERS.

The report of this Board contains many facts that will be of service to the Legislature in considering the question of grain inspection and grading. An interesting appendix gives reports from various committees appointed by mass meetings of farmers held at various points in the territory, together with a number of interesting tables. In another place I have spoken of the Grain and Warehouse Board, and indicated what in my judgment, should be done to make it effective.

TERRITORIAL BOARDS.

I suggest that the law relating to the per diem of var-

ious officers connected with public institutions be made more explicit. It is desirable that the auditing officer should be free from all perplexity regarding the intention of the Legislature, and also from the responsibility of interpreting laws of doubtful meaning. It is also desirable that the meetings of the various boards should have some limit as to number, these meetings in some cases having been held so frequently as to suggest the fear that they have been held unnecessarily. The amount paid to the various boards for per diem and mileage since the last meeting of the Legislature, is over \$20,000.

TERRITORIAL LIBRARY.

The library now belonging to the Territory comprises upwards of 7,000 volumes and is rapidly growing, a large number of law reports and works of reference being received each year. It is time suitable rooms were assigned to it and a librarian appointed who will arrange and care for the books and aid persons in securing such works as they wish to examine. Of course the whole time of such librarian will not be occupied, and this duty might be assigned in connection with other work, but the arrangement and care of the library should be the first object.

PUBLIC LANDS WITHIN RAILROAD LIMITS.

There is a widespread feeling in the northern part of the territory that the government lands lying along the Northern Pacific railroad, within what is known as the railroad limit, ought to be placed on the market at the regular government rate of \$1.25 per acre. Such action has been taken by Congress in other cases of reserved lands, and there seems no good reason why it should not be done in this. The government is not a speculator and railroads are not built to enhance the public revenue, but to open up the country to settlement and cultivation. The Legislature will be asked to take some action, by memorial or otherwise, regarding this question, and I cordially commend the object to your favorable consideration.

EXAMINATION OF PRIVATE BANKS.

Up to July, 1883, the private banks of the territory had to make returns to the United States Collector and were subject to examination as often as the officials thought necessary. Since these reports ceased, there has been no way of determining the standing or condition of private insti-

tutions of this kind, our own laws making no provision therefor. I call the attention of the Legislature to the matter, both in the interest of sound and reliable houses of this kind, who will esteem it an advantage to have their condition known, and in the interest of the people at large, to whom such knowledge would prove a protection.

SCHOOL OF MINES.

It has long been thought that our educational system should be supplemented by a School of Mines, to be established in the great mineral regions of the Black Hills. The industry which contributes from eight to ten millions annually to the precious metals of the country is worthy of development, and deserves your fostering care and encouragement. I am not prepared to recommend a definite plan, and any action that may be taken must, for various reasons, be initial merely; but if a beginning can be made and a school or a department in some existing institution established, which shall finally grow into magnitude and importance, the welfare of the whole Territory will be advanced.

I have been requested also to call the attention of the Legislature to the advisability of providing for a Territor-Geologist, it being deemed important to begin the work of a geological survey.

AMENDING INCORPORATION LAWS.

It has been represented to me by certain persons of standing and prominence in the Territory that the general incorporation laws of Dakota do not entirely cover the organization of street railway lines to be run under the sanction of city governments. It is thought that a number of such companies may desire to perfect organization soon, and I suggest an examination of this question, with a view to such legislation as may cover the case, and which will carefully keep inside the powers granted by the organic act. It may not be improper to add that the experience of communities East shows a necessity for prudence in framing laws upon this subject, and that an abundance of safeguards for the protection of the citizens against imposition and extortion will be wise and timely.

AMENDMENT OF INSURANCE LAWS.

The Insurance laws of the Territory should be amended. Section 23 of said law requires a deposit on the part of for-

eign insurance companies of twenty-five thousand dollars with the Territorial Treasurer before any business is transacted. I understand that the insurance companies very generally concluded to abandon the Dakota field when this law was enacted, refrained from doing so when section 46, which seems to apply only to Boiler and Accident insurance companies, and which permits the twenty-five thousand dollar deposit to be made in the State where the company is organized, was interpreted by the Auditor to apply to all companies, fire and accident alike. This interpretation may seem strained, but examination will show the meaning to be somewhat ambiguous and it is quite possible that a rigorous adherence to the provision of section 23 would have resulted in the hegira of companies doing business here and proved extremely annoying, if not disastrous to the property interest of the Territory. One company, acting under the advice of counsel who thought it would be liable to the penalties prescribed, notwithstanding the interpretation of the Auditor, retired from the field, and still remains outside. They say, "Having endeavored to honestly obey the law we think we are entitled to protection. If the law means nothing it should be repealed, so that companies disposed to respect the acts of your Legislature will not be debarred by conscientious scruples from doing business in Dakota." Finding this state of affairs existing upon my arrival in the Territory I did not try to secure any change, the interests of the people seeming to point to a continuation of the interpretation of the Auditor until the Legislature assembled. It is of course important that this condition of affairs should not continue longer than is absolutely necessary, and the law, if not radically changed, should be amended so as to admit of no doubt of its meaning.

THE CAPITOL BUILDING.

The Commission appointed by the last Legislature notified me on the 16th of November last that the Capitol Building provided for by the act of the Legislature was ready for occupancy, and in obedience to the requirements of the law I issued a proclamation reciting that fact. Under the terms of the law the Commission is required to report directly to the Legislature. A few facts and suggestions, however, may be given here.

The Commission report the total cost of the present building, exclusive of the pay of the architect, the Com-

missioners, etc., to be \$145,000. They have received from the sale of lots \$38,000. The whole number of lots belonging to the fund was originally 1,009, appraised at \$123,415. Seven hundred and fifty of these lots remain unsold, beside 160 acres of land adjoining the townsite south of the city. I am informed that the Commission owe on the building, and for divers services performed, about \$20,000. This does not include the heating and furnishing, which the citizens of Bismarck do not regard as coming within their contract to erect a Capitol building. The appraisement of the real estate, conveyed to the Territory by the city of Bismarck, was made at a time when property values were high. When the times became less prosperous this property would not sell at the price fixed by the Commission; and as there was no authority of law for a revaluation or selling at a figure below the minimum appraisement, the Commission found themselves embarrassed for lack of funds, hence the debt of \$20,000 alluded to.

I advised the commission to issue warrants on the Building Fund for this amount, but there being no balance in this fund, of course the creditors must wait. The real estate named is the property of the Territory. It was intended to be disposed of to pay for the erection of this building. The fact that it has depreciated in value is a misfortune, but it does not alter the obligation entered into to pay the men who contributed time and material toward the structure and to pay them promptly. I am told that some of this amount is due to laborers who depend on their daily earnings to support their families. It may involve a sacrifice to sell the property now, and some of the creditors may feel disposed to wait, but they should not be compelled to do this under protest. They did their work in good faith. They knew only the single fact that a legislature of the Territory had authorized the work, and relying upon this authority they went forward. The act of one legislature may be overturned by a subsequent one, but the faith and credit and reliance that the outside world place in the law-making power should not be shaken by any failure to comply with contracts honestly performed under the color of law and under the direction of those chosen to administer it. I recommend therefore that the legislature confer upon the present or any future commission that may be appointed, the power to re-appraise and sell the lands remaining to the Capitol Commission, and

pay their debt. As I have said, the heating apparatus is not included in the debt of \$20,000. The steam, of course, takes the place of stoves, except that so large a structure could scarcely be made comfortable with the latter. The property remaining unsold ought to be amply sufficient, and will be, I doubt not, under proper management, to pay all the debts including the expense of lighting, heating and furnishing. Such expenses, however, as properly belong to the Territory should be liquidated by the legislature with the provision, if thought best, that the amount be charged to the Building Fund and paid out of the future sales of real estate. I take occasion to say here that the lights and furniture placed in the Capitol are not furnished under any contract or stipulation, but are here simply for the inspection of the legislature and for their use if they wish to secure them. So far as I know, no assurances of purchase have been given to the firms that have undertaken the work, and the legislature can consider the subject without the slightest embarrassment growing out of any promises, though I hope with perfect justice and fairness. I may say further, because the subject has been discussed somewhat in the newspapers, that I understand this building to be the free gift of the people of Bismarck to the Territory. I have accepted this assurance in good faith and with no thought of any mental reservations or evasions. I am sure the thought of asking for any return of the money expended has not entered the minds of the donors, and that no scheme or device for such return is contemplated; and I hope, I need scarcely assure this legislature and the people of the Territory, that, relying on the terms of the law, under which this work was undertaken, no measure for repayment will meet with the approval of the Executive while I occupy the office and Bismarck remains the Capital.

PARDONS.

I have granted two pardons. On the 23d of December I pardoned William Decker and Joseph Young, who were convicted of "robbery by two or more persons," and on the 21st of April, 1880, were sentenced to imprisonment for life. I was impelled to do this by the fact that the men had served nearly five years, that their conduct had been good, that the amount was small, but \$53, that the principal offender escaped by turning state's evidence, that the presiding judge at the trial, the district attorney, the

sheriff, clerk of court, all the jurymen who could be found, the present district attorney, county commissioners, and many prominent citizens of Burleigh county, where the men were convicted, joined in a request for their release.

The following pardons were granted under the administration of my predecessor, as appears from the records of this office, the list being furnished in obedience to the requirements:

THE NEW ORLEANS EXPOSITION.

Almost the first matter that required my attention after assuming the duties of the Governor's office was the question of representation at the New Orleans Exposition. It seemed very difficult to go into the exhibit and equally embarrassing to stay out. Every state and territory in the Union was to make a display more or less elaborate, and for Dakota to attempt to compete without making a show commensurate with her importance appeared as undesirable as to make none at all. On the other hand there was no appropriation available, times were hard, money scarce and a general disposition to economize as much as possible. Finally a circular letter was issued from the executive office recounting the facts and asking the various counties of the Territory to contribute in their discretion a sum which in the aggregate would enable the commission to make a creditable display. The circular letter was issued in time to permit the question to be submitted to a vote of

the people of the various counties, should the commissioners deem such submission advisable or necessary. The boards which acted upon the matter decided generally, I believe, without referring it to a vote, and in many cases where the decision was against the appropriation or there was doubt as to the power of the county board to pass the matter, contributions were made through the enterprise of private parties who guaranteed notes in amount proportionate to the allotment of their respective counties. With this guarantee and the amount allowed the territory by the managers of the Exposition, work went forward. Relying somewhat on the fact that the Legislature of 1882 appropriated \$20,000 for the proposed World's Fair in New York, which appropriation was never drawn owing to the failure of the contemplated exhibition, and strongly impressed with the importance of Dakota being represented at New Orleans, I approved the plan and lent it such encouragement as was in my power. The result is a display which I am informed is at least fully equal to that of any territory, and which is surpassed by few if any of the states. It is but fair to credit whatever of success has been achieved in this direction to the untiring energy and patience of Commissioner McKenzie and his able assistants, Messrs. Melvin Grigsby, of Sioux Falls, and R. E. Fleming, of Fargo, who have worked faithfully, continuously and under many discouraging circumstances to perfect this display. The details of what has been done and the expense incurred will be presented in a report of the commissioner to be transmitted later. He thinks that an appropriation of \$25,000 would enable him to enlarge and perfect the display until it would not be surpassed by anything at the exposition. The expense of collecting and transporting the large amount of material has been great, and I do not doubt but that the amount named would increase the attractiveness of the exhibit, but it is already of a character to reflect credit on the territory, and I am unwilling to recommend more than was set apart for this purpose by the Legislature two years ago. I hope, however, that the amount of \$20,000, or so much thereof as may be necessary, will be appropriated, a full report of all expenditures to be made to the Legislature, and if it is found impossible to completely close the accounts before the adjournment of the present body, to a subsequent Legislature. The Hon. W. H. McVay, territorial treasurer, and A. R. Brown, Esq., of Canton, were designated by me to act temporarily in conjunc-

tion with the commissioner appointed by the president as a board of control and audit. It would be well now for the Legislature to provide for such officials as may be deemed advisable who shall serve until the close of the exposition and the final settlement of all accounts.

A pamphlet has been prepared for distribution at the exposition and elsewhere, 50,000 copies of which will soon be issued. The book is far from complete or satisfactory but it will enable the various officers of the Territory to respond in some degree to the many calls made upon them for information and will thus answer until something better is at hand.

GRAIN AND RAILWAY COMMISSION AND AGRICULTURAL AND IMMIGRATION AGENT.

The territory needs an effective grain and railway commission; it needs an agent of immigration, and it needs an agricultural bureau. The grain commission provided for by the last Legislature amounts to very little practically, not because the agents appointed to that board have not been willing or competent, but because they are provided with no adequate means to carry out the necessary improvements. The question of securing a fair grading of grain, and reasonable facilities for transporting it to market, is one of much moment, and one beset with many difficulties. The matter has been widely discussed, and has no doubt secured the careful consideration of many members of the legislature who will have measures of relief to propose. I need not dwell on the importance of a change in the present condition of affairs. Such a change has become an absolute necessity to the growth and continuance of an agricultural industry. I am glad to learn that the legislature of Minnesota is disposed to co-operate with the legislative department of this territory in an effort to devise means for the relief of the people of both sections, and I hope committees of conference may be appointed by the two bodies, and that their deliberations will bear satisfactory results. If our present grain commission, reorganized and clothed with larger powers, can be of service in this connection you will doubtless see fit to continue it. As constituted under the present law, however, it might as well be abolished. The advantage of having an agricultural agent for the Territory is apparent. Dakota is pre-eminently an agricultural region. No body of men is more

fairly entitled to representation in 'the' territorial government than the farmers and stock-raisers. Information regarding the condition of the crops, the acreage, aggregate and average yield, experiments with various seeds, success with diverse crops and manner of cultivation, and many other matters upon which it is desirable to have full information are now unobtainable in anything like a reliable form. Experience with crops in other states, even those immediately adjoining us, is in many instances partially or wholly inapplicable here. The country and the conditions are new. Success with any given crop in the Territory, cultivated in a given way or with some new variety of grain is a matter of great importance to the farmers of the Territory, and all information on this subject ought to be speedily gathered and widely disseminated. I earnestly hope that provision will be made for the appointment of such an agent, and that whatever appropriation is needed to make a bureau of this character effective and of signal service to the farming interests, will be promptly furnished.

The states about us have commissioners of immigration and find them profitable adjuncts to the state governments. There is certainly as much, and it seems to me more room and reason for the employment of such an agent in Dakota, than in any of the neighboring states. The creation of three boards to look after the three interests named seems hardly justifiable and scarcely necessary. But it has occurred to me that the three departments, so closely allied, might be united under one effective board through which the entire business could be transacted. If these three interested can be grouped together, each with a member especially adapted to one of the departments named, acting separately in their collection of data, etc., but together in their final action on questions of moment, it might prove to be an economical as well as practical arrangement.

I believe that it is the experience that one board properly constituted, with business enough before it to keep its members employed and fairly paid for its services, will accomplish more than half a dozen, assembled at long intervals, possessing little authority and handicapped by the fact that their own private business must suffer while they give their time to the public, practically without compensation.

Difficulties may be found in the way of practical appli-

cation of this suggestion, and I shall only be too glad to have a better way pointed out to gain the end in view.

ORGANIZING COUNTIES.

The organization of new counties is beset with many difficulties. I believe that many of these difficulties can be avoided by an intelligent amendment of the law. When fifty voters petition for the organization of a new county the Governor is required to appoint Commissioners. The number is too small. At least one hundred ought to be required. Again, if there is any valid reason why voters in a new county should not choose their own Commissioners, decide upon their own county seat, and generally enjoy the privileges, and responsibilities of their fellow citizens in other counties, I do not know what that reason is. Surely there is nothing in the organic law to prevent. If provision were made authorizing a special election to be called on the petition of one hundred persons possessing the qualification of voters, and surround such special election with safeguards to insure a fair vote and an honest count, I believe the interests of all parties would be served. At any rate the present law demands some rational amendment. It is simply impossible for the Executive to avoid committing frequent mistakes, and he is liable to commit grave errors under the statute as it now stands. I have appointed commissioners for but two counties since my term of office began. These are McIntosh and Buffalo, the latter with much doubt as to the wisdom of organization. The statute leaves the Governor no discretion, however, when satisfied that fifty of those petitioning are voters. I have required sworn evidence that those asking for organization possessed the qualification of electors; but it still follows that fifty persons may secure the organization of a county if the law is obeyed, though one hundred and fifty persons in the same county protest against it. It is desirable that new counties be organized as fast as they possess the necessary population, but the minimum number now required should be doubled at least. Various difficulties and complications exist in some counties organized in the past year or two. In certain cases the people complain that the commissioners have not done their duty, and these cases demand attention and such remedy at your hands as can be applied and which seems advisable. In some of these cases I presume justice would be advanced by undoing the work of organization, if the power exists, and taking the task of reorganization into your own hands.

A number of local quarrels, growing out of the permanent location of county seats, have arisen, and in two instances I have been called upon for assistance to protect the officers of the law in the discharge of their duty.

THE TROUBLE IN SPINK COUNTY.

On the 10th of December I received a dispatch from the Mayor of Redfield, Dak., announcing that the county records of Spink county were in the hands of the Sheriff, and all persons had been enjoined by the Judge of the District Court from removing the same; that Redfield had been besieged by an armed mob of five hundred men and was in great danger of being burned and all the public records destroyed, and he asked that assistance might be given.

The statutes of the Territory require the Governor to furnish aid when required to suppress riots or disorders. Section 6, of the Militia Laws, authorizes him to order out such force as may be necessary, while section 46, of the act relating to riots, declares as follows: "If it appears to the Governor that the power of the county is not sufficient to enable the Sheriff to execute process delivered to him, to suppress riots or to preserve the peace, he must, on application of the Sheriff or Judge, order such a force from other county or counties as is necessary." Section 47 declares that under the facts and circumstances mentioned in the last section, and when the civil power of the county is not deemed sufficient, it shall be the duty of the Governor to apply to the military authorities of the United States for a force sufficient to execute the laws and prevent resistance thereto, to suppress riots, execute process and to preserve the peace. These sections seem to be slightly inconsistent, but taken together they appear to require the Governor so call upon the United States authorities only after exhausting the power of the county or counties. Inasmuch, however, as the militia of the Territory were newly organized and had not yet been furnished with ammunition and supplies, and there was some doubt as to their ability to move promptly, I took the precaution to ask the General Commanding the Department of Dakota if he could send a company of regulars to Redfield. At the same time I directed Col. N. N. Tyner, of the Governor's staff to notify the militia at Fargo to hold themselves in readiness to proceed to the scene of disturbance, and sent a like order to the Governor's Guards, Bismarck, and the

Edgerton Guards, Yankton. In reference to my call upon General Terry, I received a reply saying that my inquiry had been telegraphed to the Headquarters Division of Missouri for instructions, and that the answer would be sent as soon received. Meantime, I sent to the Mayor of Ashton, Spink county, whose citizens were reported to be much excited, the following dispatch: "Will not the citizens of Ashton retire to their homes and permit the law to take its course? It is much better so. Please give me this assurance."

I also asked the Mayor of Redfield to telegraph the exact situation. After waiting six hours and receiving no reply to those telegrams and no further answers to my calls upon General Terry, I directed the Fargo companies to take a train for Redfield. The next day, the 11th, I received a telegram from the Mayor of Ashton declaring the people of that city were not armed and had not been, and though indignant over the removal of the records, contemplated no hostile movement. I also received word from Redfield that all was quiet, though an attack was momentarily expected. In view of all the facts I ordered Col. Tyner and his command to halt at Ortonville and sent the following to the Mayor of Redfield: "I am assured by the Mayor of Ashton that the people of that place are not armed and have not been, and that they contemplate no act of lawlessness. Unless I receive further demands from yourself and the sheriff, I shall stop the troops now en route and direct them to return home in the morning."

In answer to this I received the following: "We believe that the only sure way to prevent the loss of life is to send troops at once. We are receiving reports from reliable sources that the excitement is increasing hourly. The troops will hurt no one and may prevent bloodshed.

[Signed]

"D. H. HUNT, Mayor.

"ARTHUR LAWRENCE, Sheriff."

Upon this renewed appeal I directed Col. Tyner to proceed and report to the sheriff at Redfield. Believing that the militia thus sent would prove sufficient, and ascertaining that I could promptly re-inforce them, I also telegraphed Gen. Terry that no regulars would be required. Later in the day I received a telegram from Adjutant General Breck, saying that General Terry, temporarily absent from Department Headquarters, instructed him to say that he could not furnish troops.

Inasmuch as the prompt movement of the militia seemed to obviate all necessity for calling further upon the federal authorities, and as I had already recalled my first application, or inquiry, I did not pursue the matter. The companies arrived in Redfield Saturday evening and remained there until a settlement was effected under the order of the court Monday noon. I have heard nothing but praise of their conduct and the impartiality of their bearing is evidenced by the fact that while in the city of Redfield the citizens thanked them, and the citizens of Ashton tendered them special hospitalities on the eve of their departure home.

It is very difficult to know what to do under calls like that received. The Governor must depend for information as to the emergency upon those more or less excited and who are apt to inadvertently magnify the danger, and may therefore take steps which the sequel proves to have been unnecessary. On the other hand to leave such a call unheeded would be to assume a grave and perhaps unjustifiable responsibility and render him liable to deserved censure should loss of life and property result from his neglect, when the danger appeared imminent. In any case I could scarcely have refused assistance in view of the reports which reached me from unofficial sources and the call made upon me by duly constituted officials. I feel some measure of pride that the necessary force was furnished without aid from the general government, and that even had the emergency been much greater the organized militia of the Territory would have proven sufficient. The bills incurred on this expedition will be presented to you and I respectfully ask that an appropriation be made to cover the expense, and that the Auditor be instructed to draw his warrant for the payment of such demands as appear just and reasonable. The men composing the Fargo militia are persons engaged in business and could only leave their homes at a pecuniary sacrifice. I trust the Legislature will see the justice of paying the officers and men for the time necessarily spent on the expedition. I transmit in this connection the names of those serving, the report of Col. Tyner in charge of the detachment, and a full record of the correspondence relative to the affair. Perhaps the general government, in view of the fact that Territories are hardly expected to take care of themselves, may feel disposed to assume these obligations and relieve the Legislature.

THE ROBERTS COUNTY TROUBLE.

Hardly had the militia returned home when a difficulty of the same general character arose in Roberts county. I received pressing calls for assistance, but believing the danger magnified I declined to incur the expense necessary to the sending of troops until first satisfied that the "power of the county" was insufficient to maintain order. I requested Adjutant-General Free, however, to proceed to Travare and Wilmot, the rival towns, and while ascertaining the necessity, if any, for assistance, to use his best efforts to preserve the peace and secure a quiet settlement of the question in dispute. As a result the sheriff's posse and those confronting or defying it were disbanded, and quiet has since been maintained. The origin of these quarrels, or the manner in which they shall be determined, are questions which do not come before me for judgment; but it may not be uninteresting, in case the Legislature desire to investigate the matter, to read the report of the Adjutant General, which is herewith transmitted. The correspondence in the case will also be found with General Free's report.

It is unnecessary for me to say to the Legislature that in the organization of so many new counties such outbreaks as these are liable, and even likely to occur frequently unless decided measures are taken to put a stop to them. The trouble in almost every instance grows out of the rivalry of two or more towns, each of which is determined to become the county seat. The passions of men are aroused, they involve a county in debt, excite animosities that will long outlive the trouble which inspired them, and finally lead to acts of lawlessness which disgrace the Territory and lay the promoters and participants liable to indictment for felony. The law is stringent enough. Its energetic and even merciless enforcement in one or two cases as an example is what seems to be required. Men must be taught that it is not an ordinary crime to break down the doors of buildings wherein the public records are stored and plunder the safes of county officers. It might seem severe to enforce such a penalty against men provoked by great aggravation to a forcible removal of public property and I appreciate fully the circumstances under which these disturbances have arisen, but severity is needed to put a stop to what has grown to be a dangerous defiance of law, and to what, if longer tolerated, will

•assume dimensions difficult to curb or manage. It is better that a majority of voters in a county should wait even the slowest action of the courts, than that the law should be defied and the official records endangered. Not alone the county engaging in these unfortunate quarrels, but the whole people of the Territory suffer because of the lawlessness of the few. The community must look to the courts for protection, of course, but I wish to declare emphatically that whatever measure of duty falls to my lot in the suppression of these scandalous outbreaks, will be performed as promptly and decisively as is consistent with that care and circumspection required of the Executive.

In the report of Colonel Tyner, the propriety and justice of assessing the cost of suppressing these riotous demonstrations against the counties permitting them is discussed.

After careful reflection I am disposed to submit this question to the Legislature without recommendation. It is certainly unjust to ask the law-abiding people of the Territory to pay for the wrong doing of less peaceful citizens, and it is quite likely that the lesson given by the imposition of such a tax would prove salutary, and act in a measure as a prevention of future outbreaks. The levying of such a tax, however, will form an important precedent. It is one that must be followed in subsequent cases of disturbance, no matter what the facts or inciting causes, or otherwise charges of partiality will follow. I am not entirely clear as to the power to levy such a tax, and have not had opportunity to make sufficient inquiry on this point. For these reasons I prefer to leave the question to such careful consideration as the Legislature may give it, satisfied that the conclusions arrived at will be wise and prudent.

THE MILITIA.

In this connection I wish to call the attention of the Legislature to the militia laws of the Territory which require amendment to make them effective and thoroughly practicable.

