(Senators Wanzek, Grindberg, O'Connell, Tomac)  
(Representatives Nicholas, Wilkie)

A concurrent resolution urging Congress to require the Environmental Protection Agency to use Canadian data in its registration of crop protection chemicals appropriate for canola.

**WHEREAS**, North Dakota accounts for nearly one-half of all canola acreage in the United States; and

**WHEREAS**, increases in canola acreages have been limited by the lack of crop protection chemicals; and

**WHEREAS**, the Canadian government has allowed for the registration of approximately three dozen crop protection chemicals appropriate for canola; and

**WHEREAS**, the United States government, through the Environmental Protection Agency, has allowed for the registration of only six crop protection chemicals appropriate for canola; and

**WHEREAS**, the Environmental Protection Agency needs to put more resources into the harmonization with Canada of crop protection chemicals; and

**WHEREAS**, use of Canadian registration data by the United States Environmental Protection Agency could accelerate its registration process for crop protection chemicals appropriate for canola;
