3. If it appears from an affidavit filed or from sworn testimony before the court in a proceeding not commenced under section 27-20-30.1 that the conduct, condition, or surroundings of the child are endangering the child's health or welfare or those of others, or that the child may abscond or be removed from the jurisdiction of the court or will not be brought before the court, notwithstanding the service of the summons, the court may endorse upon the summons an order that a law enforcement officer shall serve the summons and take the child into immediate custody and bring the child before the court.
4. The summons must state that a party is entitled to counsel in the proceedings and that counsel will be provided at public expense if the party is indigent.
5. A party, other than the child, may waive service of summons by written stipulation or by voluntary appearance at the hearing. If the child is present at the hearing, the child's counsel, with the consent of the parent, guardian, or other custodian, or guardian ad litem, may waive service of summons in the child's behalf. This subsection does not apply in a proceeding commenced under section 27-20-30.1.
6. When a child is in detention or shelter care and good cause is shown why service was not completed upon an absent or noncustodial parent, the court may proceed with the hearing on the petition in order to comply with any time limitations under this chapter.

**SECTION 5. AMENDMENT.** Section 27-20-26 of the North Dakota Century Code is amended and reenacted as follows:

**27-20-26. Right to counsel - Exceptions.**

1. Except as otherwise provided in this section, a party who is indigent and unable to employ legal counsel is entitled to counsel at public expense at proceedings commenced under section 27-20-30.1, and at custodial, post-petition, and informal adjustment stages of proceedings under this chapter. During the informal adjustment stage of a proceeding or in a proceeding commenced under section 27-20-30.1 only the child, if determined to be indigent, is entitled to counsel at public expense. In proceedings regarding allegations of unruliness or delinquency, a child's parent, legal guardian, or custodian, if determined to be indigent, is entitled to counsel at public expense only during the dispositional stage of the proceedings. If a party appears without counsel the court shall ascertain whether the party knows the party may be represented by counsel and that the party is entitled to counsel at public expense if indigent. The court may continue the proceeding to enable a party to obtain counsel and, subject to this section, counsel must be provided for an unrepresented indigent party upon the party's request. Counsel must be provided for a child who is under the age of eighteen years and is not represented by the child's parent, guardian, or custodian at custodial, post-petition, and informal adjustment stages of proceedings under this chapter. If the interests of two or more parties conflict, separate counsel must be provided for each of them.
2. An indigent party is one who at the time of requesting counsel is unable, without undue financial hardship, to provide for full payment of legal counsel and all other necessary expenses for representation. A child who, at the time of the proceeding, is under the age of eighteen years is not to be considered indigent under this section if the child's parent can, without undue financial hardship, provide full payment for legal counsel and other expenses of representation. Any parent of a child who is under the age of eighteen and is involved in a proceeding under this chapter is, unless undue financial hardship would ensue, responsible for providing legal counsel and for paying other necessary expenses of representation for the parent's child. The court may enforce performance of this duty by appropriate order.
3. For purposes of this section and section 27-20-49, "party" means the child and the child's parent, legal guardian, or custodian, and includes "child" as defined in subsection 1 of section 27-20-30.1.

**SECTION 6.** Section 27-20-30.1 of the North Dakota Century Code is created and enacted as follows:

**27-20-30.1. Disposition of child needing continued foster care services.**

1. For purposes of this section, "child" means an individual between the ages of eighteen and twenty-one years who is in the need of continued foster care services.
2. A petition to commence an action under this section must contain information required under section 27-20-21 along with an affidavit prepared by the administrative county, as determined by the department of human services.
3. The court shall issue a summons in accordance with section 27-20-22 upon the filing of a petition and affidavit.

4. If a child is in need of continued foster care services as determined by the department of human services and as set forth in a continued foster care agreement, the court shall make the following judicial determination:
  - a. That the child is not deprived, delinquent, or unruly but is in need of continued foster care services;
  - b. That the child will remain in or will return to foster care pursuant to the child's continued foster care agreement;
  - c. That the child's continued foster care agreement has been willfully entered between the department of human services or its agent, the child, and the foster parent;
  - d. That it is in the best interest of the child to remain in or return to foster care;
  - e. That reasonable efforts were made in accordance with subsection 7 of section 27-20-32.2;
  - f. That the child has attained the age of eighteen or older but does not exceed the age of twenty-one years;
  - g. That the child has satisfied the education, employment, or disability requirements under the Fostering Connections to Success and Increasing Adoptions Act of 2008 [Pub. L. 110-351] and as set forth by the department of human services;
  - h. That the administrative county, as determined by the department, shall continue foster care case management, unless otherwise agreed to or required by the department;
  - i. That the administrative county or division of juvenile services must have care and placement responsibility of the child;
  - j. That permanency hearing must be as set forth in section 27-20-36; and
  - k. That there are no grounds to file a petition to terminate parental rights under chapter 27-20.
5. Pursuant to section 27-20-37, a court may modify or vacate the judicial determination made under subsection 4.

**SECTION 7. AMENDMENT.** Section 27-20-32.2 of the North Dakota Century Code is amended and reenacted as follows:

**27-20-32.2. Reasonable efforts to prevent removal or to reunify - When required.**

1. As used in this section, "reasonable efforts" means the exercise of due diligence, by the agency granted authority over the child under this chapter, to use appropriate and available services to meet the needs of the child and the child's family in order to prevent removal of the child from the child's family or, after removal, to use appropriate and available services to eliminate the need for removal, to reunite the child and the child's family, and to maintain family connections. In determining reasonable efforts to be made with respect to a

- child under this section, and in making reasonable efforts, the child's health and safety must be the paramount concern.
2. Except as provided in subsection 4, reasonable efforts must be made to preserve families, reunify families, and maintain family connections:
    - a. Prior to the placement of a child in foster care, to prevent or eliminate the need for removing the child from the child's home;
    - b. To make it possible for a child to return safely to the child's home;
    - c. To place siblings in the same foster care, relative, guardianship, or adoptive placement, unless it is determined that such a joint placement would be contrary to the safety or well-being of any of the siblings; and
    - d. In the case of siblings removed from their home who are not jointly placed, to provide for frequent visitation or other ongoing interaction between the siblings, unless it is contrary to the safety or well-being of any of the siblings.
  3. If the court or the child's custodian determined that continuation of reasonable efforts, as described in subsection 2, is inconsistent with the permanency plan for the child, reasonable efforts must be made to place the child in a timely manner in accordance with the permanency plan and to complete whatever steps are necessary to finalize the permanent placement of the child.
  4. Reasonable efforts of the type described in subsection 2 are not required if:
    - a. A court of competent jurisdiction has determined that a parent has subjected a child to aggravated circumstances; or
    - b. The parental rights of the parent, with respect to another child of the parent, have been involuntarily terminated.
  5. Efforts to place a child for adoption, with a fit and willing relative or other appropriate individual as a legal guardian, or in another planned permanent living arrangement, may be made concurrently with reasonable efforts of the type described in subsection 2.
  6. Removal of a child from the child's home for placement in foster care must be based on judicial findings stated in the court's order, and determined on a case-by-case basis in a manner that complies with the requirements of titles IV-B and IV-E of the Social Security Act [42 U.S.C. 620 et seq. and 42 U.S.C. 6701 et seq.], as amended, and federal regulations adopted thereunder, provided that this subsection may not provide a basis for overturning an otherwise valid court order.
  7. For the purpose of section 27-20-30.1, reasonable efforts were made under this section to meet the child's needs before a foster care placement for a child remaining in care for continued foster care purposes.

**SECTION 8. AMENDMENT.** Section 27-20-36 of the North Dakota Century Code is amended and reenacted as follows:

**27-20-36. Limitations of time on orders of disposition.**

1. An order terminating parental rights or establishing a legal guardianship is without limit as to duration.
2. An order of disposition committing a delinquent or unruly child to the division of juvenile services continues in force for not more than twelve months, excluding any period of time the child is on parole from an institution, or until the child is sooner discharged by an institution.
  - a. The court which made the order may extend its duration for additional twelve-month periods subject to like discharge, if:
    - (1) A hearing is held upon motion of the division, or on the court's own motion, prior to the expiration of the order;
    - (2) Reasonable notice of the hearing and an opportunity to be heard are given to the child and the parent, guardian, or other custodian; and
    - (3) The court finds that the extension is necessary for the treatment or rehabilitation of the child.
  - b. A permanency hearing must be conducted within thirty days after a court determines that aggravated circumstances of the type described in subdivisions a, c, d, or e of subsection 3 of section 27-20-02 exist, or within twelve months after a child, subject to an order of disposition under this subsection, is considered to have entered foster care, or is continued in foster care following a previous permanency hearing, including a hearing conducted on a petition filed under section 27-20-30.1. The permanency hearing may be conducted:
    - (1) By the division of juvenile services as a placement hearing under chapter 27-21; or
    - (2) By the court, if the court requires, or if it appears that an appropriate permanency plan could not be carried out without exceeding the authority of the division of juvenile services.
3. Except as provided in subsection 2, an order of disposition pursuant to which a child is placed in foster care may not continue in force for more than twelve months after the child is considered to have entered foster care. Before the extension of any court order limited under this subsection, a permanency hearing must be conducted. Any other order of disposition may not continue in force for more than twelve months.
4. Except as provided in subsection 1, the court may terminate an order of disposition before the expiration of the order or extend its duration for further periods. An order of extension may be made if:
  - a. A hearing is held before the expiration of the order upon motion of a party or on the court's own motion;
  - b. Reasonable notice of the hearing and opportunity to be heard are given to the parties affected;

- c. The court finds the extension is necessary to accomplish the purposes of the order extended; and
  - d. The extension does not exceed twelve months from the expiration of an order limited by subsection 3 or two years from the expiration of any other limited order.
5. Except as provided in subsection 2, the court may terminate an order of disposition or extension prior to its expiration, on or without an application of a party, if it appears to the court that the purposes of the order have been accomplished. If a party may be adversely affected by the order of termination, the order may be made only after reasonable notice and opportunity to be heard have been given to the party.
  6. Except as provided in subsection 1, when the child attains the age of twenty years, all orders affecting the child then in force terminate and the child is discharged from further obligation or control.
  7. If an order of disposition is made with respect to a child under the age of ten years pursuant to which the child is placed in foster care without terminating parental rights and the parent and child relationship, the court, before extending the duration of the order, shall determine upon the extension hearing whether the child is adoptable and whether termination of those rights and that relationship is warranted under section 27-20-44 and is in the best interest of the child. In that case the notice of the extension hearing must also inform the parties affected that the court will determine whether the child is adoptable and whether termination of their parental rights and the parent and child relationship is warranted and in the best interest of the child and that a further order of disposition may be made by the court placing the child with a view to adoption. If the court determines that the child is adoptable and that termination of parental rights and the parent and child relationship is warranted and is in the best interest of the child, the court shall make a further order of disposition terminating those rights and that relationship and committing the child under section 27-20-47.

**SECTION 9. EFFECTIVE DATE.** This Act becomes effective on January 1, 2012.

AN ACT to create and enact a new section to chapter 38-11.1 and section 38-11.1-04.1 of the North Dakota Century Code, relating to notice of oil and gas drilling operations and compensation for loss of agricultural production and income caused by oil and gas production; to amend and reenact sections 38-11.1-02, 38-11.1-04, 38-11.1-08, and 47-16-39.1 of the North Dakota Century Code, relating to damage and disruption payments for damages caused by oil and gas production, agreement with offer of settlement, and the obligation to pay oil and gas royalties; to repeal section 38-11.1-05 of the North Dakota Century Code, relating to notice of oil and gas drilling operations; and to provide an effective date.

#### BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

**SECTION 1. AMENDMENT.** Section 38-11.1-02 of the North Dakota Century Code is amended and reenacted as follows:

##### **38-11.1-02. Purpose and interpretation.**

It is the purpose of this chapter to provide the maximum amount of constitutionally permissible protection to surface owners and other persons from the undesirable effects of development of minerals. This chapter is to be interpreted in light of the legislative intent expressed herein. Sections 38-11.1-04 and ~~38-11.1-05~~ 38-11.1-04.1 must be interpreted to benefit surface owners, regardless of whether the mineral estate was separated from the surface estate and regardless of who executed the document which gave the mineral developer the right to conduct drilling operations on the land. Sections 38-11.1-06 through 38-11.1-10 must be interpreted to benefit all persons.

**SECTION 2. AMENDMENT.** Section 38-11.1-04 of the North Dakota Century Code is amended and reenacted as follows:

##### **38-11.1-04. Damage and disruption payments.**

The mineral developer shall pay the surface owner a sum of money equal to the amount of damages sustained by the surface owner and the surface owner's tenant, if any, for ~~loss of agricultural production and income~~, lost land value, lost use of and access to the surface owner's land, and lost value of improvements caused by drilling operations. The amount of damages may be determined by any formula mutually agreeable between the surface owner and the mineral developer. When determining ~~damages~~ damage and disruption payments, consideration must be given to the period of time during which the loss occurs and the surface owner ~~may elect to be paid damages in annual installments over a period of time; except that the surface owner~~ must be compensated for harm caused by exploration only by a single sum payment. The payments contemplated by this section only cover land directly affected by drilling operations. Payments under this section are intended to compensate the surface owner for damage and disruption; any reservation or assignment of such

compensation apart from the surface estate except to a tenant of the surface estate is prohibited. In the absence of an agreement between the surface owner and a tenant as to the division of compensation payable under this section, the tenant is entitled to recover from the surface owner that portion of the compensation attributable to the tenant's share of the damages sustained.

**SECTION 3.** Section 38-11.1-04.1 of the North Dakota Century Code is created and enacted as follows:

**38-11.1-04.1. Notice of operations.**

Before the initial entry upon the land for activities that do not disturb the surface, including inspections, staking, surveys, measurements, and general evaluation of proposed routes and sites for oil and gas drilling operations, the mineral developer shall provide at least seven days' notice by registered mail or hand delivery to the surface owner unless waived by mutual agreement of both parties. The notice must include:
  - a. The name, address, telephone number, and, if available, the electronic mail address of the mineral developer or the mineral developer's designee;
  - b. An offer to discuss and agree to consider accommodating any proposed changes to the proposed plan of work and oil and gas operations before commencement of oil and gas operations; and
  - c. A sketch of the approximate location of the proposed drilling site.
2. Except for exploration activities governed by chapter 38-08.1, the mineral developer shall give the surface owner written notice by registered mail or hand delivery of the oil and gas drilling operations contemplated at least twenty days before commencement of drilling operations unless mutually waived by agreement of both parties. If the mineral developer plans to commence drilling operations within twenty days of the termination date of the mineral lease, the required notice under this section may be given at any time before commencement of drilling operations. The notice must include:
  - a. Sufficient disclosure of the plan of work and operations to enable the surface owner to evaluate the effect of drilling operations on the surface owner's use of the property;
  - b. A plat map showing the location of the proposed well; and
  - c. A form prepared by the director of the oil and gas division advising the surface owner of the surface owner's rights and options under this chapter, including the right to request the state department of health to inspect and monitor the well site for the presence of hydrogen sulfide.
3. The notice required by this section must be given to the surface owner at the address shown by the records of the county treasurer's office at the time the notice is given and is deemed to have been received seven days after mailing by registered mail or immediately upon hand delivery.
4. If a mineral developer fails to give notice as provided in this section, the surface owner may seek appropriate relief in the court of proper jurisdiction and may receive punitive as well as actual damages.

**SECTION 4. AMENDMENT.** Section 38-11.1-08 of the North Dakota Century Code is amended and reenacted as follows:

The person seeking compensation may accept or reject any offer so made.

**SECTION 5.** A new section to chapter 38-11.1 of the North Dakota Century Code is created and enacted as follows:

**Loss of production payments.**

The mineral developer shall pay the surface owner a sum of money equal to the amount of damages sustained by the surface owner and the surface owner's tenant, if any, for loss of agricultural production and income caused by oil and gas production and completion operations. The amount of damages may be determined by any formula mutually agreeable between the surface owner and the mineral developer. When determining damages for loss of production, consideration must be given to the period of time during which the loss occurs and the damages for loss of production must be paid annually unless the surface owner elects to receive a single lump sum payment. Payments under this section are intended to compensate the surface owner for loss of production. Any reservation or assignment of such compensation apart from the surface estate, except to a tenant of the surface estate, is prohibited. In the absence of an agreement between the surface owner and a tenant as to the division of compensation payable under this section, the tenant is entitled to recover from the surface owner that portion of the compensation attributable to the tenant's share of the damages sustained.

If the operator under an oil and gas lease fails to pay oil or gas royalties to the mineral owner or the mineral owner's assignee within one hundred fifty days after oil or gas produced under the lease is marketed and cancellation of the lease is not sought or if the operator fails to pay oil or gas royalties to an unleased mineral interest owner within one hundred fifty days ~~from initial~~after oil or gas production is marketed from the unleased mineral interest owner's mineral interest, the operator ~~thereafter~~ shall pay interest on the unpaid royalties, without the requirement that the mineral owner or the mineral owner's assignee request the payment of interest, at the rate of eighteen percent per annum until paid, except that the commissioner of university and school lands may negotiate a rate to be no less than the prime rate as established by the Bank of North Dakota plus four percent per annum with a maximum of eighteen percent per annum, for unpaid royalties on minerals owned or managed by the board

of university and school lands. Provided, that the operator may remit semiannually to a person entitled to royalties the aggregate of six months' monthly royalties where the aggregate amount is less than fifty dollars. The district court for the county in which the oil or gas well is located has jurisdiction over all proceedings brought pursuant to this section. This section does not apply when mineral owners or their assignees elect to take their proportionate share of production in kind, in the event of a dispute of title existing that would affect distribution of royalty payments, or when a mineral owner cannot be located after reasonable inquiry by the operator; however, the operator shall make royalty payments to those mineral owners whose title and ownership interest is not in dispute.

### SENATE BILL NO. 2113

(Judiciary Committee)  
(At the request of the Attorney General)

#### BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

**SECTION 1. AMENDMENT.** Section 20.1-13.1-01 of the North Dakota Century Code is amended and reenacted as follows:

**20.1-13.1-01. Implied consent to determine ~~alcoholic~~ alcohol concentration and ~~drug content~~ presence of blood ~~drugs~~.**

Any ~~person~~ individual who operates a motorboat or vessel in this state is deemed to have given consent, and shall consent, subject to this chapter, to a chemical test, or tests, of the blood, breath, ~~saliva~~, or urine for the purpose of determining the ~~alcoholic, other drug~~ alcohol concentration or presence of other drugs, or combination thereof, ~~content of~~ in the individual's blood, breath, or urine. As used in this chapter, "operates" means to be in motion, en route, but not at anchor or aground; "vessel" means any watercraft used or designed to be used for navigation on the water such as a boat operated by machinery, either permanently or temporarily affixed, a sailboat other than a sailboard, an inflatable manually propelled boat, a canoe, kayak, or rowboat, but does not include an inner tube, air mattress, or other water toy; "drug" means any drug or substance or combination of drugs or substances which renders a ~~person~~ individual incapable of safely operating a motorboat or vessel; and "chemical test" means any test or tests to determine the ~~alcoholic, or other drug~~ alcohol concentration or presence of other drugs, or combination thereof, ~~content of~~ in the individual's blood, breath, ~~saliva~~, or urine, approved by the director of the state crime laboratory or the director's designee under this chapter. The chemical test must be administered at the direction of a game warden or a law enforcement officer only after placing the ~~person~~ individual, except ~~persons~~ individuals mentioned in section 20.1-13.1-04, under arrest and informing that ~~person~~ individual that the ~~person~~ individual is or will be charged with the offense of operating a motorboat or vessel while under the influence of intoxicating liquor, drugs, or a combination thereof. For the purposes of this chapter, the taking into custody of a minor under section 27-20-13 satisfies the requirement of an arrest. The game warden or law enforcement officer shall also inform the ~~person~~ individual charged that refusal of the ~~person~~ individual to submit to the chemical test determined appropriate will result in that ~~person~~ individual being prohibited from operating a motorboat or vessel for up to

three years. The game warden or law enforcement officer shall determine the chemical test to be used. When a minor is taken into custody for violating section 20.1-13-07, the game warden or law enforcement officer shall diligently attempt to contact the minor's parent or legal guardian to explain the cause for the custody and the implied consent chemical testing requirements. Neither the game warden or law enforcement officer's efforts to contact, nor any consultation with, a parent or legal guardian may be permitted to interfere with the administration of chemical testing requirements under this chapter.

**SECTION 2. AMENDMENT.** Section 20.1-13.1-03 of the North Dakota Century Code is amended and reenacted as follows:

**20.1-13.1-03. Persons~~Individuals~~ qualified to administer chemical test and opportunity for additional test.**

Only an individual medically qualified to draw blood, acting at the request of a game warden or a law enforcement officer, may withdraw blood for the purpose of determining the ~~alcoholic, drug, alcohol concentration or presence of other drugs,~~ or combination thereof, ~~content of~~ the individual's blood. The director of the state crime laboratory or the director's designee shall determine the qualifications or credentials for being medically qualified to draw blood and shall issue a list of approved designations, including medical doctor and registered nurse. This limitation does not apply to the taking of a breath, ~~saliva,~~ or urine specimen. The director of the state crime laboratory, or the director's designee, shall electronically post a copy of the certified list of approved designations, including medical doctor and registered nurse, with the state crime laboratory division of the attorney general at the attorney general website and shall make the certified records required by this section available for download in a printable format on the attorney general website. The ~~person~~individual tested may have an individual of that ~~person's~~individual's own choosing, who is medically qualified to draw blood, administer a chemical test in addition to any administered at the direction of a game warden or a law enforcement officer with all costs of the additional chemical test to be the responsibility of the ~~person~~individual charged. The failure or inability to obtain an additional chemical test by a ~~person~~individual does not preclude the admission of the chemical test taken at the direction of a game warden or a law enforcement officer. Upon the request of the ~~person~~individual who is tested, a copy of the operational checklist and test record of a breath sample test or analytical report of a blood, ~~or urine, or saliva~~ sample test taken at the direction of the game warden or law enforcement officer must be made available to that ~~person~~individual by the department or law enforcement agency that administered the chemical test.

**SECTION 3. AMENDMENT.** Subsections 2 and 3 of section 20.1-13.1-05 of the North Dakota Century Code are amended and reenacted as follows:

2. If a chemical test administered under section 20.1-13.1-01 or 20.1-13.1-04 was by ~~saliva or urine~~ sample or by drawing blood as provided in section 20.1-13.1-03 and the ~~person~~individual tested does not reside in an area in which the game warden or law enforcement officer has jurisdiction, the game warden or law enforcement officer shall, on receiving the analysis of the ~~saliva,~~ urine, or blood from the director of the state crime laboratory or the director's designee and if the analysis shows that ~~person~~individual had an alcohol, other drug, or a combination thereof concentration of at least ten one-hundredths of one percent by weight, either proceed in accordance with subsection 1 during that ~~person's~~individual's reappearance within the game warden's or officer's jurisdiction or notify a game warden or law enforcement agency having jurisdiction where the ~~person~~individual resides. On that

notification, that game warden or law enforcement agency shall immediately issue a statement of intent to prohibit the ~~person~~individual from operating a motorboat or vessel. The issuance of a statement of intent to prohibit the ~~person~~individual from operating a motorboat or vessel serves as the director's official notification to the ~~person~~individual of the director's intent to prohibit the ~~person~~individual from operating a motorboat or vessel in this state.

3. The game warden or law enforcement officer, within five days of issuing the statement of intent, shall forward to the director a certified written report in the form required by the director. If the statement was given because of the results of a chemical test, the report must show that the game warden or officer had probable cause to believe the ~~person~~individual had been operating a motorboat or vessel while in violation of section 20.1-13-07, that the ~~person~~individual was lawfully arrested, that the ~~person~~individual was chemically tested under this chapter, and that the results of the test show that the ~~person~~individual had an alcohol, other drug, or a combination thereof concentration of at least ten one-hundredths of one percent by weight. In addition to the report, the game warden or law enforcement officer shall forward to the director a certified copy of the operational checklist and test records of a breath test and a copy of the certified copy of the analytical report for a blood, ~~saliva~~, or urine test for all tests administered at the direction of the game warden or officer.

**SECTION 4. AMENDMENT.** Subsections 2 and 4 of section 20.1-13.1-08 of the North Dakota Century Code are amended and reenacted as follows:

2. If the issue to be determined by the hearing concerns the prohibition from operating a motorboat or vessel for operating a motorboat or vessel while having an alcohol, other drug, or a combination thereof concentration of at least ten one-hundredths of one percent by weight, the hearing must be before a hearing officer assigned by the director and at a time and place designated by the director. The hearing must be recorded and its scope may cover only the issues of whether the arresting warden or officer had probable cause to believe the ~~person~~individual had been operating a motorboat or vessel in violation of section 20.1-13-07; whether the ~~person~~individual was placed under arrest; whether the ~~person~~individual was tested in accordance with section 20.1-13.1-01 or 20.1-13.1-04 and, if applicable, section 20.1-13.1-03; and whether the chemical test results show the ~~person~~individual had an alcohol, other drug, or a combination thereof concentration of at least ten one-hundredths of one percent by weight. For purposes of this section, a copy of a certified copy of an analytical report of a blood, or urine, ~~or saliva~~ sample from the director of the state crime laboratory or the director's designee, or a certified copy of the checklist and test records from a certified breath test operator establish prima facie the alcohol, other drug, or a combination thereof concentration shown therein. Whether the ~~person~~individual was informed that that ~~person~~individual may be prohibited from operating a motorboat or vessel based on the results of the chemical test is not an issue.
4. At a hearing under this section, the regularly kept records of the director and state crime laboratory may be introduced. Those records establish prima facie their contents without further foundation. For purposes of this chapter, the following are deemed regularly kept records of the director and state crime laboratory: ~~any~~

- a. ~~Any~~ copy of a certified copy of an analytical report of a blood, ~~or urine, or saliva~~ sample received by the director from the director of the state crime laboratory or the director's designee or a game warden or a law enforcement officer, ~~or~~ a certified copy of the checklist and test records received by the director from a certified breath test operator; ~~and any~~
- b. ~~Any~~ copy of a certified copy of a certificate of the director of the state crime laboratory or the director's designee relating to approved methods, devices, operators, materials, and checklists used for testing for alcohol, ~~other drug concentration or the presence of other drugs~~, or a combination thereof ~~concentration~~, received by the director from the director of the state crime laboratory or the director's designee, ~~or the recorder, unless the board of county commissioners has designated a different official to maintain the certificate~~ that have been electronically posted with the state crime laboratory division of the attorney general at the attorney general website.

**SECTION 5. AMENDMENT.** Section 20.1-13.1-10 of the North Dakota Century Code is amended and reenacted as follows:

**20.1-13.1-10. Interpretation of chemical tests.**

Upon the trial of any action or proceeding arising out of acts alleged to have been committed by any ~~person~~individual while operating a motorboat or vessel while under the influence of intoxicating liquor, drugs, or a combination thereof, evidence of the amount of alcohol, ~~concentration or presence of other drugs~~, or a combination thereof, in the ~~person's individual's~~ blood, breath, or urine at the time of the act alleged as shown by a chemical analysis of the blood, breath, ~~saliva~~, or urine is admissible. For the purpose of this section:

1. ~~A person~~An individual having an alcohol, other drug, or a combination thereof concentration of at least ten one-hundredths of one percent by weight at the time of the performance of a chemical test within two hours after operating a motorboat or vessel is under the influence of intoxicating liquor, drugs, or a combination thereof at the time of operating a motorboat or vessel.
2. Alcohol concentration is based upon grams of alcohol per one hundred ~~cube centimeters~~milliliters of blood or grams of alcohol per two hundred ten liters of end expiratory breath or grams of alcohol per sixty-seven ~~cube centimeters~~milliliters of urine.
3. The results of the chemical test must be received in evidence when it is shown that the sample was properly obtained and the test was fairly administered, and if the test is shown to have been performed according to methods and with devices approved by the director of the state crime laboratory or the director's designee, and by an individual possessing a certificate of qualification to administer the test issued by the director of the state crime laboratory or the director's designee. The director of the state crime laboratory or the director's designee is authorized to approve satisfactory devices and methods of chemical tests and determine the qualifications of individuals to conduct such tests, and shall issue a certificate to every qualified operator. An operator shall exhibit the certificate upon demand of the ~~person~~individual requested to take the chemical test.
4. The director of the state crime laboratory or the director's designee may appoint, train, certify, and supervise field inspectors of breath testing

equipment and its operation, and the inspectors shall report the findings of any inspection to the director of the state crime laboratory or the director's designee for appropriate action. Upon approval of the methods or devices, or both, required to perform the tests and the ~~persons~~individuals qualified to administer them, the director of the state crime laboratory or the director's designee shall prepare, certify, and ~~file~~electronically post a written record of the approval with the ~~director and the recorder in each county, unless the board of county commissioners designates a different official~~state crime laboratory division of the attorney general at the attorney general website, and shall include in the record:

- a. An annual register of the specific testing devices currently approved, including serial number, location, and the date and results of last inspection.
  - b. An annual register of currently qualified and certified operators of the devices, stating the date of certification and its expiration.
  - c. The operational checklist and forms prescribing the methods currently approved by the director of the state crime laboratory or the director's designee in using the devices during the administration of the tests.
  - d. ~~The material filed~~certified records electronically posted under this section may be supplemented when the director of the state crime laboratory or the director's designee determines it to be necessary, and any certified supplemental material has records have the same force and effect as the ~~material that it supplements~~records that are supplemented.
  - e. The state crime laboratory shall make the certified records required by this section available for download in a printable format on the attorney general website.
5. Copies of the state crime laboratory certified records referred to in subsections 3 and 4, ~~certified by the recorder, or designated official, that have been electronically posted with the state crime laboratory division of the attorney general at the attorney general website must be admitted as prima facie evidence of the matters stated in the records.~~
  6. A certified copy of the analytical report of a blood; or urine; ~~or saliva~~ test issued by the director of the state crime laboratory or the director's designee must be accepted as prima facie evidence of the results of a chemical test performed under this chapter.
  7. Notwithstanding any statute or rule to the contrary, the defendant in any criminal proceeding may subpoena, without cost to the defendant, the ~~person~~individual who conducted the chemical test referred to in this section to testify at the trial on the issue of the amount of alcohol; concentration or presence of other drugs, or a combination thereof, in the defendant's blood, breath, ~~saliva~~; or urine at the time of the alleged act.
  8. A signed statement from the nurse or medical technician drawing the blood sample for testing as set forth in subsection 3 is prima facie evidence that the blood sample was properly drawn and no further foundation for the admission of such evidence may be required.

**SECTION 6. AMENDMENT.** Section 20.1-15-01 of the North Dakota Century Code is amended and reenacted as follows:

**20.1-15-01. Implied consent to determine alcohol/alcohol concentration and drug content/presence of blood/drugs.**

Any ~~person~~individual who is afield with a gun or other firearm or a bow and arrow is deemed to have given consent, and shall consent, subject to this chapter, to a chemical test of the blood, breath, ~~saliva~~, or urine for the purpose of determining the ~~alcoholic, other drug/alcohol concentration or presence of other drugs~~, or combination thereof, ~~content of~~in the individual's blood, breath, or urine. As used in this chapter, "drug" means any drug or substance or combination of drugs or substances which renders a ~~person~~an individual incapable of safely hunting or being afield with a gun or other firearm or a bow and arrow, and "chemical test" means any test or tests to determine the ~~alcoholic, or other drug/alcohol concentration or presence of other drugs~~, or combination thereof, ~~content of~~in the individual's blood, breath, saliva, or urine, approved by the director of the state crime laboratory or the director's designee under this chapter. The chemical test must be administered at the direction of a game warden or a law enforcement officer only after placing the ~~person~~individual, except ~~persons~~individuals mentioned in section 20.1-15-04, under arrest and informing that ~~person~~individual that the ~~person~~individual is or will be charged with the offense of being afield with a gun or other firearm or a bow and arrow while under the influence of intoxicating liquor, drugs, or a combination thereof. For the purposes of this chapter, the taking into custody of a minor under section 27-20-13 satisfies the requirement of an arrest. The game warden or law enforcement officer shall also inform the ~~person~~individual charged that refusal of the ~~person~~individual to submit to the chemical test determined appropriate will result in a revocation for up to four years of the ~~person's~~individual's hunting privileges. The game warden or law enforcement officer shall determine the chemical test to be used. When a minor is taken into custody for violating section 20.1-01-06, the game warden or law enforcement officer shall diligently attempt to contact the minor's parent or legal guardian to explain the cause for the custody and the implied consent chemical testing requirements. Neither the game warden or law enforcement officer's efforts to contact, nor any consultation with, a parent or legal guardian may be permitted to interfere with the administration of chemical testing requirements under this chapter.

**SECTION 7. AMENDMENT.** Section 20.1-15-03 of the North Dakota Century Code is amended and reenacted as follows:

**20.1-15-03. Persons/Individuals qualified to administer chemical test and opportunity for additional test.**

Only an individual medically qualified to draw blood, acting at the request of a game warden or a law enforcement officer, may withdraw blood for the purpose of determining the ~~alcoholic, drug/alcohol concentration or presence of other drugs~~, or combination thereof, ~~content of~~in the individual's blood. The director of the state crime laboratory or the director's designee shall determine the qualifications or credentials for being medically qualified to draw blood and shall issue a list of approved designations, including medical doctor and registered nurse. This limitation does not apply to the taking of a breath, ~~saliva~~, or urine specimen. The director of the state crime laboratory, or the director's designee, shall electronically post a copy of the certified list of approved designations, including medical doctor and registered nurse, with the state crime laboratory division of the attorney general at the attorney general website and shall make the certified records required by this section available for download in a printable format on the attorney general website. The ~~person~~individual tested may have an individual of that ~~person's~~individual's own choosing, who is

medically qualified to draw blood, administer a chemical test in addition to any administered at the direction of a game warden or a law enforcement officer with all costs of the additional chemical test to be the responsibility of the ~~person~~individual charged. The failure or inability to obtain an additional chemical test by a ~~person~~an individual does not preclude the admission of the chemical test taken at the direction of a game warden or a law enforcement officer. Upon the request of the ~~person~~individual who is tested, a copy of the operational checklist and test record of a breath sample test or analytical report of a blood, ~~or urine, or saliva~~ sample test taken at the direction of the game warden or law enforcement officer must be made available to that ~~person~~individual by the department or law enforcement agency that administered the chemical test.

**SECTION 8. AMENDMENT.** Subsections 2 and 3 of section 20.1-15-05 of the North Dakota Century Code are amended and reenacted as follows:

2. If a chemical test administered under section 20.1-15-01 or 20.1-15-04 was by ~~saliva or urine~~ sample or by drawing blood as provided in section 20.1-15-03 and the ~~person~~individual tested does not reside in an area in which the game warden or law enforcement officer has jurisdiction, the game warden or law enforcement officer shall, on receiving the analysis of the ~~saliva, urine,~~ or blood from the director of the state crime laboratory or the director's designee and if the analysis shows that ~~person~~individual had an alcohol, other drug, or a combination thereof concentration of at least ten one-hundredths of one percent by weight, either proceed in accordance with subsection 1 during that ~~person's~~individual's reappearance within the game warden's or officer's jurisdiction or notify a game warden or law enforcement agency having jurisdiction where the ~~person~~individual resides. On that notification, that game warden or law enforcement agency shall immediately issue a statement of intent to revoke, suspend, or deny hunting privileges and take possession of the ~~person's~~individual's hunting license if it is then available and, within twenty-four hours, forward the license to the game warden or law enforcement agency making the arrest or to the director. The issuance of a statement of intent to revoke, suspend, or deny hunting privileges and the taking of possession of the ~~person's~~individual's hunting license serves as the director's official notification to the ~~person~~individual of the director's intent to revoke, suspend, or deny hunting privileges in this state.
3. The game warden or law enforcement officer, within five days of issuing the statement of intent and taking possession of the hunting license, shall forward to the director a certified written report in the form required by the director and the ~~person's~~individual's hunting license taken under subsection 1 or 2. If the notice was given and the license was taken because of the results of a chemical test, the report must show that the game warden or officer had reasonable grounds to believe the ~~person~~individual had been afield with a gun or other firearm or a bow and arrow while in violation of section 20.1-01-06, that the ~~person~~individual was lawfully arrested, that the ~~person~~individual was chemically tested under this chapter, and that the results of the test show that the ~~person~~individual had an alcohol, other drug, or a combination thereof concentration of at least ten one-hundredths of one percent by weight. In addition to the report, the game warden or law enforcement officer shall forward to the director a certified copy of the operational checklist and test records of a breath test and a copy of the certified copy of the analytical report for a blood, ~~saliva,~~ or urine test for all tests administered at the direction of the game warden or officer.

**SECTION 9. AMENDMENT.** Subsections 2 and 4 of section 20.1-15-08 of the North Dakota Century Code are amended and reenacted as follows:

2. If the issue to be determined by the hearing concerns suspension of hunting privileges for being afield with a gun or other firearm or a bow and arrow while having an alcohol, other drug, or a combination thereof concentration of at least ten one-hundredths of one percent by weight, the hearing must be before a hearing officer assigned by the director and at a time and place designated by the director. The hearing must be recorded and its scope may cover only the issues of whether the arresting warden or officer had reasonable grounds to believe the ~~person~~individual had been afield with a gun or other firearm or bow and arrow in violation of section 20.1-01-06; whether the ~~person~~individual was placed under arrest; whether the ~~person~~individual was tested in accordance with section 20.1-15-01 or 20.1-15-04 and, if applicable, section 20.1-15-03; and whether the chemical test results show the ~~person~~individual had an alcohol, other drug, or a combination thereof concentration of at least ten one-hundredths of one percent by weight. For purposes of this section, a copy of a certified copy of an analytical report of a blood; ~~or urine, or saliva~~ sample from the director of the state crime laboratory or the director's designee, or a certified copy of the checklist and test records from a certified breath test operator establish prima facie the alcohol, other drug, or a combination thereof concentration shown therein. Whether the ~~person~~individual was informed that the privilege to hunt might be suspended based on the results of the chemical test is not an issue.
4. At a hearing under this section, the regularly kept records of the director and the state crime laboratory may be introduced. Those records establish prima facie their contents without further foundation. For purposes of this chapter, the following are deemed regularly kept records of the director and the state crime laboratory: ~~any~~
  - a. Any copy of a certified copy of an analytical report of a blood; ~~or urine, or saliva~~ sample received by the director from the director of the state crime laboratory or the director's designee or a game warden or a law enforcement officer; or a certified copy of the checklist and test records received by the director from a certified breath test operator; ~~and any~~
  - b. Any copy of a certified copy of a certificate of the director of the state crime laboratory or the director's designee relating to approved methods, devices, operators, materials, and checklists used for testing for alcohol; ~~other drug concentration or the presence of other drugs,~~ or a combination thereof ~~concentration,~~ received by the director from the director of the state crime laboratory or the director's designee, ~~or the recorder, unless the board of county commissioners has designated a different official to maintain the certificate that have been electronically posted with the state crime laboratory division of the attorney general at the attorney general website.~~

**SECTION 10. AMENDMENT.** Section 20.1-15-11 of the North Dakota Century Code is amended and reenacted as follows:

**20.1-15-11. Interpretation of chemical tests.**

Upon the trial of any action or proceeding arising out of acts alleged to have been committed by any ~~person~~individual while being afield with a gun or other firearm or a bow and arrow while under the influence of intoxicating liquor, drugs, or a combination

thereof, evidence of the amount of alcohol, concentration or presence of other drugs, or a combination thereof, in the ~~person's~~individual's blood, breath, or urine at the time of the act alleged as shown by a chemical analysis of the blood, breath, ~~saliva,~~ or urine is admissible. For the purpose of this section:

1. ~~A person~~An individual having, at that time, an alcohol, other drug, or a combination thereof concentration of not more than five one-hundredths of one percent by weight is presumed not to be under the influence of intoxicating liquor, drugs, or a combination thereof.
2. Evidence that there was at that time more than five one-hundredths of one percent by weight alcohol, other drug, or a combination thereof concentration in ~~a person~~an individual is relevant evidence, but it is not to be given prima facie effect in indicating whether the ~~person~~individual was under the influence of intoxicating liquor, drugs, or a combination thereof.
3. ~~A person~~An individual having an alcohol, other drug, or a combination thereof concentration of at least ten one-hundredths of one percent by weight at the time of the performance of a chemical test within two hours after being afield with a gun or other firearm or a bow and arrow is under the influence of intoxicating liquor, drugs, or a combination thereof at the time of being afield with a gun or other firearm or bow and arrow.
4. Alcohol concentration is based upon grams of alcohol per one hundred ~~cubic centimeters~~milliliters of blood or grams of alcohol per two hundred ten liters of end expiratory breath or grams of alcohol per sixty-seven ~~cubic centimeters~~milliliters of urine.
5. The results of the chemical test must be received in evidence when it is shown that the sample was properly obtained and the test was fairly administered, and if the test is shown to have been performed according to methods and with devices approved by the director of the state crime laboratory or the director's designee, and by an individual possessing a certificate of qualification to administer the test issued by the director of the state crime laboratory or the director's designee. The director of the state crime laboratory or the director's designee is authorized to approve satisfactory devices and methods of chemical tests and determine the qualifications of individuals to conduct such tests, and shall issue a certificate to every qualified operator. An operator shall exhibit the certificate upon demand of the ~~person~~individual requested to take the chemical test.
6. The director of the state crime laboratory or the director's designee may appoint, train, certify, and supervise field inspectors of breath testing equipment and its operation, and the inspectors shall report the findings of any inspection to the director of the state crime laboratory or the director's designee for appropriate action. Upon approval of the methods or devices, or both, required to perform the tests and the ~~persons~~individuals qualified to administer them, the director of the state crime laboratory or the director's designee shall prepare, certify, and file electronically post a written record of the approval with the ~~director and the recorder in each county, unless the board of county commissioners designates a different official~~state crime laboratory division of the attorney general at the attorney general website, and shall include in the record:

- a. An annual register of the specific testing devices currently approved, including serial number, location, and the date and results of last inspection.
  - b. An annual register of currently qualified and certified operators of the devices, stating the date of certification and its expiration.
  - c. The operational checklist and forms prescribing the methods currently approved by the director of the state crime laboratory or the director's designee in using the devices during the administration of the tests.
  - d. The material filed certified records electronically posted under this section may be supplemented when the director of the state crime laboratory or the director's designee determines it to be necessary, and any certified supplemental material has records have the same force and effect as the material that it supplements records that are supplemented.
  - e. The state crime laboratory shall make the certified records required by this section available for download in a printable format on the attorney general website.
7. Copies of the state crime laboratory certified records referred to in subsections 5 and 6, ~~certified by the recorder, or designated official, that have been electronically posted with the state crime laboratory division of the attorney general at the attorney general website~~ must be admitted as prima facie evidence of the matters stated in the records.
  8. A certified copy of the analytical report of a blood, or urine, ~~or saliva~~ test issued by the director of the state crime laboratory or the director's designee must be accepted as prima facie evidence of the results of a chemical test performed under this chapter.
  9. Notwithstanding any statute or rule to the contrary, the defendant in any criminal proceeding may subpoena, without cost to the defendant, the ~~person~~ individual who conducted the chemical test referred to in this section to testify at the trial on the issue of the amount of alcohol, concentration or presence of other drugs, or a combination thereof in the defendant's blood, breath, ~~saliva~~, or urine at the time of the alleged act.
  10. A signed statement from the individual medically qualified to draw the blood sample for testing as set forth in subsection 5 is prima facie evidence that the blood sample was properly drawn and no further foundation for the admission of this evidence may be required.

