In order to receive payment from the department, a treatment or care center shall file with the department a claim for service rendered to an individual with a developmental disability. The fee-for-service system implemented by the department must require that a treatment or care center be responsible for its own operating costs and that the fee paid for service represents payment in full to the treatment or care center for services rendered.

Limitation on owner compensation for services provided. In establishing the fee to be paid for a service, the amount of total annual compensation allowed for an owner acting in an executive or administrative capacity must be limited as follows:

Number of clients served:	Compensation limit:
1 - 15	\$25,000
16 - 30	\$35,000
31 - 45	\$45,000
46+	\$50,000

The limits in this section are intended to be the total compensation allowed by this state in any one year regardless of the number of owners performing work for the treatment or care center. A proration of the total compensation for owners who perform services in this state and who perform services in other states must be made on the basis of individual time distribution records. For family members working in direct care, housekeeping, maintenance, dietary, or clerical positions, wages are limited to the wage paid to any nonrelated employee, with the same qualifications and experience, working in a similar job function for that organization. The allowable compensation limit is inclusive of all salaries and related fringe benefits and may not be construed to be an addition or enhancement to the fee payable to a treatment or care center.

Extraordinary client needs - Effect on fee. The workgroup shall develop criteria identifying extraordinary needs of individuals with developmental disabilities so severe as to make it difficult for the affected individuals to secure necessary services from a treatment or care center at the ordinary fee. Notwithstanding any other provision of this chapter, the department may determine specific fees for services provided by a treatment or care center to an individual with extraordinary needs.

Trust fund. Effective July 1, 2005, there is in the state treasury a special fund known as the developmental disabilities fee enhancement fund. The fund shall be established with not more than two-tenths of one percent of the total general fund moneys appropriated to the department for the biennium beginning July 1, 2005, for payment of the fees established under this chapter. Trust funds may be expended for reasonably unforeseeable costs experienced by treatment or care centers, one-time improvements made by a treatment or care center in order to comply with

life safety code requirements, or the additional costs associated with providing services to individuals with extraordinary needs.

Transition to establishment of fees. For payment of services furnished by treatment or care centers prior to July 1, 2005, the department shall operate the ratesetting process as it presently exists. The workgroup shall establish new protocols and methodologies for transitioning to a new payment system to permit an orderly transition to the establishment of fees under this chapter.

Federal requirements - Supremacy. If any provision of this chapter is determined by the United States government to be in conflict with existing or future requirements of the United States government so as to limit or preclude federal financial participation in medical assistance, the department shall comply with the federal requirements to the extent necessary to obtain federal financial participation and shall not comply with the provisions of this chapter if necessary to avoid a loss of federal financial participation.

Exclusion of state-owned or state-operated treatment or care centers. This chapter does not apply to state-owned or state-operated treatment or care centers.

Rulemaking authority of the department. The department shall establish, by rule, the procedures, as determined by the workgroup, for determining the fees to be paid for services provided by a treatment or care center and for implementing the other provisions of this chapter. Rules adopted under this chapter may be adopted through the emergency rulemaking process, if necessary.

Reporting to legislative council. During the 2003-04 interim, the department shall report to the legislative council regarding its progress in developing a fee-for-service payment system for treatment or care centers.

SECTION 2. REPEAL. Sections 25-16-10 and 25-16-15 of the North Dakota Century Code are repealed.

SECTION 3. REPEAL. Sections 25-16-10.1, 25-16-16, and 50-06-18 of the North Dakota Century Code are repealed.

SECTION 4. EFFECTIVE DATE. Section 3 of this Act becomes effective on July 1, 2005.

SECTION 5. EFFECTIVE DATE. By October 1, 2004, the department shall certify to the legislative council whether the department and the service providers reached an agreement on a new fee-for-service system.

CREDIT INFORMATION USE BY INSURERS

AN ACT to create and enact chapter 26.1-25.1 of the North Dakota Century Code, relating to use of credit information in personal insurance.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. Chapter 26.1-25.1 of the North Dakota Century Code is created and enacted as follows:

26.1-25.1-01. Scope. This chapter applies to personal insurance and does not apply to commercial insurance.

26.1-25.1-02. Definitions. As used in this chapter, unless the context otherwise requires:

1. "Adverse action" means a denial or cancellation of, an increase in any charge for, or a reduction or other adverse or unfavorable change in the terms of coverage or amount of, any insurance, existing or applied for, in connection with the underwriting of personal insurance.
2. "Affiliate" means any company that controls, is controlled by, or is under common control with another company.
3. "Applicant" means an individual who has applied to be covered by a personal insurance policy with an insurer.
4. "Consumer" means an insured whose credit information is used or whose insurance score is calculated in the underwriting or rating of a personal insurance policy or an applicant for such a policy.
5. "Consumer reporting agency" means any person that for monetary fees, dues, or on a cooperative nonprofit basis, regularly engages in whole or in part in the practice of assembling or evaluating consumer credit information or other information on consumers for the purpose of furnishing consumer reports to third parties.
6. "Credit information" means any credit-related information derived from a credit report, found on a credit report itself, or provided on an application for personal insurance. The term does not include information that is not credit related, regardless of whether the information is contained in a credit report or in an application or is used to calculate an insurance score.
7. "Credit report" means any written, oral, or other communication of information by a consumer reporting agency bearing on a consumer's creditworthiness, credit standing, or credit capacity which is used or expected to be used or collected in whole or in part for the purpose of

serving as a factor to determine personal insurance premiums, eligibility for coverage, or tier placement.

8. "Insurance score" means a number or rating that is derived from an algorithm, a computer application, a model, or other process that is based in whole or in part on credit information for the purposes of predicting the future insurance loss exposure of an individual applicant or insured.
9. "Personal insurance" means private passenger automobile, homeowners, motorcycle, mobile homeowners, and noncommercial dwelling fire insurance policies. Such policies must be individually underwritten for personal, family, or household use. No other type of insurance is included as personal insurance for the purpose of this chapter.

26.1-25.1-03. Use of credit information. An insurer authorized to do business in this state which uses credit information to underwrite or rate risks may not:

1. Use an insurance score that is calculated using income, gender, address, zip code, ethnic group, religion, marital status, or nationality of the consumer as a factor.
2. Deny, cancel, or nonrenew a policy of personal insurance solely on the basis of credit information, without consideration of any other applicable underwriting factor independent of credit information and not expressly prohibited by this section.
3. Take an adverse action against a consumer solely because the consumer does not have a credit card account without consideration of any other applicable factor independent of credit information.
4. Consider an absence of credit information or an inability to calculate an insurance score in underwriting or rating personal insurance unless the insurer does one of the following:
 - a. Treats the consumer as otherwise approved by the insurance commissioner if the insurer presents information that such an absence or inability relates to the risk for the insurer.
 - b. Treats the consumer as if the applicant or insured had neutral credit information, as defined by the insurer.
 - c. Excludes the use of credit information as a factor and use only other underwriting criteria.
5. Take an adverse action against a consumer based on credit information, unless an insurer obtains and uses a credit report issued or an insurance score calculated within one hundred twenty days from the date the policy is first written or renewal is issued.
6. Use credit information unless not later than every thirty-six months following the last time that the insurer obtained current credit information for the insured, the insurer recalculates the insurance score, or obtains an updated credit report. Notwithstanding this section:

- a. At annual renewal, upon the request of a consumer or the consumer's agent, the insurer shall reunderwrite and rerate the policy based upon a current credit report or insurance score. An insurer need not recalculate the insurance score or obtain the updated credit report of a consumer more frequently than once in a twelve-month period.
 - b. The insurer may obtain current credit information upon any renewal before the thirty-six months if consistent with the insurer's underwriting guidelines.
 - c. An insurer need not obtain current credit information for an insured, despite the requirements of subdivision a, if one of the following applies:
 - (1) The insurer is treating the consumer as otherwise approved by the commissioner.
 - (2) The insured is in the most favorably priced tier of the insurer, within a group of affiliated insurers. However, the insurer may order such report if consistent with the insurer's underwriting guidelines.
 - (3) Credit was not used for underwriting or rating such insured when the policy was initially written. However, the insurer may use credit for underwriting or rating such insured upon renewal if consistent with the insurer's underwriting guidelines.
 - (4) The insurer reevaluates the insured beginning no later than thirty-six months after inception and thereafter based upon other underwriting or rating factors, excluding credit information.
7. Use the following as a negative factor in any insurance scoring methodology or in reviewing credit information for the purpose of underwriting or rating a policy of personal insurance:
- a. Credit inquiries not initiated by the consumer or inquiries requested by the consumer for the consumer's own credit information.
 - b. Inquiries relating to insurance coverage if so identified on a consumer's credit report.
 - c. Collection accounts with a medical industry code if so identified on the consumer's credit report.
 - d. Multiple lender inquiries, if coded by the consumer reporting agency on the consumer's credit report as being from the home mortgage industry and made within thirty days of one another, unless only one inquiry is considered.
 - e. Multiple lender inquiries, if coded by the consumer reporting agency on the consumer's credit report as being from the automobile lending industry and made within thirty days of one another, unless only one inquiry is considered.

26.1-25.1-04. Dispute resolution and error correction. If it is determined through the dispute resolution process set forth in the federal Fair Credit Reporting Act [Pub. L. 90-321; 15 U.S.C. 1681i(a)(5)] that the credit information of a current insured was incorrect or incomplete and if the insurer receives notice of such determination from either the consumer reporting agency or from the insured, the insurer shall reunderwrite and rerate the consumer within thirty days of receiving the notice. After reunderwriting or rerating the insured, the insurer shall make any adjustments necessary, consistent with the insurer's underwriting and rating guidelines. If an insurer determines that the insured has overpaid premium, the insurer shall refund to the insured the amount of overpayment calculated back to the shorter of either the last twelve months of coverage or the actual policy period.

26.1-25.1-05. Initial notification.

1. If an insurer writing personal insurance uses credit information in underwriting or rating a consumer, the insurer or the insurer's agent shall disclose, either on the insurance application or at the time the insurance application is taken, that the insurer or the insurer's agent may obtain credit information in connection with such application. Such disclosure must be either written or provided to an applicant in the same medium as the application for insurance. The insurer or the insurer's agent need not provide the disclosure statement required under this section to any insured on a renewal policy if such consumer has previously been provided a disclosure statement.
2. Use of the following example disclosure statement constitutes compliance with this section: "In connection with this application for insurance, we may review your credit report or obtain or use a credit-based insurance score based on the information contained in that credit report. We may use a third party in connection with the development of your insurance score."

26.1-25.1-06. Adverse action notification. If an insurer takes an adverse action based upon credit information, the insurer must meet the notice requirements of this section. The insurer shall:

1. Provide notification to the consumer that an adverse action has been taken, in accordance with the requirements of the federal Fair Credit Reporting Act [Pub. L. 90-321; 15 U.S.C. 1681m(a)]; and
2. Provide notification to the consumer explaining the reason for the adverse action. The reasons must be provided in sufficiently clear and specific language so that a person can identify the basis for the insurer's decision to take an adverse action. The notification must include a description of up to four factors that were the primary influences of the adverse action. The use of generalized terms such as "poor credit history", "poor credit rating", or "poor insurance score" does not meet the explanation requirements of this subsection. Standardized credit explanations provided by consumer reporting agencies or other third-party vendors are deemed to comply with this section.

26.1-25.1-07. Filing.

1. An insurer that uses insurance scores to underwrite or rate risks shall file the insurer's scoring models or other scoring processes with the insurance department. A third party may file scoring models on behalf

of an insurer. A filing that includes insurance scoring must include loss experience justifying the use of credit information.

2. Any filing relating to credit information is considered a trade secret under chapter 47-25.1.

26.1-25.1-08. Indemnification. An insurer shall indemnify, defend, and hold agents harmless from and against all liability, fees, and costs arising out of or relating to the actions, errors, or omissions of a producer who obtains or uses credit information or insurance scores for an insurer, provided the producer follows the instructions of or procedures established by the insurer and complies with any applicable law or rule. This section does not provide a consumer or other insured with a cause of action that does not exist in the absence of this section.

26.1-25.1-09. Sale of policy term information by consumer reporting agency.

1. A consumer reporting agency may not provide or sell data or lists that include any information that in whole or in part was submitted in conjunction with an insurance inquiry about a consumer's credit information or a request for a credit report or insurance score. Such information includes the expiration dates of an insurance policy or any other information that may identify time periods during which a consumer's insurance may expire and the terms and conditions of the consumer's insurance coverage.
2. Subsection 1 does not apply to data or lists the consumer reporting agency supplies to the insurance producer from whom information was received, the insurer on whose behalf such producer acted, or such insurer's affiliates or holding companies.
3. This section does not restrict any insurer from being able to obtain a claims history report or a motor vehicle report.

26.1-25.1-10. Severability. If any provision of this chapter is declared invalid due to an interpretation of or a future change in the federal Fair Credit Reporting Act [Pub. L. 90-321; 15 U.S.C. 1681 et seq.], the remaining provisions of this chapter are not affected and remain in effect.

26.1-25.1-11. Application. This chapter applies to personal insurance policies either written to be effective or renewed after April 30, 2004.

SENATE BILL NO. 2235 (Senators Every, Klein)

ANNUITY CONTRACT NONFORFEITURE AMOUNTS

AN ACT to amend and reenact section 26.1-34-02 of the North Dakota Century Code, relating to minimum nonforfeiture amounts of annuity contracts.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 26.1-34-02 of the North Dakota Century Code is amended and reenacted as follows:

26.1-34-02. Minimum nonforfeiture amount defined. The minimum values as specified in sections 26.1-34-03 through 26.1-34-06 and section 26.1-34-08 of any paid-up annuity, cash surrender, or death benefits available under an annuity contract must be based upon minimum nonforfeiture amounts as defined in this section:

1. For an annuity contract issued before August 1, 2003:

a. With respect to annuity contracts providing for flexible considerations, the minimum nonforfeiture amount at any time at or prior to the commencement of any annuity payments must be equal to an accumulation up to such time at a rate of interest of three percent per year of percentages of the net considerations, as hereinafter defined, paid prior to such time, decreased by the sum of any prior withdrawals from or partial surrenders of the contract accumulated at a rate of interest of three percent per year and the amount of any indebtedness to the company on the contract, including interest due and accrued; and increased by any existing additional amounts credited by the company to the contract. The net considerations for a given contract year used to define the minimum nonforfeiture amount must be an amount not less than zero and must equal the corresponding gross considerations credited to the contract during that contract year less an annual contract charge of thirty dollars and less a collection charge of one dollar and twenty-five cents for each consideration credited to the contract during that contract year. The percentages of net considerations must be sixty-five percent of the net consideration for the first contract year and eighty-seven and one-half percent of the net considerations for the second and later contract years. Notwithstanding the preceding sentence, the percentage must be sixty-five percent of the portion of the total net consideration for any renewal contract year which exceeds by not more than two times the sum of those portions of the net considerations in all prior contract years for which the percentage was sixty-five percent.

~~2.~~ b. With respect to contracts providing for fixed scheduled considerations, minimum nonforfeiture amounts must be calculated on the assumption that considerations are paid annually in

advance and must be defined as for contracts with flexible considerations which are paid annually, with two exceptions:

- a. (1) The portion of the net consideration for the first contract year to be accumulated is the sum of sixty-five percent of the net consideration for the first contract year plus twenty-two and one-half percent of the excess of the net consideration for the first contract year over the lesser of the net considerations for the second and third contract years.
- b. (2) The annual contract charge is the lesser of thirty dollars or ten percent of the gross annual considerations.
- ~~3.~~ c. With respect to contracts providing for a single consideration, minimum nonforfeiture amounts must be defined as for contracts with flexible considerations except that the percentage of net consideration used to determine the minimum nonforfeiture amount must equal ninety percent and the net consideration must be the gross consideration less a contract charge of seventy-five dollars.

2. For an annuity contract issued after July 31, 2005:

- a. The minimum nonforfeiture amount at any time at or before the commencement of any annuity payments must be equal to an accumulation up to such time at rates of interest, as provided under subdivision c, of the net considerations, as defined under subdivision b, paid before such time, decreased by the sum of:
 - (1) Any prior withdrawals from or partial surrenders of the contract accumulated at rates of interest as provided under subdivision c;
 - (2) An annual contract charge of fifty dollars, accumulated at rates of interest as provided under subdivision c;
 - (3) Any premium tax paid by the company for the contract, accumulated at rates of interest as provided under subdivision c; and
 - (4) The amount of any indebtedness to the company on the contract, including interest due and accrued.
- b. The net considerations for a given contract year used to define the minimum nonforfeiture amount under subdivision a must be an amount equal to eighty-seven and one-half percent of the gross considerations credited to the contract during that contract year.
- c. The interest rate used in determining minimum nonforfeiture amounts must be determined as the lesser of:
 - (1) Three percent per annum; or
 - (2) The five-year constant maturity rate reported by the federal reserve as of a date or average over a period, reduced by one hundred twenty-five basis points. The rate calculated under this paragraph may not be less than one percent,

must be specified in the contract, and must be determined no more than fifteen months before the contract issue date or redemption date.

- d. The interest rate used in determining minimum nonforfeiture amounts applies for an initial period and may be redetermined for additional periods. The redetermination date basis and period, if any, must be stated in the contract. The basis is the date or average over a specified period that produces the value of the five-year constant maturity treasury rate to be used at each redetermination date.
 - e. Notwithstanding subdivisions a, b, c, and d, during the period or term that a contract provides substantive participation in an equity indexed benefit, the contract may increase the reduction of one hundred twenty-five basis points under paragraph 2 of subdivision c by an amount not to exceed one hundred basis points, in order to reflect the value of the equity index benefit. The present value at the contract issue date, the present value at each redetermination date, or the additional reduction may not exceed the market value of the benefit. The commissioner may require a demonstration that the present value of the reduction does not exceed the market value of the benefit. Lacking such a demonstration acceptable to the commissioner, the commissioner may disallow or limit the additional reduction.
 - f. The commissioner may adopt rules to implement the provisions of subdivision e and to provide further adjustments to the calculation of minimum nonforfeiture amounts for contracts that provide substantive participation in an equity index benefit and for other contracts if the commissioner determines that adjustments are justified.
3. For an annuity contract issued after July 31, 2003, and before August 1, 2005, on a contract form by contract form basis, a company may elect to apply the provisions of subsection 1 or subsection 2.

 - c. The percentage increase in the premium rate charged to a small employer for a new rating period may not exceed the sum of:
 - (1) The percentage change in the new business premium rate measured from the first day of the prior rating period to the first day of the new rating period. In the case of a health benefit plan into which the small employer carrier is no longer enrolling new small employers, the small employer carrier shall use the percentage change in the base premium rate, provided that the change does not exceed, on a percentage basis, the change in the new business premium rate for the most similar health benefit plan into which the small employer carrier is actively enrolling new small employers;

- ~~g.~~ f. In the case of health benefit plans delivered or issued for delivery before August 1, 1993, a premium rate for a rating period may exceed the ranges set forth in subdivisions a and b for a period of three years following August 1, 1993. Under this subdivision, the percentage increase in the premium rate charged to a small employer for a new rating period may not exceed the sum of:
 - (1) The percentage change in the new business premium rate measured from the first day of the prior rating period to the first day of the new rating period. In the case of a health benefit plan into which the small employer carrier is no longer enrolling new small employers, the small employer carrier shall use the percentage change in the base premium rate, provided that the change does not exceed, on a percentage basis, the change in the new business premium rate for the most similar health benefit plan into which the small employer carrier is actively enrolling new small employers.
 - (2) Any adjustment due to change in coverage or change in the case characteristics of the small employer, as determined from the carrier's rate manual for the class of business.
- ~~h.~~ g. (1) Small employer carriers shall apply rating factors, including case characteristics, consistently with respect to all small employers in a class of business. Rating factors must produce premiums for identical groups which differ only by amounts attributable to plan design and do not reflect differences due to the nature of the groups assumed to select particular health benefit plans.
- (2) A small employer carrier shall treat all health benefit plans issued or renewed in the same calendar month as having the same rating period.
- ~~i.~~ h. For the purposes of this subsection, a health benefit plan that uses a restricted provider network may not be considered similar coverage to a health benefit plan that does not use a restricted

provider network, if the use of the restricted provider network results in substantial differences in claims costs.

~~j.~~ i. A small employer carrier may not use case characteristics, other than age, gender, industry, geographic area, family composition, and group size, without prior approval of the commissioner. Gender may not be used as a case characteristic after January 1, 1996.

~~k.~~ j. The commissioner shall adopt rules to:

- (1) Assure that differences in rates charged for health benefit plans by small employer carriers are reasonable and reflect objective differences in plan design, not including differences due to the nature of the groups assumed to select particular health benefit plans;
- (2) Prescribe the manner in which case characteristics may be used by small employer carriers; and
- (3) Otherwise implement this section.

- 1. "Basic property insurance" means insurance against direct loss to property as defined and limited in standard fire policies and extended coverage endorsements thereon.

- 3. "Insurer" means an insurance company authorized to write and that is engaged in writing in North Dakota, on a direct basis, basic property and homeowners insurance or components thereof.
- 4. "North Dakota property insurance placement facility" or "facility" means the organization formed by insurers to assist applicants in securing basic property or homeowners insurance.

Board.

- 1. A board of directors consisting of seven members shall direct the operations of the property insurance placement facility. The seven members are comprised of five directors from the insurance industry and two public directors as follows:
 - a. Two of the five industry representatives must come from domestic insurance companies, one must come from county mutual insurance companies, one from foreign stock companies, and one from foreign mutual companies. The commissioner shall appoint

the first board on a staggered basis. Subsequent board members are to be elected by facility members.

- b. The public directors must be appointed by the commissioner. Public directors may include licensed insurance agents.
 - c. The term of each director is three years beginning on January first of the year the director is elected or appointed, except as staggered in the initial appointment process. A vacancy must be filled by election by the other directors for the remainder of the term. A vacancy to a public directorship must be filled by appointment by the commissioner for the remainder of the term. If the board fails to elect a replacement for an industry vacancy within thirty days, the commissioner shall appoint a replacement for the remainder of the term.
2. The board shall prepare and maintain a plan of operation which provides for the management of the facility, including the hiring of employees or contracting services to carry out the plan of operation, establishment of necessary facilities within the state, assessment of members to defray losses and expenses, negotiating commission agreements, establishing reasonable underwriting standards, developing reasonable cancellation and nonrenewal standards, acceptance and cession of reinsurance, adopting procedures for determining amounts of insurance to be provided, procedures for payment of claims, procedures for appealing adverse actions, procedures for reporting the plan experience to a statistical agent, and procedures for contracting facility functions to the private sector. The board has ninety days to submit the initial plan of operation to the commissioner for approval. All subsequent amendments to the plan of operation must be submitted to the commissioner for approval. The commissioner may require the board to waive the assessment requirement for an insurer if the assessment would cause a significant financial impairment to the insurer or would jeopardize the solvency of the insurer.

Facility membership. Each insurer authorized to write and who is engaged in writing within this state, on a direct basis, basic property insurance or any component thereof in multi-peril policies or homeowners insurance shall participate in the facility as a condition of its authority to do the business of insurance in this state. Members of the facility are responsible for the cost of funding the operations, expenses, and losses of the facility. Each year the board shall assess the members based upon each member's pro rata share of the aggregate property insurance premium written in the second preceding calendar year as disclosed in the annual statement and other reports filed by members with the commissioner. The assessment must be based on the premiums reported from income from this state in the following lines of the annual statement: fire, allied lines, and homeowners multiple peril.

Coverage and forms. The plan must use standard policy forms to provide coverage for basic property and homeowners insurance. The plan may not provide coverage for automobile or commercial risks.

Rates. The facility shall establish rates and may include data from an advisory or statistical organization in the development of its rates. Rates must be submitted to the commissioner for approval prior to use. Rates must be actuarially

sound under chapter 26.1-25 and may not actively compete with rates in the voluntary market.

Underwriting. A person who has been refused coverage, in writing, by at least five standard carriers based on an underwriting, claims, or credit history is eligible to apply to the facility for coverage.

Examinations and audits. The commissioner shall examine the facility every three years. The facility shall submit a financial report and an annual report to the commissioner by April first of each year. The report must include premiums written, losses incurred, loss adjusting expenses incurred, underwriting expenses, claims losses, and assessments.

2. An arbitrator may decide a request for summary disposition of a claim or particular issue:
 - a. If all interested parties agree; or
 - b. Upon request of one party to the arbitration proceeding if that party gives notice to all other parties to the proceeding, and the other parties have a reasonable opportunity to respond.
3. If an arbitrator orders a hearing, the arbitrator shall set a time and place and give notice of the hearing not less than five days before the hearing begins. Unless a party to the arbitration proceeding makes an objection to lack or insufficiency of notice not later than the beginning of the hearing, the party's appearance at the hearing waives the objection. Upon request of a party to the arbitration proceeding and for good cause shown, or upon the arbitrator's own initiative, the arbitrator may adjourn the hearing from time to time as necessary but may not postpone the hearing to a time later than that fixed by the agreement to arbitrate for making the award unless the parties to the arbitration proceeding consent to a later date. The arbitrator may hear and decide the controversy upon the evidence produced although a party who was duly notified of the arbitration proceeding did not appear. The court, on request, may direct the arbitrator to conduct the hearing promptly and render a timely decision.
4. At a hearing under subsection 3, a party to the arbitration proceeding has a right to be heard, to present evidence material to the controversy, and to cross-examine witnesses appearing at the hearing.
5. If an arbitrator ceases or is unable to act during the arbitration proceeding, a replacement arbitrator must be appointed in accordance with section 11 of this Act to continue the proceeding and to resolve the controversy.

SECTION 16. Representation by lawyer. A party to an arbitration proceeding may be represented by a lawyer.

SECTION 17. Witnesses - Subpoenas - Depositions - Discovery.

1. An arbitrator may issue a subpoena for the attendance of a witness and for the production of records and other evidence at any hearing and may administer oaths. A subpoena must be served in the manner for service of subpoenas in a civil action and, upon motion to the court by a party to the arbitration proceeding or the arbitrator, enforced in the manner for enforcement of subpoenas in a civil action.
2. In order to make the proceedings fair, expeditious, and cost-effective, upon request of a party to or a witness in an arbitration proceeding, an arbitrator may permit a deposition of any witness to be taken for use as evidence at the hearing, including a witness who cannot be subpoenaed for or is unable to attend a hearing. The arbitrator shall determine the conditions under which the deposition is taken.
3. An arbitrator may permit such discovery as the arbitrator decides is appropriate in the circumstances, taking into account the needs of the parties to the arbitration proceeding and other affected persons and the desirability of making the proceeding fair, expeditious, and cost-effective.
4. If an arbitrator permits discovery under subsection 3, the arbitrator may order a party to the arbitration proceeding to comply with the arbitrator's discovery-related orders, issue subpoenas for the attendance of a witness and for the production of records and other evidence at a discovery proceeding, and take action against a noncomplying party to the extent a court could if the controversy were the subject of a civil action in this state.
5. An arbitrator may issue a protective order to prevent the disclosure of privileged information, confidential information, trade secrets, and other information protected from disclosure to the extent a court could if the controversy were the subject of a civil action in this state.
6. All laws compelling a person under subpoena to testify and all fees for attending a judicial proceeding, a deposition, or a discovery proceeding as a witness apply to an arbitration proceeding as if the controversy were the subject of a civil action in this state.
7. The court may enforce a subpoena or discovery-related order for the attendance of a witness within this state and for the production of records and other evidence issued by an arbitrator in connection with an arbitration proceeding in another state upon conditions determined by the court so as to make the arbitration proceeding fair, expeditious, and cost-effective. A subpoena or discovery-related order issued by an arbitrator in another state must be served in the manner provided by law for service of subpoenas in a civil action in this state and, upon motion to the court by a party to the arbitration proceeding or the arbitrator, enforced in the manner provided by law for enforcement of subpoenas in a civil action in this state.

SECTION 18. Judicial enforcement of preaward ruling by arbitrator. If an arbitrator makes a preaward ruling in favor of a party to the arbitration proceeding, the party may request the arbitrator to incorporate the ruling into an award under

section 19 of this Act. A prevailing party may make a motion to the court for an expedited order to confirm the award under section 22 of this Act, in which case the court shall summarily decide the motion. The court shall issue an order to confirm the award unless the court vacates, modified, or corrects the award under section 23 or 24 of this Act.

SECTION 19. Award.

1. An arbitrator shall make a record of an award. The record must be signed or otherwise authenticated by any arbitrator who concurs with the award. The arbitrator or the arbitration organization shall give notice of the award, including a copy of the award, to each party to the arbitration proceeding.
2. An award must be made within the time specified by the agreement to arbitrate or, if not specified therein, within the time ordered by the court. The court may extend or the parties to the arbitration proceeding may agree in a record to extend the time. The court or the parties may do so within or after the time specified or ordered. A party waives any objection that an award was not timely made unless the party gives notice of the objection to the arbitrator before receiving notice of the award.

SECTION 20. Change of award by arbitrator.

1. On motion to an arbitrator by a party to an arbitration proceeding, the arbitrator may modify or correct an award:
 - a. Upon a ground stated in subdivision a or c of subsection 1 of section 24 of this Act;
 - b. Because the arbitrator has not made a final and definite award upon a claim submitted by the parties to the arbitration proceeding;
or
 - c. To clarify the award.
2. A motion under subsection 1 must be made and notice given to all parties within twenty days after the movant receives notice of the award.
3. A party to the arbitration proceeding must give notice of any objection to the motion within ten days after receipt of the notice.
4. If a motion to the court is pending under section 22, 23, or 24 of this Act, the court may submit the claim to the arbitrator to consider whether to modify or correct the award:
 - a. Upon a ground stated in subdivision a or c of subsection 1 of section 24 of this Act;
 - b. Because the arbitrator has not made a final and definite award upon a claim submitted by the parties to the arbitration proceeding;
or
 - c. To clarify the award.

5. An award modified or corrected pursuant to this section is subject to subdivision 1 of section 19 of this Act and sections 22, 23, and 24 of this Act.

SECTION 21. Remedies - Fees and expenses of arbitration proceedings.

1. An arbitrator may award punitive damages or other exemplary relief if such an award is authorized by law in a civil action involving the same claim and the evidence produced at the hearing justifies the award under the legal standards otherwise applicable to the claim.
2. An arbitrator may award reasonable attorney's fees and other reasonable expenses of arbitration if such an award is authorized by law in a civil action involving the same claim or by the agreement of the parties to the arbitration proceeding.
3. As to all remedies other than those authorized by subsections 1 and 2, an arbitration may order such remedies as the arbitrator considers just and appropriate under the circumstances of the arbitration proceeding. The fact that such a remedy could not or would not be granted by the court is not a ground for refusing to confirm an award under section 22 of this Act or for vacating an award under section 23 of this Act.
4. An arbitrator's expenses and fees, together with other expenses, must be paid as provided in the award.
5. If an arbitrator awards punitive damages or other exemplary relief under subsection 1, the arbitrator shall specify in the award the basis in fact justifying and the basis in law authorizing the award and state separately the amount of the punitive damages or other exemplary relief.

SECTION 22. Confirmation of award. After a party to an arbitration proceeding receives notice of an award, the party may make a motion to the court for an order confirming the award at which time the court shall issue a confirming order unless the award is modified or corrected pursuant to section 20 or 24 of this Act or is vacated pursuant to section 23 of this Act.

SECTION 23. Vacating award.

1. Upon motion to the court by a party to an arbitration proceeding, the court shall vacate an award made in the arbitration proceeding if:
 - a. The award was procured by corruption, fraud, or other undue means;
 - b. There was:
 - (1) Evident partiality by an arbitrator appointed as a neutral arbitrator;
 - (2) Corruption by an arbitrator; or
 - (3) Misconduct by an arbitrator prejudicing the rights of a party to the arbitration proceeding;

- c. An arbitrator refused to postpone the hearing upon showing of sufficient cause for postponement, refused to consider evidence material to the controversy, or otherwise conducted the hearing contrary to section 15 of this Act, so as to prejudice substantially the rights of a party to the arbitration proceeding;
 - d. An arbitrator exceeded the arbitrator's powers;
 - e. There was no agreement to arbitrate, unless the person participated in the arbitration proceeding without raising the objection under subsection 3 of section 15 of this Act not later than the beginning of the arbitration hearing; or
 - f. The arbitration was conducted without proper notice of the initiation of an arbitration as required in section 9 of this Act so as to prejudice substantially the rights of a party to the arbitration proceeding.
- 2. A motion under this section must be filed within ninety days after the movant receives notice of the award pursuant to section 19 of this Act or within ninety days after the movant receives notice of a modified or corrected award pursuant to section 20 of this Act, unless the movant alleges that the award was procured by corruption, fraud, or other undue means, in which case the motion must be made within ninety days after the ground is known or by the exercise of reasonable care would have been known by the movant.
- 3. If the court vacates an award on a ground other than that set forth in subdivision e of subsection 1, it may order a rehearing. If the award is vacated on a ground stated in subdivision a or b of subsection 1, the rehearing must be before a new arbitrator. If the award is vacated on a ground stated in subdivision c, d, or f of subsection 1, the rehearing may be before the arbitrator who made the award or the arbitrator's successor. The arbitrator must render the decision in the rehearing within the same time as that provided in subdivision 2 of section 19 of this Act for an award.
- 4. If the court denies a motion to vacate an award, the court shall confirm the award unless a motion to modify or correct the award is pending.

