CHAPTER 57

SENATE BILL NO. 2073

(Transportation Committee)

(At the request of the Aeronautics Commission)

AERONAUTICS COMMISSION FEES

AN ACT to amend and reenact sections 2-08-03 and 2-08-04 of the North Dakota Century Code, relating to fees charged by the aeronautics commission.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 2-08-03 of the 1999 Supplement to the North Dakota Century Code is amended and reenacted as follows:

2-08-03. Aircraft dealer's license - Fees - Dealer's place of business. No person, partnership, association, corporation, or limited liability company may engage in the business of buying, selling, leasing, or exchanging aircraft, or advertise or hold out to the public as being in the business of buying, selling, leasing, or exchanging of aircraft without first being licensed as provided in this chapter.

The aeronautics commission shall prescribe and furnish license and renewal license application forms. A nonrefundable fee of ~~twenty-five~~ one hundred fifty dollars must accompany each application for each dealer location. A dealer's license expires on December thirty-first of each year, and application for renewal must be made before the expiration of the current dealer's license. For each annual ~~twenty-five~~ one hundred fifty dollar license fee or renewal, the dealer must be issued one dealer's registration for one demonstrator aircraft. Additional dealer's demonstrator aircraft registrations must be issued to a licensed dealer upon the payment of ten dollars for each additional demonstrator aircraft, provided such demonstrator aircraft are not used for commercial purposes to produce rental or air taxi revenue, or used for aerial spraying while awaiting sale or trade. All new or used demonstrator aircraft which are for resale but are used by a dealer to produce commercial revenue, or air taxi or rental revenue or for aerial spraying must be registered with the commission and the annual registration fees paid in accordance with the laws of this state. Fees from license applications of aircraft dealers must be deposited with the state treasurer and credited to the aeronautics commission special fund. Fees received for additional aircraft registrations for demonstrator aircraft must be deposited with the state treasurer, who shall deposit such funds in the aeronautics commission special fund.

An applicant for a license or renewal of a license shall submit to the aeronautics commission an inventory of aircraft held by the applicant along with a separate demonstration flight log of time accumulated for those demonstration flights and aircraft tachometer readings for each aircraft on the date of initial application and on November thirtieth before the yearly renewal time. Information on inventory must be provided to the commission on an approved report form. If an aircraft is held in inventory for more than twelve months and is flown more than fifty hours of flight time in any given twelve-month period of time, the commission shall determine if the aircraft is a demonstration aircraft. When the hours flown exceed fifty hours in the twelve-month period, the aircraft is presumed not to be a demonstration aircraft and the aircraft excise tax must be remitted to the aeronautics commission under chapter

57-40.5 unless upon satisfactory proof the aeronautics commission determines the aircraft is used exclusively for demonstration purposes.

The aeronautics commission shall issue dealer's licenses only to dealers who maintain a permanent place of business on an airport open for public use, whether publicly or privately owned in the state of North Dakota, with runway length, aprons, and safe aircraft approaches adequate for fixed wing aircraft or helicopters of the type sold by such a dealer. An established central place on an airport means that such dealer has an enclosed office, building, or structure owned or leased with adequate facilities and equipment for the maintenance, service, and repair of aircraft. The dealer shall maintain business records in the dealer's place of business. The dealer's place of business must be adequate to conduct an aircraft dealer's business where selling, trading, and bartering of aircraft may be conducted and may not be a residence or temporary quarters or so-called permanent quarters occupied pursuant to temporary arrangements. An applicant for an aircraft dealer's license cannot qualify with only a privately owned aircraft hangar as a place of business, which is usually used for storage of aircraft on an airport open for public use. An aircraft dealer to qualify for a dealer's license must maintain an aircraft or helicopter service and repair shop on an airport open for public use with a minimum of five thousand dollars in tools, equipment, aircraft parts, and supplies, as determined by a representative of the director of the aeronautics commission.

The aeronautics commission shall issue a license only after inspection and approval of the aircraft dealer's facilities.

SECTION 2. AMENDMENT. Section 2-08-04 of the 1999 Supplement to the North Dakota Century Code is amended and reenacted as follows:

2-08-04. Ultralight vehicle dealer's license - Fees - Dealer's place of business. No person, partnership, association, corporation, or limited liability company may engage in the business of buying, selling, leasing, or exchanging ultralight vehicles, or advertise or hold out to the public as being in the business of buying, selling, leasing, or exchanging of ultralight vehicles without first being licensed as provided in this chapter.

The aeronautics commission shall prescribe and furnish license and renewal license application forms. A nonrefundable fee of ~~fifteen~~ fifty dollars must accompany each application for each dealer location. A dealer's license expires on December thirty-first of each year, and application for renewal must be made before the expiration of the current dealer's license. For each annual ~~fifteen~~ fifty dollar license fee or renewal, the dealer must be issued one dealer's registration for one demonstrator ultralight vehicle. Additional dealer's demonstrator ultralight vehicle registrations must be issued to a licensed dealer upon the payment of ten dollars for each additional demonstrator ultralight vehicle. Fees from license applications of ultralight vehicle dealers and any other fees received for additional demonstrator ultralight vehicle registrations must be deposited in the aeronautics commission special fund.

An ultralight vehicle dealer shall maintain a permanent place of business in North Dakota which may be off or on an airport; provided, if the place of the business is off an airport, such dealer shall maintain a cleared area of sufficient size and length to safely demonstrate ultralight vehicles without undue approach hazards, or hazards to other persons or property. The dealer shall maintain business records in the dealer's place of business. An ultralight dealer to qualify for a dealer's license shall maintain at least one flyable ultralight vehicle for demonstration purposes and shall maintain a minimum of five hundred dollars in tools, equipment, parts, or supplies to provide service for ultralight vehicles. The aeronautics commission has the option of inspection of each ultralight dealer prior to issuing a dealer's license or a renewal.
