MESSAGE FROM THE SENATE

Senate Chamber,
Bismarck, North Dakota,
February 21, 1933.

Madam Speaker: I have the honor to inform you that the

Senate has concurred in the House amendment to Senate Bill No. 1.

Senate Bill No. 1. A Bill for an Act providing for the redemption of real estate sold or forfeited to the County for taxes for the year 1931 or any prior year and still held by the County and fixing the rate of interest and penalties upon real estate taxes and tax sale certificates upon taxes levied and assessed for the year 1932 and subsequent years; providing for installment payments, penalties and interest, and declaring an emergency.

Also,

I have the honor to transmit herewith the following bills:

Senate Bill No. 266. A Bill for an Act to repeal Section 2263 of the 1925 Supplement to the Compiled Laws of 1913 relating to County Agent work, and to provide for agricultural development through Farm and Home Councils and County Agents; to provide the method of appointing such Agents and Councils, and to prescribe their powers and duties; to provide for the levy of a tax therefor; and to provide a method of discontinuing such work.

Also,

Senate Bill No. 283. A Bill for an Act authorizing and requiring the Board of County Commissioners where drain bonds are issued to retire outstanding drain warrants to pay a just amount of the drain assessments against tracts of land acquired by the County by tax title in cases and where the value of the land so acquired exceeds the amount which would have been required to redeem the land at the time tax deed was issued and the amount of taxes which probably would have been levied against the land if title had not passed to the County.

Also,

Senate Bill No. 264. A Bill for an Act requiring a County that has acquired, or hereafter acquires, tax title to a tract of land subject to drain taxes to charge against such tract the amount required to redeem when tax title was acquired, and the amounts for which general taxes would have been levied if such tract had been subject to taxation; and to credit against such charges any income received from the land, while the County was owner; and upon sale of such land to pay into the drain fund any excess received over the amount of such charges, after deduction of such income.

Also,

Senate Bill No. 321. A Bill for an Act to amend and reenact Section 4926 of the Compiled Laws of 1913, providing that insurance and surety companies shall do business only through authorized agents within the state.

Also,

Senate Bill No. 231. A Bill for an Act making all moneys deposited in the Bank of North Dakota not subject to garnishment.

Also,

Senate Bill No. 261. A Bill for an Act to fix the time at which payment shall be deemed to be complete when made by check, draft or other negotiable instrument.

Also,

Senate Bill No. 111. A Bill for an Act to repeal Section 10185B of the Supplement to the 1913 Compiled Laws of North Dakota relating to prohibiting smoking in specified places, and the penalties.

Also,

Senate Bill No. 190. A Bill for an Act to amend and re-enact Section 17 of Chapter 101 of the Session Laws of North Dakota for 1927.

Also,

Senate Bill No. 219. A Bill for an Act providing that any person applying for a license to practice any profession in North Dakota where a license is required to so practice, must be a citizen of the United States, or has declared his intention to become such citizen, before such license can be granted.

Also,

Senate Concurrent Resolution No. M. A Resolution petitioning the Congress of the United States to permit the actual wheat farmer and producers of the United States to make application for and receive their reasonable allowance of the crop production funds made available by the Congress of the United States, and to use such funds for the purpose of buying December wheat at the existing quoted price through the Chicago Board of Trade, the open board of trade of Chicago, the Minneapolis Chamber of Commerce, the Kansas City Board of Trade, the Duluth Board of Trade, the St. Louis Board of Trade and the Seattle Board of Trade, instead of planting and growing wheat in the crop season of 1933.

Which the Senate has passed and your favorable consideration is respectfully requested.

Very respectfully,

SIDNEY A. PAPKE,
Secretary.

MESSAGE TO THE SENATE

House Chamber,
Bismarck, North Dakota,
February 21, 1933.

Mr. President: I have the honor to inform you that the House has concurred in the Senate Resolution introduced by

Joint Rules Committee extending the time for messaging bills between the House and Senate to the end of the Fifty-first legislative day, viz. 2 o'clock P. M. Thursday, February 23rd, 1933.

Very respectfully,

JAMES P. CURRAN,
Chief Clerk.

MESSAGE FROM THE SENATE

Senate Chamber,
Bismarck, North Dakota,
February 21, 1933.

Madam Speaker: I have the honor to inform you that the Senate has adopted a Resolution introduced by the Senate members of the Joint Rules Committee extending the time for messaging bills and communications between the two Houses of the Legislature to the end of the Fifty-first legislative day, two p. m., Thursday, February 23, for the reason that February 22, being a holiday, the work of messaging Bills and Communications between the two Houses cannot be completed before the end of the Fiftieth Legislative Day.

Very respectfully,

SIDNEY A. PAPKE,
Secretary.

Which motion prevailed.

EXPLANATION OF VOTE

Mr. Brunsdale: Madame Speaker: I would like to explain my vote and I would greatly desire to have my remarks printed in the Journal. This session has set many precedents, most of them, to my mind, bad, being all but one injurious to the welfare of the State of North Dakota. We are now voting on a bill that establishes another precedent, not only for North Dakota but for the whole nation. After charges were trumped up and after the hearing—

Mr. Flannigan: A point of order, Madam Speaker: If we are going to listen to debate upon this question from every member that has anything to say on this question, I suggest we stop the clock.

Mr. Brunsdale: May I explain my vote?

Mrs. Craig: Yes, Mr. Brunsdale, but don't make a speech.

Mr. Brunsdale: (continuing)—These are all reasons why I can't vote for this bill. After charges were trumped up and after hearing and investigation—and I don't know whether I could call it an investigation—we find this bill sponsored by certain members whose avowed purpose is to do away with the Capitol Commission. During the weeks of the hearing we all know that the Capitol Commission were ready to go upon the stand. They stood by for three weeks, all during the time the investigation was going on, but the hearing ended without these men being given the privilege of taking the chair and—

Mr. Aljets: Mr. Brunsdale seems to be reading a book, instead of explaining his vote.

Speaker Craig: You are making a speech, Mr. Brunsdale, the Chair will have to rule.

Mr. Brunsdale: If I throw my manuscript away may I explain my vote?

Speaker Craig: If you will do it within reason.

Mr. Brunsdale: It is awfully hard for the minority to adjust themselves to what the majority thinks is reasonable.

(Continuing): I submit that every man in this assembly and in the State of North Dakota has certain constitutional and inalienable rights. I submit further that in my opinion the members of the Capitol Commission, Mr. Conklin and Mr. Bangs, were denied that certain constitutional right which under our constitution and every constitution in the world with the exception of one—

Mr. Falconer: The eminent attorney here called me down the other day for making a speech. It wasn't one-quarter this long but he called it a speech. I would like to have his views on this.

Mr. Brunsdale: I submit that I am explaining my vote. This legislature created under our state constitution has, to my mind—

Mr. Aljets: Madam Speaker: I rise to a point of order. If you would take that book away from him he couldn't say another word.

Mr. Lillehaugen: It seems to me that the gentleman is making statements that need debating.

Speaker Craig: Mr. Brunsdale knows exactly what he is doing. Let us let Mr. Brunsdale go his length and see what it will be.

Mr. Brunsdale: I submit they were denied certain rights and inasmuch as they were denied those rights, in my opinion, I cannot be quiet when taking action on that bill, and I can't vote for this bill. I can only vote "no."

Mrs. Rathbun: Madame Speaker: I agree that the evidence of this Commission trial should have been brought before this assembly before we were asked to vote, and while I don't doubt the word of Mr. Flannigan, or any gentleman in this assembly, neither do I doubt Mr. Bang's word, and until we have that proof I vote "no".

Mr. Twichell moved that the House recess until 9 o'clock tomorrow.

Which motion prevailed.

House of Representatives,
Bismarck, North Dakota,
February 22, 1933.

The House re-convened at 9:00 a. m., pursuant to recess taken, Speaker Craig presiding.

GENERAL ORDERS

Mr. Twete moved that the House resolve itself into a Committee of the Whole for the consideration of General Orders; which motion prevailed and the House resolved itself into a Committee of the Whole.

The Speaker called Mr. Twete to the chair.

When the committee arose it submitted the following report:

Madam Speaker: The Committee of the Whole have had under consideration

House Bill No. 300. A Bill for an Act to Create a Police and Firemen Relief, Health and Insurance Fund in Incorporated Cities, Providing for the Disbursement Thereof, and Creating a Board of Police and Firemen Pension Fund Commissioners, and Declaring an Emergency.

(Remarks of Judge Nuessle)

Since the last meeting of the Legislative Assembly the "Rider on the Pale Horse" has been busy and many men and women who have been prominent in the affairs of this state have obeyed His summons. If time and circumstances would permit, much could be said about the life-work of each, and their contributions to the upbuilding of our state could be extensively commented upon. I have been requested to limit my remarks to the memory of those who were prominent in the judicial department of North Dakota and who have passed away during the past two years.

Four men who held high judicial positions have departed during this time. Time will permit only of a short reference

to their life work. Each had a long and honorable career. Three of these men had lived out the full allotted span of human life—three score years and ten—and the fourth was approaching that age when death took him.

JUDGE W. S. LAUDER was one of the pioneer lawyers of this state. He came to Dakota in territorial days when a very young man. He located in Richland County where he soon became prominent in his profession. He was a member of the convention that framed the Constitution of this state. The records of that convention show he took a leading part in it; was active in its debates and was instrumental in framing the articles pertaining to the judicial department of the state. At the first election in 1889 he was elected judge of the district court for the old fourth judicial district and was re-elected three times, serving in all a little more than 15 years. He was an honest, upright and fearless judge. He never swerved from the path of duty. After retiring from the bench he resumed the practice of law and was eminently successful. He died in 1931 at Wahpeton, aged 76 years.

JUDGE A. T. COLE of Fargo was another pioneer of Dakota Territory. He first engaged in commercial pursuits and afterwards the law. He always took an active part in public affairs. In 1889 he was elected to the lower house of the legislature and took a leading part in framing the legislation of that day. Thereafter he removed to Fargo where he maintained his law office until he was elected judge of the district court of the 3rd Judicial District in 1916. He was re-elected three times. He died May 12, 1932, at the age of 72 while he was still in office. His career was a long and honorable one. In the summer of 1932 he met with a severe accident which ultimately resulted in his death.

JUDGE THOMAS H. PUGH was a native of Ontario. At an early age he removed to the state of Michigan where he received his education and where his early manhood was spent. He was admitted to the bar in that state and practiced his profession there until 1897 when he located at Larimore in Grand Forks County. He always took an active interest in public affairs. He was a member of the House of Representatives of this state in 1907. In 1909 he moved to Dickinson where he enjoyed a large law practice. He was elected Judge of the District Court in 1920 and was twice re-elected. While serving his last term he was stricken with an incurable illness. He continued his judicial work until just a few days before his death. He left a splendid record—not only as an able, honest and conscientious judge, but as a most useful citizen. He died January 14, 1933.

JUDGE CHARLES J. FISK was born in Whiteside County, Illinois, March 11, 1862. He was educated in the public schools and at Northern Illinois College and studied law at Morrison, Illinois. He came to North Dakota in 1886 and settled at Larimore and shortly thereafter was admitted to the bar. He moved to Grand Forks in 1889. He served 10 years on the district bench of the first judicial district and was elected to the Supreme Court in 1906, serving ten years. He died

May 8, 1932. Decisions of the supreme court written by Judge Fisk are to be found in 18 volumes of the North Dakota Reports.

Short as the time allotted to me is, I must enlarge for a few moments on some of the characteristics of these men which won for them the places they occupied in the state of North Dakota and which endear their memories in the minds of those who knew them.

Judge Lauder was one of the most capable judges who ever sat on the district bench in this state. He knew the law. He had a high sense of judicial dignity and decorum. He was efficient and lightning-quick in his decisions. He who had a cause in Judge Lauder's court knew that justice would be meted out to him promptly and efficiently. He was not only a great judge, he was a great lawyer and a great advocate as he so well demonstrated when he retired from the bench and assumed the active practice of the law. No cause was too difficult for him to undertake. No day was long enough for him to do the work which he wanted to do in behalf of his clients. He was fearless. In argument he was powerful. His logic was masterly. His invective fearful. He struck at untruth and subterfuge and sought to lay bare the demerits as well as the merits of the causes in which he participated. He appreciated the difficulties facing a trial judge in a hotly contested cause. However great his ardor in behalf of his client, he was nevertheless always courteous toward the trial court no matter how adverse the court's ruling might be and no matter how much he disagreed therewith. And when the trial was over he forgave and forgot any differences that might have existed as between himself and opposing counsel or as between himself and the court. Surely a great man, a great lawyer, and a great judge.

Judge Fisk was a friendly gentleman as well as a great judge. In the trial of causes he was firm and decisive. Always kindly and courteous to lawyers and litigants alike, he ever looked beneath the surface to see where the right of a cause lay and, if possible to do so, declared the right. No man in his court need have a thought that partiality might be shown against him and in favor of his opponent. I well remember when I was a boy studying law, the remark that I heard John M. Cochrane make about Judge Fisk. Judge Cochrane was the attorney for the defendant in a famous murder case. The deceased man had been a friend of Judge Fisk's. It was suggested that on account of this friendship the defendant should file an affidavit of prejudice, but Judge Cochrane, one of the greatest lawyers and advocates that ever tried a case in this state, said: "No, Judge Fisk is so honest, so fair and so impartial a judge that if any question arises in the course of this trial on which he is in doubt, knowing the fact of his friendship for the deceased and in his desire to be fair to the defendant, he will resolve that doubt in favor of the defendant." I can say nothing which

will better illustrate Judge Fisk's fairness and the place which he occupied in the minds of the lawyers of that day than this.

Now may I say a word about Judge Cole. He was also a kindly, friendly man. It has always seemed to me that there was no quality that a trial judge should have that was more to be desired than that of humaneness, and this quality was predominant in Judge Cole. Always kindly and friendly, no litigant ever came into his court without receiving fair and just consideration, and none departed without feeling that justice had been done.

Judge Pugh was also a kindly, Christian gentleman. Always considerate and always regardful of the abstract right in the cases that he had to decide. Judge Pugh won the respect and affection of lawyers and litigants who appeared in his court. He was always willing to undertake whatever task might fall to his part. When he was designated as a special judge to wind up the affairs of insolvent banking corporations pursuant to the mandate of the legislature, he willingly undertook the very burdensome labor that was thus entailed. As judge in these receivership proceedings it was necessary for him to pass upon the rights and obligations of thousands of depositors and stockholders. So well and so justly did he do this that of the thousands of decisions it was thus necessary for him to make, but one or two cases were appealed to the supreme court for a review of his action. Surely nothing can better demonstrate his ability and his fairness than a record such as this.

I have thus briefly touched upon some of the things which characterize these men who have served the state so faithfully and so well. Each was different in some respect from all the others, yet all had many qualities and characteristics in common. All regarded the law as but a rule of conduct enacted to conserve and preserve the rights and liberties of the people. And each sought as well as it was humanly possible to do, to see that justice was done. Of course every one of them sometimes erred in the administration of the law, but they were only human and it could not be otherwise. But in those few cases where they did make mistakes, those mistakes were of the head and not of the heart and were made in that debatable territory where mistakes are a matter of opinion and not violations of abstract right.

These men lived and labored faithfully, always having in mind the good of the state which they loved and for which they labored and all its people. They have had an important part in building that which we in North Dakota now have. The thread of their lives is interwoven inextricably into the fabric of this state, adding to its lustre and its strength. I believe that if any one of these men had been asked to write his epitaph, he would have answered: "Write me as one who loves his fellowmen". And I know that we who survive to do it must thus write those epitaphs. In life these men were honored and esteemed on account of the many sterling qualities which they each possessed. In death we pay to

them our tribute of love and gratitude for that which they did in the upbuilding of our great Commonwealth.

Mr. Bangert moved that the resolutions be received, accepted and printed in the Journal in the minutes of the Joint Session.

Which motion prevailed.

Audience sang "America."

MEMORIAL RESOLUTIONS

Memorial Resolutions adopted in Joint Session February 22, 1933. Rep. Strutz offered the following Memorial to former Lieutenant Governor John W. Carr:

Representative Strutz:

Mr. President: Two years ago among the most prominent and influential men of North Dakota was its Lieutenant Governor, Honorable John W. Carr. Today we pay our tribute, and the tribute of the state, to his memory.

Mr. Carr was born March 26, 1874. He came to North Dakota from Iowa when he was merely a boy, worked as a farm hand, taught school, and attended school. He graduated from the Normal School at Valley City and attended the law school of the University of Minnesota, finishing his law course at Grand Forks in 1901, a member of the first class to graduate from our University Law School. A year later he settled in Jamestown where he resided and practised his profession the rest of his life.

He was always actively interested in city and community affairs. He served as State's Attorney of Stutsman County, as an alderman, as a member of the Public Library Board, and for seventeen years he was a member of the Board of Education of Jamestown, several years being president of that board.

Mr. Carr was a member of the House of Representatives from the 23rd Legislative District in the sessions of 1923, 1925 and 1927. From the beginning of his service he was one of the most active, influential and respected members of the Legislative Assembly. In 1927, and also at the special session in 1928, he was Speaker of the House. In 1928 he was elected Lieutenant Governor and was re-elected in 1930, holding that office at the time of his death. Had his life been spared and his health permitted, it is generally conceded that he would have been the almost unanimous choice in 1932 of the political faction with which he was associated for the office of Governor. He died at his home in Jamestown on the 14th day of June of last year.

Mr. Carr came to North Dakota without money and without friends or influence. His success was due to his own efforts. He was an educated man, but at the same time he was a self-made man. His friends, and they were many, he made through his own friendlines, his strength of character

and his faithfulness to his trust. He became a leading member of his profession and a man of much influence in his community and his state. As a legislator, he worked always, industriously and efficiently, for what he considered the best interests of the people and of the state. As a presiding officer, he was distinguished for his thorough knowledge of parliamentary procedure and for his eminent courtesy and fairness. And as a man, he was held in highest esteem by a wide circle of friends and acquaintances throughout the state. We mourn his untimely death, while commending his sturdy citizenship and rejoicing that his life's work was done in North Dakota.

Be it Resolved that the foregoing Memorial be adopted; that it be printed in the Journal of the House, and that properly engrossed copies be sent to members of Mr. Carr's family.

Representative Jones:

Mr. President: I rise to honor the memory of W. S. Lauder of Wahpeton, Richland County, North Dakota.

Born in a log cabin in Wisconsin where his parents undertook to carve out a home in its dense forests. Reared in a home whose members gave thanks to almighty God for the bare necessities of life—schooled in the little one room log school house of that day. At 15 years of age he left home to fight the battles of life alone—at 18 he took the place of a man in the logging camps of Northern Wisconsin and Minnesota, where men were rough and tough and again on the drive where skill, courage and unlimited endurance were necessary to stand the gaff.

With his earnings he attended a private academy and later studied law in a law office and finally was admitted to the bar. He then came to North Dakota and by dint of hard study and persistent effort became one of the leading if not the leading lawyer of our state. A fine example of this self-educated, self-made man—one of the pioneers who made North Dakota in his day the best place in the Union for a man, without pull or wealth to come to and make good. He died after passing the allotted time of three score years and ten.

I am pleased to present this resolution.

WHEREAS, The late Judge W. S. Lauder of Wahpeton, North Dakota, who served Richland County in territorial days as Probate Judge and several terms as County Attorney and the state fifteen years as Judge of the Fourth Judicial District, and was also one of the prominent and able framers of the Constitution of our State,

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE AND THE HOUSE OF REPRESENTATIVES OF THE STATE OF NORTH DAKOTA OF THE TWENTY-THIRD LEGISLATIVE ASSEMBLY, assembled in joint session that we deeply regret the passing of our fellow citizen because of his contribution to the moulding and upbuilding of our State in the various capacities in which he served.

Senator Nels Magnuson:

Mr. President: As befitting the ceremonies of this afternoon I desire to place before this body a memorial of one of North Dakota's most prominent citizens and pioneers, the Honorable V. B. Noble who passed from this life on April 19th, 1932, at Lemesa, California.

Virgil B. Noble was born at McGregor, Iowa, December 7th, 1859, the son of Judge Reuben Noble. Mr. Noble came to Dakota Territory in 1882 where he practiced law at Devils Lake until the organization of Bottineau County, when he moved to Bottineau. He was appointed as prosecuting attorney of that County which position he held until the year 1890.

Mr. Noble was a member of the constitutional convention as one of its outstanding members, serving on the committees of the Judicial department, Elective franchise and Schedules. In 1898 Mr. Noble was elected to the state senate, where he served with distinction for four years.

V. B. Noble as he was known by his friends and associates was always interested and active in the political and business interest of the state. The imprint of his influence toward the building of this great commonwealth is permanent and I desire and ask that this brief tribute to the memory of the Honorable Virgil B. Noble be made a part of the permanent records of this body.

Senator Indergard:

Mr. President: WHEREAS, the Honorable T. N. Putnam of Carrington, North Dakota departed from this life November 11th, 1931 after a residence in this State of nearly a half century; and

WHEREAS, in his passing there has gone from our midst a true pioneer, a great public servant and a man gifted in the art of statescraft;

THEREFORE, BE IT RESOLVED that the following tribute be offered in his memory:

Honorable T. N. Putnam was one of Carrington's best known and best loved pioneer business men. He was born at Seneca Falls, New York on December 3rd, 1855. In the spring of 1886 he came to North Dakota and located at Carrington, entering the lumber business, which business he was engaged in the rest of his life. On June 24th, 1886 he was married to Clara Belle Rood, who, together with three sons, survives him. In the early 90's, he was elected County Commissioner of Foster County and a few years later, he was elected County Treasurer and continued in this latter office for several terms. In 1910 he was again called to public office, being elected to the House of Representatives from the Foster-Eddy District, and served in the House for two terms. In 1914 he was elected Senator from his district, serving the four year term. Again in 1930 he was elected to the Senate, which office he held until the time of his death.

His public career typified the highest forms of honor, and was ever characterized by loyalty to duty, capability in office and strict adherence to the highest ideals of citizenship. Mr. Putnam was a very generous man. Few men have showed forth by their lives better the pioneer spirit of the prairies—he loved North Dakota and never faltered in his faith for the future he believed in store for the state. In his passing Foster County and the State of North Dakota have lost a noble character, a wise counsellor, a conscientious and courageous public official, and to those who knew him personally, a kind and devoted friend.

BE IT FURTHER RESOLVED that we do hereby express our appreciation of his services rendered to our State, and our deep sense of sorrow and loss as his passing;

AND BE IT FURTHER RESOLVED, that this resolution be recorded in the proceedings of this assembly, and copies thereof mailed to the surviving members of his family.

Representative Carlson:

Mr. President: WHEREAS, Honorable Sheldon Wheeler Johnson of Colgate, Steele County, passed from this life November 22, 1931, after service in two sessions of the Legislature of North Dakota, 1919 and 1921;

NOW, THEREFORE, the North Dakota House of Representatives and Senate concurring therein, adopts and directs that there be placed upon the records of these houses the following memorial:

Sheldon Wheeler Johnson was born December 11, 1855 in Kendall County, Illinois; and about 1906 he, with his family removed to and settled in Steele county, North Dakota. After taking up his residence in Steele County the home of the Johnson family became noted for its open welcome to all. It was distinguished for its air of warm hospitality. It was a shelter for the homeless and a place of cheer for the weary and discouraged.

Perhaps the outstanding trait in Mr. Johnson's life was the complete lack of malice and bitterness. He was always ready to fight for what his convictions told him was right, and he gained ends for those whom he was chosen to represent, but he never carried rancor in his heart, nor hatred in his soul. He never permitted himself to become intolerant. He visited without apology those who protested his views and took his stand against his opponents without building separate chasms between himself and those he attacked.

His passing has dimmed a ray of sunlight and stilled a mountain of wisdom.

THEREFORE, BE IT RESOLVED by the House of Representatives of North Dakota, the Senate concurring therein, that we offer to the family of our departed Member our most profound and heartfelt sympathy and that copies of this Resolution be sent to Mrs. S. W. Johnson, and Miss Ruth Johnson of 113 Charles Street, Madison, Wisconsin; to Theo-

dore Johnson, Colgate, North Dakota; and Mrs. Ellen Arnold of Beach, North Dakota, and be spread upon the records of these Legislative Bodies which he ably and faithfully served.

Senator Miklethun:

Mr. President: WHEREAS, the Honorable Alfred Beecher Cox passed away on the 8th day of June, 1932, at which time he was a resident of Bismarck, North Dakota, having previously resided in Barnes County of this State, for many years;

Alfred Beecher Cox was born March 18, 1861, in the upper Stewiacke Valley near Truro, in the Province of Nova Scotia. Moved to Dakota Territory in January, 1883.

WHEREAS, the last 49 years of his life were spent in the State of North Dakota and that during this period he served his community and state faithfully and conscientiously in various official capacities and for six years, from 1898 to 1904, was a member of the Legislative Assembly of the State of North Dakota as Senator from Barnes County,

NOW THEREFORE, be it resolved by this joint Legislative Assembly that in the death of Alfred Beecher Cox this State has lost a territorial pioneer whose faithfulness to his ideals, his state and his friends will remain as his lasting monument.

Be it further resolved that we sincerely regret his death; that a copy of this resolution be forwarded to his surviving family.

Senator Jones:

Mr. President: WHEREAS: In the passing of The Honorable John Wallin, who served the 29th Legislative district, as State Senator during the years 1909 to 1911, we have lost one of our most respected and progressive citizens:

NOW THEREFORE: Be it resolved by the Legislative Assembly of the State of North Dakota, in joint session assembled, that we do hereby express our appreciation of the services rendered by this worthy citizen, now deceased:

John Wallin was born in Smoland, Sweden, July 23, 1860. As a young boy he came to the United States in 1880. He was one of the earliest pioneers of the Mouse River Loop in Ward County. He built up a prosperous farm there and reared a fine family. Mr. Wallin took an active part in the development of his community and was of great help in the building of the Swedish Lutheran Church in Minot, North Dakota, where he was a member until called by death.

BE IT FURTHER RESOLVED: That copies of this resolution be sent to the surviving relatives of the late John Wallin in memoriam of his services.

Representative Lynch:

Mr. President: WHEREAS, Hon. Vivian Morgan, a former member of the North Dakota House of Representatives, from the Thirty-seventh Legislative District, has passed to the great beyond, and

WHEREAS, we the members of the joint assembly, of the Twenty-third Legislative Assembly, of the State of North Dakota are deeply appreciative of the splendid worth of our departed member and greatly regret his passing, now

THEREFORE BE IT RESOLVED, that this Resolution be printed in the Journal and a copy be mailed to Mrs. Vivian Morgan and Miss Beatrice Morgan at 22 Bartlett Place, Highland Park, Michigan, and to Mrs. Alfred Johnsgard, Christine, North Dakota.

Senator Fine:

Mr. President: WHEREAS: The late Honorable Joseph Renauld, Senator of the 19th Legislative district, was a man of sterling integrity and character, and:

WHEREAS: He filled many positions in public life in a very satisfactory and eminent way, and was highly respected by the people of his community and of his legislative district; and:

WHEREAS: The late Senator Joseph Renauld served his people well in the House of Representatives; in the Legislature for three terms, and also as Senator for one term;

NOW THEREFORE BE IT RESOLVED BY THE SENATE OF THE STATE OF NORTH DAKOTA: THIS 22nd day of February, 1933, in joint session with the House of Representatives assembled, do express our deep regret at the untimely passing of Senator Renauld; and that his district, as well as the state of North Dakota, because of his death, suffers a distinct loss; and:

BE IT FURTHER RESOLVED that copies of these resolutions be sent to his wife and the members of his family.

Senator Miller:

Mr. President: WHEREAS, It has been the will of an all-wise Providence to remove from our midst, a legislator, a former member of both the House and the Senate, a pioneer of North Dakota, an able and honored citizen, Hon. John H. Wishek of Ashley, N. D. Deceased, January 13, 1932.

WHEREAS, He was a member of The House of 1893 and of The Senate of 1895 representing McIntosh and other counties in the great Missouri Slope, to the upbuilding of which, he played such a potent and unselfish part even before statehood. During all his public career, he endeared himself to the people of the state and helped to lay the foundations of our great commonwealth. His genial disposition, his sound and conservative judgment won for him the respect and highest regard of all classes.

NOW THEREFORE, Be It Resolved by the Senate and House of Representatives of the State of North Dakota that this memorial resolution be spread upon the record of this body and that the Secretary of the Senate send to the widow an engrossed copy of the same.

I have always held Senator Wishek in high regard. As his successor in this body it is fitting for me at this time to express my personal regard for him and my sincere regret at his passing.

Senator Wishek was born at Warren, Pennsylvania, April 17th, 1855. Graduated in law from the University of Michigan in 1878. Later coming to the Territory of Dakota, locating in McIntosh County in the year 1884.

From the time of his arrival in the Territory to the time of his passing, he had been actively engaged in his profession as a lawyer and extensively engaged in the business of real estate, grain, banking and other commercial pursuits.

The town of Wishek, North Dakota, was founded by him and named in his honor.

Senator Wishek took a keen and active interest in the political affairs of the Territory of Dakota, the State of North Dakota and what is now the 36th Legislative District.

Senator Wishek was affectionately called and referred to by his innumerable friends and neighbors as "Father Wishek".

Having been associated with him for a long period of time, I came to have the highest regard and respect for his sound judgment and sage advice.

His charming personality, broad-mindedness and cheerful disposition, made him a delightful companion.

Senator Wishek was a man of sympathetic and charitable nature which won for him legions of loyal and staunch friends. He was deeply interested in the welfare of his community and the State, never overlooked the interest, comfort and happiness of others. Respecting the feeling and views of those who at times did not always agree with those held by him.

Senator Wishek left a family consisting of a charming and gracious wife and mother and eight grown sons and daughters. In his home he was a devoted husband and father.

In his passing, the people of his community and State at large has lost a wise counselor and steadfast friend.

Senator Wishek will not be forgotten. His life will stand as a monument and a beacon light to the younger generation.

His memory will ever remain in our hearts.

SENATOR W. G. CROCKER

Born in the State of Massachusetts.

Died in May, 1932, at the age of 76 years at his home in Lisbon, North Dakota.

Graduated from Harvard University and came to the Territory of Dakota in 1883, locating at Lisbon. For some time he served as principal of the Lisbon High School and for a number of years was County Superintendent of Schools of Ransom County. After retiring from that office he published an educational magazine which was used in many of the schools of the state and widely read.

Senator Crocker was familiarly known as Uncle Will, was beloved by his friends and neighbors, and was a quiet, peaceable, respected citizen.

Senator Crocker represented the 14th Legislative District during three sessions, where he made a record of standing for and advocating that which was in the interests of the people of the state.

BE IT RESOLVED that this legislative body in joint session assembled do express its appreciation for the services rendered by the deceased senator, and

BE IT FURTHER RESOLVED that we convey to the relatives of Senator Crocker our sincere and heartfelt sympathy.

Senator Regeth:

Mr. President: WHEREAS, the late Honorable Charles M. Whitmer of Oliver County, North Dakota, departed this life November 15, 1931, and

WHEREAS, he represented the 48th Legislative District in the House of Representatives in 1911, and in the Senate, from 1917 to 1925 where he served his people well therefore,

BE IT RESOLVED by the Senate of the State of North Dakota in joint session with the House of Representatives assembled, that in the death of the Hon. Charles M. Whitmer North Dakota has lost one of its most distinguished citizens.

Representative Dahl:

Mr. President: I offer the following tribute to the late Alexander MacDonald:

Alexander MacDonald was born at Campbell, Argyshire County, Scotland, July 24, 1860. He came to North Dakota direct from Scotland in 1883 and squatted on a piece of land in the northwest corner of Emmons County, homesteading it and a tree claim when the land was opened up. This was his home during the remaining 48 years of his life. He was engaged in sheep ranching in the early days, his flocks running into the thousands of head. In later years he followed the trend of the times and engaged more in livestock raising and diversified farming. Mr. MacDonald was married in

1885 to Miss Aneta Smith, who was Emmons County's first school teacher. He served as County Commissioner of Emmons County for seven years, from 1895 to 1903; also served on the school board of Burr Oak District for six years. He was elected as State Senator in 1903 and served in this capacity until 1909. In 1909 he was appointed as State Land Commissioner under Governor John Burke and served until 1914, then returning to his farm in Emmons where he lived until death.

WHEREAS, the Honorable Alexander MacDonald, a former member of the Senate of this state was, on July 24, 1931, called from this life to the Great Beyond, and

WHEREAS, he was an able, fearless and conscientious legislator and was a public spirited citizen, always interested in the welfare of his city, county, state, and nation,

THEREFORE, BE IT RESOLVED by the Senate and the House of Representatives, assembled in joint session, that we do hereby extend our sympathy to his relatives and record our appreciation of the fine services he rendered, and

BE IT FURTHER RESOLVED that a copy of these Resolutions be forwarded to his immediate family.

Rep. Dahl moved the adoption of this Resolution.

Representative McManus:

RESOLUTION

WHEREAS, the late Honorable A. O. Graham of Rolla, North Dakota departed from this world November the 13th, 1932, after continuous residence in the state for more than forty-five years, and

WHEREAS, he represented the Nineteenth Legislative District in the House of Representatives of the North Dakota Legislature in the 10th Legislative Assembly, with credit to himself and honor to the State, and

WHEREAS, He was also elected County Auditor of Rolette County at the first general election after statehood, and served in that office fourteen years and also served his county in the capacity of probate judge and public administrator.

NOW THEREFORE, BE IT RESOLVED, by the House of Representatives in joint session assembled, that in the death of Honorable A. O. Graham, North Dakota has lost one of its most prominent and influential citizens, and

BE IT FURTHER RESOLVED that this resolution be recorded in the proceedings of this joint assembly and a copy thereof be mailed to his wife, Mrs. A. O. Graham, of St. John, North Dakota.

Representative Holte:

Mr. President: WHEREAS, this Twenty-third Legislative Assembly of the State of North Dakota has heard, with deep regret, of the passing of the following former members of the North Dakota House of Representatives:

Egbert Gilbertson of Hickson, North Dakota, who served the 10th Legislative District in the sessions of 1895 and 1897 and who died November 19th, 1933;

J. B. Akesson of Grandin, North Dakota, who served the 10th Legislative District in the sessions of 1909 and 1911, and who died December 14th, 1924:

E. H. Holte of Gardner, North Dakota, who served the 10th Legislative District in the session of 1891 and who died February 4th, 1927;

Senator H. J. Rowe, Casselton, North Dakota, who served the 10th Legislative District in the session of 1889 and who died at Minneapolis, Minnesota, November 20th, 1931;

NOW THEREFORE BE IT RESOLVED by the Legislative Assembly of the State of North Dakota, in joint session assembled, that we do hereby express our appreciation of the service rendered by these worthy citizens, now deceased; and

BE IT FURTHER RESOLVED, that this resolution be recorded in the proceedings of this joint assembly, and a duly enrolled copy thereof presented to the surviving families of these deceased representatives.

Representative Twichell:

Mr. President: Mr. Twichell offers the following resolution upon the deaths of Honorable A. L. Wall and Honorable Stewart Wilson:

WHEREAS God in his infinite wisdom has called from this life two former members of the House of Representatives of the State of North Dakota, from the 9th Legislative District, Honorable A. L. Wall and Honorable Stewart Wilson; and

WHEREAS, both of these former members of this body were Christian gentlemen, worthy and leading citizens of their community, and able and efficient members of the legislature; as such legislators always seeking the welfare of the entire state and of its citizens;

WHEREAS, the 23rd Legislative Assembly of the State of North Dakota, in Joint Session assembled, wish to express the feeling of such body and of the state at large, and to evidence such feeling and the loss occasioned by the death of these two former legislators;

NOW, THEREFORE BE IT RESOLVED that in the death of Honorable A. L. Wall, and in the death of Honorable Stewart Wilson, the people of the State of North Dakota have suffered the loss of two men whose lives were devoted to the furtherance of every good and worthy cause for the betterment of their local community, their state and of their fellowmen.

BE IT FURTHER RESOLVED, that this resolution be recorded in the proceedings of this joint assembly and a

duly enrolled copy thereof be presented to the surviving families of these deceased representatives.

Mr. Twichell moved the adoption of this resolution by a rising vote.

Representative Sprenger:

Mr. President: WHEREAS: Peter Keierleber was born October 7, 1877 at Worms, South Russia, and emigrated to America in 1903, settled at Aurora, Illinois, and resided there until 1912 when he moved to Carson, Grant County, North Dakota, where he was engaged in the farming business continuously until his death July 13, 1931, and

WHEREAS: He served in many official capacities among which were the following:

Representative from the 47th District in the State Legislature, during the sessions of 1925, 1927, 1929 and 1931. He was also a member of the Board of Control of Redfield College, member of his local school board twelve years and of the township board for ten years, and

WHEREAS, the late Honorable Peter Keierleber of Grant County, North Dakota, departed from this life July 13, 1931, and

WHEREAS, he represented the 47th Legislative District in the House of Representatives during the sessions of 1925, 1927, 1929, and 1931, where he served his people well, therefore

BE IT RESOLVED, by the House of Representatives of the State of North Dakota in joint session with the Senate assembled, that in the death of the Honorable Peter Keierleber, North Dakota has lost one of its most distinguished citizens.

Representative Anderson (of Logan):

Mr. President: WHEREAS, Michael W. Kelly who served in the State Legislature during the regular sessions of 1913, 1923, 1927 and during the special session of 1928 with faithful service, and who was a public-spirited citizen and faithful in his community and to his state and country;

Michael W. Kelly was born January 22, 1870, at Bristol, Iowa; and acquired his education in the rural schools of that vicinity and taught one term of school. Also served as Mayor of Napoleon and as a Representative from Logan County, in the State Legislature during the regular sessions of 1913, 1923, 1927 and during the special session of 1928. He served in numerous official capacities; for twelve years he was a member of the district school board, served as president of the Napoleon Village Board and was a member of the Logan County Old Settler Association and of the Napoleon Lions Club, chairman of the Boy Scout Troop Committee and Secretary of the Napoleon Cemetery Association. He came to Logan County April 10, 1902, and filed on a homestead and resided there continuously to the day of his death which occurred December 10, 1931.

NOW THEREFORE, BE IT RESOLVED by this Joint Legislative Assembly that in the death of the Honorable Michael W. Kelly, North Dakota has been bereft of one of our most prominent, and distinguished citizens; and

BE IT FURTHER RESOLVED, That copies of this resolution be printed and sent to the relatives of the said Michael W. Kelly as a token of our sincere appreciation for his services.

Representative Godwin:

Mr. President: Whereas the Honorable Charles Keidel of the 30th Legislative District, a member of the House of Representatives in the 20th Session of the Legislative Assembly of the State of North Dakota, departed this life from his farm home south of Mandan, North Dakota, on Tuesday, the 3rd day of May, A. D. 1932;

Whereas, Representative Keidel was a pioneer farmer of the Missouri Slope, a loyal citizen, a good neighbor, and as a legislator was ever concerned only with the welfare of North Dakota and its people;

And whereas, the Senate and the House of Representatives of the 23rd Legislative Assembly, in joint Session assembled, deplore the loss of this good citizen of North Dakota, and desire to express their deep sorrow and sympathy for his widow, daughter and son;

Now, Therefore, Be it Resolved, that this joint assembly express to them such sorrow and sympathy, through the mailing to his widow, daughter and son, Mrs. Anna Keidel, Miss Miriam Keidel and Carl Keidel of Mandan, North Dakota, copies of this Resolution; and by the spreading of the same upon the permanent records of this 23rd Session of the Legislative Assembly of the State of North Dakota.

Representative Niewoehner:

Mr. President: The members of the Twenty-third Legislative Assembly of the State of North Dakota mourn today the passing to the great beyond of the following former members:

Hon. Patrick J. Horgan, born March 19, 1854; died in 1932, who served in the sessions of 1891, 1893 and 1895.

Hon. P. F. Doyle of the forty-first district, Williams and McKenzie Counties, who served in the sessions of 1921, 1923, and 1925; died in 1932.

Hon. Richard Bubel, born September 6, 1873; died May 23, 1932, forty-eighth district, who served in the sessions of 1925, 1927 and 1929.

Hon. Alexander Ferguson, born October 24, 1863; died June 4, 1931, who represented the third district, Walsh County, and who served in the sessions of 1917 and 1919.

Hon. S. B. Ray, Petersburg, North Dakota, who served in 1895, and Hon. E. O. Johnson, Pekin, North Dakota, who served in 1923, both from the 17th district.

Hon. F. E. Lazier, Barton, North Dakota, former Representative from the 34th District, McHenry County, who served in the sessions of 1917, 1919, 1921, 1923 and 1925. He died in 1932.

Hon. Frederick Lemke, father of Congressman Wm. Lemke and Representative B. W. Lemke, was born in Stettin, Germany, October 14, 1845.

At the age of eleven he came to America with his parents and they settled upon a farm near Watertown, Wisconsin. At the age of 16 he enlisted with the third Wisconsin Cavalry K, and served throughout the Civil War.

He came to North Dakota in the spring of 1882 and settled upon a homestead a few miles southeast of the townsite upon which Cando is now located.

He was elected as a Representative from the Rolette Townner County District at that time in the fall election of 1898.

He died October 16, 1901.

Whereas these late honored former members who have represented their various Legislative Districts in the House of the North Dakota Legislature where in the House Chamber they have served their State with credit and honor to themselves,

NOW THEREFORE, be it resolved by the House of Representatives and the Senate of the State of North Dakota in joint session assembled that in the death of these honored former members, North Dakota has been bereft of some of its most prominent and distinguished citizens and be it further resolved that this resolution be recorded in the proceedings of this joint assembly and a copy thereof be mailed to the immediate relatives of these honored dead.

Representative Piper:

Mr. President: WHEREAS, the late Adam Meidinger, a former member of the North Dakota House of Representatives, from the Thirty-Sixth Legislative District, has passed to the great beyond, and

WHEREAS, we the members of the House of Representatives of the Twenty-third Legislative Assembly of the State of North Dakota, are deeply appreciative of the splendid worth of our departed member and greatly regret his passing, now, therefore,

BE IT RESOLVED, that this Resolution be printed in the Journal and a copy be mailed to J. W. and A. W. Meidinger, Ashley, North Dakota.

Representative Odegard:

Mr. President: The members of the Twenty-third Legislative Assembly of the State of North Dakota mourn today the passing to the great beyond of W. J. Burnett of Cummings, Traill County, North Dakota, former member of the House of Representatives of the State of North Dakota from the Eighth Legislative District who served during the sessions of 1909, 1911 and 1913;

NOW, THEREFORE, BE IT RESOLVED by this Joint Legislative Assembly that in the death of the Honorable W. J. Burnett, North Dakota has been bereft of one of our most prominent, and distinguished citizens; and

BE IT FURTHER RESOLVED that this resolution be recorded in the proceedings of this joint assembly and a duly enrolled copy thereof be presented to the surviving family of the deceased Senator.

Representative Fedje:

Mr. President: The members of the Twenty-third Legislative Assembly of the State of North Dakota mourn today the passing to the great beyond of Hon. O. A. Carothers, former member of the House of Representatives from Williams and McKenzie Counties, who served in the session of 1931.

Mr. Carothers homesteaded in Williams County in the early nineties and served his county in several capacities. His stern character and kindly acts made him many friends. His progressive principles and honesty in public and private life set an undying example for the generation to come. His passing is a loss to our county, state and nation.

BE IT RESOLVED that this resolution be recorded in the proceedings of this joint assembly and a duly enrolled copy thereof be presented to his wife, Mrs. O. A. Carothers, of Corinth, N. Dak.

Senator Bangert:

Mr. President: On behalf of the committee in charge of this program and the joint assembly may I now extend our sincere thanks for the wholehearted cooperation of every person who has so willingly contributed time and talent to the success of this program, and may I also extend the thanks of this assembly to the folks who have so kindly gathered here this afternoon.

Joint Assembly dissolved.

Mr. McManus moved that the House recess until 7:00 o'clock tonight.

Which motion prevailed.

JAMES P. CURRAN,
Chief Clerk.

SENATE CONCURRENT RESOLUTION NO. M

Introduced by Senators Bonzer and Simonson

A RESOLUTION petitioning the Congress of the United States to permit the actual wheat farmer and producers of the United States to make application for and receive their reasonable allowance of the crop production funds made available by the Congress of the United States, and to use such funds for the purpose of buying December Wheat at the existing quoted price through the Chicago Board of Trade, the Open Board of Trade of Chicago, The Minneapolis Chamber of Commerce, the Kansas City Board of Trade, the Duluth Board of Trade, the St. Louis Board of Trade and the Seattle Board of Trade, instead of planting and growing wheat in the crop season of 1933.

WHEREAS: From information made available the Congress of the United States has passed a 90 million crop aid bill to assist farmers in planting and producing a crop of wheat in 1933; and

WHEREAS: From information made available there is already an existing surplus of hard milling wheat, and;

WHEREAS: From information made available the farmers of the hard wheat producing states cannot plant, harvest and market wheat at the existing and present price of wheat.

WHEREAS: From information made available, the present allotment bill before our National Congress contains or will contain a provision for curtailment of crop acreage due to the already existing surplus and the probable over-production from the 1933 crop year, and;

WHEREAS: We believe that it would be to the best interests of the people of our state, and the people of our

neighboring wheat producing states, if the farmers instead of planting and growing a crop of wheat in the crop year 1933, buy December wheat on the open market in order that the surplus and probable over-production may be overcome.

THEREFORE: Be it resolved by the Senate of the State of North Dakota, and the House of Representatives concurring therein, that we respectfully petition the Congress of the United States to use the Crop Aid funds to be made available to actual farmers for the purpose of buying December wheat on the open market instead of planting wheat in the crop years of 1933, and in the approximate and average normally expected yield, and to pledge their certificate of ownership thereto, to the United States as security therefor, with a provision that the United States may call for delivery of the actual wheat in an amount sufficient to satisfy their claim at any time after the maturity of such pledge.

BE IT FURTHER RESOLVED: That the Secretary of State be instructed to forward duly authenticated copies of this resolution to Members of Congress from North Dakota, and to the United States Senators from North Dakota, at Washington, to the President of the Senate and to the Speaker of the House of Representatives at Washington.

Referred to the Committee on Warehouse and Grain Grading.