**SECTION 11. AMENDMENT.** Section 20.1-15-15 of the North Dakota Century Code is amended and reenacted as follows:

**20.1-15-15. Screening tests.**

Any ~~person~~ individual who is afield with a gun or other firearm or a bow and arrow is deemed to have given consent to submit to an onsite screening test of the ~~person's~~ individual's breath for the purpose of estimating the alcohol, ~~other drug, or a combination thereof~~ content of concentration in the person's blood individual's breath upon the request of a game warden or a law enforcement officer who has reason to believe and has, through the officer's observations, formulated an opinion that the ~~person's~~ individual's body contains alcohol, ~~other drugs, or a combination thereof~~. A

~~person~~An individual may not be required to submit to a screening test of breath while at a hospital as a patient if the medical practitioner in immediate charge of the ~~person's individual's~~ case is not first notified of the proposal to make the requirement or objects to the test on the ground that such would be prejudicial to the proper care or treatment of the patient. The screening test must be performed by a game warden or an enforcement officer certified as a chemical test operator by the director of the state crime laboratory or the director's designee and according to methods and with devices approved by the director of the state crime laboratory or the director's designee. The results of the screening test must be used only for determining whether a further test is to be given under the provisions of section 20.1-15-01. The officer shall inform the ~~person individual~~ that refusal of the ~~person individual~~ to submit to a screening test will result in a revocation for up to four years of that ~~person's individual's~~ hunting privileges. If the ~~person individual~~ refuses to submit to the screening test, none may be given, but the refusal is sufficient cause to revoke the ~~person's individual's~~ hunting privileges in the same manner as provided in section 20.1-15-06, and a hearing as provided in section 20.1-15-08 and a judicial review as provided in section 20.1-15-09 must be available. However, the director may not revoke a ~~person's an individual's~~ hunting privileges for refusing to submit to a screening test requested under this section if the ~~person individual~~ provides a sufficient breath, blood, or urine sample for a chemical test requested under section 20.1-15-01 for the same incident. This section does not supersede any provisions of sections 20.1-15-01 through 20.1-15-14, nor does any provision of sections 20.1-15-01 through 20.1-15-14 supersede this section except as provided herein. For the purposes of this section, "chemical test operator" means a ~~person an individual~~ certified by the director of the state crime laboratory or the director's designee as qualified to perform analysis for alcohol, other drugs, or a combination thereof in a ~~person's an individual's~~ blood, breath, ~~saliva~~, or urine.

**SECTION 12. AMENDMENT.** Subsection 4 of section 39-06.2-10.6 of the North Dakota Century Code is amended and reenacted as follows:

4. At a hearing under this section, the regularly kept records of the director and the state crime laboratory may be introduced. Those records establish prima facie their contents without further foundation. For purposes of this chapter, the following are deemed regularly kept records of the director and the state crime laboratory: ~~any~~
  - a. Any copy of a certified copy of an analytical report of a blood or urine sample received by the director from the director of the state crime laboratory or the director's designee or a law enforcement officer, a certified copy of the checklist and test records received by the director from a certified breath test operator; ~~and any~~
  - b. Any copy of a certified copy of a certificate of the director of the state crime laboratory or the director's designee relating to approved methods, devices, operators, materials, and checklists used for testing for alcohol concentration received by the director from the director of the state crime laboratory or the director's designee, ~~or the recorder, unless the board of county commissioners has designated a different official to maintain the certificate that have been electronically posted with the state crime laboratory division of the attorney general at the attorney general website.~~

**SECTION 13. AMENDMENT.** Section 39-20-01 of the North Dakota Century Code is amended and reenacted as follows:

### **39-20-01. Implied consent to determine alcohol concentration and drug content presence of blood drugs.**

Any ~~person~~individual who operates a motor vehicle on a highway or on public or private areas to which the public has a right of access for vehicular use in this state is deemed to have given consent, and shall consent, subject to the provisions of this chapter, to a chemical test, or tests, of the blood, breath, ~~saliva~~, or urine for the purpose of determining the alcohol, ~~other drug~~ concentration or presence of other drugs, or combination thereof, ~~content of~~ in the individual's blood, breath, or urine. As used in this chapter, the word "drug" means any drug or substance or combination of drugs or substances which renders a ~~person~~an individual incapable of safely driving, and the words "chemical test" or "chemical analysis" mean any test to determine the alcohol, ~~or other drug~~ concentration or presence of other drugs, or combination thereof, ~~content of~~ in the individual's blood, breath, ~~saliva~~, or urine, approved by the director of the state crime laboratory or the director's designee under this chapter. The test or tests must be administered at the direction of a law enforcement officer only after placing the ~~person~~individual, except ~~persons~~individuals mentioned in section 39-20-03, under arrest and informing that ~~person~~individual that the ~~person~~individual is or will be charged with the offense of driving or being in actual physical control of a vehicle upon the public highways while under the influence of intoxicating liquor, drugs, or a combination thereof. For the purposes of this chapter, the taking into custody of a child under section 27-20-13 or a ~~person~~an individual under twenty-one years of age satisfies the requirement of an arrest. The law enforcement officer shall also inform the ~~person~~individual charged that refusal of the ~~person~~individual to submit to the test determined appropriate will result in a revocation for up to four years of the ~~person's~~individual's driving privileges. The law enforcement officer shall determine which of the tests is to be used. When a ~~person~~an individual under the age of eighteen years is taken into custody for violating section 39-08-01 or an equivalent ordinance, the law enforcement officer shall attempt to contact the ~~person's~~individual's parent or legal guardian to explain the cause for the custody. Neither the law enforcement officer's efforts to contact, nor any consultation with, a parent or legal guardian may be permitted to interfere with the administration of chemical testing requirements under this chapter. The law enforcement officer shall mail a notice to the parent or legal guardian of the minor within ten days after the test results are received or within ten days after the minor is taken into custody if the minor refuses to submit to testing. The notice must contain a statement of the test performed and the results of that test; or if the minor refuses to submit to the testing, a statement notifying of that fact. The attempt to contact or the contacting or notification of a parent or legal guardian is not a precondition to the admissibility of chemical test results or the finding of a consent to, or refusal of, chemical testing by the ~~person~~individual in custody.

**SECTION 14. AMENDMENT.** Section 39-20-02 of the North Dakota Century Code is amended and reenacted as follows:

### **39-20-02. Persons Individuals qualified to administer test and opportunity for additional test.**

Only an individual medically qualified to draw blood, acting at the request of a law enforcement officer, may withdraw blood for the purpose of determining the alcohol, drug concentration or presence of other drugs, or combination thereof, ~~content therein~~ in the individual's blood. The director of the state crime laboratory or the director's designee shall determine the qualifications or credentials for being medically qualified to draw blood, and shall issue a list of approved designations including medical doctor and registered nurse. This limitation does not apply to the taking of a breath, ~~saliva~~, or urine specimen. The director of the state crime

laboratory, or the director's designee, shall electronically post a copy of the certified list of approved designations, including medical doctor and registered nurse, with the state crime laboratory division of the attorney general at the attorney general website and shall make the certified records required by this section available for download in a printable format on the attorney general website. The ~~person~~individual tested may have an individual of the ~~person's~~individual's choosing, who is medically qualified to draw blood, administer a chemical test or tests in addition to any administered at the direction of a law enforcement officer with all costs of an additional test or tests to be the sole responsibility of the ~~person~~individual charged. The failure or inability to obtain an additional test by a ~~person~~an individual does not preclude the admission of the test or tests taken at the direction of a law enforcement officer. Upon the request of the ~~person~~individual who is tested, a copy of the operational checklist and test record of a breath sample test or analytical report of a blood; or urine; ~~or saliva~~ sample test taken at the direction of the law enforcement officer must be made available to that ~~person~~individual by the law enforcement agency that administered the test or tests.

**SECTION 15. AMENDMENT.** Subsections 2, 3, and 4 of section 39-20-03.1 of the North Dakota Century Code are amended and reenacted as follows:

2. If a test administered under section 39-20-01 or 39-20-03 was by ~~saliva or~~ urine sample or by drawing blood as provided in section 39-20-02 and the ~~person~~individual tested is not a resident of an area in which the law enforcement officer has jurisdiction, the law enforcement officer shall, on receiving the analysis of the ~~saliva, urine, or~~ blood from the director of the state crime laboratory or the director's designee and if the analysis shows that ~~person~~individual had an alcohol concentration of at least eight one-hundredths of one percent by weight or, with respect to a ~~person~~an individual under twenty-one years of age, an alcohol concentration of at least two one-hundredths of one percent by weight, either proceed in accordance with subsection 1 during that ~~person's~~individual's reappearance within the officer's jurisdiction, proceed in accordance with subsection 3, or notify a law enforcement agency having jurisdiction where the ~~person~~individual lives. On that notification, that law enforcement agency shall, within twenty-four hours, forward a copy of the temporary operator's permit to the law enforcement agency making the arrest or to the director. The law enforcement agency shall issue to that ~~person~~individual a temporary operator's permit as provided in this section, and shall sign and date the permit as provided in subsection 1.
3. If the test results indicate an alcohol concentration at or above the legal limit, the law enforcement agency making the arrest may mail a temporary operator's permit to the ~~person~~individual who submitted to the blood; or urine; ~~or saliva~~ test, whether or not the ~~person~~individual is a resident of the area in which the law enforcement officer has jurisdiction. The third day after the mailing of the temporary operator's permit is considered the date of issuance. Actual notice of the opportunity for a hearing under this section is deemed to have occurred seventy-two hours after the notice is mailed by regular mail to the address submitted by the ~~person~~individual to the law enforcement officer. The temporary operator's permit serves as the director's official notification to the ~~person~~individual of the director's intent to revoke, suspend, or deny driving privileges in this state.
4. The law enforcement officer, within five days of the issuance of the temporary operator's permit, shall forward to the director a certified written report in the form required by the director. If the ~~person~~individual was issued a temporary operator's permit because of the results of a test, the report must show that the officer had reasonable grounds to believe the ~~person~~individual had been

driving or was in actual physical control of a motor vehicle while in violation of section 39-08-01, or equivalent ordinance, that the ~~person~~individual was lawfully arrested, that the ~~person~~individual was tested for alcohol concentration under this chapter, and that the results of the test show that the ~~person~~individual had an alcohol concentration of at least eight one-hundredths of one percent by weight or, with respect to a ~~person~~an individual under twenty-one years of age, an alcohol concentration of at least two one-hundredths of one percent by weight. In addition to the operator's license and report, the law enforcement officer shall forward to the director a certified copy of the operational checklist and test records of a breath test and a copy of the certified copy of the analytical report for a blood, ~~saliva~~, or urine test for all tests administered at the direction of the officer.

**SECTION 16. AMENDMENT.** Subsections 2 and 3 of section 39-20-03.2 of the North Dakota Century Code are amended and reenacted as follows:

2. If the test was administered by ~~saliva~~ or urine sample or by drawing blood, the law enforcement officer, on reviewing the alcohol concentration analysis showing the ~~person~~individual had an alcohol concentration of at least eight one-hundredths of one percent by weight or, with respect to a ~~person~~an individual under twenty-one years of age, an alcohol concentration of at least two one-hundredths of one percent by weight, shall mail or issue to the ~~person~~individual a notification of the test results, a temporary operator's permit extending nonresident operating privileges in this state for twenty-five days from the date of mailing or issuance or until earlier terminated by the decision of a hearing officer under section 39-20-05, and notice of the intent to revoke, suspend, or deny driving privileges in this state, together with the notice provided under section 39-06.1-07 of the procedures available under this chapter. The temporary operator's permit must be signed and dated by the officer. The third day after the mailing of the temporary operator's permit is considered the date of issuance.
3. The law enforcement officer, within five days of issuing the temporary operator's permit, shall forward to the director a certified written report in the form required by the director and a certified copy of the operational checklist and test records of a breath test and a copy of the certified copy of the analytical report for a blood, ~~saliva~~, or urine test for all tests administered at the direction of the officer. If the ~~person~~individual was issued a temporary operator's permit because of the ~~person's~~individual's refusal to submit to a test under sections 39-20-01 and 39-20-14, the report must include information as provided in section 39-20-04. If the ~~person~~individual was issued a temporary operator's permit because of the results of a test, the report must show that the officer had reasonable grounds to believe the ~~person~~individual had been driving or was in actual physical control of a motor vehicle while in violation of section 39-08-01, or equivalent ordinance, that the ~~person~~individual was lawfully arrested, that the ~~person~~individual was tested for alcohol concentration under this chapter, and that the results of the test show that the ~~person~~individual had an alcohol concentration of at least eight one-hundredths of one percent by weight or, with respect to a ~~person~~an individual under twenty-one years of age, an alcohol concentration of at least two one-hundredths of one percent by weight.

**SECTION 17. AMENDMENT.** Subsections 2 and 4 of section 39-20-05 of the North Dakota Century Code are amended and reenacted as follows:

2. If the issue to be determined by the hearing concerns license suspension for operating a motor vehicle while having an alcohol concentration of at least eight one-hundredths of one percent by weight or, with respect to a ~~person~~ individual under twenty-one years of age, an alcohol concentration of at least two one-hundredths of one percent by weight, the hearing must be before a hearing officer assigned by the director and at a time and place designated by the director. The hearing must be recorded and its scope may cover only the issues of whether the arresting officer had reasonable grounds to believe the ~~person~~ individual had been driving or was in actual physical control of a vehicle in violation of section 39-08-01 or equivalent ordinance or, with respect to a ~~person~~ individual under twenty-one years of age, the ~~person~~ individual had been driving or was in actual physical control of a vehicle while having an alcohol concentration of at least two one-hundredths of one percent by weight; whether the ~~person~~ individual was placed under arrest, unless the ~~person~~ individual was under twenty-one years of age and the alcohol concentration was less than eight one-hundredths of one percent by weight, then arrest is not required and is not an issue under any provision of this chapter; whether the ~~person~~ individual was tested in accordance with section 39-20-01 or 39-20-03 and, if applicable, section 39-20-02; and whether the test results show the ~~person~~ individual had an alcohol concentration of at least eight one-hundredths of one percent by weight or, with respect to a ~~person~~ individual under twenty-one years of age, an alcohol concentration of at least two one-hundredths of one percent by weight. For purposes of this section, a copy of a certified copy of an analytical report of a blood, or urine, ~~or saliva~~ sample from the director of the state crime laboratory or the director's designee or a certified copy of the checklist and test records from a certified breath test operator establish prima facie the alcohol concentration or the presence of drugs, or a combination thereof, shown therein. Whether the ~~person~~ individual was informed that the privilege to drive might be suspended based on the results of the test is not an issue.
4. At a hearing under this section, the regularly kept records of the director and state crime laboratory may be introduced. Those records establish prima facie their contents without further foundation. For purposes of this chapter, the following are deemed regularly kept records of the director and state crime laboratory: ~~any~~
  - a. Any copy of a certified copy of an analytical report of a blood, or urine, ~~or saliva~~ sample received by the director from the director of the state crime laboratory or the director's designee or a law enforcement officer, or a certified copy of the checklist and test records received by the director from a certified breath test operator; ~~and any~~
  - b. Any copy of a certified copy of a certificate of the director of the state crime laboratory or the director's designee relating to approved methods, devices, operators, materials, and checklists used for testing for alcohol concentration or the presence of drugs received by the director from the director of the state crime laboratory, or the director's designee, ~~or the recorder, unless the board of county commissioners has designated a different official to maintain the certificate that have been electronically posted with the state crime laboratory division of the attorney general at the attorney general website.~~

**SECTION 18. AMENDMENT.** Section 39-20-07 of the North Dakota Century Code is amended and reenacted as follows:

### 39-20-07. Interpretation of chemical tests.

Upon the trial of any civil or criminal action or proceeding arising out of acts alleged to have been committed by any ~~person~~individual while driving or in actual physical control of a motor vehicle while under the influence of intoxicating liquor, drugs, or a combination thereof, evidence of the amount of alcohol, ~~concentration or presence of other~~ concentration or presence of other drugs, or a combination thereof, in the ~~person's~~individual's blood, ~~breath, or urine~~ breath, or urine at the time of the act alleged as shown by a chemical analysis of the blood, breath, ~~saliva,~~ saliva, or urine is admissible. For the purpose of this section:

1. ~~A person~~An individual having, at that time, an alcohol concentration of not more than five one-hundredths of one percent by weight is presumed not to be under the influence of intoxicating liquor. This presumption has no application to the administration of chapter 39-06.2.
2. Evidence that there was at that time more than five one-hundredths of one percent by weight alcohol concentration in a ~~person~~an individual is relevant evidence, but it is not to be given prima facie effect in indicating whether the ~~person~~individual was under the influence of intoxicating liquor.
3. ~~A person~~An individual having an alcohol concentration of at least eight one-hundredths of one percent by weight or, with respect to a ~~person~~an individual under twenty-one years of age, an alcohol concentration of at least two one-hundredths of one percent by weight at the time of the performance of a chemical test within two hours after driving or being in physical control of a vehicle is under the influence of intoxicating liquor at the time of driving or being in physical control of a vehicle.
4. Alcohol concentration is based upon grams of alcohol per one hundred milliliters of blood or grams of alcohol per two hundred ten liters of end expiratory breath or grams of alcohol per sixty-seven milliliters of urine.
5. The results of the chemical analysis must be received in evidence when it is shown that the sample was properly obtained and the test was fairly administered, and if the test is shown to have been performed according to methods and with devices approved by the director of the state crime laboratory or the director's designee, and by an individual possessing a certificate of qualification to administer the test issued by the director of the state crime laboratory or the director's designee. The director of the state crime laboratory or the director's designee is authorized to approve satisfactory devices and methods of chemical analysis and determine the qualifications of individuals to conduct such analysis, and shall issue a certificate to all qualified operators who exhibit the certificate upon demand of the ~~person~~individual requested to take the chemical test.
6. The director of the state crime laboratory or the director's designee may appoint, train, certify, and supervise field inspectors of breath testing equipment and its operation, and the inspectors shall report the findings of any inspection to the director of the state crime laboratory or the director's designee for appropriate action. Upon approval of the methods or devices, or both, required to perform the tests and the ~~persons~~individuals qualified to administer them, the director of the state crime laboratory or the director's designee shall prepare, certify, and ~~file~~electronically post a written record of the approval with the ~~director and the recorder in each county, unless the board of county commissioners designates a different official~~state crime

laboratory division of the attorney general at the attorney general website, and shall include in the record:

- a. An annual register of the specific testing devices currently approved, including serial number, location, and the date and results of last inspection.
  - b. An annual register of currently qualified and certified operators of the devices, stating the date of certification and its expiration.
  - c. The operational checklist and forms prescribing the methods currently approved by the director of the state crime laboratory or the director's designee in using the devices during the administration of the tests.
  - d. ~~The material filed~~ certified records electronically posted under this section may be supplemented when the director of the state crime laboratory or the director's designee determines it to be necessary, and any certified supplemental material has records have the same force and effect as the ~~material that it supplements~~ records that are supplemented.
  - e. The state crime laboratory shall make the certified records required by this section available for download in a printable format on the attorney general website.
7. Copies of the state crime laboratory certified records referred to in subsections 5 and 6, ~~certified by the recorder, or designated official, that have been electronically posted with the state crime laboratory division of the attorney general at the attorney general website~~ must be admitted as prima facie evidence of the matters stated in the records.
  8. A certified copy of the analytical report of a blood; ~~or urine, or saliva~~ analysis referred to in subsection 5 and which is issued by the director of the state crime laboratory or the director's designee must be accepted as prima facie evidence of the results of a chemical analysis performed under this chapter. The certified copy satisfies the directives of subsection 5.
  9. Notwithstanding any statute or rule to the contrary, a defendant who has been found to be indigent by the court in the criminal proceeding at issue may subpoena, without cost to the defendant, the ~~person~~ individual who conducted the chemical analysis referred to in this section to testify at the trial on the issue of the amount of alcohol; concentration or presence of other drugs, or a combination thereof in the defendant's blood, breath, ~~saliva~~, or urine at the time of the alleged act. If the state toxicologist, the director of the state crime laboratory, or any employee of either, is subpoenaed to testify by a defendant who is not indigent and the defendant does not call the witness to establish relevant evidence, the court shall order the defendant to pay costs to the witness as provided in section 31-01-16. An indigent defendant may also subpoena the individual who withdrew the defendant's blood by following the same procedure.
  10. A signed statement from the individual medically qualified to draw the blood sample for testing as set forth in subsection 5 is prima facie evidence that the blood sample was properly drawn and no further foundation for the admission of this evidence may be required.

**SECTION 19. AMENDMENT.** Section 39-20-14 of the North Dakota Century Code is amended and reenacted as follows:

**39-20-14. Screening tests.**

Any ~~person~~individual who operates a motor vehicle upon the public highways of this state is deemed to have given consent to submit to an onsite screening test or tests of the ~~person's~~individual's breath for the purpose of estimating the alcohol ~~content of~~concentration in the ~~person's blood~~individual's breath upon the request of a law enforcement officer who has reason to believe that the ~~person~~individual committed a moving traffic violation or was involved in a traffic accident as a driver, and in conjunction with the violation or the accident the officer has, through the officer's observations, formulated an opinion that the ~~person's~~individual's body contains alcohol. A ~~person~~An individual may not be required to submit to a screening test or tests of breath while at a hospital as a patient if the medical practitioner in immediate charge of the ~~person's~~individual's case is not first notified of the proposal to make the requirement, or objects to the test or tests on the ground that such would be prejudicial to the proper care or treatment of the patient. The screening test or tests must be performed by an enforcement officer certified as a chemical test operator by the director of the state crime laboratory or the director's designee and according to methods and with devices approved by the director of the state crime laboratory or the director's designee. The results of such screening test must be used only for determining whether or not a further test shall be given under the provisions of section 39-20-01. The officer shall inform the ~~person~~individual that refusal of the ~~person~~individual to submit to a screening test will result in a revocation for up to four years of that ~~person's~~individual's driving privileges. If such ~~person~~individual refuses to submit to such screening test or tests, none may be given, but such refusal is sufficient cause to revoke such ~~person's~~individual's license or permit to drive in the same manner as provided in section 39-20-04, and a hearing as provided in section 39-20-05 and a judicial review as provided in section 39-20-06 must be available. However, the director must not revoke a ~~person's~~an individual's driving privileges for refusing to submit to a screening test requested under this section if the ~~person~~individual provides a sufficient breath, blood, or urine sample for a chemical test requested under section 39-20-01 for the same incident. No provisions of this section may supersede any provisions of chapter 39-20, nor may any provision of chapter 39-20 be construed to supersede this section except as provided herein. For the purposes of this section, "chemical test operator" means a ~~person~~an individual certified by the director of the state crime laboratory or the director's designee as qualified to perform analysis for alcohol in a ~~person's~~an individual's blood, breath, saliva, or urine.

**SECTION 20. AMENDMENT.** Section 39-24.1-01 of the North Dakota Century Code is amended and reenacted as follows:

**39-24.1-01. Implied consent to determine alcohol concentration and drug content~~presence of blood~~drugs.**

A ~~person~~An individual who operates a snowmobile on any public land or private land with public access is deemed to have given consent, and shall consent, subject to this chapter, to a chemical test, or tests, of the blood, breath, ~~saliva~~, or urine for the purpose of determining the alcohol, ~~other drug~~ concentration or presence of other drugs, or combination thereof, ~~content of in~~ the individual's blood, breath, or urine. As used in this chapter, the definitions in section 39-24-01 apply, and in addition, "chemical test" means any test or tests to determine the alcohol, ~~or other drug~~ concentration or presence of other drugs, or combination thereof, ~~content of in~~ the individual's blood, breath, ~~saliva~~, or urine, approved by the director of the state crime

laboratory or the director's designee under this chapter; and "drug" means any drug or substance or combination of drugs or substances which renders a ~~person an~~ individual incapable of safely operating a snowmobile. The chemical test must be administered at the direction of a law enforcement officer only after placing the ~~person~~individual, except ~~persons~~individuals mentioned in section 39-24.1-04, under arrest and informing that ~~person~~individual that the ~~person~~individual is or will be charged with the offense of operating a snowmobile while under the influence of intoxicating liquor, drugs, or a combination thereof. For the purposes of this chapter, the taking into custody of a minor under section 27-20-13 satisfies the requirement of an arrest. The law enforcement officer shall also inform the ~~person~~individual charged that refusal of the ~~person~~individual to submit to the chemical test determined appropriate will result in that ~~person~~individual being prohibited from operating a snowmobile for up to three years. The law enforcement officer shall determine the chemical test to be used. When a minor is taken into custody for violating subdivision c of subsection 5 of section 39-24-09, the law enforcement officer shall diligently attempt to contact the minor's parent or legal guardian to explain the cause for the custody and the implied consent chemical testing requirements. Neither the law enforcement officer's efforts to contact, nor any consultation with, a parent or legal guardian may be permitted to interfere with the administration of chemical testing requirements under this chapter.

**SECTION 21. AMENDMENT.** Section 39-24.1-03 of the North Dakota Century Code is amended and reenacted as follows:

**39-24.1-03. ~~Persons~~Individuals qualified to administer chemical test and opportunity for additional test.**

Only an individual medically qualified to draw blood, acting at the request of a law enforcement officer, may withdraw blood for the purpose of determining the alcohol, ~~drug~~ concentration or presence of other drugs, or combination thereof, ~~content of~~ in the individual's blood. The director of the state crime laboratory or the director's designee shall determine the qualifications or credentials for being medically qualified to draw blood, and shall issue a list of approved designations including medical doctor and registered nurse. This limitation does not apply to the taking of a breath, ~~saliva~~, or urine specimen. The director of the state crime laboratory, or the director's designee, shall electronically post a copy of the certified list of approved designations, including medical doctor and registered nurse, with the state crime laboratory division of the attorney general at the attorney general website and shall make the certified records required by this section available for download in a printable format on the attorney general website. The ~~person~~individual tested may have an individual of that ~~person's~~individual's own choosing, who is medically qualified to draw blood, administer a chemical test in addition to any administered at the direction of a law enforcement officer with all costs of the additional chemical test to be the responsibility of the ~~person~~individual charged. The failure or inability to obtain an additional chemical test by a ~~person~~individual does not preclude the admission of the chemical test taken at the direction of a law enforcement officer. Upon the request of the ~~person~~individual who is tested, a copy of the operational checklist and test record of a breath sample test or analytical report of a blood, ~~or urine, or saliva~~ sample test taken at the direction of the law enforcement officer must be made available to that ~~person~~individual by the law enforcement agency that administered the chemical test.

**SECTION 22. AMENDMENT.** Section 39-24.1-08 of the North Dakota Century Code is amended and reenacted as follows:

The director of the state crime laboratory or the director's designee is authorized to approve satisfactory devices and methods of chemical tests and determine the qualifications of individuals to conduct such tests, and shall issue a certificate to every qualified operator. An operator shall exhibit the certificate upon demand of the ~~person~~individual requested to take the chemical test.
4. The director of the state crime laboratory or the director's designee may appoint, train, certify, and supervise field inspectors of breath testing equipment and its operation, and the inspectors shall report the findings of any inspection to the director of the state crime laboratory or the director's designee for appropriate action. **SECTION 19.** Section 41-09-134 of the North Dakota Century Code is created and enacted as follows:

**41-09-134. (9-804) Security interest unperfected before effective date.**

A security interest that is an unperfected security interest immediately before this Act takes effect becomes a perfected security interest:

1. Without further action, when this Act takes effect if the applicable requirements for perfection under this chapter as amended by this Act are satisfied before or at that time; or

2. When the applicable requirements for perfection are satisfied if the requirements are satisfied after that time.

**SECTION 20.** Section 41-09-135 of the North Dakota Century Code is created and enacted as follows:

**41-09-135. (9-805) Effectiveness of action taken before effective date.**

1. The filing of a financing statement before this Act takes effect is effective to perfect a security interest to the extent the filing would satisfy the applicable requirements for perfection under this chapter as amended by this Act.
2. This Act does not render ineffective an effective financing statement that, before this Act takes effect, is filed and satisfies the applicable requirements for perfection under the law of the jurisdiction governing perfection as provided in this chapter as it existed before amendment of this Act. However, except as otherwise provided in subsections 3 and 4 and section 41-09-136, the financing statement ceases to be effective:
  - a. If the financing statement is filed in this state, at the time the financing statement would have ceased to be effective had this Act not taken effect; or
  - b. If the financing statement is filed in another jurisdiction, at the earlier of:
    - (1) The time the financing statement would have ceased to be effective under the law of that jurisdiction; or
    - (2) June 30, 2018.
3. The filing of a continuation statement after this Act takes effect does not continue the effectiveness of the financing statement filed before this Act takes effect. However, upon the timely filing of a continuation statement after this Act takes effect and in accordance with the law of the jurisdiction governing perfection as provided in this chapter as amended by this Act, the effectiveness of a financing statement filed in the same office in that jurisdiction before this Act takes effect continues for the period provided by the law of that jurisdiction.
4. Paragraph 2 of subdivision b of subsection 2 applies to a financing statement that, before this Act takes effect, is filed against a transmitting utility and satisfies the applicable requirements for perfection under the law of the jurisdiction governing perfection as provided in this chapter as it existed before amendment, only to the extent that this chapter as amended by this Act provides that the law of a jurisdiction other than the jurisdiction in which the financing statement is filed governs perfection of a security interest in collateral covered by the financing statement.
5. A financing statement that includes a financing statement filed before this Act takes effect and a continuation statement filed after this Act takes effect is effective only to the extent that it satisfies the requirements of sections 41-09-72 through 41-09-97 as amended by this Act for an initial financing statement. A financing statement that indicates that the debtor is a decedent's estate indicates that the collateral is being administered by a personal representative within the meaning of subdivision b of subsection 1 of section 41-09-74 as amended by this Act. A financing statement that indicates that the

debtor is a trust or is a trustee acting with respect to property held in trust indicates that the collateral is held in a trust within the meaning of subdivision c of subsection 1 of section 41-09-74 as amended by this Act.

**SECTION 21.** Section 41-09-136 of the North Dakota Century Code is created and enacted as follows:

**41-09-136. (9-806) When initial financing statement suffices to continue effectiveness of financing statement.**

1. The filing of an initial financing statement in the office specified in section 41-09-72 continues the effectiveness of a financing statement filed before this Act takes effect if:
  - a. The filing of an initial financing statement in that office would be effective to perfect a security interest under this chapter as amended by this Act;
  - b. The pre-effective-date financing statement was filed in an office in another state; and
  - c. The initial financing statement satisfies subsection 3.
2. The filing of an initial financing statement under subsection 1 continues the effectiveness of the pre-effective-date financing statement:
  - a. If the initial financing statement is filed before this Act takes effect, for the period provided in unamended section 41-09-86 with respect to an initial financing statement; and
  - b. If the initial financing statement is filed after this Act takes effect, for the period provided in section 41-09-86 as amended by this Act with respect to an initial financing statement.
3. To be effective for purposes of subsection 1, an initial financing statement must:
  - a. Satisfy the requirements of sections 41-09-72 through 41-09-97 as amended by this Act for an initial financing statement;
  - b. Identify the pre-effective-date financing statement by indicating the office in which the financing statement was filed and providing the dates of filing and file numbers, if any, of the financing statement and of the most recent continuation statement filed with respect to the financing statement; and
  - c. Indicate that the pre-effective-date financing statement remains effective.

**SECTION 22.** Section 41-09-137 of the North Dakota Century Code is created and enacted as follows:

**41-09-137. (9-807) Amendment of pre-effective-date financing statement.**

1. In this section, "pre-effective-date financing statement" means a financing statement filed before this Act takes effect.
2. After this Act takes effect, a person may add or delete collateral covered by, continue or terminate the effectiveness of, or otherwise amend the information

provided in a pre-effective-date financing statement only in accordance with the law of the jurisdiction governing perfection as provided in this chapter as amended by this Act. However, the effectiveness of a pre-effective-date financing statement also may be terminated in accordance with the law of the jurisdiction in which the financing statement is filed.

3. Except as otherwise provided in subsection 4, if the law of this state governs perfection of a security interest, the information in a pre-effective-date financing statement may be amended after this Act takes effect only if:
  - a. The pre-effective-date financing statement and an amendment are filed in the office specified in section 41-09-72;
  - b. An amendment is filed in the office specified in section 41-09-72 concurrently with, or after the filing in that office of, an initial financing statement that satisfies subsection 3 of section 41-09-136; or
  - c. An initial financing statement that provides the information as amended and satisfies subsection 3 of section 41-09-136 is filed in the office specified in section 41-09-72.
4. If the law of this state governs perfection of a security interest, the effectiveness of a pre-effective-date financing statement may be continued only under subsections 3 and 5 of section 41-09-135 or section 41-09-136.
5. Whether or not the law of this state governs perfection of a security interest, the effectiveness of a pre-effective-date financing statement filed in this state may be terminated after this Act takes effect by filing a termination statement in the office in which the pre-effective-date financing statement is filed, unless an initial financing statement that satisfies subsection 3 of section 41-09-136 has been filed in the office specified by the law of the jurisdiction governing perfection as provided in this chapter as amended by this Act as the office in which to file a financing statement.

**SECTION 23.** Section 41-09-138 of the North Dakota Century Code is created and enacted as follows:

**41-09-138. (9-808) Person entitled to file initial financing statement or continuation statement.**

A person may file an initial financing statement or a continuation statement under sections 41-09-132 through 41-09-139 if:

1. The secured party of record authorizes the filing; and
2. The filing is necessary under sections 41-09-132 through 41-09-139:
  - a. To continue the effectiveness of a financing statement filed before this Act takes effect; or
  - b. To perfect or continue the perfection of a security interest.

**SECTION 24.** Section 41-09-139 of the North Dakota Century Code is created and enacted as follows:

**41-09-139. (9-809) Priority.**

This Act determines the priority of conflicting claims to collateral. However, if the relative priorities of the claims were established before this Act takes effect, this chapter as it existed before amendment determines priority.

**SECTION 25. EFFECTIVE DATE.** This Act takes effect on July 1, 2013.

**SECTION 2. AMENDMENT.** Section 43-23-12.1 of the North Dakota Century Code is amended and reenacted as follows:

**43-23-12.1. Real estate brokerage firm - Duties required.**

1. A real estate brokerage firm and ~~the~~ the real estate brokerage firm's licensees, ~~that~~ which provide services through a written agency agreement for a client, are bound to that client by the duties of loyalty, obedience, disclosure, confidentiality, reasonable care, diligence, and accounting, subject to the provisions of this chapter and subject to any rules adopted under this chapter. The agency relationship, which must be established through a written agency agreement, may be a seller ~~agent~~ agency, a buyer ~~agent~~ agency, or a ~~subagent~~ dual agency, an appointed agency, a subagency, or, if another form of agency relationship. If a different relationship, including a nonagency relationship with a customer, between the real estate brokerage firm and the person for ~~whom~~ which the real estate brokerage firm performs the services is intended, ~~including a dual agent,~~ the relationship must be disclosed in writing pursuant to rules adopted by the board.
2. If a buyer, prospective buyer, or seller is not represented by a real estate brokerage firm in the real property transaction, that buyer or seller remains a customer, and, as to that customer, the real estate brokerage firm and the real estate brokerage firm's licensees are nonagents that owe the following legal duties: to perform customary acts typically performed by real estate licensees in assisting a transaction to the transaction's closing or conclusion if these acts are to assist the customer for which the services are directly provided; to perform these acts with honesty and good faith; and to disclose to the customer any adverse material facts actually known by the licensee which pertain to the title of the real property, the physical condition of the real property, and defects in the real property. These limited duties are subordinate to any duties the real estate brokerage firm and the real estate brokerage firm's licensees owe to a client in the same transaction.
3. Unless otherwise agreed in writing, a real estate brokerage firm and the real estate brokerage firm's licensees are not obligated to a client, to a customer, or to any other person to discover defects in any real property, to verify the ownership of any real property, or to independently verify the accuracy or completeness of any statement or representation made by any person other than the real estate brokerage firm and the real estate brokerage firm's licensees involved in the transaction under question.
4. Unless the licensee is directly involved in a transaction regarding the affected real property, this section does not result in imputing knowledge, regarding the affected real property, of one licensee within a real estate brokerage firm to another licensee within the same real estate brokerage firm or in imposing a duty upon a licensee within a real estate brokerage firm to disclose facts that are known by that licensee regarding the affected real property to another licensee within the same real estate brokerage firm.

5. If a real estate brokerage firm and the real estate brokerage firm's licensees represent two or more buyers or lessees as clients that desire to make an offer for the purchase or lease of the same real property, the real estate brokerage firm and the real estate brokerage firm's licensees do not breach any duty by assisting such clients with multiple offers, even though the interests of such clients are competing, and are not required to disclose the existence of competing offers, except as otherwise set forth under this subsection. The real estate brokerage firm and the real estate brokerage firm's licensees shall continue to honor agency duties to such clients, except as limited under this subsection. However, if an individual licensee has a written agency agreement with two or more buyers that desire to make an offer for the purchase or lease of the same real property, that licensee shall disclose to those competing buyer clients the fact that a competing written offer has been submitted by another buyer client of that licensee.
  
6. If a real estate brokerage firm and the real estate brokerage firm's licensees represent two or more sellers or lessors as clients that desire to offer competing real property for sale or lease, the real estate brokerage firm and the real estate brokerage firm's licensees do not breach any duty to such clients by performing such services, even though the interests of such clients are competing. In such event, the real estate brokerage firm and the real estate brokerage firm's licensees shall continue to honor agency duties to such clients, except as limited under this subsection.

The layperson must be at least twenty-one years of age and may not be affiliated with any organization or profession that represents, provides, or regulates health care.
2. The term of office of each board member is three years with appointments distributed evenly from year to year. A member may not serve more than two consecutive full terms.

An existing occupational or professional board of this state or agency of this state which regulates the practice of a health profession or a representative of a health profession that is not regulated by this state may submit to the board a petition and proposed bill draft requesting inclusion of that health profession as a profession regulated by the board. Upon receipt of a petition and proposed bill draft submitted under this section, the board shall review the petition and may work with the person submitting the petition to provide assistance in accomplishing this requested inclusion.
2. If a committee of the legislative assembly considers a measure to regulate a health care profession with fewer than fifty likely members, the committee shall consider whether it is desirable and feasible to have the state board of integrative health, some other existing board, or an existing state agency regulate that profession rather than create a new board.
3. If the membership of a board-regulated profession increases to at least one hundred licensees, the board may introduce legislation creating an independent board to regulate that profession.

4. If the application for renewal is not received on or before the expiration date, the license expires and the individual may not practice until a new application is made and a license is granted by the board.
5. At the time of renewal, the board shall require each applicant to present satisfactory evidence that the applicant has completed any continuing education requirements specified by the board.

6. If a license has not been renewed as a result of nonpayment of the renewal fee or the failure of the licensee to present satisfactory evidence of completion of any continuing education requirements, the licensee must reapply for licensure.
7. The board may extend the renewal deadline for an applicant having proof of medical or other hardship rendering the applicant unable to meet the renewal deadline.

#### **43-57-08. Discipline.**

1. The board may take disciplinary action against a licensee by any of the following means:

- p. A continued pattern of inappropriate care.
- q. The imposition by another state or jurisdiction of disciplinary action against a license or other authorization to practice based upon acts or conduct by the licensee which would constitute grounds for disciplinary action as set forth in this section. A certified copy of the record of the action taken by the other state or jurisdiction is conclusive evidence of that action.
- r. The lack of appropriate documentation in medical records for diagnosis, testing, and treatment of patients.

#### **43-57-09. Disciplinary proceedings - Appeals.**

1. Upon the filing of a written and signed complaint that alleges that a licensee practicing in this state has engaged in conduct identified as grounds for disciplinary action under this chapter, and which sets forth information upon which a reasonable and prudent person might believe that further inquiry should be made, the board shall cause the matter to be investigated.
2. The board may investigate a complaint on the board's own motion, without requiring the identity of the complainant to be made a matter of public record, if the board concludes that good cause exists for preserving the anonymity of the complainant.
3. If the investigation reveals no grounds to support the complaint, the board, three years following the date on which the complaint was filed, shall expunge the complaint from the licensee's individual record in the board's office.
4. If the investigation reveals grounds to support the complaint, the board shall initiate a disciplinary action by serving upon the licensee a notice of disciplinary action setting forth the allegations upon which the action is based, as well as a specification of the issues to be considered and determined.

5. If a written response contesting the allegations is not received by the board within twenty days of the date that the notice of disciplinary action was received or refused, the allegations may be deemed admitted and disciplinary sanctions deemed appropriate by the board must be imposed.
6. The board may at any time enter an informal resolution to resolve the complaint or disciplinary action.
7. An appeal from the board's final decision may be taken in accordance with chapter 28-32.

#### **43-57-10. Disciplinary proceedings - Cost of prosecution.**

In any order or decision issued by the board in resolution of a disciplinary proceeding in which disciplinary action is imposed against a licensee, the board may direct the licensee to pay the board a sum not to exceed the reasonable and actual costs, including reasonable attorney's fees, incurred by the board in the investigation and prosecution of the case. When applicable, the licensee's license may be suspended until the costs are paid to the board. A licensee may challenge the reasonableness of any cost item in a hearing under chapter 28-32 before an administrative law judge. The administrative law judge may approve, deny, or modify any cost item, and the determination of the administrative law judge is final. The administrative hearing must occur before the licensee's license may be suspended for nonpayment.

#### **43-57-11. Enforcement - Penalty.**

A person that violates this chapter, chapter 43-58, or chapter 43-59 is guilty of a class B misdemeanor. In addition to the criminal penalties provided under this section, the civil remedy of injunction is available to restrain and enjoin any violation of this chapter, chapter 43-58, or chapter 43-59 without proof of actual damages sustained by any person.

**SECTION 4.** Chapter 43-58 of the North Dakota Century Code is created and enacted as follows:

#### **43-58-01. Definitions.**

As used in this chapter, unless the context otherwise requires:

  - a. Is accredited, or has the status of candidate for accreditation, by an organization approved by the board, such as the council on naturopathic medical education; or
  - b. Has been approved by the board after an investigation that determines that the college or program meets education standards equivalent to those established by the accrediting agency under subdivision a and complies with the board's rules.
2. "Board" means the state board of integrative health care created under chapter 43-57.

3. "Homeopathic preparations" means nonprescriptive substances prepared according to the official homeopathic pharmacopoeia of the United States. The term does not include prescriptive drugs.
4. "Licensee" means an individual licensed by the board under this chapter.
5. "Naturopath" means an individual licensed to practice naturopathic health care under this chapter.
6. "Naturopathic health care", "naturopathic medicine", or "naturopathy" means a system of primary health care practiced by naturopaths for the prevention, diagnosis, and treatment of human health conditions, injury, and disease. The purpose of naturopathic health care, naturopathic medicine, or naturopathy is to promote or restore health by the support and stimulation of the individual's inherent self-healing processes. This is accomplished through education of the patient by a naturopath and through the use of natural therapies and therapeutic substances.
7. "Naturopathic physical application" means the therapeutic use by a naturopath of the actions or devices of electrical muscle stimulation, galvanic, diathermy, ultrasound, ultraviolet light, hydrotherapy, and naturopathic manipulative therapy. The term does not include manipulation of the spine.