The law requires the Adjutant General to perform various duties, to keep extensive records and forward certain returns to Washington. He is the only person in any way authorized to act as the custodian of arms and accoutrements, and this authority is limited and is to be gained by inference rather than by direct grant. It is not necessary

in my judgment to devise any elaborate plan for militia organization or to incur any considerable expense in the maintenance of military companies, but we cannot ask the Adjutant General to contribute of his private means as well as of his time, to carry out the requirements of the law. I therefore recommend that there be appropriated for the expenses of this office \$1,000 annually. This sum to cover the necessary expense of traveling, storing and caring for arms and accoutrements, procuring and keeping the necessary records and blanks, and for such other expenses as properly and legitimately belong to his office. There are several boxes of arms at Sioux Falls, sent to the Adjutant General by my predecessor and for which the former had to secure storage. He finally succeeded in obtaining a room in the Penitentiary which was not immediately required for prison purposes, where they remain for the time being. For several reasons it is not a proper place to keep them, even if the room was not needed for prison purposes, which it soon will be. I also recommend that a small sum be appropriated for uniforms and for the rental of armories for each of the various volunteer companies regularly mustered into the Territorial militia. Even if this appropriation be but a fraction of the expense incurred by such companies, it will be a recognition and will relieve them in some degree from what is now a considerable burden. It should be remembered that under the law every able-bodied citizen of the Territory, between the ages of eighteen and forty-five, is required to be enrolled in the militia and that all such persons are subject to call in case the volunteer companies are insufficient to meet an emergency. Organized and active militia therefore are not only convenient in case of trouble but they save other citizens from the annoyance of a demand upon their time and services and are a protection to those subject to call as well as to those threatened with disturbances.

The law also provides for an annual brigade muster and encampment of all the volunteer militia of the Territory, continuing not less than two nor more than four days. Unless some provision be made for the transportation and subsistence of such companies, it is obvious that the law must remain unexecuted. I leave the question of what should be done under these circumstances to the discretion of the Legislature.

There are six companies in the Territory that have been mustered into the service for two years. There are several

more organized, one or two of which are uniformed and equipped. The others are awaiting arms and muster.

The guns at present in use by our militia were secured by my predecessor from the War Department, he giving, as I understand, his personal bond for their safe keeping and return when demanded. I ask the Legislature to authorize the Governor to execute a bond in the name of the Territory, for such arms and any others which it may be necessary to secure, requiring him in turn to take a good and sufficient bond from each company to whom such arms shall be issued.

THE QUESTION OF ADMISSION AND DIVISION.

I suggest that steps should be taken by the present Legislature to acquaint Congress, through a memorial or otherwise, with the true sentiment of the Territory regarding admission and division. The members of the General Assembly are fresh from the people. Nothing except the individual expression of the people themselves at the polls could be so reliably indicative of their sentiments and desires, as the public expression of their chosen representatives. The very wide attention which the subject of admission and division is attracting, and the fact that it has been deemed of sufficient importance for comment in the message of the Governor of the neighboring state of Minnesota, who alludes with great kindness to the merits and desires of the people of the Territory, induces me to refer to the question in this communication.

The Territory either as a whole or divided is populous enough, even if the maximum of population hitherto required is demanded, for the formation of a state government or governments. Of course if precedents are to be ignored and new conditions attached to Dakota we may not only be unable to get into the Union now, but may remain out indefinitely. But I believe, that with a full knowledge of our population, resources and development, Congress will at least afford the Territory an opportunity of joining the sisterhood of states. Whether an offer of this character, which contemplated admission without division would be accepted by the people is not for me to declare.

I do declare this, however, that it is more important that Territories be divided as their people desire than that their boundaries should be fixed by strangers who are liable to

misunderstand their necessities. A happy Union is made up of willing members, and contented communities make prosperous states. But nothing could be more entirely conclusive as to the desires of the people of Dakota than an opportunity to vote upon the question of admission in any form that Congress may submit it. Whether they accept or reject the proposition, the opportunity to do the one or the other should be afforded them. It is easier to decline an honor than to accept a wrong.

There were 86,703 votes cast in the Territory at the recent election. There are one hundred and thirty counties in the Territory, but only seventy-eight were organized in time to hold an election in November. That the number of persons in Dakota possessing the qualification of voters aggregate one hundred thousand will be disputed by no one, I think, familiar with the facts. That these voters are not transient persons is evidenced, first, by the fact that nine months' residence is required under our laws as a qualification of suffrage, and by the further fact that the returns made under the law by the school officers to the Superintendent of Public Instruction show that in sixty-five counties out of the eighty-five organized (all that have furnished census returns) there were on the first day of June, 1884, 77,499 children of school age (seven to twenty years).

The presence of the family proclaims the absence of the adventurer.

The assessed value of property for the year 1884 is over eighty-four millions of dollars, and the receipts of the treasurer of school corporations alone amount to over \$1,600,000. The total expenditures of the whole Territory for educational purposes, beginning April 1, 1883, and ending June 30, 1884, were nearly \$2,000,000.

I might make comparisons which would exhibit the Territory in a most favorable light beside many old and well settled states, but this need not be done. The one fact that so large a sum was expended for common schools dispels the notion that the population of this Territory is in any manner fictitious or that the country is not peopled by honest voters who abide in honest homes.

That there were illegal votes cast here and there in the Territory is very likely, but though party lines were not drawn to any extent in choosing local officers, nearly every county and district passed through an exciting contest

where the qualifications of voters were as closely scrutinized as in the older states east. It is a well known fact also, that there is no such opportunity for fraudulent voting in sparsely settled country places where every man is known to his neighbors as in the large cities where strangers come and go unnoticed. Any surmise, therefore, that the vote cast in Dakota was to any extended degree fictitious is entirely erroneous.

The citizens of Dakota have as deep an interest in the government of the country as the citizens of the states. The same laws govern them and the same taxes are imposed upon them. They would be voters if they resided there—were voters before they emigrated to the west. It is difficult to see why they were qualified to take part in the affairs of the nation while living in New Hampshire, Delaware or Vermont, but became unfit to be trusted with this responsibility the moment they crossed the line which bounds Dakota.

If the 146,000 people of Delaware, the 346,000 of New Hampshire, or the 332,000 of Vermont were to remove in a body to Dakota, would it seem fair to deprive them of all lot or part in the management of public affairs? But what is the difference between this and the disfranchisement of men from all these states and many others who go to make up the population of the Territory?

The disqualification does not come from lack of numbers because our population is numerically greater than either of the states named.

It does not come from lack of property qualification, for that test of citizenship is not required, and if it were, would be fulfilled.

It does not come from the existence in our statutes of any enactment at war with republican government or offensive to an enlightened Christian sentiment, for our code is free from such blemishes, and exists and is in force by the approval of Congress.

It does not come from lack of educational privileges for the territory stands in advance of twenty-five of the states in the amount it has contributed in the last year for public schools.

What then is our disqualification? It cannot be that suffrage is to be considered a privilege of longitude and yet wherein do we show any lack except a geographical shortcoming.

The ordinance of 1787 provided that territories should be admitted as states when the population reached 60,000, and might be admitted with less; and although Dakota is not a part of the Northwest territory therein described, yet the Congress has applied its wise and patriotic provisions to the region afterward acquired, and has recognized the vast region which is now the West, as coming under that salutary and beneficent enactment. We have six times the population as a maximum number necessary to admission. We have 2,000 schools and a half-dozen higher institutions of learning. We have permanent and costly structures erected for benevolent and penal purposes, and all built by the territory without the aid of the general government.

It is the policy of the nation to encourage the settlement and development of the public domain. Generous laws have been enacted and many inducements given to open this wide region to civilization. I submit that this liberality of the general government in granting free homes ought not to be defeated by an illiberal exclusion of those privileges of self-government which like many others grow dearer when they are denied.

With all this it is not wise to look upon admission as the *ultima thule*, the open gateway to everything desirable. We are liable to magnify the advantages of admission as well as the disadvantages of exclusion.

The machinery of a state government is expensive and for this reason the sentiment that a territory should be fully prepared for statehood before admission is one to be commended. The territorial tax of Dakota is light and its general expenses do not approach those of neighboring states of about the same and smaller population. For the two years ending November 30, 1884, the expenditures of the territory, including interest on public debt were but \$597,025.61 and over \$292,701.28 of this amount went toward the erection of public buildings. For the same period Colorado expended \$1,158,949.14. Nevada expended during 1883, \$571,931.83 with no outlay for buildings and with a population of but 62,000, and New Hampshire spent \$1,016,217.44 with no expense for public improvement. The States of Minnesota, Nebraska and Kansas far exceed these amounts, showing that the inevitable result of statehood is largely increased taxation.

There are benefits to be derived from admission, however, which should also be considered. More speedy jus-

tice would be secured in our courts, the present number of our judges being insufficient for the business before them. With votes in Congress, some attention would be paid to improving our water ways, so necessary to the development of the country. If precedent is followed, Dakota would be entitled, on admission, to a per centage on the sale of public land within her borders, which would largely increase her revenue. I am informed also that the credit of the territory suffers because of her exclusion from the Union. Those who have negotiated our bonds announce that such as have sold at par would have readily commanded a premium had Dakota been a state.

But aside from the financial advantages to accrue, there are the accompanying rights of self government dear to every community of American citizens. Among these is the power of the people to choose their own rulers and to determine who shall administer their affairs. Such a sentiment does not grow out of any narrow-minded exclusiveness. It does not mean that all are not welcome to Dakota where all are so new and the field is so large, but it is a part of that natural and independent spirit which the fathers have transmitted to us, and which can be easily understood and appreciated by the country.

There are plenty of people all over the land who have witnessed the marvelous development of this territory with pride and admiration, and whose hearts beat quicker at this grand illustration of the possibilities of a new state growing up under the fostering care of the great republic. They are not residents but neither are they strangers to you. They have appreciated your trials and rejoiced in your success. I came to you myself from another state, yet I did not feel alien to this people, and where disappointment might have been natural, they accepted cheerfully the action of the constituted authorities and exhibited a laudable desire to co-operate with me in whatever seemed necessary to the furtherance of the public interests. But the day of tutelage is past. I realize fully that the time has come when the people of Dakota should speak and act and decide for themselves; and I cannot but believe when the Congress of the United States fairly understand, as one who resides here must understand, the justice of heeding the appeals of this great Territory, a prompt, cordial and general recognition will be extended to her. Till then it is our part as good citizens to abide in peace and patiently

await the action of the government. I am sure, however, that Congress will listen with that respectful consideration which each member of the national body expects to receive for his own people to the candid representations of this legislative assembly, speaking by the authority of the people of the Territory and asking justice at the hands of the Union they honor and obey.

NECESSITY FOR ECONOMY.

It will be necessary to use care and economy in the appropriations to be made. Communities like individuals should retrench their expenditures when their income decreases. The times are hard, and it is feared that the revenues for the present year will be seriously reduced. Our public institutions must be fairly supported of course, and if additions are found necessary, provisions must be made for them; but a consideration of the universal financial distress and the unprofitable returns which have greeted the toil of all classes for the past twelve months will show the necessity of cutting down expenses to the lowest practicable points and should make us hesitate about undertaking new and expensive ventures which it will be difficult to meet.

I need scarcely remind the Legislature that we are at a critical period when harmonious, dignified and well considered legislation will do much to advance the interests of the Territory. You are in the main of one political faith. It is meet that you should be one of the important work before you also. The unfortunate disagreements of the past have injured the Territory seriously. No member of the Legislature can fail to realize this. Our quarrels, whether of the town, the county or the Territory seem to be taken up and magnified a hundred fold all over the land. I ask the members to use all possible forbearance in the proceedings of the session now begun to the end that the whole people may be benefitted and the whole Territory exalted. You compose probably, the last Legislature which will assemble in Dakota as at present comprised. I hope and believe you will adjourn, conscious of work well done and with the thanks and plaudits of your constituents.

GIDBERT A. PIERCE,

Governor of Dakota Territory.

At the conclusion of such reading the Governor and Council retired, and,

On motion of Mr. Williams
The Joint Session of the House and Council was dissolved.

Mr. Williams moved

Under the regular call of business, Mr. Ruger presented a petition from citizens of Towner county, Dakota, representing that said county was not included in any legislative district, although organized prior to the apportionment made by the legislative assembly, and asking that their chosen representative be admitted to the privileges of the floor, and be paid a per diem. The petition was accompanied with a certificate of election, issued to one Dwight W. Ensign, by the clerk of Towner county, together with communications from A. C. Mellette and Dwight W. Ensign.

The committee have in a body personally visited every printing establishment in the city. They have not asked for bids from any one outside of Bismarck, for the reason that immediate publication for early distribution makes it necessary that the work be done here. Two bids have been received, coming from the only offices having facilities at the present time to undertake the work. Said bids are hereto appended, and are hereby made a part of this report. The rates named in the bids are substantially the same, and appear to be based on the price paid by the government for its official printing. It is understood that the work, pages, arrangement, type and quality of paper, etc., are to be substantially the same as found in the sample of the Minnesota Journal for 1885, hereby referred to, and hereby annexed.

All of which is respectfully submitted.

REPORT OF THE COMMITTEE ON ELECTIONS.

MR. SPEAKER:

Your committee on Elections, to whom was referred the petition and application for recognition of Dwight W. Ensign, as representative from Towner county, upon the floor of the House, and for such power and privileges as may be conferred, beg leave to report:

That the committee have made a full examination in the facts, merits and law in the case, and while regarding the petitioners and said county as being unfortunate in having been deprived of the privilege of their legislative vote, to which they were entitled, and which appears not to have been granted, (owing to the creation of said county by the legislature of 1883, very near the close of the session, and after or about the time of the passage of the apportionment bill), deem the remedy prayed for to be such as this House can not consistently grant. The case does not, under all the circumstances, appear to be sufficiently aggravated to warrant the House in such a departure from the usual application of the law, as to establish what might prove a troublesome and perhaps dangerous precedent.

We therefore respectfully recommend that the petition be not granted.

V. V. BARNES,
E. B. DAWSON,
A. L. VAN OSDEL,
C. E. HUSTON,
P. J. McCUMBER,

Mr. Barnes, as Chairman of the Committee on Printing, presented the following report:

MR. SPEAKER:

Your committee who were authorized to arrange for the printing of 500 copies of the Journal of the House, daily, have instructed me to report as follows:

That the committee have arranged with M. H. Jewell, publisher of the Bismarck Tribune, for such printing, in accordance with the bill filed with previous report, except that, owing to inconvenience in getting type of the size shown in sample, there is a difference of $7\frac{1}{2}$ per cent. in the page, which has been duly allowed for by deducting such per cent. from the price, making the cost of printing \$1.85 (one and eighty-five one-hundredths dollars), instead of \$2.00 per page.

The duration of such arrangement and the manner of distribution are subject to the order of the House.

Dated January 16, 1885.

V. V. BARNES,
Chairman.

Mr. Blakemore moved
The adoption of the report.

Mr. Van Osdel moved
To lay the report of the Committee on the table.

The ayes and nays were demanded.

The roll being called, there were 8 votes in the affirmative and 39 votes in the negative, viz:

Mr. Speaker not voting.

So the motion was lost and the motion for the adoption of the report prevailed.

Mr. Martin, for the Committee on Rules, presented the following as the report of the committee:

The House Committee appointed to prepare rules beg leave to report, and respectfully recommend the adoption of the following for the government of the House of Representatives of Dakota Territory during the Sixteenth Legislative Session.

To the Speaker of the House, Hon. Geo. Rice:

HON. SIR: I would respectfully ask that you would grant me any position yet unfilled that is within your gift, such as janitor, mail carrier, etc. I have been temporarily employed in the building, but am at present unemployed, pending the action of the several houses in making their appointments. I served four years in the Fifth Wisconsin Volunteers, Company C, (from 1861 to 1865) from which I have an honorable discharge. I was wounded twice, and

draw a pension of \$4 per month and have a family of six to support. If you can consistently do me the favor I shall make an earnest effort to give satisfaction. Can give recommendations when desired. Trusting that you will take favorable action,

I am, yours most respectfully,

JOSEPH THEFAULT.

Which was referred to committee on Public Buildings.

Mr. Barnes, chairman of the special committee on Elections and Privileges, presented the majority report, viz:

MR. SPEAKER:

Your committee on Elections, to whom was referred the case of T. G. Anderson against E. T. Hutchinson, have instructed me by majority vote to report as follows:

That in pursuance of instructions from the House, the committee have examined into the returns, papers, testimony on file, and return of the sheriff, and have also examined all the witnesses present, and have arrived at the following conclusions:

That the service made by the sheriff, of notice of contest, was as complete as the circumstances permitted, the contestee purposely avoiding personal service. That due and diligent search was made by said sheriff for contestee and he was unable to find him, and was unable to serve such notice by leaving same with a member of said Hutchinson's family, for the reason that said Hutchinson caused the absence of said family and forbade return until time for service of said notice expired. That said notice came into the hands of said sheriff on the last day provided by law for service, a fact reasonably accounted for by contestant. That said sheriff left said notice under the door of contestee's house, having gone to such house twice and found the doors locked. That said sheriff returns that he was informed by a brother-in-law of contestee, that said Hutchinson had "lit out" in pursuance of telegraphic suggestion, which statement contestee desires time to disprove. That said Hutchinson had actual knowledge of the pendency of such contest, in due time, and that due personal service was made upon him of the notice of taking the depositions thereafter duly taken in said case, and that said Hutchinson was personally present at a time when the taking of said deposition was in progress, though probably under instructions of counsel he did not make an

intentional appearance in the case, and did not at any time prior to the session of the Legislature.

That according to the returns for Nelson county in said Legislative District in the office of the Secretary of the Territory, 198 votes were cast for T. G. Anderson and 227 votes for T. J. Anderson. That the County Clerk of said Nelson county returned to the Legislative Canvassing Board 317 votes cast in said county as "scattering," which 317 votes appear to include the above mentioned 227 votes cast for T. J. Anderson. That said returns made and filed in the Secretary's office appear to give evidence on their face of erasures and alterations decreasing the number of votes originally written therein as belonging to said T. G. Anderson. That no person named T. J. Anderson stood as a candidate before the people at said election, and no person of such name has been shown to have any existence in said district, and the evidence tends to show that no person of the name of Anderson, other than said T. G. Anderson, was a candidate for the Legislature in said Eleventh District, or received any votes therein. That the said votes cast for T. G. and T. J. Anderson were cast for the same person, and that said T. G. and T. J. Anderson are identical, and that it was the intention of the voters at such election to cast the ballots above specified for said T. G. Anderson and no other. That said T. G. Anderson in fact received a majority of 201 votes in said Eleventh District, in accordance with the less favorable showing made by said returns as erased and altered.

To insist that in this case the House can not ascertain the voters' intent; and that the ballots for T. J. Anderson can not under the evidence be held to have been intended for T. G. Anderson, would sacrifice justice in the case. Your committee are of the opinion that neither the law nor equity in the case demands any such sacrifice. The House should not be confined, in any event, within the narrow limits prescribed by the rules governing canvassing officers in the discharge of ministerial duties. It possesses the powers of a court of law, and the functions of a court of equity, and effect should be given to the intention of the electors in the expression of the popular will, and no arbitrary rule should permit a technicality without a corresponding benefit, to have any other operation. Such seems to be the law as laid down in the authorities.

The committee further report that no general appear-

ance was made for contestee in the case until after the overruling of the motion to dismiss the complaint as insufficient. Contestee claims that the House has no jurisdiction for want of service. A general appearance was made by the defense in the cross-examination of the contestant's witnesses, who appeared personally before the committee. An adjournment of the committee was had to a time set by contestee's attorney for the purpose of filing an answer. Such time was extended, and no answer was filed, but counsel for contestee gave notice of his intention to file such answer making general denial and setting up counter charges, and asked for time to produce the testimony of a witness now in Illinois, and other witnesses, to rebut the Sheriff's return, and for the privilege of producing the necessary witnesses to sustain the allegations of the answer. This report covers the entire case as reported and all within the present province of the committee. Said answer is hereto attached.

From the evidence in the case we believe that T. G. Anderson is entitled to a seat as a member of this House.

Dated January 21, 1885.

V. V. BARNES,
E. B. DAWSON,
A. L. VANOSDEL,
C. E. HUSTON,
GEO. W. PIERCE.

Eleventh Legislative District, counties of Grand Forks, Traill, Nelson and Steele, Territory of Dakota.

In the matter of the Legislative contest of

T. G. Anderson
Against
E. T. Hutchinson. } Answer.

The contestee, E. T. Hutchinson, for answer to the notice of contestant herein.

FIRST.

Without waiving any objection made in this case as to non-service as to insufficiency and of notice, this contestee alleges the following facts constituting his defense. He denies each and every allegation of the notice of contest and each and every allegation contained therein.

SECOND.

For a second and further answer and defense, the contestee alleges that adjoining or lying near to the precinct of Lakota, there are several unorganized towns; that said towns were allowed to vote at Lakota, without right; that these votes amounted to 100, and were all cast against this contestee and in favor of contestant.

That at the said Lakota precinct, one hundred and seventy-five non-residents were allowed to vote, that said non-residents had no right to vote at said precinct and were not legal and qualified voters in said precinct or within the county of Nelson; that said one hundred non-residents voted for contestant and against contestee.

That by reason of the specific frauds and irregularities above set forth, this contestee was defrauded out of a large number of votes and his majority reduced; that if said illegal votes had not been cast as aforesaid, this contestee would have received a much larger majority than was given him by the canvassing board named in the notice.

THIRD.

This contestee alleges that in said district the votes cast for T. J. Anderson were intended for him, said T. J. Anderson, and not for T. G. Anderson. That in said district eleven or twelve candidates were running for office of member of the lower house of the territorial legislature, and that this contestee received at the general election of 1884, a plurality of the legal votes cast in said district, over any other candidate, and was duly elected.

Wherefore, contestee asks first that he be allowed to substantiate his answer herein by proper proof and that he have judgment in the case for possession of his seat.

E. T. HUTCHINSON,

By A. B. MELVILLE,

His Attorney.

And Mr. McCumber the minority report, viz:

MR. SPEAKER:

The minority of your committee to whom was referred the contest case of Anderson vs. Hutchinson, feeling that they cannot conscientiously endorse all the statements as set forth by the majority, beg leave to report:

That they can not find as a fact that the sheriff used dili-

gence in the service of notice on Hutchinson, nor can they find as a fact that said Hutchinson purposely avoided service, but on the contrary, they do find that there was no legal service of notice; that there being no service in law, the contestee was justified in not making an appearance in the case, or taking part in the examination of witnesses, though served with notice of taking deposition. We do further report and recommend that the contestee be allowed to present his case, notwithstanding the want of a proper service, and in consideration of the courtesy thus extended to him, that the contestee do also have an opportunity of presenting his case. We further report that all the evidence thus far considered has been adduced on the part of the contestant, and that inasmuch as the contestee claims that he can disprove the facts as alleged by contestant, justice would demand that contestee be heard.

We therefore recommend that we be instructed to take such evidence as the contestant may submit, and report the facts from the conclusions to be derived from the evidence of both sides.

P. J. McCUMBER.
HENRY W. COE.

The House assembled at 11 o'clock a. m.

The Speaker presiding.

Prayer by the Chaplain.

Roll called.

All members present.

On motion of Mr. Oliver

The reading of the Journal of the preceding day was dispensed with.

The following communications were read:

BISMARCK, Dak., Jan. 23, 1885.

To the Honorable House of Representatives:

The subscriber would respectfully ask your honorable body for the appointment of superintendent of the Capitol building and grounds. I have occupied the position during the past six months by appointment from the Capital Commission and would refer to my work during that time as evidence that I am qualified to fill the place. I would further represent that having been injured during my work on the building I feel that I have a further claim on your consideration.

Very Respectfully,

DAVID O'NEIL.

Referred to committee on Public Buildings.

WILMOT, Dak., Jan. 19, 1885.

Mr. Ole P. Helvig, Bismarck, D. T.:

DEAR SIR,—You will perhaps be somewhat surprised at receiving this from a complete stranger, but I see from my paper from Blooming Prairie, Minn., that you are a brother of Thomas Helvig, with whom I am well acquainted. My

request of you, though, is of a political nature. We are, or have been, having a little trouble over the locating of our county seat, but it is now permanently located at this place. But the townsite speculators at Travare, in this county, are about to attempt to legislate us out of our right by having our county again divided, and placing us again in Grant county. This we object to on the grounds that it would defeat the wishes of almost the entire population of our county. Out of 645 votes cast for the county seat November 4, 1884, Wilmot received 447 votes; but the canvassing board, all of whom are interested in the townsite of Travare, illegally threw out the returns of the two largest townships in the county, and declared the county seat at Travare. Travare is located about one-half mile from the Minnesota State line, and about one mile from Brown's Valley; and besides there is nothing there but four or five buildings, besides the court house. But we do not depend on the unimportance or weakness of Travare to sustain our views; nor that Travare is owned by townsite speculators, but upon the one main fact that Wilmot did receive the requisite vote to permanently locate the county seat here.

Now, on behalf of a large majority of the voters of Roberts county, I ask you to do what you can, candidly and honestly, to prevent any unjust legislation which would deprive them of the fruits of their labor and expenditure of money in this affair. We have worked hard and patiently and honestly to carry out the will of the people, and certainly hope and trust that no Dakota Legislature will deprive us of our rights.

I am, truly yours,

A. G. INGERSOLL.

PRESENTATION OF PETITIONS AND MEMORIALS.

Mr. Williams presented the following petition from the citizens of Burleigh county, and moved its reference to the committee on Counties.

To the Honorable, the Legislative Assembly of the Territory of Dakota:

The undersigned petitioners, being citizens and taxpayers of the county of Burleigh, beg leave to state that they are informed that a bill numbered House Bill No. 5, and known as "a bill for an act defining the boundaries of Kidder county," has been introduced to your Honorable Body, the declared purpose of which is to take from the easterly side of the county of Burleigh eight townships and add the same to the county of Kidder, and

Whereas, There has been or shortly will be introduced to your Honorable Body another bill of like tenor, for the purpose of taking from the said Burleigh county on the north a large amount of territory, to add the same to the county of McLean, and

Whereas, There exists no sound reason for altering the boundaries of said county of Burleigh in the manner proposed by said measures, or either of them, nor will any public good be subserved to the inhabitants of the said counties of Burleigh, Kidder or McLean thereby, but on the contrary, both of said measures are in direct opposition to the wishes and interests of the people of Burleigh county, as greatly increasing their burden of taxation and otherwise injuring their said county; that the said measures are prompted, as your petitioners verily believe, solely by corrupt motives of private gain, to the furtherance of certain selfish personal schemes;

Wherefore, Your petitioners respectfully petition your Honorable Body to refuse assent to both of said measures for the reasons set forth above, and for the further reason that both of said measures are introduced for the sole and corrupt purpose of committing a fraud upon the people of said county of Burleigh, to answer the private and speculative ends of a few individuals, and your petitioners will ever pray.