SECTION 24. Modification or correction of award.

- 1. Upon motion made within ninety days after the movant receives notice of the award pursuant to section 19 of this Act or within ninety days after the movant receives notice of a modified or corrected award pursuant to section 20 of this Act, the court shall modify or correct the award if:
 - a. There was an evident mathematical miscalculation or an evident mistake in the description of a person, thing, or property referred to in the award;
 - b. The arbitrator has made an award on a claim not submitted to the arbitrator and the award may be corrected without affecting the merits of the decision upon the claims submitted; or

- c. The award is imperfect in a matter of form not affecting the merits of the decision on the claim submitted.
2. If a motion made under subsection 1 is granted, the court shall modify or correct and confirm the award as modified or corrected. Otherwise, unless a motion to vacate is pending, the court shall confirm the award.
3. A motion to modify or correct an award pursuant to this section may be joined with a motion to vacate the award.

SECTION 25. Judgment on award - Attorney's fees and litigation expenses.

1. Upon granting an order confirming, vacating without directing a rehearing, modifying, or correcting an award, the court shall enter a judgment in conformity therewith. The judgment may be recorded, docketed, and enforced as any other judgment in a civil action.
2. A court may allow reasonable costs of the motion and subsequent judicial proceedings.
3. On application of a prevailing party to a contested judicial proceeding under section 22, 23, or 24 of this Act, the court may add reasonable attorney's fees and other reasonable expenses of litigation incurred in a judicial proceeding after the award is made to a judgment confirming, vacating without directing a rehearing, modifying, or correcting an award.

SECTION 26. Jurisdiction.

1. A court of this state having jurisdiction over the controversy and the parties may enforce an agreement to arbitrate.
2. An agreement to arbitrate providing for arbitration in this state confers exclusive jurisdiction on the court to enter judgment on an award under this Act.

SECTION 27. Venue. A motion pursuant to section 5 of this Act must be made in the court of the county in which the agreement to arbitrate specifies the arbitration hearing is to be held or, if the hearing has been held, in the court of the county in which it was held. Otherwise, the motion may be made in the court of any county in which an adverse party resides or has a place of business or, if no adverse party has a residence or place of business in this state, in the court of any county in this state. All subsequent motions must be made in the court hearing the initial motion unless the court otherwise directs.

SECTION 28. Appeals.

1. An appeal may be taken from:
 - a. An order denying a motion to compel arbitration;
 - b. An order granting a motion to stay arbitration;
 - c. An order confirming or denying confirmation of an award;

- d. An order modifying or correcting an award;
 - e. An order vacating an award without directing a rehearing; or
 - f. A final judgment entered pursuant to this Act.
- 2. An appeal under this section must be taken as from an order or a judgment in a civil action.
 - 3. Agreements to arbitrate between and among insurers and self-insured entities which explicitly renounce a right of appeal are fully enforceable in this state. This chapter does not alter those agreements to create a right of appeal.

SECTION 29. Relationship to Electronic Signatures in Global and National Commerce Act. The provisions of sections 1 and 19 of this Act which relate to the legal effect, validity, and enforceability of electronic records or electronic signatures, and of contracts performed with the use of such records or signatures must be construed to conform to the requirements of section 102 of the Electronic Signatures in Global and National Commerce Act [Pub. BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

¹⁴⁰ **SECTION 1. AMENDMENT.** Section 39-06-32 of the North Dakota Century Code is amended and reenacted as follows:

39-06-32. Authority to suspend licenses. The director may suspend the license of an operator, after hearing, upon proof by a fair preponderance of the evidence, that any of the following apply to the licensee:

1. Commission of an offense for which mandatory revocation of license is required upon conviction.
2. Incompetence to drive a motor vehicle.
3. Unlawful or fraudulent use of an operator's license.
4. Refusal to submit to an implied consent chemical test on an Indian reservation or in another state. For purposes of this subsection, the specific requirements for establishing a refusal used on the Indian reservation or in the other state may not be considered, and photostatic copies of the records of the other jurisdiction's drivers licensing authority are sufficient evidence of the refusal whether or not those copies are certified. The suspension must be for the same length of time as the revocation in section 39-20-04. If the refusal arose out of an arrest or stop of a person while operating a commercial motor vehicle, the period of suspension must be the same as the period of revocation provided in section 39-06.2-10.
5. Failure, as shown by the certificate of the court, to pay a fine or serve any other sentence as ordered by a court upon conviction for any criminal traffic offense.
6. Failure, as shown by the certificate of the court, to appear in court or post and forfeit bond after signing a promise to appear, if signing is

required by law, in violation of section 39-06.1-04, willful violation of a written promise to appear in court, in violation of section 39-07-08, or violation of equivalent ordinances or laws in another jurisdiction. Upon resolution by the operator of the underlying cause for a suspension under this subsection, as shown by the certificate of the court, the director shall record the suspension separately on the driving record. This separate record is not available to the public.

7. An administrative decision on an Indian reservation or in another state that the licensee's privilege to drive on that Indian reservation or in that state is suspended or revoked because of a violation of that Indian reservation's or state's law forbidding motor vehicle operation with an alcohol concentration of at least ~~ten~~ eight one-hundredths of one percent by weight or, with respect to a person under twenty-one years of age, an alcohol concentration of at least two one-hundredths of one percent by weight, or because of a violation of that Indian reservation's or state's law forbidding the driving or being in actual physical control of a commercial motor vehicle while having an alcohol concentration of at least four one-hundredths of one percent by weight. The specific requirements for establishing the violation on the Indian reservation or in the other state may not be considered and certified copies of the records of the Indian reservation's or other state's drivers licensing authority are sufficient evidence of the violation. The suspension must be for the same duration as the suspension in section 39-20-04.1, if the violation does not involve a commercial motor vehicle. If the violation involves a commercial motor vehicle, the period of suspension must be the same as the period of suspension provided in section 39-06.2-10.
8. Conviction of an offense under this title and it appears from the director's records that the offense contributed to causing an accident which resulted in death or serious personal injury or serious property damage. No suspension may be imposed if the person has been sanctioned for the same offense under section 39-06-31.

¹⁴¹ **SECTION 2. AMENDMENT.** Subsection 1 of section 39-08-01 of the North Dakota Century Code, as effective after July 31, 2003, is amended and reenacted as follows:

1. A person may not drive or be in actual physical control of any vehicle upon a highway or upon public or private areas to which the public has a right of access for vehicular use in this state if any of the following apply:

 - b. That person is under the influence of intoxicating liquor.

¹⁴¹ Section 39-08-01 was also amended by section 1 of House Bill No. 1191, chapter 323.

- c. That person is under the influence of any drug or substance or combination of drugs or substances to a degree which renders that person incapable of safely driving.
- d. That person is under the combined influence of alcohol and any other drugs or substances to a degree which renders that person incapable of safely driving.

The fact that any person charged with violating this section is or has been legally entitled to use alcohol or other drugs or substances is not a defense against any charge for violating this section, unless a drug which predominately caused impairment was used only as directed or cautioned by a practitioner who legally prescribed or dispensed the drug to that person.

SECTION 3. AMENDMENT. Section 39-20-03.1 of the North Dakota Century Code is amended and reenacted as follows:

39-20-03.1. Action following test result for a resident operator. If a person submits to a test under section 39-20-01, 39-20-02, or 39-20-03 and the test shows that person to have an alcohol concentration of at least ~~ten~~ eight one-hundredths of one percent by weight or, with respect to a person under twenty-one years of age, an alcohol concentration of at least two one-hundredths of one percent by weight at the time of the performance of a chemical test within two hours after the driving or being in actual physical control of a vehicle, the following procedures apply:

1. The law enforcement officer shall immediately take possession of the person's operator's license if it is then available and shall immediately issue to that person a temporary operator's permit if the person then has valid operating privileges, extending driving privileges for the next twenty-five days, or until earlier terminated by the decision of a hearing officer under section 39-20-05. The law enforcement officer shall sign and note the date on the temporary operator's permit. The temporary operator's permit serves as the director's official notification to the person of the director's intent to revoke, suspend, or deny driving privileges in this state.
2. If a test administered under section 39-20-01 or 39-20-03 was by saliva or urine sample or by drawing blood as provided in section 39-20-02 and the person tested is not a resident of an area in which the law enforcement officer has jurisdiction, the law enforcement officer shall, on receiving the analysis of the saliva, urine, or blood from the state toxicologist and if the analysis shows that person had an alcohol concentration of at least ~~ten~~ eight one-hundredths of one percent by weight or, with respect to a person under twenty-one years of age, an alcohol concentration of at least two one-hundredths of one percent by weight, either proceed in accordance with subsection 1 during that person's reappearance within the officer's jurisdiction or notify a law enforcement agency having jurisdiction where the person lives. On that notification, that law enforcement agency shall immediately take possession of the person's North Dakota operator's license or permit if it is then available and, within twenty-four hours, forward the license and a copy of the temporary operator's permit to the law enforcement agency making the arrest or to the director. The law enforcement agency shall also, on taking possession of the person's operator's license, issue to

that person a temporary operator's permit as provided in this section, and shall sign and date the permit as provided in subsection 1. The temporary operator's permit serves as the director's official notification to the person of the director's intent to revoke, suspend, or deny driving privileges in this state.

3. The law enforcement officer, within five days of the issuance of the temporary operator's permit, shall forward to the director a certified written report in the form required by the director and the person's operator's license taken under subsection 1 or 2. If the person was issued a temporary operator's permit because of the results of a test, the report must show that the officer had reasonable grounds to believe the person had been driving or was in actual physical control of a motor vehicle while in violation of section 39-08-01, or equivalent ordinance, that the person was lawfully arrested, that the person was tested for alcohol concentration under this chapter, and that the results of the test show that the person had an alcohol concentration of at least ~~ten~~ eight one-hundredths of one percent by weight or, with respect to a person under twenty-one years of age, an alcohol concentration of at least two one-hundredths of one percent by weight. In addition to the operator's license and report, the law enforcement officer shall forward to the director a certified copy of the operational checklist and test records of a breath test and a copy of the certified copy of the analytical report for a blood, saliva, or urine test for all tests administered at the direction of the officer.

SECTION 4. AMENDMENT. Section 39-20-03.2 of the North Dakota Century Code is amended and reenacted as follows:

39-20-03.2. Action following test result or on refusing test by nonresident operator. If a person licensed in another state refuses in this state to submit to a test provided under section 39-20-01 or 39-20-14, or who submits to a test under section 39-20-01, 39-20-02, or 39-20-03 and the test results show the person to have an alcohol concentration of at least ~~ten~~ eight one-hundredths of one percent by weight or, with respect to a person under twenty-one years of age, an alcohol concentration of at least two one-hundredths of one percent by weight at the time of performance of a test within two hours after driving or being in physical control of a motor vehicle, the following procedures apply:

1. Without taking possession of the person's out-of-state operator's license, the law enforcement officer shall issue to the person a notification of the test results and a temporary operator's permit extending nonresident operating privileges in this state for twenty-five days from the date of issuance or until earlier terminated by the decision of a hearing officer under section 39-20-05. The temporary permit must be signed and dated by the officer and serves as the director's official notification to the person of the director's intent to revoke, suspend, or deny driving privileges in this state, and of the hearing procedures under this chapter.
2. If the test was administered by saliva or urine sample or by drawing blood, the law enforcement officer, on reviewing the alcohol concentration analysis showing the person had an alcohol concentration of at least ~~ten~~ eight one-hundredths of one percent by weight or, with respect to a person under twenty-one years of age, an alcohol concentration of at least two one-hundredths of one percent by weight,

shall mail or issue to the person a notification of the test results, a temporary operator's permit extending nonresident operating privileges in this state for twenty-five days from the date of mailing or issuance or until earlier terminated by the decision of a hearing officer under section 39-20-05, and notice of the intent to revoke, suspend, or deny driving privileges in this state, together with the notice provided under section 39-06.1-07 of the procedures available under this chapter. The temporary operator's permit must be signed and dated by the officer.

3. The law enforcement officer, within five days of issuing the temporary operator's permit, shall forward to the director a certified written report in the form required by the director and a certified copy of the operational checklist and test records of a breath test and a copy of the certified copy of the analytical report for a blood, saliva, or urine test for all tests administered at the direction of the officer. If the person was issued a temporary operator's permit because of the person's refusal to submit to a test under sections 39-20-01 and 39-20-14, the report must include information as provided in section 39-20-04. If the person was issued a temporary operator's permit because of the results of a test, the report must show that the officer had reasonable grounds to believe the person had been driving or was in actual physical control of a motor vehicle while in violation of section 39-08-01, or equivalent ordinance, that the person was lawfully arrested, that the person was tested for alcohol concentration under this chapter, and that the results of the test show that the person had an alcohol concentration of at least ~~ten~~ eight one-hundredths of one percent by weight or, with respect to a person under twenty-one years of age, an alcohol concentration of at least two one-hundredths of one percent by weight.

¹⁴² **SECTION 5. AMENDMENT.** Subsection 1 of section 39-20-04.1 of the North Dakota Century Code is amended and reenacted as follows:

1. After the receipt of a person's operator's license, if taken under section 39-20-03.1 or 39-20-03.2, and the certified report of a law enforcement officer and if no written request for hearing has been received from the arrested person under section 39-20-05, or if that hearing is requested and the findings, conclusion, and decision from the hearing confirm that the law enforcement officer had reasonable grounds to arrest the person and test results show that the arrested person was driving or in physical control of a vehicle while having an alcohol concentration of at least ~~ten~~ eight one-hundredths of one percent by weight or, with respect to a person under twenty-one years of age, an alcohol concentration of at least two one-hundredths of one percent by weight at the time of the performance of a test within two hours after driving or being in physical control of a motor vehicle, the director shall suspend the person's operator's license as follows:
 - a. For ninety-one days if the person's driving record shows that, within the five years preceding the date of the arrest, the person has not previously violated section 39-08-01 or equivalent

¹⁴² Section 39-20-04.1 was also amended by section 3 of House Bill No. 1439, chapter 321.

ordinance or the person's operator's license has not previously been suspended or revoked under this chapter.

- b. For three hundred sixty-five days if the person's driving record shows that, within the five years preceding the date of the arrest, the person has once previously violated section 39-08-01 or equivalent ordinance or the person's operator's license has once previously been suspended or revoked under this chapter.
- c. For two years if the person's driving record shows that within the five years preceding the date of the arrest, the person's operator's license has at least twice previously been suspended, revoked, or issuance denied under this chapter, or for a violation of section 39-08-01 or equivalent ordinance, or any combination thereof, and the suspensions, revocations, or denials resulted from at least two separate arrests.

SECTION 6. AMENDMENT. Subsections 2 and 5 of section 39-20-05 of the North Dakota Century Code are amended and reenacted as follows:

- 2. If the issue to be determined by the hearing concerns license suspension for operating a motor vehicle while having an alcohol concentration of at least ~~ten~~ eight one-hundredths of one percent by weight or, with respect to a person under twenty-one years of age, an alcohol concentration of at least two one-hundredths of one percent by weight, the hearing must be before a hearing officer assigned by the director and at a time and place designated by the director. The hearing must be recorded and its scope may cover only the issues of whether the arresting officer had reasonable grounds to believe the person had been driving or was in actual physical control of a vehicle in violation of section 39-08-01 or equivalent ordinance or, with respect to a person under twenty-one years of age, the person had been driving or was in actual physical control of a vehicle while having an alcohol concentration of at least two one-hundredths of one percent by weight; whether the person was placed under arrest, unless the person was under twenty-one years of age and the alcohol concentration was less than ~~ten~~ eight one-hundredths of one percent by weight, then arrest is not required and is not an issue under any provision of this chapter; whether the person was tested in accordance with section 39-20-01 or 39-20-03 and, if applicable, section 39-20-02; and whether the test results show the person had an alcohol concentration of at least ~~ten~~ eight one-hundredths of one percent by weight or, with respect to a person under twenty-one years of age, an alcohol concentration of at least two one-hundredths of one percent by weight. For purposes of this section, a copy of a certified copy of an analytical report of a blood, urine, or saliva sample from the state toxicologist or a certified copy of the checklist and test records from a certified breath test operator establish prima facie the alcohol concentration shown therein. Whether the person was informed that the privilege to drive might be suspended based on the results of the test is not an issue.
- 5. At the close of the hearing, the hearing officer shall notify the person of the hearing officer's findings of fact, conclusions of law, and decision based on the findings and conclusions and shall immediately deliver to the person a copy of the decision. If the hearing officer does not find in favor of the person, the copy of the decision serves as the director's

official notification to the person of the revocation, suspension, or denial of driving privileges in this state. If the hearing officer finds, based on a preponderance of the evidence, that the person refused a test under section 39-20-01 or 39-20-14 or that the person had an alcohol concentration of at least ~~ten~~ eight one-hundredths of one percent by weight or, with respect to a person under twenty-one years of age, an alcohol concentration of at least two one-hundredths of one percent by weight, the hearing officer shall immediately take possession of the person's temporary operator's permit issued under this chapter. If the hearing officer does not find against the person, the hearing officer shall sign, date, and mark on the person's permit an extension of driving privileges for the next twenty days and shall return the permit to the person. The hearing officer shall report the findings, conclusions, and decisions to the director within ten days of the conclusion of the hearing. If the hearing officer has determined in favor of the person, the director shall return the person's operator's license by regular mail to the address on file with the director under section 39-06-20.

¹⁴³ **SECTION 7. AMENDMENT.** Section 39-20-07 of the North Dakota Century Code is amended and reenacted as follows:

39-20-07. Interpretation of chemical tests. Upon the trial of any civil or criminal action or proceeding arising out of acts alleged to have been committed by any person while driving or in actual physical control of a motor vehicle while under the influence of intoxicating liquor, drugs, or a combination thereof, evidence of the amount of alcohol, drugs, or a combination thereof in the person's blood at the time of the act alleged as shown by a chemical analysis of the blood, breath, saliva, or urine is admissible. For the purpose of this section:

1. A person having, at that time, an alcohol concentration of not more than five one-hundredths of one percent by weight is presumed not to be under the influence of intoxicating liquor. This presumption has no application to the administration of chapter 39-06.2.
2. Evidence that there was at that time more than five one-hundredths of one percent by weight alcohol concentration in a person is relevant evidence, but it is not to be given prima facie effect in indicating whether the person was under the influence of intoxicating liquor.
3. A person having an alcohol concentration of at least ~~ten~~ eight one-hundredths of one percent by weight or, with respect to a person under twenty-one years of age, an alcohol concentration of at least two one-hundredths of one percent by weight at the time of the performance of a chemical test within two hours after driving or being in physical control of a vehicle is under the influence of intoxicating liquor at the time of driving or being in physical control of a vehicle.
4. Alcohol concentration is based upon grams of alcohol per one hundred milliliters of blood or grams of alcohol per two hundred ten liters of alveolar air or grams of alcohol per sixty-seven milliliters of urine.

¹⁴³ Section 39-20-07 was also amended by section 11 of Senate Bill No. 2151, chapter 469.

5. The results of the chemical analysis must be received in evidence when it is shown that the sample was properly obtained and the test was fairly administered, and if the test is shown to have been performed according to methods and with devices approved by the state toxicologist, and by an individual possessing a certificate of qualification to administer the test issued by the state toxicologist. The state toxicologist is authorized to approve satisfactory devices and methods of chemical analysis and determine the qualifications of individuals to conduct such analysis, and shall issue a certificate to all qualified operators who exhibit the certificate upon demand of the person requested to take the chemical test.
6. The state toxicologist may appoint, train, certify, and supervise field inspectors of breath testing equipment and its operation, and the inspectors shall report the findings of any inspection to the state toxicologist for appropriate action. Upon approval of the methods or devices, or both, required to perform the tests and the persons qualified to administer them, the state toxicologist shall prepare and file written record of the approval with the director and the recorder in each county, unless the board of county commissioners designates a different official, and shall include in the record:
 - a. An annual register of the specific testing devices currently approved, including serial number, location, and the date and results of last inspection.
 - b. An annual register of currently qualified and certified operators of the devices, stating the date of certification and its expiration.
 - c. The operational checklist and forms prescribing the methods currently approved by the state toxicologist in using the devices during the administration of the tests.

The material filed under this section may be supplemented when the state toxicologist determines it to be necessary, and any supplemental material has the same force and effect as the material that it supplements.

7. Copies of the records referred to in subsections 5 and 6, certified by the recorder, or designated official, must be admitted as prima facie evidence of the matters stated in the records.
8. A certified copy of the analytical report of a blood, urine, or saliva analysis referred to in subsection 5 and which is issued by the state toxicologist must be accepted as prima facie evidence of the results of a chemical analysis performed under this chapter. The certified copy satisfies the directives of subsection 5.
9. Notwithstanding any statute or rule to the contrary, a defendant who has been found to be indigent by the court in the criminal proceeding at issue may subpoena, without cost to the defendant, the person who conducted the chemical analysis referred to in this section to testify at the trial on the issue of the amount of alcohol, drugs, or a combination thereof in the defendant's blood, breath, saliva, or urine at the time of the alleged act. If the state toxicologist, the director of the forensic sciences division of the state department of health, or any employee of

either, is subpoenaed to testify by a defendant who is not indigent and the defendant does not call the witness to establish relevant evidence, the court shall order the defendant to pay costs to the witness as provided in section 31-01-16.

10. A signed statement from the individual medically qualified to draw the blood sample for testing as set forth in subsection 5 is prima facie evidence that the blood sample was properly drawn and no further foundation for the admission of this evidence may be required.

SECTION 8. AMENDMENT. Section 39-20-09 of the North Dakota Century Code is amended and reenacted as follows:

39-20-09. Effect of evidence of chemical test. This chapter does not limit the introduction of any other competent evidence bearing on the question of whether the person was under the influence of intoxicating liquor, drugs, or a combination thereof, but, if the test results show an alcohol concentration of at least ~~ten~~ eight one-hundredths of one percent or, with respect to a person under twenty-one years of age, an alcohol concentration of at least two one-hundredths of one percent by weight, the purpose of such evidence must be limited to the issues of probable cause, whether an arrest was made prior to the administering of the test, and the validity of the test results.

 - d. That person is under the combined influence of alcohol and any other drugs or substances to a degree which renders that person incapable of safely driving.

¹⁵⁹ Section 39-08-01 was also amended by section 2 of House Bill No. 1161, chapter 316.

2. A person violating this section or equivalent ordinance is guilty of a class B misdemeanor for the first or second offense in a five-year period, of a class A misdemeanor for a third offense in a five-year period, of a class A misdemeanor for the fourth offense in a seven-year period, and of a class C felony for a fifth or subsequent offense in a seven-year period. The minimum penalty for violating this section is as provided in subsection 4. The court shall take judicial notice of the fact that an offense would be a subsequent offense if indicated by the records of the director or may make a subsequent offense finding based on other evidence.
3. Upon conviction, the court may order the motor vehicle number plates of the motor vehicle owned and operated by the offender at the time of the offense to be impounded for the duration of the period of suspension or revocation of the offender's driving privilege by the licensing authority. The impounded number plates must be sent to the director who must retain them for the period of suspension or revocation, subject to their disposition by the court.
4. A person convicted of violating this section, or an equivalent ordinance, must be sentenced in accordance with this subsection. For purposes of this subsection, unless the context otherwise requires, "drug court program" means a district court-supervised treatment program approved by the supreme court which combines judicial supervision with alcohol and drug testing and chemical addiction treatment in a licensed treatment program. The supreme court may adopt rules, including rules of procedure, for drug courts and the drug court program.
 - a. For a first offense, the sentence must include both a fine of at least two hundred fifty dollars and an order for addiction evaluation by an appropriate licensed addiction treatment program.
 - b. For a second offense within five years, the sentence must include at least five days' imprisonment or placement in a minimum security facility, of which forty-eight hours must be served consecutively, or thirty days' community service; a fine of at least five hundred dollars; and an order for addiction evaluation by an appropriate licensed addiction treatment program.

suspend a sentence, except for ten days' imprisonment, under subsection 3 or 4 of section 12.1-32-02 on the condition that the defendant first undergo and complete an evaluation for alcohol and substance abuse treatment and rehabilitation. The district court shall require the defendant to complete alcohol and substance abuse treatment and rehabilitation under the direction of the drug court program as a condition of probation in accordance with rules adopted by the supreme court. If the district court finds that a defendant has failed to undergo an evaluation or complete treatment or has violated any condition of probation, the district court shall revoke the defendant's probation and shall sentence the defendant in accordance with this subsection.

- f. For purposes of this section, conviction of an offense under a law or ordinance of another state which is equivalent to this section must be considered a prior offense if such offense was committed within the time limitations specified in this subsection.
 - g. If the penalty mandated by this section includes imprisonment or placement upon conviction of a violation of this section or equivalent ordinance, and if an addiction evaluation has indicated that the defendant needs treatment, the court may order the defendant to undergo treatment at an appropriate licensed addiction treatment program and the time spent by the defendant in the treatment must be credited as a portion of a sentence of imprisonment or placement under this section.
5. As used in subdivision b of subsection 4, the term "imprisonment" includes house arrest. As a condition of house arrest, a defendant may not consume alcoholic beverages. The house arrest must include a program of electronic home detention in which the defendant is tested at least twice daily for the consumption of alcohol. The defendant shall defray all costs associated with the electronic home detention. The fact that any person charged with violating this section is or has been legally entitled to use alcohol or other drugs or substances is not a defense against any charge for violating this section, unless a drug which predominately caused impairment was used only as directed or cautioned by a practitioner who legally prescribed or dispensed the drug to that person.

- 2. A person violating this section or equivalent ordinance is guilty of a class B misdemeanor for the first or second offense in a five-year period; of a class A misdemeanor for a third offense in a five-year period; of a class A misdemeanor for the fourth offense in a seven-year period; and of a class C felony for a fifth or subsequent offense in a seven-year period. The minimum penalty for violating this section is as provided in subsection 4. The court shall take judicial notice of the fact that an offense would be a subsequent offense if indicated by the records of the director or may make a subsequent offense finding based on other evidence.
- 3. Upon conviction, the court may order the motor vehicle number plates of the motor vehicle owned and operated by the offender at the time of the offense to be impounded for the duration of the period of suspension or revocation of the offender's driving privilege by the licensing authority. The impounded number plates must be sent to the director who must retain them for the period of suspension or revocation, subject to their disposition by the court.
- 4. A person convicted of violating this section, or an equivalent ordinance, must be sentenced in accordance with this subsection.
 - a. For a first offense, the sentence must include both a fine of at least two hundred fifty dollars and an order for addiction evaluation by an appropriate licensed addiction treatment program.
 - b. For a second offense within five years, the sentence must include at least five days' imprisonment or placement in a minimum security facility, of which forty-eight hours must be served consecutively, or thirty days' community service; a fine of at least five hundred dollars; and an order for addiction evaluation by an appropriate licensed addiction treatment program.
 - c. For a third offense within five years, the sentence must include at least sixty days' imprisonment or placement in a minimum security facility, of which forty-eight hours must be served consecutively; a fine of one thousand dollars; and an order for addiction evaluation by an appropriate licensed addiction treatment program.

- d. For a fourth or subsequent offense within seven years, the sentence must include one hundred eighty days' imprisonment or placement in a minimum security facility, of which forty-eight hours must be served consecutively and a fine of one thousand dollars.
 - e. The execution or imposition of sentence under this section may not be suspended or deferred under subsection 3 or 4 of section 42.1-32-02.
 - f. For purposes of this section, conviction of an offense under a law or ordinance of another state which is equivalent to this section must be considered a prior offense if such offense was committed within the time limitations specified in this subsection.
 - g. If the penalty mandated by this section includes imprisonment or placement upon conviction of a violation of this section or equivalent ordinance, and if an addiction evaluation has indicated that the defendant needs treatment, the court may order the defendant to undergo treatment at an appropriate licensed addiction treatment program and the time spent by the defendant in the treatment must be credited as a portion of a sentence of imprisonment or placement under this section.
5. As used in subdivision b of subsection 4, the term "imprisonment" includes house arrest. As a condition of house arrest, a defendant may not consume alcoholic beverages. The house arrest must include a program of electronic home detention in which the defendant is tested at least twice daily for the consumption of alcohol. The defendant shall defray all costs associated with the electronic home detention. This subsection does not apply to individuals committed to or under the supervision and management of the department of corrections and rehabilitation.

A person may not drive, or the owner may not cause or knowingly permit to be driven, a motor vehicle in this state without a valid policy of liability insurance in effect in order to respond in damages for liability arising out of the ownership, maintenance, or use of that motor vehicle in the amount required by chapter 39-16.1. Upon being stopped by a law enforcement officer for the purpose of enforcing or investigating the possible violation of an ordinance or state law or during the investigation of an accident, the person driving the motor vehicle shall provide to the officer upon request satisfactory evidence of the policy required under this section. If unable to comply with the request, that person may be charged with a violation of this section if that person fails to submit satisfactory evidence of the policy to the officer or the officer's agency within twenty days of the date of the request. If that person produces satisfactory evidence of a valid policy of liability insurance in effect at the time of the alleged violation of this section to the officer, the officer's agency, or a court, that person may not be convicted or assessed any court costs for violation of this section. Notwithstanding section 26.1-30-18, a person may be convicted for failure to have a valid policy of liability insurance in effect under this section if the time of acquisition of the policy was after the time of the alleged incidence of driving without liability insurance. If the time of acquisition of the policy comes into question, the driver or owner has the burden of establishing the time of acquisition. If the driver is not an owner of the motor vehicle, the driver does not violate this section if the driver provides the court with evidence identifying the owner of the motor vehicle and describing circumstances under which the owner caused or permitted the driver to drive the motor vehicle. Violation of this section is a class B misdemeanor and the sentence imposed must include a fine of at least one hundred fifty dollars which may not be suspended. 1. A person may not operate on a highway that is not part of the interstate system any vehicle with a single axle that carries a gross weight in excess of twenty thousand pounds [9071.85 kilograms] or a wheel load over ten thousand pounds [4535.92 kilograms]. A wheel may not carry a gross weight over five hundred fifty pounds [249.48 kilograms] for each inch [2.54 centimeters] of tire width. Axles spaced forty inches [101.60 centimeters] apart or less are considered as one axle. On axles spaced over forty inches [101.60 centimeters] and under eight feet [2.44 meters] apart, the axle load may not exceed seventeen thousand pounds [7711.07 kilograms] per axle, with a maximum of forty-eight thousand pounds [21772.32 kilograms] gross weight on any grouping of three or more axles. The wheel load, in any instance, may not exceed one-half the allowable axle load. Spacing between axles is measured from axle center to axle center.
2. Subject to the limitations imposed by subsection 1 on tires, wheel, and axle loads, a person may not operate on a highway that is not part of the interstate system any vehicle the gross weight of which exceeds that determined by the formula of:

$$W = 500 \left(\frac{LN}{N-1} + 12N + 36 \right)$$

where W equals the maximum gross weight in pounds on any vehicle or combination of vehicles; L equals distance in feet between the two extreme axles of any vehicle or combination of vehicles; and N equals the number of axles of any vehicle or combination of vehicles under consideration. The gross weight on state highways may not exceed one

hundred five thousand five hundred pounds [47854.00 kilograms] unless otherwise posted and on all other highways the gross weight may not exceed eighty thousand pounds [36287.39 kilograms] unless designated by local authorities for highways under their jurisdiction for gross weights not to exceed one hundred five thousand five hundred pounds [47854.00 kilograms]. Local authorities are encouraged to assess all roads under their jurisdiction and designate the roads for the appropriate weight limits allowed under this subsection.

3. The gross weight limitations in subsections 1 and 2 do not apply to equipment the director and the state highway patrol approve for exemption. The exemption may not exceed one hundred five thousand five hundred pounds [47854.00 kilograms]. For every vehicle approved for exemption the highway patrol shall issue a nontransferable permit valid for one year. The highway patrol may charge an administrative fee for the permit.
4. The director, and local authorities, as to the highways under their respective jurisdictions, may issue permits authorizing a specific motor vehicle to exceed the weight limitations stated in subsections 1 and 2 by ten percent. The permits may not provide for a gross weight in excess of one hundred five thousand five hundred pounds [47854.00 kilograms]. The permits must provide only for the movement of agricultural products from the field of harvest to the point of initial storage site, and for the collection and transport of solid wastes, during the period from July fifteenth to December first, and for the general movement of products during the period from December first to March seventh. The appropriate jurisdictional authority shall establish an appropriate fee for the permits and direct how they shall be issued. The highway patrol shall issue the permits authorized by the director.

