 - a. If the child takes a nationally normed standardized achievement test not used by the school district in which the child resides, the child's parent is responsible for the cost of the test.
 - b. The cost of administering a test under this subsection is the responsibility of the child's parent if the test is administered by an individual who is selected by the parent. An individual selected by the child's parent to administer a test under this subsection must be licensed to teach by the education standards and practices board or approved to teach by the education standards and practices board.
 - c. The cost of administering a test under this subsection is the responsibility of the school district if, at the request of the child's parent, the school district administers the test. The school district shall ensure that the test is administered by an individual who is employed by the district and who is licensed to teach by the education standards and practices board or approved to teach by the education standards and practices board.

15.1-23-11. Home education - Standardized achievement test - Results.

1. A parent supervising home education shall file the results of the child's standardized achievement test with the superintendent of the district in which the child resides or with the county superintendent if the district does not employ a superintendent.
2. If the child's basic composite score on a standardized achievement test is less than the thirtieth percentile nationally, a multidisciplinary assessment team shall assess the child for a potential learning problem under rules adopted by the superintendent of public instruction.
3. If the multidisciplinary assessment team determines that the child is not disabled and the child's parent wishes to continue home education, the parent, with the advice and consent of an individual who is licensed to teach by the education standards and practices board or

approved to teach by the education standards and practices board, shall prepare a remediation plan to address the child's academic deficiencies and file the plan with the superintendent of the school district or with the county superintendent if the district does not employ a superintendent. The parent is responsible for any costs associated with the development of the remediation plan. If the parent fails to file a remediation plan, the parent is deemed to be in violation of compulsory school attendance provisions and may no longer supervise the home education of the child.

15.1-23-12. Home education - Remediation plan. The superintendent of the school district shall use the remediation plan required by section 15.1-23-11 as the basis for determining reasonable academic progress. The remediation plan must remain in effect until such time as the child achieves on a standardized achievement test a basic composite score at or above the thirtieth percentile or a score, which when compared to the previous year's test score, demonstrates one year of academic progress. At the option of the parent, the test may be one required by section 15.1-23-09 or one administered in a higher grade level. The child's parent, with the advice and consent of an individual who is licensed to teach by the education standards and practices board or who is approved to teach by the education standards and practices board, may amend the remediation plan from time to time in order to accommodate the child's academic needs. If after a remediation plan is no longer in effect the child fails to demonstrate reasonable academic progress on a subsequent test required by this section, a remediation plan must again be developed and implemented.

15.1-23-13. Home education - Disabilities - Services plan.

1. If a multidisciplinary assessment team, using eligibility criteria established by the superintendent of public instruction, determines that the child is disabled, that the child requires specially designed instruction due to the disability, and that this instruction cannot be provided without special education and related services, the parent may continue to supervise home education, provided that:
 - a. The child does not have a developmental disability;
 - b. The parent files with the school district superintendent a services plan that was developed privately or through the school district; and
 - c. The services plan demonstrates that the child's special needs are being addressed by persons qualified to provide special education or related services.
2. Annually, the superintendent of the child's school district of residence shall determine reasonable academic progress based on the child's services plan.
3. If a parent fails to file a services plan as required by this section, the parent is deemed to be in violation of the compulsory school attendance provisions and may no longer supervise the home education of the child.
4. A child who was once evaluated by a multidisciplinary assessment team need not be reevaluated for a potential learning problem upon scoring below the thirtieth percentile on a subsequent standardized achievement test unless the reevaluation is performed pursuant to the child's services plan.

15.1-23-14. Children with autism - Home education. Notwithstanding any other law, a parent may supervise home education for a developmentally disabled child with autism if:

1. The child has been determined to be autistic by a licensed psychologist;

3. The child's parent files with the superintendent of the child's school district of residence:
 - a. A notice that the child will receive home education;

- b. A copy of the child's diagnosis of autism prepared and attested to by a licensed psychologist; and
- c. A services plan developed and followed by the child's school district of residence and the child's parent; or, after providing written notice to the superintendent of the child's school district of residence, a substitute services plan, developed and followed, according to section 15.1-23-15, by a services plan team selected by and compensated by the child's parent.

15.1-23-15. Children with autism - Home education - Progress reports.

- 1. On or before November first, February first, and May first of each school year, a parent supervising home education for an autistic child under section 15.1-23-14 shall file with the superintendent of the child's school district of residence progress reports prepared by the services plan team selected under section 15.1-23-14. If at any time the services plan team agrees that the child is not benefiting from home education, the team shall notify the superintendent of the child's school district of residence and request that the child be evaluated by a multidisciplinary team appointed by the superintendent of the child's school district of residence.
- 2. The superintendent of the child's school district of residence shall forward copies of all documentation required by this section to the superintendent of public instruction.

15.1-23-16. Home education - Participation in extracurricular activities.

- 3. For purposes of this section, a child participating under the auspices of an approved nonpublic school is subject to the same standards for participation in extracurricular activities as those required of full-time students enrolled in the school.
- 4. Once a child's parent has selected the public school district or the approved nonpublic school in which the child will participate for purposes of extracurricular activities and has provided notification of the selection through the statement required by section 15.1-23-02, the child is subject to the transfer rules as provided in the constitution and bylaws of the North Dakota high school activities association.

15.1-23-17. Home education - High school diplomas.

- 1. A child's school district of residence, an approved nonpublic high school, or the North Dakota division of independent study may issue a high school diploma to a child who, through home education, has met the issuing entity's requirements for high school graduation provided the child's parent submits to the issuing entity a description of the course material covered in each high school subject, a description of the course objectives and how the objectives were met, and a transcript of the child's performance in grades nine through twelve.
- 2. In the alternative, a high school diploma may be issued by the child's school district of residence, an approved nonpublic high school, or the North Dakota division of independent study provided the child, through home education, has completed at least seventeen units

of high school coursework from the minimum required curriculum offerings established by law for public and nonpublic schools and the child's parent or legal guardian submits to the issuing entity a description of the course material covered in each high school subject, a description of the course objectives and how the objectives were met, and a transcript of the child's performance in grades nine through twelve. The issuing entity may indicate on a diploma issued under this subsection that the child was provided with home education.

3. If for any reason the documentation required in subsection 1 or 2 is unavailable, the entity issuing the diploma may accept any other reasonable proof that the child has met the applicable requirements for high school graduation.