Which motion was adopted,

The following communication was read:

BISMARCK, D. T., Jan. 24, 1885.

A MEMORIAL

To the Legislature of Dakota, to the President of the Council, and Speaker of the House of Representatives:

Your Memorialists, citizens of Yankton county, Dakota, respectfully represent

That the interests of the people of Dakota, material, political and moral; their numbers, area and resources; their rights under the constitution; their rights under the guarantees of the ordinance of 1787; their rights under the treaty with France, of 1803, by which their territory was acquired; and the unanimous wishes of all its people, as evinced by the bill passed by the Legislature of 1881, for a constitutional convention; by the votes of the people of South Dakota at the Huron and Sioux Falls conventions of 1883; and by the resolutions of the Republican and Democratic conventions of 1884, demanded in the strongest terms the division of the Territory and the admission of the southern half as a State of the Union.

That the people of Dakota have an undoubted right to proceed to form a State constitution and a State Government for South Dakota, and for North Dakota if the people of that section so desire.

That we need no enabling act of Congress to exercise these rights.

That the recent vote of this Territory demonstrates, in the words of Governor Pierce, that Dakota has a population of 500,000; larger than two Colorados, five Delawares, three Floridas, twelve Nevadas, two New Hampshires, three Oregons, two Rhode Islands or two Vermonts.

It has a territory of 150,932 square miles, equal to the combined area of Maine, Vermont, Massachusetts, Connecticut, Rhode Island, New Jersey, Delaware, Maryland, Ohio, and West Virginia, less 1,954 square miles, as will be seen by the following table:

Maine.....	35,000	square miles.

Or Dakota equals in area:

Michigan	56,451	"
Connecticut	4,750	"

Dakota	150,420	"

with 512 square miles over.

Or Dakota equals in area:

Kansas.....	81,318	"
Nebraska	75,995	"

Dakota	157,313	"
Dakota	150,932	"

Or Dakota equals in area:

Virginia	38,348	"
North Carolina.....	50,704	"
South Carolina	34,000	"
Tennessee.....	45,600	"

Dakota	168,652	"
Dakota	150,932	"

7,720

less 7,720 square miles.

In an able publication written by the Hon. R. F. Petti-

grew, he has demonstrated by tables that we have not space to reproduce here, that Dakota pays more Internal Revenue than four states.

Delaware	\$31,000
Florida,	23,000
Nevada	22,000
Vermont	22,000
Dakota	41,000

More postoffice revenue than thirteen states:

New Hampshire	\$339,000
Rhode Island	317,000
Delaware	95,000
West Virginia	227,000
North Carolina	319,000
South Carolina	250,000
Florida	192,000
Alabama	315,000
Mississippi	246,000
Arkansas	254,000
Oregon	208,000
Nevada	67,000
District of Columbia	283,000
Dakota	367,000

Has more banks and bank capital than five states.

Therefore it is demonstrated beyond contradiction that we have the territory, the population and the resources to entitle us to two States.

We have the right to form a State Government without the permission of Congress.

That is demonstrated by the precedents of thirteen States:

- Vermont.
- Kentucky.
- Tennessee.
- Maine.
- Michigan.
- Arkansas.
- Florida.
- Iowa.
- Wisconsin.
- California.
- Kansas.
- Oregon.
- Nevada.

Congress justified all these States by admitting them, under their constitutions formed without its permission.

It admitted most of them without a struggle.

It made a struggle with Kansas and refused her admission, and the political party which perpetrated this outrage, as a consequence, was hurled from power for twenty-four years.

That party has but just regained power.

Do you think it will desire to go out of power again upon such another struggle?

Let Dakota stand on her rights, and assert them, and act upon them.

Let her go to Congress no longer as a supplicant or petitioner, but as a body of American citizens to their servants, and demand her rights.

Let her say to the party in power in Congress, in the words of the United States Supreme Court in the case of Dred Scott vs. Sandford:

You have no power to hold this people as a territory permanently, but you are bound to admit us as soon as our population and situation entitle us to admission.

If you refuse us admission, we will go to the people of the United States on that question, and we will turn you out of power.

That is the language for a free people, who are American citizens, and have rights guaranteed by treaty and compact, which are irreversible without our consent.

This right to frame a State Constitution and State Government for ourselves has been affirmed by the Congress of the United States, by the Supreme Court of Michigan, by the Supreme Court of the United States, by the most eminent statesmen and lawyers of America. Among these are George Washington, Andrew Jackson, John Quincy Adams, Zachary Taylor, James Buchanan, Thomas Morris, Thomas L. Hamar.

The State of Michigan put the doctrine of the right of the people of a territory to form a State Government without permission of Congress, whenever they had the population and territory sufficient to support a State Government, and the people willed it into practical operation to its fullest extent.

They convoked a constitutional convention, adopted a constitution, elected State officers and inaugurated a State Government without any enabling act of Congress. Their Legislature enacted laws, their courts exercised jurisdiction, their people paid State taxes. And the Supreme Court of Michigan adjudged all these acts to be legal and valid. And the Supreme Court of the United States confirmed this decision by declaring the subject to be beyond their powers.

See *Scott vs. the Detroit Young Men's Society*. 1 Douglas Rept. (Mich.) 119. *Scott vs. Jones*, 5 Howard 378.

Congress decided in favor of Michigan's action and endorsed the doctrine of its courts by a vote of 153 ayes to 45 nays in the House, and 24 ayes to 18 nays in the Senate.

Afterwards Iowa, Florida, California, Oregon and Wisconsin were admitted upon the same doctrine, under constitutions formed without an enabling act, without a struggle.

So that Congress has re-affirmed the Michigan doctrine five times since its first decision.

The ordinance of 1787 was extended over Dakota by four successive acts of Congress, that of June 28th, 1834, of April 20, 1836, of May 31, 1838, and of March 3, 1849.

The Supreme Court of Michigan decided that that ordinance was a compact with the people of the Territory who settled it under the pledges of the ordinance, and that this compact was irreversible without the consent of the people of the Territory.

The Supreme Court of the United States, in the case of *Cooper vs. Roberts*, 18 Howard, 340,

Also decided that the compact was irreversible without the consent of the people of the Territory.

The ordinance itself reads as follows:

"The following articles shall be considered as articles of compact between the original States and the people and States in said Territory, and forever remain unalterable unless by common consent."

The act of Congress of April 29, 1836, is as follows:

"The inhabitants of the said Territory (Wisconsin, including Wisconsin, Minnesota and Dakota), shall be entitled to and enjoy, all and singular, the rights, privileges

and advantages guaranteed and secured to the people of the Territory of the United States northwest of river Ohio, by the articles of compact contained in the ordinance for the government of said Territory, passed on the 13th day of July, 1787. And the said inhabitants shall also be entitled to all the rights, privileges and immunities heretofore granted and secured to the Territory of Michigan, and to its inhabitants.

Now, one of these rights was "that whenever one of the States (meaning any State to be formed out of that Territory) shall have 60,000 free inhabitants therein, such State shall be admitted by its delegates into the Congress of the United States on an equal footing with the original States in all respects forever, and shall be at liberty to form a permanent constitution and State government.

See ordinance 1787, 1. Stat. at large, page 52.

Therefore, we claim that that part of Dakota south of the 46th parallel, with over 350,000 inhabitants, and over 80,000 square miles of area, has the same right as Michigan had to frame its permanent constitution and State government.

We therefore respectfully memorialize your honorable body to pass at this session an act convening a constitutional convention, and convoking it to meet as soon as possible hereafter, for the purpose of framing a constitution and a State government for the people of Dakota south of the 46th parallel.

We ask for this action on the part of the Legislature:

1st. Because it is the legal right of the people of Dakota.

2d. It is the most practical means of securing the opening of the Sioux reservation.

3d. It will give the people the sovereign control over their railroads, and power which they do not now possess to correct the evils under which they labor.

4th. It will stimulate all branches of trade and business, and enhance values of property.

5th. It will give the people the power to limit and control their state and municipal indebtedness.

6th. It will give the people the benefit of their school lands, and in that much reduce taxation.

7th. It will settle the capital question and leave the

people of South Dakota the right to select their own capital.

8th. It will secure to the people the right of all American citizens to regulate and control their own domestic affairs.

9th. It will put an end to an unauthorized and usurping colonial dependency, which by right should have ceased long ago, and to the exercise of a power which the Supreme Court of the United States have declared has ever been jealously regarded by the American people as contrary to the genius and spirit of our free institutions.

APPENDIX.

We ask attention to the following extracts from the speeches of eminent statesmen on the Michigan admission, and also to the extract from the Chicago Tribune of January 13, 1885, which sets forth very forcibly the pressing reasons why Dakota should not delay in this act of justice to her people.

Cincinnati Platform Democratic Party, 1856:

"That a majority of the actual residents in a Territory, whenever their number is sufficient to entitle them to admission as a State, possess the power to form a constitution, to be admitted into the Union upon terms of perfect equality with the other States."

Speech of James Buchanan on Michigan case:

James Buchanan said in the Senate; "I think their course is clearly justifiable, but if there is anything wrong or unusual in it, it is to be attributed to the neglect of Congress.

"For three years they have been rapping at your door, and asking for the consent of Congress to form a constitution, and for admission into the Union; but their petitions have not been heeded and have been treated with neglect. Not being able to be admitted in the way they have sought, they have been forced to take their own course, and stand upon their rights—rights secured to them by the constitution, and a solemn, irrevocable ordinance of 1787."

"They have taken a census of the Territory; they have formed a constitution, elected their officers, and the whole machinery of a State government is ready to be put in operation; they are only awaiting your action. Having assumed this attitude, they now demand admission as a matter of right; they demand it as an act of justice at your hands.

Are they now to be repelled, or to be told that they must retrace their steps and come into the Union in the way they first sought to do, but could not obtain the sanction of Congress?

"In fear of the consequences of such a decision, I tremble at an act of such injustice."—Benton's *Thirty Years in the United States Senate*, vol. 1, page 635.

John Quincy Adams:

John Quincy Adams expressed the same view as to the guarantees of the Louisiana Treaty, entitling Arkansas to admission in spite even of her slavery.

John Quincy Adams was then the most decided opponent of slavery in the House, and he expressly declared that, in his opinion, not only the compromise of 1820 but also the Louisiana Treaty forbade all opposition to the admission of Arkansas as a slave State.—Von Holst's *Const. Hist.*, vol. 2, page 145; *Debates of Cong.*, vol. 13, page 33.

Mr. Adams' words were: "She (Arkansas) is entitled to admission as a State, as Louisiana, and Mississippi, and Alabama, and Missouri have been admitted by virtue of that article in the treaty for the acquisition of Louisiana, which secures to the inhabitants of the ceded territories

all the rights, privileges and immunities of the original citizens of the United States, and stipulates for their admission conformably to that principle, into the Union.

* * * * *

"It is written in the bond, and however I may lament that it was ever so written, I must faithfully perform its obligation."—Benton's Thirty Years in the United States Senate, vol. 1, page 636.

James Buchanan:

"Now, sir, under this provision (the ordinance of 1787) these 60,000 free inhabitants had a right to frame a constitution whenever they pleased.

"The precedent in the case of Tennessee has completely silenced all opposition in regard to the necessity of a previous act of Congress to enable the people of Michigan to form a State constitution."—Curtis' Life of Buchanan, vol. 1, p. 363.

Thomas Morris, of Ohio, in Michigan case says:

"I hold that any portion of American citizens who may reside on a portion of the territory of the United States, whenever their numbers shall amount to that which would entitle them to a representation in the House of Representatives in Congress, have the right to provide for themselves a constitution and State government, and to be admitted into the Union whenever they shall so apply; and they are not bound to wait the action of Congress in the first instance, except there is some compact or agreement requiring them to do so.

"I place this right upon the broad, and I consider, indisputable ground that all persons living within the jurisdiction of the United States are entitled to equal privileges.

"It is not necessary for the power of Congress, and I doubt whether Congress has such power, to prescribe the mode by which the people form a State Constitution."—Benton's Thirty years in the United States Senate, vol. 1, page 630.

Editorial in Chicago Tribune, January 13, 1885:

HOW DAKOTA CAN GET INTO THE UNION.

The Lord helps those who help themselves, and it is time for the people of Dakota to take some practical steps toward the organization of a State Government in order

to knock at the door of Congress with the authority of the people. This was the course taken by California, Kansas and Colorado, and there is reason to believe that it will be as successful in the case of Dakota as in their case, for Dakota has higher claims to admission into the Union than they had. The enabling act which passed the Senate a few days ago lies buried in the House, where it will never be considered. A similar experience will be encountered next winter unless the people in the meantime do something to assert their claims and to bring them so prominently before the country that the Democratic majority in the next House of Representatives will not dare to commit the injustice of excluding a Territory which would be entitled to three or four members of Congress if it were a State—larger in population than two Colorados, five Delawares, three Floridas, a dozen Nevadas, two New Hampshires, three Oregons, two Rhode Islands, or two Vermonts, or nearly equal to West Virginia, Maine or Connecticut.

The effective steps to take are these: The Territorial Legislature should pass an act this winter calling a Constitutional Convention to meet at a convenient place, and to be composed of the same number of men as the Legislature itself and elected in the same manner and from the same districts. The act should authorize the convention to frame a Constitution to be submitted to the people, appoint an election for State Government, Legislature, and three or four members of Congress, and designate a time for the meeting of such Legislature to choose two United States Senators. Then Dakota can go to Congress next winter with all the force of a formulated public opinion, with all the machinery of a State Government at hand with a Constitution which will excite no antagonism, and with the ablest men in the Territory demanding admission into both Houses of Congress. An application urged in this determined way will be backed up by the popular sentiment of the Northwest without regard to party, and there are twenty-five or thirty Western Democratic members of Congress who cannot join the Southern Confederate members in resisting it without risking a loss of their seats. The issue will be so plainly one of injustice against mere partisan advantage, that the Democrats will be constrained to admit Dakota on her application, or at least to pass the necessary enabling act that will admit her to a participation in the affairs of the Nation.

Governor Pierce should recommend this course in his

message to the Dakota Legislature. He should advise that the movement be made for the admission of the entire Territory as one State, because it will be easier to secure the assent of Congress to this programme than to the formation of two States. But he should also point out that, in case the northern and southern interests of the Territory cannot harmonize, then the Legislature should call a Constitutional Convention for that half of the Territory which lies south of the forty-sixth line and contains about 80,000 square miles and 325,000 population, leaving the north half, with its 175,000 inhabitants, to work its way into the Union at some future time. The movement on congress will be more formidable if it shall come from the whole Territory, but the south half alone will have stronger claims to admission as a State than any new State had when it was admitted.

The people of Dakota may make up their minds that if they wait for a Democratic congress to pass an enabling act coaxing them to come in they will not get it while that party is in power. But if they proceed with the practical work of organizing a State, and demand admission into the Union as a matter of right and justice, they will succeed.

President Jackson:

Affirmed decidedly and emphatically, the right of the people of that Territory to frame their State Constitution and State Government, without any previous consent of Congress.

In his message on the Michigan application, he says:
"By the act of the 11th of January, 1805, all that part of the Indiana Territory lying north of a line drawn due east from the southerly bend or extreme of Lake Michigan until it shall intersect Lake Erie, and east of a line drawn from the said southerly bend through the middle of said lake to its northern extremity, and thence due north to the northern boundary of the United States, was erected into a separate territory by the name of Michigan, the territory comprised within these limits being part of the district of country described in the ordinance of 13th of July, 1787, which provides that whenever any of the States into which the same should be divided should have sixty thousand free inhabitants, such States should be admitted by its delegates into the Congress of the United States, on an equal footing with the original States in all respects whatever, and shall

be at liberty to form a permanent constitution and State government; *Provided* the constitution and government so to be formed shall be Republican; in conformity to the principles contained in these articles, the inhabitants thereof have, during the present year, in pursuance of the right secured by the ordinance, formed a constitution and State Government."—Benton's Thirty Years in the United States Senate, vol. 1, p. 627.

The vote of Dakota on November 4th was larger than that of either of eight States, the votes of which are given below:

Dakota.....	85,850
New Hampshire.....	84,457
Colorado.....	56,450
Vermont.....	59,882
Florida.....	59,361

Rhode Island.....	33,771

Mr. McCall presented the following petition relating to the division of Lawrence county and the creation of Meade county, which was signed by citizens of Lawrence, and moved

It be referred to the committee on Counties.

To the Honorable Legislative Assembly of the Territory of Dakota:

We, the undersigned resident taxpayers of the agricultural portion of Lawrence county, Dakota, respectfully represent that we desire a division of the said county segregating the eastern or agricultural portion from the western or mining portion thereof, and that the agricultural portion so segregated be made, constituted and declared a new county.

Of the many reasons therefor we enumerate the following:

1. Lawrence county is large, populous, and wealthy enough for two counties.

2. At the time of the organization of Lawrence county, taking so large a scope of agricultural lands within her boundaries, these fertile valleys were uninhabited, hence we who have here made our homes and built up a strong community, had no voice in its formation.

3. We now have in the new county, as proposed to be organized, a voting population of eight hundred, a total of nearly four thousand souls, and an assessed valuation of nearly four hundred thousand dollars.

4. With extensive and costly mining litigation taking preference and overtaxing the capacity of our courts, we are in a condition little better than that of an absolute denial of court facilities.

5. We ask only those rights and privileges now denied us yet accorded all other communities in this new land of phenomenal growth, which we feel we too have a right to enjoy—that of self government, the arbiters of our own temporal destinies.

Which motion prevailed.

Mr. Blakemore as chairman of the committee on Rules, presented the majority report and moved its adoption.

MR. SPEAKER:

Your committee on Rules adopted by this body to whom was referred the proposed amendment of Rule 53 by changing the time of meeting from 11 o'clock to 10 o'clock a. m.. would recommend that the rule remain as it is.

And

MR. SPEAKER:

MR. SPEAKER:

Your committee on Elections, to whom was referred the
contested election case of
Bechtel vs. Stong,
Have instructed me to report that said committee has had
said case under consideration, and from the records on file
and the evidence taken and submitted on the stipulation of

the respective parties and their attorneys, which has been duly considered, they find as follows:

That counting all the votes as returned for Pembina county, and taking into consideration the vote of Park River precinct, in Walsh county, which latter we find to be to a large extent illegal and fraudulent, said Stong received a decided majority over the contestant, of the votes cast in the Twelfth District. It is the opinion of your committee that contestee's majority, on the basis specified, is at least over fifty votes; but the precise number they are unable to find, owing to the nature of the illegality and fraud found, and the character of the proofs presented.

We find that said contestee, Henry Stong, is entitled to his seat, and recommend that he be allowed to retain the same as a Representative.

Dated January 56, 1885.

V. V. BARNES,
Chairman.

Mr. Blakemore moved
The adoption of the report.

PETITIONS AND MEMORIALS.

Mr. Williams presented the following petition:

To the Honorable Body, the Legislature of the Territory of Dakota:

We, the undersigned citizens and taxpayers of the county of Burleigh and Menoken vicinity, beg leave to state that we have learned that a certain bill has been introduced to your honorable body, the purpose of which is to take eight townships from the east side of Burleigh and annex the same to Kidder county. We also learn there has been, or is to be, a bill of like import introduced to your honorable body, asking to take a large amount of territory from the north of Burleigh and add the same to McLean county, and

WHEREAS, We believe there is no good reason for changing the boundaries of said counties as intended by said bills, but on the contrary, both of said bills, if passed by your honorable body, will prove detrimental to the interests of the people of Burleigh county by greatly increasing their burden of taxation and otherwise injuring their county. We, your petitioners, verily believe both said measures are introduced and advocated for personal and selfish ends.

Therefore, your petitioners respectfully ask your honorable body to refuse to pass either of these bills for the reasons given above.

And your petitioners, as in duty bound, will ever pray.

MENOKEN, January 26, 1885.

PETITIONS AND COMMUNICATIONS.

Mr. Stewart presented the following communication, which was referred to the committee on Counties:

To the Honorable Members of the Legislative Assembly of the Territory of Dakota:

GENILEMEN:

We, the undersigned, appointed a committee by the County Commissioners association of Dakota to arrange and place before your honorable body the recommendations of a recent convention held in Bismarck, beg permission to fulfill our engagement in this respect.

The present condition of many of the statutes relating to county government in its various phases, is such that the commissioners, upon whom devolves the duty of carrying out those laws, feel it to be in the interest of the people of the Territory that certain changes should be made, whereby the machinery of municipal control can be more equitably and intelligently administered.

From conversations with honorable members of both houses of the legislature the commissioners, when in convention, expressed themselves satisfied that the subject would receive the care and attention in the legislature that its extent and importance deserves, and were thereby encouraged in their effort to discuss matters of interest, and by so doing be better enabled to carry out the laws framed for their guidance, to the best advantage of the people in their various counties.

In making these suggestions to your honorable body, we trust our motives will not be misunderstood.

We are satisfied the people's interests are safe in your hands and will not be overlooked, but that such legislation will be passed as the necessities for our growing Territory demand.

We have, however, considered a few points of importance in some of the different branches of county government and we respectfully append hereto various suggestions to which the commissioners would ask you to give such consideration as can be spared from other equally important measures.

We have simply mentioned a few of what we consider the leading questions. There are many others of minor importance that the altering or amending will depend upon what is done with those quoted.

We have endeavored, as far as possible, to arrange our

work so as to conform to the committees of the Legislature and trust that it will receive a favorable reception.

Respectfully submitted,

J. C. GILL,
Commissioner Cass county.
E. M. FULLER,
Commissioner Burleigh county.
BUDD REEVE,
Commissioner Traill county.
J. W. COLLINS,
Commissioner Nelson county.
E. O. FAULKNER,
Auditor Walsh county.

BISMARCK, January 29th, 1885.

Be it Resolved, That in the opinion of this association legislation is urgently needed in the following directions:

1st. That each city, village and township treasurer be required to send a duplicate balance sheet to county auditor showing amount of cash received from county treasurer, amount paid out of each fund and amount still on hand, this to be made out and include all cash received and paid out up to and including the 31st of January of each year.

2d. That the city, village and township treasurers shall send to county auditor, not later than the 7th of February each year, such report.

3d. That the county auditor shall examine and check each account and compare amount shown as received from county treasurer with the auditor's books, and shall forward to the township clerk, five days prior to the annual election of the city, village or township, one of the treasurer's reports with auditor's certificate as to correctness thereof.

4th. That city, village or township treasurers failing to send in duplicate report to county auditor, as provided, shall not be entitled to any remuneration for services as such treasurer.

5th. That the last part of section 100, on page 252 needs revising.

6th. That we recommend a simpler drainage law be introduced, as the present one is too complicated.

1st. That the clause in relation to the care of the poor

be so amended as to clearly make it the duty of township, city and village authorities to care for the temporary poor in its jurisdiction, and that the county commissioners be only required to provide for permanent paupers who are likely to become fixed charges.

2d. That townships, cities and villages be authorized to make a levy up to two mills on their assessable valuation for care of poor, and that an overseer shall be elected whose duty it shall be to attend to the poor.

3d. That the county commissioners of any county having a valuation of three million dollars (\$3,000,000) or over, shall be empowered to purchase a poor farm, when they may decide it advisable to do so, and that a special levy of not more than two mills on the dollar of assessable valuation shall be allowed for three consecutive years, to purchase land, erect buildings and stock said poor farm.

4th. That an overseer shall be appointed and other necessary rules made to control said poor farm.

5th. That township, city and village clerks shall be required to advise the county auditor, within fifteen days after election or appointment, the names, post office address and terms of office of each officer, which shall be recorded and kept in a book provided for that purpose.

6th. That the county auditor shall furnish each township clerk with a certified copy of the equalized assessment list of his township, for which he shall be allowed three dollars (\$3) from each township.

7th. That each city, township and village clerk shall send levy of taxes to be raised for current year to county auditor, not later than July 20, of each year.

1st. That the school law should be so amended that all expenses of schools, school officers and school elections be paid from the school fund of school township treasurers.

2d. That the School Township Law and the Civil Township Law should be so revised that the provisions concerning boundaries will not be conflicting, but be clear and definite, that the boundaries of the school and civil townships be one and the same.

3d. That the counties now working under the district law should not be compelled to adopt the township system, but that its adoption be left optional with the board of county commissioners.

4th. That all other counties, and all new counties to be hereafter organized shall work under the school township system; and that said School Township Law should be revised in its arrangement and phraseology so as to be more complete.

5th. That in all newly organized Counties the commissioners shall, as early as practicable, establish the boundaries of civil and school townships, but no school township should be organized until the commissioners are satisfied that the township has a valuation of \$10,000 and a school population of twenty-five children.

We further specially urge that all money collected from licenses for selling intoxicating liquors, for fines, penalties and forfeitures be hereafter paid into the general county fund of the county where collected, instead of the school fund, and this to take effect from and after July 1st, 1885, except in the counties of Cass, Grand Forks and Traill, where it is necessary at once;

That we urge the creation of a Territorial Examiner, whose duty it shall be to examine all books, papers and accounts of the different county officers in each county, at least once a year, or oftener if he thinks necessary, and a report of each visit shall be made to the commissioners of such county;

That on account of the present revenue and tax law being difficult to understand on many points, we would specially urge that a thorough revision be made of the question as a whole.

The Tax Commission Bill not being ready yet, we have not had an opportunity to examine it. The Hon. George Walsh has prepared one which we have looked over, and are of opinion that it is far preferable to the one now in force, and we hope to see an act based upon all or many of its provisions, become law at the present session.

We would further specifically urge that railroad lands be subject to taxation in the counties in which they are situated as soon as certificates of title are issued, and prior to the issuance of United States patents, this being the system adopted in the case of farm lands.

That the present system of taxing the earnings of railroads, and dividing the amount according to the mileage in each county, is approved, and that express and telegraph companies be taxed on the same system.

That the present system of taxing insurance companies be cancelled, and each county allowed to tax the premiums in the manner provided for in the law in force prior to the last session of the legislature.

That where railroad companies go into business other than as common carriers, such as the selling of coal, etc., then they shall be taxed in the same manner as merchants.

