 - b. To the extent the division deems reasonable because of the contributory misconduct of the claimant or of a victim on whose behalf compensation is claimed; and

8. Compensation payable to a victim and to all other claimants sustaining economic loss because of injury to or death of that victim may not exceed twenty-five thousand dollars in the aggregate. The maximum additional compensation the division may pay is the difference between twenty-five thousand dollars and the total amount of crime victims compensation benefits payable where the criminally injurious conduct occurred.

SECTION 4. Three new subsections to section 54-23.4-10 of the 1995 Supplement to the North Dakota Century Code are created and enacted as follows:

A claim for crime victims compensation benefits is presumed closed if the division has not paid any benefit or received a demand for payment of benefits for a period of five years from the date a payment was last made on a claim. A claim that is presumed closed may not be reopened for payment of any further benefits unless the presumption is rebutted by a preponderance of the evidence that the criminally injurious conduct is the principal cause of the current symptoms.

A claim for crime victims compensation benefits must be closed ten years after benefits have last been paid and may not be reopened.

This section applies to all claims for crime victims compensation benefits, irrespective of the date of the criminally injurious conduct.

SECTION 5. AMENDMENT. Section 54-23.4-11 of the 1995 Supplement to the North Dakota Century Code is amended and reenacted as follows:

Attorney's fees may be denied on a finding that the claim or appeal is frivolous or that the appeal was unsuccessful if the claimant prevails after a petition for reconsideration or rehearing under section 28-32-14 from an order reducing or denying crime victims compensation benefits. A district court may award attorney's fees in an appeal pursuant to section 28-32-15 if the claimant prevails on appeal from an order reducing or denying benefits. Attorney's fees are allowable for settlement of a disputed claim.~~ Attorney's fees are not allowable for assisting a claimant in filing a claim. An award of attorney's fees is in addition to an award of compensation ~~and may be made whether or not compensation is awarded.~~ An award of attorney's fees may not exceed the lesser of twenty percent of the compensation awarded or one thousand dollars. No attorney may contract for or receive any larger sum than the amount allowed.

SECTION 6. AMENDMENT. Section 54-23.4-12 of the 1995 Supplement to the North Dakota Century Code is amended and reenacted as follows:

54-23.4-12. Subrogation - Actions - Allocation of expenses.

1. If compensation is awarded, the ~~state~~ division is subrogated to all the claimant's rights to receive or recover benefits or advantages, for economic loss for which and to the extent only that compensation is awarded, from a source that is, or, if readily available to the claimant, would be, a collateral source.
2. ~~As a prerequisite~~ Prior to bringing an action to recover damages related to criminally injurious conduct for which compensation is claimed or awarded, the claimant shall give the division ~~prior~~ written notice of the proposed action. ~~After receiving the notice, the division shall promptly:~~
 - a. ~~Join in the action as a party plaintiff to recover compensation awarded;~~
 - b. ~~Require the claimant to bring the action in the claimant's individual name, as a trustee in behalf of the state, to recover compensation awarded; or~~
 - c. ~~Reserve its rights and do neither in the proposed action.~~

~~If, as requested by the division, the claimant brings the action as trustee and recovers compensation awarded by the division, the claimant may deduct from the compensation recovered in behalf of the state the reasonable expenses, including attorney's fees, allocable by the court for~~

~~that recovery.~~ If a claimant brings an action for the recovery of damages related to criminally injurious conduct for which compensation is claimed or awarded, the division is subrogated to the rights of the claimant up to the total amount the division has paid. When there has been a recovery of damages, the costs of the action, to be paid by the division from the recovery, exclusive of attorney's fees, must be prorated and adjusted on the percentage of the total subrogation interest of the division recovered to the total recovery. If there is a recovery, the division shall pay attorney's fees to the claimant's attorney from the recovery in the amount of twenty-five percent of the subrogation interest recovered. For purposes of this section, recovery includes proceeds paid pursuant to a settlement, confession of judgment, or judgment of a court. The division may intervene in the action to recover compensation awarded. The division has a lien on a recovery to the extent it has paid compensation.

3. If a judgment or verdict indicates separately economic loss and noneconomic detriment, payments on the judgment must be allocated between them in proportion to the amounts indicated. In an action in a court of this state arising out of criminally injurious conduct, the judge, on timely motion, shall direct the jury to return a special verdict, indicating separately the awards for noneconomic detriment, punitive damages, and economic loss.

SECTION 7. EFFECTIVE DATE. This Act is effective August 1, 1997, for all claims for crime victims compensation benefits, irrespective of the date of the criminally injurious conduct or the date of application for crime victims compensation benefits.

AGRICULTURAL PROPERTY ASSESSMENT FORMULA

AN ACT to amend and reenact section 57-02-27.2 of the North Dakota Century Code, relating to use of annual gross returns to determine agricultural property assessments; and to provide an effective date.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

⁶ **SECTION 1. AMENDMENT.** Section 57-02-27.2 of the 1995 Supplement to the North Dakota Century Code is amended and reenacted as follows:

57-02-27.2. (Effective for first ~~three~~ taxable years year beginning after December 31, ~~1994~~ 1996) Valuation and assessment of agricultural lands. "True and full value" of agricultural lands must be their agricultural value for the purposes of sections 57-02-27, 57-02-27.1, 57-02-27.2, and 57-55-04. Agricultural value is defined as the "capitalized average annual gross return". The "annual gross return" must be determined from crop share rent, cash rent, or a combination thereof reduced by estimated property taxes and crop marketing expenses incurred by farmland owners renting their lands on a cash or crop share basis. For purposes of this section, "annual gross return" for cropland used for growing crops other than sugar beets and potatoes means thirty percent of annual gross income produced, "annual gross return" for cropland used for growing sugar beets and potatoes means twenty percent of annual gross income produced, and "annual gross return" for land used for grazing farm animals means twenty-five percent of an amount determined by the agricultural economics department of North Dakota state university to represent the annual gross income potential of the land based upon the animal unit carrying capacity of the land. The "average annual gross return" for each county must be determined as follows:

1. Total the annual gross returns for the most recent ~~six~~ seven years immediately preceding the current year for which data is available and discard the highest and lowest annual gross returns of the ~~six~~ seven.
2. Divide the figure arrived at in subsection 1 by ~~four~~ five.

To find the "capitalized average annual gross return" ~~for years after 1983~~, the average annual gross return must be capitalized by a rate ~~which~~ that is a ten-year average of the gross federal land bank mortgage rate of interest for North Dakota. The ten-year average must be computed from the twelve years ending with the most recent year used in subsection 1, discarding the highest and lowest years, and the

gross federal land bank mortgage rate of interest for each year must be determined in the manner provided in section 20.2032A-4(e)(1) of the United States treasury department regulations for valuing farm real property for federal estate tax purposes, except that the interest rate may not be adjusted as provided in paragraph (e)(2) of section 20.2032A-4.

~~It is the duty of the~~ The agricultural economics department of North Dakota state university ~~to shall~~ compute annually an estimate of the average agricultural value per acre [.40 hectare] of agricultural lands on a statewide and on a countywide basis, ~~to shall~~ compute the average agricultural value per acre [.40 hectare] for cropland and noncropland, which is agricultural land, for each county, and ~~to shall~~ provide the tax commissioner with this information by December first of each year. Fifty percent of the annual gross income from irrigated cropland must be considered additional expense of production and may not be included in computation of the average agricultural value per acre [.40 hectare] for cropland for the county as determined by the agricultural economics department. ~~Prior to~~ Before January first of each year, the tax commissioner shall provide to each county director of tax equalization these estimates of agricultural value for each county.

~~Prior to~~ Before February first of each year, the county director of tax equalization in each county shall provide to all assessors within the county an estimate of the average agricultural value of agricultural lands within each assessment district. ~~Such~~ The estimate must be based upon the average agricultural value for the county adjusted by the relative values of lands within each assessment district compared to the county average. In determining the relative value of lands for each assessment district compared to the county average, the county director of tax equalization ~~shall~~, wherever possible, shall use soil type and soil classification data from detailed and general soil surveys. Where such data cannot be used, the county director of tax equalization shall use whatever previous assessment data is best suited to the purpose.

~~It is the duty of each~~ Each local assessor ~~to shall~~ determine the relative value of each assessment parcel within ~~his~~ the assessor's jurisdiction and ~~to shall~~ determine the agricultural value of each assessment parcel by adjusting the agricultural value estimate for the assessment district by the relative value of the parcel. Each parcel must then be assessed according to ~~the provisions in~~ section 57-02-27. If either a local assessor or a township board of equalization develops an agricultural value for the lands in its assessment district differing substantially from the estimate provided by the county director of tax equalization, written evidence to support the change must be provided to the county director of tax equalization.

(Effective for taxable years beginning after December 31, 1997) Valuation and assessment of agricultural lands. "True and full value" of agricultural lands must be their agricultural value for the purposes of sections 57-02-27, 57-02-27.1, 57-02-27.2, and 57-55-04. based upon the animal unit carrying capacity of the land. The "average annual gross return" for each county must be determined as follows:

1. ~~Total~~ For taxable year 1998, total the annual gross returns for the most recent ~~six~~ eight years immediately preceding the current year for which data is available and discard the highest and lowest annual gross returns of the ~~six~~ eight. For taxable year 1999, total the annual gross returns for the nine years immediately preceding the current year for which data is available and discard the highest and lowest annual gross returns of the nine. For taxable year 2000 and thereafter, total the annual gross returns for the ten years immediately preceding the current year for which data is available and discard the highest and lowest annual gross returns of the ten.
2. ~~Divide~~ For taxable year 1998, divide the figure arrived at in subsection 1 by ~~four~~ six. For taxable year 1999, divide the figure arrived at in subsection 1 by seven. For taxable year 2000 and thereafter, divide the figure arrived at in subsection 1 by eight.

To find the "capitalized average annual gross return" ~~for years after 1983~~, the average annual gross return must be capitalized by a rate ~~which~~ that is a ten-year average of the gross federal land bank mortgage rate of interest for North Dakota. The ten-year average must be computed from the twelve years ending with the most recent year used in subsection 1, discarding the highest and lowest years, and the gross federal land bank mortgage rate of interest for each year must be determined in the manner provided in section 20.2032A-4(e)(1) of the United States treasury department regulations for valuing farm real property for federal estate tax purposes, except that the interest rate may not be adjusted as provided in paragraph (e)(2) of section 20.2032A-4.

~~It is the duty of the~~ The agricultural economics department of North Dakota state university ~~to~~ shall compute annually an estimate of the average agricultural value per acre [.40 hectare] of agricultural lands on a statewide and on a countywide basis, ~~to~~ shall compute the average agricultural value per acre [.40 hectare] for cropland and noncropland, which is agricultural land, for each county, and ~~to~~ shall provide the tax commissioner with this information by December first of each year. ~~Prior to~~ Before January first of each year, the tax commissioner shall provide to each county director of tax equalization these estimates of agricultural value for each county.

In determining the relative value of lands for each assessment district compared to the county average, the county director of tax equalization ~~shall~~, wherever possible, shall use soil type and soil classification data from detailed and general soil surveys. Where such data cannot be used, the county director of tax equalization shall use whatever previous assessment data is best suited to the purpose.

~~It is the duty of each~~ Each local assessor ~~to~~ shall determine the relative value of each assessment parcel within ~~his~~ the assessor's jurisdiction and ~~to~~ shall determine the agricultural value of each assessment parcel by adjusting the agricultural value estimate for the assessment district by the relative value of the

 6. Under this section a taxing district may supersede any applicable mill levy limitations otherwise provided by law, or a taxing district may levy up to the mill levy limitations otherwise provided by law without reference to this section, but the provisions of this section do not apply to the following:
 - a. Any irrevocable tax to pay bonded indebtedness levied pursuant to section 16 of article X of the Constitution of North Dakota.
 - b. The one-mill levy for the state medical center authorized by section 10 of article X of the Constitution of North Dakota.
 7. A school district choosing to determine its levy authority under this section may apply subsection 3 only to the amount in dollars levied for general fund purposes under section 57-15-14 or, if the levy in the base year included separate general fund and special fund levies under sections 57-15-14 and 57-15-14.2, the school district may apply subsection 3 to the total amount levied in dollars in the base year for both the general fund and special fund accounts. School district levies under any section other than section 57-15-14 may be made within applicable limitations but those levies are not subject to subsection 3.
 8. Optional levies under this section may be used by any city or county that has adopted a home rule charter unless the provisions of the charter supersede state laws related to property tax levy limitations.

(Effective for taxable years beginning after December 31, 1998) Protection of taxpayers and taxing districts. Each taxing district may levy the lesser of the amount in dollars as certified in the budget of the governing body, or the amount in dollars as allowed in this section, subject to the following:

1. No taxing district may levy more taxes expressed in dollars than the amounts allowed by this section.
2. For purposes of this section:
 - a. "Base year" means the taxing district's taxable year with the highest amount levied in dollars in property taxes of the three taxable years immediately preceding the budget year;
 - b. "Budget year" means the taxing district's year for which the levy is being determined under this section; ~~and~~
 - c. "Calculated mill rate" means the mill rate that results from dividing the base year taxes levied by the sum of the taxable value of the taxable property in the base year plus the taxable value of the ~~exempt~~ property exempt by local discretion or charitable status, calculated in the same manner as the taxable property; and
 - d. "Property exempt by local discretion or charitable status" means property exempted from taxation as new or expanding businesses under chapter 40-57.1; improvements to property under chapter 57-02.2; or buildings belonging to institutions of public charity, new single-family residential or townhouse or condominium property, property used for early childhood services, or pollution abatement improvements under section 57-02-08.
3. A taxing district may elect to levy the amount levied in dollars in the base year. Any levy under this section must be specifically approved by a resolution approved by the governing body of the taxing district. Before determining the levy limitation under this section, the dollar amount levied in the base year must be:
 - a. Reduced by an amount equal to the sum determined by application of the base year's calculated mill rate for that taxing district to the final base year taxable valuation of any taxable property and ~~exempt~~ property that exempt by local discretion or charitable status which is not included in the taxing district for the budget year but was included in the taxing district for the base year.
 - b. Increased by an amount equal to the sum determined by the application of the base year's calculated mill rate for that taxing district to the final budget year taxable valuation of any taxable property or ~~exempt~~ property that exempt by local discretion or charitable status which was not included in the taxing district for the base year but which is included in the taxing district for the budget year.
 - c. Reduced to reflect expired temporary mill levy increases authorized by the electors of the taxing district.

4. A taxing district may levy an amount in dollars equal to the amount levied in any of the previous three years reduced to reflect expired temporary mill levy increases authorized by the electors of the taxing district and increased by an amount equal to the sum determined by the application of any unused mill levy authority from that year, which was authorized by law or by the electors of that taxing district but not levied for that year, to the budget year taxable valuation of the taxable property in that taxing district. A taxing district electing to increase its levy under this subsection may not add any amount permitted by subsection 3 to the amount levied under this subsection.
5. In addition to any other levy limitation factor under this section, a taxing district may increase its levy in dollars to reflect new or increased mill levies authorized by the legislative assembly or authorized by the electors of the taxing district.
6. Under this section a taxing district may supersede any applicable mill levy limitations otherwise provided by law, or a taxing district may levy up to the mill levy limitations otherwise provided by law without reference to this section, but the provisions of this section do not apply to the following:
 - a. Any irrevocable tax to pay bonded indebtedness levied pursuant to section 16 of article X of the Constitution of North Dakota.
 - b. The one-mill levy for the state medical center authorized by section 10 of article X of the Constitution of North Dakota.
7. A school district choosing to determine its levy authority under this section may apply subsection 3 only to the amount in dollars levied for general fund purposes under section 57-15-14 or, if the levy in the base year included separate general fund and special fund levies under sections 57-15-14 and 57-15-14.2, the school district may apply subsection 3 to the total amount levied in dollars in the base year for both the general fund and special fund accounts. School district levies under any section other than section 57-15-14 may be made within applicable limitations but those levies are not subject to subsection 3.
8. Optional levies under this section may be used by any city or county that has adopted a home rule charter unless the provisions of the charter supersede state laws related to property tax levy limitations.

SECTION 2. Chapter 57-35.3 of the North Dakota Century Code is created and enacted as follows:

57-35.3-01. Definitions. As used in sections 57-35.3-01 through 57-35.3-12, unless the context otherwise requires:

1. "Commissioner" means the state tax commissioner.
2. "Financial institution" means:
 - a. A corporation or other business entity registered under state law as a bank holding company, registered under the Bank Holding Company Act of 1956, as amended [Pub. L. 84-240; 70 Stat. 133; 12 U.S.C. 1841 et seq.], or registered as a savings and loan holding company under the National Housing Act, as amended [Pub.  - i. A corporation the voting stock of which is more than fifty percent owned, directly or indirectly, by any person or business entity described in subdivisions a through h other than an insurance company taxable under section 26.1-03-17 or a corporation taxable under chapter 57-38;
 - j. A corporation or other business entity that derives more than fifty percent of its total gross income for financial accounting purposes from finance leases. For purposes of this subdivision, a "finance lease" means any lease transaction that is the functional equivalent of an extension of credit and which transfers substantially all of the benefits and risks incident to the ownership of property. The phrase includes any "direct financing lease" or "leverage lease" that

meets the criteria of financial accounting standards board statement no. 13, "accounting for leases", or any other lease that is accounted for as a financing by a lessor under generally accepted accounting principles. For the classification under this subdivision to apply:

- (1) The average of the gross income in the current tax year and immediately preceding two tax years must satisfy the more than fifty percent requirement; and

For the purpose of this subsection, the computation of gross income does not include income from nonrecurring, extraordinary items.

The commissioner may exclude any person from the application of subdivision k upon that person proving, by clear and convincing evidence, that the income-producing activity of that person is not in substantial competition with those persons described in subdivisions b through h and j.

3. "Internal Revenue Code" means the United States Internal Revenue Code of 1986, as amended.
4. "Taxable income" means federal taxable income, as defined in the Internal Revenue Code, determined on a separate legal entity basis, with the modifications provided in section 57-35.3-02.
5. "Taxpayer" means an entity subject to the tax imposed by sections 57-35.3-01 through 57-35.3-12.

Any term used in sections 57-35.3-01 through 57-35.3-12 has the same meaning as when used in a comparable context in the Internal Revenue Code unless a different meaning is clearly required or intended.

57-35.3-02. Taxable income.

1. In determining "taxable income" there must be added to federal taxable income:
 - a. The adjustments provided by subdivisions d, e, and i of subsection 1 of section 57-38-01.3;
 - b. Interest not subject to federal tax upon obligations of the state of North Dakota and its political subdivisions;
 - c. The amount of any charitable contribution deduction taken for federal income tax purposes under section 170 of the Internal Revenue Code;

- d. In the case of a building and loan association or savings and loan association, the amount of any bad debt reserve deduction taken for federal income tax purposes under section 585 of the Internal Revenue Code; and
 - e. Dividends paid by a federal reserve bank to the extent not subject to federal tax.
- 2. In determining "taxable income" there must be subtracted from federal taxable income:
 - a. The adjustments provided by subdivisions b, c, and h of subsection 1 of section 57-38-01.3;
 - b. In the case of a financial institution described in subdivision a of subsection 2 of section 57-35.3-01, the adjustment provided by subdivision g of subsection 1 of section 57-38-01.3;
 - c. In the case of a building and loan association or savings and loan association that uses the bad debt reserve method under section 585 of the Internal Revenue Code to account for bad debts for federal income tax purposes, an amount equal to the deduction for bad debts that would have been allowed under section 166(a) of the Internal Revenue Code if a deduction had not been claimed under section 585 or 593;
 - d. The amount of any adjustments taken into account for federal income tax purposes under section 593(g) of the Internal Revenue Code;
 - e. The amount of any interest and expenses relating to income not taxable for federal income tax purposes if the income is taxable under sections 57-35.3-01 through 57-35.3-12 and the interest and expenses were disallowed as deductions under section 171(a)(2), 265, or 291 of the Internal Revenue Code in computing federal taxable income;
 - f. The amount of any wage and salary expenses disallowed as deductions under section 280C(a) of the Internal Revenue Code in computing federal taxable income;
 - g. An amount equal to the deduction for charitable contributions that would be allowed for federal income tax purposes under section 170 of the Internal Revenue Code if the percentage limitation of section 170(b)(2) of the Internal Revenue Code was applied in all relevant taxable periods to taxable income, rather than federal taxable income, but computed without regard to this subdivision and that portion of subdivision a that refers to subdivision g of subsection 1 of section 57-38-01.3. However, no deduction is allowable for a contribution if and to the extent that a credit is allowed for the contribution under section 57-35.3-05; and
 - h. The amount of net income not allocated and apportioned to this state under sections 57-35.3-13 through 57-35.3-17, but only to the extent that the amount of net income not allocated and apportioned

to this state under those sections is not included in any adjustment made pursuant to the preceding subdivisions.

3. A net operating loss for any prior taxable period, attributable to North Dakota sources, must be allowed as a deduction from the sum otherwise calculated under this section to the extent that it exceeds the taxable income for each of the prior taxable years to which the loss may be carried under sections 57-35.3-01 through 57-35.3-12 or under prior chapters 57-35, 57-35.1, or 57-35.2, or corporations under chapter 57-38, governing the taxation of the taxpayer. Net operating losses may be carried forward for the same time period as federal net operating losses may be carried forward. If a financial institution uses an apportionment formula in the loss year to determine the amount of income or loss that is attributable to North Dakota sources, the amount of the North Dakota loss so determined is the net operating loss attributable to North Dakota sources for purposes of this subsection. No deduction may be taken for a carryforward when determining the amount of net operating loss that is attributable to North Dakota sources. No net operating loss carryback deduction is allowed.
4. The commissioner may adopt rules to prevent requiring income that had been previously taxed under sections 57-35.3-01 through 57-35.3-12, or prior law governing the taxation of financial institutions, from being taxed again because of the provisions of sections 57-35.3-01 through 57-35.3-12 and to adopt rules to prevent any income from becoming exempt from taxation because of sections 57-35.3-01 through 57-35.3-12 if it would otherwise have been subject to taxation under sections 57-35.3-01 through 57-35.3-12.
5. If it appears to the commissioner that the segregation of assets shown by any return made under sections 57-35.3-01 through 57-35.3-12 does not properly reflect the taxpayer's activity or business done, or the income earned from the taxpayer's activity or from business done in this state, because of the character of the taxpayer's business and the character and location of its assets, the commissioner may equitably adjust the tax.

57-35.3-03. Imposition and basis of tax. An annual tax is imposed upon each financial institution for the grant to it of the privilege of transacting, or for the actual transacting by it, of business within this state during any part of each tax year. The tax is based upon and measured by the taxable income of the financial institution for the calendar year. The rate of tax is seven percent of taxable income, but the amount of tax may not be less than fifty dollars.

57-35.3-04. Lieu tax. The tax imposed by sections 57-35.3-01 through 57-35.3-12 is in lieu of all other state, county, or local taxes or impositions, except motor vehicle fuel and special fuel taxes, sales and use taxes, motor vehicle excise taxes, and real property taxes.

57-35.3-05. Credits.

1. a. There is allowed a credit against the tax imposed by sections 57-35.3-01 through 57-35.3-12 in an amount equal to fifty percent of the aggregate amount of charitable contributions made by the taxpayer during the taxable year to nonprofit private institutions of higher education located within the state or to the North Dakota independent college fund. The amount allowable as a credit under

- (2) The credited amount must be deducted from the distributions that would otherwise be made to and from the county that received the tax overpayment until the sum of the deductions equals the credit; and
- (3) The deductions from distributions made by a county to each distributee must be proportionate to the overpayment of tax received by each distributee.

57-35.3-06. Tax return. On or before April fifteenth of each year, the taxpayer shall file with the commissioner, on forms or in a manner prescribed by the commissioner, a report in writing under oath showing the amount of taxable income of the financial institution for the preceding calendar year. If required by the commissioner, the return must be accompanied by a true copy of the federal income tax return of the taxpayer or by equivalent information in the form and manner prescribed by the commissioner. A true copy of the federal income tax return must be furnished to the commissioner by the taxpayer at any time after the taxpayer has filed the return required by this section if required by the commissioner before the expiration of the applicable period for assessment of additional tax liability under section 57-38-38. The commissioner may prescribe alternative methods for signing, subscribing, or verifying a return filed by electronic means, including telecommunications, that has the same validity and consequence as the actual signature and written declaration for a paper return. The commissioner may grant a reasonable extension of time for filing a return under the standards and terms applicable to other corporations under section 57-38-34.

57-35.3-07. Payment of tax. Two-sevenths of the tax before credits allowed under section 57-35.3-05, less the credit allowed under subsection 1 of section 57-35.3-05, must be paid to the commissioner on or before April fifteenth of the year in which the return is due, regardless of any extension of the time for filing the return granted under section 57-35.3-06. Five-sevenths of the tax before credits allowed under section 57-35.3-05, less the credit allowed under subsection 2 of section 57-35.3-05, must be paid to the commissioner on or before January fifteenth of the year after the return is due. Payment must be made by check, draft, or money order, payable to the commissioner, or as prescribed by the commissioner under subsection 15 of section 57-01-02.

57-35.3-08. Disposition of tax. The commissioner shall deposit the portion of the tax payable in the year the return is due in the general fund of the state treasury, and shall deposit the portion of the tax payable in the year after the return is due in the financial institution tax distribution fund of the state treasury, which is hereby created. Interest, penalty, and late tax payments attributable to each portion of the tax must be deposited in the appropriate fund.

57-35.3-09. Financial institution tax distribution fund - Continuing appropriation. The balance in the financial institution tax distribution fund on February first of 1999 and each subsequent year must be distributed in the following manner:

1. On or before February 1, 1999, the commissioner shall determine and certify to all county auditors:
 - a. The total amount of tax certified to each county under chapters 57-35 and 57-35.1 in the years 1993 through 1997; and

57-35.3-10. Certification of estimated tax. On or before November fifteenth of 1998 and each subsequent year, the commissioner shall determine the estimated amount of the distribution to be made to each county in the following year under section 57-35.3-09 and shall certify that amount to the county auditor.

57-35.3-11. Refunds. Refunds of the tax imposed by sections 57-35.3-01 through 57-35.3-12, including related interest, must be paid from the state general

The amounts necessary to pay these refunds are hereby appropriated to the state treasurer as a standing and continuing appropriation for payment under this section.

57-35.3-12. Applicable provisions of chapter 57-38 relating to administration, interest, and penalties. The provisions of section 57-38-33, subsection 1 of section 57-38-34, sections 57-38-34.4, 57-38-35.1, 57-38-35.2, 57-38-37, 57-38-38, 57-38-39, 57-38-40, 57-38-44, 57-38-45, 57-38-46, 57-38-47, 57-38-48, 57-38-49, 57-38-50, 57-38-51, 57-38-53, 57-38-54, 57-38-56, and 57-38-57, insofar as consistent therewith, govern the administration of sections 57-35.3-01 through 57-35.3-12. For this purpose, the term "corporation", as used in the sections listed in this section, includes a financial institution.

57-35.3-13. Apportionment and allocation - General.

1. Except as otherwise specifically provided, a financial institution whose business activity is taxable both within and without this state shall allocate and apportion its net income as provided in sections 57-35.3-13 through 57-35.3-17. All items of nonbusiness income, meaning income that is not includable in the apportionable income tax base, must be allocated under chapter 57-38.1. A financial institution organized under the laws of a foreign country, the Commonwealth of Puerto Rico, or a territory or possession of the United States the effectively connected income of which, as defined under the Internal Revenue Code, is taxable both within this state and within another state, other than the state in which it is organized, shall allocate and apportion its net income as provided in sections 57-35.3-13 through 57-35.3-17.
2. All business income, meaning income that is includable in the apportionable income tax base, must be apportioned to this state by multiplying such income by the apportionment percentage. The apportionment percentage is determined by adding the taxpayer's receipts factor under section 57-35.3-15, property factor under section 57-35.3-16, and payroll factor under section 57-35.3-17 together and dividing the sum by three. If one of the factors is missing, the two remaining factors must be added and the sum divided by two. If two of the factors are missing, the remaining factor is the apportionment percentage. A factor is missing if both its numerator and denominator are zero, but it is not missing merely because its numerator is zero.
3. Each factor must be computed according to the method of accounting, cash or accrual basis, used by the taxpayer for the taxable year.
4. If the allocation and apportionment provisions of sections 57-35.3-13 through 57-35.3-17 do not fairly represent the extent of the taxpayer's business activity in this state, the taxpayer may petition for or the commissioner may require, in respect to all or any part of the taxpayer's business activity, if reasonable:
 - a. Separate accounting;

- b. The exclusion of any one or more of the factors;
- c. The inclusion of one or more additional factors that will fairly represent the taxpayer's business activity in this state; or
- d. The employment of any other method to effectuate an equitable allocation and apportionment of the taxpayer's income.

57-35.3-14. Apportionment and allocation - Definitions. As used in sections 57-35.3-13 through 57-35.3-17, unless the context otherwise requires:

1. "Billing address" means the location indicated in the books and records of the taxpayer on the first day of the taxable year, or on such later date in the taxable year when the customer relationship began, as the address where any notice, statement, or bill relating to a customer's account is mailed.
2. "Borrower or credit card holder located in this state" means:
 - a. A borrower, other than a credit card holder, who is engaged in a trade or business that maintains its commercial domicile in this state; or
 - b. A borrower who is not engaged in a trade or business or a credit card holder whose billing address is in this state.
3. "Commercial domicile" means:
 - a. The headquarters of the trade or business, meaning the place from which the trade or business is principally managed and directed; or
 - b. If a taxpayer is organized under the laws of a foreign country, or of the Commonwealth of Puerto Rico, or any territory or possession of the United States, such taxpayer's commercial domicile must be deemed for the purposes of sections 57-35.3-13 through 57-35.3-17 to be the state of the United States or the District of Columbia from which such taxpayer's trade or business in the United States is principally managed and directed. It is presumed, subject to rebuttal, that the location from which the taxpayer's trade or business is principally managed and directed is the state of the United States or the District of Columbia to which the greatest number of employees are regularly connected or out of which they are working, irrespective of where the services of such employees are performed, as of the last day of the taxable year.
4. "Commissioner" means the state tax commissioner.
5. "Compensation" means wages, salaries, commissions, and any other form of remuneration paid to employees for personal services that are included in such employee's gross income under the Internal Revenue Code. In the case of employees not subject to the Internal Revenue Code, such as those employed in foreign countries, the determination of whether such payments would constitute gross income to such employees under the Internal Revenue Code must be made as though those employees were subject to the Internal Revenue Code.

6. "Credit card" means a credit, travel, or entertainment card.
7. "Credit card issuer's reimbursement fee" means the fee a taxpayer receives from a merchant's bank because one of the persons to whom the taxpayer has issued a credit card has charged merchandise or services to the credit card.
8. "Employee" means, with respect to a particular taxpayer, any individual who, under the usual common-law rules applicable in determining the employer-employee relationship, has the status of an employee of that taxpayer.
9. "Financial institution" has the meaning given in section 57-35.3-01.
10. "Gross rents" means the actual sum of money or other consideration payable for the use or possession of property.
 - a. "Gross rents" includes:
 - (1) Any amount payable for the use or possession of real property or tangible property whether designated as a fixed sum of money or as a percentage of receipts, profits, or otherwise;
 - (2) Any amount payable as additional rent or in lieu of rent, such as interest, taxes, insurance, repairs, or any other amount required to be paid by the terms of a lease or other arrangement; and
 - (3) A proportionate part of the cost of any improvement to real property made by or on behalf of the taxpayer which reverts to the owner or lessor upon termination of a lease or other arrangement. The amount to be included in gross rents is the amount of amortization or depreciation allowed in computing the taxable income base for the taxable year. However, if a building is erected on leased land by or on behalf of the taxpayer, the value of the land is determined by multiplying the gross rent by eight and the value of the building is determined in the same manner as if owned by the taxpayer.
 - b. "Gross rents" does not include:
 - (1) Reasonable amounts payable as separate charges for water and electric service furnished by the lessor;
 - (2) Reasonable amounts payable as service charges for janitorial services furnished by the lessor;
 - (3) Reasonable amounts payable for storage, provided such amounts are payable for space not designated and not under the control of the taxpayer; and
 - (4) That portion of any rental payment which is applicable to the space subleased from the taxpayer and not used by it.