The permits may not provide for a gross weight in excess of one hundred five thousand five hundred pounds [47854.00 kilograms]. The appropriate jurisdictional authority shall establish an appropriate fee for the permits and direct how they shall be issued. The highway patrol shall issue the permits authorized by the director.
6. The gross weight limitations in subsections 1 and 2 do not apply to movement of a self-propelled fertilizer spreader if the ~~vehicle does not travel at speeds in excess of thirty miles [48.28 kilometers] per hour when loaded over one-half capacity and the gross weight of a single axle does not exceed eighty~~ twenty-two thousand pounds [38287.39 19979.03 kilograms] and does not exceed five hundred fifty pounds [249.48 kilograms] for each inch [2.54 centimeters] of tire width. The gross weight limitations in subsections 1 and 2 do not apply to movement of a self-propelled agricultural chemical applicator if the ~~vehicle does not travel at speeds in excess of thirty miles [48.28 kilometers] per hour when loaded over one-half capacity and the gross weight of a single axle does not exceed forty-five~~ twenty-two thousand pounds [20411.66 19979.03 kilograms] and does not exceed five hundred fifty pounds [249.48 kilograms] for each inch [2.54 centimeters] of tire width. The highway patrol shall issue a seasonal permit for the

commercial movement of vehicles exempted by this subsection. The seasonal permit issued under this subsection or under subdivision d of subsection 1 of section 39-12-04 entitles an individual with the permit to operate a vehicle as allowed by either of these provisions. A seasonal permit issued under this subsection is subject to the requirements of subdivision d of subsection 1 of section 39-12-04.

(Effective after July 31, 2003) Weight limitations for vehicles on highways other than the interstate system. A person may not operate on a highway, which is not part of the interstate system, any vehicle:

The wheel load, in any instance, may not exceed one-half the allowable axle load. Spacing between axles is measured from axle center to axle center.
2. Subject to the limitations imposed by subsection 1 on tires, wheel, and axle loads, the gross weight of which exceeds that determined by the formula of:

$$W = 500 \frac{(LN + 12N + 36)}{N-1}$$

where W equals the maximum gross weight in pounds on any vehicle or combination of vehicles; L equals distance in feet between the two extreme axles of any vehicle or combination of vehicles; and N equals the number of axles of any vehicle or combination of vehicles under consideration. The gross weight on state highways may not exceed one hundred five thousand five hundred pounds [47854.00 kilograms] unless otherwise posted and on all other highways the gross weight may not exceed eighty thousand pounds [36287.39 kilograms] unless designated by local authorities for highways under their jurisdiction for gross weights not to exceed one hundred five thousand five hundred pounds [47854.00 kilograms]. Local authorities are encouraged to assess all roads under their jurisdiction and designate the roads for the appropriate weight limits allowed under this subsection.

3. The gross weight limitations in subsections 1 and 2 do not apply to equipment the director and the state highway patrol approve for exemption. The exemption may not exceed one hundred five thousand five hundred pounds [47854.00 kilograms]. For every vehicle approved for exemption the highway patrol shall issue a nontransferable permit valid for one year. The highway patrol may charge an administrative fee for the permit.

No municipal officers may purchase, erect, substantially enlarge, improve, or extend an existing plant, or lease from others any plant, system, or line provided for in section 40-33-01, unless the proposition has been submitted by a resolution of the governing body to the qualified electors of the city at a biennial or special election called, held, and conducted upon the notice and in the manner specified by this title for the election of the governing body of the city, and has been approved by a majority of the electors voting thereon. If the cost of any enlargement, improvement, or extension will be paid out of the earnings of the plant and the cost does not exceed the sum of five thousand dollars, or if eighty per centum or more of the cost of any waterworks, mains, water system and equipment or appliances therefor is to be paid by special assessments or by the earnings of the plant or by both, the governing body is not required to submit the proposition to the electors of the city. If the improvement and facilities are to provide for a greater and more adequate water supply to meet the needs of the city for domestic use, fire protection, or for sanitation and sewage disposal, regardless of cost the governing body thereof may by resolution provide for the needed improvement and facilities in cooperation with the state or federal government, or any agency thereof, without an election if funds for such cooperation or for defraying the entire cost thereof are available in the municipal utilities fund as defined by section 40-33-10. If the lease by the city of any plant, system, or line provided for in subsection 5 of section 40-33-01 is from the state, or any agency or institution of the state, the governing body is not required to submit the proposition to the electors of the city.

SECTION 7. AMENDMENT. Section 40-33-03 of the North Dakota Century Code is amended and reenacted as follows:

40-33-03. Sale or lease of plant, system, or line - Offer or written proposition - Election - Proceeds. No municipality shall sell any municipal plant, system, or line, nor lease the same, or any substantial part thereof, or interest therein, to any person, firm, corporation, or limited liability company unless the person, firm, corporation, or limited liability company shall have filed in the office of the auditor of the municipality a complete written offer or proposition, nor unless a majority of the qualified electors of the municipality shall have voted in favor of accepting the offer or proposition at an election called, held, and conducted as specified in section 40-33-02. A copy of the offer or proposition shall be published with the notice of the election. The proceeds of any sale or lease made according to this section shall be applied toward the payment of the existing indebtedness of the

municipality incurred for the purpose of purchasing, erecting, operating, or enlarging, improving, or extending such plant, system, or line. The purchaser or lessee, however, shall not be required to see that the consideration of the purchase or lease is applied correctly as provided in this section, but he shall be protected fully in making the payment or payments by the receipt of the city auditor. Nothing contained in this section shall prevent the governing body from selling or disposing of any machinery, material, or other property belonging to any such utility which may have been inadequate or insufficient for the purposes for which it was intended to be used. This section does not apply to a lease by a municipality of any plant, system, or line to the state, or any agency or institution of the state pursuant to subsection 5 of section 40-33-01.

SECTION 8. AMENDMENT. Section 40-33-04 of the North Dakota Century Code is amended and reenacted as follows:

40-33-04. Manner of payment of purchase, erection, improvement, or leasing of plant, system, or line. Any municipality may pay the cost of purchasing, erecting, enlarging, improving, extending, or leasing any municipal plant, system, line, or any part thereof:

4. Partly by such special assessment warrants and partly by such bonds;
or
5. Partly out of the earnings of the plant, system, or line, and partly by such special assessments or bonds or special assessments and bonds.

A municipality may pay the cost of leasing any municipal plant, system, line, or any part thereof from the state, or any agency or institution of the state under subsection 5 of section 40-33-01 solely from revenues to be derived by the municipality from the ownership, sale, lease, disposition, and operation of the waterworks, mains, and water distribution system; the funds or any other amounts invested by the municipality pursuant to section 21-06-07, or invested on the municipality's behalf by the state, or any agency or institution of the state, in conformity with policies of the industrial commission, including investment in a guaranteed investment contract and any earnings thereon, to the extent pledged therefor; and funds, if any, appropriated annually by the governing body of the municipality or received from federal or state sources.

When such cost, or any part thereof, is to be paid out of the earnings, the cost or the part thereof payable out of the earnings shall not become a general obligation of the municipality payable out of the money raised through taxation but shall be a special obligation payable solely and exclusively out of the earnings derived from the operation of the plant, system, or line.

SECTION 9. A new section to chapter 40-34 of the North Dakota Century Code is created and enacted as follows:

Agreements between municipalities and with the state or private parties

In addition, any municipality of the state, either individually or jointly by agreement, may enter agreements to lease from the state, or any agency or institution of the state, or from any person all or part of, or an undivided or other interest in, its sewage system and all related real and personal property for the collection, treatment, purification, and disposal in a sanitary manner of sewage for such compensation and upon such terms and conditions as the parties under such agreement may stipulate. Such agreements must be authorized by resolution of the governing body of a municipality upon a majority vote of the members of the governing body. For the purposes of this section, such agreements include any lease, sublease, purchase agreement, lease-purchase agreement, installment purchase agreement, leaseback agreement, or other contract, agreement, instrument, or arrangement pursuant to which any rights, interests, or other property are transferred to, by, or from any party to, by, or from one or more parties, and any related documents entered or to be entered, including any operating agreement, service agreement, indemnity agreement, participation agreement, loan agreement, or payment undertaking agreement. A lease obligation under this section may not exceed a term of ninety-nine years. A lease obligation under this section does not constitute an indebtedness of the municipality or a pledge of the full faith and credit or unlimited taxing resources of the municipality. Notwithstanding any other law, a municipality may solicit and accept one or more proposals for a lease transaction, including the arrangement thereof, under this section. The municipality may, by resolution of the governing body upon a majority vote of the members of the governing body, accept a proposal that it determines to be in the public interest.

SECTION 10. AMENDMENT. Section 40-34-02 of the North Dakota Century Code is amended and reenacted as follows:

40-34-02. Methods of defraying cost of sewage or garbage disposal improvements or lease. The total cost of a sewage or garbage disposal system, or any portion thereof, may be defrayed by the following alternative methods:

1. Out of the general current tax revenues on hand and appropriated for that purpose.
2. Out of the proceeds of the sale of general liability bonds issued in accordance with the procedure and subject to the conditions and limitations prescribed by chapter 21-03, as far as the same are applicable.
3. Partly out of general current tax revenues on hand and appropriated for that purpose and the residue out of the proceeds of the sale of general liability bonds as provided in subsection 2, as the governing body of the municipality shall determine by a majority vote.
4. Partly from moneys secured by the issuance of mortgage bonds secured by the net revenues of the improvement or system and by a mortgage or deed of trust upon the improvement or system issued by the municipality. Bonds issued under this subsection shall not exceed sixty percent of the cost of the improvement, and the remaining forty

percent of such cost shall be defrayed as provided in subsection 1, 2, or 3.

5. From moneys secured by the issuance and sale of first mortgage bonds secured by the assets and property of the improvement or system in like manner as provided in subsection 4, except that such bonds may be issued for the total cost of the improvement upon compliance with this subsection. Bonds issued under this subsection shall be secured by a pledge of the net revenues of the improvement or system to be set apart as an interest and sinking fund to pay the principal and interest of such first mortgage bonds as they mature. If the method provided in this subsection is utilized by any municipality to defray the cost of a sewage disposal system, it, by a resolution of its governing body, shall create the district, provide for and approve the plans and specifications and estimates of the cost, and adopt and publish the resolution declaring the work necessary to be done in accordance with the requirements of chapter 40-22 as far as the same may be applicable. If the owners of property liable to be imposed with the sewage disposal service charges as provided in this subsection shall file with the city auditor, within thirty days after the first publication of the resolution, a written protest against the improvement, the governing body at its next meeting after the expiration of the time for filing protests against the improvement, shall hear and determine the sufficiency of the protests. After the hearing has been had, the governing body, if it finds the protests to contain the signatures of the owners of a majority of the property liable to be charged, shall not proceed further with the improvement. If the protests are found insufficient or invalid, the governing body of the municipality may cause the improvement to be made, contract therefor, and defray the cost thereof in the manner provided in this subsection.

A municipality may pay the cost of leasing any sewage systems and all related real and personal property for the collection, treatment, purification, and disposal in a sanitary manner of sewage from the state, or any agency or institution of the state under section 40-34-01.2, solely from revenues to be derived by the municipality from the ownership, sale, lease, disposition, and operation of the sewage systems; the funds or any other amounts invested by the municipality pursuant to section 21-06-07, or invested on the municipality's behalf by the state, or any agency of the state, in conformity with policies of the industrial commission, including investment in a guaranteed investment contract and any earnings thereon, to the extent pledged therefor; and funds, if any, appropriated annually by the governing body of the municipality or received from federal or state sources.

SECTION 11. A new section to chapter 54-01 of the North Dakota Century Code is created and enacted as follows:

Such agreements must be authorized by the board, if any, or commissioner or other executive officer of the commission, agency, or institution holding, controlling, possessing, or owning the property or on whose behalf the property is held, and must be approved by the industrial commission. For purposes of this section, the agreements include any lease, sublease, purchase agreement, lease-purchase

A lease obligation under this section does not constitute an indebtedness of the state, or any agency or institution of the state, or a pledge of the full faith and credit or unlimited taxing resources of the state, or any agency or institution of the state. Notwithstanding any other law, the state, or any agency or institution of the state, may solicit and accept one or more proposals for a lease transaction, including the arrangement thereof, under this section, and accept any proposal that is determined to be in the public interest. The bond bank, on behalf of the state, or any agency or institution of the state, may do and perform any acts and things authorized by this section, including making, entering, and enforcing all contracts or agreements necessary, convenient, or desirable for the purposes of this section.

agreement relating to the waterworks, mains, and water distribution system or sewage system; funds, if any, appropriated annually by the legislative assembly; and income or proceeds from any collateral pledged or provided therefor. A lease obligation entered under this section does not constitute an indebtedness of the industrial commission, the state, or any agency or officer or agent thereof, or a pledge of the full faith and credit or unlimited taxing resources of the industrial commission, the state, or any agency or officer or agent thereof. The industrial commission may authorize the bond bank or another agency or institution of the state to do and perform any acts and things authorized by this section, including making, entering, and enforcing all contracts or agreements necessary, convenient, or desirable for the purposes of this section.

SECTION 2. AMENDMENT. Section 49-21-01.3 of the North Dakota Century Code is amended and reenacted as follows:

49-21-01.3. Certain price increases prohibited - Essential telecommunications services. Changes in essential telecommunications services prices are prohibited except as specifically provided for in chapter 49-21 and section 49-02-01.1.

1. All increases or decreases in governmentally imposed surcharges and any financial impact on cost of essential telecommunications services caused by governmentally imposed changes in taxes, accounting practices, or separations procedures must be fully reflected in any price for those services within thirty days of the effective date of the surcharge or change.
2. The price of essential telecommunications services may be changed according to the essential telecommunications price factor. Increases may be reflected in prices after notice to the company's customers one billing period in advance. A decrease must be reflected in prices within thirty days of the effective date of the price factor. The commission shall publish the essential telecommunications price factor to be effective January 1, 1994, and annually thereafter, determined by reference to the average annual gross national product price index for the four calendar quarters ending with the second calendar quarter of the preceding calendar year. No price for a service may be changed more than once a year. Prices may be changed by service element, but the aggregate annual price change for a service may not exceed the essential telecommunications price factor. Complaints may be made pursuant to section 49-21-06 for any prices changed under this subsection. A discounted price for an essential telecommunications service is not the price of a service for purposes of this section. Discontinuing or altering any discount price for an essential telecommunications service is not a price change as regulated by this subsection.
3. 2. Nothing in this section prohibits the lowering of a price of an essential service based on reasonable business practices in a competitive environment provided that no price change may be anticompetitive or otherwise in violation of antitrust or unfair trade practice laws.
4. 3. Whenever a price change provided for in this section is less than three percent of the existing price, notwithstanding any time limitations in this

section, a telecommunications company may accumulate such changes in price subject to the following conditions:

- a. Price increases may be accumulated up to a percentage total of five percent.
- b. Price decreases may be accumulated only to the extent that there is an offsetting accumulated price increase of an equal or greater percentage. Accumulated price decreases may never exceed accumulated price increases.
- c. Price decreases may be accumulated only for two years beginning January first of the year in which the change is allowed.
- d. Accumulated price increases may be implemented at the discretion of the telecommunications company.
- e. The effective date of implementation of an accumulated price change may be prospective only, and in accordance with the filing requirements of section 49-21-04.

~~5.~~ 4. The monthly price of residence service for ~~group 1~~ telecommunications companies ~~defined in subsection 2 of section 49-21-04~~ with over fifty thousand subscribers may be increased after July 31, 1999, up to fifteen dollars and fifty cents and may be increased after June 30, 2000, up to eighteen dollars. A telecommunications company increasing prices under this subsection must submit a report to the commission reasonably demonstrating that it reduced the prices of its intrastate intraLATA message toll service and intrastate switched access, as such prices existed on January 1, 1999, in aggregate by an annual amount not less than the annual revenue increase resulting from the service price increases under this subsection. Reductions in message toll and switched access prices attributable to the price increases under this section must be made by similar percentages as to be accomplished in a competitively neutral manner. The commission may review the report and may set aside pursuant to section 49-21-06 the prices of intraLATA message toll service and intrastate switched access if the reductions have not been made in a revenue neutral manner and by similar percentages. Prices set aside pursuant to this section remain effective until the effective date of revised prices filed by the telecommunications company within forty-five days of the commission's order.

~~6.~~ 5. The commission may investigate an increased price allowed pursuant to subsection ~~5~~ 4 and may set aside all or part of the increase if it finds the price is unfair or unreasonable, provided a price for residence service at or below the price in effect on January 1, 1999, may not be set aside under this subsection or section 49-21-06. The commission may not set aside all or part of an increased price as unfair or unreasonable if the commission determines after notice and opportunity for hearing the average cost of providing residence service, as calculated under either representative embedded or forward-looking economic cost methodologies, including shared and common costs, exceeds the price resulting from the increase.

~~7.~~ 6. Subject to the limitations of this section, nothing in this chapter prohibits an incumbent local exchange carrier from deaveraging local exchange

service prices provided the incumbent local exchange carrier agrees to amend its commission approved interconnection agreements to allow for deaveraged interconnection prices effective concurrently with the deaveraged retail prices.

SECTION 3. AMENDMENT. Section 49-21-04 of the North Dakota Century Code is amended and reenacted as follows:

49-21-04. Price schedules filed with the commission. Each telecommunications company shall file with the commission in such form and detail as it may require, subject to considerations for maintaining trade secrets or commercial confidentiality:

1. Schedules showing all prices, including those prices set by contract and the individual unbundled or unpackaged price of any essential service, in effect at the time for any essential telecommunications service rendered ~~to the public~~ by such telecommunications company within this state;
2. All rules and regulations which in any manner affect the prices charged or to be charged for such essential service; and
3. All new prices and any price ~~changes~~ increases of essential services at least twenty days before the effective date of the new price or price ~~change~~ increase, unless the commission upon application and for good cause allows a lesser time, and except prices changed in accordance with subsection 1 of section 49-21-01.3, which will be filed at least ten days before the expiration of the thirty-day period mandated in that section. No price or price change is effective until filed in accordance with this chapter.

SECTION 4. AMENDMENT. Section 49-21-05 of the North Dakota Century Code is amended and reenacted as follows:

49-21-05. Schedule of prices to be on file available for public inspection. The commission may require any telecommunications company to ~~keep on file and accessible~~ make available to the public, subject to considerations for maintaining trade secrets or commercial confidentiality, ~~at any city in which the telecommunications company has a public office,~~ a printed or electronic schedule of such prices for essential telecommunications services offered by the telecommunications company as the commission may deem necessary.

SECTION 5. AMENDMENT. Section 49-21-07 of the North Dakota Century Code is amended and reenacted as follows:

49-21-07. Discrimination unlawful. It shall be unlawful for any telecommunications company to make any unjust or unreasonable discrimination in prices, practices, or service for or in connection with like telecommunications service, or give any undue or unreasonable preference or advantage to any person or telecommunications company or to subject any person or telecommunications company to any undue or unreasonable prejudice or disadvantage in the service rendered by it to the public or to a telecommunications company, or to charge or receive for any such service rendered, more or less than the prices provided for in the schedules then on file with the commission. A telecommunications company providing intrastate interexchange message toll services shall charge uniform prices on all routes where it offers such services. A telecommunications company providing

local exchange service and message toll and private line services shall cover in its price for message toll and private line services, the price of providing access service in its own exchanges. Nothing in this chapter shall be construed to prevent any telecommunications company from offering or providing volume or other discounts based on reasonable business practices; from introducing promotional offerings, including special incentives, competitive discounts, and price waivers; from passing through any state, municipal or local taxes or fees to the specific geographic areas from which the taxes or fees originate; from contracting with a retail subscriber to provide telecommunications services at prices negotiated with the subscriber to meet service requests of the subscriber or competitive offerings of another telecommunications company; or from furnishing free telecommunications service or service at reduced prices to its officers, agents, servants, or employees.

SECTION 6. AMENDMENT. Section 49-21-08.1 of the North Dakota Century Code is amended and reenacted as follows:

49-21-08.1. Dialing parity - IntraLATA equal access. ~~The provisioning of dialing parity on an intraLATA basis, otherwise known as 1 + intraLATA equal access, may not be required to be provided by any company providing local exchange service prior to January 1, 2000.~~ Every local exchange carrier shall provide intraLATA 1 + equal access dialing parity ~~no later than January 1, 2000.~~

SECTION 7. AMENDMENT. Section 49-21-10.1 of the North Dakota Century Code is amended and reenacted as follows:

49-21-10.1. Excessive charges - Refunds. When complaint has been made to the commission or by the commission on its own motion concerning any price for a telecommunications service, and the commission has found, upon a hearing after notice given as required by law, that the telecommunications company has charged for such service a price in excess of the price permitted under section 49-21-01.3, has discriminated unreasonably, or has otherwise violated a statute, rule, or order, the commission may order that the telecommunications company make due refunds or reparations, with interest from ~~the~~ a date of collection not earlier than two years from when the complaint was filed.

SECTION 8. AMENDMENT. Section 49-21-20 of the North Dakota Century Code is amended and reenacted as follows:

49-21-20. Penalty. Any person who shall violate any of the provisions of ~~sections~~ section 49-21-18 ~~and 49-21-49~~ shall be guilty of a class B misdemeanor.

SECTION 9. AMENDMENT. Section 49-21-23 of the North Dakota Century Code is amended and reenacted as follows:

49-21-23. Construction of facilities - Cost recovery.

1. A telecommunications company is not required to construct, modify, or extend telecommunications facilities at the request or for the use of another telecommunications company except as required by the federal act.
2. The commission must allow a telecommunications company to recover in advance from the benefited company or customer any nonrecurring costs incurred at the request of another telecommunications company, a particular customer, or to comply with a commission order, including any order issued under section 49-21-10.2, for construction, modification or

extension of the company's network in excess of the normal course of business and primarily for the benefit of another telecommunications company or for a particular customer, and not due to any negligence or misconduct on the part of the company. This subsection does not apply to:

- a. Costs incurred to extend or modify a network to provide for interconnection, collocation, network access, or the sale of unbundled network elements, unless those costs are identifiable and specific to a particular end-user customer, or wholesale services to another telecommunications company under the federal act;

The department may not offer or pay, directly or indirectly, any material inducement, bonus, or other financial incentive to a participating provider based on the denial or delay of medically necessary and appropriate prescription drug therapy or based on a reduction in the proportion of recipients who receive prescription drug therapy under the medical assistance program.

SECTION 9. Maximum allowable costs and use of edits. To promote efficiency and savings in the department's service to eligible medical assistance program recipients, the department shall create and implement the broadest possible list of drugs that can be paid at the maximum allowable costs. Prenatal exposure to controlled substances - Reporting requirements.

1. An individual required to report under section 50-25.1-03 who has knowledge of or reasonable cause to suspect that a woman is pregnant and has used a controlled substance for a nonmedical purpose during the pregnancy shall report the circumstances to the department if the knowledge or suspicion is derived from information received by that individual in that individual's official or professional capacity.
2. Any individual may make a voluntary report if the individual has knowledge of or reasonable cause to suspect that a woman is pregnant and has used a controlled substance for a nonmedical purpose during the pregnancy.
3. If a report alleges a pregnant woman's use of a controlled substance for a nonmedical purpose, the department or its designee shall immediately initiate an appropriate assessment and offer services indicated under the circumstances. Services offered may include a referral for chemical dependency assessment, a referral for chemical dependency treatment if recommended, or a referral for prenatal care. The department or its designee may also take any appropriate action under chapter 25-03.1.
4. A report and assessment under this section is not required if the pregnant woman voluntarily enters treatment in a licensed treatment program. If the pregnant woman does not complete voluntary treatment or fails to follow treatment recommendations, an individual required to report under section 50-25.1-03 who has knowledge of the failure to complete voluntary treatment or failure to follow treatment recommendations shall make a report as required by this section.
5. A report under this section must be made as described in section 50-25.1-04 and must be sufficient to identify the woman, the nature and extent of use, if known, and the name and address of the individual making the report.

If the test results are positive, the physician shall report the results under section 50-25.1-03.1. A negative test result or the

pregnant woman's refusal to consent to a test does not eliminate the obligation to report under section 50-25.1-03 if other evidence gives the physician reason to believe the patient has used a controlled substance for a nonmedical purpose.

2. If a physician has reason to believe based on a medical assessment of the mother or the infant that the mother used a controlled substance for a nonmedical purpose during the pregnancy, the physician shall administer, without the consent of the child's parents or guardian, to the newborn infant born under the physician's care a toxicology test to determine whether there is evidence of prenatal exposure to a controlled substance. If the test results are positive, the physician shall report the results as neglect under section 50-25.1-03. A negative test result does not eliminate the obligation to report under section 50-25.1-03 if other medical evidence of prenatal exposure to a controlled substance is present.
3. A physician or any other medical personnel administering a toxicology test to determine the presence of a controlled substance in a pregnant woman, in a woman within eight hours after delivery, or in a child at birth or during the first month of life is immune from civil or criminal liability arising from administration of the test if the physician ordering the test believes in good faith that the test is required under this section and the test is administered in accordance with an established protocol and reasonable medical practice. A physician or any other medical personnel who determines in good faith not to administer a toxicology test under this section is immune from liability for not administering the test.

SECTION 4. A new section to chapter 50-25.1 of the North Dakota Century Code is created and enacted as follows:

Prenatal exposure to alcohol abuse - Reporting requirements.

1. An individual required to report under section 50-25.1-03 who has knowledge of or reasonable cause to suspect that a woman is pregnant and has abused alcohol after the woman knows of the pregnancy may:

2. An individual may make a voluntary report if the individual has knowledge of or reasonable cause to suspect that a woman is pregnant and has abused alcohol during the pregnancy.
3. If the woman is referred for a chemical dependency assessment under subdivision a of subsection 1 and fails to obtain an assessment or refuses to comply with the recommendations of the assessment, an individual required to report under section 50-25.1-03 who has knowledge of the failure to obtain the assessment or refusal to comply

with recommendations of the assessment shall make a report to the department.

4. If a report alleges a pregnant woman has abused alcohol, the department or its designee shall immediately initiate an appropriate assessment and offer services indicated under the circumstances. Services offered may include a referral for chemical dependency assessment, a referral for chemical dependency treatment, if recommended, or a referral for prenatal care. The department or its designee may also take any appropriate action under chapter 25-03.1.
5. A report and assessment under this section is not required if the pregnant woman voluntarily enters treatment in a licensed treatment program. If the pregnant woman does not complete voluntary treatment or fails to follow treatment recommendations, an individual required to report under section 50-25.1-03 who has knowledge of the failure to complete voluntary treatment or failure to follow treatment recommendations shall make a report as required by this section.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. Chapter 51-26 of the North Dakota Century Code is created and enacted as follows:

51-26-01. Definitions. In this chapter, unless the context or subject matter otherwise requires, the terms shall have the meanings as follows:

1. "Automatic dialing-announcing device" means a device that selects and dials telephone numbers and that, working alone or in conjunction with other equipment, disseminates a prerecorded or synthesized voice message to the telephone number called.
2. "Caller" means a person, corporation, firm, partnership, association, or legal or commercial entity that attempts to contact, or that contacts, a subscriber in this state by using a telephone or a telephone line.
3. "Caller identification service" means a telephone service that permits telephone subscribers to see the telephone number of incoming telephone calls.
4. "Established business relationship" means a relationship between a seller and consumer based on a free trial newspaper subscription or on the consumer's purchase, rental, or lease of the seller's goods or services or a financial transaction between the consumer and seller, within the twenty-four months immediately preceding the date of a telemarketing call.
5. "Message" means any telephone call, regardless of its content.
6. "Subscriber" means a person who has subscribed to residential telephone services from a telephone company or the other persons living or residing with the subscribing person, or a person who has subscribed to wireless or mobile telephone services.
7. "Telephone solicitation" means any voice communication over a telephone line for the purpose of encouraging charitable contributions, or the purchase or rental of, or investment in, property, goods, services, or merchandise, including as defined in subsection 3 of section 51-15-03, whether the communication is made by a live operator, through the use of an automatic dialing-announcing device, or by other means. Telephone solicitation does not include communications:

- a. To any subscriber with that subscriber's prior express written request, consent, invitation, or permission.
- b. By or on behalf of any person with whom the subscriber has an established personal or business relationship.
- c. By or on behalf of a charitable organization that is exempt from federal income taxation under section 501 of the Internal Revenue Code, but only if the following applies:
 - (1) The telephone call is made by a volunteer or employee of the charitable organization; and

- f. By or on behalf of a political party, candidate, or other group with a political purpose, as defined in section 16.1-08.1-01.

51-26-02. Use of prerecorded or synthesized voice messages. A caller may not use or connect to a telephone line an automatic dialing-announcing device unless the subscriber has knowingly requested, consented to, permitted, or authorized receipt of the message or the message is immediately preceded by a live operator who obtains the subscriber's consent before the message is delivered. This section and section 51-26-05 do not apply to messages from school districts to students, parents, or employees, messages to subscribers with whom the caller has a current business relationship, or messages advising employees of work schedules.

51-26-03. Message requirements. When the message is immediately preceded by a live operator, the operator must disclose at the outset of the message:

- 1. The name of the business, firm, organization, association, partnership, or entity for which the message is being made;
- 2. The purpose of the message;
- 3. The identity or kinds of goods or services the message is promoting; and

4. If applicable, the fact that the message intends to solicit payment or commitment of funds.

51-26-04. Requirements on automatic dialing-announcing devices. A caller may not use an automatic dialing-announcing device unless the device is designed and operated so as to disconnect within ten seconds after termination of the telephone call by the subscriber. A caller may not use an automatic dialing-announcing device that uses a random or sequential number generator unless the equipment excludes calls to the following telephone numbers:

1. Emergency telephone numbers, including 911, of any hospital, medical physician, health care facility, ambulance or emergency medical provider, fire protection facility, or law enforcement agency.
2. Any guest room or patient room of a hospital, health care facility, elderly care home, or similar establishment.

4. The telephone numbers maintained on a do-not-call list established pursuant to section 51-26-09.

51-26-05. Time of day limit. A caller may not use an automatic dialing-announcing device nor make any telephone solicitation before eight a.m. or after nine p.m. at the telephone subscriber's location.

51-26-06. Prohibited telephone solicitations. A caller may not make or cause to be made any telephone solicitation to the telephone line of any subscriber in this state who, for at least ninety days before the date the call is made, has been on the do-not-call list established and maintained or used by the attorney general under section 51-26-09 or the national do-not-call registry established and maintained by the federal trade commission under title 16, Code of Federal Regulations, part 310.

51-26-07. Identification by caller. Any caller who makes a telephone solicitation to a subscriber in this state shall immediately and clearly state at the beginning of the call the caller's true first and last name, the caller's telephone number, the caller's city and state of location, and the name of the business on whose behalf the telephone solicitation is made.

51-26-08. Interference with caller identification. A caller who makes a telephone solicitation to a subscriber in this state may not knowingly use any method to block or otherwise deliberately circumvent the subscriber's use of a caller identification service.

51-26-09. Establishment of do-not-call list - Federal trade commission do-not-call registry.

1. The attorney general shall establish and maintain a list of telephone numbers of subscribers who object to receiving telephone solicitations. The attorney general may fulfill the requirements of this section by contracting with an agent for the establishment and maintenance of the list or by using the national do-not-call registry established and maintained by the federal trade commission under title 16, Code of

Federal Regulations, part 310. The attorney general may adopt rules governing the establishment, distribution, and operation of the do-not-call list, as the attorney general deems necessary and appropriate to fully implement the provisions of this chapter, in addition to the following provisions:

- a. Any subscriber may contact the attorney general or the attorney general's agent and give notice, in the manner prescribed by the attorney general, that the subscriber objects to receiving telephone solicitations. The attorney general shall add the telephone number of any subscriber who gives notice of objection to the list maintained pursuant to this section.
 - b. Any notice given by a subscriber under this section is effective for five years unless revoked by the subscriber. Any subsequent notices given by the same subscriber related to a different telephone number are separate from the original notice.
 - c. The attorney general shall allow subscribers to give notice under this section by mail, telephone, or electronically.
 - d. The attorney general shall establish the procedures by which a person wishing to make telephone solicitations may obtain access to the list. To the extent practicable, those procedures shall allow for access to paper or electronic copies of the list.
 - e. The attorney general may include in the list established under this section subscribers who live in North Dakota and are included in the national do-not-call registry established and maintained by the federal trade commission under title 16, Code of Federal Regulations, part 310. The attorney general may provide to the federal trade commission the telephone numbers of North Dakota subscribers who are in the attorney general's do-not-call list or who have otherwise notified the attorney general of the subscriber's objection to receiving telephone solicitations for inclusion in the national do-not-call registry.
 - f. A person or entity desiring to make telephone solicitations shall pay a fee, payable to the attorney general, for access to, or for paper or electronic copies of, the list established under section 51-26-09. The fee for acquisition of the list may not exceed two hundred dollars per quarter, or eight hundred dollars per year.
2. Notwithstanding any other provision of this chapter, the attorney general may designate the national do-not-call registry established and maintained by the federal trade commission under title 16, Code of Federal Regulations, part 61, as the state do-not-call list.