That the present dates for listing property and other matters bearing thereupon be so stated as to be intelligible to the officers who carry out the law.

That the taxation of moneys and credits be revised so as to secure the better assessment of the same.

That greater obligation be placed upon the assessors, with a view of their giving a fairer basis of assessment in regard to all classes of property.

That a meeting of county and township assessors be provided for prior to the commencing assessing for the purpose of getting assessment blanks and instructions.

That in any county not organized into civil townships, the assessor shall be elected for each commissioners' district.

That the mode of preparing the tax lists be altered so as to provide a simpler form of extending taxes by extending all, except special taxes, as one total, dividing up the different funds proportionately at each settlement.

That the treasurer be required to hand the county clerk or auditor the duplicate tax receipts at the close of each day.

That the school township and other special levies be sent to county clerk or auditor not later than August 1st of each year, and that township clerks shall send delinquent road tax abstracts not later than October 1st.

That the duplicate tax list shall be handed to the treasurer on the first Monday in January of each year.

That all taxes shall become delinquent on June 1st, after which date and prior to October 1st, the county treasurer shall distraint upon all unpaid personal property taxes, when he shall report to county clerk all personal property taxes he is unable to collect, and that on October 1st real estate shall be sold for unpaid taxes, and real estate for which no bids are received to be bought in for the Territory.

That penalty and interest shall be placed in the county general fund.

That the territorial treasurer shall prepare each year the following exhibit of all counties on one form or statement.

1st. The name of county, in alphabetical order.

2d. Assessed valuation.

3d. Rate of territorial assessment.

4th. Total amount of delinquent territorial taxes from previous years.

5th. Amount of territorial tax paid in cash in current year.

6th. Amount delinquent carried forward to next year's report.

7th. That a copy of this statement be sent to the board of county commissioners of each county within sixty (60) days of the close of each fiscal year.

1st. That no change be made in fees or commissions of treasurer until they amount to \$3,000 per annum. When they exceed that amount three-fourths of the excess to be paid into the general county fund; the treasurer to pay all his clerk hire; and that he be allowed no compensation for registering county warrants.

2d. That the pay of the county auditor be one and one-half mills on the dollar of equalized valuation until equalized valuation reaches \$2,000,000, and that he receive one-half of a mill on all sums in excess of that amount, he paying for clerk hire necessary to run his office.

3d. That the register of deeds continue to receive his fees as formerly until they reach the amount of \$4,000 per annum. When his fees exceed that amount one-half the excess to be paid by him into the general fund of the county. The register of deeds to pay all his clerk hire.

1st. That the register of deeds should be required to keep a grantor and grantee index in addition to other books without receiving any additional remuneration therefor. Further, that the register of deeds shall be required to furnish the assessor with statements, showing the amounts of unsatisfied chattel mortgages on record on the date of listing personal property within.....days after said date, such statement to show the date, name and

address of the mortgagor and the amount, such statement to be prepared without further remuneration.

2d. That no deeds or transfers of real estate or mortgages shall be placed on record until the county clerk or county auditor has first certified that all taxes of every nature standing against said real estate or the grantor thereof has first been paid, for which a fee of twenty-five (25) cents may be allowed in each case.

3d. That in counties where the assessed valuation exceeds one million dollars (\$1,000,000) the office of county auditor should be created, which office shall supersede that of county clerk, with adequate compensation provided therefor.

4th. That the office of county auditor shall be appointive by the board of county commissioners and not elective as now.

5th. That the salary or pay of the county assessor be fixed by the board of county commissioners.

6th. That each assessor be required to obtain statistics when assessing properly, such statistics to show in concise form any information in regard to crops, etc., as may be beneficial to the county.

Further, that the county auditor shall make an abstract of the whole and keep it on file in his office.

7th. That when a vacancy occurs on the county board, the county treasurer be called in if there is a tie in the vote filling the vacancy.

1st. That on account of the large number of satisfied chattel mortgages not cancelled in the books of registers of deeds of the various counties, we would recommend that an act be passed making it the duty of the grantee of each chattel mortgage to cancel it in the record books within fifteen (15) days after the satisfaction of said mortgage, and prescribing a penalty for the non-performance of said duty.

2d. That a change be made in the law of foreclosing chattel mortgages so as to give some better consideration for the interests of the mortgagor, and that only officers who have given bonds shall seize property and conduct sales.

We would urge that prior to any foreclosure the sheriff or officer should be required to serve notice on the mort-

gagor, giving him ten (10) days notice of time and place of sale of mortgaged articles, and in case of non-residents that ten (10) days notice be given by publication once, in some newspaper published nearest the place where the property was seized.

Further, That the practice of inserting large sums as attorney's fees is wrong. We think that in sums of less than \$100 the fee should not be more than \$10, and in sums exceeding \$100, not to exceed 10 per cent. of the amount secured.

Further, That no attorney's fees should be allowed excepting where an attorney of record, and actually resident of the Territory, is employed, and that a full report of all proceedings had under foreclosure be made under oath and filed with the register of deeds in each case.

We recommend that in real estate mortgages the clauses referring to attorney's fees, and attorneys employed to foreclose chattel mortgages apply also to the foreclosure of real estate mortgages.

3d. That on account of the large bills for legal expenses sent in by justices of the peace, to be paid by the county, in trivial and other improper cases, we would urge that some greater restrictions than are afforded at present be thrown around the issuance of warrants or other process in which the county or Territory may be a party, and likely to be called upon to pay costs.

1st. That firms doing business as abstract clerks or supplying abstracts of title shall be required to furnish a bond to the Territory for like amount as required from the register of deeds in the county in which their business is conducted, the bond to be approved by county commissioners and filed in the office of the clerk of the court.

2d. That all chattel mortgages shall be filed with the township clerk of the town in which the property is located and that he shall keep a record similar to that now kept by each register of deeds.

3d. That for filing and releasing each chattel mortgage he shall receive the sum of ten (10) cents.

Mr. Bayard introduced the following resolution:

Resolved, That the sergeant-at-arms of the House and his subordinate officers be and they are hereby directed to assist the Secretary of the Territory to unpack and arrange in order on the shelves provided for that purpose, the

Territorial law library, in order that it may be made available for the use of the House.

Which resolution was adopted.

Messrs. Huntington, Morgan and Scott excused on account of service at St. Paul.

PETITIONS AND COMMUNICATIONS.

Mr. Ruger presented the following petition, which was referred to the committee on Counties:

To the Legislature Assembly of the Territory of Dakota:

Your petitioners, residents and citizens of Bottineau county, do most respectfully state that it has come to our knowledge that an effort has been made by parties interested in McHenry county to secure the passage of an act of the Legislative Assembly changing the boundary line between said county and Bottineau county by cutting off townships from the latter and adding them to the former.

Against such proposed changes we earnestly protest. These townships which it is proposed to transfer to McHenry county constitute the greater part of our grazing district, and to deprive us of the benefits of taxes and the benefits that would otherwise accrue from a stock country.

Our country is newly organized, its inhabitants few, its

territory none too large, but hardly the average size of counties and has nothing but personal property that is yet taxable.

To change our boundary line on either the east or the south side would produce great injury to the county and greatly reduce its source of revenue.

At present the population is mostly in the eastern tier of townships and the county seat is in section 19, township 162, range 75.

Cattle in large numbers are being brought into the southern part of the county, which is inviting the attention of stock men.

We therefore petition your honorable body that the boundary line of the county remain undisturbed and not changed merely to suit the interest of a few individuals in McHenry or Roulette counties.

January 2, 1885.

Which was read the first time.

Mr. Smith introduced—

House Bill No. 120. A bill for an act appropriating funds for the salaries of employes of the Legislative Assembly,

Which was read the first time.

Mr. Williams was granted unanimous consent, and presented the following petitions, which were
Referred to the committee on Counties:

Gentlemen of the Council and House of Representatives:

We, the undersigned inhabitants of township 143, range 81, being a portion of the north row of townships in Burleigh county, humbly petition your honorable body not to pass or allow the bill to become a law, introduced in the House by the Hon. E. A. Williams, wherein it provides for the cutting off or segregating of the north row of townships from this county and joining unto McLean county.

This we earnestly protest against for the following reasons:

First. All the public buildings have yet to be erected in the latter county, which will cause a very high rate of taxation for many years to come; and

Secondly. The management of her county affairs has

solely been, and is at the present day, under the dictations of one man, which is very obnoxious and contrary to our Republican form of government.

The object of this bill is to give Washburn more territory on the south of the present county seat, thereby favoring those interested in that town, to the exclusion of your petitioners.

We also claim that it is not fair nor just to be sold out of one county to another against our will to suit the private interests of any one party.

For these and other reasons we earnestly pray that your honorable body will defeat any and all such bills tending to reduce the size of Burleigh county.

To the Honorable, the Legislative Assembly of the Territory of Dakota:

The undersigned petitioners, being citizens and taxpayers of the county of Burleigh, beg leave to state that they are informed that a bill numbered

House Bill No. 5,

And known as "a bill for an act defining the boundaries of Kidder county," has been introduced to your honorable body, the declared purpose of which is to take from the easterly side of the county of Burleigh eight townships and add the same to Kidder; and

WHEREAS, There has been or shortly will be introduced to your honorable body another bill of like tenor for the purpose of taking from said Burleigh county, upon the north, a large amount of territory, to add the same to the county of McLean; and

WHEREAS, There exists no sound reason for altering the boundaries of said county of Burleigh in the manner proposed by said measures, or either of them, nor will any public good be subserved to the inhabitants of the said counties of Burleigh, Kidder or McLean thereby, but on the contrary both of said measures are in direct opposition to the wishes and interests of the people of Burleigh county, as greatly increasing their burden of taxation and otherwise injuring their said county; that the said measures are prompted, as your petitioners verily believe, solely by corrupt motives of private gain and the furtherance of certain selfish personal schemes.

Wherefore your petitioners respectfully petition your

honorable body to refuse assent to both of said measures for the reasons set forth above and for the further reason that both of said measures are introduced for the sole and corrupt purpose of committing a fraud upon the people of the said county of Burleigh, to answer the private and speculative ends of a few individuals.

And your petitioners will ever pray.

Mr. Stevens was given unanimous consent to introduce the following, which was

Referred to the committee on Counties.

To the Honorable, the General Assembly of the Territory of Dakota:

The undersigned, your petitioners, being citizens and taxpayers of the county of Kidder, Dakota Territory, would respectfully represent that they have heard that a move is to be made during the present session of your honorable body, looking to a division and changing of the present boundaries of Kidder county. We believe that any division of the county in this respect is not desired by our people, and that the only object sought for in this direction is for the sole purpose of benefitting one or two individuals. Many citizens and taxpayers have made investments and valuable improvements on the presumption and natural belief that the county seat would eventually be located as near as possible in the center of the county, independent of any personal or local interests, and not that the boundary lines of the county would be changed for the sole purpose of benefitting any one person or locality at the expense of the many. Your petitioners would respectfully represent that they have been informed (unofficially) that the boundary lines of many of the counties in the territory are to be changed during the present session, and, while deprecating any such change, should one be made affecting Kidder county, we would respectfully urge that the division be made in accordance with the diagram shown herewith.

(Diagram and signatures.)

PETITIONS AND COMMUNICATIONS.

BISMARCK, February 3, 1885.

MR. SPEAKER:

Referring to the recent resolution of your honorable body requesting that the books of the territorial library be at once placed upon the shelves prepared for them, I beg to say that I have not put the books upon the shelves for the reason that I do not consider it safe to leave them in so public and exposed a place as that provided for the purpose. The risk of leaving them in the hall of a public building is increased by the fact that there is, so far as I am aware, no one at present authorized to assume control of the building, and upon whom may properly be imposed the care of anything left in it. I was informed by the chairman of the Capitol commission some weeks since, that he had ordered from Chicago a woven wire screen or partition to divide the proposed library from the hall, the arrival of which has been daily expected for some time past. If, however, it is not deemed advisable to wait longer for this wire partition, it is entirely practicable to cut off the library from the hall by a partition of lattice work or pickets; and if the construction of such partition shall be authorized and provided for by the Legislature, it will be promptly erected and the library set up without delay.

Respectfully,

JAMES H. TELLER,
Secretary.

To the Honorable Members of the Dakota Legislature, Bismarck, Dakota:

GENTLEMEN—We, the undersigned citizens of Dakota Territory, over twenty-one years of age, petition your honorable body to grant the right of suffrage to the women of Dakota on the same terms as now allowed to men. We ask this as a matter of expediency, believing her to be, as a class, as sober, as moral and as capable as he; we ask it as a matter of justice, because she submits to the laws and pays her proportion of the tax; and because it will better harmonize with the age in which we live, and promote sobriety, peace, morality, education and prosperity.

(Signed by numerous citizens of Huron.)

TWENTY-THIRD DAY.

REPORTS OF SPECIAL COMMITTEES.

The special committee on Elections made the following report:

MR. SPEAKER:

Your committee on Elections, to whom was referred the case of

Anderson vs. Hutchinson,

Have instructed me, by a majority vote, to report as follows:

That the five days granted by the House for the contestee

to produce his evidence has expired, though amended answer was verified on information and belief. Contestee receives telegram asking for extension of time to procure affidavits, and stating that it can be proved that T. J. Anderson was a candidate and received votes. A paper purporting to be a withdrawal of contest, and to be signed by contestant, has been presented before the committee.

Contestant's attorney states that he telegraphed last night for witnesses.

The majority of your committee recommend that the contestant be seated as a member of this House, and the contestee unseated during the further pendency of the case, if additional time be granted. Your committee has reason to believe that an attempt is being made, by fraudulent and dishonest offers and bargaining, to dispose of this case in a manner reflecting upon the honor and dignity of the House, and in gross violation of justice. Your committee is firmly of the opinion that, having had jurisdiction of the contest in question, and considered the same on the merits of the proof presented, both written and oral, and the report made having been adopted on the conditions specified in the resolution, that this House should not submit to disposition of this case except as based upon its merits, and should make no recognition of any party not coming in on a proper vote of the people.

Your committee is further of the opinion that at this stage of the proceedings, any so-called adjustment or bargain of the seat in question by any party, would be a disgrace to the House, and ought not to be recognized except to be condemned.

Dated January 28, 1885.

V. V. BARNES,
Chairman.

E. B. DAWSON,
A. L. VAN OSDEL,
G. W. PIERCE,
C. E. HUSTON.

Mr. Martin moved

That the committee on Elections be instructed to investigate the alleged withdrawal of the contestant, T. G. Anderson, from the case, vs. E. T. Hutchinson, and report the facts relating thereto; that the committee also take evidence upon the merits of the case, and have power to subpoena witnesses for that purpose.

Mr. Coe presented the following withdrawal of T. G. Anderson:

I, T. G. Anderson, contestant in the case of Anderson vs. Hutchinson, believing that it is for the best interests of all parties that E. T. Hutchinson remain in the seat now occupied by him, and that thereby harmony may be engendered, do hereby withdraw from the said contest, and request that all papers and documents relating to the case, now before the Legislature, be withdrawn and placed in the hands of Dr. E. N. Falk.

Dated January 7, 1885.

T. G. ANDERSON.

Witnesses: M. W. Sullivan, E. N. Falk.

Mr. Steele moved
To substitute for Mr. Martin's motion,
That the letter written to the committee by Mr. Anderson be read.

Which motion was lost.

PETITIONS AND COMMUNICATIONS.

The following petitions and communications were presented:

SPEARFISH, DAKOTA, January 21, 1885.

To the Honorable, the Legislative Assembly of the Territory of Dakota:

Your petitioners, citizens, legal voters and residents of the town of Spearfish, Lawrence county, and Territory of Dakota, respectfully represent:

That the said town is unincorporated and is without any legal government—destitute either of township, town or city municipal organization.

That the boundaries of said town include 320 acres of land, particularly described as follows, to-wit: The s $\frac{1}{2}$ of s e $\frac{1}{4}$, and the s e $\frac{1}{4}$ of s w $\frac{1}{4}$ of section 10, and the n $\frac{1}{2}$ of n e $\frac{1}{4}$, and e $\frac{1}{2}$ of n w $\frac{1}{4}$, of section 15, township 6, range 2, west of the Black Hills meridian, which are subdivided into lots and blocks, streets and alleys, according to a recorded plat thereof in the register of deed's office, in said county of Lawrence.

That within the above described limits there is a settled and abiding population engaged in business, commerce, and trade, of every general character, the total number of which population may be fairly estimated from the vote polled at the general election on November 5, 1884, which vote numbered 243.

Wherefore, your petitioners pray: That a charter may be granted, by special act of the Legislature, to the citizens of said place, under the name of the City of Spearfish, similar to charters heretofore granted by special act of the Legislature to other towns in the Territory, and particularly to the towns of Rapid City, in Pennington county, and to Custer City, in Custer county, in said Territory. And so your petitioners will ever pray.

To the Honorable, the Territorial Council and Legislative Assembly of the Territory of Dakota, in Session Asembled:

The petition of the subscribers, citizens of the western portion of Pembina county, respectfully asks:

That the boundaries of the county of Cavalier be so

changed as to embrace ranges 58 and 59, in towns 159, 160, 161, 162, 163 and 164, and that the same be added to the present county of Cavalier, thereby enabling us to reach the county seat of our county with more convenience than we can at the present time, it being from seventy-five to ninety miles for the residents of said ranges to reach the county seat of Pembina county, compelling us to travel through the Pembina mountains to do so, the same being at some seasons of the year impassable for horse or man. And for the relief here asked, we, your petitioners, will ever pray.

REMONSTRANCE.

To the Honorable Members of the Dakota Legislature, Bismarck, Dakota:

Against the passage of Council Bill No. 45, introduced by Mr. Natwick of Brookings. Entitled, or which might be properly entitled, a bill creating a board of health for Dakota;

We, the undersigned residents and citizens of McCook county, Dakota, do most respectfully and emphatically remonstrate against the passage of said Council Bill No. 45, and request all honest and honorable members of the Sixteenth Session, Legislative Assembly, to use all honorable measures to defeat said bill, for the following reasons:

1st. It is a most shameful piece of jobbery, and creates a wholly useless office at an extravagant and unprecedented salary.

2d. It is a direct insult to the people of the respective counties of Dakota, nearly all of whom are possessed of ordinary intelligence and a sufficient amount of good sense to attend to their own sanitary affairs under existing sanitary laws.

3d. It places the appointing of three salaried officers of each county in Dakota in the hands of one man, who is named in said bill, viz: Dr. M. Ware, of Salem, Dakota, who must of necessity be an entire stranger to nearly all his appointees; whereas, in case of need, such appointments should be made by the people of the respective counties, or by their county commissioners, who are supposed, at least, to know of the qualifications of the physicians in their midst.

4th. It opens a wide door for corruption and fraud by way of useless appointments to useless offices.

5th. It is a direct insult to His Excellency the Governor of the Territory, by indirectly offering him a bribe of \$12 per day for an indefinite period as a reward for his signing the bill.

6th. It creates a useless clerkship at a salary of \$5 per day, to be given to some friend of the superintendent of public health for doing little or nothing, said superintendent being Dr. M. Ware, of Salem, Dakota.

7th. It provides that Dr. M. Ware, of Salem, McCook county, Dakota, shall be superintendent and secretary of said board, at a salary and emoluments which might be made greater than that paid to the Governor, and is entirely a useless sinecure and piece of scandalous jobbery.

8th. It would allow said Dr. M. Ware \$20 per month for the rent, etc., of his own office in Salem, Dakota.

9th. We consider the people of the respective counties of Dakota competent to take care of themselves under existing sanitary laws, without employing men of so little intelligence as Dr. M. Ware, of Salem, Dakota, to aid them at a salary of \$12 per day, 5 cents per mile for roaming over the Territory, and \$20 per month for the rent of his small office in Salem, Dakota.

Wherefore, your petitioners humbly and earnestly pray that so scandalous an outrage may not be perpetrated on the people of Dakota, as the passage in any form of said bill.

PETITIONS AND COMMUNICATIONS.

The following petitions were presented and read:

To the Honorable Members of the Territorial Council and House of Representatives:

HILLSBORO, DAK., February, 9, 1885.

GENTLEMEN:

Whereas a bill has been introduced by Councilman

John Flittie, from Traill county, Dakota, to cut down or diminish the salary of the superintendent of schools of said county of Traill, we believe that said bill, if passed, would have the tendency to be detrimental to the schools in our county.

We therefore, your petitioners, respectfully ask that the salary of the said officer be regulated only by the present law governing same, as passed A. D. 1883.

To the Honorable Members of the Council and House in the Dakota Legislature:

We the undersigned lawful citizens of Billings county, Dakota Territory, do hereby petition for a division of said county in the following manner and for the reasons stated hereafter.

The divisions to be by a line running north and south, through some point a short distance west of Fryburg, said line to be on the eastern edge of the "Bad Lands," and to continue on through Villard county, lying south of Billings, the western county to be called Billings and the eastern county to be called Villard, thus reversing the present position of the two counties, they lying east and west instead of north and south of one another.

Our reasons for thus petitioning are as follows:

The western portion of both the aforesaid counties, lies in the Bad Lands and is adaptable exclusively to stock raising. The eastern portions are wholly of an agricultural nature, which lands end abruptly at the eastern extremity of the Bad Lands. No interests whatever are identical between these two portions of said counties and a different government is required by each.

We also consider it unjust that a stockman should be compelled to pay taxes on property belonging to a farmer and vice versa.

The eastern and western parts of the two counties therefore being thus divided in interest, we hereby petition you for a division of the same as stated above.

And you petitioners will ever pray.

HURON, DAKOTA, February 7th, 1885.

Hon. George Rice, Speaker of Territorial House of Representatives:

At a meeting of the Territorial Farmers' Alliance, held in this city February 4, and embracing over 100 represent-

ative farmers of Southeastern Dakota, the following resolution was unanimously adopted:

That we view with alarm the apparent slow progress made by the Legislature in making an adequate provision for the relief of the people from excessive freight rates, and that we ask that body to fix just maximum rates for transporting persons and property in Dakota before it adjourns.

Resolved, That a copy of this resolution be at once transmitted by our secretary to the presiding officer of each branch of our Legislature.

Trusting this may meet your firm and hearty approval,
I am, sir, truly yours,

W. F. F. BUSHNELL.

Second, That T. G. Anderson sold out and withdrew his contest under such circumstances that we cannot honestly recommend that he be seated.

Third, That certain men, friends of Mr. Hutchinson, took part in and made the arrangements with Mr. Anderson in reference to the selling out and withdrawal of said Anderson.

MR. SPEAKER:

The undersigned members of your special committee on Elections beg leave to submit the following in connection with the report of said committee, in the case of

That we recommend that E. T. Hutchinson be unseated, for the reason that he did not receive a plurality or majority of the votes of the people, and is therefore not entitled to a seat in this House, T. G. Anderson having received about 200 more votes than said Hutchinson.

That said Anderson received a plurality of the votes cast in said district, but should not be permitted to take a seat in the House, for the reason that he bartered away his right to such seat, and surrendered the majority vote of his constituents for the sum of three hundred dollars (\$300), under cover of a land sale devised and carried out by said Anderson and one Dr. E. N. Falk, and other friends of said Hutchinson.

That said seat be declared vacant, and immediate steps be taken in accordance with the law, to fill the same with

a representative chosen by a majority vote of the people.

PETITIONS AND COMMUNICATIONS.

Mr. Morgan presented the following:

BUXTON, Feb. 9, 1885.

To the Honorable George H. Walsh, Bismarck:

DEAR SIR:

We, the undersigned, earnestly petition you to present

a bill to the Honorable Body, the Council now assembled at Bismarck, and secure its passage if possible by both houses of the Legislature. The following described sections of lands in the county of Traill, and Territory of Dakota, and described as follows, viz: Sections 19, 30 and 31, in town 148, range 50 w, and sections 36, 25, 24, 23, 26 and 35, in town 148, north of range 51 w, into an independent school district.

And you will greatly oblige your petitioners.

Which was referred to committee on Education.

Mr. Ward, of Turner, presented the following:

To the Honorable, the Legislative Body of the Territory of Dakota:

We, the undersigned would respectfully petition your honorable body, and remonstrate against the formation of the proposed Independent District of Bridgewater out of the portions of townships 101-56 and 101-55, as set out in the accompanying diagram. As in the opinion of your petitioners the formation of the same would work serious detriment to said district, leaving the balance of said district in a very awkward shape, and because of the natural formation of the territory difficult to divide into school districts, or to supply with the proper facilities for schools, as will more fully appear by accompanying diagram.

Wherefore your petitioners would respectfully remonstrate against the proposed formation of said Independent District of Bridgewater.

And your petitioners will ever pray, etc.

Which was referred to committee on Education.

Mr. Van Osdel presented the following:

To the Honorable, the General Assembly of the Territory of Dakota:

The petition of the undersigned citizens of the county of McLean respectfully sets forth that they have learned that a bill is now before the two Houses of Assembly for the purpose of taking two townships from Burleigh county and annex the same to the county of McLean, and believing such measure to be unnecessary and injurious and against the wish of the people of this county, they respectfully, but energetically, remonstrate against its passage by your body.

And your petitioners, as in duty bound, will ever pray, etc.

To the Honorable Body of the Legislature of Dakota Territory:

We, the undersigned, citizens of Burleigh county, protest herewith against being adjoined to McLean county, for following reasons, to-wit:

We took our government land here, knowing Burleigh county to be in a good financial condition, with taxes decreasing from year to year.

Here against McLean county is a young and already much indebted county, which debt, by the actual management, is increasing continuously.

2. Burleigh county is managed by men who care for the interest and welfare of their settlers, while McLean county was up to now entirely managed according to the private interests of a certain John Satterlund and not to that of the settlers.

3. We came in this country to become citizens of a free country, willing to gain us a free home with our hand work under the protection of a free government, and do not wish to be made tools for the low and selfish manipulations of one man.

Several of the undersigned have already signed a contrary declaration; but herewith recall their former signing and declare it as void and unguilty for the following reasons, to-wit:

At the time the former petition in favor of our annexation to McLean county was handed to us for our signature, we were not able to understand the sense and consequences of this writing, as we are not yet master of the American language and not able to read the same.