15.1-23-18. Home education - Liability. No state agency, school district, or county superintendent may be held liable for accepting as correct the information on the statement of intent or for any damages resulting from a parent's failure to educate the child.

15.1-23-19. Home education - State aid to school districts. For purposes of allocating state aid to school districts, a child receiving home education is deemed enrolled in the child's school district of residence if the child is monitored by an individual who is licensed to teach by the education standards and practices board or approved to teach by the education standards and practices board and employed by the public school district in which the child resides. A school district is entitled to fifty percent of the per student payment provided in section 15.1-27-04 times the appropriate factor in section 15.1-27-06 or 15.1-27-07 for each child receiving home education. If a child receiving home education is enrolled in public school classes, proportionate payments must be made. The total amount may not exceed the equivalent of one full per student payment times the appropriate weighting factor.

The payment level provided for in this subdivision is applicable only to the first sixteen students.
 - b. If the one-room rural school has more than sixteen students in average daily membership in grades one through eight, the district in which the school is located is entitled to receive ninety percent of the per student payment provided for in section 15.1-27-04 for each additional student. The district is not entitled to any payment for more than twenty students in average daily membership.

The school district is not entitled to the amount that results from applying the weighting factors provided in section 15.1-27-06. In each successive year, the per student payment to which the school district is entitled for each student in the unaccredited high school must be reduced by an additional two hundred dollars. If a school regains its accreditation, the school is entitled to the per student payments provided for accredited schools for the entire school year in which the school becomes accredited.

1. Except as provided in subsection 2, each biennium the superintendent of public instruction shall distribute moneys appropriated by the legislative assembly for per student special education payments to each school district in the state on the basis of students in average daily membership. The superintendent of public instruction shall forward the payments, as calculated under section 15.1-27-05, to eligible school districts in the same manner and at the same time that the superintendent distributes per student and transportation aid payments. For purposes of this section, "special education" means the provision of special services to students who have special needs, including students who are gifted and talented. Expenditures under this section may not conflict with nonsupplanting and maintenance of effort provisions under the Individuals With Disabilities Education Act, 20 United States Code 1400 et seq.

Any withholding under this subsection may not exceed an amount equal to the cost of meeting the affected student's needs.

15.1-27-11. High school districts - Supplemental payments. The superintendent of public instruction shall calculate the average valuation of property per student by dividing the number of students in average daily membership in grades one through twelve in a high school district into the district's latest available net assessed and equalized taxable valuation of property. If the quotient is less than the latest available statewide average taxable valuation per student and if the district's educational expenditure per student is below the most recent available statewide average cost of education per student, the superintendent of public instruction shall:

1. Determine the difference between the latest available statewide average taxable valuation per student and the average taxable valuation per student in the high school district;
2. Multiply the result determined under subsection 1 by the number of students in average daily membership in grades one through twelve in the high school district;
3. Multiply the result determined under subsection 2 by the number of general fund mills levied by the district in excess of one hundred fifty, provided that any mills levied by the district which are in excess of two hundred ten may not be used in this calculation; and

4. Multiply the result determined under subsection 3 by thirty percent. The result is the supplemental payment to which a high school district is entitled, in addition to any other amount provided under chapter 15.1-27.

15.1-27-12. Per student payments - Limited English proficient students.

1. In addition to any other payments provided for by this chapter, each school district is entitled to receive four hundred dollars for each student who has been assessed by the student's school district and determined to have negligible or very limited English language skills as evidenced by a classification of level I or II using the Woodcock-Munoz language survey.
2. In order to receive the full payment provided for in this section, a school district must complete the student assessment required by subsection 1 and forward the results to the superintendent of public instruction on or before October twenty-fifth of each school year. The superintendent shall distribute the payments no later than May thirtieth of each school year. The superintendent shall prorate payments under this section for any students registering in the school district after October first or departing from the school district prior to the completion of the school year.

15.1-27-15. Per student payments - Isolated schools.

1. If an elementary school has fewer than fifty students and fifteen percent or more of its students would have to travel beyond a fifteen-mile [24.15-kilometer] radius from their residences in order to attend another school, the weighting factor provided under section 15.1-27-07 must be increased by twenty percent for the first fifteen students. If the school has fewer than fifteen students, the payment received must be for fifteen students.
2. If a high school has fewer than thirty-five students and fifteen percent or more of its students would have to travel beyond a twenty-mile [32.2-kilometer] radius from their residences in order to attend another school, the weighting factor provided under section 15.1-27-06 must be increased by twenty percent for the first twenty students. If the school has fewer than twenty students, the payment received must be for twenty students.

15.1-27-16. Per student payments - Cooperating districts. If, on or after July 1, 1997, any school district receiving payments under this chapter cooperates with another school district for the joint provision of educational services under a plan approved by the superintendent of public instruction, each cooperating district is entitled to receive, for a period of four years, at least the same per student payment for each high school and elementary student as the district received prior to initiation of the cooperative plan.

15.1-27-17. Per student payments - Reorganization of school districts.

1. If any school district receiving per student payments calculated under section 15.1-27-06 reorganized with another school district under chapter 15.1-12 before August 1, 1997, the school district resulting from the reorganization is entitled to receive the same per student payments for each high school student as each separate school district received for each high school student prior to the reorganization, for a period of four years.

2. If any school district receiving per student payments calculated under this chapter reorganizes with another school district under chapter 15.1-12 after July 31, 1997, the school district resulting from the reorganization is entitled to receive the same per student payments for each high school and elementary student as each separate school district received for each high school and elementary student prior to the reorganization, for a period of four years.
3. The weighting factor for each district will be adjusted proportionately over a period of two years, following the period of time provided in subsection 1 or 2, until the adjusted weighting factor equals the weighting factor for the combined enrollment resulting from the reorganization.
4. Notwithstanding the provisions of any other law, no school district may receive less in per student payments for the first year of its reorganization than the total amount that the districts participating in the reorganization received in per student payments for the school year immediately preceding the reorganization. If less than a whole school district participated in a reorganization, the superintendent of public instruction shall prorate the payments to which the newly reorganized district is entitled under this subsection.

15.1-27-18. Per student payments - Eligibility - Minimum amounts.