11. "Internal Revenue Code" means the United States Internal Revenue Code of 1986, as amended.
12. "Loan" means any extension of credit resulting from direct negotiations between the taxpayer and its customer, or the purchase, in whole or in part, of such extension of credit from another. Loans include participation, syndications, and leases treated as loans for federal income tax purposes. "Loan" does not include properties treated as loans under section 595 of the Internal Revenue Code; futures or forward contracts; options; notional principal contracts such as swaps; credit card receivables, including purchased credit card relationships; non-interest bearing balances due from depository institutions; cash items in the process of collection; federal funds sold; securities purchased under agreements to resell; assets held in a trading account; securities; interests in an REMIC, or other mortgage-backed or asset-backed security; and other similar items.
13. "Loan secured by real property" means that fifty percent or more of the aggregate value of the collateral used to secure a loan or other obligation, when valued at fair market value as of the time the original loan or obligation was incurred, was real property.
14. "Merchant discount" means the fee or negotiated discount charged to a merchant by the taxpayer for the privilege of participating in a program whereby a credit card is accepted in payment for merchandise or services sold to the credit card holder.
15. "Participation" means an extension of credit in which an undivided ownership interest is held on a pro rata basis in a single loan or pool of loans and related collateral. In a loan participation, the credit originator initially makes the loan and then subsequently resells all or a portion of it to other lenders. The participation may or may not be known to the borrower.
16. "Person" means an individual, estate, trust, partnership, corporation, and any other business entity.
17. "Principal base of operations" with respect to transportation property means the place of more or less permanent nature from which said property is regularly directed or controlled. With respect to an employee, the "principal base of operations" means the place of more or less permanent nature from which the employee regularly starts the employee's work and to which the employee customarily returns in order to receive instructions from the employee's employer, communicates with the employee's customers or other persons, or performs any other functions necessary to the exercise of the employee's trade or profession at some other point or points.
18. "Real property owned" and "tangible personal property owned" mean real and tangible personal property, respectively, on which the taxpayer may claim depreciation for federal income tax purposes, or to which the taxpayer holds legal title and on which no other person may claim depreciation for federal income tax purposes, or could claim depreciation if subject to federal income tax. Real and tangible personal property do not include coin, currency, or property acquired in lieu of or pursuant to a foreclosure.

19. "Regular place of business" means an office at which the taxpayer carries on its business in a regular and systematic manner and which is continuously maintained, occupied, and used by employees of the taxpayer.
20. "State" means a state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States or any foreign country.
21. "Syndication" means an extension of credit in which two or more persons fund and each person is at risk only up to a specified percentage of the total extension of credit or up to a specified dollar amount.
22. "Taxable" means either:
 - a. That a taxpayer is subject in another state to a net income tax, a franchise tax measured by net income, a franchise tax for the privilege of doing business, a corporate stock tax including a bank shares tax, a single business tax, or an earned surplus tax, or any tax that is imposed upon or measured by net income; or
 - b. That another state has jurisdiction to subject the taxpayer to any of those taxes regardless of whether or not the state subjects the taxpayer to those taxes.
23. "Transportation property" means vehicles and vessels capable of moving under their own power, such as aircraft, trains, water vessels, and motor vehicles, as well as any equipment or containers attached to such property, such as rolling stock, barges, trailers, or the like.

57-35.3-15. Apportionment and allocation - Receipts factor.

1. General. The receipts factor is a fraction, the numerator of which is the receipts of the taxpayer in this state during the taxable year and the denominator of which is the receipts of the taxpayer within and without this state during the taxable year. The method of calculating receipts for purposes of the denominator is the same as the method used in determining receipts for purposes of the numerator. The receipts factor includes only those receipts described in this section which constitute business income and are included in the computation of the apportionable income base for the taxable year.
2. Receipts from the lease of real property. The numerator of the receipts factor includes receipts from the lease or rental of real property owned by the taxpayer if the property is located within this state or receipts from the sublease of real property if the property is located within this state.
3. Receipts from the lease of tangible personal property.
 - a. Except as described in subdivision b, the numerator of the receipts factor includes receipts from the lease or rental of tangible personal property owned by the taxpayer if the property is located within this state when it is first placed in service by the lessee.

- b. Receipts from the lease or rental of transportation property owned by the taxpayer are included in the numerator of the receipts factor to the extent that the property is used in this state. The extent an aircraft will be deemed to be used in this state and the amount of receipts that is to be included in the numerator of this state's receipts factor is determined by multiplying all the receipts from the lease or rental of the aircraft by a fraction, the numerator of which is the number of landings of the aircraft in this state and the denominator of which is the total number of landings of the aircraft. If the extent of the use of any transportation property within this state cannot be determined, then the property will be deemed to be used wholly in the state in which the property has its principal base of operations. A motor vehicle will be deemed to be used wholly in the state in which it is registered.
4. Interest from loans secured by real property.
- a. The numerator of the receipts factor includes interest and fees or penalties in the nature of interest from loans secured by real property if the property is located within this state. If the property is located both within this state and one or more other states, the receipts described in this subsection are included in the numerator of the receipts factor if more than fifty percent of the fair market value of the real property is located within this state. If more than fifty percent of the fair market value of the real property is not located within any one state, then the receipts described in this subsection must be included in the numerator of the receipts factor if the borrower is located in this state.
- b. The determination of whether the real property securing a loan is located within this state must be made as of the time the original agreement was made and any and all subsequent substitutions of collateral must be disregarded.
5. Interest from loans not secured by real property. The numerator of the receipts factor includes interest and fees or penalties in the nature of interest from loans not secured by real property if the borrower is located in this state.
6. Net gains from the sale of loans. The numerator of the receipts factor includes net gains from the sale of loans. Net gains from the sale of loans include income recorded under the coupon stripping rules of section 1286 of the Internal Revenue Code.
- a. The amount of net gains, but not less than zero, from the sale of loans secured by real property included in the numerator is determined by multiplying such net gains by a fraction the numerator of which is the amount included in the numerator of the receipts factor under subsection 4 and the denominator of which is the total amount of interest and fees or penalties in the nature of interest from loans secured by real property.
- b. The amount of net gains, but not less than zero, from the sale of loans not secured by real property included in the numerator is determined by multiplying such net gains by a fraction the numerator of which is the amount included in the numerator of the

receipts factor under subsection 5 and the denominator of which is the total amount of interest and fees or penalties in the nature of interest from loans not secured by real property.

7. Receipts from credit card receivables. The numerator of the receipts factor includes interest and fees or penalties in the nature of interest from credit card receivables and receipts from fees charged to cardholders, such as annual fees, if the billing address of the cardholder is in this state.
8. Net gains from the sale of credit card receivables. The numerator of the receipts factor includes net gains, but not less than zero, from the sale of credit card receivables multiplied by a fraction, the numerator of which is the amount included in the numerator of the receipts factor under subsection 7 and the denominator of which is the taxpayer's total amount of interest and fees or penalties in the nature of interest from credit card receivables and fees charged to cardholders.
9. Credit card issuer's reimbursement fees. The numerator of the receipts factor includes all credit card issuer's reimbursement fees multiplied by a fraction, the numerator of which is the amount included in the numerator of the receipts factor under subsection 7 and the denominator of which is the taxpayer's total amount of interest and fees or penalties in the nature of interest from credit card receivables and fees charged to cardholders.
10. Receipts from merchant discount. The numerator of the receipts factor includes receipts from merchant discount if the commercial domicile of the merchant is in this state. Such receipts must be computed net of any cardholder chargebacks, but may not be reduced by any interchange transaction fees or by any issuer's reimbursement fees paid to another for charges made by its cardholders.
11. Loan servicing fees.
 - a. (1) The numerator of the receipts factor includes loan servicing fees derived from loans secured by real property multiplied by a fraction the numerator of which is the amount included in the numerator of the receipts factor under subsection 4 and the denominator of which is the total amount of interest and fees or penalties in the nature of interest from loans secured by real property.
 - (2) The numerator of the receipts factor includes loan servicing fees derived from loans not secured by real property multiplied by a fraction the numerator of which is the amount included in the numerator of the receipts factor under subsection 5 and the denominator of which is the total amount of interest and fees or penalties in the nature of interest from loans not secured by real property.
 - b. In circumstances in which the taxpayer receives loan servicing fees for servicing either the secured or the unsecured loans of another, the numerator of the receipts factor must include such fees if the borrower is located in this state.

12. Receipts from services. The numerator of the receipts factor includes receipts from services not otherwise apportioned under this section if the service is performed in this state. If the service is performed both within and without this state, the numerator of the receipts factor includes receipts from services not otherwise apportioned under this section, if a greater proportion of the income-producing activity is performed in this state based on cost of performance.
13. Receipts from investment assets and activities and trading assets and activities.
- a. Interest; dividends; net gains, but not less than zero; and other income from investment assets and activities and from trading assets and activities must be included in the receipts factor. Investment assets and activities and trading assets and activities include investment securities, trading account assets, federal funds, securities purchased and sold under agreements to resell or repurchase, options, futures contracts, forward contracts, notional principal contracts such as swaps, equities, and foreign currency transactions. With respect to the investment and trading assets and activities described in paragraphs 1 and 2, the receipts factor must include the amounts described in those paragraphs.
- (1) The receipts factor must include the amount by which interest from federal funds sold and securities purchased under resale agreements exceeds interest expense on federal funds purchased and securities sold under repurchase agreements.
- (2) The receipts factor must include the amount by which interest, dividends, gains and other income from trading assets and activities, including assets and activities in the matched book, in the arbitrage book, and foreign currency transactions, exceed amounts paid in lieu of interest, amounts paid in lieu of dividends, and losses from such assets and activities.
- b. The numerator of the receipts factor includes interest; dividends; net gains, but not less than zero; and other income from investment assets and activities and from trading assets and activities described in subdivision a which are attributable to this state.
- (1) The amount of interest; dividends; net gains, but not less than zero; and other income from investment assets and activities in the investment account to be attributed to this state and included in the numerator is determined by multiplying all such income from such assets and activities by a fraction, the numerator of which is the average value of such assets which are properly assigned to a regular place of business of the taxpayer within this state and the denominator of which is the average value of all such assets.
- (2) The amount of interest from federal funds sold and purchased and from securities purchased under resale agreements and securities sold under repurchase agreements attributable to this state and included in the numerator is determined by multiplying the amount described in paragraph 1 of subdivision a from such funds and such securities by a

- fraction, the numerator of which is the average value of federal funds sold and securities purchased under agreements to resell which are properly assigned to a regular place of business of the taxpayer within this state and the denominator of which is the average value of all such funds and such securities.
- (3) The amount of interest, dividends, gains and other income from trading assets and activities, including assets and activities in the matched book, in the arbitrage book, and foreign currency transactions, but excluding amounts described in paragraph 1 or 2, attributable to this state and included in the numerator is determined by multiplying the amount described in paragraph 2 of subdivision a by a fraction, the numerator of which is the average value of such trading assets which are properly assigned to a regular place of business of the taxpayer within this state and the denominator of which is the average value of all such assets.
- (4) For purposes of this subdivision, average value must be determined using the rules for determining the average value of tangible personal property set forth in subsections 3 and 4 of section 57-35.3-16.
- c. In lieu of using the method set forth in subdivision b, the taxpayer may elect, or the commissioner may require in order to fairly represent the business activity of the taxpayer in this state, the use of the method set forth in this subdivision.
- (1) The amount of interest; dividends; net gains, but not less than zero; and other income from investment assets and activities in the investment account to be attributed to this state and included in the numerator is determined by multiplying all such income from such assets and activities by a fraction, the numerator of which is the gross income from such assets and activities which are properly assigned to a regular place of business of the taxpayer within this state and the denominator of which is the gross income from all such assets and activities.
- (2) The amount of interest from federal funds sold and purchased and from securities purchased under resale agreements and securities sold under repurchase agreements attributable to this state and included in the numerator is determined by multiplying the amount described in paragraph 1 of subdivision a from such funds and such securities by a fraction, the numerator of which is the gross income from such funds and such securities which are properly assigned to a regular place of business of the taxpayer within this state and the denominator of which is the gross income from all such funds and such securities.
- (3) The amount of interest, dividends, gains and other income from trading assets and activities, including assets and activities in the matched book, in the arbitrage book, and foreign currency transactions, but excluding amounts

described in paragraphs 1 and 2, attributable to this state and included in the numerator is determined by multiplying the amount described in paragraph 2 of subdivision a by a fraction, the numerator of which is the gross income from such trading assets and activities which are properly assigned to a regular place of business of the taxpayer within this state and the denominator of which is the gross income from all such assets and activities.

- d. If the taxpayer elects or is required by the commissioner to use the method set forth in subdivision c, the taxpayer shall use this method on all subsequent returns unless the taxpayer receives prior permission from the commissioner to use, or the commissioner requires, a different method.
 - e. The taxpayer has the burden of proving that an investment asset or activity or trading asset or activity was properly assigned to a regular place of business outside this state by demonstrating that the day-to-day decisions regarding the asset or activity occurred at a regular place of business outside this state. If the day-to-day decisions regarding an investment asset or activity or trading asset or activity occur at more than one regular place of business and one such regular place of business is in this state and one such regular place of business is outside this state, such asset or activity must be considered to be located at the regular place of business of the taxpayer where the investment or trading policies or guidelines with respect to the asset or activity are established. Unless the taxpayer demonstrates to the contrary, such policies and guidelines must be presumed to be established at the commercial domicile of the taxpayer.
14. All other receipts. The numerator of the receipts factor includes all other receipts under the rules set forth in chapter 57-38.1, to the extent not inconsistent with this section.
 15. Attribution of certain receipts to commercial domicile. All receipts that would be assigned under this section to a state in which the taxpayer is not taxable must be included in the numerator of the receipts factor if the taxpayer's commercial domicile is in this state.

57-35.3-16. Apportionment and allocation - Property factor.

1. General. The property factor is a fraction, the numerator of which is the average value of real property and tangible personal property rented to the taxpayer that is located or used within this state during the taxable year, the average value of the taxpayer's real and tangible personal property owned that is located or used within this state during the taxable year, and the average value of the taxpayer's loans and credit card receivables that are located within this state during the taxable year, and the denominator of which is the average value of all such property located or used within and without this state during the taxable year.
2. Property included. The property factor includes only property the income or expenses of which are included, or would have been included if not fully depreciated or expensed or depreciated or expensed to a

nominal amount, in the computation of the apportionable income base for the taxable year.

3. Value of property owned by the taxpayer.
 - a. The value of real property and tangible personal property owned by the taxpayer is the original cost or other basis of such property for federal income tax purposes without regard to depletion, depreciation, or amortization.
 - b. Loans are valued at their outstanding principal balance, without regard to any reserve for bad debts. If a loan is charged off in whole or in part for federal income tax purposes, the portion of the loan charged off is not outstanding. A specifically allocated reserve established pursuant to regulatory or financial accounting guidelines which is treated as charged off for federal income tax purposes must be treated as charged off for purposes of this section.
 - c. Credit card receivables are valued at their outstanding principal balance, without regard to any reserve for bad debts. If a credit card receivable is charged off in whole or in part for federal income tax purposes, the portion of the receivable charged off is not outstanding.
4. Average value of property owned by the taxpayer. The average value of property owned by the taxpayer is computed on an annual basis by adding the value of the property on the first day of the taxable year and the value on the last day of the taxable year and dividing the sum by two. If averaging on this basis does not properly reflect average value, the commissioner may require averaging on a more frequent basis. The taxpayer may elect to average on a more frequent basis. When averaging on a more frequent basis is required by the commissioner or is elected by the taxpayer, the same method of valuation must be used consistently by the taxpayer with respect to property within and without this state and on all subsequent returns unless the taxpayer receives prior permission from the commissioner or the commissioner requires a different method of determining average value.
5. Average value of real property and tangible personal property rented to the taxpayer.
 - a. The average value of real property and tangible personal property that the taxpayer has rented from another, and which is not treated as property owned by the taxpayer for federal income tax purposes, must be determined annually by multiplying the gross rents payable during the taxable year by eight.
 - b. If the use of the general method described in this subsection results in inaccurate valuations of rented property, any other method that properly reflects the value may be adopted by the commissioner or by the taxpayer when approved in writing by the commissioner. Once approved, such other method of valuation must be used on all subsequent returns unless the taxpayer receives prior approval from the commissioner or the commissioner requires a different method of valuation.

6. Location of real property and tangible personal property owned by or rented to the taxpayer.
- a. Except as described in subdivision b, real property and tangible personal property owned by or rented to the taxpayer is considered to be located within this state if it is physically located, situated, or used within this state.
 - b. Transportation property is included in the numerator of the property factor to the extent that the property is used in this state. The extent an aircraft will be deemed to be used in this state and the amount of value that is to be included in the numerator of this state's property factor is determined by multiplying the average value of the aircraft by a fraction, the numerator of which is the number of landings of the aircraft in this state and the denominator of which is the total number of landings of the aircraft everywhere. If the extent of the use of any transportation property within this state cannot be determined, then the property will be deemed to be used wholly in the state in which the property has its principal base of operations. A motor vehicle will be deemed to be used wholly in the state in which it is registered.
7. Location of loans.
- a. (1) A loan is considered to be located within this state if it is properly assigned to a regular place of business of the taxpayer within this state.
 - (2) A loan is properly assigned to the regular place of business with which it has a preponderance of substantive contacts. A loan assigned by the taxpayer to a regular place of business without the state must be presumed to have been properly assigned if:
 - (a) The taxpayer has assigned, in the regular course of the taxpayer's business, such loan on its records to a regular place of business consistent with federal or state regulatory requirements;
 - (b) Such assignment on the taxpayer's records is based upon substantive contacts of the loan to that regular place of business; and
 - (c) The taxpayer uses those records reflecting assignment of loans for the filing of all state and local tax returns for which an assignment of loans to a regular place of business is required.
 - (3) The presumption of proper assignment of a loan provided in paragraph 2 may be rebutted upon a showing by the commissioner, supported by a preponderance of the evidence, that the preponderance of substantive contacts regarding the loan did not occur at the regular place of business to which it was assigned on the taxpayer's records. When such presumption has been rebutted, the loan must then be located within this state if the taxpayer had a regular place of business

- within this state at the time the loan was made and the taxpayer fails to show, by a preponderance of the evidence, that the preponderance of substantive contacts regarding such loan did not occur within this state.
- b. In the case of a loan that is assigned by the taxpayer to a place without this state which is not a regular place of business, it must be presumed, subject to rebuttal by the taxpayer on a showing supported by the preponderance of evidence, that the preponderance of substantive contacts regarding the loan occurred within this state if, at the time the loan was made, the taxpayer's commercial domicile, as defined in subsection 3 of section 57-35.3-14, was within this state.
- c. To determine the state in which the preponderance of substantive contacts relating to a loan have occurred, the facts and circumstances regarding the loan at issue must be reviewed on a case-by-case basis and consideration must be given to such activities as the solicitation, investigation, negotiation, approval, and administration of the loan. For purposes of this subdivision:
- (1) "Administration" means the process of managing the account. This process includes bookkeeping, collecting the payments, corresponding with the customer, reporting to management regarding the status of the agreement, and proceeding against the borrower or the security interest if the borrower is in default. Such activity is located at the regular place of business which oversees this activity.
 - (2) "Approval" means the procedure by which employees or the board of directors of the taxpayer make the final determination whether to enter into the agreement. Such activity is located at the regular place of business which the taxpayer's employees are regularly connected with or working out of, regardless of where the services of such employees were actually performed. If the board of directors makes the final determination, such activity is located at the commercial domicile of the taxpayer.
 - (3) "Investigation" means the procedure by which employees of the taxpayer determine the credit-worthiness of the customer as well as the degree of risk involved in making a particular agreement. Such activity is located at the regular place of business which the taxpayer's employees are regularly connected with or working out of, regardless of where the services of such employees were actually performed.
 - (4) "Negotiation" means the procedure by which employees of the taxpayer and the taxpayer's customer determine the terms of the agreement such as the amount, duration, interest rate, frequency of repayment, currency denomination, and security required. Such activity is located at the regular place of business which the taxpayer's employees are regularly connected with or working out of, regardless of where the services of such employees were actually performed.

- (5) "Solicitation" means either active or passive solicitation. Active solicitation occurs when an employee of the taxpayer initiates the contact with the customer. Such activity is located at the regular place of business which the taxpayer's employee is regularly connected with or working out of, regardless of where the services of such employee were actually performed. Passive solicitation occurs when the customer initiates the contact with the taxpayer. If the customer's initial contact was not at a regular place of business of the taxpayer, the regular place of business, if any, where the passive solicitation occurred is determined by the facts in each case.
8. Location of credit card receivables. For purposes of determining the location of credit card receivables, credit card receivables must be treated as loans and are subject to the provisions of subsection 7.
9. Period for which properly assigned loan remains assigned. A loan that has been properly assigned to a state, absent any change of material fact, must remain assigned to that state for the length of the original term of the loan. Thereafter, that loan may be properly assigned to another state if that loan has a preponderance of substantive contact to a regular place of business there.

57-35.3-17. Apportionment and allocation - Payroll factor.

1. General. The payroll factor is a fraction, the numerator of which is the total amount paid in this state during the taxable year by the taxpayer for compensation and the denominator of which is the total compensation paid both within and without this state during the taxable year. The payroll factor must include only that compensation that is included in the computation of the apportionable income tax base for the taxable year.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. A new section to chapter 57-38 of the North Dakota Century Code is created and enacted as follows:

1. An individual is entitled to a credit against the tax imposed under section 57-38-29 or 57-38-30.3 in the amount of qualified care expenses under this section paid by the individual for the care of a qualifying family member during the taxable year.
2. A qualifying family member is an individual who has taxable income of fifteen thousand dollars or less or a married individual with taxable income of thirty thousand dollars or less, including that of the individual's spouse, for the taxable year. A qualifying family member must be related to the taxpayer by blood or marriage and either sixty-five years of age or older or determined to be disabled by the social security administration.
3. a. Qualified care expenses include payments by the taxpayer for home health agency services, companionship services, personal care attendant services, homemaker services, adult day care, respite care, health care equipment and supplies, and other expenses for goods or services that are necessary to allow the qualifying family member to avoid placement in a long-term care facility and which are:

 - (2) Provided by an organization or individual not related to the taxpayer or the qualifying family member; and
 - (3) Not compensated for by insurance or federal or state assistance programs.
- b. For purposes of this subsection, "companionship services" means services that provide fellowship, care, and protection for individuals

who, because of advanced age or physical or mental disabilities, cannot care for their own needs. Those services may include household work related to the care of the aged or disabled person, including meal preparation, bed making, washing of clothes, and other similar services, and may include the performance of general household work if that work does not exceed twenty percent of the total weekly hours worked. "Companionship services" does not include services relating to the care and protection of the aged or disabled which require and are performed by trained personnel, including a registered or practical nurse, and does not include services of individuals who provide care and protection for infants and young children who are not physically or mentally disabled.

4. The percentage amount of credit allowable under this section is:
 - a. For a taxpayer whose taxable income does not exceed twenty-five thousand dollars, thirty percent of qualified elderly care expenses; or
 - b. For a taxpayer whose taxable income exceeds twenty-five thousand dollars, the greater of:
 - (1) Twenty percent of qualified elderly care expenses; or
 - (2) Thirty percent of qualified elderly care expenses, minus one percent of those expenses for each two thousand dollars or fraction of two thousand dollars by which the taxable income of the taxpayer for the taxable year exceeds twenty-five thousand dollars.
5. The dollar amount of credit allowable under this section is:
 - a. Reduced by one dollar for each dollar of the taxable income over fifty thousand dollars for a taxpayer whose taxable income exceeds fifty thousand dollars;
 - b. Limited to two thousand dollars per qualifying family member in a taxable year and to four thousand dollars total for two or more qualifying family members in a taxable year; and
 - c. Prorated among multiple taxpayers who each contribute to qualified care expenses of the same qualified family member in a taxable year in the same proportion that their contributions bear to the total qualified care expenses paid by those taxpayers for that qualified family member.
6. A deduction or credit is not allowed under any other provision of this chapter with respect to any amount for which a credit is allowed under this section. The credit allowed under this section may not be claimed as a carryback or carryforward and may not be refunded if the taxpayer has no tax liability.
7. In the case of a married individual filing a separate return, the percentage amount of credit under subsection 4 and the dollar amount of credit under subsection 5 are limited to one-half of the amounts indicated in those subsections.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. Permanent oil tax trust fund - Deposits - Interest - Adjustment of distribution formula. At the end of any biennium beginning after June 30, 1997, all revenue deposited in the general fund during that biennium and derived from taxes imposed on oil and gas under chapters 57-51 and 57-51.1 which exceeds sixty-two million dollars must be transferred by the state treasurer to a special fund in the state treasury known as the permanent oil tax trust fund. At the end of the 1995-97 biennium all revenue deposited in the general fund during that biennium and derived from taxes imposed on oil and gas under chapters 57-51 and 57-51.1 which exceeds fifty-six million three hundred thousand dollars must be transferred by the state treasurer to a special fund in the state treasury known as the permanent oil tax trust fund. The principal of the permanent oil tax trust fund may not be expended except upon a two-thirds vote of the members elected to each house of the legislative assembly.

If the distribution formulas under chapter 57-51 or 57-51.1 are amended effective after June 30, 1997, the director of the budget shall adjust the sixty-two million dollar amount in this section by the same percentage increase or decrease in the amount of revenue allocable to the general fund after the change in the allocation formula, and transfers to the permanent oil tax trust fund shall thereafter be made using that adjusted figure so that the dollar amount of the transfers to the permanent oil tax trust fund is not increased or decreased merely because of changes in the distribution formulas.

Notwithstanding section 54-27.2-02, the state treasurer shall make the transfers required by this section before calculating any general fund revenue balance available for transfer to the budget stabilization fund under chapter 54-27.2. In this section, "at the end of any biennium" has the same meaning as in section 54-27.2-02.

Standard of care - Portfolio strategy - Risk and return objectives.

1. A trustee shall invest and manage trust assets as a prudent investor would, by considering the purposes, terms distribution requirements, and other circumstances of the trust. In satisfying this standard, the trustee shall exercise reasonable care, skill, and caution.
2. A trustee's investment and management decisions respecting individual assets must be evaluated not in isolation but in the context of the trust

portfolio as a whole and as a part of an overall investment strategy having risk and return objectives reasonably suited to the trust.

3. Among circumstances a trustee shall consider in investing and managing trust assets are any of the following that are relevant to the trust or its beneficiaries:
 - a. General economic conditions;
 - b. The possible effect of inflation or deflation;

6. A trustee who has special skills or expertise, or is named trustee in reliance upon the trustee's representation that the trustee has special skills or expertise, has a duty to use those special skills or expertise.

Within a reasonable time after accepting a trusteeship or receiving trust assets, a trustee shall review the trust assets and make and implement decisions concerning the retention and disposition of assets, in order to bring the trust portfolio into compliance with the purposes, terms, distribution requirements, and other circumstances of the trust, and with the requirements of section 2 of this Act.

Loyalty. A trustee shall invest and manage the trust assets solely in the interest of the beneficiaries.

Impartiality. If a trust has two or more beneficiaries, the trustee shall act impartially in investing and managing the trust assets, taking into account any differing interests of the beneficiaries.

Investment costs. In investing and managing trust assets, a trustee may only incur costs that are appropriate and reasonable in relation to the assets, the purposes of the trust, and the skills of the trustee.

4. By accepting the delegation of a trust function from the trustee of a trust that is subject to the law of this state, an agent submits to the jurisdiction of the courts of this state.

Language invoking standard of section 2 of this Act. The following terms or comparable language in the provisions of a trust, unless otherwise limited or modified, authorizes any investment or strategy permitted under section 2 of this Act: "investments permissible by law for investment of trust funds", "legal investments", "authorized investments", "using the judgment and care under the circumstances then prevailing that persons of prudence, discretion, and intelligence exercise in the management of their own affairs, not in regard to speculation but in regard to the permanent disposition of their funds, considering the probable income as well as the probable safety of their capital", "prudent man rule", "prudent trustee rule", "prudent person rule", and "prudent investor rule".

DEVILS LAKE AND WATER DEVELOPMENT BONDS

AN ACT to provide for the issuance of bonds to finance construction of an outlet to Devils Lake and to finance a statewide water development program; to provide an appropriation; and to declare an emergency.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. Legislative findings and intent - Authority to issue bonds.

1. The legislative assembly finds that the Devils Lake basin is suffering and facing a worsening flood disaster. It further finds that construction of an outlet to Devils Lake is necessary for the protection of health, property, and enterprises, and for the promotion of prosperity and the general welfare of the people of the state of North Dakota, and that construction of the outlet involves and requires the exercise of the sovereign powers of the state and concerns a public purpose. Therefore, it is declared necessary that an outlet for Devils Lake be constructed by the state water commission to provide flood relief to the Devils Lake basin.
2. The legislative assembly also finds that there is a critical need to develop a comprehensive statewide water development program to serve the long-term water resource needs of the state and its people and to protect the state's current usage of, and the state's claim to, its proper share of Missouri River water.
3. In furtherance of these public purposes, the state water commission may issue bonds under chapter 61-02 in an aggregate amount not to exceed twenty million dollars to finance the cost of these projects provided that:
 - a. The commission may only issue bonds for construction of an outlet to Devils Lake when the United States authorizes construction of an outlet including plans addressing damage to basic infrastructure such as roads, culverts, and bridges; riverbank erosion; downstream flooding; and increased water treatment costs caused by or resulting from construction of the outlet.
 - b. The commission may only issue bonds to finance a comprehensive statewide water development program pursuant to this Act when the Congress of the United States enacts legislation for the completion of the Garrison diversion unit, which may include the delivery of water to the northwest area water supply project; southwest pipeline project; Turtle Lake irrigation district; Nesson-Valley irrigation district; Elk Charbonneau-Timber Creek irrigation district; the

Williston irrigation project; the Oakes irrigation project; other municipal, rural, and industrial water supply projects; delivery of Missouri River water to the Sheyenne River; and an inlet to Devils Lake. This Act does not affect the state water commission's authority to otherwise issue bonds pursuant to chapter 61-02.

- c. The commission shall notify the budget section of the legislative council if either of the contingencies in subdivision a or b occur and bonds are issued under this Act.
- d. The authority of the commission to issue bonds under this Act is effective through July 1, 1999, and after that date is ineffective.

SECTION 2. State water commission may match federal funds. The state water commission may use all or part of the proceeds of bonds issued as provided in this Act to match any federal funds available for the projects identified in subdivisions a and b of subsection 3 of section 1 of this Act. Proceeds realized from the sale of bonds under this Act are available to match federal funds in the ratio of one to three.

SECTION 3. Limitation of action. No action may be brought or maintained in any court in this state questioning the validity of any bonds issued under this Act unless the action is commenced within thirty days after the adoption of the resolution of the state water commission authorizing the sale of the bonds. The state water commission may commence a special proceeding any time after the effective date of this Act in and by which the constitutionality and validity of the bonds to be issued pursuant to this Act may be judicially examined, approved, and confirmed, or disapproved and disaffirmed. Proceedings must comply as nearly as possible with the procedure required for declaratory judgment proceedings.

SECTION 4. Bonds payable from appropriations and other revenues.

1. Bonds issued under this Act are payable from transfers to be made by the legislative assembly from the accumulated and undivided profits of the Bank of North Dakota to the resources trust fund and thereafter appropriated for payment of the bonds or from appropriations of other available revenues, and other revenues available to the state water commission for that purpose, including any federal moneys received by the state for the construction of an outlet to Devils Lake to pay bonds issued for that project, or financing a statewide water development program to pay bonds issued for that project.
2. Obligations issued under the provisions of this Act do not constitute a debt, liability, or obligation of the state of North Dakota or a pledge of the faith and credit of the state of North Dakota, but are payable solely from the accumulated and undivided profits of the Bank of North Dakota or other sources provided for by the legislative assembly.
3. The state water commission shall include in its submission to the governor for inclusion by the governor in the biennial executive budget of the state for each year of the respective biennium during the term of any bonds issued under this Act an amount fully sufficient to pay the principal and interest required to be paid in each year of the biennium, if any, from moneys from nongeneral fund sources. Provided, that should the governor not include in the executive budget for any reason the amounts required to be included by this section, the state water

commission shall request independently that the legislative assembly amend the executive budget appropriation so as to include the amounts.

SECTION 5. APPROPRIATION. The sum of \$2,000,000, or so much of the sum as may be necessary, is transferred from the accumulated and undivided profits of the Bank of North Dakota to the resources trust fund. Upon transfer of the funds by the Bank of North Dakota, there is hereby appropriated out of any moneys in the resources trust fund, not otherwise appropriated, the sum of \$2,000,000, or so much of the sum as may be necessary, to the state water commission for the biennium beginning July 1, 1997, and ending June 30, 1999, for the purpose of paying the interest on and principal of the bonds issued in accordance with this Act.