REPORT OF THE CAPITOL BUILDING INVESTIGATING COMMITTEE OF THE SENATE AND HOUSE OF REPRESENTATIVES OF THE STATE OF NORTH DAKOTA, TWENTY-THIRD SESSION DULY AND REGULARLY APPOINTED BY RESOLUTION ADOPTED IN BOTH BRANCHES OF THE NORTH DAKOTA LEGISLATURE OF THE STATE OF NORTH DAKOTA WHICH SAID RESOLUTION WAS DULY ADOPTED ON THE DAY OF JANUARY, 1933.

To the Honorable President of the Senate and Honorable Madam Speaker of the House of Representatives of the State of North Dakota.

Honorable Sir and Madam:

The Special Committee appointed by the Senate and House of Representatives of the State of North Dakota, Twenty-third Session, for the purpose of investigating the activities of the Capitol Building Commission of the State of North Dakota created under and by virtue of Chapter 205 of the

Session Laws of the State of North Dakota for 1931 do hereby respectfully present its report and finding as follows:

INTRODUCTION.

This Committee was constituted by virtue of the following Resolution.

SENATE CONCURRENT RESOLUTION. NO. D.

Introduced by Senators Matthaei and Fine.

For a complete investigation of the Capitol Building Commission, its activities and actions in connection with the letting of contracts, preparation and acceptance of plans and specifications, erection and construction of the new Capitol Building, and including alterations made, materials used, and all other acts of said commission in connection with said building and, if possible, provide for a reduction of the costs of said building.

BE IT RESOLVED BY THE SENATE OF THE STATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THAT:

WHEREAS, It is rumored, and generally believed, that the Capitol Building Commission awarded contracts for the erection and completion of said building in violation of the spirit and intent of Chapter 205, Session Laws of 1931 of this State, and,

WHEREAS, it was the intention of the State Legislature, as expressed in Chapter 205 aforesaid, that said Capitol Building should, if possible, be erected by North Dakota contractors and that North Dakota labor and material should be used as far as possible in the construction of said building, and, yet, it is rumored and generally believed that the Capitol Commission awarded most of the contracts for the erection and construction, as well as for materials furnished and labor used, to parties outside of the state, without due regard for the spirit and intent of said Chapter 205; and,

WHEREAS, it is rumored and generally believed that the contracts awarded for the erection of said building have, since their execution and delivery been divided into three sections without properly safeguarding the interests of the State; and,

WHEREAS, it is rumored and generally believed, that the manner in which the contracts were awarded and are now being carried into effect indicate that the resident architects are architects in name only and that practically all matters pertaining to the work are handled and directed by the associate architects in Chicago; and,

WHEREAS, it is rumored and generally conceded, that the building, if completed, will, in its accommodations, exceed by far the necessary requirements, and that the ultimate cost of said building is an unknown quantity; and,

WHEREAS, there is a general demand on the part of the people of the State of North Dakota that in this depression and economical and financial stress action should be taken to save the public funds; and

WHEREAS, it is generally believed that a substantial saving can be made if the spirit and intent of Chapter 205, Session Laws of 1931, are followed, and the best interests of the State and its people considered in the erection and construction of said Capitol Building.

NOW, THEREFORE: BE IT RESOLVED by the 23rd Legislative Assembly of the State of North Dakota, assembled in its regular biennial session, that a committee of seven, consisting of three Senators and four Members of the House of Representatives shall be chosen by the Presiding Officers of the Senate and House of Representatives, respectively, which committee shall be known as the Capitol Building Investigating Committee. The chairman of this Committee shall be designated and named by the President of the Senate.

It shall be the duty of the Capitol Building Investigating Committee, immediately upon its selection, to meet upon the call of its Chairman and make a complete, thorough and impartial investigation of the Capitol Building Commission, its activities, actions and doings in connection with the letting of contracts, the erection and construction of the new State Capitol Building, including the opening of bids, preparation of plans and specifications, alterations, materials used, awarding of contracts, and all other acts, things and matters of said Commission in connection with the construction of said building; likewise to investigate the manner of construction, the labor and materials used and such other matters as shall to said committee seem advisable, desirable or necessary in order to make a thorough and complete investigation and report.

Said Committee hereby created shall have full and complete power, by subpoena, or by use of such other method as it may determine upon, to compel the attendance of witnesses before said Committee within or without the State of North Dakota, and to swear such witnesses; this to include any or all members of the Capitol Building Commission, architects, associate architects, contractors and sub-contractors, and all of their agents and employees, and all other persons, firms or corporations, furnishing any material or doing any work, or having any connection or information whatsoever, with reference to the erection, construction or completion of said Capitol Building, and shall have full and complete power and authority to compel the production, within or without the State of North Dakota, of any and/or all books, papers, records, contracts, documents or other writings or memoranda of any and all kinds in the possession of any of the aforesaid persons, firms, co-partnerships or corporations, in any way relating to or connected with the erection, construction or completion of said building, or in any manner connected with work done or pretended to have been done by virtue of the provisions of Chapter 205 of the Laws of 1931; and it shall have full power and authority to do all things necessary in carrying out the intent and purpose of this Resolution.

Said Committee shall cause to be made and kept a complete stenographic record of all its proceedings, cause the same to be transcribed, including any and all testimony taken before it; shall keep a complete record of all the books, documents, papers and writings produced, whether filed as exhibits or not, and wherever deemed necessary shall cause copies to be made before the originals are returned.

It shall be the duty of the Commission to make preliminary reports to the Legislature when called upon by signed request by the President of the Senate and Speaker of the House of Representatives, and shall make a final report at the conclusion of its investigation, such final report to set forth in concise form its findings and conclusions and shall make recommendations to the Legislative Assembly with reference to any action which in the opinion of the Committee should be taken by the Legislature.

Such Committee shall have full power and authority to employ such assistance as it deems necessary in making such investigation, and to make such expenditures as it may deem necessary in carrying out the provisions of this resolution, and it shall be the duty of the Attorney General and all other officers and employees of the State to assist said Committee in its work when called upon by the Committee.

Said Committee shall have full power and authority to promulgate and adopt all rules of procedure in the conduct of its procedure.

The sum of \$7500.00, or so much thereof as may be necessary to carry out the provisions of this resolution, is hereby appropriated out of the monies of the State Treasury not otherwise appropriated, to be paid by the State Treasurer upon warrants drawn upon the Treasurer by the State Auditor, upon the presentation to him of approved vouchers of the Committee, signed by its Chairman.

ORGANIZATION.

Your Committee consisted of seven members, three to be selected from the members of the Senate and four to be selected from the members of the House of Representatives and the chairman was to be appointed by the President of the Senate. The Chairman of the Committee was appointed by the President of the Senate and is W. E. Matthaai and the other members of the Committee are Senator Bangert, Senator Brunsdale, and Representatives Holthusen, Flannigan, Peterson and Lillehaugen.

You do solemnly swear (affirm) that the evidence you will give in the matter of the investigation and consideration of the affairs of the Capitol Building Commission, now before the Capitol Building Investigating Committee, shall be the truth, the whole truth, and nothing but the truth, so help you God.

Which oath shall be administered by the Chairman of this Committee.

RULE VII.

The hearings shall be open to the public, provided, however, that upon the motion of any member of this Committee, or at the discretion of the Chairman thereof, the Committee may go into executive session, whereupon all persons shall be excluded from said hearing, save and except the members of said Committee, counsel employed by said Committee, the necessary accountants and other employees, and the person under examination.

RULE VIII.

This proceeding being in the nature of an investigation, and the controversies incident to the average trial being absent, the Counsel for the Committee are directed to proceed to the examination of witnesses by the question and answer method, and, without reference to the formal rules of evidence, elicit from the witnesses, as expeditiously as the circumstances will permit, the ultimate and essential facts to be by each witness disclosed.

RULE IX.

This proceeding being in the nature of an inquiry and investigation and not a trial, no witness or other person shall be permitted to appear or be represented before this Committee at any hearing by agent, representing attorney, counsellor, or in any other manner than in person.

RULE X.

The Chairman of this Committee shall direct all necessary preparation for the hearing before said Committee, and upon the hearing shall direct all forms of proceedings not otherwise specifically provided for herein.

RULE XI.

When no rule is herein provided for the governing of the practice and procedure of this Committee, the Chairman thereof shall announce the rule, subject to the right of any members of said Committee to appeal therefrom to the whole Committee.

RULE XII.

Witnesses shall be examined by counsel employed by this Committee, provided, however, that if a member of the Com-

mittee wishes to question a witness permission shall first be given by the Chairman of said Committee and, provided, further, that if it shall appear to the Chairman that such question or questions are not propounded in good faith, he shall refuse to permit same to be asked unless directed so to do by a majority of the whole committee.

RULE XIII.

The joint rules of the Senate and the House of Representatives of the State of North Dakota, Twenty-third Session, so far as the same may be applicable and not inconsistent with the specific rules adopted by this Committee shall govern the proceedings upon this investigation.

RULE XIV.

In the event of any witnesses failing to appear before this Committee in answer to a subpoena, upon such fact being found by this Committee, the Chairman hereof shall prepare a statement thereof showing the following facts:

- (1) The issuance of the subpoena and the date thereof.
- (2) The service thereof upon such person, including the time and place of such service.
- (3) A statement of the time and place when and where such witness was by such subpoena directed to appear.
- (4) The fact of the failure or refusal of such witnesses to so appear. Such statement shall be signed and certified by the Chairman of this Committee and shall be filed with the Legislative Assembly of the State of North Dakota for such proceedings for contempt as may be in accordance with the rules of said Legislative Assembly.

RULE XV.

In the event of any witness refusing to answer a question or questions propounded to him by counsel for this Committee or by any member of the Committee, upon such fact being found by the Committee, the Chairman thereof shall prepare a statement showing the following:

- (1) The issuance of the subpoena and the date thereof.
- (2) The service thereof upon such person, including the time and place of such service.
- (3) The fact that said witness appeared before this Committee.
- (4) The fact of his refusal to answer the question or questions propounded.
- (5) Such statement shall be signed by the Chairman of the Committee and filed with the Legislative Assembly of the State of North Dakota for such proceedings for contempt as may be in accordance with the rules of said Legislative Assembly.

RULE XVI.

The Reporter for this Committee shall make a verbatim transcript of all of the testimony taken from day to day, and at the completion of said investigation the same shall be affirmed under oath and there shall be annexed thereto or delivered therewith, any and all papers, documents, or exhibits offered or received in connection with said hearing, which said transcript together with the documents and exhibits shall be deposited with such officer of the Legislative Assembly of the State of North Dakota, Twenty-third Session, as shall be specified by the President of the Senate.

RULE XVII.

All documents, papers and exhibits offered and received in this investigation shall immediately be filed with and kept in the custody of the Reporter of this Committee, or such other person or persons as the Committee may agree upon and they shall remain in the possession of such person or persons until the same shall be annexed to the report of the Committee and filed as hereinbefore provided.

RULE XVIII.

At the conclusion of the investigation the Committee shall make written Findings, Conclusions and Recommendations as called for in the Resolution authorizing this investigation.

RULE XIX.

These rules may be amended by majority vote of the Committee at any regular meeting of said Committee or any special meeting called by the Chairman for such purpose.

RULE XX.

That whenever this Committee goes into executive session it shall be unlawful for any person connected with the investigation whether as a member of the Committee, or an employee thereof, to disclose any fact or facts developed during such executive session, or disclose any proceedings taken by the Committee, until such facts or proceedings have been released to the public by the Chairman of the Committee either in the regular course of the investigation or upon motion and vote of a majority of the members, and that any person violating this rule shall be certified to the Legislative Assembly for prosecution for contempt as contained herein and provided for.

MINUTES OF PROCEEDINGS OF COMMITTEE

We herewith submit a full and complete copy of all of the Minutes and proceedings of the Committee:

(First Meeting)

CAPITOL INVESTIGATING COMMITTEE

The first meeting of the Capitol Investigating Committee was held at Bismarek, North Dakota, January 23, 1933, pursuant to the call of Chairman W. E. Matthaei.

The joint Legislative Committee, known as the Capitol Building Investigating Committee, met in Room 614, Patterson Hotel at 5:00 o'clock P. M. on January 23, 1933. All members were present, to-wit:-

Senator W. E. Matthaai (chairman)
Senator C. G. Bangert
Senator C. N. Brunsdale
Rep. M. T. Lillehaugen
Rep. J. D. Holthusen
Rep. W. J. Flannigan
Rep. N. T. Peterson

The first matter that came up for discussion was the matter of adopting rules and regulations by which the Committee should be governed. Senator Bangert proposed using the rules and regulations adopted by the House Investigating Committee of 1921, at which time the Bank of North Dakota was investigated, stating that these rules could be adopted with little variation.

These rules were then read. It was proposed that Senator Bangert be appointed as a Committee of one to re-write the rules used in said Bank investigation of 1921, and make them applicable for the use of this joint Legislative Investigating Committee; however, requesting that Hearings start every morning at 8:00 o'clock A. M., and proceed for two hours, and as much longer as the Committee may determine; that temporarily a member of the Committee act as Secretary; that the meetings be open to the public, except closable at any time by a majority vote of the Committee; that parliamentary procedure (according to Robert's Rules of Order) be used; that minutes (prepared if possible) were to be submitted to the Committee for adoption at the next meeting, to be called at 9:00 o'clock Tuesday morning, January 24, 1933, Room 614, Patterson Hotel.

Next matter brought up for discussion was that of a reporter. Senator Bangert moved, seconded by Representative Holthusen, that the Committee place a limitation of \$10.00 per day as the salary for a reporter to do the reporting work of this Committee. Said reporter to take all testimony submitted in shorthand, and transcribe the same daily, and have in the hands of each member of the Committee every morning, before said Committee convenes, the full transcript of all proceedings that occurred on the previous day. This motion was put and carried unanimously.

Next matter proposed was that of employing a reporter. Various names were suggested. The chairman suggested the name of Mark Staples of Harvey, North Dakota, former court reporter. Senator Brunsdale proposed the name of Mr. Boulger of Dickinson, North Dakota, reporter for the District Court under the late Thomas H. Pugh. Representative Peterson and Representative Lillehaugen suggested the name of Mr. Jongewaard of Rugby, North Dakota. Representative Flannigan also spoke on behalf of Mr. Jongewaard. It was then determined that the Chairman call

Mr. Jongewaard, on the telephone and ascertain whether or not he would care to accept the employment on the basis of \$10.00 per day for reporting all proceedings and transcribing daily the testimony taken. Said Chairman W. E. Matthaei, was instructed to report back to the Committee when it again convened on Wednesday morning, January 24, 1933.

Next the matter of employing an attorney was discussed. Representative Flannigan suggested that we first fix the amount of fees to be paid to such attorney, and made a motion that the same be fixed at \$50.00 per day, and the total amount be paid, regardless of how long the Hearings should continue, be fixed at \$500.00, unless otherwise ordered by this Committee. This motion was not seconded, as it was then proposed to call in Attorney, E. R. Sinkler, of Minot, North Dakota, and discuss the matter of employment and fees with him. Upon Mr. Sinkler's appearance, he suggested that the fees be fixed at \$50.00 per day, but that the entire amount to be paid him as attorney fees for said Hearings be limited to \$750.00 regardless of the period of time that might be consumed in said hearings. Thereupon Mr. Sinkler absented himself. Representative Flannigan withdrew his former motion, and made a new motion to the effect that the Committee employ E. R. Sinkler as the attorney to do the investigating work of this Committee on a basis of \$50.00 per day, with the limitation of \$750.00 for all his work regardless of the length of time that might be required for said Hearings. This motion seconded by Senator Bangert, put by the Chairman, carried unanimously.

Senator Bangert than proposed that a certified public accountant by the name of Mr. Roy Janz of Minot, North Dakota, be employed providing that his services could be had for \$10.00 per day, to act as the accountant for the Committee. This motion was seconded by Representative Flannigan, put and carried; and Senator Bangert was instructed to get in touch with Mr. Janz, certified public accountant, and ascertain whether or not his services could be obtained for this Committee, at the said sum of \$10.00 per day.

Next the matter to pay for witnesses was discussed. Senator Bangert moved that out-of-town witnesses be given all their actual and necessary expenses in coming to Bismarck and returning to their homes, together with their expenses while here, and be paid the sum of \$5.00 per day for the actual days in attendance at said Hearings, and that local witnesses be paid the regular statutory fees that are allowed in court matters. This motion was seconded by Representative Flannigan, put by the Chairman and carried unanimously.

Representative Flannigan made a motion that Senator Bangert be elected as vice-chairman. Motion seconded by Representative Peterson, put and carried.

The matter of electing a Secretary was deferred until the recontinuing of the Committee the following morning.

Thereupon Representative Flannigan made a motion that this Committee adjourn to re-convene at 9 o'clock A. M., Tuesday morning, January 24th, 1933, in Room 614 of the Patterson Hotel. This motion was seconded by Senator Brunsdale, put and carried. January 23, 1933.

(Second Meeting)

CAPITOL INVESTIGATING COMMITTEE

The second meeting of the Capitol Building Investigating Committee was held at Bismarck, North Dakota, January 24, 1933. This Committee met at 9:00 o'clock A. M., this day in Room 614, Patterson Hotel, pursuant to motion of previous evening, all members of Committee present.

Chairman reported that he had called Mr. Jongewaard, in regard to acting as reporter for Committee, and that the Committee's offer of \$10.00 per day for all work of reporting, proceedings and transcribing said notes was accepted by him, and that he would be on hand in Bismarck this afternoon.

Senator Bangert reported to the Committee that he had got in touch with Mr. Roy Janz, certified public accountant of Minot, North Dakota, and that he could report nothing definite but would have further information by Thursday.

That the stenographer did not have sufficient time to transcribe the tentative rules as discussed in our Tuesday afternoon meeting but that the same would be prepared sometime this afternoon, and ready for presentation to the Committee tomorrow.

Next, the matter of a temporary Secretary was discussed, and Representative Lillehaugen proposed that Mr. Flannigan act as temporary Secretary. This Mr. Lillehaugen had put in a form of a motion which was seconded by Senator Bangert, put and carried unanimously.

Next matter brought to the attention of the Committee was a place for same Committee to have its Hearings. Senator Brunsdale moved that the meetings be held in the Federal Court Room, Post Office Building. This motion was seconded by Representative Holthusen, put and carried unanimously.

Next matter that was brought to the attention of the Committee was whether the Committee should have a technical advisor; one who is familiar with structural work. It was generally agreed that such an employee was necessary, and thereupon Representative Peterson moved that Mr. Russel Deeter of Minot, North Dakota, be employed as technical advisor to the Committee. This motion was seconded by Representative Holthusen, put and carried unanimously.

Then Senator Bangert moved and seconded by Representative Flannigan that the attorney general of this state be invited to sit in at all hearings, and in the event that he cannot attend, arrange to have one of his assistants present. This motion was seconded by Senator Brunsdale, put and carried.

Thereupon Representative Lillehaugen moved that this Committee adjourn until 8:00 o'clock A. M. January 25th, to convene in Room 614, Patterson Hotel, seconded by Representative Peterson. Carried.
January 24, 1933.

(Third Meeting)

CAPITOL INVESTIGATING COMMITTEE

The third meeting of the Capitol Building Investigating Committee was held at Bismarck, North Dakota, January 25, 1933, in Room 614, Patterson Hotel at 8:00 o'clock A. M.

All members present, including the attorney, reporter, accountant for the Committee.

Proposed rules were read and studied.

It was moved by Senator Bangert and seconded by Representative Peterson that the Rules be amended by adding Rule 20 thereto, which Rule reads as follows: Motion carried.

RULE XX

"That whenever this Committee goes into executive session, it shall be unlawful for any person connected, or an employee thereof, to disclose any fact or facts, developed during such executive session, or disclose any proceedings taken by the Committee, until such facts or proceedings have been released to the public by the Chairman of the Committee either in the regular course of the investigation or upon motion and vote of a majority of the members, and that any persons violating this Rule shall be certified to the Legislative Assembly for prosecution for contempt, as contained herein and provided for."

Moved by Representative Peterson and seconded by Representative Flannigan that we adopt the Rule as amended.

Substitute motion made by Senator Brunsdale and seconded by Representative Holthusen that section 9 be amended by adding the following: After the last word in proposed rule 9, strike out the period, insert a comma and add the following: "except the Capitol Commission or any member thereof, shall be permitted to be represented by counsel when testimony is being taken and shall have the right to offer rebuttal testimony and shall have the right to cross-examine unless restricted or denied by the Committee."

Said motion was lost and motion on the original motion was taken. Said motion was put by the Chairman and carried.

Motion made and carried to adjourn meeting and that the next meeting be held at the County Court House at 8:00 o'clock, Thursday, January 26th. Motion put and carried.

Dated January 25th, 1933.

(Fourth Meeting)

CAPITOL INVESTIGATING COMMITTEE

8:00 o'clock A. M., Thursday morning, January 26, in Chambers of the District Court of Burleigh County, North Dakota, the meeting was called to order by Chairman Matthaai.

All members of the Committee present, together with attorney, reporter and accountant. Moved by Representative Flannigan and seconded by Senator Bangert that the Committee go into executive session. Carried.

Chairman instructed Secretary to read the minutes of the first meeting of the Committee which was done. Chairman ordered correction of Minutes to show initials of Mr. Janz which name is Roy. Moved by Senator Brunsdale, seconded by Representative Holthusen that with above correction, Minutes be approved as read. Carried.

Minutes of second meeting read by Secretary Flannigan.

Moved by Representative Flannigan, seconded by Senator Bangert that Committee amend the Minutes of second day's meeting by having the records show that Russel Deeter of Minot was employed as technical advisor on a daily rate of \$5.00. Motion carried.

Moved by Representative Flannigan, seconded by Senator Bangert that the Minutes of the second day's proceedings show that on motion of Representative Flannigan and seconded by Representative Peterson, that Mr. O. T. Haakenson was hired as special Bailiff at the daily rate of \$4.00 per day. Motion carried.

The Chairman stated that if there were no objections or other alterations or corrections, the Minutes would stand approved as read.

Minutes were approved as read.

Minutes of Third meeting dictated into the record by the Secretary.

Moved by Senator Bangert, seconded by Representative Flannigan that the Committee employ A. R. Jongewaard as reporter and Roy Janz as accountant for the Committee

and in view of the fact that as they started work on Wednesday, January 25th, that their pay start as of that date and on the rates agreed upon. Motion carried.

Chairman: The oath of office of A. R. Jongewaard is in my files and I turn the same over to the Secretary.

Moved by Representative Flannigan, seconded by Senator Bangert that the Committee now dissolve from executive session and proceed with the hearing. Motion carried. Committee adjourned to Court Room. Dated January 26, 1933.

(Fifth Meeting)

CAPITOL INVESTIGATING COMMITTEE

An executive meeting of the Capitol Investigating Committee was held at Chambers in the Court House in Bismarck, North Dakota, January 27th, 1933, at 8:00 o'clock A. M.

Chairman Matthaai: The Committee will come to order. Let the record show that all members of the Committee are present. I guess the reading of the Minutes of the previous meeting are in order.

Minutes of the third meeting read by the Secretary.

Chairman: Are there any amendments or corrections?

Senator Brunsdale: I offer an amendment. In the substitute motion there was a comma after the word "testimony" and I move that correction be made.

Motion seconded and carried.

Chairman: If there are no other amendments, the Minutes will stand approved as read.

Minutes of the fourth meeting read by the Secretary.

Chairman: How about the minutes after the public meeting started?

Senator Bangert: I move that in view of the fact that it is a very lengthy record to read, that a copy of the transcript containing the public record be delivered to the Committee as soon as the transcript is completed and that such be not enrolled until each member of the Committee has had 24 hours to read the transcript and offer corrections to be made.

Representative Flannigan: I will second the motion.

Chairman: You have heard the motion. All those in favor will signify by saying "aye." Motion carried.

Representative Flannigan: I move that we employ Harriet N. Botz as Committee stenographer at the rate of \$5.00 per day.

Member: Your motion to employ her as stenographer should be as of yesterday because we put her to work yesterday.

Representative Flannigan: I will amend my motion to that extent.

Motion seconded, put by the chair and carried.
Dated January 27, 1933.

(Sixth Meeting)

CAPITOL INVESTIGATING COMMITTEE

An executive session of the Capitol Investigating Committee was held at the Chambers of the District Court in the Court House in Bismarck, North Dakota, January 28, 1933, at 8:00 o'clock A. M.

Chairman Matthaei: The Committee will come to order. Let the record show that all members of the Committee are present. I suppose the reading of yesterday's Minutes is the first order of the day.

Minutes of the Fifth Meeting read by the Secretary.

Chairman Matthaei: Are there any amendments or corrections? If not, the Minutes stand approved as read.

Chairman Matthaei: As to the matter of reporting, Mr. Jongewaard informed me this morning that he didn't think he would be able to do the work. He has been out of practice for approximately five years and this is exceedingly difficult work. In order not to delay the proceedings, I called up Mr. Clifford Jansonius, Court Reporter of the District Court, and asked him to come down here this morning. Mr. Jongewaard informs me that in all probability he will be able to get out the transcript for yesterday's proceedings but possibly that wouldn't be ready for us until tomorrow or next day.

Senator Bangert: I understand that Mr. Jongewaard wants to resign? I move that we accept his resignation to become effective as soon as the transcript is out.

Representative Flannigan: I second the motion.

Motion put and carried.

Senator Bangert: I move that if satisfactory to Mr. Jansonius, that he undertake the job and that we employ him to take the place of Mr. Jongewaard to commence this morning, at the same rate on the same terms which have been explained to him.

Representative Holthusen: I second the motion.

Motion carried.

Chairman: The oath of office of Clifford Jansonius is in my files and I turn the same over to the Secretary.

Representative Flannigan: I move that the Committee now dissolve from executive session and proceed with the hearing.

Senator Bangert: I second the motion.

Motion carried.

Committee adjourned to Court Room.
Dated January 28, 1933.

(Seventh Meeting)

CAPITOL INVESTIGATING COMMITTEE

An executive session of the Capitol Investigating Committee was held at the Chambers of the District Court in the Court House in Bismarck, North Dakota, January, 30, 1933, at 8:00 o'clock A. M.

Chairman Matthaei: The Committee will come to order. Let the record show all members of the Committee are present, including the attorney, attorney general, reporter and stenographer.

What is your pleasure? How about the reading of the Minutes of the fifth day?

Minutes of the fifth day read by the Secretary.

Chairman Matthaei: Are there any amendments or corrections? Amend the Minutes of the fifth meeting by adding after the last motion, put and carried, "adjourned to

Court Room for public hearing where record is kept by reporter." Any other amendments or corrections? If not the Minutes stand approved as read and amended.

Minutes of the sixth day read by the Secretary.

Chairman Matthaei: Are there any amendments or corrections? If not the Minutes will stand approved as read.

Secretary Flannigan: I might submit the pay roll if it is in order?

Chairman Matthaei: Yes, sir.

Secretary reads the pay roll.

Secretary Flannigan: I think we are going to get in difficulty in regard to the architects work. Our records show we hired Deeter at \$5.00 a day as Technical advisor. Rush is to get \$5.00 a day and all expenses on account of being subpoenaed. Deeter receives \$5.00 a day and not expenses. I have looked into the work of these two men and I think we are under-paying them at the rate of \$5.00 a day. They are skilled men and are working very hard. They certainly are doing very good work. I would suggest to the Committee that we pay them off this week under the present arrangement. I make a motion that we pay

Chairman Matthaei: The Committee will come to order. Let the record show that all members of the Committee are present, including the Attorney, attorney general, reporter and stenographer.

Minutes of the seventh day ready by the Secretary.

Chairman Matthaei: What is your pleasure, gentlemen?

Representative Lillehaugen: I move that the Minutes be approved as read.

Representative Holthusen: I second the motion.

The motion was put and carried.

Secretary Flannigan: I hired a girl yesterday who worked last night on the transcript. We now have the transcript completed and up to date. I move that we allow Miss Betty Mobert \$5.00 for one day services as special stenographer to the Investigating Committee.

Representative Peterson: I second the motion.

The motion was put and carried.

Secretary Flannigan: Pressure of business didn't let me finish the pay roll. I will have an itemized account and everything on the list for you and place it on the desk.

Chairman Matthaei: I got Betty Boyle yesterday to work. It will probably take her about two days. She is taking some notes that we had there on some of the exhibits—making extra copies.

Senator Bangert: I think this expense should be held down as much as possible—

Representative Lillehaugen: I agree with you, gentlemen.

Secretary Flannigan: I move that Betty Boyle be hired as special stenographer for the Capitol Investigating Committee.

Senator Bangert: I second the motion.

Motion put and carried.

Senator Bangert: I move that we adjourn to the Court Room for the public hearing where the record will be continued by the reporter.

Secretary Flannigan: I second the motion.

Motion put and carried.

The Committee adjourned to the Court Room where Chairman Matthaei announced that all members of the Committee were present, including Attorney, E. R. Sinkler and the Attorney General and that the hearing would now proceed.

each \$10.00 a day and show them in the capacity of Technical Advisors to the Committee. The accountant is hired at \$10.00. These boys are as skillful—they are working as hard as the accountant.

Representative Peterson: I second the motion.

The motion was put and carried unanimously, that the Committee pay each Deeter and Rush as Technical Advisors \$10.00 per day, starting today.

Senator Bangert: I move, Mr. Chairman, that the salaries as presented to date be paid. I think we should pay our help each week.

Secretary Flannigan: I second the motion.

The Motion was put and carried unanimously.

Senator Bangert: The reason I do that, I don't want a lot of "hang-overs" here. I move that we adjourn to the Court Room for the public hearing where the record will be continued by the reporter.

Senator Brunsdale: I second the motion. Motion carried.

The Committee adjourned to the Court Room where Chairman Matthaei announced that all members of the Committee were present, including Attorney, E. R. Sinkler and the Attorney General and that the hearing would now proceed.

Senator Bangert: Mr. Chairman, it having been represented to the Board that the duplicate vouchers produced by Secretary Anders are true and correct duplicates of the vouchers filed with the State Auditor as required by law, I move you that this Board do not require the originals to be presented unless some member shall later on desire to have the original of some particular voucher presented. I make this motion in the interest of saving time.

Senator Brunsdale: I second that motion.

Chairman Matthaei: You have heard the motion, all in favor manifest by saying "aye." Motion carried.

Senator Brunsdale: I move that we adjourn until tomorrow morning at 8:00 o'clock.

Representative Flannigan: I second the motion.

Motion carried. Committee adjourned.

Dated January 30, 1933.

(Eighth Meeting)

CAPITOL INVESTIGATING COMMITTEE

An executive session of the Capitol Investigating Committee was held at the Chambers of the District Court in the Court House in Bismarck, North Dakota, January 31, 1933, at 8:00 o'clock A. M.

Senator Bangert: I move that we adjourn until tomorrow morning at 8:00 o'clock,

Representative Lillehaugen: I second the motion.

Motion put and carried. Committee adjourned.
Dated January 31, 1933.

(Ninth Meeting)

CAPITOL INVESTIGATING COMMITTEE

A Meeting of the Capitol Investigating Committee was held at the Counsel Room of the Burleigh County Court House in Bismarck, North Dakota, February 1st, 1933, at 8:00 o'clock A. M.

Chairman Matthaei: The Committee will come to order. Let the record show that all members of the Committee are present, including the attorney, E. R. Sinkler, the Attorney General, A. J. Gronna, the reporter and stenographer.

Minutes of the eighth day read by the Secretary.

Senator Bangert: I move to correct the Minutes in the last paragraph by adding 10:20 o'clock A. M. before my last motion.

The motion was seconded, put and carried and the Minutes were approved as read.

Senator Bangert: The Minutes start out stating "in executive session." Say that the Committee convened at Counsel Room in the Burleigh County Court House.

Chairman Matthaei: Should the Minutes be revised?

Senator Brunsdale: I think all that isn't necessary.

Senator Bangert: I move that the Minutes be corrected and show that we met at 8:00 o'clock A. M. in the Counsel Room in the County Court House. I also move that wherever the words "executive session" appear except one time where we went into executive session, that the same be stricken out.

Senator Brunsdale: I second the motion.

Chairman Matthaei: You have heard the motion, all in favor manifest by saying "aye." Motion carried.

Chairman Matthaei: I wish to say that Betty Boyle has finished special work in one and a half days. Shall we allow her pay at this time or at the end of the session, as we may need such services later.

Senator Bangert: Isn't she steadily employed in some State Department?

Chairman Matthaei: No, she hasn't been employed at all since January 6th.

Senator Bangert: I think we had better pay her off.

Secretary Flannigan: I move that we allow Betty Boyle one and a half days work at \$5.00 a day.

Senator Bangert: I second the motion.

Chairman Matthaei: You have heard the motion, all in favor manifest by saying "aye." Motion carried.

Secretary Flannigan: I move that we adjourn to the Court Room for the public hearing where the record will be continued by the reporter.

Representative Lillehaugen: I second that motion.

Chairman Matthaei: You have heard the motion, all in favor manifest by saying "aye." Motion carried.

The Committee adjourned to the Court Room at 8:20 o'clock A. M. where Chairman Matthaei announced that all members of the Committee were present, including Attorney, E. R. Sinkler, and the Attorney General, A. J. Gronna and that the hearing would now proceed.

The public hearing adjourned at 10:25 o'clock A. M., February 1st, 1933.

Representative Flannigan: I move that we adjourn until tomorrow morning at 8:00 o'clock A. M.

Representative Peterson: I second the motion.

Chairman Matthaei: You have heard the motion. All in favor manifest by saying "aye." Motion carried. The Committee adjourned.

Dated February 1, 1933.

(Tenth Meeting)

CAPITOL INVESTIGATING COMMITTEE

The Capitol Investigating Committee convened at the Counsel Room of the Burleigh County Court House in Bismarck, North Dakota, February 2nd, 1933, at 8:00 o'clock A. M.

Chairman Matthaei: The Committee will come to order. Let the record show that all members of the Committee are present except Mr. Peterson. The Attorney, E. R. Sinkler, the reporter, stenographer and accountant are present. You might read the Minutes of the preceding meeting, Mr. Secretary.

Minutes of the Ninth day read by the Secretary. You have heard the reading of the Minutes, are there any corrections or alterations? If not, the Minutes will stand approved as read.

Is there anything further?

Senator Bangert: I move that we go into executive session for the purpose that I have in mind—for the offering of a Resolution which I think should be treated as having been received in executive session. Mr. Chairman, I wish to offer the following Resolution:

Senator Brunsdale: I second the motion.

Chairman Matthaei: You have heard the motion, all in favor manifest by saying "aye." Motion carried.

Representative Peterson appeared at this time.

RESOLUTION

RESOLVED THAT WHEREAS, there was introduced in evidence during the public hearing of this Committee, held on February 1st, 1933, three separate Vouchers. Voucher Number (144) drawn on the Board of State Capitol Commissioners for the sum of \$198.73, payable to G. A. Fraser for railroad fare and sustenance claimed to have been expended by him on a trip for the Capitol Commissioners between November 19th and December 1st, 1931. Voucher drawn upon the Maintenance of National Guard Fund, payable to G. A. Fraser for traveling expenses and sustenance claimed to have been expended by him between November 28 and December 6, 1931, on a trip for the National Guard, totaling \$263.12. And Voucher drawn upon the Missouri River Commission, payable to G. A. Fraser for traveling expenses and sustenance claimed to have been expended by said Fraser between December 5th and 12th in the sum of \$194.93, and

WHEREAS, the said G. A. Fraser was at the time of the alleged incurring of said expenses, a member of the Capitol Building Commission and it appearing from the face of said Exhibits and the evidence introduced in the Hearings, that there are many duplications of items involved in said claims against the various Departments of the State and it appears to this Committee that the matter should be brought to the attention of the proper officials of this State without delay and

WHEREAS, the Resolution creating this Committee has limited the Committee to making Findings and return to the Legislative body of the State of North Dakota:

THEREFORE BE IT RESOLVED that said matter be brought to the attention of the Legislature now in session by filing copies of the several Vouchers, together with a copy of this Resolution, with the Honorable O. H. Olson, Lieutenant Governor, and Minnie D. Craig, Speaker of the House of Representatives, and that we urge them to place the matter before His Excellency, Honorable William Langer, Governor, A. J. Gronna, Attorney General, Mrs. Berta Baker, State Auditor, and such other State Officials as in their opinion may be necessary or desirable for such action as they may determine upon.

BE IT FURTHER RESOLVED that it is the sense of this Committee that by reason of the irregularities appearing upon the face of these several Vouchers, it appears to the Members of the Committee that the State Officials will be justified, if not under obligation, to have the various accounts upon which the said Fraser has drawn funds during his tenure in office, properly audited.

I move the adoption of the Resolution.

Representative Peterson : I second the motion.

Senator Brunsdale: I would like to have it read again.

(Resolution Read)

Chairman Matthaehi: All in favor of this motion as made and re-read, manifest by saying "aye." Motion carried unanimously.

Senator Bangert: I move that we dissolve this executive session and adjourn to the Court Room for the public hearing where the record will be continued by the reporter.

Representative Lillehaugen: I second that motion.

Chairman Matthaehi: You have heard the motion, all in favor manifest by saying "aye." Motion carried.

The Committee adjourned to the Court Room at 8:35 o'clock A. M. where Chairman Matthaehi announced that all members of the Committee were present, including Attorney, E. R. Sinkler, and the Attorney General, A. J. Gronna, and that the hearing would now proceed.

Dated February 2nd, 1933.

(Eleventh Meeting)

CAPITOL INVESTIGATING COMMITTEE

The Capitol Investigating Committee convened at the Counsel Room of the Burleigh County Court House in Bismarck, North Dakota, February 3rd, 1933, at 8:00 o'clock A. M.

Chairman Matthaehi: The Committee will come to order. Let the record show that all members of the Committee are

present. The Attorney, E. R. Sinkler, the reporter and the stenographer are also present.

The Secretary will read the previous day's Minutes.

Minutes of the Tenth Day read by the Secretary.

The Attorney General appeared at this time.

Chairman Matthaehi: You have heard the reading of the Minutes, are there any objections, corrections or alterations? If not, the Minutes will stand approved as read.

Senator Brunsdale: I make a motion that we hire Erma Wolters as additional stenographer as of yesterday. She worked yesterday.

Senator Bangert: I second the motion.

Chairman Matthaehi: You have heard the motion, all in favor manifest by saying "aye." Motion carried.

Chairman Matthaehi: Is there anything else to come up at this time? If not, we will repair to the Court Room for the public hearing, where the record will be continued by the reporter.

Senator Brunsdale: I second the motion.

Chairman Matthaehi: You have heard the motion, all in favor manifest by saying "aye." Motion carried.

The Committee adjourned to the Court Room at 8:20 o'clock A. M. where Chairman Matthaehi announced that all members of the Committee were present, including the Attorney, E. R. Sinkler, and the Attorney General, A. J. Gronna, and that the hearing would now proceed.

Senator Bangert: Mr. Chairman, if you are through with that subject, I would like to make a statement and motion for the Committee.

It seems to me from the evidence introduced so far it appears that this Capitol Commission has been pretty much on wheels. Meetings seem to be held, and contracts signed in Bismarck, Grand Forks, Minneapolis and Chicago, and even the meetings that are held in Bismarck, didn't seem to be held in the Secretary's office, they seem to have been held in the office of Mr. Conklin most of the time. Apparently there is some of the records and files scattered over the State, and possibly outside of the State. I think it is only fair to assume from the evidence that has been introduced so far that the various members of the Commission have part of these records, the Architects have part of them, possibly the contractors have part of them, and the Secretary has part of them. It seems to me that the Capitol Building Commission is as much as part of the State of North Dakota as one of its Departments, as the Secretary of State is, and the State Treasurer, and we ought to take some action, I think to make provision for providing a permanent resting place for these files and records.

I, therefore, move you, Mr. Chairman, that the Attorney for this Committee be instructed to prepare the necessary demands to be made on the various members of the Commission, and architects and contractors, in fact anybody that had any connection whatever, with the building of this Capitol Building, that they immediately return to the Secretary's office at Bismarck all the files and records relating to the business of the Capitol Building Commission, and that they be permanently left in the Secretary's office. I make that as a motion.

Representative Flannigan: I second the motion.

Senator Matthaei: Any remarks? Have you, gentlemen, heard the motion? All in favor of that motion manifest by saying "aye." Opposed—The Motion is carried.

The Public Hearing adjourned at 10:15 o'clock A. M., February 3rd, 1933.

Representative Peterson: I move that we adjourn until tomorrow morning at 8:00 o'clock A. M.

Representative Lillehaugen: I second the motion.

Chairman Matthaei: You have heard the motion. All in favor manifest by saying "aye." Motion carried.

The Committee adjourned to convene at 8:00 o'clock tomorrow morning.

Dated February 3rd, 1933.

Secretary Flannigan: I would like to move at this time that the daily rate of pay for Miss Wolters from the date of employment will be at the rate of \$5.00 per day.

Senator Bangert: I second the motion.

Chairman Matthaei: You have heard the motion. All in favor of that motion manifest by saying "aye."

Motion carried.

The Secretary, Mr. Flannigan, brought up the matter of the pay roll. This was discussed to some extent, including the amounts expended and to whom paid.

The matter of witness fees was also discussed and the following motion made:

Senator Bangert: I move now that this Committee do not pay witness fees or expenses to any witnesses who are on the State pay roll. We will pay those witnesses coming outside of the City and allow them their expenses. I move that they who are on the State pay roll do not receive any fees for the reason that they are supposed to furnish us with that information.

Senator Brunsdale: I second that motion.

Chairman Matthaei: You have heard the motion. All in favor manifest by saying "aye." Motion carried.

(Twelfth Meeting)

CAPITOL INVESTIGATING COMMITTEE

The Capitol Investigating Committee convened at the Counsel Room of the Burleigh County Court House in Bismarck, North Dakota, February 4, 1933, at 8:00 o'clock A. M.

Representative Peterson appeared at this time.

Chairman Matthaei: Is there anything else to come before the Committee at this time?

Senator Brunsdale: I make a motion that we pay Mr. Deeter off as his services are no longer needed.

Secretary Flannigan: I second the motion.

Chairman Matthaei: You have heard the motion, all in favor manifest by saying "aye." Motion carried.

Representative Lillehaugen: I move that we adjourn to the Court Room for the public hearing where the record will be continued by the reporter.

Representative Holthusen: I second the motion.

Chairman Matthaei: You have heard the motion, all in favor manifest by saying "aye." Motion carried.

The Committee adjourned to the Court Room at 8:20 o'clock A. M. where Chairman Matthaei announced that all members of the Committee were present, including the Attorney, E. R. Sinkler, and the Attorney General, A. J. Gronna, and that the hearing would now proceed.

Senator Bangert: I move that we adjourn until tomorrow morning at 8:00 o'clock A. M.

Representative Lillehaugen: I second the motion.

Chairman Matthaei: You have heard the motion, all in favor manifest by saying "aye." Motion carried.

The Committee dissolved from the public hearing at 10:00 o'clock A. M., February 8th, 1933.
Dated February 8th, 1933.

(Sixteenth Meeting)

CAPITOL INVESTIGATING COMMITTEE

The Capitol Investigating Committee convened at the Counsel Room of the Burleigh County Court House in Bismarck, North Dakota, February 9th 1933 at 8:00 o'clock A. M.

Chairman Matthaei: The Committee will come to order. Let the record show that all members of the Committee are present. The Attorney, E. R. Sinkler, the reporter and the stenographer are also present.

The Secretary will read the Minutes of the previous Meeting.

Minutes of the Fifteenth Meeting read by the Secretary.

Chairman Matthaei: You have heard the reading of the Minutes, are there any objections, corrections or alterations? If not, the Minutes will stand approved as read.

Attorney General, A. J. Gronna, appeared at this time.

Chairman Matthaei: Is there anything else to come before the Committee at this time?

Senator Bangert: I move that we go into executive session.

Secretary Flannigan: I second the motion.

Chairman Matthaei: You have heard the motion, all in favor manifest by saying "aye." Motion carried.

Senator Bangert: Mr. Chairman, we being in executive session and it appearing that there has been some discussion with reference to whether or not the Members of the Capitol Building Commission should be permitted to take the stand,

I MOVE YOU, that the Attorney be instructed to advise the Members of the Capitol Building Commission that if they have overlooked any questions they wish to ask witnesses who have already been on the stand, that they submit such questions in writing for the consideration of this Committee, and that if they desire to offer any rebuttal on any points under consideration, and upon which evidence has been offered, or if they desire to offer any evidence not in rebuttal, but which will give this Committee information with reference to the matter under investigation, the Attorney advise them to submit to this Committee in writing a statement in the nature of an Offer of Proof, so that it may be considered by the Committee.

Representative Peterson: I second the motion.

Senator Matthaei: You heard the motion, is there any discussion?

Senator Brunsdale: Under that motion for example, no member of the commission would be permitted of his own accord, to take the stand to answer any questions we might want to ask them.

Senator Bangert: On that I would say the rule provides that the attorney may call any witnesses he desires, with the consent of the Chairman. My recollection is the rule provides that any member of the committee may call witnesses with the consent of the Chairman.

Chairman Matthaei: That wouldn't preclude members of this committee from calling any members of the commission if he has the Chairman's consent. The reason that I think we ought to go a little careful here is that we advertised to the world at the time this Resolution was introduced our position that we were going to be fair; that it was merely a fact finding committee and that we were going to deal fairly with all parties and if the evidence indicated that the Commission was to be blamed, we will put what blame the evidence showed on them, and if we found that things were not as rumored and generally believed, that they would get a recommendation or be "white washed" so to speak, and I think we gave the impression generally that this was not going to be a star chamber proceeding. Of course if we don't want to give people against whom serious charges have been

lodged here a fair opportunity to show here from what evidence has placed them in the wrong light I am telling you this Committee is going to get into mighty awful bad disrepute throughout the State.

Senator Bangert: In response to that, I wish to say that offers in the nature of proof in court are as old as court trials and courts have never been placed in bad repute because certain offers were either received or rejected. This committee cannot pass in advance upon what evidence they are going to receive and what they are not going to receive until they have an offer showing what that evidence is to be. I am with you to give every man a full hearing and a fair trial, but I can readily see if we don't know in advance whether or not evidence is pertinent, whether it has any bearing on the matter under consideration, whether it is either in the nature of rebuttal or opening up new fields, we are liable to get into difficulty among ourselves as to whether any evidence ought to be received or rejected. I am going to say I am going to be as liberal as anyone in receiving any evidence if it touches upon the question under consideration.

