Members participating in a firefighters relief association paying a monthly service pension to members of the association under subsection 4 or 5 must serve ten years before they are eligible for a service pension. However, any member who has twenty years of service or ten years of service with a firefighters relief association paying a monthly service pension to members of the association under subsection 4 or 5, and who has not attained retirement age may retire from the department without forfeiting the right to a service pension. The association, in its bylaws, may establish a retirement age of not less than fifty years, at which time the service pension becomes payable. This retirement age may be established for all firefighters or classes of firefighters by birth dates. A person who has served twenty years or ten years with a firefighters relief association paying monthly service pensions to members of the association under subsection 4 or 5 or more and who is separated from service must, upon application, be placed on the deferred pension roll of the association, and after reaching retirement age, the association shall, upon application therefor, pay the service pension from the date the member attains eligibility at a rate of forty percent of the monthly salary of a first-class firefighter as determined on January first of the year in which the pension is paid. Any person making such application waives all other rights, claims, or

demands against the association for any cause, except those causes that may have arisen from, or that may be attributable to, the person's service on the fire department.
