

Introduced by

1 A BILL for an Act to create and enact a new section to chapter 15-10 of the North Dakota
2 Century Code, relating to higher education information technology; and to amend and reenact
3 sections 54-35-15.2, 54-59-05, 54-59-09, and 54-59-11 of the North Dakota Century Code,
4 relating to powers and duties of the information technology committee and the information
5 technology department, information technology standards, and information technology plans.

6 **BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:**

7 **SECTION 1.** A new section to chapter 15-10 of the North Dakota Century Code is
8 created and enacted as follows:

9 **Higher education information technology - Board duties - Reports.**

- 10 1. The state board of higher education shall manage and regulate information
11 technology planning and services for institutions under its control, including:
12 a. Development of information technology policies, standards, and guidelines in
13 coordination with the information technology department.
14 b. Implementation of a process for project management oversight and reporting.
15 c. Integration of higher education information technology planning and reporting
16 with the board's strategic planning process and annual performance and
17 accountability report required by section 15-10-14.2.
18 d. Participation in internet2 or other advanced higher education or
19 research-related networking projects as provided in section 54-59-08.
20 e. Development of an annual report concerning higher education information
21 technology planning and services.
22 2. The state board of higher education shall collaborate with the information
23 technology department to coordinate higher education information technology
24 planning with statewide information technology planning.

3. The state board of higher education shall provide advice to the information technology department regarding the development of policies, standards, and guidelines relating to access to or use of wide area network services as provided by section 54-59-09.

4. The state board of higher education shall present information regarding higher education information technology planning, services, and major projects to the information technology committee on request of the committee.

SECTION 2. AMENDMENT. Section 54-35-15.2 of the North Dakota Century Code is amended and reenacted as follows:

54-35-15.2. Information technology committee - Powers and duties. The information technology committee has continuing existence and may meet and conduct its business during the legislative session and in the interim between sessions. The committee shall:

1. Meet at least once each calendar quarter.
2. Receive a report from the chief information officer of the state at each meeting.
3. Review the business plan of the information technology department.
4. Address macro-level questions relating to the information technology department.
5. Review the activities of the information technology department.
6. Review statewide information technology standards.
7. Review the statewide information technology plan.
8. Conduct studies of information technology efficiency and security.
9. Make recommendations regarding established or proposed information technology programs and information technology acquisition by the executive and judicial branches.
10. Except as provided in subsection 11, review the cost-benefit analysis of any major information technology project of an executive or judicial branch agency. A major project is a project with a cost of two hundred fifty thousand dollars or more in one biennium or a total cost of five hundred thousand dollars or more.
11. Review the cost-benefit analysis of any major project of the state board of higher education or any institution under the control of the state board of higher education if the project:

- a. Significantly impacts the statewide wide area network, including the campus access routers; or
- b. Impacts the statewide library system; ~~or~~
- e. ~~Is an administrative project. An administrative project is a project that directly collects, aggregates, modifies, stores, or reports institutional student, financial, or human resources records or data and is provided primarily for administrative purposes.~~

12. Perform periodic reviews to ensure that a major information technology project is on its projected schedule and within its cost projections.

13. Receive information from the state board of higher education regarding higher education information technology planning, services, and major projects.

SECTION 3. AMENDMENT. Section 54-59-05 of the North Dakota Century Code is amended and reenacted as follows:

54-59-05. Powers and duties of department. The department:

1. Shall provide, supervise, and regulate information technology of all executive branch state entities, excluding the institutions under the control of the board of higher education.
2. Shall provide network services in a way that ensures the network requirements of a single entity do not adversely affect the functionality of the whole network, facilitates open communications with the citizens of the state, minimizes the state's investment in human resources, accommodates an ever-increasing amount of traffic, supports rapid detection and resolution of problems, protects the network infrastructure from damage and security breaches, provides for the aggregation of data, voice, video, and multimedia into a statewide transport mechanism or backbone, and provides for the network support for the entity to carry out its mission.
3. May review and approve additional network services that are not provided by the department.
4. May purchase, finance the purchase, or lease equipment, software, or implementation services or replace, including by trade or resale, equipment or software as may be necessary to carry out this chapter. An agreement to finance

the purchase of software, equipment, or implementation services may not exceed a period of five years. The department shall submit any intended financing proposal for the purchase of software, equipment, or implementation services under this subsection, which is in excess of one million dollars, to the budget section of the legislative council or the legislative assembly before executing a financing agreement. If the budget section or the legislative assembly does not approve the execution of a financing agreement, the department may not proceed with the proposed financing arrangement. The department may finance the purchase of software, equipment, or implementation services only to the extent the purchase amount does not exceed seven and one-half percent of the amount appropriated to the department during that biennium.

