**"15-39.1-24. Purchase of additional credit.** Prior to retirement a teacher may purchase additional credit for use toward retirement in the following instances and manner:

1. Any teacher may purchase service credit for years of teaching service at an out-of-state school or educational institution supported by public taxation out of North Dakota. However, a teacher must complete five years of creditable service in this state before the teacher is eligible to purchase the first five years of service credit for out-of-state teaching under this subsection. The teacher may purchase any part of the remaining years of service credit for out-of-state teaching with each year of service credit conditional upon the teacher completing one additional year of creditable service in this state following the out-of-state teaching. The years of out-of-state teaching service do not qualify for credit in this state if the years claimed also qualify for retirement benefits from an out-of-state retirement system."

Page 6, after line 15, insert:

- "3. A teacher who attends a college, university, or other recognized school for two consecutive semesters or three consecutive quarters, other than summer sessions, for the purpose of improving the teacher's qualifications in the teaching profession is entitled to have such periods while in attendance at that college, university, or school credited, not to exceed three years of teaching service, under this chapter. To be eligible for purchasing credit under this subsection, the teacher must have taught at least one full school year in North Dakota immediately preceding entrance into the college, university, or school, or, immediately following such training, the teacher must have taught not less than one full school year in a public school or state institution of this state.
4. A teacher may purchase service credit for the time during each legislative session spent serving as a member of the legislative assembly while holding eligible employment under this chapter. Service credit for a legislative session must be purchased within one year after the adjournment of that legislative session. As an alternative to a teacher purchasing service credit under this subsection, a teacher and the governmental body employing the teacher may enter into an agreement by which payment for service credit for time spent during each legislative

session by the teacher serving as a member of the legislative assembly is made pursuant to section 15-39.1-09. The agreement must provide that contributions made pursuant to section 15-39.1-09 are calculated based on the teacher's annual salary without reduction for a leave of absence taken by the teacher during the legislative session.

5. A teacher may purchase credit for service as an administrator or teacher in the field of education if employed by an agency of the United States government teaching school age children. The maximum service that may be purchased under this subsection is ten years.
6. An active teacher who is elected president of a professional educational organization recognized by the board and who serves in a full-time capacity in lieu of teaching may purchase service credit for the time spent serving as president. The service credit must be purchased within one year after the teacher leaves the position. As an alternative to purchasing service credit under this subsection, a teacher and the governmental body employing the teacher may enter into an agreement under which payment for service credit for the time spent as president of the professional educational organization is made pursuant to section 15-39.1-09. The agreement must provide that contributions made pursuant to section 15-39.1-09 are calculated based on the teacher's annual salary as president.
7. The fund may accept rollovers from other qualified plans under rules adopted by the board for the purchase of additional service credit, but only to the extent the transfer is a rollover contribution that meets the requirements of section 408 of the Internal Revenue Code.
8. Except as provided in subsections 2, 4, and 6, the amount of additional service eligible to be purchased under this section must be credited to the teacher when the teacher has made the required payment. In all cases, the purchase cost must be on an actuarial equivalent basis."
