¹ Operating expenses in the administration program are reduced by \$1,200,000 for savings resulting from anticipated program efficiencies and the funding is added in the highways program for highway construction and maintenance costs.

² Funding for risk management premiums is removed and funding is added in the highways program for highway construction and maintenance costs.

³ Adds funding for highway construction and maintenance costs resulting from additional highway fund revenue which is generated by increasing special permit fees.

Sections are added which:

Provide that the department evaluate the cost-effectiveness of the continued use of one of its airplanes and report to the Budget Section regarding the department's options.

Preclude any funding to be used to widen Schafer Street in Bismarck.

Increase special permit fees for oversize and overweight vehicles. The fee increases are estimated to generate up to \$528,000 to the highway fund during the 1997-99 biennium.

Provide that state employees use state vehicles, whenever possible, when traveling by car or truck on state business.

Discontinue, on July 1, 1997, the deposit of interest earned on the highway fund into the special road fund for the construction and maintenance of roads relating to recreational, tourist, and historical areas. The interest earned will remain in the highway fund. This will result in an estimated increase of \$2.2 million of revenue to the highway fund during the 1997-99 biennium. The special road fund and the Special Road Advisory Committee will remain in effect until June 30, 1999, to advise the expenditure of moneys remaining in the special road fund on June 30, 1997.
