The recommended increases are from the general fund. Also, salaries and wages of the Agronomy Seed Farm are increased \$1,625 to provide for adequate fringe benefits. Decrease salaries and wages of the Extension Division by \$26,787 from the general fund to delete funds for one programmer. The revenue for salary increases for county staff was budgeted on the basis of one-half coming from county government. The estimated income line item of the Main Experiment Station is reduced by \$65,470 due to a loss of revenue from the coal impact fund when the salary and program requests were reduced. Decrease land, structures, and major improvements of the main station by \$75,000 from the general fund to delete funds for remodeling of the swine barn. Increase land, structures, and major improvements of the Hettinger station by \$75,000 from the general fund to provide for construction of a total confinement sheep barn. The new section is added to appropriate private funds for expansion of the sugar beet storage area at the Main Experiment Station.

It is the intent of the Legislature that if House Bill 1221 (Cross Ranch) is passed, the Central Grasslands Research Station may be located at the Cross Ranch pursuant to the approval of the 46th Legislative Assembly. The Parks and Recreation Department shall lease appropriate land suitable for the Central Grasslands Research Station.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF THE STATE OF NORTH DAKOTA:

SECTION 1.) A new section to chapter 57-02 of the North Dakota Century Code is hereby created and enacted to read as follows:

TRUE AND FULL VALUE FOR AGRICULTURAL PROPERTY.)

1. In determining the true and full value of land used for raising agricultural crops or grazing farm animals, a formula using the average cash rents within a township, or assessor district in the case of an unorganized township, shall be used to determine the highest value per acre within that township or assessing district.
2. The formula described in subsection 1 shall be determined as follows:
  - a. The average cash rent per acre within the township or assessor district shall be determined. No one-year leases shall be used if they do not reflect whole farm

- rentals. In the absence of a cash rent contract, the average rental return shall be used.
- b. The actual property taxes per acre in the township or assessor district shall be subtracted from the amount determined in subdivision a.
  - c. The difference determined in subdivision b shall be divided by the sum of the federal land bank loan rate for new loans stated as a percentage as of the assessment date of the current year.
3. The local governing body shall determine the value for agricultural land which is less productive than the highest value land in the township or assessor district by utilizing current soil capability information and other pertinent factors.
  4. The first year the formula is used an average of the two immediate preceding years rentals for the township or assessor district shall be determined as provided in subsection 2. Thereafter the average rentals for each succeeding year shall be added until a five-year average has been established, and for each year thereafter the five immediately preceding years shall be used.
  5. The true and full value of agricultural land as determined pursuant to this subsection shall not be increased nor decreased by more than ten percent for any year.
  6. It shall be the duty of each owner or tenant of agricultural land to furnish the assessor a certified copy of each rental contract. Failure to furnish such a copy will result in the agricultural land of the owner being assessed at the highest value as determined for that township or assessor district plus a ten percent penalty. The certified copies of rental contracts shall be confidential information and shall not be open to public inspection. The secrecy of these contracts shall be guarded, and, except when otherwise directed by judicial order, or as otherwise authorized by law, the local assessor, the local, county, and state boards of equalization, the county auditor, and other officers and employees, shall not divulge nor make known, in any manner, the amount of rent, or any particulars set forth or disclosed in any rental contract provided for under this chapter. Nor shall the foregoing persons divulge, if known, any information reflected in the taxpayer's federal or state income tax returns. This provision shall not be construed to prohibit: the publication of statistics, so classified as to prevent the identification of particular contracts or returns, or the inspection by the attorney general or other legal representatives of the state of the contract or return of any taxpayer who shall bring action to set aside or review the tax based thereon, or against whom an action or proceeding has been instituted to recover any tax or any penalty imposed by chapter 57-38."

OPINION  
STATE OF NORTH DAKOTA  
ALLEN I. OLSON  
Attorney General  
State Capitol  
Bismarck, North Dakota 58505  
February 14, 1979

The Honorable Vernon Wagner, Speaker  
House of Representatives  
Forty-sixth Legislative Assembly  
State Capitol  
Bismarck, North Dakota 58505

Dear Mr. Speaker:

This is in reply to Representative Layton Freborg's letter of February 7, 1979, to me requesting, with your approval my opinion on the question of whether House Bill No. 1303 requires a vote of two-thirds of the members in both houses to be enacted because it provides a credit against the income tax liability of individuals and corporations imposed by Sections 57-38-29 and 57-38-30, NDCC.

As is noted in that letter, the question arises because of Section 8 of the new constitutional article on initiative, referendum, and recall that was approved as Measure No. 3 by the people at the general election in November, 1978, and because of approval by the people at the same election of Initiated Measure No. 2 which set new rates of state income tax on

individuals and corporations by amendment of Sections 57-38-29 and 57-38-30, NDCC.

As explained in the following paragraphs, it is our opinion that House Bill No. 1303 would require a two-thirds majority vote of approval by each house of the Legislature before it could become effective. We note, incidentally, that this conclusion is consistent with the ruling of the Speaker on final passage of House Bill 1303 that is lost for want of a two-thirds majority (Journal of the House for February 6, 1979, page 645). We also note that the House reconsidered its action on House Bill 1303 by placing the Bill on the calendar for second reading and final passage only after this opinion is received. (Journal of the House for February 7, 1979, page 671).

Measure No. 3 not only approved a new article to the North Dakota Constitution relating to the initiative, referendum, and recall but also repealed Section 25 of the North Dakota Constitution which reserved to the people the initiative and referendum powers that included in the next to last paragraph of Section 25 the following provision:

"...No measure enacted or approved by a vote of the electors shall be repealed or amended by the legislature, except upon a ye and nay vote upon roll call of two-thirds of all members elected to each house;"

This provision has been interpreted by the state Supreme Court and by this office a number of times, but since it has now been repealed it is necessary to compare it with the provision replacing it to determine whether those interpretations are still applicable.

The new constitutional article also reserves to the people, in Section 1, the initiative and referendum powers and includes in Section 8 the following provision:

"A measure approved by the electors may not be repealed or amended by the legislative assembly for seven years from its effective date, except by a two-thirds vote of the members elected to each house."

Except for the seven year limitation on the two-thirds vote requirement for the Legislature to amend or repeal an initiated or referred measure, this provision in Section 8 of the new article to the Constitution is substantially the same as the provision quoted above from repealed Section 25 of the Constitution. We therefore must be guided by the decisions of the state Supreme Court and by prior opinions from this office interpreting former Section 25 in our determination of whether an act of the Legislature amends or repeals an initiated or referred measure and therefore is subject to the requirement of a two-thirds vote of the Legislature to do so.