1. In order to be counted for the purpose of calculating per student payments, as provided for by this chapter, a high school student must be enrolled in at least four high school units. The units may include vocational education courses offered in accordance with chapter 15-20.1 and courses that are approved by the superintendent of public instruction and offered by another high school district.
2. If a student is enrolled for graduation in a nonpublic school or if a student is taking fewer than four high school units and is enrolled in an approved alternative high school education program, the school district in which the student is enrolled is entitled to receive proportionate payments.
3. Each high school district must receive at least as much in total per student payments as it would have received if it had the highest number of students in the next lower weighting category.

15.1-27-19. Summer school courses and programs - Proportionate payments.

1. Each school district that offers summer school courses at the high school level is entitled to receive proportionate payments provided each course offered satisfies requirements for graduation, comprises at least as many clock-hours as courses offered during the regular school term, and complies with rules adopted by the superintendent of public instruction.
2. A school district that offers remedial summer school programs at the elementary level is entitled to receive proportionate payments provided the programs comply with rules adopted by the superintendent of public instruction.

1. Upon the completion of student registration and in no event later than September tenth of each year, the business manager of a school district claiming payments from state funds under the provisions of this chapter shall file a claim in the manner prescribed by the superintendent of public instruction. The business manager must provide the number of registered high school and elementary school students for whom payments are claimed and any other information requested by the superintendent of public instruction.
2. The superintendent of public instruction shall compute the per student payments on the basis of the previous year's average daily membership less the number of students attending school during the current school year in another district under the provisions of open enrollment or the current year's fall enrollment, whichever provides the greater total payment. The superintendent shall make adjustments in the subsequent year according to a comparison between the average daily membership for the year for which the adjusted payment is being made and the year preceding the year for which the adjusted payment is being made, whichever is greater, for grade levels that existed in both years. The greater of the two preceding years' average daily membership must be used in computing any adjustment in a district's per student aid payments.
3. School districts educating children of agricultural migratory workers and school districts offering high school summer courses during the months of June, July, and August are not restricted to payments for a one hundred eighty-day school term.
4. Upon termination of the school year and in no event later than July fifteenth, the business manager of each school district that has received payments from state funds under the provisions of this chapter shall file with the county superintendent of schools a verified statement of the name, residence, and membership of each student and the units of high school work taken by each student enrolled during the previous school year. The county superintendent shall investigate the validity of the statement and shall determine the residence and other qualifications of each student named in the statement. The county superintendent of schools shall attest to the statement. On or before September first of each year, the county superintendent shall certify to the superintendent of public instruction the number of students enrolled in each district in the county for the previous school year upon which any adjustment may be based. If the county superintendent disallows any statement in whole or in part, the county superintendent shall provide notice of the disallowance, together with the names of the affected students, to the superintendent of public instruction and to the school district filing the statement.
5. A district may appeal the determination of a county superintendent to the superintendent of public instruction on or before September fifteenth of the year in which the determination is made. The judgment of the superintendent of public instruction is final.

15.1-27-21. Payment to school district - Property valuation changes.

1. If the taxable valuation of property is diminished because real property is reclassified as personal property as a result of legislative or judicial action, the state payment to an affected school district must be based on the diminished valuation in the year in which it is paid to the district.
2. If the state payment to a school district is based upon a determination of property valuation that is later diminished by legislative or judicial action, the district has one year from the date of the final determination or adjudication of the property tax base adjustment within

which to apply to the superintendent of public instruction for a supplemental state payment in an amount equaling the difference between the amount that the district received and the amount that the district would have received if the correct property tax base had been used.

3. A school district is entitled to the supplemental state payment provided by this section even if the payment is made in a succeeding biennium.
4. The superintendent of public instruction shall pay the amount due under this section within the limits of legislative appropriations for per student payments and transportation aid.

15.1-27-22. Insufficient moneys - Fractional payments. If moneys in the state general fund are insufficient to make all payments to school districts, the superintendent of public instruction shall prorate the payments on a fractional basis. As additional moneys come into the fund, payments may be made until the school districts receive all moneys to which they are entitled. If an appropriation made by the legislative assembly is inadequate to meet all claims against the appropriation and is therefore the cause of the insufficiency, the prorated fractional payments made under this section constitute payment in full.

15.1-27-23. Weather or other emergency conditions - Closure of schools - State payments to school districts. If because of severe weather or other emergency conditions a school or school district remains closed or provides less than a full day of instruction, the school or school district shall make every effort to reschedule classes so that students receive at least one hundred seventy-three full days of instruction. Any school or school district for which the rescheduling of classes would create undue hardship may request that, for purposes of calculating state payments to the school or school district, the governor waive the rescheduling in whole or in part. The governor may not grant a waiver for less than a full day of instruction.

15.1-27-24. Taylor Grazing Act funds - Disposition. The state treasurer shall allocate the percentage of the total moneys received as required by this section among the counties in which the minerals were produced based on the proportion each county's mineral royalty revenue bears to the total mineral royalty revenue received by the state for that calendar quarter. The state treasurer shall pay the amount calculated to each county.
4. The counties may use any money received under this section only for the planning, construction, and maintenance of public facilities and the provision of public services.

5. The percentage of money received by the state under the Act of Congress cited in subsection 1 which must be allocated and paid to the counties under this section is ten percent for collections in 2000, twenty percent for collections in 2001, thirty percent for collections in 2002, forty percent for collections in 2003, and fifty percent for collections in 2004 and thereafter.
6. Any remaining money received by the state under the Act of Congress cited in subsection 1 must be distributed to school districts as provided for in this chapter. Any moneys distributed under this subsection are deemed the first moneys withdrawn or expended from the general fund for the purpose of state aid to school districts.

15.1-27-32. School district closure - Distribution of per student special education payments.

1. If a school district ceases to exist, the superintendent of public instruction shall calculate the amount of per student special education payments to which the former school district would have been entitled under section 15.1-27-10 for the provision of special education services during its final year of operation and shall pay a percentage of the total amount to each North Dakota school district that enrolls students who attended the former school district during the prior school year. Each of the school districts eligible for a payment under this section is entitled to receive that percentage of the total amount which is the same as the percentage that the number of the district's students who attended the former school district during the prior school year bears to the total number of students who attended the former school district during the prior school year.

