- 1 A BILL for an Act to amend and reenact subsection 6 of section 57-02-27.2 of the North Dakota
- 2 Century Code, relating to the valuation and assessment of inundated agricultural land for
- 3 property tax purposes; to provide an effective date; and to declare an emergency.

4 BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Subsection 6 of section 57-02-27.2 of the North Dakota Century Code is amended and reenacted as follows:

For purposes of this section, "inundated agricultural land" means property classified as agricultural property containing a minimum of ten contiguous acres which is inundated to an extent making it unsuitable for growing crops or grazing farm animals for a full three consecutive growing season seasons or more, and which produced revenue from any source in the most recent prior year which is less than the county average revenue per acre for noncropland calculated by the agricultural economics department of the North Dakota state university. Application for classification as inundated agricultural land must be made in writing to the township assessor or county director of tax equalization by March thirty-first of each year, except that for the year 2001, the written application must be made within ninety days from the filing of this Act with the secretary of state. Before all or part of a parcel of property may be classified as inundated agricultural land, the board of county commissioners must approve that classification for that property for the taxable year. The agricultural value of inundated agricultural lands for purposes of this section must be determined by the agricultural economics department of North Dakota state university to be ten percent of the average agricultural value of noncropland for the county as determined under this section. Valuation of individual parcels of inundated agricultural land may recognize the