Initiated Measure No. 2 that was approved by the people at the general election last November expressly amended Sections 57-38-29 and 57-38-30 of the state income tax law so that they now read as follows:

"57-38-29. RATE OF TAX ON INDIVIDUALS. — A tax is hereby imposed upon every individual, to be levied, collected, and paid annually with respect to the taxable income of such individual as defined in this chapter, computed at the following rates:

1. On taxable income not in excess of three thousand dollars, a tax of one percent;
2. On taxable income in excess of three thousand dollars and not in excess of five thousand dollars, a tax of two percent;
3. On taxable income in excess of five thousand, and not in excess of eight thousand dollars, a tax of three percent;
4. On taxable income in excess of eight thousand dollars, and not in excess of twelve thousand dollars, a tax of four percent;
5. On taxable income in excess of twelve thousand dollars, and not in excess of thirty thousand dollars, a tax of five percent;

6. On taxable income in excess of thirty thousand dollars, a tax of seven and one-half percent.

“57-38-30. RATE OF TAX ON CORPORATIONS. — A tax is hereby imposed upon the taxable income of every domestic and foreign corporation received from the sources described in sections 57-38-12, 57-38-13, and 57-38-14, which shall be levied, collected, and paid annually is in this chapter provided, and which shall be computed at the following rates:

1. For the first three thousand dollars of taxable income, at the rate of three percent;

2. On the taxable income above three thousand dollars and not in excess of eight thousand dollars, at the rate of four percent;

3. On all taxable income above eight thousand dollars and not in excess of fifteen thousand dollars, at the rate of five percent;

4. On all taxable income above fifteen thousand dollars, and not in excess of twenty-five thousand dollars, at the rate of six percent;

5. On all taxable income above twenty-five thousand dollars, at the rate of eight and one-half percent.”

The title to House Bill No. 1303 provides that it is a bill “to provide credits against individual and corporate income taxes if the balance in the general fund exceeds the estimated balance.” The Bill then prescribes, in Subsection 1 of Section 1, a procedure for the Director of the Department of Accounts and Purchases to annually certify to the State Tax Commissioner the actual and projected state general fund balances on specified dates. The remainder of the Bill (Subsections 2 and 3 of Section 1) is as follows:

“2. If the actual balance in the state general fund as certified pursuant to subsection 1 exceeds the amount which has been estimated by five million dollars or more, there shall be allowed to individuals, estates, trusts, and corporations required to file an income tax return a credit against the amount of tax liability imposed by sections 57-38-29 and 57-38-30 for the taxable year for each taxpayer beginning on or after the preceding January 1. The credit to which any person or corporation may be entitled shall be determined according to the following schedule:

a. If the actual balance in the state general fund exceeds the amount estimated by at least five million dollars but by less than ten million dollars, the credit shall be ten percent of the tax liability imposed by sections 57-38-29 and 57-38-30, provided that the maximum credit for any taxpayer shall not exceed one hundred dollars.

b. If the actual balance in the state general fund exceeds the amount estimated by ten million dollars or more, the credit shall be twenty percent of the tax liability imposed by sections 57-38-29 and 57-38-30, provided that the maximum credit for any taxpayer shall not exceed one hundred dollars.

3. The credit provided by this Act shall be placed on the state income tax returns for individuals, estates, trusts, and corporations as a separate line item on each type of return which shall follow the computation of tax liability pursuant to the provisions of chapter 57-38. The liability of each taxpayer shall be reduced by the amount of this credit up to the maximum credit as provided in subsection 2.”

Although House Bill No. 1303 refers to Sections 57-38-29 and 57-38-30 that were amended by Initiated Measure No. 2 last November, it does not expressly amend either of those sections. The question is whether House Bill No. 1303 does nevertheless amend those two sections and therefore would have to be passed by a two-thirds vote in both houses in order to be effective.

We believe the answer to the question is controlled by *State ex rel. Strutz v. Baker*, 71 N.D. 153, 299 N.W. 574, a 1941 North Dakota Supreme Court case. In that case, the Court had to determine whether Chapter 147, S.L. 1939, amended a 1926 initiated measure that provided for a gasoline tax law to be administered by the State Auditor. Chapter 147 received a majority vote in each house but not a two-thirds majority vote. The Court said:

"Though this chapter 147 of the Session Laws of 1939 does not in express terms refer to the measure initiated in 1926, nevertheless, it is legislation on the same subject; changes the method of administration of the initiated law and some of its provisions; and to that extent amends certain portions of the initiated measure; ...." 71 N.D. at 159, 299 N.W. at 577.

In concluding that Chapter 147, S.L. 1939, did amend the prior initiated law and therefore was invalid because not enacted by the necessary two-thirds majority vote, the Court quoted with approval from an Illinois case as follows:

"... even though an act professes to be an independent act and does not purport to amend any prior act, still if, in fact, it makes changes in an existing act by adding new provisions and mingling the new with the old on the same subject so as to make of the old and the new a connected piece of legislation covering the same subject, the latter act must be considered an amendment of the former." 71 N.D. at 162, 199 N.W. at 578.

Even though House Bill No. 1303 professes to be an independent act and does not purport to amend Sections 57-38-29 and 57-38-30 of the income tax law, it does nevertheless provide that in certain circumstances the amount of income tax to be paid by a taxpayer on his taxable income shall be less than the amount imposed by applying the tax rates prescribed in Section 57-38-29 or Section 57-38-30. We therefore believe that House Bill 1303 would be regarded by the courts as an amendment to those two sections that could be valid only if it were passed by a two-thirds vote in each house.

Its effect is to amend the tax rates prescribed in Sections 57-38-29 and 57-38-30 as amended by Initiated Measure No. 2 last November by providing for a new credit that results in a lesser tax than that obtained by only applying the tax rates prescribed in those sections to taxable income.

We have previously said that a proposed enactment of the Legislature may effectively amend an initiated measure even though it professes to be a separate and independent act and that it therefore could be valid only if enacted by the required two-thirds majority vote. See, for example, the letter of January 25, 1977, from this office to the Honorable Oscar Solberg, Speaker, House of Representatives, Forty-fifth Legislative Assembly, a copy of which is enclosed.

We trust that this adequately answers the questions presented.

Sincerely,  
Allen I. Olson  
Attorney General

January 25, 1977

Honorable Oscar Solberg, Speaker  
House of Representatives  
Forty-fifth Legislative Assembly  
State Capitol  
Bismarck, ND 58505

Dear Speaker Solberg:

This is in reply to your letter of January 14th in which you ask the following question:

"If a bill were to propose a one cent sales tax, with the proceeds thereof to be deposited in a special fund for distribution to the political subdivisions of the State, and if such Bill did not specifically amend or repeal any of the statutes enacted by the Initiated Measure approved in the November general election, (sic) would such bill require a two-thirds vote for passage?"

Article II, Section 25 of the Constitution of North Dakota provides in part that:

"No measure enacted or approved by a vote of the electors shall be repealed or amended by the legislature, except upon a ye and nay vote upon roll call of two-thirds of all the members elected to each house."

Initiative Statute No. 1, approved at the general election in November, 1976 and effective January 1, 1977 specifically repealed those sections of the North Dakota Century Code which established the rates of sales, use, and vehicle excise taxes, and enacted new statutes to replace them. These new statutes provide for tax rates of three percent and two percent rather than the previous four percent rate, on sales at retail of specified property and services.

You do not indicate what form this proposed "one cent sales tax" would take. From the context of your letter we assume that the proposed legislation would create a new statute providing for an additional one percent tax, over and above the rates established by Initiative Statute No. 1, and the tax would be imposed on essentially the same items that are presently subject to the sales, use, and excise taxes.

If that is the case, then the question becomes whether the legislation proposing the one percent tax is to be considered as a new statute, or whether it is in effect an amendment to the existing initiated statute. In the Illinois case of Golpin v. City of Chicago, 109 N.E. 713 (1915) the court observed that:

"... even though an act professes to be an independent act and does not purport to amend any prior act, still if, in fact, it makes changes in an existing act by adding new provisions and mingling the new with the old on the same subject so as to make of the old and the new a connected piece of legislation covering the same subject, the latter act must be considered an amendment of the former..."