51-26-10. Release of information. Information contained in the list established under section 51-26-09 may not be used for any purposes except compliance with this chapter or in a proceeding or action under this chapter or chapter 51-15. The information contained in the list is an exempt record as defined in section 44-04-17.1.

51-26-11. Private enforcement. Any person who receives a telephone solicitation or message in violation of this chapter may bring an action to enjoin such

violation, or for damages, or both. The court may award the plaintiff the plaintiff's actual damages or damages up to two thousand dollars for each violation, whichever is greater. The court may award the plaintiff costs, expenses, and reasonable attorney's fees. This section shall not limit any other claims the person may have against the caller.

51-26-12. Limitation of actions. No action or proceeding may be brought under this chapter:

51-26-14. Cease and desist orders. When it appears to the attorney general that a person has engaged in, or is engaging in, any practice declared to be unlawful by this chapter or by any rule or order of the attorney general issued under this chapter, the attorney general, without notice and hearing, may issue any cease and desist order which the attorney general deems necessary or appropriate in the public interest, including if any person fails or refuses to file any statement or report, or obey any subpoena issued by the attorney general under this chapter or chapter 51-15. A person aggrieved by an order issued under this section may request a hearing before the attorney general if a written request is made within ten days after the receipt of the order. An adjudicative proceeding under this section must be conducted in accordance with chapter 28-32, unless otherwise specifically provided herein.

51-26-15. Civil penalties in an adjudicative proceeding. When it appears to the attorney general that a person has engaged in, or is engaging in, any practice declared to be unlawful by this chapter or by any rule or order of the attorney general issued under this chapter, the attorney general may impose by order and collect a civil penalty against any person found in an adjudicative proceeding to have violated any provision of this chapter, or any rule or order adopted under this chapter, in an amount not more than two thousand dollars for each violation of this chapter or any rule or order adopted under this chapter. The attorney general may bring an action in district court to recover penalties under this section.

51-26-16. Costs recoverable in adjudicative proceeding - Hearing costs. If the attorney general prevails in an adjudicative proceeding pursuant to section 51-26-14 or 51-26-15, the attorney general may assess the nonprevailing person for all adjudicative proceeding and hearing costs, including reasonable attorney's fees, investigation fees, costs, and expenses of any investigation and action brought under the provisions of this chapter.

51-26-17. Civil penalties in court proceeding. The court may award the attorney general civil penalties of not more than two thousand dollars per violation of this chapter. A violation of this chapter constitutes a violation of chapter 51-15 and the court may award civil penalties under section 51-15-11.

51-26-18. Costs recoverable in court proceeding. The attorney general is entitled to an award of reasonable attorney's fees, investigation fees, costs, and expenses of any investigation and action brought under the provisions of this chapter.

51-26-19. Separate violations - Nonexclusive remedies and penalties. For each remedy or penalty under this chapter or chapter 51-15, or otherwise provided by law, each telephone solicitation or message shall constitute a separate violation for purposes of an adjudicative proceeding or an action in district court. The remedies, duties, prohibitions, and penalties of this chapter are not exclusive and are in addition to all other causes of action, remedies, and penalties in chapter 51-15, or otherwise provided by law.

51-26-20. Caller identification service nonliability. No provider of caller identification service shall be held liable for violations of this chapter committed by other persons or entities.

COMMERICAL ELECTRONIC MAIL SOLICITATION

AN ACT to create and enact chapter 51-27 of the North Dakota Century Code, relating to commercial electronic mail solicitation; to provide a penalty; and to provide an expiration date.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. Chapter 51-27 of the North Dakota Century Code is created and enacted as follows:

51-27-01. Definitions. In this chapter, unless context otherwise requires:

1. "Assist the transmission" means actions taken by a person to provide substantial assistance or support that enables any person to formulate, compose, send, originate, initiate, or transmit a commercial electronic mail message when the person providing the assistance knows or consciously avoids knowing that the initiator of the commercial electronic mail message is engaged, or intends to engage, in any practice that violates chapter 51-15.
2. "Commercial electronic mail message" means an electronic mail message sent to promote real property, goods, or services for sale or lease. The term does not mean an electronic mail message to which an interactive computer service provider has attached an advertisement in exchange for free use of an electronic mail account if the sender has agreed to such an arrangement.
3. "Electronic mail address" means a destination, commonly expressed as a string of characters, to which electronic mail may be sent or delivered.
4. "Initiate the transmission" refers to the action by the original sender of an electronic mail message, not to the action by any intervening interactive computer service that may handle or retransmit the message, unless the intervening interactive computer service assists in the transmission of an electronic mail message when the interactive computer service knows, or consciously avoids knowing, that the person initiating the transmission is engaged, or intends to engage, in any act or practice that violates chapter 51-15.
5. "Interactive computer service" means any information service, system, or access software provider that provides or enables computer access by multiple users to a computer server, including a service or system that provides access to the internet and systems operated or services offered by libraries and educational institutions.
6. "Internet domain name" refers to a globally unique, hierarchical reference to an internet host or service, assigned through centralized

internet naming authorities, comprising a series of character strings separated by periods, with the right-most string specifying the top of the hierarchy.

51-27-02. False or misleading messages prohibited.

1. A person may not initiate the transmission, conspire with another to initiate the transmission, or assist the transmission of a commercial electronic mail message from a computer located in this state or to an electronic mail address that the sender knows, or has reason to know, is held by a resident of this state that:
 - a. Uses a third-party's internet domain name without permission of the third party or otherwise misrepresents or obscures any information in identifying the point of origin or the transmission path of a commercial electronic mail message; or
 - b. Contains false or misleading information in the subject line.
2. For purposes of this section, a person knows that the intended recipient of a commercial electronic mail message is a resident of this state if that information is available, upon request, from the registrant of the internet domain name contained in the recipient's electronic mail address.

51-27-03. Unpermitted or misleading electronic mail - Violation of consumer protection law.

1. It is a violation of chapter 51-15 to conspire with another person to initiate the transmission or to initiate the transmission of a commercial electronic mail message that:
 - a. Uses a third-party's internet domain name without permission of the third party or otherwise misrepresents or obscures any information in identifying the point of origin or the transmission path of a commercial electronic mail message; or
 - b. Contains false or misleading information in the subject line.
2. It is a violation of chapter 51-15 to assist in the transmission of a commercial electronic mail message if the person providing the assistance knows, or consciously avoids knowing, that the initiator of the commercial electronic mail message is engaged, or intends to engage, in any act or practice that violates chapter 51-15.

51-27-04. Subject disclosure - Violation of consumer protection law.

1. The subject line of a commercial electronic mail message must include "ADV" as the first characters. If the message contains information that consists of material of a sexual nature that may only be viewed by an individual eighteen years of age or older, the subject line of the message must include "ADV-ADULT" as the first characters.
2. For purposes of this section, a commercial electronic mail message does not include a message if the recipient has consented to receive or has solicited electronic mail messages from the initiator, from an organization using electronic mail to communicate exclusively with its

members, from an entity which uses electronic mail to communicate exclusively with its employees or contractors, or if there is a business or personal relationship between the initiator and the recipient.

3. For purposes of this section, a business relationship means a prior or existing relationship formed between the initiator and the recipient, with or without an exchange of consideration, on the basis of an inquiry, application, purchase, or services offered by the initiator or an affiliate or agent of the initiator. "Affiliate" means a person that directly or indirectly controls, is controlled by, or is under common control with a specified person.
4. It is a violation of chapter 51-15 to conspire with another person to initiate the transmission or to initiate the transmission of a commercial electronic mail message that violates this section.

51-27-05. Toll-free number.

1. A sender initiating the transmission of a commercial electronic mail message shall establish a toll-free telephone number, a valid sender-operated return electronic mail address, or another easy-to-use electronic method that the recipient of the commercial electronic mail message may call or access by electronic mail or other electronic means to notify the sender not to transmit any further unsolicited commercial electronic mail messages. The notification process may include the ability for the commercial electronic mail messages recipient to direct the initiator to transmit or not transmit particular commercial electronic mail messages based upon products, services, divisions, organizations, companies, or other selections of the recipient's choice.
2. A commercial electronic mail message must include a statement informing the recipient of a toll-free telephone number that the recipient may call, or a valid return address to which the recipient may write or access by electronic mail or another electronic method established by the initiator, notifying the sender not to transmit to the recipient any further unsolicited commercial electronic mail messages to the electronic mail address specified by the recipient, and explaining the manner in which the recipient may specify what commercial electronic mail messages the recipient does and does not want to receive.

51-27-06. Violations - Damages.

1. Damages to the recipient of a commercial electronic mail message sent in violation of this chapter are five hundred dollars, or actual damages, whichever is greater.
2. Damages to an interactive computer service resulting from a violation of this chapter are one thousand dollars, or actual damages, whichever is greater.

51-27-07. Blocking of commercial electronic mail by interactive computer service - Immunity from liability.

1. An interactive computer service may block the receipt or transmission through its service of any commercial electronic mail that it reasonably believes is, or will be, sent in violation of this chapter.

2. An interactive computer service may not be held liable for any action voluntarily taken in good faith to block the receipt or transmission through its service of any commercial electronic mail which it reasonably believes is, or will be, sent in violation of this chapter.

51-27-08. Nonexclusive causes of action, remedies, and penalties. The remedies, duties, prohibitions, and penalties of this chapter are not exclusive and are in addition to all other causes of action, remedies, and penalties in chapter 51-15 or otherwise provided by law.

51-27-09. Relationship to federal law. If any federal law is enacted that regulates false, misleading, or unsolicited commercial electronic mail messages, but does not preempt state law on the subject, the federal law supersedes any conflicting provision of this chapter.

SECTION 2. EXPIRATION DATE. The governor shall certify to the legislative council the effective date of any federal legislation that preempts state regulation of false, misleading, or unsolicited commercial electronic mail messages. This Act becomes ineffective upon the effective date contained in the certification of federal legislation that preempts state regulation of false, misleading, or unsolicited commercial electronic mail messages.

The industrial commission may issue subordinate or residual bonds in a total principal amount not to exceed twenty-three million dollars plus costs of issuance and any reasonably required reserve whenever the industrial commission determines that it is appropriate or expedient to do so and the bonds may contain such terms and provisions as the commission may determine. The commission may refund and refinance the bonds from time to time as often as it is advantageous and in the public interest to do so. The bonds shall be a ~~paramount~~ charge upon a sufficient designated portion of the resources of the student loan trusts, subject only to necessary administrative expenses of the trusts duly appropriated out of the interest earning resources thereof. The bonds may bear such rate or rates of interest as the commission may provide. They are not indebtedness of the state of North Dakota or of any agency, board, department, or officer or agent thereof. Without limiting the foregoing, the commission may request the organization of a nonprofit corporation meeting the requirements of the Internal Revenue Code of 1954, as amended and redesignated as the Internal Revenue Code of 1986 [Pub. L. 99-54], and as it may be amended from time to time, and enter into one or more agreements with such corporation providing for the establishment of a secondary market program in the state of North Dakota for the acquisition by the corporation of such loans made pursuant to title IV, part B of the Higher Education Act of 1965 [Pub. 2. Notwithstanding any other provision of law, a political subdivision having an existing police pension plan may merge that plan into the public employees retirement system under rules adopted by and in a manner determined by the board.
3. Notwithstanding any other provision of this chapter, ~~no~~ a political subdivision of this state not currently participating in the public employees retirement system on June 30, 1977, may thereafter not become a participant in the retirement system until an actuarial study is performed under the direction of the board to calculate the cost of that portion of benefits to be paid by the retirement system to the employees of the political subdivision based on any prior service or on any service after June 30, 1977, and before the date of initial participation in the retirement system, or both; and the political subdivision has adopted a method, approved by the board, to pay the costs determined in this subsection over a period not to exceed twenty-five years from June 30, 1977. No political subdivision may discontinue participation in the fund without first making such payment to the fund as may be necessary for the fund to pay the future benefits of the eligible employees of the political subdivision as determined on the basis of rules adopted by the board required employer contribution. The required employer contribution must be an amount determined sufficient to fund the normal cost and amortize any past service liability over a period not to exceed thirty years as determined by the board. Any fees incurred in performing the actuarial study must be paid for by the political subdivision in a manner determined by the board.

If contributions are paid by the employer, they must be treated as employer contributions in determining tax treatment under this code and the federal Internal Revenue Code. If contributions are paid by the employer, they may not be included as gross income of the employee in determining tax treatment under this code and the Internal Revenue Code until they are distributed or made available. The employer shall pay these employee

The employer shall pay these contributions by effecting an equal cash reduction in the gross salary of the employee or by an offset against future salary increases or by a contribution of a reduction in gross salary and offset against future salary increases. If employee contributions are paid by the employer, they must be treated for the purposes of this chapter in the same manner and to the same extent as employee contributions made prior to the date on which employee contributions were assumed by the employer. - ~~d.~~ e. Early retirement date, except for a national guard security officer or firefighter or a peace officer or correctional officer employed by a political subdivision, is the first day of the month next following the month in which the member attains the age of fifty-five years and has completed three years of eligible employment. For a national guard security officer or firefighter, early retirement date is the first day of the month next following the month in which the national guard security officer or firefighter attains the age of fifty years and has completed at least three years of eligible employment. For a peace officer or correctional officer employed by a political subdivision, early retirement date is the first day of the month next following the month in which the peace officer or correctional officer attains the age of fifty years and has completed at least three years of eligible employment.

For supreme and district court judges, permanent and total disability is based solely on a judge's inability to perform judicial duties arising out of physical or mental impairment, as determined pursuant to rules adopted by the board or as provided by subdivision a of subsection 3 of section 27-23-03. A member is eligible to receive disability retirement benefits only if the member:
 - (1) Became disabled during the period of eligible employment; and
 - (2) Applies for disability retirement benefits within twelve months of the date the member terminates employment.

A member is eligible to continue to receive disability benefits as long as the permanent and total disability continues and the member submits the necessary documentation and undergoes medical testing required by the board, or for as long as the member participates in a rehabilitation program required by the board, or both. If the board determines that a member no longer meets the eligibility definition, the board may discontinue the disability retirement benefit. The board may pay the cost of any medical testing or rehabilitation services it deems necessary and these payments are appropriated from the retirement fund for those purposes.

²²³ **SECTION 8. AMENDMENT.** Section 54-52-17 of the North Dakota Century Code is amended and reenacted as follows:

54-52-17. Formulation of plan. Participating members shall receive benefits according to this section and according to rules adopted by the board, not inconsistent with this chapter. No person is entitled to receive a prior service benefit if the person was not continuously employed by a governmental unit in North Dakota for a period of not less than two years immediately prior to eligibility for retirement.

1. Participating members shall receive credit for full-time employment or its equivalent from the date they attain eligibility until their normal retirement date, postponed retirement date, or early retirement date, as defined in this section. Part-time employment will be recognized as full-time employment on a prorated basis as the board may prescribe.
2. Retirement benefits are calculated from the participating member's final average salary, which is the average of the highest salary received by the member for any thirty-six months employed during the last one hundred twenty months of employment. Months not employed are excluded in arriving at the thirty-six months to be used for the purpose of computing an average. If the participating member has worked for less than thirty-six months at the normal retirement date, the final average salary is the average salary for the total months of employment.
3. Retirement dates are defined as follows:
 - a. Normal retirement date, except for a national guard security officer or firefighter, is:
 - (1) The first day of the month next following the month in which the member attains the age of sixty-five years; or
 - (2) When the member has a combined total of years of service credit and years of age equal to eighty-five and has not received a retirement benefit under this chapter.

²²³ Section 54-52-17 was also amended by section 5 of Senate Bill No. 2033, chapter 497.

- b. Normal retirement date for a national guard security officer or firefighter is the first day of the month next following the month in which the national guard security officer or firefighter attains the age of fifty-five years and has completed at least three consecutive years of employment as a national guard security officer or firefighter immediately preceding retirement.
- c. Postponed retirement date is the first day of the month next following the month in which the member, on or after July 1, 1977, actually severs or has severed the member's employment after reaching the normal retirement date.
- d. Early retirement date, except for a national guard security officer or firefighter, is the first day of the month next following the month in which the member attains the age of fifty-five years and has completed three years of eligible employment. For a national guard security officer or firefighter, early retirement date is the first day of the month next following the month in which the national guard security officer or firefighter attains the age of fifty years and has completed at least three years of eligible employment.
- e. Disability retirement date is the first day of the month after a member becomes permanently and totally disabled, according to medical evidence called for under the rules of the board, and has completed at least one hundred eighty days of eligible employment. For supreme and district court judges, permanent and total disability is based solely on a judge's inability to perform judicial duties arising out of physical or mental impairment, as determined pursuant to rules adopted by the board or as provided by subdivision a of subsection 3 of section 27-23-03. A member is eligible to receive disability retirement benefits only if the member:
 - (1) Became disabled during the period of eligible employment; and
 - (2) Applies for disability retirement benefits within twelve months of the date the member terminates employment.

A member is eligible to continue to receive disability benefits as long as the permanent and total disability continues and the member submits the necessary documentation and undergoes medical testing required by the board, or for as long as the member participates in a rehabilitation program required by the board, or both. If the board determines that a member no longer meets the eligibility definition, the board may discontinue the disability retirement benefit. The board may pay the cost of any medical testing or rehabilitation services it deems necessary and these payments are appropriated from the retirement fund for those purposes.

4. The board shall calculate retirement benefits as follows:

- a. Normal retirement benefits for all retirees, except supreme and district court judges, reaching normal retirement date equal an annual amount, payable monthly, comprised of a service benefit

and a prior service benefit, as defined in this chapter, which is determined as follows:

- (1) Service benefit equals two percent of final average salary multiplied by the number of years of service employment.
 - (2) Prior service benefit equals two percent of final average salary multiplied by the number of years of prior service employment.
- b. Normal retirement benefits for all supreme and district court judges under the public employees retirement system reaching normal retirement date equal an annual amount, payable monthly, comprised of a benefit as defined in this chapter, determined as follows:
- (1) Benefits must be calculated from the time of appointment or election to the bench and must equal three and one-half percent of final average salary multiplied by the first ten years of judicial service, two and eighty hundredths percent of final average salary multiplied by the second ten years of judicial service, and one and one-fourth percent of final average salary multiplied by the number of years of judicial service exceeding twenty years.
 - (2) Service benefits must include, in addition, an amount equal to the percent specified in subdivision a of final average salary multiplied by the number of years of nonjudicial employee service and employment.
- c. Postponed retirement benefits are calculated as for single life benefits for those members who retired on or after July 1, 1977.
- d. Early retirement benefits are calculated as for single life benefits accrued to the date of termination of employment, but must be actuarially reduced to account for benefit payments beginning prior to the normal retirement date, which is the earlier of age sixty-five or the age at which current service plus age equals eighty-five. A retiree, other than a supreme or district court judge, is eligible for early retirement benefits only after having completed three years of eligible employment. A supreme or district court judge retiree is eligible for early retirement benefits only after having completed five years of eligible employment.
- e. Except for supreme and district court judges, disability retirement benefits are twenty-five percent of the member's final average salary. Disability retirement benefits for supreme and district court judges are seventy percent of final average salary reduced by the member's primary social security benefits and by any workers' compensation benefits paid. The minimum monthly disability retirement benefit under this section is one hundred dollars.
- f. ~~A participating member who is a vested permanent employee is entitled to purchase additional years of service credit to enable the member to qualify for the normal retirement date defined by subdivision a of subsection 3. The years of service purchased~~

~~must be added to the years of service employment under paragraph 4 of subdivision a for calculating the service benefit.~~

5. Upon termination of employment after completing three years of eligible employment, except for supreme and district court judges, who must complete five years of eligible employment, but before normal retirement date, a member who does not elect to receive early retirement benefits is eligible to receive deferred vested retirement benefits payable commencing on the member's normal retirement date equal to one hundred percent of the member's accrued single life benefits.
6. If before retiring a member dies after completing three years of eligible employment, except for supreme and district court judges, who must have completed five years of eligible employment, the board shall pay the member's account balance to the member's designated beneficiary as provided in this subsection. If the member has designated an alternate beneficiary with the surviving spouse's written consent, the board shall pay the member's account balance to the named beneficiary. If the member has named more than one primary beneficiary, the board shall pay the member's account balance to the named primary beneficiaries in the percentages designated by the member or, if the member has not designated a percentage for the beneficiaries, in equal percentages. If one or more of the primary beneficiaries has predeceased the member, the board shall pay the predeceased beneficiary's share to the remaining primary beneficiaries. If there are no remaining primary beneficiaries, the board shall pay the member's account balance to the contingent beneficiaries in the same manner. If there are no remaining designated beneficiaries, the board shall pay the member's account balance to the member's estate. If the member has not designated an alternate beneficiary or the surviving spouse is the beneficiary, the surviving spouse of the member may select a form of payment as follows:
 - a. If the member was a supreme or district court judge, the surviving spouse may select one of the following optional forms of payment:
 - (1) A lump sum payment of the member's retirement account as of the date of death.
 - (2) Payments as calculated for the deceased member as if the member was of normal retirement age at the date of death, payable until the spouse dies.
 - b. The surviving spouse of all other members may select one of the following options:
 - (1) A lump sum payment of the member's retirement account as of the date of death.
 - (2) Payments for sixty months as calculated for the deceased member as if the member was of normal retirement age at the date of death.
 - (3) Payment of a monthly retirement benefit equal to fifty percent of the deceased member's accrued single life retirement benefits until the spouse dies.

- (4) If the member dies on or after the member's normal retirement date, the payment of a monthly retirement benefit equal to an amount that would have been paid to the surviving spouse if the member had retired on the day of the member's death and had selected a one hundred percent joint and survivor annuity, payable until the spouse dies. A surviving spouse who received a benefit under this subsection as of July 31, 1995, is entitled to the higher of that person's existing benefit or the equivalent of the accrued benefit available under the one hundred percent joint and survivor provision as if the deceased member were of normal retirement age, with the increase payable beginning August 1, 1995.
7. If a member not coming under the provisions of subsection 6 terminates employment because of death, permanent and total disability, or any voluntary or involuntary reason prior to retirement, the member or the member's designated beneficiary is entitled to the member's account balance at termination. The board shall automatically refund a member's account balance if the member has completed less than three years of eligible employment and was not a supreme or district court judge. If the member was a supreme or district court judge, the board shall automatically refund a member's account balance if the member completed less than five years of eligible employment. A member may waive the refund if the member submits a written statement to the board, within thirty days after termination, requesting that the member's account balance remain in the fund.
8. The surviving spouse of a member receiving retirement benefits must be the member's primary beneficiary unless there is no surviving spouse or the surviving spouse designates an alternate beneficiary in writing. If a member receiving retirement benefits or the member's surviving spouse receiving retirement benefits dies before the total amount of benefits paid to either or both equals the amount of the member's account balance at retirement, the difference must be paid to the named beneficiary of the recipient or, if there is no named beneficiary, to the recipient's estate.
9. The board shall adopt rules providing for the receipt of retirement benefits in the following optional forms:
 - a. Single life.
 - b. An actuarially equivalent joint and survivor option, with fifty percent or one hundred percent options.
 - c. An actuarially equivalent level social security option, which is available only to members who retire prior to attaining the age at which they may begin to receive unreduced social security benefits.
 - d. Life with five-year or ten-year certain options.

Except for supreme and district court judges, unless a member specifically requests that the member receive benefits according to one of these options at the time of applying for retirement, all retirement

benefits must be in the form of a single life benefit. For supreme and district court judges, unless a member specifically requests that the member receive benefits according to one of these options at the time of applying for retirement, all retirement benefits must be in the form of a lifetime monthly pension with fifty percent of the benefit continuing for the life of the surviving spouse, if any.

10. The fund may accept rollovers from other ~~qualified~~ eligible plans under rules adopted by the board for the purchase of additional service credit, but only to the extent the transfer is a rollover contribution that meets the requirement of section 408 of the Internal Revenue Code.
11. The board may accept trustee-to-trustee transfers as permitted by Internal Revenue Code section 403(b)(13) and section 457(e)(17) from an Internal Revenue Code section 403(b) annuity or Internal Revenue Code section 457 deferred compensation plan for the purchase of permissive service credit, as defined in Internal Revenue Code section 415(n)(3)(A) or as repayment of a cashout from a governmental plan under Internal Revenue Code section 415(k)(3).
12. The board may establish individual retirement accounts and individual retirement annuities as permitted under section 408(q) of the Internal Revenue Code to allow employees to make voluntary employee contributions. The board may adopt rules to implement and administer the accounts and annuities under this section.

If an action is to be taken by an agency or governing body under this section, notice of intent to take the action must be given to the director at the onset of the planning process. At the director's request, the agency or governing body shall inform the director of each meeting at which planning or decisions on a project are on the agenda. At each meeting, the agency or governing body shall provide the director with an opportunity to comment or provide preservation funding for the proposed project and the agency or governing body shall consider the director's comments or offers of funding in the development and implementation of the project. If a petition is filed, the matter must be submitted for a vote of the qualified electors at the next special, primary, or general election held in that jurisdiction. All actions to remove, demolish, or significantly degrade the historical characteristics of a building or real property are stayed for fourteen days after the governing body's publication of notice of its final action, and if notice of intention to seek a public vote is filed, actions are stayed until either the petition fails or the public vote is held. 2. Fifty percent for the third taxable year of operation of the transmission line.
3. Twenty-five percent for the fourth taxable year of operation of the transmission line.

After the fourth taxable year of operation of the transmission line, the transmission line and its associated transmission substations are exempt from property taxes and are subject to a tax at the rate of three hundred dollars per mile [1.61 kilometers] or fraction thereof of the line located in this state. The tax imposed under this subsection does not apply to a transmission line initially placed in service on or after October 1, 2002, for the first taxable year after the line is initially placed in service, and the tax imposed under this subsection on a transmission line initially placed in service on or after October 1, 2002, must be reduced by:

The board shall publish the preliminary resolution in the official newspaper of the county, at least once during two different weeks within the thirty-day period immediately following the adoption of the preliminary resolution. The board of county commissioners shall hold at least one public hearing and receive comments regarding the consolidation of mill levies. The preliminary resolution may be referred to the qualified electors of the county by a petition protesting the consolidation. The petition must be signed by ten percent or more of the total number of qualified electors of the county voting for governor at the most recent gubernatorial election, and filed with the county auditor before four p.m. on the ninetieth day after the preliminary resolution is adopted. A refund of federal income tax must be reported and included in North Dakota taxable income in the year in which the tax was originally deducted. Provided, that for purposes of this section, any person required to file a state income tax return under this chapter, but who has not computed a federal taxable income figure, shall compute a federal taxable income figure using a pro forma return in order to determine a federal taxable income figure to be used as a starting point in computing state income tax under this section. - g. If married individuals who file a joint federal income tax return are required to file separate state income tax returns under any provision of this chapter, the tax under this subsection for each spouse must be determined by applying the rates under subdivision b to the spouses' joint North Dakota taxable income and prorating the result between the spouses based on their separate North Dakota taxable incomes.
- h. For taxable years beginning after December 31, 2001, the tax commissioner shall prescribe new rate schedules that apply in lieu of the schedules set forth in subdivisions a through e. The new schedules must be determined by increasing the minimum and maximum dollar amounts for each income bracket for which a tax is imposed by the cost-of-living adjustment for the taxable year as determined by the secretary of the United States treasury for purposes of section 1(f) of the United States Internal Revenue Code of 1954, as amended. For this purpose, the rate applicable to each income bracket may not be changed, and the manner of applying the cost-of-living adjustment must be the same as that used for adjusting the income brackets for federal income tax purposes.

- c. Reduced by the amount equal to the earnings that are passed through to a taxpayer in connection with an allocation and apportionment to North Dakota under chapter 57-35.3.
 - d. Reduced by thirty percent of the excess of the taxpayer's net long-term capital gain for the taxable year over the net short-term capital loss for that year, as computed for purposes of the Internal Revenue Code of 1986, as amended.
 - e. Increased by the amount of a lump sum distribution for which income averaging was elected under section 402 of the Internal Revenue Code of 1986 [26 U.S.C. 402], as amended. This adjustment does not apply if the taxpayer received the lump sum distribution while a nonresident of this state and the distribution is exempt from taxation by this state under federal law.
 - f. Increased by an amount equal to the losses that are passed through to a taxpayer in connection with an allocation and apportionment to North Dakota under chapter 57-35.3.
3. ~~Each adjustment in subsection 2 may be allowed only to the extent the adjustment is attributable to income allocated and apportioned to this state.~~
4. Married individuals filing a joint federal income tax return shall file a joint state income tax return if the return is filed under this section. If separate federal income tax returns are filed, one spouse's state income tax return may be filed under this section and the other spouse's income tax return may be filed under the other provisions of this chapter.
- ~~5.~~ 4. a. A resident individual, estate, or trust must be allowed a credit against the tax otherwise due under this section for the amount of any income tax imposed on the taxpayer for the taxable year by another state or territory of the United States or the District of Columbia on income derived from sources therein and which is also subject to tax under this section.
- b. The credit provided under this subsection may not exceed the proportion of the tax otherwise due under this section that the amount of the taxpayer's adjusted gross income derived from sources in the other taxing jurisdiction bears to the taxpayer's federal adjusted gross income as reported on the taxpayer's federal income tax return.
- ~~6.~~ 5. Individuals, estates, or trusts that file an amended federal income tax return changing their federal taxable income figure for a year for which an election to file state income tax returns has been made under this section shall file an amended state income tax return to reflect the changes on the federal income tax return.
- ~~7.~~ 6. The tax commissioner may prescribe procedures and guidelines to prevent requiring income that had been previously taxed under this chapter from becoming taxed again because of the provisions of this

section and may prescribe procedures and guidelines to prevent any income from becoming exempt from taxation because of the provisions of this section if it would otherwise have been subject to taxation under the provisions of this chapter.

- ~~8-~~ 7. A taxpayer filing a return under this section is entitled to the credit provided under section 57-38-01.20.
- ~~9-~~ 8. A taxpayer filing a return under this section is entitled to the exemptions or credits provided under sections 40-63-04, 40-63-06, and 40-63-07.
- ~~10-~~ 9. a. A taxpayer is entitled to a credit against the tax imposed by this section for any unused federal credit for prior year minimum tax. "Unused federal credit for prior year minimum tax" means the amount of the federal credit for prior year minimum tax attributable to federal alternative minimum tax included in the taxpayer's federal income tax liability for purposes of this section for taxable years beginning before January 1, 2001, reduced by the total amount of the federal credit for prior year minimum tax claimed on the taxpayer's federal income tax return for all taxable years beginning after December 31, 2000.
- b. The credit under this subsection is equal to fourteen percent of the portion of the unused federal credit for prior year minimum tax claimed on the taxpayer's federal income tax return and may not exceed the taxpayer's tax liability under this section for the taxable year. For a nonresident taxpayer, the credit determined under this subsection must be multiplied by the percentage that the nonresident taxpayer's North Dakota adjusted gross income is of the nonresident's federal adjusted gross income.
- c. The credit under this subsection is not allowed for taxable years beginning after December 31, 2004.
- ~~11-~~ 10. a. At the election of an individual taxpayer engaged in a farming business, the tax imposed by subsection 1 for the taxable year must be equal to the sum of the following:
- (1) The tax computed under subsection 1 on North Dakota taxable income reduced by elected farm income.
- (2) The increase in tax imposed by subsection 1 which would result if North Dakota taxable income for each of the three prior taxable years were increased by an amount equal to one-third of the elected farm income. For purposes of applying this paragraph to taxable years beginning before January 1, 2001, the increase in tax must be determined by recomputing the tax in the manner prescribed by the tax commissioner.
- b. For purposes of this subsection, "elected farm income" means that portion of North Dakota taxable income for the taxable year which is elected farm income as defined in section 1301 of the Internal Revenue Code of 1986 [26 U.S.C. 1301], as amended.

