The state auditor may in lieu of conducting an audit every two years require annual reports from school districts with less than one hundred enrolled students, cities with less than three hundred population, and other political subdivisions subject to this section, or otherwise provided by law, with less than one hundred thousand dollars of annual receipts. The reports must contain the financial information required by the state auditor. The state auditor may also make such additional examination or audit as deemed necessary in addition to the annual

However, a political subdivision may make progress payments to the public accountant. A political subdivision shall retain twenty percent of any progress payment until the audit report is accepted by the state auditor.

The state auditor may require the correction of any irregularities, objectionable accounting procedures, or illegal actions on the part of the governing board, officers, or employees of the political subdivision disclosed by the audit report or workpapers, and failure to make the corrections shall result results in audits being resumed by the state auditor until the irregularities, objectionable accounting procedures, or illegal actions are corrected.