The Supreme Court of North Dakota agreed with the above-quoted language in the case of State v. Baker, 299 N.W. 574 (1941).

At 82 C.J.S., Statutes, Section 243, it is stated that when the legislature, passing on a subsequent act, has under consideration the subject matter contained in the former enactment and is working along the same legislative line, "the subsequent act can fairly be termed amendatory to the prior act." It is further observed that:

"Whether an act is an amendment of a prior act is to be determined by a comparison of their provisions, and its character is not determined by the fact that it does or does not profess to be an amendment."

In view of the above-quoted provisions it would be our opinion that a bill proposing a one percent sales tax over and above the existing sales tax rates on essentially the same items as are presently taxed would be an "amendment" to the initiated statute and, consequently, would require compliance with Section 25 of the North Dakota Constitution. The fact that the revenues raised therefrom would be distributed to political subdivisions of the state would not alter the nature of the tax.

Sincerely,

Robert P. Brady

Assistant Attorney General

"SECTION 5. LEGISLATIVE INTENT.) It is the intent of the Legislature that if House Bill 1221 (Cross Ranch) is passed, the Central Grasslands Research Station may be located at the Cross Ranch pursuant to the approval of the 46th. Legislative Assembly. The Parks and Recreation Department shall lease appropriate land suitable for the Central Grasslands Research Station."

And renumber the lines, sections and pages accordingly

STATEMENT OF PURPOSE OF AMENDMENT:

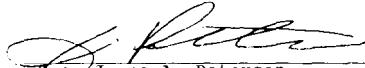

Salaries and wages for the Extension Division and experiment stations are increased by the following amounts to provide for adequate fringe benefits, including full family medical insurance under the alternate plan: Extension Division \$249,859; Main Experiment Station \$12,457; Dickinson Experiment Station \$11,719; Hettinger Experiment Station \$2,368; Langdon Experiment Station \$3,979; North Central Experiment Station \$4,048; Williston Experiment Station \$7,033; and Carrington Experiment Station \$7,010.

The recommended increases are from the general fund. Also, salaries and wages of the Agronomy Seed Farm are increased \$1,625 to provide for adequate fringe benefits. Decrease salaries and wages of the Extension Division by \$26,787 from the general fund to delete funds for one programmer. Decrease salaries and wages of the Carrington Experiment Station by \$26,297 from the general fund to delete funds for one clerk position. Also, decrease the equipment line item by \$15,000 from the general fund for expenses related to the clerk position at the Carrington station. Decrease salaries and wages of the Main Experiment Station by \$48,612 from the general fund to delete funds for one professor in the insect control program. Also, decrease operating expenses of the main station by \$15,000 from the general fund to delete funds for operating expenses related to the new position.

The estimated income line item of the Extension Division is reduced by \$179,004. Of that amount, \$41,000 is a reduction due to a loss of revenue from county government when three home economists were deleted

in the executive budget; and \$138,004 is a reduction due to a loss of revenue from county governments when the salary increase request of 12.1 percent and eight percent was denied. The revenue for salary increases for county staff was budgeted on the basis of one-half coming from county government. The estimated income line item of the Main Experiment Station is reduced by \$65,470 due to a loss of revenue from the coal impact fund when the salary and program requests were reduced. Decrease land, structures, and major improvements of the main station by \$75,000 from the general fund to delete funds for remodeling of the swine barn. Increase land, structures, and major improvements of the Hettinger station by \$75,000 from the general fund to provide for construction of a total confinement sheep barn. The new section is added to appropriate private funds for expansion of the sugar beet storage area at the Main Experiment Station.

The amount appropriated for utilities at UND is \$2,970,57. The estimated income is increased \$443,300 for the amount of funds transferred from the Vietnam bonus fund for handicapped accessibility projects including \$100,000 for the Oxford House restoration project.

UND Medical Center

The University of North Dakota Medical Center salaries and wages were increased by \$224,261 to correct an error in the preparation of the Medical Center budget, by \$73,000 to restore funds relating to a nursing capitation grant, and reduced by \$209,228 since the amount in salaries and wages was greater than necessary for employee fringe benefits.

The program grant line item was increased by \$200,000 to allow the medical center to continue at least three AHEC centers in the state.

#### North Dakota State University

Increase salaries and wages at North Dakota State University by \$104,832. Of that amount, \$97,521 is an increase for three positions, one audiologist and two pathologists, for clinical support in speech pathology and audiology; \$10,050 is a decrease necessary to allow one custodian for only the second year of the biennium rather than for both years; and \$17,361 is an increase to provide full family medical insurance under the alternate plan. Increase operating expenses \$150,000 to provide funds for the systemwide computer network. Estimated income is increased \$130,564 to reflect correct anticipated interest income from the Land Department. Decrease land, structures, and major improvements \$397,163 to reflect a decrease in the amount available for special assessments from \$200,600 to \$53,437 and to delete \$250,000 for handicapped accessibility projects. A new section is provided to make general funds available to North Dakota State University in the event it does not receive any or all of the \$308,000 anticipated revenue from the Bankhead-Jones Act during the 1979-81 biennium.

The amount appropriated for utilities at NDSU is \$3,406,432.

#### State School of Science

The State School of Science salaries and wages were increased by \$60,615 to correct the executive budget and by \$39,650 to provide sufficient funds for family health insurance coverage. The operating expenses were increased by \$123,644 because of greater utility costs than estimated in the Governor's budget. Funds appropriated for utilities at the North Dakota School of Science for the 1979-81 biennium are \$1,171,571. Estimated income was increased by \$40,193 to reflect revised State Land Department interest and income estimates and by \$100,000 for the amount to be transferred from the Vietnam bonus fund for handicapped accessibility projects.

#### Dickinson State College

This amendment decreases salaries and wages by \$21,329 for a secretarial position allowed Dickinson State College by the Executive Budget Office for clerical workload in the departments of business, English, speech, and social science. Salaries were increased \$10,018 to provide adequate fringe benefits including the alternate family medical plan for employees. This amendment increases the land, structures, and major improvements line item by \$80,000 by adding \$180,000 to provide funds for the purchase of the Highway Department Building and by deleting \$100,000 for handicapped accessibility projects. The amendment also increases the operating expense line item by \$52,234 to provide operating expenses and repair moneys for the Highway Department Building. The operating expense line item was reduced by \$16,000 for rent moneys which had been included in the budget to rent the Highway Department Building. This amendment also increases the estimated income line item by \$5,968 for estimated Board of University and School Lands interest and income moneys. The executive budget allowed \$474,629 for utilities at Dickinson State College.

#### Mayville State College

Mayville State College salaries and wages were increased by \$31,000 for a new library position and by \$13,243 to add funds for employee medical insurance coverage. Salaries and wages were reduced by \$28,382 through the deletion of two clerk positions approved by the Governor.

Estimated income account was increased by \$14,090 to reflect revised State Land Department income interest estimates. Land, structures, ar

major improvements were increased by \$160,500 for handball courts and the addition of bleachers to the physical education facilities and reduced by \$100,000 for handicapped accessibility projects. Operating expenses include \$525,131 for utilities.