- c. The reduction in North Dakota taxable income under this subsection must be taken into account for purposes of making an election under this subsection for any subsequent taxable year.
 - d. The tax commissioner may prescribe rules, procedures, or guidelines necessary to administer this subsection.
- 42- 11. The tax commissioner may prescribe tax tables, to be used in computing the tax according to subsection 1, if the amounts of the tax tables are based on the tax rates set forth in subsection 1. If prescribed by the tax commissioner, the tables must be followed by every individual, estate, or trust determining a tax under this section.
- 43- 12. An individual, estate, or trust is entitled to a credit against the tax determined under this section as calculated under section 57-38.6-03.
- 44- 13. A taxpayer filing a return under this section is entitled to the credit provided under section 57-38.5-03.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Subsections 2 and 6 of section 57-38-04 of the North Dakota Century Code are amended and reenacted as follows:

2. Except as provided in subsection 1:
 - a. Income received from personal or professional services performed by residents of this state, regardless of where such services are performed, and income received by residents of this state from intangible personal property must be assigned to this state. If a tax is paid to another state or territory of the United States or to the District of Columbia on any income assigned to this state under this subsection, a credit for any tax so paid may be deducted from the tax assessed under this chapter ~~if written proof of such payment is furnished to the tax commissioner~~; provided, that this credit for such tax may not exceed the proportion of the tax otherwise due under this chapter that the amount of the taxpayer's adjusted gross income derived from sources in the other taxing jurisdiction bears to the taxpayer's adjusted gross income as computed pursuant to the Internal Revenue Code of 1954, as amended. The tax commissioner may require written proof of the tax paid to another state. The required proof must be provided in a form and manner as determined by the tax commissioner.
 - b. Notwithstanding any other provision of this chapter, the compensation received from services performed within this state by an individual, who performs services for a common carrier engaged in interstate transportation and who resides and has the individual's place of abode to which the individual customarily returns at least once a month in another state, shall be excluded from income to the extent that such income is subject to an income tax imposed by the state of the individual's residence; provided, that such state allows a similar exclusion of such compensation received by residents of North Dakota for similar services performed therein, or a credit against the tax imposed on the income of residents of this state that is substantially similar in effect. For the purposes of this subdivision, the words "an individual who performs services for a common carrier engaged in

interstate transportation" must be limited to an individual who performs such services for a common carrier only during the course of making regular "runs" into North Dakota or from within North Dakota to outside North Dakota, or both, on the transportation system of the common carrier.

6. a. Income and gains received by a resident of this state from tangible property not employed in the business and from tangible property employed in the business of the taxpayer, if the business consists principally of the holding of the property and the collection of income and gains therefrom, must be assigned to this state without regard to the situs of the property.
- b. Income derived from business activity carried on by residents of this state, whether the business activity is conducted as a sole proprietorship, or through a partnership, subchapter S corporation or other passthrough entity, must be assigned to this state without regard to where the business activity is conducted, and the provisions of chapter 57-38.1 do not apply. If the taxpayer believes the operation of this subdivision with respect to the taxpayer's income is unjust, the taxpayer may petition the tax commissioner who may allow use of another method of reporting income, including separate accounting.
- c. If a tax is paid to another state or territory of the United States or to the District of Columbia on any income assigned to this state under this subsection, a credit for any tax so paid may be deducted from the tax assessed under this chapter ~~if written proof of the payment is furnished to the tax commissioner~~; provided, that this credit for the tax may not exceed the proportion of the tax otherwise due under this chapter that the amount of the taxpayer's adjusted gross income derived from sources in the other taxing jurisdiction bears to the taxpayer's adjusted gross income as computed pursuant to the Internal Revenue Code of 1954, as amended. The tax commissioner may require written proof of the tax paid to another state. The required proof shall be provided in a form and manner as determined by the tax commissioner.

CORPORATE INCOME TAX REVISIONS

AN ACT to amend and reenact sections 57-38-11, 57-38-14, and 57-38-30 of the North Dakota Century Code, relating to obsolete corporate income tax provisions; and to repeal sections 57-38-12 and 57-38-13 of the North Dakota Century Code, relating to obsolete corporate income tax provisions.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 57-38-11 of the North Dakota Century Code is amended and reenacted as follows:

57-38-11. Annual tax on corporations. The tax imposed by this chapter must be levied, collected, and paid annually with respect to its North Dakota ~~net~~ income, as hereinafter defined, received by every corporation doing business in this state.

SECTION 2. AMENDMENT. Section 57-38-14 of the North Dakota Century Code is amended and reenacted as follows:

57-38-14. ~~Allocation in special cases~~ General provisions relating to corporate income. ~~In the special cases mentioned in this section, the~~ The following principles may be applied in ~~allocating corporate~~ determining North Dakota income:

1. Any corporation organized under the laws of North Dakota and subject to a tax under the provisions of this chapter, which maintains no regular place of business outside this state, except a statutory office, must be taxed upon its entire ~~net~~ income.
2. Corporations engaged in business within and without this state may be taxed only on such income as is derived from business transacted and property located within this state. The amount of such income apportionable to North Dakota ~~may~~ must be determined by ~~an allocation and separate accounting thereof, when in the judgment of the tax commissioner that method will reasonably reflect the income properly assignable to this state~~ as provided in chapter 57-38.1.
3. Any corporation liable to report under this chapter and owning or controlling, either directly or indirectly, substantially all of the voting capital stock of another corporation, or of other corporations, may be required to make a consolidated report showing the combined ~~net~~ income, such assets of the corporation as are required for the purposes of this chapter, and such other information as the tax commissioner may require, but excluding intercorporate stock holdings and intercorporate accounts.
4. Any corporation liable to report under this chapter and owned or controlled either directly or indirectly by another corporation may be

required to make a report consolidated with the owning company, showing the combined ~~net~~ income, such assets of the corporation as are required for the purposes of this chapter, and such other information as the tax commissioner may require, but excluding intercorporate stock holdings and intercorporate accounts.

5. In case it appears to the tax commissioner that any arrangement exists in such a manner as to reflect improperly the business done, the segregable assets, or the entire ~~net~~ income earned from business done in this state, the tax commissioner is authorized and empowered, in such manner as the tax commissioner may determine, to adjust the tax equitably.
6. The tax commissioner may permit or require the filing of a combined report if substantially all the voting capital stock of two or more corporations liable to report under this chapter is owned or controlled by the same interests. The tax commissioner may impose the tax provided by this chapter as though the combined entire ~~net~~ income and segregated assets were those of one corporation, but in the computation, dividends received from any corporation whose assets, as distinguished from shares of stock, are included in the segregations may not be included in the ~~net~~ income.
7. When any corporation required to make a return under this chapter conducts the business, whether under agreement or otherwise, in such manner as directly or indirectly to benefit the members or stockholders of the corporation, or any of them, or any person or persons, directly or indirectly interested in such business, by selling its products, or the goods or commodities in which it deals, at less than a fair price which might be obtained therefor, or if such a corporation, a substantial portion of whose capital stock is owned either directly or indirectly by another corporation, acquires and disposes of the products of the corporation owning the substantial portion of its capital stock, in such manner as to create a loss or improper ~~net~~ income, the tax commissioner may require such facts as the tax commissioner deems necessary for the proper computation provided by this chapter, and for the purposes of this chapter may determine the amount which must be deemed to be the entire ~~net~~ income, of the business of such corporation for the calendar or fiscal year. In determining such entire ~~net~~ income, the tax commissioner shall have regard to the fair profits which, but for any agreement, arrangement, or understanding, might be or could have been obtained from dealing in such products, goods, or commodities.
8. If it appears to the tax commissioner that the segregation of assets shown by any report made under this chapter does not reflect properly the corporate activity or business done, or the income earned from corporate activity, or from business done in this state because of the character of the corporation's business and the character and location of its assets, the tax commissioner is authorized and empowered to adjust the tax equitably.
9. In determining the entire net income for purposes of equitable taxation under this section, the tax commissioner may determine the portion of net income derived from business done within this state by an allocation upon the basis of sales, purchases, expenses of manufacture, payroll, value and situs of tangible property, or by reference to these or other

factors, or by such other method of allocation as is fairly calculated to assign to this state the portion of net income reasonably attributable to the business done within this state. In determining the entire net income for purposes of equitable taxation under this chapter, the tax commissioner may include income from any source, if the assets from which the income was derived shall be included in any segregation for the purpose of computing the tax.

40. In case any corporation or individual uses leased property in its business, the value of the leasehold interest of the lessee must be included in the value of the tangible property of the corporation and computed at eight times the net annual rental rate for purposes of allocation or apportionment of the net income.
44. Notwithstanding any other provision of law, two or more North Dakota domestic corporations, affiliated as parent and subsidiary, and filing a federal consolidated tax return, shall file a combined report and consolidated return for income tax under this chapter.

²⁴⁷ **SECTION 3. AMENDMENT.** Section 57-38-30 of the North Dakota Century Code is amended and reenacted as follows:

A tax is hereby imposed upon the taxable income of every domestic and foreign corporation ~~received from the sources described in sections 57-38-12, 57-38-13, and 57-38-14,~~ which must be levied, collected, and paid annually as in this chapter provided:

SENATE BILL NO. 2095

(Finance and Taxation Committee)
(At the request of the Tax Commissioner)

STREAMLINED SALES AND USE TAX AGREEMENT ADOPTION

AN ACT to create and enact chapter 57-39.4 of the North Dakota Century Code, relating to adoption of the streamlined sales and use tax agreement as adopted by member states of the streamlined sales tax project; to repeal chapter 57-39.4 of the North Dakota Century Code, relating to participation in multistate discussions and entering the streamlined sales and use tax agreement; and to provide an effective date.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. Chapter 57-39.4 of the North Dakota Century Code is created and enacted as follows:

57-39.4-01. Adoption of streamlined sales and use tax agreement. North Dakota adopts the streamlined sales and use tax agreement as adopted November 12, 2002, by the member states of the streamlined sales tax project. The entire agreement is adopted by reference with the exception of article III, which is adopted as set out in this chapter.

57-39.4-02. (301) State level administration. Each member state shall provide state level administration of sales and use taxes. The state level administration may be performed by a member state's tax commission, department of revenue, or any other single entity designated by state law. Sellers are only required to register with, file returns with, and remit funds to the state level authority. Each member state shall provide for collection of any local taxes and distribution of them to the appropriate taxing jurisdictions. Each member state shall conduct, or authorize others to conduct on its behalf, all audits of the sellers registered under the agreement for that state's tax and the tax of its local jurisdictions, and local jurisdictions shall not conduct independent sales or use tax audits of sellers registered under the agreement.

57-39.4-03. (302) State and local tax bases. Through December 31, 2005, if a member state has local jurisdictions that levy a sales or use tax, all local jurisdictions in the state shall have a common tax base. After December 31, 2005, the tax base for local jurisdictions shall be identical to the state tax base unless otherwise prohibited by federal law. This section does not apply to sales or use taxes levied on the retail sale or transfer of motor vehicles, aircraft, watercraft, modular homes, manufactured homes, or mobile homes.

57-39.4-04. (303) Seller registration. Each member state shall participate in an on-line sales and use tax registration system in cooperation with the other member states. Under this system:

1. A seller registering under the agreement is registered in each of the member states.

2. The member states agree not to require the payment of any registration fees or other charges for a seller to register in a state in which the seller has no legal requirement to register.
3. A written signature from the seller is not required.
4. An agent may register a seller under uniform procedures adopted by the member states.
5. A seller may cancel its registration under the system at any time under uniform procedures adopted by the governing board. Cancellation does not relieve the seller of its liability for remitting to the proper states any taxes collected.

57-39.4-05. (304) Notice for state tax changes.

1. Each member state shall lessen the difficulties faced by sellers when there is a change in a state sales or use tax rate or base by making a reasonable effort to do all of the following:
 - a. Provide sellers with as much advance notice as practicable of a rate change.
 - b. Limit the effective date of a rate change to the first day of a calendar quarter.
 - c. Notify sellers of legislative changes in the tax base and amendments to sales and use tax rules and regulations.
2. Failure of a seller to receive notice or failure of a member state to provide notice or limit the effective date of a rate change shall not relieve the seller of its obligation to collect sales or use taxes for that member state.

57-39.4-06. (305) Local rate and boundary changes. Each member state that has local jurisdictions that levy a sales or use tax shall:

1. Provide that local rate changes will be effective only on the first day of a calendar quarter after a minimum of sixty days' notice to sellers.
2. Apply local sales tax rate changes to purchases from printed catalogs wherein the purchaser computed the tax based upon local tax rates published in the catalog only on the first day of a calendar quarter after a minimum of one hundred twenty days' notice to sellers.
3. For sales and use tax purposes only, apply local jurisdiction boundary changes only on the first day of a calendar quarter after a minimum of sixty days' notice to sellers.
4. Provide and maintain a data base that describes boundary changes for all taxing jurisdictions. This data base shall include a description of the change and the effective date of the change for sales and use tax purposes.
5. Provide and maintain a data base of all sales and use tax rates for all of the jurisdictions levying taxes within the state. For the identification of

states, counties, cities, and parishes, codes corresponding to the rates must be provided according to federal information processing standards as developed by the national institute of standards and technology. For the identification of all other jurisdictions, codes corresponding to the rates must be in the format determined by the governing board.

6. Provide and maintain a data base that assigns each five-digit and nine-digit zip code within a member state to the proper tax rates and jurisdictions. The state must apply the lowest combined tax rate imposed in the zip code area if the area includes more than one tax rate in any level of taxing jurisdictions. If a nine-digit zip code designation is not available for a street address or if a seller is unable to determine the nine-digit zip code designation of a purchaser after exercising due diligence to determine the designation, the seller may apply the rate for the five-digit zip code area. For the purposes of this section, there is a rebuttable presumption that a seller has exercised due diligence if the seller has attempted to determine the nine-digit zip code designation by utilizing software approved by the governing board that makes this designation from the street address and the five-digit zip code of the purchaser.
7. Participate with other member states in the development of an address-based system for assigning taxing jurisdictions. The system must meet the requirements developed pursuant to the federal Mobile Telecommunications Sourcing Act [4 U.S.C. Sec. 119]. The governing board may allow a member state to require sellers that register under this agreement to use an address-based system provided by that member state. If any member state develops an address-based assignment system pursuant to the Mobile Telecommunications Sourcing Act, a seller may use that system in place of the system provided for in subsection 6.

57-39.4-07. (306) Relief from certain liability. Each member state shall relieve sellers and certified service providers from liability to the member state and local jurisdictions for having charged and collected the incorrect amount of sales or use tax resulting from the seller or certified service provider relying on erroneous data provided by a member state on tax rates, boundaries, or taxing jurisdiction assignments. A member state that provides an address-based system for assigning taxing jurisdictions under subsection 7 of section 57-39.4-06 or under the federal Mobile Telecommunications Sourcing Act will not be required to provide liability relief for errors resulting from the reliance on the information provided by the member state under subsection 6 of section 57-39.4-06.

57-39.4-08. (307) Data base requirements and exceptions.

1. The electronic data bases provided for in subsections 4, 5, 6, and 7 of section 57-39.4-06 shall be in a downloadable format approved by the governing board.
2. The provisions of subsections 6 and 7 of section 57-39.4-06 do not apply when the purchased product is received by the purchaser at the business location of the seller.
3. The data bases provided by subsections 4, 5, and 6 of section 57-39.4-06 are not a requirement of a state prior to entering into the

agreement. The governing board shall establish the effective dates for availability and use of the data bases.

57-39.4-09. (308) State and local tax rates.

1. No member state shall have multiple state sales and use tax rates on items of personal property or services after December 31, 2005, except that a member state may impose a single additional rate, which may be zero, on food and food ingredients and drugs as defined by state law pursuant to the agreement.
2. A member state that has local jurisdictions that levy a sales or use tax shall not have more than one local sales tax rate or more than one local use tax rate per local jurisdiction. If the local jurisdiction levies both a sales tax and use tax, the local rates must be identical.
3. The provisions of this section do not apply to sales or use taxes levied on electricity, piped natural or artificial gas or other heating fuels delivered by the seller, or the retail sale or transfer of motor vehicles, aircraft, watercraft, modular homes, manufactured homes, or mobile homes.

57-39.4-10. (309) Application of general sourcing rules and exclusions from the rules.

1. Each member state shall agree to require sellers to source the retail sale of a product in accordance with section 57-39.4-11. The provisions of section 57-39.4-11 apply regardless of the characterization of a product as tangible personal property, a digital good, or a service. The provisions of section 57-39.4-11 only apply to determine a seller's obligation to pay or collect and remit a sales or use tax with respect to the seller's retail sale of a product. These provisions do not affect the obligation of a purchaser or lessee to remit tax on the use of the product to the taxing jurisdictions of that use.
2. Section 57-39.4-11 does not apply to sales or use taxes levied on the following:
 - a. The retail sale or transfer of watercraft, modular homes, manufactured homes, or mobile homes. These items must be sourced according to the requirements of each member state.
 - b. The retail sale, excluding lease or rental, of motor vehicles, trailers, semitrailers, or aircraft that do not qualify as transportation equipment, as defined in subsection 4 of section 57-39.4-11. The retail sale of these items shall be sourced according to the requirements of each member state, and the lease or rental of these items must be sourced according to subsection 3 of section 57-39.4-11.
 - c. Telecommunications services, as set out in section 57-39.4-16, shall be sourced in accordance with section 57-39.4-15.

57-39.4-11. (310) General sourcing rules.

1. The retail sale, excluding lease or rental, of a product shall be sourced as follows:
 - a. When the product is received by the purchaser at a business location of the seller, the sale is sourced to that business location.
 - b. When the product is not received by the purchaser at a business location of the seller, the sale is sourced to the location where receipt by the purchaser, or the purchaser's donee, designated as such by the purchaser, occurs, including the location indicated by instructions for delivery to the purchaser or donee, known to the seller.
 - c. When subdivisions a and b do not apply, the sale is sourced to the location indicated by an address for the purchaser that is available from the business records of the seller that are maintained in the ordinary course of the seller's business when use of this address does not constitute bad faith.
 - d. When subdivisions a, b, and c do not apply, the sale is sourced to the location indicated by an address for the purchaser obtained during the consummation of the sale, including the address of a purchaser's payment instrument, if no other address is available, when use of this address does not constitute bad faith.
 - e. When none of the previous rules of subdivisions a, b, c, and d apply, including the circumstance in which the seller is without sufficient information to apply the previous rules, then the location will be determined by the address from which tangible personal property was shipped, from which the digital good or the computer software delivered electronically was first available for transmission by the seller, or from which the service was provided, disregarding for these purposes any location that merely provided the digital transfer of the product sold.
2. The lease or rental of tangible personal property, other than property identified in subsection 3 or 4, shall be sourced as follows:
 - a. For a lease or rental that requires recurring periodic payments, the first periodic payment is sourced the same as a retail sale in accordance with the provisions of subsection 1. Periodic payments made subsequent to the first payment are sourced to the primary property location for each period covered by the payment. The primary property location shall be as indicated by an address for the property provided by the lessee that is available to the lessor from its records maintained in the ordinary course of business, when use of this address does not constitute bad faith. The property location shall not be altered by intermittent use at different locations, such as use of business property that accompanies employees on business trips and service calls.

- b. For a lease or rental that does not require recurring periodic payments, the payment is sourced the same as a retail sale in accordance with the provisions of subsection 1.
 - c. This subsection does not affect the imposition or computation of sales or use tax on leases or rentals based on a lump sum or accelerated basis, or on the acquisition of property for lease.
- 3. The lease or rental of motor vehicles, trailers, semitrailers, or aircraft that do not qualify as transportation equipment, as defined in subsection 4, shall be sourced as follows:
 - a. For a lease or rental that requires recurring periodic payments, each periodic payment is sourced to the primary property location. The primary property location shall be as indicated by an address for the property provided by the lessee that is available to the lessor from its records maintained in the ordinary course of business, when use of this address does not constitute bad faith. This location shall not be altered by intermittent use at different locations.
 - b. For a lease or rental that does not require recurring periodic payments, the payment is sourced the same as a retail sale in accordance with the provisions of subsection 1.
 - c. This subsection does not affect the imposition or computation of sales or use tax on leases or rentals based on a lump sum or accelerated basis or on the acquisition of property for lease.
- 4. The retail sale, including lease or rental, of transportation equipment shall be sourced the same as a retail sale in accordance with the provisions of subsection 1, notwithstanding the exclusion of lease or rental in subsection 1. "Transportation equipment" means any of the following:
 - a. Locomotives and railcars that are utilized for the carriage of persons or property in interstate commerce.
 - b. Trucks and truck-tractors with a gross vehicle weight rating of 10,001 pounds [4535.92 kilograms] or greater, trailers, semitrailers, or passenger buses that are:
 - (1) Registered through the international registration plan; and
 - (2) Operated under authority of a carrier authorized and certificated by the United States department of transportation or another federal authority to engage in the carriage of persons or property in interstate commerce.
 - c. Aircraft that are operated by air carriers authorized and certificated by the United States department of transportation or another federal or a foreign authority to engage in the carriage of persons or property in interstate or foreign commerce.
 - d. Containers designed for use on and component parts attached or secured on the items set forth in subdivisions a, b, and c.

57-39.4-12. (311) General sourcing definitions. For the purposes of subsection 1 of section 57-39.4-11, the terms "receive" and "receipt" mean:

1. Taking possession of tangible personal property;
2. Making first use of services; or
3. Taking possession or making first use of digital goods, whichever comes first. The terms "receive" and "receipt" do not include possession by a shipping company on behalf of the purchaser.

57-39.4-13. (312) Multiple points of use. Notwithstanding the provisions of section 57-39.4-11, a business purchaser that is not a holder of a direct pay permit that knows at the time of its purchase of a digital good, computer software delivered electronically, or a service that the digital good, computer software delivered electronically, or service will be concurrently available for use in more than one jurisdiction shall deliver to the seller in conjunction with its purchase a form disclosing this fact, called a multiple points of use exemption form.

1. Upon receipt of the multiple points of use exemption form, the seller is relieved of all obligation to collect, pay, or remit the applicable tax and the purchaser shall be obligated to collect, pay, or remit the applicable tax on a direct pay basis.
2. A purchaser delivering the multiple points of use exemption form may use any reasonable, but consistent and uniform, method of apportionment that is supported by the purchaser's business records as they exist at the time of the consummation of the sale.
3. The multiple points of use exemption form will remain in effect for all future sales by the seller to the purchaser, except as to the subsequent sale's specific apportionment that is governed by the principle of subsection 2 and the facts existing at the time of the sale, until it is revoked in writing.
4. A holder of a direct pay permit shall not be required to deliver a multiple points of use exemption form to the seller. A direct pay permit holder shall follow the provisions of subsection 2 in apportioning the tax due on a digital good or a service that will be concurrently available for use in more than one jurisdiction.

57-39.4-14. (313) Direct mail sourcing.

1. Notwithstanding section 57-39.4-11, a purchaser of direct mail that is not a holder of a direct pay permit shall provide to the seller in conjunction with the purchase either a direct mail form or information to show the jurisdictions to which the direct mail is delivered to recipients.
 - a. Upon receipt of the direct mail form, the seller is relieved of all obligations to collect, pay, or remit the applicable tax and the purchaser is obligated to pay or remit the applicable tax on a direct pay basis. A direct mail form shall remain in effect for all future sales of direct mail by the seller to the purchaser until it is revoked in writing.

- b. Upon receipt of information from the purchaser showing the jurisdictions to which the direct mail is delivered to recipients, the seller shall collect the tax according to the delivery information provided by the purchaser. In the absence of bad faith, the seller is relieved of any further obligation to collect tax on any transaction in which the seller has collected tax pursuant to the delivery information provided by the purchaser.
2. If the purchaser of direct mail does not have a direct pay permit and does not provide the seller with either a direct mail form or delivery information, as required by subsection 1, the seller shall collect the tax according to subdivision e of subsection 1 of section 57-39.4-11. Nothing in this subsection shall limit a purchaser's obligation for sales or use tax to any state to which the direct mail is delivered.
3. If a purchaser of direct mail provides the seller with documentation of direct pay authority, the purchaser shall not be required to provide a direct mail form or delivery information to the seller.

57-39.4-15. (314) Telecommunications sourcing.

1. Except for the defined telecommunications services in subsection 3, the sale of telecommunications services sold on a call-by-call basis shall be sourced to each level of taxing jurisdiction where the call originates and terminates in that jurisdiction or each level of taxing jurisdiction where the call either originates or terminates and in which the service address is also located.
2. Except for the defined telecommunications services in subsection 3, a sale of telecommunications services sold on a basis other than a call-by-call basis is sourced to the customer's place of primary use.
3. The sale of the following telecommunications services shall be sourced to each level of taxing jurisdiction as follows:
 - a. A sale of mobile telecommunications services other than air-to-ground radiotelephone service and prepaid calling service, is sourced to the customer's place of primary use as required by the Mobile Telecommunications Sourcing Act.
 - b. A sale of post-paid calling service is sourced to the origination point of the telecommunications signal as first identified by either the seller's telecommunications system, or information received by the seller from its service provider, if the system used to transport such signals is not that of the seller.
 - c. A sale of prepaid calling service is sourced in accordance with section 57-39.4-11. However, in the case of a sale of mobile telecommunications services that is a prepaid telecommunications services, the rule provided in subdivision e of subsection 1 of section 57-39.4-11 shall include as an option the location associated with the mobile telephone number.

- (4) Service for segments of a channel located in more than one jurisdiction or levels of jurisdiction and which segments are not separately billed is sourced in each jurisdiction based on the percentage determined by dividing the number of customer channel termination points in such jurisdiction by the total number of customer channel termination points.

57-39.4-16. (315) Telecommunications sourcing definitions. For the purpose of section 57-39.4-15, the following definitions apply:

1. "Air-to-ground radiotelephone service" means a radio service, as that term is defined in 47 CFR 22.99, in which common carriers are authorized to offer and provide radio telecommunications service for hire to subscribers in aircraft.

"Customer" does not include a reseller of telecommunications services or for mobile telecommunications services of a serving carrier under an agreement to serve the customer outside the home service provider's licensed service area.
5. "Customer channel termination point" means the location where the customer either inputs or receives the communications.
6. "End user" means the person who utilizes the telecommunications services. In the case of an entity, "end user" means the individual who utilizes the services on behalf of the entity.

7. "Home service provider" means the same as that term is defined in section 124(5) of Public Law 106-252, Mobile Telecommunications Sourcing Act.
8. "Mobile telecommunications service" means the same as that term is defined in section 124(5) of Public Law 106-252, Mobile Telecommunications Sourcing Act.
9. "Place of primary use" means the street address representative of where the customer's use of the telecommunications services primarily occurs, which must be the residential street address or the primary business street address of the customer. In the case of mobile telecommunications services, "place of primary use" must be within the licensed service area of the home service provider.
10. "Post-paid calling service" means the telecommunications services obtained by making a payment on a call-by-call basis either through the use of a credit card or payment mechanism such as a bank card, travel card, credit card, or debit card, or by charge made to which a telephone number which is not associated with the origination or termination of the telecommunications services. A post-paid calling service includes telecommunications services that would be a prepaid calling service except it is not exclusively telecommunications services.
11. "Prepaid calling service" means the right to access exclusively telecommunications services, which must be paid for in advance and which enables the origination of calls using an access number or authorization code, whether manually or electronically dialed, and that is sold in predetermined units or dollars of which the number declines with use in a known amount.

 - c. If the location in subdivisions a and b are not known, the service address means the location of the customer's place of primary use.

57-39.4-17. (316) Enactment of exemptions.

1. A member state may enact a product-based exemption without restriction if the agreement does not have a definition for the product or for a term that includes the product. If the agreement has a definition for the product or for a term that includes the product, a member state may exempt all items included within the definition but shall not exempt only part of the items included within the definition unless the agreement sets out the exemption for part of the items as an acceptable variation.
2. A member state may enact an entity-based or a use-based exemption without restriction if the agreement does not have a definition for the product whose use or purchase by a specific entity is exempt or for a term that includes the product. If the agreement has a definition for the product whose use or specific purchase is exempt, a member state may enact an entity-based or a use-based exemption that applies to that product as long as the exemption utilizes the agreement definition of the product. If the agreement does not have a definition for the product whose use or specific purchase is exempt but has a definition for a term that includes the product, a member state may enact an entity-based or a use-based exemption for the product without restriction.
3. For purposes of complying with the requirements in this section, the inclusion of a product within the definition of tangible personal property is disregarded.

57-39.4-18. (317) Administration of exemptions.

1. Each member state shall observe the following provisions when a purchaser claims an exemption:
 - a. The seller shall obtain identifying information of the purchaser and the reason for claiming a tax exemption at the time of the purchase as determined by the governing board.
 - b. A purchaser is not required to provide a signature to claim an exemption from tax unless a paper exemption certificate is used.
 - c. The seller shall use the standard form for claiming an exemption electronically as adopted by the governing board.
 - d. The seller shall obtain the same information for proof of a claimed exemption regardless of the medium in which the transaction occurred.
 - e. A member state may utilize a system in which the purchaser exempt from the payment of the tax is issued an identification number that shall be presented to the seller at the time of the sale.
 - f. The seller shall maintain proper records of exempt transactions and provide them to a member state when requested.
 - g. A member state shall administer use-based and entity-based exemptions when practicable through a direct pay permit, an

exemption certificate, or another means that does not burden sellers.

2. Each member state shall relieve sellers that follow the requirements of this section from any tax otherwise applicable if it is determined that the purchaser improperly claimed an exemption and to hold the purchaser liable for the nonpayment of tax. This relief from liability does not apply to a seller who fraudulently fails to collect the tax or solicits purchasers to participate in the unlawful claim of an exemption.

57-39.4-19. (318) Uniform tax returns. Each member state shall:

1. Require that only one tax return for each taxing period for each seller be filed for the member state and all the taxing jurisdictions within the member state.
2. Require that returns be due no sooner than the twentieth day of the month following the month in which the transaction occurred.
3. Allow any model 1, model 2, or model 3 seller to submit its sales and use tax returns in a simplified format that does not include more data fields than permitted by the governing board. A member state may require additional informational returns to be submitted not more frequently than every six months under a staggered system developed by the governing board.
4. Allow any seller that is registered under the agreement, which does not have a legal requirement to register in the member state, and is not a model 1, model 2, or model 3 seller, to submit its sales and use tax returns as follows:
 - a. Upon registration, a member state shall provide to the seller the returns required by that state.
 - b. A member state may require a seller to file a return any time within one year of the month of initial registration and future returns may be required on an annual basis in succeeding years.
 - c. In addition to the returns required in subdivision b, a member state may require sellers to submit returns in the month following any month in which they have accumulated state and local tax funds for the state in the amount of one thousand dollars or more.
 - d. Participate with other member states in developing a more uniform sales and use tax return that, when completed, would be available to all sellers.
 - e. Require, at each member state's discretion, all model 1, model 2, and model 3 sellers to file returns electronically. It is the intent of the member states that all member states have the capability of receiving electronically filed returns by January 1, 2004.

57-39.4-20. (319) Uniform rules for remittance of funds. Each member state shall:

1. Require only one remittance for each return except as provided in this subsection. If any additional remittance is required, it may only be required from sellers that collect more than thirty thousand dollars in sales and use taxes in the member state during the preceding calendar year as provided herein. The amount of the additional remittance shall be determined through a calculation method rather than actual collections and shall not require the filing of an additional return.
2. Require, at each member state's discretion, all remittances from sellers under model 1, model 2, and model 3 to be remitted electronically.
3. Allow for electronic payments by both automated clearinghouse credit and automated clearinghouse debit.
4. Provide an alternative method for making same day payments if an electronic funds transfer fails.
5. Provide that if a due date falls on a legal banking holiday in a member state, the taxes are due to that state on the next succeeding business day.
6. Require that any data that accompanies a remittance be formatted using uniform tax type and payment type codes approved by the governing board.

57-39.4-21. (320) Uniform rules for recovery of bad debts. Each member state shall use the following to provide a deduction for bad debts to a seller. To the extent a member state provides a bad debt deduction to any other party, the same procedures will apply. Each member state shall:

1. Allow a deduction from taxable sales for bad debts. Any deduction taken that is attributed to bad debts shall not include interest.
2. Utilize the federal definition of "bad debt" in 26 U.S.C. 166 as the basis for calculating bad debt recovery. However, the amount calculated pursuant to 26 U.S.C. 166 shall be adjusted to exclude financing charges or interest, sales or use taxes charged on the purchase price, uncollectible amounts on property that remain in the possession of the seller until the full purchase price is paid, expenses incurred in attempting to collect any debt, and repossessed property.
3. Allow bad debts to be deducted on the return for the period during which the bad debt is written off as uncollectible in the claimant's books and records and is eligible to be deducted for federal income tax purposes. For purposes of this subsection, a claimant who is not required to file federal income tax returns may deduct a bad debt on a return filed for the period in which the bad debt is written off as uncollectible in the claimant's books and records and would be eligible for a bad debt deduction for federal income tax purposes if the claimant was required to file a federal income tax return.