Representative Flannigan: Mr. Chairman, as I understand Mr. Bangert's motion, it does not preclude putting the Capitol Commissioners on the stand if we desire to do so. It does decide how we shall take the rebuttal testimony if there is any offered and any testimony which could be considered not in rebuttal but pertinent to the question and which we overlooked and bring to the surface through examination by their voluntary offering such information to the committee. I think we should go on now with this motion—either for or against it—and adjourn to the court room and proceed with the hearing and then we will have an executive session after this public hearing today at which time the attorney can notify their attorney to get in readiness any questions he may care to put for our consideration and settle the question as to whether or not we want the Capitol Commissioners themselves to be placed as witnesses under our examination at a later date. I don't know for sure whether or not there is any new information that we can get from these Capitol Commissioners. If not, there would be no more reason for calling them as witnesses than it would be for calling in some of the other people who are more or less connected with building the Capitol for the State Government. We are here as a fact finding Committee to determine the how, and when and wherefore of this contract. We have done it thru their representatives to the best of our ability. If they have any other evidence to offer, they may do so and the Committee will take it into consideration. I think right now we should go ahead with our public hearing so we can be done with this work before the end of the week.

Senator Brunsdale: This motion of yours, Senator Bangert, covers rebuttal testimony and any new evidence they want to present.

Senator Bangert: Yes, sir.

Senator Brunsdale: The only thing that enters my mind is that they would submit something to begin with or if they did submit for example part of what they want to offer, and then wanted to ask something else, we would have to have a meeting and determine on that. They may want to hear something while that is going on and we would have to adjourn from the public hearing.

Senator Bangert: They could submit the question to the Chairman, only they would submit it verbally instead of in writing.

Representative Flannigan: That is why I would be opposed to that form of procedure is exactly that one reason. We open that up and they started from the beginning and immediately rebutt every solitary bit of testimony that has been admitted. In sustaining their evidence they would offer new evidence of all sorts which we would have to cross examine on in order to bring out the facts. These men had a right on the stand to tell the truth and they purported to tell the truth, the reason for doing their actions so far as the actions itself are concerned, is immaterial, as I see it. The actions which have been done are to be decided upon by us as to whether or not they were properly and legally or what other way you wish to say it—morally performed, in fulfilling this trust imposed upon them as Capitol Building Commissioners, irregardless of what passed in their minds as to why they done it. The question before us is not before the jury which would be in the case if you brought the testimony in on rebuttal. It is before us as a fact finding committee. Did they perform their work efficiently and economically or not or in a moral sense to the state at large, if they did, they have a clear bill of health, if they didn't then they have a certain amount of criticism to be placed upon them.

Senator Bangert: I will go a step farther than that and say if the records show they hadn't complied with the law, any amount of explanation on their part, won't make any difference as far as this Committee is concerned. If they desire to go farther and explain that matter they will have to go to the body for whom we are responsible—that is the Legislature.

Representative Flannigan: Here is just an example of just what you may expect: "May Keep Bangs,/Conklin off Stand, Rift Develops in Probe Body on Treatment of Two Builders. Investigators Far From Satisfied With Trend Quiz Has Taken." Then in going in here "The fact became known Monday as it was learned all has not gone smoothly in the committee insofar as the five league investigators are concerned." Who in the hell told them anything like that? Where have we had anything besides what we had across this table here? I want to say—Mr. H. D. Paulson if he was in the room I would take the little runt by the back of the neck and put his head out of the window and tell him a few things he won't forget. That stuff makes me sick.

"A rift has been discovered in the five league investigators." Personally, if it has it is only between four because I haven't had any connection with it. Now we pull these people out of the sticks and put them on the stand and here they would have three pages in the Fargo Forum telling you where you are all wet.

Representative Peterson: It seems to me that this Board will have to draw its own conclusions from the documents in evidence anyway and then it isn't really a question of fact at all, it is from the documents—they are a public matter, aren't they?

Chairman Matthaei: Whatever has been introduced.

Attorney Sinkler: Every record has been introduced.

Senator Brunsdale: That is true enough but it is hard for a Committee of seven to have access to study the records. According to the rule No. 3, I see any member of the Committee can have any person subpoenaed, but I don't presume that means they can put any person on the stand, but we can try out this method.

Senator Bangert: It is just exactly like you were associate counsel with Mr. Sinkler. You say to him "I have a witness that knows something." He is to examine him. He said "Bring your witness along, let's talk to him and see what he knows." Let them tell us what they have to offer in evidence.

Senator Matthaei: You heard the motion, all in favor of that motion, manifest by raising their right hand. (Six Members raised right hand.) Opposed? Carried.

Chairman Matthaei: I might say Mr. Davis handed me a list of six questions of which he wanted to be asked in regard to testimony of day before yesterday by Mr. Deeter relative to the 29% saving and whether or not the State benefited in it and whether or not they have complied with plans and specifications and how did you estimate the amount of the cement which would be required and whether there would be any likelihood of a saving of cement and as to the complying with the requirements and the specifications of storing the test cylinders.

Senator Bangert: I have no objections.

Attorney Sinkler: We can call him right on the stand and ask him those questions.

Senator Brunsdale: I move that we dissolve the executive session and adjourn to the Court Room for the public hearing where the record will be continued by the reporter.

Senator Bangert: I second the motion.

Chairman Matthaei: You have heard the motion, all in favor manifest by saying "aye." Motion carried.

The Committee adjourned to the Court Room at 8:45 o'clock A. M. where Chairman Matthaai announced that all members of the Committee are present, including the Attorney, E. R. Sinkler, and the Attorney General, A. J. Gronna, and that the hearing would now proceed.

Senator Bangert: I move that we adjourn until tomorrow morning at 8:00 o'clock A. M.

Senator Brunsdale: I second the motion.

Chairman Matthaai: You have heard the motion, all in favor manifest by saying "aye." Motion carried.

The Committee dissolved from the public hearing at 10:00 o'clock A. M., February 9th, 1933.

Dated February 9th, 1933.

(Seventeenth Meeting)

CAPITOL INVESTIGATING COMMITTEE

The Capitol Investigating Committee convened at the Counsel Room of the Burleigh County Court House in Bismarck, North Dakota, February 10th, 1933, at 8:00 o'clock A. M.

Chairman Matthaai: The Committee will come to order.

Let the record show that all members of the Committee are present, including the Attorney, E. R. Sinkler, the reporter and the stenographer.

The Secretary will read the Minutes of the previous day.

Minutes of the Sixteenth Meeting read by the Secretary.

Attorney General, A. J. Gronna, appeared at this time.

Chairman Matthaai: You have heard the reading of the Minutes, are there any objections, corrections or alterations?

Senator Brunsdale: I make a motion that the Minutes stand approved as read.

Senator Bangert: I second the motion.

Chairman Matthaai: You have heard the motion, all in favor manifest by saying "aye." Motion carried.

There was some discussion of the serving of subpoenas on various parties.

Senator Brunsdale: I move that we adjourn to the Court Room for the public hearing where the record will be continued by the reporter.

Representative Peterson: I second the motion.

Chairman Matthaai: You have heard the motion, all in favor manifest by saying "aye." Motion carried.

The Committee adjourned to the Court Room at 8:30 o'clock A. M. where Chairman Matthaei announced that all members of the Committee are present, including Attorney, E. R. Sinkler, and the Attorney General, A. J. Gronna, and that the hearing would now proceed.

Senator Bangert: I move that we adjourn until tomorrow morning at 8:00 o'clock A. M.

Representative Lillehaugen: I second the motion.

Chairman Matthaei: You have heard the motion, all in favor manifest by saying "aye." Motion carried.

The Committee dissolved from the public hearing at 10:00 o'clock A. M., February 10th, 1933.
Dated February 10th, 1933.

(Eighteenth Meeting)

CAPITOL INVESTIGATING COMMITTEE

The Capitol Investigating Committee convened at the Counsel Room of the Burleigh County Court House in Bismarck, North Dakota, February 11th, 1933, at 8:00 o'clock A. M.

Chairman Matthaei: The Committee will come to order. Let the record show that all members of the Committee are present, including the Attorney, E. R. Sinkler, the reporter and the stenographer.

The Secretary will read the Minutes of the previous day.

Minutes of the Seventeenth Meeting read by the Secretary.

Attorney General, A. J. Gronna, appeared at this time.

Chairman Matthaei: You have heard the reading of the Minutes, are there any objections, corrections or alterations? If not the Minutes will stand approved as read.

There was considerable discussion at this time relative to calling different witnesses to the stand, which transcript is attached to these Minutes and made a part of same.

Senator Brunsdale: I move that we adjourn to the Court Room for the public hearing where the record will be continued by the reporter.

Representative Holthusen: I second the motion.

Chairman Matthaei: You have heard the motion, all in favor manifest by saying "aye." Motion carried.

The Committee adjourned to the Court Room at 8:40 o'clock A. M. where Chairman Matthaei announced that all members of the Committee are present, including Attorney, E. R. Sinkler, and the Attorney General, A. J. Gronna, and that the hearing would now proceed.

Senator Bangert: I move that we adjourn until Tuesday morning at 8:00 o'clock A. M.

Senator Brunsdale: I second the motion.

Chairman Matthaei: You have heard the motion, all in favor manifest by saying "aye." Motion carried.

The Committee dissolved from the public hearing at 10:00 o'clock A. M., February 11th, 1933.

Dated February 11th, 1933.

Representative Peterson: I move that we go into discussion when this is going to terminate—what we are going to do about our findings. For myself, I can't see any need for proceeding with this matter much further. I think we have discovered what we are going to discover and I think we should come to a decision at this time.

Mr. Sinkler: I have this morning a report from the Governor's Contingent Fund with respect to the amount of money spent by him in the laying of the cornerstone amounting to \$1191.00. Then I got some reports from the Auditor with respect to the expenses that have been charged up to the State of North Dakota by Lundoff-Bicknell Company for travelling, and feed and sustenance and things like that.

Chairman Matthaei: Any other members got anything they want to bring out

Senator Brunsdale: I want to bring out what I had in mind yesterday. We haven't covered some ground. I still want to renew my request—that a couple of men be subpoenaed; not under the Resolution but I think we don't have any other purpose than to get all of the facts.

Senator Bangert: Do you know, Senator Brunsdale, what they are going to testify to or testify on?

Senator Brunsdale: No, they haven't told me.

Senator Bangert: Of course, if they don't present any statement of what they want to testify about

Senator Brunsdale: I am interested, of course, in some more provisions of the contract. We heard this side and the other side and I think we should get some other information on that.

Chairman Matthaei: Personally, I would like to call Mr. Bangs to explain that contract.

Senator Brunsdale: You mean we couldn't understand it? I think I have an understanding of it but there are a couple of features of it I would like to have explained more definitely. I think for the good of the whole Committee that that contract should be gone into.

Senator Bangert: Do you think you understand it?

Senator Brunsdale: Yes, I think I do.

Senator Bangert: Then Mr. Peterson's proposition will be postponed for quite awhile, I imagine.

Senator Brunsdale: I don't want to drag it out. If we had a couple of hearings on that, I think we could tell.

Representative Peterson: Here is the way that I look at it. I think the written record there is enough extravagance and recklessness and waste of money to justify us in taking steps to remove that Capitol Commission and in that event, we can go on with the auditing of the records. There is enough from the record to justify it in my estimation.

Chairman Matthaehi: My position is that they are entitled to take the stand if they want to. I still maintain if they don't we will be subject to just lots and lots of criticism.

Representative Flannigan: We are subject to that now.

Chairman Matthaehi: It seems to me if Mr. Brunsdale or anyone else wants to put Mr. Bangs or anyone else on the stand we should do that the same as we called any other witness.

Senator Brunsdale: Nevertheless you could ask someone to explain this contract.

Senator Bangert: I would like to ask now in view of the fact Senator Brunsdale suggests that we call Mr. Bangs to explain the contract, I would like to ask him if he talked to Mr. Bangs to know if Mr. Bangs understands this contract any better than anybody else.

Chairman Matthaehi: I don't think that any member of this Committee has to be cross-examined here to be allowed to avail himself of his right to call a witness.

Senator Brunsdale: Under Rule 3, I have a right to request that anybody be subpoenaed as witness. It is under that Rule I am making this request.

Senator Bangert: The same Rule provides that the attorney is the man who should do the examining. The attorney is to conduct the examination. The attorney should know what the witness is going to testify about so he can conduct an intelligent examination.

Senator Brunsdale: Under the Rules anybody can ask a question.

Chairman Matthaehi: That certainly has been the practice.

Representative Lillehaugen: I think we should limit their time, so it wouldn't be taking days.

Chairman Matthaehi: We have had the DeRemers 18 or 20 days on these subpoenas.

Senator Brunsdale: We have wasted a lot of time. I think we could take a few more days.

Senator Bangert: The last two days we had an example of what it means to start asking witnesses questions without knowing what they are going to testify about.

Senator Brunsdale: We got some information out of them at that.

Representative Flannigan: If you want to go down the line and grab off the rough stuff, we can make it bad for them.

Senator Brunsdale: I want to find out all there is to find out.

Senator Bangert: I feel this way, Senator Brunsdale, if I have a witness that is going to testify to anything, I wouldn't hesitate to tell this Committee what he is going to testify about.

Senator Brunsdale: I wouldn't either, but they had charge of these affairs and certainly should know something about them.

Senator Bangert: They have every opportunity to present their statement of what they are going to testify about.

Senator Brunsdale: We asked them to submit an Offer of Proof. I don't know how long a time it would take them to make it.

Senator Bangert: In other words you want the Committee to override the Resolution.

Chairman Matthaei: My position is if they would come in voluntarily and testify they must come in under that Resolution, but certainly no member of this Committee had dispensed with his prerogative to call a witness and if Senator Brunsdale, or Lillehaugen, or Peterson, or yourself, or Mr. Holthusen, or Mr. Flannigan, or myself want to put Mr. Bangs on the witness stand, I can see no good reason why he shouldn't have that opportunity.

Senator Bangert: Just provided that the member who is calling the witness would give this Committee some reason for calling the witness and tell us what he knows the witness is going to testify about.

Senator Brunsdale: Under the Rules that is not required.

Senator Bangert: Under every courtesy in the world that should be required.

Chairman Matthaei: No member has been obliged to come under that Rule until today.

Senator Bangert: I don't know of any Member who has called a witness outside of the attorney. Who called a witness outside of the attorney? I don't think anyone outside of the attorney has called a witness.

Senator Brunsdale: I guess there has been suggestions made here on who we should call or can't call.

Senator Bangert: I haven't called any—I haven't suggested any.

Senator Brunsdale: The Members of the Capitol Commission had charge of these things and if anyone should know what they have done, they should.

Senator Bangert: Absolutely.

Senator Brunsdale: I don't see any reason why they shouldn't be put on the stand and asked questions in regard to these transactions and the working of this contract and these different changes in the plans. Certainly they if anybody should be able to give us that information.

Senator Bangert: Correct, and they should submit the proposition to us if they have any explanation they want to make, and they haven't done it.

Senator Brunsdale: I look at it from the other side, that we desire that information and it is for that reason, I have made the request.

Senator Bangert: I tell you frankly as far as I am concerned, I don't care if you fellows want to put them on the stand and give us the right to cross-examine them.

Representative Peterson: I can't see any reason to drag this thing out. As far as I am concerned, I think we should make a report to the Legislature and then if they see fit to take the necessary steps to remove this Capitol Commission and put in another Capitol Commission, then the next logical thing would be an audit of everything and we will have all the accounts and all the contracts and everything in our hands. From the standpoint of taking care of the thing from the State's standpoint, in the economy of handling it, it seems to me that that is the logical thing to do.

Senator Brunsdale: Well, I made my request.

Senator Bangert: You requested calling Mr. Bangs or any other witness if he is willing and I anticipate that he will be placed on the witness stand. We might as well try it out right here. If we are going to proceed in this way.

Representative Flannigan: I will make my position clear. * * * He said it is a public record. The boys will go on the stand and I won't put up with any dilatory tactics. If you use the question and answer system, it will be alright with me. If you don't use that, understand I am not going to listen to any hour and a half speech. Don't think we are going to do that at \$84.00 a day. Just limit them to the question and answer system. It will be the question and answer system * * *.

Senator Bangert: If we ask a question such as "You tell us why you entered into this contract."

Representative Flannigan: That is immaterial. The question and answer system is what it is going to be. That

is what we went by until the last day or two. While we got some information, it cost us a lot of money.

Senator Brunsdale: At the same time you can get a lot of information.

Chairman Matthaei: We will limit it to the question and answer method. I think the Rules provide for that.

(Nineteenth Meeting)

CAPITOL INVESTIGATING COMMITTEE

The Capitol Investigating Committee convened at the Counsel Room of the Burleigh County Court House in Bismarck, North Dakota, February 14th, 1933, at 8:00 o'clock A. M.

Chairman Matthaei: The Committee will come to order. Let the record show that all members of the Committee are present, including the Attorney, E. R. Sinkler, A. J. Gronna, Attorney General, the reporter and the stenographer.

The Secretary will read the Minutes of the previous day.

Minutes of the Eighteenth Meeting read by the Secretary.

Chairman Matthaei: You have heard the reading of the Minutes, are there any objections, corrections or alterations? If not, the Minutes will stand approved as read.

Considerable discussion was had at this time regarding contracts and labor.

Senator Brunsdale: I move that we adjourn to the Court Room for the public hearing where the record will be continued by the reporter.

Senator Bangert: I second the motion.

Chairman Matthaei: You have heard the motion, all in favor manifest by saying "aye." Motion carried.

The Committee adjourned to the Court Room at 8:40 o'clock A. M., where Chairman Matthaei announced that all members of the Committee are present, including Attorney, E. R. Sinkler, and the Attorney General, A. J. Gronna, and that the hearing would now proceed.

Senator Bangert: I move that we adjourn until tomorrow morning at 8:00 o'clock A. M.

Representative Lillehaugen: I second the motion.

Chairman Matthaei: You have heard the motion, all in favor manifest by saying "aye." Motion carried.

The committee dissolved from the public hearing at 10:00 o'clock A. M., February 14th, 1933.

Dated February 14th, 1933.

(Twentieth Meeting)

CAPITOL INVESTIGATING COMMITTEE

The Capitol Investigating Committee convened at the Counsel Room of the Burleigh County Court House in Bismarck, North Dakota, February 15th, 1933, at 8:00 o'clock A. M.

Chairman Matthaei: The Committee will come to order. Let the record show that all members of the Committee are present, including the Attorney, E. R. Sinkler, the Attorney General, A. J. Gronna, and the stenographer.

The Secretary will read the Minutes of the previous day.

Minutes of the Nineteenth Meeting read by the Secretary.

Chairman Matthaei: You have heard the reading of the Minutes, are there any objections, corrections or alterations? If not, the Minutes will stand approved as read.

Anything else to come before the Committee at this time?

Mr. Sinkler: It will take only a very short time for the testimony that I have for today. The testimony that will be introduced this morning, as far as I am concerned now, is the testimony of the Prince Hotel with reference to the expense account of Norris and I thought probably we ought to call Conklin to the witness stand; and whether we call Bangs or not, I would decide after Conklin was on the stand. If we do call them in that way, it is going to take a lot longer and you people ought to decide that matter.

Considerable discussion was held at this time regarding the calling of witnesses and to what they would testify.

Senator Bangert: I move you now that if any member of this Committee has any witnesses he wishes to call or any facts he wishes to elicit from such witnesses, he be required to disclose to this committee the witness he wishes to call and the points upon which he wishes to interrogate the witness.

Representative Flannigan: I second the motion.

Senator Matthaei: I decline to put the motion for the reason that it is not compatible with the rules of this committee.

Representative Flannigan: I move as an amendment to Mr. Bangert's motion that the rules be suspended.

Senator Brunsdale: In other words, you move an amendment to the rules to that extent?

Senator Matthaei: I can't think that a member of this Committee should be subjected to the restraint in the calling of a witness.

In voting on the Motion, Flannigan, Bangert, Lillehaugen, and Peterson voted in the affirmative and Brunsdale, Matthaei and Holthusen in the negative.

Senator Brunsdale: My only comment is that it hasn't been done heretofore. I don't see why it should be invoked now.

Senator Bangert: Heretofore, the only witnesses which have been called, have been called by the Attorney. There hasn't been any members of the Committee called any witnesses.

Senator Brunsdale: At the same time, any member that has been questioning hasn't been compelled before hand to submit to the Committee what would be asked.

Senator Bangert: The same privileges have been extended to all members of the Committee. If the Attorney wishes to call the witness, then under the procedure which has been adopted, any member would have the right to interrogate the witness. The Attorney is entitled to know and the Committee is entitled to know what he is going to be interrogated about.

Senator Brunsdale: Well, I am not going to submit any statement as to what I am going to ask because that is something I can't very well do and I don't think I want to exercise my right under the Resolution and Rules to call witnesses, if I have to submit everything.

Chairman Matthaei: As Chairman, I would still hold that if you ask for a witness in there, regardless of this Motion, the Rule still holds.

Representative Peterson: I move that we re-convene after the public hearing.

Representative Flannigan: I second the motion.

Chairman Matthaei: You have heard the motion. All in favor manifest by saying "aye." Motion carried.

Senator Bangert: I move that we adjourn to the Court Room for the public hearing where the record will be continued by the reporter.

Representative Lillehaugen: I second the motion.

Chairman Matthaei: You have heard the motion, all in favor manifest by saying "aye." Motion carried.

The Committee adjourned to the Court Room at 8:40 o'clock A. M., where Chairman Matthaei announced that all members of the Committee are present, including Attorney, E. R. Sinkler, and the Attorney General, A. J. Gronna, and that the hearing would now proceed.

The following witnesses were called by E. R. Sinkler and testified, to-wit: Carroll Ligon, F. L. Anders and Roy Janz.

Representative Flannigan: I make a motion that the Committee adjourn from the public hearing.

Mr. Thorpe arose and addressed the Committee.

Chairman Matthaei: Mr. Thorpe, have you any written facts to submit to this Committee as to what your Offer of Proof would contain for consideration by this Committee?

Mr. Thorpe began reading.

Senator Bangert: I move that he submit his proposition in writing to this Committee and the Committee in return will pass on it.

Representative Flannigan: I second the motion.

Bangert, Flannigan, Lillehaugen, Peterson voted in the affirmative and Brunsdale and Holthusen voted in the negative.

A motion was made to retire to the Counsel Room to consider the statement presented by Mr. Thorpe.

Representative Peterson: I second the motion.

Chairman Matthaei: You have heard the motion, all in favor manifest by saying "aye." Motion carried.

The Capitol Investigating Committee re-convened at the Counsel Room of the Burleigh County Court House in Bismarck, North Dakota, February 15th, 1933, at 10:00 o'clock A. M.

Chairman Matthaei: The Committee will come to order. Let the record show that all members of the Committee are present, including the Attorney, E. R. Sinkler, and the Attorney General, A. J. Gronna.

Chairman Matthaei: Here is the communication handed me by Mr. Thorpe, as counsel for Conklin and Bangs. The Chairman read the communication, which is hereto attached and marked Exhibit "A."

Senator Bangert: I move you that the communication be received and made a part of the record and printed with the balance of the record.

Representative Peterson: I second the motion.

Chairman Matthaei: You have heard the motion, all in favor manifest by saying "aye." Motion carried.

Under the Rule adopted this morning, I don't see any * * *

Chairman Matthaei: I think we are bound by the Rules as long as they haven't been modified.

Senator Bangert: You look at the Rules and you will find that they can be changed.

Mr. Sinkler: In regard to an Offer of Proof, I could certainly dictate in a very short time a large amount of evidence that it wouldn't take me very long doing that. It seems to me this communication hasn't been brought here in good faith. It is trying to put the Committee in a bad light to the people of the State of North Dakota—and for no other purpose—it is an insult to the Committee.

Representative Peterson: Do you think the hearing has gone far enough so that you can make an intelligent report?

Mr. Sinkler: The entire matter is a matter of record—records that they themselves have made, save and except

with respect to the hotel documents—those charges may not be true but outside of that all records were made by the Capitol Commission themselves. There is one exception and that is the testimony of DeRemer that Bangs came down there and did certain things. The testimony of Newton is that of an outsider; testimony of the Deputy Auditor with respect to anticipated certificates. I can't think any of those things are untrue.

Representative Peterson: At any rate any decision that this Board arrived at or the House and Senate arrives at would not be based only on testimony but written facts and figures out of their own records that are equally fair to them or us.

Mr. Sinkler: I don't see how they can change them.

Senator Bangert: They have defied us.

Representative Flannigan: I don't see why they won't submit an Offer of Proof and let us decide on that Offer of Proof, Mr. Brunsdale, do you or do you not wish to call any witnesses to the stand?

Senator Brunsdale: I just said I didn't care to do it, under the present Rule adopted.

Chairman Matthaei: If he doesn't want to—I want to. I desire to call both Mr. Bangs and Mr. Conklin.

Senator Brunsdale: You will have to submit to what they will testify?

Chairman Matthaei: No.

Representative Flannigan: Do you figure on complying with the Rules?

Chairman Matthaei: I don't think the Rules cover that.

Senator Bangert: I move that the Rules be suspended and if members of this Committee wish to call any witnesses that he disclose to this Committee the names of witnesses he wishes to call and points upon which he wishes to interrogate the witness.

Representative Flannigan: I second the motion.

Chairman Matthaei: You have heard the motion to suspend the Rules. All members in favor of that motion to suspend the Rules, raise their right hands.

Representative Flannigan: * * * suspend the Rules and the motion of Mr. Bangert that we are now voting upon.

Senator Brunsdale: In other words, you are amending Rule 3 we have adopted heretofore for the purpose of invoking another Rule?

Chairman Matthaei: All in favor of that motion to suspend Rules and requiring any member of the Committee who wishes to call witnesses to first submit the name of the

witness, the matter upon which he intends to interrogate the witnesses by first submitting to the Committee for its approval and for them to pass upon the advisability of calling such witness, all in favor of that, raise their right hand.

Bangert, Peterson, Lillehaugen, Flannigan voted in the affirmative and Brunsdale, Matthaei and Holthusen voted in the negative.

Representative Flannigan: Senator Matthaei, will you now submit to the Committee the names of the witnesses you wish to call and also the matter upon which you wish to interrogate them so that this Committee may pass upon the advisability of calling such witnesses and either approve or disapprove.

Chairman Matthaei: You have made a new rule here. You have shorn individual members of this Committee of their prerogative to calling witnesses and certainly it occurs to me that it is only reasonably fair to permit one to be given at least until tomorrow morning to comply with that new Rule.

Senator Brunsdale: I think so, too.

Representative Flannigan: Would that be the only valid reason that you would have to delay that matter one day; the one you wish to call and the one you wish to interrogate the witness on?

Chairman Matthaei: I have made my request, and I don't know that it is necessary to bring up any further discussion.

Representative Flannigan: I have spent time here for 18 meetings and I believe at all times as the meetings progressed, I felt competent and qualified in my own mind what I wished to do during the time the meetings were held insofar as the Resolution regarding the authority of this Committee was concerned. I believe our business is practically finished. Our rules gave the opposition, if such it may be called, the same length of time to offer proof in rebuttal, or any new evidence that we have had to determine what we have found, and if such a procedure as you now suggest would be considered, new developments such as we have no control over and might or might not be pertinent to the Committee's business could develop if this request is granted. In this instant each individual would be entitled to go on and get 24 hours in which to collect his thoughts. I don't believe we have any time definitely set up.

Representative Peterson: I would like to make a motion that we publicly terminate these hearings unless something is filed by tomorrow morning to cause us to revoke our motion and re-open the public hearings.

Representative Flannigan: I second the motion.

Chairman Matthaei: I wish to say this, gentlemen, that each member of this Committee is entitled to the prerogative to call such witnesses as he wishes to interrogate; also in conformity with the Rules and the spirit of the Resolution that was adopted by the Legislature creating the Committee; and that these Rules have not been vitiated by way of any motions or Resolutions that this Committee has sought to adopt; and that any motion or action by this Committee at this time foreclosing the prerogative of any member of this Committee or any member of the Capitol Commission against whom these proceedings have been directed, has the right to examine any witness he desires. Other action is contrary to the Resolution creating this Committee and the Rules of it; that such action is also contrary to the principal of fair play, common decency and honesty and I object vigorously to such high-handed star-chamber proceedings that violate every American principal which permits inferences and accusations to be directed against men without allowing either member of this Committee to call a witness to be heard or a member of the Commission to be heard by this Committee. I cannot be a participant in such action. I feel the motion unwarranted so I must decline to put the motion.

Senator Bangert: Then as Vice-chairman of this Committee, I will place the motion.

Flannigan, Lillehaugen, Peterson and Bangert voted in the affirmative. Holthusen and Brunsdale voted in the negative. The Chairman refused to vote on the ground that the motion was not proper at this time.

Senator Bangert: So far as I am personally concerned, I am perfectly willing to have the Legislature and public judge my action in this matter and I should be more than willing to submit the matter to the Legislature as to whether or not the Committee has been fair in its conduct.

Senator Brunsdale: My only comment is that I agree with the statement the Chairman has made and I voted against the motion because I want to register my opposition to this method of procedure.

Senator Bangert: I might say further, Mr. Brunsdale, that you have been registering your opposition pretty distinctly all the way thru.

Representative Flannigan: May I ask Mr. Brunsdale how he voted on the floor of the Senate on the Resolution creating this Committee?

Senator Brunsdale: I voted against the Resolution in the Senate for no other reason that I thought that the amount of money appropriated was too large. In support of that statement, I can say that in the Committee, I thought that the amount of the appropriation was considered too large. I voted for an appropriation of \$3,000.00. That is all I have to say.

Representative Flannigan: I move that this recessed meeting be considered Executive session.

Chairman Matthaei: You can make this an Executive session if you wish but what I have said here as to the refusal to the Committee to call Bangs and Conklin, I will tell the world what my position is.

Representative Flannigan: And if there are any leaks from this Executive Session and it gets into the newspapers, there is going to be another investigating committee and we are going to find out who gave out the information.

Senator Bangert: I second the motion.

The motion was put and carried.

Senator Bangert: I move that this Committee adjourn and meet again in Executive Session, Thursday morning, February 16th, 1933 at 8:00 o'clock A. M.

Representative Holthusen: I second the motion.

Chairman Matthaei: You have heard the motion, all in favor manifest by saying "aye". Motion carried.

The Committee dissolved from Executive Session at 10:35 o'clock A. M. February 15th, 1933.

Dated February 15th, 1933.

(Twenty-first Meeting)

(Executive Session)

CAPITOL INVESTIGATING COMMITTEE

The Capitol Investigating Committee convened at the Counsel Room of the Burleigh County Court House in Bismarck, North Dakota, February 16th, 1933, at 8:00 o'clock A. M.

Chairman Matthaei: The Committee will come to order. Let the record show that all members of the Committee are present, including Attorney E. R. Sinkler, and the stenographer and reporter.

The Secretary will read the Minutes of the previous day.

Minutes of the Twentieth Meeting read by the Secretary.

Chairman Matthaei: Any corrections or alterations?

Secretary Flannigan: I think there are.

Discussion was had as to whether the word "restraint" should be changed to "restriction," on page 2 in Line 18, but the Committee agreed to leave it stand as written.

Secretary Flannigan: There is another place on page 11, which says: "Representative Flannigan: And if there are any leaks from this executive session and it gets into the newspapers, there is going to be another investigating committee and we are going to find out who gave the informa-

tion." What I said was, "I will support a Resolution for another investigation," I didn't say there would be another investigation.

After considerable discussion, that paragraph was changed as follows:

Secretary Flannigan: I move that paragraph in there be amended by changing after the word newspaper, the following: "then I will support to the fullest extent of my ability another investigating committee."

Senator Bangert: Do you make that as a motion?

Secretary Flannigan: Yes.

Senator Bangert: Then, I second the motion.

Chairman Matthaehi: You have heard the motion to amend the Minutes. All in favor signify by saying "aye." Opposed? Motion carried. The Minutes will stand amended. Are there any further alterations or corrections? If not, the Minutes will stand approved as read and amended. What is the next matter to come before this Committee, gentlemen?

Senator Bangert: What about it Mr. Sinkler?

Mr. Sinkler: I am thru as far as I am concerned.

Senator Bangert: Any requests filed with you or with any member of the Committee?

Mr. Sinkler: None filed with me.

Chairman Matthaehi: No requests have been filed with me nor have I filed one but I wish to reiterate that it is my opinion that this Committee should call the two commissioners against whom these proceedings have been directed for the purpose of allowing them to take the witness stand if they so desire and to allow them to either explain, amplify or rebutt any of the testimony which has heretofore been given and particularly in reference to the interpretation of the contract as between the Capitol Building Commission and the Lundoff-Bicknell Company; the matter of the Lundoff-Bicknell Company furnishing to the Board of Capitol Commissioners unit prices; also as to the question of rentals of equipment; the matter of expenses that have been charged to the State—both by Lundoff-Bicknell Company and also by the various architects, and also in relation to the acceptance of the Lundoff-Bicknell bid and the rejection of the Moline bid. That is my request.

Senator Brunsdale I might ask what would be the attitude of this Committee asking questions along that line as have been suggested by the Chairman?

Attorney General, A. J. Gronna, appeared at this time.

Senator Bangert: Well, I think under the record as it stands now, I don't think any committeeman is required to express an attitude. The record stands now which was made yesterday.

Secretary Flannigan: You mean they have complied with the Rule?

Senator Bangert: They have not complied with the Rule and motions adopted yesterday.

Senator Brunsdale: I think that Senator Matthaei has in a way complied with the Rule in the motion which reads as follows: "Senator Bangert: I move you now that if any member of this Committee has any witnesses he wishes to call or any facts he wishes to elicit from such witnesses, he be required to disclose to this Committee the witness he wishes to call and the points upon which he wishes to interrogate the witness."

Senator Bangert: If you will turn to page 9.

Representative Peterson: I would like to make a motion that we publicly terminate these hearings unless something is filed by tomorrow morning to cause us to revoke our motion and re-open the public hearings."

Senator Brunsdale: Page 9?

Senator Bangert: Page 9. That is quite plain.

Secretary Flannigan: You have a list of those things there you want to ask them on? One in regard to * * *

Chairman Matthaei: Interpretation of the terms of the contract and the matter of unit prices.

Representative Peterson: It seems to me they have had ample opportunity to submit any unit prices. Mr. Sinkler has called upon them and nothing was produced. Why should they do it now if they didn't do it before?

Secretary Flannigan: Whether it is right or wrong is not for me to decide. My findings upon that matter would be that they have not submitted unit prices under this contract and the judge or jury, whoever is to try the case, will decide whether they are right or wrong. They didn't have any unit prices in their possession.

Senator Bangert: The architect was called and superintendent and they testified no unit prices were submitted—it wasn't customary, they said.

Discussion was had by the Committee as to calling Mr. Bangs and Mr. Conklin on the stand, and Secretary Flannigan suggested if they were called they be interrogated about bonds and insurance.

Senator Brunsdale: I move that we do call Mr. Bangs and Mr. Conklin and interrogate them along the lines as you and the Chairman have suggested.

Secretary Flannigan: The point I am getting at—the facts we now have are full and satisfactory as far as I am concerned and so far as the attorney says he is concerned and the fact that we might have rebuttal evidence in there

will lead us to further discussion and investigation and will lead the investigation on endlessly. I see no real importance in the point Mr. Matthaei wants to interrogate the witnesses on which is a point in question and which would be naturally a matter of difference of opinion but I think if the Committee cares to discuss it we can perhaps show in the written record the points he wishes to interrogate them on. If they care to submit anything in regard to those points they could have done so in writing. It would have been according to our Rules. We go in there and call those witnesses on the stand to-day. We would perhaps get half way thru with one of them and it will be the end of the week before we get thru with them. (To Brunsdale) You yourself voted for an expenditure of \$3000.00. It is going to fall short of being enough if we continue on. There is no use of spending it because we have got it. We tried to keep these expenses down, and I think we made a complete investigation as far as the Committee is concerned. If the Commissioners desire to offer any evidence they could have done so in an Offer and Proof. It shouldn't be so wrong in this investigation as it is done in Court proceedings. It seems it is a recognized fact for the attorneys to do that in Court Proceedings. If there is anything as Mr. Matthaei says there is, something absolutely untrue, I think it reflects on each member of the Committee, I hadn't thought of it before, "I object vigorously to this high-handed star chamber proceeding that violates every American Principal that permits inferences and accusations to be directed against men without allowing either member of this Committee to call a witness to be heard or a member of the Commission to be heard by this Committee." That part is not material. He says there have been inferences and accusations made. Only in that one instance had that taken place. That is where Mr. DeRemer said that Mr. Bangs came down and wanted him to do something unethical and you might say illegal. That was done under oath. I don't think anything done under oath is an inference or an accusation. I think you are absolutely wrong in stating there has been anything like that. I think it reflects on our integrity as members of this Committee to make a purported statement in the record that there has been inferences made. I think that should be retracted on your part, on the part of Mr. Matthaei, he made that statement yesterday. If those things in your estimation have been inferences and accusations that are untrue, there is a proper way of taking care of them without inferring that these things were allowed to go in this Committee under oath because I believe every word these men said under oath on the stand.

Chairman Matthaei: I reiterate that. I think that our conduct against men against whom these proceedings have been directed is not allowing them to take the witness stand and to either rebutt or explain the matters that have been presented against them is reprehensible and not in accordance with the spirit of what the Legislature intended when they created this investigating Committee.

Discussion was had regarding additional compensation for the Attorney.

Secretary Flannigan: I move at this time that the Rules be amended and that Mr. Sinkler be entitled to a further payment on the basis of \$25.00 per day for time used in excess of the limit of 15 days which we set as the expectant period of this investigation.

Representative Peterson: I second the motion.

Senator Brunsdale: How was that motion in the first place, \$50.00 a day not to exceed 15 days?

Secretary Flannigan: \$750.00.

Mr. Sinkler: May I say one word, Mr. Chairman?

Chairman Matthaai: Mr. Sinkler.

Mr. Sinkler: I came down here very early in this matter and spent about 8 days with Mr. DeRemer before this matter came up and my expenses are quite high and I think this has been dragged out considerably on account of the questions that have been asked—longer than I expected anyhow.

Chairman Matthaai: I was just wondering from the way the motion was made whether or not the moving party considered that I caused an unwarranted amount of delay?

Secretary Flannigan: I didn't say what caused the delay, I said on account of developments in the Committee. This extended further than what we originally estimated and I think that is partly due to—not on the part of any Committeeman, but I would say on the part of all of us. Just natural unforeseen events which came up that we had no control over.

Representative Holthusen: It shouldn't last over two days longer if we do put these two men on the stand.

Secretary Flannigan: That is problematical.

Representative Holthusen: I would limit it to that.

Senator Brunsdale: Did anyone second my motion? My motion was that we call Mr. Bangs and Mr. Conklin and interrogate them along the lines suggested by Mr. Matthaai.

Chairman Matthaai: Mr. Flannigan's motion is ahead of this one now. You will have to re-state your motion, if you want it to be put, after this matter is taken care of. You heard the motion made by Mr. Flannigan that the Committee allow the attorney, Mr. E. R. Sinkler, in addition to the \$750.00, \$25.00 per day for each day spent in this investigation since the fifteenth day. Is that approximately the motion.

Discussion regarding number of days.

Chairman Matthaai: Are there any further remarks? If not, those in favor of Mr. Flannigan's motion, signify by raising their right hand.

Representatives Peterson, Lillehaugen, Holthusen, Flannigan and Senator Bangert voted in the affirmative.

Opposed: Senator Brunsdale.

Senator Brunsdale: I think \$750.00 is a good price.

Chairman Matthaei: On that basis, does that mean for the days engaged in public hearings or is that going to carry on until we get thru with our Findings and Conclusions, and does it or does it not include the Holy Sabbath?

Senator Bangert: Your findings are a whole lot more difficult job than your public hearings.

Secretary Flannigan: We show here in the first meeting that we hired Mr. Sinkler.

Chairman Matthaei: Read the Minutes.

Minutes of the first days meeting read in part by the Secretary, regarding the hiring of Mr. Sinkler as Attorney.

Senator Brunsdale: The 23rd of January?

Secretary Flannigan: The 23rd of January is right. There is 25 days which have elapsed since that time.

Mr. Sinkler: So far as the Findings are concerned, I should think they could be finished in a couple of days. You know Mr. Matthaei, that it is a difficult job yourself.

Chairman Matthaei: Yes, I do, you bet your life. And I was wondering if there was any limit as to the time this \$25.00 a day or wasn't there intended? How do we know when his time is up?

Secretary Flannigan: The way to terminate that is to do away with the public hearing as soon as possible. The Attorney has told us yesterday that he finished with all evidence he cared to receive. It is up to us now.

Chairman Matthaei: How about your man Janz?

Secretary Flannigan: We will release him to-day. We don't need to keep him for the Findings, do we, Mr. Sinkler?

Mr. Sinkler: No, I've all the records. There is going to be a lot of work getting those records.

Chairman Matthaei: Well, here, the Chairman and the Secretary have to sign the order for the claim, I assume. I take it this includes Sundays as well as every other day.

Senator Bangert: It certainly ought to in this case.

Discussion here as to work that was done on Sunday.

Mr. Sinkler: I would like to inquire if you want the Minutes attached to the report that you are going to submit? I think they should be myself—all the Minutes of the Meetings.

Senator Bangert: I am certainly willing to have them attached.

Secretary Flannigan: I move that we attach the Minutes of the Meetings to the Findings and Conclusions of the Committee report and made a part of the record thereof.

Chairman Matthaei: You make that as a motion?

Secretary Flannigan: Yes.

Chairman Matthaei: Is there a second to that?

Representative Lillehaugen: I second the motion.

Chairman Matthaei: You heard the motion that the Minutes be attached to the record as part of the Findings to be submitted—to be attached as part of the record when the Findings are submitted to the Legislature. All in favor manifest by saying "aye." Opposed? Carried unanimously.

Senator Bangert: Now, Mr. Chairman, I move you in view of the fact that we spent an hour * * *

Senator Brunsdale: I renew my motion.

Senator Bangert: What is your motion?

Chairman Matthaei: He has a motion.

Senator Brunsdale: The motion I made was that we call Mr. Bangs and Mr. Conklin and interrogate them along the lines suggested by the Chairman and Mr. Flannigan.

Representative Holthusen: I second the motion.

Senator Bangert: I move as a substitute motion that we do not call these witnesses for the reason that they have not complied with our Rules. No requests have been filed and no good reason shown this morning why we should revoke the action taken yesterday with reference to closing the public hearings.

Chairman Matthaei: Gentlemen, you heard the substitute motion.

Secretary Flannigan: I second the motion.

Chairman Matthaei: All in favor of the substitute motion, signify by raising their right hand.

Senator Bangert, Representatives Flannigan, Peterson, Lillehaugen voted in the affirmative. Those opposed to the substitute motion, raise their right hands. Senators Brunsdale, Matthaei and Representative Holthusen.

Senator Bangert: Now, Mr. Chairman, I move you that the attorney be instructed to proceed forthwith and prepare for this Committee Findings as soon as possible—Findings and Conclusions as soon as possible.

Representative Flannigan: I second the motion.

Chairman Matthaei: You heard the motion. All in favor of that motion, manifest by saying "aye." Opposed? Carried unanimously.

Senator Bangert: Let's adjourn to sometime when the attorney can present his Findings.

Chairman Matthaei: How about adjourning to the call of the Chairman when advised by the Attorney?

Discussion was had regarding the public announcement to be made to the Commissioners and other people interested in the Court Room by Mr. Sinkler.

Senator Bangert: I move that we adjourn to the Court Room and after the public statement has been made, that we adjourn subject to the call of the Chairman.

Secretary Flannigan: I second the motion.

Chairman Matthaei: You have heard the motion. All in favor of that motion, manifest by saying "aye." Motion carried.

Dated February 16, 1933.

PUBLIC HEARINGS

All meetings at which testimony was taken were held in public at the Court Room of the Burleigh County Court House, at all of which meetings all of the members of the Committee attended except as set forth in the minutes. The Committee was at all times represented by E. R. Sinkler of Minot as attorney and Honorable A. J. Gronna, Attorney General of the State of North Dakota.

The work of the Committee consisted of examining a large number of contracts, reports, books, files and records, together with correspondence between members of the Capitol Building Commission and others. A complete record of all the testimony was made and a copy of such testimony is attached and made a part of this report.

NAMES OF WITNESSES EXAMINED

The names of witnesses examined by the Committee are as follows:

Joseph Bell DeRemer
Russell Deiter
Roy Janz
Carol Ligan
R. B. Lewis
H. S. Mattison
Gust Erickson
F. L. Anders
J. H. Newton
William Kurke
Herman A. Brocopp
A. M. Halstad
J. O. Lyngstad
Gilbert Semingson
Ira L. Rush
Charles Weigle
J. M. Davis
P. H. Butler
J. J. Murray
C. M. Norris
J. T. Murray
Mr. Lincoln

During all public hearings, George Thorp of Fargo appeared as Counsel for the Capitol Commissioners and all of the Commissioners were present at the hearings except for the first few days George Bangs was not present and after certain developments, G. A. Fraser resigned from the Capitol Commission and absented himself.

That during the course of the proceedings Mr. George Thorp had the right and privilege to request of the Chairman of the Committee that certain questions be propounded to the witness under examination, such request to be in writing. He did not avail himself of this privilege, but he on many occasions submitted oral questions to the Chairman, which questions were in turn propounded to the witness. He was in no case deprived of this right.

Written request that certain questions be propounded to witness were presented by J. M. Davis, Superintendent for the contractors, and he was given full opportunity to explain all matters he desired to explain.

A fair and conscientious examination and interpretation of the resolution leads this Committee to the belief and it was the intention of the Legislature that an open, public investigation should be had and that a fearless and careful scrutiny of the activities of the Capitol Building Commission should be made, regardless of the consequences to individuals; that this investigation should be conducted on a high plane, but, at the same time, no one should be protected if he had erred, nor should any one be censured unless deserving of censure. The Committee has not acted, nor has it been influenced in its deliberations, by partisanship, nor has it been swerved from the paths of duty by any criticism that may have appeared either in the public press or heard in hotel corridors. The Committee has worked in the spirit of harmony, and there has been no serious conflicts among the members as to the manner of conducting hearing, nor on other matters coming before the Committee. We have diligently sought facts throwing light on the matters we were directed to examine, and while we feel that the burden has been somewhat arduous, yet we are compensated in knowing that we have uncovered a state of facts that demands the attention of the legislative body of this State and the people of this great commonwealth.