Minot State College

The appropriation for Minot State College salaries and wages was increased by \$18,817 to provide for family medical insurance coverage and by \$26,862 to correct the Governor's budget. The operating expenses are increased by \$88,886 to provide for additional computer services and by \$87,200 for anticipated increases in utilities. Total utilities are \$927,294. The estimated income was increased by \$21,968 to reflect moneys which will be distributed by the State Land Department interest and income account and decreased by \$282,500 to reduce the estimated income by the amount of funds approved for expenditure during the current biennium by the Emergency Commission. The amendment also provides a \$300,000 appropriation for seating for the physical education activities center and appropriates any additional private or other funds available for this purpose. The \$300,000 is to come from the Vietnam bonus fund since funds in excess of \$500,000 have already been set aside for the physical education activities center for accessibility for the handicapped. The land, structures, and major improvements is reduced \$100,000 for handicapped accessibility projects. The House Appropriations Committee intends that the \$300,000 relating to the physical education activities center remain in the bill.

Also in the land, structures, and major improvements line item, \$100,000 is to be utilized for an addition to the physical education building, rather than for handicapped accessibility projects.

Increase salaries and wages of the State School of Forestry - Bottineau, Junior College Division, by \$26,148 to provide adequate fringe benefits and full family medical insurance under the alternate plan.

Increase operating expenses by \$15,000 for additional computer costs related to higher education's systemwide computer network. Operating expenses include \$199,784 for utilities.

Both of these projects were requested due to accessibility for the handicapped. Additional projects related to handicapped accessibility deleted from the land, structures, and major improvements line item total \$24,351 of which \$9,351 is for a ramp and restroom remodeling for Thatcher Hall, and \$15,000 is the handicapped accessibility portion of the \$280,800 approved for the gym addition.

It is the intent of the legislative assembly that the state social service board and the state department of health shall mutually reduce the number of positions funded (filled or vacant on February 1, 1979), by fifteen before the end of the 1979-81 biennium. The reduction in the number of positions is expected to arise pursuant to the collocation of area social service and comprehensive mental health and retardation centers; however, reductions in other areas of such departments and in human service centers may also be considered as complying with the required reduction of fifteen staff positions. STATEMENT OF PURPOSE OF AMENDMENT:

The purposes for amending the Social Service Board programs as provided in House Bill No. 1011 are as follows:

Administration

Increase salaries and wages by \$23,551 to provide sufficient funds for family medical insurance coverage. The federal portion of this amount is \$15,544 with the state portion being \$8,007.

The federal portion of this amount is \$46,294 with the state portion being \$24,928. The grants, benefits, and claims line item was increased by \$2,034,955 to reflect Title XIX payments to comprehensive mental health and retardation centers of \$1,230,796 and Title XIX payments to human service centers of \$804,159. Sixty-one percent of such amounts is federal funds and 39 percent is the nonfederal portion to be paid by the comprehensive mental health and retardation center or human service center receiving the funds.

Child Support Enforcement Program

The child support enforcement program salaries and wages were increased by \$6,792 to provide sufficient funds for family medical insurance coverage. Of this amount, \$5,094 is federal funds and \$1,698 is state funds.

#### Community Services

Community services salaries and wages were increased by \$29,155 with \$17,201 in federal funds and \$11,954 in general funds. The grants, benefits, claims line item was reduced by \$3,611,271 and a new line item entitled human service centers was added in the amount of \$3,611,271.

The grants, benefits, claims line item was increased by \$140,000 to reflect the federal matching necessary to match state funds of \$159,000 to fund the \$299,000 early childhood identification program as provided by House Bill No. 1624.

The grants, benefits, and claims line item was reduced by \$190,000 in general fund moneys since this amount is included in the new section of the bill providing \$538,500 in total funds for services related to adoption.

The grants, benefits, and claims line item was increased by \$1,000,000 to reflect additional Title XX moneys which are in President Carter's budget and are expected to become available to the Social Service Board during the next biennium. These funds are to be made available to sheltered workshop programs proposed for funding by the executive budget through the developmental disabilities grant line item included in the State Department of Health budget. The general fund moneys remaining in this line item within the Department of Health are to the extent possible to be used as matching funds for these Title XX moneys.

The grants, benefits, and claims line item was increased by \$42,858 in general fund moneys to encourage county social service boards to collocate with comprehensive mental health and retardation centers and area social service centers. In addition, the line item was increased by \$58,366, \$39,691 in federal funds and \$18,675 in general fund moneys to assist area social service centers in collocating with comprehensive mental health and retardation centers before June 30, 1981.

It is anticipated that the federal allocation of Title XX moneys will increase and subsequently \$1.1 million of the expected \$2.1 million increase is to be made available for expenditure through this section. Four hundred ninety thousand dollars (\$490,000) of this amount will only become available to the extent that Title XIX moneys are utilized by human service centers. Human service centers are encouraged to use Title XIX moneys rather than Title XX moneys during the 1979-81 biennium.

The legislative assembly recognizes that, because of the size of the cross ranch state park, special provisions and considerations are necessary as concern that park which may not be necessary for other state parks.

SECTION 5. PAYMENTS IN LIEU OF REAL PROPERTY TAXES.) The director of state parks and recreation shall annually make payments subject to legislative appropriations for that purpose to the county, school districts, townships, and all other taxing districts in which the cross ranch state park is located, which payments shall be in lieu of taxes which would otherwise be available to such political subdivisions if the real property upon which the payments are based were not owned by the state. The real property constituting cross ranch state park shall be

assessed and valued in the same manner as other real property in the state is assessed and valued for tax purposes, except that improvements to real property shall not be considered in such valuation. Prior to June thirtieth of each year, the county auditor of Oliver County shall give notice in writing to the director of state parks and recreation and to the state tax commissioner of the value placed upon the real property of cross ranch state park by the county board of equalization. After equalization by the state board of equalization, the mill levies which apply to other taxable property in the taxing districts in which cross ranch state park is located shall be extended against the real property subject to taxation as provided in this Act. The payments by the director of state parks and recreation pursuant to the provisions of this section shall be apportioned to the county and other taxing districts in which the property is located by the county auditor in the same proportions and in the same manner as other real property taxes are apportioned.

Thirty percent shall be credited to a special fund in the state treasury to be held in trust to be administered by the board of university and school lands, which shall have full authority to invest such funds and may consult with the state investment board as provided by law. Such Except as provided by sections 1 and 2 of this Act, the trust fund shall be perpetual and held in trust as a replacement for depleted natural resources.

### POINT OF PERSONAL PRIVILEGE

Rep. Rued:

“Mr. Speaker and members of this Assembly:

“It was good to leave here yesterday after the session and be with my family and friends without the threats of verbal abuse and physical harm that this legislator has been subjected to from members and director of an organization called ‘Independent Community Banks of North Dakota.’

“I have become accustomed to members of the general public who, sometimes, become a little excited about bills down here. This I expect and I invite input from the citizens of North Dakota. However, it has gone too far when an officer of a North Dakota Bank threatens physical harm.

“This concludes the first time I have ever spoken on a point of personal privilege and I sincerely hope it is my last on such a distasteful matter. I wish my remarks printed in the journal.”

#### SECOND READING OF A SENATE CONCURRENT RESOLUTION

**Senate Concurrent Resolution No. 4014.** — A concurrent resolution urging the Secretary of Interior to proceed with the design, planning and construction of the Garrison Diversion Project.

Committee To Save North Dakota's recent ads listing mitigating acreage.

"I have registered my concerns privately with many of you two years ago, and as a member of the Overview Committee, stated my belief to our Congressional Delegation, Garrison Conservancy District people and others at a Washington, D.C. meeting which I and Senator Nething attended last winter. The purpose of the meeting was to discuss alternatives to get the Garrison Diversion Project moving again.