Therefore, we declare herewith in our language, our intentions and protests against being annexed to McLean county, and will, as in duty bound, ever pray, etc.

February 10, 1885.

Which was referred to the committee on Counties.

REPORTS OF STANDING COMMITTEES.

MR. SPEAKER:

A minority of your committee on Judiciary, to whom was referred

House Bill No. 86,

Beg leave to recommend that the same do not pass for the following reasons:

1. Every citizen, under our present laws, is entitled to claim as exempt property (including judgments) to the amount of \$1,500, over and above his absolute exemption.
2. Under the present mode of appraisal that fifteen hundred dollars worth of property will represent in real value property to the amount of about three thousand dollars.
3. As the law now stands, a debtor may claim judgment in his favor as exempt of an appraised value of fifteen hundred dollars.
4. Under the proposed law, he would not only be entitled to hold the property to the amount of fifteen hundred dollars, but also a further and additional absolute ex-

emption to an unlimited amount for damages for detention to or injury of said property.

5. Under the proposed law, not only would he be entitled to hold as exempt judgments to any amount, but might also in addition thereto hold as exempt future acquired property to the value of fifteen hundred dollars, without subjecting such judgments or any part thereof to the satisfaction of honest debts.

6. For the foregoing reasons we consider such a law must be unjust, and believe that gross abuses of justice would creep in under its sanction, and that in its effect it would be a protection to fraud and not a guard of just rights.

Respectfully Submitted,

E. W. MARTIN,
A. L. SPRAGUE,

PETITIONS AND COMMUNICATIONS.

To the Members of the Sixteenth Legislative Assembly of the Territory of Dakota:

The undersigned citizens of Hamlin county, Dakota, would respectfully remonstrate against the reduction of the exemption law.

To the Legislature, Bismarck, D. T.:

The undersigned citizens of Codington county, Dakota, would respectfully remonstrate against the reduction of the exemption laws.

To the Legislature, Bismarck:

The undersigned citizens of Clark county, Dakota, would respectfully remonstrate against the reduction of the exemption laws.

To the Honorable Members of the Dakota Legislature, Bismarck, Dakota:

GENTLEMEN:

We, the undersigned citizens of Dakota Territory, over

twenty-one years of age, petition your honorable body to grant the right of suffrage to women of Dakota on the same terms as now permitted to men.

We ask this as a matter of expediency, believing her as a class to be as sober, as moral and as capable as he. We ask it as a matter of justice because she submits to the laws and pays her proportion of tax; because it will better harmonize with the age in which we live, and promote sobriety, peace, morality, education and prosperity.

ESTELLINE, Feb. 16, 1885.

To the Legislative Body Assembled:

I wish to state to you that the compensation of assessors is too large, and would like to see it cut down, or rather, reduced one-third, as I think \$3 per day is pretty good wages, and in fact it is too much. The State of Minnesota only allows the assessors \$2 per day, and it is enough.

Please give your attention to the dog list. There ought to be some measure adopted to levy a tax of at least \$2 a head on all the dogs of this country, as I think that any man that can afford to feed a worthless cur can afford to pay a tax on the same.

Please give these items your serious attention, and excuse any and all mistakes.

Fraternally and respectfully yours.

T. J. D.

[A Farmer.]

To the Honorable, the Legislature of the Territory of Dakota now in session in the city of Bismarck, Dakota:

The undersigned resident citizens and taxpayers of Emmons county, in the territory aforesaid, hereby earnestly protest against any scheme, project or contrivance to divide the said county of Emmons as is proposed by petitions, being a scheme of a small clique of men for money making purposes and does not meet with the approbation of the majority of the resident citizens and taxpayers of said Emmons county.

Any proposed division of said county should be voted on by the residents of said county, and should be submitted to vote by the residents thereof and should not become a law without consent by a majority vote of said county.

And your petitioners will ever pray.

TERRITORY OF DAKOTA, COUNTY OF EMMONS.

To the Honorable Council and House of Representatives of Dakota Territory, Assembled at Bismarck:

We, the undersigned residents and tax-payers residing in the south half of Emmons county, Dakota Territory, humbly petition and pray that there be no division of Emmons county for the following reasons:

1. That the population of the county is not sufficient to support two county organizations. At election last fall, with a full representation, only two hundred and sixty votes being polled.

2. That the present tax list, as assessed, is not sufficient to support and pay the current expenses of the county organization.

3. That it is neither the desire or wish of the majority of the residents, either in the north or south half of this sparsely settled county, that any division be made, and that the voice of the people, if the matter is left to a vote, will fully demonstrate this.

To the Honorable, The Legislature of Dakota:

We, the undersigned, citizens of Emmons county, having information that an effort is being made to create a new county from that portion being south of the eighth standard parallel, do most respectfully petition

That as this is not a large county (but forty townships and eight fractions).

That as at the recent general election there were but two hundred and sixty-two votes cast.

That as in our judgment this number represents the number of legal voters in this county.

That as the valuation of said county is about two hundred and sixty thousand dollars.

That as the valuation taxable in the portion to be set off is but about fifteen thousand dollars.

That as in our judgment there is no just grounds for such dismemberment or division.

That as said movement to divide is being urged by parties from another county solely for the purpose of gain at the expense of the people by creating a county seat.

That as your petitioners reside within that portion south of said eighth standard parallel to be set off.

That you will reject any and all resolutions having for its object to divide this county as above described, or in any manner whatever, your petitioners will forever pray.

PETITIONS AND COMMUNICATIONS.

GLENULLIN, MORTON COUNTY, DAK., Feb. 25, 1885.

To the Honorable Legislature of the Territory of Dakota:

GENTLEMEN:

The undersigned, residents and taxpayers of the colony of Glenullin, in the county of Morton, Territory of Dakota, respectfully petition your honorable body to pass at this session of the Legislature an act abolishing the organization of the township of Glenullin, and for the following reasons:

The petition requesting the organization of said township was forwarded without the knowledge or approval of some colonists who had invested money here; that such organization was presumably sought by some to enable them to hold office, and thus live on the public pap, and that there was haste in requesting such organization is evidenced by the fact that the residents in said township, when organized, were so few that instances occur where one man is found holding several offices.

The result, as predicted by some, has proved that said organization has been an unspeakable burden upon the people; the taxes are so high as to be an outrage, and mostly go to pay salaries to a number of unnecessary officeholders, some of whom pay an exceedingly small amount of taxes.

The result will be an injury to Glenullin, and therefore to the colony, as men of means and sense are not likely to invest money to build up the town under such a state of municipal affairs, and the colony will suffer by the absence of those who would be likely to come here to settle if such a condition of things did not exist.

It is the truth to say that those—at least some of those—who have taken hold of the plow with energy to subdue the sod and help hasten the time when this portion of the country would “blossom as the rose,” have been reduced to such a condition by outrageous taxation that they can not go ahead as they expected to do the coming season, as they will be unable to procure the seed required to enable them so to do, and some who expected to buy stock will require to do without such, at least for the present.

Other reasons could be truthfully added, but enough has been written to show why we send this petition.

We want this place built up and peopled, stocked and improved more than officeholders, who are unnecessary, and vote the people to be taxed for the benefit of their own pockets.

In conclusion, we earnestly beg that the petition of an overtaxed and outraged people, striving to live, but saddled with an unnecessary lot of officials, may be heard and their request granted.

Which was referred to the committee on Towns and Cities.

WOONSOCKET, Dak., Feb. 24, 1885.

To the Honorable Body, the House of Representatives of the Territory of Dakota:

GENTLEMEN.—I wish to call your attention to the necessity of an appointment of a clerk for the Territorial Superintendent of Public Instruction. The Territorial Superintendent is unable to attend to all the communications addressed to him for advice.

Respectfully,

P. F. MEYER,

County Superintendent of Schools.

MR. SPEAKER:

Your committee appointed for the purpose of examining

House Bill No. 193. A bill for an act prescribing the mode for listing, assessing and the levy and collection of taxes.

Have carefully examined the same and we find that about all the changes proposed in this act are either unimportant or covered by acts passed at this session, and while it may be desirable to have the revenue law revised and corrected in one act, thereby avoiding conflict and confusion, and securing uniformity, yet your committee is of the opinion that at this stage of the session the legislature can hardly devote the time necessary for a proper consideration of the revenue law, as the bill covers the entire law. EXECUTIVE COMMUNICATIONS.

EXECUTIVE OFFICE, BISMARCK, March 9, 1885.

To the Speaker of the House of Representatives:

I have the honor to return herewith

House Bill No. 7,

Which has been submitted to me for my concurrence and approval. This bill provides for the removal of the capital from the city of Bismarck to the city of Pierre.

If there are questions of equity involved in this measure I will not now discuss them; if there is something like retributive justice in this measure, growing out of past wrongs—either fancied or real—I do not here and now consider them. I pass by the question of expense and taxation in the construction of new buildings at Pierre; I pass by the fact that two hundred thousand (200,000) dollars worth of property now belonging to the Territory is donated by this act to private persons; I pass by all allegations of impropriety and all charges of corruption which may have been made, to come to the consideration of the one question, Is this measure legal?

We have all taken an oath to support the constitution of the United States. Section 10 of article 1 of the constitution prohibits the passage of any law impairing the obligation of contracts. Is the arrangement consummated between the agents of the last legislature and the city of Bismarck a contract within the meaning of that section? If it is, and if legislatures as well as individuals come within the constitutional prohibition, then none of us can break it if we would, and none of us would break it, in violation of our oaths, if we could.

In the case of Mills vs. Williams, 11 Ired, 105, Justice Pearson declares that while there are some grants conferred at the mere will of the legislature, and subject at all times to be modified and repealed, there are others which assume the nature of contracts and can not be molested. "The legislature," says the learned justice, "is not the only party interested, for, although it has a public purpose to accomplish, it chooses to do it by the instrumentality of a second party. These two parties make a contract. The legislature, for and in consideration of certain labor and outlay of money, confers upon the party of the second part certain powers and capacities. The expectation of benefit to the public is the moving consideration on one side; that of expected remuneration for the outlay on the other. It is a contract, and, therefore, can not be modified, changed or annulled, without the consent of both parties."

The legislature of 1883 directed a commission to select a site for a capitol, and declared that in consideration of a

large amount of money to be paid and land to be given, such site should become the "permanent seat of government." The wisdom of that law has been much questioned, and it is no part of my duty to justify or defend it. It is sufficient to know that Bismarck was chosen; that it accepted the proposition made by authority of the legislature; that it paid the money demanded and contributed the land required. There is no allegation, I believe, that the city has not complied with the spirit and letter of the agreement. If the contract were between individuals no one would question the binding force of the obligation for a moment. Shall the rule be changed because one of the parties is a great territory, with honor to defend, and equity to maintain? Such an interpretation, in the words of the judge above quoted, "would shock the public conscience." "There is not one law for the sovereign and another for the subject," says Judge Allen (71 N. Y., 549), "but when the sovereign engages in business enterprises and contracts with individuals the rights and obligations of the parties must be adjudged upon the same principles as if both parties were private persons. A state may repudiate its contracts, it may refuse to perform them, but its sovereign right to destroy or impair them is limited by the Federal constitution. It may refuse to respond in damages, and leave a claimant without any remedy, as it may refuse to pay its bonds, but the obligation remains. No legislative fiat can destroy that." In *Dunolds vs. the state*, (80 N. Y. 36) the court says "it has been settled so as to be beyond controversy, that the constitutional provision which denies to the state the power to pass laws impairing the obligation of contract, applies to all laws passed within its limits, contracts made by the state as well as contracts made by individuals. The sovereign can contract, and has many occasions to do so. It must be governed by the same rules of common honesty which bind individuals."

It is true that, as a rule, the legislature is sovereign, and may modify or abolish the act of its predecessors; but this rule has a plain exception, and this exception seems to be itself without exception. "There is no mode," says the court in a case reported in 5th McClean, 161, "by which a legislative act can be made irrevocable, except it assume the form and substance of a contract;" and commenting on this, Judge Cooley says: "Legislative acts are sometimes, in substance, contracts between the state and the party who is to derive some right under them, and they are not

the less under the protection of the constitution because of having assumed that form." (See work on Constitutional Limitations, 126.)

The book seems to be full of such cases, but Judge Storey has laid down a principal in his great work on the constitution, which seems to cover the measure under consideration, entirely and completely. Says that great commentator (See section 1374, Storey on the Constitution): "It has been made a question whether it [the constitutional prohibition] applies to contracts and grants created directly by law or made by some authorized agent, in pursuance of law. It has been suggested that in such cases it is to be deemed an act of legislative power, and that all laws are repealable by the same authority that enacted them; but it has been decided, upon solemn argument, that contracts or grants made by a state are not less within the reach of the prohibition than contracts and grants of private persons. The legislature may make a contract with individuals, by law, and when it is accepted it is equally under the protection of the constitution, and it may be laid down as a general principle that whenever a law is, in its own nature, a contract, and absolute rights have vested under it, a repeal of that law can not divest those rights nor annihilate or impair the title so-acquired."

"No court of justice in the country," continues Judge Storey, "would be warranted in assuming that any state legislature possessed the power to violate and disregard such a contract, or that such a power—so repugnant to the common principles of justice and civil liberty—lurked under any grant or ought to be implied from any general expression of the will of the people." (See also sections 1339, 1385, 1393, 1394 and 1395.) To my mind, there is no doubt that this bill plainly violates the constitution we have sworn to support. The rule may be a hard one in some cases and under some circumstances, but we did not make it and we did not enact the law which makes its application necessary. Our only duty is to take the case as we find it, and act with a solemn regard for our oaths. But—it may be asked—has the Territory no power to change the location of its capital? Undoubtedly; there are certainly ways by which a state can resume its sovereignty, being in the interests of public policy that this should be done; but it must first do justice before it asks justice.

There is another phase of the question, which seems im-

portant, to be considered. It greatly adds to the difficulties surrounding this bill. The act provides that the property shall be disposed of, the indebtedness paid, and the remaining proceeds distributed among those who have contributed to the erection of the capitol building.

I understand that the land on which the capitol is located, was deeded to the Territory by the Northern Pacific Railroad company for capitol purposes only. That a condition of the grant is that it shall be devoted solely to such purpose, or, failing to be so used, shall revert to the grantor. This being so, the provision for distribution is of no avail, for there will be nothing to distribute.

The building being part of the realty passes with the ground, and the result of this law would be to enrich the corporation which gave the land, while the men of small means who were induced to subscribe to the fund, and some of whom still owe a large proportion of their subscription, must absolutely lose everything. In the same way the provision regarding the payment of the debts contracted by the commission is idle, because there will be no assets out of which these claims can be liquidated. I am sure the legislature does not desire to place the parties who have had no lot or part in this unfortunate conflict at such a disadvantage. It seems to me, apart from other considerations, that this agitation is unwise and untimely. Its inevitable result will be to plunge the Territory into renewed and distracting litigation, of which the people are tired and weary. If I rightly interpret their wishes they are saying to us: "Let us have fair laws, wherever they are enacted; let us have an honest government, wherever it is administered; and in the name of a patient and long suffering people, let us have peace."

I can not approve this bill.

GILBERT A. PIERCE,
Governor.

MR. SPEAKER:

Your committee to whom was referred

House Bill No. 34,

Have again carefully examined the same, and have added a provision to the bill so as to include epidemic disease among swine. Your committee is aware of the great importance of this bill. The stock interests of the Territory are assuming large proportions. They are recognized as the real substantial industries, industries that bring wealth into this Territory. We feel that this industry must be protected against the disease known among cattle as pleuro-pneumonia, and against glanders among horses. The only way to do it, in our opinion, is to pass the bill as it now is. We recommend that the whole bill be considered favorably and passed; but in order that a full discussion may be had on it, we recommend that it be again referred to the committee of the whole House.

TESTIMONY TAKEN IN THE COMMITTEE OF INVESTIGATION.

L. G. Johnson sworn.

Q. We would like to inquire of you what you know of this matter; if anything, giving it in your own words.

A. Before going on with this investigation, from what I know about it, I desire that an attorney be present who understands the force of these legal questions. There are matters within my knowledge that are going to send somebody to the penitentiary, and it is a matter of too great importance to be treated triflingly or lightly.

Hon. W. F. Ball, of Fargo, was then retained by the committee, and the Hon. Mr. Melville for Messrs. Prentice and Wells.

DIRECT EXAMINATION.

Q. How long have you been here at Bismarck?

A. Since the 12th of January.

Q. Are you acquainted with Mr. DeWoody?

A. I am, yes, sir.

Q. And with Mr. Pierce?

A. Yes, sir.

Q. What are his initials?

A. George W.

Q. State whether or not you, at any time within the past two weeks, heard any conversation between Mr. Pierce and any other person in regard to the payment of money to influence the vote of that person, a member of the legislature, on the capital removal business?

A. I have.

Q. When did you first hear such conversation, and where?

A. Sunday morning; in Mr. DeWoody's room, on Main street, in the city of Bismarck.

Q. Between what persons did that conversation take place?

A. Between M. T. DeWoody, a representative from Edmunds county, and George W. Pierce, from Hamlin county.

Q. Where were you at the time that conversation took place?

A. I was in Mr. DeWoody's bed room.

Q. State the relation that that room bore to the room where this conversation took place.

A. There are two rooms; the front room is used as a sitting room, and has a stove in it, and two doors that hang on hinges when closed make the partition between the bed room and the sitting room.

thQ. What was the condition of these doors at the time is conversation took place?

A. They were closed.

Q. Did they close in such a manner that you could or could not see what was going on in the adjoining room?

A. The doors closed and left an aperture from the bottom of the doors up to about four or five inches above the lock of varying width, at the bottom I should say it was a quarter of an inch, and became closed about four or five inches above the lock. I could see and hear distinctly.

Q. Was there any other persons but Mr. DeWoody and Mr. Pierce in the other room?

A. No, sir.

Q. How long were you in that room before they came into the front room, if at all?

A. I went over to Mr. DeWoody's room in the morning to see him, and he told me he was going to the hotel and would be gone a few minutes, and would be back; that certain matters were about to take place, and that he did not wish to be in a position where his word would be the only one.

Q. You then were in that room on purpose to hear?

A. I was, sir; to hear what took place between Mr. DeWoody and Mr. Pierce.

Adjourned.

Pursuant to adjournment, the committee met in one of the rooms of the Capitol building at 9 o'clock a. m.

All members present, and the direct examination of Mr. Johnson was proceeded with.

Q. Mr. Johnson, state that conversation as nearly as you can.

A. Mr. Pierce and Mr. DeWoody came into the room together; Mr. DeWoody unlocked the door leading from the hall into the sitting room, and the first words of the conversation I heard, I heard Mr. DeWoody remark that it was hot in the room, and Pierce says: "Yes; raise the window." Mr. DeWoody locked the front door, and came and sat down at the table between the room in which I was and the table they used in the room for writing. I was sitting on the floor so that I could see through this hole in the door. I took out my pencil and memorandum, and hastily jotted down what was said between each one, and afterwards from recollection I wrote it out.

Q. From recollection with the aid of that memorandum?

A. Yes, sir.

Q. How soon after?

A. Immediately after; as soon as I returned to my room at the hotel. I have that memorandum in my possession, and I desire to refresh my recollection with that memorandum at this time.

Mr. Melville objects.

Q. Could you give the conversation in detail without the aid of that?

A. I think I could give it substantially.

Q. Could you give it accurately without the aid of that?

A. No. Sir.

Q. Somewhat lengthy discussion?

A. Yes, sir.

Q. Just give that conversation as nearly as you can without the aid of that memorandum.

A. Mr. Pierce said to Mr. DeWoody, "I suppose we are alone." Mr. DeWoody says "this room is the sitting room that we all use that stop at this cottage; there are seven of us, but there is none of them around now. I have locked the door, and they cannot any get in." DeWoody then

went and raised the window and came back and sat down and said: "There is no use beating the devil around the bush; what have you got to say?"

"Well," says Pierce, "I understand that talk you and Wells had to-day, and it is all right; I hold the money."

DeWoody says: "Now, Pierce, I am green about this business; it is something I never had anything to do with before, and if I get into it I have got to rely upon you old heads."

Mr. Pierce's reply was that it was a matter of honor.

DeWoody then says: "I do not like this idea of putting the money up in some one else's hands; it don't look to me to be safe."

Pierce says: "Well, we have got to trust somebody; we have got to have confidence. Are you a mason?"

DeWoody says: "No; I am not a Mason, but I belong to the Odd Fellows."

Pierce says: "That is all right, and you will find me a square man."

DeWoody then says: "In my talk with Wells he proposed to put the money up with Major Pickler, and I did not like the idea of that, and he suggested Mr. Melville." And DeWoody told him that he was not satisfactory to him. "I suggested that he put it up in Lar Johnson's hands, and he told him he would have nothing to do with Lar Johnson."

Pierce then said: "You will find it all right, for I hold the money."

DeWoody then says: "Well, Pierce, how would it do for you to give me your note for \$900, payable when I vote in the House?"

Pierce's reply to that was: "DeWoody, I do not want to make a cent off you; you can have the the thousand, and I do not want to get my paper mixed up in this thing."

DeWoody then asked him how many members they had fixed in the north.

Pierce made the reply: "Four sure; possibly five, and the thing may be unanimous. We have got to have more men to spare, because if the Governor vetoes the bill we have got to pass it over his veto."

DeWoody then asked him: "Have you fixed any more from the south?"

Pierce made the reply: "I understand we have. We count on five members that was in the North and Central Dakota combination..

DeWoody says: "By the bye, Pierce, was that man coming up stairs as we came down from the Sheridan House from North Dakota one of them?"

Pierce meditated; says he: "Which one do you mean; I do not remember."

DeWoody replied his name began with S.

Pierce says: "Oh, yes; Stong. I understand that he is all right."

DeWoody says: "How's Stevens?"

Pierce smiled and said: "You guess."

I believe he said that; something like that; I would not say that that was his exact language, but of that purport.

DeWoody says: "Well, Pierce, you understand that this is mighty serious business, and I do not feel that I will put myself in the power of anybody. If they expect to catch me, they have got to give me the stuff."

I do not believe I can give Mr. Pierce's reply to that in his exact language. I can convey the idea.

Q. Give the substance.

A. The idea that he conveyed by his answer was this: "Wells don't do business entirely for himself; he is acting under instructions, and while he is willing to make everybody safe connected with this thing, he wants to be safe himself."

DeWoody says: "I want to be safe too."

DeWoody then said: "Pierce, you go back and see Wells, and see if he is willing to put up \$500 with me in money, and \$500 in drafts that he has got that he showed me; in the meantime I will consider the matter."

"Pierce says: "Well, I will talk with him again."

There was considerable more talk about that time. I might recall it, but I think I could do it much more to the satisfaction of the committee and the counsel if I referred to my memorandum.

Q. You think you could not give it more elaborately without referring to your memorandum?

A. Well, I think I could by reflection recall other words that passed between them.

Mr. Huntington—Was there much more at that time?

A. Considerable; the conversation lasted some ten or fifteen minutes.

Mr. Ball—I will request that Mr. Johnson have the privilege of looking at his memorandum made at the time, and make any additions to his testimony that he desires.

No objection.

A. I see I have omitted to state one matter, one question and answer that was made when Mr. DeWoody, in reply to an answer of Mr. Pierce's as to the amount of money, and the manner in which it was to be disposed of.

Mr. Pierce says: "Well, that ain't the way I understand it; I am to get an envelope containing \$1,000, and I am to deliver that up to you when the Governor signs the bill. That is the way that Wells told it to me last night."

DeWoody's reply was: "That won't wash."

After my answer giving Mr. Pierce's statement as to Mr. Well's position, and acting under instructions, Mr. DeWoody says to him by the way of inquiry: "Now, Pierce, if this bill had been passed when it was up before, would any of the boys have been taken care of?"

Mr. Pierce's reply was: "Only three or four. I am glad it did not pass at that time, because now we are all going to be."

DeWoody says: "That is about the way I put it up. Pierce, what do you think of this capital removal and county seat schemes, anyway?"

Mr. Pierce's reply was: "I look at it just like this: They are schemes that somebody is going to make money out of, and us fellows that help them get it are entitled to a share of it. I look at it just like I do a man hiring another to hoe potatoes for him by the day. If he works, he is entitled to a share of the crop, or pay for his labor."

DeWoody's reply to that was this: "If the Capital goes to Pierre these fellows will make some money out of it."

Pierce's reply was: "Yes, they will."

Mr. DeWoody says: "Are you in your district altogether?"

Mr. Pierce's reply was: "Yes, we all understand each other but Blakemore and me, we each understand each other."

"DeWoody says: "I have never done anything of this

kind in my life, and I do not know as I will do this; but it looks to me as though it was all on one side—and not on mine.”

Mr. Pierce says: “Well, you see, DeWoody, we have got to have confidence, in this kind of business, in somebody.”

Pierce says: “What about George Johnson? we ain’t been able to get at him.”

DeWoody says: “Well, George is a square man.”

Pierce says: “Yes, I believe that.”

DeWoody says: “Yes, George will always do what is right.”

“I do not know how I can get him to vote for this bill.”

DeWoody asked him then how much he was willing to put up for the Seventh District.

The answer I did not hear; I did not catch it.

DeWoody suggested to him that business—I think that was the expression—that business ought to be done with mighty few men.

Pierce says: “I agree with you there; it won’t do to let too many know about it.”

DeWoody says to him just before they were leaving: “Well, Pierce, I ain’t satisfied with this arrangement, and I don’t propose to say now that I will do this. I want you to submit that proposition to Wells and see how that strikes him.”

Pierce says: “All right; I will have a talk with him to-day, and I will see him again this evening.”

DeWoody says: “Let’s get out in the air, the room’s so hot.”

They unlocked the door and went out together. That is the last I heard of that conversation. I went out on the street and went to the hotel.

Q. And then immediately made out this?

A. Yes, sir.

Mr. Blakemore—What hour last Sunday morning did this conversation take place?

A. 3:15 p. m.

Mr. Blakemore—How long did this conversation last?

A. Well, I think they were in there ten or fifteen minutes; it might have been a little longer; I did not take any

particular note of the time. I know the time they came in, because I looked at my watch.