4. Require that, if a deduction is taken for a bad debt and the debt is subsequently collected in whole or in part, the tax on the amount so collected must be paid and reported on the return filed for the period in which the collection is made.
5. Provide that, when the amount of bad debt exceeds the amount of taxable sales for the period during which the bad debt is written off, a refund claim may be filed within the member state's otherwise applicable statute of limitations for refund claims. However, the statute of limitations shall be measured from the due date of the return on which the bad debt could first be claimed.
6. When filing responsibilities have been assumed by a certified service provider, allow the certified service provider to claim, on behalf of the seller, any bad debt allowance provided by this section. The certified service provider must credit or refund the full amount of any bad debt allowance or refund received to the seller.
7. Provide that, for the purposes of reporting a payment received on a previously claimed bad debt, any payments made on a debt or account are applied first proportionally to the taxable price of the property or service and the sales tax thereon and secondly to interest, service charges, and any other charges.
8. When the books and records of the party claiming the bad debt allowance support an allocation of the bad debts among the member states, permit the allocation.

57-39.4-22. (321) Confidentiality and privacy protections under model 1.

1. The purpose of this section is to set forth the member states' policy for the protection of the confidentiality rights of all participants in the system and of the privacy interests of consumers who deal with model 1 sellers.
2. As used in this section, the term "confidential taxpayer information" means all information that is protected under a member state's laws, regulations, and privileges, the term "personally identifiable information" means information that identifies a person, and the term "anonymous data" means information that does not identify a person.
3. The member states agree that a fundamental precept in model 1 is to preserve the privacy of consumers by protecting their anonymity. With very limited exceptions, a certified service provider shall perform its tax calculation, remittance, and reporting functions without retaining the personally identifiable information of consumers.
4. The governing board may certify a certified service provider only if that certified service provider certifies that:
 - a. Its system has been designed and tested to ensure that the fundamental precept of anonymity is respected;
 - b. That personally identifiable information is only used and retained to the extent necessary for the administration of model 1 with respect to exempt purchasers;

- c. It provides consumers clear and conspicuous notice of its information practices, including what information it collects, how it collects the information, how it uses the information, how long, if at all, it retains the information and whether it discloses the information to member states. Such notice shall be satisfied by a written privacy policy statement accessible by the public on the official web site of the certified service provider;
 - d. Its collection, use, and retention of personally identifiable information will be limited to that required by the member states to ensure the validity of exemptions from taxation that are claimed by reason of a consumer's status or the intended use of the goods or services purchased; and
 - e. It provides adequate technical, physical, and administrative safeguards so as to protect personally identifiable information from unauthorized access and disclosure.
- 5. Each member state shall provide public notification to consumers, including their exempt purchasers, of the state's practices relating to the collection, use, and retention of personally identifiable information.
- 6. When any personally identifiable information that has been collected and retained is no longer required for the purposes set forth in subdivision d of subsection 4, such information shall no longer be retained by the member states.
- 7. When personally identifiable information regarding an individual is retained by or on behalf of a member state, such state shall provide reasonable access by such individual to the individual's own information in the state's possession and a right to correct any inaccurately recorded information.
- 8. If anyone other than a member state, or a person authorized by that state's law or the agreement, seeks to discover personally identifiable information, the state from which the information is sought should make a reasonable and timely effort to notify the individual of such request.
- 9. This privacy policy is subject to enforcement by member states' attorneys general or other appropriate state government authority.
- 10. Each member states' laws and regulations regarding the collection, use, and maintenance of confidential taxpayer information remain fully applicable and binding. Without limitation, the agreement does not enlarge or limit the member states' authority to:
 - a. Conduct audits or other review as provided under the agreement and state law.
 - b. Provide records pursuant to a member state's freedom of information act, disclosure laws with governmental agencies, or other regulations.
 - c. Prevent, consistent with state law, disclosures of confidential taxpayer information.

- d. Prevent, consistent with federal law, disclosures or misuse of federal return information obtained under a disclosure agreement with the internal revenue service.
 - e. Collect, disclose, disseminate, or otherwise use anonymous data for governmental purposes.
11. This privacy policy does not preclude the governing board from certifying a certified service provider whose privacy policy is more protective of confidential taxpayer information or personally identifiable information than is required by the agreement.

57-39.4-23. (322) Sales tax holidays.

1. If a member state allows for temporary exemption periods, commonly referred to as sales tax holidays, the member state shall:
 - a. Not apply an exemption after December 31, 2003, unless the items to be exempted are specifically defined in the agreement and the exemptions are uniformly applied to state and local sales and use taxes.
 - b. Provide notice of the exemption period at least sixty days' prior to the first day of the calendar quarter in which the exemption period will begin.
2. A member state may establish a sales tax holiday that utilizes price thresholds set by such state and the provisions of the agreement on the use of thresholds shall not apply to exemptions provided by a state during a sales tax holiday. In order to provide uniformity, a price threshold established by a member state for exempt items shall include only items priced below the threshold. A member state shall not exempt only a portion of the price of an individual item during a sales tax holiday.
3. The governing board shall establish procedures to provide uniformity for the administrative issues involved with the implementation of a sales tax holiday. These issues include:
 - a. Treatment of layaway purchases;
 - b. Exempt and nonexempt items that are packaged together;
 - c. Treatment of coupons or discounts;
 - d. Splitting of items normally sold together;
 - e. Treatment of rainchecks;
 - f. Exchanges;
 - g. Shipping and handling charges;
 - h. Service charges;
 - i. Restocking fees; and

- j. Order date and back orders.

57-39.4-24. (323) Caps and thresholds.

1. Each member state shall:
 - a. Not have caps or thresholds on the application of state sales or use tax rates or exemptions that are based on the value of the transaction or item after December 31, 2005. A member state may continue to have caps and thresholds until that date.
 - b. Not have caps that are based on the application of the rates unless the member state assumes the administrative responsibility in a manner that places no additional burden on the retailer.
2. Each member state that has local jurisdictions that levy a sales or use tax shall not place caps or thresholds on the application of local rates or use tax rates or exemptions that are based on the value of the transaction or item after December 31, 2005. A member state may continue to have caps and thresholds until that date.
3. The provisions of this section do not apply to sales or use taxes levied on the retail sale or transfer of motor vehicles, aircraft, watercraft, modular homes, manufactured homes, or mobile homes or to instances when the burden of administration has been shifted from the retailer.

57-39.4-25. (324) Rounding.

1. After December 31, 2005, each member state shall adopt a rounding algorithm that meets the following criteria:
 - a. Tax computation must be carried to the third decimal place; and
 - b. The tax must be rounded to a whole cent using a method that rounds up to the next cent whenever the third decimal place is greater than four.
2. Each state shall allow sellers to elect to compute the tax due on a transaction on an item or an invoice basis and shall allow the rounding rule to be applied to the aggregated state and local taxes. No member state shall require a seller to collect tax based on a bracket system.

57-39.4-26. (325) Customer refund procedures.

1. This section applies when a state allows a purchaser to seek a return of over-collected sales or use taxes from the seller.
2. Nothing in this section shall either require a state to provide, or prevent a state from providing, a procedure by which a purchaser may seek a refund directly from the state arising out of sales or use taxes collected in error by a seller from the purchaser. Nothing in this section shall operate to extend any person's time to seek a refund of sales or use taxes collected or remitted in error.
3. This section provides the first course of remedy available to purchasers seeking a return of over-collected sales or use taxes from the seller. A

cause of action against the seller for the over-collected sales or use taxes does not accrue until a purchaser has provided written notice to a seller and the seller has had sixty days to respond. Such notice to the seller must contain the information necessary to determine the validity of the request.

4. In connection with a purchaser's request from a seller of over-collected sales or use taxes, a seller shall be presumed to have a reasonable business practice, if in the collection of such sales or use taxes, the seller uses either a provider or a system, including a proprietary system, which is certified by the state and has remitted to the state all taxes collected less any deductions, credits, or collection allowances.

57-39.4-27. (326) Direct pay permits. Each member state shall provide for a direct pay authority that allows the holder of a direct pay permit to purchase otherwise taxable goods and services without payment of tax to the supplier at the time of purchase. The holder of the direct pay permit will make a determination of the taxability and then report and pay the applicable tax due directly to the tax jurisdiction. Each state can set its own limits and requirements for the direct pay permit. The governing board shall advise member states when setting state direct pay limits and requirements and shall consider use of the model direct payment permit regulation as developed by the task force on EDI audit and legal issues for tax administration.

57-39.4-28. (327) Library of definitions. Each member state shall utilize common definitions as provided in this section. The terms defined are set out in the library of definitions, in appendix C of the agreement adopted by section 57-39.4-01. A member state shall adhere to the following principles:

1. If a term defined in the library of definitions appears in a member state's sales and use tax statutes or administrative rules or regulations, the member state shall enact or adopt the library definition of the term in its statutes or administrative rules or regulations in substantially the same language as the library definition.
2. A member state shall not use a library definition in its sales or use tax statutes or administrative rules or regulations that is contrary to the meaning of the library definition.
3. Except as specifically provided in section 57-39.4-15 and the library of definitions, a member state shall impose a sales or use tax on all products or services included within each definition or exempt from sales or use tax all products or services within each definition.

57-39.4-29. (328) Taxability matrix.

1. To ensure uniform application of terms defined in the library of definitions, each member state shall complete a taxability matrix adopted by the governing board. The member state's entries in the matrix shall be provided and maintained in a data base that is in a downloadable format approved by the governing board. A member state shall provide notice of changes in the taxability of the products or services listed in the taxability matrix as required by the governing board.

2. A member state shall relieve sellers and certified service providers from liability to the member state and its local jurisdictions for having charged and collected the incorrect amount of sales or use tax resulting from the seller or certified service provider relying on erroneous data provided by the member state in the taxability matrix.

57-39.4-30. (329) Effective date for rate changes. Each member state shall provide that the effective date of rate changes for services covering a period starting before and ending after the statutory effective date shall be as follows:

1. For a rate increase, the new rate shall apply to the first billing period starting on or after the effective date.
2. For a rate decrease, the new rate shall apply to bills rendered on or after the effective date.

SECTION 2. REPEAL. Chapter 57-39.4 of the North Dakota Century Code, as it exists on July 31, 2003, is repealed.

SECTION 3. EFFECTIVE DATE. Section 1 of this Act is effective for taxable events occurring after December 31, 2005.

SECTION 12. AMENDMENT. Section 57-39.2-05 of the North Dakota Century Code is amended and reenacted as follows:

57-39.2-05. Credit or refund for taxes paid on worthless accounts and repossessions.

- 1. Taxes paid on gross receipts represented by accounts found to be worthless and actually charged off for income tax purposes may be credited upon subsequent payment of the tax herein provided; provided, that if such accounts are hereafter collected by the retailer, a tax must be paid upon the amount so collected. If a retailer's filing responsibility has been assumed by a certified service provider, the certified provider

may claim on behalf of the retailer any bad debt allowance provided under this section. The certified service provider shall credit or refund to the retailer the full amount of any bad debt allowance or refund received under this section.

- 2. If a retailer has remitted the sales tax due on the full amount of an installment sales contract rather than on only the installment payments received ~~as provided in subsection 3 of section 57-39.2-04~~, the retailer may deduct as a credit against the retailer's sales tax liability on the next return that the retailer is required to file the amount of sales tax the retailer paid on the installment contract payments which were not made by the purchaser of the merchandise sold under such contract; such credit may be deducted by the retailer regardless of whether or not said retailer has assigned the contract, provided, however, that if the retailer has assigned the contract the retailer must have assigned it subject to an agreement to repurchase the contract in the event of default by the purchaser under the contract or subject to a guarantee that the payments under the contract would be made. In the event such deduction exceeds the amount of sales tax due the state by the retailer in the next regular return, such excess must be allowed as credit against future sales tax due from the retailer. If in any case the credit, or any part of it, cannot be utilized by the retailer because of a discontinuance of a business or for other valid reasons, the amount thereof may be refunded to the retailer.

SECTION 13. AMENDMENT. Section 57-39.2-08.2 of the North Dakota Century Code is amended and reenacted as follows:

57-39.2-08.2. Sales tax to be added to purchase price and be a debt.

- 1. Except as otherwise provided in subsection 2, retailers shall add the tax imposed under this chapter, or the average equivalent thereof, to the sales price or charge, and when added, such tax constitutes a part of such price or charge, is a debt from the consumer or user to the retailer until paid, and is recoverable at law in the same manner as other debts. ~~In adding such tax to the price or charge, retailers shall adopt the following bracket system for the application of the tax:~~

\$0.01 through \$0.15	no tax
\$0.16 through \$0.20	1- tax
\$0.21 through \$0.40	2- tax
\$0.41 through \$0.60	3- tax
\$0.61 through \$0.80	4- tax
\$0.81 through \$1.00	5- tax

~~Each additional \$1.00 - 5- additional tax, or each additional 20- or fraction thereof over \$1.00 - 1- additional tax.~~

A retailer shall determine the amount of tax charged to and received from each purchaser by use of a formula that applies the applicable tax rate to each taxable item or total purchase and the product must be

carried to the third decimal place. Amounts of tax less than one-half of one cent must be disregarded and amounts of tax of one-half of one cent or more must be considered an additional cent of tax. When a local sales tax applies, the determination of tax charged to and received from each customer will be applied to the aggregated state and local taxes.

2. On retail sales of mobile homes used for residential or business purposes, except as provided in subsection 35 of section 57-39.2-04, and of farm machinery, farm machinery repair parts, and irrigation equipment used exclusively for agricultural purposes, retailers shall add the tax imposed under this chapter, or the average equivalent thereof, to the sales price or charge, and when added, such tax constitutes a part of such price or charge, is a debt from the consumer or user to the retailer until paid, and is recoverable at law in the same manner as other debts. In adding such tax to the price or charge, retailers shall add to it three percent of such price or charge.

SECTION 14. AMENDMENT. Subsection 1 of section 57-39.2-14 of the North Dakota Century Code is amended and reenacted as follows:

1. A person may not engage in or transact business as a retailer within this state unless a permit or permits shall have been issued to that person as hereinafter prescribed. Every person desiring to engage in or conduct business as a retailer within this state shall file with the commissioner an application for a permit or permits. Every application for such a permit shall be made upon a form prescribed by the commissioner and shall set forth the name under which the applicant transacts or intends to transact business, the location of the applicant's place or places of business, and such other information as the commissioner may require. The application shall be signed by the owner if a natural person; in the case of an association, partnership, or limited liability company, by a member or partner thereof; and in the case of a corporation, by an executive officer thereof or some person specifically authorized by the corporation to sign the application, to which shall be attached the written evidence of that person's authority. Any person registering under the agreement adopted under chapter 57-39.4 shall register in this state. Any person who is registered under the agreement is not required to sign the application and may register through an agent. Any person who is registered under such agreement may cancel its registration at any time but is liable for remitting any sales taxes collected before cancellation. Registration under the agreement and collection of tax does not in and of itself create nexus for other taxes or fees imposed by this state.

SECTION 15. Section 57-39.2-29 of the North Dakota Century Code is created and enacted as follows:

57-39.2-29. Sourcing - Multiple points of use exemption. Sourcing of retail sales, leases, or rentals must be determined in accordance with the provisions of the agreement adopted under chapter 57-39.4. Notwithstanding any other provisions of law or the sourcing provisions of the agreement adopted under chapter 57-39.4, a business purchaser that is not a holder of a direct pay permit that knows at the time of its purchase of a digital good, computer software delivered electronically, or service that the digital good, computer software delivered electronically, or service will be concurrently available for use in more than one jurisdiction shall deliver to the

seller in conjunction with its purchase a form prescribed by the commissioner disclosing this fact, referred to as a multiple points of use exemption form.

1. Upon receipt of the multiple points of use exemption form, the seller is relieved of all obligation to collect, pay, or remit the applicable tax and the purchaser shall be obligated to collect, pay, or remit the applicable tax on a direct pay basis.
2. A purchaser delivering the multiple points of use exemption form may use any reasonable, but consistent and uniform, method of apportionment that is supported by the purchaser's business records as they exist at the time of consumption of the sale.
3. The multiple points of use exemption form remains in effect for all future sales by the seller to the purchaser, except as to the subsequent sale's specific apportionment that is governed by the principle of subsection 2 and the facts existing at the time of the sale, until it is revoked in writing.
4. A holder of a direct pay permit shall not be required to deliver a multiple points of use exemption form to the seller. A direct pay permit holder shall follow the provisions of subsection 2 in apportioning the tax due on a digital good or service that will be concurrently available for use in more than one jurisdiction.

SECTION 16. Section 57-39.2-30 of the North Dakota Century Code is created and enacted as follows:

57-39.2-30. Conditional sales contract. For purposes of the tax imposed by this chapter, on any sale made under a conditional sales contract or under other forms of sale in which the payment of the principle sum is extended over a period longer than sixty days from the date of sale, only the portion of the sale amount that has actually been received in cash by the retailer during each reporting period is subject to the tax imposed by this chapter during that reporting period.

SECTION 17. Section 57-39.2-31 of the North Dakota Century Code is created and enacted as follows:

57-39.2-31. Seller and certified service provider limited immunity. A seller or certified service provider is immune from civil liability for charging and collecting the incorrect amount of sales or use tax in reliance on incorrect information provided by the tax commissioner regarding tax rates, boundaries, or taxing jurisdiction assignments. The tax commissioner will not be required to provide liability relief for errors resulting from the reliance on an address-based system for assigning tax jurisdictions as provided under the agreement adopted under chapter 57-39.4.

SECTION 18. Section 57-39.2-32 of the North Dakota Century Code is created and enacted as follows:

57-39.2-32. Confidentiality of information obtained by certified service providers. A certified service provider or any agent, employee, or other person acting under the authority of a certified service provider may not divulge or make known in any manner whatsoever the business affairs, operations, or information obtained by the certified service provider in the discharge of its duties under this chapter.

SECTION 19. Chapter 57-39.5 of the North Dakota Century Code is created and enacted as follows:

57-39.5-01. Definitions. Words used in this chapter have the same meaning as provided in chapter 57-39.2. As used in this chapter:

1. "Attachment unit" means any part or combination of parts having an independent function, other than farm machinery repair parts, which when attached or affixed to farm machinery is used exclusively for agricultural purposes.
2. "Farm machinery" means all vehicular implements and attachment units, designed and sold for direct use in planting, cultivating, or harvesting farm products or used in connection with the production of agricultural produce or products, livestock, or poultry on farms, which are operated, drawn, or propelled by motor or animal power. "Farm machinery" does not include vehicular implements operated wholly by hand or a motor vehicle required to be registered under chapter 57-40.3. "Farm machinery" does not include machinery that may be used for other than agricultural purposes, including tires, farm machinery repair parts, tools, shop equipment, grain bins, feed bunks, fencing materials, and other farm supplies and equipment.

57-39.5-01.1. Trade-in deduction. When tangible personal property is taken in trade or in a series of trades as a credit or partial payment of a retail sale taxable under this chapter, if the tangible personal property traded in will be subject to gross receipts taxes imposed by this chapter, sales taxes imposed by chapter 57-39.2, or motor vehicle excise taxes imposed by chapter 57-40.3, or if the tangible personal property traded in is used farm machinery or used irrigation equipment, the credit or trade-in value allowed by the retailer is not gross receipts.

57-39.5-02. Imposition - Exemptions. There is imposed a tax of three percent upon the gross receipts of retailers from all sales at retail, including the leasing or renting, of farm machinery or irrigation equipment used exclusively for agricultural purposes. Gross receipts from sales at retail of farm machinery or irrigation equipment are exempted from the tax imposed by this chapter when the sale, lease, or rental is made to a purchaser or lessor who is entitled to a sales and use tax exemption under subsection 6 or 12 of section 57-39.2-04 on otherwise taxable sales at retail. There are specifically exempted from the tax imposed by this chapter the gross receipts from the sale or lease of used farm machinery, farm machinery repair parts, or used irrigation equipment used exclusively for agricultural purposes. For purposes of this section, "used" means:

1. Tax under this chapter or chapter 57-39.2 or 57-40.2 has been paid on a previous sale;
2. Originally purchased outside this state and previously owned by a farmer; or
3. Has been under lease or rental for three years or more.

57-39.5-03. Replacement of insured machinery credit. When new farm machinery is purchased as a replacement for machinery on which the insurant has previously paid the gross receipts, sales, or use tax and which was stolen or totally destroyed, a credit or trade-in credit is allowed in an amount equal to the compensation received for the loss from the insurance company. The purchaser

shall provide the seller with a notarized statement from the insurance company verifying that the original farm machinery was a total loss and indicating the amount of compensation. The notarized statement must be retained by the seller to verify the amount of credit or trade-in credit allowed.

57-39.5-04. Administration. The provisions of chapter 57-39.2 pertaining to administration of the retail sales tax, including provisions for refund, credits, or adoption of rules, not in compliance with this chapter or federal law, govern the administration of the gross receipts tax imposed in this chapter.

1. "Alcoholic beverage" means any liquid suitable for drinking by human beings, which contains one-half of one percent or more of alcohol by volume. This includes beverages whether mixed or unmixed at the time of sale or thereafter and whether sold for consumption on the premises or through off-sale outlets for consumption off the premises.

57-39.6-02. Gross receipts tax on alcoholic beverages - Exemption. There is imposed a tax of seven percent on the gross receipts of retailers from all sales at retail of alcoholic beverages. 57-39.6-03. Gross receipts tax inclusion in purchase price. Taxes imposed by this chapter may be included in the purchase price of the alcoholic beverages.

57-39.6-04. Administration. The provisions of chapter 57-39.2, pertaining to administration of the retail sales tax, including provisions for refund, credits, or adoption of rules, not in conflict with this chapter or federal law, govern the administration of the gross receipts tax imposed in this chapter.

SECTION 21. AMENDMENT. Subsection 4 of section 57-40.2-01 of the North Dakota Century Code is amended and reenacted as follows:

4. "Purchase price" means the total amount for which tangible personal property is sold, leased, or rented, valued in money, whether paid in money or otherwise, but cash discounts and trade-ins allowed and taken on sales shall not be included. "Purchase price" also means, in those instances when sand or gravel is not sold at retail as tangible personal property by the person severing the sand or gravel, the fair market value of the sand or gravel severed. If the sand or gravel is not sold at retail by the person severing the sand or gravel, it must be presumed until the contrary is shown by the commissioner or by the person severing the sand or gravel that the fair market value is eight

If records are not kept as to the tonnage of sand or gravel severed from the soil, it must be presumed for the purpose of this chapter that one cubic yard [764.55 liters] of sand or gravel is equal to one and one-half tons [1360.78 kilograms] of sand or gravel. When a farm machine is purchased as a replacement for machinery which was stolen or totally destroyed, a credit or trade-in credit is allowed in an amount equal to the compensation received for the loss from the insurance company. The purchaser shall provide the seller with a notarized statement from the insurance company verifying that the original farm machine was a total loss and indicating the amount of compensation. The notarized statement must be retained by the seller to verify the amount of credit or trade-in credit allowed applies to the measure subject to use tax and has the same meaning as gross receipts as defined in section 57-39.2-01.

SECTION 22. A new subsection to section 57-40.2-01 of the North Dakota Century Code is created and enacted as follows:

"Use tax" means the tax levied under section 57-40.2-02.1 or imposed under home rule authority by a city or county.

An excise tax is imposed on the fair market value of sand or gravel severed when sand or gravel is not sold at retail as tangible personal property by the person severing the sand or gravel. If the sand or gravel is not sold at retail by the person severing the sand or gravel, it must be presumed until the contrary is shown by the commissioner or by the person severing the sand or gravel that the fair market value is eight cents per ton of two thousand pounds [907.18 kilograms]. If records are not kept as to the tonnage of sand or gravel severed from the soil, it must be presumed for the purpose of this chapter that one cubic yard [764.55 liters] of sand or gravel is equal to one and one-half tons [1360.78 kilograms] of sand or gravel.

PROVIDER ASSESSMENT FOR MENTALLY RETARDED CARE

AN ACT to create and enact a new chapter to title 57 of the North Dakota Century Code, relating to a provider assessment for intermediate care facilities for the mentally retarded; and to provide a penalty.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. A new chapter to title 57 of the North Dakota Century Code is created and enacted as follows:

Definitions. As used in this chapter:

1. "Business" has the meaning provided in section 31-08.1-01.
2. "Commissioner" means the state tax commissioner.
3. "Facility" includes the operating entity of each intermediate care facility for the mentally retarded located in this state.
4. "Intermediate care facility for the mentally retarded" means a treatment or care center licensed under chapter 25-16 that provides services eligible for coverage as medical assistance under 42 U.S.C. 1396a(a)(31), and also means the developmental center at westwood park, Grafton.
5. "Licensed bed" means a bed licensed under chapter 25-16 or approved by the secretary of health and human services pursuant to 42 U.S.C. 1396i.
6. "Quarter" means one of four calendar quarters beginning January first, April first, July first, or October first.

Imposition of assessment. An assessment must be imposed on each intermediate care facility for the mentally retarded licensed in this state. No waiver otherwise available under this code is applicable to this assessment.

Basis of assessment. Every year beginning July first, each intermediate care facility for the mentally retarded must be assessed a quarterly rate per licensed bed as of the first day of each quarter. The quarterly rate may not exceed a rate calculated by the department of human services as an annual aggregate of gross revenues as of December thirty-first of the preceding year for all intermediate care facilities for the mentally retarded, multiplied by one and one-half percent, and divided by licensed beds as of December thirty-first of the preceding year.

Reports - Extension.

1. On or before the last day of a quarter, each facility required to pay an assessment under this chapter must make out a return for the quarter in the form and manner prescribed by the commissioner. The facility shall report the number of licensed beds as of the first day of the quarter, the amount of the assessment for the quarter covered by the return, and include such further information the commissioner may require to enable the commissioner to correctly compute and remit the assessment levied by this chapter.
2. Upon request by a facility and a proper showing of the necessity, the commissioner may grant to the facility an extension of time not exceeding thirty days for making a return. If an extension is granted to a facility, the time the facility is required to make payment of the assessment liability must be extended for the same period. Interest must be charged upon the amount of the deferred payment at the rate of twelve percent per annum from the date the assessment would have been due if the extension had not been granted to the date the assessment is paid.
3. A return must be signed by a duly authorized agent of the facility and must contain a written declaration that the return is made and subscribed under the penalties of this chapter.

Payment of assessment. An assessment levied under this chapter must be paid on a quarterly basis and is due and payable on the last day of the quarter.

Penalties - Offenses.

1. If a facility's return or corrected return is not filed or the assessment is not paid within the time required by this chapter or, if upon audit, the facility is found to owe an additional assessment, the facility is subject to a penalty of five percent of the amount of assessment due, plus interest of one percent of the assessment for each month of delay or fraction thereof, excepting the first month after the assessment becomes due. If satisfied that the delay was excusable, the commissioner may waive and, if paid, refund all or any part of the penalty and interest. The penalty and interest must be paid to the commissioner and disposed of in the same manner as other receipts under this chapter. Unpaid penalties and interest may be enforced in the same manner as the assessment imposed under this chapter.
2. A person failing to comply with this chapter or failing to remit the assessment provided by this chapter to the commissioner on a timely basis is guilty of a class B misdemeanor.

Records required. A facility required to pay an assessment under this chapter shall preserve and maintain the records as the commissioner may require for a period of three years and one month. All records must be open to examination at any time by the commissioner or any of the commissioner's duly authorized agents.

Officer and manager liability.

1. If a business that owns or operates a facility fails for any reason to file a required return or to pay an assessment due, any of its officers or managers having control or supervision of, or charged with the responsibility for making a return or payment is personally liable for the failure. The dissolution of a business does not discharge an officer's or manager's liability for a prior failure of the business to make a return or remit the assessment due.
2. If any of the officers or managers elect not to be personally liable for the failure to file the required return or to pay the assessment due, the facility shall make a cash deposit or post with the commissioner a bond or undertaking executed by a surety company authorized to do business in this state. The cash deposit, bond, or undertaking must be in an amount equal to the estimated annual assessment liability of the facility.

Commissioner to administer chapter.

1. The commissioner is charged with the administration of this chapter and shall enforce the assessment, levy, and collection of assessments imposed under this chapter.
2. For the purpose of ascertaining the correctness of a return or for the purpose of ascertaining the number of licensed beds of a facility, the commissioner shall examine or cause to be examined by an agent or representative designated by the commissioner any books, papers, records, or memoranda; require by subpoena the attendance and testimony of witnesses; issue and sign subpoenas; administer oaths; examine witnesses and receive evidence; and compel witnesses to produce for examination books, papers, records, and documents relating to any matter which the commissioner has the authority to investigate or determine.
3. If the commissioner finds an officer or manager of a facility has made a fraudulent return, the costs of a hearing must be assessed to the facility. In all other cases, the costs must be paid by the state.
4. The fees and mileage to be paid witnesses and assessed as costs must be the same as prescribed by law in proceedings in the district court of this state in civil cases. All costs must be assessed in the manner provided by law in proceedings in civil cases. When the costs are assessed to the facility, the costs must be added to the assessment charged against the facility and must be collected in the same manner. Costs assessed to the state must be certified by the commissioner to the state treasurer, who shall issue warrants for the amount of the costs.
5. In cases of disobedience to a subpoena, the commissioner may invoke the aid of a court of competent jurisdiction in requiring the attendance and testimony of witnesses and production of records, books, papers, and documents. The court may issue an order requiring the person to appear before the commissioner and give evidence or produce records, books, papers, and documents. A failure to obey an order of the court may be punished by the court as contempt.

6. Testimony on hearings before the commissioner may be taken by a deposition as in civil cases and an individual may be compelled to appear and depose in the same manner as witnesses may be compelled to appear and testify as provided by this section.

Lien of assessment - Collection - Action authorized.

1. Whenever a facility liable to pay an assessment or penalty imposed refuses or neglects to pay the same, the amount, including any interest, penalty, or addition to the assessment, together with the costs that may accrue, is a lien in favor of this state upon all property and rights to property, whether real or personal, belonging to the facility. In the case of property in which a deceased owner, officer, or manager of a facility held an interest as joint tenant or otherwise with right of survivorship at the time of death, the lien continues as a lien against the property in the hands of the survivor or survivors to the extent of the deceased owner's, officer's, or manager's interest, which interest must be determined by dividing the value of the entire property at the time of the officer's or manager's death by the number of joint tenants or persons interested therein.
2. The lien attaches at the time the assessment becomes due and payable and continues until the liability for the amount is satisfied. For the purposes of this subsection, the words "due" and "due and payable" mean the first instant the assessment becomes due.
3. A mortgagee, purchaser, judgment creditor, or lien claimant acquiring an interest in, or lien on, any property situated in the state, prior to the commissioner filing in the central indexing system maintained by the secretary of state, a notice of the lien provided for in section 57-39.2-12, takes free of, or has priority over, the lien.
4. The commissioner shall index in the central indexing system the following data:
 - a. The name of the facility.
 - b. The tax identification number of the facility or social security number of the owner, officer, or manager of the facility.
 - c. The name "State of North Dakota" as claimant.
 - d. The date and time the notice of lien was indexed.
 - e. The amount of the lien.

The notice of lien is effective as of eight a.m. the next day following the indexing of the notice. A notice of lien filed by the commissioner with the recorder may be indexed in the central indexing system without changing its original priority as to property in the county where the lien was filed.

5. The commissioner is exempt from the payment of the filing fees as otherwise provided by law for the indexing of the notice of lien, or for its satisfaction.

6. Upon payment of the assessment as to which the commissioner has indexed notice in the central indexing system, the commissioner shall index a satisfaction of the lien in the central indexing system.
7. Upon the request of the commissioner, the attorney general shall bring an action at law or in equity, as the facts may justify, without bond, to enforce payment of any assessments and any penalties, or to foreclose the lien in the manner provided for mortgages on real or personal property. The state's attorney of the county in which the action is pending shall assist the attorney general.
8. The remedies of this section are cumulative. Action taken by the commissioner or attorney general may not be construed to be an election on the part of the state or any of its officers to pursue any remedy hereunder to the exclusion of any other remedy provided by law.
9. The technical, legal requirements in this section relating to assessment liens on all real and personal property of the officer or manager of the facility to ensure payment of the assessment, including penalties, interest, and other costs, are self-explanatory.

Commissioner may require bond. When in the commissioner's judgment it is necessary and advisable to do so in order to secure the collection of the assessment levied under this chapter, the commissioner may require a person subject to the assessment to file with the commissioner a bond, issued by a surety company authorized to transact business in this state and approved by the insurance commissioner as to solvency and responsibility in an amount the commissioner may fix, to secure the payment of any assessment and penalties due or which may become due from the person. In lieu of the bond, securities approved by the commissioner in the amounts as the commissioner prescribes may be deposited with the commissioner, which securities must be kept in the custody of the commissioner and may be sold by the commissioner at public or private sale, without notice to the depositor, if it becomes necessary to do so in order to recover any assessment and penalties due. All moneys deposited as security with the commissioner under this section must be paid by the commissioner to the state treasurer and must be credited by the state treasurer into a special fund to be known as the provider assessment trust fund. If any assessment, penalty, or costs imposed by this chapter are not paid when due, by the person depositing moneys with the commissioner as security for the payment of the assessment, penalty, or costs imposed by this chapter, the commissioner shall certify that information to the director of the office of management and budget who shall transmit the money to the commissioner who shall apply the money deposited by the person or so much thereof as is necessary to satisfy the assessment and penalties due. When in the commissioner's judgment it is no longer necessary to require the deposit to be maintained by the person, the commissioner shall certify that information to the director of the office of management and budget who shall pay the unused money to the entitled person.

