

Stock Sanitary Board to the State Auditor who shall draw a warrant on the State Treasurer in favor of the owner for the amount thereof; provided that the amount of indemnity paid by the State shall not exceed one-third of the difference between the appraised value of such neat cattle and the net value of the salvage thereof; further provided, that in the event that the Federal Government fails to provide an equal amount of indemnity with the State then the owner shall be paid one-half of the difference between the appraised value of such neat cattle and the net value of the salvage thereof.

§ 3. EMERGENCY.] An emergency exists, whereas the Federal Government co-operates with the State Government in the payment of indemnity for cattle slaughtered for tuberculosis and the Federal laws provide that one-third of the appraised value less the net salvage shall be paid by the Federal Government and one-third of the appraised value less the net salvage shall be paid by the State, and whereas the amount being paid by the Federal Government under the present State law is much less than the amount being paid by the State; therefore this Act shall take effect and be in force from and after its passage and approval.