Almost two years have elapsed since the enactment of the law which brought into being the body under investigation, and though more than twenty months have passed by since this Capitol Commission was organized, the results are not such as could have reasonably been expected, in great part due to the cumbersome machinery set up. The members are widely separated, one living in Grand Forks, one at Fargo and another having his residence at the State Capitol. By virtue of this condition and because the men who have acted on the Commission have their own affairs to attend to, there has been a slowing up of the work which would not have occurred had the members at all times been available for transaction of the necessary business of the Commission.

Not only are the members of the Commission widely separated, but the architects reside at great distances from each other. Architect, Joseph Bell DeRemer resides at Grand Forks, William Kurke at Fargo and the associate architects, Holabird and Root, who in reality are the architects, in Chicago. Practically all of the work has been done upon the architectural job by the Chicago architects. There is, however, an architect on the work here, one Mr. Lewis, who is the representative of all the architects.

CAPITOL COMMISSION ON WHEELS

There was no single place for the records of the Capitol Commission to be kept. The depository of the records of the Capitol Commission should be in the secretary's office at Bismarck. There should be a place where all of the records of the Commission are kept and a place where all meetings should be held. It appears that records have been kept at various places, and meetings held at Grand Forks, Yellowstone Park, Minneapolis, St. Paul, Chicago, Jamestown, Fargo and other places. The going to and coming from these places of meeting has cost the state large sums of money. Your Committee has made no attempt to verify the correctness of the charges, as there are no receipts attached to the vouchers presented showing that the amounts paid by the state, were in fact paid out by the Commissioners. All activities of the Board should be concentrated in one place so that quick decisions could be made and the work hurried to a final completion. All delays cost the state large sums of money. All overhead of the contractors go on regardless of whether the work proceeds or not. A great many of the records were kept in the office of Mr. Bangs at Grand Forks and it was necessary for the Committee to request the return of such records to the secretary's office at Bismarck.

ARCHITECTS: SELECTION OF

Original Contact With Architects.

In view of the fact that three firms of architects are serving the state, the members of the legislature will be interested in knowing the manner in which they were contacted.

In the files of the secretary (offered in evidence) will be found a letter from Holabird & Root, dated April 2nd, 1931, addressed to George A. Bangs, which in part reads as follows:

"Dear Mr. Bangs:

We wish to place before your committee material relating to the selection of an architect for the design of the State Capitol Building.

We would welcome an opportunity to appear before your commission and to discuss matters relating to this important work.

Mr. Long and Mr. Clas of our organization visited

Bismarck early in February and having assembled considerable data, are somewhat familiar with the problems involved. They have had a wide experience in connection with public and semi-public buildings and it is possible that a general discussion of matters would be of interest in the formative state of procedure. We shall be pleased to give all possible assistance without obligation.

While in Bismarck, Mr. Long and Mr. Clas left with Mr. O. F. Bryant, Secretary to the Governor, some photographs of our work, together with some press reports giving something of the history of Holabird & Root, its personnel and standing among the architects of the country. Mr. Bryant was asked to turn these over to the Capitol Commission when appointed so that possibly you have seen them by this time. * * *

(Note) The law creating the commission was not approved until February 23rd, 1931.)

Under date May 5th, 1931, Holabird & Root wrote Mr. Bangs in part as follows:

"Dear Mr. Bangs:

Your visit to our office, though understood to be entirely informal and unofficial, was nevertheless appreciated by all. We always enjoy the frank discussion belonging to an important building project. * * *

So far as the record of the commission show, no action relating to architects was taken until May 9th, 1931, such action being as follows:

"ARCHITECTS: Letters from Holabird & Root of Chicago, Mr. Hewitt of Minneapolis and Mr. Ellerbee of St. Paul, all of them being architects, were now read by the President. The letters were thoroughly discussed.

"ARCHITECTS: Questionnaire to be sent out to all qualified and registered architects in the state, and that the Secretary obtain a list of 25 to 35 architects without the state and to whom questionnaires and the law be sent for their information. It was also moved in this motion that North Dakota architects be given first consideration when the qualifications of an architect were under consideration."

The Board of Capitol Commissioners selected as its architects Joseph Bell DeRemer and Sam T. DeRemer of Grand Forks, William F. Kurke of Fargo and, as associates, Holabird and Root of Chicago. The contract between the architects and the Board of Capitol Commissioners provided for an "architectural fee of six per cent and a mechanical fee of one and one-half per cent of the cost of the work" provided, however, that the architectural fee shall not be less than one hundred and eight thousand dollars and the mechanical fee shall not be less than twenty-seven thousand dollars." There is a further provision in the contract which provides: "the architects are entitled to reimbursement by the Board for the cost of transportation and living incurred

by them and their assistants while traveling in discharge of duty connected with the work but this is not meant to include living expenses of those representatives employed on the work in Bismarck." This latter clause was later severely criticized by one of the members of the Commission and attempted to be changed by parole to fix a limit of five thousand dollars for such traveling expenses and sustenance. Whether such parole limitation is valid is doubtful. There is a further architects fee as follows:

The plans and specifications were desired by the Board to be so prepared as to be applicable to brick construction but the Chicago architects so made the plans and specifications so as to be applicable only to stone construction and to change those plans, which was done, cost an additional amount of Twenty-eight hundred dollars. This change was made so as to be applicable to brick, though it seems that it was never the intention of the Board to use brick. The entire architects fee therefore is One hundred forty-two thousand eight hundred dollars (\$142,800.00). In our opinion, this work could have been done by North Dakota architects at a cost not to exceed \$90,000.00. Therefore, if North Dakota architects had been used the state would have made a saving of Fifty-two thousand eight hundred dollars (\$52,800.00).

There has been a great deal of friction between the architects. Mr. Kurke has, apparently, consistently supported the views of the Chicago architects and the DeRemers have, in a large number of instances, objected to the policies of Holabird and Root. This division of opinion has also greatly retarded the progress of the work. Furthermore, the North Dakota architects have not devoted much of their time to the superintendence of the construction, but have left such work almost entirely to one Lewis, who is a non-resident of the state. No one residing in North Dakota is continually on the job representing the architects. The Chicago architects have full charge of the mechanical contracts on account of the twenty-seven thousand (\$27,000.00) dollars to be paid them for that work, and hence we do not even have a representative of the North Dakota architects, upon the work involved in the mechanical contracts. Because of division of fees, the North Dakota architects do not assume any control over that part of the work.

PLANS AND SPECIFICATIONS

Section 8 of the law creating the Capitol Commission provides as follows:

"No plans and/or specifications shall be adopted until careful estimate has been made of the cost of supervision, labor, material and other expenditures necessary to complete the same, it being the object of this Act to restrict the aggregate and entire cost of all expenditures to be made under this Act to the sum of two million dollars."

This section of the law has been violated by the Board of Capitol Commissioners, in this: At the time bids were re-

ceived such bids in the aggregate amounted to more than the two million dollars, there having been allocated to the payment of architect fees and other expenses, the sum of Two Hundred Thousand Dollars, before such bids were received, leaving only One Million Eight Hundred Thousand Dollars, (\$1,800,000.00) for the cost of the work. At the time of receiving the bids the Board of Capitol Commissioners knew that the plans and specifications were such that the building could not be completed upon such plans and specifications at a cost within the appropriation. Knowing such to be true, it was the duty of the commission to change such plans and specifications so as to come within the appropriation and within the section of the law above quoted. At the time bids were received it was evident to the Board that changes would have to be made in such plans and specifications in order to bring the cost of the work within the appropriation. With such evidence at hand and possessed of such knowledge it was their plain duty to readvertise for bids based upon the necessary changes so that competitive bids could be received on the construction of the building, based upon specified and certain plans and specifications. This was not done, on the contrary the Board accepted the bid of Lundoff-Bicknell Company, knowing that such bid of one million five hundred seventy-five thousand (\$1,575,000.00) Dollars, could not be the basis of a contract but that changes would have to be made. Notwithstanding such knowledge the Board entered into a written contract for the construction of the Capitol Building in the sum of one million four hundred three thousand seven hundred seventy-five dollars (\$1,403,775.00), and when they entered into that contract they knew that changes of a very material nature had to be made, and such changes were made. A partial list of changes are as follows:

List of changes in Heating and Ventilating agreed upon at Bismarck, on August 30, 1932.

1. Omit one steam driven vacuum pump	
2. Omit one steam driven house pump	
3. Omit one boiler feed pump	
4. Change high pressure boiler plant to low pressure boiler plant	\$ 8,000.00
5. Omit stack lining with exception of the lower fifty feet	1,250.00
	<u>\$10,245.00</u>

(EXHIBIT "H")

As indicated these changes were agreed to on the 30th day of August, 1932, or about three weeks after the contract was signed. The amount of deductions are arbitrary and apparently insufficient. The architects could not determine from the data on hand whether these deductions were equitable or not. The only way in which the Capitol Commission could determine the equitable amount to be deducted would be to call in from various parts of the country persons dealing in the materials mentioned, and then they would have to depend on the uncertain opinion of many different individuals. Even this was not done.

In the contract, Article 26 thereof is found the following:

"The following allowances are substituted in lieu of those called for in the specifications for general work beginning on page 22.

Allowance	From	To
1. Finish Hardware	\$ 30,000.00	\$ 26,000.00
2. Lighting fixtures	75,000.00	50,000.00
3. Special Decoration	5,000.00	4,500.00
4. Models	37,350.00	20,000.00
5. Carving	12,000.00	8,150.00
6. Carving	800.00	500.00
7. Temporary Heat	9,000.00	No Change
	<u>\$169,150.00</u>	<u>\$109,150.00</u>

This is another change in the plans and specifications made after the bids were received and made for the purpose of reducing the amount of the contract in order to come within the appropriation. We have no figures from which it can be determined just what the changes made consist of. In other words the changes made are simply in a lump sum and no specifications as to what makes up the plans and specifications after the changes are made, are available. For instance one cannot determine what lighting fixtures are dispensed with in order to make a reduction of \$25,000.00, and with respect to other items the same thing is applicable. In this instance again we are presented with a large number of changes made after bids had been received and before contract was awarded. We think this change in itself would demand that new bids be received.

CONTRACT SHOULD HAVE BEEN AWARDED TO E. A. MOLINE; COMPARISON OF BIDS—MOLINE'S BID LOWEST

A comparison of the bids submitted by Lundoff-Bicknell Company and the bid submitted by E. A. Moline indicates, that, all other things being equal, the bid of E. A. Moline was the lowest bid and he should have been awarded the contract. He has been a resident of North Dakota for many years. His bid, however, was rejected. When the bids were asked for from various contractors such bidders were asked to submit schedule of wages to be paid and upon which they were basing bids. This was in effect a unit price on labor. It was so considered. At the time the bids were opened Mr. Moline stated to the Board of Capitol Commissioners that if he was permitted to use same wage scale as was submitted by Lundoff-Bicknell Company, his bid would be reduced twenty-four thousand five hundred dollars (\$24,500.00). He should have been permitted to do this. We herewith submit a comparison of bids for your information.

E. A. Moline's general bid:	\$ 1,659,434.00
Add 1 per cent on assigned contracts based on the sum of \$371,110.00	3,711.10
Total	\$ 1,663,145.10
Deduct from the above amount alternates Nos.: 2, 5, 10, 13, 14, 16, 19, 21, 22, 23, 24, 25, 29, 30 and 31:	125,800.00
	<u>\$ 1,537,345.10</u>
Lundoff-Bicknell's original bid:	\$ 1,575,000.00
North Dakota preference 3 per cent on the above bid:	47,250.00
Assignment of contracts on a basis of 2 per cent on \$371,110.00:	7,422.00
Add the estimated difference in wage scale figured by Mr. Moline over and above Lundoff-Bicknell scale of wages	24,500.00
	<u>\$1,654,172.20</u>

Deduct for alternates Nos.: 2, 5, 10, 13, 14, 16, 19, 21, 22, 23, 24, 25, 29, 30 and 31, the sum of:	111,225.00
--	------------

Making the net bid of Lundoff-Bicknell:\$ 1,542,947.20

By the above tabulation it is evident that Mr. E. A. Moline's bid is five thousand six hundred two and 10/100 (\$5,602.10) dollars lower than the Lundoff-Bicknell bid, of Chicago.

It seems significant that on the 25th day of July, 1932, four days after the bids were opened, a letter was written to Colonel Hackett of Holabird and Root, in which budgets A, B & C were discussed, which budgets had never been mentioned prior to the opening of bids, and in which letter Mr. Bangs urged the necessity of getting the contracts signed at an early date in order that the contractor should have an inviolate contract. This letter was marked "Confidential". And it is further very significant that Colonel Hackett who is the dominating influence in the Holabird and Root setup has a brother on the Capitol job working for Lundoff-Bicknell Company, the contractors, at two hundred dollars (\$200.00) per month. If the Board of Capitol Commissioners had desired to follow the letter and spirit of the law, giving it life, it should have awarded the contract to E. A. Moline, a North Dakota citizen.

GENERAL CONTRACT

The bids based on the unchanged plans and specifications were opened on the 21st day of July, 1932, at Bismarck, North Dakota. The firm of Lundoff-Bicknell Company was declared the successful bidder, and the contract was later consummated. The acceptance of the bid concludes the contract. At the time the bids were opened nothing was declared by either the owners, or the architects to the prospective bidders, that changes were to be made in the plans and specifications, NOR WAS ANYTHING SAID REGARDING THE PAYMENT BY THE OWNERS OF RENTAL ON NECESSARY MACHINERY TO BE USED IN THE WORK OF CONSTRUCTION, nor was anything said about the division of the contract into budgets "A" "B" and "C". The division of the contract was either an afterthought or else the successful bidder had previous information of the intention of so making the division. On July 25th, 1932, Mr. Bangs, one of the Board of Capitol

Commissioners wrote a letter to Colonel Hackett, the representative of the Chicago architects, in which we have the first record mention of the three budgets, which letter in part is as follows:

"Budgets 'B' and 'C' should separately provide that each should be separately become binding and fixed upon both the Commission, and the contractor by the exercise of an option by the commission, which option so exercised must be consented to and agreed upon in writing by the contractor, so that it will thereby become and be

equally fixed and certain with Budget 'A'. The point being that upon the adoption of the continued budgets 'B' and 'C' each becomes an inviolate portion of the contract, and protected by constitutional provisions so that in the event of HOSTILE LEGISLATION AFTER JANUARY 1ST, 1933, THE CONTRACTOR WILL BE PROTECTED BY AN INVIOLEATE CONTRACT."

About August 1st, 1932, the entire Board of Capitol Commissioners together with the two North Dakota architects went to Chicago for the purpose of preparing and signing the general contract.

The contract was signed on the 8th day of August, 1932 and at that time the Capitol Commissioners knew that a large number of changes would have to be made in the plans and specifications in order to come within the appropriation. Before the contract was signed one of the architects objected and requested that the plans and specifications be changed and new bids be asked for. The contract as written does not conform to the plans and specifications and the bid based on the plans. The contract provides for the payment of rental for equipment used by the contractor. The contract has been divided into three divisions or budgets. They are Budgets "A", "B" and "C".

At the time of advertising for bids and at the time the contract was about to be signed, certain proposals were submitted and the successful bidder was required to furnish unit prices. The proposal provides:

"Contractors will be required to submit a schedule of unit prices before the contract is signed."

This provision was to be complied with in all mechanical contracts, but in the general contract for ONE MILLION FOUR HUNDRED THREE THOUSAND SEVEN HUNDRED SEVENTY-FIVE DOLLARS (\$1,403,775.00) IT WAS NOT REQUIRED, though one of the architects demanded that it be produced. The furnishing of unit prices was a necessary and very important matter to be complied with, to enable the owners to arrive at equitable deductions for any changes in the plans and specifications.

If there is any disposition on the part of the contractors or any one connected with them to gain a financial advantage to the detriment of the state, the opportunity is offered in the failure of the Capitol Commissioners to demand the furnishing of unit prices before the contract was signed. The Committee believes that it was negligence on the part of the Board of Capitol Commissioners not to require the contractor to furnish such unit prices before the contract was signed. There is no way for the Capitol Commissioners, nor the architects, to determine whether deductions made on account of changes are equitable and just. The Board of Capitol Commissioners in this regard are at the mercy of the contractors. We have no way of determining whether the failure to furnish unit prices was intentional or not.

At the time bids were asked for, and until after such bids were opened on the 21st day of July, 1932, no suggestion was ever made that the contractor would be paid for the rental of the appliances and machinery used in the construction, and bidders should have been acquainted with that intention in order that they might arrange and make their bids in contemplation of such fact.

At the time bids were asked for and up until after such bids were opened, no suggestion was offered that the contract was to be divided into three budgets, nor was there at the time the contract was signed any data from which it could be determined what was to be included in each of the respective budgets, save and except a specified amount of money to be spent on each budget.

Other bidders were informed that unit prices would be required; labor schedules were demanded of the various bidders, and it was indicated that such schedule would be part of the foundation for bids, but the Capitol Board, after such bids had been received evidently determined that such was not the intention. Such action was misleading.

Had such determination been communicated to bidders it would have materially aided OTHER bidders in making their bids more competitive.

From the evidence adduced we conclude that the Board of Capitol Commissioners in making provision for Budgets "A", "B", and "C", have in fact entered into three separate contracts, each of which depends on funds available for completion. At the time the budgets were set forth in the contract there was nothing upon which the Commission could determine just what was contained in each of the budgets, and Mr. Kurke was of the opinion that he could guess within ten per cent of what was included. About three months after the contract was signed, the contractors did furnish what is claimed to be a budget setting forth what is to be included in each budget, "A", "B" and "C". It seems to this Committee that before the contract was signed, it would have been business-like to know just what was included in each budget.

MECHANICAL CONTRACTS

Mechanical contracts have been let for elevators, electric wiring, plumbing, heating and ventilating. The plumbing contract was let to J. W. Darragh. We find his bid was illegal. He did not furnish the necessary bond. In lieu of a bond the Board of Capitol Commissioners accepted what purports to be a certified check on an Iowa bank. This bank is now closed. The Board of Capitol Commissioners, in awarding the contract to J. W. Darragh and allowing him to proceed with the work he is now engaged in performing, exceeded their authority, and acted contrary to the provisions of section 6, which provides that:

"Each bid shall be accompanied by a bidders bond and a certified check in an amount equal to three per cent

of such bid, conditioned for the execution and faithful performance of a contract in accordance with said bid if the same shall be accepted by the Board."

The lowest legal bid was submitted by Mr. Canning of Williston and he should have been awarded the contract.

SUPERINTENDENT OF CAPITOL BUILDING

The Capitol Building Commission has violated the terms of Section 8 of Chapter 205, Session Laws of 1931, which provides as follows:

"Section 8. Superintendent of Capitol Building.) The Board may appoint a specially qualified person to act as Superintendent of the construction of said Capitol Building. It shall be his duty to see that all contracts made with the Board are faithfully performed, that all material furnished and work done shall be as required by law or the contract therefor, that all duties imposed on the architect are faithfully performed by him and his subordinates and that no provisions of this law are violated, to report to the Board any violation of this law or of any contract or of duty any architects, contractor, or employee of said Board, and to do such other duties as may be required of him by the Board. Said Superintendent shall receive as his compensation such sum as the Board shall deem reasonable, and he shall be removable at the pleasure of the Board. He shall give a surety bond in the sum of Ten Thousand Dollars by a surety company organized in or authorized to transact business in the State, to be approved by the Board and filed with the Secretary of the Board and shall take the same oath as members adapted to his position."

No independent Superintendent of construction has ever been appointed by the Board and there is no citizen of the State of North Dakota superintending such construction. There is no North Dakotan on the job other than the architect who comes from Fargo now and then to look after the construction.

This Committee is of the opinion that the word "may" as used in this statute must be construed as mandatory and it was, and is, the duty of the Capitol Commission to have a Superintendent upon such job "to see to it that all contracts made with the Board are faithfully performed," to see to it that all "material furnished and work done shall be as required by law or the contract therefor," to see to it "That all duties imposed upon the Architect are faithfully performed by him, and his subordinates and that no provisions of this law are violated" and to report to the Board any violation of this law or of any contract or of duty by the Architect, Contractor or employee of said Board."

As stated, there is no one on the job to do those things which the statute places upon the Superintendent of Construction.

Two of the Architects are from North Dakota but reside at great distances from Bismarck, one at Grand Forks and one at Fargo and they visit the construction and view the work at more or less uncertain intervals, but this does not give them the opportunity to perform the duties imposed upon a Superintendent of Construction. All others in authority and now on this job are from outside the State of North Dakota. It was undoubtedly intended that the State should have some one on this job who was entirely disconnected from the Contractor and also from the Architect. This is such a fundamental violation of the law as to constitute gross neglect of duty, and by reason of this neglect it is found by this Committee that the interests of the State and its people are not properly protected.

As an instance of what could be done by the Contractors in cheating the State by reason of the Commissioners not complying with Section 8 of the law, we desire to state that the evidence shows that the concrete placed in the construction of this building, contains twenty-nine per cent (29%) less cement than is contemplated by the plans and specifications. From the testimony of the same witnesses, it was also established that the Contractors did not intend to give the State credit for the saving in cement. The testimony of Joseph Bell DeRemer shows that when the cement was being poured in October he wrote to the Board and to all persons engaged upon the construction protesting against the kind of cement work being done, and called it the "poorest and sloppiest" job of concrete work he had seen in his forty years' experience as an Architect.

ANTICIPATION CERTIFICATES

Under Section 14 of Chapter 205 of the Session Laws of 1931, provisions made for the issuance of anticipation certificates in the sum of one million dollars, and subdivision (c) thereof provides:

"The said certificates shall be issued from time to time as the work of construction of the Capitol progresses, and only in such sums as the Board may deem necessary to provide the necessary funds to pay for material and labor and to carry out the provisions of this act."

About December 30th, 1932, the Board of Capitol Commissioners issued anticipation certificates in the sum of four hundred thousand dollars bearing interest at the rate of five per cent per annum, notwithstanding the fact that at the time there was available in cash \$868,333.31.

At the time of the purchase of these certificates by the Bank of North Dakota, it appears that it was the intention of the Capitol Commissioners to forestall any anticipated legislation by the present legislature which might be adverse to the plans of the Capitol Commission and ex-Governor Shafer. In other words they proposed to prevent the legislature of the State of North Dakota from acting upon such matters as they deemed fit and proper. It also appears

that at the time of the sale of such certificates, the Board was offered a contract by the Bank of North Dakota whereby it should be agreed that such certificates would be taken in such sums and amounts at such times as was absolutely necessary to pay for labor and material upon such Capitol Building.

We feel that the sale of the said certificates to the Bank of North Dakota was not necessary when made, but that such action could well have been taken in the future and thus save the Capitol Commission interest on such certificates, at the rate of \$20,000 per year.

The sale of said certificates, when made, and the purchase thereof by the Bank of North Dakota was not authorized by law and the Capitol Commissioners exceeded their authority in so selling such certificates.

The evidence shows that the Board of Capitol Commissioners and the Industrial Commission had full knowledge that the certificates could not be sold on the market at par. We believe it to be to the best interests of the said Capitol Building Fund that said contract of sale be rescinded, and the moneys restored to the Bank of North Dakota in order to avoid the interest being paid out of the said Capitol Building Fund.

LEGAL ADVISOR

Section 16 of the law provides:

"Legal Advisor. The Attorney General shall be the legal advisor of the Board and the Board is authorized to call upon him at all times for legal counsel and advice, and the Attorney General is authorized to appoint such special Assistant Attorney General as may be necessary to carry out the provisions of this act and such Assistant Attorney General to be paid as provided in Section 3e."

On April 18th, 1931, the Board of Capitol Commissioners reported that they had called upon the Attorney General requesting him to appoint one Aaron T. Jahr as legal advisor to the Board and urged such appointment. Aaron T. Jahr was not qualified to hold such position. He was not a citizen nor admitted to practice in this State and did not become entitled to practice law in North Dakota until November 23rd, 1932. Mr. Jahr, who was at the time employed in the office of Geo. A. Bangs, commenced work at the rate of one hundred fifty (\$150.00) dollars per month, from about the time the Board organized down to the time of the change in the law reducing wages and from then on drew one hundred twenty (\$120.00) dollars per month.

During 1932 he carried the title, legal advisor, and subsequently was called a clerk. The Attorney General of North Dakota refused to appoint Mr. Jahr as Assistant Attorney General and also refused to sanction his acting as legal advisor to the Board, but despite that fact, he was

hired, and has been paid by the State. This action by the Board is contrary to law.

INSURANCE AND BONDS

At the time bids were asked for by the Capitol Commissioners, bidders were requested to specify the percentage at which they could furnish their own bond and offers were made by various successful bidders. The Board rejected these offers even though in many instances it would have resulted in large savings to the State. The Board decided that the bonds should be written in three specified companies. The premium on the Lundoff-Bicknell bond amounted to Twenty-one Thousand Fifty-six (\$21,056.00) Dollars. The commission that was paid on this premium to the agents who wrote the bonds was thirty per cent. There were also the bonds of the mechanical contractors, in addition to the bond of the general contractor.

This Committee is of the opinion that this matter of furnishing bonds should have been submitted for bids after same had been duly advertised. The failure to advertise for bids was unwarranted, it being contemplated that the writing of bonds, as well as the letting of contracts, should be thoroughly competitive.

By reason of the fact that the Board of Capitol Commissioners agreed to furnish the bond for the contractors and failed to accept the deduction offered by Lundoff-Bicknell Company, the state lost \$2,343.39.

PREFERENCE TO NORTH DAKOTA CONTRACTORS AND LABOR

Section 10 of the Law Creating Capitol Commission provides:

“Preference to North Dakota Contractors and Labor:

“Preference shall be given to all bona fide contractors who have been continually in business in the State of North Dakota for a period of at least one year prior to the taking effect of the act, to the extent of three per cent, and whatever practicable preference shall be given to bona fide residents of the State of North Dakota, in all work, labor, employment and positions in and about and connected with said work.”

We find that this section of the law has been grossly violated and only a very few of the persons holding positions on this job are from North Dakota. The Architect on the job is a non-resident, and there is no doubt but that there are many Architects in North Dakota eminently competent to do this work. Mr. Kandzie, who has charge of the Architects' office at the Capitol Building, is a non-resident.

THERE IS NO ONE FROM NORTH DAKOTA CONTINUALLY ON THE JOB LOOKING AFTER THE INTERESTS OF NORTH DAKOTA. The Board of Capitol Commissioners

are grossly careless in permitting this condition to continue. There are several positions in the Contractors' setup that could be filled by North Dakota residents but these positions are nearly all filled by non-residents, except in the case of watchmen. In the report that was submitted to the Governor as of December 1st, 1932, this is called a relief measure. Very little of the money that is being expended is paid to North Dakota citizens, and relief accorded North Dakota citizens is very insignificant. It is the opinion of this Committee that the Board of Capitol Commissioners have almost entirely ignored this preference statute.

STATE FINANCING JOB

Section 6 of the law provides: "Ten per centum of the amount allowed shall be reserved from payments on monthly ESTIMATES OF WORK DONE, until such work has been completed, inspected and accepted."

The Contractors have made requisitions for moneys under this Section and the Commissioners have allowed requisitions for money where such work has not been completed, inspected and accepted. The FULL amount of the contract price for steel has been paid though only a part of such steel has been actually constructed into the building. The contractor was paid for steel that is still lying upon the Northern Pacific right-of-way in Bismarck, and which would not be placed into the construction for several weeks in the future. In the opinion of the Committee this is a violation both of the letter and spirit of the statute. Under this interpretation of the law, if the Contractors should see fit to ship to Bismarck all material to be used in the building, they can at once demand payment for the full value thereof even before any part was installed in the building. We do not think the Board of Capitol Commissioners have any right to make payment for material until it is placed permanently in the building. The method by which money has been drawn by the Contractors, virtually places the State in the position of financing the work. This was not contemplated by the Legislature and hence the action of the Board is illegal.

ILLEGAL ALLOWANCE OF CLAIMS FOR EXPENSES

Section 657 of the Supp. to 1913 Laws for 1925, is as follows:

"Claims against State verified, how. No bill, claim, account or demand against the State except in the case of salaries fixed by law, shall be audited, allowed or paid until a full itemized statement in writing shall have been filed with the officer or officers whose duty it may be to audit the same, and where charges are made for money expended in the performance of official duties all items of one dollar or more so expended and charged for shall be covered by a sub-voucher or receipt, which sub-voucher or receipt shall be signed by the person to whom the money was paid and such sub-voucher or receipt shall show at what place, on what date and for what the money expended was paid."

This statute has been violated in this, that approximately five thousand dollars (\$5,000.00) has been audited by the Board of Capitol Commissioners, in expense accounts for the personal expenses of the Capitol Commissioners and Secretary, without furnishing any receipts or sub-vouchers. That sums have been paid for traveling expenses and railroad fare by the Commissioners without submitting any receipt therefor, and there is no way of determining whether such sums claimed to have been paid out have in fact been expended. That the method of auditing and allowing claims by the said Board of Capitol Commissioners is such as to open up an avenue for fraud in the presentation and allowance of such claims. In the case of G. A. Fraser, it was shown that the system adopted did in fact offer to him an opportunity to draw upon several funds for the same expenditures. He traveled by a State-owned automobile from Bismarck to New Orleans and charged as though he were in fact riding on the train. He also charged for meals on the train when in truth and in fact he did not proceed upon a train at all. We find the Board of Capitol Commissioners all knew that he charged for a method of travel he did not use, and with knowledge of such fact allowed such claim.

RESIGNATION OF G. A. FRASER

Upon the above showing, G. A. Fraser resigned from the office of Capitol Commissioner, and his resignation was accepted by the Honorable William Langer, Governor. Such resignation was caused by reason of the discovery, thru your Committee of the procurement of moneys in violation of Section 657 of the Supplement for 1925.

CLOSE CONNECTION BETWEEN ARCHITECTS, CONTRACTORS AND COMMISSIONERS

While this Committee makes no charge of unlawful conduct, it desires to direct attention to the close relationship existing between the Architects, the Contractors and the Commissioners.

The testimony shows that Col. Hackett, the business manager and high-powered salesman for Holabird and Root, Associate Architects, is the brother of a Mr. Hackett holding a very responsible position with the firm of Lundoff-Bicknell Co., the Contractors, and that the son of Mr. George A. Bangs, President of the Commission, is likewise employed by the Lundoff-Bicknell Co.

We submit that while the connection is in no way unlawful, in our opinion it is highly improper, and should be terminated forthwith.

We also direct attention to the fact that the records show that Col. Hackett accompanied the Capitol Commissioners on a tour to Yellowstone National Park, which tour, according to the testimony of Secretary Anders, was financed by a subsidiary of the Northern Pacific Railway Company.

NORTH DAKOTA MATERIALS

Section 9 of the law creating this Commission provides:

“MATERIAL FROM NORTH DAKOTA. The Board

shall have and is hereby given power and authority where the kind of material to be used in the construction of the Capitol Building is not specifically fixed by this act, to use such material as it may deem best for said building, the said building shall be built of stone brick from steel, concrete and/or other fire proof material as far as practicable. All materials shall be procured in the State of North Dakota, provided the same are products of said State and can be procured and delivered at the site at a cost not exceeding five per cent more than the lowest amount for which material equally good can be procured elsewhere."

This Section of the law clearly indicates that the Legislature desired North Dakota materials to enter into this construction. We have in North Dakota one of the best bricks that can be manufactured anywhere. This Capitol Building constructed out of North Dakota brick would remain a permanent testimonial to the beautiful and lasting quality of brick manufactured within the confines of our State and would produce a building of which all North Dakotans could justly feel proud. It would have given employment to large numbers of North Dakota workers, and approximately three hundred thousand dollars (\$300,000.00) which will now pass into the hands of citizens of other States would have remained here to be distributed among our own citizenry. It is said in the Report of the Capitol Commissioners to the Governor that this was a relief measure. The measure of relief brought to our people is very insignificant and only an infinitesimal part of the huge sum appropriated will remain here to aid our unemployed. Most of this money will flow into eastern States to aid the unemployment situation of other Commonwealths, and while it is well to know that our sister States will be benefited, yet we believe that charity should commence at home. The additional cost of approximately one hundred and fifty thousand dollars (\$150,000.00), is not compensated by the substitution of stone for brick. We believe that the use of stone instead of brick is the result of a dominating influence within the Holabird and Root architectural setup, and that if possible, without too great a loss to the State, there should be a reconsideration of the conclusion of the Board to use stone, and have the Capitol Building built of North Dakota brick. It is significant that in the face of this statute so emphatically urging the use of North Dakota materials, nothing from North Dakota will pass into this construction excepting the ground on which that building rests and sand and gravel dug out of our hillsides. We sincerely deplore this unfortunate condition.

FAILURE TO PUBLISH FINANCIAL STATEMENT

Sub-division (d) of Section 2 of the law creating the Capitol Commission defines the duties of the Secretary and provides that:

"He shall as of the first day of January of each year, prepare a financial report for the preceding year containing an exhibit of all contracts entered into and an itemized and classified statement of all expenditures, and

a list of all vouchers issued showing to whom and for what purpose they were issued, which reports shall be filed in the office of the Governor and of the State Auditor and published within thirty (30) days after the first day of January of each year in two newspapers to be selected by the Board, and a copy transmitted by the Board to the Legislature at its next regular session."

The Secretary of the Board prepared a statement for the consideration of the Board setting forth the activities of the Capitol Commission, as provided in the law, for the year 1931. But the Board of Capitol Commissioners in violation of the express terms of the statute decided not to publish it. After this investigation was instituted, they published both the 1931 and 1932 activities or financial statement, but instead of publishing same in two newspapers as provided by law,

they again disregarded the law and caused it to be published in four newspapers, to-wit:

Bismarck Tribune,
Fargo Forum,
Grand Forks Herald, and
Minot Daily News.

The additional expense of publishing this report in two more newspapers than required by law, was incurred without authority. In failing to publish the report for 1931, they acted contrary to the law and in publishing the report in four newspapers instead of two they again acted contrary to the law. The report for 1931 was prepared by the Secretary and transmitted to Mr. Bangs at Grand Forks on the 18th day of January, 1932.

CHARGES MADE BY LUNDOFF-BICKNELL COMPANY UNDER CONTRACT

The contract between the State and the Contractors provides as follows:

"Article Three. In general the cost of the work under this contract shall include all cost of labor and materials of every kind in connection with the completion of the work and it is hereby especially agreed that such cost shall among others include the following items:

(a) All labor directly on the Contractor's payroll.

(b) Salaries of superintendents, engineers, timekeepers, material men, foremen, watchmen, and all other Contractors, employees, in whatever capacity employed at the field office in connection with said work including pro-rated salaries of those of the Contractor's force, and representatives whose full time is not devoted to this contract but whose part time services are necessary for the economical and expeditious carrying out of the work hereunder, including reasonable traveling expenses incurred in connection with the work."

Under this provision it is apparent that all charges made by the Contractors is paid by the State of North Dakota as

a part of the cost of the building. The greater amount of the overhead the less value does the State get in the building.

The Contractors have drawn large sums under each of the items mentioned in the clause quoted from the contract. Exorbitant and excessive charges have been made by various individuals in the employ of the Contractors. These charges are presented to the Architects for approval. Many of these charges have been approved by the Architects, Holabird & Root and Mr. Kurke. Mr. DeRemer has refused to approve such charges. After being approved by the Architects they are audited by the Board and paid upon requisitions made by the Superintendent and at the time the requisition is made no vouchers of any kind are presented but such vouchers or statements of expenses, are presented some twenty or thirty days after payment is made. The statements are not accompanied with sub-vouchers or receipts, and there is no way of ascertaining whether such charges are correct or not. These extravagant and excessive charges should not be allowed as a part of the cost of the building and should not be paid to the Contractors without the filing of sub-vouchers or receipts. The method used opens wide the field for fraud.

An example of what expenditures have been paid by the Capitol Commission upon the requisition of J. M. Davis, Superintendent of Lundoff-Bicknell Company, and approved by all the Architects except DeRemer, and audited and ordered paid by the Board of Capitol Commissioners, we desire to submit the following:

Some of the items in themselves would indicate excessive charges and the Capitol Commissioners should carefully scrutinize all payments made on account of expenses for all persons connected with the work, and compel the submission of receipts for moneys paid out.

The State pays \$110.15 to move the family of J. M. Davis to Bismarck, and then the State pays \$261.75 to cancel a lease on premises he had leased at Willmette, Illinois. Examine the item for meals of C. M. Norris, the Vice-president of the Lundoff-Bicknell Company. For twelve meals in Bismarck he charges \$25.00. Such are the charges that the State is paying for and such are the charges that go into the cost of the work.

Let us mention another matter. J. M. Davis, Superintendent, was brought here by Lundoff-Bicknell Company from Willmette, Illinois. The State paid \$350.00 to bring his furniture here, \$110.00 to move his family here and cancelled and paid for a lease he held there, the sum of \$261.00, a total sum of \$821.00. This is a charge that should be refunded to the Capitol Building Fund. It is a charge that was allowed

by the Capitol Commissioners and should not have been allowed. Another instance is one in which C. M. Norris and E. T. Smith traveled by rail from Chicago to Cleveland, Ohio, and charged \$14.00 for TWO ROOMS ON TRAIN, this seems to be an instance of milking the State. On another trip made by C. M. Norris and Colonel Hackett, railroad and plane fare is charged for Colonel Hackett and his expenses are supposed to be charged to the architectural fund. Colonel Hackett was employed by the Architects and it might be a proper charge against the Architects but was not a proper charge against the cost of the work.

C. M. Norris' apparent overcharge was at Patterson Hotel, September 19th, 1932, and paid the Patterson Hotel \$8.78, and charged up to the State \$18.25. He is vice-president of Lundoff-Bicknell Company. As to the prices paid and money expended on the cost of the work, the Capitol Building Commission, must to a great extent, depend upon the statement of Mr. Norris. A very close check should be kept on statements of cost made by Lundoff-Bicknell Company.

In this same connection it appears that C. M. Norris and E. T. Smith, who is the purchasing agent of the Contractors, charged up twenty meals in Bismarck at \$1.50 per meal or thirty (\$30.00) dollars.

E. T. Smith has also collected many other charges for expenses which appear exorbitant. He was at the Patterson Hotel and paid on a certain date the sum of \$8.70, he has made claim against the State for that item the sum of \$18.52.

Mr. E. T. Smith is the man who is traveling around the country buying materials that go into this Capitol Building and he is the man who reports what is being paid for various kinds of material by Lundoff-Bicknell Company, who in turn report it to the Capitol Building Commission.

Again on October 5th, 1932, the Vice-president of the Lundoff-Bicknell Company was at the Hotel Prince and on that day paid \$14.41 for hotel and telephone charges. Instead of presenting the bill for the correct amount and obtaining pay therefor, he presented a bill for \$22.87.

Again on August 31st, 1932, he was at the Prince Hotel and paid the sum of \$8.46 and made claim for \$18.50.

The testimony indicates that all the purchases of materials for the Capitol Building is being made by Lundoff-Bicknell Company except in the case of mechanical contracts. These purchases will amount to several hundred thousand dollars. The amount the State pays for such materials must of necessity depend on the claims that are presented by this Company. More than three hundred thousand dollars has already been paid out upon claims presented to the Archi-

pects and approved by all the Architects except Mr. DeRemer, 00, making a total of \$3,158.42. Many of these charges are for materials, labor, expenses, salaries, etc. To a great extent reliance must be placed on the honesty and integrity of the men in charge of the work of preparing these statements. The expense account of various employees of the Contractors show that the State has already paid for railroad fare and transportation the sum of \$1,841.45, for hotel and meals, \$700.62, other expense \$421.35, and unclassified, \$195.-incurred at such widely scattered places as Chicago, Cleveland, Willette, Illinois, St. Paul, Minneapolis, Fargo, Bismarck and other places and to check up the various sums will be almost impossible.

NEWSPAPER PROPAGANDA CLAIMING COMMISSIONERS' COURTING INVESTIGATION

At the time that the resolution was introduced in the Senate demanding an investigation of the Capitol Building Commission, there was published in the newspapers, statements purporting to have been issued by Mr. Bangs and the other Commissioners urging and inviting the investigation. At the very time that these articles were published, Mr. Bangs was seeking to have the investigation suppressed. Joseph Bell DeRemer, one of the resident Architects, had on different occasions filed written protests with the Board of Capitol Commissioners and sent to each of the Commissioners personally, objections to various matters relative to the work and activities of the Commission. He had filed written objections to the selection of certain alternates, objected to using stone instead of brick, objected to various changes in the plans and specifications, objected to the letting of the contract when the plans and specifications that had been adopted were such that they would have to be changed in order to come within the appropriation, and had objected to the signing of the contract until new advertisements for bids had been made, in order that competitive bidding could be had on the plans and specifications as made; he had objected to the manner in which the concrete work was being done; stated in writing that the concrete work that was being done was the worst he had seen in forty years of experience as an architect, objected to allowance of requisitions for payment of money to the Contractors, and did not approve any of the requisitions for the payment of money from three to eleven, inclusive. All of the above objections were known to Mr. Bangs and the other members of the Commission, on the 14th day of January, 1933. On that day while Mr. DeRemer was sick at his home in Grand Forks, Mr. Bangs visited him and carried with him two letters, one addressed to Geo. A. Bangs and one addressed to D. H. Hamilton, Chairman of State Affairs Committee, and urged him to sign such letters. He refused to sign them and Mr. Bangs became very abusive. He called Sam T. DeRemer the next day and again urged the signing of the letters, which was again refused and Mr. Bangs again abused Mr. Sam T. DeRemer. These letters are as follows:

Senator D. H. Hamilton,
Bismarck, N. Dak.,
Chairman Senate State Affairs Committee.

My dear Senator:

In re: Hearing Before Senate State Affairs
Committee, Jan. 16, 1933.

In re: Investigation Resolution.

I am opposed to this Resolution and consider it unnecessary; I am sorry that I cannot attend on Monday at Bismarck but my health is such that I am confined to my bed under the Doctor's orders and cannot move; it is uncertain when I will be about.

On Dec. 23rd, 1932, I adopted and approved and I now adopt and repeat as my own the following language found in the letter by Mr. Bangs to the Associated Architects relative to the Capitol Commission Job:

"Each of us is deeply interested in the Capitol Construction work; the North Dakota Capitol is the outstanding job of the year and it is one of the important building projects of this generation. We have been perhaps extraordinarily successful in our work to this point and every indication is that this success will be carried on to completion."

I wish further particularly to say that to my knowledge the Commission has awarded no contracts in connection with said building in violation of the spirit and/or intent of Chapter 205, Session Laws, 1931.

I think that the Commission has made every effort in its power to protect North Dakota contractors and material men. To my knowledge, no contracts have been let to parties outside of the State without due regard to the spirit and intent of the law.

I think that the division of said contract into three sections was for the purpose of safe-guarding the interest of the State and that such was the result thereof.

The resident Architects enjoy their full responsibility for the design, plans, specifications and construction of the work and receive a fair and just compensation therefor; I approve all that has been done in the foregoing matters; I have investigated and been in touch with the work from its beginning; I think the design is the work of a genius and while there have been, perhaps from time to time, differences of

opinion between the Architects on minor matters, yet these differences have never been permitted to nor have they affected in any way the utility, efficiency, durability or beauty of the building; such differences arise in all business transactions of importance and are and should be thrashed out and reconciled; such has been the case here and the result, in my opinion, has been to the advantage of the work.

I do not think that the size of the building is in excess of the needs of the State, taking natural growth and expansion into consideration and I am confident that the ultimate cost of the building will be entirely within the appropriation.

I regret that it will be impossible for me to testify before the Committee in person; if so, my testimony would be as hereinbefore expressed and this letter may be filed with you as Chairman of the Committee.

Yours respectfully,

North Dakota Capitol Commission,

My dear Mr. Bangs:

In re: Hearing Before Senate State Affairs
Committee, Jan. 16, 1933.

In re: Investigation Resolution.

I regret this Resolution and consider it entirely unnecessary; I am sorry that I cannot attend on Monday at Bismarck but the condition of my health is such that I am confined to my bed under the Doctor's orders and cannot move; it is uncertain when I will be able to be about.

I wish again to repeat my Dec. 23rd, 1932, adoption of the following language found in your letter of the same date relative to the Capitol Commission job:

"Each of us is deeply interested in the Capitol Construction work; the North Dakota Capitol is the outstanding job of the year and it is one of the important building projects of this generation. We have been perhaps extraordinarily successful in our work to this point and every indication is that this success will be carried on to completion."

I regret that it will be impossible for me to testify before the Committee in person; if so, my testimony would be as hereinbefore expressed and you are at liberty to place this letter on file with the Chairman of the Committee.

Yours respectfully,

In our opinion these letters indicate an effort on the part of Mr. Bangs to suppress the investigation. They also indicate that Mr. Bangs attempted to get Mr. DeRemer to sign statements which were inconsistent with the position Mr. DeRemer had assumed during the several months previous in relation to the Capitol Building Construction.

It further appears to us that such letters were sought in an effort to suppress the contemplated investigation. The evidence discloses that Mr. Bangs used very improper means in order to obtain from Mr. DeRemer his signature to these letters, and his conduct in attempting to obtain such signature is a matter that deserves censure. None of the matters proven in this hearing relating to the attempted procurement of such letters are denied.

LAYING OF CORNER STONE

On October 8th, 1932, the Board of Capitol Commissioners conducted ceremonies in and about the pretended laying of the Corner Stone for the new Capitol Building. This Corner Stone was placed many feet from the place where the Corner Stone of the building was to have its final resting place. A new Corner Stone will have to be procured at some future time as the stone that was intended to be used is now so chipped and broken as to be unfit for the purpose for which it was intended. This ceremony cost the State in the aggregate of \$1,757.68, not including the direct expense of

the Commission. Out of the Governor's Contingent Fund there was expended the sum of \$1,191.15.

There was paid for express on this block of stone the sum of \$132.69, the stone itself costing only \$28.05.

While the moneys expended out of the Governor's Contingent Fund did not come out of the cost of the work on the Capitol Building, yet it was the money of the State. The amount paid by Lundoff-Bicknell Company is charged up to the cost of the work in the Capitol Building Fund. The total amount paid by them, according to their own statement, being \$566.53.