Correction of errors. If it appears that, as a result of a mistake, an amount of assessment, penalty, or interest has been paid which was not due under this chapter, the amount must be credited against any assessment due, or to become due, under this chapter from the person who made the erroneous payment, or the amount must be refunded to the person. The person who made the erroneous payment shall present a claim for refund or credit to the commissioner not later than three years after the due date of the return for the period for which the erroneous

payment was made or one year after the erroneous payment was made, whichever is later.

Provider assessment fund. There is a special fund in the state treasury known as the provider assessment fund. The fund includes all revenue received from intermediate care facilities for the mentally retarded for remittance to the fund under this chapter. All moneys designated for the fund from whatever source derived must be deposited with the state treasurer in the provider assessment fund.

TRUSTS FOR INDIVIDUALS WITH DISABILITIES

AN ACT relating to trusts for individuals with disabilities.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. Definitions. As used in this Act, unless the context otherwise requires:

1. "Individual with a disability" means an individual who, before creation of a third-party special needs trust or a self-settled special needs trust for that individual's benefit, is considered to be an individual with a disability as defined in 42 U.S.C. 1382c(a)(3).
2. "Self-settled special needs trust" means a trust created by an individual with a disability after August 10, 1993, which qualifies under 42 U.S.C. 1396p(d)(4)(A).
3. "Third-party special needs trust" means a trust that does not make an individual with a disability ineligible for publicly funded benefits while maintaining assets in that trust and which is created for the benefit of an individual with a disability and funded by someone other than the trust beneficiary, the beneficiary's spouse, a parent of a minor beneficiary, or anyone obligated to pay any sum for damages or any other purpose to or for the benefit of the trust beneficiary under the terms of a settlement agreement or judgment.

SECTION 2. Third-party special needs trusts under state law.

1. A third-party special needs trust must provide for the living expenses and other needs of an individual with a disability when publicly funded benefits are not sufficient to provide adequately for those needs. A third-party special needs trust must limit distributions in a manner and for purposes that supplement or complement publicly funded benefits for an individual with a disability. A third-party special needs trust may not have the effect of replacing, reducing, or substituting for publicly funded benefits otherwise available to a beneficiary with a disability or rendering a beneficiary with a disability ineligible for publicly funded benefits.
2. This section applies to any third-party special needs trust that complies with the requirements of this Act, regardless of the date on which the trust was created or funded. Notwithstanding any other provision of the

law, this Act does not disqualify any beneficiary of a third-party special needs trust from receiving publicly funded benefits if the trust did not disqualify that individual under previous law.

SECTION 3. Self-settled special needs trusts. The district court may authorize the creation and funding of self-settled special needs trusts.

SECTION 4. Interpretation or enforcement - Reformation - Unenforceable trust provisions.

1. This Act does not require the submission of a third-party special needs trust or a self-settled special needs trust to a court for interpretation or enforcement.
2. A third-party special needs trust may not disqualify a recipient of publicly funded benefits solely because a contingent beneficiary is named to receive the net balance of the trust estate upon the death of a beneficiary with a disability, or upon other termination of the trust.
3. The trustee or the grantor of any trust intended to be a third-party special needs trust or a self-settled special needs trust may seek court reformation of the trust to accomplish the purpose of a third-party special needs trust or a self-settled special needs trust.
4. Except for self-settled special needs trusts and third-party special needs trusts, a provision in a trust which provides for the suspension, termination, limitation, or diversion of the principal, income, or beneficial interest of a beneficiary if the beneficiary applies for, is determined eligible for, or receives publicly funded benefits is unenforceable as against the public policy of this state, without regard to the irrevocability of the trust or the purpose for which the trust was created.

WAREHOUSE AND GRAIN AND HAY BUYER LICENSING

AN ACT to create and enact a new section to chapter 60-02 of the North Dakota Century Code, relating to licensed warehouse capacity and condominium storage; and to amend and reenact sections 60-02-07, 60-02-10.1, and 60-02-33, subsection 8 of section 60-02.1-01, sections 60-02.1-07 and 60-02.1-11, subsection 7 of section 60-02.1-14, sections 60-02.1-28, 60-02.1-29, and 60-02.1-32, and subsection 4 of section 60-03-01 of the North Dakota Century Code, relating to licensing of grain warehouses, grain buyers, and hay buyers.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 60-02-07 of the North Dakota Century Code is amended and reenacted as follows:

60-02-07. Public warehouse license - How obtained - Fee - Financial statement. An annual license must be obtained from the commission for each public warehouse in operation in this state. The license expires on July thirty-first of each year. An initial license application that becomes effective on or after June first does not expire until July thirty-first of the following calendar year. No license may describe more than one public warehouse nor grant permission to operate any public warehouse other than the one described. The annual license fee for a public warehouse is three hundred dollars for a warehouse of a bushel capacity of two hundred thousand [7047.8 cubic meters] or less, four hundred fifty dollars for a warehouse of a bushel capacity of more than two hundred thousand and not more than five hundred thousand [7047.8 to not more than 17619.54 cubic meters], and five hundred fifty dollars for a warehouse of a bushel capacity of more than five hundred thousand [17619.54 cubic meters]. A license renewal application that is received after July fifteenth must be assessed an additional one hundred dollar fee per warehouse. If a public warehouseman operates two or more warehouses in the same city or siding, in conjunction with each other and with the same working force, and keeps one set of books and records for all such warehouses, and issues one series of scale tickets, warehouse receipts, checks, and credit-sale contracts for the grain stored and purchased therein, only one license is required for the operation of all such warehouses. Where two or more warehouses are operated under one license, the license fee is based upon the combined bushel capacity of the warehouses. If the commission employs fewer than two full-time equivalent warehouse inspectors, each annual fee under this section is reduced by one hundred dollars.

If required to obtain United States department of agriculture approval of the commission's warehouse inspection program, the commission may require that the applicant submit a current financial statement prepared in accordance with generally accepted accounting principles. A financial statement furnished under this section is a confidential trade secret and is not a public record.

SECTION 2. AMENDMENT. Section 60-02-10.1 of the North Dakota Century Code is amended and reenacted as follows:

60-02-10.1. Revocation and suspension. The commission may suspend or revoke the license of any warehouseman for cause upon notice and hearing. Notwithstanding any other provisions of this chapter, the license of a warehouseman must automatically be suspended for failure at any time to have or to maintain either a bond or insurance policy in the amount and type required. During a suspension of a license the warehouseman may, upon the commission's approval, operate the warehouse and purchase or redeliver grain previously received, but may not receive additional grain for purchase, storage, shipping, or processing. Grain may be sold only with the prior approval of the commission.

SECTION 3. AMENDMENT. Section 60-02-33 of the North Dakota Century Code is amended and reenacted as follows:

60-02-33. Delivery of grain - Demand terminates storage charge. On the return and surrender of any receipt and the payment of all lawful charges, the grain represented therein shall be deliverable to the owner, and shall not be subject to any further charge for storage after demand for delivery shall have been made and proper facilities for receiving or shipping the same have been provided. The owner of the receipt shall order the receptacle in which the grain covered by the owner's receipt is to be transported, and the grain shall be delivered when the receptacle so ordered is in proper condition for loading and is placed at the warehouse. The licensee may not assess receiving or redelivery fees on the grain that is redelivered during a suspension, following a revocation, or when the owner of the grain is taking redelivery because the licensee is unable to pay for the grain.

SECTION 4. A new section to chapter 60-02 of the North Dakota Century Code is created and enacted as follows:

Licensed warehouse capacity and condominium storage. Unless an entire warehouse facility is used for nonpublic purposes, all physically connected portions of the facility must be licensed in accordance with this chapter. The warehouseman shall issue receipt memoranda for all grain received. Facilities that are physically connected to the licensed warehouse may be sold under a condominium arrangement or leased to other entities for nonpublic use and sales and lease agreements must be based on the capacity of the bins involved and not on the number of bushels held in the space. The licensee shall provide contents insurance and bond coverage for the space. In case of licensee insolvency, the contents of the space must be considered an asset to the trust fund established under chapter 60-04 and owners and lessees are entitled to trust fund protection in a manner equal to all other valid grain receiptholders.

SECTION 5. AMENDMENT. Subsection 8 of section 60-02.1-01 of the North Dakota Century Code is amended and reenacted as follows:

8. "Receipts" means scale tickets, checks, or other memoranda given by a grain buyer for, or as evidence of, the receipt, ~~storage~~, or sale of grain except when such memoranda was received as a result of a credit-sale contract.

SECTION 6. AMENDMENT. Section 60-02.1-07 of the North Dakota Century Code is amended and reenacted as follows:

60-02.1-07. Grain buyer license - How obtained - Fee - Financial statement. Grain buyers must obtain an annual license from the commission. The license expires on July thirty-first of each year. An initial license application that becomes effective on or after June first does not expire until July thirty-first of the following calendar year. A facility-based grain buyer must obtain a license for each receiving location operated in the state. If a grain buyer operates two or more facilities in the same city or siding, in conjunction with each other and with the same working force, and where but one set of books and records is kept for all such facilities, and scale tickets and checks of but one series are issued for the grain, purchased, only one license is required for the operation of all such facilities. The annual license fee for a facility-based grain buyer is three hundred dollars; and a license renewal application that is received after July fifteenth must be assessed an additional one hundred dollar fee per receiving location. The annual license fee for a roving grain buyer is two hundred dollars; and a license renewal application that is received after July fifteenth must be assessed an additional one hundred dollar fee.

If required to obtain United States department of agriculture approval of the commission's grain buyer inspection program, the commission may require that grain buyers submit a current financial statement prepared in accordance with generally accepted accounting principles. A financial statement furnished under this section is a confidential trade secret and is not a public record.

SECTION 7. AMENDMENT. Section 60-02.1-11 of the North Dakota Century Code is amended and reenacted as follows:

60-02.1-11. Revocation and suspension. The commission may suspend or revoke the license of any grain buyer for cause upon notice and hearing. Notwithstanding any other provisions of this chapter, the license of a grain buyer must automatically be suspended for failure at any time to have or to maintain either a bond or insurance policy in the amount and type required. During a suspension of a license a facility-based grain buyer, upon the commission's approval, may operate its facility and purchase or redeliver grain previously received, but may not receive additional grain for purchase, shipping, or processing. Grain may be sold only with the prior approval of the commission.

SECTION 8. AMENDMENT. Subsection 7 of section 60-02.1-14 of the North Dakota Century Code is amended and reenacted as follows:

7. Notice in a clear and prominent manner that the sale is not protected by the bond coverage provided for in section 60-02.1-08. However, if the grain buyer has obtained bond coverage in addition to that required by section ~~60-02.1-15~~ 60-02.1-08 and the coverage extends to the benefit of credit-sale contracts, the grain buyer may state that fact in the credit-sale contract along with the extent of such coverage.

²⁶⁰ **SECTION 9. AMENDMENT.** Section 60-02.1-28 of the North Dakota Century Code is amended and reenacted as follows:

60-02.1-28. Insolvency of grain buyer. A licensee is insolvent when the licensee defaults in payment for grain purchased or marketed by the licensee or is

SECTION 3. AMENDMENT. Section 65-02-11 of the North Dakota Century Code is amended and reenacted as follows:

65-02-11. Process and procedure - Investigations - Examination of witnesses - Costs - Penalty. Except as otherwise provided by this title, process and procedure under this title is governed by chapter 28-32. Any member of the bureau, and any person specifically designated by the bureau may examine witnesses and records, with or without subpoena, examine, investigate, copy, photograph, and take samples at any pertinent location or facility, administer oaths to witnesses, require the attendance of witnesses without fee whenever the testimony is taken at the home, office, or place of work of those witnesses, and generally to do anything necessary to facilitate or promote the efficient administration of this title. The bureau may issue a subpoena to compel the attendance of witnesses and the production of books, papers, correspondence, memoranda, and any other records deemed necessary by the bureau. Subpoenas may be enforced by applying to a judge of the district court for an order requiring the attendance of a witness, the production of all documents and objects described in the subpoena, or otherwise enforcing an order. Failure to comply with the order of the district court is contempt as provided in chapter 27-10. The bureau shall pay the costs of any medical examination, scientific investigation, medical or expert witness appearance or report, requested or approved by the bureau, relating to a claim for benefits, from the bureau general fund.

SECTION 4. AMENDMENT. Section 65-02-20 of the North Dakota Century Code is amended and reenacted as follows:

65-02-20. Bureau to establish managed care program. The bureau shall establish a managed care program, including utilization review and bill review, to effect the best medical solution for an injured employee in a cost-effective manner upon a finding by the bureau that the employee suffered a compensable injury. The program shall operate according to guidelines adopted by the bureau and shall provide for medical management of claims within the bounds of workers' compensation law. Information compiled and analysis performed pursuant to a managed care program which relate to patterns of treatment, cost, or outcomes by health care providers are confidential and are not open to public inspection to the extent the information and analysis identify a specific health care provider, except to the specific health care provider, bureau employees, or persons rendering assistance to the bureau in the administration of this title. If an employee, employer, or medical provider disputes a managed care decision, the employee, employer, or medical provider shall request binding dispute resolution on the decision. The bureau shall make rules providing for the procedures for dispute resolution. Dispute resolution under this section is not subject to chapter 28-32 or section 65-01-16 ~~or 65-02-15~~. A dispute resolution decision under this section requested by a medical provider concerning payment for medical treatment already provided or a request for diagnostic tests or treatment is not reviewable by any court. A dispute resolution decision under this section requested by an employer is reviewable by a court only if medical treatment is awarded to the employee. The dispute resolution decision may be reversed only if the court finds that there has been an abuse of discretion in the dispute resolution process. Any person providing binding dispute resolution services

under this section is exempt from civil liability relating to the binding dispute resolution process and decision.

SECTION 5. AMENDMENT. Subsection 5 of section 65-05-07 of the North Dakota Century Code is amended and reenacted as follows:

5. The bureau may not pay more than ~~twenty~~ fifty thousand dollars to provide permanent additions, remodeling, or adaptations to real estate it determines necessary for a worker who sustains a catastrophic injury as defined in chapter 65-05.1. The ~~twenty~~ fifty thousand dollar limit is for the life of the injured employee, regardless of any subsequent claim. This subsection does not allow the bureau to purchase any real estate or motor vehicles.

SECTION 6. AMENDMENT. Section 65-05-10 of the North Dakota Century Code is amended and reenacted as follows:

65-05-10. Partial disability - Weekly benefit. If the injury causes temporary partial disability resulting in decrease of earning capacity, the disability benefit is sixty-six and two-thirds percent of the difference between the injured employee's average weekly wages before the injury and the employee's wage earning capacity after the injury in the same or another employment. ~~However, the partial~~ Partial disability benefits may not exceed benefit rates as defined in section 65-05-09 are subject to a maximum of one hundred ten percent of the average weekly wage in the state. The combined partial disability benefits, dependency allowance, and postinjury wage earning capacity may not exceed the preinjury weekly wage of the employee after deductions for social security and federal income tax.

1. The benefits provided by this section are available to any otherwise eligible worker, providing the loss of earning capacity occurs after July 1, 1989. Partial loss of earning capacity occurring prior to July 1, 1989, must be paid at a rate to be fixed by the bureau.
2. Benefits must be paid during the continuance of partial disability, not to exceed a period of five years. The bureau may waive the five-year limit on the duration of partial disability benefits in cases of catastrophic injury as defined in section 65-05.1-06.1 or when the injured worker is working and has long-term restrictions verified by clear and convincing objective medical and vocational evidence that limits the injured worker to working less than twenty-eight hours per week because of the compensable work injury. This subsection is effective for partial loss of earnings capacity occurring after June 30, 1991.
3. The employee's earnings capacity may be established by expert vocational evidence of a capacity to earn in the statewide job pool where the worker lives. Actual postinjury earnings are presumptive evidence of earnings capacity where the job employs the employee to full work capacity in terms of hours worked per week, and where the job is in a field related to the employee's transferable skills. The presumption may be rebutted by competent evidence from a vocational expert that the employee's actual earnings do not fairly reflect the employee's earnings capacity in the statewide job pool, considering the employee's capabilities, education, experience, and skills.

SECTION 7. AMENDMENT. Subsection 1 of section 65-05-17 of the North Dakota Century Code is amended and reenacted as follows:

1. To the decedent's spouse or to the guardian of the children of the decedent, an amount equal to the benefit rate for total disability under section 65-05-09. All recipients of benefits under this subsection are eligible for benefits at the rate provided in this section, regardless of the date of death of the deceased employee. These benefits continue until the death ~~or remarriage~~ of the decedent's spouse; or, if the surviving children of the decedent are under the care of a guardian, until those children no longer meet the definition of "child" in this title. If there is more than one guardian for the children who survive the decedent, the bureau shall divide the death benefits equally among the children and shall pay benefits to the children's guardians. Total death benefits, including supplementary benefits, paid on any one claim may not exceed ~~one hundred ninety-seven~~ two hundred fifty thousand dollars. ~~All recipients of benefits under this subsection are eligible for benefits at the rate provided in this section, regardless of the date of death of the deceased employee.~~

SECTION 8. AMENDMENT. Section 65-05-21 of the North Dakota Century Code is amended and reenacted as follows:

65-05-21. Marriage settlement to spouse. If a spouse who receives compensation under the provisions of subsection 1 of section 65-05-17 remarries, there shall be paid to such spouse a lump sum equal to one hundred four weeks' compensation. If, prior to such marriage, such spouse has received a partial lump sum settlement which covers all or any portion of the said one hundred four weeks following such spouse's marriage, the amount of such partial lump sum settlement which covers all or any part of the said one hundred four weeks following such spouse's marriage shall be deducted from such marriage settlement, and the spouse shall receive only the remainder, if any, over and above such deduction. Any judgment annulling such marriage shall not reinstate the right of such spouse to compensation if the action for annulment is instituted more than six months after the marriage. The provisions of this section apply only to remarriages that occur before August 1, 2003, regardless of the date of injury or date of death of the decedent.

SECTION 9. AMENDMENT. Section 65-05-22 of the North Dakota Century Code is amended and reenacted as follows:

65-05-22. Adjustment on cessation of compensation for death to one beneficiary. Upon the cessation of compensation payable to a beneficiary under the provisions of this chapter, the compensation of the remaining persons entitled to compensation for the unexpired part of the period during which their compensation is payable, shall be that which such persons would have received if they had been the only persons entitled to compensation at the time of the decedent's death. ~~This section, however, shall not be construed to increase the compensation of the children of a widow or widower upon remarriage of the widow or widower.~~

SECTION 10. AMENDMENT. Section 65-05-25 of the North Dakota Century Code is amended and reenacted as follows:

65-05-25. Lump sum ~~settlement~~ settlements - Granted in discretion of bureau - How computed.

1. If an employee is determined to be permanently and totally disabled, the bureau may pay the employee a lump sum equal to the present value of all future payments of compensation. The probability of the employee's death before the expiration of the period during which the employee is

entitled to compensation must be determined by generally accepted mortality studies. The bureau may not pay the employee a lump sum unless it has first determined that there is clear and convincing evidence that the lump sum payment is in the best interest of the employee. Best interest of the employee may not be deemed to exist because the employee can invest the lump sum in another manner to realize a better yield. The employee must show a specific plan of rehabilitation which will enable the employee to return to work as a productive member of society.

2. The bureau and an employee may compromise to resolve a disputed claim. The contract of settlement made is enforceable by the parties. The contract may provide that the employee shall utilize the funds to engage in certain rehabilitation programs. If the employee breaches the contract, the bureau may require the employee to repay the benefits received under the agreement. In cases in which the extent of disability is disputed and resolved by agreement, the concept of reopening a disability claim due to significant change in medical condition is inapplicable.
3. If death results from an injury under the conditions specified in section 65-05-16, the bureau may pay the decedent's spouse or the guardian of the decedent's children a lump sum equal to the present value of all future payments of compensation.
4. Notwithstanding any other provision of law, structured settlements may be used to resolve a dispute or to provide for payment of ongoing future benefits. The bureau may contract with a third-party vendor to provide structured settlement payments.

The bureau may provide assistance as determined appropriate to preferred workers or employers who employ a preferred worker. In addition, employers who apply for and are approved as a preferred worker employer may not be assessed premiums on a preferred worker's salary for three years from the date of hiring. The bureau may not charge claims costs incurred as a result of an injury sustained by a preferred worker against the preferred worker's employer's account during the first three years after the worker is hired. The bureau shall charge those claims costs to the general fund. The bureau may adopt rules to regulate and manage the preferred worker program authorized by this section. An employer or preferred worker may not appeal a bureau decision not to provide assistance to that employer or preferred worker under this section. Money in the workers' compensation fund is appropriated on a continuing basis to provide the assistance authorized under this section.

WORKERS' COMPENSATION STAFFING COVERAGE

AN ACT to amend and reenact section 65-01-08 of the North Dakota Century Code, relating to workers' compensation coverage of staffing services.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 65-01-08 of the North Dakota Century Code is amended and reenacted as follows:

65-01-08. Contributing employer ~~or~~ and staffing service relieved from liability for injury to employee.

1. If a local or out-of-state employer secured the payment of compensation to that employer's employees by contributing premiums to the fund, the employee, and the parents in the case of a minor employee, or the representatives or beneficiaries of either, do not have a claim for relief against the contributing employer or against any agent, servant, or other employee of the employer for damages for personal injuries, but shall look solely to the fund for compensation.
2. If a client company contracts with a staffing service for an employee's services, the client company and the staffing service are immune from any claim for relief by that employee or by another employee of the client company or staffing service, to the same extent granted under this title to contributing employers if the client company or staffing service secured the payment of compensation in accordance with this title. The ~~Although an account must include the name of the staffing service, the~~ employee is considered an employee of the client company and staffing service for purposes of application of immunity for injuries incurred by or caused by that employee.
3. For purposes of this section:
 - a. "Client company" means a person that contracts to receive services within the course of that person's usual business from ~~an employee of a staffing service or that contracts to lease any or all of that person's employees from a staffing service.~~
 - b. "Staffing service" means an employer in the business of providing the employer's employees to persons to perform services within the course of that person's usual businesses. The term includes professional employer organizations' staff leasing companies, employee leasing organizations, and temporary staffing companies. The term "staffing service" must be broadly construed to encompass entities that offer services provided by a professional employer organization, staff leasing company, employee leasing

organization, or temporary staffing company regardless of the term used.

- (1) Within the meaning of staffing service as used in this section, "temporary staffing," or "temporary staffing service" means an arrangement by which an employer hires its own employees and assigns the employees to a client company to support or supplement the client company's workforce in a special work situation including:

 - (a) An employee absence;
 - (b) A temporary skill shortage;
 - (c) A seasonal workload; or
 - (d) A special assignment or project with a targeted end date.
 - (2) The term does not include arrangements in which the majority of the client company's workforce has been assigned by a temporary staffing service for a period of more than twelve consecutive months.
4. A staffing service that provides only temporary staffing services is the employee's employer. The temporary staffing service shall maintain a workers' compensation account in the temporary staffing service's name and report the wages for those workers annually to the bureau. All other staffing services shall:
- a. Report annually the payroll detail for each North Dakota client company.
 - b. Maintain complete and separate records of the payroll of the staffing service's client companies. Claims must be separately identified by the staffing service for each client company.
 - c. Share employer responsibilities with the client company, including retention of the authority to hire, terminate, discipline, and reassign employees. If the contractual agreement between a staffing service and a client company is terminated, the employees become the sole employees of the client company.
 - d. Notify the bureau of the client company's name, workers' compensation account number, and the date the staffing service began providing services to the client company. The staffing service shall provide this information upon entering an agreement with a client company, but no later than fifteen days from the effective date of the written agreement.
 - e. Supply the bureau with a copy of the agreement between the staffing service and client company.
 - f. Notify the bureau upon termination of any agreement with a client company, but no later than fifteen days from the effective date of termination.

- g. Notify the staffing service's client companies of an "uninsured" status for failure to pay workers' compensation premiums within fifteen days of notice by the bureau.
- 5. A staffing service that provides both temporary and long-term employees is subject to the reporting requirements associated with the type of employee provided to the client company.
- 6. a. The bureau shall maintain all employer data for each client company requiring coverage under this title. If a client company enters an agreement with a staffing service, the bureau shall generate a master billing for the staffing service detailing the staffing service's client companies.
 - b. Rate classifications for employees provided by a staffing service must be those which would apply as if the work were performed by the employees of the client company. A client company is eligible for bureau safety discount and dividend programs. If a client company enters an agreement with a staffing service, the client company shall retain the client company's experience rate, if applicable.
 - c. Both a staffing service and client company under this section are considered employers for purposes of section 65-04-26.1. A staffing service that provides employees to a client company that has been determined to be uninsured or ineligible for coverage under sections 65-04-27.1 and 65-04-33 may not secure workers' compensation coverage for those employees.
- 7. a. The bureau shall determine whether an entity is a staffing service. If the bureau determines an entity is a staffing service, the bureau may further determine if the entity is a temporary staffing service. In rendering either determination, the bureau may issue a decision under section 65-04-32. If the bureau determines an entity is not a staffing service, the client company shall maintain a workers' compensation account and pay the premium for coverage of the employees.
 - b. The factors the bureau may consider in determining whether an entity is a staffing service include the number of client companies handled by the staffing service, the length of time the staffing service has been in existence, the extent to which the staffing service extends services to the general public, the degree to which the client company and staffing service are separate and unrelated business entities, the repetition of officers or managers between the client company and staffing service, and the extent to which a client company has an ownership or other interest in the staffing service. The bureau also may consider the scope of the services provided by the staffing service, the relationship between the staffing service and the client company's workers, the written agreement between the staffing service and the client company, and any other factor deemed relevant by the bureau.
 - c. The bureau may require information from any staffing service, including a list of current client company accounts, staffing assignments, payroll information, and rate classification

information. A client company shall provide any information requested by the bureau regarding any staffing service.

8. The bureau may adopt rules consistent with this section which further define client company and staffing service and which provide a procedure by which the bureau may determine whether an entity meets these definitions.

AN ACT to amend and reenact sections 65-01-09, 65-04-03.1, 65-04-04, 65-04-15, subsection 1 of section 65-04-26.1, subsections 1 and 2 of section 65-04-32, subsection 3 of section 65-04-33, sections 65-05-07.2, 65-05-28.1, 65-06-01, 65-06-02, 65-06-03, and 65-06-04 of the North Dakota Century Code, relating to the workers compensation bureau's subrogation interests and participation in third-party actions, elimination of the expiration date for the state entities account, employer certificates of coverage, release of information from employer files, personal liability for failure to pay premiums or file premium reports, notice of decisions issued by the workers compensation bureau affecting employer accounts, the penalty structure for failure to secure workers' compensation coverage, employer medical assessments, eligibility of an employer to select preferred providers to render medical treatment, and emergency and disaster volunteers and volunteer firefighters; to repeal section 65-04-19.2 and chapter 65-14 of the North Dakota Century Code, relating to state agency participation in the workers' compensation risk management program and the employee information program on hazardous substances; to provide an effective date; and to declare an emergency.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 65-01-09 of the North Dakota Century Code is amended and reenacted as follows:

65-01-09. Injury through negligence of third person - Option of employee - Fund subrogated when claim filed. When an injury or death for which compensation is payable under provisions of this title shall have been sustained under circumstances creating in some person other than the fund a legal liability to pay damages in respect thereto, the injured employee, or the employee's dependents may claim compensation under this title and proceed at law to recover damages against such other person. The fund is subrogated to the rights of the injured employee or the employee's dependents to the extent of fifty percent of the damages recovered up to a maximum of the total amount it has paid or would otherwise pay in the future in compensation and benefits for the injured employee. The bureau's subrogation interest may not be reduced by settlement, compromise, or judgment. The action against such other person may be brought by the injured employee, or the employee's dependents in the event of the employee's death. Such action shall be brought in the injured employee's or in the employee's dependents' own right and name and as trustee for the bureau for the subrogation interest of the bureau. However, if the director chooses not to participate in a ~~health care malpractice~~ health care malpractice ~~an~~ action, the fund has no subrogation interest and no obligation to pay fees or costs under this section. If the injured employee or the employee's dependents do not institute suit within sixty days after date of injury, the bureau may bring the action in its own name and as trustee for the injured employee or the employee's dependents and retain as its subrogation interest the full amount it has

paid or would otherwise pay in the future in compensation and benefits to the injured employee or the employee's dependents. Within sixty days after both the injured employee and the bureau have declined to commence an action against a third person as provided above, the employer may bring the action in the employer's own name or in the name of the employee, or both, and in trust for the bureau and for the employee. The party bringing the action may determine if the trial jury should be informed of the trust relationship. If the action is brought by the injured employee or the employee's dependents, or the employer as provided above, the bureau shall pay fifty percent of the costs of the action, exclusive of attorney fee, when such costs are incurred. If there is no recovery of damages in the action, this shall be a cost of the bureau to be paid from the bureau general fund. When there is recovery of damages in the action, the costs of the action, exclusive of attorney's fees, must be prorated and adjusted on the percentage of the total subrogation interest of the bureau recovered to the total recovery in the action. The bureau shall pay attorney fees to the injured employee's attorney from the bureau general fund as follows:

1. Twenty percent of the subrogation interest recovered for the bureau when legal action is not commenced.
2. Twenty-five percent of the subrogation interest recovered for the bureau when action is commenced and settled before judgment.
3. Thirty-three and one-third percent of the subrogation interest recovered for the bureau when recovered through judgment.

The above provisions as to costs of the action and attorney fees is effective only when the injured employee advises the bureau in writing the name and address of the employee's attorney, and that the employee has employed such attorney for the purpose of collecting damages or of bringing legal action for recovery of damages. If a claimant fails to pay the bureau's subrogation interest within thirty days of receipt of a recovery in a third party action, the bureau's subrogation interest is the full amount of the damages recovered, up to a maximum of the total amount it has paid or would otherwise pay in the future in compensation and benefits to the injured employee or the employee's dependents, and no costs or attorney fees will be paid from the bureau's subrogation interest.

SECTION 2. AMENDMENT. Section 65-04-03.1 of the North Dakota Century Code is amended and reenacted as follows:

The payroll reporting period for this account is for a fiscal year of July first through June thirtieth. The office of management and budget shall furnish combined payroll information to the bureau in a format prescribed by the bureau.
2. Workers' compensation premiums from state entities covered by chapter 32-12.2 must be deposited in the risk management workers' compensation fund. The state investment board shall invest this fund in

accordance with chapter 21-10. Funds received as contributions from state entities, all other payments deposited in this fund, and interest and income received on investments are appropriated on a continuing basis for the purposes of this fund. The purposes of this fund are to pay workers' compensation premiums for state agencies and to pay workers' compensation claims costs not covered by the deductible contract. The risk management division of the office of management and budget shall administer this fund. Section 54-44.1-11 does not apply to this fund.

3. A state entity covered by chapter 32-12.2 shall participate in the risk management workers' compensation program unless exempted by the director of the office of management and budget.

SECTION 3. AMENDMENT. Section 65-04-04 of the North Dakota Century Code is amended and reenacted as follows:

65-04-04. Employers obligated to pay premiums - Premium and certificates to be mailed. Each employer subject to this title shall pay into the fund annually the amount of premiums determined and fixed by the bureau for the employment or occupation of the employer. The amount must be determined by the classifications, rules, and rates made and published by the bureau and must be based on a proportion of the annual expenditure of money by the employer for the service of persons subject to the provisions of this title. The bureau shall mail to the employer a certificate specifying that the payment has been made. The certificate, attested by the seal of the bureau, is prima facie evidence of the payment of the premium. Notwithstanding the provisions of section 65-04-15, the certificate may reflect the employer has paid the minimum premium and has estimated no wages for the period indicated on the certificate. If an employer defaults on premium payments after a certificate has been issued, the bureau may revoke that employer's certificate. The bureau shall provide that premiums to be paid by school districts, townships, and all public corporations or agencies, except municipal corporations, fall due at the end of the fiscal year of that entity, and that premiums to be paid by all municipal corporations fall due at the end of the calendar year, and may make provisions so that premiums of other employers fall due on different or specified dates. For the purpose of effectuating different or specified due dates the bureau may carry new or current risks for a period of less than one year and not to exceed eighteen months, either by request of the employer or action of the bureau. The bureau may disclose whether an employer's file is active, cancelled, closed, pending, or delinquent. The information in the employer's file may not be released in aggregate form, except to those persons contracting with the bureau for exchange of information pertaining to the administration of this title or except upon written authorization by the employer for a specified purpose. Anyone who is convicted under section 12.1-13-01 is disqualified from holding any office or employment with the bureau.