#### **43-58-02. Exemptions.**

Many of the therapies used by a naturopath, such as the use of nutritional supplements, herbs, foods, homeopathic preparations, and such physical forces as heat, cold, water, touch, and light, are not the exclusive privilege of naturopaths, and their use, practice, prescription, or administration by individuals not licensed to practice naturopathic medicine is not prohibited by this chapter. This chapter does not restrict or apply to the scope of practice of any other profession licensed, certified, or registered under the laws of this state.

#### **43-58-03. License required - Title restrictions.**

1. Effective January 1, 2012, a person may not practice naturopathy without a current naturopathic license issued by the board.
2. A naturopath may use the title "naturopath" or "doctor of naturopathic medicine" and the abbreviation "N.D." when used to reflect either of these titles. Effective January 1, 2012, a person that uses these terms or initials as identification without having received a naturopathic license under this chapter is engaging in the practice of naturopathy without a license.

#### **43-58-04. Qualifications for licensure.**

In order to obtain a license to practice naturopathic medicine in this state, an application must be made to the board. The application must be upon the form adopted by the board and must be made in the manner prescribed by the board.

#### **43-58-05. Application for licensure.**

1. An applicant for naturopathic licensure shall file an application on forms provided by the board showing to the board's satisfaction that the applicant is of good moral character and satisfied all of the requirements of this chapter and chapter 43-57, including:

2. The application must be accompanied by the board-established license fees and application fees and by the documents, affidavits, and certificates necessary to establish that the applicant possesses the necessary qualifications.

#### **43-58-06. Initial applications - Education and testing exception.**

Notwithstanding the education and examination requirements for licensure under subdivisions a and b of subsection 1 of section 43-58-05, if an applicant was a bona fide resident of the state from January 1, 2011, through December 31, 2011, was practicing naturopathic medicine in this state immediately preceding January 1, 2012, was required to apply for licensure under this chapter in order to continue that practice, and does not meet the educational or examination requirements or both, the board may issue a license or limited license to that applicant if, following an examination of the applicant's education and experience, the board determines the applicant has sufficient education and experience to prepare the applicant to practice naturopathic medicine.

#### **43-58-07. Licensure granted without examination to individuals licensed in other states.**

1. The board may issue a naturopathic license by endorsement to an applicant who has complied with licensure requirements and who has passed an examination given by a recognized certifying agency approved by the licensing agency if the board determines the examination was equivalent in every respect to the examination required under this chapter.
2. The board may enter reciprocal agreements with licensing agencies of other states providing for reciprocal waiver of further examination or any part of the examination.
3. If an applicant is exempt from the examination required under this chapter, the applicant shall comply with the other requirements for licensure. The board may adopt rules allowing for temporary and special licensure to be in effect during the interval between board meetings.

#### **43-58-08. Practice of naturopathic health care.**

As used in this section, "paper copy" means a one-sided or two-sided duplicated copy of a size not more than eight and one-half by fourteen inches [19.05 by 35.56 centimeters]. For any copy of a record that is not a paper copy as defined in this section, the public entity may charge a reasonable fee for making the copy. As used in this section, "reasonable fee" means the actual cost to the public entity of making the copy, including labor, materials, and equipment. The entity may charge for the actual cost of postage to mail a copy of a record. An entity may require payment before locating, redacting, making, or mailing the copy. An entity may impose a fee not exceeding twenty-five dollars per hour per request, excluding the initial hour, for locating records, including electronic records, if locating the records requires more than one hour. An entity may impose a fee not exceeding twenty-five dollars per hour per request, excluding the initial hour, for excising confidential or closed material under section 44-04-18.10 from the records, including electronic records. This subsection does not apply to copies of public records for which a different fee is specifically provided by law.

3. Access to electronically stored records is free if the records are recoverable without the use of a computer backup. If a request is made for access to a record on a backup, or for a copy of an electronically stored record, in addition to the charge in this section, the public entity may charge a reasonable fee for providing the copies, including costs attributable to the use of information technology resources. Automation of public records must not erode the right of access to those records. As each public entity increases its use of and dependence on electronic recordkeeping, each agency must provide reasonable public access to records electronically maintained and must ensure that exempt or confidential records are not disclosed except as otherwise permitted by law. A public entity may not enter into a contract for the creation or maintenance of a public records database if that contract impairs the ability of the public to inspect or copy the public records of the agency, including public records online or stored in an electronic recordkeeping system used by the agency. An electronic copy of a record must be provided upon request at no cost, other than costs allowed in subsection 2, except if the nature or volume of the public records requested to be accessed or provided requires extensive use of information technology resources, the agency may charge no more than the actual cost incurred for the extensive use of information technology resources incurred by the public entity. "Extensive" is defined as a request for copies of electronic records which take more than one hour of information technology resources to produce.

The notary public shall place an impression of the notary's stamp on the certificate of authorization and return the certificate of authorization to the secretary of state. After the certificate of authorization is received, approved, and filed, the secretary of state shall issue a notary commission that authorizes the notary to commence the duties of the office of notary public. A notary being commissioned must obtain a stamping device approved by the secretary of state which must be designed to leave a clear impression, be photographically reproducible, include the words "State of North Dakota" and "Notary Public", contain the name and commission expiration date of the notary public exactly as shown on the notary's commission, and which may not contain any other words, numbers, symbols, or a reproduction of the great seal of the state. On resignation from, or the revocation or expiration of, the notary public's commission, or on the expiration of the date set forth in the stamping device, if any, the notary public shall disable the stamping device by destroying, defacing, damaging, erasing, or securing it against use in a manner that renders it unusable. On the death or adjudication of incompetency of a notary public, the notary public's personal representative or guardian or any other individual knowingly in possession of the stamping device shall render it unusable by destroying, defacing, damaging, erasing, or securing it against use in a manner that renders it unusable.
3. If a notary public's stamping device is lost or stolen, the notary public or the notary public's personal representative or guardian shall notify promptly the secretary of state on discovering that the device is lost or stolen.
4. If a notary public resigns the notary's commission, the notary shall notify the secretary of state within thirty days of the resignation, and shall indicate the effective date of the resignation. Any notary public who, on resignation or removal from office, or any executor or personal representative of the estate of any deceased notary public who neglects to deposit the records and papers as aforesaid for the space of three months, or any person who knowingly destroys, defaces, or conceals any records or papers of any notary public, shall forfeit and pay a sum of not less than fifty dollars nor more than five hundred dollars, and that person also is liable in a civil action for damages to any party injured.

2. Before a notary public performs the notary public's initial notarial act with respect to an electronic record, a notary public shall notify the secretary of state that the notary public will be performing notarial acts with respect to electronic records and identify the technology the notary public intends to use. If the secretary of state has established standards for approval of technology pursuant to section 44-06.1-25, the technology must conform to the standards. 2. An applicant for a commission as a notary public must:
  - a. Be at least eighteen years of age;
  - b. Be a citizen or permanent legal resident of the United States;
  - c. Be a resident of or have a place of employment or practice in this state or must reside in a county that borders this state and which is in a state that extends reciprocity to a notary public who resides in a border county of this state. If the person resides in a county bordering this state, that person by applying for a commission in this state appoints the secretary of state as the agent for service of process, for all purposes relating to notarial acts, including the receipt of correspondence relating to notarial acts;
  - d. Be able to read and write English; and
  - e. Not be disqualified to receive a commission under section 44-06.1-21.
3. Before issuance of a commission as a notary public, an applicant for the commission shall execute an oath of office and submit it to the secretary of state.
4. Before issuance of a commission as a notary public, the applicant for a commission shall submit to the secretary of state an assurance in the form of a surety bond or its functional equivalent in the amount of seven thousand five hundred dollars and is subject to approval by the secretary of state. The assurance must be issued by a surety or other entity licensed or authorized to do business in this state. The assurance must cover acts performed during the term of the notary public's commission and must be in the form prescribed by the secretary of state. If a notary public violates law with respect to notaries public in this state, the surety or issuing entity is liable under the assurance. The surety or issuing entity shall give thirty days' notice to the secretary of state before canceling the assurance. The surety or issuing entity shall notify the secretary of state not later than thirty days after making a payment to a claimant under the assurance. A notary public may perform notarial acts in this state only during the period that a valid assurance is on file with the secretary of state.
5. On compliance with subsections 1, 2, 3, and 4, the secretary of state shall issue a notary public commission to an applicant for a term of six years, unless sooner removed by the secretary of state. The notary shall post the commission in a conspicuous place in the notary's office or place of employment.
6. A commission to act as a notary public authorizes the notary public to perform notarial acts. The commission does not provide a notary public any immunities or benefits conferred by law of this state on public officials or employees.
7. Notwithstanding any other provision of law, a notary public may perform any notarial act as defined in section 44-06.1-01 outside the state as provided in section 47-19-55.
8. The secretary of state shall notify each notary public at least thirty days before the expiration of the notary public's term of the date upon which the notary

public's commission will expire. The notice must be addressed to the notary public at the last-known place of residence.

9. Each notary public issued a commission shall notify the secretary of state by mail within sixty days of any change of address. If a notary fails to notify the secretary of state within sixty days of a change of address, the secretary of state may impose a late fee in the amount of ten dollars. The notary shall pay any late fee imposed by the secretary of state before the renewal of the notary's commission.

**44-06.1-21. Grounds to deny, refuse to renew, revoke, suspend, or condition commission of notary public.**

1. The secretary of state may deny or refuse to renew a notary public commission, or may revoke, suspend, or condition a notary public commission for any act or omission that demonstrates an individual lacks the honesty, integrity, competence, or reliability to act as a notary public, including:
  - a. Failure to comply with the requirements of this chapter;
  - b. Fraudulent, dishonest, or deceitful misstatement or omission in the application for a commission as a notary public submitted to the secretary of state;
  - c. A conviction of the notary public or applicant of any felony or a crime involving fraud, dishonesty, or deceit;
  - d. A finding against, or admission of liability by, the applicant or notary public in any legal proceeding or disciplinary action based on the applicant's or notary public's fraud, dishonesty, or deceit;
  - e. Failure by the notary public to discharge any duty or responsibility required of a notarial officer, whether by any provision in this chapter, any rules of the secretary of state, or any federal or state law;
  - f. Use of false or misleading advertising or representations by the notary public representing that the notary public has duties, rights, or privileges that a notary public does not have;
  - g. Violation by the notary public of any rule of the secretary of state regarding a notary public;
  - h. Denial, refusal to renew, revocation, suspension, or conditioning of a notary public commission in another state; or
  - i. Failure of the notary public to maintain an assurance as provided in section 44-06.1-20.
2. If an applicant for a commission as a notary public is denied the commission or a commission is revoked or suspended, the applicant or notary public is entitled to timely notice and hearing in accordance with chapter 28-32. The notice may provide that the person may not perform any notarial acts during the pendency of the revocation proceeding. A notary whose commission is revoked may be denied a new commission for a period of up to six years following the date of revocation.

3. The authority of the secretary of state to deny, suspend, refuse to renew, or revoke a notary public's commission does not prevent the secretary of state or an aggrieved person from seeking and obtaining other remedies provided by law, whether criminal or civil.
4. A notary public who exercises the duties of a notary's office with knowledge that the notary's commission has expired or has been revoked or that the notary is disqualified otherwise or any other person who acts as a notary or performs a notarial act without a lawful notary commission is guilty of an infraction, and, if appropriate, the notary's commission must be revoked by the secretary of state using the procedure under chapter 28-32.
5. The secretary of state may impose a lesser sanction for a violation of any provision of this chapter if determined appropriate by the secretary of state under the pertinent facts and circumstances. A lesser sanction includes imposition of a civil penalty not to exceed five hundred dollars or a letter of reprimand.
6. Any person may file a complaint with the secretary of state seeking denial, revocation, or suspension of a commission issued or to be issued by the secretary of state. The secretary of state shall provide a complaint form. The complainant shall use that form and the form must be verified under oath by the complainant or duly authorized officer of the complainant. If the secretary of state determines that a complaint alleges facts that, if true, would require denial, revocation, or suspension of a commission, the secretary of state shall initiate a hearing without undue delay. If the secretary of state determines a complaint does not state facts warranting a hearing, the secretary of state may dismiss the complaint. The secretary of state may initiate a hearing for denial, revocation, or suspension of a commission on the secretary of state's own motion.
7. Any person whose commission has been revoked or suspended may apply to the secretary of state for reinstatement of the commission or termination of the suspension.

**44-06.1-22. (Effective after July 31, 2013) Database of notaries public.**

  - b. Act as an immigration consultant or an expert on immigration matters;

- c. Represent an individual in a judicial or administrative proceeding relating to immigration to the United States, United States citizenship, or related matters; or
        - d. Receive compensation for performing any of the activities listed in this subsection.
  - 2. A notary public may not engage in false or deceptive advertising.
  - 3. A notary public, other than an attorney licensed to practice law in this state, may not use the term "notario" or "notario publico".
  - 4. A notary public, other than an attorney licensed to practice law in this state, may not advertise or represent that the notary public may assist in drafting legal records, give legal advice, or otherwise practice law. If a notary public, who is not an attorney licensed to practice law in this state, in any manner advertises or represents that the notary public offers notarial services, whether orally or in a record, including broadcast media, print media, and the internet, the notary public shall include the following statement, or an alternate statement authorized or required by the secretary of state, in the advertisement or representation, prominently and in each language used in the advertisement or representation: "I am not an attorney licensed to practice law in this state. I am not allowed to draft legal records, give advice on legal matters, including immigration, or charge a fee for those activities. If the form of advertisement or representation is not broadcast media, print media, or the internet, and does not permit the inclusion of the statement required by this subsection because of size, it must be prominently displayed or provided at the place of performance of the notarial act before the notarial act is performed.
  - 5. Except as otherwise allowed by law, a notary public may not withhold access to or possession of any original record provided by an individual who seeks performance of a notarial act by the notary public.
  - 6. A notary public may not notarize a signature on a document if:

    - b. The name of the notary public or the spouse of the notary public appears on the document as a party or in which document either individual has a direct beneficial interest or if either individual appears as a signatory to a petition within the meaning of section 1-01-50. A notarial act performed in violation of this subdivision is voidable.
    - c. The signature is that of the notary public or the spouse of the notary public.
    - d. Except as otherwise provided by law, the notary public uses a name or initial in notarizing the document other than as it appears on the notary's commission. However, such an act by a notary by itself does not affect the validity of the document.

- e. The date of the verification on oath or affirmation or acknowledgment is not the actual date the document is to be notarized or the verification on oath or affirmation or acknowledgment is undated.
  - f. The signature on the document or the notarial certificate is not an original signature, except as otherwise provided by law.
  - g. The notary is falsely or fraudulently signing or notarizing a document, verification on oath or affirmation, or acknowledgment or in any other way is impersonating or assuming the identity of another notary.
  - h. The signature is on a blank or incomplete document.
  - i. In the case of a document drafted in a language other than English, the document is not accompanied by a permanently affixed and accurate written English translation.
  - j. Except as otherwise provided by law:
    - (1) The document is a copy or certified copy of any vital record authorized or required by law to be registered or filed;
    - (2) The document is a copy or certified copy of an instrument entitled by law to be recorded; or

8. A notary public must affix the notary's seal to each verification on oath or affirmation or acknowledgment at the time of performing the notarial act.

#### **44-06.1-24. Validity of notarial acts.**

Except as otherwise provided in this chapter, the failure of a notarial officer to perform the duties or meet the requirements specified in this chapter does not invalidate a notarial act performed by the notarial officer. The validity of a notarial act under this chapter does not prevent an aggrieved person from seeking to invalidate the record or transaction that is the subject of the notarial act or from seeking other remedies based on other laws of this state or law of the United States. This section does not validate a purported notarial act performed by an individual who does not have the authority to perform the act.

#### **44-06.1-25. Rules.**

The secretary of state may adopt rules to implement the provisions of this chapter. Rules adopted regarding the performance of notarial acts with respect to electronic records may not require, or accord greater legal status or effect to, the

implementation or application of a specific technology or technical specification. The rules may include:

1. Provisions prescribing the manner of performing notarial acts regarding tangible and electronic records.
2. Provisions to ensure that any change to or tampering with a record bearing a certificate of a notarial act is self-evident.
3. Provisions to ensure integrity in the creation, transmittal, storage, or authentication of electronic records or signatures.

**44-06.1-26. Notary public commission in effect.**

A commission as a notary public in effect on the effective date of this Act continues until its date of expiration. A notary public who applies to renew a notary public commission after the effective date of this Act shall comply with the provisions of this chapter. A notary public, in performing notarial acts after the effective date of this Act, shall comply with the provisions of this chapter and is subject to refusal to renew the notary public's commission or revocation or suspension of the notary public's commission under this chapter.

Upon receipt of the rider and fee, the secretary of state shall issue a certificate of authorization that a notary public may use to obtain a new stamping device. Once the authorization is on file, the secretary of state shall issue a commission with the notary's new name. After notification to the secretary of state of the name change and until a new stamping device is obtained, the notary may continue to use the old stamping device but must sign any notarial certificate substantially as follows:

**44-06.1-28. Fees to be charged for notarial acts - Penalty.**

A notary public is entitled to charge and receive not more than five dollars per notarial act. A notary who charges a fee exceeding that amount is guilty of an infraction. It is an infraction for any person other than the notary public to impose or collect any monetary fee, charge, or commission in connection with the notarization of any document. A notary may charge a travel fee when traveling to perform a notarial act if:

1. The notary and the person requesting the notarial act agree upon the travel fee in advance of the travel; and
2. The notary explains to the person requesting the notarial act that the travel fee is both separate from the notarial fee and neither specified nor mandated by law.

## CHAPTER 341

### SENATE BILL NO. 2149

(Senators Grindberg, J. Lee, Robinson)  
(Representatives Gruchalla, Klemin, Louser)

AN ACT to create and enact chapter 47-33 of the North Dakota Century Code, relating to a prohibition on private transfer fee obligations.

#### BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

**SECTION 1.** Chapter 47-33 of the North Dakota Century Code is created and enacted as follows:

##### **47-33-01. Definitions.**

As used in this chapter, unless the context otherwise requires:

1. "Private transfer fee" means a fee or charge required by a private transfer fee obligation and payable upon the transfer of an interest in real property, or payable for the right to make or accept this transfer, regardless of whether the fee or charge is a fixed amount or is determined as a percentage of the value of the property, the purchase price, or other consideration given for the transfer. The term does not include:
  - a. Any consideration payable by the grantee to the grantor for the interest in real property being transferred, including any subsequent additional consideration for the property payable by the grantee based upon any subsequent appreciation, development, or sale of the property, provided the additional consideration is payable on a one-time basis only and the obligation to make such payment does not bind successors in title to the property. For the purposes of this subdivision, an interest in real property may include a separate mineral estate and its appurtenant surface access rights.
  - b. Any commission payable to a licensed real estate broker for the transfer of real property under an agreement between the broker and the grantor or the grantee, including any subsequent additional commission for that transfer payable by the grantor or the grantee based upon any subsequent appreciation, development, or sale of the property.
  - c. Any interest, charges, fees, or other amounts payable by a borrower to a lender under a loan secured by a mortgage against real property, including any fee payable to the lender for consenting to an assumption of the loan or a transfer of the real property subject to the mortgage, any fees or charges payable to the lender for estoppel letters or certificates, and any shared appreciation interest or profit participation or other consideration and payable to the lender in connection with the loan.
  - d. Any rent, reimbursement, charge, fee, or other amount payable by a lessee to a lessor under a lease, including any fee payable to the lessor

- for consenting to an assignment, subletting, encumbrance, or transfer of the lease.
- e. Any consideration payable to the holder of an option to purchase an interest in real property or the holder of a right of first refusal or first offer to purchase an interest in real property for waiving, releasing, or not exercising the option or right upon the transfer of the property to another person.
  - f. Any tax, fee, charge, assessment, fine, or other amount payable to or imposed by a governmental authority.
  - g. Any fee, charge, assessment, fine, or other amount payable to a homeowners', condominium, cooperative, mobile home, or property owners' association under a declaration or covenant or law applicable to the association, including fees or charges payable for estoppel letters or certificates issued by the association or its authorized agent.
  - h. Any fee, charge, assessment, dues, contribution, or other amount imposed by a declaration or covenant encumbering a community, and payable to a nonprofit or charitable organization for the purpose of supporting cultural, educational, charitable, recreational, environmental, conservation, or other similar activities benefiting the community that is subject to the declaration or covenant.
  - i. Any fee, charge, assessment, dues, contribution, or other amount pertaining to the purchase or transfer of a club membership relating to real property owned by the member, including any amount determined by reference to the value, purchase price, or other consideration given for the transfer of the real property.
2. "Private transfer fee obligation" means an obligation arising under a declaration or covenant recorded against the title to real property, or under any other contractual agreement or promise, whether or not recorded, that requires or purports to require the payment of a private transfer fee to the declarant or other person specified in the declaration, covenant, or agreement, or to the declarant's or other person's successors or assigns, upon a subsequent transfer of an interest in the real property.
3. "Transfer" means the sale, gift, conveyance, assignment, inheritance, or other transfer of an ownership interest in real property located in this state.

#### **47-33-02. Prohibition on private transfer fee obligation.**

A private transfer fee obligation recorded or entered in this state on or after the effective date of this Act does not run with the title to real property and is not binding on or enforceable at law or in equity against any subsequent owner, purchaser, or mortgagee of any interest in real property as an equitable servitude or otherwise. Any private transfer fee obligation that is recorded or entered in this state on or after the effective date of this Act is void and unenforceable. This section does not mean that a private transfer fee obligation recorded or entered in this state before the effective date of this Act is presumed valid and enforceable.

### **47-33-03. Liability for violation.**

Any person that records or enters an agreement imposing a private transfer fee obligation in that person's favor on or after the effective date of this Act is liable for any and all damages resulting from the imposition of the transfer fee obligation on the transfer of an interest in the real property, including the amount of any transfer fee paid by a party to the transfer, and all attorney's fees, expenses, and costs incurred by a party to the transfer or mortgagee of the real property to recover any transfer fee paid or in connection with an action to quiet title. If an agent acts on behalf of a principal to record or secure a private transfer fee obligation, liability is deemed assessed to the principal, rather than the agent.

### **47-33-04. Disclosure.**

A seller of real property shall furnish to any purchaser a written statement disclosing the existence of any private transfer fee obligation. This written statement must include a description of the private transfer fee obligation and must include a statement that private transfer fee obligations are subject to certain prohibitions under this chapter.

### **47-33-05. Notice requirements for existing transfer fee obligations.**

1. For a private transfer fee obligation imposed before the effective date of this Act, the receiver of the fee shall record, before December 31, 2011, against the real property subject to the private transfer fee obligation a separate document in the county records in which the real property is located that meets all of the following requirements:
  - a. The title of the document must be "Notice of Private Transfer Fee Obligation" in at least fourteen-point boldfaced type;
  - b. The amount, if the fee is a flat amount, or the percentage of the sales price constituting the cost of the transfer fee, or the other basis by which the transfer fee is to be calculated;
  - c. If the real property is residential property, actual dollar-cost examples of the transfer fee for a home priced at one hundred thousand dollars, two hundred fifty thousand dollars, and five hundred thousand dollars;
  - d. The date or circumstances under which the private transfer fee obligation expires, if any;
  - e. The purpose for which the funds from the private transfer fee obligation will be used;
  - f. The name of the person to which funds are to be paid and specific contact information regarding where the funds are to be sent;
  - g. The acknowledged signature of the payee; and
  - h. The legal description of the real property burdened by the private transfer fee obligation.
2. The person to which the transfer fee is to be paid may file an amendment to the notice of transfer fee containing new contact information, but the amendment must contain the recording information of the notice of transfer

fee which it amends and the legal description of the property burdened by the private transfer fee obligation.

3. If the payee fails to comply fully with subsection 1, the grantor of any real property burdened by the private transfer fee obligation may proceed with the conveyance of any interest in the real property to any grantee and is deemed to have acted in good faith and is not subject to any obligations under the private transfer fee obligation. In this event, the real property is conveyed free and clear of the transfer fee and private transfer fee obligation.
4. If the payee fails to provide a written statement of the transfer fee payable within thirty days of the date of a written request for the same sent to the address shown in the notice of transfer fee, then the grantor, on recording of the affidavit required under subsection 5, may convey any interest in the real property to any grantee without payment of the transfer fee and is not subject to any further obligations under the private transfer fee obligation. In this event, the real property is conveyed free and clear of the transfer fee and private transfer fee obligation.
5. An affidavit stating the facts enumerated under subsection 6 must be recorded in the office of the county recorder in the county in which the real property is situated before or simultaneously with a conveyance under subsection 4 of real property unburdened by a private transfer fee obligation. An affidavit filed under this subsection must state that the affiant has actual knowledge of, and is competent to testify to, the facts in the affidavit and must include the legal description of the real property burdened by the private transfer fee obligation, the name of the person appearing by the record to be the owner of such real property at the time of the signing of the affidavit, a reference by recording information to the instrument of record containing the private transfer fee obligation, and an acknowledgment that the affiant is testifying under penalty of perjury.
6. When recorded, an affidavit as described in subsection 5 constitutes prima facie evidence that:
  - a. A request for the written statement of the transfer fee payable in order to obtain a release of the fee imposed by the private transfer fee obligation was sent to the address shown in the notification; and
  - b. The person listed on the notice of transfer fee failed to provide the written statement of the transfer fee payable within thirty days of the date of the notice sent to the address shown in the notification.

A manufacturer, wholesaler, or distributor of automobiles or trucks, or parts of the automobiles or trucks, that enters a contract with any person engaged in the business of selling or retailing automobiles, trucks, or parts for the automobiles or trucks, may not:

1. Coerce or attempt to coerce the retailer into accepting delivery of automobiles, trucks, parts, or accessories that the retailer has not ordered voluntarily.
2. Condition or attempt to condition the sale of automobiles or trucks on a requirement that the automobile or truck retailer purchase other goods or services, except that the manufacturer, wholesaler, or distributor may require a retailer to purchase all parts reasonably necessary to maintain the quality of operation and telecommunications necessary to communicate with the manufacturer, wholesaler, or distributor.
3. Implement or establish a system of motor vehicle allocation or distribution to one or more of its dealers that is unfair, inequitable, or unreasonably discriminatory. As used in this subsection, "unfair" includes requiring a dealer to accept new vehicles not ordered by the dealer or the refusal or failure to offer to any dealer all models offered to any of its other same line-make dealers in this state. The failure to deliver any motor vehicle is not a violation of this section if failure is due to any cause over which the manufacturer does not have control.
4. Require a dealer to pay all or any part of the cost of an advertising campaign or contest or purchase any promotional material, showroom, or other display decoration or material at the expense of the dealer.

This subsection does not apply to a program that is in effect with more than one dealer in this state on the effective date of this Act or to a renewal or modification of the program.
7. Unreasonably prevent or refuse to approve the relocation of a dealership to another site within the dealer's relevant market area. The dealer shall provide the manufacturer or distributor with notice of the proposed address and a reasonable site plan of the proposed location. The manufacturer or distributor shall approve or deny the request in writing within sixty days after receipt of the request, and failure to deny the request within sixty days is deemed approval.
8. Require the retailer to unreasonably remodel, renovate, or recondition the retailer's facilities, change the location of the facilities, or make unreasonable alterations to the dealership premises.
- ~~4-9.~~ Discriminate in the prices charged for automobiles or trucks of like grade and quality sold by automobile or truck manufacturers to similarly situated automobile or truck retailers. This prohibition does not prevent the use of differentials that solely make due allowance for differences in the cost of manufacture, sale, or delivery or for differing methods or quantities in which the automobiles or trucks are sold or delivered by the manufacturer, wholesaler, or distributor.

10. Refuse or fail to offer any incentive program, bonus payment, holdback margin, or any other mechanism that effectively lowers the net cost of a vehicle to any franchised dealer in this state if the incentive, bonus, or holdback is available or made to one or more same line-make dealers in this state.
- 5-11. Attempt or threaten to terminate, cancel, or fail to renew, or substantially change the competitive circumstances of the dealership contracts for any reason other than the failure of the automobile or truck retailer to comply with the terms of the contract between the parties, if the attempt or threat is based on the results of a circumstance beyond the retailer's control, including a natural disaster in the dealership market area or a labor dispute.
12. Require a dealer in this state to enter any agreement to assent to a release, assignment, novation, waiver, or estoppel in which a dealer relinquishes any rights under this state's law, or which would relieve any person from liability imposed by this state's law unless done in connection with a settlement agreement to resolve a matter between a manufacturer and the dealer. The settlement agreement must be entered voluntarily for separate and valuable consideration, and the renewal, reinstatement, or continuation of a franchise agreement alone does not constitute separate and valuable consideration.
13. Require any dealer in this state to enter any agreement with the manufacturer or any other party which requires the law of another jurisdiction to apply to any dispute between the dealer and manufacturer, requires that the dealer bring an action against the manufacturer in a venue outside of this state, in any way purports to waive any dealer's right to have all of this state's statutory and common law apply, shortens or otherwise modifies or eliminates any dealer's right to resolve any dispute with a manufacturer in a state or federal court in this state, or requires the dealer to agree to arbitration or waive its rights to bring a cause of action against the manufacturer, unless done in connection with a settlement agreement to resolve a matter or pending dispute between a manufacturer and the dealer. This settlement agreement must be entered voluntarily for separate and valuable consideration and renewal, reinstatement, or continuation of a franchise agreement alone is not separate and valuable consideration.

**SECTION 3.** Section 51-07-02.4 of the North Dakota Century Code is created and enacted as follows:

**51-07-02.4. Warranty and incentive claims.**

1. A manufacturer may not conduct a warranty or incentive audit or seek a chargeback on a warranty or incentive payment more than one year after the date of that warranty or incentive payment.
2. A manufacturer may not charge back a dealer for an incentive or warranty payment unless the manufacturer can satisfy its burden of proof that the dealer's claim was false, fraudulent, or the dealer did not substantially comply with the reasonable written procedures of the manufacturer.
3. The audit and chargeback provisions of this section apply to all other incentive and reimbursement programs that are subject to audit by the manufacturer. This section does not apply to fraudulent claims.

**SECTION 4. APPLICATION.** This Act applies to all dealership agreements in effect on the effective date of this Act which do not have an expiration date and which are continuing contracts and all other contracts entered, amended, or renewed on or after the effective date of this Act. A contract in effect on the effective date of this Act, which by its terms will terminate on a date after that date and which is not renewed, is governed by the law as it existed before the effective date of this Act.

For purposes of this subdivision, "landman" means a land professional who has been engaged primarily in:

- b. A temporary employee of a temporary help firm is deemed to have left employment voluntarily if the employee does not contact the temporary help firm for reassignment before filing for benefits. Failure to contact the temporary help firm is not deemed a voluntary leaving of employment unless the claimant was advised of the obligation to contact the temporary help firm upon completion of an assignment and advised that unemployment benefits may be denied for failure to contact the temporary help firm. As used in this subsection, "temporary employee" means an employee assigned to work for a client of a temporary help firm; and "temporary help firm" means a firm that hires that firm's own employees and assigns these employees to a client to support or supplement the client's workforce in a work situation such as employee absence, temporary skill shortage, seasonal workload, a special assignment, and a special project.

However, the cost of any benefits

- paid under this exception may not be charged against the account of the employer, other than a reimbursing employer, from whom the individual became separated as a result of the illness or injury. Job service North Dakota may request and designate a licensed physician to provide a second opinion regarding the claimant's qualification; however, no individual may be charged fees of any kind for the cost of such second opinion.
- e. This subsection does not apply if the individual left the most recent employment because of an injury or illness caused or aggravated by the employment; no benefits may be paid under this exception unless the individual leaves employment upon a physician's written notice or order, the individual has notified the employer of the physician's requirement, and there is no reasonable alternative but to leave employment.
- f. For the purpose of this subsection, an individual who left the most recent employment in anticipation of discharge or layoff must be deemed to have left employment voluntarily and without good cause attributable to the employer.
- g. For the purpose of this subsection, "most recent employment" means employment with any employer for whom the claimant last worked and voluntarily quit without good cause attributable to the employer or with any employer, in insured work, for whom the claimant last worked and earned wages equal to or exceeding eight times the individual's weekly benefit amount.
- h. This subsection does not apply if the individual leaves work which is two hundred road miles [321.87 kilometers] or more, as measured on a one-way basis, from the individual's home to accept work which is less than two hundred road miles [321.87 kilometers] from the individual's home provided the work is a bona fide job offer with a reasonable expectation of continued employment.
- i. This subsection does not apply if the individual voluntarily leaves most recent employment to accept a bona fide job offer with a base-period employer who laid off the individual and with whom the individual has a demonstrated job attachment. For the purposes of this exception, "demonstrated job attachment" requires earnings in each of six months during the five calendar quarters before the calendar quarter in which the individual files the claim for benefits.
- j. (1) This subsection does not apply if the reason for separation from the individual's employment is directly attributable to domestic violence or sexual assault that is verified by documentation submitted to job service North Dakota which substantiates the individual's reason for separation from the most recent employment and such continued employment would jeopardize the safety of the individual or of the individual's spouse, parent, or minor child. After receiving a claim for unemployment insurance benefits for which the individual identifies domestic violence or sexual assault as the reason for separation, job service North Dakota shall notify the most recent employer of the reason for separation provided by the individual.
- (2) For purposes of this subdivision, documentation includes:

- (a) A court order, protection order, restraining order, or other record filed with a court;

If the housing is found to be compliant with these codes, or to not substantially compromise the health or safety of workers pursuant to a waiver under this section, the code enforcement agency may issue a limited certificate of inspection, which is effective for a period of five years. Residents may not be permitted to move into or live in temporary work camp housing unless the housing has a current limited certificate of inspection or has been found to meet all applicable codes and requirements by any code enforcement agency having jurisdiction.
2. The applicable codes, including the State Building Code, the State Electrical Code, and the State Plumbing Code, are applicable as a standard for liability in legal actions against owners or operators of temporary work camp housing if exemptions are granted.
3. An owner of temporary work camp housing has the duty to remove that housing and all related above-grade and below-grade infrastructure within one hundred twenty days after the temporary work camp housing is vacated. Any city or county may abate any public nuisance caused by vacated temporary work camp housing within its jurisdiction. An owner of temporary work camp housing shall provide the city or county where the temporary work camp housing is installed with a surety bond, letter of credit, or other security instrument in the form and in an amount specified by the city or county. These funds must be used to cover actual expenses that may be incurred by the city or county in removal of the temporary work camp housing, including any above-grade or below-grade infrastructure. The owner is liable for any expenses that are reasonably incurred by the city or county which exceed the amount of the security.

## CHAPTER 404

### SENATE BILL NO. 2284

(Senators Lyson, Wardner)  
(Representatives Rust, Steiner)

AN ACT to provide for an interstate compact on industrialized or modular buildings.

**BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:**

#### **SECTION 1.**

##### **Compact on industrialized or modular buildings.**

The interstate compact on industrialized or modular buildings is entered with all jurisdictions legally joining the compact in the form substantially as follows:

#### **ARTICLE I - FINDINGS AND DECLARATIONS OF POLICY**

1. The compacting states find that:
  - a. Industrialized or modular buildings are constructed in factories in the various states and are a growing segment of the nation's affordable housing and commercial building stock.
  - b. The regulation of industrialized or modular buildings varies from state to state and locality to locality, which creates confusion and burdens state and local building officials and the industrialized or modular building industry.
  - c. Regulation by multiple jurisdictions imposes additional costs, which are ultimately borne by the owners and users of industrialized or modular buildings, restricts market access, and discourages the development and incorporation of new technologies.
2. It is the policy of each of the compacting states to:
  - a. Provide the states which regulate the design and construction of industrialized or modular buildings with a program to coordinate and uniformly adopt and administer the states' rules and regulations for such buildings, all in a manner to assure interstate reciprocity.
  - b. Provide to the United States Congress assurances that would preclude the need for a voluntary preemptive federal regulatory system for modular housing, as outlined in section 572 of the Housing and Community Development Act of 1987, including development of model standards for modular housing construction, such that design and performance will ensure quality, durability, and safety; will be in accordance with lifecycle cost-effective energy conservation standards; all to promote the lowest total construction and operating costs over the life of such housing.

## **ARTICLE II - DEFINITIONS**

As used in this compact, unless the context clearly requires otherwise:

1. "Commission" means the interstate industrialized or modular buildings commission.
2. "Industrialized or modular building" means any building which is of closed construction, i.e., constructed in such a manner that concealed parts or processes of manufacture cannot be inspected at the site, without disassembly, damage or destruction, and which is made or assembled in manufacturing facilities, off the building site, for installation, or assembly and installation, on the building site. "Industrialized or modular building" includes modular housing which is factory-built single-family and multifamily housing, including closed wall panelized housing, and other modular, nonresidential buildings. "Industrialized or modular building" does not include any structure subject to the requirements of the National Manufactured Home Construction and Safety Standards Act of 1974.
3. "Interim reciprocal agreement" means a formal reciprocity agreement between a noncompacting state wherein the noncompacting state agrees that labels evidencing compliance with the model rules and regulations for industrialized or modular buildings, as authorized in article VIII, section 9, shall be accepted by the state and its subdivisions to permit installation and use of industrialized or modular buildings. Further, the noncompacting state agrees that by legislation or regulation, and appropriate enforcement by uniform administrative procedures, the noncompacting state requires all industrialized or modular building manufacturers within that state to comply with the model rules and regulations for industrialized or modular buildings.
4. "State" means a state of the United States, territory or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico.
5. "Uniform administrative procedures" means the procedures adopted by the commission, after consideration of any recommendations from the rules development committee, which state and local officials, and other parties, in one state, will utilize to assure state and local officials, and other parties in other states, of the substantial compliance of industrialized or modular building construction with the construction standard of requirements of such other states; to assess the adequacy of building systems; and to verify and assure the competency and performance of evaluation and inspection agencies.
6. "Model rules and regulations for industrialized or modular buildings" means the construction standards adopted by the commission, after consideration of any recommendations from the rules development committee, which govern the design, manufacture, handling, storage, delivery, and installation of industrialized or modular buildings and building components. The construction standards and any amendments thereof shall conform insofar as practicable to model building codes and referenced standards generally accepted and in use throughout the United States.

## **ARTICLE III - CREATION OF COMMISSION**

The compacting states hereby create the interstate industrialized or modular buildings commission, hereinafter called commission. Said commission shall be a body corporate of each compacting state and an agency thereof. The commission

shall have all the powers and duties set forth herein and such additional powers as may be conferred upon it by subsequent action of the respective legislatures of the compacting states.

#### **ARTICLE IV - SELECTION OF COMMISSIONERS**

The commission shall be selected as follows. As each state becomes a compacting state, one resident shall be appointed as commissioner. The commissioner shall be selected by the governor of the compacting state, being designated from the state agency charged with regulating industrialized or modular buildings or, if such state agency does not exist, being designated from among those building officials with the most appropriate responsibilities in the state. The commissioner may designate another official as an alternate to act on behalf of the commissioner at commission meetings which the commissioner is unable to attend.

Each state commissioner shall be appointed, suspended, or removed and shall serve subject to and in accordance with the laws of the state which said commissioner represents; and each vacancy occurring shall be filled in accordance with the laws of the state wherein the vacancy exists.

When three state commissioners have been appointed in the manner described, those state commissioners shall select one additional commissioner who shall be a representative of manufacturers of industrial- or commercial-use industrialized or modular buildings. When six state commissioners have been appointed in the manner described, the state commissioners shall select a second additional commissioner who shall be a representative of consumers of industrialized or modular buildings. With each addition of three state commissioners, the state commissioners shall appoint one additional representative commissioner, alternating between a representative of manufacturers of industrialized or modular buildings and consumers of industrialized or modular buildings. The ratio between state commissioners and representative commissioners shall be three to one. In the event states withdraw from the compact or, for any other reason, the number of state commissioners is reduced, the state commissioners shall remove the last added representative commissioner as necessary to maintain a ratio of state commissioners to representative commissioners of three to one.

Upon a majority vote of the state commissioners, the state commissioners may remove, fill a vacancy created by, or replace any representative commissioner, provided that any replacement is made from the same representative group and a three-to-one ratio is maintained. Unless provided otherwise, the representative commissioners have the same authority and responsibility as the state commissioners.

In addition, the commission may have as a member one commissioner representing the United States government if federal law authorizes such representation. Such commissioner shall not vote on matters before the commission. Such commission shall be appointed by the President of the United States, or in such other manner as may be provided by Congress.

#### **ARTICLE V - VOTING**

Each commissioner, except the commissioner representing the United States government, shall be entitled to one vote on the commission. A majority of the commissioners shall constitute a quorum for the transaction of business. Any business transacted at any meeting of the commission must be by affirmative vote of a majority of the quorum present and voting.

## **ARTICLE VI - ORGANIZATION AND MANAGEMENT**

The commission shall elect annually, from among its members, a chairman, a vice chairman, and a treasurer. The commission shall also select a secretariat, which shall provide an individual who shall serve as secretary of the commission. The commission shall fix and determine the duties and compensation of the secretariat.

The commissioners shall serve without compensation, but shall be reimbursed for their actual and necessary expenses from the funds of the commission.

The commission shall adopt a seal.

The commission shall adopt bylaws, rules, and regulations for the conduct of its business, and shall have the power to amend and rescind these bylaws, rules, and regulations.

The commission shall establish and maintain an office at the same location as the office maintained by the secretariat for the transaction of its business and may meet at any time, but in any event must meet at least once a year. The chairman may call additional meetings and upon the request of a majority of the commissioners of three or more of the compacting states shall call an additional meeting.

The commission annually shall make the governor and legislature of each compacting state a report covering its activities for the preceding year. Any donation or grant accepted by the commission or services borrowed shall be reported in the annual report of the commission and shall include the nature, amount, and conditions, if any, of the donation, gift, grant, or services borrowed and the identity of the donor or lender. The commission may make additional reports as it may deem desirable.

## **ARTICLE VII - COMMITTEES**

The commission will establish such committees as it deems necessary, including the following:

1. An executive committee which functions when the full commission is not meeting, as provided in the bylaws of the commission. The executive committee will ensure that proper procedures are followed in implementing the commission's programs and in carrying out the activities of the compact. The executive committee shall be elected by vote of the commission. It shall be comprised of at least three and no more than nine commissioners, selected from those commissioners who are representatives of the governor of their respective state.
2. A rules development committee appointed by the commission. The committee shall be consensus-based and consist of not less than seven nor more than twenty-one members. Committee members will include state building regulatory officials; manufacturers of industrialized or modular buildings; private, third-party inspection agencies; and consumers. This committee may recommend procedures which state and local officials, and other parties in one state may utilize to assure state and local officials, and other parties in other states of the substantial compliance of industrialized or modular building construction with the construction standard requirements of such other states; to assess the adequacy of building systems; and to verify and assure the competency and performance of evaluation and inspection agencies. This committee may also recommend construction standards for the design, manufacture, handling, storage, delivery, and installation of industrialized or modular buildings and building components. The committee will submit its

recommendations to the commission, for the commission's consideration in adopting and amending the uniform administrative procedures and the model rules and regulations for industrialized or modular buildings. The committee may also review the regulatory programs of the compacting states to determine whether those programs are consistent with the uniform administrative procedures or the model rules and regulations for industrialized or modular buildings and may make recommendations concerning the states' programs to the commission. In carrying out its functions, the rules committee may conduct public hearings and otherwise solicit public input and comment.