The following is an itemized statement of the amounts paid out of the Governor's Contingent Fund:

CAPACITY OF BUILDING IN EXCESS OF STATE'S NEEDS

While it would be a wonderful achievement to construct this capitol building according to the picture presented and the plan and specifications adopted, yet we believe that for many generations to come the space offered will not be utilized. It would have been a matter of great economy especially in these times of great depression, to have left unfinished, or rather unconstructed, four or perhaps six of the upper stories of the building. The building is constructed so that in the administrative part, in time to come, stories could be added to meet the exigencies of the time. Many thousands of dollars could have been saved at this time to the taxpayers had the building been planned so as to provide space at this time for present needs and such additional space as would probably be used in from ten to twenty years in the future. Had the construction in its present plans been in fact a relief measure, so that the money used would have flowed in great part to North Dakota citizens there might be some compensation to the State in building the structure to its present size. But very little of the money expended flows into the pockets of North Dakota citizens.

UNSEEMLY TIME FOR COMMENCING CONSTRUCTION

It is unfortunate that the Board were so anxious to commence the construction of the building in order to head off any adverse legislation. This construction should either have been commenced in the early spring of 1932 or if this were impossible then the commencement of the work should have been delayed until the early spring of 1933. If the work could be started in the early spring of the year, the entire building could be inclosed during a period in which full efficiency could be had from the workers. As it is the building was started in the fall of 1932. Winter was near at hand. Through the cold winter months cement has been poured. As to the quality of that cement work there is some question. But it is certain that for a great deal of time the men have been unable to work by reason of the inclement weather. This means that the State of North Dakota is paying the salary of several men on the job which amounts each month to more than twelve hundred dollars. These salaries go on whether the work goes on or not. North Dakota must pay regardless of whether any work is being accomplished or not. There is also a great deal of additional expense connected with doing this work during the cold weather. While the concrete was being poured for the floors it was necessary to have sixty salamanders to keep the concrete warm until it had set, and it was also necessary to have placed about the floors, large amounts of canvas which cost the state large sums of money and the additional labor in keeping the canvas in place and additional men in watching the salamanders. We are of the opinion that the winter work on this building will cost for salaries and labor and expenses, at least fifty per cent more than if the work had been commenced in the spring.

COST OF INVESTIGATION

It has been the purpose of this Committee to keep the cost of the investigation at a minimum figure, considering the necessity of an efficient and exhaustive examination into the affairs and activities of the Commission. A comparison of other investigations may not be amiss. In 1921 in the Bank of North Dakota investigation, the bill of a special investigator was \$1,232.76, and we do not have such special investigator on the payroll, the bill of accountants in that investigation was \$2,200.00 and in instant case \$170.00. The bill of the marshal in that investigation was \$518.52 and in this \$100.80. The bill of the attorneys in that investigation was \$3,000.00 and in this it is \$1150.00. The total cost of the 1921 investigation was \$14,894.38 and the total amount of this investigation is \$3103.71. We herewith submit itemized account of the expenditures of the Committee.

PAYMENT BEFORE BOND FURNISHED

Sub-division (f) of Section 2, Chapter 205 Session Laws of 1931 provides:

“No party required by said Board to give bond shall receive any money from the public treasury, or warrant or certificate therefor, until such bond shall have been recorded as herein provided.”

This section was ignored by the Board of Capitol Commissioners. Large sums of money were paid to the architects before the bond required was furnished. These payments continued until the State Auditor refused to make any further payments until a bond was furnished.

The bond furnished is in the sum of fifty thousand dollars.

BANGS, FRASER AND CONKLIN AS VOLUNTARY WITNESSES

All of the testimony except one or two matters has been established by the written record made by the Capitol Commissioners, and those employed by them, together with the architects and contractors and their employees. Practically all of the testimony is found in the written record of the Board of Capitol Commissioners, and has been taken from the office of the Secretary together with certain letters found in the files of the Commissioners. Any amount of verbal testimony can in no manner change the written record. There is testimony offered by the State Auditor as to records and the Clerk of the Supreme Court as to the admission of Aaron Jahr, but this testimony is also based on written records. The testimony of George Shafer is in great part oral testimony but there is no contention that there is any dispute as to his testimony by the Capitol Commissioners.

Very early in the proceedings it was announced that under the rules guiding the Committee, Mr. Thorp representing the Commissioners could present any questions he desired to ask, in writing, and they would be propounded to the witness. This was not availed of by Mr. Thorp. He did, however, in many different instances, suggest to W. E. Matthaei, the chairman, certain questions to be asked and in each and every instance Senator Matthaei did propound the question requested and in some instances Senator Matthaei did ask further questions to elucidate the matters suggested by the questions presented by Mr. Thorp. At all times during the taking of testimony, the way was open to Mr. Thorp to have any matters on which evidence was being adduced, cleared of any uncertainty, purged of any wrong imputations, and explained in complete detail. The way may have entailed some labor on the part of the Counsel for the Commissioners but the added labor on his part is compensated by the saving of a great amount of time on the part of the Committee. The rules adopted were necessary in order to bring about as speedy an arrival at the truth regarding the Commission's activities as possible. If the demands of the Capitol Commissioners as contained in three different requests made by Mr. Thorp from time to

time, had been complied with, the investigation could not have been completed during the session. A majority of the Committee thought it advisable to avoid greater expense and long delay in arriving at the end of this investigation and thus invoked the rules that in the case the Capitol Commissioners desired to explain any part of the record made, they should submit what is known as an offer of proof, such offer of proof setting forth what the witnesses would testify to. This practice has long been in vogue in courts, and it is common practice to demand of Counsel in the trial of a case an "offer of the proof" he expects to adduce from the witness. It is to be remembered that in this Committee there is no judicial hand at the helm to guide the introduction of evidence, and to see to it that incompetent and immaterial evidence is not presented. Asking for an offer of proof is a fair way of placing a limitation on what may or may not be offered. Any competent and material evidence disclosed by the offer of proof would be received. Anything extraneous to the issues, immaterial to the ascertainment of the true condition, and which did not in any manner change the written record could be excluded. Without the salutary rule adopted we would have been compelled to listen to long speeches, filled with platitudes, and pregnant with explanations of violations of the statutes, but adding nothing to the record. The rule adopted gave to each of the Commissioners a full, fair, opportunity to explain any matter he desired to explain. Not one single avenue was closed to them. Every opportunity to bring out all the facts relating to their activities, was given to them, and they were requested time and time again to avail themselves of such opportunity. After the evidence was all concluded the attorney for the Committee was of the opinion that he did not think anything could be added to the record, by calling any one of the commissioners. The Commissioners did not ask to be called under the rules adopted, but on the contrary, refused to comply with the rule, and hence they have not testified. Their testimony, however, could not in any manner aid this Committee in making its findings.

On February 15th, 1933, George Thorp, attorney for the Commissioners, filed with the Committee a statement in part as follows:

"These parties feel and are convinced that the majority of this Committee are prejudiced against them and do not propose to submit suggested questions or a proposed offer, in the nature of an offer of proof to be censored and restricted by those whom they believe to be prejudiced."

This statement is evidently made in bad faith by the counsel for the Commission and by the Commission itself. Mr. Thorp has not during the proceedings asked to have propounded to the witness a single question, which was not asked of the witness. That fact conclusively indicates that his statement is not made in good faith.

He has not made an offer of proof and hence he cannot say what this Committee would do in case one had been offered. He is crossing a bridge before he has reached it.

Mr. Thorp knows well that under our system of Code procedure in our courts of justice, testimony is frequently taken by means of written interrogatories. This does not in any manner hinder the discovery of facts.

As far as this Committee is concerned it is not deemed necessary to supplement the record with the testimony of the Commissioners in order to have a true picture of all of the Capitol Commissioners' activities. The picture has been fully painted by the record. Their testimony could not add to or detract from what has been proven.

ULTIMATE FACTS

1st. SHOULD HAVE EMPLOYED NORTH DAKOTA ARCHITECTS. North Dakota architects should have been employed exclusively, for by so doing there would have been a saving of at least \$52,800.00.

2nd. BIDS SHOULD HAVE BEEN REJECTED. All bids should have been rejected at the time of opening and the Board learned that there would be many material alterations in the plans and specifications in order to bring the cost of the building within the appropriation.

3rd. BOARD NOT JUSTIFIED IN LETTING CONTRACT. The Board was not justified in letting the contract to Lundoff-Bicknell Company and thereafter permitting many and material changes in the plans and specifications.

4th. CONDITION REQUIRING UNIT PRICES VIOLATED. At the time bids were advertised for, bidders were informed that unit prices would have to be furnished by the successful bidder. This was necessary in order to determine what allowance should be made for changes in the work. The Lundoff-Bicknell Company was not required to furnish such unit prices and this leaves the board without any means of determining whether the amounts proposed to be charged for additional work, or whether the amounts proposed to be credited for deduction are proper. In view of the many changes made, this was very material.

(Note) In one instance the contractor made an allowance of \$250.00 for omitting certain work. While under examination before this Committee the Vice-President of the company who had originally fixed the amount to be allowed, admitted that the work was worth between \$700.00 and \$800.00, while the architect contends that it was worth at least \$2000.00.

All mechanical contractors were required to furnish unit prices.

5th. BIDS ACCEPTED UNLAWFULLY. The bid of J. W. Darragh for plumbing was illegally accepted as it was not accompanied by the statutory bond. A certified check on an Iowa bank was submitted in lieu of the bond. The investigation discloses that the bank is now in the hands of a receiver. Since the investigation started, information has come to the Committee that this bond has now been supplied.

6th. **HIRING OF AARON T. JAHR BEYOND THE POWERS OF THE BOARD.** The employment of Aaron T. Jahr (office man for Mr. George A. Bangs) was beyond the powers of the Board. He was not a citizen, not admitted to practice law in the state and consequently could not act as assistant attorney general. The record discloses that an effort was made to secure his appointment as assistant attorney general, but this request was denied. However notwithstanding such denial, he was employed and received \$150.00 per month for his services until the initiated law reduced it by 20%. So far as this record discloses he never performed any services for the Commission.

7th. **ISSUANCE OF ANTICIPATION CERTIFICATES UNNECESSARY AND CONTRARY TO THE STATUTE.** Notwithstanding the fact that there was almost a million dollars in the fund, the Commissioners arranged to sell, and did sell, to the Bank of North Dakota, \$400,000.00 of Anticipation Certificates. The State of North Dakota is now paying interest on said sum. The statute provides that such certificates should be issued only as the work progressed and the money was needed. The record clearly indicates that the money was not needed when the certificates were sold.

8th. **FAILURE OF BOARD TO PERMIT CONTRACTOR TO FURNISH OWN BOND, LOSS TO THE STATE.** By reason of the Board's refusal to accept the offer of the contractor to furnish his own bond, the state has suffered a loss of \$2343.59 and if the maximum guaranteed price is not reached, it will suffer an additional loss of \$736.98, on a total of \$3080.57. Apparently this loss was taken to enable the Commission to control the placing of the bonds and insurance with three favored companies.

9th. **NORTH DAKOTA LABOR NOT ON THE JOB.** Very little North Dakota labor has been employed on the project, notwithstanding the fact that the statute contemplated that preference should be given to North Dakota people. So far as this record shows, only the watchmen and the son of the president of the Commissioners, are North Dakota residents. The Committee feels that no effort was made to comply with that part of the law.

10th. **PREMATURE PAYMENTS FOR MATERIALS.** The statute provides that the contractor shall be permitted to draw 90% for work done. Notwithstanding this provision, the Board has permitted payments for materials when unloaded at Bismarck, even tho not upon the ground. The Committee finds that this was contrary to the intent of the law and in effect resulted in the state financing the contractors.

11th. **NO NORTH DAKOTA MATERIALS.** It was the intention of the legislature that the building should be constructed out of North Dakota materials, if possible. The record discloses that aside from the sand and gravel dug out of the hillside, no North Dakota material is being used. The whole record indicates that the Chicago architects deliberately planned to avoid using brick, which was the only material which might have been bought in North Dakota.

12th. **WORK ON BUILDING COMMENCED AT INOP-PORTUNE TIME.** The work of construction was commenced in the fall, when it must have been apparent to everyone that much of the construction work would have to be carried on, under adverse weather conditions, necessitating extra expense of about 50%. Sixty salamanders have been in use all winter in an endeavor to protect the concrete from frost. This would not have been necessary had the work been started early in the spring of 1932 or delayed until the spring of 1933. During much of the winter, very little construction work has been carried on, but notwithstanding this fact, the salaries of the superintendent, his assistants, office managers and their assistants and other employees of the contractors have been charged against the state. This will amount to several thousand dollars and could have been materially reduced had the work been undertaken at the proper season of the year.

13th. **MANY JUNKETING TRIPS TAKEN: EXPENSE OF CAPITOL COMMISSIONERS HEAVY.** More than \$5000.00 has been spent by the Capitol Commissioners traveling about, looking at buildings and materials and interviewing architects and contractors. Much of this expense could have been avoided had the Board adopted the usual procedure and required contractors and architects to visit the Board, instead of reversing the procedure.

14th. **CARELESS SYSTEM OF ALLOWING EXPENSES.** The system of allowing expenses adopted by the Board is undoubtedly responsible for the position in which Commissioner Fraser found himself during the investigation. This system enabled the Commissioners, the secretary, the builders and their employees, the architects and their employees and agents to draw money from the Building Fund without filing the necessary sub-vouchers. This is not only contrary to the statutes of the state, but absolutely contrary to good business. Large sums of money have been drawn by absolute strangers, without requiring the filing of sub-vouchers showing the expenditure of the amount claimed. Nothing which this Commission might say can sufficiently condemn such procedure. Commissioner Fraser resigned during the course of the investigation. The disclosures with reference to the accounts of Commissioner Fraser were such that he deemed it advisable to resign. The record fully discloses the reason for his resignation.

15th. **CAPITOL COMMISSION ON WHEELS.** Apparently from the organization of the Commission, it was an institution on wheels. In other words part of the records were kept at Grand Forks, some at the secretary's office in Bismarck, some by the architects and even some by the builders. During the course of investigation, action was taken to require all persons having these records to return them to the secretary. So far as we know or are able to determine, this has been done.

The foregoing fact has resulted in many delays which in the end, may prove to be costly so far as the state is concerned.

16th. ORGANIZATION CUMBERSOME. By reason of the fact that the Commission was largely on wheels, the members located in various cities of the state, the architects scattered from North Dakota to Chicago, and the builders were located in Chicago, it has been impossible to handle the work expeditiously and without unnecessary expense to the state.

17. FAILURE TO PUBLISH FINANCIAL STATEMENT. Under the provisions of the statute, the Commission is required to publish a financial statement annually. This statement is to be prepared by the secretary and reflect the expenditures of the Commission. The secretary prepared such statement for publication as of January 1st, 1932, but the Commission, upon the pretense of saving the expense of publication determined not to publish same. We do not feel that the excuse offered is a valid one for violating the provision of the statute.

The statute provides that the financial statement referred to in the previous paragraph should be published in two newspapers. After the investigation was started the Commission caused the 1931 and 1932 statements to be published in four newspapers, and thus again disregarded the statute and the state paid the unnecessary expense.

18th. EXORBITANT EXPENSE ACCOUNTS. Your Committee finds that at least, J. M. Davis, C. M. Morris and E. T. Smith, officers and employees of the contractors, Lundoff-Bicknell Company, have filed claims against the state for exorbitant and unlawful expense accounts. The following will suffice for an illustration:

Moving J. M. Davis's furniture from Illinois to North Dakota	\$350.00
Moving J. M. Davis's family	110.00
Cancellation of lease held by J. M. Davis on a house in Willmette, Ill.	221.00

19th. PADDED EXPENSE ACCOUNTS. According to the evidence submitted, the employees and agents of Lundoff-Bicknell Company have presented what is known as "padded expense accounts." The following will suffice as an illustration:

C. M. Morris, Sept. 19th, 1932 paid Patterson Hotel \$8.78; amount claimed, \$18.25.

October 5, 1932, paid Prince Hotel, \$14.41; amount claimed, \$22.87.

October 31st, 1932, paid Prince Hotel \$8.46; amount claimed \$18.50.

E. T. Smith, paid Patterson Hotel, \$8.70; amount claimed, \$18.52.

20th. EXORBITANT EXPENSE ACCOUNTS. The following will serve to illustrate:

E. T. Smith, October 20th, 1932, (five days at Bismarck), railroad fare	\$24.59
Plane Ticket	20.00
Hotel Prince	24.81
Hotel Radisson	3.50
Telegrams	1.44
Berth to Minneapolis	4.85
Meals	20.00
Taxis, Chicago	3.00
Taxis, Minneapolis	10.00
Miscellaneous Expense	10.00
Total	\$122.19
E. T. Smith, Dec. 19, 1932, Plane to Min- neapolis	\$20.00
Hotel Radisson	4.50
Berth to Jamestown	3.75
Compartment to Bismarck	3.75
Hotel Patterson	15.94
Taxis	4.55
Taxis, Chicago	2.35
Ticket, Minneapolis to Bismarck	15.29
Ticket to Chicago	29.85
Berth to Chicago	8.63
Meals, four days	25.00
Miscellaneous	10.00
Total	\$143.61

The foregoing merely illustrates and we refer you to the findings for other instances of what appear to be extravagant expenditures for expenses. To date the contractors have made claim for expense accounts in the sum of \$3158.42.

21st. **IMPORTANCE OF THE FOREGOING ILLUSTRATIONS.** The foregoing illustrations are important to the taxpayers of North Dakota when you consider the fact that Mr. Norris, Mr. Smith and others employed by the contractors will be the people upon whom the taxpayers must depend to a very large extent for the correctness of materials bought and charges paid in connection with the construction of the capitol building.

22nd. **CORNERSTONE LAYING PREMATURE.** On October 8, 1932, the Commission informed the taxpayers and citizens of North Dakota that they were laying the cornerstone of the new capitol building. Investigation discloses that the such cornerstone laying was a mere pretense because the construction had not advanced to the point of permitting the laying of the stone in its proper place. This ceremony was carried on at an expense of \$1747.68 of which \$566.53 was paid out of the Building Fund and the balance out of the Governor's Contingent Fund. The stone itself cost \$28.05, while the express in conveying it to Bismarck from the place where it was quarried, amounted to \$132.69. We refer you to the findings for the detailed expenses which are somewhat illuminating.

23rd. **PREMATURE PAYMENT TO ARCHITECTS.** The statute provides that the architects shall furnish bond in the sum of \$50,000.00 and it also provides that no payment shall be made where bonds are required, until such bonds are furnished (see sub-division "f," section 2, and also section 7). The record discloses that large sums of money were paid to the architects before this bond was furnished and such bond was forthcoming only after the State Auditor refused to permit any further payments.

24th. **COURTING INVESTIGATION.** When the resolution authorizing the investigation was introduced, Commissioner Bangs, for himself and the other members of the Commission stated publicly that he welcomed the investigation, hoped that it could be completed and was prepared to furnish all information held by himself, associates and employees. While this information was given to the press, he endeavored to secure the signature of Joseph Bell DeRemer to letters which would have discouraged such investigation and which would have the effect of nullifying certain actions taken by said DeRemer in connection with the capitol building.

(Note) See the findings for these letters.

25th. **CLOSE RELATIONSHIP BETWEEN ARCHITECTS, BUILDERS AND COMMISSION.** There seems to be a very close relationship between the architects, the contractors and the Commission. While this relationship is perhaps not unlawful, the Commission feels that it is improper. (See Findings for details.)

26th. **FAILURE TO APPOINT SUPERINTENDENT.** Section 8 of the Capitol Commission Act provides that the Board appoint a specially qualified person to act as superintendent of the construction of the capitol building. His duties are set out as follows: "To see that all contracts made with the Board are faithfully performed, that all material furnished and work done shall be as required by law, or the contract therefore, that all duties imposed upon the architects are faithfully performed by him and his subordinates and no provisions of this act are violated, to report to the Board any violations of this law, or of any contract or of duty of any architect, contractor or employee of said Board, and to do such other duties as may be required of him by the Board." In the opinion of your Committee this was a direct mandate of the people and one of the important duties to be performed by the Commission. Such duty has been entirely ignored and the direct provision of the statute, disregarded. By reason of that fact, the taxpayers of North Dakota are largely at the mercy of the contractors and no one directly interested in protecting the interests of the citizens of North Dakota, is in charge.

27th. **DISBURSEMENTS CONTRARY TO STATUS.** Section 11 of the act provides that all disbursements on account of the construction of the building shall be made pursuant to certificates issued by the Board. All architects estimates, claims, bills and demands for labor performed, work done or

material furnished shall be presented to the Board in the form of an original and a duplicate, and shall be passed upon by said Board only, and after careful examination of every item named. Notwithstanding this provision, the record shows that every payment has been made upon the requisition of the contractors, approved by two of the architects, without furnishing the necessary information from which could be made "a careful examination of every item named." The record further shows that it was agreed between the Board and the contractors that the contractor would not be required to furnish evidence in support of the various items included in the requisition until the following month. In other words, the supporting evidence of the various items included in the requisition was not furnished until at least thirty days after the claim was presented and payment allowed.

28th. COMMISSIONERS AFFORDED EVERY OPPORTUNITY TO FURNISH INFORMATION, AND TO DISPROVE ANY EVIDENCE WHICH THEY CLAIMED UNTRUE OR MISLEADING. We refer you to the rules which were adopted when the Committee was originally organized. Also to the resolution requiring the Commissioners to present offers of proof. At all times during the investigation the way has been open to the Commissioners or their attorney, to assist the Committee in arriving at the truth. No unnecessary restrictions were placed in their way, but it was necessary that the conduct of the hearing be orderly and according to the rules adopted. These rules are not unusual but are those customarily adopted in investigations of this kind. They were necessary for the reason that the Committee had no court or judge which could limit or restrict the evidence to be received and which would be pertinent to the matter under investigation. That the Commissioners understood the rules is evidenced by the fact that their attorney was present during all the examination of witnesses and on many occasions suggested questions to be propounded to the witnesses. Such questions were propounded without exception. The fact that they understood the rules and the reasons for such rules, is further evidenced by the fact that on one, or more, occasion Mr. Davis, the Superintendent of the contractors, submitted for the consideration of the Committee, six questions which he wished to have propounded to himself and relating matters upon which the Committee had previously received evidence. These questions were propounded and fully answered.

The Committee feels that the charge of unnecessary restrictions upon the part of the Commissioners was unwarranted and was made for the sole purpose of beclouding the issue and was not made in good faith.

29th. WHAT DOES THE STATE PAY.

- (a) 3½% on contract price, \$49,132.12 to contractors.
- (b) 2% on mechanical contracts, \$7,000.00 to contractors.
- (c) Salaries of superintendents, engineers, timekeepers, material men, foremen, watchmen, and all other contractors,

employees in whatever capacity employed at the field office in connection with said work and including pro-rated salaries of the contractors force and representatives whose full time is not devoted to the contract.

(d) Cost of all materials including the preparation, inspection, deliveries, unloading, erection, loading and removal of all materials and supplies of whatever nature, whether for permanent or temporary use, and also rental paid for storage of such material.

(e) The premium for all insurance of whatever nature.

(f) All permits required by cities, state or federal authorities, royalties fees, legal expenses, tests, and inspection certificates.

(g) Field office furniture and fixtures, cost of operating same, cement sheds, canopy, sidewalks, fences, temporary roadways and like structures.

(h) All payments made to sub-contractors.

(i) Cost of hand tools not owned by the workmen, canvas, tarpaulins, lumber, scaffolding and other similar materials, also such proportion of hand tools, canvas, etc., used but not consumed as agreed upon and certified by the architects.

(j) Rental charges of necessary machinery and equipment, whether owned by the contractors or rented from others together with freight and delivery charges, provided the total charge as rental for machinery or equipment shall in no event exceed the actual value of same when brought on the job.

(k) Loss and expense not compensated by insurance or otherwise sustained by the contractors in connection with the work, such loss to include settlements made with written consent and approval of architects.

(l) All freight, express, demurrage (except when due to fault of contractors) trucking, telegraph, telephone and like charges, electric currents and other expenses, including traveling expenses of the contractors' representatives incurred in connection with the work and not otherwise specifically mentioned.

(m) All other expenses or charges incurred by the contractor in the prosecution of the work other than those specifically excluded.

(n) One-half of the cost of fire, lightning, cyclone and tornado insurance.

(o) Architects' fees and in addition thereto expenses for traveling and sustenance of the architects and their employees, the original amount having been left open but the commissioners claim to have limited the same to \$5,000.00 by subsequent resolution adopted by the Commission.

(p) Commissioners' expenses and salary and expenses of secretary, legal advisor and other employees of the Commission, also all other expenses incurred by the commission.

30th. ACTION TAKEN TO OBSTRUCT POSSIBLE ACTION BY LEGISLATURE. The Committee finds that the action of the Commission in selling the Anticipation Certificates, and in starting work at an inopportune time was done for the purpose of interfering with any possible action which the legislature might take.

RECOMMENDATIONS

1st. We recommend that the work of the Capitol Commissioners be taken over by the Board of Administration without delay and that all powers granted to the Commissioners under Chapter 205 of the Session Laws of 1931, be granted to the Board of Administration. The latter Board is on the state payroll and the members reside in the city of Bismarck and can be reached with but little delay.

2nd. If the legislature sees fit to place this work in the hands of the Board of Administration, we recommend an immediate audit of the activities of the Commission to date, and a checking of all payments heretofore made. We also recommend that the Board of Administration take such action as it sees fit and proper with reference to the expenditures to which we have directed attention.

3rd. We recommend a contract with the Bank of North Dakota under which it will agree to purchase Anticipation Certificates if and when the funds are needed and that thereupon the Anticipation Certificates heretofore issued be cancelled.

4th. We recommend the immediate appointment of some disinterested and competent superintendent of construction, under the provisions of section 8 of the law creating the commission and whose duty shall consist in seeing to it "that all contracts made with the Board are faithfully performed, that all material furnished and work done shall be as required by law or the contract therefor, that all duties imposed upon the architects are faithfully performed by him and his subordinates and that no provision of Chapter 205, Session Laws of 1931 are violated and to report to the Board any violation of said chapter or any contract, or of duty of any architect, contractor or employee of the Board."

5th. We further recommend that hereafter no payments be made to any person, firm or corporation in connection with the work except upon the certificate of an auditor in the employ of the Board, and no payment be made for money expended unless the requisition be accompanied by such voucher or receipt showing the payment of money claimed, nor should any payment be made to the contractors for material until such materials are actually installed into the building.

6th. The Committee further recommends that immediate steps should be taken to force the filing of proper unit prices

in order to enable the Board in authority to determine when proper allowance has been made either for changes made in the past or which will be made in the future. This is very important and the unit prices so filed should be carefully examined by some competent person who is in no way connected with the architects or the contractor.

7th. We cannot too strongly recommend that if possible, the capitol building should be constructed out of North Dakota brick, provided, of course, that it can be done without too much of a loss to the state. If the sub-contract for stone has not progressed too far and can be cancelled without material loss we recommend a careful study of this situation.

So the bill passed and the title was agreed to.

Mr. Henrickson moved that the vote by which House Bill No. 297 was passed be reconsidered and the motion to reconsider be laid on the table.

Which motion prevailed.

EXPLANATION OF VOTE

Mr. Twichell: Madam Speaker, I am going to vote "no" on this bill for the reason that it raises your grain storage rates in elevators. It does it in this way: Under the law passed two years ago the maximum storage rate was 10 cents per bushel or 1 cent per bushel straight. On this you are cut off and the contract is cancelled the 31st day of June.

That fixes it so that after your crop has stayed in there 10 months, your contract for storage is cancelled and you pay a straight 1 cent a month, from then on, making the grain storage cost the farmer 12 cents per year, instead of 10 as at present. I vote "no" for this reason.

House Bill No. 213. A Bill for an Act to Amend and Re-enact Section 5192a7, Supplement to the Compiled Laws of North Dakota, for the year 1913, Relating to Deposit of Public Funds.

Was read the third time.

Mr. Solberg moved that the vote by which House Bill No. 182 was passed be reconsidered and the motion to reconsider be laid on the table.

Which motion prevailed.

EXPLANATION OF VOTE

Mr. Swett: Madam Speaker, this is one of the few measures aimed to help the farmer by legislative action which I think has good sound construction and which calls upon the courts to take judicial notice of the situation in which the people find themselves. By no stretch of the imagination

may it be considered a moratorium, it is merely an act of economic justice.

House Bill No. 222. A Bill for an Act Requiring Licenses for the Operation, Maintenance, Opening or Establishment of Chain Stores; Prescribing the License and Filing Fees to Be Paid Therefor, and the Disposition Thereof, and the Powers and Duties of the State Tax Commissioner in Connection Therewith, and Prescribing Penalties for the Violation Thereof.

So the bill passed and the title was agreed to.

Mr. Carlson moved that the vote by which House Bill No. 222 was passed be reconsidered and the motion to reconsider be laid on the table.

Which motion prevailed.

EXPLANATIONS OF VOTE

Mr. Arneson: Madam Speaker, I think this is class legislation as this bill has been amended and does not tax all of the chain enterprises in the state. Therefore I vote "no".

Mr. Carlson: Madam Speaker, I vote "aye" on this bill because I am sure the corporation chain store is not so interested in the building up and community welfare as is the man who has lived the most of his life, in that community, owns his own home, owns his own store building, has invested his money in North Dakota real estate. I favor the home store because the home owner's family is reared in the community where they have become lifelong friends and neighbors of the residents of that community. These young folks marry and settle down in that community and become boosters and builders for your home town, your home county, and last but not least, for North Dakota. The chain stores are able and willing to pay. I vote "aye".

Mr. Oglesby: Madam Speaker, I vote "no" on this bill for the reason that I do not believe in a sales tax. Therefore I can't see how we are going to tax those stores without paying for it ourselves. It is simply added on to the price and those who trade there will pay for the extra assessment. And they are putting on that assessment on one class in the state and letting the Standard Oil and others go free. Therefore, I vote "no".

Mr. Olson of Adams: Madam Speaker, I am voting "no" on this bill because I believe that it is class legislation.

Mr. Smith: Madam Speaker, I believe that this chain store tax is class legislation. I also believe that the chain stores have a place in the business of the State of North Dakota, otherwise they would have been out of business a long time ago. I wonder how long it will be before the people of the State of North Dakota realize that when they tax an enterprise which has a place in the business of our state that it eventually is turned back and they have to take it out of their own pockets. I think they are making a mistake, and therefore I vote "no".

Mr. Gilbertson: Madam Speaker, I vote "aye" on this bill for the reason that they have gotten together with the representatives of the chain stores in North Dakota and

they are satisfied with the tax that we are putting on the chain store.

Mr. Lofthus: Madam Speaker, I voted "no" on this bill because it left out all other chain stores—the Standard Oil Company and the elevators. I vote "no".

Mr. Swendseid: Madam Speaker, I was opposed to House Bill No. 222 as it was originally drawn. With the amendments as placed by the standing committee, reducing the tax to a nominal sum, and limiting its application, I am for the bill. I vote "aye".

Mr. Twichell: "Madam Speaker: I am voting 'aye' on this bill. I was opposed to it in its original form. I don't think the tax imposed now is any more than a business offset as against the purchasing power of the local man and that of the chain store. They have the edge on buying. It may cost the people a little more money. There is one provision I would like to have seen stricken out—the one providing a tax on any wholesale house that has branches in the state. On principle that is wrong. But the tax is so small that it doesn't make any difference. I therefore vote 'aye' for these reasons."

Mr. Piper: "Madam Speaker: One of the reasons I opposed this bill is that it includes every business man in the State of North Dakota who is in the food and clothing business and is operating more than one store. I vote 'no'."

House Bill No. 265. A Bill for an Act to Raise Revenue by Issuing Self-liquidating Tax Certificates, Prescribing Limitations and Providing Method of Redemption.

Was read the third time.

So the bill passed and the title was agreed to, and the emergency clause was declared carried.

Mr. Fedje moved that the vote by which House Bill No. 265 was passed be reconsidered and the motion to reconsider be laid on the table.

Which motion prevailed.

EXPLANATION OF VOTE

Mr. Patterson: "Madam Speaker: I am voting 'aye' on this bill for the simple reason that it seems to be working out quite well in Minot where we are using it to meet the unemployment situation."

Mr. Thompson: "Madam Speaker: I was against this bill, but since I have heard all this talk here I believe that this bill will work, and I am very much interested from the farmers' viewpoint. I think I can feed my cow bran one day and sawdust the next and she will get fat on it. I vote 'aye'."

Mr. Sundby of McLean: "Madam Speaker: I vote 'aye' on House Bill No. 265 for the reason that the U. S. Government is making the money for the big financiers so we must try and devise some other medium of exchange. Therefore, I am going to vote 'aye' on this scrip bill."

House Bill No. 298. A Bill for an Act to Amend and Re-enact Sections 2346a11 and 2346a20 of the 1925 Supplement to Compiled Laws of 1913 and Sections 2346a21 of the 1925 Supplement to Compiled Laws of 1913, as Amended by Section 5 of Chapter 238, Session Laws of 1931, Relating to the Income Tax, and to Provide for the Cessation of State Tax Levies When the Proceeds of the Income Tax Are Sufficient to Balance the Budget and for the Distribution Among the Counties of Any Proceeds of the Income Tax in Excess of the State's Requirements.

Was read the third time.

Mr. Ettetstad asked unanimous consent to amend House Bill No. 298 as follows:

In line 4 of the title of the bill strike out the figures "238" and insert in lieu thereof the figures "283."

Which request was granted.

Mr. Flannigan moved that the rules be suspended and House Bill No. 283 be considered properly re-engrossed and placed upon third reading and final passage.

Which motion prevailed.

So the bill passed and the title was agreed to.

Mr. Swett moved that the vote by which House Bill No. 350 was passed be reconsidered and the motion to reconsider be laid on the table.

Which motion prevailed.

EXPLANATION OF VOTE

Mr. Fedje: "Madam Speaker: I vote 'no' on this bill. This is just another bill aimed at the small newspaper. I believe in the philosophy of 'live and let live,' and they are of just as much value to the people where they are located as the big papers are, and for that reason I vote 'no'."

House Bill No. 269. A Bill for an Act Relating to the Payment of Taxes and Providing an Inducement to Pay Delinquent Real Estate and Personal Property Taxes, Including Hail Insurance and Special Assessment Taxes; and

Accepting Certain Farm Commodities in Payment for Such Taxes at Approximately Seventy-five Per Cent of the Cost of Production.

Was read the third time.

Mr. Peterson of Mountrail asked unanimous consent to amend House Bill No. 269, which request was refused.

ROLL CALL

The question being on the final passage of the bill, the roll was called and there were ayes, 43; nays, 58; absent and not voting, 11, and 1 passed.

So the bill was declared lost.

Mr. Twichell moved that the vote by which House Bill No. 269 was lost be reconsidered and the motion to reconsider be laid on the table.

Which motion prevailed.

EXPLANATIONS OF VOTE

Mr. Peterson of Mountrail: "Madam Speaker: I vote 'no' on this bill for the following reason: The effect of this bill is to reduce our taxes by depriving our school districts and municipalities of means of support which will have to be made up later in a like amount by the same people. Further, it is an attempt to remove the securities that certificates of indebtedness and warrants have been issued against. Therefore, I vote 'no'."

Mr. Twichell: "I have a direct personal interest in this bill. I have wheat in the elevator and taxes unpaid for this year and last year. Therefore, I will not vote unless the House says I should."

Mr. Flannigan moved that the House give Mr. Twichell the right to vote.

Which motion prevailed.

Which motion prevailed.

EXPLANATION OF VOTE

Mr. Thompson: Madam Speaker, As much as I would like to keep the contractors at work, the people at home said to

me before I came down here: "If you have any influence at all, stop this road work for a while until the county gets in better shape." While I know we have got a lot of money expended in equipment, so have I got a good many thousands of dollars in my farm and farming equipment standing idle, and I have to think of some of the farmers as well as the contractors. Therefore I vote "aye".

Senate Bill No. 118. A Bill for an Act to amend and re-enact Section 2079b1; Section 2079b2; Section 2079b3; Section 2079b5 and Section 2079b13, Supplement to the Compiled Laws of 1913.

Was read the third time.

EXPLANATIONS OF VOTES

Mr. Ettestad: Madam Speaker, I know there is a section of the constitution that says that the states shall not appro-

priate money to any individual, association or corporation except for the necessary support of the poor, therefore I feel that we are opening up an avenue whereby everybody can come in after a while and ask for appropriations, not only farm organizations but labor organizations as well. They can come in and ask for appropriations and therefore I vote "no" because I believe it is unconstitutional.

Mr. Lillehaugen: Madam Speaker, We now have various farm organizations. I am a member of one of those. I think this is a duplication and therefore I vote "no".

Mr. Niewoehner: Madam Speaker, I vote no because I am opposed to the creation of any new boards. We promised simplicity in all our activities and not complication and I am opposed to an appropriation for this purpose. I vote "no".

Mr. Swett: Madam Speaker, I am going to vote "aye" realizing that I am voting for a principle rather than for something that is a practical proposition. Even though it is an expense to the people, any achievement that has ever been gained has been gained at the expense of money, toil, thought and sometimes even blood and strife. I vote "aye" with a realization that sometimes a measure like this will be enacted into law, giving the people better representation.

Mr. Swendseid: Madam Speaker, I vote "no" on this bill feeling that we have in our Congress our state senators and representatives, also our national farm organizations. This would set up a new and independent body to cover the same field that is covered by our representatives and national farm organizations with uncertainty as to the outcome. I therefore vote "no".

Mr. Thompson: Madam Speaker, I have listened here to the arguments and I don't believe you could pick out any two men in the House who would agree on the bill. The most of us were elected to cut down commissions and all we have been trying to do here is create more commissions so as to give somebody else a few jobs. I vote "no" on this because I was elected to come down here and cut out as many commissions as I could.

Mr. Crockett: Madam Speaker, I vote "no" on this bill for the reason that we campaigned on that issue, doing away with boards and commissions, and for another reason that I think this is premature. I have had a lot of work to do among the farmers. They can't agree on an organization in their own community which shows and proves that it is a saving thing for them and I can't see where they will agree on a proposition like this. Therefore I vote "no".

The question being on the motion of Mr. Aljets that the report of the majority be adopted, the motion prevailed and the report was adopted.

Mr. Twichell moved that the vote by which Senate Bill No. 154 was indefinitely postponed be reconsidered and the motion to reconsider laid on the table.

INVESTIGATION

REPORT OF THE CAPITOL BUILDING INVESTIGATING COMMITTEE OF THE SENATE AND HOUSE OF REPRESENTATIVES OF THE STATE OF NORTH DAKOTA 23rd SESSION, DULY AND REGULARLY APPOINTED BY RESOLUTION ADOPTED IN BOTH BRANCHES OF NORTH DAKOTA LEGISLATURE OF THE STATE OF NORTH DAKOTA, WHICH SAID RESOLUTION WAS DULY ADOPTED ON THE 21st DAY OF JANUARY, 1933.

By W. E. MATTHAEI, Chairman

To the Honorable President of the Senate and Honorable Madam Speaker of the House of Representatives of the State of North Dakota.

Honorable Sir & Madam:

Your attention is called to the Journal of the House, 23rd Legislative Assembly, dated February 23rd 1933, pages 35 to 38, containing the resolution which organized the State Capitol Building Investigating Committee, pages 38 to 43, page 47, and page 78 show the rules that were to govern the actions of that Committee, and your attention is also called to the same Journal, pages 43 to 88, which contains a record of the meetings of the Investigating Committee. On pages 88 to page 131, there is a further statement of facts and assumed facts, findings, and recommendation by the majority of the Investigating Committee which they claim are based upon the evidence brought forth in the hearings.

As Chairman of the State Capitol Investigating Committee, I do not agree with the Majority of the Committee in the manner in which the investigation was carried on, nor do I concur in all of the findings or conclusions, nor with the recommendations of the majority of the Committee. For that reason I am submitting, for the consideration of both houses of the State Legislature, my report covering the several points specifically enumerated by the Majority.

I am using the same form and order of subjects, statements, findings and recommendations as are contained in the majority report of the Investigating Committee so that ready reference can be made from and to this report in comparing statements contained in the majority report.

CAPITOL COMMISSION ON WHEELS

Although there was no evidence brought before the investigation committee as to the qualities and characteristics of George A. Banks, President of the Board of State CAPITOL Commissioners, that would be entirely unnecessary. He has practiced law in the State of North Dakota for more than forty years and his personal characteristics are well known. It was not to be expected that when he was selected as a member of the Commission and elected president of it that he would sit idly by without taking a most active part in it, even though his residence was nearly 300 miles from

the center of activities. If he was to be able to analyze the situation in all its details and perform his work, it was obvious that he must carry on a very extensive correspondence and investigation with Architects, Contractors, material men, transportation men, etc.

The record of his work as President of the Committee was kept in his office in the City of Grand Forks, while the Secretary of the Commission kept record of his activities and those of the Commission at the City of Bismarck.

The statement under the caption "Capitol Commission on Wheels" is not entirely true, if one is to take into consideration the character of the work that was to be done, and the further fact that the Act creating the Board of State Capitol Commissioners required that not more than two of whom shall be residents of the same Congressional District. The Board of State Capitol Commissioners had to find out first what they wanted for the reason that they were the active representatives of the owner, viz., the State of North Dakota. It therefore became necessary from the very outset to profit by the experience of other States that were in the process of completing or had recently completed Capitol Buildings. It appeared from Mr. Anders' testimony that the act of creating, designing and constructing Capitol Buildings had undergone a considerable change in recent years.

That the Commissioners might be informed, some of the Capitol Buildings of other States were visited by the Commissioners and by the Secretary in person.

It also became necessary for Mr. Bangs to assume the duties incident to the responsibility assumed, and after a careful consideration of the record I do not see how he could have performed his work in any other way than that in which he did perform it.

The other two commissioners were somewhat differently situated. Mr. Conklin had his business in Bismarck and his home was also located there. Mr. Fraser was Adjutant General of the State and had his office in Bismarck. These gentlemen could at all times avail themselves of the records of the Secretary, and therefore were in a position whereby they could with little inconvenience keep in close touch with the central office of records.

ARCHITECTS: SELECTION OF

Considerable stress is laid in the majority report of the Committee on the selection of Architects and especially the so-called contracts with Holabird & Root in the early months of 1931. The files and letters sent to the Secretary's office from Grand Forks by Mr. Bangs, at the direction of the Investigating Committee, indicate that Holabird & Root were only one of a considerable number of Architects who were actively engaged in an endeavor to obtain this work.

Before the Capitol Commission had been appointed one firm of Architects had presented a fairly complete set of plans and prospective view of a Capitol Building.

It appears from the record that the selection of Architects, both within and without the State was carried out in a scientific manner, and that contacts to determine who should be chosen as the Architects were only begun after their qualifications had been rated in a careful and original manner.

The Board of State Capitol Commissioners certainly made a mistake in the selection of Joseph Bell DeRemer and of Samuel T. DeRemer of Grand Forks. Anyone who listened to the evidence given by these men, would have been thoroughly convinced that the Commission erred in their selection of the DeRemers at that time if they were not convinced before. It seems incomprehensible to any thinking man that Joseph Bell DeRemer, an Architect as he claimed of forty years standing, and one of the men primarily responsible for the proper construction of the work, could have testified that the concrete work in parts of this Building was the "sloppiest" that he had ever seen. This in the face of the fact that only commendation of the highest grade was heard from Mr. Russell Deeter as to the type and class of inspectors under whom the concrete work was being performed. Mr. DeRemer either neglected his duties or was incapable of performing the same, as one of the Architects responsible for the creation, designing, construction and completion of the most important and the largest building that has ever been built in the State of North Dakota or will be built in the State of North Dakota for many, many years.

It must be remembered that there are at most forty-eight State Capitol Buildings in the United States. Up to recent years, these Buildings have been generally a long building with a dome in the center and with a Legislative wing on either end. It appears that these buildings have been designed more with the idea of so-called beauty rather than usefulness and of utility. Those ideas have changed, and in many cases the type of State Houses in late years has changed greatly.

It is stated in the majority report that the fee of North Dakota Contractors had been fixed at 5% and that therefore the fee of 7½% as contracted by the commissioners was exorbitant. Such fee of 5% as contended by the majority is proper for ordinary buildings such as are commonly erected in this state, but architect's fees vary greatly the same as attorney fees and those of other professional men. The fee which is seven and one-half per cent on one million eight hundred thousand dollars (\$1,800,000.00) is not necessarily excessive considering the type of building, the distance of architects from their work and on account of the problems involved in the design.

Considering the subject of friction between the architects, it would appear from the record that Mr. DeRemer never entered into this work in the whole-hearted manner that a professional man should have done. He objected to everything done from the start and it can be fairly said that he has been consistent in that respect.

Criticism has been made of the Commission because it did not select North Dakota architects for this work. As has been above stated, that is the largest building, by four times, that will be constructed in the State of North Dakota for many years. Architects do not reside in North Dakota for the purpose of designing large or important buildings. They come here because of the opportunity for doing work on many comparatively small buildings, for it can be fairly said without detrimental criticism to our fellow-professional citizens that the work of designing large buildings is not in the State of North and South Dakota or in Montana whereby an architect can gain that necessary experience to create, design and supervise the construction of a building such as the State Capitol Building of North Dakota must necessarily be. It is reasonable to assume that it was not believed by the Board of the State Capitol Commissioners that there was an architect in the State of North Dakota who it considered sufficiently capable to place the responsibility of this building in their hands. The evidence indicated that none of our State architects who testified convinced any one, unless the four men who signed the majority report, that the North Dakota Architects could assume such great responsibility as the contract under consideration entailed.

PLANS AND SPECIFICATIONS

The majority report has commented at length on pages 92 to 97 inclusive under the heading of "Plans and Specifications."

On February 12, 1932, the Architects submitted a 35 page report on the subject of the design of the new Capitol Building and therein made a report as of the cost of the building and all details connected with the design and this report was exhibit "24" of the evidence submitted by Secretary Anders to the Investigating Committee. Neither the findings nor the conclusions under the heading of "plans and specifications" are in accordance with the facts or evidence submitted to the Committee.

The Lundoff-Bicknell Company submitted a bid on a uniform bidding blank, every blank space of which had to be filled or the bid would not be accepted. This was true of all the bids submitted by the General Contractors. There was in addition to the flat bid, thirty separate proposals from which the owner could select and make certain changes and this was extremely competitive because every bidder must also submit a bid on the thirty separate proposals. There were also 7 allowances specified as shown on page 22 of the "Specifications for General Work." These allowances were fixed and were the same for all Contractors. The idea of the 30 separate proposals was for the purpose of obtaining further competitive bidding and also for the purpose of being able to make such changes as would bring the contract price within the amount available and as each bidder had to bid upon these proposals it was therefor strictly competitive. In arriving at the conclusion as to who was the lowest bidder the same amount for allowances was deducted from all the contracts so that that had no effect whatever at determining who was the lowest bidder.