On or before the third Monday in each February, April, August, October, and December, the office of management and budget shall certify to the superintendent of public instruction the amount of the state tuition fund. The superintendent shall apportion the fund among the school districts of the state in proportion to the number of school-age children residing in each district, as shown by the latest enumeration provided for by law and pay the amount apportioned to each school district. The superintendent shall make the payments required by this section at the same time as the per student payments required under chapter 15.1-27.

SECTION 13. Chapter 15.1-29 of the North Dakota Century Code is created and enacted as follows:

15.1-29-01. Education of students in bordering states - Payment of tuition.

1. Students may attend a school in a bordering state in accordance with section 15.1-29-02 under the following circumstances:
 - a. A student who lives within forty miles [64.37 kilometers] of another state or in a county bordering on another state may, with the approval of the school board, attend a public school in a bordering state.
 - b. A student who has attended a school district in a bordering state since, and including, the 1990-91 school year must be permitted to continue attending school in the district in the bordering state.
 - c. A student whose sibling attended an out-of-state school during or before the 1990-91 school year must be permitted to attend school in the district the sibling attended in the bordering state.

2. If the school board of the district in which the student resides denies a request for a student's attendance in and payment of tuition to another state, the student's parent may appeal the decision to the three-member committee referenced in section 15.1-29-06.
 - a. If the three-member committee determines that the student meets the terms of subdivision b or c of subsection 1, the student may attend school in the bordering state and the board of the student's school district of residence shall pay the tuition.
 - b. If the three-member committee determines the student falls within the terms of subdivision a of subsection 1, then the three-member committee shall make its decision using the criteria specified in section 15.1-29-06.
 - c. If the student is a kindergarten student, the three-member committee shall apply the same criteria as that specified for elementary students in section 15.1-29-06, except that subsection 2 of section 15.1-29-06 does not apply to an appeal for out-of-state attendance and payment of tuition. Notwithstanding the provisions of this section, if a student's school district of residence does not provide for the education of kindergarten students, the district may not pay tuition for a kindergarten student to attend school in a bordering state.
 - d. Any decision by the three-member committee regarding the payment of tuition for high school, elementary, or kindergarten students may be appealed by the school board or by the student's parent to the state board of public school education. A decision by the state board is final.
3.
 - a. The superintendent of public instruction shall forward all per student and transportation aid payments for a student attending an out-of-state school to the student's school district of residence.
 - b. The student's district of residence may reduce any tuition payment it must make to an out-of-state school by an amount commensurate with the tuition costs the district would be entitled to receive as compensation for a student from the out-of-state district enrolled in its school.
 - c. Transportation payments for a student attending school in a bordering state must be determined as provided in section 15.1-27-27.
4. Nothing in this section requires that a school district of residence provide student transportation or payments in lieu of transportation for students attending out-of-state schools.

15.1-29-02. Education of students in bordering states - Reciprocal contract.

1. The superintendent of public instruction shall pursue a reciprocal contract with the education agency of each bordering state. The contract must address the cost of educating students in the public schools of the bordering state.
2. A school district may comply with the terms of the superintendent's reciprocal contract or, upon providing notice to the superintendent of public instruction, may contract with a school district in a bordering state for the education of students. A contract between school districts supersedes the terms of the superintendent's reciprocal contract. A contract between school districts must provide for the payment of tuition at an agreed-upon amount. The amount of tuition payable per student may not exceed the amount set by the superintendent's reciprocal contract nor may it be less than the per student payment plus tuition apportionment in the North Dakota school district.
3. For purposes of per student payments and tuition apportionment payments, a student who attends school in a bordering state under a contract provided for by this section is deemed

to be in attendance in the student's school district of residence. The student's school district of residence is liable to the school district of the bordering state for payments as provided in the contract.

4. If the education agency of a bordering state is not authorized to or refuses to enter into a reciprocal contract with the superintendent of public instruction, a school district in this state may enter into its own contract with a school district in a bordering state for the education of students. A school district in this state may not agree to accept students from a bordering state unless the tuition payable equals or exceeds the per student payment plus the tuition apportionment payment that the district would have received from this state for a student in the same grade if its student had been attending school in the bordering state.

15.1-29-03. Education of students in other districts - Payment of tuition.

1. After taking into account the best interests of all affected parties, the board of a school district may elect to send its students to another school district. In this instance, the board may pay tuition for the students. The board may arrange, and when petitioned to do so by qualified electors of the district equal in number to at least a majority of those who voted in the most recent annual school district election shall arrange, with other boards to send students to the other districts and to pay for their tuition and transportation.
2. If a district does not provide educational services to an entire grade level, the students in that grade level may attend a public school of their choice outside their district of residence without going through the procedures outlined in section 15.1-29-05. The school district of residence shall pay tuition to the admitting district. For purposes of determining whether educational services are provided to an entire grade level, districts cooperating with each other in the joint provision of educational services under a plan approved by the superintendent of public instruction are considered to be a single district.

15.1-29-04. Payment of tuition by sending districts - Interest on late payments. If a school board approves the payment of tuition for a student attending school in another district or if a district is required to make tuition payments under the provisions of this chapter, the sending district shall pay at least fifty percent of the annual tuition charge to the admitting district on or before December thirty-first and any remaining amount on or before May thirty-first. If payment is not received by the admitting district within thirty days after the date on which payment is due, simple interest at the rate of six percent per annum accrues to any amount due.

15.1-29-05. Payment of tuition - Petition by parent. A student's parent may file a written petition with the board of the student's school district of residence for the payment of tuition in order that the student can attend another school district. Within sixty days after receiving the petition, the board shall meet with the student's parent and render a decision regarding the payment of tuition. If the board does not render a contrary decision within the sixty-day period, the petition is deemed approved. If the petition is approved, the board shall pay the tuition charges. If the petition is denied, the student's parent may file an appeal with the county superintendent of schools.

15.1-29-06. Payment of tuition for grades one through twelve - Appeal - Withholding of state payments.

1. a. Within fifteen days after receipt of an appeal filed under section 15.1-29-05, the county superintendent of schools shall convene a three-member committee consisting of the county superintendent, the state's attorney, and one member appointed by the board of county commissioners for a term of three years. The committee shall consult with the boards of the affected districts and with the student's parent. The committee shall schedule a hearing, giving due notice to each affected board and to the student's parent. The committee shall conduct the hearing in a manner that allows all parties to present arguments and responses. The committee shall base its decision regarding the payment of tuition on the grade in which the student is enrolled.