3. Any other advisory, coordinating, or technical committees, membership on which may include private persons, public officials, associations, or organizations. Such committees may consider any matter of concern to the commission.
4. Such additional committees as the commission's bylaws may provide.

### **ARTICLE VIII - POWER AND AUTHORITY**

In addition to the powers conferred elsewhere in this compact, the commission shall have power to:

1. Collect, analyze, and disseminate information relating to industrialized or modular buildings.
2. Undertake studies of existing laws, codes, rules and regulations, and administrative practices of the states relating to industrialized or modular buildings.
3. Assist and support committees and organizations which promulgate, maintain, and update model codes or recommendations for uniform administrative procedures or model rules and regulations for industrialized or modular buildings.
4. Adopt and amend uniform administrative procedures and model rules and regulations for industrialized or modular buildings.
5. Make recommendations to compacting states for the purpose of bringing such states' laws, codes, rules and regulations, and administrative practices into conformance with the uniform administrative procedures or the model rules and regulations for industrialized or modular buildings, provided that such recommendations shall be made to the appropriate state agency with due consideration for the desirability of uniformity while also giving appropriate consideration to special circumstances which may justify variations necessary to meet unique local conditions.
6. Assist and support the compacting states with monitoring of plan review programs and inspection programs, which will assure that the compacting states have the benefit of uniform industrialized or modular building plan review and inspection programs.
7. Assist and support organizations which train state and local government and other program personnel in the use of uniform industrialized or modular building plan review and inspection programs.

8. Encourage and promote coordination of state regulatory action relating to manufacturers, public, or private inspection programs.
9. Create and sell labels to be affixed to industrialized or modular building units, constructed in or regulated by compacting states, where such labels will evidence compliance with the model rules and regulations for industrialized or modular buildings, enforced in accordance with the uniform administrative procedures. The commission may use receipts from the sale of labels to help defray the operating expenses of the commission.
10. Assist and support compacting states' investigations into and resolutions of consumer complaints which relate to industrialized or modular buildings constructed in one compacting state and sited in another compacting state.
11. Borrow, accept, or contract for the services of personnel from any state or the United States or any subdivision or agency thereof, from any interstate agency, or from any institution, association, person, firm, or corporation.
12. Accept for any of its purposes and functions under this compact any and all donations, and grants of money, equipment, supplies, materials, and services, conditional or otherwise, from any state or the United States or any subdivision or agency thereof, from any interstate agency, or from any institution, person, firm, or corporation, and may receive, utilize, and dispose of the same.
13. Establish and maintain such facilities as may be necessary for the transacting of its business. The commission may acquire, hold, and convey real and personal property and any interest therein.
14. Enter into contracts and agreements, including interim reciprocal agreements with noncompacting states.

#### **ARTICLE IX - FINANCE**

The commission shall submit to the governor or designated officer or officers of each compacting state a budget of its estimated expenditures for such period as may be required by the laws of that state for presentation to the legislature thereof.

Each of the commission's budgets of estimated expenditures shall contain specific recommendations of the amounts to be appropriated by each of the compacting states. The total amount of appropriations requested under any such budget shall be apportioned among the compacting states as follows: one-half in equal shares; one-fourth among the compacting states in accordance with the ratio of their populations to the total population of the compacting states, based on the last decennial federal census; and one-fourth among the compacting states in accordance with the ratio of industrialized or modular building units manufactured in each state to the total of all units manufactured in all of the compacting states.

The commission shall not pledge the credit of any compacting state. The commission may meet any of its obligations in whole or in part with funds available to it by donations, grants, or sale of labels: provided that the commission takes specific action setting aside such funds prior to incurring any obligation to be met in whole or in part in such manner. Except if the commission makes use of funds available to it by donations, grants, or sale of labels, the commission shall not incur any obligation prior to the allotment of funds by the compacting states adequate to meet the same.

The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission shall be subject to the audit and accounting procedures established under its bylaws. All receipts and disbursements of funds handled by the commission shall be audited yearly by a certified or licensed public accountant, and the report of the audit shall be included in and become part of the annual report of the commission.

The accounts of the commission shall be open at any reasonable time for inspection by duly constituted officers of the compacting states and any person authorized by the commission.

Nothing contained in this article shall be construed to prevent commission compliance relating to audit or inspection of accounts by or on behalf of any government contributing to the support of the commission.

#### **ARTICLE X - ENTRY INTO FORCE AND WITHDRAWAL**

This compact shall enter into force when enacted into law by any three states. Thereafter, this compact shall become effective as to any other state upon its enactment thereof. The commission shall arrange for notification of all compacting states whenever there is a new enactment of the compact.

Any compacting state may withdraw from this compact by enacting a statute repealing the same. No withdrawal shall affect any liability already incurred by or chargeable to a compacting state prior to the time of such withdrawal.

#### **ARTICLE XI - RECIPROCITY**

If the commission determines that the standards for industrialized or modular buildings prescribed by statute, rule, or regulation of compacting state are at least equal to the commission's model rules and regulations for industrialized or modular buildings, and that such state standards are enforced by the compacting state in accordance with the uniform administrative procedures, industrialized or modular buildings approved by such a compacting state shall be deemed to have been approved by all the compacting states for placement in those states in accordance with procedures prescribed by the commission.

#### **ARTICLE XII - EFFECT ON OTHER LAWS AND JURISDICTION**

Nothing in this compact shall be construed to:

1. Withdraw or limit the jurisdiction of any state or local court or administrative officer or body with respect to any person, corporation, or other entity or subject matter, except to the extent that such jurisdiction pursuant to this compact, is expressly conferred upon another agency or body.
2. Supersede or limit the jurisdiction of any court of the United States.

#### **ARTICLE XIII - CONSTRUCTION AND SEVERABILITY**

This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence, or provision of this compact is declared to be contrary to the constitution of any state or of the United States or the applicability thereof to any government, agency, person, or circumstances is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this compact shall be held contrary to

the constitution of any state participating therein, the compact shall remain in full force and effect as to the remaining party states and in full force and effect as to the state affected as to all severable matters. If this compact shall be held contrary to the constitution of any state participating therein, the compact shall remain in full force and effect as to the remaining party states and in full force and effect as to the state affected as to all severable matters.

AN ACT to create and enact a new section to chapter 54-27 of the North Dakota Century Code, relating to effective dates of federal census data for use in tax distributions made by the state treasurer; to amend and reenact section 54-27-19 of the North Dakota Century Code, relating to the highway tax distribution fund; to provide for retroactive application; and to declare an emergency.

#### BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

**SECTION 1. AMENDMENT.** Section 54-27-19 of the North Dakota Century Code is amended and reenacted as follows:

#### **54-27-19. Highway tax distribution fund - State treasurer to make allocation to state, counties, and cities.**

A highway tax distribution fund is created as a special fund in the state treasury into which must be deposited the moneys available by law from collections of motor vehicle registration and related fees, fuels taxes, special fuels taxes, use taxes, and special fuels excise taxes. The state treasurer shall transfer the first five million five hundred thousand dollars per biennium from the highway tax distribution fund to the state highway fund for the purpose of providing administrative assistance to other transferees. After the transfer of the first five million five hundred thousand dollars, any moneys in the highway tax distribution fund must be allocated and transferred monthly by the state treasurer, as follows:

1. Sixty-one and three-tenths percent must be transferred monthly to the state department of transportation and placed in a state highway fund.
2. Two and seven-tenths percent must be transferred monthly to the township highway fund.
3. One and five-tenths percent must be transferred monthly to the public transportation fund.
4. Thirty-four and five-tenths percent must be allocated to the counties of this state in proportion to the number of vehicle registrations credited to each county. Each county must be credited with the certificates of title of vehicles registered by residents of the county. The state treasurer shall compute and distribute the counties' share monthly after deducting the incorporated cities' share. All the moneys received by the counties from the highway tax distribution fund must be set aside in a separate fund called the "highway tax distribution fund" and must be appropriated and applied solely for highway purposes in accordance with section 11 of article X of the Constitution of North Dakota. The state treasurer shall compute and distribute monthly the sums allocated to the incorporated cities within each county according to the formula in this subsection on the basis of the per capita population of all of the incorporated cities situated within each county as determined by the last

official regular or special federal census or the census taken in accordance with the provisions of chapter 40-02 in case of a city incorporated subsequent to the census. ~~However, in~~

- a. For counties having no cities with a population of ten thousand or more, a statewide per capita average must be used, as determined by calculating twenty-seven percent of the amount allocated to all of the counties under this subsection divided by the total population of all of the incorporated cities in the state. Each city must be paid an amount equal to the product of the statewide per capita and that city's population.
- b. For each county having a city with a population of ten thousand or more, the amount transferred each month into the county highway tax distribution fund must be the difference between the amount allocated to that county pursuant to this subsection and the total amount allocated and distributed to the incorporated cities in that county as computed according to the following formula:
  - a. (1) A statewide per capita average as determined by calculating twenty-seven percent of the amount allocated to all of the counties under this subsection divided by the total population of all of the incorporated cities in the state.
  - b. (2) The share distributed to each city in the county having a population of less than one thousand must be determined by multiplying the population of that city by the product of 1.50 times the statewide per capita average computed under subdivision a.
  - c. (3) The share distributed to each city in the county having a population of one thousand to four thousand nine hundred ninety-nine, inclusive, must be determined by multiplying the population of that city by the product of 1.25 times the statewide per capita average computed under subdivision a.
  - d. (4) The share distributed to each city in the county having a population of five thousand or more must be determined by multiplying the population of that city by the statewide per capita average for all such cities, which per capita average must be computed as follows: the total of the shares computed under subdivisions b and c for all cities in the state having a population of less than five thousand must be subtracted from the total incorporated cities' share in the state as computed under subdivision a and the balance remaining must then be divided by the total population of all cities of five thousand or more in the state.
5. The moneys allocated to the incorporated cities must be distributed to them monthly by the state treasurer and must be deposited by the cities in a separate fund and may only be used in accordance with section 11 of article X of the Constitution of North Dakota and an incorporated city may use the fund for the construction, reconstruction, repair, and maintenance of public highways within or outside the city pursuant to an agreement entered into between the city and any other political subdivision as authorized by section 54-40-08.

**SECTION 2.** A new section to chapter 54-27 of the North Dakota Century Code is created and enacted as follows:

**Effective date of census data - Tax distributions.**

5. One board member must be elected by and from among those persons who are receiving retirement benefits ~~or who are eligible to receive deferred vested retirement benefits~~ under this chapter. The board shall call the election and must give prior notice of the election to the persons eligible to participate in the election pursuant to this subsection. The board member shall serve a term of five years.
6. The members of the board are entitled to receive sixty-two dollars and fifty cents per day compensation and necessary mileage and travel expenses as provided in sections 44-08-04 and 54-06-09. This is in addition to any other pay or allowance due the chairman or a member, plus an allowance for expenses they may incur through service on the board.
7. A board member shall serve a five-year term and until the board member's successor qualifies. Each board member is entitled to one vote, and four of the seven board members constitute a quorum. Four votes are necessary for resolution or action by the board at any meeting.

**SECTION 7. AMENDMENT.** Subsections 3 and 6 of section 54-52-17 of the North Dakota Century Code are amended and reenacted as follows:

3. Retirement dates are defined as follows:
  - a. Normal retirement date, except for a national guard security officer or firefighter or a peace officer or correctional officer employed by the bureau of criminal investigation or by a political subdivision, is:
    - (1) The first day of the month next following the month in which the member attains the age of sixty-five years; or
    - (2) When the member has a combined total of years of service credit and years of age equal to eighty-five and has not received a retirement benefit under this chapter.
  - b. Normal retirement date for a national guard security officer or firefighter is the first day of the month next following the month in which the national guard security officer or firefighter attains the age of fifty-five years and has completed at least three consecutive years of employment as a national guard security officer or firefighter immediately preceding retirement.
  - c. Normal retirement date for a peace officer or correctional officer employed by a political subdivision is:

- (1) The first day of the month next following the month in which the peace officer or correctional officer attains the age of fifty-five years and has completed at least three consecutive years of employment as a peace officer or correctional officer ~~immediately preceding retirement~~; or
  - (2) When the peace officer or correctional officer has a combined total of years of service credit and years of age equal to eighty-five and has not received a retirement benefit under this chapter.
- d. Normal retirement date for a peace officer employed by the bureau of criminal investigation is:
- (1) The first day of the month next following the month in which the peace officer attains the age of fifty-five years and has completed at least three consecutive years of employment as a peace officer immediately preceding retirement; or
  - (2) When the peace officer has a combined total of years of service credit and years of age equal to eighty-five and has not received a retirement benefit under this chapter.
- e. Postponed retirement date is the first day of the month next following the month in which the member, on or after July 1, 1977, actually severs or has severed the member's employment after reaching the normal retirement date.
- f. Early retirement date, except for a national guard security officer or firefighter or a peace officer or correctional officer employed by the bureau of criminal investigation or by a political subdivision, is the first day of the month next following the month in which the member attains the age of fifty-five years and has completed three years of eligible employment. For a national guard security officer or firefighter, early retirement date is the first day of the month next following the month in which the national guard security officer or firefighter attains the age of fifty years and has completed at least three years of eligible employment. For a peace officer or correctional officer employed by the bureau of criminal investigation or by a political subdivision, early retirement date is the first day of the month next following the month in which the peace officer or correctional officer attains the age of fifty years and has completed at least three years of eligible employment.
- g. Disability retirement date is the first day of the month after a member becomes permanently and totally disabled, according to medical evidence called for under the rules of the board, and has completed at least one hundred eighty days of eligible employment. For supreme and district court judges, permanent and total disability is based solely on a judge's inability to perform judicial duties arising out of physical or mental impairment, as determined pursuant to rules adopted by the board or as provided by subdivision a of subsection 3 of section 27-23-03. A member is eligible to receive disability retirement benefits only if the member:
- (1) Became disabled during the period of eligible employment; and
  - (2) Applies for disability retirement benefits within twelve months of the date the member terminates employment.

A member is eligible to continue to receive disability benefits as long as the permanent and total disability continues and the member submits the necessary documentation and undergoes medical testing required by the board, or for as long as the member participates in a rehabilitation program required by the board, or both. If the board determines that a member no longer meets the eligibility definition, the board may discontinue the disability retirement benefit. The board may pay the cost of any medical testing or rehabilitation services it deems necessary and these payments are appropriated from the retirement fund for those purposes.

6. If before retiring a member dies after completing three years of eligible employment, except for supreme and district court judges, who must have completed five years of eligible employment, the board shall pay the member's account balance to the member's designated beneficiary as provided in this subsection. If the member has designated an alternate beneficiary with the surviving spouse's written consent, the board shall pay the member's account balance to the named beneficiary. If the member has named more than one primary beneficiary, the board shall pay the member's account balance to the named primary beneficiaries in the percentages designated by the member or, if the member has not designated a percentage for the beneficiaries, in equal percentages. If one or more of the primary beneficiaries has predeceased the member, the board shall pay the predeceased beneficiary's share to the remaining primary beneficiaries. If any beneficiary survives the member, yet dies before distribution of the beneficiary's share, the beneficiary must be treated as if the beneficiary predeceased the member. If there are no remaining primary beneficiaries, the board shall pay the member's account balance to the contingent beneficiaries in the same manner. If there are no remaining designated beneficiaries, the board shall pay the member's account balance to the member's estate. If the member has not designated an alternate beneficiary or the surviving spouse is the beneficiary, the surviving spouse of the member may select a form of payment as follows:
  - a. If the member was a supreme or district court judge, the surviving spouse may select one of the following optional forms of payment:
    - (1) A lump sum payment of the member's retirement account as of the date of death.
    - (2) Payments as calculated for the deceased member as if the member was of normal retirement age at the date of death, payable until the spouse dies.
  - b. The surviving spouse of all other members may select one of the following options:
    - (1) A lump sum payment of the member's retirement account as of the date of death.
    - (2) Payment of a monthly retirement benefit equal to fifty percent of the deceased member's accrued single life retirement benefits until the spouse dies.
    - (3) If the member dies on or after the member's normal retirement date, the payment of a monthly retirement benefit equal to an amount that

would have been paid to the surviving spouse if the member had retired on the day of the member's death and had selected a one hundred percent joint and survivor annuity, payable until the spouse dies. A surviving spouse who received a benefit under this subsection as of July 31, 1995, is entitled to the higher of that person's existing benefit or the equivalent of the accrued benefit available under the one hundred percent joint and survivor provision as if the deceased member were of normal retirement age, with the increase payable beginning August 1, 1995.

**SECTION 8. AMENDMENT.** Section 54-52-27 of the North Dakota Century Code is amended and reenacted as follows:

**54-52-27. Purchase of sick leave credit.**

A member is entitled to credit in the retirement system for each month of unused sick leave, as certified by the member's employer, if the member or the member's employer pays an amount equal to the member's final average salary, times the number of months of sick leave converted, times the percent of employer and employee contributions to the retirement program of the member, plus the required contribution for the retiree health benefits program. Hours of sick leave equal to a fraction of a month are deemed to be a full month for purposes of conversion to service credit. A member may convert all of the member's certified sick leave or a part of the member's certified sick leave. ~~All conversion payments must be made within sixty days of termination of employment and before the member receives a retirement annuity unless the member has submitted an approved payment plan to the board.~~

**SECTION 9. AMENDMENT.** Section 54-52-28 of the North Dakota Century Code is amended and reenacted as follows:

**54-52-28. Internal Revenue Code compliance.**

~~4.~~The board shall administer the plan in compliance with ~~section 415, section 401(a)(9), section 401(a)(17), and section 401(a)(31)~~the following sections of the Internal Revenue Code in effect on August 1, ~~2009~~2011, as it applies for governmental plans.

2-1. Section 415, including the defined benefit dollar limitation under section 415(b)(1)(A) of the Internal Revenue Code.

- a. The defined benefit dollar limitation under section 415(b)(1)(A) of the Internal Revenue Code, as approved by the legislative assembly, must be adjusted under section 415(d) of the Internal Revenue Code, effective January first of each year following a regular legislative session. The adjustment of the defined benefit dollar limitation under section 415(d) applies to participating members who have had a separation from employment, but that member's benefit payments may not reflect the adjusted limit prior to January first of the calendar year in which the adjustment applies.
- ~~3.~~ b. If a participating member's benefit is increased by plan amendment after the commencement of benefit payments, the member's annual benefit may not exceed the defined benefit dollar limitation under section 415(b)(1)(A) of the Internal Revenue Code, as adjusted under section 415(d) for the calendar year in which the increased benefit is payable.

4. c. If a participating member is, or ever has been, a participant in another defined benefit plan maintained by the employer, the sum of the participant's annual benefits from all the plans may not exceed the defined benefit dollar limitation under section 415(b)(1)(A) of the Internal Revenue Code. If the participating member's employer-provided benefits under all such defined benefit plans would exceed the defined benefit dollar limitation, the benefit must be reduced to comply with section 415 of the Internal Revenue Code. The reduction must be made pro rata between the plans, in proportion to the participating member's service in each plan.
2. The minimum distribution rules under section 401(a)(9) of the Internal Revenue Code, including the incidental death benefit requirements under section 401(a)(9)(G), and the regulations issued under that provision to the extent applicable to governmental plans. Accordingly, benefits must be distributed or begin to be distributed no later than a member's required beginning date, and the required minimum distribution rules override any inconsistent provision of this chapter. A member's required beginning date is April first of the calendar year following the later of the calendar year in which the member attains age seventy and one-half or terminates employment.
3. The annual compensation limitation under section 401(a)(17) of the Internal Revenue Code, as adjusted for cost-of-living increases under section 401(a)(17)(B).
4. The rollover rules under section 401(a)(31) of the Internal Revenue Code. Accordingly, a distributee may elect to have an eligible rollover distribution, as defined in section 402(c)(4) of the Internal Revenue Code, paid in a direct rollover to an eligible retirement plan, as defined in section 402(c)(8)(B) of the Internal Revenue Code, specified by the distributee.
5. If the plan of retirement benefits set forth in this chapter is terminated or discontinued, the rights of all affected participating members to accrued retirement benefits under this chapter as of the date of termination or discontinuance is nonforfeitable, to the extent then funded.

**SECTION 10. AMENDMENT.** Subsection 3 of section 54-52.1-03 of the North Dakota Century Code is amended and reenacted as follows:

3. A retiree who has accepted a periodic distribution from the defined contribution retirement plan pursuant to section 54-52.6-13 who the board determines is eligible for participation in the uniform group insurance program or has accepted a retirement allowance from the public employees retirement system, the highway patrolmen's retirement system, the teachers' insurance and annuity association of America - college retirement equities fund for service credit earned while employed by North Dakota institutions of higher education, the retirement system established by job service North Dakota under section 52-11-01, the judges' retirement system established under chapter 27-17, or the teachers' fund for retirement may elect to participate in the uniform group under this chapter without meeting minimum requirements at age sixty-five, when the member's spouse reaches age sixty-five, upon the receipt of a benefit, or when the spouse terminates employment. If a retiree or surviving spouse does not elect to participate at the times specified in this subsection, the retiree or surviving spouse must meet the minimum requirements established by the board. Subject to sections 54-52.1-03.2 and 54-52.1-03.3, each retiree or surviving spouse shall pay directly to the board

the premiums in effect for the coverage then being provided. A retiree or surviving spouse who has met the initial eligibility requirements of this subsection to begin participation in the uniform group insurance program remains eligible as long as the retiree maintains the retiree's participation in the program by paying the required premium pursuant to rules adopted by the board.

<sup>135</sup> **SECTION 11. AMENDMENT.** Subsection 3 of section 54-52.6-09 of the North Dakota Century Code is amended and reenacted as follows:

3. Each employer, at its option, may pay the employee contributions required by this section for all compensation earned after December 31, 1999. The amount paid must be paid by the employer in lieu of contributions by the employee. If the employer decides not to pay the contributions, the amount that would have been paid will continue to be deducted from the employee's compensation. If contributions are paid by the employer, they must be treated as employer contributions in determining tax treatment under this code and the federal Internal Revenue Code. Contributions paid by the employer may not be included as gross income of the employee in determining tax treatment under this code and the federal Internal Revenue Code until they are distributed or made available. The employer shall pay these employee contributions from the same source of funds used in paying compensation to the employee. The employer shall pay these contributions by effecting an equal cash reduction in the gross salary of the employee or by an offset against future salary increases or by a combination of a reduction in gross salary and offset against future salary increases. Employee contributions paid by the employer must be treated for the purposes of this chapter in the same manner and to the same extent as employee contributions made before the date on which employee contributions were assumed by the employer. An employer shall exercise its option under this subsection by ~~December 1, 1999, and shall report~~reporting its choice to the board in writing. ~~The option chosen may not be revoked for the remainder of the biennium. Thereafter, the option choice must be forwarded to the board, in writing, by June fifteenth of each odd-numbered year.~~

All contributions paid by the state under this subsection must be treated as employer contributions in determining tax treatment under this code and the federal Internal Revenue Code. Contributions paid by the state under this subsection may not be included as gross income of the member in determining tax treatment under this code and the Internal Revenue Code until the contributions are distributed or made available. **54-52-05. Membership and assessments - Employer payment of employee contributions.**

1. Every eligible governmental unit employee concurring in the plan must so state in writing and all future eligible employees are participating members. An employee who was not enrolled in the retirement system when eligible to participate must be enrolled immediately upon notice of the employee's eligibility, unless the employee waives in writing the employee's right to participate for the previous time of eligibility, to avoid contributing to the fund for past service. An employee who is eligible for normal retirement who accepts a retirement benefit under this chapter and who subsequently becomes employed with a participating employer other than the employer with which the employee was employed at the time the employee retired under this chapter may, before reenrolling in the retirement plan, elect to permanently waive future participation in the retirement plan and the retiree health program and maintain that employee's retirement status. An employee making this election is not required to make any future employee contributions to the public employees retirement system nor is the employee's employer required to make any further contributions on behalf of that employee.

Employees may not receive the contributed amounts directly once the employer has elected to pay the employee contributions. The amount paid must be paid by the employer in lieu of contributions by the employee. If the state determines not to pay the contributions, the amount that would have been paid must continue to be deducted from the employee's compensation. If contributions are paid by the employer, they must be treated as employer contributions in determining tax treatment under this code and the federal Internal Revenue Code. If contributions are paid by the employer, they may not be included as gross income of the employee in determining tax treatment under this code and the Internal Revenue Code until they are distributed or made available. The employer shall pay these employee contributions from the same source of funds used in paying compensation to the employee or from the levy authorized by subsection 5 of section 57-15-28.1. The employer shall pay these contributions by effecting an equal cash reduction in the gross salary of the employee or by an offset against future salary increases or by a contribution of a reduction in gross salary and offset against future salary increases. If employee contributions are paid by the employer, they must be treated for the purposes of this chapter in the same manner and to the same extent as employee contributions made prior to the date on which employee

contributions were assumed by the employer. An employer exercising its option under this subsection shall report its choice to the board in writing.

4. For compensation earned after August 1, 2009, all employee contributions required under section 54-52-06.1 and the job service North Dakota retirement plan, and not otherwise paid under subsection 3, must be paid by the employer in lieu of contributions by the member. Contributions paid by the employer in accordance with this subsection must be treated for the purposes of this chapter in the same manner and to the same extent as member contributions made before the date the contributions were assumed by the employer. The employer shall pay these member contributions from the same source of funds used in paying compensation to the employee. The employer shall pay these contributions by effecting an equal cash reduction in the gross salary of the employee. The employer shall continue making payments under this section unless otherwise specifically provided for under the agency's biennial appropriation or by amendment to law.

In lieu of assessing a civil penalty or one percent per month, or both, interest at the actuarial rate of return may be assessed for each month the contributions are delinquent. If contributions are paid within ninety days of the date they became due, penalty and interest to be paid on delinquent contributions may be waived. An employer is required to submit contributions for any past eligible employee who was employed after July 1, 1977, for which contributions were not made if the employee would have been eligible to become vested had the employee participated and if the employee elects to join the public employees retirement system. Employer contributions may not be assessed for eligible service that an employee has waived

pursuant to subsection 1 of section 54-52-05. The board shall report to each session of the legislative assembly the contributions necessary, as determined by the actuarial study, to maintain the fund's actuarial soundness.

2. In addition to the coverage provided in subsection 1, another coverage option may be provided for retired employees not eligible for medicare, provided the option does not increase the implicit subsidy as determined by the governmental accounting standards board's other postemployment benefit reporting procedure. Bids must be solicited by advertisement in a manner selected by the board that will provide reasonable notice to prospective bidders. In preparing bid proposals and evaluating bids, the board may utilize the services of consultants on a contract basis in order that the bids received may be uniformly compared and properly evaluated. In determining which bid, if any, will best serve the interests of eligible employees and the state, the board shall give adequate consideration to the following factors:

1. The economy to be effected.
2. The ease of administration.
3. The adequacy of the coverages.
4. The financial position of the carrier, with special emphasis as to its solvency.

Upon establishing a self-insurance plan, the board shall solicit bids for an administrative services only or third-party administrator contract only every other biennium, and the board is authorized to renegotiate an existing administrative services only or third-party administrator contract during the interim. ### HOUSE BILL NO. 1225

(Representatives J. Nelson, Kretschmar, S. Meyer)  
(Senators Wanzek, Heckaman)

AN ACT to amend and reenact subsection 22 of section 57-15-06.7 and section 57-15-28 of the North Dakota Century Code, relating to the county emergency fund and levy limitation; to provide for a legislative management study; and to provide an effective date.

#### BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

**SECTION 1. AMENDMENT.** Subsection 22 of section 57-15-06.7 of the North Dakota Century Code is amended and reenacted as follows:

22. A county levying a tax for emergency purposes as provided in section 57-15-28 may levy a tax not exceeding two mills in a county with a population of thirty thousand or more, four mills in a county with a population under thirty thousand but more than five thousand, or six mills in a county with a population of five thousand or fewer.

**SECTION 2. AMENDMENT.** Section 57-15-28 of the North Dakota Century Code is amended and reenacted as follows:

#### **57-15-28. Emergency fund - County.**

The governing body of any county may levy a tax for emergency purposes not exceeding the limitation in subsection 22 of section 57-15-06.7. The emergency fund may not be considered in determining the budget or the amount to be levied for each fiscal year for normal tax purposes but must be shown in the budget as an "emergency fund" and may not be deducted from the budget as otherwise provided by law. Each county may create an emergency fund, and all taxes levied for emergency purposes by any county, when collected, must be deposited in the emergency fund, and must be used only for emergency purposes caused by the destruction or impairment of any county property necessary for the conduct of the affairs of the county, emergencies caused by nature or by the entry by a court of competent jurisdiction of a judgment for damages against the county. The emergency fund may not be used for the purchase of road equipment. The emergency fund may not be used for any road construction or maintenance, except for repair of roads damaged by nature within sixty days preceding the determination to expend emergency funds ~~or for the purchase of road equipment~~; however, the emergency fund may be used to match federal funds appropriated to mitigate damage to roads related to a federally declared disaster that occurred more than sixty days preceding the determination. Any unexpended balance remaining in the emergency fund at the end of any fiscal year must be kept in the fund. When the amount of money in the emergency fund, plus the amount of money due the fund from outstanding taxes, equals the amount produced by a levy of five mills on the taxable valuation of property in a county with a population of thirty thousand or more, ten mills on the taxable valuation of property in a county with a population of less than thirty thousand but more than five thousand, or fifteen mills on the taxable valuation of property in a county with a population of five thousand or fewer, the levy authorized by this section

must be discontinued, and no further levy may be made until required to replenish the emergency fund.

**SECTION 3. LEGISLATIVE MANAGEMENT STUDY - COUNTY AND CITY EMERGENCY FUND LEVIES.** During the 2011-12 interim, the legislative management shall consider studying county and city emergency fund levies and expenditures and jurisdictional responsibilities and issues relating to emergency fund levies and expenditures. The legislative management shall report its findings and recommendations, together with any legislation required to implement the recommendations, to the sixty-third legislative assembly.

**SECTION 4. EFFECTIVE DATE.** Section 1 of this Act is effective for taxable years beginning after December 31, 2010. Section 2 of this Act is effective for emergency fund expenditures after July 31, 2011.

## CHAPTER 453

### SENATE BILL NO. 2242

(Senators Grindberg, Krebsbach, Robinson)  
(Representatives Devlin, Kreidt, J. Nelson)

AN ACT to amend and reenact subsection 5 of section 57-15-56 and section 57-39.2-26.2 of the North Dakota Century Code, relating to a matching grant from the senior citizen services and programs fund to counties and the mill levy for senior citizen services and programs; and to provide an effective date.

#### BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

**SECTION 1. AMENDMENT.** Subsection 5 of section 57-15-56 of the North Dakota Century Code is amended and reenacted as follows:

5. The state treasurer shall provide matching funds as provided in this subsection for counties for senior citizen services and programs funded as required by this section. The grants must be made on or before March first of each year to each eligible county. A county receiving a grant under this section which has not levied a tax under this section shall transfer the amount received to a city within the county which has levied a tax under this section. A grant may not be made to any county that has not filed with the state treasurer a written report verifying that grant funds received in the previous year under this subsection have been budgeted for the same purposes permitted for the expenditure of proceeds of a tax levied under this section. The written report must be received by the state treasurer on or before February first of each year following a year in which the reporting county received grant funds under this subsection. A matching fund grant must be provided from the senior citizen services and programs fund to each eligible county equal to ~~two-thirds~~three-fourths of the amount levied in dollars in the county under this section for the taxable year, but the matching fund grant applies only to a levy of up to one mill under this section.

~~It is the intent of the legislative assembly that counties or cities allocate an amount equal to one third of one mill of property tax revenue from their funds raised or received under section 57-15-06, 57-15-08, or 57-39.2-26.1, or any combination of those fund sources, for senior citizen services and programs for each taxable year. A continuing appropriation of state matching funds and expectation of a local matching fund effort is initiated because of the anticipated increase in state aid distribution fund allocations, with the intent of stabilizing matching funds for senior citizen services and programs at a funding level of one mill for all participating counties. A county is not required to provide the one third of one mill matching funds if the county program can be covered with the funding from the state and the levy under this section in the county. It is also anticipated that this change in funding will allow reduction of mill levies under this section in some counties, which will allow allocation of unused amounts under section 57-39.2-26.2 among counties levying the statutory maximum amount for taxable year 2004.~~

**SECTION 2. AMENDMENT.** Section 57-39.2-26.2 of the North Dakota Century Code is amended and reenacted as follows:

**57-39.2-26.2. Allocation of revenues to senior citizen services and programs matching fund - Continuing appropriation.**

Notwithstanding any other provision of law, a portion of sales, use, and motor vehicle excise tax collections equal to the amount of revenue that would have been generated by a levy of ~~two-thirds~~ three-fourths of one mill on the taxable valuation of all property in the state subject to a levy under section 57-15-56 in the previous taxable year must be deposited by the state treasurer in the senior citizen services and programs fund during the period from July first through December thirty-first of each year. The state tax commissioner shall certify to the state treasurer the portion of sales, use, and motor vehicle excise tax revenues which must be deposited in the fund as determined under this section. Revenues deposited in the senior citizen services and programs fund are provided as a standing and continuing appropriation for allocation as provided in subsection 5 of section 57-15-56. Any unexpended and unobligated amount in the senior citizen services and programs fund at the end of ~~the 2005-07 biennium~~ ~~must be allocated among counties that levied the statutory maximum mill levy for taxable year 2004 in proportion to the dollars generated by those levies in those counties for that year but the allocation to any county may not exceed the difference between combined funding for the county's senior citizen services and programs for taxable year 2004 and the combined funding for those services and programs for taxable year 2006 and any remaining unexpended and unobligated amount at the end of any biennium~~ must be transferred by the state treasurer to the state general fund.

**SECTION 3. EFFECTIVE DATE.** This Act is effective for taxable years beginning after December 31, 2010.

Approved April 20, 2011  
Filed April 20, 2011

#### BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

**SECTION 1. AMENDMENT.** Section 57-15-01.1 of the North Dakota Century Code is amended and reenacted as follows:

##### **57-15-01.1. Protection of taxpayers and taxing districts.**

Each taxing district may levy the lesser of the amount in dollars as certified in the budget of the governing body, or the amount in dollars as allowed in this section, subject to the following:

1. No taxing district may levy more taxes expressed in dollars than the amounts allowed by this section.
2. For purposes of this section:
  - a. "Base year" means the taxing district's taxable year with the highest amount levied in dollars in property taxes of the three taxable years immediately preceding the budget year. For a park district general fund, the "amount levied in dollars in property taxes" is the sum of amounts levied in dollars in property taxes for the general fund under section 57-15-12 including any additional levy approved by the electors, the insurance reserve fund under section 32-12.1-08, the employee health care program under section 40-49-12, the public recreation system under section 40-55-09 including any additional levy approved by the electors, forestry purposes under section 57-15-12.1 except any additional levy approved by the electors, pest control under section 4-33-11, and handicapped person programs and activities under section 57-15-60;
  - b. "Budget year" means the taxing district's year for which the levy is being determined under this section;
  - c. "Calculated mill rate" means the mill rate that results from dividing the base year taxes levied by the sum of the taxable value of the taxable

- property in the base year plus the taxable value of the property exempt by local discretion or charitable status, calculated in the same manner as the taxable property; and
- d. "Property exempt by local discretion or charitable status" means property exempted from taxation as new or expanding businesses under chapter 40-57.1; improvements to property under chapter 57-02.2; or buildings belonging to institutions of public charity, new single-family residential or townhouse or condominium property, property used for early childhood services, or pollution abatement improvements under section 57-02-08.
3. A taxing district may elect to levy the amount levied in dollars in the base year. Any levy under this section must be specifically approved by a resolution approved by the governing body of the taxing district. Before determining the levy limitation under this section, the dollar amount levied in the base year must be:
    - a. Reduced by an amount equal to the sum determined by application of the base year's calculated mill rate for that taxing district to the final base year taxable valuation of any taxable property and property exempt by local discretion or charitable status which is not included in the taxing district for the budget year but was included in the taxing district for the base year.
    - b. Increased by an amount equal to the sum determined by the application of the base year's calculated mill rate for that taxing district to the final budget year taxable valuation of any taxable property or property exempt by local discretion or charitable status which was not included in the taxing district for the base year but which is included in the taxing district for the budget year.
    - c. Reduced to reflect expired temporary mill levy increases authorized by the electors of the taxing district. For purposes of this subdivision, an expired temporary mill levy increase does not include a school district general fund mill rate exceeding one hundred ten mills which has expired or has not received approval of electors for an extension under subsection 2 of section 57-64-03.
    - d. Increased, for a school district determining its levy limitation under this section, by the amount the school district's mill levy reduction grant under section 57-64-02 for the base year exceeds the amount of the school district's mill levy reduction grant under section 57-64-02 for the budget year.
    - e. Reduced for a school district determining its levy limitation under this section, by the amount the school district's mill levy reduction grant under section 57-64-02 for the budget year exceeds the amount of the school district's mill levy reduction grant under section 57-64-02 for the base year.
  4. In addition to any other levy limitation factor under this section, a taxing district may increase its levy in dollars to reflect new or increased mill levies authorized by the legislative assembly or authorized by the electors of the taxing district.

5. Under this section a taxing district may supersede any applicable mill levy limitations otherwise provided by law, or a taxing district may levy up to the mill levy limitations otherwise provided by law without reference to this section, but the provisions of this section do not apply to the following:
  - a. Any irrevocable tax to pay bonded indebtedness levied pursuant to section 16 of article X of the Constitution of North Dakota.
  - b. The one-mill levy for the state medical center authorized by section 10 of article X of the Constitution of North Dakota.
6. A school district choosing to determine its levy authority under this section may apply subsection 3 only to the amount in dollars levied for general fund purposes under section 57-15-14 or, if the levy in the base year included separate general fund and special fund levies under sections 57-15-14 and 57-15-14.2, the school district may apply subsection 3 to the total amount levied in dollars in the base year for both the general fund and special fund accounts. School district levies under any section other than section 57-15-14 may be made within applicable limitations but those levies are not subject to subsection 3.
7. Optional levies under this section may be used by any city or county that has adopted a home rule charter unless the provisions of the charter supersede state laws related to property tax levy limitations.

For this purpose, the rate applicable to each income bracket may not be changed, and the manner of applying the cost-of-living adjustment must be the same as that used for adjusting the income brackets for federal income tax purposes.
- h. The tax commissioner shall prescribe an optional simplified method of computing tax under this section that may be used by an individual taxpayer who is not entitled to claim an adjustment under subsection 2 or credit against income tax liability under subsection 7.

2. The grant to a qualifying school district may not exceed the smallest of:
  - a. The allocation determined under subsection 1;

3. The grant to a qualifying school district may not be less than the grant to that school district in the preceding school year.
4. The grant to a qualifying school district may not exceed the grant to that school district in the preceding school year by a percentage that is more than the percentage increase in statewide taxable valuation which was determined for the previous taxable year.

  - d. The district has authority for a higher levy under subdivision b of subsection 2.
2. The authority under subdivision a or b of subsection 1 for a school district to levy a general fund mill rate exceeding one hundred ten mills applies for not more than ten taxable years at a time after taxable year 2008 unless a majority of the electors of the school district approve an extension of that authority. Approval by electors of extension of levy authority under subdivision a or b of subsection 1 is effective for not more than ten taxable years at a time. A ballot measure for approval by electors of extension of levy authority under subdivision a or b of subsection 1 is subject to the following:
  - a. The ballot measure must specify the number of mills for the general fund mill rate for which approval is sought.
  - b. If a ballot measure for approval of extension of levy authority ~~to levy a specific number of mills under this subsection~~ is not approved by a majority of the electors of the school district voting on the question, the school district general fund levy limitation for subsequent years is subject to the limitations as determined for the school district's budget year under section 57-15-01.1 or 57-15-14, whichever produces the higher levy limitation.

**57-64-04. Levy reduction priority.**

In setting mill rates for qualified school districts, the county auditor shall apply funds allocated to a school district under this chapter for mill levy reduction first to reduce the number of mills levied for general fund purposes and, if allocation funds

remain after the general fund mill rate is reduced to zero, the balance must be applied to reduce the high school tuition levy and, if allocation funds remain after the high school tuition levy mill rate is reduced to zero, then to reduce the high school transportation levy of the qualified school district.

**SECTION 12. REPEAL.** Chapter 57-16 of the North Dakota Century Code is repealed.

**SECTION 1. AMENDMENT.** Section 57-38-01.26 of the North Dakota Century Code is amended and reenacted as follows:

#### **57-38-01.26. Angel fund investment tax credit.**

1. A taxpayer is entitled to a credit against state income tax liability under section 57-38-30 or 57-38-30.3 for an investment made in an angel fund that is ~~incorporated in a domestic organization created under the laws of this state.~~ The amount of the credit to which a taxpayer is entitled is forty-five percent of the amount ~~invested~~ remitted by the taxpayer ~~into~~ an angel fund during the taxable year. The aggregate annual credit for which a taxpayer may obtain a tax credit is not more than forty-five thousand dollars. The aggregate lifetime credits under this section that may be obtained by an individual, married couple, passthrough entity and its affiliates, or other taxpayer is one hundred fifty thousand dollars. The investment used to calculate the credit under this section may not be used to calculate any other income tax deduction or credit allowed by law.
2. To be eligible for the credit, the investment must be at risk in the angel fund for at least three years. Investments placed in escrow do not qualify for the credit. The credit must be claimed in the taxable year in which the investment in the angel fund was received by the angel fund. The credit allowed may not exceed the liability for tax under this chapter. If the amount of credit determined under this section exceeds the liability for tax under this chapter, the excess may be carried forward to each of the ~~four~~ seven succeeding taxable years.   - h. Be in compliance with the securities laws of this state.
  - i. Within thirty days after the date on which an investment in an angel fund is made, the angel fund shall file with the tax commissioner and provide to the investor completed forms prescribed by the tax commissioner which show as to each investment in the angel fund the following:
    - (1) The name, address, and social security number or federal employer identification number of the taxpayer or passthrough entity that made the investment;
    - (2) The dollar amount remitted by the taxpayer or passthrough entity; and

The angel fund may not invest in an enterprise if any one partner, shareholder, or member of a passthrough

entity that directly or indirectly owns more than forty-nine percent of the ownership interests in the enterprise.

- 5-6. Investors in one angel fund may not receive more than five million dollars in aggregate credits under this section during the life of the angel fund but this provision may not be interpreted to limit additional investments in that angel fund.
7. a. A partnership, subchapter S corporation, limited partnership, limited liability company, or any other passthrough entity entitled to the credit under this section must be considered to be the taxpayer for purposes of this section, and the amount of the credit allowed must be determined at the passthrough entity level.
- b. For the first two taxable years beginning after December 31, 2010, if a passthrough entity does not elect to sell, transfer, or assign the credit as provided under this subsection and subsection 8, the amount of the total credit determined at the entity level must be passed through to the partners, shareholders, or members in proportion to their respective interests in the passthrough entity.