EASTERN NORTH DAKOTA WATER SUPPLY CRITICAL PRIORITY

AN ACT relating to establishing a water supply for eastern North Dakota as a critical priority.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. Findings and declaration of policy - Water to eastern North Dakota a critical priority. The legislative assembly finds that many areas and localities in eastern North Dakota do not enjoy safe drinking water, and that the water in these areas and localities contains iron, sulfates, alkali, salt, nitrates, fluoride, and other hazardous and discoloring substances. It is also found that other areas and localities in eastern North Dakota do not have sufficient quantities of water to ensure a dependable, long-term water supply. The legislative assembly further finds that supplementation of the water resources of eastern North Dakota with water supplies from the Missouri River may be the only alternative to provide eastern North Dakota with a dependable source of safe, good quality water and an adequate quantity of water.

It is further declared that effective development and utilization of the land and water resources of this state; the opportunity for greater economic security; the protection of health, property, enterprise, and the preservation of the benefits from the land and water resources of this state; and the promotion of the prosperity and general welfare of all of the people of North Dakota involve, necessitate, and require the exercise of the sovereign powers of the state and concern a public purpose. Therefore, in order to accomplish this public purpose, it is declared necessary that a means to supply and distribute water to the people of eastern North Dakota for purposes including domestic, rural water, municipal, livestock, light industrial, mining, agriculture, and other uses must be developed. In furtherance of this public purpose, the supply and delivery of water to eastern North Dakota is established as a critical priority and the state water commission shall continue to cooperate with the Garrison diversion conservancy district in addressing this critical priority.

LAKE OBSTRUCTION REMOVAL

AN ACT to create and enact a new section to chapter 61-03 of the North Dakota Century Code, relating to removal, modification, or destruction of dangers in, on the bed of, or adjacent to a navigable lake; to amend and reenact section 57-28-09 of the North Dakota Century Code, relating to tax deeds issued to the state; and to declare an emergency.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. A new section to chapter 61-03 of the North Dakota Century Code is created and enacted as follows:

Removal, modification, or destruction of dangers in, on the bed of, or adjacent to a navigable lake.

1. If the state engineer finds that buildings, structures, boat docks, debris, or other manmade objects, except a fence or corral, situated in, on the bed of, or adjacent to a lake that has been determined to be navigable by a court are, or are imminently likely to be, a menace to life or property or public health or safety, the state engineer shall issue an order to the person responsible for the object. The order must specify the nature and extent of the conditions, the action necessary to alleviate, avert, or minimize the danger, and a date by which that action must be taken. If the state engineer determines that an object covered by flood insurance is imminently likely to be a menace to life or property or public health or safety, the date specified in the order for action to be taken may not precede the date on which the person is eligible to receive flood insurance proceeds. The person responsible is the person who owns or has control of the property on which the object is located, or if the property is inundated with water, the person who owned or had control of the property immediately before it became inundated by water.
2. If the action is not taken by the date specified, but not less than twenty days from the date of service of the notice, the state engineer may cause the action to be taken. The state engineer may require the action to be taken in less than twenty days if an emergency exists.
3. The state engineer may bring an action to enforce an order of the state engineer, or if the state engineer causes the action to be taken, the state engineer may:

 - a. Assess the costs of taking such action, or such portion as the state engineer determines, against any property of the person responsible; or

- b. Bring a civil action against the person responsible to recover the costs incurred in taking the action.

If the state engineer chooses to recover costs by assessing the cost against property of the person responsible and the property is insufficient to cover the costs incurred, the state engineer may bring a civil action to recover any costs not recovered through the assessment process. Any assessments levied under this section must be collected in the same manner as other real estate taxes are collected and paid. Any costs recovered must be deposited in the fund from which the expenses were paid.

4. A person who receives an order, within ten days of the date of service of the order, may demand, in writing, a hearing on the matter. The demand for a hearing must state with particularity the issues, facts, and points of law to be presented at the hearing. If the state engineer determines the issues, facts, and law to be presented are well-founded and not frivolous, and the request for a hearing was not made merely to interpose delay, the state engineer shall set a hearing date without undue delay.
5. In the event of an emergency, the state engineer may immediately apply to the district court of the county in which the property is located for an injunction ordering the person responsible to modify, remove, abate, or otherwise eliminate the dangerous condition.
6. Any person aggrieved by the action of the state engineer may appeal the decision to the district court of the county in which the land is located in accordance with chapter 28-32. A hearing as provided for in this section is a prerequisite to an appeal unless the hearing was denied by the state engineer.
7. If the state engineer has issued an order under this section with regard to a building, structure, boat dock, debris, or other manmade object that the state engineer has determined is imminently likely to be a menace to life or property or public health or safety, and it later becomes known that the object would not have become a menace, a person who has taken action required by the state engineer's order is entitled to compensation in an amount equal to the value of any property destroyed and reasonable costs incurred as a result of complying with the state engineer's notice.
8. Any person claiming compensation for the destruction of property or costs incurred under subsection 7 must file a claim with the state engineer in the form and manner required by the state engineer. Unless the amount of compensation is agreed to between the claimant and the state engineer, the amount of compensation must be calculated in the same manner as compensation due for taking of property pursuant to the condemnation laws of this state. In determining compensation, the proceeds of any flood or other insurance or any other kind of compensatory payments must be subtracted from the amount paid.

SECTION 2. AMENDMENT. Section 57-28-09 of the North Dakota Century Code is amended and reenacted as follows:

57-28-09. Tax deed to be issued. After the expiration of the period of redemption for property that was sold to the county for taxes, and which has not been assigned or redeemed, the county auditor shall issue a tax deed to the county, or in cases in which the state engineer has made an assessment against the property under section 1 of this Act, the county auditor shall issue a tax deed to the state. The tax deed passes the property in fee to the county or the state, free from all encumbrances except installments of special assessments certified to the county auditor or which may become due after the service of the notice of expiration of the period of redemption and except for a homestead credit for special assessments lien provided for in section 57-02-08.3. While the county or the state holds title under a tax deed, it is not liable for the payment of any installments of special assessments which become due unless the board of county commissioners or the state has leased or contracted to sell the property. A deed issued under this section is prima facie evidence of the truth and regularity of all facts and proceedings before the execution of the deed.

SECTION 3. EMERGENCY. This Act is declared to be an emergency measure.

For purposes of this chapter, an incorporated municipality or rural water system has good and sufficient cause excusing the failure to use a water permit, if the water permit may reasonably be necessary for the future water requirements of the municipality or the rural water system. If no one appears at the hearing, ~~such~~ the water permit or portion thereof ~~shall~~ must be declared forfeited and canceled. If interested parties ~~shall~~ appear and contest the cancellation, the state engineer shall hear the evidence and if it appears that ~~such~~ the water has not been put to a beneficial use or, having been so used at one time, has ceased to be used for such purpose for more than three successive years, unless ~~such~~ the failure or cessation of use ~~shall have been~~ is due to the unavailability of water, a justifiable inability to complete the works, or other good and sufficient cause, the same, or a portion thereof, ~~shall~~ must be declared forfeited and canceled. In developing the annual operating plan, the committee shall consider spring runoff forecasts, weather forecasts, summer flooding potential, downstream impacts including water quality and streambank erosion, flooding, and any other factors the committee determines should be considered. The committee must recommend a plan of operation to the state water commission within two weeks following the first official numeric national weather service spring snowmelt flood outlook. If a majority of members are unable to agree on a plan, one or more minority plans may be submitted to the state water commission. The state water commission may approve, recommend changes, or make changes to the annual operating plan.

2. "Adopted" or "adoption" refers only to a legal adoption effected prior to the time of the injury.
- ~~2.~~ 3. "Artificial members" includes only such devices as are substitutes for, and not mere aids to, a natural part, organ, limb, or other part of the body. The term does not include eyeglasses or contact lenses unless the eye is, or eyes are, injured as a result of a compensable injury, and such injury causes a change in sight which requires fitting of eyeglasses or contact lenses not previously worn by the injured worker, or requires a change in existing prescription.
- ~~3.~~ 4. "Artificial replacements" means mechanical aids including braces, belts, casts, or crutches as may be reasonable and necessary due to compensable injury. ~~The term does not include:~~

¹ Section 65-01-02 was also amended by section 1 of House Bill No. 1260, chapter 530, and section 1 of House Bill No. 1440, chapter 528.

- a. Personal items that are for the injured employee's personal use or hygiene, including hand massages, toothbrushes, slippers, shampoo, and soap;

 - f. Home gym or exercise equipment unless the bureau otherwise orders;

 - j. Aids or programs primarily intended to help the employee lose weight or stop smoking.
4. 5. "Average weekly wage" means the weekly wages the employee was receiving from all employments at the time of injury date of first disability. The average weekly wage as determined under this section must be rounded to the nearest dollar. In cases where the employee's wages are not fixed by the week, they must be determined by using the first applicable formula from the schedule below:
- a. For seasonal employment, one-fiftieth of the total wages from all occupations during the twelve months preceding the injury or during the tax year preceding the injury, or during the three tax years preceding the injury, whichever is highest and for which accurate, reliable, and complete records are readily available.
 - b. The "average weekly wage" of a self-employed employee is determined by the following formula: net profits based on preceding tax year or preceding fifty-two weeks whichever is higher if accurate, reliable, and complete records for those fifty-two weeks

are readily available, plus depreciation, meal and travel expenses, and any expenses chargeable to use of personal residence as allowed under the federal tax laws.

- b. c. Hourly or daily rate multiplied by number of hours or days worked per seven-day week.
 - e. d. Monthly rate multiplied by twelve months and divided by fifty-two weeks.

 - f. ~~If the average weekly wage of an employee cannot be ascertained, the wage for the purposes of calculating compensation is the~~ The usual wage paid other employees engaged in similar occupations where the wages are fixed.
 - g. ~~If there are special circumstances under which the average weekly~~ A wage cannot be reasonably and fairly determined by applying subdivisions a through f, an average weekly wage may be computed by dividing the aggregate wages during the twelve months prior to the injury by fifty-two weeks, or the number of weeks actually worked if that number is less than fifty-two approximating the weekly wage lost by the claimant during the period of disability.
- 5. 6. "Average weekly wage in the state" means the determination made of the average weekly wage in the state by job service North Dakota on or before July first of each year, computed to the next highest dollar.
 - 6. 7. "Brother" and "sister" ~~includes~~ include a stepbrother and a stepsister, a half brother and a half sister, and a brother and sister by adoption. The terms do not include a married brother or sister unless he or she actually is dependent.
 - 7. 8. "Bureau" means the North Dakota workers compensation bureau, or the director, or any department heads, assistants, or employees of the bureau designated by the director, to act within the course and scope of their employment in administering the policies, powers, and duties of this title.
 - 8. 9. "Child" means a child under eighteen years of age residing in the employee's household or to whom the employee has a legal obligation of support; or a child eighteen years of age or over and physically or mentally incapable of self-support who is actually dependent upon the employee for support; or any child between eighteen and twenty-two years of age who is enrolled as a full-time student in any accredited educational institution who is actually dependent upon the employee for support. This term includes a legitimate child, a stepchild, adopted child, posthumous child, foster child, and acknowledged illegitimate child, but shall not include a married child unless actually dependent.

9: 10. "Compensable injury" means an injury by accident arising out of and in the course of employment which must be established by medical evidence supported by objective medical findings.

a. The term "~~compensable injury~~", in addition to an injury by accident, includes:

- (1) ~~Any disease that can be fairly traceable to the employment. Ordinary diseases of life to which the general public outside of the employment is exposed are not compensable except where the disease follows as an incident to, and in its inception is~~ Disease caused by a hazard to which an employee is subjected in the course of employment. The disease must be incidental to the character of the business and not independent of the relation of employer and employee. The disease Disease includes impairment and effects from radiation fairly traceable to the employment. It does not have to be foreseen or expected, but after it is contracted, it must have had its origin in a risk connected with the employment and have flowed from that source as a rational consequence. Preventive treatment for communicable diseases is not compensable under this title.
- (2) An injury to artificial members.
- (3) Injuries due to heart attack or other heart-related disease, stroke, and physical injury ~~precipitated~~ caused by mental stimulus, which must be causally related to but only when caused by the employee's employment, with reasonable medical certainty, and ~~which must have been precipitated by~~ only when it is determined with reasonable medical certainty that unusual stress is at least fifty percent of the cause of the injury or disease as compared with all other contributing causes combined. Unusual stress means stress greater than the highest level of stress normally experienced or anticipated in that position or line of work.
- (4) Injuries arising out of employer-required or supplied travel to and from a remote jobsite or activities performed at the direction or under the control of the employer.
- (5) An injury caused by the willful act of a third person directed against an employee because of the employee's employment.
- (6) A mental or psychological condition caused by a physical injury, but only when the physical injury is determined with reasonable medical certainty to be at least fifty percent of the cause of the condition as compared with all other contributing causes combined, and only when the condition did not preexist the work injury.

b. The term does not include:

- (1) Ordinary diseases of life to which the general public outside of employment is exposed or preventive treatment for communicable diseases.

- (2) A willfully self-inflicted injury, including suicide or attempted suicide, or an injury caused by the employee's willful intention to commit suicide or to injure or kill another; including injury or aggravation of an injury, which results from the employee's suicide or attempted suicide.
- (2) (3) Any injury caused by the use of intoxicants or the illegal use of controlled substances.
- (3) (4) An injury that arises out of an altercation in which the injured employee is the initial physical aggressor. This paragraph does not apply to public safety employees, including law enforcement officers, or private security personnel who are required to engage in altercations as part of their job duties if the altercation arises out of the performance of those job duties.
- (4) (5) An injury that arises out of an illegal act committed by the injured employee.
- (5) (6) An injury that arises out of an employee's voluntary nonpaid participation in any recreational activity, including athletic events, parties, and picnics, even though the employer pays some or all of the cost of the activity.
- (6) (7) Injuries attributable to a preexisting injury, disease, or other condition which clearly manifested itself prior to the compensable injury. This does not prevent compensation where employment substantially aggravates and acts upon an underlying condition, substantially worsening its severity, or where employment substantially accelerates the progression of an underlying condition. It is insufficient, however, to afford compensation under this title solely because, including when the employment acted acts as a trigger to produce symptoms in a latent and underlying the preexisting injury, disease, or other condition if the underlying condition would likely have progressed similarly in the absence of the employment trigger, unless the employment trigger is determined to be a substantial aggravating or accelerating factor. An underlying condition is a preexisting injury, disease, or infirmity substantially accelerates its progression or substantially worsens its severity.
- (7) (8) A nonemployment injury that, although acting upon a prior compensable injury, is established as an independent intervening cause of injury.
- (8) (9) A latent or asymptomatic degenerative condition, caused in substantial part by employment duties, which is triggered or made active by a nonemployment subsequent injury.
- (9) (10) A mental injury arising from mental stimulus or a mental or emotional injury arising principally out of a bona fide personnel action, including a transfer, promotion, demotion, or termination except an action that is the intentional infliction of emotional harm.

- 40: 11. "Date of first disability" and "loss of earnings date" ~~mean~~ means the first ~~full~~ date the employee was unable to work in relation to a compensable injury. These terms ~~do not apply to recurrent disabilities.~~

- 43: 14. "Disability" means loss of earnings capacity and may be permanent total, temporary total, or partial.

Persons employed by a subcontractor, or by an independent contractor operating under an agreement with the general contractor, for the purpose of this chapter are deemed to be employees of the general contractor who is liable and responsible for the payments of premium for the coverage of these employees until the subcontractor or independent contractor has secured the necessary coverage and paid the premium for the coverage. This subdivision does not impose any liability upon a general contractor other than liability to the bureau for the payment of premiums which are not paid by a subcontractor or independent contractor.

 - c. Can be fairly traced to the employment; or
 - d. However, any condition or impairment of health of a full-time paid firefighter or law enforcement officer caused by lung or respiratory disease, hypertension, heart disease, or exposure to infectious disease as defined by sections ~~23-07.3-01~~ and ~~23-07.3-02~~, or occupational cancer in a full-time paid firefighter, resulting in total or partial disability or death is presumed to have been suffered in the line of duty. The condition or impairment of health may not be attributed to any disease existing before that total or partial disability or death unless the contrary is shown by competent evidence. As used in this subdivision, an occupational cancer is one which arises out of employment as a full-time paid firefighter and is due to injury due to exposure to smoke, fumes, or carcinogenic, poisonous, toxic, or chemical substances while in the performance of active duty as a full-time paid firefighter. ~~full-time paid firefighter or law enforcement officer ends. SECTION 3. AMENDMENT. Section 65-01-11 of the 1995 Supplement to the North Dakota Century Code is amended and reenacted as follows:

65-01-11. Burden of proof in compensation matters - Death certificate. If the bureau or an employer claims that an employee is not entitled to the benefits of the North Dakota Workers' Compensation Law ~~by reason of the fact that~~ because the employee's injury was caused by the employee's willful intention to injure himself, or to injure another, or by reason of the voluntary impairment caused by use of alcohol or illegal use of a controlled substance by the employee, the burden of proving ~~such~~ the exemption or forfeiture is upon the bureau or upon the person alleging the same; however, an alcohol concentration level at or above the limit set by the United States secretary of transportation in 49 CFR 383.51 or a level of an illegally used controlled substance sufficient to cause impairment found by a test required by a physician, qualified technician, chemist, or registered nurse and performed as required by the United States secretary of transportation under 49 CFR part 40, at or above the cutoff level in part 40, creates a rebuttable presumption that the injury was due to impairment caused by the use of alcohol or the illegal use of a controlled substance. An employer who has a mandatory drug alcohol testing policy for work accidents, or an employer or a doctor who has reasonable grounds to suspect an employee's alleged work injury was caused by the employee's voluntary impairment caused by use of alcohol or illegal use of a controlled substance may request that the employee undergo testing to determine if the employee had alcohol or the controlled substance in the employee's system at levels greater than the limit set by the United States department of transportation at the time of the injury. If an employee refuses to submit to a reasonable request to undergo a test to determine if the employee was impaired, or if an employee refuses to submit to a test for drugs or alcohol after a work accident as mandated by company policy, the employee forfeits all entitlement to workers' compensation benefits arising out of that injury. Any claimant against the fund, however, has the burden of proving by a preponderance of the evidence that the claimant is entitled to ~~participate in the same benefits. In the event of~~ If a claim for death benefits is filed, the official death certificate must be considered as evidence of death and may not be used to establish the cause of death.

² **SECTION 4.** A new section to chapter 65-01 of the North Dakota Century Code is created and enacted as follows:

Presumption of compensability for certain conditions of full-time paid firefighters and law enforcement officers. Any condition or impairment of health of a full-time paid firefighter or law enforcement officer caused by lung or respiratory disease, hypertension, heart disease, or exposure to infectious disease as defined by sections 23-07.3-01 and 23-07.3-02, or occupational cancer in a full-time paid firefighter, resulting in total or partial disability or death, is presumed to have been suffered in the line of duty. The condition or impairment of health may not be attributed to any disease existing before that total or partial disability or death unless the contrary is shown by competent evidence. As used in this section, an occupational cancer is one which arises out of employment as a full-time paid firefighter and is due to injury due to exposure to smoke, fumes, or carcinogenic, poisonous, toxic, or chemical substances while in the performance of active duty as a full-time paid firefighter. A full-time paid firefighter or law enforcement officer is not eligible for the benefit provided under this section unless that full-time paid firefighter

or law enforcement officer has completed five years of continuous service and has successfully passed a physical examination which fails to reveal any evidence of such a condition. An employer shall require a physical examination upon employment, and annually thereafter, for any employee subject to this section. Results of the examination must be used in rebuttal to a presumption afforded under this section. For purposes of this section, "law enforcement officer" means a person who is licensed to perform peace officer law enforcement duties under chapter 12-63 and is employed full time by the bureau of criminal investigation, the game and fish department, the state highway patrol, the parole and probation division, the North Dakota state university police department, the North Dakota state college of science police department, the university of North Dakota police department, a county sheriff's department, or a city police department. The presumption does not include a condition or impairment of health of a full-time paid firefighter or law enforcement officer, who has been employed for ten years or less, if the condition or impairment is diagnosed more than two years after the employment as a full-time paid firefighter or law enforcement officer ends. The presumption also does not include a condition or impairment of health of a full-time paid firefighter or law enforcement officer, who has been employed more than ten years, if the condition or impairment is diagnosed more than five years after the employment as a full-time paid firefighter or law enforcement officer ends.

SECTION 5. AMENDMENT. Section 65-01-15 of the North Dakota Century Code is amended and reenacted as follows:

65-01-15. Yearly documentation required for firefighter and law enforcement officer. Except for benefits for exposure to infectious disease as defined by sections 23-07.3-01 and 23-07.3-02, a full-time paid firefighter or law enforcement officer who uses tobacco is not eligible for the benefits provided under ~~subdivision e of subsection 18 of section 65-01-02~~ 4 of this Act, unless the full-time paid firefighter or law enforcement officer provides yearly documentation from a physician which indicates that the full-time paid firefighter or law enforcement officer has not used tobacco for the preceding two years. Any full-time paid firefighter or law enforcement officer employed on June 30, 1995, is not subject to this section until July 1, 1997.

³ **SECTION 6. AMENDMENT.** Section 65-07-03 of the North Dakota Century Code is amended and reenacted as follows:

65-07-03. Determination of weekly wage for premium purposes. If the bureau enters into a contract for insurance under this chapter, the premium for such protection shall be based on:

1. The amount of money derived on an annual basis from the business of an employer or self-employed person as outlined in subdivision a b of subsection ~~4~~ 5 of section 65-01-02. This amount may not be less than the limited payroll required to be reported for an employee in subsection 1 of section 65-04-04.2.
2. A reasonable wage as determined by the bureau for said employees in the same class of industry that the volunteer organization is engaged.

³ Section 65-07-03 was also amended by section 1 of Senate Bill No. 2383, chapter 547.

SECTION 7. BUREAU TO STUDY WAGE-LOSS BENEFITS STRUCTURE. During the 1997-1998 interim, the bureau shall conduct a study of its wage-loss benefits structure to determine if the current structure provides for equitable compensation for wage-loss resulting from a work-related injury. The results of the study must identify the advantages and disadvantages of the current system and of any proposed system. The results must include recommendations on how the bureau's benefits structure could be refined to provide an appropriate balance between adequate benefits and return-to-work incentives. The bureau shall report on the progress of the study to an interim committee designated by the legislative council to receive the report. If any legislation is expected to be proposed as a result of the study, the interim committee designated by the legislative council may review the proposed legislation before it is introduced.

AN ACT to create and enact a new section to chapter 65-01 of the North Dakota Century Code, relating to the presumption that certain conditions are related to a firefighter's or a law enforcement officer's work for purposes of workers' compensation coverage; to amend and reenact subsection 18 of section 65-01-02 of the North Dakota Century Code, relating to the presumption that certain conditions are related to a firefighter's or a law enforcement officer's work for purposes of workers' compensation coverage; and to provide an effective date.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Subsection 18 of section 65-01-02 of the North Dakota Century Code is amended and reenacted as follows:

18. "Fairly traceable to the employment" when used to modify the term "disease" means only a disease that:
 - a. Arises under conditions wherein it is apparent to the rational mind upon consideration of all the circumstances that there is a direct causal connection between the conditions under which the work is performed and the disease;
 - b. Can be seen to have followed as a natural incident of the work as a result of the exposure occasioned by the nature of the employment;
 - c. Can be fairly traced to the employment; or
 - d. However, any condition or impairment of health of a full-time paid firefighter or law enforcement officer caused by lung or respiratory disease, hypertension, heart disease, or exposure to infectious disease as defined by sections 23-07.3-01 and 23-07.3-02, or occupational cancer in a full-time paid firefighter, resulting in total or partial disability or death is presumed to have been suffered in the line of duty. The condition or impairment of health may not be attributed to any disease existing before that total or partial disability or death unless the contrary is shown by competent evidence. As used in this subdivision, an occupational cancer is one which arises out of employment as a full-time paid firefighter and is due to injury due to exposure to smoke, fumes, or carcinogenic, poisonous, toxic, or chemical substances while in the performance of active duty as a full-time paid firefighter. A full-time paid firefighter or law enforcement officer is not eligible for the benefit provided under this subdivision unless that full-time paid firefighter or law enforcement officer has completed five years of continuous

service and has successfully passed a ~~physical~~ medical examination which fails to reveal any evidence of such a condition. An employer shall require a ~~physical~~ medical examination upon employment, ~~and annually thereafter~~, for any employee subject to this subdivision. After the initial medical examination, an employer shall require at least a periodic medical examination as follows: for one to ten years of service, every five years; for eleven to twenty years of service, every three years; and for twenty-one or more years of service, every year. The periodic medical examination, at a minimum, must consist of a general medical history of the individual and the individual's family; an occupational history including contact and an exposure to hazardous materials, toxic products, contagious and infectious diseases, and to physical hazards; a physical exam including measurement of height, weight, and blood pressure; and laboratory and diagnostic procedures including a nonfasting total blood cholesterol test and papanicolaou smear for women. If the medical examination reveals that an employee falls into a recognized risk group, the employee must be referred to a qualified health professional for future medical examination. This subdivision does not affect an employee's responsibility to document that the employee has not used tobacco as required under section 65-01-15. Results of the examination must be used in rebuttal to a presumption afforded under this subdivision. For purposes of this subdivision, "law enforcement officer" means a person who is licensed to perform peace officer law enforcement duties under chapter 12-63 and is employed full time by the bureau of criminal investigation, the game and fish department, the state highway patrol, the parole and probation division, the North Dakota state university police department, the North Dakota state college of science police department, the university of North Dakota police department, a county sheriff's department, or a city police department. The presumption does not include a condition or impairment of health of a full-time paid firefighter or law enforcement officer, who has been employed for ten years or less, if the condition or impairment is diagnosed more than two years after the employment as a full-time paid firefighter or law enforcement officer ends. The presumption also does not include a condition or impairment of health of a full-time paid firefighter or law enforcement officer, who has been employed more than ten years, if the condition or impairment is diagnosed more than five years after the employment as a full-time paid firefighter or law enforcement officer ends.

⁷ **SECTION 2.** A new section to chapter 65-01 of the North Dakota Century Code is created and enacted as follows:

Presumption of compensability for certain conditions of full-time paid firefighters and law enforcement officers. Any condition or impairment of health of a full-time paid firefighter or law enforcement officer caused by lung or respiratory disease as defined by sections 23-07.3-01 and 23-07.3-02, or occupational cancer in a

full-time paid firefighter, resulting in total or partial disability or death is presumed to have been suffered in the line of duty. The condition or impairment of health may not be attributed to any disease existing before that total or partial disability or death unless the contrary is shown by competent evidence. As used in this section, an occupational cancer is one which arises out of employment as a full-time paid firefighter and is due to injury due to exposure to smoke, fumes, or carcinogenic, poisonous, toxic, or chemical substances while in the performance of active duty as a full-time paid firefighter. A full-time paid firefighter or law enforcement officer is not eligible for the benefit provided under this section unless that full-time paid firefighter or law enforcement officer has completed five years of continuous service and has successfully passed a medical examination which fails to reveal any evidence of such a condition. An employer shall require a medical examination upon employment, for any employee subject to this section. After the initial medical examination, an employer shall require at least a periodic medical examination as follows: for one to ten years of service, every five years; for eleven to twenty years of service, every three years; and for twenty-one or more years of service, every year. The periodic medical examination, at a minimum, must consist of a general medical history of the individual and the individual's family; an occupational history including contact with and an exposure to hazardous materials, toxic products, contagious and infectious diseases, and to physical hazards; a physical examination including measurement of height, weight, and blood pressure; and laboratory and diagnostic procedures including a nonfasting total blood cholesterol test and papanicolaou smear for women. If the medical examination reveals that an employee falls into a recognized risk group, the employee must be referred to a qualified health professional for future medical examination. This section does not affect an employee's responsibility to document that the employee has not used tobacco as required under section 65-01-15. Results of the examination must be used in rebuttal to a presumption afforded under this section. For purposes of this section, "law enforcement officer" means a person who is licensed to perform peace officer law enforcement duties under chapter 12-63 and is employed full time by the bureau of criminal investigation, the game and fish department, the state highway patrol, the parole and probation division, the North Dakota state university police department, the North Dakota state college of science police department, the university of North Dakota police department, a county sheriff's department, or a city police department. The presumption does not include a condition or impairment of health of a full-time paid firefighter or law enforcement officer, who has been employed for ten years or less, if the condition or impairment is diagnosed more than two years after the employment as a full-time paid firefighter or law enforcement officer ends. The presumption also does not include a condition or impairment of health of a full-time paid firefighter or law enforcement officer, who has been employed more than ten years, if the condition or impairment is diagnosed more than five years after the employment as a full-time paid firefighter or law enforcement officer ends.

WORKERS COMPENSATION BUREAU SUBROGATION INTEREST

AN ACT to amend and reenact section 65-01-09 of the North Dakota Century Code, relating to subrogation interests of the workers compensation bureau.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 65-01-09 of the North Dakota Century Code is amended and reenacted as follows:

65-01-09. Injury through negligence of third person - Option of employee - Fund subrogated when claim filed. When an injury or death for which compensation is payable under provisions of this title shall have been sustained under circumstances creating in some person other than the fund a legal liability to pay damages in respect thereto, the injured employee, or the employee's dependents may claim compensation under this title and proceed at law to recover damages against such other person. The fund is subrogated to the rights of the injured employee or the employee's dependents to the extent of fifty percent of the damages recovered up to a maximum of the total amount it has paid or would otherwise pay in the future in compensation and benefits for the injured employee. The bureau's subrogation interest may not be reduced by settlement, compromise, or judgment. The action against such other person may be brought by the injured employee, or the employee's dependents in the event of the employee's death. Such action shall be brought in the injured employee's or in the employee's dependents' own right and name and as trustee for the bureau for the subrogation interest of the bureau. However, if the director chooses not to participate in a health care malpractice action, the fund has no subrogation interest and no obligation to pay fees or costs under this section. If the injured employee or the employee's dependents do not institute suit within sixty days after date of injury, the bureau may bring the action in its own name and as trustee for the injured employee or the employee's dependents and retain as its subrogation interest the full amount it has paid or would otherwise pay in the future in compensation and benefits to the injured employee or the employee's dependents. Within sixty days after both the injured employee and the bureau have declined to commence an action against a third person as provided above, the employer may bring the action in the employer's own name or in the name of the employee, or both, and in trust for the bureau and for the employee. The party bringing the action may determine if the trial jury should be informed of the trust relationship. If the action is brought by the injured employee or the employee's dependents, or the employer as provided above, the bureau shall pay fifty percent of the costs of the action, exclusive of attorney fee, when such costs are incurred. If there is no recovery of damages in the action, this shall be a cost of the bureau to be paid from the bureau general fund. When there is recovery of damages in the action, the costs of the action, exclusive of attorneys fees, must be prorated and adjusted on the percentage of the total subrogation interest of the bureau recovered to the total recovery in the action. The bureau shall pay attorney fees to the injured employee's attorney from the bureau general fund as follows:

1. Twenty percent of the subrogation interest recovered for the bureau when legal action is not commenced.
2. Twenty-five percent of the subrogation interest recovered for the bureau when action is commenced and settled before judgment.
3. Thirty-three and one-third percent of the subrogation interest recovered for the bureau when recovered through judgment.

The above provisions as to costs of the action and attorney fees is effective only when the injured employee advises the bureau in writing the name and address of the employee's attorney, and that the employee has employed such attorney for the purpose of collecting damages or of bringing legal action for recovery of damages. If a claimant fails to pay the bureau's subrogation interest within thirty days of receipt of a recovery in a third party action, the bureau's subrogation interest is the full amount of the damages recovered, up to a maximum of the total amount it has paid or would otherwise pay in the future in compensation and benefits to the injured employee or the employee's dependents, and no costs or attorney fees will be paid from the bureau's subrogation interest.

WORKERS' COMPENSATION DECISIONS AND DISPUTES

AN ACT to create and enact a new section to chapter 65-01 of the North Dakota Century Code, relating to decisions made by the workers compensation bureau; to amend and reenact sections 65-02-11, 65-02-20, 65-02-27, and subsection 4 of section 65-08-01 of the North Dakota Century Code, relating to process and procedure used by the bureau, dispute resolution under the bureau's managed care program, the workers' adviser program, and procedures for filing a claim under an extraterritorial coverage agreement; and to repeal section 65-01-14 of the North Dakota Century Code, relating to initial decisions made by the workers compensation bureau; and to provide an effective date.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. A new section to chapter 65-01 of the North Dakota Century Code is created and enacted as follows:

Decisions by bureau - Disputed decisions. The following procedures must be followed in claims for benefits, notwithstanding any provisions to the contrary in chapter 28-32:

1. The bureau shall send a copy of each initial claim form filed with the bureau to the claimant's employer, by regular mail, along with a form for the employer's response, if the employer's response has not been filed at the time the claim is filed. Failure of the employer to file a response within fourteen days from the day the response form was mailed to the employer constitutes the employer's admission that the information in the claim form is correct.
2. The bureau may conduct a hearing on any matter within its jurisdiction by informal internal review of the information of record.
3. The bureau may issue a notice of decision for any decision made by informal internal review and shall serve the notice of decision on the parties by regular mail. A notice of decision must include a statement of the decision, a short summary of the reason for the decision, and notice of the right to reconsideration.
4. A party has thirty days from the day the notice of decision was mailed by the bureau in which to file a written request for reconsideration. The request must state the alleged errors in the decision and the relief sought. The request may be accompanied by additional evidence not previously submitted to the bureau. The bureau shall reconsider the matter by informal internal review of the information of record. Absent a timely

and sufficient request for reconsideration, the notice of decision is final and may not be reheard or appealed.