- b. If the student is or during the following school year will be enrolled in any grade from nine through twelve and the committee finds that the attendance of the student is necessitated by shorter distances, previous attendance in another high school, inadequacy of curriculum considering the student's educational needs, or extreme hardship for the student or the student's family, the committee shall approve the application and the payment of tuition by the student's school district of residence, thereby obligating the district of residence to pay the tuition. The committee's directive regarding the payment of tuition may be for any fixed number of school years, up to the completion of the student's high school education, unless open enrollment is an available option. The decision of the committee may be appealed to the state board of public school education. A decision by the state board is final.
 - c. If the student is or during the following school year will be enrolled in any grade from one through eight and the committee finds that the attendance of the student is necessitated by shorter distances or extreme hardship for the student or the student's family, the committee shall approve the application and the payment of tuition by the student's district of residence, thereby obligating the district of residence to pay the tuition. The committee's directive regarding the payment of tuition is limited to one school year. The student's parent may make subsequent applications for the payment of tuition. The decision of the committee is final and is not subject to appeal.
- 2. If a student's school district of residence consists of land situated in more than one county, the three-member committee established under subsection 1 must consist of the county superintendent of schools and the state's attorney from the county in which the greatest portion of the school district's land is situated, and an individual appointed for a term of three years by the board of county commissioners representing the county in which the greatest portion of the school district's land is situated.
 - 3. If the student's school district of residence does not comply with the decision requiring that tuition charges be paid, the board of the admitting district shall notify the superintendent of public instruction. Upon verifying that tuition payments are due the admitting district and are unpaid, the superintendent of public instruction shall withhold all state payments to the student's school district of residence until any tuition due has been fully paid.
 - 4. A school district of residence may provide transportation to a student for whom tuition is paid under this section. If a school district of residence does not provide transportation to the student, it may be provided by the admitting district and the admitting district is then entitled to state payments for the transportation of the student.

15.1-29-07. Payment of tuition by parent - Content of tuition contract.

- 1. If the board of a student's school district of residence refuses to pay the tuition for the student to attend school in another district and if the committee established under section 15.1-29-06 denies the petition on appeal, the student's parent may pay the tuition.
- 2. If the parent chooses to pay the tuition, the parent shall:
 - a. Submit at least fifty percent of the total amount due on the day of enrollment; and
 - b. Provide the board of the admitting district with a written contract agreeing to pay any remaining balance on or before December thirty-first.

15.1-29-08. Payment of tuition - Kindergarten student. If the student is or during the following school year will be enrolled in kindergarten, the board of the student's school district of residence may pay tuition to the receiving district. The board's decision with respect to a kindergarten student is not appealable. If the board of the student's district of residence does not pay the tuition to the admitting district, the student's parent may pay the tuition to the admitting district under the provisions of section 15.1-29-11.

15.1-29-09. Payment of tuition by federal government. An admitting district may accept payments under title 1 of Public Law No. 81-874 [64 Stat. 1100; 20 U.S.C. 236 et seq.] as tuition for a nonresident student if:

1. The student's parent is employed on an installation owned by the federal government;
2. The student's parent resides on an installation owned by the federal government; and
3. The boards of the student's school district of residence and the admitting district agree to accept the payments in lieu of other tuition for the nonresident student.

15.1-29-10. Tuition contracts - Agreement with federal officials. A school board may contract with federal officials for the education of students in a federal school.

15.1-29-11. Admission of students - Conditions. The board of a school district shall admit students from other districts to its schools if:

1. The admission does not create overcrowding; and
2.
 - a. The board of the sending district has entered into a contract with the board of the admitting district regarding the students' attendance;
 - b. Tuition will be paid by the parents of the students from the sending district; or
 - c. The grade level required by the students is not offered by the sending district.

15.1-29-12. Tuition payments - Determination.

1. Except as provided in section 15.1-29-13, a school district sending a student to another district for purposes of education shall pay the full cost of education incurred by the admitting district.
2.
 - a. The admitting district shall determine the cost of education per student for its kindergarten, elementary, and high school students on the basis of its average daily membership and those expenditures permitted in determining the cost of education per student in section 15.1-27-03.
 - b. To the cost of education per student, the admitting district shall add the state average capital outlay per student. The state average capital outlay per student is determined by dividing the total of all school districts' annual expenditures for sinking and interest funds, tax receipts to the building funds, and general fund expenditures for capital outlay by the average daily membership of the state.
 - c. The admitting district shall subtract the following from the amount arrived at under subdivision b:
 - (1) The weighted per student payment received by the admitting district, less the average amount per North Dakota resident student enrolled in the school district realized from the deductions applied under section 15.1-27-06; and
 - (2) Any credit for taxes paid to the admitting district by the student's parent.
 - d. The amount remaining is the full cost of education incurred by the admitting district and the tuition amount payable for the individual student.
3. If the student's school district of residence and the student's parent are both paying tuition, the credit allowed under subdivision c of subsection 2 for taxes paid to the admitting district by the student's parent must be proportionately credited to the student's district of residence and the student's parent.

4. This chapter does not affect the right of a school board to charge and collect tuition from students who are not residents of this state, in accordance with section 15.1-29-02.

15.1-29-13. Tuition payments - Nonresident students.

1.
 - a. Except as provided in this subsection, the board of a school district that admits a nonresident student shall charge and collect tuition for the student. Either the student's district of residence shall pay the tuition to the admitting district in accordance with section 15.1-29-12 or the student's parent shall pay the tuition to the admitting district in accordance with section 15.1-29-07.
 - b. A board may charge tuition for nonresident students enrolled in an approved alternative education program.
 - c. Except as otherwise provided, if a school district fails to charge and collect tuition for a nonresident student, the districts shall forfeit any per student payment and transportation aid otherwise payable for the nonresident student.
2.
 - a. The board of a school district may admit a nonresident student from another district in this state offering the same grade level as that in which the student is enrolled without a charge and collection of tuition if the sending and admitting districts have entered into a written contract regarding the student's admission.
 - b. For purposes of determining whether the same grade level is offered, two or more school districts cooperating with each other for the joint provision of educational services under a plan approved by the superintendent of public instruction must be considered to be a single district.
 - c. The contract must specify whether transportation is to be provided and, if so, by which district. If a school district of residence does not provide transportation to the student, it may be provided by the admitting district and the admitting district is then entitled to state payments for the transportation of the student.
 - d. A contract is not necessary if the nonresident student is enrolled in an approved alternative education program for which no tuition is charged.
 - e. A school district may admit a nonresident student described in section 15.1-31-07 from another school district in this state without a charge and collection of tuition and without a written agreement.
3. A school district may not charge or collect from a nonresident student, the student's parent, or the student's district of residence any fees or charges not otherwise assessed to all resident students.