On pages 93 to 97 of the report as printed in the House Journal a tabulation is made entitled "List of Changes in General Work Agreed Upon in Bismarck August 30, 1932." There is no evidence whatever that this list of proposed changes was agreed upon at that time or at any time since then and the testimony of the Secretary is to that effect. His testimony also is to the effect that these proposed changes did not come to his attention at that time nor until about the first of December and also that there never has been a motion made to accept these proposed changes for the price indicated therein. As a matter of fact these changes were only as an indication what would be the minimum amounts allowed as a credit to the owner for such changes as were indicated. Indicating again that Mr. DeRemer was not keeping very close track of the work for which he was being paid, testimony showed he did nothing relative to designing, creating or constructing, contenting himself by merely making objections.

On pages 96 and 97 under the heading of Exhibit "H" there are statements made relating to the Contract, Article 26 and there is tabulated 7 Allowances. On page 97 it is stated "This is another change in the plans and specifications made after the bids were received and made for the purpose of reducing the amount of the contract in order to come within the appropriation." This statement is absolutely false. The Allowances 1 to 7 are shown in the "Specification for General Work" on pages 22, 23 and 24 and are so clearly set forth that it seems impossible that such a statement as is shown in the first sentence of the first paragraph on page 97 could possibly be made.

The Contractor included in his bid at the direction of the owner, viz. the State, through the Architects an item of \$169,150.00 for equipment that the owner himself would sooner or later be receiving bids through Contractors specified in these items. At the time the contract was written the Commission determined to reduce these amounts by certain figures which reduced the total by \$60,000.00. This was in no wise a change in plans and specifications. The Contractor did not bid upon these items, he merely included them in his bid so that the bids of all Contractors would be uniform in relation to these items. This is not an uncommon practice on all buildings of large consequence, for the reason that the artistic ideas of the owner enter into all the items from 1 to 6, (Exhibit "H").

In the first paragraph of page 97 it is indicated that in the opinion of the Majority members that certain lighting fixtures were dispensed with. There were no light fixtures dispensed with but a different grade would be selected which would not exceed \$50,000, instead of \$75,000, there being a saving of \$25,000 absolutely to the State. This kind of a saving to the State would not admit the Contractor a 20% on the savings.

CONTRACT SHOULD HAVE BEEN AWARDED TO E.
A. MOLINE; COMPARISON OF BIDS; MOLINE'S
BID LOWEST

The findings and conclusions on pages 97 and 98 of the majority report as shown in the Journal of the House seems to be a distortion of all the facts connected with this subject and is inexcusable. The assignment of Mechanical contracts had nothing whatever to do with the determination of the lowest bidder.

There is no basis in the plans, specifications or proposals to show the estimate in the difference in the wage scale as being \$24,500.00. That figure was arrived at by Mr. DeRemer as a pure guess. Mr. DeRemer, in letters he had written and which were on exhibition before the Investigating Committee, indicated his inability to figure and his desire to avoid responsibility for estimating the cost of materials of construction, the price of which could be easily obtained on the open market. One case at point is where he estimated the cost of paint at \$2.68 per gallon whereas the same paint can be obtained in the open market in Bismarck at about \$1.70 per gallon. It is probable that the greater part of uncertainty of estimating cost by Contractors is the cost of labor. No Contractor knows the conditions under which he will have to work and the cost of labor on a job fluctuates from week to week and from month to month, depending upon the supply of labor, and the different conditions under which they may have to work, etc.

As a matter of fact, the Minutes of the Capitol Commission meetings held over a period of several months indicate clearly the reason why each Contractor was required to submit a minimum scale of wages. North Dakota labor was to be protected from a low wage scale if possible. The Commission found out that a minimum wage scale could not be legally put into the specifications. Therefore they did the next best thing and asked each Contractor to indicate the minimum wage scale that he proposed to pay. This wage scale was to be an indicator of his attitude toward the wages to be paid to labor and there is nothing to show that this wage scale which was submitted, would have anything to do or could have anything to do with the determination of the lowest bidder. If it had been so indicated, the Architects would have, of necessity, indicated themselves the number of hours that it was estimated that labor would be employed on this work or they would have asked the Contractor himself to have estimated the number of hours that labor would be employed on this work. Then a simple multiplication would have shown a definite figure for labor cost and in this case the relative bids of various Contractors would have been placed on a solemn basis when this item was included. In my opinion, if the Commission had attempted to juggle figures in the manner indicated in the majority report, any decision that the Commission would have arrived at in that way, to accept the low bid and let the contract would have been illegal, null and void and the Commissioners themselves would have been subject to much more severe criticism than the fact elicited by this investigating committee warrant.

Answering the last paragraph on this subject, page 98, the majority report states "If the Board of Capitol Commissioners had desired to follow the letter and spirit of the Law giving it life, it should have awarded the Contract to E. A. Moline, a North Dakota citizen." This Investigation has shown, if nothing else, a decided opinion of what the spirit of Chapter 205 S. L. 1931 is. It seems to be anybody's guess as to what the spirit of that Law is, but there isn't much question as to what the letter of that law is, and the Board of State Capitol Commissioners followed the letter of that law in a very exact manner in letting this contract to the Lundoff-Bicknell Company.

E. A. Moline, the unsuccessful bidder, was subpoenaed, and was in attendance at hearings from January 25 to Feb. 1 at the expense of the State of North Dakota, but was not called by the attorney for the Commission to take the witness stand, hence I cannot other than assume that he could not and would not have contended that his bid was low.

GENERAL CONTRACT

Throughout the Majority Report the phrase is used: "CHANGES IN PLANS AND SPECIFICATIONS." No evidence was brought before the Investigating Committee to indicate that there was contemplated at the time the contract was let, nor that there has been contemplated since that date any changes in the SPECIFICATIONS. The plans of a building indicate the location of each item that is specified. The plans of a building indicate the location of each item that is specified. Specifications indicate kind and quantity. Plans indicate location, either vertical or horizontal. Plans are also subject to change, even in the simplest structure, but that does not necessarily indicate changes in specifications.

The evidence placed before the Investigating Committee indicated the reason for the division of the contracts into three parts, denominated Budgets "A," "B" and "C" and the Contractors themselves, both general and mechanical, provided for the exercise of certain options connected therewith. At the time that the plans and specifications were adopted, early in June, the Board estimated the amount of money that was available for this work. The initiated laws passed June 29th distinctly modified the amount of money available. However, the Contractors who were supposed to bid upon this work, had their proposals fairly well completed.

In my opinion, to have required these men to do all their work over again by the rejection of the bids and the re-drawing of the plans and specifications and the re-figuring of the plans and specifications under the conditions that existed in 1932, would have been grossly unfair on the part of the Board of State Capitol Commissioners.

I have great doubts of the sincerity of purpose of Joseph Bell DeRemer who suggested such a proposition and my most charitable construction upon his viewpoint and suggestions is that he is incompetent and is so far behind the practice

of his profesison that he lacks capacity for handling important or complicated works of design and construction.

After a careful study of the plans, specifications, contracts and evidence produced before the Committee of Investigation, I am of the opinion that the Board acted with good judgment, care and discrimination and that they devised a necessary idea in the dividing of the contracts into three parts. The possibility was very clear at the time they did this, that the money would be forthcoming within the period during which the options on Budget "B" and Budget "C" could be exercised.

I fail to see the point stressed under the subject of Unit Prices. All changes that have been made so far, were fully covered under allowances or alternate proposals received at the time that the bids were opened.

The so-called schedule "D," upon which so much stress has been laid, has never been accepted by the Board of State Capitol Commissioners. The evidence shows that they were merely minimum prices for certain changes that might be made if it was desirable to do so in the future.

THE ITEMS UNDER SCHEDULES "D," "E," "F" AND "G" HAVE NEVER BEEN AGREED UPON, NOR ACCEPTED, NOR IS THERE ANY EVIDENCE SUBMITTED TO THE INVESTIGATING COMMITTEE, NOR IN THE OFFICE OF THE SECRETARY, NOR IN THE MINUTES THAT THE BOARD HAS EVER TAKEN ACTION THEREON. Therefore, in my opinion, any argument based upon this is beside the point and an unnecessary waste of time.

MECHANICAL CONTRACTS

The evidence showed that Mr. Darragh would normally have submitted a bidder's bond at a cost of about \$1,800.00 and a certified check in a like amount. As a matter of fact, he submitted a certified check in the amount of \$3,720.00 and a bidder's bond in an amount of \$50.00, and in view of the fact that he was by far the lowest bidder; that he was considered reputable; and was a successful Contractor, and that a certified check would normally be better than a bond, the Board decided that it was worth while to save the difference between his bid and the next lowest.

Mr. Darragh and the Board entered into a contract, and proceeded with the work. Since Investigation started, a bond has been furnished by him. Therefore, I do not think that there is any real fault to find with the Board in connection with this item.

SUPERINTENDENT OF CAPITOL BUILDING

On page 101 of the Journal of the House in the majority report under the heading "Superintendent of Capitol Building," the majority report states that the Capitol Building Commission violated Section 8 of Chapter 205 S. L. 1931. The first sentence of Section 8 contains, "Section 8, super-

intendent of Capitol Building. — The Board may appoint a specially qualified person to act as superintendent of construction of said Capitol Building." This matter was certainly discretionary with the Board. Webster gives the definition of the word "may" as follows: 1. To have permission: be allowed. 2. Be contingently possible. 3. To have power or ability. 4. Law. To have liberty or power to. It does not seem possible that intelligent educated men such as composed the majority members of the Investigating Committee could possibly construe the word "may" as being mandatory.

Section 3 of Chapter 205 S. L. 1931 defines the powers and duties of the Board. Paragraph "E," "F," "G" and "I" determined the methods by which the construction may be carried on after plans and specifications have been prepared and adopted. It was empowered to construct this building either by Contract, day labor or any other means that would be deemed best and most advantageous to the State of North Dakota. In all respects it was empowered to use its best judgment.

I construe Section 8 which states that "The Board may appoint a specially qualified person to act as superintendent of construction of said Capitol Building" was put into this law for the purpose of employing a specially qualified superintendent if the Board deemed advisable to take advantage of the various methods set forth in Section 3.

Architects do not always superintend the structures that they design. If the Architects are qualified, it is better that they do so supervise the construction. However, the owner may enter into a contract with the Architects to only create and design, leaving the execution of the work to other parties. In that case, the owner only pays the Architects a predetermined percentage for the creation and design of the building. He, in addition thereto, may hire other Architects to supervise the building, which may mean only occasional visits by the Architects to see that the plans and specifications are being observed. In addition to that, he may also hire the Architects to superintend the building in all its parts. In the latter case the owner hires the Architects to create, design, draw plans and specifications and supervise and superintend the construction and to see that the accounts and payments of money are properly made. This latter definition is what the Board of Capitol Commissioners contract with the Architects provided for. If Joseph Bell DeRemer, W. F. Kurke and Holabird & Root do not have this entire responsibility and duty under their contract, there is no way of obtaining men endowed with that responsibility, whatever may be the title that they have. If a superintendent of the building is hired now to supervise the Architects and the Contractors, and one takes a logical view of the situation, the question naturally arises, "Who is going to superintend the superintendent of the building?" Faith and confidence must begin somewhere. My recommendation would be that if the Architects are neglecting their duty under their contract or are not supervising and superintending this building on the ground, instead of writing letters, as Mr. DeRemer seems to have done, immediate proceedings

should be begun, to cancel the contract with the Architects, to recover from them damages for work not properly undertaken or supervised, and to hire new Architects or to supplant them with a real superintendent of the building. I have heretofore commented on the statement made in the majority report in the last paragraph of this subject on page 102 of the Journal of the House. The evidence given before the Investigating Committee clearly shows that the only cement that the Board paid for or was to be paid for was the actual cement used. The amount of cement used would be that shown to have been shipped into Bismarck and the receipted bills indicate clearly that amount. As to the rumors that actual cement had been stolen or might have been stolen, the idea seems to be absurd to any thinking man after considering the evidence. If any cement had been stolen this would show up in the test of the concrete and if the evidence presented to the Committee shows anything at all it shows that the concrete mixtures have been very uniform and the strength of the concrete is according to evidence at least 30 to 40% stronger than that specified. This does not indicate that the cement had been diverted and not been put into the work.

ANTICIPATION CERTIFICATES

This is another clear case of confused thinking on the part of the Majority members of the Committee. No Contractor having any sense whatever or being a responsible Contractor would think of beginning work, especially on a government job, unless he knew where the money was to come from to pay for work or material furnished. Unless these certificates were sold as they were sold, the Contractor could justly and rightfully refuse to enter into a contract for that amount of money. Under discussion, the purpose of selling these certificates piece meal as suggested seems to be beyond the bounds of reasoning. In any case they would have to be sold within the period of 6 or 8 months and the average interest on the money in excess of the time it is used would not be more than about 4 months. This would not be in excess of 5 or 6 thousand dollars in actual money. In any case we must consider this from the standpoint of the market, the possibility of selling these certificates at all and from the standpoint of the Contractor himself who could rightfully refuse to enter into any contract until he knew beyond the question of doubt that the money was on hand to pay him whenever any part of the work was done to such an extent; that he was entitled to payment therefore.

LEGAL ADVISOR

On page 103 of the Majority Report as printed in the Journal of the House, the Majority Report criticises the Commission, and more especially Mr. Bangs, in the action relating to the so-called legal advisor. I agree entirely with the Findings and comments relating to the legal advisor and to the hiring of Mr. Jahr. In addition to the Findings of the Majority Report, I wish to add that I cannot see how this action can be justified from any angle. I have heretofore commented at length on Mr. Bangs' work in connection

with the Board and of the value thereof. On the other hand, there is a grave question whether Mr. Bangs should have assumed the legal duties connected with the Board's work for it is an old axiom in the legal profession that "a man who is his own lawyer has a fool for a client." The Attorney General is the legal advisor for the Board of State Capitol Commissioners. There was little or no legal work connected with the Commission for some months after it was organized. The Board had the right to request that the Attorney General appoint a special assistant attorney to perform the legal work and to pay for such services as provided in Section 3E of Chapter 205 S. L. 1931, the provision relating to the legal advisor in Section 16 of Chapter 205, S. L. 1931.

INSURANCE AND BONDS

On page 104 of the Journal of the House under the heading: "INSURANCE AND BONDS," there is a misstatement of facts in the first sentence. This sentence reads as follows: "At the time bids were asked for by the Capitol Commissioners, bidders were requested to specify the PERCENTAGE at which they could furnish their own bond and offers were made by various successful bidders."

The above statement is not in accordance with the facts. Each bidder was required to state in his proposal, the amount that he desired deducted from his lump sum bid if the Board of State Capitol Commissioners bought the bond themselves and paid the premium thereon. This lump sum deduction was stated in each one of the proposals for the general contract and in most cases amounted to approximately one and one-half per cent of the amount of the contract price.

From the Findings and deductions of the majority members of the Committee, it would appear that they thought that if the lump sum contract was reduced from the primary bid by the acceptance of alternates or the reduction of allowances, that the lump sum to be deducted, if the Board furnished the Bond, would remain the same. This is contrary to common sense, for if the contract price was reduced by the acceptance of alternates and the reduction of allowances, the amount of the premium of the Bond would be reduced proportionately. In other words, the premium on the Bond, whether bought by the Board or by the Contractors, would still remain one and one-half per cent of the contract price.

The real reason, and this was the same reason as was introduced in the law and in the specifications in other cases, was to protect industries, labor and other organizations doing business in the State of North Dakota. If the Contractor had been allowed to select his own Bonding Company, that would have been done through an agency located in the same city where he did most of his own business and that would have meant outside of the State of North Dakota.

As it has been carried out, the Commissions on these bonds amounting to thirty per cent, have gone to friends of the

Commissioners inside of the State of North Dakota and have been distributed, geographically at least, over various parts of the State.

It was never contemplated in the law that bids are received for furnishing bonds. That would have been merely an expenditure of money in advertising with no gain, for Bonding Companies that furnish bonds at less than one and one-half per cent are cut-rate concerns and are generally not as responsible as others. In other words, there can be little if any competition in the rates of Contractor's Bonds.

The statement made in the third paragraph that the State lost some twenty-three hundred odd dollars by this transaction, is merely a pigment of the imagination and has no basis whatever in fact.

PREFERENCE TO NORTH DAKOTA CONTRACTORS AND LABOR

The evidence presented to the Investigating Committee does not bear out at all the Findings under this heading.

The key-men of the Lundoff-Bicknell organization have been with this organization for some years and in some cases for many years. It is safe to say that there are probably few men of experience, if any, in the State of North Dakota who could have satisfactorily and economically filled the positions that are occupied by the so-called key-men.

In regard to the general labor situation, the Commission appears to have at all times given special attention to the relationship of North Dakota labor to this job and have actively co-operated and consulted with the heads of North Dakota Federation of Labor and with the local heads of various local unions to the end that satisfactory employment conditions should be observed and that the minimum wage scale as set forth in the contract with Lundoff-Bicknell Company should be observed. It is true that up to the present time, there has been a considerable portion of labor employed from outside of the State, but these were specifically the steel workers. Structural steel workers cannot find regular employment within the State of North Dakota as there are few large steel construction jobs within the State. Once in a while a bridge like the Bismarck Memorial Bridge, or a large railroad bridge is constructed in the State and in all those cases, steel workers must be imported from States where structural steel construction is a common and almost every day occurrence.

The question of employment of supervising architects on the job has been answered elsewhere, but it might be repeated here that for the class of work that Mr. Kandzie is doing, there are few architects in the State, if any, that qualify for his position with possible exception of Mr. Kurke. Mr. Kandzie is employed doing special detail work of a character that does not arise in North Dakota very often.

It is to be noted that the character of the work so far has been special. North Dakota contractors and North Da-

kota labor were used exclusively for the removal of the debris resulting from the old capitol building fire. North Dakota contractors and North Dakota labor were used exclusively in the excavating contract by Wachter and Lambert of Bismarck. North Dakota contractors and labor were used and have been used on the haulage of all material from the railroad to the Capitol site. North Dakota labor and North Dakota material have been used exclusively in the furnishing of sand and gravel for this piece of construction. North Dakota labor and North Dakota concerns have benefited by the haulage of freight which has been of a considerable benefit. North Dakota brick and tile may be used wherever possible.

It is called to your attention at this time that common brick can be obtained under competitive conditions from as far East as Minneapolis for about \$2.00 per thousand less than this same material can be obtained within the State. Even a five per cent preference on the material will not correct the situation. I think it is logical to ask what would anyone confronted with this problem do, especially when the law specifically states what the Board of State Capitol Commissioners can do? My opinion is, that no one but the Legislature itself can correct this and whether the Legislature itself purposes to place a premium of that extent upon North Dakota materials, can only be decided by an introduction of appropriation of the Legislature and a full, free and frank discrimination of it. If such legislation were proposed, it would immediately close the door of competition and result in a boosting of prices of North Dakota material that could not be controlled. I am of the opinion that the Board of State Capitol Commissioners have done everything they possibly could, up to the present time, to protect North Dakota professional men, laborers, material-men and contractors without violating the law or getting themselves into serious difficulties.

STATE FINANCING JOB

The statement is made on page 105 of the Journal of the House that the full amount of the contract price for steel has been paid though only a part of such steel actually constructed into the building is not a statement of fact. Ten per cent has been retained upon the steel contract in the same way that 10% has been retained on all other construction. The only item in which 100% has been paid is the premium on the bond. Bonds are not sold in the same manner as material of construction and whoever buys the bond must pay 100% on the premium. The conclusions also that the Contractors could ship any amount of material into Bismarck and get 90% payment on it is incorrect. In the first place the Contractor will not ship material to Bismarck unless he is ready to use it. Material is loaded in all cases where it is possible, directly onto trucks and put into the building and not unloaded on the grounds at the Capitol Building. Any other method would cut into the Contractor's assumed profits at such a rapid rate and would prove very costly to him. It must be remembered in this connection that all savings possible on this class of work reverts as

80% to the State and 20% to the Contractor and for this reason as for no other the Contractor would not do the work as is assumed by the majority members of the Committee.

Money has been paid upon material in Bismarck only in cases where the taking of discounts would be a valuable item to the owner as well as to the Contractor. Therefore I do not agree with the contention of the majority members of the Committee in connection with this criticism.

ILLEGAL ALLOWANCES FOR CLAIMS FOR EXPENSES

The Board of State Capitol Commissioners did allow and pay claims to its members and employees without regard to Section 657 of the 1925 Supplement of the North Dakota Laws. Whether the Commission went on the theory that the provision of law above referred to, was not applicable or whether their action was a wilful and deliberate disregard of the same, I do not know. The fact remains, that the Commissioners were not allowed to speak before the Committee, hence, my position is, that the Committee is in a distinctly poor position to either condemn the action of the Board or to excuse it.

My personal opinion is that all claims presented to the Board of State Capitol Commissioners should be accompanied by signed receipts as prescribed by the Statutes set forth in the majority report.

CLOSE CONNECTION BETWEEN ARCHITECTS, CONTRACTORS AND COMMISSIONERS

From the testimony adduced at the public hearings of the Investigating Committee, the facts gleaned showed that the Business Manager of the Architects, Holabird & Root, is a brother to an employee of the Contractor, Lundoff-Bicknell Company.

As stated in the majority report, this may smack of an impropriety, as does also the fact that the son of the President of the Board of State Capitol Commissioners holds a \$19.00 per week job assisting in the engineering work of Lundoff-Bicknell Company. It does not, however, necessarily imply collusion, in fact only the most skeptical and suspicious would infer ulterior motives connected with the employment of Harry Hackett or young Bangs.

NORTH DAKOTA MATERIALS

It is true that Section 9 of Chapter 205 S. L. 1931 provides that all materials for the construction of the building shall be procured in North Dakota if practicable and if they can be obtained at a cost not exceeding five per cent. Effort was made by the Board to locate suitable building material for this building from within the State. An extensive investigation of the possibilities of procuring stone from the vicinity of Wishek was made. Several hearings on the subject of using brick and tile manufactured in the State was held by the Commission. The Minutes of the meeting of

September 20th show a stenographic report of one of these hearings. It appears to have been shown to the Board of State Capitol Commissioners that a uniform brick to be used as a facing material for the building, could not be obtained, either in quantity or quality. An additional reason for using stone was the fact that the Memorial Building that was built in 1921 was faced with Bedford Stone. Even the Burleigh County Court House, only recently constructed, has been faced with Bedford Stone. The additional cost of using Bedford Stone, instead of brick, is not \$150,000.00, but is \$45,000.00 or less than one-third of the cost as shown in the majority report. On the other hand, there will be more than one and one-half million bricks used in this building.

Although there is quite a loud clamor for the use of North Dakota material in this building, many persons go outside the State when buying material for construction of buildings. If the Capitol Building of North Dakota was built of brick, it would be the only Capitol Building in the Union so constructed.

The question of whether a building built of stone or brick is more beautiful is academic, but the fact that all Capitol Buildings are built of large units of Lime Stone should have a great deal of influence on any one placed in the position of making a decision on this subject.

I believe that the Board of State Capitol Commissioners made a wise and popular choice when they selected lime stone as a facing material.

FAILURE TO PUBLISH FINANCIAL REPORT

The testimony showed as stated in the majority report that the financial statement of the Commission was not published for January, 1932, at all, and that in January, 1933, there was a doubly good compliance with the law, and published the same in four newspapers instead of two as required by the law.

True, the failure to publish the financial statement was an infraction of the law, but the matter is of rather slight importance, and especially should we hesitate to criticize this too severely as the Commissioners were not given any opportunity to present their reasons for failure to observe the letter of the law in this particular.

CHARGES MADE BY LUNDOFF-BICKNELL COMPANY UNDER CONTRACT

On pages 108, 109, 110, 111 and 112 of the Journal of the House, the majority report goes into much detail as to charges made by the Lundoff-Bicknell Company. Mr. Anders in his testimony before the Investigating Committee made it very clear as to the method by which payments are made on this contract and also the means by which accounts are audited and checked up. When the items enumerated in the majority report finally came to the Secretary's office they were among a great many other bills audited by Mr. Lester Diehl, employed as auditor for the Commission. These

expense items were not the only items that were questioned by the Auditor and Secretary of the Commission. Many of the items were small and Secretary Anders, as he explained to the Investigating Committee, instead of referring these items to the Commission, took it upon himself, in the capacity of Secretary, to get a full and complete explanation so that the Board, when these matters were brought to their attention, would have full and complete information on this subject. Unfortunately the letter which was a partial explanation of some of the items, though addressed to Bismarck, was sent to Mr. Bangs at Grand Forks and was there found in his files during the investigation. The Commission itself has never had an opportunity to pass upon these items so that to condemn them for this matter is exceedingly unfair. If anyone is to be condemned, it is the Contractor for not furnishing full and complete information promptly.

It is certain in this case that the Commissioners themselves have not acted on this matter because it has not been brought to their attention and it is by no means certain what the final adjustment will be on these items but I feel assured that these items will be straightened out to the satisfaction of the State, as well as that of other interested parties.

NEWSPAPER PROPAGANDA CLAIMING COMMISSION COURTING INVESTIGATION

On page 112 of the House Journal wherein is published the majority report there is criticism of the Board and especially of Mr. Bangs relating to newspaper propaganda. I agree with the majority members in that this was ill-advised on the part of Mr. Bangs. The newspaper propaganda bordered strongly in my opinion on intimidation of the Legislature and later on, on the Committee which has in charge the investigation of the activities of the Capitol Building Commission. On the face of it, it does not appear to me that the Board was nearly as anxious for an investigation as the letters, telegrams and newspaper interviews indicated. In other words this part of the activities of the Board was greatly overdone. The Board of State Capitol Commissioners need never have concerned themselves as to whether there was going to be an investigation. That was a foregone conclusion. All that was necessary for the Board to have done, was to have prepared themselves for it, giving the Secretary of the Board full power to produce all and any documents and information in his possession. Even this last direction would not have been necessary, because the Investigating Committee had full power to force the production of all information bearing upon the activities of the Commission.

I also agree with the majority members of the Committee that the actions of Mr. Bangs towards Mr. DeRemer was very ill-advised and bordered strongly on an assuming attempt to intimidate a public officer and to change his opinions contrary to what seemed to Mr. DeRemer to be his own best judgment. Intimidation by anyone of a public officer in the

pursuit of his duties is at any time dangerous and should be condemned in the most emphatic manner. The letters shown as exhibits 175 and 176 which were written by Mr. Bangs and which he requested Mr. DeRemer to sign and return to him, when studied in connection with Mr. DeRemer's own letters, indicates a state of affairs that the Investigating Committee should have made much more clear than they did, and the Committee certainly in fairness to all concerned should have asked or allowed Mr. Bangs to testify in regard thereto.

LAYING OF CORNERSTONE

The cornerstone laying seems to have been more or less for political purposes.

Formerly the ceremony was always at the time of the commencement of construction work and the cornerstone was of very essential and practical value to the building. By modern building methods the cornerstone has little practical value, being chiefly an ornamentation. Furthermore, modern building methods preclude the laying of a cornerstone in the proper place until after all the structural steel, cement floors, and all the backing brick have been put into the structure. In other words, the building would be about two-thirds finished before the so-called cornerstone could be put in place. It is not infrequent that the old perfunctory ceremony is attempted to be followed by a pretended laying of the cornerstone as was done in this instance, and is usually accompanied with about the same amount of sham and pretense as was sought in this instance.

CAPACITY OF BUILDING IN EXCESS OF STATE'S NEEDS

The criticism of the size of the building or of the capacity in my opinion is not well founded, as evidence to this effect was not brought out in the testimony, and I believe the contention made by the majority would have been completely refuted had any testimony been sought on this subject.

At the beginning, a questionnaire was sent out to all Departments as a preliminary movement. When this preliminary work had been done, the heads of departments were called in and for more than a month including Sundays and holidays, there were continuous interviews with everyone connected with State government in order to obtain data from which final designs on the requirements could be obtained. The heads of each Department were required to sign the plan of their department and also to write a letter expressing their views as to the requirements of the office for the present time and also for a period of years, sometime subsequent to the completion and occupancy of the building.

UNSEEMLY TIME FOR COMMENCING CONSTRUCTION

The question of the time of the beginning of construction is somewhat a matter of opinion, yet there was during the year of 1932 considerable pressure brought to bear to have this work begin at the earliest possible moment so as to employ men who were out of work. As it has worked out,

the time of the beginning of construction was not badly chosen. The winter of 1932 and 1933, although quite disagreeable at times, has been such as to allow the structural steel in connection with the administration unit to be completed together with the concrete floors and to allow the steel work on the Legislative Unit to get well under way. At the present time, the work is so far advanced that the construction on the walls can be begun at any time and the interior work carried on simultaneously therewith.

The mechanical equipment can be installed at any time now in co-ordination with the other work. Unless there are unforeseen conditions to interfere with it, it is possible that the Administration Unit can be occupied before the snow flies in 1933 and the entire building enclosed by that time.

I deny that good judgment has not been used in connection with this item, and therefore do not agree with the opinion of the majority members in this connection.

PAYMENT BEFORE BOND FURNISHED

The action of the Board in connection with the payment to the Architects prior to the furnishing of a bond, the colorless, may be open to criticism, but the files of the Commission indicated that there was a very considerable amount of discussion and correspondence on this subject.

The bonding of an architect or engineer appears to be a very unusual occurrence. There is more logic in bonding an architect than there is in bonding a lawyer or a doctor or any other like professional man. This seems to have been one of the absolute senseless provisions of the law, and the Commission after having investigated this subject, tried to either save the money involved in this senseless provision, or at least to obtain a term bond. Bonding Companies were so ignorant of the proposition of bonding professional men that they were at a loss to know what to do about it and finally it was determined that they would not bond the Architect except on a yearly basis. The work of the professional men, among them architects, is so much a matter of judgment and difference of opinion, that a bond of this kind is likely to be a very dangerous proposition, not from the standpoint of integrity, but from the standpoint of mere difference of opinion between the professional men themselves, or the imposition of the opinion of laymen who know nothing of the natural laws connected with a piece of work of this kind.

Therefore, in my opinion, if there was any error by the Board in this connection, it was that of an ill-advised attempt to save the State anywhere from \$1,500.00 to \$2,000.00 of useless expense, and one infraction of the law, for which no citizen should condemn the Board. Here again the Commission should have been allowed to speak, and explain.

BANGS, FRASER AND CONKLIN AS VOLUNTARY WITNESSES

It was my contention from the first that the members of the Board of State Capitol Commissioners should be al-

lowed to avail themselves of taking the witness stand and discussing freely the matters investigated by our Committee. Rules in the first instance were adopted to foreclose right of cross-examination by counsel for the Commissioners, which rules are at times proper and justifiable; but to lay down hard and fast rules which meant exclusion of Messrs. Bangs and Conklin, regardless of the findings of the majority is contrary to the duty of a fact finding body and a perusal of the discussions of the Investigating Committee as disclosed on pages 75 to 85 of the Journal embodying the Minutes indicate the position that I took during the investigation on this point. To preclude Messrs. Bangs and Conklin from the witness stand, the stringent rules adopted in the first instance were made even more stringent, so that even a member of the Committee would be foreclosed from calling a witness unless he first disclosed to the Committee the questions to be asked and the answers expected to be elicited, and then if a majority of the Committee favored such testimony, such witnesses might be called. These tactics of denying the Commissioners the right to defend themselves against charges and insinuations, heretofore has been assailed by me, and I cannot help but reiterate that this action by the Committee was highly reprehensible and inexcusable, for two main reasons: it indicates that bias and prejudice was dominating the Committee, doing the Commissioners and the public at large an injustice, and furthermore it has greatly detracted from the value of the findings and probably resulted in the failure to obtain facts and figures elemental in ascertaining the true facts existent with this project.

With reference to the Commissioners individually, it is only fair to state, that at no point in the proceedings has any reflection, intimidation or charge been made against Mr. Conklin, personally, nor anything disclosed which might in any manner indicate that his course of conduct has been other than a public spirited citizen exercising to the best of his ability the duties devolving upon him as a member of the Commission. The proceedings further disclose that while Mr. Bangs has in some instances technically violated the spirit of the Act creating the Commission, yet it must be recognized that he has done a commendable and constructive work with reference thereto; that while the proceedings have disclosed personal misconduct by Mr. Fraser in connection with other departments of State and indirectly with his office as a Commissioner, yet there was nothing shown to reflect upon his activities as a Commissioner nor in his association with the other members of the Board.

ULTIMATE FACTS

1. SHOULD HAVE EMPLOYED NORTH DAKOTA ARCHITECTS:

The question of the capacity and capability of North Dakota Architects has been heretofore discussed. No North Dakota Architects were capable of handling this job and it is folly to make the statement that \$52,800.00 could have been saved in doing this work. When an owner gives

a professional man an order to do certain work, the owner must have confidence in him in the beginning. No architects in this State have ever had a Commission to take the responsibility of a piece of work at even one-fourth of the cost or magnitude of this building. Even Mr. DeRemer did not intend to take the ultimate responsibility for the creation, design and construction of the building. If there was ever any doubt in the minds of anyone regarding Mr. DeRemer's capacity to handle a job of this kind, it must have been completely dissipated by his appearance on the witness stand and evidence given by him before the Investigating Committee. He simply lacked capacity, capability and energy to handle this work. Mr. Kurke might have handled it with outside assistance but only providing that he had been given considerable time to do so.

2. BIDS SHOULD HAVE BEEN REJECTED:

This has also been heretofore answered. It would have been an economic crime to re-draw the plans, and re-write the specifications and ask contractors to refigure this job under the conditions existing. If it had been done, in view of the widespread bids and the clear-cut proposals that were received, it is doubtful if there would have been many contractors who would have re-figured the job because it would have been apparent that there was lack of good faith on the part of the Board of the Capitol Commission. The changes in the plans have been very few and there have been no changes in the specifications.

3. BOARD NOT JUSTIFIED IN LETTING CONTRACT:

I differ with the majority of the committee in its statement that the letting of the contract to Lundoff-Bicknell Company was not justified. They were by far the lowest bidders, looking at it from any angle possible, and again I wish to state that there were few changes in the plans and none in the specifications.

4. CONDITIONS REQUIRING UNIT PRICES VIOLATED:

The same answer to this as before. I do not agree with the statement made by the majority of the committee that there were many changes made in the plans; there have been a number of changes suggested and the unit prices submitted to the Board in the budget covers all of the items under consideration. This was not brought before the Committee and yet the budget, which is Exhibit "144" shows that these unit prices were furnished. If there had been cross-examination, or even a complete examination without cross-examination these facts would have been fully brought to the attention of the Committee.

5. BIDS ACCEPTED UNLAWFULLY:

This subject has heretofore been completely analyzed and has no color, either pro or con in relation to the protection of the rights of the State.

6. HIRE OF AARON T. JAHR:

Beyond the powers of the Board. This subject has been fully discussed heretofore and I agree fully with the Findings and Conclusions of the majority in connection therewith.

**7. ISSUANCE OF ANTICIPATION CERTIFICATES
UNNECESSARY AND CONTRARY TO THE
STATUTE:**

This has been fully answered heretofore under the appropriate heading and I do not agree in any way with the Findings of the majority of the committee, but here make the statement that the Board of State Capitol Commission was fully justified in issuing these certificates.

**8. FAILURE OF BOARD TO PERMIT CONTRACTOR
TO FURNISH OWN BOND—LOSS TO THE
STATE:**

This has been fully discussed heretofore and I do not agree either with the Findings or the Conclusions of the majority of the committee. I do not find that the State either gained or lost anything by this transaction, except that in controlling the buying of the bonds that state agencies engaged in the furnishing of bonds received the business and to that extent North Dakota business men profited thereby, which is in accordance with the letter and spirit of the law.

9. NORTH DAKOTA LABOR NOT ON THE JOB:

This is another subject that has heretofore been discussed and the testimony presented to the Board shows that in virtually every possible case, North Dakota labor was favored and was employed and to the satisfaction of the rank and file of organized and unorganized labor.

10. PREMATURE PAYMENTS FOR MATERIALS:

There have been no premature payments for material. The only case in which one hundred per cent has been paid is in the case of the Contractors bond. A bond or insurance premium cannot be bought on the installment plan, but must be paid for under the usual business limitations; ten per cent was not retained on this item and the Commission acted only reasonably in paying this bond in full through the contractor, as they would have had to have done if the Board itself had paid for the bond direct had the Board purchased it.

11. NO NORTH DAKOTA MATERIAL:

This has been discussed heretofore. The question whether more North Dakota materials will be used, is one that can be determined only by the material contractors themselves. The Board is allowed to pay a premium of five per cent on North Dakota material and if the North Dakota material

men cannot meet that price, no one can remedy that situation except the State Legislature itself. As to the question of this building being built of brick, that is a matter of opinion. No such building of recent years had been built of brick.

12. WORK ON BUILDING COMMENCED AT INOPPORTUNE TIME:

This question has been fully answered heretofore and in my opinion the very best of judgment was used in the starting of this work and its continuation up to the present time.

13. MANY JUNKETING TRIPS TAKEN; EXPENSES OF CAPITOL COMMISSIONERS HEAVY:

I cannot take the Findings of the majority members of the Board on this subject seriously. When there was an important piece of work, the parties responsible for it, considered it necessary to make their own independent investigations on the ground and to determine for themselves what the facts were. Architects and Contractors could not bring to the Board at Bismarck such facts, as such facts could only be obtained by personal visits and investigations. I fully concur with the Board of State Capitol Commissioners on their procedure in this case. Certainly it was a matter, the facts surrounding the same, that should have been elicited by the Committee directly from the Commissioners.

14. CARELESS SYSTEM OF ALLOWING EXPENSES:

In this respect I agree generally with the majority being of the opinion that the Board of State Capitol Commissioners should have considered Section 657 of the Supplement of the Laws of North Dakota as binding upon their department.

15. CAPITOL COMMISSION ON WHEELS:

This question has been fully discussed heretofore and I believe that the executive organization of the Board of State Capitol Commissioners should be re-organized so that the business of the Commission could be carried on promptly at Bismarck without unnecessary communications either with Grand Forks, Fargo or Chicago. In other words the Capitol Commission should be as fully integrated in Bismarck as possible so that all matters could be taken up quickly by the Board and disposed of expeditiously to the end that bills would be promptly audited and paid, that all actions required to be taken up should come under consideration at once without waiting several days for the Commission to get together. I do not believe that the Commission can be headed at Grand Forks, at Fargo or elsewhere, but that the executive head and organization and records must be centered in the city of Bismarck where the work is going on.

16. ORGANIZATION CUMBERSOME:

This finding is fully discussed in connection with the 15th

finding and has also been discussed heretofore. In general I agree with the findings of the majority report in this respect.

17. FAILURE TO PUBLISH FINANCIAL STATEMENT:

I do not agree entirely with the majority members of the Committee on this subject and the reasons have been discussed heretofore in this report.

18. EXORBITANT EXPENSE ACCOUNTS:

This question was fully discussed by various witnesses during the hearings. Whatever the facts are the evidence shows that these expense accounts had not been settled, that they were under adjustment at the time that the Investigating Committee began its work. That the auditor for the Board of State Capitol Commissioners had reported them in writing to the Secretary and that he had attempted to get a complete explanation of the reason for these charges from the contractors. The evidence of the Secretary was that as soon as he had obtained this information he would have presented the facts to the Board for their consideration and action. He also testified that he considered it his duty to get these facts before they were presented to the Board. It therefore appears that although these bills on the face may appear exorbitant yet the Board has not failed to do its duty in connection with them for the reason that they have never come formally before the Board nor is there any evidence that they have been before the Board informally.

19. PADDED EXPENSE ACCOUNTS:

The same statement applies to the 19th finding of facts as applies to the 18th.

20. EXORBITANT EXPENSE ACCOUNTS:

The same statement applies to the 20th finding of facts as applies to the 18th.

21. IMPORTANCE OF THE FOREGOING ILLUSTRATIONS:

The questions brought up in the 21st finding of facts has been fully discussed heretofore.

22. CORNERSTONE LAYING PREMATURE:

This is a matter of opinion. The laying of cornerstones is an ancient ceremony, one that formerly always occurred at the commencement of construction but which by modern building methods may or may not be done at the inception of the work.

23. PREMATURE PAYMENT TO ARCHITECTS:

This subject has been fully discussed heretofore in this report and I believe the Board of State Capitol Commissioners should not be censured for attempting to save the premium on this useless bond.

24. COURTING INVESTIGATION:

This subject has been fully discussed heretofore and I agree entirely with the findings of the majority members of the Investigating Committee.

25. CLOSE RELATIONSHIP BETWEEN ARCHITECTS, BUILDERS AND COMMISSION:

I agree with the findings of the majority members of the Committee but wish to add that it requires a considerable stretch of the imagination to see how this reflects upon the integrity of anyone or with the successful prosecution of the work.

26. FAILURE TO APPOINT SUPERINTENDENT:

This is somewhat a matter of opinion but I have fully discussed this matter heretofore in this report and feel that it depends a good deal on how the work is carried out whether such superintendent is required. In the course taken by the Commission I believe a superintendent wholly unnecessary and merely entailing additional and uncalled for expense.

27. DISBURSEMENTS CONTRARY TO STATUTES:

This subject was fully discussed above and is to a great extent technical. I hold that the Commission erred in not following the letter of the law requiring all state employees to submit receipted bills for expense accounts presented.

28. COMMISSIONERS AFFORDED EVERY OPPORTUNITY TO FURNISH INFORMATION AND TO DISPROVE ANY EVIDENCE WHICH THEY CLAIMED UNTRUE:

I object most emphatically to the correctness of the statement made by the majority that the "Commissioners were afforded every opportunity to furnish information and to disprove any evidence which they claimed untrue".

The minutes of the Investigating Committee on pages 75 to 85 disclose the lengths to which four members of the Committee went to avoid giving the Commissioners an opportunity to explain, excuse, modify or amplify the testimony previously elicited.

29. WHAT DOES THE STATE PAY?

There seems to be nothing in the enumeration under the heading of "What does the State Pay" that requires any comment. It is paragraphed from "A" to "P". Under a lump sum contract the State might be paying a much larger profit to the contractor than 3½%. Some of the Contractors bid a fee as high as 7%. There seem to be no items listed that under any form of contract the State would not pay for in some form or other. Therefore, I believe that this finding, No. 29, does not add any information that is not already available.

30. ACTION TAKEN TO OBSTRUCT POSSIBLE ACTION BY LEGISLATURE:

The record nowhere substantiates the findings in connection with paragraph 30 of the majority report. The Contractors had brought the subject of issuance of these certificates to the attention of the Board some months prior to the time that the Commission finally took action, even at the time that the contract was being drawn, as is shown in the minutes of the various meetings of the Commission.

RECOMMENDATIONS

1. I do not agree with the recommendation No. 1 of the majority of the Investigating Committee that the work of the present Incumbents of the Board of State Capitol Commissioners be taken over by the Board of Administration. The Board of State Capitol Commissioners have undoubtedly made some mistakes but even that may be a matter of opinion. The present Board has been organized twenty-three months and have made a very extensive and intensive investigation of all channels of building, design, and construction as applied to Capitol Buildings. If the present members of the Board are displaced, the State is throwing away all the experience and knowledge these gentlemen have attained during the period mentioned. I do recommend, however, the appointment of a member to fill the present vacancy on the Board. This member should be within a reasonable distance of the City of Bismarck as meetings of the Board of necessity must be rather frequent from now on. If the new member is not too far from Bismarck he can reach the city without delay and without much expense at any time.

2. I concur with the majority of the Investigating Committee in their recommendation No. 2 keeping at all times in mind, the fact that the present Board has served without compensation, have used their own valuable time to carry on this work and I see no reason for criticising the present members of the Board for any expenditures that they have made in connection with the work.

3. I do not agree with the third recommendation which is that the Tax Anticipation Certificates that have been already sold to the Bank of North Dakota should be cancelled. If any attempt of that kind was to be made, the position of the contractors in relation to it should first be determined, for that might involve legal difficulties that would cost many times the amount that the three or four months interest would aggregate.

4. I hardly see the logic of the appointment of "some disinterested and competent superintendent of construction." If the architects are not performing the duties that they are being paid for, then immediate steps should be taken to cancel their contract as is provided in their contract and either new

architects should be employed or the old work turned over to a Superintendent of Construction without the aid of the architects.

5. I concur with the majority members of the Committee in their recommendation contained in the fifth paragraph with the exception of the following clause: "Nor should any payment be made to the contractors for material until such materials are actually installed into the building." This is such an unusual requirement that it should be made certain that this part of the recommendation would not conflict with existing contracts.

6. A careful examination of the budget filed with the Commission and which was exhibit No. 144 of the evidence filed with the Investigating Committee, discloses that unit prices of a very complete character were filed with the Board of State Capitol Commissioners about December 1, 1932. This was not brought before the Investigating Committee as it should have been done and I am of the opinion that this has been complied with.

7. I cannot concur with the majority members of the Investigating Committee in the recommendation that this building shall be built of brick. This matter has heretofore in this report, been gone into, and the reason for my inability to concur with this recommendation need not be repeated here. On the contrary I believe that this building should be faced with Bedford Stone and earnestly recommend to anyone having charge of this building in the future that they go into the matter very carefully before attempting to use brick instead of stone. I believe that only those financially interested in the use of brick, are in favor of it, and that the vast majority of the citizens of the State of North Dakota desires to have this building constructed with stone facing.

8. I recommend that the organization of the State Capitol Commission be so reconstituted that the head of affairs be located in Bismarck, that all business and meetings except those absolutely necessary to be held in Bismarck, and that all correspondence relating to the business of the Capitol Commission be carried on through the Secretary's office at Bismarck. The law provides that records of the Board shall be in the custody of the Secretary. Though there seems to have been reasons for maintaining an office at Grand Forks as has been heretofore set forth, I earnestly recommend the discontinuation of this practice and the provision made that all correspondence be carried on through the Secretary's office and by him referred to the Commission in an appropriate way. This I believe was the original intention of the law and I believe that it is good business organization to adhere strictly thereto.