A passthrough entity that makes a valid election to sell, transfer, or assign a credit shall sell one hundred percent of the credit earned, may sell the credit to only one purchaser, and shall comply with the requirements of this subsection and subsection 8.
8. For the first two taxable years beginning after December 31, 2010, a taxpayer may elect to sell, transfer, or assign all of the earned or excess tax credit earned under this section for investment in an angel fund established after July 31, 2011, subject to the following:

The cumulative credits transferred by all investors in an angel fund may not exceed fifty percent of the aggregate credits under this section during the life of the angel fund under subsection 6.
- b. If the taxpayer elects to sell, assign, or transfer a credit under this subsection, the tax credit transferor and the tax credit purchaser jointly shall file with the tax commissioner a copy of the purchase agreement and a statement containing the names, addresses, and taxpayer identification numbers of the parties to the transfer, the amount of the credit being transferred, the gross proceeds received by the transferor, and the taxable year or years for which the credit may be claimed. The taxpayer and the purchaser also shall file a document allowing the tax commissioner to disclose tax information to either party for the purpose of verifying the correctness of the transferred tax credit. The purchase agreement, supporting statement, and waiver must be filed within thirty days after the date the purchase agreement is fully executed.

- c. The purchaser of the tax credit shall claim the credit beginning with the taxable year in which the credit purchase agreement was fully executed by the parties. A purchaser of a tax credit under this section has only such rights to claim and use the credit under the terms that would have applied to the tax credit transferor. This subsection does not limit the ability of the tax credit purchaser to reduce the tax liability of the purchaser, regardless of the actual tax liability of the tax credit transferor.
- d. A sale, assignment, or transfer of a tax credit under this section is irrevocable and the purchaser of the tax credit may not sell, assign, or otherwise transfer the credit.
- e. If the amount of the credit available under this section is changed as a result of an amended return filed by the transferor, or as the result of an audit conducted by the internal revenue service or the tax commissioner, the transferor shall report to the purchaser the adjusted credit amount within thirty days of the amended return or within thirty days of the final determination made by the internal revenue service or the tax commissioner. The tax credit purchaser shall file amended returns reporting the additional tax due or claiming a refund as provided in section 57-38-38 or 57-38-40, and the tax commissioner may audit these returns and assess or issue refunds, even though other time periods prescribed in these sections may have expired for the purchaser.
- f. Gross proceeds received by the tax credit transferor must be assigned to North Dakota. The amount assigned under this subsection cannot be reduced by the taxpayer's income apportioned to North Dakota or any North Dakota net operating loss of the taxpayer.
- g. The tax commissioner has four years after the date of the credit assignment to audit the returns of the credit transferor and the purchaser to verify the correctness of the amount of the transferred credit and if necessary assess the credit purchaser if additional tax is found due. This subdivision does not limit or restrict any other time period prescribed in this chapter for the assessment of tax.
- h. The tax commissioner may adopt rules to establish necessary administrative provisions for the credit under this section, including provisions to permit verification of the validity and timeliness of the transferred tax credit.

**SECTION 2. REPORT TO THE LEGISLATIVE MANAGEMENT.** During the 2011-12 and 2013-14 interims, the tax commissioner shall report to the legislative management on the number of in-state and out-of-state investors, amount of investment, and amount of tax credits accrued, claimed, and transferred by each individual angel fund.

The attribution rules of the federal Internal Revenue Code shall apply for purposes of determining whether the ownership requirements of this definition have been met.
- b. An employer that erroneously applies the income tax withholding exception solely as a result of miscalculating the number of days a nonresident employee is present in this state to perform employment duties shall not be subject to the penalty imposed in section 57-38-45 if:
  - (1) The employer relied on the employer's regularly maintained time and attendance system that:
    - (a) Requires the employee to contemporaneously record the employee's daily work location each day the employee is present in a state other than the employee's state of residence; and

- (2) The employer relied on the employee's travel records that the employer requires the employee to regularly maintain and contemporaneously record the employee's travel and daily work location; or
- (3) The employer does not require the records described in paragraph 1 or 2, and relied on travel expense reimbursement records that the employer requires the employee to submit on a regular and contemporaneous basis.
- c. This subsection establishes an exception to income tax withholding and deduction requirements and does not apply to the imposition of, or the state's jurisdiction to impose this, or any other tax on the employer.

The combining of two or more "prewritten computer software" programs or prewritten portions thereof does not cause the combination to be other than "prewritten computer software". "Prewritten computer software" includes software designed and developed by the author or other creator to the specifications of a specific purchaser when it is sold to a person other than the purchaser.

If a person modifies or enhances "computer software" of which the person is not the author or creator, the person is deemed to be the author or creator only of such person's modifications or enhancements. If a certificate is not received before the purchase, the owner shall pay the applicable tax imposed by this chapter and apply to the tax commissioner for a refund.

If a certificate is not received before the purchase, the owner shall pay the applicable tax imposed by this chapter and apply to the tax commissioner for a refund.
3. If the tangible personal property is purchased or installed by a contractor subject to the tax imposed by this chapter, the owner of the oil refinery may apply for a refund of the difference between the amount remitted by the contractor and the exemption imposed or allowed under this section. Application for a refund must be made at the times and in the manner directed by the tax commissioner and must include sufficient information to permit the tax commissioner to verify the sales and use taxes paid and the exempt status of the sale or use.

2. The provisions of this chapter pertaining to the administration of the tax imposed by section 57-40.2-02.1, not in conflict with the provisions of this section, govern the administration of the tax levied by this section.
3. The tax imposed by this section does not apply to medical equipment purchased as tangible personal property by a hospital or by a long-term care facility as defined in section 50-10.1-01 and subsequently installed by a contractor into such hospital or facility.

#### BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

**SECTION 1. AMENDMENT.** Subsection 2 of section 11-09.1-05 of the North Dakota Century Code is amended and reenacted as follows:

2. Control its finances and fiscal affairs; appropriate money for its purposes, and make payments of its debts and expenses; subject to the limitations of this section levy and collect property taxes, sales and use taxes, farm machinery gross receipts taxes, alcoholic beverage gross receipts taxes, motor vehicle fuels and special fuels taxes, motor vehicle registration fees, and special assessments for benefits conferred, for its public and proprietary functions, activities, operations, undertakings, and improvements; contract debts, borrow money, issue bonds, warrants, and other evidences of indebtedness; establish charges for any county or other services to the extent authorized by state law; and establish debt and mill levy limitations. Notwithstanding any authority granted under this chapter, all property must be assessed in a uniform manner as prescribed by the state board of equalization and the state supervisor of assessments and all taxable property must be taxed by the county at the same rate unless otherwise provided by law. A charter or ordinance or act of a governing body of a home rule county may not supersede any state law that determines what property or acts are subject to, or exempt from, ad valorem taxes. A charter or ordinance or act of the governing body of a home rule county may not supersede section 11-11-55.1 relating to the sixty percent petition requirement for improvements and of section 40-22-18 relating to the barring proceeding for improvement projects. After December 31, 2005, sales and use taxes, farm machinery gross receipts taxes, and alcoholic beverage gross receipts taxes levied under this chapter:
  - a. Must conform in all respects with regard to the taxable or exempt status of items under chapters 57-39.2, 57-39.5, 57-39.6, and 57-40.2 and may not be imposed at multiple rates with the exception of sales of fuel used to power motor vehicles, aircraft, locomotives, or watercraft, or to electricity, piped natural or artificial gas, or other heating fuels delivered by the seller

- or the retail sale or transfer of motor vehicles, aircraft, watercraft, modular homes, manufactured homes, or mobile homes.
- b.   - c. May not be limited to apply to less than the full value of the transaction or item as determined for state sales and use tax, except for farm machinery gross receipts tax purposes.
  - d. Must be subject to collection by the tax commissioner under an agreement under section 57-01-02.1 and must be administered by the tax commissioner in accordance with the relevant provisions of chapter 57-39.2, including reporting and paying requirements, correction of errors, payment of refunds, and application of penalty and interest.

After December 31, 2005, any portion of a charter or any portion of an ordinance or act of a governing body of a home rule county passed pursuant to a charter which does not conform to the requirements of this subsection is invalid to the extent that it does not conform. The invalidity of a portion of a charter or ordinance or act of a governing body of a home rule county because it does not conform to this subsection does not affect the validity of any other portion of the charter or ordinance or act of a governing body of a home rule county or the eligibility for a refund under section 57-01-02.1. Any taxes imposed under this chapter on farm machinery, farm irrigation equipment, and farm machinery repair parts used exclusively for agricultural purposes, or on alcoholic beverages, which were in effect on December 31, 2005, become gross receipts taxes after December 31, 2005.

**SECTION 2. AMENDMENT.** Subsection 16 of section 40-05.1-06 of the North Dakota Century Code is amended and reenacted as follows:

  - b. May not be newly imposed or changed except to be effective on the first day of a calendar quarterly period after a minimum of ninety days' notice to the tax commissioner or, for purchases from printed catalogs, on the first day of a calendar quarter after a minimum of one hundred twenty days' notice to the seller.

- c. May not be limited to apply to less than the full value of the transaction or item as determined for state sales and use tax purposes, except for farm machinery gross receipts tax.
- d. Must be subject to collection by the tax commissioner under an agreement under section 57-01-02.1 and must be administered by the tax commissioner in accordance with the relevant provisions of chapter 57-39.2, including reporting and paying requirements, correction of errors, payment of refunds, and application of penalty and interest.

"Prewritten computer software" or a prewritten portion thereof that is modified or enhanced to any degree, if such modification or enhancement is designed and developed to the specifications of a specific purchaser, remains "prewritten computer software". However, if there is a reasonable, separately stated charge or an invoice or other statement of the price given to the purchaser for such modification or enhancement, such modification or enhancement shall not constitute "prewritten computer software".

- ~~5-6.~~ A seller may cancel its registration under the system at any time under uniform procedures adopted by the governing board. Cancellation does not relieve the seller of its liability for remitting to the proper states any taxes collected.
7. Nothing in this section shall be construed to relieve a seller of any legal obligation it may have under a state's laws to register in that state or its obligation to collect and remit taxes for at least thirty-six months in a state and meet all other requirements for amnesty set out in section 402 of the agreement in order to be eligible for amnesty in the state.
8. Whenever a state joins the agreement, sellers registered under the agreement shall be registered in the new state as follows:
  - a. Model 1 sellers will be automatically registered in such state.
  - b. Model 2, model 3, and model 4 sellers will be automatically registered in the new state but may elect to be registered as a seller which anticipates making no sales into the new state.

Member states may provide information to sellers concerning other tax return filing options in that state.
10. The governing board shall cause the system for registering under the agreement to include a feature that allows sellers registered under the agreement to update relevant registration data in the system and have such updated data provided to all member states. 1. Each member state shall agree to require sellers to source the retail sale of a product in accordance with section 57-39.4-11 ~~or 57-39.4-11.1. The~~ Except as provided in section 57-39.4-11.1, the provisions of section 57-39.4-11 apply to all sales regardless of the characterization of a product as tangible personal property, a digital good, or a service. ~~The~~ Except as otherwise provided in the agreement, the provisions of section ~~sections~~ 57-39.4-11 and 57-39.4-11.1 only apply to determine a seller's obligation to pay or collect and remit a sales or use tax with respect to the seller's retail sale of a product. These provisions do not affect the obligation of a purchaser or lessee to remit tax on the use of the product to the taxing jurisdictions of that use.
2. ~~Section~~ Sections 57-39.4-11 ~~does~~ and 57-39.4-11.1 do not apply to sales or use taxes levied on the following:

- e. The retail sale of products and services qualifying as direct mail must be sourced in accordance with section 57-39.4-14.

**SECTION 10. AMENDMENT.** Section 57-39.4-11.1 of the North Dakota Century Code is amended and reenacted as follows:

**57-39.4-11.1. (310.1) Election for origin-based sourcing.**

1. A member state that has local jurisdictions that levy or receive sales or use taxes may elect to source the retail sale of tangible personal property and digital goods under the provisions of this section in lieu of the provisions of subdivisions b, c, and d of subsection 1 of section 57-39.4-11 if the state complies with subsection 3 of this section and the only exception to section 57-39.4-11 is in subsection 2 of this section.
2. A member state may source retail sales, excluding lease or rental, of tangible personal property or digital goods to the location where the order is received by the seller if:
  - a. The order is received in the same state by the seller where receipt of the product by the purchaser or the purchaser's designated donee occurs;
  - b. The location where receipt of the product by the purchaser occurs is determined under subdivisions b, c, and d of subsection 1 of section 57-39.4-11; and
  - c. At the time the order is received, the recordkeeping system of the seller used to calculate the proper amount of sales or use tax to be imposed captures the location where the order is received.
3. A member state electing to source sales under this section shall comply with all of the following:
  - a. When the location where the order is received by the seller and the location where the receipt of the product by the purchaser or the purchaser's designated donee occurs as determined under subdivisions b, c, and d of subsection 1 of section 57-39.4-11 are in different states, the sale must be sourced under the provisions of section 57-39.4-11.
  - b. When the productsale is sourced under this section to the location where the order is received by the seller, only the sales tax for the location where the order is received by the seller may be levied. No additional sales or use tax based on the location where the product is delivered to the purchaser may be levied on that sale. The purchaser shall not be entitled to any refund if the combined state and local rate at the location where the product is received by the purchaser is lower than the rate where the order is received by the seller.
  - c. A member state may not require a seller to use a recordkeeping system that captures the location where the order is received to calculate the proper amount of sales or use tax to be imposed.
  - d. A purchaser shall not have an additional liability to the state for tax, penalty, or interest on a sale for which the purchaser remits tax to the seller in the amount invoiced by the seller if the invoice amount is calculated at either the rate applicable to the location where receipt by the

- purchaser occurs or at the rate applicable to the location where the order is received by the seller. A purchaser may rely on a written representation by the seller as to the location where the order for the sale was received by the seller. When the purchaser does not have a written representation by the seller as to the location where the order for the sale was received by the seller, the purchaser may use the seller's business address that is available from the purchaser's business records maintained in the ordinary course of the purchaser's business to determine the rate applicable to the location where the order was received.
- e. The location where the order is received by or on behalf of the seller means the physical location of a seller or third party such as an established outlet, office location, or automated order receipt system operated by or on behalf of the seller, where an order is initially received by or on behalf of the seller and not where the order may be subsequently accepted, completed, or fulfilled. An order is received when all of the information from the purchaser necessary to determine whether the order can be accepted has been received by or on behalf of the seller. The location from which a product is shipped must not be used in determining the location where the order is received by the seller.
- f. A member state must provide for direct pay permits under section 57-39.4-27 and the requirements of this subsection. Purchasers that remit sales and use tax under a direct pay permit shall remit tax at the rate in effect for the location where receipt of the product by the purchaser occurs or the product is first used as determined by state law. A member state may establish reasonable thresholds at which the member state will consider direct pay applications, provided the threshold must be based upon purchases with no distinction between taxable and nontaxable purchases. The member state shall establish a process for application for a direct pay permit as provided in this chapter. The member state may require the direct pay permit applicant to demonstrate:
- (1) An ability to comply with the sales and use tax laws of the state;
  - (2) A business purpose for seeking a direct pay permit and how the permit will benefit tax compliance; and
  - (3) Proof of good standing under the tax laws of the state. The member state shall review all permit applications in a timely manner. The member state may not limit direct pay permit applicants to businesses engaged in manufacturing or businesses that do not know the ultimate use of the product at the time of the purchase.
- g. When taxable services are sold with tangible personal property or digital products under a single contract or in the same transaction, are billed on the same billing statement, and because of the application of this section, would be sourced to different jurisdictions, a member state shall elect either origin sourcing or destination sourcing to determine a single situs for that transaction. The member state election is required until the governing board adopts a uniform methodology to address these sales.

- h. A member state that elects to source the sale of tangible personal property and digital goods under the provisions of this section shall inform the governing board of the election.
4. Compliance with the provisions of this section satisfies a state's eligibility for membership in this agreement as follows:
- a. If a state is in substantial compliance with the provisions of this agreement other than sourcing of sales of tangible personal property and digital goods as provided in section 57-39.4-11, and elects to source sales of tangible personal property and digital goods under this section, the state may become an associate member state in the same manner as provided for states to become full member states under article VIII of the agreement.
  - b. ~~On or after January 1, 2010, a~~ state that becomes an associate member state under this subsection shall automatically become a full member state, provided that at least five states which are not full member states on December 31, 2007, are determined to be in substantial compliance with the provisions of the agreement other than sourcing sales of tangible personal property and digital goods under section 57-39.4-11, and the state has notified the governing board of an election under subdivision h of subsection 3 ~~of this section~~ to source sales under this section and has been found to be in substantial compliance with the provisions of this section.
  - c. ~~This section shall be fully effective for all purposes on or after January 1, 2010, provided at least five states which are not full member states on December 31, 2007, have been found to be in substantial compliance with the provisions of the agreement other than sourcing sales of tangible personal property and digital goods under section 57-39.4-11 and have notified the governing board of an election under subdivision h of subsection 3 of this section to source sales under this section and have been found to be in substantial compliance with the provisions of this section. The state must establish that the seller had knowledge or had reason to know at the time the information was provided that the information was materially false.

- ~~a. Upon registration, a member state shall provide to the seller the returns required by that state.~~
- ~~b. A member state may require a seller to file a return any time within one year of the month of initial registration and future returns may be required on an annual basis in succeeding years.~~
- ~~c. In addition to the returns required in subdivision b, a member state may require sellers to submit returns in the month following any month in which they have accumulated state and local tax funds for the state in the amount of one thousand dollars or more.~~
- ~~d. Participate with other member states in developing a more uniform sales and use tax return that, when completed, would be available to all sellers.~~

A seller shall lose this exemption upon~~

making any taxable sales into the state and shall file a return in the month following the sale. A state may, but is not required to, allow a seller to regain such filing exemption upon such terms and conditions as the state may impose.

5. Adopt a standardized transmission process to allow for receipt of uniform tax returns and other formatted information as approved by the governing board. The process must provide for the filing of separate returns for multiple legal entities in a single transmission for each state and will not include any requirement for manual entry or input by the seller of any of the aforementioned information. This process will allow a certified service provider, tax preparer, or any other authorized person to file returns for more than one seller in a single electronic transmission. However, sellers filing returns for multiple legal entities may only do so for affiliated legal entities.
6. Give notice to a seller registered under this agreement which has no legal requirement to register in the state, of a failure to file a required return and a minimum of thirty days to file thereafter prior to establishing a liability amount for taxes based solely on the seller's failure to timely file a return provided a member state may establish a liability amount for taxes based solely on the seller's failure to timely file a return if such seller has a history of nonfiling or late filing.
7. Nothing in this section shall prohibit a state from allowing additional return options or the filing of returns less frequently.

**SECTION 15. AMENDMENT.** Section 57-39.4-20 of the North Dakota Century Code is amended and reenacted as follows:

**57-39.4-20. (319) Uniform rules for remittance of funds.**

Each member state shall:

1. Require only one remittance for each return except as provided in this subsection. If any additional remittance is required, it may only be required from sellers that collect more than thirty thousand dollars in sales and use taxes in the member state during the preceding calendar year as provided ~~herein in the agreement~~. The state shall allow the amount of any additional remittance to be determined through a calculation method rather than actual collections. Any additional remittances shall not require the filing of an additional return.

- b. Additionally, if the federal reserve bank is closed on a due date that prohibits a person from being able to make a payment by automated clearinghouse debit or credit, that payment shall be accepted as timely if made on the next day the federal reserve bank is open.
6. Require that any data that accompanies a remittance be formatted using uniform tax type and payment type codes approved by the governing board.
7. Adopt a standardized transmission process approved by the governing board that allows for the remittance in a SER of a single bulk payment for taxes reported on multiple SERs by affiliated entities, certified service providers, or preparers. Each state shall comply with this provision no later than two years after the governing board approves such a standardized transmission process.

### SENATE BILL NO. 2246

(Senators Olafson, Lyson)  
(Representatives Frantsvog, Kreun)

AN ACT to amend and reenact section 57-40.6-02 of the North Dakota Century Code, relating to fees imposed for emergency services communications.

#### BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

**SECTION 1. AMENDMENT.** Section 57-40.6-02 of the North Dakota Century Code is amended and reenacted as follows:

#### **57-40.6-02. (Effective through June 30, 2012) Authority of counties or cities to impose fee on assessed communications service - Procedure.**

The governing body of a county or city may impose a fee on all assessed communications services in accordance with the following requirements:

1. The governing body shall adopt a resolution that proposes the adoption of the fee permitted under this section. The resolution must specify an effective date for the fee which is no more than two years before the expected implementation date of the emergency services communication system to be funded by the fee. The resolution must include a provision for submitting the proposed fee to the electors of the county or city before the imposition of the fee is effective. The resolution must specify a fee that does not exceed one dollar per month per communication connection and must be applied equally upon all assessed communications services.
2. The question of the adoption of the fee must be submitted on a petition on which the petition title of the proposition includes the maximum monthly rate of the proposed fee authorized under subsection 1. The question of the adoption of the fee may be submitted to electors at a general, primary, or special election or at a school district election if the boundaries of the school district are coterminous with the boundaries of the governing body adopting the resolution proposing the adoption of the fee. The fee is not effective unless it is approved by a majority of the electors voting on the proposition. The ballot must be worded so that a "yes" vote authorizes imposition of the fee for an initial six-year period.
3. If the electors have approved imposition of a fee under this section before July 1, 2005, and the governing body of the city or county has not implemented that fee by June 30, 2005, the approval by the electors remains valid until the fee is implemented and, upon implementation, the fee may be imposed for a six-year period and is subject to reimposition under subsection 4.
4. Any political subdivision that desires to increase the fee, subject to the limitations in subsection 1, before the end of the six-year term, must use the same ballot procedure originally used to authorize the fee. The new ballot question may apply to only the proposed increase and not to the original

amount or the original term. If the increase is approved, the new amount may be collected for the balance of the original six-year term. If the fee authorized by this section is approved by the electors, the fee may be reimposed for six additional years without resubmitting the question to the electors.

5. In any geographic area, only one political subdivision may impose the fee and imposition must be based on the subscriber service address.
6. In the interest of public safety, where the subscriber's telephone exchange access service boundary and the boundary of the political subdivision imposing the fee do not coincide, and where all of the political subdivisions within the subscriber's telephone exchange access service boundary have not complied with subsection 1, and where a majority of the E911 subscribers within the subscriber's telephone exchange access service boundary have voted for the fee, a telephone exchange access service subscriber whose subscriber service address is outside the political subdivision may receive E911 services by signing a contract agreement with the political subdivision providing the emergency services communication system. The telephone exchange access service provider may collect an additional fee, equal in amount to the basic fee on those subscribers within the exchange boundary. The additional fee amounts collected must be remitted as provided in this chapter.
7. A fee imposed under this section before August 1, 2007, on telephone exchange access service is extended to all assessed communications services and remains in effect until changed under this section.
8. Political subdivisions within an intrastate multicounty public safety answering point may exceed the maximum fee of one dollar to an amount not to exceed one dollar and fifty cents. The governing body of the political subdivision may increase the fee by resolution subject to a vote in that political subdivision at the next general election.

**(Effective after June 30, 2012) Authority of counties or cities to impose fee on assessed communications service - Procedure.** The governing body of a county or city may impose a fee on all assessed communications services in accordance with the following requirements:

1. The governing body shall adopt a resolution that proposes the adoption of the fee permitted under this section. The resolution must specify an effective date for the fee which is no more than two years before the expected implementation date of the emergency services communication system to be funded by the fee. The resolution must include a provision for submitting the proposed fee to the electors of the county or city before the imposition of the fee is effective. The resolution must specify a fee that does not exceed one dollar and fifty cents per month per communication connection and must be applied equally upon all assessed communications services.
2. The question of the adoption of the fee must be submitted on a petition on which the petition title of the proposition includes the maximum monthly rate of the proposed fee authorized under subsection 1. The question of the adoption of the fee may be submitted to electors at a general, primary, or special election or at a school district election if the boundaries of the school district are coterminous with the boundaries of the governing body adopting the resolution proposing the adoption of the fee. The fee is not effective unless it is approved by a majority of the electors voting on the proposition. The ballot

must be worded so that a "yes" vote authorizes imposition of the fee ~~for an initial six year period.~~

- ~~3.~~ If the electors have approved imposition of a fee under this section before July 1, 2005, and the governing body of the city or county has not implemented that fee by June 30, 2005, the approval by the electors remains valid until the fee is implemented and, upon implementation, the fee may be imposed for a six year period and is subject to reimposition under subsection 4.
- ~~4.~~ Any political subdivision that desires to increase the fee, subject to the limitations in subsection 1, before the end of the six year term, must use the same ballot procedure originally used to authorize the fee. The new ballot question may apply to only the proposed increase and not to the original amount or the original term. If the increase is approved, the new amount may be collected for the balance of the original six year term. If the fee authorized by this section is approved by the electors, the fee may be reimposed for six additional years without resubmitting the question to the electors. Once established by this section, the maximum fee may be increased, decreased, or eliminated by a majority vote of the electors. The question may be placed on the ballot of any general, primary, or special election by a resolution of the governing body, or by a petition signed by ten percent or more of the total number of qualified electors of the political subdivision voting for governor at the most recent gubernatorial election and submitted to the governing body. By action of the governing body, the fee amount collected may be adjusted, subject to the maximum approved by the voters, to meet the costs allowed by this chapter.
- ~~5.4.~~ In any geographic area, only one political subdivision may impose the fee and imposition must be based on the subscriber service address.
- ~~6.5.~~ In the interest of public safety, where the subscriber's telephone exchange access service boundary and the boundary of the political subdivision imposing the fee do not coincide, and where all of the political subdivisions within the subscriber's telephone exchange access service boundary have not complied with subsection 1, and where a majority of the E911 subscribers within the subscriber's telephone exchange access service boundary have voted for the fee, a telephone exchange access service subscriber whose subscriber service address is outside the political subdivision may receive E911 services by signing a contract agreement with the political subdivision providing the emergency services communication system. The telephone exchange access service provider may collect an additional fee, equal in amount to the basic fee on those subscribers within the exchange boundary. The additional fee amounts collected must be remitted as provided in this chapter.
- ~~7.6.~~ A fee imposed under this section before August 1, 2007, on telephone exchange access service is extended to all assessed communications services and will remain in effect until changed pursuant to subsection 3.

### HOUSE BILL NO. 1467

(Representatives Kempenich, Thoreson, S. Meyer, Onstad)  
(Senators Schaible, Wardner)

AN ACT to amend and reenact section 57-51.1-03 of the North Dakota Century Code, relating to a triggered oil extraction tax rate reduction; to provide an effective date; and to provide an expiration date.

#### BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

**SECTION 1. AMENDMENT.** Section 57-51.1-03 of the North Dakota Century Code is amended and reenacted as follows:

**57-51.1-03. (Effective through June 30, ~~2012~~2013) Exemptions from oil extraction tax.**

The following activities are specifically exempted from the oil extraction tax:

1. The activity of extracting from the earth any oil that is exempt from the gross production tax imposed by chapter 57-51.
2. The activity of extracting from the earth any oil from a stripper well property.
3. For a well drilled and completed as a vertical well, the initial production of oil from the well is exempt from any taxes imposed under this chapter for a period of fifteen months, except that oil produced from any well drilled and completed as a horizontal well is exempt from any taxes imposed under this chapter for a period of twenty-four months. Oil recovered during testing prior to well completion is exempt from the oil extraction tax. The exemption under this subsection becomes ineffective if the average price of a barrel of crude oil exceeds the trigger price for each month in any consecutive five-month period. However, the exemption is reinstated if, after the trigger provision becomes effective, the average price of a barrel of crude oil is less than the trigger price for each month in any consecutive five-month period.
4. The production of oil from a qualifying well that was worked over is exempt from any taxes imposed under this chapter for a period of twelve months, beginning with the first day of the third calendar month after the completion of the work-over project. The exemption provided by this subsection is only effective if the well operator establishes to the satisfaction of the industrial commission upon completion of the project that the cost of the project exceeded sixty-five thousand dollars or production is increased at least fifty percent during the first two months after completion of the project. A qualifying well under this subsection is a well with an average daily production of no more than fifty barrels of oil during the latest six calendar months of continuous production. A work-over project under this subsection means the continuous employment of a work-over rig, including recompletions and reentries. The exemption provided by this subsection becomes ineffective if the average price of a barrel of crude oil exceeds the trigger price for each month in any consecutive five-month period. However, the exemption is

reinstated if, after the trigger provision becomes effective, the average price of a barrel of crude oil is less than the trigger price for each month in any consecutive five-month period.

5. a. The incremental production from a secondary recovery project which has been certified as a qualified project by the industrial commission after July 1, 1991, is exempt from any taxes imposed under this chapter for a period of five years from the date the incremental production begins.
- b. The incremental production from a tertiary recovery project that does not use carbon dioxide and which has been certified as a qualified project by the industrial commission is exempt from any taxes imposed under this chapter for a period of ten years from the date the incremental production begins. Incremental production from a tertiary recovery project that uses carbon dioxide and which has been certified as a qualified project by the industrial commission is exempt from any taxes imposed under this chapter from the date the incremental production begins.
- c. For purposes of this subsection, incremental production is defined in the following manner:
  - (1) For purposes of determining the exemption provided for in subdivision a and with respect to a unit where there has not been a secondary recovery project, incremental production means the difference between the total amount of oil produced from the unit during the secondary recovery project and the amount of primary production from the unit. For purposes of this paragraph, primary production means the amount of oil which would have been produced from the unit if the secondary recovery project had not been commenced. The industrial commission shall determine the amount of primary production in a manner which conforms to the practice and procedure used by the commission at the time the project is certified.
  - (2) For purposes of determining the exemption provided for in subdivision a and with respect to a unit where a secondary recovery project was in existence prior to July 1, 1991, and where the industrial commission cannot establish an accurate production decline curve, incremental production means the difference between the total amount of oil produced from the unit during a new secondary recovery project and the amount of production which would be equivalent to the average monthly production from the unit during the most recent twelve months of normal production reduced by a production decline rate of ten percent for each year. The industrial commission shall determine the average monthly production from the unit during the most recent twelve months of normal production and must upon request or upon its own motion hold a hearing to make this determination. For purposes of this paragraph, when determining the most recent twelve months of normal production the industrial commission is not required to use twelve consecutive months. In addition, the production decline rate of ten percent must be applied from the last month in the twelve-month period of time.
  - (3) For purposes of determining the exemption provided for in subdivision a and with respect to a unit where a secondary recovery project was in existence before July 1, 1991, and where the industrial

commission can establish an accurate production decline curve, incremental production means the difference between the total amount of oil produced from the unit during the new secondary recovery project and the total amount of oil that would have been produced from the unit if the new secondary recovery project had not been commenced. For purposes of this paragraph, the total amount of oil that would have been produced from the unit if the new secondary recovery project had not been commenced includes both primary production and production that occurred as a result of the secondary recovery project that was in existence before July 1, 1991. The industrial commission shall determine the amount of oil that would have been produced from the unit if the new secondary recovery project had not been commenced in a manner that conforms to the practice and procedure used by the commission at the time the new secondary recovery project is certified.

- (4) For purposes of determining the exemption provided for in subdivision b and with respect to a unit where there has not been a secondary recovery project, incremental production means the difference between the total amount of oil produced from the unit during the tertiary recovery project and the amount of primary production from the unit. For purposes of this paragraph, primary production means the amount of oil which would have been produced from the unit if the tertiary recovery project had not been commenced. The industrial commission shall determine the amount of primary production in a manner which conforms to the practice and procedure used by the commission at the time the project is certified.
- (5) For purposes of determining the exemption provided for in subdivision b and with respect to a unit where there is or has been a secondary recovery project, incremental production means the difference between the total amount of oil produced during the tertiary recovery project and the amount of production which would be equivalent to the average monthly production from the unit during the most recent twelve months of normal production reduced by a production decline rate of ten percent for each year. The industrial commission shall determine the average monthly production from the unit during the most recent twelve months of normal production and must upon request or upon its own motion hold a hearing to make this determination. For purposes of this paragraph, when determining the most recent twelve months of normal production the industrial commission is not required to use twelve consecutive months. In addition, the production decline rate of ten percent must be applied from the last month in the twelve-month period of time.
- (6) For purposes of determining the exemption provided for in subdivision b and with respect to a unit where there is or has been a secondary recovery project and where the industrial commission can establish an accurate production decline curve, incremental production means the difference between the total amount of oil produced from the unit during the tertiary recovery project and the total amount of oil that would have been produced from the unit if the tertiary recovery project had not been commenced. For purposes of this paragraph, the total amount of oil that would have been produced from the unit if the tertiary recovery project had not been commenced includes both

primary production and production that occurred as a result of any secondary recovery project. The industrial commission shall determine the amount of oil that would have been produced from the unit if the tertiary recovery project had not been commenced in a manner that conforms to the practice and procedure used by the commission at the time the tertiary recovery project is certified.

- d. The industrial commission shall adopt rules relating to this exemption that must include procedures for determining incremental production as defined in subdivision c.
6. The production of oil from a two-year inactive well, as determined by the industrial commission and certified to the state tax commissioner, for a period of ten years after the date of receipt of the certification. The exemption under this subsection becomes ineffective if the average price of a barrel of crude oil exceeds the trigger price for each month in any consecutive five-month period. However, the exemption is reinstated if, after the trigger provision becomes effective, the average price of a barrel of crude oil is less than the trigger price for each month in any consecutive five-month period.
7. The production of oil from a horizontal reentry well, as determined by the industrial commission and certified to the state tax commissioner, for a period of nine months after the date the well is completed as a horizontal well. The exemption under this subsection becomes ineffective if the average price of a barrel of crude oil exceeds the trigger price for each month in any consecutive five-month period. However, the exemption is reinstated if, after the trigger provision becomes effective, the average price of a barrel of crude oil is less than the trigger price for each month in any consecutive five-month period.
8. The initial production of oil from a well is exempt from any taxes imposed under this chapter for a period of sixty months if:
  - a. The well is located within the boundaries of an Indian reservation;
  - b. The well is drilled and completed on lands held in trust by the United States for an Indian tribe or individual Indian; or
  - c. The well is drilled and completed on lands held by an Indian tribe if the interest is in existence on August 1, 1997.
9. The first seventy-five thousand barrels or the first four million five hundred thousand dollars of gross value at the well, whichever is less, of oil produced during the first eighteen months after completion, from a horizontal well drilled and completed after April 30, 2009, is subject to a reduced tax rate of two percent of the gross value at the well of the oil extracted under this chapter. A well eligible for a reduced tax rate under this subsection is eligible for the exemption for horizontal wells under subsection 3, if the exemption under subsection 3 is effective during all or part of the first twenty-four months after completion. The rate reduction under this subsection becomes effective on the first day of the month following a month for which the average price of a barrel of crude oil is less than fifty-five dollars. The rate reduction under this subsection becomes ineffective on the first day of the month following a month in which the average price of a barrel of crude oil exceeds seventy dollars. If the rate reduction under this subsection is effective on the date of completion of a well, the rate reduction applies to production from that well for up to

eighteen months after completion, subject to the other limitations of this subsection. If the rate reduction under this subsection is ineffective on the date of completion of a well, the rate reduction under this subsection does not apply to production from that well at any time.

**(Effective after June 30, 2012)** Exemptions from oil extraction tax. The following activities are specifically exempted from the oil extraction tax:

1. The activity of extracting from the earth any oil that is exempt from the gross production tax imposed by chapter 57-51.
2. The activity of extracting from the earth any oil from a stripper well property.
3. For a well drilled and completed as a vertical well, the initial production of oil from the well is exempt from any taxes imposed under this chapter for a period of fifteen months, except that oil produced from any well drilled and completed as a horizontal well is exempt from any taxes imposed under this chapter for a period of twenty-four months. Oil recovered during testing prior to well completion is exempt from the oil extraction tax. The exemption under this subsection becomes ineffective if the average price of a barrel of crude oil exceeds the trigger price for each month in any consecutive five-month period. However, the exemption is reinstated if, after the trigger provision becomes effective, the average price of a barrel of crude oil is less than the trigger price for each month in any consecutive five-month period.
4. The production of oil from a qualifying well that was worked over is exempt from any taxes imposed under this chapter for a period of twelve months, beginning with the first day of the third calendar month after the completion of the work-over project. The exemption provided by this subsection is only effective if the well operator establishes to the satisfaction of the industrial commission upon completion of the project that the cost of the project exceeded sixty-five thousand dollars or production is increased at least fifty percent during the first two months after completion of the project. A qualifying well under this subsection is a well with an average daily production of no more than fifty barrels of oil during the latest six calendar months of continuous production. A work-over project under this subsection means the continuous employment of a work-over rig, including recompletions and reentries. The exemption provided by this subsection becomes ineffective if the average price of a barrel of crude oil exceeds the trigger price for each month in any consecutive five-month period. However, the exemption is reinstated if, after the trigger provision becomes effective, the average price of a barrel of crude oil is less than the trigger price for each month in any consecutive five-month period.
5.
  - a. The incremental production from a secondary recovery project which has been certified as a qualified project by the industrial commission after July 1, 1991, is exempt from any taxes imposed under this chapter for a period of five years from the date the incremental production begins.
  - b. The incremental production from a tertiary recovery project that does not use carbon dioxide and which has been certified as a qualified project by the industrial commission is exempt from any taxes imposed under this chapter for a period of ten years from the date the incremental production begins. Incremental production from a tertiary recovery project that uses carbon dioxide and which has been certified as a qualified project by the

industrial commission is exempt from any taxes imposed under this chapter from the date the incremental production begins.

- c. For purposes of this subsection, incremental production is defined in the following manner:
- (1) For purposes of determining the exemption provided for in subdivision a and with respect to a unit where there has not been a secondary recovery project, incremental production means the difference between the total amount of oil produced from the unit during the secondary recovery project and the amount of primary production from the unit. For purposes of this paragraph, primary production means the amount of oil which would have been produced from the unit if the secondary recovery project had not been commenced. The industrial commission shall determine the amount of primary production in a manner which conforms to the practice and procedure used by the commission at the time the project is certified.
  - (2) For purposes of determining the exemption provided for in subdivision a and with respect to a unit where a secondary recovery project was in existence prior to July 1, 1991, and where the industrial commission cannot establish an accurate production decline curve, incremental production means the difference between the total amount of oil produced from the unit during a new secondary recovery project and the amount of production which would be equivalent to the average monthly production from the unit during the most recent twelve months of normal production reduced by a production decline rate of ten percent for each year. The industrial commission shall determine the average monthly production from the unit during the most recent twelve months of normal production and must upon request or upon its own motion hold a hearing to make this determination. For purposes of this paragraph, when determining the most recent twelve months of normal production the industrial commission is not required to use twelve consecutive months. In addition, the production decline rate of ten percent must be applied from the last month in the twelve-month period of time.
  - (3) For purposes of determining the exemption provided for in subdivision a and with respect to a unit where a secondary recovery project was in existence before July 1, 1991, and where the industrial commission can establish an accurate production decline curve, incremental production means the difference between the total amount of oil produced from the unit during the new secondary recovery project and the total amount of oil that would have been produced from the unit if the new secondary recovery project had not been commenced. For purposes of this paragraph, the total amount of oil that would have been produced from the unit if the new secondary recovery project had not been commenced includes both primary production and production that occurred as a result of the secondary recovery project that was in existence before July 1, 1991. The industrial commission shall determine the amount of oil that would have been produced from the unit if the new secondary recovery project had not been commenced in a manner that conforms to the practice and procedure used by the commission at the time the new secondary recovery project is certified.

- (4) For purposes of determining the exemption provided for in subdivision b and with respect to a unit where there has not been a secondary recovery project, incremental production means the difference between the total amount of oil produced from the unit during the tertiary recovery project and the amount of primary production from the unit. For purposes of this paragraph, primary production means the amount of oil which would have been produced from the unit if the tertiary recovery project had not been commenced. The industrial commission shall determine the amount of primary production in a manner which conforms to the practice and procedure used by the commission at the time the project is certified.
  - (5) For purposes of determining the exemption provided for in subdivision b and with respect to a unit where there is or has been a secondary recovery project, incremental production means the difference between the total amount of oil produced during the tertiary recovery project and the amount of production which would be equivalent to the average monthly production from the unit during the most recent twelve months of normal production reduced by a production decline rate of ten percent for each year. For purposes of this paragraph, the total amount of oil that would have been produced from the unit if the tertiary recovery project had not been commenced includes both primary production and production that occurred as a result of any secondary recovery project. The industrial commission shall determine the amount of oil that would have been produced from the unit if the tertiary recovery project had not been commenced in a manner that conforms to the practice and procedure used by the commission at the time the tertiary recovery project is certified.
- d. The industrial commission shall adopt rules relating to this exemption that must include procedures for determining incremental production as defined in subdivision c.
6. The production of oil from a two-year inactive well, as determined by the industrial commission and certified to the state tax commissioner, for a period of ten years after the date of receipt of the certification. The exemption under this subsection becomes ineffective if the average price of a barrel of crude oil exceeds the trigger price for each month in any consecutive five-month period.

However, the exemption is reinstated if, after the trigger provision becomes effective, the average price of a barrel of crude oil is less than the trigger price for each month in any consecutive five-month period.

A well eligible for a reduced tax rate under this subsection is eligible for the exemption for horizontal wells under subsection 3, if the exemption under subsection 3 is effective during all or part of the first twenty-four months after completion.

### SENATE BILL NO. 2129

(Senators Bowman, Lyson, Wardner, Warner)  
(Representatives S. Meyer, Sukut)

AN ACT to amend and reenact sections 57-51-15 and 57-51.1-07 of the North Dakota Century Code, relating to legacy fund deposits of oil and gas tax collections and holding political subdivisions harmless against related allocation reductions; and to provide an effective date.

#### BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

<sup>176</sup> **SECTION 1. AMENDMENT.** Section 57-51-15 of the North Dakota Century Code is amended and reenacted as follows:

**57-51-15. Apportionment and use of proceeds of Gross production tax allocation.**

The gross production tax ~~provided for in this chapter~~ must be ~~apportioned~~allocated monthly as follows:

1. First the tax revenue collected under this chapter equal to one percent of the gross value at the well of the oil and one-fifth of the tax on gas must be deposited with the state treasurer who shall:
  - a. ~~Credit thirty-three and one-third percent of the revenues to the oil and gas impact grant fund, but not in an amount exceeding eight million dollars per biennium;~~
  - b. Allocate five hundred thousand dollars per fiscal year to each city in an oil-producing county which has a population of seven thousand five hundred or more and more than two percent of its private covered employment engaged in the mining industry, according to data compiled by job service North Dakota. The allocation under this subdivision must be doubled if the city has more than seven and one-half percent of its private covered employment engaged in the mining industry, according to data compiled by job service North Dakota; ~~and~~
  - b. Allocate thirty-three and one-third percent of the revenues to the oil and gas impact grant fund, but not in an amount exceeding eight million dollars per biennium; and
  - c. ~~Credit~~Allocate the remaining revenues ~~to the state general fund under subsection 3.~~
2. After deduction of the amount provided in subsection 1, annual revenue collected under this chapter from oil and gas produced in each county must be allocated as follows:

<sup>176</sup> Section 57-51-15 was also amended by section 6 of House Bill No. 1013, chapter 13, and section 1 of House Bill No. 1077, chapter 485.