15.1-29-14. Student placement for noneducational purposes - Residency determination - Payment of tuition.

1. For purposes of applying this chapter, a student's school district of residence is the district in which the student resides:
 - a. At the time that a state court, tribal court, juvenile supervisor, or the division of juvenile services issues an order requiring the student to stay for a prescribed period at a state-licensed foster home or at a state-licensed child care home or facility;
 - b. At the time a county or state social service agency places the student, with the consent of the student's parent or legal guardian, at a state-licensed foster home or at a state-licensed child care home or facility;

- c. At the time the student is initially placed in a state-operated institution, even if the student is later placed at a state-licensed foster home or at a state-licensed child care home or facility; or
 - d. At the time the student is voluntarily admitted to a state-operated institution or to a state-licensed child care home or facility.
- 2. The student's school district of residence is obligated to pay:
 - a. All charges for tuition upon claim of the admitting district; and
 - b. All charges for tutoring services upon claim of an admitting facility, provided that the tutoring services are delivered by an individual who is licensed to teach by the education standards and practices board or approved to teach by the education standards and practices board.
- 3.
 - a. If, after a student placement is made as provided for under subsection 1, the student's custodial parent establishes residency in another school district in this state, the school district in which the custodial parent has established residency becomes the student's school district of residence for purposes of paying tuition and tutoring charges under subsection 2.
 - b. The state shall pay the tuition and tutoring charges under subsection 2 from funds appropriated by the legislative assembly for per student and transportation aid:
 - (1) If, after a student placement is made as provided for under subsection 1, the student's custodial parent establishes residency outside this state; or
 - (2) If a court orders a termination of parental rights with respect to the student's parents.
- 4. If the student is voluntarily admitted to a state-licensed child care home or facility, or to a state-operated institution, the student's parent or, if one has been appointed, the student's legal guardian may appeal a determination under section 15.1-29-05 regarding the payment of tuition by filing a petition with the county superintendent of schools. Within fifteen days of receiving the petition, the three-member committee established under section 15.1-29-06 shall consult with the boards of the affected school districts and with the student's parent or legal guardian and render a decision regarding responsibility for the payment of tuition charges.
- 5. If the student's district of residence does not pay the required tuition, the admitting district or facility shall notify the superintendent of public instruction. Upon verification that tuition payments are due and unpaid, the superintendent shall withhold an amount equal to the unpaid tuition from per student payments and transportation aid otherwise payable to the student's school district of residence until the tuition due has been fully paid.
- 6. An amount equal to the state average per student elementary or high school cost, depending on the student's grade of enrollment, is payable to the admitting district or facility as part of the cost of educating the student for the school year. The payment may not exceed the actual per student cost incurred by the admitting district or facility. The remainder of the actual cost of educating the student not covered by other payments or credits must be paid by the state, within the limits of legislative appropriations, from funds appropriated for special education in the case of a student with disabilities or from funds appropriated for per student payments and transportation aid in all other cases.
- 7. If a student with disabilities placed in accordance with this section reaches age eighteen and continues to receive special education and related services, the student's school district of residence is deemed to be the same as that of the student's custodial parent until

the special education services are concluded. If the student's custodial parent establishes residency outside this state, or if a court orders a termination of parental rights with respect to the student's parents, the state shall pay the tuition and tutoring charges under subsection 2 from funds appropriated by the legislative assembly for per student and transportation aid.

8. a. The placing agency shall provide written notice regarding an initial placement and all subsequent placements of a student, by registered mail, to the superintendent of the student's school district of residence and to the superintendent of the admitting district:
 - (1) Within five working days after a placement is made under court order;
 - (2) Within five working days after an emergency placement is made; or
 - (3) At least ten working days prior to any other placement.
- b. The written notice must include any information requested by the superintendent of public instruction for purposes of determining payment responsibility.
- c. The placing agency shall afford the student's school district of residence reasonable opportunity to participate in permanency planning for the student.
9. Notwithstanding this section, educational services provided to a student by the youth correctional center are not subject to the payment of tuition by either the student's school district of residence or the superintendent of public instruction.
10. For purposes of this section, "custodial parent" means the parent who has been awarded sole legal and physical custody of the student in a legal proceeding or, if there is currently no operative custody order, the parent with whom the student resides. If the student resides with both parents, then both are custodial parents.

15.1-29-15. Levy for tuition payments. If the board of a school district approves tuition payments for students in grades seven through twelve or if the board is required to make tuition payments under this chapter, the board may levy an amount sufficient to meet such payments, pursuant to subdivision c of subsection 1 of section 57-15-14.2.

SECTION 14. Chapter 15.1-30 of the North Dakota Century Code is created and enacted as follows:

15.1-30-01. Transportation or meals and lodging - Options of school board.

1. The board of a school district may:
 - a. Provide for the transportation of a student to and from school; or
 - b. If acceptable to the student's parent, reimburse the parent for expenses incurred in providing meals and lodging to the student outside the student's home, provided that the reimbursement may not exceed the amount permitted under subsection 4 of section 15.1-27-27.
2. A parent receiving payments under section 15.1-30-02 is not eligible to receive payments under this section.
3. If the board elects to provide for the transportation of students by public transit, the board shall establish eligibility criteria based on a minimum distance between a student's residence and the school. Except as otherwise provided by law, the board shall apply the criteria equally to all students in the district.

4. Benefits under this section are available even if a student is transported to another school district in or outside this state, provided the student's attendance meets all other conditions established by law.

15.1-30-02. Transportation payments - Board option.

1. The board of a school district in the state may pay to the parent of each student who resides more than two miles [3.22 kilometers] from the public school which the student attends a reasonable sum per day for each day the student attends the school, provided:
 - a. The student is transported to school by an adult member of the student's family;
 - b. The student's transportation is provided in a vehicle furnished by the student's parent;
 - c. The student's transportation is paid for by the student's parent; or
 - d. The cost of providing meals and lodging for the student at a location other than the student's residence is assumed by the student's parent.
2. The board shall calculate the payment provided for in this section according to the distance between the front door of the student's residence and the front door of the school attended by the student, using the most direct public route.