"At that meeting, I stated that once we resolved the problems of overcoming the Carter Administration's reluctance to the project and the legal complications of the Audubon Society's court actions, we still had the problem of selling this project to North Dakotans. We realized that this would be especially difficult once the people realized that there would be a tremendous grab of North Dakota lands by the Fish and Wildlife Service in the name of mitigation. I felt my plea to face up to this issue fell on deaf ears.

"Although the Conservancy District has passed resolutions concerning the mitigation feature, it has had no effect. The strongest effort to meet the problem has been by the Governor in his policy of no authorization of Fish and Wildlife purchases until the purchased acreage is credited to Garrison Diversion Mitigation.

"Passage of Legislation 2016 and 2018 in the last session limiting Fish and Wildlife purchases by approval of local county boards has been effective on private purchases, but does not cover purchases by the Bureau of Reclamation or Corps of Engineers.

"I must touch upon why I feel this is such a major problem that it could be the eventual death of the Garrison Diversion Project. The demands of the Federal Government to comply with loan requirements include Fish and Wildlife Mitigation. The demand under the present authorized project is for 146 thousand acres of which approximately 8000 has been purchased. The arbitrary criteria used is more than one for one on what the service considers lost habitat.

"First, the assumption that the project would destroy Wildlife habitat is ridiculous when just the opposite would probably be closer to the truth. The open ditches, canals and lakes of the project could best be termed a wildlife bonanza.

"I understand the rules of the game have been changed since signing of the master contract in 1965. At that time, much of the acreage to be credited to mitigation involved project features such as west bay at Devils Lake and others. Somehow, that is not true today and the service now wants only drained wetlands for restoration. With such a criteria, only the best and most productive farmlands would be purchased. The virtually unanimous opposition to fish and wildlife purchases by farmers has good reasons.

"First, nobody wants to sell part of his farm and secondly, no farmer appreciates bidding against the government with its unlimited resources for a neighbor's land. Probably the most undesirable feature of federal fish and wildlife lands in an area is its impact on surrounding acreage.

"The placement of a quarter section in every township may not have severe economic impact if only the production of that quarter is considered as a loss as is computed by cost benefit ratios.

"The loss to surrounding acreage due to wildlife is many times the production of the purchased acreage. A prime example would be the effects on sunflower production. Producers now plan their acreage away from standing water and cattail sloughs because of blackbird depredation. A quarter section in the center of a township managed to support wildlife by

holding water and creating marshlands would effectively eliminate production of this new and profitable crop.

"To expect North Dakota to give up another 140 thousand acres just for federal loan guarantees is just too much when we have sacrificed so much already. It is ironic to hear complaints from supporters of this project about cross ranch being too much acreage in state ownership when this project takes 15 times as much land for no useable purpose.

"Not only does the Fish and Wildlife Service own millions of North Dakota acres already, but we sacrificed dearly when Garrison and Oahe Reservoirs were created to the tune of over 500,000 acres.

"Not only have we lost this fine productive land that studies indicate cost 90 million a year in production, but we do not even get a reasonable share of the hydro-electric power of these dams. All the benefits of these dams have accrued to downstream interests in flood control, navigation and power.

"One would think we should have satisfied all mitigation requirements in these two resources alone. We do not even charge for the water out of these reservoirs which benefits accrue to other than North Dakotans.

"It is our duty to see that North Dakota does not get ripped off again by what I referred to as federal loansharking. The benefits derived from the project as now planned are, I feel, lost by the exorbitant demands of wildlife mitigation.

"If we do not face up to the issue now, mitigation purchases will resume at an accelerated pace due to the contract feature which states purchases shall be equal to the percentage of project completion using that formula, the service is 20,000 acres behind on purchases, and I'm sure determined to catch up fast. The irony of the situation is that if the project should fail, the acreage already purchased does not revert back as demonstrated by a case such as this in the Starkwater Project.

"I can assure you that if every newspaper in North Dakota would headline 140 thousand acres to be taken for mitigation — The storm of protest would kill the project.

"We face such a reality in the near future. Let's be ahead of it."

POINT OF PERSONAL PRIVILEGE

Rep. Freborg: "Mr. Speaker and Members of the Assembly:

"I rise on a point of personal privilege to explain my vote on House Concurrent Resolution No. 3037.

"Mr. Speaker, I was very sorry to have to vote NO on this resolution. This resolution had great potential and could have been of utmost importance to the people in my District. McLean County has lost nearly 200,000 acres to the Garrison Diversion project. The McClusky Canal goes through the midst of my District and has severed farms and caused untold hardships. Now that the Canal has gone through I could not, in good conscience, vote to halt construction and make null and void the sacrifices these people have made. If in fact there are any benefits to be derived from Garrison Diversion, to leave an empty ditch would be the height of folly.

"Now, to add to the loss of land from District 8, the U.S. Fish & Wildlife Service is asking for more land to replace the land already taken. I had hoped that this resolution could have been amended to speak to this problem of land acquisition by the U.S. Fish & Wildlife. In fact, Mr. Speaker, I would have liked to have had the opportunity of supporting an amendment to stop all condemnation of land."

## POINT OF PERSONAL PRIVILEGE

Rep. Boyum: "Mr. Speaker and Members of the Assembly:

"I would like my remarks printed in the Journal.

"I think it only appropriate that the North Dakota House of Representatives officially recognize the accomplishments of the University of North Dakota hockey team during the 1978-1979 season.

"As you are all well aware, the 'Fighting Sioux' captured the prestigious Western Collegiate Hockey Association championship on Saturday in a stirring game with the University of Minnesota. Their victory will assure them of the well deserved rank of the nation's number one hockey team — a ranking that will bring the attention of the country to North Dakota.

"We commend the coaches and players for their fine efforts and wish them continued success during the WCHA playoffs. I might also add that you can watch this fine team in action tomorrow night and Wednesday night on television."

STATE OF NORTH DAKOTA  
EXECUTIVE OFFICE  
BISMARCK

The Honorable Vernon Wagner  
Speaker of the House  
House Chambers  
Bismarck, North Dakota 58505

Dear Mr. Speaker:

House Bill 1340 allows hunters to use horses, mules, and other animals in pursuing big game. Present law prohibits the use of horses, mules and other animals in hunting big game.

This bill gives an unfair advantage to those hunters who are privileged to own or rent horses. Other hunters are confined to established trails in their vehicles, or, if they leave the trail, they must pursue their quarry on foot.

Allowing hunters to use horses to take big game decreases the hunted animal's chances of evading the hunter.

Furthermore, I have received information that indicates passage of this bill will put a strain on hunter-landowner relationships.

Prior to 1973, hunters were permitted to use horses, but problems developed and the practice was outlawed by the Forty-Third Legislative Assembly.

For the foregoing reasons, I veto House Bill 1340.

Sincerely yours,  
ARTHUR A. LINK  
Governor

## POINT OF PERSONAL PRIVILEGE

Rep. Lardy: "Mr. Speaker:

"I rise to a point of personal privilege, and ask that my remarks be printed in the Journal.

"Mr. Speaker and members of the Assembly, on Saturday, March 3rd at a public forum in Dickinson, Rep. Francis Wald of District 37 publicly accused the telephone operators of turning around phoned-in messages related to the rescission of the Equal Rights Amendment.

"Ladies and gentlemen, that is a very serious charge! He said they are deliberately doing this so that we Representatives will believe there is stronger support among the public for ERA than is actually the case. He indicated he had received messages totally opposite of what he knew the callers to intend.