Mr. Ball—Did you hear any subsequent conversation between the same parties?

A. I did.

Q. When was that?

A. That was yesterday morning.

Q. At what place?

A. At the same place.

Q. What time yesterday morning?

A. By my watch it was 10:34 a. m. when they came in.

Q. Where were you at the time?

A. In the same room that I was previously.

Q. Where were they at the time?

A. In the same room they occupied at the previous conversation.

Q. State the conversation that occurred at that time, with the attendant circumstances.

A. I was in the bed room. Mr. DeWoody was in the front room at the table writing. Mr. Pierce came in from the hall; he came to DeWoody in a hurry. He said: "Well, what is it?" Pierce took a package out of his pocket done up in a newspaper, handed a roll of bills to DeWoody and says: "There's \$500." DeWoody sat down to the table and commenced to count it, run it over hastily. Pierce says: "Here's \$500; that makes \$1,000."

DeWoody took and run that over and says: "You say there is a thousand there?"

"Yes," says Pierce.

DeWoody says: "I guess I will keep it."

Pierce was very much excited; says he: "You understand what this means?"

DeWoody says: "I understand all about it."

"Well, now," says Pierce, "you know what to do with him?"

DeWoody says: "I shall feel a good deal safer if it is in my pocket."

Pierce says: "DeWoody, I believe you are all right; he says the hack is here waiting, let's go right up."

DeWoody says: "You go up; I will be out soon."

Pierce went out doors.

Q. Let me ask if anything was said in express terms at that time by Mr. Pierce; if so, what? or by either of them as to that being for a vote in favor of the removal of the capital to Pierre?

A. Yes, sir; there was.

Q. State that.

A. His reply to Mr. Pierce's question, "You understand what this is for?" "Yes," says Mr. DeWoody, "Wells expects me to vote for Pierre," and Mr. Pierce says: "Yes, and you know it would bust me now if Wells would find out that I did not have this money in my pocket."

"Well," says DeWoody, "it is safer in mine," and then they went out. Mr. Pierce went out of the room; I unlocked the door and we went into Mr. DeWoody's room. Mr. DeWoody remarked to me: "There's the stuff."

Mr. Melville—Was Mr. Pierce present?

A. No, sir.

Mr. Melville—I object to any conversation when Mr. Pierce was not present.

A. We went into Mr. DeWoody's room; Pierce was not there; he had gone to the hack and was waiting in front of the house. We went into the room; Mr. DeWoody had the money in his hands. I says to DeWoody: "Don't count the damn stuff; put it in that envelope and seal it."

He sealed it and wrote his name across the seal, the amount, when it was received, and gave it to me, and I turned it over and, either on the back or below his name, I indorsed my name, L. G. Johnson, deputy sheriff, Burleigh county, and gave it into Mr. DeWoody's possession, and the next I saw of it, it was in Mr. DeWoody's hands on the way to hand it to the Governor.

On motion of Mr. Huntington,

The committee adjourned until 8 o'clock, to meet at the Sheridan house.

Committee met at 9 o'clock p. m., at the Sheridan House, Bismarck, Dakota Territory, March 4, 1885.

Mr. Ball and Mr. Melville, counsel.

L. G. Johnson, witness, recalled.

Mr. Ball.

Q. Please describe a little more particularly the condition of those doors, as to their being any aperture through which you could see all going on, and by reason of which you could hear what was transpiring in the other room.

A. I could survey most of the room through the aperture where the doors shut, through the shiplap; one was sprung in and the other out at the bottom; it had shrunken apart so that above the latch, up for half a foot, was clear apart; then by looking slanting through the aperture you could survey half the room. To get a better view, I took my knife and cut a notch in the laps and could see.

Q. Please to state whether or not there was any aperture in the ceiling by which any person over or above could see and hear.

A. I do not know, as I did not examine. I have seen one in my own room and several others in rooms in the Sheridan House.

Q. That is all I have to ask.

Mr. Blakemore.

Q. I wish to ask if there was any one else in that room last Sunday afternoon.

A. No, sir; not then.

Q. Was it Monday or Tuesday?

A. It was Tuesday—the same day that bill was voted on in the House.

Q. That is all.

Mr. Melville.

Q. These rooms at which you were on that occasion, are they all occupied by Mr. DeWoody?

A. Yes, sir. He sleeps there; he occupies one as a sitting room and sleeps in one.

Q. Where are these rooms located?

A. On Main street and first block west of the Lamborn House.

Mr. Blakemore.

Q. West of the Lamborn House?

A. I do not know the number; it was a frame building west of the Lamborn House.

Q. The corner building?

A. No, sir; it is the center of the block west of the Lamborn House.

Q. You mean west or east; this side of the Lamborn House?

A. Yes, sir.

Q. Are those rooms on the second floor?

A. No, sir; first floor.

Q. At whose request did you visit the rooms Sunday afternoon last?

A. Why, I visited there in pursuance of a conversation with Mr. DeWoody I had.

R. And can you give me the hour when you went there?

A. Yes, sir; I went there about 3 o'clock.

Q. And about how long after you visited the rooms before Mr. DeWoody and Mr. Pierce came?

A. Only a few minutes; fifteen or twenty minutes; I would not be exact. I looked at my watch and it was 3:15 when they came in.

Q. After Mr. Pierce had come?

A. Yes, sir.

Q. So that Mr. Pierce on that occasion arrived about 3:15?

A. Yes, sir.

Q. How long did Mr. Pierce remain?

A. The conversation lasted ten or fifteen minutes. It was very warm in the room.

Q. And after the conversation, substantially as you have stated, Mr. Pierce went away.

A. Yes; Mr. Pierce and Mr. DeWoody left together.

Q. How long before you left the house?

A. As soon as they went out I came out and saw them turning going down east, and I went back for my coat and hat, and went to the Sheridan House and wrote out the conversation.

Q. And you had, previous to the writing of the conversation, taken brief notes?

A. Yes, sir.

Q. Of what you heard?

A. Yes, sir; hastily.

Q. How large is the bedroom, and what part of the sitting room was occupied at that time by Mr. Pierce and Mr. DeWoody.

A. I think it was a room about 10x12.

Q. And it opens into the sitting room by folding doors?

A. Yes, sir.

Q. Is there a stove in the main room; where is that located?

A. In the northwest corner of the room.

Q. So that it would be west of the doors?

A. The west door in the bed room swings out and hits the stove.

Q. Now, as I understand you, in regard to getting a sufficient view of the room, you had made a notch in the door?

A. Yes, sir.

Q. So that the crack was not sufficient to get the entire survey of the room?

A. No, sir.

Q. Where were Mr. Pierce and Mr. DeWoody seated on this occasion?

A. Mr. Pierce at the end of the table, between me and the table. At first Mr. Pierce sat down on the lounge on the east side of the room, and in that position I had as perfect a view of him as I have of you. Mr. Pierce got up and sat down at the end of the table, between me and the table.

Q. Facing in what direction; facing west?

A. Yes, sir. Mr. DeWoody sat still further west from Mr. Pierce—only a trifle. It is a small room.

Q. About how far distant from the bed room door did Mr. Pierce sit at the time he sat at the table?

A. Not over four feet; about four feet; not over, I think.

Q. While sitting at the table, was his back or side toward the bed room?

A. His side. The door is a very thin door; an ordinary tone of voice you could hear. I sat upon the floor where I could look through and hear distinctly.

Q. It was in that position you heard the conversation?

A. Yes, sir.

Q. Now, will you give the conversation between the parties as it occurred until Mr. Pierce went away. Give the whole conversation again briefly.

A. All the conversation?

Q. Yes, sir.

A. I will give it to you. Do you want me to use my own language?

Q. Give a general statement.

A. Well, they came into the room. Mr. Pierce said he coincided with that view of the situation. Mr. DeWoody told him that this was business he was green in. Mr. Pierce told him that it was a matter he had to be careful about.

Q. Give me what was said at the time Mr. Pierce went away on that occasion. That is all I care for.

A. When he left the room?

Q. Yes; the conversation of the legislative transaction.

A. They left with an understanding that Mr. Pierce was to call on Mr. Wells and see if Mr. Wells would put up \$500 in money and \$500 in drafts if he would vote for the removal bill. It was concerning that particular circumstance when they left the room.

Q. What I want to call your attention to specially is, was any time or place of meeting arranged at that time.

A. I did not hear any; it was understood they were to see each other again; that was in a general way.

Q. If I understand you, Mr. Johnson, that understanding of a subsequent meeting was based upon the proposition of seeing Mr. Wells?

A. Yes, sir; that is all that was said in reference to the meeting.

Q. So far as the time or place is concerned?

A. I think it was; yes, sir.

Q. As near as you can remember, the time of meeting was somewhere between 3 and 4 o'clock?

A. Yes, sir.

Q. When did you next see Mr. DeWoody after you left the rooms?

A. Mr. DeWoody came into my room only a short time

after. When I came down to the crossing, coming toward the Sheridan house, I saw Mr. Pierce and Mr. DeWoody coming down the street together, and I came right down to my room. In a very few minutes Mr. DeWoody came up to my room.

Q. If I understood that testimony, on Tuesday following this Sunday you were at these rooms?

A. Yes, sir.

Q. You went for the purpose of hearing conversation expected to take place at the same rooms?

A. Yes, sir; that was my business there.

Q. Did you visit the rooms alone that morning?

A. No, sir.

Q. You may state the time, as near as you recollect it, where you was upon that occasion.

A. It was thirty-four minutes after ten by my watch.

Q. If I understood you correctly, you occupied substantially the same position you occupied on Sunday afternoon. Did Mr. Pierce knock or ring the bell when he came this morning?

A. No, sir.

Q. He came in without announcement?

A. Yes, sir.

Q. Did you know how he came to the building?

A. He came in a hack, and the hack waited for him while he came in. I saw the hack drive up; I stepped back into the room and closed the door; Mr. Pierce came in.

Q. What position did he occupy during the time?

A. He stood on the west side of the table; he was not seated.

Q. You may give what he said.

A. There was little said. As he came into the door Mr. DeWoody was seated at the table; Mr. Pierce came up immediately at the corner; DeWoody arose and was standing at the northwest corner of the table; he took out of his pocket a package done up in a newspaper—a paper with print on it; he handed Mr. DeWoody a package of money and says: "There is \$500."

Q. When he handed him the package, did he undo it first?

A. He undid it; there was two \$500 packages; he handed Mr. DeWoody one of them; Mr. DeWoody began to run it over; Mr. Pierce says: "I am in a hurry, Mr. DeWoody, and you had better get in and ride up, and he handed the other package to him, and says: "There is the other \$500." Mr. DeWoody took it and says: "I guess I will keep it." Mr. Pierce says: "You know what they will do to me if I do not have this money." Mr. DeWoody says: "This is as fair in my opinion." Mr. Pierce says: "You know what is expected of me." Mr. DeWoody says: "Mr. Wells expects I will vote for Pierre on the removal of the capital." Mr. Pierce says: "It will be all right for all of us." Mr. Pierce went out of the door.

Q. Well, now, did Mr. Pierce come back into the room on that occasion?

A. No, sir.

Q. That is substantially all?

A. That is all that took place; yes, sir; some little expression I might have omitted; that gives the substance within my observation, the sense of what occurred in the room.

Q. Those two occasions, as you have stated, is all you know in reference to Mr. Pierce in this matter, of your personal observation.

A. No, it is not, Mr. Melville; there are other facts.

Q. You have given all substantially?

A. Yes, on these two occasions only.

Q. I think that is all.

Substantially correct,

L. G. JOHNSON.

Mr. M. T. DeWoody sworn as a witness and testifies as follows:

Mr. Ball—Mr. DeWoody, you are a member of the House of Representatives, are you not, the present session?

A. Yes.

Q. Are you acquainted with Representative Pierce of the House?

A. Representative Pierce—that is the Sixth District—yes, sir.

Q. Are you also acquainted with Mr. Wells, of Pierre?

A. Wells, of Pierre—he is a small man with sandy whiskers—yes, I know him.

Q. Are you acquainted with Mr. Prentice, of Pierre?

A. Yes; I have seen him a few times at the variety and other places.

Q. Mr. DeWoody, have you at any time within the past two weeks had any conversation with Mr. Prentice in regard to your vote on the capital removal bill now pending in the legislature?

A. The last two weeks; within the last two or three weeks I rode up to the capitol with Mr. Prentice, and we were alone, that is, the driver was there; Mr. Prentice wanted to know what the devil we meant in central Dakota going against their interests at Pierre or Sixth District. I asked him what kind of interests; we had stood by him on the Spink county deal all along. He said: "You know what I meant—removal of the capital to Pierre." I told him I thought that was dead and referred to special committee, and dead in safe hands. He said: "You need not worry; it will be brought to life again; you fellows are not doing the right thing, you are going with the north, and it is a matter of business. Your combination will probably go all to the devil." I said it was solid and would see light before the end of the session. That is all at that time.

Q. After that, did you have conversation with Mr. Prentice at a hotel on this subject?

A. Yes; Mr. Prentice was in the hall and said that he wanted to see me and talk about this capital removal, and I think we then took a drink, and that is all said at that time.

Q. What, if anything, was said at that time in regard to his going to see Mr. Wells?

A. There was nothing said at that time in regard to going to see Mr. Wells, but some time last week—I judge about the middle of the week—I was going down the street corner of Griffin's, and met Dr. Kennedy of our district, and stopped with him and talked, and Mr. Prentice came along and called me out to the west side of Griffin's store and asked me then if I would not come over and see Mr. Wells that night, and he said Mr. Wells wanted to see me on particular business.

Q. Is that all that occurred there?

A. That is all I remember.

Q. When, after that, did you next see Mr. Prentice to have a talk with him?

A. One night last week a number of us were in George Rice's room—eight, I think—Mr. Steele, Mr. Huntington; I ordered drinks, and all went down into the bar room and got the drinks; after I ordered the drinks I went into number four and got my overcoat. Mr. Prentice was in the hall, and he said a man wanted to see me when I came back, and I said that I would be back in ten minutes to sixty-four. I went to four from sixty-four to get overcoat and overshoes and get a report to bring up to Mr. Huntington. I met Mr. Prentice at the hall and taking me into room thirty-nine.

Q. Who did you find?

A. I found nobody; and Mr. Prentice said: "I want to bring in a man here and introduce to you."

Q. Did he go out leaving you there?

A. Yes.

Q. How long did you remain until he returned?

A. Probaply three minutes; may be ten. Then Mr. Prentice brought in a certain gentleman and introduced him as Mr. Wells.

Q. After introducing you how long did he remain?

A. He went right out. Mr. Prentice said: "He will talk business to you, and you can talk business to him."

Q. Now, after leaving you with that kind of an introduction, what conversation took place?

A. Mr. Wells sat down and lowly asked me how my people felt on the capital question. I said my people were opposed to capital removal unanimously. Mr. Wells says: "Can you not make it pay you to vote the removal of the capital to Pierre?" I told him on certain conditions I might.

Q. Did you name those conditions?

A. He asked me how much money it would take for me to vote for Pierre.

Q. What reply did you make?

A. I asked him how much he would give.

Q. What did he say?

A. He said he would give me one thousand dollars, and pulled the money out; he showed a roll of bills; I do not know how much, but a big pile of money.

Q. Did he take out anything else?

A. He took out money, nothing else. He said: "I can count you out a thousand dollars right away." I said I was not prepared to say. I asked him how many men he had in the Council, and are you fixing all the boys this way. He said: "We have got twenty—sixteen solid south, and four from the north, and they all have a thousand." I told him I would see him again, and he got me up there and had me raise my hand and swear that I never would divulge anything that transpired in that room. I did not swear but I held up my hand.

Q. Now, at that interview were there any checks exhibited?

A. No, Sir.

Q. Did you have subsequent meetings?

A. Yes; fifteen or twenty; quite a number.

Q. Was there any interview when he took out certain checks and told who he was?

A. Well, the next interview with Mr. Wells, I was in a bar room, and a certain man came to me and whispered in my ear and said a man wanted to see me in forty-six.

Q. What did you do? Did you go up there?

A. No, I did not; I went up into number four first, and then went into county committee meeting and in the hall met Mr. Prentice, and Mr. Prentice said Mr. Wells wanted to see me in forty-six. I went up into forty-six. Mr. Prentice told me to rap once; this was a signal. I went up and rapped once on the door.

Q. Were you admitted?

A. I was showed in in a hurry, and the door was locked.

Q. Who was there; Wells alone?

A. Yes, sir.

Q. What occurred at that time?

A. Mr. Wells asked me if I was prepared to give him an answer on the capital removal; whether to accept his proposition or not, and I said I was. He wanted to know how much it would take; I told him it would take one thousand dollars in my pocket—give me one thousand dollars and I'll take the money and consider it the capital removal deal. He said he could not do that; he pulled out a letter and says, "Do you know who I am?" I said, "Yes,

I know you are Mr. Wells." He said I am president of something on a letter head he showed and a man by the name of——, some officer, secretary or treasurer. I saw the name on it; I told him I did not care whether he was president or what; and he said he had some checks. Said he: "I have some instructions; I would willingly pay you the money; my instructions are to pay into certain parties hands and pay after the capital is removed. I have to follow instructions. I have drafts on Saint Paul, Minneapolis and Chicago to put up, and I will agree to have them cashed before you leave the town." I asked him in whose hands he would put the money up in, and he recommended a certain man and I objected, and finally he said he would put them up in my father-in-law's hands, — Hazelton, if I wanted to, and if I did not vote for the capital removal the money would be returned.

I then went out of the room down stairs. In not over fifteen minutes Mr. Prentice came to me and told me to go back to forty-six, and I went back and Mr. Wells was there, and wanted to know more.

He said: "I have been thinking the matter over. It would not do to put up any money in your father-in-law's hands; it would make hard feelings in the family."

I interrupted and said: "That is the last thing I want done."

He said: "How would it do in Mr. Prentice's hands?" and I told him it might as well be in his own hands, and finally he suggested Mr. Blakemore. I told him if Mr. Blakemore would consent to it I was perfectly willing.

That was all I saw of him at that time, and last Friday night I was called to the necessity of going into forty-six. I was taken into forty-four, and we talked the matter over there, and he had not said anything to Mr. Blakemore; he was "devilish peculiar," or something of that sort. Well, he wanted to know if Mr. Pickler would do; I told him he was perfectly satisfactory and proper. We talked over one thing and another, how the capital was going to be removed, and how many votes they had in the House and Council. They were figuring thirty-five in the House and have enough to carry it over the Governor's veto. Well, I adjourned.

Q. The next time you met,

A. I met him next last Saturday, sometime between 9 and 10 o'clock, in room forty-four.

Q. What statement did he have?

A. He told me he had not said anything to Mr. Pickler, and asked if I had said anything. I had not. "Well," says he, "he is a cowardly fellow, and ticklish," and he asked me how Mr. Pierce would do. I told him I had not said anything to the man, and that the only safe place to deposit was in my vest pocket. He said he could not do it, and again pulled out his money and showed it to me.

Q. What further transpired that time?

A. He said he would see Mr. Pierce and would put Mr. Pierce under my instructions, and would leave a certain package in room forty-four, and Mr. Pierce would take that package and deliver it to me, and the package was to contain a thousand dollars. When the bill passed the House Mr. Pierce was to pay me five hundred dollars, and when signed by the Governor, or carried over his veto, five hundred dollars more.

Q. What did you say?

A. I told him if he made that arrangement with Mr. Pierce, why it was satisfactory.

Q. And did you separate?

A. We separated, and last Sunday, about 3 o'clock, I judge, I went into sixty-four and saw Mr. Pierce in it and Mr. Rice, and I think Mr. Huntington—I am not positive—in that room. And I went out of the room, and Mr. Pierce followed me out. Mr. Pierce said: "I understand you want to see me?"

"Yes, I said, 'I want to see you a few minutes. I want to see my father-in-law and I will be back in twenty minutes.'"

And I went down and got a certain man to go in my bedroom and locked him in.

Q. Who was he?

A. L. G. Johnson.

Q. After that what did you do?

A. I came over and got Mr. Pierce, went to thirty-nine. Mr. Pierce asked me if I thought it was cold, and he put on his overcoat. I did not have one on. We went out through the bar and we took a drink—he drank whiskey, and I drank beer—and we went out the door that leads toward Griffin's store. He says: "Let us walk this way," and I told him we had better walk up towards my room,

and we went up and went into my room and I shut the door and locked the door; it was warm and I went and raised the window. We had a little conversation.

Q. While in that sitting room what conversation, if any, did you have in regard to his having any money for you from Mr. Wells?

A. I do not know; there was not half an hour's conversation; ten or fifteen minutes.

Q. Can you pretend to give all that conversation?

A. No; I can not.

Q. Can you give the substance of it?

A. Well, if I remember right, I told him it was no use to beat the devil round the bush, and talk business, and told him it was a pretty big scheme on foot, the capital removal, and asked him many other things. I can not give the order as it occurred; I asked him if Mr. Wells had said anything to him about certain money matters; he said there was a certain package to be delivered to me; I can not pretend to give it all.

Q. State what, if anything, was said to him as to money being left with him to be delivered to you in certain contingencies, and what those contingencies were.

A. He stated that there was to be a package to be left with him to be delivered to me upon the contingency I should vote for the bill for the capital removal; I asked if certain of the other boys were taken care of, and he said they were.

Q. If you do not remember the details, state whether you directly made any new proposition.

A. The proposition was, I asked him first if he gave a thousand dollars, if he wanted to give me his note for nine hundred dollars; he did not want to give his note, and I asked him if this capital had been removed when this bill came up, how many men would have realized anything. He said only three or four; he said if a man hoed potatoes for him, it was a business transaction and he ought to get paid for his work; and I asked him how his district was, and he said there was nothing put up as far as he was concerned, but that he had the screws on Wells, so that he would be taken care of; I asked him to see Mr. Wells and see if he would deliver a certain package to me through him.

Q. What did he agree to do?

A. He agreed to see Mr. Wells.

Q. And when next did you see Mr. Pierce?

A. Next saw Mr. Pierce last Monday night; I was sitting out on the railing; there was a meeting of the county committee in there, and Mr. Pierce came up to me and spoke to me, took me by the arm and we went down that hall going west; Mr. McKenzie and Mr. Scobey were sitting on the lounge; he pointed and said: "I have that package in my pocket, and it is safe."

Q. Anything further said?

A. Nothing further.

Q. When did you next see him after that?

A. Next, yesterday morning, about 10 o'clock, between 9:45 and 10 o'clock, in room 39; he said he had that money.

Q. Alone?

A. Yes; he was talking with a man at the door; I do not know who it was; he went out; I closed the door.

Q. What then happened?

A. I told him to come to my room, I wanted to see him and to count the money and swear him; I saw Dr. Ware from Salem; I told the doctor I wished he would see Mr. Pierce and would get a private hack and come with Mr. Pierce to my room, I wanted to see him; I pulled out a dollar and handed it to Ware; he did not take it; said he had money; and I went to my room and started to write a letter to my wife; it was after ten; Mr. Pierce came in and said he had that money, and he handed me the money; he handed me one pile, one package with \$500 in; I told him: "Let me see the other;" I took both packages and shoved them in this coat pocket, and said I had use for that money; I did not know whether it was one thousand dollars or ten thousand; I did not count it; I wrote my name across the seal.

When you took that package, what transpired?

A. It was in a large paper; the package was done up in that paper; he says: "Here is this package," and took it out and I unrolled it myself; I took the money out of the packages.

Q. What conversation took place at that time when you took the packages and put them into your pocket?

A. I told him: "Let me see the other," and shoved them into my pocket.

Q. What did he reply?

A. He said he knew what position it put him in.

Q. What did he say about Wells?

A. He said it would place him in a bad light if Wells knew he had delivered them to me.

Q. What did he say on that matter?

A. He said hurry up, for the capital bill was going through with a whirl.

Q. Did he say what this was for?

A. I don't know that he did. I don't remember.

Q. Do you remember what, if any, statement he made as to your understanding what it was for?

A. My understanding was to vote for Pierre.

Q. Was that stated there at that time?

A. Yes, sir; it was.

Q. Now, Mr. DeWoody, at the time that this thing began—that money began to be talked of—state whether or not you informed others.

A. I informed others of the first proposition that was made.

Q. What was your purpose?

A. My purpose was to go to the bottom of this damnable capital fraud.

Q. Was that your sole purpose?

A. Yes, sir.

Q. Your sole purpose?

A. I certainly did not vote for Pierre.

Mr. Steele.

Q. Was there anybody else endorsed his name on the envelope?

A. Yes, sir—and Scobey was there; it was left in that manner, with the cover sealed up.

Counsel.

Q. Did you leave the room with Mr. Pierce?

A. He went out the doors a little while before and said we were in a hurry; he put on his coat; I drove up to the

capitol with Dr. Ware; we went into the room when the session was called.

Mr. Melville.

Q. I have only a question or two in reference to this matter. Mr. DeWoody, did Dr. Ware come to your place Tuesday morning with Pierce?

A. Yes, sir; he came in the hack and sat in the hack, and Mr. Pierce came in.

Q. Did Mr. Pierce sit down in the room?

A. No, sir; he stood up.

Q. How long was he in?

A. He staid a short time.

Q. And after this transaction, as you have related, and went back to the hack?

A. Not clear back; and he rushed back and said: "Hurry up, we have got to get there."

Q. I asked whether he did not wait very long.

A. It was not over three minutes from the time he came out first.

Q. When was this money delivered to the Governor?

A. It was delivered yesterday. I took it down to the Governor and showed it to him sometime about noon and showed him what I had—showed him the package. I should say it was some where about 3 o'clock yesterday afternoon; it might have been half-past two.

Q. The money was in your possession from the time he and you left on that occasion?

A. Yes, sir; I showed to Huntington and Rice and two or three other parties.

Q. Mr. Pierce and you arrived at the House together?

A. Yes, sir; we walked east and had some more private talk.

Q. And returned to the Sheridan House?

A. No, we stopped over on the corner, and he said he had to go up and see Mr. Day.

Q. About what hour was that?

A. I should say it was some where from—Oh, I don't know what hour it was.

Q. Over 3 o'clock?

A. I do not know; I will not say that it was three—somewhere from two to four; it was about the middle of the afternoon somewhere.