15.1-30-03. Transportation payments - Written request - Waiver. A parent entitled to any payment authorized by a school board under this chapter shall submit to the school district a written request for payment before June thirtieth of each school year or the payment is deemed waived. Any payment not made within one year of the date on which it is requested is deemed to have been refused and the claim is deemed to have expired.

15.1-30-04. Provision of meals and lodging for high school students - Payment permitted - Levy. Instead of providing transportation so that an eligible high school student residing in the district can attend school in another district, a school board may pay a reasonable allowance to the student's parent for costs incurred in the provision of meals and lodging for the student at a location other than the student's residence. A school district that furnishes either transportation or an allowance for the provision of meals and lodging for a student under this section may levy a tax pursuant to subdivision a of subsection 1 of section 57-15-14.2 for this purpose.

15.1-30-05. Schoolbus transportation services - Optional fee. The board of a school district that has not been reorganized may charge a fee for the provision of schoolbus transportation service to students. If the service began before July 1, 1981, the total fees charged may not exceed an amount equal to the difference between the state transportation payment and the lesser of the state average cost for transportation or the district's cost during the preceding school year. If the service started on or after July 1, 1981, the total fees charged may not exceed an amount equal to the difference between the state transportation payment and the school district's cost of transportation during the preceding school year. A district that has not previously provided transportation to students shall base its fees on estimated costs during the first year transportation is provided.

15.1-30-06. Transportation - Bids, contracts, bonds.

1. Before the beginning of each school year, the board of a school district that provides transportation shall contract for the provision of transportation services during the school year. Except as provided in section 15.1-30-11, the board shall provide notice of its intent to contract by publishing the time and place for submission of sealed bids in the official newspaper of the school district at least ten days prior to the required date of submission. The notice must:
 - a. Include the route to be covered by each contract;
 - b. Provide that the board reserves the right to reject any and all bids;

- c. Provide that each successful bidder must submit in a separate envelope a bond in an amount set by the board, provided that the amount of the bond must be at least five hundred dollars;
 - d. Provide that the bond must be conditioned for the faithful performance of the duties set forth in the contract; and
 - e. Provide that any bids submitted name the individual who will operate the vehicle and describe the vehicle.
2. If the transportation vehicle is privately owned, the duration of the contract may not exceed seven years.
3. This section does not apply to a school district that owns its own buses and employs its own busdrivers.

15.1-30-07. Transportation contract - Standard form. The superintendent of public instruction shall prepare a standard transportation contract form and shall provide copies, upon request, to school districts.

15.1-30-08. Transportation contract - Provisions. A transportation contract must:

1. Provide that no vehicle other than that described in the contract may be used to transport students, unless a change is authorized in writing by the board of the school district.
2. Provide that only the individual named in the contract may operate a vehicle used to transport students, unless a change is authorized in writing by the board.
3. Include the transportation routes that were established by the board and which are to be covered by the transportation provider.

5. Describe the process by which an equitable adjustment of compensation will be determined and paid if a change in the established transportation routes becomes necessary.

15.1-30-09. Transportation contract - Waiver of provisions. In the case of an emergency or other unforeseen event, the school board president may waive transportation contract provisions requiring that only vehicles described in the contract be used and that the vehicles be operated only by individuals named in the contract. The waiver is valid only until the next regular or special meeting of the board.

15.1-30-10. Transportation contract - Assignment. A transportation contract is assignable only upon written authorization by the school board.

15.1-30-11. Transportation contract - Direct negotiation.

1. Notwithstanding sections 15.1-30-06 and 15.1-30-12, a contract for the transportation of students, originally bid by and let to a contractor, may be renewed:
 - a. Through direct negotiation between the board of a school district and the contractor;
or
 - b. Upon sealed bids.
2. If a contract is to be renewed through direct negotiation, the school board shall publish notice in the official newspaper of the district, at least thirty days before the date of renewal, and shall make a good-faith effort to obtain at least two written quotations for the

contract. The board shall maintain all quotations received on file for at least one year after their receipt. The quotations are public information.

3. If any written quotations are received, the board may directly negotiate a contract, provided:
 - a. The board shall conduct a public meeting regarding the contract;
 - b. The board provides at least seven days' notice of the public meeting regarding the contract by publication in the official newspaper of the district; and
 - c. The public is given an opportunity to appear and comment at the public meeting.
4. All terms of the contract must be negotiated and agreed to in the public meeting.

 - b. Agrees to use a vehicle which, in the opinion of the board, meets the standards imposed by the superintendent of public instruction under sections 39-21-27 and 39-21-27.1 and which is safe, comfortable, and suitable for the purpose; and
 - c. Identifies individuals who, in the opinion of the board, are competent and responsible to serve as drivers.
2. The board may not enter a contract for transportation with an individual member of the board.
3. An individual member of the board may serve as the driver of a vehicle identified for use in the transportation contract.

15.1-30-13. Transportation of students - Control and discipline. The driver of a vehicle used to transport students under a contract as provided in this chapter is under the supervision and direction of the school board, the school district superintendent, the school principal, and the teachers of the school while the driver is on duty. The disciplinary authority of the school exists while a student is being transported, by or on behalf of the student's school, and the driver of the vehicle is charged with exercising control and discipline during the transportation.

15.1-30-14. Schoolbus route - Extension into bordering state. The board of a school district may extend its bus route into a bordering state for the purpose of transporting students from the bordering state into this state, provided that the superintendent of public instruction has entered a reciprocal contract with the bordering state under section 15.1-29-02 or that the board has entered a contract with a school district in the bordering state under section 15.1-29-02.

15.1-30-15. Transportation services to nonpublic students - Joint provision of transportation services.

1. If the board of a school district provides transportation services to its students, the board may provide transportation services to students attending nonpublic schools, provided:

2.
 - a. The board of a school district that provides transportation to its students may contract with other local, state, or federal government entities for the joint provision and integration of transportation services to the public.
 - b. A contract under this section must provide for the observation of all safety requirements otherwise imposed by law on schoolbuses, on school vehicles, and on schoolbus drivers when students are being transported.
 - c. Transportation services to students provided pursuant to this subsection qualify for state transportation aid under chapter 15.1-27. However, no payments may be made from state funds for any costs incurred as a result of a deviation from established schoolbus routes necessitated by a contract pursuant to this subsection.

