7 **BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:**

8 **SECTION 1. AMENDMENT.** Subsections 3 and 5 of section 60-02-01 of the North  
9 Dakota Century Code are amended and reenacted as follows:

- 10 3. "Grain" means wheat, durum, oats, rye, barley, buckwheat, flaxseed, speltz,  
11 safflower, sunflower seeds, tame mustard, peas, beans, soybeans, corn, clover,  
12 millet, alfalfa, and any other commercially grown ~~domestic~~ grain or grass seed.  
13 "Grain" as defined in this chapter shall not include grain or grass seeds owned by  
14 or in the possession of the warehouseman that have been cleaned, processed,  
15 and specifically identified for an intended use of planting for reproduction and for  
16 which a warehouse receipt has not been issued.
- 17 5. "Public warehouse" means any elevator, mill, warehouse, subterminal, grain  
18 warehouse, terminal warehouse, or other structure or facility not licensed under the  
19 United States Warehouse Act [7 U.S.C. 241-273] in which grain is received for  
20 storing, buying, selling, ~~or shipping,~~ or processing for compensation. Provided,  
21 however, that nothing in this chapter shall be construed to require a  
22 ~~warehouseman doing manufacturing business only,~~ processor to receive, store, or  
23 purchase any lot or kind of grain at said ~~mill~~ facility.

1           **SECTION 2. AMENDMENT.** Subsection 1 of section 60-02-05 of the North Dakota  
2 Century Code is amended and reenacted as follows:

- 3           1. If any dispute or disagreement arises between the person receiving and the person  
4 delivering grain at any public warehouse in this state as to the proper grade,  
5 dockage, moisture content, or protein content of any grain, an average sample of  
6 at least three pints of the grain in dispute may be taken together by both parties  
7 interested. The sample must be certified by each party as a true and  
8 representative sample of the grain in dispute on the day the grain was delivered.  
9 The sample must be forwarded in a suitable container by parcel post or express,  
10 prepaid with the name and address of both parties for inspection by a federal  
11 licensed inspector, or a mutually agreed upon third party, who will examine the  
12 grain and adjudge what grade, dockage, moisture content, or protein content the  
13 sample of grain is entitled to under the inspection rules and grades adopted by the  
14 secretary of agriculture of the United States. The person requesting the inspection  
15 service shall pay for the inspection. If the grain in question is damp, otherwise out  
16 of condition, or if moisture content is in dispute, the sample must be placed in an  
17 airtight container. Payment for the grain involved in the dispute must be made and  
18 accepted on the basis of the determination made by the federal licensed inspector  
19 or third party. However, all other quality factors may also be considered in  
20 determining the price of the grain. An appeal of the determination made by a third  
21 party other than a federal licensed inspector may be made to a federal licensed  
22 inspector. An appeal of the determination made by a federal licensed inspector  
23 may be made as provided under the United States Grain Standards Act [Pub. L.  
24 ~~90-487 103-354~~; ~~82 108 Stat. 764 3237~~; 7 U.S.C. 79(c) and (d)] and under 7 CFR  
25 800.125-800.140. A person not abiding by a final determination is liable for  
26 damage resulting from not abiding by the determination.

27           **SECTION 3. AMENDMENT.** Section 60-02-07 of the 1997 Supplement to the North  
28 Dakota Century Code is amended and reenacted as follows:

29           **60-02-07. Public warehouse license - How obtained - Fee - Financial statement.**

30           An annual license must be obtained from the commission for each public warehouse in  
31 operation in this state. The license expires on July thirty-first of each year. No license may

1 describe more than one public warehouse nor grant permission to operate any public  
2 warehouse other than the one described. The annual license fee for a public warehouse is two  
3 hundred fifty dollars for a warehouse of a bushel capacity of two hundred thousand [7047.8  
4 cubic meters] or less, four hundred dollars for a warehouse of a bushel capacity of more than  
5 two hundred thousand and not more than five hundred thousand [7047.8 to not more than  
6 17619.54 cubic meters], and five hundred dollars for a warehouse of a bushel capacity of more  
7 than five hundred thousand [17619.54 cubic meters]. If a public warehouseman operates two  
8 or more warehouses in the same city or siding, in conjunction with each other and with the  
9 same working force, and keeps one set of books and records for all such warehouses, and  
10 issues one series of scale tickets, warehouse receipts, checks, and credit-sale contracts for the  
11 grain stored and purchased therein, only one license is required for the operation of all such  
12 warehouses. Where two or more warehouses are operated under one license, the license fee  
13 is based upon the combined bushel capacity of the warehouses. If the commission employs  
14 fewer than two full-time equivalent warehouse inspectors, each annual fee under this section is  
15 reduced by one hundred dollars.

16 If required to obtain United States department of agriculture approval of the  
17 commission's warehouse inspection program, the commission may require that the applicant  
18 submit a current financial statement prepared in accordance with generally accepted  
19 accounting principles. A financial statement furnished under this section is a confidential trade  
20 secret and is not a public record.

27       ~~A warehouseman may charge a different storage rate for grain stored for the United States~~  
28       ~~government under the Food Security Wheat Reserve Act, Pub. L. 101-624, as amended, if the~~  
29       ~~rate is filed with the commission and identified on the warehouse receipt. A warehouseman~~  
30       ~~shall publish and post, in a conspicuous place in its warehouse, the fees that will be assessed~~  
31       ~~for receiving, storing, processing, or redelivering grain. This fee schedule must be filed with the~~

commission as a part of its warehouse license application or annual renewal. These fees must be stated on the warehouse receipt issued for the grain. The fees may be changed upon filing a revised schedule with the commission.
