The purpose of the proposed solid waste management rules is to implement regulations to adopt the federal program for coal combustion residuals; implement a general permits program; update existing rules for infectious waste handling, financial assurance, and solid waste management fees; and provide various corrections and clarifications to existing solid waste management rules. The proposed solid waste management rules are expected have an impact on the regulated community in excess of \$50,000. Some of the solid waste management rules will be submitted to the United States Environmental Protection Agency for approval of the state coal combustion residuals program.

The purpose of the proposed hazardous waste management rules is to adopt changes made to the federal regulations. The proposed hazardous waste management rules are not expected have an impact on the regulated community in excess of \$50,000. The amended Hazardous Waste Rules will be submitted to the United States Environmental Protection Agency for approval and authorization for implementation.

The proposed rules may be reviewed at the office of the North Dakota Department of Environmental Quality, 918 East Divide Avenue, Bismarck, ND 58501. A copy of the proposed rules and/or a regulatory analysis may be requested by writing the above address, emailing to [waste@nd.gov](mailto:waste@nd.gov) or calling 701-328-5166. The proposed rules and additional related information are also available on the Department of Environmental Quality website at [deq.nd.gov/PublicNotice.aspx](http://deq.nd.gov/PublicNotice.aspx). Written or oral comments on the proposed rules sent to the above address, email or telephone number and received by February 24, 2020 will be fully considered.

If you plan to attend the public hearing and will need special facilities or assistance relating to a disability, please contact the North Dakota Department of Environmental Quality at the above telephone number or address at least seven (7) days prior to the public hearing.

Dated this 4<sup>th</sup> day of December, 2019.

Charles Hyatt, Director  
Division of Waste Management  
North Dakota Department of Environmental Quality