SECTION 15. Chapter 15.1-31 of the North Dakota Century Code is created and enacted as follows:

15.1-31-01. Open enrollment - Procedure.

1. By February first of the school year preceding the year of enrollment, a parent who wishes to enroll a student in a North Dakota school district other than the student's district of residence shall file an application for approval with the board of the student's district of residence. The superintendent of public instruction shall make the application forms available in each school district.
2. By March first of the school year preceding the year of enrollment, the school board of the student's district of residence shall act on the application, notify the parent of the board's decision within five days, and if the application is approved, immediately transmit the application to the admitting district.
3. By April first of the school year preceding the year of enrollment, the board of the admitting district shall approve or deny the application. The board of the admitting district shall notify the board of the district of residence and the student's parent of its decision within five days.
4. Notice of intent to enroll in the admitting district obligates the student to attend the admitting district during the following school year unless the school boards of the resident and the admitting districts agree in writing to allow the student to transfer back to the resident district or the student's parent relocates to another district.
5. All applications must be reviewed in the order they are received.
6. A student whose school district of residence does not offer the grade level in which the student requires enrollment may not participate in open enrollment. For purposes of determining whether the grade level in which the student requires enrollment is offered, the several school districts cooperating with each other for the joint provision of education services under a plan approved by the superintendent of public instruction must be considered to be a single district.
7. A child placed for purposes other than education in a group or residential care facility or in a residential treatment center is not eligible for open enrollment under this section.
8. The board of a school district of residence and the board of an admitting district shall waive the application, consideration, and approval dates in this section for any student who,

together with the student's parent, moves from the student's school district of residence to another school district and who wishes to enroll in a school district other than the district to which the student moved.

15.1-31-02. Open enrollment - Grounds for denial - Exception. Except as provided in section 15.1-31-04, the board of a student's school district of residence may deny an application under section 15.1-31-01 only if the application will result in a reduction of the number of students enrolled in the district by more than twenty percent of the average daily membership the previous school year. However, if denying an application would result in the enrollment of children from the same nuclear family in different school districts, the school board of the district of residence may not deny the application.

15.1-31-03. Open enrollment - Per student aid - Tuition apportionment.

1. Once a student is enrolled in an admitting district, the student must remain enrolled in the admitting district until:
 - a. The student graduates;
 - b. The student relocates to another district;
 - c. The student's parent applies for enrollment in another school district; or
 - d. The student's parent notifies the student's school district of residence that the student will attend school in the school district of residence the following year.
2. Payment for per student aid must be made to the admitting district in accordance with chapter 15.1-27.
3. For purposes of tuition apportionment payments, a student whose application is approved under this section is considered a resident of the admitting district.
4. Except as specifically provided in this chapter, chapter 15.1-29 does not apply to students involved in open enrollment.

15.1-31-04. Open enrollment - Students with disabilities - Additional costs. If an application under this chapter is approved for a student with a disability, the board of the student's school district of residence shall pay to the admitting district the costs incurred by the admitting district in providing special education and related services to the student up to a maximum each school year of two and one-half times the state average per student elementary or high school cost, depending on the student's enrollment level, plus twenty percent of all remaining costs. The superintendent of public instruction shall reimburse the admitting district eighty percent of the remainder of the cost of educating the student with disabilities within the limits of legislative appropriations for that purpose.

15.1-31-05. Open enrollment - Transportation. A school district of residence may provide transportation to a student participating in open enrollment. If a district of residence does not provide transportation to a student participating in open enrollment, transportation may be provided by the admitting district, and the admitting district is then entitled to state payments for the transportation of that student.

15.1-31-06. Open enrollment - School boards - Standards.

1. The board of each school district shall set standards for the acceptance and denial of applications for admittance under open enrollment as provided in section 15.1-31-01. The standards may address the capacity of a program, class, grade level, or school building. The standards may not address previous academic achievement, participation in extracurricular activities, disabilities, English language proficiency, or previous disciplinary proceedings.

2. A board may also determine that applications for admittance under open enrollment, in accordance with this chapter, will not be considered.
3. A school district participating in an open enrollment program may not give or offer to give a student remuneration, or directly or indirectly exert influence on the student or the student's family, in order to encourage participation in the open enrollment program for the purpose of having the student participate in varsity athletic activities.

15.1-31-07. Students not subject to this chapter. If a student, as a result of a school district dissolution, resides in a district other than the one the student chooses to attend at the time of dissolution, the student is not subject to the provisions of this chapter and may attend school in the chosen school district. The student may not be considered a student in average daily membership in the student's school district of residence for purposes of section 15.1-31-02.

1. If in the opinion of an individualized education program team or an education services team a student is unable to attend a public school in the student's school district of residence because of a physical disability, a mental disability, or a learning disability, and if no public school in the state will accept the student and provide the necessary services, the student's school district of residence shall contract with:

15.1-32-17. Extended educational program. A student with disabilities is entitled to an educational program that extends beyond the normal school calendar if the student's individualized education program team or services team determines that regression would be caused by an interruption in the student's educational program and that the student's limited recoupment capacity makes it impossible or unlikely that the student will attain the level of self-sufficiency and independence from caretakers which the student would otherwise be expected to reach.

15.1-32-18. Cost - Liability of school district for special education. If the cost of providing special education and related services to a student with disabilities, as determined by the superintendent of public instruction, exceeds the reimbursement provided by the state, the student's school district of residence is liable to pay for each such student an amount over the state reimbursement up to a maximum each school year of two and one-half times the state average per student elementary cost of education or high school cost of education, depending on the student's level of enrollment, plus twenty percent of all remaining costs. The two and one-half times amount includes the amount that the school district is required to pay under section 15.1-32-14. The purpose of the meeting is to receive comments regarding the proposed changes, the applicability of the proposed changes, including the scheduling, the manner of implementation, associated costs, and the short-term and long-term effects of the proposed changes. If, within thirty days after the date of the meeting, members of any two representative groups present at the meeting object in writing to the proposed changes, the superintendent may not implement the proposed changes before July 1, 2003.