Q. When was the arrangement made, Mr. DeWoody?

A. It was made that afternoon; it was after the Sunday afternoon arrangement.

Q. That was the only conversation in reference to the meeting Tuesday morning?

A. Yes, sir.

Q. Now, after that you sent word by Dr. Ware?

A. I did not send word, I spoke to him at the bottom of the stairs.

Mr. Blakemore.

Q. This first meeting you had with Mr. Pierce, when did you say that was?

A. I don't remember the first meeting with Mr. Pierce in '39; the first meeting was on Wednesday.

Q. When did that meeting take place?

A. Oh, it was some time last week; Wednesday or Thursday.

Q. You can not be positive as to time of day or time of night?

A. About 11 o'clock; between 11 and 12 o'clock; mighty near midnight.

Mr. Steele—Was it before or after you saw the papers?

A. When I came down and ordered the drinks I came down and got my overshoes and auditor's report, and met Mr. Prentice at the head of the stairs; he said he wanted to see me; I called back and said: "In a few minutes," and came down in the room and got my overshoes and drank my beer and came back.

Q. There is no way by which you could refresh your memory and get at the exact day of the week?

A. We had a committee meeting the night before; I will not swear to the night; it was the same night, in the middle of the hour between 11 and 12 o'clock.

M. T. DEWOODY.

Mr. Prentice sworn, and testified as follows:

Mr. Ball—Mr. Prentice, how long have you been in Bismarck?

A. Well, I think I arrived here second or third day of this session of the legislature.

Q. Been here on business?

A. Yes, sir.

Q. What interest, if any, have you in Pierre?

A. I have real estate interests there; it is my home.

Q. Individual interest?

A. Well, I have individual interests with other parties.

Q. You know Mr. Wells?

A. I do; he is a citizen of Pierre; he is a citizen of one end of our town; he is known to the residents of Pierre.

Q. Is he in Bismarck?

A. He is.

Q. About how long has he been here?

A. He and I came at the same time.

Q. Have you had occasion, since you have been here, to take any special interest in the removal of the capital to Pierre?

A. I have.

Q. You and Mr. Wells both, to your knowledge?

A. Well, I have; what was the last question?

Q. Had you occasion, since you have been here, to take any interest in the removal of the capital to Pierre—you and Mr. Wells both?

A. Mr. Wells has been here for that purpose; I so understand it.

Q. Have you any interest in that matter?

A. I have been here in the interests of Pierre in connection with other interests; I do not know whether he has any other interests.

Q. Do you act in concert?

A. I do not know that we act in concert.

Q. Same on these matters?

A. Yes, sir, we have been very friendly.

Q. Do you know Mr. DeWoody?

A. I do.

Q. How long have you known him?

A. Well, I have known him by sight perhaps two weeks.

Q. How long have you been acquainted with him?

A. I am not very well acquainted with him now.

Q. Were you ever introduced?

A. I do not know that we were ever introduced.

Q. Have you had conversations with him?

A. Yes.

Q. When was this conversation with him that you remember of?

A. It might have been two weeks ago; cannot tell exactly.

Q. Do you remember where you first had conversation with him?

A. Well, he was boarding at the Merchants hotel, and I was boarding there; I think that was the first; that is where I came to know who he was.

Q. As to the first conversation with him, do you know where that was?

A. I think it was at Merchants hotel, at meal time.

Q. Do you remember the subject the first time?

A. I do not remember.

Q. Probably general matters.

A. Probably.

Q. Did you ride to the capitol in company with Mr. DeWoody?

A. I do not have any remembrance of it; have no remembrance of riding at all.

Q. Did you have any conversation with him on the street on the removal of the capital.

A. I had; the first one about ten days ago.

Q. Where?

A. It was on the street; Mr. DeWoody and Mr. Eldredge and I came along; it was the same time those appropriation bills were re-committed to a special committee, and I had a short conversation with him.

Q. Whereabouts on the street was it?

A. Right opposite the corner next to Griffin's; this side, I think; I don't know.

Q. What was the purport of that conversation?

A. Mr. DeWoody says: "You saw what was done up there to-day;" I said: "Yes;" he said: "We have got a pretty good combination there;" says I: "I saw those appropriation bills re-committed;" and I asked him—I think we got to talking about the capital—about south Dakota, about the capital, and I told Mr. DeWoody I was surprised to see the position he had taken, living south of the 46th parallel, he ought to stand by south Dakota; I was interested in this matter, and would like to see him come into line with the rest of the boys.

Q. And what reply did he make to that?

A. Well, he said as far as that question was concerned, he never had taken any active part, or something of that kind.

Q. Was that all the conversation?

A. It was very short, just a minute; Mr. Eldredge was there and walking along, and it was probably a minute.

Q. Did you ever have conversation with him on the subject?

A. No, sir; I might have had; have no remembrance of it now. I know I talked with a good many parties from south Dakota—south of the 46th parallel—regarding some matters I was interested in.

Q. What room did Mr. Wells have in the hotel?

A. I think it was No. 44.

Q. Did you ever introduce Mr. DeWoody to Mr. Wells?

A. I never did.

Q. Never did?

A. No, sir.

Q. Did you ever tell him Mr. Wells wanted to see him?

A. I do not think I ever did; I have no remembrance of it; I will state right here that refreshes my memory; at the same time we had the conversation on the corner, I told Mr. DeWoody: "You had better come into line and come with south Dakota, see, the Sixth District members, they can do you some good," or something of that kind.

Q. You told him he had better see some Sixth District boys?

A. Yes, sir; I referred to Mr. Blahemore, Mr. Pickler,

Mr. Miller, Mr. Pierce and Mr. Westover; they are from the Sixth District; they could make it an object to him, and do him some good.

Q. Well, that was on this Ordway institution, was it?

A. That is what he referred to. I had no objection to it at any time.

Q. Did you ever tell him that you wanted him to see Mr. Wells?

A. No, sir; I do not have any remembrance of it.

Q. Can you positively say that you did not?

A. Yes, sir; I think I could.

Q. Can you say positively that you never introduced him to Mr. Wells?

A. I can.

Q. Did you ever see him in room forty-four?

A. I never did that I remember of.

Q. Can you say positively whether you ever saw him in forty-four or not?

A. Well, I do not think I ever did. I do not think I ever saw him there.

Q. Do you remember of meeting Mr. DeWoody and having any conversation with him at the head of the stairs of this building?

A. No, sir; I do not. I do not remember having any conversation with him.

Q. Do you remember of being there last Tuesday, Wednesday or Thursday night, and seeing DeWoody in one of the corridors, when in room forty-four, or any room in which Mr. Wells was?

A. I have often seen Mr. DeWoody in room thirty-nine, Mr. Blakemore's room; I might have went in there with him; I have no remembrance.

Q. Did you meet him in the corridor of this hotel and go with him to this house in which Mr. Wells was?

A. I don't think I did.

Q. Do you know whether you did or not?

A. I am not quite positive that I did; of course, I was in the corridors, there is always a great crowd, especially in the evening, and I know most of the gentlemen from South Dakota.

Q. You say that you can not say positive that you did not?

A. Mr. Wells might have been in thirty-nine.

Q. Have you ever gone into the room when Mr. Wells was in there alone?

A. No, sir; I never did.

Q. Did you ever at Merchants' hotel in this city, have any conversation with Mr. DeWoody in which you told him that you wanted him to go with you and see Mr. Wells, and do business?

A. No, sir; I never did.

Q. Have you at any time had any conversation with Mr. DeWoody's action on this bill?

A. I think I have; I think he would be included; we have talked over all the southern members regarding this regarding this capital removal. I think it is probable I have had; I am not quite sure I have had; I told Mr. Wells I thought Mr. DeWoody would never vote for capital removal; that was my judgment about it.

Q. Did you ever have any conversation with him in which the word money was mentioned?

A. I never did.

Q. Never did?

A. No, sir.

Q. Do you know any thing whatever with regard to whether the money was to be used by any one to purchase real estate?

A. I do not, sir.

Q. Nor in legislation on this bill?

A. No, sir; I do not.

Q. Do you know nothing of that whatever?

A. No, sir; I do not.

Mr. Steele.

Q. I ask you, Mr. Prentice, if you told me you had so much stuff here, and told me how much?

A. No, sir; I never told you any such thing, Mr. Steele.

Q. I meant about the lots.

A. No, sir.

Mr. Melville.

Q. Do you know of any money having been placed in any person's hands for uses contingent on how persons might vote on this bill?

A. No, sir; I do not.

Q. Nothing of that whatever?

A. No, sir.

Q. Did you ever make a remark to Mr. DeWoody about the fellows of the seventh district playing it pretty fine?

A. Never did.

Q. About playing big stakes?

A. No, sir; I am not quite certain; I am not in the habit of talking in that way to any man.

Mr. Steele.

Q. I understand you to say that you did not introduce Mr. DeWoody to Mr. Wells; that you did not introduce him to Mr. Wells?

A. Well, I am very sure that I never did; I will say that Mr. DeWoody is a man I have no confidence in whatever; I had no confidence in him in any sense of the word: he was not a man; I do not associate with, nor a man I ever cultivate, because I had no confidence in him.

Q. Did you ever take him and walk down the isle towards 44, and he leave you and go into 44?

A. I said I had no remembrance of any such thing; Mr. DeWoody was in 39 with the Appropriation committee.

Q. The question was asked you differently: whether you did take DeWoody into room 44, or whether you took him in there and left him with Mr. Wells. Now I ask you if you took him to room 44.

A. No, sir; I never did.

Mr. Blakemore—Did you, between the hours of eleven and twelve, Thursday night, go with Mr. DeWoody in 39 and leave him and Mr. Wells together?

A. I never did.

Mr. Ball—Or any other room?

A. Or any other room.

Mr. Steele—I understood you to say, Mr. Prentice, you never offered any man any money bill in regard to influencing legislation; no money?

A. I never did.

Q. Directly or indirectly; I do not confine this to members of the legislature, but to anybody.

A. Well, I think I can say that.

Mr. Ball.

Q. Did you ever leave Mr. DeWoody and Mr. Wells together with the remark to either one of them, it may have been, "Mr. DeWoody, this is Mr. Wells," or "Mr. Wells, this is Mr. DeWoody, you can talk business with him."

A. Never; not there or any place.

Mr. Wells testifies as follows:

Mr. Ball.

Q. Where do you live, Mr. Wells?

A. At Pierre.

Q. How long have you been in Bismarck?

A. I think I came three or four days after the session begun; I do not know just what date it was.

Q. Have you considerable interest in property in Pierre?

A. Very little; I am not connected with any corporation doing business there; I am the manager of a land association.

Q. What association?

A. Land association.

Q. Since you have been in Bismarck you had occasion to take some interest in this, and possibly do some work on this capital removal bill?

A. I have not done much; I have tried to.

Q. Do you know Mr. Prentice?

A. Yes, sir.

Q. He came here with you, did he not?

A. Yes, sir.

Q. Have you been working together in this matter?

A. Not all the time.

Q. Then each one goes on his own hook on purpose?

A. Yes, sir.

Q. Do you know Mr. DeWoody?

A. I know him by sight, and met him perhaps half a dozen times.

Q. Do you remember where you first met him?

A. In thirty-nine, I think; in Mr. Blakemere's room.

Q. Who, if any one, were sitting in there alone?

A. No, sir; I think some of the members. I did not know which were there.

Q. Were you introduced to him at that time?

A. I think the second or third time I seen him I was introduced.

Q. Who?

A. I do not remember; I have not charged my mind?

Q. Did you ever have conversations at any time in regard to this capital removal?

A. Yes, sir.

Q. Where did you first have such conversation?

A. I think the first time at _____

Q. Who else was there?

A. I do not know whether any one else came in or not, but they dropped out and we sat a few moments.

Q. What was the substance of that conversation?

A. Some general matters; he asked me if I was from Pierre, and something of general acquaintances.

Q. Do you remember any occasion on which Mr. DeWoody and Mr. Prentice came?

A. No, sir.

Q. Did they ever come together?

A. Not that I remember.

Q. You can not state postively?

A. No, sir; I did not think any thing about them. If it was anything that impressed my mind, I should remember.

The special investigating committee convened at 10:20 a. m., March 5, 1885, with all the members present.

J. O. B. Scobey testified as follows:

Q. Do you know Representative Pierce?

A. I do.

Q. And L. G. Johnson?

A. Yes, sir.

Q. And Representative DeWoody?

A. Yes, sir.

Q. Do you know where DeWoody rooms?

A. Yes, sir; he rooms on front side, on main business street running east and west.

Q. Were you in his rooms at any time inside this week, give the day.

A. Day before yesterday I was.

Q. Did he.

A. Yes.

Q. I which room were you?

A. In both rooms.

Q. Were you in one room when Mr. Pierce and Mr. DeWoody were alone in another room.

A. Yes, sir.

Q. About what time was that?

A. Well, I believe it was about 10:30.

Q. What day?

A. Last Tuesday.

Q. Which room were you in?

A. I was in the back room.

Q. Who else was there with you?

A. L. G. Johnson.

Q. What is the means of communication between the rooms?

A. Folding doors.

Q. What was their condition?

A. They were closed.

Q. Tell whether or not there was any means by which you could see in the other room.

A. Well, my attention was called to an opening in the bottom of the door, cut with a knife where the doors join—in the crack in addition the hole had been cut.

Q. Could you see through out into the other room?

A. Yes.

Q. How about hearing what was said?

A. I presume it could be done. I can not tell every observation there.

Q. I ask whether you could hear much conversation or not. Did you hear much conversation of Representative Pierce and DeWoody?

A. I heard a few words distinctly—words, that was all.

Q. Did you hear anything in regard to money?

A. I do not think I heard the word money matters mentioned.

Q. Did you remember anything about the word passing between them?

A. The first word Mr. DeWoody said,—I cannot recollect his language, my impression is now that "I will take this myself," or something of that sort; that was the first words I remember.

Q. Did you understand anything of the reply to them?

A. Well, the reply was made—I won't be willing to swear what it was; it was about ———. I was in position to be sure.

Q. Did you hear in regard to the purpose for which that sum was received?

A. No, sir; I did not.

Q. Did you see what transpired?

A. My attention was called as Mr. Pierce came into the room.

Q. You saw Mr. Pierce in the room?

A. I saw Mr. Pierce in the room.

Q. State what you saw and transpired between them.

A. Well, my attention was called to his being there; I saw Mr. Pierce step up to the table, he had in his hand some kind of a package which appeared to be enclosed in a newspaper.

Q. What became of that package?

A. I cannot say whether it was laid on the table or handed to Mr. DeWoody.

Q. Do you know whether Mr. DeWoody took it?

A. It was in DeWoody's hands directly between; I can not say that he took it or not.

Q. State whether it was in his hands, and Mr. DeWoody made the expression: "I will take this myself."

A. Yes, sir.

Q. What transpired afterwards that you saw the next thing?

A. Do not think I saw anything more transpire.

Q. How long afterwards did Mr. Pierce go out?

A. Soon.

Q. Did you hear Mr. Wells' name mentioned there?

A. Yes, I did; I heard Mr. Pierce mention Mr. Wells' name, but the conversation was indistinct, but I heard his name mentioned.

Q. You said, I think, that it was very soon he went out?

A. Immediately.

Q. Immediately after Mr. Pierce left what did you do?

A. Mr. DeWoody came to the door and it was opened.

Q. Then what?

A. He had in his hands some money, I do not know how much, and he stepped to the table and enclosed it in a package and some writing.

Q. Did he and Mr. Johnson both write on it?

A. Yes; he stepped up and endorsed his name, deputy sheriff of Burleigh county.

Q. What was written previously?

A. I did not see it exactly.

Mr. Melville.

Q. Mr. Scobey, describe the door between the rooms.

A. They are double doors—folding, I think.

Q. State where they come together there is any break or any opening of the shiplap.

A. I think there is in the lap.

Q. Your attention is called to that.

A. My judgment is the lap at or near the bottom expands, and when used to see a notch has been cut into the lap.

Q. How far is that from the bottom?

A. My recollection is that it is a foot, or something of that kind; in the condition of the door it was necessary.

Q. In your judgement about a foot to see into the other room?

A. Yes, sir.

Q. About how large is that hole?

A. I can not say how large.

Q. You may state your position while looking through this aperture.

A. I did not look through.

Q. You may state how you looked through into the other room.

A. My attention was called by Mr. Johnson, I think, as to what was transpiring in the other room, and wanted me to look in, and I placed my eye to the key hole; the door was unlocked; it was not locked that night.

Q. You saw through the key hole while Johnson was on the floor looking through?

A. Yes, sir.

Q. You have stated substantially all you know?

A. Yes, sir.

Q. And all you saw? You may state how you came to be at the rooms.

A. Well, it was accidental; I was calling upon Mr. DeWoody; I went into his front room and passed a few words and stepped into the back room.

Q. Your attention was called to the manner you have indicated?

A. Yes, sir.

Q. State whether you was invited on that occasion.

A. The call was casual; Mr. DeWoody did not know I was coming, and I went to call upon Mr. DeWoody in reference to an entirely different matter.

Mr. Blakemore.

Q. You say you did not hear money mentioned?

A. No, sir.

Q. Did you see Mr. Pierce have any money there? Didn't you see Mr. Pierce having money?

A. No, sir.

Q. You can not swear that Mr. Pierce gave Mr. DeWoody money?

A. I won't swear that what I saw Mr. Pierce have in his hands was money.

Mr. Steele.

Q. You do say money and wrapped up in a newspaper?

A. When I say money—

Q. Did you see any paper lying around?

A. I can not say, Mr. Steele.

Q. Did you see a package in his hands, and immediately after Mr. DeWoody say, "I will take that myself?"

A. Yes, sir.

Mr. Ball.

Q. You did not see the process of opening?

A. No, sir. This transpired instantly; it did not exceed two minutes; perhaps not so long as this thing was going on.

Q. Did you hear the word Pierre mentioned?

A. No, I do not think I did.

Governor Gilbert A. Pierce was sworn and testified as follows:

Mr. Ball.

Q. Governor Pierce, have you a package with you delivered to you by Mr. DeWoody?

A. Yes, sir. I have a package here that I suppose is the same one, and it has been out of my hands since received. It has the appearance of being the same—here it is.

Q. When was that delivered to you, Governor?

A. Let us see—Tuesday. I think it was Tuesday afternoon; Tuesday I believe.

Q. Who was present at the time it was delivered. Who was in company with Mr. DeWoody?

A. I do not remember that anybody was with him at the time. This is the package.

Q. You have it there?

A. Yes, sir.

Q. Allow me to take it, (handing the package).

Q. Mr. Johnson and Mr. DeWoody, look at that package.

A. By DeWoody—That is the package I handed the Governor.

Mr. Ball.

Q. In the same condition?

A. (Examining it.) I think it is; yes, sir.

Q. (To Johnson.) Were you present at the time it was delivered to the Governor?

A. No, sir.

Q. Is that the package you referred to in your testimony?

A. Yes, sir.

Q. In that same condition it left your presence?

A. Yes, sir: it is in the same condition. Mr. DeWoody sealed it in my presence and Mr. Scobey wrote his name there, and my name there, (pointing to the names).

Mr. Ball.

Q. Governor, with your consent, it will be opened, (pointing to package;) (Package opened by the chairman). The money was shown and counted by the chairman, making about \$480 in one package, and \$500 in the other package. One package was marked as follows: "500, 16, 85," and the other, thus: "500, 2, 16."

Mr. Melville to the Governor.—Was this money under your control while out of your possession?

A. No, sir.

Q. State what was done with the money.

A. Mr. DeWoody handed it and asked me if I would keep this package. I supposed it to be a package of money he handed to me, and I told Paul to put it into the vault. When Mr. Holt came in, something was said about it and he said that the vault was rather an improper place to keep it, nothing but the floor to lay it on. He put it in the safe until evening. I told Mr. Holt to take the package. I do not know what bank he put it in, or anything about it.

NOTE.—Mr. Steele moved that the money be put into an envelope and then put in another envelope and the chairman to take charge of it until the bank officers came before the committee, which was carried.

BISMARCK, Friday, March 7, 1885.

Committee convened at the Capitol building at 10:30 A. M. George W. Pierce sworn, says:

Mr. Ball.

Q. What are your initials?

A. G. W. Pierce.

Q. You are a member of the House of Representatives?

A. Yes, sir.

Q. Do you know Mr. DeWoody, a member of the House of Representatives?

A. Yes, sir; some slight acquaintance with him, probably as little as any member in the House.

Q. Do you know Mr. L. G. Johnson?

A. Somewhat acquainted; not a great deal; I could not swear I know his given name.

Q. Do you know Mr. Wells, of Pierre, and the Mr. Prentice?

A. Yes, sir.

Q. Do you know where Mr. DeWoody rooms?

A. Well, I could not swear positively; I was in his room Tuesday, at about half-past 10 o'clock.

Q. Tuesday last?

Mr. Melville.

A. Yes, sir; I was in probably one minute.

Q. What was the occasion of your visit there at the time?

A. Well, Dr. Ware, that is the name, came to room thirty-nine; the members of the Council of the sixth and seventh districts held a meeting there pertaining to Cameron and Codington county, something I am interested in, and came at the request of Mr. DeWoody; I took a carriage and came up past where Mr. DeWoody stopped; Mr. DeWoody wanted me to stop and ride up together; I said this capital bill is coming up and I can't bother to stop with anybody, I will see if I can stop in a minute, if so, I will do so, he went away, and came back again, I think, in a quarter of an hour and said, "Can you go; are you ready to go up there? I can go right away." I stood in the doorway and whispered to Westover and Day, members of the committee, and says I, "You see that my interest on this county matter does not suffer, I must go up to the capitol," and then went down stairs; the Doctor says by his watch it is half-past ten; I said, "It is high time; I wish we was there and started," and went down stairs and got into the carriage and stopped at the place near the furniture store, I do not know whose place it is; he says, "That is the place," and jumped out and stepped in, and Mr. DeWoody was in the front room; the curtain was up on the street there; I was in there probably one moment.

I says, "The capital bill is coming up, and it is time I was up there. I said, "Come on, if you are coming up with me, there is no time to loose." I started out to the carriage; I

supposed he was following me, but he did not come at once. I asked him something; I don't remember the exact words: "Dr. Ware said he wanted me to stop with you and go up; this capital matter is coming up, and we want to be getting up there"—some few words; I couldn't say exactly what was said. I said, "Come on;" I supposed he was following me and got into the carriage, and sat there probably a minute; he did not come; I said to Dr. Ware, "We must be going," and jumped out the second time. He was in the hallway; he was coming, and said, "We must be going." I said, "Dr. Ware told you before that Mr. DeWoody wanted you to call for him and all go up together." "Yes," Dr. Ware said, "Mr. DeWoody requested me to come up there."

Q. When you stopped in front you did not send the driver in to notify him that you were ready?

A. No, sir; I did not say anything to the driver.

Q. You say something was said about the capital removal?

A. I had no time to bother and stop to wait.

Q. Was Mr. Wells' name mentioned?

A. No, sir; not to my knowledge.

Q. Not by you?

A. No, sir.

Q. Was there any occasion for his name being mentioned?

A. No, sir; not that I know of.

Q. Can you recall the subject matter in the conversation?

A. No, sir; there was no occasion; his name was not used at all.

Q. Did you while in there on that occasion give anything to Mr. DeWoody?

A. No, sir; I did not.

Q. Have no package at all, of any kind?

A. No, sir.

Q. Did you hear any remark made by Mr. DeWoody in reference to his keeping anything, nothing of that kind?

A. No, sir.

Q. Do you know Mr. Scobey?

A. I have known him for a number of years.

Q. You have heard of the connection your name has been mentioned in this matter?

A. Yes, sir.

Q. Have you had any talks in reference to that with Mr. Scobey?

A. Yes, sir.

Q. One or two, have you not?

A. I think Mr. Scobey came to me once or twice.

Q. The one occasion for this inquiry was commenced at the Sheridan House, was it not?

A. I think that was the place; would not swear positive that he spoke to me prior to this occasion that you have referred to on Tuesday.

Q. Were you ever in that same room before?

A. No, sir.

Q. Not in there at all on Sunday?

A. No, sir.

Q. Then of course you held no conversation with reference to this matter on Sunday?

A. No, sir; none whatever. I was in my room at the Sheridan House all day Sunday, and pretty near on the sick list, and saw Mr. Melville on Sunday once or twice on the floor of the Sheridan House.

Q. How far is this place from the Sheridan blocks and parts of blocks?

A. I could not say just how far it is; possibly a block.

Q. Mr. Pierce, did you not state in the course of conversation with Mr. Scobey there since the investigation commenced that you delivered a package to Mr. DeWoody?

A. No, sir; to no living soul—NEVER!

Q. As a matter of fact, did you deliver any package of any kind to Mr. DeWoody?

A. No, sir; I never had any package to deliver to anybody.

Q. Do you know whatever of the use of any money, directly or indirectly, to influence legislation in this Capitol removal?

A. No, sir; no man living offered me money, myself or to pay to any one.

Q. Had you a conversation with Mr. Wells with reference to this matter?

A. His room is near mine in the Sheridan, and members of the Districts have been very social together. Mr. Wells never asked me to vote for the Capitol business.

Q. You say you have talked with him in reference to it there?

A. Socially; we have talked nothing of account, whatever.

Q. Did you ever have conversation with him on matters of money, directly or indirectly, whatever?

A. None whatever.

Mr. Melville.

Q. Mr. Pierce, did Mr. Wells, at any time, deliver to you any money to be delivered to Mr. DeWoody, or anybody else?

A. No, sir; he never did.

Q. Did you ever, directly or indirectly, receive from him, or get from his room, or any other place, any money since you have been in Bismarck, for the purpose of delivering it to Mr. DeWoody or any other purpose?

A. No, sir; most emphatically.

Q. Did you ever at any time or place make any arrangements with Mr. Woody whereby you were to deliver to him money, package, or any thing of any kind?

