SECTION 2. A new section to chapter 50-25.1 of the North Dakota Century Code is created and enacted as follows:

Prenatal exposure to controlled substances - Reporting requirements.

1. An individual required to report under section 50-25.1-03 who has knowledge of or reasonable cause to suspect that a woman is pregnant and has used a controlled substance for a nonmedical purpose during the pregnancy shall report the circumstances to the department if the knowledge or suspicion is derived from information received by that individual in that individual's official or professional capacity.
2. Any individual may make a voluntary report if the individual has knowledge of or reasonable cause to suspect that a woman is pregnant and has used a controlled substance for a nonmedical purpose during the pregnancy.
3. If a report alleges a pregnant woman's use of a controlled substance for a nonmedical purpose, the department or its designee shall immediately initiate an appropriate assessment and offer services indicated under the circumstances. Services offered may include a referral for chemical dependency assessment, a referral for chemical dependency treatment if recommended, or a referral for prenatal care. The department or its designee may also take any appropriate action under chapter 25-03.1.
4. A report and assessment under this section is not required if the pregnant woman voluntarily enters treatment in a licensed treatment program. If the pregnant woman does not complete voluntary treatment or fails to follow treatment recommendations, an individual required to report under section 50-25.1-03 who has knowledge of the failure to complete voluntary treatment or failure to follow treatment recommendations shall make a report as required by this section.
5. A report under this section must be made as described in section 50-25.1-04 and must be sufficient to identify the woman, the nature and extent of use, if known, and the name and address of the individual making the report.

SECTION 3. A new section to chapter 50-25.1 of the North Dakota Century Code is created and enacted as follows:

Toxicology testing - Requirements.

1. If the woman has obstetrical complications that are a medical indication of possible use of a controlled substance for a nonmedical purpose, upon the consent of the pregnant woman, or without consent if a specimen is otherwise available, a physician shall administer a toxicology test to a pregnant woman under the physician's care or to a woman under the physician's care within eight hours after delivery to determine whether there is evidence that she has ingested a controlled substance. If the test results are positive, the physician shall report the results under section 50-25.1-03.1. A negative test result or the pregnant woman's refusal to consent to a test does not eliminate the obligation to report under section 50-25.1-03 if other evidence gives the physician reason to believe the patient has used a controlled substance for a nonmedical purpose.
2. If a physician has reason to believe based on a medical assessment of the mother or the infant that the mother used a controlled substance for a nonmedical purpose during the pregnancy, the physician shall administer, without the consent of the child's parents or guardian, to the newborn infant born under the physician's care a toxicology test to determine whether there is evidence of prenatal exposure to a controlled substance. If the test

results are positive, the physician shall report the results as neglect under section 50-25.1-03. A negative test result does not eliminate the obligation to report under section 50-25.1-03 if other medical evidence of prenatal exposure to a controlled substance is present.

3. A physician or any other medical personnel administering a toxicology test to determine the presence of a controlled substance in a pregnant woman, in a woman within eight hours after delivery, or in a child at birth or during the first month of life is immune from civil or criminal liability arising from administration of the test if the physician ordering the test believes in good faith that the test is required under this section and the test is administered in accordance with an established protocol and reasonable medical practice. A physician or any other medical personnel who determines in good faith not to administer a toxicology test under this section is immune from liability for not administering the test.

SECTION 4. A new section to chapter 50-25.1 of the North Dakota Century Code is created and enacted as follows:

Prenatal exposure to alcohol abuse - Reporting requirements.

1. An individual required to report under section 50-25.1-03 who has knowledge of or reasonable cause to suspect that a woman is pregnant and has abused alcohol after the woman knows of the pregnancy may:
 - a. Arrange for a chemical dependency assessment conducted by a licensed treatment program and confirm that the recommendations indicated by the assessment are followed; or
 - b. Immediately report the circumstances to the department if the knowledge or suspicion is derived from information received by that individual in that individual's official or professional capacity.
2. An individual may make a voluntary report if the individual has knowledge of or reasonable cause to suspect that a woman is pregnant and has abused alcohol during the pregnancy.
3. If the woman is referred for a chemical dependency assessment under subdivision a of subsection 1 and fails to obtain an assessment or refuses to comply with the recommendations of the assessment, an individual required to report under section 50-25.1-03 who has knowledge of the failure to obtain the assessment or refusal to comply with recommendations of the assessment shall make a report to the department.
4. If a report alleges a pregnant woman has abused alcohol, the department or its designee shall immediately initiate an appropriate assessment and offer services indicated under the circumstances. Services offered may include a referral for chemical dependency assessment, a referral for chemical dependency treatment, if recommended, or a referral for prenatal care. The department or its designee may also take any appropriate action under chapter 25-03.1.
5. A report and assessment under this section is not required if the pregnant woman voluntarily enters treatment in a licensed treatment program. If the pregnant woman does not complete voluntary treatment or fails to follow treatment recommendations, an individual required to report under section 50-25.1-03 who has knowledge of the failure to complete voluntary treatment or failure to follow treatment recommendations shall make a report as required by this section.
6. A report under this section must be made as described in section 50-25.1-04 and must be sufficient to identify the woman, the nature and extent of the abuse of alcohol, any health risk associated with the abuse of alcohol, and the name and address of the individual making the report."