5. Each executive branch agency or institution, excluding the institutions under the control of the board of higher education, shall submit to the department, in accordance with guidelines established by the department, a written request for the lease, purchase, or other contractual acquisition of information technology. The department shall review requests for conformance with the requesting entity's information technology plan and compliance with statewide policies and standards. If the request is not in conformance or compliance, the department may disapprove the request or require justification for the departure from the plan or statewide policy or standard.
6. Shall provide information technology, including assistance and advisory service, to the executive, legislative, and judicial branches. If the department is unable to fulfill a request for service from the legislative or judicial branch, the information technology may be procured by the legislative or judicial branch within the limits of legislative appropriations.
7. Shall request information on or review information technology, applications, system development projects, and application development projects of executive branch agencies.
8. Shall study emerging technology and evaluate its impact on the state's system of information technology.

9. Shall develop guidelines for reports to be provided by each agency of the executive branch agency, institution, or department, legislative, and judicial branches, excluding the institutions under the control of the board of higher education, ~~and agencies of the judicial and legislative branches~~ on information technology in those entities.

10. Shall collaborate with the state board of higher education on guidelines for reports to be provided by institutions under control of the state board of higher education on information technology in those entities.

11. Shall review the information technology management of executive branch agencies or institutions.

~~44.~~ 12. Shall perform all other duties necessary to carry out this chapter.

~~42.~~ 13. May provide wide area network services to a state agency, city, county, school district, or other political subdivision of this state. The information technology department may not provide wide area network service to any private, charitable, or nonprofit entity except the information technology department may continue to provide the wide area network service the department provided to the private, charitable, and nonprofit entities receiving services from the department on January 1, 2003. The department shall file with the state auditor before September 1, 2003, a description of the wide area network service the department provided to each private, charitable, and nonprofit entity receiving services from the department on January 1, 2003.

~~43.~~ 14. Shall assure proper measures for security, firewalls, and internet protocol addressing at the state's interface with other facilities.

~~44.~~ 15. Notwithstanding subsection ~~42~~ 13, ~~the department~~ may provide wide area network services for a period not to exceed four years to an occupant of a technology park associated with an institution of higher education or to a business located in a business incubator associated with an institution of higher education.

SECTION 4. AMENDMENT. Section 54-59-09 of the North Dakota Century Code is amended and reenacted as follows:

54-59-09. Information technology standards. Based on information from state agencies and institutions, the department and the office of management and budget shall

1 develop statewide information technology policies, standards, and guidelines. The policies,
2 standards, and guidelines must recognize the uniqueness of certain agencies and state which
3 agencies are included or exempted from the policies, standards, and guidelines. The policies,
4 standards, and guidelines must be reviewed by the state information technology advisory
5 committee. Unless an exemption is granted by the chief information officer, each executive
6 branch state agency and institution, excluding the institutions under the control of the board of
7 higher education ~~with respect to academic and research uses of information technology~~, shall
8 comply with the policies and standards developed by the department and the office of
9 management and budget. Unless an exemption is granted by the chief information officer, each
10 entity receiving wide area network services provided by the department shall comply with the
11 policies and standards developed by the department with respect to access to or use of wide
12 area network services.

13 **SECTION 5. AMENDMENT.** Section 54-59-11 of the North Dakota Century Code is
14 amended and reenacted as follows:

15 **54-59-11. Information technology plans.** Each executive branch state agency or
16 institution, ~~including~~ excluding the institutions under the control of the board of higher
17 education, shall prepare an information technology plan, subject to approval by the department.
18 The plan must be submitted to the department by July fifteenth of each even-numbered year.
19 The plan must be prepared based on guidelines developed by the department; must provide the
20 information technology goals, objectives, and activities of the entity for the current biennium and
21 the next two bienniums; and must include information regarding the information technology
22 assets owned, leased, or employed by the entity. Each entity required to file a plan shall
23 provide interim updates to its plan if major information technology changes occur which affect
24 its plan. The department shall review each entity's plan for compliance with statewide
25 information technology policies and standards and may require an entity to change its plan to
26 comply with statewide policies or standards or to resolve conflicting directions among plans.
27 Agencies of the judicial and legislative branches shall file their information technology plans
28 with the department by July fifteenth of each even-numbered year. Each state entity shall
29 prepare its budget request for the next biennium based on its information technology plan. The
30 agency's budget request and the governor's budget recommendation must include supporting
31 information describing in detail how the information technology plan relates to the budget

1 request and recommendation. Any budget adjustment by the budget office must include the
2 corresponding change to the plan. Based on the plans, the department shall prepare a
3 statewide information technology plan and distribute copies of that plan to members of the
4 legislative assembly as requested by the legislative council or its designee. The statewide
5 information technology plan must be developed with emphasis on long-term strategic goals and
6 objectives.