5. Within sixty days after receiving a request for reconsideration, the bureau shall serve on the parties by regular mail a notice of decision reversing the previous decision or, in accordance with the North Dakota Rules of Civil Procedure, an administrative order that includes its findings, conclusions, and order. The bureau may serve an administrative order on any decision made by informal internal review without first issuing a notice of decision and receiving a request for reconsideration.
6. A party has thirty days from the date of service of an administrative order in which to file a request for assistance from the workers' adviser program under section 65-02-27.
7. A party has thirty days, from the date of service of an administrative order or from the day the workers' adviser program mails its notice that the program's assistance is complete, in which to file a written request for rehearing. The request must specifically state each alleged error of fact and law to be reheard and the relief sought. Absent a timely and sufficient request for rehearing, the administrative order is final and may not be reheard or appealed.

This section is effective for all compensable injuries that occur after July 31, 1995. Compensable injuries paid under sections 3, 4, 5, 6, and 7 of this Act are not subject to this section.

SECTION 2. AMENDMENT. Section 65-06.2-01 of the North Dakota Century Code is amended and reenacted as follows:

65-06.2-01. Inmate defined. For the purposes of ~~this chapter~~ sections 65-06.2-02 and 65-06.2-03, an inmate is a person who is confined against the inmate's will in a city or county penal institution or is a person who, as a criminal

defendant before a court, is ordered or elects to perform public service for a city or county in conjunction with or in lieu of a jail sentence. The term inmate does not include an individual injured while incarcerated in the North Dakota state penitentiary or any of its affiliated facilities or an individual injured in a fight, riot, recreational activity, or other incident not directly related to the inmate's work assignment.

SECTION 3. A new section to chapter 65-06.2 of the North Dakota Century Code is created and enacted as follows:

Workers' compensation coverage for inmates engaged in work programs through roughrider industries. The director of the department of corrections and rehabilitation may elect to provide and request from the bureau a program of modified workers' compensation coverage established under this chapter and according to administrative rules and fee schedules of this chapter. Roughrider industries shall qualify for the bureau's risk management program before the bureau may provide the modified workers' compensation coverage. The modified workers' compensation coverage would be for inmates incarcerated at the penitentiary and engaged in work in a prison industries work program through roughrider industries, whether the program is operated by roughrider industries or by contract with another entity or private employer. An inmate who sustains a compensable injury arising out of and in the course of work in a prison industries work program through roughrider industries may only receive workers' compensation benefits under the modified workers' compensation coverage established for that purpose.

SECTION 4. A new section to chapter 65-06.2 of the North Dakota Century Code is created and enacted as follows:

Modified coverage of inmates engaged in work programs through roughrider industries - Conditions. Except as otherwise provided in this chapter, all claims for workers' compensation benefits under this section and sections 3, 5, and 7 of this Act are subject to title 65. A claim under this section and sections 3, 5, and 7 of this Act must be filed according to section 65-05-01. While an inmate is incarcerated at the penitentiary, the penitentiary shall pay the reasonable medical expenses of that inmate at penitentiary medical payment levels, if that inmate incurs a compensable injury while working in a prison industries work program through roughrider industries. If an inmate sustains a compensable injury while working in a prison industries work program through roughrider industries, disability, vocational rehabilitation allowance, and permanent partial impairment benefits may not accrue or be paid while the inmate is incarcerated and may only be paid after the inmate is discharged from the penitentiary. If the director of the department of corrections and rehabilitation and the bureau determine that an inmate who suffers a compensable injury under this chapter is in need of vocational rehabilitation services while the inmate is incarcerated, the penitentiary and the bureau may provide vocational rehabilitation services to the inmate. An injury resulting from a fight, riot, recreational activity, or other activity or incident other than the inmate's actual performance of work duties in a prison industries work program through roughrider industries is not compensable under this title.

SECTION 5. A new section to chapter 65-06.2 of the North Dakota Century Code is created and enacted as follows:

Rulemaking - Excess or reinsurance coverage. The bureau, in cooperation with the department of corrections and rehabilitation and the risk management division of the office of management and budget, shall adopt administrative rules and fee schedules for a program of modified workers' compensation coverage

established and provided under this section and sections 3, 4, and 7 of this Act. The administrative rules and fee schedules must provide for the classification of inmates engaged in work in a prison industries work program through roughrider industries, the computation of premium, the payment of claims charges against the classification, the payment of medical bills, excess coverage or reinsurance, and the reimbursement by roughrider industries to the bureau for all claim benefit costs charged against that classification, as well as any allocated loss adjustment expense and all administrative expenses, including the expense of issuing the coverage, for the life of the claim in excess of premiums and medical expenses paid by roughrider industries. Roughrider industries shall secure excess coverage or shall reinsure all excess risks through the risk management division to cover the costs in excess of premiums and medical expenses paid. The risk management division shall assess a premium against roughrider industries for the cost of excess or reinsurance coverage and roughrider industries shall pay that premium.

SECTION 6. A new section to chapter 65-06.2 of the North Dakota Century Code is created and enacted as follows:

State reimbursement for liability in excess of collected premiums. Whenever total costs and expenses charged to the classification of the modified workers' compensation program established under this chapter exceeds the amount of premiums paid into the fund and any policy limits of the reinsurance or excess coverage purchased under section 5 of this Act, those excess costs and expenses are a general obligation of the state and the state shall reimburse the bureau for credit to the workers' compensation fund through legislative appropriation. Roughrider industries shall secure a means of reinsuring excess costs and expenses to minimize exposure of loss to the state general fund. The bureau may not provide the additional excess coverage or reinsurance required under this section. This modified workers' compensation coverage may not be effective unless the excess coverage or reinsurance required under this section is in place.

SECTION 7. A new section to chapter 65-06.2 of the North Dakota Century Code is created and enacted as follows:

No liability for damages - Inmates are not employees. The state and its employees, and the department of corrections and rehabilitation and its divisions, departments, and employees may not be held liable for damages at common law or by statute if an inmate covered under a program of modified workers' compensation coverage under this chapter sustains a compensable injury while working in a prison industries work program through roughrider industries. An inmate covered under a program of modified workers' compensation coverage under this chapter is not an employee of the state or the department of corrections and rehabilitation and its divisions and departments except for the purpose of modified workers' compensation coverage under this chapter.

SECTION 8. A new section to chapter 65-06.2 of the North Dakota Century Code is created and enacted as follows:

Safety and performance audit. The bureau shall perform a safety audit of the roughrider industries work programs covered under this chapter and a performance audit of the program of modified workers' compensation coverage. The bureau shall submit a report with recommendations based on the safety and performance audit to an interim committee designated by the legislative council no later than thirty days before the commencement of each regular session of the legislative assembly.

SECTION 9. EXPIRATION DATE. This Act is effective through June 30, 2003, and after that date is ineffective.

11. Dependency allowance for the children may be made directly to either parent or guardian at the discretion of the bureau.

SECTION 2. AMENDMENT. Section 65-05-08.1 of the North Dakota Century Code is amended and reenacted as follows:

The notice must include a statement of the reason for the action, a brief summary of the evidence relied upon by the bureau, and an explanation of the right to respond and the procedure for challenging the action and submitting additional evidence to the bureau.~~

SECTION 3. AMENDMENT. Section 65-05-09 of the North Dakota Century Code is amended and reenacted as follows:

SECTION 4. A new section to chapter 65-05 of the North Dakota Century Code is created and enacted as follows:

Preacceptance disability benefits. If, after receiving a claim for benefits, the bureau determines that more information is needed to process the claim, but that the information in the file indicates the injured employee is more likely than not entitled to disability benefits, the bureau may pay preacceptance disability benefits equal to the minimum weekly disability benefit allowed under section 65-05-09. The bureau may continue to pay preacceptance disability benefits to the employee during the period the claim is pending, unless the injured employee is not cooperating with requests from the bureau for additional information needed to process the claim. The bureau may not pay more than sixty days of preacceptance benefits. The bureau may only recover a payment made to an injured employee under this section if that recovery is allowed under section 65-05-33. There is no appeal from a bureau decision not to pay preacceptance disability benefits.

SECTION 5. AMENDMENT. Section 65-05-10 of the North Dakota Century Code is amended and reenacted as follows:

65-05-10. Partial disability - Weekly ~~compensation~~ benefit. If the injury causes temporary partial disability resulting in decrease of earning capacity, the ~~compensation~~ disability benefit is sixty-six and two-thirds percent of the difference between the injured employee's average weekly wages before the injury and the employee's wage earning capacity after the injury in the same or another employment. However, the partial disability benefits plus dependency allowance and earning capacity may not exceed the weekly wage of the employee after deductions for social security and federal and state income tax benefit rates as defined in section 65-05-09.

1. ~~It is the burden of the employee to show that the inability to obtain employment or to earn as much as the employee earned at the time of injury, is due to physical limitation related to the injury, and that any wage loss claimed is the result of the compensable injury.~~

2. If the employee voluntarily limits income or refuses to accept employment suitable to the employee's capacity, offered to or procured for the employee, such employee is not entitled to any compensation at any time during the continuance of such refusal unless, at any time, such refusal is justified in the opinion of the bureau.
3. No compensation is payable unless the loss of earning capacity exceeds ten percent. The claimant may earn up to ten percent of the claimant's average gross weekly earnings with no reduction in total disability benefits.
4. Upon securing suitable employment, the injured employee shall notify the bureau of the name and address of the employer, the date the employment began, and the amount of wages being received on an annual basis. The injured employee shall notify the bureau whenever there is a change in wages received.
5. The benefits provided by this section are available to any otherwise eligible worker, providing the loss of earning capacity occurs after July 1, 1989. Partial loss of earning capacity occurring prior to July 1, 1989, must be paid at a rate to be fixed by the bureau.
6. Dependency allowance must be paid under section 65-05-09 on claims receiving benefits under this section.
7. 2. Benefits must be paid during the continuance of partial disability, not to exceed a period of five years. The bureau may waive the five-year limit on the duration of partial disability benefits in cases of catastrophic injury as defined in section 65-05.1-06.1 or when the injured worker is working and has long-term restrictions verified by clear and convincing objective medical and vocational evidence that limits the injured worker to working less than twenty-eight hours per week because of the compensable work injury. This subsection is effective for partial loss of earnings capacity occurring after June 30, 1991.
8. 3. The employee's earnings capacity may be established by expert vocational evidence of a capacity to earn in the statewide job pool where the worker lives. Actual postinjury earnings are presumptive evidence of earnings capacity where the job employs the employee to full work capacity in terms of hours worked per week, and where the job is in a field related to the employee's transferable skills. The presumption may be rebutted by competent evidence from a vocational expert that the employee's actual earnings do not fairly reflect the employee's earnings capacity in the statewide job pool, considering the employee's capabilities, education, experience, and skills.

SECTION 6. AMENDMENT. Section 65-06.2-02 of the North Dakota Century Code is amended and reenacted as follows:

65-06.2-02. Coverage of inmates - Conditions.

1. If an inmate in performance of work in connection with the maintenance of the institution, or with any industry maintained ~~therein~~ within the institution, or with any public service activity, sustains a compensable injury, the inmate may; ~~upon being released from the institution; or after discharge from public service;~~ be awarded and paid compensation

benefits under the ~~provision~~ provisions of this title, upon being released from the institution or after discharge from public service.

2. Claims under this chapter ~~shall~~ must be filed and processed pursuant to section 65-05-01, except that an inmate ~~shall~~ also ~~have~~ has one year from the date of first release from the institution or discharge from public service to file a claim.
3. Workers' compensation benefits under this chapter accrue and are payable from the time of the inmate's release from the institution or after discharge from public service. Disability benefits must be computed according to the methods provided in chapter 65-05. The inmate's weekly wage must be computed using either the actual wage paid to the inmate or the federal minimum wage as of the date of injury, whichever is higher.
4. If a former inmate receiving disability benefits under the provisions of this chapter is recommitted or sentenced by a court to imprisonment in a penal institution, the disability benefits are payable pursuant to subsection ~~3~~ 2 of section 65-05-08.

SECTION 7. EFFECTIVE DATE. Subsection 2 of section 1 of this Act is effective for all confined employees whose period of confinement begins after July 31, 1997, regardless of the date of injury. Subsection 2 of section 5 of this Act is effective for all determinations made after July 31, 1997, regardless of the date of injury. The remainder of section 1, sections 2 and 3, the remainder of section 5, and section 6 are effective for all claims, regardless of the date of injury. Section 4 of this Act is effective for all claims filed after July 31, 1997.

SECTION 8. EXPIRATION DATE. Section 4 of this Act is effective through July 31, 1999, and after that date is ineffective.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. A new section to chapter 65-05 of the North Dakota Century Code is created and enacted as follows:

Additional benefit payable. If an injured employee's benefits cease under subsection 2 of section 65-05-09.3, the bureau shall pay to that employee every twenty-eight days a benefit based on the length of time the injured employee received disability benefits during the term of that claim. The bureau shall pay the injured employee's additional benefits until the employee's death or for a period of time not to exceed the total length of time the employee received disability benefits under sections 65-05-08, 65-05-08.1, 65-05-09, and 65-05-10, and a vocational rehabilitation allowance under chapter 65-05.1, for that claim, whichever occurs first. The benefit is based on the disability benefit that was discontinued under subsection 2 of section 65-05-09.3, which is the injured employee's compensation rate less any applicable social security offset. The percentage of that final payment payable as the additional benefit is:

At least 1 year and less than 3 years of disability	5 percent of weekly benefit
At least 3 years and less than 5 years of disability	10 percent of weekly benefit
At least 5 years and less than 7 years of disability	15 percent of weekly benefit

Twenty or more years of disability	50 percent of weekly benefit.

However, the bureau shall pay to an injured employee who has been determined to be catastrophically injured as defined by subdivision c of subsection 2 of section 65-05.1-06.1 an additional benefit, until the death of the employee, equal to one hundred percent of the final payment of the disability benefit that was discontinued under subsection 2 or 3 of section 65-05-09.3.

SECTION 2. AMENDMENT. Section 65-05-09.3 of the North Dakota Century Code is amended and reenacted as follows:

65-05-09.3. Retirement presumption - Termination of benefits upon retirement.

1. An employee who has retired or voluntarily withdrawn from the labor force and who ~~is, at that time, was~~ not eligible to receive temporary total disability, temporary partial disability, or permanent total disability benefits, or a rehabilitation allowance from the bureau is presumed retired from the labor market. The presumption may be rebutted by a preponderance of the evidence; however, the subjective statement of an employee that the employee is not retired is not sufficient in itself to rebut objective evidence of retirement.
2. An injured employee ~~who is receiving permanent total, temporary total, or temporary partial disability benefits, or rehabilitation benefits, and who begins receiving social security retirement benefits or other retirement benefits in lieu of social security retirement benefits, or who is at least sixty five years old and is eligible to receive social security retirement benefits or other retirement benefits in lieu of social security retirement benefits, or who attains retirement age for social security retirement benefits unless the employee proves the employee is not eligible to receive social security retirement benefits or other benefits in lieu of social security retirement benefits is considered to be retired.~~ The bureau may not pay any ~~permanent total, temporary total, or temporary partial~~ disability benefits, rehabilitation benefits, or ~~supplemental supplementary~~ benefits to an employee who is considered retired; however, ~~the bureau is liable~~ employee remains eligible for payment of medical benefits and, permanent partial impairment benefits, and the additional benefit payable under section 1 of this Act. ~~An employee who is determined to be catastrophically injured as defined by subdivision e of subsection 2 of section 65-05.1-06.4 is not subject to this section.~~
3. The bureau retains liability for disability benefits, rehabilitation benefits, permanent partial impairment benefits, and medical benefits for an injured employee who is ~~eligible to receive~~ receiving social security retirement benefits or other retirement benefits in lieu of social security retirement benefits or who attains retirement age for social security retirement benefits unless the employee is not eligible to receive social security retirement benefits or other benefits in lieu of social security retirement benefits and who is gainfully employed; and who suffers an injury arising out of and in the course of that employment. The bureau may not pay disability or rehabilitation benefits under this subsection for more than three years, subject to section 65-05-09.2, for injuries occurring after the effective date for this Act.
4. WORKERS' COMPENSATION AGGRAVATION AWARDS

AN ACT to amend and reenact section 65-05-15 of the North Dakota Century Code, relating to payment of work-related injuries on an aggravation basis.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 65-05-15 of the North Dakota Century Code is amended and reenacted as follows:

65-05-15. Aggravation awards. ~~The~~ When a compensable injury combines with a noncompensable injury, disease, or other condition, the bureau shall calculate an aggravation award in case of aggravation of a preexisting condition, disease, or infirmity by a compensable injury, and in case of aggravation of a compensable injury by a nonemployment injury award benefits on an aggravation basis, on the following terms:

1. ~~A "preexisting condition" means disability or impairment known in advance of the work injury. It is sufficient to invoke the aggravation statute if the preexisting condition is active at the time of the work injury, evidenced by work restriction (active disability) or interference with function (active impairment).~~
2. ~~In cases of preexisting a prior injury, disease, or other condition, aggravated, known in advance of the work injury, which has caused previous work restriction or interference with physical function the progression of which is substantially accelerated by, or the severity of which is substantially worsened by, a compensable injury, the bureau shall pay medical expense to treat benefits during the period of acute injury care in full. If evidence establishes that the preexisting condition has combined with the work injury, and will necessitate further treatment beyond the acute stage, an aggravation award may be invoked as to the remainder of the medical expense award. Likewise, the bureau shall pay temporary total disability to the worker, during the acute disability phase, in full. When the worker reaches maximum medical recovery, and is awarded permanent partial impairment, partial disability, permanent total disability, or vocational retraining services, and the evidence establishes that the preexisting condition has combined with the work injury to produce the continuing disability, an aggravation award may be invoked. The period of acute care is presumed to be sixty days immediately following the compensable injury, absent clear and convincing evidence to the contrary. Following the period of acute care, the bureau shall pay benefits on an aggravation basis.~~
3. ~~2.~~ In case of aggravation of If the progression of a prior compensable injury is substantially accelerated by, or the severity of the compensable

injury is substantially worsened by a nonemployment noncompensable injury, the aggravation statute may be invoked where the nonemployment injury acts upon the prior compensable injury, and substantially contributes to the severity, acceleration, or progression of the final result, or, if it acts as a trigger to produce recurrent symptoms, and the trigger is itself a substantial aggravating or accelerating factor. All benefits may be apportioned when the aggravation statute is invoked under this subsection. The aggravation statute may not be invoked if the result is but a natural progression of the compensable injury disease, or other condition, the bureau shall pay benefits on an aggravation basis.

4. 3. The bureau shall determine the pay benefits on an aggravation award based upon all evidence, as reasonably establishes basis as a percentage of the benefits to which the injured worker would otherwise be entitled, equal to the proportion or percentage of cause as is reasonably of the resulting condition that is attributable to the compensable injury. If the degree of Benefits payable on an aggravation cannot be determined, the percentage award must be basis are presumed to be payable on a fifty percent of the total benefits recoverable if one hundred percent of the injury had been the result of employment basis. The party asserting a percentage other than the presumed fifty percent may rebut the presumption with clear and convincing evidence to the contrary.
5. 4. Compensation paid on the basis of aggravation may not be less than ten dollars per week unless the actual wages of the claimant were less than ten dollars, in which event the actual wages must be paid in compensation. In case of death due to an employment aggravation condition, burial expenses and special benefits must be paid in full under sections 65-05-17 and 65-05-26. Dependency allowance may not be reduced by the percentage of aggravation and must be paid in full under section 65-05-09. When an injured worker is entitled to benefits on an aggravation basis, the bureau shall still pay costs of vocational rehabilitation, burial expenses under section 65-05-26, and dependency allowance on a one hundred percent basis.

HOUSE BILL NO. 1262

(Representative Berg)
(Senator Mutch)

WORKERS' COMPENSATION VOCATIONAL REHABILITATION

AN ACT to amend and reenact subsection 4 of section 65-05.1-01, subsection 3 of section 65-05.1-02.1, subsections 4 and 6 of section 65-05.1-04, and section 65-05.1-06.1 of the North Dakota Century Code, relating to workers' compensation vocational rehabilitation.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Subsection 4 of section 65-05.1-01 of the North Dakota Century Code is amended and reenacted as follows:

4. The first appropriate option among the following, calculated to return the employee to substantial gainful employment, must be chosen for the employee:
 - a. Return to the same position.
 - b. Return to the same occupation, any employer.
 - c. Return to a modified position.
 - d. Return to a modified or alternative occupation, any employer.
 - e. Return to an occupation ~~in~~ within the local job pool of the locale in which the claimant was living at the date of injury or of the employee's current address which is suited to the employee's education, experience, and marketable skills.
 - f. Return to an occupation in the statewide job pool which is suited to the employee's education, experience, and marketable skills.
 - g. On-the-job training.
 - h. Short-term retraining of fifty-two weeks or less.
 - i. Long-term retraining of one hundred four weeks or less.
 - j. Self-employment.

SECTION 2. AMENDMENT. Subsection 3 of section 65-05.1-02.1 of the North Dakota Century Code is amended and reenacted as follows:

3. The vocational consultant's report is due within sixty days from the ~~initial referral for rehabilitation~~ date the vocational assessment is performed under this chapter. However, where the vocational

consultant determines that short-term or long-term training options must be evaluated because higher priority options are not viable, the final report is due within ninety days of the ~~initial~~ vocational assessment to allow the employee to assist in formulating the choice among the qualified training programs.

SECTION 3. AMENDMENT. Subsections 4 and 6 of section 65-05.1-04 of the North Dakota Century Code are amended and reenacted as follows:

4. If the first appropriate rehabilitation option under subsection 4 of section 65-05.1-01 is return to the same, modified, or alternative occupation, or return to an occupation that is suited to the employee's education, experience, and marketable skills, or on-the-job training, the employee is responsible to make a good faith work trial or work search. If the employee fails to perform a good faith work trial ~~or work search, the finding of nondisability or partial disability is res judicata, and the bureau may not reinstate temporary total pay additional~~ disability benefits or recalculate an award of partial disability benefits in the absence of a significant change in medical condition attributable to the work injury. ~~The bureau shall recalculate the partial disability award, however, if the employee returns, in good faith, to gainful employment unless the employee meets the criteria for reapplying for benefits required under subsection 2 of section 65-05-08.~~ If the employee meets the burden of proving that the employee made a good faith work trial or work search and that the work trial or work search was unsuccessful due to the injury, the bureau shall reevaluate the employee's vocational rehabilitation claim. A good faith work search that does not result in placement is not, in itself, sufficient grounds to prove the work injury caused the inability to acquire gainful employment. The employee shall show that the injury significantly impacts the employee's ability to successfully compete for gainful employment in that the injury leads employers to favor those without limitations over the employee.

6. If, without good cause, the injured employee fails to perform a good faith work trial in a return to the same, modified, or alternative occupation, ~~or in an on-the-job training program, or fails to make a good faith work search in return to work utilizing the employee's transferable skills, the employee is in noncompliance with vocational rehabilitation.~~ A good faith work search that does not result in placement is not, in itself, sufficient grounds to prove the work injury caused the inability to acquire gainful employment. The employee shall show that the injury significantly impacts the employee's ability to successfully compete for gainful employment in that the injury leads employers to favor those without limitations over the employee. ~~If, without good cause, the injured employee fails to attend specific vocational testing, remedial, or other vocational services determined necessary by the bureau or the rehabilitation consultant, the employee is in noncompliance with vocational rehabilitation. If, without good cause, the injured employee fails to attend a scheduled medical or vocational assessment, fails to communicate or cooperate with the vocational consultant, or fails to attend a specific qualified rehabilitation program within ten days from the date the rehabilitation program commences, the employee is in noncompliance with vocational rehabilitation. If, without good cause, the employee discontinues a job the employee is performing, or a training program in which the employee is enrolled, the employee is in noncompliance with vocational rehabilitation. If at any time the~~

employee is noncompliant without good cause, subsequent efforts by the employee to come into compliance with vocational rehabilitation are not considered successful compliance until the employee has successfully returned to the job or training program for a period of ~~sixty~~ thirty days. In all cases of noncompliance by the employee, the bureau, by administrative order, shall discontinue ~~lost-time disability and vocational rehabilitation~~ benefits. If, after issuance of the ~~bureau order becomes final~~, the period of noncompliance continues for ~~sixty~~ thirty days, or a second instance of noncompliance occurs without good cause, the bureau ~~has no further jurisdiction in awarding~~ may not pay any further ~~temporary total disability, temporary partial disability, permanent total disability, or vocational rehabilitation~~ benefits, regardless of whether the employee sustained a significant change in medical condition due to the work injury.

SECTION 4. AMENDMENT. Section 65-05.1-06.1 of the North Dakota Century Code is amended and reenacted as follows:

65-05.1-06.1. Rehabilitation award.

1. Within sixty days of ~~receipt of~~ receiving the final vocational consultant's report, the bureau shall issue an administrative order under chapter 28-32 detailing the employee's entitlement to ~~lost-time~~ disability and vocational rehabilitation services.
2. If the appropriate priority option is short-term or long-term training, the vocational rehabilitation award must be within the following terms:
 - a. For the employee's lost time, and in lieu of further ~~temporary total, temporary partial, and permanent total~~ disability benefits, the bureau shall award a rehabilitation allowance. The rehabilitation allowance must be limited to the amount and purpose specified in the award, and must be equal to the disability and dependent benefits the employee was receiving, or was entitled to receive, prior to the award.
 - b. The rehabilitation allowance must include an additional twenty-five percent when it is necessary for the employee to maintain two households, when it is necessary for the employee to maintain two households and the employee elects to commute to and from school on a daily basis rather than maintain a second household and the distance from the employee's residence to the school or training institution is at least thirty miles, or when the employee meets other criteria established by the bureau by rule.
 - c. The rehabilitation allowance must be limited to one hundred four weeks except in cases of catastrophic injury, in which case additional rehabilitation benefits may be awarded in the discretion of the bureau. Catastrophic injury includes:
 - (1) Paraplegia; ~~quadraplegia;~~ quadriplegia; severe closed head injury; total blindness, in both eyes; or amputation of an arm proximal to the wrist or a leg proximal to the ankle, caused by the compensable injury, which renders an employee permanently and totally disabled without further vocational retraining assistance; or

- (2) Those employees the bureau so designates, in its sole discretion, provided that the bureau finds the employee to be permanently and totally disabled without further vocational retraining assistance. There is no appeal from a bureau decision to designate, or fail to designate, an employee as catastrophically injured under this subsection.
- d. The rehabilitation award must include the cost of books, tuition, fees, and equipment, tools, or supplies required by the educational institution. The award may not exceed the cost of attending a public college or university in the state in which the employee resides, provided an equivalent program exists in the public college or university.
- e. ~~The rehabilitation allowance may be paid only during such time as the employee faithfully pursues vocational retraining. The rehabilitation allowance may be suspended during such time as the employee is not faithfully pursuing the training program, or has failed academically. If the work injury itself precludes the employee from continuing training, the employee remains eligible to receive disability benefits.~~
- f. ~~In the event~~ If the employee successfully concludes the rehabilitation program, the bureau may make, in its sole discretion, additional awards for actual relocation expenses to move the household to the locale where the claimant has actually located work.
- ~~g.~~ f. ~~In the event~~ If the employee successfully concludes the rehabilitation program, the bureau may make, in its sole discretion, an additional award, not to exceed two months disability benefit, to assist the employee with work search.
- ~~h.~~ g. If the employee successfully concludes the rehabilitation program, the employee is not eligible for further vocational retraining or total disability benefits unless the employee establishes a significant change in medical condition attributable to the work injury which precludes the employee from performing the work for which the employee was trained, or any other work for which the employee is suited. The bureau may waive this section in cases of catastrophic injury defined by subdivision c of subsection 2.
- ~~i.~~ h. If the employee successfully concludes the rehabilitation program, the employee remains eligible to receive partial disability benefits, as follows:
- (1) Beginning the date at which the employee completes retraining, until the employee acquires and performs substantial gainful employment, the partial disability benefit is sixty-six and two-thirds percent of the difference between the injured employee's average weekly wages before the injury, and the employee's wage-earning capacity after retraining, as measured by the average wage in the employee's occupation, according to criteria established by job service North Dakota in its statewide labor market survey, or such other criteria the bureau, in its sole discretion, deems appropriate. The average weekly wage must be determined on the date the employee

- completes retraining. The benefit continues until the employee acquires substantial gainful employment; ~~but in no case may exceed one year in duration.~~
- (2) Beginning the date at which the employee acquires substantial gainful employment in the field for which the employee was trained, or in a related occupation, the partial disability benefit is ~~sixty-six and two-thirds percent of the difference between the injured employee's average weekly wages before the injury, and the employee's wage-earning capacity after retraining.~~
- ~~(3)~~ Beginning the date at which the employee acquires substantial gainful employment in an occupation unrelated to the employee's training, the partial disability benefit is sixty-six and two-thirds percent of the difference between the injured employee's weekly wages before the injury, and the employee's wage-earning capacity after retraining, as determined under paragraph 1 of this subdivision, or the employee's actual postinjury wage earnings, whichever is higher.
- ~~(4)~~ (3) The partial disability benefit payable under paragraphs 1, and 2, and 3 of this subdivision ~~must be reduced so that the benefit and the employee's earnings or calculated earnings capacity, together, do not exceed one hundred twenty-five percent of the average weekly wage in this state. For purposes of this subsection, the average weekly wage must be determined on the date the employee completes retraining or the date the employee acquires substantial gainful employment. The partial disability benefit so calculated is not subject to increase or decrease when the average weekly wage in this state changes may not exceed the limitation on partial disability benefits contained in section 65-05-10.~~
- ~~(5)~~ (4) The partial disability benefits paid under paragraphs 1, and 2, and 3 may not together exceed one year's duration.
- ~~(6)~~ For purposes of paragraph 1, the date the employee completes retraining is defined as the date the employee is available for full-time work. An employee cannot be deemed available for full-time work while the employee pursues education, unless such pursuit will in no way interfere with full-time work.
- ~~(7)~~ (5) For purposes of paragraphs 1, and 2, and 3, "substantial gainful employment" means full-time bona fide work, for a remuneration, other than make-work. "Full-time work" means employment for twenty-eight or more hours per week, on average.
- ~~(8)~~ (6) The bureau may waive the one-year limit on the duration of partial disability benefits, in cases of catastrophic injury under subdivision c of subsection 2.

3. If the appropriate priority option is return to the same or modified position, or to a related position, the bureau shall determine whether the employee is eligible to receive partial disability benefits pursuant to section 65-05-10. In addition, the bureau, when appropriate, shall make an additional award for actual relocation expenses to move the household to the locale where the claimant has actually located work.
4. If the appropriate priority option is on-the-job training, the bureau shall pay the employee a ~~lost-time~~ disability benefit throughout the duration of the on-the-job training program. Upon completion of the training program, the bureau shall determine whether the employee is eligible to receive partial disability benefits pursuant to section 65-05-10. In addition, the bureau, when appropriate, shall make an additional award for actual relocation expenses to move the household to the locale where the claimant has actually located work.

RE: Senate Bill 2048

Dear President Myrdal:

I am returning unsigned and hereby veto Senate Bill 2048.

I fully support the concept of cooperative agreements between North Dakota and South Dakota. Advancing technology and the movement to return responsibility from the federal government to the states are among the reasons this legislation is important. Requiring ratification of such agreements by the full Legislative Assembly, however, could significantly delay implementation of time-sensitive agreements.

For that reason, I am returning this legislation with the suggestion that a mechanism be developed that would shorten the time frame for legislative oversight.

I sincerely appreciate the hard work that has gone into this important legislation. I am anxious, therefore, that a workable alternative be developed that accomplishes our mutual goals for cooperation with our sister state.

Sincerely,

Edward T. Schafer
Governor

SPECIAL SESSION VETO CONSIDERATION

AN ACT to create and enact a new section to chapter 54-03 of the North Dakota Century Code, relating to the convening of a special session of the legislative assembly to consider vetoed legislation; and to declare an emergency.

