BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 43-20-02 of the North Dakota Century Code is amended and reenacted as follows:

43-20-02. Dental hygienists - Qualifications - Examinations - Registration and license.

Any person who is of good moral character, who is not already a licensed dental hygienist of this state, who is a graduate of an accredited high school or its equivalent, and who is a graduate of a school of dental hygiene which is approved or provisionally approved by the commission on dental accreditation of the American dental association and which provides a minimum of two academic years of dental hygiene curriculum, upon applying for a license and paying an amount determined by the state board of dental examiners, may be examined by the board, on the subjects considered essential by it for a dental hygienist. The examinations must be conducted by the board or by a designee of the board, or by a regional dental testing service in which the board participates, or by other national or regional dental testing services that the board recognizes. If the applicant, in the opinion of the board, successfully passes the examination, the applicant may be registered and licensed as a dental hygienist. Applicants who fail to pass a satisfactory initial examination may be reexamined upon payment of the fee determined by the board for each subsequent examination. ~~An applicant may not be allowed to take more than three examinations.~~ The board shall determine the number of times an applicant may be reexamined. However, if the applicant fails on three occasions to pass the examination given by the board or an equivalent examination under section 43-28-12.1, the applicant shall provide evidence of additional education as required by the board before applying for another examination in this state. Applicants for examination shall submit their credentials to the board at least thirty days before the examination date. The examination date must correspond to the date of examination for applicants for a license to practice dentistry in this state.

The state board of dental examiners may accept the results of the national board examination as the equivalent to the testing of an applicant by the board in all areas covered by the national board examination.
