§ 1. AMENDMENT.] Section 1 of Chapter 161, Session Laws of 1909 is amended and re-enacted to read as follows:

§ 1. LICENSES. RECORDING OF LICENSES. DEFINITION.] Every person, firm or company standing or using any stallion or jack for public service in this state shall cause the name, description and pedigree of such stallion or jack to be enrolled by a stallion registration board, hereinafter provided for, and shall secure a license from said board as provided for in section 3 of this act. All license certificates for stallions issued under this act shall be presented to and recorded by the register of deeds of the counties in which said stallion is used for public service.

The word stallion wherever used in this act shall be construed to include the term "Jack" as well.

§ 2. AMENDMENT.] Section 3 of chapter 161 Session Laws of 1909 is amended and re-enacted to read as follows:

§ 3. VETERINARY INSPECTION AND VERIFICATION OF BREEDING: STANDARD OF VERIFYING PEDIGREES.] In order for the owner of a stallion to secure the license herein provided for, the stallion must pass a veterinary examination as herein provided for, and be free from all infectious, contagious or transmissible diseases or unsoundness. The owner of such stallion must also furnish to the stallion registration board the stud book registry certificate of pedigree of the stallion and all necessary papers relating to his breeding and ownership. Upon verification of pedigree and certificate of breeding (in case of pure-bred, grade and cross bred stallions), provided the horse has passed the necessary veterinary inspection, as provided for in this act, a license certificate shall be furnished. The presence of any one or more of the following named diseases shall disqualify a stallion from public service, and are hereby defined as infectious, contagious and transmissible diseases or unsoundness for this act; cataract, amaurosis, laryngeal-hemiplegia (roaring or whistling, chorea (St. Vitus dance, crampiness, string-halt) glanders, farcy, maladie du cort, urethral gleet, mange, bone spavin, ringbone, side bone and curb when accompanied by curby hock. The stallion registration board shall refuse certificates of enrollment to any stallion affected with any of these diseases specified, and shall revoke a previously issued license certificate of any stallion found upon examination to be so affected. Provided, however, that if the owner of any stallion can prove to the satisfaction of the veterinary inspector that the blemish or unsoundness was caused by accident and not a transmissible disease, then it shall not be considered disqualified.

The stallion registration board in verifying the pedigrees submitted shall use as their standard for action;