- a. The first two million dollars ~~must be~~is allocated to the county.
  - b. ~~The~~Of the next one million dollars ~~must be allocated,~~ seventy-five percent is allocated to the county and ~~twenty five percent to the state general fund.~~
  - c. ~~The~~Of the next one million dollars ~~must be allocated,~~ fifty percent is allocated to the county and ~~fifty percent to the state general fund.~~
  - d. ~~The~~Of the next fourteen million dollars ~~must be allocated,~~ twenty-five percent is allocated to the county and ~~seventy five percent to the state general fund.~~
  - e. ~~All~~Of all annual revenue ~~remaining after the allocation in subdivision d~~ must be allocated~~exceeding eighteen million dollars,~~ ten percent is allocated to the county and ~~ninety percent to the state general fund.~~
3. After the allocations under subsections 1 and 2, the amount remaining is allocated first to provide for deposit of thirty percent of all revenue collected under this chapter in the legacy fund as provided in section 26 of article X of the Constitution of North Dakota and the remainder must be allocated to the state general fund. If the amount available for a monthly allocation under this subsection is insufficient to deposit thirty percent of all revenue collected under this chapter in the legacy fund, the state treasurer shall transfer the amount of the shortfall from the state general fund share of oil extraction tax collections and deposit that amount in the legacy fund.
- ~~3.4.~~ The amount to which each county is entitled under subsection 2 must be allocated within the county so the first five million three hundred fifty thousand dollars is allocated under subsection ~~45~~ for each fiscal year and any amount received by a county exceeding five million three hundred fifty thousand dollars is credited by the county treasurer to the county infrastructure fund and allocated under subsection ~~56~~.
- ~~4.5.~~ a. Forty-five percent of all revenues allocated to any county for allocation under this subsection must be credited by the county treasurer to the county general fund. However, the allocation to a county under this subdivision must be credited to the state general fund if during that fiscal year the county does not levy a total of at least ten mills for combined levies for county road and bridge, farm-to-market and federal-aid road, and county road purposes.
- b. Thirty-five percent of all revenues allocated to any county for allocation under this subsection must be apportioned by the county treasurer no less than quarterly to school districts within the county on the average daily attendance distribution basis, as certified to the county treasurer by the county superintendent of schools. However, no school district may receive in any single academic year an amount under this subsection greater than the county average per student cost multiplied by seventy percent, then multiplied by the number of students in average daily attendance or the number of children of school age in the school census for the county, whichever is greater. Provided, however, that in any county in which the average daily attendance or the school census, whichever is greater, is fewer than four hundred, the county is entitled to one hundred twenty percent of the county average per student cost multiplied by the number of students in average daily attendance or the number of children of school

age in the school census for the county, whichever is greater. Once this level has been reached through distributions under this subsection, all excess funds to which the school district would be entitled as part of its thirty-five percent share must be deposited instead in the county general fund. The county superintendent of schools of each oil-producing county shall certify to the county treasurer by July first of each year the amount to which each school district is limited pursuant to this subsection. As used in this subsection, "average daily attendance" means the average daily attendance for the school year immediately preceding the certification by the county superintendent of schools required by this subsection.

The countywide allocation to school districts under this subdivision is subject to the following:

- (1) The first three hundred fifty thousand dollars is apportioned entirely among school districts in the county.
  - (2) The next three hundred fifty thousand dollars is apportioned seventy-five percent among school districts in the county and twenty-five percent to the county infrastructure fund.
  - (3) The next two hundred sixty-two thousand five hundred dollars is apportioned two-thirds among school districts in the county and one-third to the county infrastructure fund.
  - (4) The next one hundred seventy-five thousand dollars is apportioned fifty percent among school districts in the county and fifty percent to the county infrastructure fund.
  - (5) Any remaining amount is apportioned to the county infrastructure fund except from that remaining amount the following amounts are apportioned among school districts in the county:
    - (a) Four hundred ninety thousand dollars, for counties having a population of three thousand or fewer.
    - (b) Five hundred sixty thousand dollars, for counties having a population of more than three thousand and fewer than six thousand.
    - (c) Seven hundred thirty-five thousand dollars, for counties having a population of six thousand or more.
- c. Twenty percent of all revenues allocated to any county for allocation under this subsection must be apportioned no less than quarterly by the state treasurer to the incorporated cities of the county. Apportionment among cities under this subsection must be based upon the population of each incorporated city according to the last official decennial federal census. A city may not receive an allocation for a fiscal year under this subsection and subsection ~~56~~ which totals more than seven hundred fifty dollars per capita. Once this level has been reached through distributions under this subsection, all excess funds to which any city would be entitled except for this limitation must be deposited instead in that county's general fund. In determining the population of any city in which total employment increases by more than two hundred percent seasonally due to tourism, the

population of that city for purposes of this subdivision must be increased by eight hundred percent. If a city receives a direct allocation under subsection 1, the allocation to that city under this subsection is limited to sixty percent of the amount otherwise determined for that city under this subsection and the amount exceeding this limitation must be reallocated among the other cities in the county.

- ~~5-6.~~ a. Forty-five percent of all revenues allocated to a county infrastructure fund under subsections ~~34~~ and ~~45~~ must be credited by the county treasurer to the county general fund. However, the allocation to a county under this subdivision must be credited to the state general fund if during that fiscal year the county does not levy a total of at least ten mills for combined levies for county road and bridge, farm-to-market and federal-aid road, and county road purposes.
- b. Thirty-five percent of all revenues allocated to the county infrastructure fund under subsections ~~34~~ and ~~45~~ must be allocated by the board of county commissioners to or for the benefit of townships in the county on the basis of applications by townships for funding to offset oil and gas development impact to township roads or other infrastructure needs or applications by school districts for repair or replacement of school district vehicles necessitated by damage or deterioration attributable to travel on oil and gas development-impacted roads. An organized township is not eligible for an allocation of funds under this subdivision unless during that fiscal year that township levies at least ten mills for township purposes. For unorganized townships within the county, the board of county commissioners may expend an appropriate portion of revenues under this subdivision to offset oil and gas development impact to township roads or other infrastructure needs in those townships. The amount deposited during each calendar year in the county infrastructure fund which is designated for allocation under this subdivision and which is unexpended and unobligated at the end of the calendar year must be transferred by the county treasurer to the county road and bridge fund for use on county road and bridge projects.
- c. Twenty percent of all revenues allocated to any county infrastructure fund under subsections ~~34~~ and ~~45~~ must be allocated by the county treasurer no less than quarterly to the incorporated cities of the county. Apportionment among cities under this subsection must be based upon the population of each incorporated city according to the last official decennial federal census. A city may not receive an allocation for a fiscal year under this subsection and subsection ~~45~~ which totals more than seven hundred fifty dollars per capita. Once this per capita limitation has been reached, all excess funds to which a city would otherwise be entitled must be deposited instead in that county's general fund. If a city receives a direct allocation under subsection 1, the allocation to that city under this subsection is limited to sixty percent of the amount otherwise determined for that city under this subsection and the amount exceeding this limitation must be reallocated among the other cities in the county.
- ~~6-7.~~ Within ~~sixty~~thirty days after the end of each ~~fiscal~~calendar year, the board of county commissioners of each county that has received an allocation under this section shall file a report for the ~~fiscal~~calendar year with the ~~tax~~ commissioner, in a format prescribed by the ~~tax~~ commissioner, ~~showing~~including:

- a. ~~The amount received by the county in its own behalf, the amount of those funds expended for each purpose to which funds were devoted, and the share of county property tax revenue expended for each of those purposes, and the amount of those funds unexpended at the end of the fiscal year.~~The county's statement of revenues and expenditures; and
- b. The amount available in the county infrastructure fund for allocation to or for the benefit of townships or school districts, the amount allocated to each organized township or school district and the amount expended from each such allocation by that township or school district, the amount expended by the board of county commissioners on behalf of each unorganized township for which an expenditure was made, and the amount available for allocation to or for the benefit of townships or school districts which remained unexpended at the end of the fiscal year.

Within ~~sixty~~<sup>fifteen</sup> days after the time when reports under this subsection were due, the tax commissioner shall provide ~~a report~~<sup>the reports</sup> to the legislative council compiling the information from reports received under this subsection.

~~In developing the format for reports under this subsection, the tax commissioner shall consult the energy development impact office and at least two county auditors from oil producing counties.~~

**SECTION 2. AMENDMENT.** Section 57-51.1-07 of the North Dakota Century Code is amended and reenacted as follows:

**57-51.1-07. Allocation of moneys in oil extraction tax development fund.**

Moneys deposited in the oil extraction tax development fund must be transferred monthly by the state treasurer as follows:

1. Twenty percent must be allocated and credited to the sinking fund established for payment of the state of North Dakota water development bonds, southwest pipeline series, and any moneys in excess of the sum necessary to maintain the accounts within the sinking fund and for the payment of principal and interest on the bonds must be credited to a special trust fund, to be known as the resources trust fund. The resources trust fund must be established in the state treasury and the funds therein must be deposited and invested as are other state funds to earn the maximum amount permitted by law which income must be deposited in the resources trust fund. The principal and income of the resources trust fund may be expended only pursuant to legislative appropriation and are available to:
  - a. The state water commission for planning for and construction of water-related projects, including rural water systems. These water-related projects must be those which the state water commission has the authority to undertake and construct pursuant to chapter 61-02; and
  - b. The industrial commission for the funding of programs for development of energy conservation and renewable energy sources; for studies for development of cogeneration systems that increase the capacity of a system to produce more than one kind of energy from the same fuel; for studies for development of waste products utilization; and for the making of grants and loans in connection therewith.

2. Twenty percent must be allocated to the common schools trust fund and foundation aid stabilization fund as provided in section 24 of article X of the Constitution of North Dakota.
3. ~~Sixty~~ Thirty percent must be allocated to the legacy fund as provided in section 26 of article X of the Constitution of North Dakota.
4. Thirty percent must be allocated and credited to the state's general fund ~~for general state purposes.~~

**SECTION 3. EFFECTIVE DATE.** This Act is effective for oil and gas produced after June 30, 2011.

5. a. Forty-five percent of all revenues allocated to a county infrastructure fund under subsections 3 and 4 must be credited by the county treasurer to the county general fund. However, the allocation to a county under this subdivision must be credited to the state general fund if during that fiscal

- year the county does not levy a total of at least ten mills for combined levies for county road and bridge, farm-to-market and federal-aid road, and county road purposes.
- b. Thirty-five percent of all revenues allocated to the county infrastructure fund under subsections 3 and 4 must be allocated by the board of county commissioners to or for the benefit of townships in the county on the basis of applications by townships for funding to offset oil and gas development impact to township roads or other infrastructure needs or applications by school districts for repair or replacement of school district vehicles necessitated by damage or deterioration attributable to travel on oil and gas development-impacted roads. An organized township is not eligible for an allocation of funds under this subdivision unless during that fiscal year that township levies at least ten mills for township purposes. For unorganized townships within the county, the board of county commissioners may expend an appropriate portion of revenues under this subdivision to offset oil and gas development impact to township roads or other infrastructure needs in those townships. The amount deposited during each calendar year in the county infrastructure fund which is designated for allocation under this subdivision and which is unexpended and unobligated at the end of the calendar year must be transferred by the county treasurer to the county road and bridge fund for use on county road and bridge projects.
- c. Twenty percent of all revenues allocated to any county infrastructure fund under subsections 3 and 4 must be allocated by the county treasurer no less than quarterly to the incorporated cities of the county. Apportionment among cities under this subsection must be based upon the population of each incorporated city according to the last official decennial federal census. ~~A city may not receive an allocation for a fiscal year under this subsection and subsection 4 which totals more than seven hundred fifty dollars per capita. Once this per capita limitation has been reached, all excess funds to which a city would otherwise be entitled must be deposited instead in that county's general fund.~~ If a city receives a direct allocation under subsection 1, the allocation to that city under this subsection is limited to sixty percent of the amount otherwise determined for that city under this subsection and the amount exceeding this limitation must be reallocated among the other cities in the county.

titanium, tungsten, vanadium, yttrium, zinc, and zirconium. The term does not include oil, natural gas, or liquid hydrocarbon, individually or in any combination, coal, carbon dioxide, or severed sand or gravel subject to an extraction or severance tax under any other provisions of this title.

2. "Commissioner" means the tax commissioner.
3. "Gross receipts" means all revenue valued in money, whether received in money or otherwise, realized by the taxpayer for sale of potash or byproducts, whether the sale is before or after transportation, manufacturing, and processing of the product.
4. "Mining facility" includes contiguous land and all structures and improvements on the mining permit area used for mining potash and byproducts and includes the act, process, or work of extracting potash from its naturally occurring environment and transporting or moving potash or byproducts to the point of processing, use, or sale. The term includes the process of leaching potash from its naturally occurring deposit. The term also includes an "extraction facility" as defined in chapter 38-12.
5. "Mining permit area" means the area covered by a permit issued by the industrial commission to mine potash and potash byproducts.
6. "Person" means every individual, partnership, firm, association, joint venture, corporation, limited liability company, fiduciary, trustee, receiver, administrator, representative of any kind, or any other group or combination acting as a unit.
7. "Potash" includes muriate of potash [the chemical compound potassium chloride, KCl], sulfate of potash [the chemical compound sulfate, K<sub>2</sub>S<sub>04</sub>], and langbeinite [the chemical compound potassium magnesium sulfate, K<sub>2</sub>S<sub>04</sub>\*2MgS<sub>04</sub>], or any other potassium, magnesium, or mixed-potassium salts, and includes ores, intermediates, products, and reaction products of such compounds.
8. "Processing" includes breaking, crushing, cleaning, drying, sizing, milling, treating, heating, separating, compressing, beneficiation, or loading or unloading for any purpose.
9. "Processing plant" means any facility in North Dakota in which potash or byproducts are extracted, recovered, or produced from a mineral resource and includes any facility in North Dakota associated with the mine in which the primary production from the mining facility is processed or refined.
10. "Taxpayer" includes any person that is a producer of potash or potash byproducts subject to the tax imposed under this chapter.

#### **57-65-02. Imposition of tax on potash.**

A tax at the rate of two percent is imposed upon all potash produced within this state. The tax levied attaches to the whole production of potash except any byproducts of potash taxed under section 57-65-03.

1. The tax on potash is assessed against the sales price of the potash in an arm's-length contract between the taxpayer and the purchaser. If a potash sale or transfer is not the result of an arm's-length contract, the tax is calculated by taking a ton of two thousand pounds [907.18 kilograms] of

potash produced times the potash tax rate times the annual average price of potash. The "annual average price of potash" for each twelve-month period beginning July first is the potash producer price index (commodity code PCU212391212391) as calculated and published by the United States department of labor, bureau of labor statistics, for the previous calendar year. For taxable production for the twelve months beginning July 1, 2011, the "annual average price of potash" is three hundred fifty-seven dollars and ten cents.

2. The tax department shall provide the annual average price of potash for the fiscal year to affected taxpayers by written notice mailed before June first.
3. If the potash producer price index is discontinued, a comparable index must be adopted by the department by an administrative rule.

### **57-65-03. Imposition of tax on byproducts of potash production.**

A subsurface mineral tax of four percent is imposed upon the gross value of all subsurface mineral byproducts produced during the processing of potash produced within this state. The tax levied attaches to the whole production of byproducts. Inventory is not taxable until it is sold. The gross value at the processing plant is the price paid for the byproducts under an arm's-length contract between the taxpayer and the purchaser. In the absence of an arm's-length contract, the gross value at the processing plant is established by the price paid under an arm's-length contract, to which the person paying the tax is a party, for the purchase or sale of byproducts of like kind, character, and quality.

### **57-65-04. Type of tax.**

For purposes of interpreting section 5 of article X of the Constitution of North Dakota, relating to federal land bank taxation and to the taxation of other governmental entities if their immunity from taxation has been waived, the tax under this chapter is a real property tax on subsurface mineral-producing estates and interests.

### **57-65-05. Potash and byproducts tax to be in lieu of other taxes.**

The payment of the taxes under this chapter must be in full and in lieu of all ad valorem taxes by the state, counties, cities, school districts, and other taxing districts upon any property rights attached to or inherent in the right to producing potash and potash byproducts; upon producing potash and potash byproducts leases; upon machinery, appliances, and equipment used in and around any well producing potash or potash byproducts and actually used in the operation of the well; and upon any investment in property. The land and the processing plant, mining facility, or satellite facility must be assessed and taxed as other property within the taxing district in which the property is situated. The tax under this chapter is not in lieu of income taxes.

### **57-65-06. Duties of tax commissioner and state treasurer.**

The tax commissioner shall deposit promptly with the state treasurer all moneys collected under this chapter and accompany each remittance, when possible, with a certificate showing the county where the potash and byproducts were processed. The state treasurer, no less than monthly, shall pay over to the county treasurer of the several counties the money to which they are entitled.

**57-65-07. Allocation of revenue.**

The tax collected as provided in this chapter is appropriated and must be apportioned as determined by the sixty-third legislative assembly.

**57-65-08. Returns and payment of tax on monthly basis - Due date - When delinquent - Extensions.**

1. Any person engaged in the production, within this state, of potash or byproducts shall before the twenty-sixth day of the next succeeding month after production, file with the tax commissioner a statement upon forms prescribed by the tax commissioner.
2. The tax under this chapter must be paid on a monthly basis. The tax is due and payable on the twenty-fifth day of the month succeeding the month of production. If the tax is not paid as required by this section, the tax becomes delinquent and must be collected as provided in this chapter.
3. The tax commissioner, upon request and a proper showing of good cause, may grant an extension of time, not to exceed fifteen days, for paying the tax. When the request is granted, the tax is not delinquent until the extended period has expired. A taxpayer who is granted an extension of time for filing a return shall pay, with the tax, interest at the rate of twelve percent per annum from the date the tax was due to the date the tax is paid.
4. All calculations of the tax under this chapter, including production, distribution, and claims for credit or refund, are based on the month of production and must be credited to that month.
5. The tax commissioner may prescribe alternative methods for signing, subscribing, or verifying a return filed by electronic means, including telecommunications, that shall have the same validity and consequence as the actual signature and written declaration for a paper return.

**57-65-09. Tax commissioner to audit returns and correct tax.**

1. The tax commissioner may determine whether a return required to be filed with the tax commissioner under this chapter is a true and correct return of gross production, and of the value, of the potash and byproducts. If a return required by this chapter is not filed, or if a return when filed is incorrect or insufficient, the tax commissioner shall determine the amount of tax due from any information the tax commissioner may be able to obtain, and, if necessary, may estimate the tax on the basis of external indices.
2. The tax commissioner shall have three years after the due date of the original return or three years after the original return is filed, whichever period expires later, to assess the tax and, if additional tax is due, provide notice of the determination of the additional tax to the taxpayer. If there is a change in tax liability on any return by an amount in excess of twenty-five percent of the amount of tax before any credits, any additional tax determined to be due may be assessed anytime within six years after the due date of the return or six years after the return was filed, whichever period expires later.
3. If a taxpayer files an amended return, the tax commissioner has two years after the return is filed to audit the return and assess any additional tax attributable to the changes or corrections even though other time periods

prescribed in this section for the assessment of tax may have expired. The provisions of this section do not limit or restrict any other time period prescribed in this section for the assessment of tax that has not expired as of the end of the two-year period prescribed in this section.

4. If false or fraudulent information is given in the return, or if the failure to file a return is due to the fraudulent intent or the willful attempt of the taxpayer in any manner to evade the tax, the time limitations in this section do not apply, and the tax may be assessed at any time.
5. If before the expiration of the time periods prescribed in subsections 1, 2, and 3 the tax commissioner and a person consent in writing to an extension of time for the assessment of the tax, an assessment of additional tax may be made at any time prior to the expiration of the period agreed upon. The period so agreed upon may be extended by subsequent agreements in writing made before the expiration of the period previously agreed upon. If a person refuses to consent to an extension of time or a renewal thereof, the tax commissioner may make an assessment based on the best information available. The period agreed upon in this subsection, including extensions, expires upon issuance of an assessment by the tax commissioner.
6. Any person who consents to an extension of time for assessment of tax must be presumed to have consented to a similar extension for refund.

#### **57-65-10. Interest and penalties.**

1. Reports from the taxpayer are delinquent after the last day fixed for their filing, and every person required to file a report is subject to a penalty of twenty-five dollars per day of delinquency for each property upon which the person fails or refuses to file the reports. The penalties under this subsection are for failure to file reports and are in addition to the penalties imposed by subsection 2 and constitute a lien against the assets of the person failing or refusing to file the reports. The penalties prescribed under this section must be collected in the same manner as potash and byproducts taxes and must be apportioned as other potash and byproducts tax penalties.
2. In addition to the tax and interest prescribed in this chapter, a taxpayer is subject to penalties as follows:
  - a. If any taxpayer, without intent to evade any tax imposed by this chapter, fails to pay the amount shown as tax due on any return filed on or before the due date or extended due date prescribed, there must be added to the tax a penalty of five percent of the tax due, or five dollars, whichever is greater.
  - b. If any taxpayer, without intent to evade any tax imposed by this chapter, fails to file a return on or before the due date or extended due date prescribed, there must be added a penalty equal to five percent of the tax required to be reported, or five dollars, whichever is greater.
  - c. If upon audit of a taxpayer's return additional tax is found to be due, there must be added to the tax the penalty provided in subdivision a or b.
3. In addition to other increases to tax and penalty provided in this chapter, a taxpayer is subject to interest as follows:

- a. Any taxpayer who requests and is granted an extension of time for filing a return shall pay, with the tax, interest on the tax at the rate of twelve percent per annum from the date the tax would have been due if the extension had not been granted to the date the tax is paid.
  - b. If any amount of tax imposed by this chapter is not paid on or before the due date or extended due date for the payment, there must be added to the tax interest at the rate of one percent per month or fraction of a month during which the return was required to be filed or the tax became due.
  - c. If upon audit an additional tax is found to be due, there must be added to the additional tax due interest at the rate of one percent of the additional tax for each month or fraction of a month during which the tax remains unpaid, computed from the due date of the return to the date paid, excepting the month in which the return was required to be filed or the tax became due.
  - d. If the mathematical verification of a taxpayer's return results in additional tax due, there must be added to the additional tax interest at the rate of one percent of the additional tax due for each month or fraction of a month during which the return was required to be filed or the tax became due.
4. The tax commissioner, for good cause shown, may waive the penalty or the interest provided in this section.

#### **57-65-11. Refund claims.**

1. A taxpayer may file a claim for credit or refund of an overpayment of tax within three years of the due date of the return or three years after the return was filed. However, if there is a change in tax liability on any return by an amount in excess of twenty-five percent of the amount of tax before any credits, a claim for refund of tax may be filed within six years after the due date of the return or six years after the return was filed, whichever period expires last.
2. If any taxpayer consents to an extension of time for the assessment of tax under subsection 5 of section 57-65-09, the period of time for filing a claim for credit or refund will be similarly extended. If an assessment is issued under this circumstance, the taxpayer has sixty days from the assessment to file a claim for refund. If a claim for refund is filed in any year extended by an agreement under subsection 5 of section 57-65-09, the tax commissioner may assess additional tax for any year extended by the same agreement which has otherwise expired. The additional assessment is limited to the issues raised in the claim for credit or refund.
3. Every claim for credit or refund must be made by filing with the tax commissioner an amended return, or other report as prescribed by the tax commissioner, accompanied by a statement outlining the specific grounds upon which the claim is based.
4. In all cases of overpayment, duplicate payment, or payment made in error, the tax commissioner shall issue a certificate containing the facts and the amount of the refund to which the taxpayer may be entitled. Upon presentation of the certificate to the office of management and budget, a warrant must be issued to the taxpayer for the purpose of refunding any overpayment, duplicate payment, or payment made in error out of the unapportioned potash and

byproducts tax in the state treasury and a pro rata share must be charged against the county entitled to share in the tax. Interest arising from refunds of overpayments, duplicate payments, and erroneous payments must be allowed and paid at the rate of ten percent per annum and accrues for payment from sixty days after the due date of the return or after the return was filed or after the tax was fully paid, whichever comes later.

### **57-65-12. Minimum refunds and collections.**

1. A refund may not be made by the tax commissioner to any taxpayer unless the amount to be refunded, including interest, is at least five dollars. The tax commissioner shall transfer any amount that is not refunded to a taxpayer under this subsection to the state treasurer for deposit in the same manner as other revenue under this chapter.
2. A remittance of tax need not be made and any assessment or collection of tax may not be made unless the amount is at least five dollars, including penalties and interest.

### **57-65-13. Protest and appeal.**

1. If upon audit the tax commissioner finds additional tax due or disallows a credit or a claim for refund, the tax commissioner shall notify the person of that finding. The notice must inform the person of the reasons for assessment of additional tax or the change in refund or credit claimed. Notice of deficiency must be sent by first-class mail and must set forth the reasons for the finding.
2. A person has thirty days, or ninety days if the person is outside the United States, to file a written protest objecting to the tax commissioner's assessment of additional tax due or disallowance of a credit or a claim for refund. The protest must set forth the basis for the protest and any other information which may be required by the tax commissioner. If a person fails to file a written protest within the time provided, the tax commissioner's finding becomes finally and irrevocably fixed. If a person protests only a portion of the tax commissioner's finding, the portion that is not protested becomes finally and irrevocably fixed.
3. If a protest is filed, the tax commissioner shall reconsider the assessment of additional tax due or disallowance of a credit or claim for refund. The reconsideration may include further examination by the tax commissioner or the tax commissioner's representative of a person's books, papers, records, or memoranda. The tax commissioner, upon request, may grant the person an informal conference.
4. Within a reasonable time after protest, the tax commissioner shall notify the taxpayer of the tax commissioner's reconsideration of assessment of additional tax due or disallowance of a credit or claim for refund. The amount set forth in that notice becomes finally and irrevocably fixed unless the person within thirty days commences formal administrative review as provided for in chapter 28-32 by the filing of a complaint. The complaint must be personally served on the tax commissioner or sent by certified mail.
5. Upon written request, the tax commissioner may grant an extension of time to file a protest as provided for in subsection 2 or an extension of time to commence formal review as provided for in subsection 4.

**57-65-14. Lien for tax - Preservation of lien - Satisfaction of lien.**

1. The tax, penalty, and interest assessed under this chapter is, at all times, a first and paramount lien against the taxpayer's property, both real and personal. The provisions of this chapter requiring the taxpayer to pay the tax do not release the taxpayer from that liability. If the tax, penalty, and interest are not paid, the tax, penalty, and interest may be recovered at the suit of the state, upon relation to the tax commissioner, in any court of competent jurisdiction of the county where any such property, assets, and effects are located.
2. Any judgment creditor or lien claimant acquiring any interest in or lien on any property situated in this state, before the tax commissioner files in the central indexing system maintained by the secretary of state a notice of the lien provided for in this section, takes free of or has priority over the lien. The tax commissioner shall index in the central indexing system the following data:
  - a. The name of the taxpayer.
  - b. The tax identification number or social security number of the taxpayer.
  - c. The name "State of North Dakota" as claimant.
  - d. The date and time the notice of lien was indexed.
  - e. The amount of the lien. The notice of the lien is effective as of eight a.m. of the first day following the indexing of the notice.
3. Upon payment of tax, penalty, and interest, if applicable, or a penalty assessed under section 57-65-10, as to which the tax commissioner has indexed a notice in the central indexing system, the tax commissioner shall index a satisfaction of the lien in the central indexing system.
4. The tax commissioner is exempt from the payment of the fees otherwise provided for by law for the indexing of the lien or satisfaction.

**57-65-15. Delinquent taxes - Sale of property.**

When any tax provided for in this chapter becomes delinquent, the tax commissioner shall issue warrants directed to the sheriff of any county where the tax is due, or any part of the tax accrued, for the collection of the tax, interest, and penalty. The sheriff to whom the warrant is directed shall proceed to levy upon the property, assets, and effects of the person liable for such tax and shall sell the same and make return upon execution. The state of North Dakota, through the tax commissioner, is authorized to make bids at any such sale to the amount of tax, penalty, and costs accrued.

**57-65-16. Bond - Reports - Actions.**

1. The tax commissioner may require a sufficient bond from any person charged with the making and filing of reports and the payment of the taxes imposed under this chapter. The bond must run to the state of North Dakota and must be conditioned upon the making and filing of reports as required by law, upon compliance with the rules and regulations of the tax commissioner, and for the prompt payment by the principal of all taxes justly due the state under this chapter.

2. When any reports required have not been filed, or may be insufficient to furnish all the information required by the tax commissioner, the tax commissioner shall institute in the name of the state of North Dakota upon relation of the tax commissioner any necessary action or proceedings in the courts having jurisdiction to enjoin such person from continuing operations until such reports have been filed as required. In all proper cases an injunction must issue without bond from the state of North Dakota. Upon showing that the state is in danger of losing its claims or the property is being mismanaged, dissipated, or concealed, a receiver must be appointed.

#### **57-65-17. Penalty.**

Any person intentionally violating this chapter is guilty of a class A misdemeanor.

#### **57-65-18. Powers of tax commissioner.**

The tax commissioner is charged with the administration of this chapter and shall enforce the assessment, levy, and collection of taxes imposed under this chapter. The tax commissioner may require any person engaged in the production of subsurface minerals or byproducts to furnish any additional information the tax commissioner determines necessary for the purpose of correctly computing the amount of potash and byproducts tax. The tax commissioner may examine the books, records, and files of such person, and conduct hearings and compel the attendance of witnesses, the production of books, records, and papers of any person, and may make any investigation or hold any inquest determined necessary to a full and complete disclosure of the facts as to the amount of production from any potash mining facility, processing plant, or satellite facility, or of any company or other producer for taxing purposes.

#### **57-65-19. Rules - Legislative intent.**

It is the intention of the legislative assembly that potash mining, environmental protection, and reclamation rules, at a minimum, must establish a high degree of protection for surface owners, surface and underground water, productive capacity of soils, and public health and safety and that the adopting agency will promote participation of public officials and members of the public in counties in which potash mining will be conducted.

**SECTION 4. LEGISLATIVE INTENT - IMPACT LOANS 2013-15 BIENNIUM.** It is the intent of the sixty-second legislative assembly that the sixty-third legislative assembly will provide a source for up to \$2,000,000, or so much of the sum as may be necessary, for loans to potash development-impacted political subdivisions, for the biennium beginning July 1, 2013, and ending June 30, 2015, to be repaid from the future proceeds of tax allocations under chapter 57-65.

**SECTION 5. LEGISLATIVE MANAGEMENT STUDY - POTASH MINING TAXATION.** During the 2011-12 interim, the legislative management shall study potash mining and taxation issues. The legislative management shall report its findings and recommendations, together with any legislation necessary to implement the recommendations, to the sixty-third legislative assembly.

**SECTION 6. EFFECTIVE DATE.** This Act is effective for taxable production occurring after June 30, 2011.

A single district may be created for an improvement of the type specified in section 61-24.8-07, notwithstanding any lack of uniformity among the types, items, or quantities of work and materials to be used at particular locations throughout the improvement district. The jurisdiction of the district to make, finance, and assess the cost of any improvement project may not be impaired by any lack of commonness, unity, or singleness of the location, purpose, or character of the improvement, or by the fact that any one or more of the properties included in the improvement district is subsequently determined not to be benefited by the improvement, or by a particular portion of the improvement project, and is not assessed for that purpose. The board may omit from an improvement district property within the improvement district limits. The engineer shall prepare profiles, plans, and specifications of the proposed project and estimates of the total cost. The estimate of costs prepared by the engineer must include acquisition of right of way and other costs specified in section 61-24.8-19 and must be in sufficient detail to allow the board to determine the probable share of the total costs that will be assessed against each of the affected landowners in the proposed assessment district.

After receiving the engineer's report required by section 61-24.8-09, the board may direct the engineer to prepare detailed plans and specifications for construction of the improvement. The plans and specifications must be approved by a resolution of the board.

#### **61-24.8-11. District engineer to retain copy of plans, specifications, and estimates - Sale of copies.**

The engineer acting for the district shall retain a copy of the plans, specifications, and estimates that have been prepared for any improvement. The engineer shall furnish copies at the request of any person at a reasonable cost.

### **61-24.8-12. Plans, specifications, and estimates filed in office of district.**

The plans, specifications, and estimates prepared as directed under section 61-24.8-10 are the property of the district, must be filed in the district office, and must remain on file subject to inspection by any interested person.

### **61-24.8-13. Hearing - Notice - Contents.**

Upon the filing of the engineer's report provided for in section 61-24.8-09, and after satisfying the requirements of section 61-24.8-10, the board shall fix a date and place for public hearing on the proposed project. The place of hearing must be in the vicinity of the proposed project and must be convenient and accessible for the majority of the landowners subject to assessment for the project or whose property is subject to condemnation for the proposed project. The board may appoint a hearing officer or a committee of the board to conduct the hearing. The board shall cause a complete list of the benefits and assessments to be made, setting forth each lot, piece, or parcel of land assessed, the amount each is benefited by the improvement, and the amount assessed against each. At least fourteen days before the hearing, the board shall file with the county auditor of each county in which the project is or will be located the list showing the percentage assessment and approximate assessment in dollars against each parcel of land benefited by the proposed project. Notices of the hearing must contain the time and place where the board will conduct the hearing. The notice of hearing must specify when and where votes concerning the proposed project may be filed and contain an assessment list showing the percentage assessment and approximate assessment in dollars against each parcel of land benefited by the proposed project. The board shall cause the notice of hearing to be published once a week for two consecutive weeks in newspapers of general circulation in the area in which the affected landowners reside and in the official county newspaper of each county in which the benefited lands are located. The date set for the hearing may not be fewer than fourteen days after the first publication of the notice. A record of the hearing must be made by the board, including a list of affected landowners present in person or by agent, and the record must be preserved in the minutes of the meeting. Affected landowners to be assessed must be informed at the hearing of the probable total cost of the project and their individual share of the cost and the portion of their property, if any, to be condemned for the project.

### **61-24.8-14. Voting on proposed projects.**

At the hearing, the affected landowners must be informed when and where votes concerning the proposed project may be filed. Affected landowners to be assessed have thirty days after the date of the hearing to file their votes with the secretary of the district. Once the deadline for filing votes has been reached, no more votes may be filed and no person may withdraw a vote. Any withdrawal of a vote concerning the proposed project before that time must be in writing. When the votes have been filed and the deadline for filing votes has passed, the board shall immediately determine whether the project is approved. If the board finds that one hundred percent of the total votes filed are for the proposed project, then the vote constitutes an affirmation of the project and the board shall issue an order establishing the proposed project and may proceed, after complying with the requirements of sections 61-24.8-17 and 61-24.8-18, to contract or provide for the construction or maintenance of the project in substantially the manner and according to the forms and procedure provided in section 61-24.8-41. The board may enter any agreement with any federal or state agency under the terms of which the contract for the project is to be let by the federal agency, the state agency, or a combination thereof. In projects where there is an agreement that a party other than the board will let the contract, the board may dispense with all of the requirements of section 61-24.8-41. Upon making an order

establishing or denying establishment of a project, the board shall publish notice of the order in a newspaper of general circulation in the area in which the affected landowners reside and in the official county newspaper of each county in which the benefited lands are located. Any right of appeal begins to run on the date of publication of the notice.

**61-24.8-15. Voting right or powers of landowners.**

In order that there may be a fair relationship between the amount of liability for assessments and the power of objecting to the establishment of a proposed project, the voting rights of affected landowners on the question of establishing the project are as provided in this section. The landowner of land affected by the project has one vote for each dollar of assessment to which the land is subject or one vote for each dollar of the assessed valuation of land for which fee title interest will be lost as a result of the project. There may be only one vote for each dollar of assessment, regardless of the number of owners of a tract of land. If more than one owner of a tract of land exists, the votes must be prorated among them in accordance with each owner's property interest. A written power of attorney authorizes an agent to protest a project on behalf of any affected landowner or landowners.

**61-24.8-16. Assessment of cost of project.**

When the board proposes to make any special assessment under this chapter, the board or its agent, before the hearing required under section 61-24.8-13, shall inspect any and all lots and parcels of land that may be subject to assessment and shall determine from the inspection the particular lots and parcels of lands which, in the opinion of the board, will be directly benefited by the construction of the work for which the assessment is made and shall assess the proportion of the total cost of acquiring right of way and constructing and maintaining such improvement in accordance with direct benefits received but not exceeding such benefits against any lot, piece, or parcel of land that is directly benefited by the improvement. Property belonging to the United States is exempt from assessment unless the United States has provided for the payment of any assessment that may be levied against its property for benefits received. There must be attached to the list of assessments a certificate signed by the chairman and certified by the secretary that it is a true and correct assessment of the benefit described to the best of their judgment and stating the several items of expense included in the assessment.

**61-24.8-17. Assessment list to be published - Notice of hearing - Alteration of assessments - Confirmation of assessment list - Filing.**

After entering an order establishing the project, the board shall cause the assessment list to be published once each week for two successive weeks in the official county newspaper of each county in which the benefited lands are located and in local newspapers of general circulation in the area of the affected lands. The publication must include a notice of the time and place the board will meet to hear objections to any assessment by any interested party or an agent or attorney for that party. The date set for the hearing must be not less than fourteen days after the first publication of the notice. At the hearing, the board may make such alterations in the assessments as in its opinion may be just and necessary to correct any error in the assessment but must make the aggregate of all assessments equal to the total amount required to pay the entire cost of the work for which the assessments are made or the part of the cost to be paid by special assessment. An assessment may not exceed the benefit as determined by the board to the parcel of land assessed. The board then shall confirm the assessment list and the secretary shall attach to the

list a certificate that it is correct as confirmed by the board. The list must be filed in the office of the district secretary.

#### **61-24.8-18. Appeal to state engineer.**

Within ten days after the hearing under section 61-24.8-17, affected landowners subject to assessment, who believe that the assessment has not been fairly or equitably made, or that the project is not properly located or designed, may petition the state engineer to review the assessments and examine the location and design of the proposed project. Upon receipt of a petition, the state engineer shall examine the lands assessed and the location and design of the proposed project. If it appears to the state engineer that the assessments have not been made equitably, the state engineer may proceed to correct the assessments. The state engineer's correction and adjustment of assessments is final. If it appears to the state engineer that the project has been improperly located or designed, the state engineer may order a relocation and redesign, which must be followed in the construction of the proposed project. Any landowner claiming to receive no direct benefit from the project may appeal to the state engineer the question of whether there is any direct benefit. The appeal must be filed with the state engineer within ten days after the hearing on assessments in section 61-24.8-17. The state engineer may not determine the specific amount of benefit upon an appeal by an individual landowner and may determine only if there is any direct benefit to the landowner. The determination of the state engineer upon the appeal is final.

#### **61-24.8-19. When assessments may be made.**

After the requirements of this chapter have been satisfied and a contract and bond for any work for which a special assessment is to be levied have been approved by the board, the board may direct special assessments to be levied for the payment of appropriate costs and the secretary shall certify to the board the items of total cost to be paid by special assessments so far as they have been ascertained. The certificate must include the estimated construction cost under the terms of any contract; a reasonable allowance for cost of extra work that may be authorized under the plans and specifications; acquisition of right of way; engineering, fiscal agents, and attorney's fees for any services in connection with the authorization and financing of the improvement; cost of publication of required notices; printing of improvement bonds; cost necessarily paid for damages caused by such improvement; interest during the construction period; and all expenses incurred in making the improvement and levy of assessments. A contract or contracts may not be awarded which exceed, by twenty percent or more, the estimated cost of the project as presented to and approved by the affected landowners.

#### **61-24.8-20. Correction of errors and mistakes in special assessments - Requirements governing.**

If mathematical errors or other mistakes occur in making any assessment resulting in a deficiency in that assessment, the board shall cause additional assessments to be made in a manner substantially complying with chapter 40-26 as it relates to special assessments.

#### **61-24.8-21. Lien of special assessment.**

A special assessment imposed by the district, with accrued interest and penalties, is a lien upon the property on which the assessment is levied from the time the assessment list is approved by the board until the assessment is fully paid. The liens have precedence over all other liens except general tax liens and may not be

divested by any judicial sale. Mistake in the description of the property covered by the special assessment lien or in the name of the owner of such property does not defeat the lien if the assessed property can be identified by the description in the assessment list. This chapter must be considered notice to all subsequent encumbrances of the priority of special assessments imposed under this chapter.

#### **61-24.8-22. Irrigation improvements in districts - Paid by service charges.**

The district constructing an irrigation improvement under the special assessment method may resolve in the resolution required by section 61-24.8-07 that a portion of the cost of the improvement must be raised by service charges for the use of the improvement and of the utility of which it forms a part. If the district so resolves, it may determine in its resolutions, and other proceedings relating to the levying of special assessments and the issuing of bonds to pay the cost of such improvement that a specified portion or all of such special assessments may be reduced each year by the amount of revenues on deposit in the fund required by section 61-24.8-36. All of the applicable provisions of this chapter relating to special assessments are applicable to such improvements except as to the portion of the cost of improvements resolved or ordained to be paid by service charges. The board of the district shall provide for the establishment, imposition, and collection of service charges for the services furnished by the improvement and the utility of which it forms a part, and in that connection it has all the rights and powers respecting such service charges as it would have with respect to like matters if the improvement were made in accordance with sections 61-24-22 through 61-24-32. The net revenues derived from the imposition and collection of the service charges or any portion of the service charges as are determined by the board in the resolutions and ordinances must be paid into the appropriate improvement district funds created under section 61-24.8-36. The revenues when collected must be used and applied in the same manner as moneys paid into such funds from the collection of special assessments. The board in issuing bonds to finance any such improvement in its resolutions may establish an assessment reserve in the fund of the improvement district, to which it may appropriate net revenues of the utility or system from time to time received in excess of amounts required, with special assessments then on hand, to meet the principal and interest next due on the bonds. Before November first of any year, the district may by resolution determine the proportion which the amount then on hand in the assessment reserve, and irrevocably appropriated to the payment of the bond, bears to the aggregate amount of the installment of the special assessments levied for the improvement which is payable in the following year, including interest. The district may direct the auditor to reduce, by not more than a proportionate amount, the total of that installment and interest which would otherwise be placed upon the tax list of the improvement district for the current year against each lot and tract of land assessed or taxed for improvement. If the installment of the special assessment on any property has been prepaid, the board may direct the district to refund, out of the assessment reserve, to the owner of the property at the time of the refund as indicated in the records of the recorder of the county a sum not exceeding a similar proportion of the principal amount of such installment excluding interest.

#### **61-24.8-23. Abbreviations, letters, or figures.**

In all proceedings for the levy and collection of special assessments, abbreviations, letters, and figures may be used to denote all or parts of additions, lots, lands, blocks, sections, townships, ranges, years, days of the month, and amounts of money.

**61-24.8-24. Record of improvements - Record as evidence.**

The district office shall keep a complete record of all the proceedings taken in the matter of making any improvements under this chapter. The record must include all reports and confirmations, all petitions, orders, notices and proofs of publication, and resolutions of the board. The record, a certified transcript of the record, or the original papers, proofs of publications, orders, or resolutions on file in the office must be admitted in evidence in any court or place in this state without further proof as evidence of the facts in those documents.

**61-24.8-25. Defects and irregularities in improvement proceedings.**

Defects and irregularities in any proceedings had or to be had under this chapter relating to district improvements by the special assessment method, if the proceedings are for a lawful purpose and are unaffected by fraud and do not violate any constitutional limitation or restriction, do not invalidate the proceedings. No action may be commenced or maintained and no defense or counterclaim in any action may be recognized in the courts of this state founded on any such defects or irregularities in the proceedings unless commenced within thirty days of the adoption of the resolution of the board awarding the sale of bonds to finance the improvement.