VETO

March 11, 1997

The Honorable Rosemarie Myrdal
President of the Senate
Senate Chamber
State Capitol
Bismarck, ND 58505

RE: Senate Bill 2316

Dear President Myrdal:

I hereby return Senate Bill 2316, which requires the Governor to call a special session of the Legislative Assembly if he or she vetoes a bill after the Legislature has adjourned. I respectfully veto this bill and ask members of the Assembly to carefully consider several concerns I have regarding this legislation.

First, I am concerned about the constitutional implications of SB 2316. Article V of the North Dakota Constitution, pertaining to the executive branch of government, provides that the Governor may call a special session of the Legislative Assembly. The article provides no legal authority for any other branch of government to prohibit the exercise of that power, to require the exercise of that power, or to condition the exercise of that power. In addition, the Constitution assigns the Governor authority to veto legislation and provides 15 days after adjournment to sign or veto a bill. Again, the Constitution does not provide any means by which that authority can be encumbered, prohibited, or conditioned. SB 2316 would force a governor to call a special session as a condition of exercising the veto. I believe this to be an unconstitutional infringement on the Governor's authority.

Second, I believe SB 2316 may prove impractical. For example, consider the case in which a governor line item vetoes an appropriation of \$78,000 that is part of a larger bill approved in the closing days of a legislative session. Under SB 2316 the Governor would be forced to call a special session to deal with this one issue, a special session that would cost the taxpayers a minimum of \$96,000. Another concern is the timing demands a special session would impose upon legislators. The bill requires the special session to be called within 45 days of adjournment, but does not specify when the special session would be held. This could potentially lead to a situation where the Legislature is still reviewing legislation into the summer.

Finally, I believe sufficient authority already exists under NDCC 54-03-02 to deal with a truly emergency situation. The Legislature can call itself back into session to deal with a delayed veto, so long as the Legislature has not exceeded the 80 day limitation in the Constitution. To date, no Legislature has breached the 80 day deadline in our state's history.

While for the reasons stated I must respectfully veto SB 2316, I do recognize the legitimate concerns members of the Legislative Assembly have with vetoes that occur after the Legislature adjourns. That concern will not go unnoticed. Be assured that I, like governors before me and those who will follow, will exercise the veto power judiciously and with great caution.

Sincerely,

Edward T. Schafer
Governor

NOTARY PUBLIC BONDS

AN ACT to amend and reenact sections 44-06-03 and 44-06-03.1 of the North Dakota Century Code, relating to bonds of notaries public.

VETO

March 13, 1997

The Honorable Rosemarie Myrdal
President of the Senate
Senate Chamber
State Capitol
Bismarck, ND 58505

RE: Senate Bill 2201

Dear President Myrdal:

I hereby return unsigned and veto Senate Bill 2201, requiring a notary public to purchase a bond from a bonding company and eliminating the option of obtaining a personal surety against a potential claim.

About six percent of notary publics in North Dakota currently use personal sureties. In many instances, particularly in rural areas where bonding companies are not always present and doing business, personal sureties are a practical alternative to a bonding requirement. I am also concerned that if no alternative to a bond exists, the cost of notary bonds may increase.

As I am unaware that the current law has created any problems for North Dakota notaries, I respectfully veto SB 2201.

Sincerely,

Edward T. Schafer
Governor

HOUSE BILL NO. 1110 (Government and Veterans Affairs Committee) (At the request of the State Auditor)

STATE AUDITOR AUDITS

AN ACT to amend and reenact section 54-10-14 of the North Dakota Century Code, relating to audits of public and nonprofit entities by the state auditor.

RE: House Bill 1110

Dear Speaker Timm:

I am returning and respectfully veto House Bill 1110. HB 1110 is designed to allow the state auditor to provide audit services to any public or nonprofit entity that receives state or federal financial assistance when such an organization is encountered in the course of an audit of a political subdivision and the governing body of the organization requests services be provided. I have several concerns with this legislation.

First, I believe the bill to be overly broad. By allowing the state auditor to audit ANY nonprofit entity that receives state or federal money, the bill appears to provide authority beyond the scope of the problem the bill was purportedly designed to address. For example, assuming state or federal dollars in some form are involved, a local chamber of commerce or even a statewide organization like the Greater North Dakota Association or North Dakota Farmers Union could contract for audit services with the state auditor.

Second, by permitting the state auditor to compete with the private accounting community, HB 1110 injects government into an area traditionally served by the private sector. None of us wants government to compete with our own businesses unless a compelling public reason exists for government to do so. I do not believe such a reason exists in this instance.

Third, HB 1110 expands state government at a time when we are trying to trim the cost and size of government. Again, unless we can demonstrate that the service provided is somehow essential to the efficient and effective operation of government, I believe we should avoid expanding into this arena.

If the state auditor, in the course of performing the audit of a political subdivision, comes upon a nonprofit entity in need of audit services that are not otherwise cost-effectively available, a mechanism should exist to provide those services, and only those services, when requested. Let us design the mechanism that accomplishes that goal without unduly expanding the authority of the state auditor to audit all nonprofits in the state.

For these reasons, I respectfully veto House Bill 1110.

Sincerely,

Edward T. Schafer

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 54-10-14 of the 1995 Supplement to the North Dakota Century Code is amended and reenacted as follows:

54-10-14. Political subdivisions and other entities - Audits - Fees - Alternative audits and reports. The state auditor shall audit the following political subdivisions once every two years, except as provided in this section or otherwise by law:

1. Counties.
2. Cities.
3. Park districts.
4. School districts.
5. Firemen's relief associations.
6. Airport authorities.
7. Public libraries.
8. Water resource districts.
9. Garrison Diversion Conservancy District.
10. Rural fire protection districts.
11. Special education districts.
12. Area vocational and technology centers.
13. Correction centers.
14. Recreation service districts.
15. Weed boards.
16. Irrigation districts.
17. Rural ambulance service districts.

18. West river water supply district.
19. Southwest water authority.

The state auditor shall charge the political subdivision an amount equal to the fair value of the audit and any other services rendered. Fees for the audit performed by the state auditor must be paid to the state treasurer by the political subdivision audited. The fees must be deposited in the state auditor operating account. Expenses relating to political subdivision audits must be paid from the state auditor operating account, within the limits of legislative appropriation.

The state auditor ~~may~~ in lieu of conducting an audit every two years may require annual reports from school districts with less than one hundred enrolled students, cities with less than three hundred population, and other political subdivisions subject to this section, or otherwise provided by law, with less than one hundred thousand dollars of annual receipts. The reports must contain the financial information required by the state auditor. The state auditor may also make such additional examination or audit as deemed necessary in addition to the annual report. When a report is not filed, the state auditor may charge the political subdivision an amount equal to the fair value of the additional examination or audit and any other services rendered. The state auditor may charge a political subdivision a fee not to exceed fifty dollars an hour for the costs of reviewing the annual report.

A political subdivision ~~may~~, at the option of its governing body, may be audited by a certified public accountant or licensed public accountant rather than by the state auditor. The public accountant shall comply with generally accepted government auditing standards for audits of political subdivisions. The report must be in the form and content required by the state auditor. The number of copies of the audit report requested by the state auditor must be filed with the state auditor when the public accountant delivers the audit report to the political subdivision. The state auditor shall review the audit reports to determine if the reports are in the required form and have the required content, and if the audit meets generally accepted government auditing standards. The state auditor may also periodically review the public accountant's workpapers to determine if the audit meets generally accepted government auditing standards. If the reports are in the required form and have the required content, and the reports and workpapers comply with generally accepted government auditing standards, the state auditor shall accept the audit report. The state auditor may charge the political subdivision a fee of up to fifty dollars an hour, but not to exceed five hundred dollars per review, for the related costs of reviewing the audit report and workpapers.

A political subdivision may not pay a public accountant for an audit until the state auditor has accepted the audit. However, a political subdivision may make progress payments to the public accountant. A political subdivision shall retain twenty percent of any progress payment until the audit report is accepted by the state auditor.

The state auditor may require the correction of any irregularities, objectionable accounting procedures, or illegal actions on the part of the governing board, officers, or employees of the political subdivision disclosed by the audit report or workpapers, and failure to make the corrections ~~shall result~~ results in audits being resumed by the state auditor until the irregularities, objectionable accounting procedures, or illegal actions are corrected.

Any other public or nonprofit entity, whose audit is not otherwise required to be performed under this section or section 54-10-01, which receives state or federal financial assistance, at the option of its governing body, may be audited by the state auditor if the state auditor agrees to perform the audit. The public or nonprofit entity shall pay the state auditor a fee equal to the fair value of the audit, and the fee must be deposited in the state auditor operating account.

The state treasurer shall credit the state auditor operating account with the amount of interest earnings attributable to the deposits in that account.

RE: House Bill 1147

Dear Speaker Timm:

I am returning to you unsigned and hereby veto HB 1147. I have several concerns about the bill and its potential impact on children in our state.

First, the bill is mandatory and requires all law enforcement officials to notify a school administrator about a North Dakota student accused of possessing or using marijuana, accused of activity that would be a felony, or other offenses against North Dakota. Present law allows a school administrator, principal, or guidance counselor to have information if the juvenile was "adjudicated" of an offense that would have been a felony if committed by an adult. But, this bill goes further. It does not require "adjudication," which is a finding of guilt. It requires notification of a petition being filed against a child, which is only the accusation of wrong doing.

Second, this bill undermines the underlying principle of our justice system which is that individuals are presumed innocent until proven guilty by the state. I believe we need to carefully protect this basic principle. In this case, we must balance school safety with the stigma attached to being accused of wrong doing prior to a finding of guilt. This bill allows school officials to distribute information about possible wrong doing to others without such a finding. I believe the bill goes too far.

Third, in 1995 the Legislative Assembly passed tough juvenile laws as part of the Governor's Juvenile Task Force. These laws now require juveniles to be treated as adults for serious felony acts and affords the public information about those charges and dispositions. Therefore, many of the felonies with which a juvenile will be charged will be treated in adult court.

For these reasons, I respectfully veto HB 1147.

Sincerely,

Edward T. Schafer

President of the Senate

RE: Senate Bill 2385

Dear President Myrdal:

I respectfully return unsigned and hereby veto SB 2385. This bill prohibits any non-profit corporation from acquiring more than 16,000 acres of land in North Dakota. Today, the law requires all non-profit corporations as well as the US Fish and Wildlife service to receive approval from the governor for all land acquisitions. During the last four years, this acquisition process has worked well. I have approved several purchases including most recently the acquisition of the Davis Ranch by The Nature Conservancy. I have also rejected numerous proposals in the past 4 years. In reviewing these acquisitions, I have carefully weighed numerous concerns, including the economic impact to the local tax base, the long-term economics of removing land from the private sector, access, and the availability of the land for other buyers. I will continue to carefully review them in the future.

The issue that the bill seeks to address is a valid public policy concern. How much land should be owned by non-profit corporations in this state? How does the ownership of such land affect our tax base, the economic vitality of the local area, and the state as whole? These are concerns that I have expressed on numerous occasions, and they are questions we as a state need to answer.

I believe that this issue needs careful consideration and planning for it has far reaching impacts on the environment and economy of our state, particularly our rural areas. As part of our recent discussions on the Garrison project, I have initiated this process. We are in the early stages of discussions with all the interest groups, including the Farm Bureau, Farmers Union, National Wildlife Federation, Water Coalition, and others. We are taking an inventory of public and private ownership, including the number of acres of land owned by non-profit corporations

across North Dakota. One of our main objectives in this process is to develop agreement regarding "how much is enough" for entities such as The Nature Conservancy, North Dakota Wetlands Trust, US Fish & Wildlife and others to own in North Dakota. This effort can be a constructive, positive process that will address the concerns of this bill and accommodate the needs and interests of all, including the proponents of SB 2385.

I support the intent of SB 2385 and have indicated to the sponsors of the bill that the issue is one we need to address. This bill, however, is premature.

ADMINISTRATIVE RULE CALL UP FOR REVIEW

AN ACT to create and enact section 28-32-03.4 of the North Dakota Century Code, relating to authority of the committee on administrative rules to call up existing administrative rules for review; to amend and reenact subsection 1 of section 28-32-03.3 of the North Dakota Century Code, relating to authority of the committee on administrative rules to void or object to administrative rules; and to provide an effective date.

VETO

April 4, 1997

The Honorable Mike Timm
Speaker of the House
House Chamber
State Capitol
Bismarck, ND 58505

RE: House Bill 1191

Dear Speaker Timm:

I respectfully return unsigned and hereby veto HB 1191. This bill expands the authority given in the 1995 session to the Administrative Rules Committee. Currently the Committee may void any part of a rule within ninety days after it is published in the administrative code. HB 1191 expands that authority to any rule upon 30 days notice to the agency which issued the rule. Under HB 1191, the committee may call up a rule regardless of how long it has been in place, and void all or any part of an administrative rule. I am troubled by the bill and its direction.

Administrative rules serve a very important function. They represent the Legislature's delegation of its authority to the agency and serve as the means by which air quality standards are set, water quality is maintained, child support obligations are determined, and a host of other complex issues are managed. Rules are carefully reviewed by the agency, the Attorney General, the Legislative Council, the public, and the Administrative Rules Committee before they become effective. I urge us to be cautious in striking down rules that are developed under the stringent requirements of chapter 28-32 NDCC.

Specifically, these are my concerns.

First, the bill is unnecessary. The Legislature itself, by enacting a law, has the authority to change any administrative rule it chooses. The Legislature rightfully retains that authority. An agency also may change a rule through Chapter 28-32 of the North Dakota Century Code. And the Administrative Rules Committee also has

limited authority to void all or part of a rule within ninety days of the rule being published. But, I do not believe we need to extend that authority beyond the initial ninety days to allow the committee to strike down a rule at any time thereafter.

Second, I have constitutional concerns based upon separation of powers principles. The bill intrudes into essentially an executive branch arena. Our Constitution creates three branches of government that are equal---and does not contemplate one branch being more powerful than another. Power is dispersed by design. In the case of Verry v. Trenbeath, 148 N.W. 2d567 (N.D. 1967) the Supreme Court explained this principle and said,

"..The Legislative branch deliberates upon and decides the policies and principles to be adopted for the future and enacts them into law. The executive branch administers the law so enacted."

Our constitution provides an implied exclusion of each branch from the exercise of the functions of the others, as demonstrated by the Court in the case of City of Carrington v. Foster County, 155 N.W. 2d377 (N.D. 1969).

In that structure, the Legislature as a whole has delegated authority to administrative agencies. But this bill allows that authority to be substituted to a legislative committee. I am concerned that we continue to add more and more responsibilities to legislative committees, interim committees, and legislators themselves as we slowly migrate towards a full-time legislature, which is not consistent with the wishes of the voters, nor the Constitution.

Further, the bill raises serious constitutional questions concerning delegation of legislative authority. Article IV, Section 13 of the Constitution says that, "No law may be enacted except by a bill passed by both houses". HB 1191 appears to run contrary to that provision. The Administrative Rules Committee would have the authority to void any rule or part of a rule, which would change the entire meaning of the rule. So, the practical effect is to give one committee of the Legislative Assembly the authority to substitute its judgment for the judgment of the whole legislature, or that of the agency. As a result, one committee is given authority to make law, rather than both houses of the Legislature.

These constitutional concerns for this process were recognized when the Administrative Rules Committee was given its authority in the 1995 session, as demonstrated by Section 5, Chapter 310 of the 1995 Session Laws, which declares,

"Section 4 of this Act is suspended from operation and becomes effective retroactive to August 1, 1995, upon a ruling by the North Dakota Supreme Court that any portion of subsection 1 of section 28-32-03.3 as created by section 3 of this Act is unconstitutional."

We are continuing to build upon this house of sand in section 4 of the bill, which again recognizes potential constitutional infirmity and declares,

"Section 2 of this Act is suspended from operation, but becomes effective retroactive to August 1, 1997, upon a ruling by the North Dakota Supreme Court that any portion of subsection 1 of section 28-32-03.3 as created by section 3 of chapter 310 of the 1995 Session Laws and amended by section 1 of this Act is unconstitutional."

The bill sets up a complex scheme of legislation which is the result of constitutional concerns, and then prepares for that possibility by suspending operation of part of the bill until the Supreme Court finds another section of the law unconstitutional.

Finally, I am concerned about the practical problems the bill may create. We could cause great mischief if we allow the bill to stand. Consider these examples. Imagine the impact to the investor, in a multi-million dollar facility if he has no confidence in the regulatory climate in which he is expected to do business. Investors in Pro Gold, or Premium Beef want to have stability in the regulations under which they do business. Likewise, our people would not approve of environmental regulations which are administrative rules, being struck down by a legislative committee that has little expertise in highly technical fields such as air quality standards. Furthermore, imagine the chaos we might face if the committee found all child support rules "arbitrary or capricious", and changed the method or manner in which child support obligations were determined. These are but a few examples that I see as being dangerous and the potential ramification of allowing HB 1191 to become law. I signed the bill giving the committee limited authority for this activity in 1995, and did so with some reservation. In this session, I also signed HB 1030 that gives the committee an additional meeting in which to accomplish its work. I hesitate to expand that authority further, and believe it will be a serious mistake to do so.

For these reasons, I have vetoed HB 1191.

Sincerely,

Edward T. Schafer
Governor

³ **SECTION 1. AMENDMENT.** Subsection 1 of section 28-32-03.3 of the 1995 Supplement to the North Dakota Century Code is amended and reenacted as follows:

1. The legislative council's committee on administrative rules may find that all or any portion of a rule is void if that finding is made within ninety days after the rule is called up for review under section 28-32-03.4, within ninety days after the date of the administrative code supplement in which the rule change appears, or, for rule changes appearing in the administrative code supplement from November first immediately preceding a regular session of the legislative assembly through the following May first, if that finding is made at the first meeting of the administrative rules committee following the regular session of the legislative assembly. The committee on administrative rules may find a rule or portion of a rule void if the committee makes the specific finding that, with regard to that rule or portion of a rule, there is:
 - a. An absence of statutory authority.
 - b. An emergency relating to public health, safety, or welfare.

³ Section 28-32-03.3 was also amended by section 1 of House Bill No. 1030, chapter 279, and section 2 of House Bill No. 1030, chapter 279.

- c. A failure to comply with express legislative intent or to substantially meet the procedural requirements of this chapter for adoption of the rule.
- d. A conflict with state law.
- e. Arbitrariness and capriciousness.
- f. A failure to make a written record of its consideration of written and oral submissions respecting the rule under subsection 3 of section 28-32-02.

SECTION 2. AMENDMENT. Subsection 1 of section 4 of chapter 310 of the 1995 Session Laws is amended and reenacted as follows:

1. The legislative council's committee on administrative rules may find, for any reason under this subsection, that all or any portion of a rule should be reviewed by the legislative assembly, and the committee may suspend the rule or portion of a rule under this subsection if the suspension is made within ninety days after the rule is called up for review under section 28-32-03.4, within ninety days after the date of the administrative code supplement in which the rule change appears, or, for rule changes appearing in the administrative code supplement from November first immediately preceding a regular session of the legislative assembly through the following May first, if that suspension is made at the first meeting of the administrative rules committee following the regular session of the legislative assembly. A rule or a portion of a rule suspended under this subsection becomes permanently ineffective unless it is ratified by both houses of the legislative assembly during the next session of the legislative assembly, in which case it is effective as of the date of ratification by the second house of the legislative assembly. An agency seeking ratification of its rule shall introduce a bill for that purpose. The committee on administrative rules may suspend a rule or portion of a rule if the committee specifically finds that, with regard to the rule, there is:
 - a. An absence of statutory authority.
 - b. An emergency relating to public health, safety, or welfare.
 - c. A failure to comply with express legislative intent or to substantially meet the procedural requirements of this chapter for adoption of the rule.
 - d. A conflict with state law.
 - e. Arbitrariness and capriciousness.
 - f. A failure to make a written record of its consideration of written and oral submissions respecting the rule under subsection 3 of section 28-32-02.

SECTION 3. Section 28-32-03.4 of the North Dakota Century Code is created and enacted as follows:

28-32-03.4. Administrative rules called up for review. The committee on administrative rules may call an administrative rule up for review upon at least thirty days prior notice to the adopting agency of the time the committee will consider the rule. An administrative rule may be called up for review under this section only upon initiation of the question by the committee or the adopting agency on the grounds that the rule is obsolete, archaic, no longer effective, or adopted under statutory law that has been changed and the rule is no longer in harmony with statutory law. The committee shall notify the adopting agency of the reason the rule is called up for review and the adopting agency shall provide a written response to the committee's expressed concerns. A rule called up for review under this section is subject to the authority of the committee on administrative rules under section 28-32-03.3.

SECTION 4. EFFECTIVE DATE. Sections 1 and 3 of this Act are effective for administrative rules called up for review by the committee on administrative rules after July 31, 1997. Section 2 of this Act is suspended from operation, but becomes effective retroactive to August 1, 1997, upon a ruling by the North Dakota supreme court that any portion of subsection 1 of section 28-32-03.3 as created by section 3 of chapter 310 of the 1995 Session Laws and amended by section 1 of this Act is unconstitutional.

Dear Speaker Timm:

I have signed and hereby return to you House Bill 1026. Pursuant to Article V, section 10, of the North Dakota Constitution, however, I hereby veto the appropriation in the amount of \$576,000 for "equipment" contained in section 1 of the bill.

After a careful review of compression problems and wage level concerns at the North Dakota Workers Compensation Bureau, I recommended a 10% increase in salaries and wages at the bureau in my executive budget. HB 1026 contains funding for an additional \$350,000 increase over and above my recommendation. I do not believe this 14% increase, more than double that provided employees in other agencies, can be justified, and I simply cannot support it.

I have maintained consistently during the legislative session that I believe singling out one state agency for preferential treatment is bad public policy. Compensation increases significantly out of line with those in other agencies eventually will place pressure on budgets throughout state government. And while I do not wish to delay the close of the session, neither can I approve a budget that spends more than I believe is necessary. By exercising the line item veto with respect to the \$576,000 included in the bill for equipment, I have restored the total Workers Compensation Bureau appropriation to a level consistent with my executive budget

recommendation. Internal adjustments within these parameters can be made at the bureau for equipment purchases.

I believe the spending increases included in this bill are not consistent with our efforts to control the growing cost of state government and that the taxpayers of North Dakota will not look upon them with favor. For that reason, I respectfully return to you HB 1026.

Dear Al,

I have signed and hereby return to you House Bill 1015. Pursuant to Article V, section 10, of the North Dakota Constitution, however, I hereby veto section 15 of

the bill, which would transfer \$150,000 from the information services operating fund to the general fund.

After careful review, I believe the proposed transfer conflicts with Federal OMB Circular A-87. Federal rules require that whenever transfers out of internal service funds like that of the Information Services Division (ISD) are made, the federal government must be refunded its share of the transfer. A transfer from the ISD operating fund, which clearly includes federal dollars, would necessitate repayments to the federal government and subject the state to interest and penalty charges. For that reason, I respectfully veto section 15.

In vetoing section 15, I am cognizant of the law as determined by the North Dakota Supreme Court concerning the Governor's line item veto authority in State ex rel. Link v. Olson, 286 NW2d 262 (N.D. 1979). My intention is to fully comply with the law provided by our state's highest court.

Having vetoed section 15, I respectfully file HB 1015 with your office.

Sincerely,

Edward T. Schafer
Governor

HOUSE BILL NO. 1137

(Government and Veterans Affairs Committee)

(At the request of the Public Employees Retirement System)

STATE RETIREMENT DATE AND BENEFITS

VETO

March 27, 1997

The Honorable Mike Timm
Speaker of the House
House Chamber
State Capitol
Bismarck, ND 58505

RE: House Bill 1137

Dear Speaker Timm:

I am returning unsigned and hereby veto House Bill 1137.

Sections 2, 3, and 4 of House Bill 1137 provide adjustments in normal and disability retirement benefits and in postretirement and prior service retiree benefits. I believe these adjustments to be appropriate.

Section 1 of the bill, however, provides for a so-called "Rule of 85", permitting an employee to retire when his or her total of years of service credit and years of age equal eighty-five. I do not believe this reduction in our current "Rule of 88" is either necessary or desirable.

State, county, and local government employees work hard and deserve a generous and secure retirement. As we all live longer, however, continuing to lower the threshold age of retirement will at some point result in people receiving pensions for more years than they actually work to generate the benefits. I do not believe this to be appropriate public policy.

My executive budget proposes significant increases in salaries and benefits for state employees. I believe these increases, if adopted by the Legislative Assembly, create a total compensation package sufficient to meet our goal of attracting and retaining a qualified and motivated state government workforce.

I sincerely appreciate the hard work of the members of the North Dakota Public Employees Retirement System Benefits Committee in developing this legislation, and I look forward to working with the Legislative Assembly to develop a mechanism to

effectuate Sections 2, 3, and 4 of the bill. I am convinced, however, that our current "Rule of 88" should remain in place.

For this reason, I respectfully veto House Bill 1137.

Sincerely,

Edward T. Schafer
Governor

HOUSE BILL NO. 1440

(Representatives Skarphol, Boucher, Dalrymple)
(Senators Grindberg, Lips, Robinson)

WORKERS COMPENSATION BOARD OF DIRECTORS

VETO

March 27, 1997

The Honorable Mike Timm
Speaker of the House
House Chamber
State Capitol
Bismarck, ND 58505

RE: House Bill 1440

Dear Speaker Timm:

I am returning unsigned and hereby veto House Bill 1440, creating a workers compensation board of directors to manage the workers compensation bureau and oversee the administration of North Dakota's workers compensation program.

Over the past four years, the director and staff of the North Dakota Workers Compensation Bureau, members of the Legislative Assembly, our state's employers and employees, and my staff, all working together, have made great strides in developing and implementing sound policy reforms that have significantly improved the services our workers compensation bureau provides. These reforms have led to better benefits for our workers, lower premiums for our employers, and a dramatic reduction in the bureau's unfunded liability. Last year the voters of North Dakota overwhelmingly ratified our efforts.

House Bill 1440 is aimed at preserving these remarkable results. And while I share the Legislative Assembly's concern for ensuring continued progress at the workers compensation bureau, I believe House Bill 1440 is the wrong vehicle for accomplishing that goal. I, therefore, respectfully veto this bill and ask members of the assembly to carefully consider my reasons for doing so.

First, I believe HB 1440 reduces accountability, an essential element in the operation of any government agency. By removing ultimate authority for management of the workers compensation bureau from the governor and placing it with an unelected board of directors similar to the Board of Higher Education, this legislation seriously weakens the focus of responsibility our workers and our employers demand.

This diffusion of accountability among members of a ten-person board of directors in large measure eliminates our existing "court of last resort" for employers and injured workers who, rightly or wrongly, believe themselves aggrieved by bureau procedures. My office currently manages 30 or more calls per month from individuals seeking the assistance they believe the governor can provide. To whom will these people turn for help in the future?

In addition, HB 1440 erodes traditional legislative and executive oversight of the bureau's budget. Section 5 of the bill permits the bureau, with the board's acquiescence, to transfer moneys between line items within the bureau's budget. The budget itself is developed without coordination with the governor's overall budget. This lack of coordination concerning salary levels, benefit packages, and technology programs can contribute to serious budgetary pressures being placed, not only on the premium payors who ultimately fund the bureau's budget, but also on other agencies who must compete with the workers compensation bureau for employees. All these pressures can lead to the prospect of increased taxes.

Be assured that I am as concerned as any of you that the progress we have made in our workers compensation program never be compromised. But, with the appropriate protections afforded by the independent audit created in Senate Bill 2074 already in place, I am unwilling, and I believe the people of North Dakota are unwilling, to sacrifice the accountability required of every government agency and its administration.

I, therefore, respectfully veto House Bill 1440.

Sincerely,

Edward T. Schafer
Governor

CHAPTER 559

HAZARDOUS WASTE FACILITIES

An initiated measure to create a new section to chapter 23-29 of the North Dakota Century Code related to an environmental protection act.

BE IT ENACTED BY THE PEOPLE OF THE STATE OF NORTH DAKOTA:

23-29-16. Environmental Protection Act.

1. No private hazardous waste facilities. No hazardous waste disposal facility may be constructed, owned or operated in the state of North Dakota except by an appropriate governmental entity.
2. Insurance required. No private person or business entity may own and/or operate (1) an industrial waste landfill disposal facility or (2) a municipal waste landfill disposal facility in this state without a valid policy of liability insurance in effect in order to respond in damages for liability arising out of the ownership, maintenance or use of that facility. The policy of insurance must provide coverage for all damage caused to the environment, corrective and/or remedial action in connection therewith, and any other damage caused to public or private property resulting from the ownership, maintenance or use of the facility. The policy limits of the insurance policy shall not be less than the total amount computed by multiplying fifty dollars per ton times the number of tons of solid waste accepted at the facility from and after January 1, 1995. The insurance policy required by this section shall be maintained for one hundred years after the closure of the facility. A copy of the policy must be filed with the North Dakota health department.
3. Officer and director liability. Each officer and director of any company which (1) owns and/or operates a solid waste landfill disposal facility in North Dakota or (2) controls such a company as defined in subsection 1 of section 23-29-07 shall be personally jointly and severally strictly liable for all damages caused by the solid waste to the environment, including any remedial or corrective action required therewith, and for any other damage resulting to public or private interests. Each such person shall have the right to seek contribution from any person or entity likewise liable for such damage.
4. Vote required. Upon receiving (1) an application to renew the permit for (a) a privately owned industrial waste landfill disposal facility or (b) a privately owned municipal waste disposal facility or (2) a request for a permit modification seeking to increase the acreage of any such facility, the health department shall notify the board of county commissioners of the county in which the facility is located of the department's intention to renew or modify the permit for the facility. The board of county commissioners shall then place the issue on the ballot at the next regularly scheduled election after receiving notice from the department to allow the qualified electors of the county to vote to approve or

disapprove the renewal or modification based on public interest and impact on the environment. If a majority of the qualified electors voting in the election vote to disapprove the permit renewal or modification, the department may not renew or modify the permit. The facility may continue to operate under its existing permit until the election has been held.

5. Exceptions. The requirements imposed by this section do not apply to inert waste, waste resulting from the processing of agricultural products, oil field exploration and production waste or solid waste disposed of on site at energy conversion facilities and coal mining operations.
6. Statute of limitations. There shall be no statute of limitations applicable to the provisions of this section. An action for damages by the state, other appropriate governmental entity or private party may be commenced at any time.
7. Severability. If any portion of this section is found to be invalid, the remaining portions shall remain in full force and effect.

"Licensed establishment" means any restaurant, bar, lounge, or lodging establishment owned or managed by a person licensed to sell alcoholic beverages for consumption upon the premises where the premises have been licensed for the two immediately preceding years in the state. Twenty-five lottery devices may be operated per authorized site at one time.
3. The attorney general shall regulate and license lottery manufacturers and vendors and may adopt rules under the state Administrative Agencies Practice Act, as may be amended from time to time, to control the operation of a lottery. All contracts by manufacturers, manufacturers' distributors and distributors regarding lotteries prior to the enactment of this article are null and void.
4. The state legislature may adopt statutes, as may be amended from time to time, to control the operation of a lottery.
5.

CHAPTER 562

WORKERS' COMPENSATION LAWS

An initiated measure for the creation of five new sections to title 65 of the North Dakota Century Code, for the amendment of section 65-01-01; subsections 4, 9, and 18 of section 65-01-02; subsection 7 of section 65-01-14; sections 65-02-08; 65-02-08.1; 65-02-15; 65-02-22; 65-02-23; 65-05-04; 65-05-07; and 65-05-09.3; subsection 7 of section 65-05-10; sections 65-05-28; 65-05-35; 65-05.1-01; 65-05.1-04; subsection 1 of section 65-05.1-06.1; sections 65-10-01; and 65-10-03 of the North Dakota Century Code and section 1 of 1995 Senate Bill No. 2377, and for the repeal of sections 65-01-15; 65-02-19; 65-02-20; 65-05-01.2; 65-05-01.3; 65-05-01.4; 65-05-01.5; 65-05-12.2; and subsection 5 of section 65-05-28 of the North Dakota Century Code, relating to the presumed retirement of injured employees, payment of attorney's fees only to prevailing injured employees, vocational rehabilitation of injured employees, permanent impairment, choice of health care provider, judicial review and jurisdiction, and the administration of the workers compensation bureau.