A. No, sir; never made any arrangements with Mr. DeWoody, and had but very little acquaintance with him.

Q. You may state whether you, in a general way, have talked with Mr. DeWoody in reference to the Capital question.

A. Well, sir; I have talked very little, probably as little as any man in the House.

Q. You may state on the morning of Tuesday last, whether Mr. DeWoody and you had any conversation when you went into his room.

A. No, sir; I did not.

Q. You may state whether you went to that room for any other reason than because you were summoned by Dr. Ware.

A. No, sir; I really went there under protest at any time.

Q. Did you know what Mr. DeWoody wanted of you?

A. No, sir; I have no idea.

Q. Did you make no arrangements with Mr. DeWoody whereby you was to see Mr. Wells and get money or checks for him?

A. No, sir; I never did.

Q. Did you ever have any talk with him in which you said Mr. Wells would put up money in the hands of any person for any purpose?

A. No, sir; none whatever.

Q. You may state what hour did you leave the Sheridan House on Sunday afternoon, if you left it at all.

A. Well, as well as I remember, Charlie Crouch was talking to me some time during the afternoon and wanted I should go up and see Mr. Day about Spink county. I told him the boys' wishes in the county would be my wishes. I did not wish to interfere with county seat matters, but I would see Mr. Day some time in the afternoon. Mr. Crouch suggested I should go up about half past three, but I told him I had letters to write and did not want to go up and preferred to talk with Mr. Day himself, and say what he preferred in the matter without any influence.

Q. Well, as a fact, did you come up that afternoon?

A. I did.

Q. What hour?

A. As near as I remember, about half-past 4 or 5 o'clock; I don't remember distinctly.

Q. On the way did you see anything of Mr. DeWoody?

A. I did.

Q. And where did you see him?

A. I think I met him at the foot of the stairs at the Sheridan House.

Q. State whether he accompanied you to Mr. Day's room.

A. I met him there on the stairs; we walked up some ways together; I think we went up past the new hotel that is not opened, I could not say where on that street, and talked over various things, and some little about the capi-

tal matter, and told him the seventh district, and our district, and others ought to pull together, and no particular conversation, and came back, and I went to Mr. Day's room.

Q. Where did you leave him?

A. On the street; I went up to Mr. Day's.

Q. You say at no time did you ever have conversation in reference to any consideration for his vote in any manner?

A. No, sir; his or anybody else.

Q. State whether on that morning you had anything in your hand when you went in.

A. No, sir; I might have had a newspaper in my hand; I would not swear.

Q. You had no package?

A. No, sir; I did not.

Mr. Ball.

Q. On this Sunday afternoon about how far did you walk with Mr. DeWoody on the street?

A. Possibly a couple of blocks; I could not swear.

Q. A couple of blocks and returned?

A. Yes; we came down together, I turned and went up the street to Mr. Day's.

Q. Is Mr. Day's room or place on this same street where Mr. DeWoody's room is?

A. West of the Methodist church.

Q. In this walk did you go by Mr. DeWoody's room? You spoke of going by the new hotel, the Lamborn House, and it is on corner 6th and Main street.

A. I think we went by that.

Q. On Main street?

A. I think it is the Main street; we went up east.

Q. And you walked from the Sheridan House up Main street?

A. Yes.

Q. As a matter of fact, is Mr. DeWoody's room in the block west of that hotel?

A. Yes, sir; I think it is; I could not swear to that.

Q. That was on Tuesday?

A. Yes, on Tuesday.

Q. And as near as you can fix the time between 4 and 5 o'clock?

A. No, I can not swear exactly to the time; I did not look at it.

Q. On your return how far west did you come with Mr. DeWoody back toward the Sheridan House?

A. I cannot remember which block we turned on; I could not swear which one.

Q. You said something about Mr. Crouch I wish to connect.

A. Mr. Crouch and Mr. Ellis were talking to me about their Spink county matter, and wanted me to see Mr. Day and talk with him and see which place he preferred, Ashfield or Redfield. I wanted to keep out and let Mr. Day run his own county matter.

Q. You started to see Mr. Day; was he gone, and you went out with Mr. DeWoody at the time?

A. Yes, I think I met him at the foot of the stairs; Mr. Crouch urged me to see Mr. Day.

Q. That was in your room?

A. Yes, sir; in thirty-nine.

Q. I understand you have had no conversation with Mr. Scobey since this inquiry began, as you have stated or words to that effect, that on this Tuesday morning in Mr. DeWoody's room; I refer to this particular conversation; you never said to him you ever delivered any package of any kind to Mr. DeWoody?

A. No, sir.

Dr. M. Ware sworn and testifies as follows:

Mr. Ball.

Q. Where do you live?

A. I live in Salem, McCook county, Dakota.

Q. How long have you been in Bismarck?

A. I came here the 29th day of January, I think.

Q. Do you know Geo. W. Pierce, member of the House of Representatives?

A. Well only since I came here.

Q. Did you ride up to the capitol on Tuesday of this week?

A. I did.

Q. Where did you start from?

A. We started from the Sheridan House.

Q. Did you stop on the road?

A. Yes, sir.

Q. Did Mr. Pierce go with you?

A. Yes, sir; he did.

Q. At your request?

A. Not at my request.

Q. How was that request? How did you get him into the hack?

A. I told him Mr. DeWoody had asked me to engage a hack and go with him to his room and we could go up to the Capitol together.

Q. From the Sheridan House where did you go with the hack?

A. We went a block or two; I am not positive; it is right across by the Lamborn House.

Q. What transpired when you stopped at that place?

A. I remarked to Mr. Pierce: "You had better go in there and call him," so he did.

Q. What time was he in?

A. About long enough to go into the house and say to a man that it was time to go. No time for lengthy conversation.

Q. Did he come alone?

A. He came alone.

Q. What did he do?

A. He sat there and waited, talking of Codington county matters, probably eight or ten minutes. I then said: "I don't believe that man is coming out; go and call him again," and he got out and went into the house.

Q. How long?

A. He did not get out of sight; Mr. DeWoody then joined him and they got into the hack together and we drove on. That comprises my entire knowledge of the matter that took place that morning connected with our ride up there.

Mr. Melville.

Q. Dr., I wish you would detail more specifically from the time he came to you till the time you left Mr. DeWoody's place and started to the Capitol, Mr. DeWoody's conversation at the time he requested you to do this.

A. I had just started to go and see Mr. Westover, and just as I started on the matter, at the stairs Mr. DeWoody spoke to me and says: "Say to Mr. Pierce that I want him to take a hack with you so we can go up together, but I have some writing to do and will then go right off. He offered me some money, perhaps fifty cents or a dollar to pay for the hack. I simply remarked that I had money enough to pay for a hack if I wanted it. Up stairs I found Mr. Pierce in room thirty-nine. I told him what I was to say. Mr. DeWoody wanted me to take a hack and go up to the Capitol. Mr. Pierce answered and said as I stated it in this matter. He says: "I do not know that I can do it; I am busy here with a county matter." I says: "I have done my errand." I started to walk off, and he says: "How long will it take? Say it will take fifteen or twenty minutes; I will wait for you if you take that length of time." I went out and gave directions to the driver. We stopped. I told Mr. Pierce he had better go in and call. I could not fix the time he remained in. By a circumstance I can fix it.

Q. Give that circumstance.

A. When the driver got down and came to let us out, his dog jumped from the boot where he had been sitting, and he motioned to the dog to go back, and instead of jumping back he jumped into the hack where I was. He sat in front of me; I sat on the back seat. Says I to the driver: "Take the d—n thing out of here." He reached in and took his fore legs to take him out and put him into the boot. That's about the time I made of it.

Q. How long did it take the driver to do that?

A. A very short time. I should think a couple of minutes, not longer.

Q. What conversation was you and Pierce engaged in while riding from the Sheridan House?

A. He talked about Codington county matters.

Q. What course did the conversation take?

A. We talked about Codington both before and after visiting the room.

Q. I ask you if you visited the rooms of Mr. DeWoody last night?

A. Yes; I guess there were six or seven in the room.

Q. Who was there with you?

A. We found there Mr. Bayard and Swanton and Blake-
more.

Q. State whether you examined the joints of the fold-
ing door, and made observations; if it was open so any-
thing could get sight of in the front room?

A. We were there on the premises.

Q. State what you saw.

A. Well, the doors were as they came together—they
came within half an inch—a kind of shiplap joint; proba-
bly eighteen inches from the bottom, there was a little
round place cut out through the sitting room door. •

Q. About how large?

A. Quarter of an inch, possibly more; Farmer bent
down and looked, and I looked through it.

Q. Did you?

A. I did.

Q. You may state who looked through that hole.

A. Four or five looked through the door.

Q. How high was it?

A. As high as the waist of a man.

Q. You could not see as low as the waist of a man?

A. [Showing by hands]. Let me sketch it. You could
not see to the right; by looking up you could catch a par-
ticular portion of a man; if you moved to the right or to
the left, that obscured it.

Q. Could you see a man in more than one specific posi-
tion?

A. Not last night.

Q. In looking across the room, what would be the
limit of vision?

A. Other persons then looked through with me. I
should say not more than that much [showing with hands].

Q. That would be on the opposite side of the room.
halfway across it would be narrower?

A. Yes, sir; we could just distinguish a person at the
end of the table.

Q. Could you recognize a man?

A. He had to adjust himself in one particular place to be recognized.

Q. If he moved up you could not recognize him? Would it be possible for a person to enter the room, and every time he entered the room, and set on the couch opposite and faking various places in the room, and from your place to observe his action?

A. No, sir; if you had a man in one position you could see him, if you could not hear him.

Q. Could you see what a man had in his hand at the table?

A. No; because I could not see anything on the table.

Q. So that a person sitting at the table then, could not see what he held in his hands?

A. No; the limit of vision was just to one place. I will illustrate that if I can [Illustrates]. Now, to let this represent the door, referring to the side as you go in, the door is cut to fit in and the other would shut in like that; one was cut out, about an inch, this is part of the door, the edge of the door would prevent you from seeing [illustrating] that side; if you moved this side of the door prevented you.

Mr. Johnson.

Q. You state they looked from the door open in that shape?

A. No, sir; the lap covers the space; the joint fit entirely this way, because it just hung in enough to come by the other lap, there is a little space.

Mr. Mellville.

Q. Well, if it were not for the hole you could not get any view into the sitting room?

A. No, sir.

Q. I would ask you from your observation made, what the line of vision would be four feet from that door?

A. It would be very limited.

Q. Estimate it.

A. Well, just estimating without measurement, I would say a man would not see over two feet; I do not think he could see three.

Mr. Steele.

Q. Doctor, you stated that hole was at least one-fourth of an inch in bigness, how far back was you from the door when you looked?

A. I was close to it; I got as close as I could.

Mr. Blakemore.

Q. Is that cut in with sharp angles, or rounded?

A. Rounded, to the best of my recollection.

Mr. Melville.

Q. So that if it had been cut in an angle it would be more open?

A. Yes, sir.

Mr. Ball.

Q. What is the thickness of that lap?

A. I should estimate probably from half to three-fourths of an inch. I merely judge that.

Q. Now one portion with reference to seeing through the keyhole. How about that, too?

A. Yes, we looked through the key hole. It was more limited through the key hole than through the hole.

Q. What did you see through the key hole?

A. The range of vision was limited more than by looking below.

Mr. Blakemore.

Q. Do you think it is possible for two men to occupy positions and one look through the hole and one through the key hole and both see what was transpiring in the room?

A. Yes, sir; I think it could.

Mr. Melville.

Q. Providing they were within in the limit of vision?

A. Yes, sir.

Q. Would not the looking through a key hole drop the line of vision.

A. Yes, sir.

Mr. Ball.

Q. You may state whether in your opinion, might a man see what a man had in his hands sitting at the table or how would that be?

A. Well, if the range of vision of the man's hands came within it, of course you could see.

Objected to by Mr. Melville.

Objection overruled.

Mr. Ball.

Q. Doctor, prior to your going over there on Tuesday morning, did you have some conversation with Mr. DeWoody except what you have detailed?

A. Not that I remember of. I don't remember I had any conversation but that.

Q. In that conversation was there any more than you have detailed?

A. Not that I recollect.

Q. Was there anything said in regard to money or anything of that kind?

A. Nothing was said but about hack fare, what he offered me for the hack. I did not count it, I judge fifty cents or a dollar.

Q. Doctor, do you know anything, whatever, in regard to the use of money, directly or indirectly, to influence legislation here?

Objected to by Mr. Melville unless it refers to Mr. Prentice and Wells under this resolution, which objection was sustained.

Mr. Wells testified as follows:

Mr. Ball.

Q. Mr. Wells, in your previous testimony given before the committee previously, you had occasion to state that you had used no money except for payment of board bills and attorneys' fees, etc.

A: Yes, sir.

Q. How much money have you used in the payment of board bills?

A. One hundred and forty dollars.

Q. And attorney fees?

A. I think about fifty dollars.

Mr. Steele.

Q. How much board, Mr. Wells?

A. One hundred and forty dollars at the Sheridan.

Mr. Ball.

Q. You refer to your own or friends?

A. My own. I have paid no board except for one man who was here a couple of weeks, I paid for.

Q. Mr. Wells, what amount of money did you bring here when you came here?

A. Three of us came; we received a telegram and started before the bank was open. I think I had a draft and seventy-five dollars. I got the draft cashed.

Q. What date when you came here?

A. We left on Monday.

Q. Give the day of the session.

A. We got here Monday before the session.

Q. Have you had occasion to draw money since?

A. No, sir.

Q. Have you received any large sums of money since?

A. Yes, sir; I received one thousand dollars from Mandan. I telegraphed that we had got out of money and that they had better send some on the Dakota Bank. I said we got money at Mandan; I think about one thousand dollars.

Q. In packages?

A. No, sir; some gold and some bills. My recollection is about two hundred dollars gold and about five hundred dollars. After I received it I made a draft for that money on the Dakota Central Bank.

Q. Have you received or know of others receiving money for you in which you were directly or indirectly interested, from the Fargo Banks?

A. No, sir; I gave McNamara, who stayed three weeks, I gave him two hundred and fifty dollars, and I gave it out of the money I received from Mandan.

Mr. Ward.

Q. Wells, did you become acquainted with a man by the name of Dillon?

A. Yes, sir; I met him, that is all; he has a brother.

Q. Did you have a conversation with him to retain him?

A. No, sir.

Q. Any offer to influence him or members of the Third District?

A. No, sir; I never had but a casual conversation at the hotel, and but very slight acquaintance.

Mr. Steele.

Q. Mr. Wells, do you know of anybody receiving any money from Fargo parties while in Fargo?

A. I do not, while in Fargo. I have no acquaintances in Fargo; never was there before.

Mr. Melville.

Q. You may state if it was to retain.

A. It was.

Q. Out of this thousand dollars; two hundred and fifty dollars were paid to McNamara?

A. It was; whatever my expenses have been, too; I also lent Mr. Prentice two hundred dollars.

Q. When did McNamara leave for Washington?

A. Left four weeks ago.

At this point a motion was made and carried that the committee examine Mr. DeWoody's rooms at 12:30 o'clock. The committee adjourned to 1 o'clock P. M.

Committee convened at 2:15 P. M.

Mr. Pierce recalled.

Mr. Ball.

Q. Referring to a conversation which took place between you and Mr. Scobey concerning the investigation which is now in progress, and the facts which are being investigated, did you, in the course of that conversation make any statement as to what you might or could testify to?

A. No, sir; I did not.

Q. Did you make any statements in form like this: "Suppose I should testify that I found a package and took it from there?"

A. No, sir; no such conversation.

Q. Did you make any such statement of that purport concerning this matter?

A. No, sir; nothing of the kind.

Q. In no conversation?

A. No, sir.

Mr. Scobey being recalled.

Mr. Ball.

Q. Mr. Scobey, I ask you whether or not you have had

a conversation, one or more, with Geo. W. Pierce in regard to the subject matter of this investigation since it commenced?

A. Yes, I have had one or two conversations with him.

Q. A day or two after this investigation commenced this week?

A. Yes, sir.

Q. Mr. Scobey, how did that conversation come about?

A. I went to Mr. Pierce after this investigation was instituted and talked with him about the matter, and his name being mentioned, and I talked with him and asked him about it; I told him substantially what I told you before, and how I was pained to see it.

Q. Did he deny it?

A. Yes, sir; Mr. Pierce denied the circumstances to me at all times, as you see. I related to him substantially what I had seen while I was there.

Q. That he denied?

A. Yes, that he denied.

Q. Did the conversation continue?

A. Yes, sir; we had quite a talk.

Q. What was your purpose in the conversation?

Objected to by Melville.

Objection overruled.

Q. What was your purpose in that conversation?

A. Well, my purpose in going to Mr. Pierce was a friendly purpose, being a friend of his and I went and talked the matter over with him.

Q. To advise with him?

A. No; I went to Pierce as I said, being a friend of his, to simply say to him what I had directly been forced into seeing, and with only one purpose in my mind, and suggested to him, I believe, in view of some rumors I heard was going to be covered up by some evidence. The only thing Mr. Pierce could do in the matter was to make a full statement and give my evidence, which was true and correct.

Q. Was that purpose expressed in your conversation with him?

A. I don't remember the exact words of our conversa-

tion, but that was my purpose. The air was full of rumors that this was going to be covered up by certain kind of evidence in view of the fact that I gave evidence and went to suggest to him that my evidence would have to be so and so, and it was much better we should make a fair statement of all that matter. It was not just to place his friends in that position and I would testify to what I have seen.

Q. Now, after that talk with him, what did he say, if anything, in regard to a suspicious piece of testimony which might be given by him in regard to a package?

A. Well, the only recollection I have of any conversation of a suspicious piece of evidence, I asked this question, I think it was about in this form: "Suppose that I should testify or the evidence should be that I found a package here in a certain room and took it from there, (of course referring to the place where this is alleged to have taken place) and delivered it without knowing what it was; what position would that put the matter in?" That is about the substance.

Q. What reply?

A. He replied that of course (without questioning my evidence) I saw him with a package in his hand, and I suggested to him that in all probability (unless he desired to further question the manner in which he came in possession of that package) it would make a very bad case for him.

Q. That was your reply, that it would put him in a bad light.

A. No, sir. My purpose in talking to him was the only sure and straightforward one for him, and I would have said what I had seen. I did not care to have any friend of mine put me in a position where there would be a conflict of testimony, and especially such a man as Mr. Pierce has been. I went to him upon seeing these various rumors circulated. Of course, I did not know there was any foundation for them, and suggested these rumors were in the air and it was not the course to pursue.

Mr. Prentice recalled.

Mr. Ball.

Q. Do you know anything about any money being telegraphed here from Pierre?

A. I do.

Q. Do you know anything about the sum of \$1,000 being telegraphed over to Mandan?

A. No, sir.

Q. Do you know anything of money being furnished directly or indirectly for use here in Bismarck in connection with the capital removal scheme through any bank in Bismarck?

A. I do not.

Q. Or any money coming here for any purposes, addressed in care of any such person through the express company?

A. No, sir.

By Chairman.

Q. Did you ever at any time offer money to Mr. Dillon to use his influence with the members of the Third District?

A. I did not.

Q. Any talk of retaining or employing him as attorney for any members in such conversation. You know him?

A. I did not.

Q. Do you know about a package and using three to five hundred dollars?

A. Yes, sir; I remember it. I should know it. I have _____ dollars. I would say Mr. Dillon's brother is my attorney in Pierre. Mr. Dillon drew a bill for me while here.

Q. You did have some talk with him about the Third District, and you say you have no recollection about retaining him; do you say that way or did you have any such conversation?

A. I had no such conversation. I talked with him.

Q. You consider Mr. Dillon a reliable man, do you not?

A. Yes, sir.

Mr. Johnson moved the adoption of the report, which motion prevailed.

REPORTS OF SPECIAL COMMITTEES.

MR. SPEAKER:

The undersigned members of your committee to whom
 was referred

House Bill No. 395,

Beg leave to report that they have had the same under
 consideration and believe that the bill ought to pass for
 the following among other reasons:

1st. The amendment incorporated by the House in the
 bill, creating the railroad commission, giving the commis-
 sion power to fix rates in certain cases, is, we believe, a
 dangerous power to lodge in the hands of three men. It
 virtually takes control of railroad property out of the
 hands of the men who built the roads and puts it into the
 hands of strangers.

2d. It will not be of any value to farmers or the ship-
 pers, because the legislature only has power to establish

rates within the territory. It cannot effect the rates on grain which is shipped out, nor on the lumber, goods, etc., which are shipped in.

3d. It is a standing menace and threat to the railroads. It will, we believe, retard and impede the building of rail roads in the territory as long as it remains as the law of our territory.

For these reasons, and for many others which will suggest themselves to thoughtful men, we believe the law, as it now stands, would be detrimental to the interests of the people and the rail roads. We believe in encouraging the building of railroads in the territory rather than indulging in legislation which will tend to retard our future growth and development.

All of which is respectfully submitted.

E. HUNTINGTON,
MARK WARD,
T. M. PUGH,

I do not endorse all the reasons enumerated in the foregoing report, but recommend the passage of the bill.

E. W. MARTIN,

MR. SPEAKER:

The undersigned, members of your rail road committee, beg leave to report, recommending that

House Bill No. 395. A bill for an act for the repeal of certain portions of the bill known as the "Railroad commission bill,"

Do not pass.

HANS MYRON,
A. L. VAN OSDEL,
C. W. MORGAN,

MR. SPEAKER:

T. M. PUGH,
S. E. STEBBINS,
P. McHUGH.

MR. SPEAKER:

A minority of your committee on Agriculture would re-
spectfully recommend that the bill do pass for the follow-
ing reasons:

The territory needs all the information it can get on
horticulture and forestry, if the information can be got for
a reasonable sum. The sum asked for in this bill is small
in comparison with the importance and magnitude of the
industries of horticulture and forestry. The publishing of
the reports of the Horticultural society in connection with
the report of the Board of Agriculture, is very desirable,
and the two will make a valuable pamphlet for the people
of Dakota. We therefore recommend that the bill pass.

H. W. SMITH.

Mr. Johnson offered the following resolution:

Resolved, By the House of Representatives of the Legislative Assembly of Dakota, sixteenth session,

NORTHWOOD, March 7, 1885.

To the Legislature of the Territory of Dakota, now in session at Bismarck:

We, the undersigned residents and tax-payers of the village of Northwood, Grand Forks county, Territory of Da-

kota, having heard with astonishment the rumor that a movement is now on foot to have the Legislature now in session, pass a bill to grant Northwood a charter as a city, do hereby protest against such legislation and earnestly petition your honorable body to refuse to pass the bill mentioned, as it is entirely against the wishes of the people of Northwood, with only three or four exceptions, who are interested in town lots. Outside of the three, Messrs. Hougan Bros.—who own the town site, and Mr. J. B. Edwards—who was sent by them to Bismarck to have the bill presented—no one here was aware of the movement. There are now only eight families living in the village, and altogether not over twenty or thirty persons who are residents.

GILBERT A. PIERCE,
Governor.

EXECUTIVE OFFICE, BISMARCK, Dak., March. 13, 1885.

To the Speaker of the House of Representatives:

I herewith return

House Bill No. 71,

With my objections to its becoming a law:

A measure of this kind demands careful and candid consideration, both because of its importance and because of the acknowledged sincerity and high character of those who favor it. There are certain reasons, however, why I cannot approve such a measure at this time and other reasons why I cannot approve this particular bill.

It is desirable, in my judgment, that we act so far as possible as if we were governed, restrained and guided by a constitution adopted by ourselves.

If we had a constitution modeled after the states an extraordinary proposition like this would be submitted to the people. If Congress thinks woman suffrage wise, it has the power to establish it. It is unfair to shift the responsibility on the Territories and then hold them responsible for alleged imprudent legislation.

I am assured the enactment of this law will delay our claims to statehood, and at so critical a period it is better that no pretext whatever be given for such postponement.

It is doubted by many, if a majority of the women of Dakota want the franchise. The point is made, and a very good one, that the fact that one woman does not want a

right, is not a justifiable reason for refusing it to another who does. Yet it must not be forgotten that the enfranchisement of women confers not only a privilege, but a grave burden and responsibility. We condemn the man who neglects to vote, as recreant to his duty. If women are enfranchised, the right conferred becomes an obligation as imperious to them as to men; as binding on those who oppose as those who favor this act. I think the women of Dakota should have a voice in determining whether they should assume this burden or not.

So much for the general proposition.

There are two other features of this bill which I can scarcely think satisfactory to the advocates of woman suffrage themselves. I am surprised that they should appear in a measure claiming to advance the rights of women. If the vote of women is needed anywhere it is in our cities. In many existing city charters a distinct clause appears providing that males alone shall possess the qualifications of electors. In this bill the word male is only stricken out of one chapter of the Code, leaving the disability still standing against hundreds of women equally entitled to recognition.

The women of Sioux Falls, the women of Mitchell, the women of Brookings, the women of Chamberlain, of Watertown and a great many of the most important cities in Southern Dakota, would be disqualified from voting under these special enactments, even though this bill became a law. At this very session charters have been created with that provision retained and they would make this bill abortive and largely inoperative.

A still more objectionable feature and one deliberately inserted, is the clause debarring women from the right to hold office. If the word "male" had been stricken out of the Code and no other action taken they would have been eligible, and I believe there is a wide feeling that many offices, particularly those connected with penal and benevolent institutions, could be most appropriately filled with women. But this clause practically forbids their appointment. If women are good enough to vote, they are good enough to be voted for. If they are qualified to choose officials, they are qualified to be chosen.

I do not say that I would approve this measure were it otherwise worded, but I certainly would not endorse a bill which thus keeps the word of promise to the ear and breaks it to the hope; which deliberately and avowedly de-

bars and disqualifies women while assuming to exalt and honor them.

These objections are apart from the abstract right of women to the ballot, but they show how necessary it is to approach such a subject with deliberation.

If women are to be enfranchised let it be done, not as a thirty days wonder, but as a merited reform, resulting from mature reflection, approved by the public conscience and sanctioned by the enlightened judgment of the people.

GILBERT A. PIERCE,
Governor.

The question being:

Shall the bill pass, the Governor's veto to the contrary notwithstanding.

The roll being called, there were 19 votes in the affirmative and 26 votes in the negative, viz:
