2. Narrative: *Identify the aspects of the measure which cause fiscal impact and include any comments relevant to your analysis.*

This bill would eliminate the statutory requirement for a financial audit in each year of the biennium for the Developmental Center in Grafton and the Veteran's Home at Lisbon which are considered state owned nursing facilities. Current NDCC requires a biennial audit of all state agencies rather than an annual audit. Eliminating the annual audit requirement for state owned nursing facilities would have no fiscal impact as the time saved by the State Auditor's Office in conducting annual audits at these facilities as their time will be redirected to other audits. **Potential fiscal impact exists should this bill fail to pass since current federal regulations state that the federal funding of the facility's daily rate can be reduced to 80% of the established rate should the audits not be completed on a timely basis.** This potential impact could result in a total reduction of \$377,248 of federal funds for a biennium if both of the nursing facilities failed to include an annual audit report with their annual cost report which are necessary in establishing the facility rate. This reduction of federal revenue would then need to be replaced with general funds.