"After his comments, I responded by saying that if there were problems, they should be discussed with the Employment Committee and not at a public forum when the accused could not be there to respond. I also said the ERA Resolution was a confusing one because the opposition to ERA requires a 'Yes' vote and support of ERA requires a 'No' vote.

"When I returned to the capitol On Monday, I immediately asked the Minority Floor Leader to begin an investigation. That investigation, as I understand, was conducted, and Rep. Wald's charges were found to be totally false, and completely without foundation. The telephone operators were found to be totally without fault; in fact, they did not even make an error.

"Yesterday after the session, I was given a copy of a statement Rep. Wald delivered to the operators and leadership. It is my opinion, Mr. Speaker, that what Rep. Wald considers to be an apology is completely inadequate. In his printed statement he said that 'perhaps' phone calls were being modified. In his comments on Saturday, he said they are 'deliberately' being changed. He purports to apologize for the statement, but does not apologize for making a false accusation. He does not apologize for impugning the integrity of these telephone operators who are doing us, as Legislators—and more importantly the citizens of North Dakota, a very worthwhile and necessary service. He does not apologize for lowering the credibility of that system in all of its aspects. He does not apologize for the mental anguish he has caused the people. I believe they, the operators, the Legislative Assembly and the people of North Dakota deserve much more than what Rep. Wald provided us with in his printed statement of yesterday.

"Mr. Speaker, many of us remember an incident two years ago when other charges were made relating to telephone messages. If this system is going to be continually questioned, it will jeopardize the communication all of us have with our constituents, but more importantly, it will unnecessarily constrain the citizens from informing us of their views. Perhaps the latter is what Rep. Wald wants!

"Thank you, Mr. Speaker."

STATE OF NORTH DAKOTA  
 EXECUTIVE OFFICE  
 BISMARCK

The Honorable Vernon Wagner  
 Speaker of the House  
 House Chambers  
 Bismarck, North Dakota 58505

Dear Mr. Speaker:

House Bill No. 1014 appropriates \$273,766 for the expenses of the Department of Veterans' Affairs.

Section 1 of the bill includes the following line item:

“Salaries and wages. . . . . \$227,006  
 (Includes salary of commissioner not to exceed \$46,200 for the biennium)”

State law provides that the Administrative Committee on Veterans' Affairs shall set the salary of the commissioner. The only restriction on the Committee's authority to determine the salary level of the commissioner is that the salary must be “within the limits of legislative appropriation”. (Section 37-18.1-03 North Dakota Century Code)

With the parenthetical phrase “(Includes salary of commissioner not to exceed \$46,200 for the biennium)”, the Legislature is substituting itself for the statutory committee for purposes of setting the salary of the commissioner. This in effect would amend state statute in an appropriation bill and is inappropriate.

The specific language by which the Legislature proposes to determine the salary of the commissioner is as follows:

“(Includes salary of commissioner not to exceed \$46,200 for the biennium)”

Therefore, I veto this specific language in House Bill No. 1014.

Sincerely yours,  
 ARTHUR A. LINK  
 Governor

#### POINT OF PERSONAL PRIVILEGE

Rep. Gackle: "Mr. Speaker and Members of the Assembly:

"In looking at House Bill No. 1582, I do not have the Senate amendments in my bill book, and I think we have just gone through that order of business too rapidly. I think the Committee Chairman or members of the committee handling the bill should explain the amendments. When the amendments are not in the bill book, I think it is important that everyone knows what we are voting on."

ANNOUNCEMENT BY SPEAKER

Speaker Wagner announced that an opinion has been requested from the legal staff of the Legislative Council in regard to his ruling earlier today in regard to reconsideration of a measure which had been previously reconsidered, and on which he had ruled today the reconsideration of Senate Bill No. 2150 had been out of order. Inasmuch as there is question that his ruling might be incorrect, he would entertain a motion at this time for the reconsideration of Senate Bill No. 2150, thereby not allowing any bill failing to pass because the ruling from the chair was questionable.

Rep. Olson moved that the House reconsider its action whereby Senate Bill No. 2150 failed to pass, which motion prevailed on a verification vote.

Rep. Winkjer moved that Senate Bill No. 2150 be laid over one legislative day, which motion prevailed.

EXECUTIVE OFFICE  
BISMARCK

The Honorable Vernon Wagner  
Speaker of the House  
House Chambers  
Bismarck, North Dakota 58505

Dear Mr. Speaker:

House Bill 1604 would change the definition of "mineral developer" under the "Surface Owner Protection Act", (Chapter 38-18, N.D.C.C.) to mean a person who acquires or leases "at least fifty-one percent of the mineral rights...." The present law defines the term "mineral developer" as "the person who acquires the mineral rights or lease...."

The North Dakota Supreme Court has held that present law requires a person to own or lease one hundred percent of the mineral rights in order to fall within the definition of "mineral developer" under the Act. (North American Coal Corporation v. Huber, 268 N.W.-2d 593 (1978)).

The Legislature enacted the "Surface Owner Protection Act" in 1975 as the result of an interim study by the Legislative Council Committee on Resources Development before the Forty-fourth Legislative Assembly. The Executive Branch Advisory Committee Task Force on Coal Gasification participated in the study.

The stated purpose of the Act is to "provide the maximum amount of constitutionally permissible protection to surface owners from the undesirable effects of development, without their consent, of minerals underlying their surface." (Section 38-18-03, N.D.C.C.).

The major thrust of the Act is to require the mineral developer to obtain the consent of the surface owner before a mining permit may be issued by the Public Service Commission. However, the Act does provide a narrow exception to the consent requirement. Section 38-18-06(5), N.D.C.C. sets forth a procedure whereby the mineral developer who owns or has acquired leases to all of the mineral rights may bring an action in district court to determine adequate compensation for the surface owner. The

statute states that, upon making such a determination, the district court is required to issue an order authorizing the Public Service Commission to issue a surface mining permit. (Section 38-18-06(5), N.D.C.C.).

With this bill, the Legislature would give a coal company that does not own all of the mineral rights the status of a "mineral developer" and the right to take advantage of the section of the "Surface Owner Protection Act" designed as an exception for mineral developers who own or have acquired all of the minerals. This would allow a company that owns only fifty-one percent of the minerals to go to court to receive authorization for a mining permit, not only without the consent of the surface owner, but without the consent of the owner of forty-nine percent of the minerals.

I do not believe that North Dakota should give this power, which has been likened to the power of eminent domain, to the coal companies.

Therefore, I veto House Bill 1604.

Sincerely yours,  
ARTHUR A. LINK  
Governor

State of North Dakota  
EXECUTIVE OFFICE  
BISMARCK

The Honorable Vernon Wagner  
Speaker of the House  
House Chambers  
Bismarck, North Dakota 58505

Dear Mr. Speaker:

House Bill 1491 amends sections 5-01-06 and 5-01-09 of the North Dakota Century Code.

Section 5-01-06, N.D.C.C., is sometimes referred to as the "Civil Damage Act" or the "Dram Shop Act." This statute reads as follows:

"5-01-06. Recovery of damages resulting from intoxication. — Every wife, child, parent, guardian, employer, or other person who shall be injured in person, property or means of support by any intoxicated person, or in consequence of intoxication, shall have a right of action against any person who shall have caused such intoxication by disposing, selling, bartering, or giving away alcoholic beverages contrary to statute for all damages sustained."