**61-24.8-26. Payment of special assessments - Interest.**

All special assessments levied under this chapter may be paid without interest within ten days after they have been approved by the board and thereafter bear interest at an annual rate not exceeding one and one-half percentage points above the average net annual interest rate on any bonds for the payment of which they are pledged on the total amount remaining unpaid.

**61-24.8-27. Lien between vendor and vendee of special assessments.**

As between a vendor and vendee of real property, unless the purchase contract otherwise provides, the installment of all special assessments for local improvements which are required to be certified and returned to the county auditor in each year become a lien upon the real property upon which they are assessed from and after the first day of December in that year.

**61-24.8-28. Irrigation special assessments extended over a period of not more than thirty years.**

Special assessments for the payment of the cost of constructing any irrigation works are payable in equal annual amounts, or in such annual amounts as will permit the annual increase in payment of principal to approximate the annual decrease in the interest on amounts remaining unpaid, extending over a period of not exceeding thirty years as the board may fix by resolution.

**61-24.8-29. Payments in full of assessments - Payments to county treasurer or district treasurer - Receipts.**

The owner of any property against which an assessment has been made under this chapter for the cost of any improvement may pay in full or in part the amount remaining unpaid and the unpaid accumulated interest. The payment in full discharges the lien of the assessment upon that property. The payment may be made to the county treasurer upon all installments of the assessments which have been certified to the county auditor, and may be made to the district treasurer upon all portions of the assessment which have not been certified. Any person desiring to pay

any portion of the assessment to the district treasurer shall obtain from the district treasurer a certificate of the amount due upon the assessment which has not been certified to the county auditor and shall present the certificate to the district treasurer. The district treasurer shall receive and collect that amount and issue a receipt to the person paying the assessment. The district treasurer shall note upon the treasurer's records the payment of the assessment.

### **61-24.8-30. Certification of assessments to county auditor.**

When the board, by resolution, has caused special assessments to be levied to cover the cost of constructing a project the board shall determine the rate of interest unpaid special assessments are to bear, which rate may not exceed one and one-half percent above the bond rate. Interest on unpaid special assessments commences on the date the assessments are finally confirmed by the board. Special assessments may be certified and made payable in equal annual installments, the last of which must be due and payable not more than thirty years after the date of the bonds to be paid. The secretary of the district shall certify to the county auditor of the county in which the improvement district is situated, or if the improvement district embraces more than one county to the county auditor of each county in which improvement district lands subject to such special assessments are situated, the total amount assessed against each piece, parcel, lot, or tract of land. The secretary of the district also shall file with the county auditor of each county in which district lands lie a statement showing the cost of the project and the part of the project to be financed by special assessments. Funds needed to pay the cost of maintaining a project may be raised in the same manner as funds were raised to meet construction costs. If the project was financed in whole or in part through the use of special assessments, the board shall prorate the cost of construction. The district treasurer annually shall certify to the county auditor all uncertified installments of assessments which are to be extended upon the tax lists of the improvement district for the current year, in the manner provided in this section. The annual certification must continue until the amount of moneys on deposit in the fund established under section 61-24.8-36 is sufficient to cover outstanding principal of and interest on any obligations issued to fund the projects, and in addition, to repay the district for any payments made by the district to fund deficiencies in the fund established under section 61-24.8-36.

### **61-24.8-31. District treasurer to insert amount of improvements in county real estate book or other forms - Regulations governing.**

The district treasurer shall notify the county auditor not later than August twentieth in each year of any special assessments that were made in the improvement district in addition to those reported in the previous year. The county auditor shall make and deliver to the district treasurer on or before September twentieth each year a copy of the real estate assessment book or other forms for the current year covering all additions in which any special assessments have existed and where any will appear for the current year as advised by the district treasurer. The district treasurer shall insert in the proper columns under the appropriate headings the amount of each of the installments of the assessments on the lots or subdivisions of lots or tracts of land which are to be extended upon the tax lists of the improvement district for the current year. The district treasurer shall show the total amount of special assessments certified to the county auditor for the current year. If a division of property has been made since the original assessment, the district treasurer shall make or cause to be made the proper division of the special assessments on the lots or tracts of land in the same manner as general taxes are divided and assessed as furnished by the county auditor. The district treasurer shall certify the special assessments to the county auditor by November first of each year.

**61-24.8-32. Extension of special assessments on tax lists - Collection - Payment over to district.**

The county auditor shall extend the special assessments upon the improvement tax lists of the district for the current year and the assessments with interest and penalties must be collected as general taxes are collected and paid over to the district treasurer and shall be placed by the district treasurer in the respective funds for which they were collected.

**61-24.8-33. Special assessment record book kept by county auditor - Assessments certified for more than one year.**

The county auditor shall keep a special assessment record. When the improvement district causes the installments of special assessments for a period of more than one year to be certified, the county auditor shall cause the certified special assessments to be recorded for the respective years and in the amounts shown in the certificate of the district treasurer. The certificate of the district treasurer must include a list of all lots and tracts of land upon which such assessments are levied, designating the purpose of the assessment, the fund to which it belongs, and the installment of such assessment for each year against each lot or tract, including interest.

**61-24.8-34. County treasurer to certify and receipt for amount of special assessments collected - Contents of certificate - Procedure for abatement.**

Special assessments of any kind certified to the county auditor by the district treasurer must be paid to the county treasurer and included in the receipt required by section 57-20-08. If the county treasurer receives less than the full amount of taxes and special assessments due at any time on any lot or tract of real estate, the county treasurer shall allocate the amount of such payment between taxes and special assessments in proportion to the respective amounts of taxes and special assessments which are then due. When prorating any tax payment received before October fifteenth, the term "due", as it pertains to real estate taxes, includes only the first installment of real estate taxes. Special assessments are not subject to abatement or refund by proceedings under chapter 57-32 but may be reviewed and corrected only in the manner and upon the conditions provided in chapter 40-26. The county treasurer, at the time set by law for the payment to the district treasurer of all the taxes and special assessments collected during the preceding month, shall certify the amounts of special assessments collected. The certificate must state specifically the lot or known subdivision as it appears on the tax books of the county treasurer; the block, addition, amount collected, and amount credited to each lot or known subdivision; and the year for which the sum was collected. The certificate must be furnished to the district treasurer.

**61-24.8-35. Interest and penalties added to special assessments - County treasurer to collect and pay over.**

The county treasurer shall add to all special assessments the same interest and penalties that are added in the case of general taxes and at the same time. The county treasurer shall collect the interest and penalties with the special assessments and shall pay all such interest and penalties collected over to the district treasurer.

**61-24.8-36. Special improvement moneys to be kept separate - Designation and numbering of funds - Diversion of moneys prohibited.**

All special assessments and taxes levied and other revenues pledged under the provisions of this chapter to pay the cost of an improvement constitute a fund for the payment of that cost, including all principal of and interest on bonds and other obligations issued by the district to finance the improvement, and may be diverted to no other purpose. The district treasurer shall hold all moneys received for any such fund as a special fund to be applied to payment for the improvement. Each fund must be designated by the name and number of the improvement district in or for which the special assessments, taxes, and revenues are collected. When all principal and interest on bonds and other obligations of the fund have been fully paid, all moneys remaining in a fund may be transferred into the general fund of the district. Any deficiency in any fund created for the payment of district bonds payable in whole or in part out of collections of special assessment taxes must be the general obligation of the district.

**61-24.8-37. Bonds - When payable - Amounts - Interest.**

At any time after entering a contract for a project to be financed in whole or in part by special assessments, the district may issue temporary and definitive bonds on the project fund created for that purpose in the manner and subject to the limitations prescribed in section 40-24-19. If the bonds are issued to finance an irrigation project, the net revenues derived from the imposition of service charges to be imposed and collected with respect to the project as provided in section 61-24.8-22 may be pledged to payment of those bonds. Bonds issued under this section must be in amounts as in the judgment of the board will be necessary for the project. The bonds must bear interest at a rate or rates and be sold at a price resulting in an average net interest cost not exceeding twelve percent per annum if sold at private sale. There is no interest rate ceiling on bond issues sold at public sale or to the state or any of its agencies or instrumentalities. The bonds must state upon their face the purpose for which they are issued and the project fund from which they are payable and must be signed by the manual or facsimile signature of the chairman of the district board and countersigned by the manual or facsimile signature of the secretary of the district. The bonds must be payable in such amounts as the board determines, extending over a period of not more than thirty years.

**61-24.8-38. Bonds may be used in making payments on contract - Bonds payable out of fund on which drawn - May be used to pay special assessments.**

Improvement bonds may be sold for cash at not less than ninety-eight percent of par and accrued interest, and the proceeds, less accrued interest, must be credited to the construction account of the fund and must be used exclusively to pay those contracts and construction costs. Any balance remaining in any construction account after completion of any project must be transferred to the sinking fund account of the assessment fund. The treasurer of the district shall pay special assessment bonds as they mature and are presented for payment out of the fund on which they are drawn and shall cancel the bonds when paid.

**61-24.8-39. Refunding special assessment bonds - Purposes for which such bonds may be issued - Payment of bonds.**

Any district having outstanding special assessment bonds, payable in whole or in part out of collections from special assessments, which are past-due or which are redeemable, either at the option of the district or with the consent of the bondholders, may issue refunding special assessment bonds if there is not sufficient money in the

project fund against which such bonds are drawn to pay the same. The issuance of refunding bonds must be authorized by resolution of the board. The resolution must describe the bonds to be refunded and their amount and maturity. Refunding bonds may be issued to extend the maturities of bonds payable in whole or in part by special assessments or to reduce the interest on the bonds. Refunding bonds must bear such date, be in such date, be in such denominations, and mature serially within such time, not exceeding thirty years from date of issuance, as the board determines. The treasurer of the district shall pay special assessment bonds as they mature and are presented for payment out of the fund against which they are drawn and shall cancel the bonds when paid.

**61-24.8-40. Foreclosure of tax lien on property when general and special assessment taxes are delinquent.**

Special assessments imposed under this chapter become due and delinquent and are subject to penalties for nonpayment at the same date and rates as first installments of real estate taxes at the same time and in the same manner as provided in title 57. If there is no delinquent general property tax against a tract or parcel of land and it is foreclosed for special assessments alone, the notice of foreclosure of tax lien must state that the foreclosure is for special assessments and a tax deed in such case must be issued in the usual course of procedure.

**61-24.8-41. Contracts for construction or maintenance of project.**

If the cost of construction or maintenance of a project does not exceed the amount provided for construction of a public improvement under section 48-01.2-02, the work may be done on a day work basis or a contract may be let without being advertised. If the costs of the construction or maintenance exceed the amount provided for construction of a public improvement under section 48-01.2-02, the board must let a contract in accordance with chapter 48-01.2.

**SECTION 3. REPORT TO STATE WATER COMMISSION.** The Garrison Diversion Conservancy District shall report periodically to the state water commission on the development and status of irrigation projects constructed under this Act.

**SECTION 4. EXPIRATION DATE.** This Act is effective through July 31, 2013, and after that date is ineffective except for projects for which all steps up to and including approval as described in section 61-24.8-14 are completed before August 1, 2013.

### HOUSE BILL NO. 1335

(Representatives Hofstad, D. Johnson, Holman)  
(Senators Oehlke, Heckaman)

AN ACT to create and enact a new section to chapter 61-28 of the North Dakota Century Code, relating to exemptions from enforcement actions for water transfers used to control flooding; and to declare an emergency.

#### BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

**SECTION 1.** A new section to chapter 61-28 of the North Dakota Century Code is created and enacted as follows:

##### Water transfers used to control flooding exempt.

1. An action may not be brought under either chapter 32-40 or 61-28 against an owner or operator of a water transfer used to control flooding for violation of the state's water pollution control laws if the water transfer:
  - a. Does not require a national pollutant discharge elimination system permit; and
  - b. Complies with the conditions in the state's water quality standards established to protect aquatic life.
2. For purposes of this section, "water transfer" means an activity that conveys or connects waters of the state without subjecting the transferred water to intervening industrial, municipal, or commercial use.
3. The exemption in subsection 1 does not apply to pollutants introduced by the water transfer activity itself to the water being transferred.
4. The owner or operator of a water transfer falling within this exemption must notify the department before beginning operations.

### HOUSE BILL NO. 1459

(Representatives Belter, Headland, Schmidt)  
(Senators Luick, Wanzek, Dotzenrodt)

AN ACT to create and enact a new subsection to section 61-21-02 and a new section to chapter 61-32 of the North Dakota Century Code, relating to subsurface drainage of water; to provide a penalty; and to declare an emergency.

#### BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

<sup>182</sup> **SECTION 1.** A new subsection to section 61-21-02 of the North Dakota Century Code is created and enacted as follows:

The installation of artificial subsurface drainage systems.

<sup>183</sup> **SECTION 2.** A new section to chapter 61-32 of the North Dakota Century Code is created and enacted as follows:

#### **Permit to drain subsurface waters - Permit form - Penalty.**

Installation of an artificial subsurface drainage system comprising eighty acres [32.37 hectares] of land area or more requires a permit. The state engineer shall develop an application form for a permit for subsurface drainage of water. A person seeking to construct an artificial subsurface drainage system must submit an application to the water resource district within which is found a majority of the land area for consideration and approval. Water resource districts may attach any necessary conditions to an approved permit, but may not deny an application unless the water resource district determines the application is of statewide significance or the proposed drainage will flood or adversely affect downstream landowners within one mile [1.61 kilometers] of the proposed subsurface drainage. Water resource districts must forward copies of all approved permits to the state engineer. Water resource districts shall determine if the application proposes drainage of statewide significance. If so, the application must be referred to the state engineer for consideration and approval, and the state engineer shall make a determination within thirty days. The permit applicant shall provide a thirty-day notice to downstream property owners within one mile [1.61 kilometers] of the proposed subsurface drainage. If an investigation by a water resource district or a downstream landowner within one mile [1.61 kilometers] shows that the proposed drainage will flood or adversely affect downstream landowners within one mile [1.61 kilometers], the water resource district may require flowage easements before issuing a permit. If an artificial subsurface drainage system drains into an assessment drain, natural watercourse, or pond, slough, or lake, a flowage easement is not required. Flowage easements must be filed for record in the office of the recorder of the county or counties in which the lands are situated. A person that installs an artificial subsurface

### SENATE BILL NO. 2280

(Senators Luick, Miller, Uglem, Wanzek)  
(Representatives Schmidt, Wall)

AN ACT to create and enact a new subsection to section 61-21-02 and a new section to chapter 61-32 of the North Dakota Century Code, relating to subsurface drainage of water; to provide a penalty; and to declare an emergency.

#### BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

<sup>184</sup> **SECTION 1.** A new subsection to section 61-21-02 of the North Dakota Century Code is created and enacted as follows:

The installation of artificial subsurface drainage systems.

<sup>185</sup> **SECTION 2.** A new section to chapter 61-32 of the North Dakota Century Code is created and enacted as follows:

#### **Permit to drain subsurface waters required - Permit form - Penalty.**

Installation of an artificial subsurface drainage system comprising eighty acres [32.37 hectares] of land area or more requires a permit. The state engineer shall develop an application form for a permit for subsurface drainage of water. A person seeking to construct an artificial subsurface drainage system must submit an application to the water resource district within which is found a majority of the land area for consideration and approval. Water resource districts may attach any necessary conditions to an approved permit, but may not deny an application unless the water resource district determines the application is of statewide significance or the proposed drainage will flood or adversely affect downstream landowners within one mile [1.61 kilometers] of the proposed subsurface drainage. Water resource districts must forward copies of all approved permits to the state engineer. Water resource districts shall determine if the application proposes drainage of statewide significance. If so, the application must be referred to the state engineer for consideration and approval, and the state engineer shall make a determination within thirty days. The permit applicant shall provide a thirty-day notice to downstream property owners within one mile [1.61 kilometers] of the proposed subsurface drainage. If an investigation by a water resource district or a downstream landowner within one mile [1.61 kilometers] shows that the proposed drainage will flood or adversely affect lands of downstream landowners within one mile [1.61 kilometers], the water resource district may require flowage easements before issuing a permit. If an artificial subsurface drainage system drains into an assessment drain, natural watercourse, or pond, slough, or lake, a flowage easement is not required. Flowage easements must be filed for record in the office of the recorder of the county or counties in which the lands are situated. A person that installs an artificial subsurface

### HOUSE BILL NO. 1206

(Representatives Skarphol, Keiser, Kreun)  
(Senators Fischer, Lyson, O'Connell)

AN ACT to create and enact chapter 61-40 of the North Dakota Century Code, relating to a western area water supply authority; to provide appropriations; to provide for loans and loan repayment; and to declare an emergency.

#### BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

**SECTION 1.** Chapter 61-40 of the North Dakota Century Code is created and enacted as follows:

#### **61-40-01. Legislative declarations - Authority of western area water supply authority.**

The legislative assembly declares that many areas and localities in western North Dakota do not enjoy adequate quantities of high-quality drinking water; that other areas and localities in western North Dakota do not have sufficient quantities of water to ensure a dependable, long-term domestic or industrial water supply; that greater economic security and the protection of health and property benefits the land, natural resources, and water resources of this state; and that the promotion of the prosperity and general welfare of all of the people of this state depend on the effective development and utilization of the land and water resources of this state and necessitates and requires the exercise of the sovereign powers of this state and concern a public purpose. To accomplish this public purpose, it is declared necessary that a water authority to treat, store, and distribute water to western North Dakota be established to provide for the supply and distribution of water to the people of western North Dakota for purposes, including domestic, rural water, municipal, livestock, industrial, oil and gas development, and other uses, and provide for the future economic welfare and prosperity of the people of this state, and particularly the people of western North Dakota, by the creation and development of a western area water supply project for beneficial and public uses. The western area water supply authority may acquire, construct, improve, develop, and own water supply infrastructure and may enter water supply contracts with member cities, water districts, and private users, such as oil and gas producers, for the sale of water for use within or outside the authority boundaries or the state. The western area water supply authority shall consider in the process of locating industrial water depots the location of private water sellers so as to minimize the impact on private water sellers.

#### **61-40-02. Western area water supply authority.**

The western area water supply authority consists of participating political subdivisions located within McKenzie, Williams, Burke, Divide, and Mountrail Counties which enter a water supply contract with the authority. Other cities and water systems, within or outside the authority counties' boundaries, including cities or water systems in Montana, may contract with the authority for a bulk water supply. The authority is a political subdivision of the state, a governmental agency, body politic and corporate, with the authority to exercise the powers specified in this chapter, or which may be reasonably implied. Participating member entities may be required to

pay dues or water sale income to the authority, as determined by the bylaws and future resolutions of the authority. Participating member entities may not withdraw from the authority or fail or refuse to pay any water sale income to the authority if the twenty-five million dollar zero interest loan from the state water commission has not been repaid.

**61-40-03. Western area water supply authority - Board of directors.**

1. The initial board of directors of the western area water supply authority consists of two representatives from each of the following entities: Williams rural water district, McKenzie County water resource district, the city of Williston, BDW water system association, and R&T water supply association. The governing body of each member entity shall select two representatives to the authority board who are water users of the member entity. If a vacancy arises for a member entity, the governing body of the member entity shall select a new representative to act on its behalf on the authority board. In addition, the state engineer or designee is a voting member on the authority's board of directors. Directors have a term of one year and may be reappointed.
2. Additional political subdivisions or water systems may be given membership on the board upon two-thirds majority vote of the existing board. To be eligible for membership on the board, the member entity must first contract with the authority for financial participation in the project.
3. A member entity may designate an alternate representative to attend meetings and to act on the member's behalf. The board may designate associate members who are nonvoting members of the board. Notwithstanding this section, except for the state engineer or designee, initial board members must be removed if they have not entered a contract with the authority, before August 1, 2013, for financial participation in the project.

**61-40-04. Board of directors - Officers - Meetings.**

1. The board of directors shall adopt such rules and bylaws for the conduct of the business affairs of the authority as it determines necessary, including the time and place of regular meetings of the board, financial participation structure for membership in the authority, and membership appointment and changes. Bylaws need to be approved by member entity boards.
2. The board shall elect from its members a chairman and a vice chairman. The board shall elect a secretary and a treasurer, which offices may be held by the same individual, and either or both offices may be held by an individual who is not a member of the board. Special meetings of the board may be called by the secretary on order of the chairman or upon written request of a majority of the qualified members of the board. Notice of a special meeting must be mailed to each member of the board at least six days before the meeting, provided that a special meeting may be held at any time when all members of the board are present or consent in writing.
3. Board members are entitled to receive as compensation an amount determined by the board not to exceed the amount per day provided members of the legislative management under section 54-35-10 and must be reimbursed for their mileage and expenses in the amount provided for by sections 44-08-04 and 54-06-09.

4. The initial board bylaws must direct board voting protocol. A weighted voting structure for board members is acceptable if the voting is based upon the volume of water purchased, the financial contributions of the stakeholder entities, or any other formula agreed by a majority of the board.
5. Before the bylaws become effective, the bylaws must be reviewed and approved by the attorney general.

#### **61-40-05. Authority of the western area water supply authority.**

In addition to authority declared under section 61-40-01, the board of directors of the western area water supply authority may:

1. Sue and be sued in the name of the authority.
2. Exercise the power of eminent domain in the manner provided by title 32 or as described in this chapter for the purpose of acquiring and securing any right, title, interest, estate, or easement necessary or proper to carry out the duties imposed by this chapter, and particularly to acquire the necessary rights in land for the construction of an entire part of any pipeline, reservoir, connection, valve, pumping installation, or other facility for the storage, transportation, or utilization of water and all other appurtenant facilities used in connection with the authority. However, if the interest sought to be acquired is a right of way for any project authorized in this chapter, the authority, after making a written offer to purchase the right of way and depositing the amount of the offer with the clerk of the district court of the county in which the right of way is located, may take immediate possession of the right of way, as authorized by section 16 of article I of the Constitution of North Dakota. Within thirty days after notice has been given in writing to the landowner by the clerk of the district court that a deposit has been made for the taking of a right of way as authorized in this subsection, the owner of the property taken may appeal to the district court by serving a notice of appeal upon the acquiring agency, and the matter must be tried at the next regular or special term of court with a jury unless a jury be waived, in the manner prescribed for trials under chapter 32-15.
3. Accept funds, property, services, pledges of security, or other assistance, financial or otherwise, from federal, state, and other public or private sources for the purpose of aiding and promoting the construction, maintenance, and operation of the authority. The authority may cooperate and contract with the state or federal government, or any department or agency of state or federal government, or any city, water district, or water system within the authority, in furnishing assurances and meeting local cooperation requirements of any project involving treatment, control, conservation, distribution, and use of water.
4. Cooperate and contract with the agencies or political subdivisions of this state or other states, in research and investigation or other activities promoting the establishment, construction, development, or operation of the authority.
5. Appoint and fix the compensation and reimbursement of expenses of employees as the board determines necessary to conduct the business and affairs of the authority and to procure the services of engineers and other technical experts, and to retain attorneys to assist, advise, and act for the authority in its proceedings.

6. Operate and manage the authority to distribute water to authority members and others within or outside the territorial boundaries of the authority and this state.
7. Hold, own, sell, or exchange any and all property purchased or acquired by the authority. All money received from any sale or exchange of property must be deposited to the credit of the authority and may be used to pay expenses of the authority.
8. Enter contracts to obtain a supply of bulk water through the purchase of infrastructure, bulk water sale or lease, which contracts may provide for payments to fund some or all of the authority's costs of acquiring, constructing, or reconstructing one or more water supply or infrastructure.
9. Acquire, construct, improve, and own water supply infrastructure, office and maintenance space in phases, in any location, and at any time.
10. Enter contracts to provide for a bulk sale, lease, or other supply of water for beneficial use to persons within or outside the authority. The contracts may provide for payments to fund some or all of the authority's costs of acquiring, constructing, or reconstructing one or more water system projects, as well as the authority's costs of operating and maintaining one or more projects, whether the acquisition, construction, or reconstruction of any water supply project actually is completed and whether water actually is delivered pursuant to the contracts. The contracts the cities, water districts, and other entities that are members of the western area water supply authority are authorized to execute are without limitation on the term of years.
11. Borrow money as provided in this chapter.
12. Make all contracts, execute all instruments, and do all things necessary or convenient in the exercise of its powers or in the performance of its covenants or duties or in order to secure the payment of its obligations, but an encumbrance, mortgage, or other pledge of property of the authority may not be created by any contract or instrument.
13. Accept from any authorized state or federal agency loans or grants for the planning, construction, acquisition, lease, or other provision of a project, and enter agreements with the agency respecting the loans or grants.
14. Contract debts and borrow money, pledge property of the authority for repayment of indebtedness, and provide for payment of debts and expenses of the authority.
15. Operate and manage the authority to distribute water to any out-of-state cities or water systems that contract with the authority.
16. Accept, apply for, and hold water allocation permits.
17. Adopt rules concerning the planning, management, operation, maintenance, sale, and ratesetting regarding water sold by the authority. The authority may adopt a rate structure with elevated rates set for project industrial water supplies in recognition that a large component of the project expense is being incurred to meet the demands of industrial users.

18. Develop water supply systems; store and transport water; and provide, contract for, and furnish water service for domestic, municipal, and rural water purposes; milling, manufacturing, mining, industrial, metallurgical, and any and all other beneficial uses; and fix the terms and rates therefore. The authority may acquire, construct, operate, and maintain dams, reservoirs, ground water storage areas, canals, conduits, pipelines, tunnels, and any and all treatment plants, works, facilities, improvements, and property necessary the same without any required public vote before taking action.
19. Contract to purchase or improve water supply infrastructure or to obtain bulk water supplies without requiring any vote of the public on the projects or contracts. In relation to the initial construction of the system and for the purposes of entering a contract with the authority, municipalities are exempt from the public voting requirements or water contract duration limitations otherwise imposed by section 40-33-16.
20. Accept assignment by member entities of contracts that obligate member entities to provide a water supply, contracts that relate to construction of water system infrastructure, or other member entity contracts that relate to authorities transferred to the authority under this chapter.

#### **61-40-06. Oversight of authority projects.**

The authority shall comply with the policy of the state water commission as the policy relates to bidding, planning, and construction of the project. The policy must include provisions for insurance, including general liability insurance, in adequate amounts. The authority shall report to and consult with the state water commission regarding the operation and financial status of the project, as requested by the state water commission. In relation to initial construction of the system and debt repayment, the authority shall present the overall plan and contract plans and specifications for the project to the state water commission for approval. The attorney general shall assist the authority at the request of the state water commission. If the twenty-five million dollar zero interest loan from the state water commission has not been repaid, without the written consent of the state water commission the authority may not sell, lease, abandon, encumber, or otherwise dispose of any part of property used in a water system of the authority if the property is used to provide revenue.

#### **61-40-07. Easement granted for pipelines and appurtenant facilities on any public lands.**

In connection with the construction and development of the project, there is granted over all the lands belonging to the state, including lands owned or acquired for highway right-of-way purposes, a right of way for pipelines, connections, valves, and all other appurtenant facilities constructed as part of the project. However, the director of the department of transportation and the state engineer must approve the plans of the authority with respect to the use of right of way of roads before the grant becomes effective.

#### **61-40-08. Proceedings to judicially confirm contracts and other acts.**

The authority, before making any contract or taking any special action, may commence a special proceeding in district court by which the proceeding leading up to the making of such contract or leading up to any other special action must be examined, approved, and confirmed. The judicial proceedings must comply substantially with the procedure required in the case of judicial confirmation of proceedings, acts, and contracts of an irrigation district.

### **61-40-09. Default.**

If the authority is in default in the payment of the principal of or interest on any of the obligations of the authority under this chapter and if the budget section determines that the authority is unable to reimburse the state in the time period required by the budget section, the budget section may give written notice to the governing board of the authority that the state has taken possession and ownership of the water system of the authority and the liabilities of the authority. In addition, the state assumes the powers of the authority. If the authority is in default in the payment of the principal of or interest on the obligation to the Bank of North Dakota for a loan for which the Bank of North Dakota is the source of funds for the loan, the state water commission shall request funding from the legislative assembly to repay the principal and interest due. Upon written notice, the members of the governing board of the authority are immediately removed, and the state water commission is the governing board from the date of notice. If the state water commission determines that governance, possession, and ownership of the water system is not necessary for the authority to be able to reimburse the state in the necessary time period, the state water commission may develop a plan to return governance, possession, and ownership to the authority, subject to approval of the plan by the budget section.

**SECTION 2. LOANS FROM BANK OF NORTH DAKOTA AND STATE WATER COMMISSION.** The Bank of North Dakota shall provide a loan of \$50,000,000 to the western area water supply authority for construction of the project. The terms and conditions of the loan must be negotiated by the western area water supply authority and the Bank of North Dakota. However, the term of the loan is a maximum of seven years after June 30, 2014. The state water commission shall make available from funding appropriated to the commission for the 2011-13 biennium \$25,000,000 as a zero interest loan to the western area water supply authority, and the Bank of North Dakota shall manage this loan. The maximum term of this loan is five years from the completion of the \$10,000,000 loan from the resources trust fund.

**SECTION 3. APPROPRIATION.** There is appropriated out of any moneys in the general fund in the state treasury, not otherwise appropriated, the sum of \$25,000,000 or so much of the sum as may be necessary, to the Bank of North Dakota for the purpose of providing a loan to the western area water supply authority for a maximum term of eight years from the completion of the \$50,000,000 loan from the Bank of North Dakota and at five percent interest per year, for the biennium beginning July 1, 2011, and ending June 30, 2013.

**SECTION 4. APPROPRIATION.** There is appropriated out of any moneys in the resources trust fund in the state treasury, not otherwise appropriated, the sum of \$10,000,000, or so much of the sum as may be necessary, to the Bank of North Dakota for the purpose of providing a loan to the western area water supply authority for a maximum term of two years from the completion of the \$25,000,000 loan from the general fund and at five percent interest per year, for the biennium beginning July 1, 2011, and ending June 30, 2013.

**SECTION 5. LOAN FUNDING AND REPAYMENT PRIORITY.** Funding from sections 2, 3, and 4 of this Act must be structured so that funding is provided, as needed, first from the \$25,000,000 zero interest loan from the state water commission, second from the \$50,000,000 loan from the Bank of North Dakota, third from the \$25,000,000 loan from the general fund, and last from the \$10,000,000 loan from the resources trust fund. Repayment of loans must be structured so that repayment is first of the \$50,000,000 loan from the Bank of North Dakota, second of the \$25,000,000 loan from the general fund for deposit of the principal in the general fund and interest in the resources trust fund, third from the \$10,000,000 loan from the

resources trust fund for deposit in the resources trust fund, and last of the \$25,000,000 zero interest loan from the state water commission for deposit in the resources trust fund. The western area water supply authority shall repay the loans for the project from revenues from the project, and the authority may prepay loans within the priority without penalty. Upon repayment of the state water commission zero interest loan, the authority shall provide five percent of the net profits to the state water commission for deposit by the state treasurer in the resources trust fund until June 30, 2040.

**SECTION 6. SECOND PHASE ANTICIPATED FUNDING.** At the request of the western area water supply authority, the state water commission shall consider a loan of \$40,000,000 from the resources trust fund for inclusion within the state water commission's budget. The state water commission shall consult and work cooperatively with the water-related topics overview committee in setting the priority of the loan within the budget.

  - b. Make a verbal or written inquiry regarding the presence of a firearm inside or locked to a private motor vehicle in a parking lot or make an actual search of a private motor vehicle in a parking lot to ascertain the presence of a firearm within the vehicle. In any successful action brought by a customer, employee, or invitee aggrieved under this section, the court shall award all reasonable personal costs and losses suffered by the aggrieved person as a result of the violation of rights under this section.     - e. A motor vehicle owned, leased, or rented by a public or private employer or the landlord of a public or private employer.

### SENATE BILL NO. 2089

(Industry, Business and Labor Committee)  
(At the request of Workforce Safety and Insurance)

AN ACT to amend and reenact section 65-01-11 of the North Dakota Century Code, relating to burden of proof in compensation matters; and to provide for application.

#### BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

**SECTION 1. AMENDMENT.** Section 65-01-11 of the North Dakota Century Code is amended and reenacted as follows:

#### **65-01-11. Burden of proof in compensation matters - Death certificate.**

If the organization or an employer claims that an employee is not entitled to the benefits of the North Dakota workforce safety and insurance law because the employee's injury was caused by the employee's willful intention to cause self-injury, or to injure another, or by reason of the voluntary impairment caused by use of alcohol or illegal use of a controlled substance by the employee, the burden of proving the exemption or forfeiture is upon the organization or upon the person alleging the same; however, an alcohol concentration level at or above the limit set by the United States secretary of transportation in 49 CFR 383.54 ~~the Code of Federal Regulations in effect on August 1, 2011,~~ or a level of an illegally used controlled substance sufficient to cause impairment found by a test ~~required~~ conducted by a physician, qualified technician, chemist, or registered nurse ~~and performed as required by the United States secretary of transportation under 49 CFR part 40,~~ at or above the cutoff level in part 40 ~~the Code of Federal Regulations in effect on August 1, 2011,~~ creates a rebuttable presumption that the injury was due to impairment caused by the use of alcohol or the illegal use of a controlled substance. An employer who has a mandatory drug alcohol testing policy for work accidents, or an employer or a doctor who has reasonable grounds to suspect an employee's alleged work injury was caused by the employee's voluntary impairment caused by use of alcohol or illegal use of a controlled substance may request that the employee undergo testing to determine if the employee had alcohol or the controlled substance in the employee's system at levels greater than the limit set by the United States department of transportation at the time of the injury. If an employee refuses to submit to a reasonable request to undergo a test to determine if the employee was impaired or if an employee refuses to submit to a test for drugs or alcohol after a work accident as mandated by company policy, the employee forfeits all entitlement to workforce safety and insurance benefits arising out of that injury. Any claimant against the fund, however, has the burden of proving by a preponderance of the evidence that the claimant is entitled to benefits. If a claim for death benefits is filed, the official death

certificate must be considered as evidence of death and may not be used to establish the cause of death.

**SECTION 2. APPLICATION.** This Act applies to all claims regardless of date of injury.

### HOUSE BILL NO. 1051

(Legislative Management)  
(Workers' Compensation Review Committee)

AN ACT to amend and reenact section 65-05-09.3 of the North Dakota Century Code, relating to workers' compensation benefits upon attaining retirement age; and to provide for application.

#### BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

**SECTION 1. AMENDMENT.** Section 65-05-09.3 of the North Dakota Century Code is amended and reenacted as follows:

**65-05-09.3. Retirement presumption - Termination of benefits upon retirement.**

1. An employee who has retired or voluntarily withdrawn from the labor force and who, at that time, was not eligible to receive temporary total disability, temporary partial disability, or permanent total disability benefits; or to receive a rehabilitation allowance from the organization is presumed retired from the labor market. The presumption may be rebutted by a preponderance of the evidence; however, the subjective statement of an employee that the employee is not retired is not sufficient in itself to rebut objective evidence of retirement.
2. An injured employee who begins receiving social security retirement benefits or other retirement benefits in lieu of social security retirement benefits; or who attains retirement age for social security retirement benefits, unless the employee proves the employee is not eligible to receive social security retirement benefits or other benefits in lieu of social security retirement benefits, is considered retired. The organization may not pay any disability benefits, rehabilitation benefits, or supplementary benefits to an employee who is considered retired; however, the employee remains eligible for medical benefits, permanent partial impairment benefits, and the additional benefit payable under section 65-05-09.4.
3. The organization retains liability for disability benefits, rehabilitation benefits, permanent partial impairment benefits, and medical benefits for an injured employee who is receiving social security retirement benefits or other retirement benefits in lieu of social security retirement benefits or who attains retirement age for social security retirement benefits, unless the employee is not eligible to receive social security retirement benefits or other benefits in lieu of social security retirement benefits, and who is gainfully employed and who suffers an injury arising out of and in the course of that employment. The organization may not pay disability or rehabilitation benefits under this subsection for more than three years, subject to section 65-05-09.2, for injuries occurring after August 1, 1997.
4. If an employee is injured within the two years preceding the employee's presumed retirement date, the organization shall pay disability benefits.

rehabilitation benefits, or a combination of both benefits for no more than two years. If the duration of disability benefits, rehabilitation benefits, or a combination of both benefits extends beyond the presumed retirement date, the organization shall convert the benefit to an additional benefit payable at the date the disability ends or when two years of benefits have been paid, whichever occurs first.

5. This section applies to ~~all persons~~ an individual who ~~begin~~ begins receiving social security retirement benefits or other retirement benefits in lieu of social security retirement benefits; or who ~~attain~~ attains retirement age for social security retirement benefits unless the employee proves the employee is not eligible to receive social security retirement benefits or other benefits in lieu of social security retirement benefits, after July 31, 1995.

**SECTION 2. APPLICATION.** This Act applies to an injured employee who attains retirement age for purposes of social security retirement on or after the effective date of this Act.

### HOUSE BILL NO. 1055

(Legislative Management)  
(Workers' Compensation Review Committee)

AN ACT to amend and reenact section 65-05-12.2 of the North Dakota Century Code, relating to workers' compensation permanent partial impairment benefits; and to provide for application.

#### BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

**SECTION 1. AMENDMENT.** Section 65-05-12.2 of the North Dakota Century Code is amended and reenacted as follows:

#### **65-05-12.2. Permanent impairment - Compensation - Time paid.**

A permanent impairment is not intended to be a periodic payment and is not intended to reimburse the employee for specific expenses related to the injury or wage loss. If a compensable injury causes permanent impairment, the organization shall determine a permanent impairment award on the following terms:

- ~~1. If the compensable injury causes permanent impairment and the permanent impairment award payable by the organization is at least two thousand dollars, the injured employee may defer payment of the permanent impairment award for a period of time not to exceed the date the employee reaches age sixty five. A permanent impairment award payable by the organization under this subsection must be paid to the employee in a lump sum that consists of the amount of the award plus any interest that has accrued at the actuarial discount rate in use by the organization. The actuarial discount rate applied to the award is the average actuarial discount rate in effect for the period of deferment of the employee's award. The organization shall adopt rules implementing any necessary procedures for award payments made under this subsection.~~
- ~~2.~~ The organization shall calculate the amount of the award by multiplying ~~thirty three and one third~~thirty-five percent of the average weekly wage in this state on the date of the impairment evaluation, rounded to the next highest dollar, by the permanent impairment multiplier specified in subsection 10.
- ~~3-2.~~ The organization shall notify the employee by certified mail, to the last-known address of the employee, when that employee becomes potentially eligible for a permanent impairment award. After the organization has notified the employee, the employee shall file, within one hundred eighty days from the date the employee was notified, a written request for an evaluation for permanent impairment. Failure to file the written request within the one hundred eighty-day period precludes an award under this section.
- ~~4-3.~~ An injured employee is entitled to compensation for permanent impairment under this section only for those findings of impairment that are permanent and which were caused by the compensable injury. The organization may not issue an impairment award for impairment findings due to unrelated,

noncompensable, or preexisting conditions, even if these conditions were made symptomatic by the compensable work injury, and regardless of whether section 65-05-15 applies to the claim.

- 5.4. An injured employee is eligible for an evaluation of permanent impairment only when all conditions caused by the compensable injury have reached maximum medical improvement. The injured employee's doctor shall report to the organization the date an employee has reached maximum medical improvement and any evidence of impairment of function the injured employee has after that date. If the report states that the employee is potentially eligible for a permanent impairment award, the organization shall conduct a review and provide notice to the employee as provided by subsection 32. If the injured employee files a timely written request under subsection 32, the organization shall schedule an impairment evaluation by a doctor qualified to evaluate the impairment.
- 6.5. A doctor evaluating permanent impairment shall include a clinical report in sufficient detail to support the percentage ratings assigned. The organization shall adopt administrative rules governing the evaluation of permanent impairment. These rules must incorporate principles and practices of the ~~fifth~~sixth edition of the American medical association's "Guides to the Evaluation of Permanent Impairment" modified to be consistent with North Dakota law, to resolve issues of practice and interpretation, and to address areas not sufficiently covered by the guides. Subject to rules adopted under this subsection, impairments must be evaluated under the ~~fifth~~sixth edition of the guides.
- 7.6. The organization shall deduct, on a ~~whole-body~~permanent multiplier basis, from an award for impairment under this section, any previous impairment award ~~for that same member or body part~~ under the workers' compensation laws of any jurisdiction.
- 8.7. An injured employee is not entitled to a permanent impairment award due solely to pain.
8. Other than an award identified in subsection 11, an award may not be issued unless specifically identified and quantified within the sixth edition of the American medical association's "Guides to the Evaluation of Permanent Impairment".
9. If an employee dies, the right to any compensation payable pursuant to an impairment evaluation previously requested by the employee under subsection 32, which remains unpaid on the date of the employee's death, survives and passes to the employee's dependent spouse, minor children, parents, or estate, in that order. If the employee dies, only those findings of impairment which are objectively verifiable such as values for surgical procedures and amputations may be considered in a rating for impairment. Impairment findings not supported by objectively verifiable evidence may not be included in a rating for impairment. The deceased employee's dependents or representatives shall request an impairment award under this subsection within one year from the date of death of the employee.
10. If the injury causes permanent impairment, the award must be determined based on the percentage of whole body impairment in accordance with the following schedule:

For one to <del>fifteen</del> <u>thirteen</u> percent impairment	permanent impairment multiplier of 0
<u>For fourteen percent impairment</u>	<u>permanent impairment multiplier of 10</u>

The Honorable Drew Wrigley  
Senate Chambers  
President of the Senate  
State Capitol  
Bismarck, ND 58505

RE: Senate Bill 2015

Dear President Wrigley:

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have vetoed Sections 12, 25, and 31 of Senate Bill 2015 and returned it to the Senate.

Section 12 is vetoed because it would infringe upon the executive authority of the Governor to submit proposed legislative initiatives to the Legislature. Article V, Section 7 of the North Dakota Constitution states: the "governor shall present information on the condition of the state, together with any recommended legislation, to every regular and special session of the legislative assembly." "As all of the

branches derive their authority from the same constitution, there is an implied exclusion of each branch from the exercise of the functions of the others." City of Carrington v. Foster County, 166 N.W.2d 377, 382 (N.D. 1969). The primary function of the executive branch is to manage the affairs of the state, including the careful budgeting of resources. This budgeting process necessarily involves making recommendations to the Legislature that contain executive branch assessments of the amount and preferred allocation of resources needed to fulfill legislative policies. Section 12 would impermissibly mandate the manner in which the executive carries out its constitutional responsibilities and is therefore unconstitutional.

Section 25 is vetoed because it would require OMB approval of any change order or expenses which exceed the bid amount on state contracts. Large projects have numerous change orders, ranging from insignificant adjustments having little fiscal impact to significant changes that warrant more review and oversight. If this section were enacted, OMB would have to review and approve hundreds of funding requests each quarter that would typically be handled by statewide elected officials and agency directors. This process would be inefficient, ineffective, and unworkable, with the inevitable result of project delays and increased costs for all parties. With respect to higher education projects, certain requirements addressing this issue have been established in other provisions of the North Dakota Century Code. For example, Senate Bill 2323, enacted during the 2011 legislative session, requires monthly variance reports to the Director of the Office of Management and Budget for higher education construction projects budgeted for over \$250,000. These monthly reports are made available to the Budget Section upon request. The variance reports must include the amount of any change orders, as well as the amount of any potential or anticipated change orders. Reporting change orders in this manner retains sufficient oversight over projects while not imposing needless administrative burdens that Section 25 would have required.