Respectfully submitted,

W. E. MATTHAEI,
Chairman.

THE MINORITY REPORT OF THE CAPITOL BUILDING INVESTIGATING COMMITTEE OF THE SENATE AND HOUSE OF REPRESENTATIVES OF THE STATE OF NORTH DAKOTA, TWENTY-THIRD SESSION DULY AND REGULARLY APPOINTED BY RESOLUTION ADOPTED IN BOTH BRANCHES OF THE NORTH DAKOTA LEGISLATURE OF THE STATE OF NORTH DAKOTA WHICH SAID RESOLUTION WAS DULY ADOPTED ON THE DAY OF JANUARY, 1933.

To the Honorable President of the Senate and Honorable Madam Speaker of the House of Representatives of the State of North Dakota.

Honorable Sir and Madam:

The undersigned, being a minority of the Capitol Building Investigating Committee appointed under a concurrent resolution of the Senate and House of Representatives introduced in the Senate January 10, 1932, being unable to agree with the report of the majority of said Committee, beg to leave to submit the following as their minority report:

I

The Resolution creating the Capitol Building Investigating Committee is not here quoted in full but reference is expressly made thereto and so far as is here material is summarized as follows:

The preamble of the Resolution recites five alleged improper acts as follows:

1. That the Capitol Building Commission awarded contracts in violation of the spirit and intent of Ch. 205 S. L. 1931.
2. That the Capitol Commission in violation of said Ch. 205 had awarded most of the contracts for the erection and construction, as well as for materials and labor to parties outside of the State.
3. That the contracts have been divided into three sections without properly safeguarding the State.
4. That the resident architects are architects in name only and,—
5. That the Building will in its accommodation exceed by far the necessary requirements and that the ultimate cost of the Building is an unknown quantity.

Whereupon the Capitol Building Investigating Committee was empowered as follows:

"It shall be the duty of the Capitol Building Investigating Committee * * * to meet * * * and make a complete, thorough and impartial investigation of the Capitol Building Commission, its activities, actions and doings in connection with the letting of contracts * * * and all other acts, things and matters of said Commission * * *. Likewise to investigate the

manner of construction, the labor and material used and such other matters as shall to said Committee seem advisable, desirable or necessary in order to make a thorough and complete investigation and report."

To perform this duty the said Committee was given all the power and authority it was possible for a sovereign State to confer, including the express power to subpoena the Capitol Commissioners and examine them under oath, and it was made the duty of the Attorney General and all other officers and employees of the State to assist said Committee in its work and an ample appropriation of \$7,500.00 was made therefor.

The matters to be submitted in this minority report fall under heads as follows:

(1) An analysis and statement of the activities of the Committee under the guidance and control of the members signing the majority report thereof (hereafter called the majority).

(2) An analysis and statement of the activities of the Capitol Building Commission, and,—

(3) Our dissent to and comment upon such portions of the criticisms in the report signed by a majority of the committee (hereafter called the majority report), as are deemed worthy of attention.

AN ANALYSIS AND STATEMENT OF THE ACTIVITIES OF THE COMMITTEE UNDER THE GUIDANCE AND CONTROL OF THE MEMBERS SIGNING THE MAJORITY REPORT.

Your minority beg leave to report that the Capitol Building Investigating Committee has exercised the powers so granted to and bestowed upon it as follows:

1. That there has not been a good faith attempt to make a complete, thorough and impartial investigation such as is required by the Resolution; that the investigation has been partial, fragmentary, biased, prejudiced and incomplete, and that any report based thereon can serve only to mislead.

2. That no complete, thorough and impartial investigation can be made without the right of cross-examination; the right of cross-examination and the right to introduce rebuttal testimony are more valuable for the purpose of ascertaining the truth than is an oath; this right of cross-examination and to introduce rebuttal testimony was denied to the Capitol Commission, whose conduct and activities were under investigation, by virtue of the adoption of rules expressly prohibiting such procedure.

3. On several occasions the Capitol Commissioners, both in writing and otherwise requested the opportunity to testify before the Committee and each time this request was denied and refused.

4. The examination of the witnesses actually called, when conducted by the attorney for the committee and the members signing the majority report, was biased and prejudicial; it consisted of leading questions and innuendos and insinuations and repeatedly the witnesses were denied the opportunity to make explanations which were essential to an understanding of the testimony; without such explanations the testimony given was actually misleading and incomplete.

An illustration is found in the proceedings of January 31st, page 34, from which we quote as follows:

Mr. Kurke, a respected business man of Fargo and one of the Architects of the job was testifying and the following questions were asked by counsel for the Committee:

"Now, Mr. Kurke, will you now tell me who the men are up there and who have been there outside of DeRemer and yourself, bossing or superintending this job? Mention them.

Answer: Well, would you give me the right to explain all of this?

"Q. (Interrupting). Well, if I was going to allow you to explain, you would talk here for a month and I am not going to let you.

"A. I'll make it brief.

"Q. That is a plain question and I think it can be answered, it don't need any explanation. When I ask the names of men I want to know who they are."

Mr. Thorpe interposed to sustain the witness in the request for an opportunity to explain, whereupon the record shows the following proceedings:

Senator Bangert: "Mr. Chairman, in view of that statement, I move that we ask Mr. Thorpe to comply with the rules and that if he again violates the rules I shall make a motion that he be excluded for the balance of the hearing.

Mr. Flannigan: "I second the motion. The purpose of seconding that motion is this: We are trying to find out how long and how much time this architect put in on the job as superintendent; to me it makes no difference what he did in Fargo or with the Commission. We are trying to find out how long he put in on this job as superintendent of construction."

Senator Bangert: "My purpose in making the motion is that Mr. Thorpe is well acquainted with the rules adopted by this Committee and if we permit him to violate the rules we will be here for the next six month and I don't propose to be here that long."

The foregoing is but one of the many instances with which the record is replete wherein the witnesses were refused the opportunity to explain as a result whereof the testimony is misleading and misunderstood.

5. A comparison of the witnesses called by the Committee with a list of those who should have been called discloses the very partial and fragmentary investigation actually made.

There were twenty-two witnesses called, of whom but five testified concerning any material fact connected with the job; these five witnesses were Anders, Kurke, Davis, Norris and DeRemer; the other witnesses called contributed nothing to the material facts; for instance,—Erickson and Mattson testified only to a transaction without any significance; the Clerk of the Supreme Court likewise testified to a fact of no significance; Messrs. Brocopp, Lyngstad and others testified to matters not in any way connected with the Capitol Commission; Messrs. Weigel and Halstad testified merely with respect to certain brick and tile; Mr. Jans testified to matters already under investigation by the Commission's auditing organization, and so on through the entire list of witnesses.

If it had been the desire or purpose of the majority of the Committee to make a complete, thorough and impartial investigation, the following witnesses must necessarily have been called and examined; first of all Messrs. Conklin and Bangs, members of the Capitol Commission, who were the men of all who could best enlighten the Committee upon all matters connected with the Capitol Commission, its activities, the letting of contracts and all other subjects entrusted to the investigation of the Committee.

Then there were Mr. Kandzie and Mr. Schreve who have been connected with the Architects' organization at Bismarck ever since the construction work first began; indeed, Mr. Kandzie has been at the head of the architectural force at Bismarck since the plans and specifications began; then there is Mr. Lewis, who has been the active inspector on the job, employed by the Architects and who knows better than anyone other than the contractor, the manner in which the work has been done.

There is Mr. Savola, an employee of the Robert W. Hunt Company approved by the Investigating Committee's expert, Mr. Deeter, as "the highest authority in the United States," (Tr. pg. 12, February 7th); Mr. Savola has been the inspector of concrete and other materials on this job since the work began and his testimony is indispensable to a complete, thorough and impartial investigation.

If there were any rumors that North Dakota contractors had been discriminated against by the Commission, the best witnesses with respect to the facts therein involved, would have been some of these North Dakota contractors; Mr. Moline, the lowest North Dakota general bidder, was in consultation with the Committee and its counsel and was repeatedly present in the Court Room during the hearing, but was not called; neither was Mr. Riley, of Fargo, the successful heating and ventilating contractor; there was no North Dakota contractor called by the Committee to testify, touching the facts or the alleged rumors.

Wachter & Lambert of Bismarck had the contract for excavating and also the contract for hauling; they were not called to testify as to whether or not North Dakota contractors were discriminated against.

Buckingham of Grand Forks was an unsuccessful North Dakota bidder for tile, as well as for the masonry; it is significant that the majority of the Committee did not care to listen to his testimony as to whether or not there had been any discriminations to his knowledge against North Dakota contractors or material men.

The Fargo Foundry Company were unsuccessful bidders for the structural and re-inforcing steel, yet they were not called; if there was any possible discrimination adverse to North Dakota contractors, men such as these were best qualified to testify.

It is needless to prolong the list of witnesses not called but at least reference should be made to the accounting department within the Capitol Commission's organization; Mr. Lester S. Diehl is at the head of this department; Mr. Diehl has been engaged in auditing the books, records and accounts of the Capitol Commission since construction work began; Mr. Diehl first encountered the alleged padded accounts; the Investigating Committee did not discover the so-called padded accounts; the Investigating Committee and its accountants merely discovered Mr. Diehl's report with respect thereto and it is significant that Mr. Diehl, who possessed first-hand information touching these matters, was not called upon to testify.

6. Your minority beg leave to report that there is room for at least the suspicion that facts which might be favorable to the Commission, were not called to the attention of the Committee; we refer to the so-called padded accounts; the Committee and the public were not informed that the Capitol Building Commission's auditing force had questioned these accounts; that the Auditor's report thereon is dated in early December, 1932, long before this Investigating Committee was created; yet the fact was given no publicity nor was it called to the attention of the Committee.

On December 14th, 1932, the General Contractor wrote to the Secretary of the Board of Capitol Commissioners with reference to these so-called padded accounts and expressly authorized the Auditor and the Board to deal therewith as might seem proper; we quote from the letter (pg. 2) as follows:

"We might add that the expense enumerated for Mr. F. J. Curtin should not appear on this account and credit will be issued to you accordingly. We believe that the rest of them should stand, BUT ARE, OF COURSE, WILLING TO ABIDE BY THE DECISION OF YOUR AUDITOR AND YOURSELVES AS TO THE AMOUNT WHICH YOU BELIEVE WE SHOULD SPEND ON THESE TRIPS."

This letter was in the hands of the counsel for the Com-

mittee; portions thereof were read to the Committee but the portion above quoted seems to have escaped his attention.

Dismissing this so-called padded account criticism, we call attention to the testimony of Mr. Anders (Tr. pg. 5, February 15th), who in speaking of these bills testified as follows:

"They have not been allowed. They are in process of audit."

7. A further evidence of the bias and prejudice of the members of the Committee who signed the majority report, is found in the change of the rules for the purpose of excluding the testimony of Messrs. Conklin and Bangs; under the rules, one of the undersigned members requested the Chairman to issue subpoenas for Messrs. Conklin and Bangs, as well as for the Contractor, Mr. Moline, which request was granted; as the rules then stood, any member had the right of examination of such witnesses so called and thereupon the counsel for the Committee would have had the privilege of cross-examining them.

After the subpoenas had been issued and served, the rules were changed so that the members calling said witnesses could no longer freely examine them. Under the changed rules they were required to submit their questions for censorship by the majority of the Committee, with no assurance that any questions whatever would be allowed; your minority believes this was a flagrant use of power for the purpose of preventing a complete, thorough and impartial investigation.

8. Further evidence of the prejudice and bias on the part of the majority of the Investigating Committee can be obtained by referring to the Minutes of the Executive meetings thereof, which Minutes are attached to the majority report and made a part thereof; particular attention is directed to the minutes for the last few days.

II

AN ANALYSIS AND STATEMENT OF THE ACTIONS AND ACTIVITIES OF THE CAPITOL BUILDING COMMISSION AS REVEALED BY THE RECORDS, TOGETHER WITH THE TESTIMONY OF THE WITNESSES ADDUCED AT THE HEARING.

In arriving at the facts, your minority has not only listened to the testimony submitted at the hearing, but in addition has read and examined the minutes of the Capitol Commission, the plans, specifications and drawings, the original bids and tabulations thereof, the contracts, the reports by the Architects, the Secretary and others, touching the design and other features of the work, together with other records, documents, files and original correspondence and copies thereof, and from the facts as thus ascertained we submit the following:

1. Immediately after appointment, the Board organized and in connection therewith authorized the employment of Mr. Jahr as a clerk in the office at Grand Forks; Mr. Jahr was born in Traill County, North Dakota, but enlisted in the Canadian Army during the World War, as a result whereof his citizenship was questioned; all such questions were later removed by his taking the oath of allegiance; your minority expresses no opinion as to whether or not Mr. Jahr lost his citizenship, it not being here deemed material; Mr. Jahr performed valuable services in connection with the legal work of the Board, which legal work was handled almost exclusively through the office of the President at Grand Forks, where all contracts were drawn and other legal work performed. (For further information, see part three of this report.)

Much seems to be made in the record in regard to the engagement of A. T. Jahr in the office of the President of the Commission at Grand Forks. The salary allowance was \$150.00 a month. From the testimony it would appear that Mr. Bangs, in order to keep in constant touch with the project, has kept a duplicate set of records at Grand Forks; that contracts, insurance and bond forms were prepared in his office, together with a large amount of detailed correspondence. It would appear that the costs were more than reasonable and to us it seems immaterial as to what designation was placed on Mr. Jahr's employment. There is no question in our judgment but that the State received many times in value, the cost of the Grand Forks office. We believe that the time and space devoted in the record to this phase of the hearing is trivial and of no material consequence.

2. The Minutes of the Capitol Commission are voluminous and disclose that the Commission met frequently and transacted a vast amount of business; it appears that more than 110 meetings were held in the course of something like 20 months, or on the average of almost five meetings per month, and these meetings were for a minimum of one day to a maximum of two weeks in length; investigations were made by the Capitol Commission or members thereof, which were essential to the performance of their work and required them to visit other Capitol Buildings, as well as business blocks in the larger cities; the files contain exhaustive and voluminous reports by the different Commissioners making these investigations, and evidence the industry and sincerity with which the Capitol Commission members performed their duties; the records of the Capitol Commission have been most excellently kept and the expenses, in view of the large amount of detail work and travel necessary, were not unreasonable or excessive; no rent was paid for the Capitol Commission quarters at Bismarck up to January, 1933, or at Grand Forks; there has been no unnecessary delay in the work of construction or in any other work connected with the project because of a failure of the Capitol Commission to meet or to keep up with the work; the entire record shows that the Capitol Commissioners have performed their duties with industry, fidelity and a whole-hearted enthusiasm which is highly commendable.

3. In the selection of the Architects, the Commission exercised ability, industry and good judgment; the firm of Holabird & Root is one of the leading architectural firms of the nation and their selection cannot be questioned; the firms of DeRemer and Kurke are the leading architectural firms in North Dakota; the matter of friction among the Architects will be later discussed herein.

4. The fee allowed for the architectural organizations is reasonable, taking into consideration the character of the work required and performed, and the fixing of the amount of the fee encouraged the Architects to exert every effort to save and economize.

5. It is true that a large portion of the architectural work has been performed by the firm of Holabird & Root; your minority believes that it is fortunate for the project that this has happened; we do not believe that the North Dakota Architects possessed qualifications and organizations such as equip them to perform the architectural work to advantage; the firm of Holabird & Root were so equipped which was the good fortune of the State of North Dakota.

6. The design of the building combines beauty, dignity and efficiency in an unusual degree; the working out of this design was made possible by the scientific manner with which the requirements of the building were studied, analyzed and stated, as a result whereof the necessities of the Capitol Building were made clear, thus giving opportunity for the creation of a beautiful design that combines all of the desirable qualities therein.

7. The plans and specifications were prepared at Bismarck in an office there opened by the combined architectural force; it was originally planned that the North Dakota Architects should take the initiative in the preparation of the plans and specifications but when the time arrived therefor, it was found impossible for them to create an organization equipped for that purpose, with the result that Holabird and Root were compelled to and did take over the work in collaboration with the North Dakota Architects, resulting in plans and specifications that have received widespread approval and commendation.

8. The bids were opened under circumstances of the greatest publicity; much commendation has been given thereto; the bids were opened upon the stage of the Auditorium before an audience of several hundred people, consisting of Architects, Contractors, bidders and others interested in the work; at the close of the opening, the audience adopted a resolution commending the Capitol Commission for the manner of the opening.

9. The low bid was the Lundoff-Bicknell Company at \$1,575,000.00; there were twelve other bids of which three were from North Dakota; the low North Dakota bid was E. A. Moline of Jamestown, at \$1,659,434.00; this was several thousand dollars in excess of the low bid plus the North Dakota three percent preferential; Mr. Moline was subpoenaed

as a witness and was present at the various hearings but was not called to testify, and he has made no claim before this Committee that his bid was low, or that there was any method of computation by which his bid could be made the low bid; nor has he made any claim either before the Committee or otherwise to our knowledge that he was legally entitled to the contract; the evidence is conclusive that the Lundoﬀ-Bicknell Company were the low bidders and were entitled to the contract.

10. The specifications provide that the contract should be a guaranteed maximum cost contract; forms of this contract were deposited before June 10th, 1932, in the office of the Secretary and at the office of Messrs. DeRemer at Grand Forks, Kurke at Fargo, and Holabird & Root in Chicago, so that all prospective bidders had ample opportunity to examine and become acquainted with the terms of the contract; there was no advantage or discrimination among bidders with respect thereto.

11. The guaranteed maximum cost contract differs from the lump sum contract in two important particulars, as follows:

(a) Article 9 requires the Contractor to submit all bids for any portion of the work and also for material, and no sub-contract can be let without the approval of the Architects and owner, and the owner reserves the right to require the Contractor to let any sub-contract for an amount greater than the bid of any responsible and competent sub-contractor which the Contractor may obtain and recommend, in which event the guaranteed maximum cost shall be increased by the actual difference; under this article, the Board retained such control over the purchases of material or the letting of said sub-contracts as enabled it to protect North Dakota Contractors and material men under their North Dakota lawful preference and,—

(b) Any savings or profits over and above the fee specified in the bid is divided between the owner and Contractor, the owner receiving eighty percent and the Contractor twenty percent thereof.

12. Under both the guaranteed maximum cost and the lump sum contract, the contract price falls under two separate heads as follows:

(1) The cost of the work which is precisely the same under the guaranteed maximum as the lump sum contract, and includes labor, superintendence, inspection, materials, sub-contracts, transportation, freight, equipment rentals, whether belonging to the Contractor or otherwise, hand tools, insurance, permits, litigation and all other expenses connected with the performance of the work and,—

(2) The profit in the lump sum contract is known only to the Contractor, but in the guaranteed maximum contract is known and agreed upon between the owner and Contractor; if there are additional profits or savings, under the guaranteed maximum contract they are divided be-

tween the owner and Contractor, while under the lump sum contract they belong solely to the Contractor.

13. Criticism has also been made of certain alleged padded accounts to which earlier reference herein has been made. The questioned accounts have been suspended by the Board's auditing organization and were under investigation long before this Legislature met or this Committee was appointed; there is nothing in this criticism reflecting in any way upon the members of the Capitol Commission.

14. The Initiated Measure reducing the assessed valuation of property within the State, reduced the probable receipts from the tax levies very materially, leaving the Board without sufficient funds available to complete the entire building; the amount of the shortage was approximately \$350,000.00; the appropriation by the Legislature remained unchanged; the appropriation remained at the sum of two million dollars; the liability of the State for rental for downtown offices continued undiminished at approximately \$20,000.00 per year; the funds available from the Federal Land Grant and the insurance remained unchanged; therefore, under the circumstances, the logical, intelligent and business-like arrangement was the division of the contract into three parts as follows:

(a) Part 1 including the entire exterior of the structure with all interior floors and slabs, glass and glazing for all exterior openings, all windows, doors and all work of all description to make the structure of the building weather tight, together with the fire-proofing of all interior columns and beams; this work could be done for the available cash and the amount of this budget was fixed at \$1,042,369.28, and was designated Budget A.

(b) Part 2 which included the finishing of all interior work in the tower or administration unit; the completion of this work would permit the use of the tower or administration unit and would house all officers of the State, other than the Legislature; the cost of this work included in Budget B was \$390,059.66.

(c) Part 3 includes all of the work not included in Parts 1 and 2, and would consist almost exclusively of the completion of the legislative portion of the building; the amount of this Budget is \$349,195.52.

(d) The total cost of the building as thus budgeted is \$1,781,624.46, or approximately \$18,000.00 less than the amount budgeted therefor by the Capitol Building Commission; in addition thereto, there will probably be approximately \$30,000.00 unused out of the \$200,000.00 budgeted by the Commission for Architects' fees and administrative expenses; there is thus provided by the Commission approximately \$50,000.00 of a buffer to absorb unexpected items; it is very clear that the cost of the building has been carefully provided for and that the total cost will be substantially inside of the appropriation; if the plans of the Capitol Commission and the Architects are

not seriously interfered with, it is probable there will be some savings accruing to the State under the guaranteed maximum contract which will increase the amount by which the cost of the building is kept within the appropriation, or such savings can be applied for additional benefits to the building.

15. The criticism in respect to Schedule "D" is entirely unjustified and based upon a complete misunderstanding; this Schedule is a list of omissions authorized in the contract prepared and recommended by the architects as an additional guaranty that the cost of the building would be kept within the appropriation; the amounts to be credited to the State in such reduction aggregated \$29,418.00; this is the amount which the Contractor guaranteed the adoption of the Schedule would reduce the cost of the building; but the amount might be greater, dependent upon subsequent adjustment; this adjustment was not made because of the objections by Mr. DeRemer, with the result that the contractor has withdrawn his guaranty and the amount is now subject to adjustment between the architects and the contractor; Schedule "D" was a wise and prudent arrangement and it is regretted that the delay by Mr. DeRemer has endangered the benefits which may result therefrom.

16. The sale of the State Capitol Building Fund Certificates to the Bank of North Dakota was a wise and prudent business arrangement for which the Commission is entitled to commendation and approval.

It would have been unwise and imprudent, as well as impossible, for the Commission to have entered into a binding contract for Budget "B," unless sufficient funds were in hand to pay therefor; no prudent Contractor would have entered into such a contract without the funds in hand.

The sale of the certificates imposed no loss upon the Bank which bought them for investment, and they are investments of the very highest class, with adequate security both in the tax levies and in the unsold land grant lands.

The sale of the Certificates will enable the State to complete the administration unit at the very earliest possible moment and thus relieve the State from the very heavy rental charges approximating \$20,000.00 per annum.

17. The Board does not deserve the criticism of the majority for the manner in which the insurance and bonds have been handled; the delay in procuring the Architect's Bond is covered later in this report.

Efforts were made by the Board to have the State Fire & Tornado Fund carry all possible insurance; such negotiations were begun in May, 1932, long before construction work began; the opinion of the Attorney General discloses that the State Fund could not carry this insurance.

The restriction of the bonds and insurance to the smallest number of carriers and agents was wise and businesslike. An increase in the number of insurance companies and agents

would endanger the insurance and invite complications, delay and loss in making settlements; losses have already been paid and the promptness and efficiency with which the adjustments were made, fully substantiate the Board's good judgment.

18. The geographical distribution of the membership of the Board is in accordance with law and follows precedent and reason; there is but one Capitol Building and all sections of the State should be represented on the building committee so that the culture, sentiments, feelings, aspirations and wishes of the people in all parts of the State would be represented; this distribution of the Board has promoted all these purposes and has not resulted in any delay that is unreasonable. For further comment along this line, see part three of this report.

19. It would seem that all too much stress has been placed upon the testimony of Mr. DeRemer.

Mr. DeRemer was supposed to be one of the leading North Dakota architects and with respect to this matter, he is placed, unfortunately, in one or the other of the following positions:

(a) Mr. DeRemer has either permitted defective work to be put in this building, which impairs its strength, durability, permanence or other important phases of the work, or—as an alternative—

(b) Mr. DeRemer's criticisms are directed at non-important matters with respect to which reasonable minds might disagree; he has failed completely and utterly to heed the counsel and advice of his fellow associate Architects, and has created and produced friction and delay, and in many other ways has not worked for the best interests of the project at hand.

From the record it appears that soon after his engagement as an architect, his principal occupation has been that of an objector. His attitude is clearly shown in the multitude of letters which he has spread broadcast, by his failure to agree with his associates, etc., and by setting up his own unsupported opinion against that of the other North Dakota architects, as well as against the judgment of nationally known architects, engineers and contractors.

His demeanor on the stand indicates the jealous, critical attitude which has resulted in delaying the work and generally interfering with the carrying forward of the project.

We do not consider his objections or criticisms of any value of a constructive nature. He appears to show a lack of capacity to comprehend a project of this size, and in many respects he is shown to be in ignorance of the plans, specifications and drawings which were supposed to have been drawn under his direct supervision.

It is our judgment that his opinions should be given little, if any, weight.

OUR DISSENT TO AND COMMENTS UPON SUCH PORTION OF THE CRITICISM IN THE MAJORITY REPORT AS ARE WORTHY OF ATTENTION

Reference is here made to the report of the majority of the Investigating Committee under title of "Recommendations."

MAJORITY REPORT RECOMMENDATIONS NUMBER I.

We are absolutely opposed to the recommendation of the majority that the work of the Board of the Capitol Commissioners be taken over by the Board of Administration for two reasons:

First, the Board of Administration would have to inform itself, not only as to a mass of details in connection with an undertaking of this kind, but would also have to acquaint itself with all phases of the work, which would necessarily involve a thorough understanding of the contracts entered into as well as some knowledge of the plans and specifications, the organization of the work which falls to the Architects, to the supervisors and to the General Contractor and the sub-contractors. The building of a State Capitol is of such a nature that anyone who has not familiarized himself with the work from the very beginning, could not be expected, in a comparatively short time, to get the benefit of all information that would be necessary to conduct the direction and control thereof. The Board of Administration has very little time to devote to a project as large as the building of a Capitol. It would have to neglect this project, or it would have to neglect the supervision of Institutions of our State, which have heretofore been placed in its charge. If the latter should not suffer from lack of attention, the Board would have to resort to the alternative of engaging men to represent it in almost all phases of work in connection with the Capitol building, which would entail additional expense not originally contemplated in the erection of the Capitol.

Second, the minority of your Committee does not hesitate to recommend that the present Board be retained. After almost two years of constant study and attention to all matters incident to the construction from the very beginning until the present time when work is about to be speeded up to a successful completion, it would be poor judgment to transfer to some other Board the activities involved in the direction and control of the greatest building project the State has heretofore attempted. We believe, when all phases of the building of the new Capitol is considered, the Board deserves the whole-hearted commendation and approval of the citizens of this State.

MAJORITY REPORT RECOMMENDATIONS NUMBER 3.

The sale of anticipation warrants already made was fully necessary and entirely proper for the reasons previously pointed out in this report. It would not be advisable, nor do we believe legal to attempt to cancel the contract already made with respect to this matter.

MAJORITY REPORT RECOMMENDATIONS NUMBER 4.

It is the opinion of the minority that the appointment of some Superintendent of Capitol Building, as Section 8 of Chapter 205, of the Session Laws of 1931 contemplated, if the Commission had so decided, is not mandatory or necessary. The State is amply protected in this respect by the Architects—at least one of whom is on hand a large part of the time, keeping in close touch with the construction as it progresses. The Architects have secured the services of a competent man, Mr. Lewis, who is devoting all his time to work connected with the supervising of construction; furthermore, the R. W. Hunt Company, a nationally known and recognized firm of supervisors of material, check and inspect the quality of materials that go into the building either on the premises or at the factory or mill whence the material is shipped.

MAJORITY REPORT RECOMMENDATIONS NUMBER 5.

The Commission has in its employ an auditor who regularly scrutinizes payments made by the Commission to persons, firms or corporations connected with the work. As an example, we wish to mention the so-called "padded expense accounts" of Mr. Norris, Mr. Smith and others; that these were objected to and disallowed by the auditor employed by the Commission. The contract also provides that where payments have been made, which later on are approved by the Board, a deduction may be made for such erroneous payments from any subsequent requisition made by the Contractors. Further, the contract provides that when the construction is completed, the General Contractor must submit all of his records for an audit of all expenditures made or indebtedness incurred in and about the performance of the contract according to its terms and any adjustments not heretofore made, can be made at that time. We believe that the contract, and the manner in which the Board has handled the matter of payments adequately protect the State in every way.

We cannot agree with the report of the majority that the payment for material should be made after such material is actually installed in the building for the following reasons:

It is our interpretation of the law and of the contract, that materials shall be paid for when delivered to the extent of ninety percent of the cost thereof. We believe that the Board is wholly justified in its resolution whereby it agrees to pay for materials when delivered in Bismarck instead of on the immediate premises. By such an arrangement, the State has benefited by cash discounts which amount to about \$1,000.00 at the present time. If materials were not paid for when delivered, such discounts could not be taken, and further, a material saving in loading and unloading is made when material is not delivered to the building before the time it is needed for installation.

MAJORITY REPORT RECOMMENDATIONS NUMBER 6.

The testimony reveals that unit prices were not furnished by the successful contract bidder when the contract was sign-

ed. Technically, this does not conform to the requirements in the proposals. The minority does not attach any importance to the failure of their filing unit prices, nor does it believe that filing of unit prices based on the original bid will serve any useful purpose.

The general contract is subdivided into budgets, the total of which in addition to the amount of the three and one-half percent fee to the General Contractor, plus the cost of the General Contractor's bond equals his total bid. Subsequent sub-contracts have been let for work and materials covered by some of these budgets. The remainder of the budgets will be let to sub-contractors on the lowest competitive bid, or at least sub-proposals on such work and materials will be received.

We are firmly of the opinion that the successful bids on the part of sub-contractors are a far more reliable criterion upon which to base prices on contemplated changes, than the so-called unit prices referred to by the majority. We do note, however, that unit prices were filed December 17, 1932, covering many items of the Contractors' budgets particularly as to concrete and brick work.

MAJORITY REPORT RECOMMENDATIONS NUMBER 7.

We believe that recommendation number 7 is purely a matter of judgment on the part of the Capitol Commission so far as the selection of stone instead of brick for outside facing purposes is concerned. We believe that the Capitol Commission exercised good judgment in deciding on stone facing instead of brick. There is a large amount of material required by the building, which can be furnished by North Dakota brick manufacturers besides the face brick, which totals only five hundred forty-eight thousand, as for example, common brick, which North Dakota manufacturers can furnish if their bid is not in excess of five percent above the lowest bid for similar material obtainable upon bid from without the State.

We are convinced that the common brick contract for material will be awarded to North Dakota manufacturers if they can comply with these conditions. From the records, however, we learn that to date, no North Dakota manufacturer has submitted a proposal for common brick that will come within the limitations of a five percent preferential.

Reference is here made to that part of the majority report entitled 'Ultimate Facts.'

SHOULD HAVE EMPLOYED NORTH DAKOTA ARCHITECTS

We do not agree with the contention of the majority that North Dakota Architects exclusively should have been employed. On the contrary, it is fortunate that a large portion of the architectural work has been performed by Holabird & Root; and we do not believe that North Dakota architects possessed qualifications and organization such as equipped them to perform architectural work of this kind to advantage. The firm of Holabird & Root were so equipped.

BIDS SHOULD HAVE BEEN REJECTED

In drawing the plans and specifications the contingency that the majority contends existed under this section was recognized by the Board with the result that the specifications embodied various alternates on which Contractors made separate bids, and by resorting to substitution of various alternates and allowances, the maximum cost was reduced at the time of the signing of the contract, to a figure which was within the maximum amount set by law.

The changes that have been made subsequent to the filing of the general contract and which have reduced the maximum costs have not affected the durability, appearance or quality of construction.

BOARD NOT JUSTIFIED IN LETTING CONTRACT.

We believe the Board exercised good judgment in making changes where it would be a saving to the State without sacrificing the appearance, durability or stability and we contend that the cost of such changes can be readily determined as soon as sub-contracts for all budgets have been let or where sub-proposals covering changes can be received whenever necessary.

CONDITION REQUIRING UNIT PRICES VIOLATED

We do not deny the technical omission of a schedule of unit prices on the part of the successful bidder for the general contract. For reasons elsewhere set forth in this report, we cannot agree that if such unit prices had been submitted, that they would have been a fair criterion by which to determine the cost of certain changes in parts of the contract budget. We believe it is within the province of the Architects, who have full knowledge of the plans and specifications to determine and approve what deductions should be made for such changes, subject to the approval of the Board from all data available. We note that mechanical contractors were required, and did furnish unit prices, but the character of such work requires that to be done and such unit prices have value.

Objection is raised to the inference that an item of \$250.00 for the omission of plastering behind certain wainscoating is the figure that would have been, or will be approved by the Capitol Commission. We believe that when the contract for all plastering is let, the amount of this deduction can very readily be determined.

BIDS ACCEPTED UNLAWFULLY

The acceptance of the J. W. Darragh bid for plumbing without a bond covering the work at the time he commenced work, was not in strict accordance with the law. However, the fact that a certified check of \$3,720.00 was deposited by him in good faith; that no payments were made to Mr. Darragh before a bond was filed; that Mr. Darragh has filed an acceptable bond at this time and that there has been no loss to the State, entirely off-sets any technical failure to comply with the law.

HIRING OF AARON T. JAHR BEYOND THE POWERS OF THE BOARD

Mr. Jahr was born and raised in Traill County, North Dakota. Prior to the declaration of war on the part of the United States, he enlisted in the Canadian Army and served during the war. He returned to the United States after the close of the war; completed a law course at the University of North Dakota; passed the bar examinations in 1924, but was not admitted to the bar because of the technicality that he might not have been a citizen of the United States at the time. Because of this technicality perhaps, he was not qualified to hold a position as Legal Advisor as contemplated in the law. There are, however, many circumstances that more than off-set the criticism made by the majority. From the records and testimony, it would appear that Mr. Bangs, in order to keep in constant touch with the project, has kept a duplicate set of records at Grand Forks; that the contracts, insurance and bond forms were prepared in his office, together with a large amount of detailed correspondence. The arrangement made by the Board in employing Aaron T. Jahr, saved the State a large sum of money and the services of a man of Mr. Bangs' legal training and qualifications could not have been secured for anything approximating the salary paid Aaron T. Jahr, even if it is granted that he merely acted as a clerk for Mr. Bangs in the handling of the large amount of details that the work involved. There is no question in our judgment, but that the State received many times in value the cost of the Grand Forks office and we do not believe that when all the facts surrounding this arrangement are considered, that there can be any just or reasonable criticism made.

ISSUANCE OF ANTICIPATION CERTIFICATES UNNECESSARY AND CONTRARY TO THE STATUTE

The amount of money in the Capitol Building Fund was substantially as stated in the majority report. However, in order to take advantage of Option No. 2, under the contract (also known as Budget B), the Capitol Commission exercised a precaution that was wholly warranted and justifiable under the conditions which confronted it. In the fall of 1932, it would have been unwise and imprudent, as well as impossible for the Commission to have entered into a binding contract for the completion of Budget B without selling the anticipation warrants and having the funds on hand for the completion of budget. (For further comment, see Sub-division 16, of part 2 of this report.)

FAILURE OF BOARD TO PERMIT CONTRACTOR TO FURNISH OWN BOND; LOSS TO THE STATE

The Lundoff-Bicknell Company's base bid was \$1,575,000.00 and as a part of that bid, premiums on the Contractor's Surety Bond at one and one-half percent was included. This amounts to \$23,625.00 by the acceptance of alternates and allowances, the total bid was reduced to \$1,403,775.00 and

one and one-half percent on such figure for the premiums on bonds, is \$21,056.62, which was paid by the general contract. Why the premiums on the Surety Bonds shall remain constant when the basis for arriving at the amount of such premium is reduced, the report of the majority does not explain. The contention does not appear plausible, nor apparently in conformity with general practice. The Contractor's fee of three and one-half percent is however figured on the premium of \$21,056.62 and is objectionable for that reason, but this item may be subject to ultimate adjustment.

The minority does not agree with the contention that bonds should have been bought on a competitive bidding basis. One and one-half percent premium is the usual fee for a bond of this kind if written by a Company that can be relied upon to carry out the provisions of its contracts; also no reputable Surety Company ever makes a practice of reducing its premium costs on a competitive bidding basis as contemplated in the majority report.

NORTH DAKOTA LABOR NOT ON THE JOB

This is a misstatement of facts as shown both by the Minutes of the Board and the testimony given at the hearing by Mr. J. M. Davis, Superintendent for Lundoff-Bicknell Company and by Exhibit "145" offered in evidence at that time. The Minutes also afford ample evidence that labor has not been dissatisfied with the General Contractor's or the Board's attitude toward North Dakota labor, whether that labor is skilled or unskilled, and further the testimony and records of the Contractors show that the General Contractor had at the time of the hearing, eighty employees on their active payroll who are residents of North Dakota, instead of two as stated in the majority report. Evidently the majority report had reference to such employees as are included under sub-division of "Overhead Employees," who are thirteen in number, but even this classification shows that there are four North Dakota residents instead of two.

PREMATURE PAYMENT FOR MATERIALS

The records of the Board disclose that payments have been made for work done to the extent of ninety percent thereof; that material has been paid for on the same basis, although part of that material may not have been delivered upon the actual grounds for good and sufficient reasons in the opinion of the minority as heretofore set forth. The Minutes of the Board state that a resolution was passed authorizing the payment for materials when delivered in Bismarck, for example, steel unloaded in the railroad yards has been paid for on the basis provided for by law and by the contract, such material having been hauled onto the premises whenever needed for installation or assembling into the building. By such method, the cost of one loading and unloading has been saved and such saving is also a saving to the State. Furthermore, by following this method of payment for materials, delivered in the City of Bismarck, al-

though not actually on the immediate premises of the Capitol, advantage has been taken of cash discounts amounting to about \$1,000 at the present time.

We take the view that the State is paying for the material under the conditions of the contract and as provided for by law and whatever savings result from this method of payment, will be reflected in the total cost of the Capitol.

NO NORTH DAKOTA MATERIALS

According to Chapter 205, Session Laws of 1931, the Board shall use materials in the construction of the building which it deems best. Another provision of the law provides that North Dakota materials shall receive a preference of 5% over and above the lowest bid on similar materials from without the State. We believe that the Board used good judgment in selecting stone for the exterior facing of the building, although the selection of stone instead of brick for the exterior is wholly a matter of judgment. On the other hand there is no evidence to indicate that had pressed brick be used for exterior facing, that a North Dakota brick manufacturer would or could have supplied the material at a price lower with the five per cent preferential added as provided for by law, than the same material could have been delivered on the premises from without the State. To date no Contract has been let for common brick, and North Dakota brick manufacturers will have an opportunity to supply this material if the price quoted will be within the provisions of the law. In the aggregate such common brick will amount to many times the total amount of facing brick that could have been used for exterior facing purposes and the budgeted cost of such common brick exceeds the total budgeted cost of facing brick considerably. Total number of common brick required 1,545,000, total of pressed brick required if same had been used for facing purposes, 548,000.

WORK ON BUILDING COMMENCED AT INOPPORTUNE TIME

The minority is not in agreement with the majority as to the statements made under this sub-section. The fact that either the beginning of the construction would have to take place during the cold weather or the latter part of the construction would be in cold weather is more or less immaterial. If construction had begun in the spring, there would have been a large amount of expense incurred for heating the interior of the building in the fall and winter. The work as conducted under the present plan did not necessitate heating more than one or two floors at a time when concrete was poured, while under the other plan, the entire interior of the building would have to be heated. Further by following the present plan the entire Administration section will be ready for occupancy by the fall of 1933. We are convinced that the statement made by the majority has no weight for the reasons here set forth.

MANY JUNKETING TRIPS TAKEN: EXPENSE OF CAPITOL COMMISSIONERS HEAVY

The \$5,000 heretofore expended by the Capitol Commissioners in traveling and other expenses has not been wasted money. In order to gain information as to buildings of similar nature which have been built elsewhere, and to contact people who have had charge of construction of such buildings as well as to contact owners thereof, expenses of this nature must necessarily be made. It is true that contractors and architects could have come to Bismarck and furnished to some extent the information that was desired but the Capitol Commission would not have had any first-hand knowledge of the task which lay before them; we believe that the information that has been gained and the saving in time by interviewing the architects and others connected with the building trade in the large centers of population were not only a necessary but also a wise procedure. (See Part 2 of this report.)

CARELESS SYSTEM OF ALLOWING EXPENSES

Reference is here made to the Attorney General's opinion under date of June 2, 1931, as to the auditing and payment of expenses by the members of the Board. Said opinion states that the vouchers of the Capitol Commission were not subject to an audit by the Board of Auditors. The minority does not agree, and its contention is supported by the vouchers of the Board and the detailed expense items as published by it as well as the testimony brought out at the hearing, that Commissioner Fraser did not profit personally by the expense payments made to him by the Board. The record fully discloses that the alleged irregularities on the part of Mr. Fraser were not found within the Capitol Commission but in other departments of state government.

CAPITOL COMMISSION ON WHEELS: ORGANIZATION CUMBERSOME

Chapter 205 Session Laws of 1931 provide that the Commissioners should be appointed from two or more congressional districts. As a result of this provision the Commissioners were geographically distributed. We cannot see how the Commission or Commissioners can be blamed when the law specifically requires that they be appointed from different sections of the State. Naturally the Chairman of the Board, in order to keep in touch with the progress of the work, would have to have records in his office at Grand Forks. Many of these records, however, were duplicates of records that were in the office of the Secretary at Bismarck. On the other hand we believe that the unnecessary objections, on the part of one of the architects, who resides at Grand Forks, have resulted in more delays and made the workings of the Board more cumbersome than the fact that two of the Commissioners resided away from Bismarck.

FAILURES TO PUBLISH FINANCIAL STATEMENT

It is true the financial report for the year of 1931 was not published as provided for by law in January of 1932. The entire detailed financial report for 1931 and 1932 was published in January 1933. Most of the expenditures revealed by such report were made in 1932. No harm came to the State for the failure to publish this 1931 report and by publishing the combined reports in January 1933 in four newspapers of the State, wide publicity was given thereto. We do not consider this a serious inconsistency or a serious violation of the law.

EXORBITANT EXPENSE ACCOUNTS: PADDED EXPENSE ACCOUNTS

The expense accounts listed under the above titles in the majority report have not been approved by the Board and in accordance with the terms of the contract entered into with the Lundoff-Bicknell Company they will not be paid until such time as adjustments and settlements are made by the Board with the Contractors. These expense items listed herein were all objected to by the Auditor employed by the Board. Attention is called to a certain letter dated December 14, 1932, part of which is quoted under part 1 hereof, sub-section 6.

IMPORTANCE OF THE FOREGOING ILLUSTRATIONS

We attach no importance to the statement herein contained nor do we gather from the contract entered into with the general Contractor that the Board depends upon him solely for the "correctness of materials bought and charges paid in connection with the construction of the capitol building." The contract with the architects also gives an entirely different interpretation on this subject.

CORNERSTONE LAYING PREMATURE

It is customary in the erection of public buildings to arrange for the laying of a cornerstone. The necessary arrangements for the ceremony attending such cornerstone laying must be quite some time in advance of the actual date set therefore. It is a simple matter to criticise in the light of events that have taken place subsequent to a given event of the past but there is no evidence supporting the contention that arrangements were not made in good faith and that those in charge of the cornerstone laying had no reason to believe that the foundation would have been so far advanced in its construction that the cornerstone could have been placed in its proper place. The progress sheet submitted at the time of signing the contract or shortly thereafter, indicated that the work would have been sufficiently advanced by October 8th to permit the laying of the cornerstone in its proper place. The fact that it was not so placed is in our opinion nevertheless immaterial. It is the ceremony that took place, the historical event that is material and it is that which will be commemorated in the future. Cornerstones have been laid similarly to the one at the Capitol, and no doubt there have

been instances in the memory of those who read this report, where a cornerstone has been inserted after the walls of the building have been far advanced. If it is wrong to set the cornerstone on a temporary foundation, wouldn't it be just as wrong to set it in the niche of the wall when the walls are nearly completed? Further, a cornerstone laying would necessarily have to take place in fair weather, a fact which it is reasonable to suppose entered into the plans of those in charge.

PREMATURE PAYMENT TO ARCHITECTS

What is important in our estimation, is that the architects bond has been furnished and has been filed with the State Auditor. The State has not suffered any loss because of the failure to furnish the bond as promptly as the law contemplated. Proportionally speaking the payments made before the bond was filed were not material.

COURTING INVESTIGATION

The public hearing has developed the one side of this story as to Mr. DeRemer's connection with certain letters alleged to have been left with him by Mr. Bangs. The fact that Mr. Bangs was not permitted to go on the stand to offer his version regarding these letters, leaves the story incomplete.

CLOSE RELATIONSHIP BETWEEN ARCHITECTS, BUILDERS AND COMMISSION

There is absolutely no foundation for the inference or the statement that a close relationship exists between the architects and the builders and the Commission which are inimical to the best interest of the State.

FAILURE TO APPOINT SUPERINTENDENT

Section 8 of Chapter 205 of the Session Laws of North Dakota for 1931 provides that "The Board may appoint a specially qualified person to act as Superintendent of the Construction of said Capitol Building" as elsewhere set forth in this report. We believe that the interests of the State are amply protected without the employment of such a superintendent and we disagree with the contention of the majority that this is a mandatory provision; the wording of Section 8 makes the appointment of such superintendent purely optional on the part of the commission.

DISBURSEMENTS CONTRARY TO STATUTE

The Auditor employed by the Board as well as the members of the Board have every opportunity eventually to scrutinize the vouchers submitted to it. Under the provisions of the contract furthermore, any erroneous payments made can be deducted from subsequent requisitions whenever discovered. (Reference to General Contract, Article 6, Architects Certificate, last paragraph.) "It is understood that the total payments hereunder shall in no case exceed 90% of the guaranteed maximum cost as modified from time to time, as herein provided. If, at any time, the owner shall

discover any error in a prior statement of payments, adjustments for same shall be made in any Architects Certificate subsequently issued." The Capitol Commission, we believe, has adopted a practical method and fully in accordance with the spirit of the law and the contract entered into. For further comments see above.

COMMISSION AFFORDED EVERY OPPORTUNITY TO
FURNISH INFORMATION AND TO DISPROVE
ANY EVIDENCE WHICH THEY CLAIMED UN-
TRUE OR MISLEADING

These statements are commented upon under part one of this report. Reference is made to the rules adopted by the committee and also to the Minutes, particularly the Minutes of the 17th to 21st meeting inclusive.