House Bill 1491 would limit civil liability under the Dram Shop Act to licensed or unlicensed sellers of alcoholic beverages. I believe this legislation to be harmful to the residents of North Dakota.

The proponents of this legislation argue that one should be able to serve intoxicants to guests in one's home without fear of being held civilly liable because of negligent acts committed by a guest who was served the intoxicants. I submit that the primary emphasis should be on the protection of totally innocent third parties who may be injured or killed because of the intoxication of the guest.

The amendment to section 5-01-09 consists of the word "obviously" before the words "intoxicated person" in that section. The effect of the amendment is to make it more difficult for a plaintiff to recover from a liquor dealer who has sold intoxicants to an individual who has, because of

that intoxication, either killed or injured someone. The North Dakota Supreme Court has, in various decisions, set forth what a plaintiff must prove in order to recover from a dispenser of alcoholic beverages. It is submitted that there should be no further roadblocks placed in the way of the legitimately injured plaintiff to recover from someone whose actions of selling or providing excessive alcoholic beverages to another person has caused the injury or death of the plaintiff.

For the above reasons, I veto House Bill 1491.

Sincerely yours,  
ARTHUR A. LINK  
Governor

MESSAGE FROM THE SENATE  
STATE OF NORTH DAKOTA  
EXECUTIVE OFFICE  
BISMARCK

The Honorable Wayne G. Sanstead  
President of the Senate  
Senate Chambers  
Bismarck, North Dakota 58505

Dear Mr. President:

Senate Bill 2340 amends present statutes to move the date of primary elections from the first Tuesday in September to the second Tuesday in June of every general election year and provides for a presidential preference primary in presidential election years.

I consider this bill objectionable for the following reasons:

1) North Dakota's present delegate selection procedures at the precinct, district, and state levels have served the state well in terms of providing national delegations that are representative of their respective parties and a credit to the state. This has been done without the additional time and expense of a statewide presidential preference primary, the outcome of which is often determined by the volume of campaign funds a candidate is able to spend on mass media. North Dakota does not need a presidential preference primary in order to have a significant and responsible role in the nomination of national candidates.

2) Moving the primary date from September to June would extend the length of time in which candidates, parties, and the public would be involved in political campaigns. Present law provides adequate time for political parties and independent groups to present their positions on issues and their candidates for voter assessment and final casting of ballots.

3) Changing the primary date to June would significantly increase the cost of campaigns.

4) A September primary appears to be in better harmony with the rhythm of North Dakota's lifestyle. It comes at the end of the active planting and harvesting cycles which are so important to our economy. It comes at a time when our families are home from vacations and children are back in school.

5) A September primary is closer to the November general election and thus attracts more interest on the part of voters. A June primary seems far removed from the November general election five months later, in this day of instant communication and rapid travel.

For these reasons, I veto Senate Bill 2340.

Sincerely yours,  
ARTHUR A. LINK  
Governor

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF THE STATE OF NORTH DAKOTA:

SECTION 1. LEGISLATIVE FINDINGS.) The legislative assembly finds that it is necessary to exercise the police power of this state in order to protect the economic well-being of its citizens by requiring the recordation of mineral interests, whether freehold or leasehold. The legislative assembly further finds that recording mineral interests will aid in the taxation of such interests and in the development and transfer of mineral interests and of the surface estates overlying such interests.

SECTION 2. MINERAL INTEREST - RECORDATION - ESCHEAT - SALE.) Any interest in minerals in place, whether freehold or leasehold, not owned by a governmental entity, shall escheat to the county in which the minerals are located unless the interest was recorded after June 30, 1952, in the manner provided by section 3. The interest, if recorded after June 30, 1952, shall escheat to the county in which the minerals are located only if a period of thirty years passes during which the interest is not recorded. Any mineral interest which escheats to a county as provided by this section, shall be sold by that county for an amount not to exceed a pro rata share of the administrative costs incurred by that county in complying with the provisions of this Act from the time of the last such sale. The owner of the surface estate overlying the minerals shall have the first option to purchase the mineral interest.

SECTION 3. RECORDED NOTICE - CONTENTS.) The recordation required by this Act shall be made with the registrar of deeds of the county in which the minerals are located. The recorded notice shall be notarized and shall contain the name and address of the person claiming a mineral interest, the nature of the interest, and the location of the minerals in which an interest is claimed.

SECTION 4. REDEMPTION.) Any persons claiming an interest in minerals which has escheated under the provisions of this Act may, within one year after the date of escheat, bring an action in a court of proper jurisdiction to seek redemption of the interest. To obtain redemption, the person must prove ownership of the interest prior to the date of escheat and tender payment to the person who purchased the interest from the county in the amount of the purchase price plus interest at a rate currently being offered by the Bank of North Dakota on passbook savings accounts. Any persons redeeming a mineral interest under this section shall have the benefit of any contract concerning the mineral interest into which the purchaser may have entered.

SECTION 5. NOTICE OF REQUIREMENTS OF ACT.) Notice of the provisions of sections 1 through 4 of this Act shall be published quarterly until July 1, 1982, and annually thereafter in the official newspaper of each county in the state.

PRESENTATION OF PETITIONS AND COMMUNICATIONS  
State of North Dakota

## EXECUTIVE OFFICE

BISMARCK

**The Honorable Vernon Wagner**

Speaker of the House

House Chambers

Bismarck, North Dakota 58505

Dear Mr. Speaker:

House Bill 1075, the "North Dakota Products Liability Act", was presented to the Forty-Sixth Legislative Assembly as part of the nationwide effort to limit products liability actions and recoveries. The bill regulates products liability actions by establishing a statute of limitations, granting some defenses to manufacturers and retailers, and establishing certain rebuttable presumptions of freedom from defects.

The proponents of the bill and a majority of the members of the interim committee which studied the bill believed that the measures contained in this bill would help reduce future premium increases. They hope that the bill will help solve the problems of availability and affordability of products liability insurance.

I am not unmindful that products liability insurance costs have been a major problem for some businesses. Sharply rising insurance premiums have driven up the price of high-risk products such as farm machinery, machine tools, automobile parts, and sporting goods. I am not unsympathetic with North Dakota manufacturers who claim that spiraling insurance costs have forced them to go without products liability insurance coverage.

However, this bill would unreasonably curtail the rights of North Dakota product users without providing North Dakota manufacturers hope-for relief.

A summary of the bill, with my objections, follows:

The first two sections of the bill state the name of the Act and set forth the legislative intent and purpose. The legislative findings are that the number of lawsuits and the amount of judgments have substantially increased in recent years and that these increases have raised the cost of products liability insurance, which has, in turn, resulted in higher costs being passed on to consumers.

Section 3, the most highly publicized section of the bill, provided for a new statute of limitations in products liability cases. Current law in North Dakota provides that most product liability and other tort actions must be commenced within six years after the cause of action accrues. In a products liability case, the cause of action usually accrues when the injury occurs, so that an action must be brought within six years after the date of injury. The purpose of statutes of limitations is not to protect defendants but instead to deter plaintiffs from "sleeping on their rights" and waiting so long to bring suit that the defendants would be at a disadvantage in litigating stale claims.

The unconventional statute of limitations in House Bill 1075 prohibits actions brought more than ten years from the date of the initial purchase or eleven years from the date of the manufacture of the product. This is so even though many machines are designed to last much longer than ten years and injuries will continue to occur more than eleven years after the manufacture of the product. I seriously question a ten year statute of limitations that could run out before the injury occurs.