BE IT ENACTED BY THE PEOPLE OF THE STATE OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 65-01-01 of the North Dakota Century Code is amended and reenacted as follows:

65-01-01. Purposes of compensation law - Police power. The state of North Dakota, exercising its police and sovereign powers, declares that the prosperity of the state depends in a large measure upon the well-being of its wage workers, and, hence, for workers injured in hazardous employments, and for their families and dependents, reasonable, sure and certain relief is hereby provided regardless of questions of fault and to the exclusion of every other remedy, proceeding, or compensation, except as otherwise provided in this title, and to that end, all civil actions and civil claims for relief for those personal injuries and all jurisdiction of the courts of the state over those causes are abolished except as is otherwise provided in this title. ~~A civil action or civil claim arising under this title which is subject to judicial review, must be reviewed solely on the merits of the action or claim. This title may not be construed liberally on behalf of any party to the action or claim.~~

SECTION 2. AMENDMENT. Subsections 4, 9, and 18 of section 65-01-02 of the North Dakota Century Code are amended and reenacted as follows:

4. "Average weekly wage" means the average weekly wages the employee was receiving from all employments at the time of injury. The average weekly wage as determined under this section must be rounded to the nearest dollar. In cases where the employee's wages are not fixed by the week, they must be determined by using the first applicable formula from the schedule below:
 - a. The "average weekly wage" of a self-employed employee is determined by the following formula: net profits based on preceding tax year or preceding fifty-two weeks whichever is higher, plus depreciation, meal and travel expenses, and any expenses chargeable to use of personal residence as allowed under the federal tax laws.

- b. Hourly or daily rate multiplied by number of hours or days worked per seven-day week.
 - c. Monthly rate multiplied by twelve months and divided by fifty-two weeks.
 - d. Biweekly rate divided by two.
 - e. ~~In seasonal employment, the average weekly wage is one fiftieth of the total wages the employee has earned from all occupations during the twelve calendar months immediately preceding the injury or one fiftieth of the average annual income for the three year period immediately preceding the injury, whichever is greater.~~
 - f. If the average weekly wage of an employee cannot be ascertained, the wage for the purposes of calculating compensation is the usual wage paid other employees engaged in similar occupations where the wages are fixed.
 - ~~g.~~ f. If there are special circumstances under which the average weekly wage cannot be reasonably and fairly determined by applying subdivisions a through ~~f~~ e, an average weekly wage may be computed by dividing the aggregate wages during the twelve months prior to the injury by fifty-two weeks, or the number of weeks actually worked if that number is less than fifty-two.
9. "Compensable injury" means an injury by accident arising out of and in the course of employment ~~which must be established by medical evidence supported by objective medical findings.~~
- a. The term "compensable injury", in addition to an injury by accident, includes:
 - (1) Any disease which can be fairly traceable to the employment. Ordinary diseases of life to which the general public outside of the employment is exposed are not compensable except where the disease follows as an incident to, and in its inception is caused by a hazard to which an employee is subjected in the course of employment. The disease must be incidental to the character of the business and not independent of the relation of employer and employee. The disease includes impairment and effects from radiation fairly traceable to the employment. It does not have to be foreseen or expected, but after it is contracted, it must have had its origin in a risk connected with the employment and have flowed from that source as a rational consequence. Preventive treatment for communicable diseases is not compensable under this title.
 - (2) In injury to artificial members.
 - (3) Injuries due to heart attack or other heart-related disease, stroke, and mental or physical injury precipitated by mental stimulus, which must be causally related to the employee's employment, with reasonable medical certainty, and which must have been precipitated by unusual stress.

- (4) Injuries arising out of employer-required or supplied travel to and from a remote jobsite or activities performed at the direction or under the control of the employer.
 - (5) An injury caused by the willful act of a third person directed against an employee because of the employee's employment.
- b. The term does not include:
- (1) A willfully self-inflicted injury, an injury caused by the employee's willful intention to commit suicide or to injure or kill another, including injury or aggravation of an injury, which results from the employee's suicide or attempted suicide.
 - (2) Any injury caused by the use of intoxicants or the illegal use of controlled substances.
 - (3) An injury that arises out of an altercation in which the injured employee is the initial physical aggressor.
 - (4) An injury that arises out of an illegal act committed by the injured employee.
 - (5) An injury that arises out of an employee's voluntary nonpaid participation in any recreational activity, including athletic events, parties, and picnics, even though the employer pays some or all the cost of the activity.
 - (6) Injuries attributable to a preexisting injury, disease, or condition which clearly manifested itself prior to the compensable injury. This does not prevent compensation where employment substantially aggravates and acts upon an underlying condition, substantially worsening its severity, or where employment substantially accelerates the progression of an underlying condition. It is insufficient, however, to afford compensation under this title solely because the employment acted as a trigger to produce symptoms in a latent and underlying condition if the underlying condition would likely have progressed similarly in the absence of the employment trigger, unless the employment trigger is determined to be a substantial aggravating or accelerating factor. An underlying condition is a preexisting injury, disease, or infirmity.
 - (7) A nonemployment injury that, although acting upon a prior compensable injury, is established as an independent intervening cause of injury.
 - (8) A latent or asymptomatic degenerative condition, caused in substantial part by employment duties, which is triggered or made active by a nonemployment injury.
 - (9) A mental or emotional injury arising principally out of a bona fide personnel action, including a transfer, promotion, demotion, or termination except an action that is the intentional infliction of emotional harm.

18. "Fairly traceable to the employment" when used to modify the term "disease" means only a disease which:
- a. Arises under conditions wherein it is apparent to the rational mind upon consideration of all the circumstances that there is a direct causal connection between the conditions under which the work is performed and the disease;
 - b. Can be seen to have followed as a natural incident of the work as a result of the exposure occasioned by the nature of the employment;
 - c. Can be fairly traced to the employment; ~~or~~
 - d. However, any condition or impairment of health of a full-time paid firefighter or law enforcement officer caused by lung or respiratory disease, hypertension, heart disease, or exposure to infectious disease as defined by sections 23-07.3-01 and 23-07.3-02, or occupational cancer in a full-time paid firefighter, resulting in total or partial disability or death is presumed to have been suffered in the line of duty. The condition or impairment of health may not be attributed to any disease existing before that total or partial disability or death unless the contrary is shown by competent evidence. As used in this subdivision, an occupational cancer is one which arises out of employment as a full-time paid firefighter and is due to injury due to exposure to smoke, fumes, or carcinogenic, poisonous, toxic, or chemical substances while in the performance of active duty as a full-time paid firefighter. A full-time paid firefighter or law enforcement officer is not eligible for the benefit provided under this subdivision unless that full-time paid firefighter or law enforcement officer has completed ~~five~~ two years of continuous service and has successfully passed a physical examination which fails to reveal any evidence of such a condition. ~~An employer shall require a physical examination upon employment, and annually thereafter, for any employee subject to this subdivision. Results of the examination must be used in rebuttal to a presumption afforded under this subdivision. For purposes of this subdivision, "law enforcement officer" means a person who is licensed to perform peace officer law enforcement duties under chapter 12-63 and is employed full-time by the bureau of criminal investigation, the game and fish department, the state highway patrol, the parole and probation division, the North Dakota state university police department, the North Dakota state college of science police department, the university of North Dakota police department, a county sheriff's department, or a city police department. The presumption does not include a condition or impairment of health of a full-time paid firefighter or law enforcement officer, who has been employed for ten years or less, if the condition or impairment is diagnosed more than two years after the employment as a full-time paid firefighter or law enforcement officer ends. The presumption also does not include a condition or impairment of health of a full-time paid firefighter or law enforcement officer, who has been employed more than ten years, if the condition or impairment is diagnosed more than five years after the employment as a full-time paid firefighter or law enforcement officer ends.~~

SECTION 3. AMENDMENT. Subsection 7 of section 65-01-14 of the North Dakota Century Code is amended and reenacted as follows:

7. The bureau shall issue an administrative order under chapter 28-32 when it makes a permanent partial impairment award, vocational award, ~~or~~ when it terminates or denies disability or vocational services or has otherwise been requested to issue an administrative order by an aggrieved party by filing a request for reconsideration of an informal decision or has been requested to issue an administrative order following a constructive reduction or denial of benefits. The bureau shall issue an informal decision on an initial determination of disability benefits.

SECTION 4. AMENDMENT. Section 65-02-08 of the North Dakota Century Code is amended and reenacted as follows:

65-02-08. Rulemaking power of the bureau - Fees prescribed by the bureau.

The bureau shall adopt rules necessary to carry out this title. The bureau may not charge a fee for providing copies of claim files to an injured employee or employer or their attorney. All fees on claims for legal, medical, and hospital services rendered under this title to an injured employee must be in accordance with schedules of fees adopted by the bureau. Fee schedules for medical and hospital services must incorporate cost-saving measures and must be submitted to and approved by the committee on administrative rules before submission to the legislative council for publication. The bureau shall establish, by administrative rule, a reasonable maximum hourly rate ~~and a maximum fee~~ to compensate an injured employee's attorney for legal services following constructive denial of a claim, notice of informal decision, or issuance of an administrative order under chapter 28-32 reducing or denying benefits. ~~The bureau shall~~ "Constructive denial" means failure to issue an administrative order within sixty days of the date when the elements of initial filing or notice or reapplication of claim have been satisfied or a claim for additional benefits over and above benefits previously awarded has been made. Satisfaction of elements of filing must be defined by administrative rule. The bureau shall pay an injured employee's attorney's fees and costs from the bureau general fund. ~~Except for an initial determination of compensability, an attorney's fee may not exceed twenty percent of the amount awarded, subject to a maximum fee set by administrative rule.~~ The bureau shall pay an attorney's fees when:

1. The employee has prevailed through settlement or otherwise in binding dispute resolution under section 65-02-20; ~~or~~
2. The employee has prevailed through settlement or otherwise after reconsideration of an informal decision under section 65-01-04;
3. The employee has prevailed through settlement or otherwise after an administrative hearing under chapter 28-32; or
4. If there has been constructive denial of a claim, the bureau shall only pay attorney's fees from the occurrence of the constructive denial until the bureau issues a notice of informal decision or administrative order.

This section does not prevent an injured employee or an employer from hiring or paying an attorney; however, the employee's attorney may not seek or obtain costs or attorney's fees from both the bureau and the employee relative to the same services. Nothing herein shall prevent an injured employee from paying attorney's fees for services to the extent that such services are not fully compensated by the bureau. The bureau shall be liable for payment of interest on legal, medical, and

hospital services in the manner provided for by sections 13-01.1-01 through 13-01.1-06. All disputes relating to payment or denial of an attorney's fee must be submitted to the hearing officer or arbitrator for decision. An attorney lien filed with the bureau must be accompanied by a written fee agreement between an injured employee and the attorney seeking enforcement of the lien.

SECTION 5. AMENDMENT. Section 65-02-08.1 of the North Dakota Century Code is amended and reenacted as follows:

65-02-08.1. State advisory council - Composition - Compensation - Duties.

~~The bureau shall appoint a state advisory council composed of an equal number of employer representatives and employee representatives who may be regarded fairly as representative because of their vocation, employment, or affiliations, and members representing the general public as the bureau may designate consisting of eleven members selected as follows: two persons from a list of four submitted by the American federation of labor and congress of industrial organizations, one person from a list of two submitted by the international brotherhood of teamsters, one person from a list of two submitted by the North Dakota trial lawyers association, one person from a list of two submitted by the state medical association, one person from a list of two submitted by the state chiropractic association, one person from a list of two submitted by the workers against inhumane treatment, two persons from a list of four submitted by the greater North Dakota association, one person from a list of two submitted by the North Dakota retail association, and one person from a list of two submitted by the associated general contractors of North Dakota. The council shall aid the bureau in formulating policies, discussing problems related to the administration of the bureau, and in assuring impartiality and freedom from political influence in the solution of these problems. The members of the council may be reimbursed for expenses in the amounts provided by law for state officials but must serve without further compensation except as may be authorized and fixed by the bureau by rule. The bureau shall provide staff services to the council. The council shall assist the bureau in formulating policies and discussing problems related to the administration of the bureau, including adoption of rules, establishment of fees, determination of employer premium rates, maintenance of the solvency of the workers compensation fund, and provision of rehabilitation services. The council may make recommendations and proposals for consideration by the bureau.~~

SECTION 6. AMENDMENT. Section 65-02-15 of the North Dakota Century Code is amended and reenacted as follows:

~~**65-02-15. Workers' compensation binding arbitration.** A dispute between the bureau and an injured employee must be resolved by arbitration when the dispute concerns an amount no greater than three thousand dollars. The bureau shall adopt rules to establish how the amount of the dispute is determined. Within thirty days following issuance of an administrative order under chapter 28-32 reducing or denying benefits, an aggrieved employee or employer may request that the action be submitted to binding arbitration in lieu of a formal administrative hearing or judicial remedy. Binding arbitration is permitted only with the consent of the nonrequesting party. The employee can request and the bureau shall allow a change of arbitrator upon a showing of just cause. The bureau may hire arbitrators based upon criteria the bureau determines relevant, including education, training, and experience. The bureau shall pay an injured employee's attorney's fee only when the employee prevails. The bureau shall adopt rules to establish a maximum fee for an injured employee's attorney. An attorney's fee may not exceed twenty percent of the amount awarded. Payment of a disputed amount pursuant to an arbitration award does not establish the bureau's liability for any issue not raised during the arbitration~~

~~proceeding and does not establish the bureau's liability for any underlying condition. The arbitration process may not be used for initial determinations of compensability. The bureau retains continuing jurisdiction over the arbitration proceeding under section 65-05-04. An arbitration decision that is not revoked or modified by the bureau under section 65-05-04 is final and not reviewable by any court or subject to modification by the bureau pursuant to the bureau's continuing jurisdiction.~~

SECTION 7. AMENDMENT. Section 65-02-22 of the North Dakota Century Code is amended and reenacted as follows:

65-02-22. Hearing officer - Qualifications - Location. ~~A hearing officer designated by the bureau under chapter 28-32 must be a person licensed to practice law in this state. A hearing officer designated by the bureau may not maintain an office within the bureau from which the hearing officer conducts daily business. This section does not preclude a hearing held pursuant to chapter 28-32 from being held within the bureau. All hearings of the bureau, except investigatory hearings under section 28-32-08 and rulemaking hearings held in accordance with section 28-32-02, must be conducted by the office of administrative hearings in accordance with the administrative hearings provisions of chapter 28-32 and any rules adopted pursuant to chapter 28-32. Orders issued by the presiding administrative law judge shall be final orders pursuant to section 28-23-13.~~

SECTION 8. AMENDMENT. Section 65-02-23 of the North Dakota Century Code is amended and reenacted as follows:

65-02-23. Workers' compensation fraud unit. The bureau shall establish a workers' compensation fraud unit. The bureau may employ investigators and licensed attorneys, or contract with a private investigator whenever feasible or cost effective, to investigate and review any alleged case of willful and material misrepresentation of payroll to the bureau by an employer as described under section 65-04-14 and to investigate and review any alleged case of willful and material filing of a false claim or false statement in relation to a claim as defined under section 65-05-33. The unit shall refer a case of willful and material misrepresentation of payroll to the bureau or of willful and material filing of a false claim or false statement for prosecution by the state's attorney in the county of the employee's residence. The administrative and civil penalties provided in section 65-05-33 may be imposed only after criminal conviction pursuant to that section.

SECTION 9. AMENDMENT. Section 1 of 1995 Senate Bill No. 2377 is amended and reenacted as follows:

Workers' adviser program. A workers' adviser program is established. The program is independent of the claims department of the workers compensation bureau and activities administered through the program must be administered in accordance with this title. The program must provide assistance to an injured employee, including acting on behalf of an injured employee who is aggrieved by a decision of the bureau, communicating with bureau staff regarding claim dispute resolution, and advising an injured employee of the effect of decisions made by the bureau, the employee, or an employer under this title. The bureau shall employ a director of the program, support staff for the program, and other personnel determined to be necessary for the administration of the program. Personnel employed to administer the program may not act as an attorney for an injured employee. ~~The bureau may not pay attorney fees to an attorney who represents an injured employee in a disputed claim before the bureau unless the injured employee has first attempted to resolve the dispute through the workers' adviser program. An injured employee who contacts the program for assistance within the appeal period~~

after an administrative order has been issued or a benefit has been constructively reduced or denied is deemed to have satisfied the requirement of requesting an administrative hearing or an arbitration hearing on that order or constructive reduction or denial. ~~The information contained in a file established by the workers' adviser program on an injured employee's disputed claim is not subject to discovery and may not be used as evidence in subsequent proceedings relative to that dispute.~~

SECTION 10. AMENDMENT. Section 65-05-04 of the North Dakota Century Code is amended and reenacted as follows:

65-05-04. Bureau has continuing jurisdiction over claims properly filed. If the original claim for compensation has been made within the time specified in section 65-05-01, the bureau at any time, on its own motion or on application, may review the award, and in accordance with the facts found on such review, may end, diminish, or increase the compensation previously awarded, or, if compensation has been refused or discontinued, may award compensation. ~~There is no appeal from a bureau decision not to reopen a claim after the bureau's order on the claim has become final.~~ A bureau decision not to reopen a claim may be appealed to the district court. The district court shall direct the bureau to reopen a claim if the injured worker demonstrates by preponderance of the evidence that there is new evidence and there were reasonable grounds for the failure to offer the evidence prior to the bureau's decision affecting benefits.

SECTION 11. A new section to chapter 65-04 of the North Dakota Century Code is created and enacted as follows:

Premium information rate classification - Duty to disclose. Notwithstanding the provisions of 65-04-14, the bureau shall publish on the first business day of each year the identity of each employer currently in arrears in premium payments required under section 65-04-04 and the amount of such arrearages.

SECTION 12. AMENDMENT. Section 65-05-07 of the North Dakota Century Code is amended and reenacted as follows:

65-05-07. Injured employee given medical and hospital service required - Furnished artificial limbs and appliances for rehabilitation - Fee approval. Immediately after an injury sustained by an employee and during the resulting period of disability, the fund shall furnish to the employee such reasonable and appropriate medical, surgical, and hospital service and supplies as the nature of the injury may require. The bureau shall apply the same standards of reasonableness and appropriateness to both palliative and curative services and supplies. The fund may furnish such artificial members and replacements as in the judgment of the bureau may be necessary to rehabilitate such injured employee.

1. The health care provider or physician must be acting within the scope of the provider's or physician's license or fees will be denied.
2. Fees may not be approved for more than one health care provider or physician, or both, in a case where treatment is provided over the same period of time except for the service of a consulting physician, assistant surgeon, or anesthetist or in an emergency.
3. The bureau, in cooperation with professional organizations of doctors and health care providers, shall establish a system of peer review to determine reasonableness of fees and payment denials for unjustified treatments, hospitalization, or visits. The doctor or health care

provider, injured employee, or employer shall have the right to appeal adverse decisions of the bureau in accordance with the ~~medical aid rules adopted by the bureau~~ provisions of chapter 28-32.

4. Health care providers or doctors may not bill injured workers for any services rendered as a result of the compensable work injury. If a court in any jurisdiction finds an injured employee liable for medical, surgical, or hospital services or supplies occasioned by a compensable work injury, the bureau shall hold the injured employee harmless from any such liability.
5. If the bureau determines that it is necessary to provide permanent additions, remodeling, or adaptations to real estate to those workers who sustain catastrophic injury as defined in chapter 65-05.1, such improvements may be made, but may not exceed ten thousand dollars for the life of the claimant, regardless of any subsequent claim.
6. If a doctor or health care provider who has treated or provided services to an injured employee fails or refuses without just cause to file with the bureau a report required by section 65-05-02, 65-05-08, or 65-05-08.1, within thirty days of examination, treatment, or provision of other services rendered in connection with a compensable work injury, or within thirty days of a request for such report made by the claimant, the claimant's representative, or the bureau, the bureau shall assess as a penalty a sum of one hundred dollars. Health care providers or doctors may not bill injured workers for any penalty assessed by the bureau as a result of failure or refusal without just cause to file a required report.
7. The filing of an accident report or the rendering of treatment to an injured worker who comes under the bureau's jurisdiction, as the case may be, constitutes acceptance of the bureau's medical aid rules and compliance with its rules and fees.

SECTION 13. AMENDMENT. Section 65-05-09.3 of the North Dakota Century Code is amended and reenacted as follows:

65-05-09.3. Retirement presumption - ~~Termination of benefits upon retirement.~~

4. An employee who has retired or voluntarily withdrawn from the labor force ~~and who is not eligible to receive temporary total disability, temporary partial disability, or permanent total disability benefits, or a rehabilitation allowance from the bureau~~ is presumed retired from the labor market and is ineligible for receipt of disability benefits under this title. The presumption may be rebutted by a preponderance of the evidence; ~~however, the subjective statement of an employee that the employee is not retired is not sufficient in itself to rebut objective evidence of retirement that the worker:~~
 1. Is actively seeking employment;
 2. Is available for gainful employment;
 3. Has not rejected any job offer made by a former employer, or other bona fide offer by another employer; and

4. Has not provided the employer, upon written request, with written notice of a scheduled retirement date.

The presumption does not apply to any employee who is permanently and totally disabled as defined under this title.

2. ~~An injured employee who is receiving permanent total, temporary total, or temporary partial disability benefits, or rehabilitation benefits, and who begins receiving social security retirement benefits or other retirement benefits in lieu of social security retirement benefits, or who is at least sixty five years old and is eligible to receive social security retirement benefits or other retirement benefits in lieu of social security retirement benefits, is considered to be retired. The bureau may not pay any permanent total, temporary total, or temporary partial disability benefits, rehabilitation benefits, or supplemental benefits to an employee who is considered retired, however, the bureau is liable for payment of medical benefits and permanent partial impairment benefits. An employee who is determined to be catastrophically injured as defined by subdivision e of subsection 2 of section 65-05.1-06.1 is not subject to this section.~~
3. ~~The bureau retains liability for disability benefits, permanent partial impairment benefits, and medical benefits for an injured employee who is eligible to receive social security retirement benefits or other retirement benefits in lieu of social security, who is gainfully employed, and who suffers an injury arising out of and in the course of that employment.~~
4. ~~This section applies to all persons who retire or become eligible for social security retirement benefits or other retirement benefits in lieu of social security retirement benefits after July 31, 1995.~~

SECTION 14. AMENDMENT. Subsection 7 of section 65-05-10 of the North Dakota Century Code is amended and reenacted as follows:

7. ~~Benefits must be paid during the continuance of partial disability; not to exceed a period of five years. The bureau may waive the five year limit on the duration of partial disability benefits in cases of catastrophic injury as defined in section 65-05.1-06.1. This subsection is effective for partial loss of earnings capacity occurring after June 30, 1994.~~

SECTION 15. A new section to the North Dakota Century Code is created and enacted as follows:

Permanent impairment - Compensation - Time paid. The injured employee's doctor shall report to the bureau any rating of any permanent impairment of function as the result of the injury except for total losses claimed under section 18. If the injured employee's doctor does not perform evaluations to rate permanent impairment of function, the doctor may refer the employee to a doctor who does perform such evaluations, and the bureau shall pay all reasonable charges for such evaluation. Any rating of the percentage of functional impairment should be in accordance with the standards for the evaluation of permanent impairment as published in the edition of the American medical association's "Guides to the Evaluation of Permanent Impairment" used by the bureau on July 1, 1993, unless proven otherwise by clear and convincing medical evidence. An award for permanent partial impairment is not compensation for wage loss. The doctor's report must include a clinical report in sufficient detail to support the percentage

ratings assigned. Any subsequent award for impairment must be made minus any previous award given on any earlier claim or the same claim for that same member or body part. If the injury causes permanent impairment, other than scheduled injuries, as elsewhere provided for in this chapter, the percentage which such impairment bears to total impairment must be determined, and the fund shall pay to the impaired employee a lump sum, calculated by multiplying thirty-three and one-third percent of the average weekly wage in this state rounded to the next highest dollar, on the date the impairment is determined, by the following number of weeks, depending upon the percentage of impairment:

<u>For a one percent impairment</u>	<u>5 weeks.</u>
<u>For a ten percent impairment</u>	<u>50 weeks.</u>
<u>For a twenty percent impairment</u>	<u>100 weeks.</u>
<u>For a thirty percent impairment</u>	<u>150 weeks.</u>
<u>For a forty percent impairment</u>	<u>200 weeks.</u>
<u>For a fifty percent impairment</u>	<u>250 weeks.</u>
<u>For a sixty percent impairment</u>	<u>300 weeks.</u>
<u>For a seventy percent impairment</u>	<u>350 weeks.</u>
<u>For an eighty percent impairment</u>	<u>400 weeks.</u>
<u>For a ninety percent impairment</u>	<u>450 weeks.</u>

SECTION 16. A new section to the North Dakota Century Code is created and enacted as follows:

Permanent impairment. When there is a dispute as to the percentage of an employee's permanent impairment, all medical evidence must be submitted to an independent physician who has not treated the employee or who has not been consulted by the bureau in relation to the injury upon which the impairment is based. The bureau shall establish a comprehensive list of physicians who are medical specialists within the state. The bureau and the claimant shall choose a physician to review a disputed permanent impairment rating by striking names from the list until a name is chosen. The decision of the independent physician is presumptive evidence of the degree of permanent impairment of the employee.

SECTION 17. A new section to the North Dakota Century Code is created and enacted as follows:

Scheduled injuries - Permanent loss of member - Compensation - Time compensation payable. If the injury causes the loss of a member, the fund shall pay to the impaired employee a lump sum, calculated by multiplying thirty-three and one-third percent of the average weekly wage in this state rounded to the next highest dollar, on the date the impairment is determined, by the following number of weeks, depending upon the percentage of impairment:

<u>1. For loss of arm at shoulder</u>	<u>250 weeks.</u>
<u>2. For loss of arm at or above the elbow</u>	<u>220 weeks.</u>
<u>3. For loss of hand at or above wrist</u>	<u>200 weeks.</u>
<u>4. For loss of thumb</u>	<u>65 weeks.</u>
<u>5. For loss of second or distal phalanx of thumb</u>	<u>28 weeks.</u>
<u>6. For loss of first finger</u>	<u>40 weeks.</u>
<u>7. For loss of middle or second phalanx of first finger</u>	<u>28 weeks.</u>
<u>8. For loss of third or distal phalanx of first finger</u>	<u>22 weeks.</u>
<u>9. For loss of second finger</u>	<u>30 weeks.</u>
<u>10. For loss of middle or second phalanx of second finger</u>	<u>22 weeks.</u>
<u>11. For loss of third or distal phalanx of second finger</u>	<u>14 weeks.</u>
<u>12. For loss of third finger</u>	<u>20 weeks.</u>

<u>13. For loss of middle or second phalanx of third finger</u>	<u>16 weeks.</u>
<u>14. For loss of third or distal phalanx of third finger</u>	<u>10 weeks.</u>
<u>15. For loss of fourth finger</u>	<u>16 weeks.</u>
<u>16. For loss of middle or second phalanx of fourth finger</u>	<u>12 weeks.</u>
<u>17. For loss of third or distal phalanx of fourth finger</u>	<u>6 weeks.</u>
<u>18. For loss of leg at hip</u>	<u>234 weeks.</u>
<u>19. For loss of leg at or above knee</u>	<u>195 weeks.</u>
<u>20. For loss of foot at or above ankle</u>	<u>150 weeks.</u>
<u>21. For loss of great toe</u>	<u>30 weeks.</u>
<u>22. For loss of second or distal phalanx of great toe</u>	<u>18 weeks.</u>
<u>23. For loss of any other toe</u>	<u>12 weeks.</u>
<u>24. For loss of middle or second phalanx of any other toe</u>	<u>10 weeks.</u>
<u>25. For loss of third or distal phalanx of any other toe</u>	<u>7 weeks.</u>
<u>26. For loss of an eye</u>	<u>150 weeks.</u>
<u>27. For loss of hearing in one ear</u>	<u>50 weeks.</u>
<u>28. For loss of hearing in both ears</u>	<u>200 weeks.</u>

The amount paid for the loss of more than one finger of one hand may not exceed the amount provided in this schedule for the loss of a hand. For the loss of the metacarpal bone, of the palm, together with the corresponding thumb or finger, ten weeks must be added to the number of weeks of payment. The permanent loss of use of a thumb, finger, toe, arm, hand, foot, leg, or eye must be considered as the equivalent of the loss of such thumb, finger, toe, arm, hand, foot, leg, or eye, and compensation for partial loss of use of said parts must be allowed on a percentage basis. Twenty-five percent additional must be allowed as compensation for the loss of use of the master hand or any member or members thereof. The loss of any part of a phalanx must be considered equal to the loss of the entire phalanx. If any employee dies from independent cause, the right of any compensation payable under section 16 or this section, unpaid at the date of his death, shall survive and pass to his dependent spouse, minor children, parents, or his estate and in that order named. Wherever possible, an impairment award must be made under the terms of this section.

Recovery under this section shall bar an additional award of permanent for the same injury, as elsewhere provided in this chapter. If a compensable injury causes an impairment under this section, and also causes impairment to a part of the body which cannot be compensated under the terms of this section, a whole body award may be made under section 16 if such award is not duplicative.

An impairment award made by the bureau in the past under this section or section 16 must be deducted from a subsequent impairment award for injury to the same part of the body.

SECTION 18. A new section to the North Dakota Century Code is created and enacted as follows:

Scheduled injuries - Partial loss of use of member - Weekly compensation time - Compensation payable. If an injury causes permanent impairment of a member, the sight of an eye, or the hearing in an ear, the fund shall pay to the impaired employee a weekly compensation for that proportion of the number of weeks specified in the schedule in section 18 for the loss of such member, the sight of an eye, or the hearing in an ear, which the partial loss of the use thereof bears to the total loss of the use of such member, eye, or ear.

Recovery under this section shall bar an additional award of permanent impairment for the same injury, as elsewhere provided in this chapter.

SECTION 19. AMENDMENT. Section 65-05-28 of the North Dakota Century Code is amended and reenacted as follows:

65-05-28. Examination of injured employee - Paid expenses - No compensation paid if claimant refuses to reasonably participate. Every employee who sustains an injury may select a doctor of that employee's choice to render initial treatment. Upon a determination that the employee's injury is compensable, the bureau may require the employee to begin treating with another doctor, ~~to better direct the medical aspects of the injured employee's claim~~ if the employee's care falls beneath community standards. ~~The~~ In that event, the bureau shall provide a list of three doctors who specialize in the treatment of the type of injury the employee sustained. At the bureau's request, the employee shall select a doctor from the list. An injured employee shall follow the directives of the doctor or health care provider who is treating the employee as chosen by the employee at the request of the bureau, and comply with all reasonable requests during the time the employee is under medical care. Providing further that:

1. No employee may change from one doctor to another while under treatment or after being released, without the prior written authorization of the bureau. Failure to obtain approval of the bureau renders the employee liable for the cost of treatment ~~and the new doctor will not be considered the attending doctor for purposes of certifying temporary disability.~~ The bureau may not unreasonably withhold approval.
 - a. Any employee requesting a change of doctor shall file a written request with the bureau stating all reasons for the change. Upon receipt of the request, the bureau will review the employee's case and approve or deny in writing the change of doctor within seven days, notifying the employee and the requested doctor.
 - b. Emergency care or treatment or referral by the attending doctor ~~does not constitute a change of doctor and~~ does not require prior approval of the bureau.
2. Travel and other personal reimbursement for seeking and obtaining medical care is paid only upon request of the injured employee. All claims for reimbursement must be supported by the original vendor receipt and must be submitted within one year of the date the expense was incurred or reimbursement must be denied. Reimbursement must be made at the bureau reimbursement rates in effect on the date of incurred travel or expense. Mileage calculations must be based upon the atlas or map mileage from city limit to city limit and do not include intracity mileage. Providing further that:
 - a. No payment for mileage or other travel expenses may be made when the distance traveled is less than fifty miles [80.47 kilometers] one way, unless the total mileage equals or exceeds two hundred miles [321.87 kilometers] in a calendar month;
 - b. All travel reimbursements are payable at the rate at which state employees are paid per diem and mileage, except that the bureau may pay no more than actual cost of meals and lodging, if actual cost is less;
 - c. Reimbursements may not be paid for travel other than that necessary to obtain the closest available medical or hospital care

- needed for the injury. If the injured employee chooses to seek medical treatment outside a local area where care is available, travel reimbursement may be denied;
- d. Reimbursement may not be paid for the travel and associated expenses incurred by the injured employee's spouse, children, or other persons unless the employee's injury prevents travel alone and the inability is medically substantiated; and
 - e. Other expenses, including telephone calls and car rentals are not reimbursable expenses.
3. The bureau may at any time require an employee to submit to an independent medical examination by a duly qualified doctor ~~or doctors designated or approved by the bureau~~ whose primary practice is in North Dakota, unless the employee and the bureau agree to an independent medical examination by an out-of-state physician. The independent medical examination must be for the purpose of review of the diagnosis, prognosis, treatment, or fees. The employee may have a duly qualified doctor designated by that employee present at the examination if procured and paid for by that employee. ~~Providing further that;~~
- a. ~~In case of any disagreement between doctors making an examination on the part of the bureau and the employee's doctor, the bureau shall appoint an impartial doctor duly qualified who shall make an examination and shall report to the bureau.~~
 - b. The employee, in the discretion of the bureau, ~~may~~ shall be paid reasonable travel and other per diem expenses under the guidelines of subsection 2. If the employee is working and loses gross wages from the employee's employer for attending the examination, the gross wages must be reimbursed as a miscellaneous expense upon receipt of a signed statement from the employer verifying the gross wage loss.
4. If an employee, or the employee's representative, refuses to submit to, or in any way intentionally obstructs, any examination, or refuses reasonably to participate in medical or other treatments, the employee's right to claim compensation under this title is suspended until the refusal or obstruction ceases. No compensation is payable while the refusal or obstruction continues, and the period of the refusal or obstruction must be deducted from the period for which compensation is payable to the employee.