Section 31 is vetoed because it requires the Department of Commerce to seek emergency commission and budget section approval before awarding or spending funds for tourism infrastructure grants. The Supreme Court has provided that except "as otherwise provided in the constitution, the Legislature may not delegate legislative powers to others, including a subset of its members...." Kelsh v. Jaeger, 641 N.W.2d 100 ¶21 (N.D. 2002). The Legislature may delegate certain powers to ascertain fact; however, the full legislature "must set forth reasonably clear guidelines to enable the appropriate body to ascertain the facts." Id. Section 18 of Senate Bill 2057 contains the \$750,000 appropriation for tourism infrastructure grants, stating only that "[t]he department of commerce shall use \$750,000 of these funds for tourism infrastructure grants." This delegation of decision-making authority to the budget section would constitute an impermissible delegation of legislative powers to a subset of the Legislature's members.

For these reasons, I have vetoed Sections 12, 25, and 31 of Senate Bill 2015.

Sincerely,

Jack Dalrymple  
Governor

### SENATE BILL NO. 2020

(At the request of the Governor)

AN ACT to provide an appropriation for defraying the expenses of the state water commission; to create and enact a new subsection to section 11-37-02 and a new section to chapter 61-04 of the North Dakota Century Code, relating to joint powers entities and commerce authorities and metering certain water sources; to amend and reenact subsection 2 of section 11-37-03, section 11-37-04, subsection 8 of section 11-37-06, and subsection 1 of section 11-37-08 of the North Dakota Century Code and section 7 of chapter 20 of the 2009 Session Laws, relating to conversion of joint powers entities to commerce authorities and additional powers of commerce authorities and Fargo flood control project funding; to provide exemptions; to provide a transfer; to repeal section 5 of chapter 535 of the 1999 Session Laws, relating to pledge of revenues from the Grand Forks corporate center; to provide legislative intent; to provide for retroactive application; to provide for application; to provide an expiration date; and to declare an emergency.

The Honorable Drew Wrigley  
President, ND Senate

RE: Senate Bill 2020

Dear President Wrigley:

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have vetoed Sections 9 and 15 of Senate Bill 2020 and returned it to the Senate.

Sections 9 and 15 are vetoed because they would enact an unworkable metering regime that is not well suited to serve the needs of the state. The State Water Commission is in the best position to develop and enforce an efficient, effective system of water metering, including sealed meters, regular reporting, periodic compliance checks, and appropriate administrative oversight. The installation of remote metering devices mandates a system that may be more susceptible to tampering or circumvention than more conventional metering and reporting systems. Furthermore, the State Water Commission is the appropriate entity to devise penalties adequate to deter water permit violations and enforce proper use of water meters. Each of these objectives may be achieved administratively without the need for the \$500,000 of project funds specified in Section 9, an amount I am concerned may grow significantly if a remote metering program were expanded statewide.

Therefore, sections 9 and 15 of Senate Bill 2020 are vetoed because the State Water Commission will be better able to administer an effective, efficient statewide water meter system that will best serve the public long term.

Sincerely,

Jack Dalrymple  
Governor

**WHEREAS**, in 2006 the National Conference of Commissioners on Uniform State Laws approved and recommended for enactment in all states the Revised Uniform Limited Liability Company Act, which revises the Uniform Limited Liability Company Act; and

**WHEREAS**, historically, North Dakota's business entity laws have been drafted with the cooperation and input of interested persons, including the Secretary of State, and have taken into account the business entity laws of Minnesota; and

A concurrent resolution to recognize February 6, 2011, as "Ronald Reagan Day" in North Dakota.

**WHEREAS**, President Ronald Wilson Reagan, a man of humble background, worked throughout his life serving freedom and advancing the public good, having been employed as an entertainer, union leader, corporate spokesman, Governor of California and President of the United States; and

**WHEREAS**, Ronald Reagan served with honor and distinction for two terms as the 40<sup>th</sup> president of the United States of America, the second of which he earned the confidence of 3/5 of the electorate and was victorious in 49 of the 50 states in the general election--a record unsurpassed in the history of American presidential elections; and

**WHEREAS**, in 1981, when Ronald Reagan was inaugurated President, he inherited a disillusioned nation shackled by rampant inflation and high unemployment; and

### HOUSE CONCURRENT RESOLUTION NO. 3015

(Representatives Kasper, Headland, Keiser, Thoreson, Weiler)  
(Senator Wardner)

A concurrent resolution reaffirming North Dakota's sovereignty under the 10<sup>th</sup> Amendment to the Constitution of the United States and to demand the federal government halt its practice of assuming powers and imposing mandates on the states for purposes not enumerated in the Constitution of the United States.

**WHEREAS**, the 10<sup>th</sup> Amendment to the Constitution of the United States reads as follows: "The powers not delegated to the United States by the Constitution, nor prohibited by it to the states, are reserved to the states respectively, or to the people"; and

**WHEREAS**, the 10<sup>th</sup> Amendment defines the total scope of federal power as being that specifically granted by the Constitution of the United States and no more; and

**WHEREAS**, the scope of power defined by the 10<sup>th</sup> Amendment means that the federal government was created by the states and the powers of the federal government are limited and enumerated; and

**WHEREAS**, in 2011 the states are demonstrably treated as agents of the federal government; and

**WHEREAS**, many federal laws are directly in violation of the 10<sup>th</sup> Amendment to the Constitution of the United States; and

**WHEREAS**, the 10<sup>th</sup> Amendment assures that we, the people of the United States of America and each sovereign state in the Union of States, now have, and have always had, rights the federal government may not usurp; and

**WHEREAS**, the United States Supreme Court ruled in *New York v. United States*, 112 S. Ct. 2408 (1992) that Congress may not simply commandeer the legislative and regulatory processes of the states; and

**WHEREAS**, a number of proposals from previous administrations and some now pending from the present administration and from Congress may further violate the Constitution of the United States; and

**WHEREAS**, the Sixty-first Legislative Assembly affirmed this state's sovereignty under the 10<sup>th</sup> Amendment to the Constitution of the United States;

**NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:**

That the Sixty-second Legislative Assembly reaffirms this state's sovereignty under the 10<sup>th</sup> Amendment to the Constitution of the United States over all powers not otherwise enumerated and granted to the federal government by the Constitution of the United States and continues its demand that the federal government halt its practice of assuming powers and imposing mandates upon the states for purposes not enumerated in the Constitution of the United States; and

**BE IT FURTHER RESOLVED**, that this resolution serves as notice and demand to the federal government to cease and desist, effective immediately, mandates that are beyond the scope of constitutionally delegated powers; and

**BE IT FURTHER RESOLVED**, that all compulsory federal legislation that directs states to comply under threat of civil or criminal penalties or sanctions or requires states to pass legislation or lose federal funding be prohibited or repealed; and

**BE IT FURTHER RESOLVED**, that the Secretary of State forward copies of this resolution to the President of the United States, each justice of the Supreme Court of the United States, each judge in the United States Court of Appeals for the Eighth Circuit, the President of the United States Senate, the Speaker of the United States House of Representatives, and to each member of the North Dakota Congressional Delegation.

## CHAPTER 533

### HOUSE CONCURRENT RESOLUTION NO. 3016

(Representatives Kasper, Headland, Kempenich, Sukut, Weiler)  
(Senator Klein)

A concurrent resolution urging Congress to repeal the Patient Protection and Affordable Care Act.

**WHEREAS**, the United States Congress passed and the President signed into law the Patient Protection and Affordable Care Act on March 23, 2010; and

**WHEREAS**, the Patient Protection and Affordable Care Act, as amended by the Health Care and Education Reconciliation Act of 2010, comprises comprehensive federal health care reform legislation, which is commonly referred to as the Affordable Care Act; and

**WHEREAS**, this law is likely to increase health care costs, raise taxes, negatively affect senior citizens, reduce the quality of care that Americans will receive, limit consumer choice in accessing private health insurance, and may reduce the ability of American companies to compete; and

**WHEREAS**, the law may constrain the freedom of individuals to choose their own doctor and may interfere with individuals' ability to make personal health care decisions; and

**WHEREAS**, a government-controlled health care system is likely to increase spending for health care and result in the risk of policymakers rationing care as a cost-containment measure; and

**WHEREAS**, according to the Congressional Budget Office, the law could cause millions of Americans who receive health insurance through their employer to lose their health insurance coverage and also result in premiums in the individual and small group markets to substantially increase; and

**WHEREAS**, the United States Department of Health and Human Services will dictate what benefits insurers must offer and how much to charge; and

**WHEREAS**, because reimbursement for health care providers treating patients on Medicare and Medicaid is often less than the cost of providing the care, additional reductions in Medicare and Medicaid reimbursement may further contribute to health care provider shortages; and

**WHEREAS**, the law will increase taxes on employers who do not offer adequate insurance and will increase taxes on investment income, which in turn will reduce capital available for job expansion, reduce economic growth, and result in fewer jobs for Americans; and

**WHEREAS**, the law may harm seniors by making cuts from the Medicare budget and causing seniors to lose the health insurance coverage they currently possess; and

**WHEREAS**, the provisions of the law will add to the national debt; and

**WHEREAS**, the provisions of the law aimed at reducing health care spending address the symptoms of the cost of health care rather than the root causes of growth in health care spending;

**NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:**

That the Sixty-second Legislative Assembly urges Congress to repeal the Patient Protection and Affordable Care Act; and

**BE IT FURTHER RESOLVED**, that the Secretary of State forward copies of this resolution to each member of the North Dakota Congressional Delegation.

## CHAPTER 534

### HOUSE CONCURRENT RESOLUTION NO. 3019

(Representatives Schmidt, Carlson, Hofstad, Porter)  
(Senators Schaible, Stenehjem)

A concurrent resolution urging the United States Army Corps of Engineers to immediately cease wrongful denial of access and wrongful requirement of payment for the natural flows of the Missouri River.

**WHEREAS**, the Pick-Sloan Project, as authorized in the Flood Control Act of 1944, as amended, provides major flood control benefits, recreational benefits, water supply benefits, hydropower benefits, and navigational benefits for the downstream states of Iowa, Nebraska, Missouri, and Kansas through construction of large reservoirs in the state's lying upstream from these states; and

**WHEREAS**, the Pick-Sloan Project reservoirs have been in place for many years, thus providing downstream states in the Missouri River Basin all the benefits promised in the Pick-Sloan Project; and

**WHEREAS**, the state of North Dakota lost more than 500,000 acres of valuable river bottom lands as a result of construction of the Missouri River reservoirs and the Flood Control Act of 1944, causing an annual loss of millions of dollars in economic gross product and an additional annual loss in personal income as well as other serious impacts to individuals, political subdivisions, and North Dakota's Indian nations; and

**WHEREAS**, the United States Army Corps of Engineers, through the Surplus Water Report, is clearly challenging the state of North Dakota and the upper basin states' rights to access the states' natural flows; and

**WHEREAS**, the Flood Control Act of 1944, as amended in 1958, limits any repayment requirement by any water user for a term not to exceed 50 years; and

**WHEREAS**, in contradiction to the Dakota Water Resources Act of 2000 and the 1958 Water Supply Act, the United States Army Corps of Engineers is forcing reimbursement of nonreimbursable costs by withholding review of future easement applications; and

**WHEREAS**, before the dams were constructed, the Missouri River provided ample water; and

**WHEREAS**, the natural flows of the Missouri River, even during the lowest flow periods, were and continue to be more than plentiful for the needs of North Dakota; and

**WHEREAS**, the natural flows of the Missouri River through Lake Sakakawea and Lake Oahe are not, and should not be, considered stored water; and

**WHEREAS**, any attempt by the United States Army Corps of Engineers to impose a storage fee and deny water users in the state to access the natural flows of the Missouri River is misguided;

**NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:**

That the Sixty-second Legislative Assembly urges the United States Army Corps of Engineers to immediately cease wrongful denial of access and wrongful requirement of payment for the natural flows of the Missouri River; and

**BE IT FURTHER RESOLVED**, that the Secretary of State forward copies of this resolution by certified mail with return receipt to the President of the United States; the Majority Leader of the United States Senate; the Minority Leader of the United States Senate; the Majority Leader of the United States House of Representatives; the Minority Leader of the United States House of Representatives; the Speaker of the United States House of Representatives; the District Engineer, Omaha District, United States Army Corps of Engineers; the Division Commander of the Northwestern Division of the United States Army Corps of Engineers; the Secretary of the Army; the Secretary of the Interior; the Governor; the Attorney General; each member of the State Water Commission; and each member of the North Dakota Congressional Delegation.

**WHEREAS**, the duty to enforce the provisions of law relating to the protection and use of public highways in this state and the operation of motor vehicles on the highways was expanded to include the enforcement of all criminal laws on highways in 1967; and

**WHEREAS**, the responsibilities of the Highway Patrol were expanded to include the operation of the law enforcement training center in 1971; and

**WHEREAS**, all security duties for the Capitol were placed under the direction of the Highway Patrol in 2005; and

**WHEREAS**, since 1962 the Highway Patrol has provided two troopers to attend the American Legion's North Dakota Boys State as counseling staff; and

**WHEREAS**, the Highway Patrol and the North Dakota Motor Carriers Association are jointly involved in selecting the trooper of the year and the motor carrier driver of the year;

**NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:**

That the Sixty-second Legislative Assembly congratulates the North Dakota Highway Patrol on its 75<sup>th</sup> anniversary; and

### HOUSE CONCURRENT RESOLUTION NO. 3021

(Representatives Heller, Delzer, Kreidt, Wrangham)  
(Senators Christmann, Freborg)

A concurrent resolution urging the Citizen's Stamp Advisory Committee of the United States Postal Service to issue a commemorative stamp honoring coal miners and their contributions to our nation.

**WHEREAS**, our entire nation owes our coal miners a great deal more than we could ever repay them for the difficult and dangerous work which they perform so that the people of this nation can have the fuel we need to operate our industries and to heat our homes; and

**WHEREAS**, coal mining is as much a culture as it is an industry; and

**WHEREAS**, miners sacrifice life and limb with little recognition and it would be proper and fitting for our nation to recognize our coal miners, past and present, for their contributions; and

**WHEREAS**, the coal industry in this state employs over 4,000 workers;

**NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:**

That the Sixty-second Legislative Assembly urges the Citizen's Stamp Advisory Committee of the United States Postal Service to issue a commemorative stamp honoring coal miners and their contributions to our nation; and

## CHAPTER 537

### HOUSE CONCURRENT RESOLUTION NO. 3022

(Representatives Headland, Thoreson, S. Meyer)  
(Senators Burckhard, Christmann, Dotzenrod)

A concurrent resolution urging the Federal Communications Commission to make substantive changes to the National Broadband Plan so that the plan does not limit the future economic livelihood and social well-being of rural consumers.

**WHEREAS**, North Dakotans living in rural areas deserve and expect the same high-quality, affordable communications services that are available to their urban neighbors; and

**WHEREAS**, rural businesses, farmers, and ranchers compete in the global marketplace and depend on affordable access to robust broadband services to market and sell products around the world, similar to businesses in urban areas; and

**WHEREAS**, children living in rural areas should have the same educational opportunities as their urban counterparts and high-speed Internet access is absolutely necessary to allow these students opportunities for advanced learning through distance education; and

**WHEREAS**, residents living in rural areas face unique health care challenges because of the distances that must be traveled to seek basic and advanced medical care and telemedicine, and telehealth delivered via broadband networks can improve the health of rural residents by reducing the time and travel needed for high-quality health care; and

**WHEREAS**, many rural areas encounter significant challenges in pursuing and sustaining economic development plans that bring quality, higher-paying jobs to their communities, and insufficient robust broadband speeds will further hamper the economic development needs of many rural communities; and

**WHEREAS**, the United States Department of Agriculture rightfully has placed significant importance on the need for broadband access in rural America to improve the quality of life and economic development; and

**WHEREAS**, communications providers that serve this state's small towns and rural areas have done an outstanding job of ensuring their consumers have access to affordable, reliable broadband services through the assistance of the federal universal service fund and the United States Department of Agriculture Rural Utilities Service loan and grant programs; and

**WHEREAS**, contrary to the success many small, rural communications providers have had in deploying broadband, the Federal Communications Commission is embarking on a National Broadband Plan that will negatively impact the ability of rural North Dakotans to realize the true benefits of access to robust broadband speeds by

limiting support to four megabits per second in rural, high-cost areas of the country, while calling for 100 million urban homes to have access to broadband speeds at 100 megabits per second by 2020; and

**WHEREAS**, the National Broadband Plan runs counter to the federal policy of universal service which ensures access to comparable communications services at roughly similar costs regardless of the location of the consumer;

**NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:**

That the Sixty-second Legislative Assembly of North Dakota urges the Federal Communications Commission to make substantive changes to the National Broadband Plan so that the plan does not limit the future economic livelihood and social well-being of rural consumers; and

**BE IT FURTHER RESOLVED**, that the Sixty-second Legislative Assembly of North Dakota encourages the North Dakota Congressional Delegation to work with the Federal Communications Commission to ensure the understanding of the importance of a robust broadband development to rural North Dakota and how the current draft of the National Broadband Plan needs to be dramatically altered to ensure quality broadband services availability throughout this state; and

**BE IT FURTHER RESOLVED**, that the Secretary of State forward copies of this resolution to the Federal Communications Commission and to each member of the North Dakota Congressional Delegation.

**WHEREAS**, the bountiful grain harvests of this state move through elevators, large and small, that have stood and continue to stand as proud hallmarks of our great agricultural traditions; and

**WHEREAS**, the North Dakota Grain Dealers Association, and its predecessor, the Farmers' Grain Dealers Association of North Dakota, have through their voluntary membership represented the interests of this state's grain elevators in legislative and regulatory settings; and

**WHEREAS**, the North Dakota Grain Dealers Association continues to represent and promote the interests of grain elevators through safety inspections, employee training, bonding and insurance services, publications, education, and convention and industry trade shows; and

**WHEREAS**, the North Dakota Grain Dealers Association, through its educational foundation, makes available scholarships and grants to students who are interested in pursuing careers in agriculture and supports agricultural programs at schools and institutions of higher education throughout this state; and

**WHEREAS**, the North Dakota Grain Dealers Association will celebrate 100 years of existence on May 23, 2011;

**NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:**

That the Legislative Assembly of North Dakota takes great pride in offering its sincerest congratulations to the North Dakota Grain Dealers Association as it celebrates 100 years of existence; and

(Representatives D. Johnson, Monson, Delmore)  
(Senators Fischer, Wardner)

A concurrent resolution declaring March 10, 2011, as "Canada Day at the North Dakota Capitol".

**WHEREAS**, Canada and the United States share a rich and vibrant history of democratic governance, military and economic partnerships, and cultural ties; and

**WHEREAS**, Canada is the largest trade partner of the United States, and the number of Canadian tourists visiting this country exceeds the number from any other country; and

**WHEREAS**, more than one-half of all exports from North Dakota go to Canada; and

**WHEREAS**, Canadian visitors to North Dakota contribute approximately \$300 million annually to the North Dakota economy; and

**WHEREAS**, North Dakota and its neighboring Canadian provinces share common industries, including agriculture and energy development; and

**WHEREAS**, since 1932 the International Peace Garden has been a symbol of the friendship between two neighbors that share the world's longest unfortified border;

**NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:**

That the Sixty-second Legislative Assembly declares March 10, 2011, as "Canada Day at the North Dakota Capitol"; and

**BE IT FURTHER RESOLVED**, that the Secretary of State forward a copy of this resolution to the Consulate General of Canada.

## CHAPTER 540

### HOUSE CONCURRENT RESOLUTION NO. 3026

(Representatives Headland, Belter, Brandenburg)  
(Senators Miller, Uglem, Wanzek)

A concurrent resolution urging Congress to require renegotiation of United States Fish and Wildlife Service wetlands easements.

**WHEREAS**, many United States Fish and Wildlife Service easements were acquired without consideration of the detrimental impact the easement may have on an individual's farming operations; and

**WHEREAS**, the terms of many wetland easements obtained by representatives of the United States Fish and Wildlife Service were not clearly defined; and

**WHEREAS**, many easements are not specifically delineated and have been viewed as covering an entire parcel of property rather than the wetland itself, thus unfairly burdening the farming operations of the property owner; and

**WHEREAS**, if wetlands are to be protected to the extent desired by the United States Fish and Wildlife Service, then large volumes of water in surficial, unconfined aquifers in North Dakota will be prevented from being put to beneficial use; and

**WHEREAS**, the contemporary interpretation of United States Fish and Wildlife Service wetland easements by the service is outside the scope of the original intent of the easement that was to prevent surface drainage of wetlands; and

**WHEREAS**, the United States Fish and Wildlife Service is not following federal court decisions that have been rendered concerning the acquisition of easements by the United States Fish and Wildlife Service; and

**WHEREAS**, the state has incurred legal expenses in forcing the United States Fish and Wildlife Service to delineate wetlands; and

**WHEREAS**, the creation of wetland easements has resulted in lost tax revenues to political subdivisions as well as devaluation of surrounding real estate; and

**WHEREAS**, the ever-changing definition of wetlands by the United States Fish and Wildlife Service has led to uncertainty and the inability of landowners to properly plan for the future in their farming operations; and

**WHEREAS**, termination of existing easements and renegotiation or reacquirement of easements would specifically delineate and protect the wetland and thus enhance both protection of the wetland itself and allow the landowner to better manage the landowner's property;

**NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:**

That the Sixty-second Legislative Assembly urges the Congress of the United States to require renegotiation of United States Fish and Wildlife Service wetlands easements; and

**BE IT FURTHER RESOLVED**, that the Secretary of State forward copies of this resolution to the director of the United States Fish and Wildlife Service, the Secretary of the Interior, and to each member of the North Dakota Congressional Delegation.

## CHAPTER 541

### HOUSE CONCURRENT RESOLUTION NO. 3028

(Representatives Headland, Grande, Heller)  
(Senators Christmann, Wanzek, Wardner)

A concurrent resolution urging Congress to adopt legislation prohibiting the Environmental Protection Agency by any legal means from regulating greenhouse emissions, including, if necessary, defunding Environmental Protection Agency greenhouse gas regulatory activities; imposing a moratorium on adoption on any new air quality regulations by the Environmental Protection Agency by any legal means, except those regulations directly addressing an imminent health or environmental emergency, for a period of at least two years; and requiring the administration to undertake a study identifying all regulatory activity the Environmental Protection Agency intends to undertake in furtherance of its goal of "taking action on climate change and improving air quality" and specifying the cumulative effect of all these regulations on the economy, jobs, and American economic competitiveness.

**WHEREAS**, the Environmental Protection Agency has proposed or is proposing numerous new regulations, particularly in the area of air quality and regulation of greenhouse gases, that are likely to have major effects on the economy, jobs, and United States competitiveness in worldwide markets; and

**WHEREAS**, the Environmental Protection Agency's regulatory activity as to air quality and greenhouse gases has numerous and overlapping requirements and may have negative consequences on the economy; and

**WHEREAS**, concern is growing that, with cap and trade legislation having failed in Congress, the Environmental Protection Agency is attempting to obtain the same results through the adoption of regulations; and

**WHEREAS**, Environmental Protection Agency overregulation is driving jobs and industry out of the United States; and

**WHEREAS**, neither the Environmental Protection Agency nor the administration has undertaken any comprehensive study of what the cumulative effect of all of this new regulatory activity will have on the economy, jobs, and competitiveness; and

**WHEREAS**, the Environmental Protection Agency has not performed any comprehensive study of what the environmental benefits of its greenhouse gas regulation will be in terms of impacts on the global climate; and

**WHEREAS**, state agencies are routinely required to identify the costs of their regulations and to justify those costs in light of the benefits; and

**WHEREAS**, since the Environmental Protection Agency has identified "taking action on climate change and improving air quality" as its first strategic goal for the 2011-15 time period, the Environmental Protection Agency should be required to

identify the specific actions it intends to take to achieve these goals and to assess the total cost of all these actions together; and

**WHEREAS**, the Legislative Assembly supports continuing improvement in the quality of the nation's air and believes that such improvement can be made in a sensible fashion without damaging the economy, provided there is a full understanding of the cost of the regulations at issue; and

**WHEREAS**, the primary goal of government at the present time must be to promote economic recovery and to foster a stable and predictable business environment that will lead to the creation of jobs; and

**WHEREAS**, public health and welfare will suffer without significant new job creation and economic improvement because people with good jobs are better able to take care of themselves and their families than the unemployed and because environmental improvement is only possible in a society that generates wealth;

**NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:**

That the Sixty-second Legislative Assembly urges Congress to adopt legislation prohibiting the Environmental Protection Agency by any legal means from regulating greenhouse emissions, including, if necessary, defunding Environmental Protection Agency greenhouse gas regulatory activities; imposing a moratorium on adoption on any new air quality regulations by the Environmental Protection Agency by any means necessary, except those directly addressing an imminent health or environmental emergency, for a period of at least two years; and requiring the administration to undertake a study identifying all regulatory activity that the Environmental Protection Agency intends to undertake in furtherance of its goal of "taking action on climate change and improving air quality" and specifying the cumulative effect of all these regulations on the economy, jobs, and American economic competitiveness; and

**BE IT FURTHER RESOLVED**, that this study be a multiagency study drawing on the expertise of the Environmental Protection Agency and of agencies and departments having expertise and responsibility for the economy and the electric system and should provide an objective cost-benefit analysis of all of the Environmental Protection Agency's current and planned regulation together; and

**BE IT FURTHER RESOLVED**, that the Secretary of State forward copies of this resolution to the President of the United States, the Majority Leader of the United States Senate, the Minority Leader of the United States Senate, the Majority Leader of the United States House of Representatives, the Minority Leader of the United States House of Representatives, the Speaker of the United States House of Representatives, the administrator of the Environmental Protection Agency, the director of the federal Office of Management and Budget, and to each member of the North Dakota Congressional Delegation.

**WHEREAS**, the North Dakota Close-Up program concentrates on the functions and structures of state government and defines constitutional responsibilities assigned to each of the three branches of government; and

A concurrent resolution directing the Legislative Management to study the feasibility and desirability of requiring use of cigarette tax stamps.

**WHEREAS**, North Dakota is one of only three states that do not require tax stamps on cigarettes; and

**WHEREAS**, a study of the feasibility and desirability of requiring tax stamping on cigarettes will allow consideration of the benefits and detriments of requiring cigarette tax stamps on the state, wholesalers, the public, and administrative and law enforcement agencies;

**NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:**

That the Legislative Management study the feasibility and desirability of requiring use of cigarette tax stamps; and

## CHAPTER 544

### HOUSE CONCURRENT RESOLUTION NO. 3031

(Representatives Heller, Headland, Kreidt)  
(Senators Christmann, Freborg, Lyson)

A concurrent resolution expressing the concern of the Legislative Assembly with the scope, justification, and substances of the Office of Surface Mining Reclamation and Enforcement's stream protection rule.

**WHEREAS**, the state's coal mining industry has a long history of protecting streams, watersheds, and the waters of North Dakota and often receives praise for its mining practices and environmental stewardship to the lands of North Dakota; and

**WHEREAS**, from 2003 through 2008, the Office of Surface Mining Reclamation and Enforcement conducted a five-year process, including public hearings, submission of thousands of public comments, and preparation of an environmental impact statement, that culminated in final regulations adding significant new environmental protections regarding the placement of excess spoil and clarifying its regulations relating to stream buffer zones pursuant to the Surface Mining Control and Reclamation Act; and

**WHEREAS**, the Office of Surface Mining Reclamation and Enforcement's 2008 regulations were consistent with a final decision from the Fourth Circuit Court of Appeals in *Kentuckians for the Commonwealth v. Rivenburth*, holding that it is "beyond dispute that the Surface Mining Control and Reclamation Act recognizes the possibility of placing excess spoil and material in waters of the United States even though those materials do not have a beneficial purpose" and such regulations helped to significantly reduce regulatory uncertainty brought on by earlier litigation questioning the meaning of the agency's stream buffer zone rule; and

**WHEREAS**, a federal court ruled that the Secretary of the Interior may not repeal the stream buffer zone rule without going through a rulemaking process, including public notice and comment as required under the Administrative Procedure Act; and

**WHEREAS**, on June 11, 2009, the Secretary of the Interior, along with the United States Army Corps of Engineers and the Environmental Protection Agency, signed a memorandum of understanding implementing an "interagency action plan" designed to "significantly reduce the harmful environmental consequences of Appalachian surface coal mining operations . . ." and suggested that coal mining jobs that will be sacrificed in this state should be replaced with "green" jobs promoted by the memorandum of understanding; and the Office of Surface Mining, Reclamation and Enforcement further committed in the memorandum of understanding to consider revisions to the 2008 stream buffer zone rule; and

**WHEREAS**, the Office of Surface Mining Reclamation and Enforcement has failed to justify why a new "stream protection rule" is necessary or explain the problem that the agency is attempting to fix, and such concerns have been echoed by the

Interstate Mining Compact Commission--an organization representing state mining regulators with substantial expertise in Surface Mining Control and Reclamation Act regulation; and

**WHEREAS**, the Office of Surface Mining Reclamation and Enforcement is inappropriately rushing to complete the rulemaking because the agency has committed to a self-imposed deadline of February 28, 2011, to publish a proposed rule through a unilateral settlement agreement with environmental groups and, in attempting to meet this artificial deadline, is committing flagrant violations of the required National Environmental Policy Act process; and

**WHEREAS**, the agency has also limited comment and participation by other members of the public by refusing to extend the comment period on its advanced notice of proposed rulemaking, by failing to adequately provide sufficient notice of the alternatives being considered, and by conducting "listening sessions" where the Office of Surface Mining Reclamation and Enforcement prohibited any public speaking by those concerned about the rule; and

**WHEREAS**, the proposed actions could sterilize several million tons of North Dakota lignite coal that would otherwise be minable under the current regulations that have been proven more than adequate to protect streams in North Dakota; and

**WHEREAS**, the coal mining industry is critical to the economic and social well-being of the citizens of North Dakota, accounting for over 27,000 direct and indirect jobs averaging over \$74,000 in compensation, over \$93 million in state taxes, and adding \$2.9 billion to the gross domestic product of the state;

**NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:**

That the Sixty-second Legislative Assembly expresses its serious concern with the scope, justification, and substance of the Office of Surface Mining Reclamation and Enforcement's stream protection rule; and

**BE IT FURTHER RESOLVED**, that the Sixty-second Legislative Assembly expresses its concern with the procedure and process that the Office of Surface Mining Reclamation and Enforcement has been using to implement such regulation and calls upon the agency to immediately suspend work on the environmental impact statement and the regulation until such time as the agency clearly and publicly articulates why the 2008 regulation has not been implemented and provides specific details regarding each of its provisions and why the agency believes that they are insufficient; provides scientific data and other objective information to justify each and every provision of the new proposal; explains why the agency is contradicting its own annual state inspection reports, which indicate good environmental performance and refute the need for this new regulation; and justifies why a more limited approach would not achieve the objectives of the agency; and

**BE IT FURTHER RESOLVED**, that the Sixty-second Legislative Assembly calls upon the North Dakota Congressional Delegation and the Governor to oppose this unwarranted effort by the administration by withholding any further funding for the Office of Surface Mining Reclamation and Enforcement for the stream protection rule

and environmental impact statement until such time as the agency justifies the need for the new rule; and

**BE IT FURTHER RESOLVED**, that the Secretary of State forward copies of this resolution to the President of the United States, the United States Secretary of the Interior, the director of Surface Mining and Reclamation and Enforcement, the Governor of North Dakota, the North Dakota Public Service Commission, and each member of the North Dakota Congressional Delegation.

## CHAPTER 545

### HOUSE CONCURRENT RESOLUTION NO. 3032

(Representatives Weiler, Weisz, Onstad)  
(Senators Freborg, Lyson, Warner)

A concurrent resolution directing the Legislative Management to study the needs of, economic values of, and methods to improve access roadways to recreational, tourist, and historical sites in North Dakota.

**WHEREAS**, the income and available funding through the special road fund created under North Dakota Century Code Section 24-02-37 is inadequate to meet the local and statewide needs to improve access roadways to recreational, tourist, and historical sites; and

**WHEREAS**, many existing access roadways are in a significant state of disrepair and are in need of improvement--the condition typically relating to limited maintenance, inadequate base materials and surfacing, narrow widths, and noncompliance with safety standards; and

**WHEREAS**, county and township funding is inadequate and severely stressed due to other priority projects and needs, limiting local governments' ability to make the necessary investment to improve these access roadways; and

**WHEREAS**, access roadways to recreational, tourist, and historical sites represent a local and statewide value, as well as a substantial opportunity, as improvements will lead to increased use resulting in added value and income to the local and state economies; and

**WHEREAS**, the projected population increases in this state, related to the expanding energy industry and overall economic growth, will result in an increasing demand for recreational opportunities; and

**WHEREAS**, the condition, use, need, and value of each access roadway varies; therefore, alternatives related to roadway surfacing, construction methodologies, and lifecycle costs should be evaluated to determine which are most applicable to the various locations;

**NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:**

That the Legislative Management study the needs of, economic values of, and methods to improve access roadways to recreational, tourist, and historical sites in North Dakota; and

**BE IT FURTHER RESOLVED**, that this study focus on designated or named public or privately developed recreational areas, potential funding requirements through the special road fund or other appropriate funding method for the identified

access roadway improvements, and the ability of the local governmental entities to operate and maintain these improvements when completed; and

**BE IT FURTHER RESOLVED**, that the Legislative Management report its findings and recommendations, together with any legislation required to implement the recommendations, to the Sixty-third Legislative Assembly.

### HOUSE CONCURRENT RESOLUTION NO. 3048

(Representatives Thoreson, Boehning, Hatlestad, Koppelman, Schatz)

A concurrent resolution urging Congress to call a convention for the sole purpose of proposing an amendment to the Constitution of the United States to avoid a "runaway convention".

**WHEREAS**, experience has shown that the safeguards in the United States Constitution, as currently interpreted, may not be sufficiently clear to limit a Constitutional Convention to the specific subject for which that convention was called and thereby avoid a "runaway convention" where other matters may be considered; and

**WHEREAS**, James Madison, who is known as the "Father of the Constitution", believed that Article V of the Constitution gave and should give this protection; and

**WHEREAS**, those who framed and adopted the Constitution included a provision by which state legislatures may require Congress to call a convention for proposing amendments as a way to amend the United States Constitution; and

**WHEREAS**, the North Dakota Legislative Assembly accordingly makes application to Congress for the calling of a convention for proposing an amendment to the Constitution imposing certain rules of fiscal discipline, providing for legislative transparency, and preventing unfunded mandates by the federal government;

**NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:**

**BE IT FURTHER RESOLVED**, that the North Dakota Legislative Assembly makes the following application:

Section 1. The North Dakota legislative assembly makes an application to the Congress of the United States pursuant to Article V of the Constitution of the United States to call an Article V Amendment Convention for the sole purpose of voting to propose or voting not to propose the following specific amendment to the Constitution of the United States:

"Article \_\_\_\_\_. The Congress, on Application of the Legislatures of two-thirds of the several States, which all contain an identical Amendment, shall call a Convention solely to decide whether to propose that specific Amendment to the States, which if proposed shall be valid to all intents and purposes as part of the Constitution when ratified pursuant to Article V."

Section 2. For the purpose of determining whether the required two-thirds of the legislatures of the several states have applied for a convention, this application may be counted and considered valid only in conjunction with qualifying applications of other states that contain the identical text of the specific amendment contained in this

application and whose application requires that the sole purpose of the convention is to decide whether to propose, or not to propose this specific amendment.

Section 3. This concurrent resolution is revoked and withdrawn, nullified, and superseded to the same effect as if it had never been passed, and retroactive to the date of passage, if it is used to conduct a convention that votes to propose any amendment other than the specific text of the amendment contained in Section 1.

Section 4. Each delegate selected to represent North Dakota at a convention that Congress calls under this resolution shall take an oath, enforceable under this state's law, to abide by and act according to the limits imposed by this resolution on the purpose of the convention.

Section 5. Any delegate selected to represent North Dakota at a convention that Congress calls under this resolution does not have authority to consider or approve any other amendment but the one contained in this application. Any vote taken in violation of this limitation is null and void, and any delegate who so votes does not have any authority to represent this state on any matter at the convention.

Section 6. This application is valid if two-thirds of the states make a qualifying application within seven years of its referral for ratification to the states by Congress under the provisions of Article V.

Section 7. This application is null and void if Congress, within 90 days of receipt of qualifying applications from two-thirds of the states, proposes and refers the ratification by the several states under the procedures outlined in Article V of the Constitution, the same exact text of the amendment contained in this application.

Section 8. That the secretary of state forward copies of this application within 30 days of its passage to the Speaker of the United States House of Representatives, the Clerk of the United States House of Representatives, the President of the United States Senate, the Secretary of the United States Senate, every member of the North Dakota Congressional Delegation, and the presiding officers of each house of the legislatures of the several states.

**WHEREAS**, during the 2009-10 interim, the Commission on Alternatives to Incarceration was informed the court supervision fee frequently either is not imposed as required or is waived because the fee is low on the hierarchy of fees required to be imposed by courts; and

**WHEREAS**, in addition to over 10 fees that courts may impose on offenders, offenders may be subject to other fees for participation in court-ordered programs; and

**WHEREAS**, a study of all fees imposed upon offenders may address the effectiveness of the fees, determine the appropriate hierarchy for collection purposes, and determine whether the imposition of the fees is successful in addressing the public purposes for which the fees are imposed;

**WHEREAS**, state law governing public administrators, a critically important form of public guardianship, is vague and incomplete with respect to services to be provided, levels of supervision, general accountability, the responsibility to adequately compensate those who are appointed to serve as public administrators, and the role of the courts in responding to unique issues associated with an aging population; and

### SENATE CONCURRENT RESOLUTION NO. 4014

(Senator Mathern)  
(Representative Maragos)

A concurrent resolution urging the Government of Turkey to grant the Ecumenical Patriarch appropriate international recognition, ecclesiastical succession, and the right to train clergy of all nationalities and to respect the property rights and human rights of the Ecumenical Patriarchate; and for other purposes.

**WHEREAS**, the Ecumenical Patriarchate, located in Istanbul, Turkey, is the Sacred See that presides in a spirit of cooperation over a communion of self-governing churches of the Orthodox Christian world; and

**WHEREAS**, the See is led by Ecumenical Patriarch Bartholomew, who is the 269<sup>th</sup> in direct succession to the Apostle Andrew and holds titular primacy as *primus inter pares*, meaning "first among equals," in the community of Orthodox worldwide; and

**WHEREAS**, in 1994, Ecumenical Patriarch Bartholomew, along with leaders of the Appeal of Conscience Foundation, cosponsored the Conference on Peace and Tolerance, which brought together Christian, Jewish, and Muslim religious leaders for an interfaith dialogue to help end the Balkan conflict and the ethnic conflict in the Caucasus region; and

**WHEREAS**, in 1997, the Congress of the United States awarded Ecumenical Patriarch Bartholomew with the Congressional Gold Medal; and

**WHEREAS**, following the terrorist attacks on our nation on September 11, 2001, Ecumenical Patriarch Bartholomew gathered a group of international religious leaders to produce the first joint statement with Muslim leaders that condemned the September 11, 2001, attacks as "antireligious"; and

**WHEREAS**, in October 2005, the Ecumenical Patriarch, along with Christian, Jewish, and Muslim leaders, cosponsored the Conference on Peace and Tolerance II to further promote peace and stability in southeastern Europe and Central Asia via religious leaders' interfaith dialogue, understanding, and action; and

**WHEREAS**, the Orthodox Christian Church, in existence for nearly 2,000 years, numbers approximately 300,000,000 members worldwide with more than 2,000,000 members in the United States; and

**WHEREAS**, since 1453, the continuing presence of the Ecumenical Patriarchate in Turkey has been a living testament to the religious coexistence of Christians and Muslims; and

**WHEREAS**, this religious coexistence is in jeopardy because the Ecumenical Patriarchate is considered a minority religion by the Turkish government; and

**WHEREAS**, the Government of Turkey has limited the candidates available to hold the office of Ecumenical Patriarch to Turkish nationals only, and from the millions of Orthodox Christians living in Turkey at the turn of the 20<sup>th</sup> century and due to the continued policies during this period by the Turkish government, there remain fewer than 3,000 of the Ecumenical Patriarch's flock left in Turkey today; and

**WHEREAS**, the Government of Turkey closed the Theological School on the island of Halki in 1971 and has refused to allow it to reopen, thus impeding training for Orthodox Christian clergy; and

**WHEREAS**, the Turkish government has confiscated nearly 94 percent of the Ecumenical Patriarchate's properties; and

**WHEREAS**, the European Union, a group of nations with a common goal of promoting peace and the well-being of its peoples, began accession negotiations with Turkey on October 3, 2005; and

**WHEREAS**, the European Union defined membership criteria for accession at the Copenhagen European Council in 1993, obligating candidate countries to achieve certain levels of reform, including stability of institutions guaranteeing democracy, adherence to the rule of law, and respect for and protection of minorities and human rights; and

**WHEREAS**, the Turkish government's current treatment of the Ecumenical Patriarchate is inconsistent with the membership conditions and goals of the European Union; and

**WHEREAS**, Orthodox Christians in this state and throughout the United States stand to lose their spiritual leader because of the continued actions of the Turkish government;

**NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:**

That the North Dakota Legislative Assembly urges the Government of Turkey to uphold and safeguard religious and human rights; cease its discrimination of the Ecumenical Patriarchate; grant the Ecumenical Patriarch appropriate international recognition, ecclesiastic succession, and the right to train clergy of all nationalities; and respect the property rights and human rights of the Ecumenical Patriarchate; and

**BE IT FURTHER RESOLVED**, that the Secretary of State forward copies of this resolution to the President of the United States, the United States Ambassador to the Republic of Turkey, the Ambassador of the Republic of Turkey to the United States, and the members of the North Dakota Congressional Delegation.

**WHEREAS**, last year in North Dakota more than \$700,000 was raised to find a cure for multiple sclerosis and develop effective treatments for the disease, as well as to provide a wide range of client programs to improve the lives of the 1,500 individuals living with multiple sclerosis in our state; and

**WHEREAS**, this investment is paying off in significant advances in treating multiple sclerosis, such as new medications that may reduce or delay future disability for individuals with multiple sclerosis; and

**WHEREAS**, although research advances have brought us closer to finding the cure, much remains to be done and services must continue to be provided to those who live with the disease; and

**WHEREAS**, there are public and private agencies available to serve the constantly changing needs of North Dakotans with multiple sclerosis and their families by extending essential service to all who need them;

**NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:**

**WHEREAS**, the North Dakota Century Code provides that the files and records of the juvenile court are open to inspection with written leave of a juvenile judge or judicial referee by the principal of any public or nonpublic school that is a member of the North Dakota High School Activities Association, or the superintendent of any school district that has one or more schools involved in the association, but only to the extent necessary to enforce the rules and regulations of the North Dakota High School Activities Association; and

**WHEREAS**, school officials are not permitted to inspect the files or records for other purposes; and

**WHEREAS**, officials of higher education institutions also have restricted access to juvenile court records of incoming and enrolled students; and

**WHEREAS**, receiving additional information about incoming and enrolled students who are juvenile offenders or who are students with juvenile court records would assist school officials in protecting the welfare and safety of all students and staff, in providing appropriate treatment and rehabilitation to the juvenile offenders or to students with juvenile court records, and in providing appropriate levels of support and supervision to the juvenile offenders or the students with juvenile court records;