Perhaps the greatest evil in the bill is embodied in subsection 2 of section 3. It states that even children and incompetents are barred by the ten or eleven year statute of limitations. This is unconscionable. The provi-

sion is directly contrary to present law, which provides that young people may sue up to and briefly after reaching the age of majority.

Section 4 of the bill puts a limitation on the Ad Damnum Clause and, as such, is a legislative attempt to regulate matters of civil procedure. This attempt is probably unconstitutional. According to Article IV of the North Dakota Constitution, procedural matters are solely within the jurisdiction of the Supreme Court.

Section 5 insulates a manufacture or seller from liability for a defective product or for "failure to warn" or "instruct in the use" of the product if a "substantial contributing cause" of the injury was the alternation or modification of the product by the user. Thus, even a modification which the manufacturer should have expected to be made will free the manufacturer from any liability. This total defense will apply even though the modification is not the principal cause of the injury, but only a substantial contributing cause.

I believe that the present law of comparative negligence should not be tampered with. Section 5 would change the law for this one type of case and go back in time to the doctrine of strict contributory negligence. North Dakota's tort law in this area has evolved through volumes of case law. Now with "one stroke" of the pen, the Legislature would take away rights from seriously injured citizens and at the same time enact legislation that will take many Supreme Court cases to determine what is meant by "a substantial contributing cause." Under our present law of comparative negligence, a judge or jury can make an award proportionate to the contribution of the manufacturer and the person making the alteration in cases where both the original product and the alteration contribute to the injury.

The three subsections of section 6 of the Act alter the law and not for the better. Subsection 1 states that, in order to be "defective", a product must have a defective condition at the time of sale. In other words a shoddy product which was not defective at the time of sale, but becomes defective shortly thereafter because of poor workmanship, would not be subject to suit because the defect developed after the sale.

Subsection 2 of section 6 would be impossible to apply. It changes the definition of "unreasonably dangerous", so that the test is not whether the product was in fact dangerous, a fact which a manufacturer ought to be able to ascertain, but instead the test becomes whether the "ordinary and prudent buyer, consumer, or user" contemplates the product to be dangerous. Thus the test is transferred from what the manufacturer should have known to what the ordinarily uninformed, untrained, and in-expert buyer thinks is dangerous. This is something that is simply unheard of in tort law.

Subsection 3 of section 6 provides a rebuttable presumption that a product is free from defect if the product is in conformity with "government" standards at the time it was made. Government standards are often minimum standards, usually not even designed to cover questions of safety. They should not be determinative of rights of injured people.

In addition to the harmful sections of the bill itself, as I outlined above, I also strenuously object to the philosophy of this legislation. I do not understand why our Legislature shows more concern for out-of-state manufacturers than for injured North Dakota citizens. North Dakota imports more than 95% of the finished products sold here. Our North Dakota resident who becomes crippled by a product made in an industrial state will be limited only to what is allowed in the bill. That is unfair.

I have recently signed into law House Bill 1589, a piece of legislation

which, unlike House Bill 1075, will affirmatively address one of the problems that the proponents of this bill hoped to solve. House Bill 1589 requires the manufacturer not only to indemnify the North Dakota retailer, but also come to his defense and provide the cost of defense for suits arising out of allegations of defective manufacture, design, or lack of warning by the manufacturer. This legislation will provide protection to retailers and will make available to those retailers the basis upon which liability premiums can be reduced or maintained at the present level.

House Bill 1075 is particularly untimely at this time in light of communication I have received from the United States Department of Commerce. According to Victor E. Schwartz, the chairman of the Task Force on Product Liability and Accident Compensation in the Department of Commerce, the Commerce Department's strong recommendation is that state legislatures not strike out with independent legislative proposals at a time when this matter is being carefully reviewed nationally, and a model uniform products liability bill is being proposed for adoption. That model bill differs considerably from House Bill 1075. In fact it does attempt to balance the interests of product users, sellers, and insurers. Public comment on that bill should be completed by June, 1979.

I submit that the problem of rising products liability insurance rates is a national problem and should be addressed at the national level. In that regard, the Commerce Department Task Force and subsequent state studies have found that product liability rates are formed on a country-wide basis. Stability in rates can only be achieved if the major aspects of product liability law are uniform throughout the states.

In conclusion, I respectfully pose a question to the Forty-Sixth Legislative Assembly. Do we as North Dakotans really want to cut off our citizens' rights to recover if they are maimed or killed by a machine, and at the same time leave our manufacturers exposed to pay for people hurt in other states for the occasional faulty product that may be shipped to them from our state?

In the interest of human life and in the name of the health and safety of the citizens of this state, I hereby set my hand to veto House Bill 1075.

Sincerely yours,  
ARTHUR A. LINK  
Governor

The Honorable Vernon Wagner  
Speaker of the House

Dear Mr. Speaker:

House Bill 1291, as passed by the Forty-Sixth Legislative Assembly, would exempt coal conversion facilities from property tax while they are under construction. Under present law, these plants are taxable during the construction phase. Once a coal conversion facility comes into pro-

duction, present law imposes a conversion privilege tax upon the plant based upon production in lieu of property taxes.

My objection to the exemption of power plants from property tax during construction is based on simple fairness.

A house in the city that is under construction on the assessment date is subject to assessment and taxation according to its value in its uncompleted state.

A commercial building under construction on the assessment date is subject to property tax.

Industrial buildings under construction on the assessment date are subject to assessment and taxation even if the plant will receive a new industry property tax exemption, upon completion of construction, pursuant to chapter 40-57.1, N.D.C.C.

It is unfair to exempt a large coal conversion facility from taxes during the time it is under construction when other property in the state is subject to assessment and taxation while under construction.

As an example of the effect the passage of House Bill 1291 could have on a county in terms of lost revenue, I would cite the property taxes levied on Coal Creek Station while under construction. McLean County levied a total of \$600,672.58 in taxes on the Coal Creek Station buildings and power plant in 1976 and 1977 while the plant was under construction. This tax is a legitimate source of revenue to a county experiencing the impact of the construction of a large coal conversion facility.

For these reasons, I veto House Bill 1291.

Sincerely yours,  
 ARTHUR A. LINK  
 Governor

#### CONSIDERATION OF MESSAGES FROM THE SENATE

State of North Dakota  
 EXECUTIVE OFFICE  
 BISMARCK

The Honorable Wayne G. Sanstead  
 President of the Senate  
 Senate Chambers  
 Bismarck, North Dakota 58505  
 Dear Mr. President:

Senate Bill 2052 provides that possession of any amount of hashish is a Class C felony. The bill also provides for a graduated penalty system for marijuana possession offenses as follows:

- 1) under one-half ounce, Class B misdemeanor;
- 2) one-half ounce to one ounce, Class A misdemeanor;
- 3) more than one ounce, Class C felony.

The bill also states that a person who pleads guilty or is found guilty of a first offense of possessing one ounce or less of marijuana may, after two years, petition a court to have his or her record expunged, if the person has not been subsequently convicted of any criminal offense.

By decreasing the penalty for possession of one-half ounce or less of marijuana, the Legislature may be encouraging wider experimentation and use of this drug.

More and more evidence is becoming available of the harmful effects of the use of marijuana.

For this reason, I veto Senate Bill 2052.

Sincerely yours,  
ARTHUR A. LINK  
Governor