SECTION 20. AMENDMENT. Section 65-05-35 of the North Dakota Century Code is amended and reenacted as follows:

65-05-35. ~~Closed~~ Inactive claim - Presumption.

1. A claim for benefits under this title is presumed closed if:
 - a. A doctor's report has been filed indicating the employee has reached maximum medical recovery; and

- a. Return to the same position.
 - b. ~~Return to the same occupation, any employer.~~
 - e. Return to a modified position.
 - d. ~~Return to a modified or alternative occupation, any employer.~~
 - e. c. Return to ~~an~~ a related occupation in the local job pool which is suited to the employee's education, experience, and marketable skills.
 - f. d. Return to ~~an~~ a related occupation in the statewide job pool which is suited to the employee's education, experience, and marketable skills.
 - g. e. On-the-job training suited to return the employee to the statewide job pool.
 - h. f. Short-term retraining within North Dakota of fifty-two weeks or less suited to return the employee to the statewide job pool.
 - i. g. Long-term retraining within North Dakota of ~~one~~ two hundred ~~four~~ eight weeks or less suited to return the employee to the statewide job pool.
 - j. h. Self-employment.
5. If an option listed in subdivision a, b, e, d, e, f, or g of subsection 4 has been identified as appropriate for an injured employee and the employee is initially released by the doctor to return to part-time employment with the reasonable expectation of attaining full-time employment, the bureau shall pay temporary partial disability benefits under section 65-05-10 until the doctor determines the employee is medically capable of full-time employment.
6. a. If the vocational consultant concludes that none of the priority options under subsection 4 of section 65-05.1-01 are viable, and will not return the employee to the lesser of ~~sixty-six and two-thirds~~ ninety percent of the average weekly wage, or ~~ninety percent~~ of the employee's preinjury earnings, the employee shall continue to minimize the loss of earnings capacity, to seek, obtain, and retain employment:
- (1) a. That meets the employee's ~~functional capacities~~ medical limitations;
 - (2) b. For which the employee meets the qualifications to compete; and
 - (3) c. That will reasonably result in retained earnings capacity equivalent to the lesser of ~~ninety percent~~ of the employee's preinjury earnings or ~~the state's current hourly minimum wage~~ sixty-six and two-thirds percent of the average weekly wage in the state on the date the rehabilitation consultant's report is issued. ~~If an employee is initially released to part-time employment by the doctor, the income test defined under this paragraph must be waived provided there is a reasonable expectation that the employee will return to full-time~~

employment meeting the income test previously defined under this paragraph.

- ~~b.~~ Under section 65-05-10, the bureau shall award partial disability based on retained earnings capacity calculated under this section.
- ~~7.~~ 6. ~~The~~ By agreement between the bureau and the employee, the income test in subsection 3 ~~must~~ and the priority options in subsection 4 may be waived ~~when an employer offers the employee a return to work option at a wage lower than the income test as defined under subsection 3 or when the bureau and the employee agree to waive the income test and the priority options.~~
- ~~8.~~ 7. Vocational rehabilitation services may be initiated by:
- a. The bureau on its own motion; or
 - b. The bureau or the employer if proof exists:
 - (1) That the employee has reached maximum medical recovery;
 - (2) That the employee is not working and is not voluntarily retired or removed from the labor force; and
 - (3) That the employee has made good faith efforts to seek, obtain, and retain employment.
- ~~9.~~ 8. Chapter 50-06.1 does not apply to determinations of eligibility for vocational rehabilitation made pursuant to this chapter.

SECTION 22. AMENDMENT. Section 65-05.1-04 of the North Dakota Century Code is amended and reenacted as follows:

65-05.1-04. Injured employee responsibility.

1. The injured employee shall seek, obtain, and retain reasonable and substantial employment to reduce the period of temporary disability to a minimum. The employee has the burden of establishing that the employee has met this responsibility.
2. If the injured employee is unable to obtain substantial employment as a direct result of injury, the employee shall promptly notify the bureau under subdivision b of subsection 7 of section 65-05.1-01.
3. The injured employee shall be available for testing under subsection 6 or 7 of section 65-05.1-02, and for any further examinations and testing as may be prescribed by the bureau to determine whether or not a program of rehabilitation is necessary. ~~The injured employee also shall participate in remedial or other educational services when those services are determined to be necessary by the bureau or the vocational consultant. If the employee is noncompliant with this subsection, the bureau shall suspend benefits during the period of noncompliance.~~
4. If the first appropriate rehabilitation option under subsection 4 of section 65-05.1-01 is return to the same; or modified; ~~or alternative occupation position~~, or return to ~~an~~ related occupation that is suited to the

employee's education, experience, and marketable skills, or on-the-job training, the employee is responsible to make a good faith work trial or work search. If the employee fails to perform a good faith work trial or work search, the finding of nondisability or partial disability is res judicata, and the bureau may not reinstate temporary total disability benefits or recalculate an award of partial disability benefits in the absence of a significant change in medical condition attributable to the work injury. The bureau shall recalculate the partial disability award, however, if the employee returns, in good faith to gainful employment. If the employee meets the burden of proving that the employee made a good faith work trial or work search and that the work trial or work search was unsuccessful due to the injury, the bureau shall reevaluate the employee's vocational rehabilitation claim. ~~A good faith work search that does not result in placement is not, in itself, sufficient grounds to prove the work injury caused the inability to acquire gainful employment. The employee shall show that the injury significantly impacts the employee's ability to successfully compete for gainful employment in that the injury leads employers to favor those without limitations over the employee.~~

5. If the first appropriate rehabilitation option under subsection 4 of section 65-05.1-01 is short-term or long-term training, the employee shall cooperate with the necessary testing to determine whether the proposed training program meets the employee's medical limitations and aptitudes. The employee shall attend a qualified rehabilitation training program when ordered by the bureau. A qualified training program is a rehabilitation plan that meets the criteria of this title, is the approved option of the rehabilitation consultant, or is a stipulated rehabilitation plan under subsection 6 of section 65-05.1-01, and commences within a reasonable period of time such as the next quarter or semester. The bureau and the employee, by agreement, may waive the income test applicable under this subsection.
6. If, without good cause, the injured employee fails to perform a good faith work trial in a return to the same; or modified; or alternative occupation position, or in an on-the-job training program, or fails to make a good faith work search in return to work utilizing the employee's transferable skills, the employee is in noncompliance with vocational rehabilitation. ~~If, without good cause, the injured employee fails to attend specific vocational testing, remedial, or other vocational services determined necessary by the bureau or the rehabilitation consultant, the employee is in noncompliance with vocational rehabilitation.~~ If, without good cause, the injured employee fails to attend a scheduled medical or vocational assessment, or fails to attend a specific qualified rehabilitation program within ten days from the date the rehabilitation program commences, the employee is in noncompliance with vocational rehabilitation. If, without good cause, the employee discontinues a job the employee is performing, or a training program in which the employee is enrolled, the employee is in noncompliance with vocational rehabilitation. ~~If at any time the employee is noncompliant without good cause the~~ employee establishes a pattern of noncooperation as heretofore described, involving two or more incidents of noncooperation, subsequent efforts by the employee to come into compliance with vocational rehabilitation are may not considered be deemed successful compliance until the employee has successfully returned to the job or training program for a period of sixty days. In all cases of

noncompliance by the employee, the bureau, by administrative order, shall discontinue lost-time benefits. If, after the bureau order becomes final, the period of noncompliance continues for sixty days, ~~or a second instance of noncompliance occurs without good cause,~~ the bureau has no further jurisdiction in awarding any further temporary total disability, temporary partial disability, permanent total disability, or vocational rehabilitation benefits.

SECTION 23. AMENDMENT. Subsection 1 of section 65-05.1-06.1 of the North Dakota Century Code is amended and reenacted as follows:

1. Within sixty days of receipt of the final vocational consultant's report, the bureau shall issue an administrative order under chapter 28-32 detailing the employee's entitlement to lost-time and vocational rehabilitation services. The bureau shall establish a reasonable hourly rate to compensate an employee's attorney for legal service in connection with vocational rehabilitation prior to the issuance of an administrative order.

In addition, the bureau shall establish a reasonable hourly rate to compensate an employee's vocational rehabilitation expert when the employee prevails in a dispute over the administrative order.

SECTION 24. AMENDMENT. Section 65-10-01 of the North Dakota Century Code is amended and reenacted as follows:

65-10-01. Appeal from decision of bureau. If the final action of the bureau denies the right of the claimant to participate at all in the fund on the ground that the injury was self-inflicted, or on the ground that the accident did not arise in the course of employment, or upon any other ground going to the basis of the claim, or if the bureau allows the claimant to participate in the fund to a lesser degree than that claimed by the claimant, if such allowance is less than the maximum allowance provided by this title, the claimant may appeal to the district court of the county wherein the injury was inflicted or of the county in which the claimant resides. An employer may also appeal a decision of the bureau in any injury case in the manner prescribed in this section. An appeal involving injuries allegedly covered by insurance provided under contracts with extraterritorial coverage shall be triable in the district court of Burleigh County. Any appeal under this section shall be taken in the manner provided in chapter 28-32. Any appeal to the district court shall be heard on the record, transmitted from the bureau, and, in the discretion of the court, additional evidence may be presented pertaining to the questions of law involved in the appeal. The bureau shall prepare the certified record without charge to any other party to the appeal.

SECTION 25. AMENDMENT. Section 65-10-03 of the North Dakota Century Code is amended and reenacted as follows:

65-10-03. Cost of appeal and attorney's fees fixed by the bureau. The bureau shall pay the cost of the judicial appeal and the attorney's fee for an injured employee's attorney when the employee prevails. The employee is deemed to have prevailed when any part of the decision of the bureau is reversed or the claim is remanded to the bureau for further administrative proceedings.

In an appeal by the bureau or an employer to the district court or the North Dakota supreme court, the claimant shall recover costs and attorney's fees incurred in responding to the appeal. The bureau shall pay the attorney's fee from the

bureau general fund. The amount of the attorney's fee must be determined in the same manner as prescribed by the bureau for attorney fees, and the amount of attorney's fee already allowed in administrative proceedings before the bureau must be taken into consideration. ~~The bureau shall establish, pursuant to section 65-02-08, a maximum fee to be paid in an appeal. The maximum fee may be exceeded upon application of the injured employee and approval of the court, upon a finding that the claim had clear and substantial merit, and that the legal or factual issues involved in the appeal were unusually complex.~~ Notwithstanding the foregoing, the bureau is liable for its costs on appeal if the decision of the bureau is affirmed.

SECTION 26. REPEAL. Section 65-02-19 of the North Dakota Century Code, dealing with workers compensation administrative services, is repealed.

SECTION 27. REPEAL. Section 65-02-20 of the North Dakota Century Code, dealing with the workers compensation managed care program, is repealed.

CHAPTER 564

TERM LIMITS

An initiated measure to create and enact section 4.1 of article IV, a new section to article V, and sections 27, 28, 29, 30, 31, 32, and 33 of article XI of the Constitution of North Dakota, relating to state legislative, state executive branch, and congressional term limits; and to provide for transition.

BE IT ENACTED BY THE PEOPLE OF THE STATE OF NORTH DAKOTA:

SECTION 1. Sections 27 through 33 of article XI of the Constitution of North Dakota are created and enacted as follows:

Section 27. Preamble.

1. The people of the state of North Dakota want to amend the United States Constitution to establish term limits on Congress that will ensure representation in Congress by true citizen lawmakers. The President of the United States is limited by the twenty-second amendment to two terms in office. The governors in forty states are limited to two or fewer terms in office. Voters have established term limits for over two thousand state legislators as well as over seventeen thousand local officials across the country.
2. Nevertheless, Congress has ignored our desire for term limits, not only by proposing excessively long terms for its own members, but also by utterly refusing to pass an amendment for genuine congressional term limits. Congress has a clear conflict of interest in considering a term limits amendment to the United States Constitution. A majority of both republicans and democrats in the one hundred fourth Congress voted against a constitutional amendment containing the term limits passed by the people of North Dakota by a wide margin in 1992.
3. The people, not Congress, should set term limits. Therefore, by this initiated amendment, we establish as the official position of the people of North Dakota that our elected officials should enact by constitutional amendment congressional term limits of three terms in the United States house of representatives and two terms in the United States senate.
4. The career politicians dominating Congress have a conflict of interest that prevents Congress from being what the founders intended -- the branch of government closest to the people. They have voted to dramatically raise their own pay. They have provided lavish million-dollar pensions for themselves. They have granted themselves numerous other privileges at the expense of the people. Most importantly, members of Congress have enriched themselves while running up huge deficits to support their spending. They have put the government nearly five trillion dollars in debt, gravely threatening the future of our children and grandchildren.
5. The corruption and appearance of corruption brought about by political careerism is destructive to the proper functioning of the first branch of our representative government. Congress has grown increasingly distant

from the people of the states. The people have the sovereign right and a compelling interest in creating a citizen Congress that will more effectively protect our freedom and prosperity. This interest and right may not effectively be served in any way other than that proposed by this initiative.

6. Therefore, we state our intention on behalf of the people of North Dakota, that this amendment lead to the adoption of the following amendment to the Constitution of the United States:

CONGRESSIONAL TERM LIMITS AMENDMENT

Section A. No person shall serve in the office of United States representative for more than three terms, but upon ratification no person who has held the office or who then holds the office shall serve for more than two additional terms.

Section B. No person shall serve in the office of United States senator for more than two terms, but upon ratification no person who has held the office or who then holds the office shall serve for more than one additional terms.

Section C. This article shall have no time limit within which it must be ratified to become operative upon the ratification by the legislatures of three-fourths of the several states.

7. Therefore, we, the people of North Dakota, have chosen to amend the state constitution to inform voters about incumbent and nonincumbent federal candidates' support for the congressional terms limits amendment described in subsection 6.

Section 28. Voter instruction on term limits for members of Congress.

1. We, the people of North Dakota, instruct each member of our congressional delegation to use all of that member's delegated powers to pass the congressional term limits amendment described in section 27(6) of this article.
2. Each primary and general election ballot must have displayed the information "DISREGARDED VOTER INSTRUCTION ON TERM LIMITS", in type at least as large and prominent as the name, next to the name of each United States senator and each United States representative who did any of the following acts:
 - a. Failed to vote in favor of the proposed congressional term limits amendment, described in section 27(6) of this article, when brought to a vote.
 - b. Failed to second the proposed congressional term limits amendment, described in section 27(6) of this article, if it lacks for a second before any proceeding of the legislative body.
 - c. Failed to proposed, or otherwise bring to a vote of the full legislative body, the proposed congressional term limits amendment, described in section 27(6) of this article, if it otherwise lacks a

legislator who so proposes or brings it to a vote of the full legislative body.

- d. Failed to vote in favor of all votes bringing the proposed congressional term limits amendment, described in section 27(6) of this article, before any committee or subcommittee of the legislative body on which the member serves.
 - e. Failed to reject any attempt to delay, table, or otherwise prevent a vote by the full legislative body, of the proposed congressional term limits amendment, as described in section 27(6) of this article.
 - f. Failed to vote against any proposed constitutional amendment that would establish term limits longer than those in the proposed congressional term limits amendment, described in section 27(6) of this article.
 - g. Sponsored or cosponsored any proposed constitutional amendment that would establish term limits longer than those in the proposed congressional term limits amendment, described in section 27(6) of this article.
 - h. Failed to ensure that all votes on the proposed congressional term limits amendment, described in section 27(6) of this article, are recorded and made available to the public.
3. Publication of the ballot information described in subsection 2 is not required if the proposed congressional term limits amendment, described in section 27(6) of this article, is before the states for ratification or has become part of the United States Constitution.

Section 29. Voter instruction on term limits for nonincumbent candidates for Congress.

1. Each nonincumbent candidate for United States senator or United States representative may take the "term limits" pledge described in subsection 3 each time the individual is a candidate for either office. If such a candidate declines to the pledge, there must be displayed, on each primary and general election ballot, the information "DECLINED TO PLEDGE TO SUPPORT TERM LIMITS", in type at least as large and prominent as the name, next to the name of candidate who declined to take the pledge.
2. The "term limits" pledge must be offered to each nonincumbent candidate for United States senator or United States representative at each primary and general election until the congressional term limits amendment described in section 27(6) of this article becomes part of the United States Constitution.
3. The "term limits" pledge to be offered to each nonincumbent candidate for United States senator or United States representative is as follows:

I support term limits and pledge to use all my legislative powers to enact the proposed constitutional amendment described in section 27(6) of this article. If enacted, I pledge to vote in such a way that the information

"DISREGARDED VOTER INSTRUCTION ON TERM LIMITS" will not appear next to my name.

Signature of candidate

Section 30. Duties of secretary of state.

1. The secretary of state shall make an accurate determination as to whether each candidate for the federal legislature is required to have displayed next to the candidates name the information "DISREGARDED VOTER INSTRUCTION ON TERM LIMITS" or "DECLINED TO PLEDGE TO SUPPORT TERM LIMITS."
2. In making the determination required under subsection 1, the secretary of state shall consider timely submitted public comments before doing so. The secretary may rely on comments and information submitted by the candidates in making the determination.
3. With respect to incumbent members of Congress, the secretary of state shall make the determination in a fashion necessary to ensure the orderly printing of primary and general election ballots, with allowance made for all legal action provided in this section, and must be based on the action each member of Congress took during the member's current term of office and any action taken in any concluded term, if that action was taken after the determination and declaration by the secretary of state for a previous election.
4. With respect to nonincumbent candidates for Congress, the secretary of state shall make the determination required in subsection 1 no later than five business days after the deadline for filing for the office.
5. A party aggrieved by the determination of the secretary of state under subsection 1 may appeal that determination to the North Dakota supreme court as a matter of original jurisdiction. The appeal must be filed with the supreme court within five business days of the secretary's designation or is deemed waived.
6. If the determination of the secretary of state was to not include beside the candidate's name the information described in subsection 1, the aggrieved party is any elector of this state and the burden of persuasion is on the secretary of state by a standard of clear and convincing evidence.
7. If the determination of the secretary of state was to include beside the candidate's name the information described in subsection 1, the aggrieved party is the candidate and the burden of persuasion is on the candidate by a standard of clear and convincing evidence.
8. The supreme court shall give prompt attention to each appeal filed under subsection 6 and issue a decision within sixty days. The supreme court shall give prompt attention to each appeal filed under subsection 7 and issue a decision at least sixty-one days before the election.

Section 31. Exclusive jurisdiction of supreme court. Any legal challenge to this section of this initiated amendment must be filed as a matter of exclusive original jurisdiction with the supreme court of North Dakota.

Section 32. Severability. If any portion, clause, or phrase of sections 27 through 33 of this article is, for any reason, held to be invalid or unconstitutional by a court of competent jurisdiction, the remaining portions, clauses, and phrases are not affected, but remain in full force and effect.

Section 33. Contingent automatic repeal. If the United States Constitution is amended to include a term limits amendment such as described in section 27(6) of this article, sections 28 through 33 of this article are repealed, effective ninety days after the amendment to the United States Constitution is certified to have taken effect in accordance with federal law.

SECTION 2. Section 4.1 of article IV of the Constitution of North Dakota is created and enacted as follows:

Section 4.1. Number of terms of members. If the term of office of a member is two years, a person may not serve for more than three terms in that office. If the term of office of a member is four years, a person may not serve for more than two terms in that office. Service as a representative does not disqualify a person from serving as a senator, and service as a senator does not disqualify a person from serving as a representative.

SECTION 3. A new section to article V (as it existed on January 1, 1996, or as it was amended in 1996, if that case applies) of the Constitution of North Dakota is created and enacted as follows:

Term limits on executive officers - Retention of elected status.

1. A person may not serve in any office established in this article for more than the following number of terms:
 - a. If the term of office is more than four years, one term.
 - b. If the term of office is not more than four years, two terms.
2. Service in another office established in this article does not disqualify a person from serving in another office so established.
3. If an office established in this article was an elective office on January 1, 1996, that status may not be changed except by a further amendment to this constitution voted on by the people after December 31, 1996. Any contrary amendment to this constitution approved in 1996 is expressly repealed to that extent.

SECTION 4. Transitional provisions.

1. Sections 2 and 3 of this measure do not affect the right of any person, holding an elected office when this term limits measure was submitted to the secretary of state for his approval, from serving out the rest of the term to which the person had been elected. Past service in an office does not disqualify a person from running for that office at the election at which this measure is submitted to the people and from serving out the term to which the person is then elected. Service in an office in any

term that began before this term limits measure was submitted to the secretary of state for his approval is not included in determining eligibility to run for future terms.

2. This section is repealed, without further action of the people, at the expiration of the term of office during which occurs the death of the last surviving person who, when this measure was submitted to the secretary of state for his approval, had at any time held an office described in this measure.

CHAPTER 565

CONSTITUTIONAL CONVENTION

An initiated measure to create and enact sections 11 through 14 of article III of the Constitution of North Dakota, relating to a petition to the Congress of the United States to call a constitutional convention, in accordance with article V of the Constitution of the United States, to establish term limits for members of Congress; and to amend and reenact section 7 of article III of the Constitution of the state of North Dakota, relating to jurisdiction of the North Dakota Supreme Court.

BE IT ENACTED BY THE PEOPLE OF THE STATE OF NORTH DAKOTA:

SECTION 1. Section 7 of article III of the Constitution of North Dakota is amended and reenacted as follows:

Section 7. Judicial proceedings.

1. All decisions of the ~~secretary~~ Secretary of state ~~State~~ in the petition process are subject to review by the ~~supreme court~~ Supreme Court in the exercise of its original jurisdiction. If his decision is being reviewed at the time the ballot is prepared, he shall place the measure on the ballot and no court action shall invalidate the measure if it is approved at the election by a majority of the votes cast thereon.
2. The Supreme Court has original and exclusive jurisdiction over any challenge to this initiative or its enactments. However, it has no jurisdiction to find that this initiative is in conflict with the constitution of this state.

SECTION 2. Section 11 to article III of the Constitution of North Dakota is created and enacted as follows:

11. Statement of people's purpose for section 11 through 14.

1. The people of this state desire to amend the United States Constitution to establish term limits on Congress, thereby ensuring representation in Congress by true citizen lawmakers. The President of the United States is limited by the twenty-second amendment to two terms in office. Governors in forty states are limited to two terms or less. Voters have established term limits for over two thousand state legislators as well as over seventeen thousand local officials across the country.
2. Nevertheless, Congress has ignored our desire for term limits, not only by proposing excessively long terms for its own members, but also by utterly refusing to pass an amendment for genuine congressional term limits. Congress has a clear conflict of interest in proposing a term limits amendment to the United States Constitution.
3. The people, not Congress, should set term limits. We establish as the official position of the people of this state that congressional term limits shall be no longer than three terms in the United States house of representatives, nor longer than two terms in the United States senate.

4. The career politicians dominating Congress have a conflict of interest that prevents Congress from being what the founders intended - the branch of government closest to the people. The politicians have refused to heed the will of the people for term limits. They have voted to dramatically raise their own pay, provided lavish million-dollar pensions for themselves, and granted themselves numerous other privileges at the expense of the people. Most importantly, members of Congress have enriched themselves while running up huge deficits to support their spending. They have put the government nearly five trillion dollars in debt, gravely threatening the future of our children and grandchildren.
5. The abuse of power, corruption, and appearance of corruption, brought about by political careerism is destructive to the proper functioning of the first branch of our representative government. Congress has grown increasingly distant from the people of the states. We have the sovereign right and a compelling interest in creating a citizen Congress that will more effectively protect our freedom and prosperity. This interest and right may not effectively be served in any way other than that proposed by this initiative.
6. The foresight of our founders provided a path around congressional self-interest under article V of the United States Constitution. Under article V, the people may seek a convention to amend the Constitution when the legislatures of two-thirds, or thirty-four, states apply for such a convention. Amendments proposed by that convention become part of the Constitution upon the ratification of three-fourths, or thirty-eight states. Therefore, exercising the powers we reserved to ourselves under section 1 of this article, we amend our state constitution to state our desire that this application on behalf of the people and legislative assembly of North Dakota, leads to the adoption of the following constitutional amendment:

CONGRESSIONAL TERM LIMITS AMENDMENT

Section A. No person shall serve in the office of United States representative for more than three terms, but upon ratification no person who has held the office of United States representative or who then holds office shall serve in the office for more than two additional terms.

Section B. No person shall serve in the office of United States senator for more than two terms, but upon ratification no person who has held the office of United States senator or who holds office shall serve in the office for more than one additional term.

Section C. This article shall have no time limit within which it must be ratified to become operative upon the ratification by the legislatures of three-fourths of the several states.

SECTION 3. Section 12 to article III of the Constitution of North Dakota is created and enacted as follows:

12. Application to Congress. In the exercise of the power we reserved to ourselves under section 1 of this article, and for this purpose serving as the legislature of this state, as described in article IV of this Constitution and in article V of the Constitution of the United States, we the people submit the following application to the Congress of the United States:

Application: We, the people of North Dakota, due to our desire to establish term limits on the Congress of the United States, acting as the legislature of the state of North Dakota, exercising our power under our constitution and under article V of the Constitution of the United States, apply to Congress to call an article V convention.

SECTION 4. Section 13 to article III of the Constitution of North Dakota is created and enacted as follows:

13. Duty of the Secretary of State. Upon approval of this initiative, the Secretary of State shall transmit an official copy of this initiative, and the application contained in it, to the Secretary of State of the United States, the clerk of the United States house of representatives, the speaker of the house, the clerk of the United States senate, the president pro tempore of the senate, and to the legislatures of the other forty-nine states.

SECTION 5. Section 14 to article III of the Constitution of North Dakota is created and enacted to read as follows:

14. Dissolution. Having applied to Congress in the exercise of our power under the constitutions of this state and of the United States, we dissolve the legislature composed of the voters, continuing to reserve to ourselves the power we reserved under section 1 of this article. The action of the people of North Dakota in acting as the legislature does not otherwise affect any other law or part of this constitution.

HOUSE CONCURRENT RESOLUTION NO. 3030 (Representative Maragos)

COMPACT WITH UNITED STATES

House Concurrent Resolution No. 3030, Chapter 645, 1995 Session Laws, proposed by the Fifty-fourth Legislative Assembly of the State of North Dakota, to create and enact a new section to article XIII of the Constitution of North Dakota, relating to the compact with the United States; and for the amendment of sections 1 and 2 of article XIII of the Constitution of North Dakota, relating to jurisdiction over certain military reservations.

STATEMENT OF INTENT

This amendment creates a new section to article XIII of the Constitution of North Dakota to incorporate by reference provisions of the Enabling Act of 1889 and eliminates language made unnecessary by the new section.

BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

That the following proposed new section to article XIII and amendment to sections 1 and 2 of article XIII of the Constitution of North Dakota are agreed to and must be submitted to the qualified electors of North Dakota at the primary election to be held in June 1996, in accordance with section 16 of article IV of the Constitution of North Dakota.

SECTION 1. AMENDMENT. Section 1 of article XIII of the Constitution of North Dakota is amended and reenacted as follows:

Section 1.

- 4: Perfect toleration of religious sentiment ~~shall~~ must be secured, and no inhabitant of this state ~~shall~~ may ever be molested in person or property on account of ~~his or her~~ that person's mode of religious worship.
- 2: The people inhabiting this state do agree and declare that they forever disclaim all right and title to the unappropriated public lands lying within the boundaries thereof, and to all lands lying within said limits owned or held by any Indian or Indian tribes, and that until the title thereto shall have been extinguished by the United States, the same shall be and remain subject to the disposition of the United States; and that said Indian lands shall remain under the absolute jurisdiction and control of the Congress of the United States; provided, however, that the legislative assembly of the state of North Dakota may, upon such terms and

conditions as it shall adopt, provide for the acceptance of such jurisdiction as may be delegated to the state by Act of Congress; that the lands belonging to citizens of the United States residing without this state shall never be taxed at a higher rate than the lands belonging to residents of this state; that no taxes shall be imposed by this state on lands or property therein, belonging to, or which may hereafter be purchased by the United States or reserved for its use. But nothing in this article shall preclude this state from taxing as other lands are taxed, any lands owned or held by any Indian who has severed his tribal relations, and has obtained from the United States or from any person, a title thereto, by patent or other grant, save and except such lands as have been or may be granted to any Indian or Indians under any Acts of Congress containing a provision exempting the lands thus granted from taxation, which last mentioned lands shall be exempt from taxation so long, and to such an extent, as is, or may be provided in the Act of Congress granting the same.

3. In order that payment of the debts and liabilities contracted or incurred by and on behalf of the territory of Dakota may be justly and equitably provided for and made, and in pursuance of the requirements of an Act of Congress approved February 22, 1889, entitled "An act to provide for the division of Dakota into two states and to enable the people of North Dakota, South Dakota, Montana and Washington to form constitutions and state governments and to be admitted into the union on an equal footing with the original states, and to make donations of public lands to such states," the states of North Dakota and South Dakota, by proceedings of a joint commission, duly appointed under said Act, the sessions whereof were held at Bismarck in said state of North Dakota, from July 16, 1889, to July 31, 1889, inclusive, have agreed to the following adjustment of the amounts of the debts and liabilities of the territory of Dakota which shall be assumed and paid by each of the states of North Dakota and South Dakota, respectively, to wit:

This agreement shall take effect and be in force from and after the admission into the union, as one of the United States of America, of either the state of North Dakota or the state of South Dakota:

The words "State of North Dakota" whenever used in this agreement, shall be taken to mean the territory of North Dakota in case the state of South Dakota shall be admitted into the union prior to the admission into the union of the state of North Dakota; and the words "State of South Dakota," whenever used in this agreement, shall be taken to mean the territory of South Dakota in case the state of North Dakota shall be admitted into the union prior to the admission into the union of the state of South Dakota.

The said state of North Dakota shall assume and pay all bonds issued by the territory of Dakota to provide funds for the purchase, construction, repairs or maintenance of such public institutions, grounds or buildings as are located within the boundaries of North Dakota, and shall pay all warrants issued under and by virtue of that certain Act of the legislative assembly of the territory of Dakota, approved March 8, 1889, entitled "An act to provide for the refunding of outstanding warrants drawn on the capitol building fund."

EXECUTIVE BRANCH ARTICLE

House Concurrent Resolution No. 3009, Chapter 646, 1995 Session Laws, proposed by the Fifty-fourth Legislative Assembly of the State of North Dakota, to create and enact a new article V of the Constitution of North Dakota, relating to the executive branch of government, to the election, qualification, and compensation of executive officials, to the powers and duties of the governor, and to gubernatorial succession; to repeal the present article V of the Constitution of North Dakota, relating to the executive branch of government, to the election and qualification of executive officials, to the powers and duties of the governor, and to gubernatorial succession; and to provide an effective date.

STATEMENT OF INTENT

This measure creates a new executive branch article for the Constitution of North Dakota that retains all the current elected state officials. The amendment provides for the election and qualification of executive officials, for the powers and duties of the governor, and for gubernatorial succession. The amendment also repeals the present article V of the Constitution of North Dakota and provides that these changes will take effect on July 1, 1997.

BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

That the following proposed creation of a new article V and the following proposed repeal of the present article V of the Constitution of North Dakota are agreed to and must be submitted to the qualified electors of North Dakota at the primary election to be held in 1996, in accordance with section 16 of article IV of the Constitution of North Dakota.

SECTION 1. A new section to a new article V of the Constitution of North Dakota is created and enacted as follows:

The executive power is vested in the governor, who shall reside in the state capital and shall hold the office for the term of four years beginning in the year 2000, and until a successor is elected and qualified.

SECTION 2. A new section to a new article V of the Constitution of North Dakota is created and enacted as follows:

The qualified electors of the state at the times and places of choosing members of the legislative assembly shall choose a governor, lieutenant governor, agriculture commissioner, attorney general, auditor, insurance commissioner, three

public service commissioners, secretary of state, superintendent of public instruction, tax commissioner, and treasurer. The legislative assembly may by law provide for a department of labor to be administered by a public official who may be either elected or appointed.

The powers and duties of the agriculture commissioner, attorney general, auditor, insurance commissioner, public service commissioners, secretary of state, superintendent of public instruction, tax commissioner, and treasurer must be prescribed by law. If the legislative assembly establishes a labor department, the powers and duties of the officer administering that department must be prescribed by law.