WHAT DOES THE STATE PAY

The various items herein enumerated are as provided in the General Contract with the exception of Architects fees and Architects expenses and with these exceptions noted, are included in the maximum cost of the contract.

THE STATE HAS NOT PAID THE FULL AMOUNT OF
THE CONTRACT PRICE FOR STEEL

The testimony at the hearing under date of February 6th, pages "38, 39 and 42" and the copy of REQUISITION number 10 which is the one representing final payment of 90% of the cost of steel conclusively proves that the statement in the majority report, that the state has paid for the steel in full, is an error. A copy of Requisition No. 10 is as follows:

Bismarck, No. Dak.

THE LUNDOFF-BICKNELL CO.
By J. M. Davis. (Signed)

The item of structural steel which the Majority reporter has reference to is indicated thus (*) and the 10% of the requisition retained or deducted is double starred thus (**). In the latter item is included part of the requisition for structural steel which is retained. These facts as above set forth were admitted at the hearing on February 6th by counsel for the Committee, (page 42 of the transcript), and are in direct conflict with the statement in the majority report in the first lines of a Paragraph in said report entitled "State Financing Job."

CAPACITY OF BUILDING IS NOT IN EXCESS OF STATE NEEDS

The Board has made a thorough and intensive investigation of the requirements of space necessary for the departments of the State government, which will be located in the new capitol building. Such investigation was made over a period of 5 months and in collaboration with men of years of experience in the matters of this kind. Each department is properly provided for as evidenced by signed statements by the heads of such departments on file with the Board of State Capitol Commissioners. The entire floor space of the new Capitol Building is 1-7/10 the entire floor space of the old Capitol building. In fact under present arrangements there is not room for an additional department of the size of the present Regulatory Department, which is now housed in the Bank of North Dakota building. Further, the above facts are available to anyone who wishes to merely examine the floor plans of the new Capitol, on each one of which appears the signatures of the department heads of State government, who signified in writing their approval of space allotted to them.

RECOMMENDATIONS

BY THE MINORITY OF THE COMMITTEE

1. The minority is thoroughly convinced as a result of its findings that the present Board of Capitol Commissioners should be retained until the construction of the Capitol is completed and it recommends that the Governor of North

Dakota appoint an outstanding citizen of the State of North Dakota, such as, in his judgment is best qualified to serve as a member of said Board of State Capitol Commissioners, to fill the vacancy resulting from the resignation of G. A. Fraser.

2. As the work of the construction of the Capitol progresses, the volume of accounts and expenses incidental thereof will materially increase. For that reason we would recommend that some time in the near future when conditions warrant it, a full time auditor be employed by the Board, for the purpose of expediting of all bills and accounts for materials and labor and other expenses as the same are received or incurred, thus tending to avoid congestion in the office of the Board at the time when Requisitions and Architects' Certificates are received.

3. Whereas no funds are at present available for the completion of Budget "C" of the Capitol Building; and whereas prices of materials that enter into such construction are abnormally low at the present time; and whereas there is a demand for employment on the part of all classes of labor which in the more or less immediate future, it appears will not be alleviated; and whereas in view of the fact that the additionally cost that eventually would be incurred will undoubtedly be increased materially if the present Contractor does not complete Budget "C" while he has his equipment and organization personnel on the premises. We recommend that some suitable arrangement for the remaining funds be made available for the completion of Budget "C" by the present General Contractors, in accordance with the terms of the contract heretofore entered into.

The above report is, Respectfully submitted,

Senator C. Norman Brunsdale,
Representative J. D. Holthusen.

Mr. Twichell moved that the House do now adjourn, to reconvene on the next legislative day in five minutes.

Which motion prevailed.

JAMES P. CURRAN,
Chief Clerk.

Also,

House Bill No. 163. A Bill for an Act to Amend and Re-

WEDNESDAY, MARCH 1, 1933

1587

enact Subdivision 41 of Section 7936, Compiled Laws of 1913,
Relating to Denominational Presumptions.

Very truly yours,

WILLIAM LANGER,
Governor.

The Chief Clerk announced that the Speaker was about to sign:

Senate Bill No. 111. A Bill for an Act to repeal Section 10185B of the Supplement to the 1913 Compiled Laws of North Dakota relating to prohibiting smoking in specified places, and the penalties.

Also,

Senate Bill No. 113. A Bill for an Act suspending and deferring the construction, building and improvement of all highways and highway projects in this state, except for necessary maintenance and repair and the completion of projects already begun and partially completed.

Also,

Senate Bill No. 127. A Bill for an Act to amend and re-enact Subdivision 8, of Section 7, of Chapter 94, of the Session Laws of 1931, relating to Building and Loan Associations of the State of North Dakota.

Also,

Senate Bill No. 128. A Bill for an Act to amend and re-enact Section 19, of Chapter 94, of the Session Laws of 1931, relating to Building and Loan Associations of the State of North Dakota.

And the Speaker signed the same in the presence of the House.

Mr. Swett moved that the House recess for 10 minutes.

Which motion prevailed.

The House re-convened, pursuant to recess taken, Speaker Craig presiding.

GENERAL ORDERS

Mr. Svingen moved that the House resolve itself into a Committee of the Whole for the consideration of General Orders; which motion prevailed, and the House resolved itself into a Committee of the Whole.

The Speaker called Mr. Svingen to the chair.

When the committee arose it submitted the following report:

Madam Speaker: The Committee of the Whole have had under consideration

Senate Concurrent Resolution No. S. Providing that an Amendment to Article 63 of the Constitution of the State of North Dakota be agreed to and submitted to the qualified voters of the state for approval or rejection.

And recommend the same be amended as follows:

Strike out all of the body of the proposed Constitutional Amendment, as the same came from the Senate and insert in lieu thereof the following:

"Every bill shall be read two separate times, but the first and second readings shall not be upon the same day; and the first reading may be by title of the bill only, unless upon such first reading, a reading at length is demanded. The third reading shall be at length. No legislative day shall be shorter than the natural day."

And when so amended recommend that the same do pass.

Also,

Senate Bill No. 143. A Bill for an Act to amend and re-enact Sections 189B3 and 189B17, of the Supplement to the 1913 Compiled Laws of North Dakota, and to amend and re-enact Sections 189B5, 189B7, 189B8, 189B9, 189B10, 189B11, 819B13, 189B15, 189B20, 189B21, 189B22, 189B25, 189B29 and 189B30 of the 1925 Supplement to the 1913 Compiled Laws of North Dakota, as amended by Sections 1, 2, 3, 4, 6, 9, 11, 12, 13, 14, 15, 17, 18 and 19, respectively by the 1931 Session Laws of the State of North Dakota; and to repeal Sections 5, 7 and 8 of Chapter 170 of the Session Laws of North Dakota for 1931, and all other Acts and parts of Acts in conflict herewith; relating to State Hail Insurance, providing for collection of hail indemnity insurance, and giving notice of priority of hail indemnity tax liens; providing for writing hail protection, defining duty of assessors; providing for collection of taxes, fixing amount, and providing for adjustment of claims of indemnity; and abatement of hail indemnity tax and correction of records, and declaring an emergency.

And recommend that the Senate amendments to page 14, line 42, of the printed bill be stricken out.

And the further amendments:

Strike out the last line of the standing committee's amendments as printed on page 6 of the Journal of Feb. 27.

Strike out the balance of the standing committee's amendments as printed on page 6 of the Journal of Feb. 27.

And when so amended recommend that the same do pass.

Also,

Senate Bill No. 130. A Bill for an Act to amend and re-enact Section 10251 Compiled Laws of North Dakota for the year 1913 relating to unlawful obligations in writing and declaring an emergency.

And recommend that the same be amended as follows:

Strike out everything after the words "A BILL" and insert the following:

"For an Act to amend and re-enact Section 10251, Supplement to the Compiled Laws of 1913.

**BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF
THE STATE OF NORTH DAKOTA:**

Section 1. AMENDMENT.) That Section 10251, Supplement to the Compiled Laws of 1913 be amended and re-enacted to read as follows:

Section 10251. UNLAWFUL OBLIGATIONS IN WRITING.) Every person who takes any obligation in writing for any lightning rod, or any of its attachments, or for any patent right or claimed to be a patent right, or for which any stallion or jackass shall form the whole or any part of the consideration, or for any patent medicine, or for which the whole or any part of the consideration shall be the future cure of any disease or ailment, or for (which) the sale of the capital stock of foreign corporations shall form the whole or any part of the consideration, shall, before it is signed by the maker, stamp or write in red ink across the face of such written obligation in plain, legible writing, or print the words "given for a lightning rod", or "given for a patent right", or "given for a stallion", or "given for a jackass", or "given for patent medicine", or "given for the cure of disease", or "given for the sale of capital stock of foreign corporations", as the case may require provided this act shall not apply to the sale of capital stock of cooperative corporations. Such obligations so stamped shall be subject to defenses in the hands of every holder or owner thereof. Any person who shall violate the provisions of this section is guilty of a misdemeanor, and upon conviction thereof is punishable by fine not less than two hundred and fifty dollars and not exceeding one thousand dollars, or by imprisonment in the county jail not more than one year, or by both such fine and imprisonment, and shall be liable in a civil action to the party injured for all damages sustained by him. The House convened at 2:00 o'clock p. m., pursuant to adjournment taken, Speaker Craig presiding.

Prayer by the Chaplain, Rev. Ellis L. Jackson.

Roll Call: All members present except Representatives Jensen and Scholl.

The Committee on Revision and Correction of the Journal made the following report:

Madam Speaker: Your Committee on Revision and Correction of the Journal have carefully examined the Journal

of the Fifty-seventh Day After Recess and Fifty-eighth Day and recommend that the same be corrected as follows:

Page 26, change roll call to show Piper voting no.

Page 28, lines 3 and 4, strike out "and the motion to reconsider be laid on the table".

Page 42, line 26, strike out "without recommendation".

Page 44, line 1, strike out everything after "amended" and insert "recommend the same do pass".

Page 8, line 4, strike out the figure "3" and insert the figure "2".

Correct the Journal of February 28, on page 110, line 35, by striking out "passed and the title was agreed to" to read "was declared lost". Line 37, strike out "passed" and insert "lost".

And when so corrected recommend that the same be approved.

EDW. SAVRE,
Chairman.

Mr. Young moved that the report be adopted, which motion prevailed and the report was adopted.

March 2, 1933.

Mr. President: I have the honor to inform you that the House has concurred in the Senate amendment to House Bill No. 52, also House Bill No. 89, also House Bill No. 289.

Also inform you that the Speaker has appointed as a conference committee on House Bill No. 297 Representatives Lavik, Crockett and Holte.

Also, the Speaker has appointed as a conference committee on House Bill No. 207, Representatives Anderson of Logan, Lynch and Espeland.

Also, the Speaker has appointed as a conference committee on House Bill No. 93, Representatives Peterson of Mountrail, Brunsdale and Jodock.

Very respectfully,

JAMES P. CURRAN,
Chief Clerk.

SEVENTH ORDER OF BUSINESS

Mr. Swett moved that the courtesies of the floor be extended to Capt. Morris Rosenzweig of St. Paul, Minn.

Which motion prevailed.

GENERAL ORDERS

Mr. Traynor moved that the House resolve itself into a Committee of the Whole for the consideration of general orders; which motion prevailed, and the House resolved itself into a Committee of the Whole.

The Speaker called Mr. Traynor to the chair.

When the committee arose it submitted the following report:

Madam Speaker: Your Committee of the Whole have had under consideration:

Senate Bill No. 307. A Bill for an Act making an appropriation for the inspection and eradication of bee diseases, under the provisions of Chapter 140, Session Laws of 1923, the same being Sections 2790A1-2790A18 of the Supplement to the 1913 Compiled Laws of North Dakota.

And recommend the adoption of the standing committee's amendments as follows:

In line 3 of the engrossed bill, strike out the figures "\$1,500.00" and insert in lieu thereof the figures "\$1,000.00."

And when so amended recommend that the same do pass.

Also,

Senate Bill No. 214. A Bill for an Act amending and re-enacting Section 811 of the Supplement to the Compiled Laws of North Dakota for 1913, to provide the manner and the items upon which the Clerk of the Supreme Court shall in his ex officio capacity as Treasurer of the State Bar Board disburse the amount paid by members of the Bar of said state as annual license fees, and declaring an emergency.

And recommend that the same be amended as follows:

After the words "A BILL" strike out the title and the enacting clause and lines 1, 2 and 3 of page 1 of the printed bill, and insert in lieu thereof the following:

"FOR AN ACT to amend and re-enact Section 811 of the Supplement to the 1913 Compiled Laws relating to Admission to the Bar, Requiring and Fixing an Annual License Fee, and Authorizing the Disbursement of the Same.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF THE STATE OF NORTH DAKOTA:

"Section 1. AMENDMENT.) That Section 811 of the Supplement to the 1913 Compiled Laws be amended and re-enacted to read as follows:

"Section 811. WHO MAY PRACTICE. LICENSE FEE. APPROPRIATION.) No person shall be entitled to practice law or act as attorney or counsellor at law in this State unless such person shall first secure a certificate of admission to the bar. Such certificate shall be issued upon payment of the fee provided therefor and, in addition thereto, the further payment of the annual license fee, the amount of which shall be determined as follows: Whenever at the end of any fiscal year there shall be an unexpended balance in the State Bar Fund, according to the books of the State Auditor, of two thousand dollars (\$2,000.00) or more, the annual license fee for the calendar year beginning on the first day of January following the end of such fiscal year shall be five dollars (\$5.00). If at the end of any fiscal year the balance in the State Bar Fund shall be under two thousand dollars, the annual license fee for the succeeding calendar year beginning January 1st shall be ten dollars (\$10.00).

And when so amended recommend that the same do pass.

Also,

Senate Concurrent Resolution No. O. A Concurrent Resolution for an amendment to Section 7 of Article 1 of the Constitution of the State of North Dakota providing for trial by jury.

And recommend the adoption of the Standing Committee's amendments as follows:

EXPLANATION OF VOTES

Mr. Endres: Madam Speaker, Senate Bill No. 221 is a very good Bill, especially for Sioux County. It provides for consolidation of counties and parts thereof. Freeholders can petition the County Commission for permission to have their county consolidated with and annexed to any adjoining or partly adjoining County. I vote "aye".

Mr. Falconer: Madam Speaker, I want to change my vote from "aye" to "no". I think this is a measure that is going to open up a lot of controversy over county seats and we will find a lot of townships that will be shifting from one county to another. It is going to stir up a lot of strife and bitter feeling between the people of the different sections and therefore I vote "no".

Senate Bill No. 249. A Bill for an Act to exempt grain warehousemen from suit for conversion of grain bought unless the instrument creating said interests or liens is on file or of record, or written notice of the existence thereof is given to the warehousemen.

Was read the third time.

So the bill was declared lost.

A special message from Governor Langer addressed to the members of the legislative assembly was received.

Mr. Flannigan moved that the Governor's Message be printed in the Journal.

Which motion prevailed.

March 3, 1933.

To the Twenty-third Legislative Assembly,
Members of the House and Senate:

The present administration and Legislature were elected after a campaign in which definite promises and pledges were made to the people of this State. These promises and pledges must be kept. Faith must not be broken.

Almost all the pledges in respect to legislation have now been fulfilled by your honorable body. However, on this, the last day of the session, the assembly finds itself without the necessary legislation to safeguard the State's financial integrity. This, too, in face of closed schools, failing ad valorem taxes and weakened citizen morale.

It is most imperative that tax legislation be passed which will produce real money to meet every State obligation.

Bills have been introduced which if prudently considered would have taken care of this serious situation, but unfortunately, even yesterday the Legislature has refused to ratify measures which would have thoroughly taken care of the necessities.

There is yet time to recall this essential tax legislation and pass it to your credit and lasting benefit to your State.

Should you fail in your duty in this respect, it will be necessary for me to call you in special session so that the task, now not yet accomplished, may be completed.

The cost of a special session would be ample for the school needs of many children and the responsibility for such disregard of our children will not easily be excused by the people of our State, and that responsibility is yours.

I realize that this is a time of extraordinary stress and you are beset with many personal anxieties but these tribulations must not blind you to your duties.

There is a Bill now before you, namely, Senate Bill No. 271, which will in a measure help to provide public funds. Also I recommend that you recall the indefinitely postponed sales tax bill and pass it with rates adequate to take care of the deficiencies that are bound to accrue in real estate bond interest and sinking funds, in which the State's financial integrity is so intimately involved.

I refer to Senate Bill No. 315, which is an emergency replacement measures limited to operation to two years and while it meets with some opposition in this period of stringency it is the only means available to accomplish your purpose.

The present is no time for political differences, no time for personal animosities. Our schools must continue to ring with the voices of our children. The financial structure must

be maintained. North Dakota bonds must soar from 76 to par. I leave these matters in your hands.

Yours sincerely,

WILLIAM LANGER,
Governor.

The Speaker announced that a Committee from the Farmers' State Relief Conference had requested an audience at 2:00 o'clock p. m., for the purpose of presenting certain demands.

Mr. Flannigan moved that the House receive the delegation and accord them 30 minutes time and that it be made a Special Order of Business for 2:00 o'clock p. m.

Which motion prevailed.

NORTH DAKOTA FARMERS RELIEF CONFERENCE

PREAMBLE TO DEMANDS

We farmer delegates of North Dakota have united upon a program of action for which we declare ourselves ready to fight to the last ditch. The North Dakota Farmers Conference which draws up this program has deliberately excluded business men, politicians, and salaried farm "leaders" who have different interests to serve than those of dirt farmers. Just as deliberately we have called for advice from accredited representatives of city unemployed workers, white and colored, because we realize that they are fighting the same forces which are attempting to crush us. We declare ourselves ready to unite our strength with farmers and city workers of the whole country.

Knowing that our power lies in united mass action, we are determined to smash all prejudices which may be used to divide us. We have rubbed out county and state lines. To us no farmer though he come from across the continent is called an "outsider". On the contrary we want real farmer speakers and organizers to keep moving across the country carrying the message of united mass action.

When the agents of the business men and the bankers try to raise the "red scare" by attacking our program as "radical", we know that they are really trying to divide our ranks. We don't care what our program is called so long as our case is just and it fills our basic needs. We are a united front of rank and file farmers of all political parties and all farm organizations, and we will call on all farmers everywhere to unite with us to win better living conditions for our families.

We the farmers of North Dakota are faced with distress, cold, and starvation as our reward for producing a great portion of the nation's spring wheat and other crops. We resent this unnecessary suffering in the midst of plenty. We declare ourselves disgusted and in revolt against the bankers and other business men whose mad scramble for profits has brought on this ruin. We the farmers believe the city workers will unite with us in forcing drastic changes in our economic system which has always held farmers and workers alike in a condition of poverty. We believe that our labor in producing food entitles us to a high standard of living. These demands are just a beginning, they only cover our most pressing immediate needs. But we will not rest until we have won not only relief, and full security of our homes and property, but also our rightful share of the great wealth of this country.

In this emergency we expect the legislature of North Dakota to sweep aside all obstacles and take action on these demands. If necessary a special session must be called at once. If the legislature fails, we must take action ourselves to protect the homes and lives of all farmers and workers.

PROGRAM OF THE NORTH DAKOTA FARMERS RELIEF CONFERENCE

Bismarck, North Dakota
March 1-2-3, 1933

WE FARMERS are making three basic demands:

1. We demand speedy relief from the present distress.
2. We demand security in the possession of our farm, stock, machinery, and household goods.
3. We demand a rise in our standards of living by a fair participation in the national wealth.

Grouped under these three heads, our demands follow:

1. RELIEF

1. Cash Relief: Today on thousands of North Dakota farms there is no cash with which to buy clothes or fuel, or repair drafty, leaky houses. Whole families are badly clothed and badly fed and when these conditions bring on sickness there is no money for medicine or dental care. Cash Relief must immediately be appropriated to cover the needs of all such families during the period between now and when the legislature convenes again.

2. Relief in Kind: Much of the relief required by both farmers and city unemployed is food products and supplies. These should be bought directly from the farmers at a price above the cost of production. The processing and transportation of these food products and other relief supplies should be handled so as to prevent profits to the food monopolies and transportation companies during the period of the economic crisis.
3. Administration of Relief for Farmers: We demand that the determination of how much relief is needed by each family, and the administration of that relief be placed in the hands of local committees of rank and file farmers and workers who need relief and who have no political or business interests to serve. These committees must be selected by a mass meeting of all the farmers and workers.
4. Source of Relief Funds: In answer to the statements made by professional relief organizations that it is impossible to raise a large amount necessary for relief, we demand that amongst others the following sources of funds be tapped:
 - (a) Heavy tax on high incomes, industries and corporations.
 - (b) Reconstruction Finance Corporation.
 - (c) Diversion of funds appropriated for the County Agent and Agricultural Extension Department to relief.

II. SECURITY

1. No Evictions: Because of this national crisis, the legislature must declare all foreclosures, seizure of property and evictions illegal until March 1, 1935, as affecting farmers and workers.
2. Debt Holiday: Cancellation of all back farm taxes, feed and seed loans, and delinquent interest on notes and mortgages. A moratorium until March 1, 1935, on delinquent farm taxes, mortgage payments, interest and rents for all farmers living on and operating such farms.
3. No deficiency Judgments: We demand the unconditional repeal of the deficiency judgment law, covering all cases dating back to July 1, 1929.
4. Voting Rights: Cancellation or moratorium of taxes or debts shall not be used as a basis for limiting any citizen's voting rights.

III. RISE IN STANDARD OF LIVING

1. Abolition of the state militia, the funds for its support to be transferred to public schools.

2. Recognizing that when farmers sell their crops, and when city consumers buy food supplies, that both are robbed there should be formed a price-regulating body of actual consumers and farmers whose duty it shall be to reduce prices to consumers and raise prices for all farm products sold.
3. (a) The defeat of any legislation attempting to raise farm prices by putting an increased load on the consumer, leaving middlemen their usual swollen profits.
- (b) The defeat of any legislation which attempts to curtail the production of food on the theory that there is a "surplus." We declare that with 15,000,000 unemployed city workers and their families, many of whom are suffering hunger, and with serious undernourishment in many farming sections, any talk of a "surplus" of food is a heinous crime.
- (c) We go on record against the various forms of the Domestic Allotment Plan because they propose both to load the burden on the consumer without touching the middlemen, and also because they propose to cut production sharply.
4. Enactment of legislation supplying production credit to all farmers so as to insure a basis for national consumption at normal levels. This credit must not be restricted to those farmers who still have collateral. It should be administered by local committees of rank and file farmers.
5. We demand that all elementary and secondary schools be kept open.

RESOLUTIONS

1. BE IT RESOLVED that this Conference go on record as supporting the demands of workers and farmers for immediate cash relief, medical, dental and hospital care, old-age and disabled pensions and social insurance.
2. BE IT RESOLVED, that this Conference go on record in favor of any and all measures that will loosen the grip of the power trust and give power rights without restriction to the people of the State.
3. WHEREAS, at a time when the farmers in the United States are suffering from starvation and misery, the United States government is expending millions on war preparations. And whereas munitions are being sent from the United States to Japan and to the warring countries of South America, which countries have been instigated by British and American imperialists in their rivalry for world supremacy. And whereas in the Far East, American Imperialism is trying to seize territory, resources and markets at the expense of other imperialist powers,

BE IT RESOLVED, that the Farmers' Relief Conference go on record as absolutely opposed to all imperialistic wars and therefore, we demand that all military forces of our Government be immediately removed from any foreign land, and also we demand the immediate transferring of all war funds to relief and educational purposes.

4. BE IT RESOLVED, that we demand a law to be passed to the effect that those who advocate imperialistic war must serve actively on the front. Those people who are opposed or have no desire to participate in any imperialistic war be exempted from active service.
5. BE IT RESOLVED that we the Farmers and Workers of North Dakota assembled at the North Dakota State Relief Conference hereby declare our solidarity with the workers and farmers of the world regardless of race, color, or creed in their struggle for economic freedom from their common enemy, the Capitalist Class and especially with the masses of China and Germany at the present time.
6. BE IT RESOLVED that we the delegates to North Dakota State Relief Conference vigorously oppose the imprisonment and persecution of Tom Mooney, the Scottsboro boys and other political prisoners. And demand their immediate unconditional release.
7. BE IT RESOLVED that this Conference demands that our Government immediately recognize the Soviet Union.
8. WE DEMAND the repeal of all Vagrancy Laws now on the Statute Books of the State of North Dakota.
9. We, farmers and workers, of North Dakota believe that the soldiers' bonus is very small return for the disruption and risk of life which the soldiers underwent when business men were making war profits. We, therefore, demand the immediate payment of the bonus by the Federal Government.

PLAN OF ACTION

These demands are made to meet the emergency with which we are now faced. We are not willing to permit a condition to go on for long in which we are continually forced to fight for relief, while everything we need surrounds us in the greatest abundance. Yet as we face the future, we see no basis for expecting an improvement so long as the profit system goes on. There is no reason for expecting that the foreign markets which have been lost will be regained. There is no outlook for the reemployment of the 15,000,000 workers who now have no income. Therefore we are not urging plans for issuing currency or a dozen other schemes which do not change the cause of our distress.

Permanent relief from these terrible conditions can only come when a farmers and workers government comes into

power which will control all production and distribution for use and not for profit. This will insure that farmers and workers receive their full share of the wealth which they produce. In a democracy all power is rightfully ours. We propose to use it.

EXPLANATION OF VOTE

Mr. Thompson: "Madam Speaker: I vote no on this bill because I know that it is nothing but a bootleggers' bill. There is nothing to hinder them from buying all the booze they want and taking it out to the country dances and selling it. I know we voted for the repeal but we didn't vote for any such bill as this, and I won't vote for a bill to allow the bootleggers twice the chance they have already got. I vote no."

March 3, 1933.

Mr. President: I have the honor to inform you that the House has concurred in the Senate amendment to House Bill No. 93.

Very respectfully,

JAMES P. CURRAN,
Chief Clerk.

Mr. Swett moved that Senate Bill No. 143 be placed at the head of the Calendar.

Which motion prevailed.

Senate Bill No. 143. A Bill for an Act to amend and re-enact Sections 189B3 and 189B17, of the Supplement to the 1913 Compiled Laws of North Dakota, and to amend and re-enact Sections 189B5, 189B7, 189B8, 189B9, 189B10,

189B11, 819B13, 189B15, 189B20, 189B21, 189B22, 189B25, 189B29 and 189B30 of the 1925 Supplement to the 1913 Compiled Laws of North Dakota, as amended by Sections 1, 2, 3, 4, 6, 9, 11, 12, 13, 14, 15, 17, 18 and 19, respectively by the 1931 Session Laws of the State of North Dakota; and to repeal Sections 5, 7 and 8 of Chapter 170 of the Session Laws of North Dakota for 1931, and all other Acts and parts of Acts in conflict herewith; relating to State Hail Insurance, providing for collection of hail indemnity insurance, and giving notice of priority of hail indemnity tax liens; providing for writing hail protection, defining duty of assessors; providing for collection of taxes, fixing amount, and providing for adjustment of claims of indemnity; and abatement of hail indemnity tax and correction of records, and declaring an emergency.

Was read the third time.

Mr. Jones asked unanimous consent to amend Senate Bill No. 143.

Which request was refused.

ROLL CALL

The question being on the final passage of the Bill, the roll was called and there were ayes, 72; nays, 21; absent and not voting, 20.

Those voting in the affirmative were:

Holte	Savre	

So the bill passed and the title was agreed to.

Mr. Owings moved that the vote by which Senate Bill No. 143 was passed be reconsidered and the motion to reconsider be laid on the table.

Which motion prevailed.

Mr. Twete: "Madam Speaker: I am not in accord with Senate Bill No. 143. During the last campaign we told the people in my district that if they elected us that we would change the hail laws so they would have compulsory hail insurance or at least compulsory listing, but being unable in my effort to get through a bill that the people in my district would approve of, I vote aye on this bill so the emergency may carry so that it will go in effect this year, but I want to vote for it for the purpose of getting the emergency in order that it may be in operation this year. So I vote aye."

Mr. Godwin: "Madam Speaker: I vote aye on this bill, not because I think it is a good bill, but because a majority of the farmers on the Committee said that it was a good bill. I personally don't think it is worth a hang."

Mr. Fedje: "Madam Speaker: The delegation from Williams County were instructed for compulsory hail insurance. When we came down here we found that it was impossible for us to put a law like that across. Personally, my colleagues and I feel that this bill will not take care of the farmers of the middle western section of the State, but it is the best we can do at this time and we have decided not to oppose it, so as to have a skeleton of something like the hail insurance law. I vote aye."

MESSAGE TO THE SENATE

Senate Chamber,
Bismarck, North Dakota,
March 3, 1933.

Mr. President: I have the honor to return herewith the following bills:

Senate Bill No. 46. A Bill for an Act making an appropriation for the maintenance of the State Capitol and for improvements, rents, repairs, insurance and upkeep of grounds.

Also,

Senate Bill No. 3. A Bill for an Act to amend and re-enact Section 8100 of the Compiled Laws of North Dakota for the year 1913, relating to the foreclosure of Mortgages, and what Judgments may be entered therein.

Also,

Senate Bill No. 52. A Bill for an Act making an appropriation for the purpose of paying salary, clerkhire, travel and general expenses of the office of Veterans' Service Com-

missioner as prescribed by Chapter 281, Laws of 1927 and Chapter 74, Laws of 1929.

Also,

Senate Bill No. 68. A Bill for an Act making an appropriation for the purpose of defraying the expenses of the maintenance and operation of the Game and Fish Department.

Also,

Senate Bill No. 39. A Bill for an Act making an appropriation to the Board of Auditors for the purpose of carrying out the provisions of Section 369 of the Compiled Laws of the State of North Dakota for the year 1913, as amended and re-enacted by Chapter 226, Laws of 1915, and as amended and re-enacted by the Initiated Law approved November 2nd, 1920, and as provided for in Chapter 143, Laws of 1923, the same being Sections 369 and 369b of the Supplement to the 1913 Compiled Laws of North Dakota.

Also,

Senate Bill No. 314. A Bill for an Act relating to the real estate series bonds of the State of North Dakota; appropriating moneys temporarily from the permanent surplus fund of the State Hail Department for the payment of interest of such bonds as a replacement tax and declaring an emergency.

Also,

Senate Bill No. 51. A Bill for an Act making an appropriation for the purpose of defraying the expenses of the maintenance and operation of the State Seed Department.

Also,

Senate Bill No. 207. A Bill for an Act relating to the administration of insolvent banking institutions; repealing all Acts or parts of Acts in conflict herewith, and declaring an emergency.

Which the House has amended.

Also return:

Senate Bill No. 245. A Bill for an Act authorizing the State Board of Administration to rebuild and enlarge the power plant at the state penitentiary; providing for the extension of the service of such plant and making an appropriation therefor.

Which the House has passed unchanged.

Also return:

Senate Bill No. 258. A Bill for an Act authorizing the organization of non-profit sharing municipal holding associations to erect, operate, equip, and maintain auditoriums upon or in the vicinity of municipal owned property; defining their powers, limitations, and restrictions; defining and limiting the powers and duties of the city council or commission relating thereto; exempting the property, bonds and

other evidence of indebtedness of such associations from taxation and repealing all Acts or parts of Acts in conflict herewith, and making the provisions of this Act applicable to incorporated villages and townships, and declaring an emergency.

Which the House has indefinitely postponed.

Also transmit:

Joint Resolution No. 6.

Which the House has passed and your favorable consideration is respectfully requested.

Very respectfully,

JAMES P. CURRAN,
Chief Clerk.

THIRD READING OF SENATE BILLS

Senate Bill No. 131. A Bill for an Act to provide and impose a gross tax on the gross operating receipts of power companies; defining the same; providing for furnishing information relative to such property; outlining the duties of the tax commissioner; state board of equalization; county auditors; and county treasurers; and fixing penalty for failure or neglect to report; providing that such tax shall be a lien tax and repealing all Acts or parts of Acts in conflict herewith; and declaring an emergency.

Was read the third time.

Mr. Godwin moved that the rules be suspended for the purpose of amending Senate Bill No. 131.

Which motion lost.

Mr. Twichell moved that further consideration of Senate Bill No. 131 be indefinitely postponed.

Which motion lost.

Messrs.	Messrs.	Messrs.
Gessner	Johnson	Morgan
Homnes	Lavik	Scholl
Jensen	McInnes	

So the bill passed and the title was agreed to.

EXPLANATION OF VOTES

Mr. Aljets: "Madam Speaker: I want to vote aye on this bill for the reason that the valuation for taxes has been cut from 75 per cent to 50 per cent which takes away from our state government \$160,000.00 on their 1931 assessed valuation, which is something else for us to think about. I vote aye."

Mr. Peters: "Madam Speaker: I have every confidence in the people who levy the taxes on utilities in this state to believe that they will give the common people a fair deal under the present law. I vote no."

Mr. Swendseid: "Madam Speaker: I vote no on Senate Bill No. 131 because I believe the public utilities should pay taxes on their property based on the same valuation used in rate making."

MESSAGE FROM THE SENATE

Senate Chamber,
Bismarck, North Dakota,
March 3, 1933.

Madam Speaker: I have the honor to return herewith Senate Bill No. 315 as requested.

Very respectfully,

SIDNEY A. PAPKE,
Secretary.

Mr. Flannigan moved that Senate Bill No. 315 be placed on the Calendar for third reading and final passage.

Which motion prevailed.

Senate Bill No. 315. A Bill for an Act to provide revenue by means of an emergency replacement revenue act for state purposes by imposing a tax upon sales of tangible personal property and upon sales of personal and professional services by vendors as herein defined; for the inclusion therewith of additional business or service in operation now or hereafter analagous to those defined in the act or listed in the schedule; authorizing the State Tax Commissioner to prescribe rules and regulations for the collection thereof; prescribing the method of collecting the tax and payment thereof to the State Treasurer; and providing schedules explanatory of the application of such tax; and providing penalties; emergency; time limitation of the act.

Was read the third time.

So the bill passed and the title was agreed to.

EXPLANATION OF VOTES

Mr. Arneson: "Madam Speaker: I believe in a sales tax. As I see it there is no other tax that gets everyone. I voted for this sales tax when it was up before but since that time we have passed a bill to take a half million out of the hail insurance fund and the income out of the motor vehicle registration department for three years for the interest and sinking funds. Therefore, at this time I believe this sales tax should be a replacement tax and therefore I vote no."

Mr. Godwin: "Madam Speaker: I vote aye on this question although I believe it to be just one more futile effort to save the system that has closed all the banks in America, has bankrupted the American farmer, and has forced seven-million million working men into the ranks of the unemployed. Nevertheless it seems that we must try all of these wrong methods of saving the system that has become obsolete before we may reach the point of changing the system itself. I therefore vote aye."

Mr. Lund: "Madam Speaker: I think it will be very unpopular but I vote aye for the reason that I want to save the Governor, if possible, from having to call an extra session."

Mr. Nelson of Dickey: "Madam Speaker: I am loyal to the Governor and I want to continue to be. But I am also loyal to the man who will take office in Washington as President, and he has promised this nation help, too. And has assured us that he will do all in his power to help us. For that reason I would rather stay here for an extra session without pay, and I am willing to leave my money here now if that will help the state. I feel that way. For that reason I vote no."

Mr. Peters: "Madam Speaker: I think we ought to be taking off taxes instead of adding on new ones. I vote no."

Mr. Stoa: "Madam Speaker: I am not in favor of a sales tax at this time but under the present financial emergency that is facing the state it is up to this legislature to provide some system of taxation so our government will continue to function throughout this crisis, and so a general breakdown does not happen. I vote aye."

Mr. Strutz: "Madam Speaker: Personally, I think the sales tax is the only just tax and I have advocated the sales tax for many years. I do not like this kind of a sales tax that is presented in this bill but at the same time we are badly in need of money and I feel that this is the only way to keep our banks going and we have to sacrifice something. For that reason I vote aye."

Mr. Thompson: "Madam Speaker: I have been talking sales tax ever since I came down here. I would like to vote for a sales tax as a replacement tax and I think I would vote for this one but I have been figuring it over ever since last night and I see where it is going to double up on some of the fellows who are already paying their taxes, and if it could be put on so it would replace the personal tax even, I would be in favor of it, but I have been figuring so much on it that I will have to vote no on it."

Mr. Twichell: "I vote no on this for the same reason that I gave when I voted no on it before. I vote no on the bill for all of the reasons that I stated on the floor when the bill was first amended by me so as to put this in the school fund and not in the interest fund, and for the same reason that I voted no on it when the House indefinitely postponed the bill. I vote no for the additional reasons that I would have stated if I had not been foreclosed the right to talk the next time it was before the House, and for the same reasons I would have given today if I had not been foreclosed the right to speak by someone making the motion for the previous question. I vote no on any bill that takes the tax off of the utility companies and the railroads and puts it on the people of the state as this does, this and a number of other bills that we have."

Mr. Oglesby: "Madam Speaker: I voted no on this issue yesterday and I intended to vote no this evening but I have studied it over a great deal today. I talked with one of our leading men this morning in the Bank of North Dakota who, I think, is as good a judge as we have on taxation, and after

I had talked with him I hadn't fully made up my mind then, but didn't believe it was going to be such a dangerous bill as we thought. He said he thought that after it was in operation a few months the people would change their minds a good deal. But for the reason that our banks are in the condition they are, I have changed my mind and I shall vote aye."

Mr. Flannigan moved that the report of the majority of the Capitol Building Investigating Committee be accepted.

Mr. Twichell moved to amend the motion of Mr. Flannigan to provide that the reports of the Chairman and of the minority of the Capitol Building Investigating Committee be accepted.

Which motion prevailed.

Mr. Flannigan moved that the report of the majority of the investigating committee be approved.

Mr. Twichell moved to amend the motion of Mr. Flannigan to include the reports of the Chairman and of the minority of the committee.

Which motion lost.

The question being on the motion of Mr. Flannigan, the motion prevailed and the report of the majority was approved.

Senate Bill No. 318. A Bill for an Act fixing the amount of traveling expenses to be claimed by elective and appointive officers, agents, and employees of the State of North Dakota or any of its subdivisions, bureaus, boards, or commissions while upon public expense account; providing a penalty for violation thereof and declaring an emergency.

Was read the third time.

EXPLANATION OF VOTES

Mr. Solberg: Madam Speaker: I vote "aye" on this bill knowing that it is far superior to the old method of distributing state aid, but at the same time realizing that we are accepting crumbs when we should have a loaf, and feeling that the highest function of the state should be to first take care of education, elementary and secondary.

REPORT OF CONFERENCE COMMITTEE

Madam Speaker: Your Committee on Conference to whom was referred:

Senate Bill No. 74. A Bill for an Act making an appropriation for the general maintenance, improvements and repairs, equipment and miscellaneous items of the State Normal School at Valley City, North Dakota.

Have had the same under consideration and recommend that the same be amended as follows:

First, that on page 1, line 9 of the engrossed bill, change figures so as to read \$16,805.00. Secondly, that on page 1, line 11 of the engrossed bill, change figures so as to read \$37,760.00. Thirdly, that on page 1, line 15 of the engrossed bill, the figures "\$2,400.00" be struck out and in lieu thereof the figures "\$2,700.00." Fourthly, that on page 2, line 3 of the engrossed bill, change House figures "\$3,600.00" to "\$4,000.00."

Then change the House Figures on page 2, line 24 of the engrossed bill so as to read "\$183,621.67." That further your committee agrees on the remaining House amendments to Senate Bill No. 74.

Representatives:

C. O. ARNESON,
GUS A. SCHAUSS,
O. H. DITMER.

Senators:

JOHN L. MIKLETHUN,

So the bill was declared lost.

EXPLANATION OF VOTES

Mr. Flannigan: I am unalterably opposed to the action taken by this assembly in the reduction of salaries below the 20 per cent the people asked for in the initiated measure and I consider it unjust in continuing on beyond the mandate of the people and not consistent with their other actions taken in respect to initiative and referendum measures handled by the people.

Mr. Sandlie served notice of intention to reconsider.

Mr. Crockett: Madam Speaker, I vote "no" on this bill for the reason that I think that the salaries are sufficient for those people to live, and for the further reason that we are putting a sales tax on the common people of this state and I figure if we have to do that to raise money and get the last life blood out of them, we can't do it to raise the salaries for somebody else. I vote "no."

Mr. Thompson: Madam Speaker, I realize that we are not doing these other institutions justice that we have passed before, but we made a kind of an agreement on the salaries but after they have been putting through ordinary men like myself and giving them \$2400 a year and I know this is not a fair deal because they let these other bills go through and then they come in and want a bigger salary for the deans of the University and Agricultural College, and I am going to vote "aye" on this question.

Mr. Anderson of Sargent: Madam Speaker, We agreed with the Senate on two or three different occasions that we were going to use a certain schedule on these appropriations. The last time we had to make it in writing so there would be no way of getting out of it, but now at the last they have forgotten all about that agreement, but in order to get it off the floor and get through with it, I will vote "aye."

Mr. Strutz: Madam Speaker, I vote "aye." Not that I want to go back on our agreement, but I feel that it doesn't pay to stay here and have a fight about these few thousand dollars and I also feel that the money given to the deans in the college are justified and are not excessive.

Mr. Twete moved that the House reconsider the vote by which Senate Bill No. 81 was passed.

Mr. Lillehaugen moved that the motion of Mr. Twete be laid on the table.

Which motion prevailed.

Mr. Lynch moved that the House do now recess subject to the call of the chair.

Which motion prevailed.

The House reconvened pursuant to recess taken, Speaker Craig presiding.

REPORT OF CONFERENCE COMMITTEE

Madam Speaker: Your Committee on Conference to whom was referred:

Senate Bill No. 50. A Bill for an Act making an appropriation for the purpose of paying salary and miscellaneous general expenses of the Department of Minimum Wage.

Have had the same under consideration and recommend that the Senate do concur with the House amendments.

For the Senate:

S. S. McDONALD,
C. A. MILLER,
W. D. LYNCH.

For the House:

WM. B. FALCONER,
S. A. ESPELAND,
C. H. OPDAHL.

Mr. Stoa moved that the report of the Conference Committee as to Senate Bill No. 50 be accepted and that the Conference Committee be discharged.

Which motion prevailed.

MESSAGE FROM THE SENATE

Senate Chamber,
Bismarck, North Dakota,
March 3, 1933.

Madam Speaker: I have the honor to inform you that the Senate has concurred in the House amendments to Senate Bills Nos. 164 and 74.

Very respectfully,

SIDNEY A. PAPKE,
Secretary.

Joint Resolution No. 7 was read.

Mr. Niewoehner moved that the resolution be adopted and that a copy of same be printed in the Journal.

Which motion prevailed.

JOINT RESOLUTION No. 7

Introduced by Representatives Swett and Twichell

WHEREAS the City of Bismarck was so generous in furnishing accommodations for the Twenty-third Assembly, be it resolved that a vote of appreciation be extended the citizens and the City of Bismarck.

BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF THE STATE OF NORTH DAKOTA, THE SENATE CONCURRING:

WHEREAS, the State Capitol of North Dakota and the Legislative Chambers therein contained were totally destroyed by fire in December, 1930, and

WHEREAS, in this emergency depriving the Legislature of a meeting place for its Twenty-third Assembly, the city of Bismarck most generously and liberally tendered and con-

tributed to the Legislative Assembly the use of the Memorial Building and the City Auditorium as a meeting place for the Twenty-third Legislative Assembly, and

WHEREAS, the city of Bismarck by greatly discommoding itself, supplied for the Twenty-third Legislative Assembly a commodious and comfortable meeting place which could not have been supplied within the Capital by other means

NOW, THEREFORE, BE IT RESOLVED: Jointly by the Senate and the House of Representatives of North Dakota, that it is the sense of this Legislative body that we tender to the city of Bismarck and especially to Myron H. Atkinson, City Auditor of the City of Bismarck, and E. M. Davis, Superintendent of the building of the City of Bismarck, and to the Citizens of Bismarck our thanks and high appreciation for the courtesies and liberalities shown us by them throughout the Twenty-third Legislative Session, and

BE IT FURTHER RESOLVED, That an engrossed copy of this resolution, signed by the Speaker and Chief Clerk of the House of Representatives, and the President and Secretary of the Senate be forwarded to the Mayor and City Commission of the City of Bismarck, to be received by them as a small token of our appreciation.

Mr. Godwin asked unanimous consent to correct Senate Concurrent Resolution No. CC, previously passed by the House, by striking out the name of Thomas Devaney wherever it appears erroneously in the resolution and insert in lieu thereof the name of Joe La Pire.

Which request was granted.

REPORT OF CONFERENCE COMMITTEE

Madam Speaker: Your Committee on Conference to whom was referred:

Senate Bill No. 66. A Bill for an Act making an appropriation for the general maintenance, improvements and repairs, equipment and miscellaneous expenses of the State Training School, Mandan, North Dakota.

Which motion prevailed.

EXPLANATION OF VOTE

Mr. Fedje: Madam Speaker, I realize that this is a strange departure from the ordinary things as far as the money question is concerned, but we are living in extraordinary times. I do not believe that this is the solution of the financial question confronting us, but nevertheless this bill has been more or less a worry to me all through this session and I am certainly glad that you people of this assembly have seen fit to break away from the superstition of the money that we have got. I take pleasure in knowing that this superstition has not prevailed. I vote "aye."

EXPLANATION OF VOTES

Mr. Piper: Madam Speaker: I am voting "no" on this bill as a protest. Too much of the time of this House has been taken up on bills of this character, mainly bills that do not affect the people of the State of North Dakota as a whole. Therefore I vote "no."

Mr. Swendseid: Madam Speaker: I vote "no" on this measure because I feel that it is an attempt to circumvent the will of the people.

So the bill was declared lost.

Mr. Brunsdale moved that the vote by which Senate Bill No. 8 was lost be reconsidered and the motion to reconsider be laid on the table.

Which motion prevailed.

EXPLANATIONS OF VOTE

Mr. Aljets: Madam Speaker, I wish to vote "no" on this bill. I also have a farm that I probably will lose. It has \$12,000.00 worth of buildings on it and I want to leave them there as a monument.

Mr. Twichell: Madam Speaker, I want to vote "no" on this bill for a number of reasons. The buildings on the land are a part of the real estate, as the person who holds the mortgage has a mortgage against them and the legislature can't take that away from them. The other reason is this—I have a farm of over 1,000 acres, on which the mortgage is more than the land would sell for. If I lose that land I believe the man who loaned me the money on the land is entitled to the buildings to help pay himself back.
