Except as otherwise provided, the moneys necessary to finance the general operations of the commission in exercising its duties, responsibilities, and powers must be appropriated to the commission by the compacting states, when authorized by the respective legislatures, by equal apportionment among the compacting states. This compact does not commit a member state to participate in financing a rail project except as provided by law of a member state.

The commission may accept, for any of its purposes and functions, donations, gifts, grants, and appropriations of money, equipment, supplies, materials, and services from the federal government, from any party state or from any state agency or political subdivision, or from any person. Unless the default is remedied under the stipulations and within the time period set by the commission, this compact may be terminated with respect to the defaulting state by affirmative vote of a majority of the other commission members. Any defaulting state may be reinstated, upon vote of the commission, by performing all acts and obligations as stipulated by the commission.

ARTICLE 10 - CONSTRUCTION AND SEVERABILITY

The provisions of this compact are severable. If any phrase, clause, sentence, or provision of this compact is declared to be contrary to the constitution of any compacting state or of the United States or the applicability to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this compact and the applicability to any government, agency, person, or circumstance is not affected. If this compact is held contrary to the constitution of any compacting state, the compact remains in effect as to the remaining states and in effect as to the state affected as to all severable matters.