The bureau may, upon request of the state tax commissioner or the secretary of state, furnish to them a list or lists of employers showing only the names, addresses, and bureau file identification numbers of such employers as those files relate to this chapter; provided, that any such list so furnished must be used by the tax commissioner or the secretary of state only for the purpose of administering their duties. The employer shall reimburse the bureau for all medical expenses related to a compensable injury to an employee if the expenses are not more than two hundred fifty dollars and shall reimburse the bureau for the first two hundred fifty dollars of medical expenses when the expenses are more than two hundred fifty dollars. If an employee's compensable injury is determined through a civil action to have been sustained through the fault or negligence of a third person, or if a settlement has been entered between the employee and a third person through which the third person agrees to compensate the employee for the injury, the bureau, upon receipt of its subrogation interest, shall credit the account of the employer to the extent of the payment made by the employer to the bureau under this section. Upon the bureau's determination that the claim is compensable, the bureau shall pay the medical expenses associated with the claim and notify the employer of payments to be made by the employer under this section. If the employer does not pay the bureau within ~~ninety~~ thirty days of notice by the bureau, the bureau may impose a penalty on that employer. Such charge shall be a fixed sum for each one hundred of the population of the municipality involved, the same to be uniform as to all such municipalities but in proportion to the population thereof. In determining the amount of premium charge, the bureau may apply the system of experience rating provided in this title, as applied to other risks. The bureau may also establish a minimum charge or assessment to be applicable to municipalities where the fixed rate or charge multiplied by the number of hundreds of the population thereof would amount to less than the amount of such minimum charge or assessment. The population of a municipality shall be that shown by the latest official North Dakota state or United States government census, whichever may be the later.

RE: HOUSE BILL 1016, Department of Corrections and Rehabilitation Funding Bill

Dear Speaker Wentz,

North Dakota has real challenges with crime, such as the growing methamphetamine scourge and other drug related crimes. We must have adequate resources to house and treat this growing inmate population.

The Legislature has chosen to place inmates at a converted school in New England, and at county jails throughout the state. While this plan may create some liability issues, we will try to make it work. The immediate problem is that it does not adequately fund the Corrections Department.

The funds allocated for contracting with the counties do not take into account our projected inmate population. Furthermore, \$3 million was taken out of the prison budget, which will result in unacceptable reduction in corrections officers and rehabilitation services. The result of reduced treatment will be a larger prison population and more repeat offenders.

This is a basic public safety and fiscal management issue. I therefore veto the bill.

Sincerely,

John Hoeven
Governor

RE: HOUSE BILL 1022, Information Technology Department (ITD) Funding Bill

Dear Speaker Wentz,

North Dakota has developed one of the finest statewide high-speed data networks in the country. It is a cost effective public sector, private sector partnership that supports education and government, and creates opportunity for business.

At the heart of the system is ITD, the state's information technology department. This funding legislation for ITD creates a bureaucratic maze that will cost taxpayers more and will certainly slow down technology-based services throughout state government. It transfers funds back and forth between ITD and almost every other agency in state government, which will not work and which will leave ITD underfunded.

I can support the 5 percent reduction in each agency's technology budget, but this legislation for ITD will increase costs, and impede services to the people of North Dakota. I therefore veto it.

Sincerely,

John Hoeven
Governor

VETO

April 28, 2003

The Honorable Jack Dalrymple
Senate Chambers
President of the Senate
State Capitol
Bismarck, ND 58505

RE: SENATE BILL 2154, the K-12 Education Funding Bill

Dear President Dalrymple,

Senate Bill 2154 does not commit any increase in education funding to teacher compensation in order to continue the progress that we initiated in the last legislative session. I offered increasing teacher compensation payments or earmarking state aid for education for compensation increases. There may be other ways to do it, but we must continue forward.

We have made progress over the past two years in our effort to lift North Dakota from 50th in the nation in teacher salaries. We cannot simply go back to the old way of doing things.

I therefore veto this bill.

Sincerely,

John Hoeven
Governor

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

Re: Item Veto of HB 1015

Dear Madam Speaker:

Today I have signed HB 1015, but vetoed section 15 of the bill. The section provides that any vacancy, which occurs through retirement or resignation in the Oil and Gas Division or the Geological Survey, must remain vacant for the biennium. It provides no flexibility or management discretion to the Industrial Commission, which manages both agencies.

I recognize the Legislature's direction that the two agencies be consolidated during the biennium, and understand the desire to reduce employees. It is a goal that I can support, provided it is done in an appropriate manner, and will provide more efficient services to the people of North Dakota. We can accomplish the Legislature's goal administratively and in a much less disruptive manner. For these reasons, I have vetoed Section 15.

Sincerely,

John Hoeven

Re: Veto of HB 1421

Dear Madam Speaker:

I am hereby vetoing HB 1421 relating to the Emergency Commission. Section 2 of the bill adds unnecessarily, additional members to the Emergency Commission and removes the duly elected Chairman of the Legislative Council.

Under current law, the Emergency Commission is comprised of the Governor, Secretary of State, the Chairman of the Legislative Council, and each Chairman of the Senate and House Appropriations Committees, giving the Legislature a majority of the members.

The Bill adds one additional legislative member, by placing both majority leaders on the Commission and removing the Chairman of Legislative Council and creates a super majority for Legislators, which is unnecessary. For these reasons, I have vetoed the bill.

Sincerely,

John Hoeven
Governor

The Honorable Jack Dalrymple
President of the Senate
Senate Chambers
State Capitol
Bismarck, ND 58505

Re: Item Veto of SB 2015

Dear Lt. Gov. Dalrymple:

Today I have signed SB 2015, but vetoed the following sections of the bill for reasons expressed below. These item vetoes have been carefully considered. I have discussed the basic concerns with the Legislative leadership and believe that some of these issues will be addressed during the upcoming Special Session.

Section 23: The Section requires that any allotment under 54-44.1-12 must be made to address any projected deficiency. The section does not represent sound budget management policy. It would allow a deficiency to be written into a biennial budget that would have to be paid for by the rest of state government if an allotment was required rather than properly budgeting for the deficiency at the outset. Likewise, an unforeseen deficiency during the budget cycle could force unwarranted cuts and jeopardize basic services because the allotment would have to include the deficiency. Budget flexibility and soundness are key principals of state government and of this administration. Section 23 does not comport with those principals and so I must veto it.

Sections 24, 28 and 29: These sections are all a part of a complex restructuring of the Informational Technology Department and IT functions within state government, that seek to achieve savings and efficiencies. I will support any system, legislation or other means that clearly demonstrates savings to the taxpayers, and more efficient delivery of service. Sections 24, 28 and 29 have not been shown to provide these results. They mandate some, but not all of state government must obtain IT services from ITD. They mandate by November 1, 2003, the transfer of 25 FTEs performing IT services in some agencies, to ITD. I favor efficiencies, cost savings, competition and compatibility in the State's information technology systems. I will work with the Legislature to those ends, but sections 24, 28 and 29 appear to create a maze of bureaucratic maneuverings that will lead us to different end. Therefore I must veto them.

Section 35: This section ventures into executive budget functions, a similar provision of which I vetoed in the 2001 Legislative Session. It mandates that four agencies submit hold even budgets for the 2005-2007 biennium. Those agencies are Department of Public Instruction, Department of Corrections and Rehabilitation, Treasurer, and Secretary of State. The executive branch should be free to prepare and submit a fiscally sound budget for each agency following the usual rigorous review and examination of the executive budget building process. That process will yield sound budgets that are subject to further review and examination during the following legislative session. Mandating four agencies to submit hold even budgets does not allow for sound planning into the coming budget cycle to consider changing

circumstances and needs. It does not represent sound budgeting policy, so I must veto it.

Sections 36, 37, 38 and 39: These sections all relate to reductions in full time equivalents and a potential salary adjustment for public employees. I support the Legislature's intent of reducing pressure upon the budget by finding permanent cost reductions. All of North Dakota will benefit from such a goal, including the taxpayers, and public employees. I will work with the Legislature to achieve that goal and in re-writing these provisions. But, I cannot support them as written as they are rigid and provide little flexibility or incentive for managers and employees to embrace the goal and seek its achievement. Some agencies will be able to provide no contribution to the reductions, while others may do their part while sharing cost savings with the rest of state government. The system must have management flexibility so that administrators can make decisions that will best serve the public interest and meet the goal. We should take stock in time honored management lessons and allow flexibility and discretion in meeting goals, and hold managers accountable for meeting them. These sections fall short of that direction so I must veto them as well.

In issuing these vetoes, I have discussed these issues with legislative leaders and hope to resolve many of them in the coming days of the special session. I welcome the effort and look forward to fashioning concluding bills that answer these concerns in a manner that more fully meets the needs of our state.

Sincerely,

John Hoeven
Governor

GRAZING IN NATIONAL GRASSLANDS URGED

A concurrent resolution urging Congress to require the United States Department of Agriculture Forest Service to implement a management plan that supports the right of North Dakota ranchers to graze their traditional numbers of livestock in the national grasslands and that allows the mineral resources within the national grasslands to be developed in a reasonable manner.

WHEREAS, 17 national grasslands extend east from the Rocky Mountains to north central Texas and three additional national grasslands extend west from the Rocky Mountains in the Great Basin states of Oregon, California, and Idaho; and

WHEREAS, the state of North Dakota is home to three national grasslands - the Cedar River National Grassland, the Sheyenne National Grassland, and the Little Missouri National Grassland; and

WHEREAS, the Cedar River National Grassland consists of 6,700 acres; and

WHEREAS, the Sheyenne National Grassland consists of 70,180 acres of federal land associated with 64,769 acres of privately owned land located in Ransom and Richland Counties and supplies seasonal forage for approximately 80 ranching operations; and

WHEREAS, the Little Missouri National Grassland, which consists of 1,028,051 acres, is the largest and most northern grassland in the nation and supplies seasonal forage for more than 467 ranching operations; and

WHEREAS, the national grasslands are federal lands administered by the United States Department of Agriculture Forest Service; and

WHEREAS, the United States Department of Agriculture Forest Service is charged with administering almost 4,000,000 acres in a fashion that sustains grassland ecosystems while allowing for the production of various goods and services, and supporting and maintaining rural economies and lifestyles; and

WHEREAS, the most recent management plan promulgated by the United States Department of Agriculture Forest Service would result in a potentially major reduction of grazing in the national grasslands located in this state, thereby resulting in a devastating loss to the fragile economy of these rural areas of North Dakota and an economic loss to residents of the counties; and

WHEREAS, 30 percent of North Dakota's oil and gas wells, which produce 36 percent of the crude oil supply for the Tesoro refinery in Mandan, are located within the Little Missouri National Grassland; and

WHEREAS, oil and gas exploration and production and related activities have historically accounted for 58 percent of the economy of the four North Dakota counties comprising the Dakota Prairie Grasslands; and

WHEREAS, the proposed management plan will eliminate or restrict access to 234,460 acres of the 992,870 acres in the grasslands, making 24 percent of the national grasslands virtually off limits for oil and gas exploration and development, resulting in the loss of additional jobs and further damage to the economies of the state as a whole and the local communities;

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

That the Fifty-eighth Legislative Assembly urges the Congress of the United States to require the United States Department of Agriculture Forest Service to implement a management plan that supports the right of North Dakota ranchers to graze their traditional numbers of livestock in the national grasslands and that allows the mineral resources within the national grasslands to be developed in a reasonable manner; and

USDA NOT TO PREEMPT GRAIN WAREHOUSE AUTHORITY

A concurrent resolution urging the United States Department of Agriculture not to preempt states' rights to regulate grain merchandising activities at grain warehouses that are licensed under the United States Warehouse Act, and further urging Congress to take corrective action if the United States Department of Agriculture is unwilling or unable to take corrective action.

WHEREAS, the United States Department of Agriculture has adopted a rule to preempt states' rights to regulate grain merchandising activities at grain warehouses that are licensed under the United States Warehouse Act; and

WHEREAS, this rule was adopted without proper public notice and opportunity to comment; and

WHEREAS, the United States Department of Agriculture does not have a regulatory plan in place to adequately protect farmers who sell grain on a cash sale basis to federally licensed grain warehouses; and

WHEREAS, the United States Department of Agriculture does not have a mechanism in place to adequately inform farmers of what protections are and are not available to patrons of federally licensed grain warehouses; and

WHEREAS, the United States Department of Agriculture is not equipped to promptly respond to patron complaints concerning the day-to-day business operations of grain elevators all across the country; and

WHEREAS, the actions of the United States Department of Agriculture may ultimately diminish competition in local grain markets to the disadvantage of farmers; and

WHEREAS, the existing system of federally regulated warehousing activities and state regulated grain merchandising activities has served farmers well for decades; and

WHEREAS, the proposed system of exclusive federal regulation and oversight in subsequent insolvency proceedings will leave farmers with fewer protections and trust fund resources than they currently have;

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

That the Fifty-eighth Legislative Assembly urges the United States Department of Agriculture to rescind its pending rule to preempt states' rights to regulate merchandising activities at federally licensed grain warehouses and, absent

prompt corrective action, that the Congress of the United States act to restore states' rights to regulate grain merchandising activities at federally licensed grain warehouses; and

BE IT FURTHER RESOLVED, that the Secretary of State forward copies of this resolution to the Secretary of the United States Department of Agriculture and to each member of the North Dakota Congressional Delegation.

REGIONAL DENTAL SCHOOL STUDY

A concurrent resolution directing the Legislative Council to study the desirability and feasibility of establishing a regional dental school in North Dakota within the North Dakota University System and in conjunction with the school of dentistry at the University of Minnesota.

WHEREAS, there are 56 dental schools in the United States; and

WHEREAS, 7,700 students applied for admission to dental school in 2000, which represented a reduction of almost 14 percent since 1999 and a reduction of almost 21 percent since 1997; and

WHEREAS, 4,234 students, or about 55 percent of applicants, were first-year enrollees in dental schools in 2000; and

WHEREAS, the declining number of applicants to dental schools has been attributed at least in part to a reluctance by students to assume more educational debt and assumptions about the difficulty of gaining admittance to dental school; and

WHEREAS, a national decline in the applicant pool will make it more difficult for rural states to recruit and retain dentists; and

WHEREAS, North Dakota already ranks well below the national average with respect to the number of practicing dentists and 16 counties in this state have been designated as dental health professional shortage areas; and

WHEREAS, a recent survey showed that more than 36 percent of the dentists practicing in North Dakota were beyond the age of 50 and that by 2008 over 40 percent of the dentists who were practicing in North Dakota in 1998 will have retired; and

WHEREAS, the shortage of dental health professionals will seriously affect the oral health of many North Dakotans, and in particular, that of low-income North Dakotans; and

WHEREAS, the shortage of dental health professionals in North Dakota could be significantly reduced if not alleviated by encouraging students to pursue careers in dentistry and by providing them the opportunity to pursue a portion of the necessary curriculum in this state; and

WHEREAS, a regional dental school concept in conjunction with an established dental school may provide students greater exposure to the values and opportunities of a rural dental practice setting;

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

That the Legislative Council study the feasibility and desirability of establishing a regional dental school in North Dakota within the North Dakota University System and in conjunction with the school of dentistry at the University of Minnesota; and

VETERINARY SCHOOL STUDY

A concurrent resolution directing the Legislative Council to study the feasibility and desirability of establishing a regional school of veterinary medicine and providing preference for North Dakota resident students who specialize in food animal clinical studies at the out-of-state veterinary schools participating in the professional student exchange program within the North Dakota University System budget.

WHEREAS, veterinarians have played and will need to continue playing a vital role in the livestock industry, in caring for nondomesticated animals, and in caring for the companion animals of our citizens; and

WHEREAS, there is a recognized shortage of food animal veterinarians to serve the livestock industry in rural North Dakota; and

WHEREAS, it is in the best interest of North Dakota citizens to ensure that there are ample numbers of highly qualified veterinarians able and willing to provide medical services to all animals for which the citizens of North Dakota are directly or indirectly responsible; and

WHEREAS, there are presently only 27 veterinary medical colleges in the United States; and

WHEREAS, if North Dakota students wish to pursue careers in veterinary medicine, they must do so at out-of-state institutions such as Colorado State University, Iowa State University, Kansas State University, Oregon State University, Washington State University, the University of Minnesota, and the University of California - Davis; and

WHEREAS, North Dakota students who graduate from schools of veterinary medicine in other states are faced with significant debt repayment obligations and often find that those states offer better employment and specialization opportunities, as well as higher salary levels than those that could be achieved in food animal veterinary practice in North Dakota;

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

That the Legislative Council study the feasibility and desirability of establishing a regional school of veterinary medicine and providing preference for North Dakota resident students who specialize in food animal clinical studies at the out-of-state veterinary schools participating in the professional exchange grant program within the North Dakota University System budget; and

A concurrent resolution urging Congress to make immediate changes in those Medicare policies that discriminate against senior citizens who reside in rural states and to implement national benefit and service provider policies that are more uniform in their application.

WHEREAS, it has been a long-standing obligation of the federal government to pay for the health care of this country's senior citizens; and

WHEREAS, the federal government taxes working citizens uniformly to fund the Medicare program, regardless of where those citizens reside; and

WHEREAS, under the current Medicare payments to those who provide services to this country's senior citizens vary significantly between urban and rural states; and

WHEREAS, because of this unequal payment, senior citizens who reside in rural states do not receive the same array of services as those senior citizens who reside in urban states; and

WHEREAS, national health care programs such as Medicare must not be allowed to penalize senior citizens who reside in rural states by subjecting them to less coverage and thereby fewer services than those received by senior citizens in urban states;

WHEREAS, ethanol is made from corn, a renewable resource, and a crop grown in abundance in North Dakota; and

WHEREAS, the state has the capacity to produce 10.5 million gallons of ethanol annually, utilizing 4 million bushels of corn; and

WHEREAS, ethanol is available in either a lower-level blend, 10 percent, or a high-level blend, 85 percent, and corn-based E85 fuel has been found to reduce greenhouse gas emissions by as much as 39 to 46 percent when compared to gasoline; and

WHEREAS, the Governor has directed the Department of Transportation to use a 10 percent ethanol-blended fuel in the state's 2,300-vehicle fleet; and

WHEREAS, ethanol production adds up to 30 cents to every bushel of corn and produces a nutritious livestock byproduct; and

WHEREAS, farmers benefit from the production of ethanol not only from higher corn prices but also from collective enterprises to build ethanol production facilities; and

WHEREAS, the 11 counties comprising the Missouri River corridor in North Dakota lost more than 500,000 acres of valuable river bottomlands as a result of construction of the Missouri River reservoirs under the federal Flood Control Act of 1944, causing an annual loss of millions of dollars in economic gross product and an additional annual loss in personal income as well as other serious impacts to individuals, political subdivisions, and North Dakota's Indian Nations; and

WATER PROJECT INTERFERENCE AND ARSENIC STANDARDS

A concurrent resolution strongly encouraging the Governor, Attorney General, State Water Commission, and state agencies to continue aggressive action against individuals, organizations, and entities interfering with the development and progress of state water projects, including the Northwest Area Water Supply Project, the Southwest Pipeline Project, Devils Lake flooding, delivery of water to eastern North Dakota, development of water resources for irrigation purposes, and development of projects to control flooding, and urging the Environmental Protection Agency to relax the recently promulgated rule lowering the allowable level of arsenic in drinking water for affected cities in North Dakota.

WHEREAS, areas of the arid west-central region of North Dakota do not enjoy safe drinking water and do not have sufficient quantities of water to ensure a dependable, long-term supply of water which areas to the south currently enjoy; and

WHEREAS, many cities and rural areas in the Northwest Area Water Supply Project have domestic water supplies of less than desirable quality; and

WHEREAS, the Northwest Area Water Supply Project will pump Missouri River water from Lake Sakakawea as far north as Sherwood, as far east as Bottineau, and as far west as Divide County and will supply water to the city of Minot; and

WHEREAS, using Missouri River water to supply the Northwest Area Water Supply Project will be advantageous in that the residents of North Dakota, including the far west, it will receive a clean and abundant supply of water providing a more inviting home for potential businesses and industries which will strengthen local economies and result in more and better jobs for North Dakotans; and

WHEREAS, a safe, dependable supply of water is critical to the economic viability of the state and future economic development; and

WHEREAS, individuals, organizations, and entities have opposed North Dakota water projects for political rather than scientific reasons; and

WHEREAS, the Environmental Protection Agency has recently promulgated rules reducing the allowable level of arsenic in drinking water from 50 parts per billion to 10 parts per billion; and

WHEREAS, several cities in North Dakota are being challenged to meet the stricter drinking water standard for arsenic; and

WHEREAS, as many as 30 public water systems in North Dakota which currently comply with drinking water standards may find it extremely difficult to

comply with the new drinking water standard for arsenic in the short timeframe before the rules take effect;

A concurrent resolution urging the President of the United States, the Secretary of the Army, and the United States Army Corps of Engineers to adopt and implement an updated Missouri River Master Water Control Manual that gives fair consideration to the substantial recreation values present on Lake Sakakawea, Lake Oahe, and the Missouri River in North Dakota.

WHEREAS, potential for economic growth and long-term stability in western North Dakota rests to an increasing degree on the recreational usability of and tourist visitations to Lake Sakakawea, Lake Oahe, and the Missouri River in North Dakota; and

WHEREAS, visitations to Lake Sakakawea, Lake Oahe, and the Missouri River in North Dakota are forecast to increase dramatically due to the bicentennial celebration of the exploration of the Missouri River by Lewis and Clark; and

WHEREAS, after 50 years since the closing of the Garrison Dam the federal government generally and the United States Army Corps of Engineers specifically have failed to adequately develop the recreation potential that exists in Lake Sakakawea, Lake Oahe, and the Missouri River in North Dakota; and

WHEREAS, failure of the federal government and the United States Army Corps of Engineers to facilitate development of recreation potentials will result in an unsatisfactory experience for the hundreds of thousands of North Dakota visitors expected during the Lewis and Clark Bicentennial; and

WHEREAS, the United States Army Corps of Engineers' delays in accounting for contemporary system uses and economic growth potential have severely hampered private and local government recreation development along Lake Sakakawea, Lake Oahe, and the Missouri River in North Dakota; and

WHEREAS, system management based on the current Missouri River Master Water Control Manual during the current and recent droughts has unnecessarily caused Lake Sakakawea and Lake Oahe water levels to fall to crisis levels; thus, compounding the negative environment for state, tribal, and local governments and the private sector to develop the economic potential of one of North Dakota's most important natural resources; and

WHEREAS, system management based on the current Missouri River Master Water Control Manual effectively gives unfair, higher priority to downstream business interests at the expense of upstream business, recreation, and environmental interests; and

WHEREAS, any proposed change to the current Missouri River Master Water Control Manual included in the United States Army Corps of Engineers' revised draft environment impact statement would be an improvement for endangered species in

the Missouri River System, specifically the pallid sturgeon, least tern, and piping plover; and

WHEREAS, the United States Army Corps of Engineers has delayed updating its Missouri River Master Water Control Manual even though the mandatory deadline for such an update has long passed;

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

That the Fifty-eighth Legislative Assembly urges the President to direct the United States Army Corps of Engineers to complete and release a final, updated Missouri River Master Water Control Manual as its highest priority and to commit sufficient funds and other resources to fully develop the recreation potentials of the Missouri River System in North Dakota; and

BE IT FURTHER RESOLVED, that the Secretary of State forward copies of this resolution to the Division Commander of the Northwestern Division of the United States Army Corps of Engineers; the Secretary of the Army; the Secretary of the Interior; the District Engineer, Omaha District, United States Army Corps of Engineers; the Governor; each member of the State Water Commission; and each member of the North Dakota, South Dakota, Wyoming, and Montana Congressional Delegations.

WHEREAS, the United States Army Corps of Engineers promised to review its overall program execution to find funds and direct those funds to prioritized Lewis and Clark Expedition projects; and

WHEREAS, the Lewis and Clark exploratory party spent more than 160 days and nights in what is now North Dakota, making North Dakota one of the most significant states to the expedition; and

WHEREAS, an influx of hundreds of thousands of people from all over the nation and the world are expected to visit North Dakota to commemorate the Lewis and Clark Expedition; and

A concurrent resolution urging Congress to eliminate the estate tax.

WHEREAS, under tax relief legislation passed in 2001, the estate tax was temporarily phased out, not permanently eliminated; and

WHEREAS, women and minorities are very often owners of small and medium-sized businesses, and the estate tax prevents their children from reaping the rewards of a lifetime of trying to make a better life; and

WHEREAS, farmers and other small business owners will face losing their farms and businesses if the federal government resumes the heavy taxation of citizens at death; and

WHEREAS, employees suffer when they lose their jobs when small and medium-sized businesses are liquidated to pay estate taxes and because high capital costs depress the number of new businesses that could offer them a job; and

HEAD START RECOGNITION AND FUNDING URGED

A concurrent resolution urging Congress to recognize the meritorious aspects and the successes of the Head Start program, maintain funding at the highest possible level, and reject any proposal to move Head Start from the Department of Health and Human Services to the Department of Education or to limit the scope of Head Start.

WHEREAS, Head Start is a 38-year-old federally funded program charged with preparing poverty-level preschoolers for elementary school; and

WHEREAS, Head Start also sends children to the dentist, the doctor, or the mental health professional and provides case management services as well as general educational development and parenting classes for families that live well below the federal poverty level; and

TRIBAL GAME AND FISH COORDINATION STUDY

A concurrent resolution directing the Legislative Council to study proposed legislation permitting the Game and Fish Department to coordinate with game and fish programs conducted by the tribal governments of the federally recognized Indian tribes in North Dakota.

WHEREAS, the state of North Dakota has established a game and fish department to manage the wild game and fish within the state; and

WHEREAS, the various tribal governments of the federally recognized Indian tribes within North Dakota assert a federally recognized right to regulate hunting and fishing within the reservations set aside for their benefit and have also established game and fish departments that assist in that regulation; and

WHEREAS, various issues have arisen between the state game and fish department and the Indian tribes regarding such issues as jurisdiction, recognition of tribal and state hunting and fishing permits, and coordination of activities such as hunting and fishing seasons, among others, and it would be desirable to resolve these issues if at all possible; and

WHEREAS, it would be mutually beneficial for the state of North Dakota and the tribal governments to work cooperatively to effectively manage the wild game and fish that exist within North Dakota;

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

That the Legislative Council study proposed legislation permitting the Game and Fish Department to coordinate with game and fish programs conducted by the tribal governments of the federally recognized Indian tribes in North Dakota; and

MEDICARE PRESCRIPTION DRUG BENEFIT URGED

A concurrent resolution urging the Congress to enact a Medicare prescription drug benefit.

WHEREAS, the use of prescription drugs improves the quality of care and helps patients live healthier, longer, and more productive lives while keeping them out of more costly acute care settings in the long term; and

WHEREAS, the increased use of new and improved prescription drugs has changed the delivery of health care in the United States since Medicare was enacted, and while two-thirds of the Medicare population has some form of prescription drug coverage, although many times it is inadequate, one-third of Medicare beneficiaries have no coverage at all; and

WHEREAS, Congress did not enact a drug benefit in the Medicare program therefore, the program is inadequate in providing the elderly and disabled the most appropriate drug therapies, preventing the delivery of quality health care at an affordable cost; and

WHEREAS, the private sector provides affordable coverage by negotiating discounts on drugs and meeting the needs of special populations with chronic diseases and those with comorbidities through coordinating care with disease management, drug utilization review, and patient education programs, all of which aid in ameliorating medical errors; and

WHEREAS, comprehensive reform of the Medicare program could utilize the successful tools of the private sector in coordinating care for this population and use the marketplace to foster competition among private plans, resulting in more choices of quality coverage for seniors and the disabled while maintaining the financial sustainability of the program; and

WHEREAS, Congress's inaction has failed to provide for comprehensive reform of Medicare, encouraging states to use their own resources to ease the burden of their elderly and disabled populations and effectively assume an unfunded, informal mandate; and

WHEREAS, in implementing state programs to assist the Medicare population, state budgetary constraints can often result in requirements to restrict and limit the patients' access to needed prescription drugs and enact anticompetitive price controls;

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

That the Fifty-eighth Legislative Assembly urges the Congress of the United States to enact financially sustainable, voluntary, universal, outpatient prescription

drug coverage with consideration for privately administered plans as part of the federal Medicare program; and

BE IT FURTHER RESOLVED, that the Secretary of State forward copies of this resolution to the Speaker of the United States House of Representatives and the President of the United States Senate and to each member of the North Dakota Congressional Delegation.

ECONOMIC DEVELOPMENT NEAR RESERVATIONS STUDY

A concurrent resolution directing the Legislative Council to study legislative alternatives to foster and promote economic development in areas on or near the Indian reservations in North Dakota, including rural areas near Indian reservations.

WHEREAS, the results of the decennial census of the state of North Dakota show that the fastest growing population within the state is Native Americans living within or near Indian reservations; and

WHEREAS, census results and other studies also show that the areas of the greatest concentration of poverty and unemployment in North Dakota are on or near the Indian reservations in the state and these areas of poverty and unemployment often extend to counties surrounding the reservations; and

WHEREAS, over 50 percent of all welfare recipients in the state of North Dakota are Native Americans, approximately one-third of the prison population is Native American, and the percentage of unemployed who are capable of work on the Indian reservations in North Dakota is greater than 50 percent; and

WHEREAS, various economic development efforts are being made and have been made by the federal government that will benefit Indian reservations but these efforts have not been sufficient to relieve the poor economic conditions that exist on the reservations in North Dakota; and

WHEREAS, tribal governments are also allocating a large portion of their resources toward economic development, including funds derived from lawful gaming activities conducted on the reservations, and have shown that these economic activities also assist in economic growth in nearby rural communities, but in light of population growth and the limited resources available to tribal governments, including the federal funds set aside on their behalf, the limited income and employment opportunities from gaming activities lawfully conducted in rural areas of the state and other sources of revenue and efforts at economic development, economic conditions for areas on or near reservations have only marginally improved; and

WHEREAS, the cost to the state of poor economic conditions on or near the Indian reservations is enormous, including the loss of state revenues because of low economic activity and low employment rates, the cost of welfare assistance, the cost of housing a large prison population, and the cost of other social issues associated with poverty and is probably measured in an amount in the hundreds of millions of dollars; and

WHEREAS, barriers to economic development on or near the Indian reservations and in surrounding rural areas include, among other things, lack of access to capital, lack of job training opportunities, lack of employment opportunities,

lack of incentives to invest, such as programs that would reduce or eliminate taxes for specific periods, and lack of infrastructure necessary for investment; and

WHEREAS, the state of North Dakota has already enacted various economic development proposals that largely benefit the urban areas of the state and provide some assistance to rural areas but do not target the areas with the greatest concentration of poverty within the state, namely, areas on or near Indian reservations;

NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:

That the Legislative Council study legislative proposals that would provide economic incentives or provide targeted programs with measurable outcomes that would assist in economic development on or near the Indian reservations in North Dakota and in rural areas around the reservations, including proposals that would assist tribes and tribal members to gain access to capital needed for economic development; reduce or eliminate taxes for a specific period of time; enhance the capacity of state economic development programs already in existence to be coordinated with federal programs that promote economic development for Indian reservations; enhance the capacity of the Bank of North Dakota to provide loans for economic development on or near the reservations, such as lower interest rate loans; and create programs targeted to assist individual tribal members and other rural entrepreneurs to create and expand businesses that are likely to succeed in rural areas; and

BE IT FURTHER RESOLVED, that the Legislative Council report its findings and recommendations, together with any legislation required to implement the recommendations, to the Fifty-ninth Legislative Assembly.

WHEREAS, many areas and localities in central North Dakota do not enjoy safe drinking water, and the water in these areas and localities contains iron, sulfates, alkali, salt, nitrates, fluoride, and other hazardous and discoloring substances; and

WHEREAS, many areas and localities in central North Dakota do not have sufficient quantities of water to ensure a dependable, long-term supply; and

WHEREAS, a dependable supply of potable water, free from contaminants and substances as aforementioned, is instrumental to the stabilization and revitalization of the rural and sub-urban economy in central North Dakota; and

WHEREAS, the North Central Rural Water Consortium Project's goal is to address and fill the gaps existing between the numerous rural water systems currently operating in seven counties throughout central North Dakota, utilizing existing facilities to their fullest capacity to present a more feasible project, and afford all residents of the area the opportunity to be served at a more affordable cost; and

WHEREAS, the South Central Regional Water District will extend the services of the Burleigh Water Users Cooperative to address the needs of a five-county region in south central North Dakota, utilizing the Missouri River as a source of supply; and

WHEREAS, both of these projects will supply water, in areas of the state exceeding the recommended allowable levels for arsenic, in both private and public wells, thus offering a solution for the numerous small communities facing severe financial burdens to comply with the new arsenic standard thus resulting in an improved quality of life for the rural residents of these areas;