SECTION 3. A new section to a new article V of the Constitution of North Dakota is created and enacted as follows:

The governor and the lieutenant governor must be elected on a joint ballot. Each vote cast for a candidate for governor is deemed cast also for the candidate for lieutenant governor running jointly with the candidate for governor. The joint candidates having the highest number of votes must be declared elected. If two or more joint candidates have an equal and highest number of votes for governor and lieutenant governor, the legislative assembly in joint session at its next regular session shall choose one pair of joint candidates for the offices. The returns of the election for governor and lieutenant governor must be made in the manner prescribed by law.

SECTION 4. A new section to a new article V of the Constitution of North Dakota is created and enacted as follows:

To be eligible to hold an elective office established by this article, a person must be a qualified elector of this state, must be at least twenty-five years of age on the day of the election, and must have been a resident of this state for the five years preceding election to office. To be eligible to hold the office of governor or lieutenant governor, a person must be at least thirty years old on the day of the election. The attorney general must be licensed to practice law in this state.

SECTION 5. A new section to a new article V of the Constitution of North Dakota is created and enacted as follows:

The qualified electors shall choose the elected state officials at a time designated by the legislative assembly. The elected state officials shall serve until their successors are duly qualified. Terms of office are four years, except that terms of the public service commissioners are six years, so arranged that one of them is elected every two years. The terms of the governor and lieutenant governor begin on December fifteenth following their election.

If two or more candidates for any executive office other than for governor and lieutenant governor receive an equal and highest number of votes, the legislative assembly in joint session shall choose one of them for the office.

SECTION 6. A new section to a new article V of the Constitution of North Dakota is created and enacted as follows:

The elected state officials and the chief executive officers of the principal departments shall hold office in the state capital.

SECTION 7. A new section to a new article V of the Constitution of North Dakota is created and enacted as follows:

The governor is the chief executive of the state. The governor shall have the responsibility to see that the state's business is well administered and that its laws are faithfully executed.

The governor is commander-in-chief of the state's military forces, except when they are called into the service of the United States, and the governor may mobilize them to execute the laws and maintain order.

The governor shall prescribe the duties of the lieutenant governor in addition to those prescribed in this article.

The governor may call special sessions of the legislative assembly.

The governor shall present information on the condition of the state, together with any recommended legislation, to every regular and special session of the legislative assembly.

The governor shall transact and supervise all necessary business of the state with the United States, the other states, and the officers and officials of this state.

The governor may grant reprieves, commutations, and pardons. The governor may delegate this power in a manner provided by law.

SECTION 8. A new section to a new article V of the Constitution of North Dakota is created and enacted as follows:

The governor may fill a vacancy in any office by appointment if no other method is provided by this constitution or by law. If, while the senate is recessed or adjourned, a vacancy occurs in any office that is filled by appointment with senate confirmation, the governor shall make a temporary appointment to the office. When the senate reconvenes the governor shall make a nomination to fill the office. Except on request of the senate, no nominee rejected by the senate may again be nominated for that office at the same session, nor may the nominee be appointed to that office during a recess or adjournment of the senate.

SECTION 9. A new section to a new article V of the Constitution of North Dakota is created and enacted as follows:

Every bill passed by the legislative assembly must be presented to the governor for the governor's signature. If the governor signs the bill, it becomes law.

The governor may veto a bill passed by the legislative assembly. The governor may veto items in an appropriation bill. Portions of the bill not vetoed become law.

The governor shall return for reconsideration any vetoed item or bill, with a written statement of the governor's objections, to the house in which it originated. That house shall immediately enter the governor's objections upon its journal. If, by a recorded vote, two-thirds of the members elected to that house pass a vetoed item or bill, it, along with the statement of the governor's objections, must immediately be delivered to the other house. If, by a recorded vote, two-thirds of the members elected to the other house also pass it, the vetoed item or bill becomes law.

While the legislative assembly is in session, a bill becomes law if the governor neither signs nor vetoes it within three legislative days after its delivery to the governor. If the legislative assembly is not in session, a bill becomes law if the governor neither signs nor vetoes it within fifteen days, Saturdays and Sundays excepted, after its delivery to the governor.

SECTION 10. A new section to a new article V of the Constitution of North Dakota is created and enacted as follows:

SECTION 11. A new section to a new article V of the Constitution of North Dakota is created and enacted as follows:

The lieutenant governor shall succeed to the office of governor when a vacancy occurs in the office of governor. If, during a vacancy in the office of governor, the lieutenant governor is unable to serve because of death, impeachment, resignation, failure to qualify, removal from office, or disability, the secretary of state shall act as governor until the vacancy is filled or the disability removed.

SECTION 12. If Senate Concurrent Resolution No. 4013 is not approved by the fifty-fourth legislative assembly, or if Senate Concurrent Resolution No. 4013 is approved by the fifty-fourth legislative assembly but is not approved by the qualified electors at the primary election held in 1996, then the following new section to a new article V of the Constitution of North Dakota is created and enacted as follows:

The lieutenant governor shall serve as president of the senate. If the senate is equally divided on a question, the lieutenant governor may vote on procedural matters and on substantive matters if the lieutenant governor's vote would be decisive.

SECTION 13. REPEAL. The present article V of the Constitution of North Dakota is repealed.

WHEREAS, the task force recommends that existing institutional service capacity be tailored to meet the needs of the Alzheimer's and related dementia population; and

WHEREAS, the availability of qualified service providers in rural areas may be limited, potential providers may lack the skills necessary to meet required competency standards, and training opportunities are limited, which may require the rural elderly and disabled to choose between relocating to access services or going without necessary services; and

WHEREAS, coordination and application of various Native American long-term care programs and service components are directed by tribal policy and organizational structure; and

WHEREAS, some states, including the state of Washington, have specially targeted service programs for residents of reservations and case management has been employed to coordinate the care arrangement and delivery; and

WHEREAS, as a result of the Garrison Dam, Lake Sakakawea was created on the Missouri River which caused areas of North Dakota and the Fort Berthold Indian Reservation which were previously closely connected by land to be separated by long expanses of water; and

WHEREAS, a vital link in North Dakota's system of highways are bridges crossing the Missouri River, including the Four Bears Bridge constructed in 1952 by the United States Army Corps of Engineers, located near the city of New Town on State Highway 23 connecting United States Highways 83 and 85 and traveling through the Fort Berthold Indian Reservation; and

WHEREAS, the Four Bears Bridge is the only bridge across the Missouri River for 190 miles of the river with the next two closest crossings being a bridge 90 highway miles to the north and Garrison Dam 100 highway miles to the south; and

WHEREAS, the Four Bears Bridge provides a vital link for the entire state as well as many rural communities in northwest North Dakota, including access links to businesses, farms, schools, and other educational facilities, health facilities, government offices, and ambulance, police, and fire protection services which are integral to the health, safety, and well-being of the citizens living in this area; and

WHEREAS, at the time of the completion of the Four Bears Bridge by the Corps of Engineers, it was obsolete based on the bridge construction standards of that time, and presently is even more hazardous because of the narrow width of its driving surface; and

WHEREAS, the North Dakota Department of Transportation is required to maintain and repair the Four Bears Bridge and will be required to spend at least \$8,000,000 in major renovation and repairs to keep it in a safe and usable condition for the foreseeable future if the bridge is not replaced; and

WHEREAS, the North Dakota Department of Transportation has determined that instead of costly repair and maintenance of an already obsolete bridge, the bridge should be replaced at an estimated cost of \$42,000,000; and

WHEREAS, the State of North Dakota has examined the many funding options but simply does not have adequate funds to either provide major maintenance for the bridge or to construct a new bridge without jeopardizing the maintenance needs and safety of other bridges in North Dakota;

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

That the Fifty-fifth Legislative Assembly urges the Congress of the United States to take whatever actions and make available appropriate funds as are necessary to replace the Four Bears Bridge in recognition of the continued federal responsibility for the Garrison Dam project; and

BE IT FURTHER RESOLVED, that the Fifty-fifth Legislative Assembly also requests the assistance and advocacy of all federal agencies responsible for or having an interest in the construction, maintenance, and replacement of the Four Bears Bridge to take all action necessary to solve the urgent problem of the replacement of the Four Bears Bridge.

**UNEMPLOYMENT COMPENSATION DEVOLVEMENT
URGED**

A concurrent resolution urging Congress to take steps to devolve the unemployment compensation program back to the states.

WHEREAS, the unemployment compensation system was created with the dual goals of helping to reduce economic hardship for unemployed workers and stabilizing the economy during recessions; and

WHEREAS, to accomplish these goals, the unemployment compensation system consists of unemployment insurance and a system of Job Service offices; and

WHEREAS, the unemployment compensation system is funded by a two-tiered system of taxation with a state payroll tax averaging about .9 percent of total wages and a federal payroll tax known as the Federal Unemployment Tax Act tax that is .6 percent of the first \$7,000 of wages, with a surtax of .2 percent; and

WHEREAS, the surtax was first implemented in 1977 to restore solvency and integrity to the unemployment compensation system; and

WHEREAS, Congress has extended the surtax four times since 1987 despite the fact the unemployment compensation system has generated large surpluses each year; and

WHEREAS, the surtax alone generated approximately \$1,400,000,000 in 1995 and is due to expire in 1998; and

WHEREAS, Congress and the administration have shown signs of making the temporary surtax indefinite; and

WHEREAS, the administration has budgeted to extend the surtax at least through the year 2006; and

WHEREAS, the Congressional Budget Office has estimated if the .2 percent surtax is eliminated, the savings to business would stimulate added job growth, resulting in increased tax revenues of almost \$900,000,000 between 1996 and 2000; and

WHEREAS, of the payroll tax revenue collected through the unemployment compensation system and maintained by the federal government, the federal government maintains 53 separate accounts for state payroll taxes and three separate accounts for Federal Unemployment Tax Act taxes; and

WHEREAS, 80 percent of the tax is supposed to be returned to the states to administer the unemployment compensation program and 20 percent is dedicated to the extended benefits account designed to provide long-term benefits in case of

severe economic hardships, and once these accounts reach their statutory ceiling the money is placed into the loan account for loans to state unemployment compensation systems in financial trouble; and

WHEREAS, the accounts maintained by the federal government have accumulated large surpluses that are being used to offset the federal deficit rather than return unemployed workers to work; and

WHEREAS, at the end of fiscal year 1995, state accounts had balances totaling \$35,900,000,000 and the three federal accounts had balances totaling \$11,900,000,000; and

WHEREAS, states only receive an average of 60 percent of the money from the federal government that is supposed to be dedicated to funding the administration of the unemployment compensation system and the other 40 percent is consumed by federal activities including demonstration programs and federal bureaucracy; and

WHEREAS, filing reports complying with the unemployment compensation system's dual taxation system costs employers almost \$500,000,000 a year; and

WHEREAS, if states were allowed to fully administer their own unemployment compensation systems, duration of unemployment could be decreased, payroll taxes could be decreased, and employment could be significantly increased;

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

That the Fifty-fifth Legislative Assembly urges the Congress of the United States to take steps to devolve the unemployment compensation program back to the states in order to maintain integrity in the system and accomplish the goals the unemployment compensation system was designed to achieve; and

TRANSPORTATION FUNDING STUDY

A concurrent resolution directing the Legislative Council to study the adequacy of transportation funding in North Dakota.

WHEREAS, traffic has caused increased demands of the entire transportation system. Approximately eighteen million miles are traveled daily on North Dakota streets and highways. The North American Free Trade Agreement has increased truck volumes as much as fifty percent in one year on certain segments of North Dakota highways; and

WHEREAS, the Devils Lake flooding situation has depleted transportation funds for all government agencies in the basin; and

WHEREAS, the Four Bears Bridge is beyond the funding capacity of the North Dakota Department of Transportation; and

WHEREAS, the existing funding mechanisms were established in a different era and have not kept up with our changing economy or demographics; and

WHEREAS, there is increasing pressure for the federal government to fund only a small portion of the transportation program in each state; and

WHEREAS, existing funding sources have not kept pace with inflation, increases in usage or cost of providing transportation infrastructure;

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

That the Legislative Council is directed to study the adequacy of existing, and the potential for new, funding sources to meet system needs for North Dakota's entire transportation infrastructure; and

WHEREAS, cooperation is needed among fire arson investigators, sheriffs, police officers, the state highway patrol, state's attorneys, the bureau of criminal investigation, the state fire marshal, the department of corrections and rehabilitation, the state crime laboratory, the state forensic examiner, and the state toxicologist for adequate investigation of crimes, proper evidence handling, and efficient case tracking and management; and

WHEREAS, new technology provides more evidence, requires new equipment, and necessitates skilled personnel to operate the equipment; and

WHEREAS, the state forensic examiner needs to be supported by a coroner system that is effective, coordinated, and fiscally sound to adequately investigate deaths; and

WHEREAS, sheriffs and the department of corrections and rehabilitation need to develop a long-range plan for the management of inmates;

TFFR RESUMED TEACHING STUDY

A concurrent resolution directing the Legislative Council to study participation in the teachers' fund for retirement by retired persons who have resumed teaching.

WHEREAS, the 1995-96 interim Employee Benefits Programs Committee considered a proposal that would have allowed retired persons to return to teaching for up to one year without losing any benefits if at least 50 percent of the salary earned by that person was donated to in the school district's educational foundation; and

WHEREAS, the consulting actuary of the teachers' fund for retirement reported that the proposal would not have had a measurable actuarial impact on the teachers' fund for retirement but that the proposal could endanger the qualified status of the plan under federal law; and

WHEREAS, under qualified retirement plans, benefits are not taxable until they are received, but if a plan loses its qualified status, accrued vested benefits become immediately taxable; and

WHEREAS, because the consulting actuary reported that the proposal could endanger the qualified status of the plan, the committee gave the proposal an unfavorable recommendation; and

WHEREAS, school district educational foundations help support school districts in an era when school districts need all the financial help available; and

WHEREAS, retired teachers have a vast reservoir of experience and knowledge which would greatly benefit the students if school districts were able to tap this reservoir;

PRIVATIZATION STUDY

A concurrent resolution directing the Legislative Council to study the process of privatization and contracting for public sector services.

WHEREAS, although North Dakota Century Code Chapter 54-44.4 sets forth comprehensive laws regarding the purchase of personal property by the state, the state may need to further establish comprehensive laws regarding the privatizing and contracting for public services to protect its citizens and effectively manage the resources of the state; and

WHEREAS, the state needs to have a rigorous methodology and process for determining whether privatization and contracting for services are appropriate, efficient, and effective; and

WHEREAS, the state has a compelling need to establish a framework for privatizing and contracting for services which provides formal access to decisionmaking, ensures an open bidding process, monitors existing contracts for compliance, and allows for involvement by citizens, legislators, public employees, and private sector contractors; and

WHEREAS, questions surrounding privatization and contracting for public services necessitate a study that identifies immediate and long-term advantages and disadvantages of privatization and contracting for public sector services, identifies barriers to making public sector services more efficient, develops accurate methodologies of comparing costs of similar public and private sector services, reviews performance standards for both public and private sector providers of public services, identifies goals and measurable results of public services provided by the private sector, develops identifiable and measurable review processes of all privatized contracts for contract continuance, including providing sufficient resources to monitor privatization contracts on an ongoing basis, and promotes public education on privatization and contracting for public sector services;

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

That the Legislative Council study the process of privatization and contracting for public sector services; and

SEXUAL ABUSE VICTIM STUDY

A concurrent resolution directing the Legislative Council to study the effects of sexual abuse on child victims, strategies to assist child victims and the parents of child victims, the use and effectiveness of the mandatory reporting law, effective deterrents, and the need for training of professionals, public awareness initiatives, and training of school personnel in the recognition of victims and in prevention activities.

WHEREAS, based upon a survey of parents, a December 1995 Gallup poll estimated that 23 percent of those parents as children were sexually abused by an adult or older child and that 1,300,000 children in the United States have been forced to touch an adult or older child in a sexual manner, have been forcibly touched by an adult or older child in a sexual manner, or have been forced to have sex with an adult or older child; and

WHEREAS, in this state in fiscal year 1995, 380 reports of suspected child sexual abuse by a caretaker were reported to the Department of Human Services, and in 122 of those reports a determination was made that there was probable cause to believe child sexual abuse was indicated, and an additional 234 reports of suspected noncaretaker child sexual abuse were made to the department and were referred to law enforcement agencies; and

WHEREAS, the Department of Corrections and Rehabilitation manages over 300 adult sex offenders and research about adult sex offenders has revealed that more than one-half offended as children and that treatment can stop many of these offenders from reoffending; and

WHEREAS, North Dakota state law provides for mandatory reporting of suspected abuse; and

WHEREAS, parents of a sexually abused child may be emotionally traumatized by their child's victimization and may be in need of support including a parents' network; and

WHEREAS, sexually abused children may suffer from physical, mental, and emotional deterioration, low self-esteem, poor academic progress, inappropriate behaviors, and suicidal tendencies; and

WHEREAS, the child protection services program through the Alliance for Sexual Abuse Prevention and Treatment promotes public awareness of child abuse issues and the prevention of child sexual abuse, and also provides training for professionals; and

WHEREAS, the Child Fatality Review Panel monitors unexpected child deaths and recommends changes in policy, practices, and law to prevent child deaths; and

WHEREAS, evidence suggests that efforts to prevent abuse and to promptly and appropriately treat victims and offenders will save taxpayers millions of dollars over time and will save children from trauma and lifelong suffering;

WELFARE REFORM TRIBAL RELATIONS STUDY

A concurrent resolution directing the Legislative Council to study the issues of welfare reform as they relate to the relationship between the state and the federally recognized Indian tribes within the state.

WHEREAS, Congress has enacted Public Law 104-193, which substantially reforms the welfare system and which includes block grants to the states and to federally recognized Indian tribes, if the tribes so choose, along with strict work requirements for recipients of public assistance and time limits for recipients of public assistance; and

WHEREAS, members of federally recognized Indian tribes represent less than six percent of the population of the state; however, approximately 25 percent of the welfare caseload of the state is tribal members who live on reservations; and

WHEREAS, tribal economies have not been as strong as the economy of the remainder of the state which will make compliance with the work participation rate requirements of the welfare reform legislation more difficult to achieve on the reservations; and

WHEREAS, the federally recognized tribes in the state are undecided as to whether to apply for state and federal block grants that would allow the tribes to design and administer their own welfare system; and

WHEREAS, the federally recognized tribes in the state are unsure as to the role the state should play, if any, in the development, funding, and administration of a tribally administered welfare program; and

WHEREAS, the federally recognized tribes in the state desire to engage in constructive dialogue with the state regarding welfare reform issues of mutual concern;

PACKING INDUSTRY COMPETITION URGED

A concurrent resolution urging the United States Department of Agriculture to support efforts to restore competition in the livestock packing industry.

WHEREAS, the State of North Dakota has many agriculture livestock operations, which support the economy within the state; and

WHEREAS, market prices for cattle have recently fallen to levels that are below the production costs and that this situation is a result of a highly concentrated market; and

WHEREAS, this situation threatens the stability of the economy within the borders of the state; and

WHEREAS, the United States Secretary of Agriculture and the Grain Inspection and Packers and Stockyards Administration have recently published the Western Organization of Resource Councils' Livestock Concentration Rulemaking Petition on behalf of citizens and organizations within North Dakota, and five other states;

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

That the Fifty-fifth Legislative Assembly of the State of North Dakota supports actions taken by the United States Secretary of Agriculture to restore competitive practices to the livestock slaughter trade, including:

1. Prohibiting packers who process more than five percent of the national daily slaughter of a given species from procuring livestock for slaughter through the use of forward contracts, unless the contracts contain a firm base price that can be equated to a fixed dollar amount on the day the contract is signed and the forward contract is offered or bid in an open, public manner; and
2. Prohibiting packers, other than farmer-owned cooperatives, from owning and feeding livestock, unless the livestock are sold for slaughter in an open, public market; and

MISSOURI RIVER BANK PROTECTION URGED

A concurrent resolution urging the Congress of the United States and the United States Army Corps of Engineers to assume responsibility for Missouri River bank erosion downstream from all Pick-Sloan Project dams, including the Garrison Dam to Oahe Reservoir reach in North Dakota, and to continue a program of annually appropriating funds for the maintenance and construction of bank protection projects.

WHEREAS, the Flood Control Act of 1944, as amended, assured benefits to all 10 states within the Missouri River basin under a control and management program that came to be commonly known as the Pick-Sloan Project; and

WHEREAS, the Congress has directed the United States Army Corps of Engineers to build, operate, and maintain all the features of the Pick-Sloan Project; and

WHEREAS, the Pick-Sloan Project provides major flood control benefits, recreational benefits, water supply benefits, hydropower benefits, and navigational benefits for states lying below Sioux City, Iowa, through construction of large reservoirs in states lying above that point, and by channelizing the Missouri River from Sioux City, Iowa, to St. Louis, Missouri, at federal expense; and

WHEREAS, the Pick-Sloan Project reservoirs have been in place for many years, thus providing the downstream states in the Missouri River Basin all of the benefits promised in the Pick-Sloan Project; and

WHEREAS, construction of facilities under the Pick-Sloan Project has, to date, resulted in \$10.6 billion of flood protection to downstream interests and has allowed those downstream interests to develop the original floodplain of the Missouri River for industrial, municipal, and agricultural uses; and

WHEREAS, the United States Army Corps of Engineers has stabilized and continues to maintain the entire channel of the Missouri River from Sioux City, Iowa, to St. Louis, Missouri, all at federal expense; and

WHEREAS, under the Pick-Sloan Project, North Dakota has sacrificed over 550,000 acres of land, which has meant the permanent loss of 2,641 jobs, \$45 million of annual personal income, and \$131 million of annual gross business volume; and

WHEREAS, almost two-thirds of the inexpensive hydroelectric power generated by Garrison Dam in North Dakota, which was built pursuant to the Pick-Sloan Project, is used in states other than North Dakota; and

WHEREAS, the United States Army Corps of Engineers stated in its final report to Congress dated December 1981 concerning the Missouri River streambank

erosion that "bank erosion in this reach results in a permanent net loss of high value lands. This process, unless halted, would eventually transform the present river into a wide area of sandbars and channels, occupying an increasing proportion of the valley width between the bluffs"; and

WHEREAS, the lands adjacent to the Missouri River have been and will continue to be seriously eroded and permanently lost to the local landowners and the state of North Dakota because of reservoir management that releases highly fluctuating amounts of clear water capable of eroding and transporting large amounts of soil; and

WHEREAS, soil eroded from the banks of the Missouri River is being deposited as a delta in the headwaters of the Oahe Reservoir and Lake Sakakawea thereby causing the water table to rise under the adjacent land, and is increasing the frequency and severity of ice jam hazards and has, according to recent United States Army Corps of Engineers' pronouncements, endangered 6,000 acres of land containing 150 homes, industrial development, and valuable farmland around Lake Oahe; and in the headwaters area of Lake Sakakawea, the delta is endangering the Buford-Trenton irrigation district, the water intake for the city of Williston, and many acres of valuable farmland; and

WHEREAS, a similar bank erosion problem exists for a 58-mile reach on the South Dakota-Nebraska border downstream from the Gavins Point Dam and also between the Fort Peck Dam in Montana and Lake Sakakawea; and

WHEREAS, destructive bank erosion continues when high winter water releases for power generation occur; and

WHEREAS, Section 33 of the Water Resource Development Act of 1988 amended the Flood Control Act of 1944 and directed the Secretary of the Army to undertake measures that the Secretary of the Army determines are needed to alleviate bank erosion and related problems associated with reservoir releases along the Missouri River between the Fort Peck Dam in Montana and a point 58 miles downstream of the Gavins Point Dam on the South Dakota-Nebraska border; and

WHEREAS, at the request of Congress, a 1988 General Accounting Office study agreed that since the closure of the Garrison Dam accretion no longer occurs and a net loss of land results and the study also identified one option of funding bank stabilization projects as allocating these costs, whether economically justifiable or not, to Pick-Sloan Project purposes; and

WHEREAS, Congress appropriated \$1.5 million in fiscal year 1992 and \$1.5 million in fiscal year 1993 for the purpose of protecting the banks of the Missouri River; and

WHEREAS, the United States Army Corps of Engineers has used these funds for maintenance of existing bank protection projects, and the corps insists that new protection projects may not be constructed unless a site-specific benefit-cost ratio greater than one exists which is contrary to the language and intent of Section 33 of the Water Resource Development Act of 1988 and contrary to the funding criteria of many other projects the United States Army Corps of Engineers has found necessary to complete the Pick-Sloan Project;

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

That the Fifty-fifth Legislative Assembly urges the Congress of the United States to continue the responsibility for the protection of lands endangered below all Pick-Sloan Project dams by the operation of the Pick-Sloan Project; and

BE IT FURTHER RESOLVED, that the Congress of the United States is urged to continue a program of annually appropriating funds to repair existing bank protection projects now in danger of failure and to begin to construct bank protection projects in the most critical locations; and

BE IT FURTHER RESOLVED, that the United States Army Corps of Engineers, in evaluating each erosion site, disregard site-specific benefit-cost studies as stated in the Government Accounting Office study as was the intent of Section 33 of the Water Resource Development Act of 1988 and that if benefit-cost studies are made, that the benefits are project-wide and include the delta problems and the enhancement of hydropower and water release capabilities; and

BE IT FURTHER RESOLVED, that the members of the North Dakota Congressional Delegation are urged to work diligently with the senators and congressmen of the states of Montana, South Dakota, and Nebraska to secure appropriations of these necessary funds; and

BE IT FURTHER RESOLVED, that funding for this project not be a normal federal water project appropriation, but rather be charged to the construction and maintenance of the Pick-Sloan Project; and

BE IT FURTHER RESOLVED, that the United States Army Corps of Engineers be urged to initiate a program to construct bank protection structures along the Missouri River between Fort Peck and a point 58 miles downstream of Gavins Point Dam, as directed by Section 33 of the Water Resource Development Act of 1988; and

BE IT FURTHER RESOLVED, that the Secretary of State forward copies of this resolution to the Secretary of the Army; Secretary of the Interior; District Engineer, Omaha District, United States Army Corps of Engineers; the Governor; each member of the North Dakota State Water Commission; and each member of the North Dakota, South Dakota, Nebraska, and Montana Congressional Delegations.

PICK-SLOAN MASTER MANUAL REVISIONS URGED

A concurrent resolution urging the United States Army Corps of Engineers to include provisions for the protection of recreation, municipal, industrial, irrigation, and other interests on the Missouri River in North Dakota in developing a revised master manual for the future operation of the Pick-Sloan Project.

WHEREAS, the Flood Control Act of 1944, as amended, assured benefits to all 10 states within the Missouri River Basin under a control and management program that came to be commonly known as the Pick-Sloan Project; and

WHEREAS, the Congress of the United States has directed the United States Army Corps of Engineers to build, operate, and maintain all the features of the Pick-Sloan Project; and

WHEREAS, the Pick-Sloan Project provides major flood control benefits, recreational benefits, water supply benefits, hydropower benefits, and navigational benefits for the downstream states of Iowa, Nebraska, Missouri, and Kansas through construction of large reservoirs in states lying upstream from these states, and by channelizing the Missouri River from Sioux City, Iowa, to St. Louis, Missouri, at federal expense; and

WHEREAS, the Pick-Sloan Project reservoirs have been in place for many years, thus providing the downstream states in the Missouri River Basin all of the benefits promised in the Pick-Sloan Project; and

WHEREAS, construction of facilities under the Pick-Sloan Project has, to date, resulted in \$10.6 billion of flood protection to downstream interests and has allowed these downstream interests to develop the original floodplain of the Missouri River for industrial, municipal, and agricultural uses; and

WHEREAS, under the Pick-Sloan Project, North Dakota has sacrificed over 550,000 acres of land, which has meant the permanent loss of 2,641 jobs, \$45 million of annual personal income, and \$131 million of annual gross business volume; and

WHEREAS, the United States Army Corps of Engineers is now in the process of revising its master manual for the operation of the entire Pick-Sloan Project in future years; and

WHEREAS, the construction of the Pick-Sloan Project has divided the Missouri River in North Dakota into four distinct regions, namely, the Missouri River reach above Williston, Lake Sakakawea, the Missouri River reach from Garrison Dam to the headwaters of Lake Oahe, and Lake Oahe; and

WHEREAS, as the recreation industry on the Missouri River mainstem in North Dakota, which has developed into a \$67 million per year industry, suffered severely when the United States Army Corps of Engineers allowed lake levels to drop drastically during the drought of the late 1980s and the early 1990s; and

WHEREAS, the United States Army Corp of Engineers, in its new proposed operation plan called the Missouri River Master Manual Preferred Alternative, is planning to allow Lake Sakakawea to drop to 1,775 feet mean sea level and Lake Oahe to 1,540 feet mean sea level in future drought years, thereby again severely damaging North Dakota's recreation industry; and

WHEREAS, the riverbanks in the Garrison Dam to Oahe Reservoir reach consist of ancient floodplain deposits that have been and will be severely eroded with great loss of valuable land whenever high water flows are released from Garrison Dam; and

WHEREAS, the irrigators, fishermen, boaters, industrial, and municipal water intakes, dredged channels, and marinas have all utilized the moderate summer river levels of the Garrison to Oahe reach both before and after the construction of the Garrison Dam; and

WHEREAS, the United States Army Corps of Engineers, in its proposed master manual, is proposing high spring releases every third year and these releases will cause severe bank erosion and loss of much valuable land; and

WHEREAS, the United States Army Corps of Engineers is also proposing very low water releases during the summer to allow endangered shore birds to nest, which will seriously affect many irrigators, recreation users, water intakes, dredged channels, and marinas;

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

That the Fifty-fifth Legislative Assembly requests the United States Army Corps of Engineers to respect the large sacrifice North Dakota has made in order that the Pick-Sloan Project could be built; and

BE IT FURTHER RESOLVED, that the United States Army Corps of Engineers, in its new master manual, provide for Lake Sakakawea minimum levels of at least 1,802 feet mean sea level and Lake Oahe levels of at least 1,569 feet mean sea level, so that North Dakota's flourishing recreation industry may continue to operate; and

BE IT FURTHER RESOLVED, that the United States Army Corps of Engineers, in its master manual, delay any unnecessary high and very high water releases on the free flowing reaches of the Missouri River, which cause the unnecessary loss of valuable land and an increase in flood damage until such time when the riverbanks are protected; and

BE IT FURTHER RESOLVED, that the United States Army Corps of Engineers more evenly balance the needs of endangered species in the Upper Missouri River Basin with the requirements for water supply, the reduction of bank erosion, recreation, and flood control in the free flowing stretches of the Missouri River; and

BE IT FURTHER RESOLVED, that the Governor, members of the North Dakota Congressional Delegation, the State Engineer and staff, director of the Game and Fish Department and staff, and many others be commended for their efforts to date and be urged to continue to work diligently at the local and national levels to influence the United States Army Corps of Engineers to adopt a master manual for the future operation of the Missouri River that is acceptable to all areas and interests on the Missouri River in North Dakota; and

BE IT FURTHER RESOLVED, that the Secretary of State forward copies of this resolution to the Division Commander of the Missouri River Division of the United States Army Corps of Engineers in order to be part of the public record for the Missouri River Master Manual Draft Environmental Impact Statement; the Secretary of the Army; the Secretary of the Interior; the District Engineer, Omaha District, United States Army Corps of Engineers; the Governor; each member of the State Water Commission; and each member of the North Dakota, South Dakota, Wyoming, and Montana Congressional Delegations.

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

That construction and completion of a federally funded Garrison Diversion is a critical priority for water supply, management, and development in the State of North Dakota; and

BE IT FURTHER RESOLVED, that the State of North Dakota is prepared to assume responsibility for planning, constructing, operating, and maintaining the Garrison principal water supply facilities; and

BE IT FURTHER RESOLVED, that establishment of an economic recovery water fund would advance municipal, rural, agriculture, industry, tourism, recreation, wildlife, aesthetics, and other water-related economic development projects; and

BE IT FURTHER RESOLVED, that the Legislative Assembly urges the Governor, the members of the Congressional delegation, and legislative leaders to work together in ongoing negotiations with other interested parties to reach consensus on legislation to complete the Garrison Diversion project and thereby achieve the goal of long-term future water supply for the Red River Basin; the James River; Devils Lake; Northwest Area Water Supply; the Southwest Pipeline; community water supply systems; rural water systems; Indian municipal, rural, and industrial water supply systems, and other areas, and to establish or enhance resources, wildlife, and water funds to assist in the development and completion of the Garrison Diversion Unit; and

BE IT FURTHER RESOLVED, that copies of this resolution be forwarded by the Secretary of State to the Governor, each member of the North Dakota Congressional Delegation, and the United States Secretary of the Interior.
