¹ The operating expenses line item is increased by \$25,000 from Racing Commission collections for Racing Commission operating costs. The additional income is available as a result of provisions of Senate Bill No. 2028.

² A section is added providing a \$240,000 contingent general fund appropriation for defending the state's school finance system if a lawsuit is filed during the 2003-05 biennium.

³ Funding is added for two FTE identification technicians for conducting additional criminal background checks during the 2003-05 biennium.

⁴ The executive budget removed two FTE law enforcement training positions. The Senate restored one of the two positions. This amendment restores the other position. Approximately 50 percent of the funding for the position will be provided from an increase in peace officer license fees. Section 9 of the bill is added which requires the Peace Officer Standards and Training Board to collect an additional \$55 fee on each application or license and remit the funds collected to the Attorney General for deposit in the Attorney General operating fund for providing funding for peace officer training programs. The fee is estimated to generate \$70,015 for the 2003-05 biennium.

⁵ Section 4 is added allowing the Attorney General to retain the June 30, 2003, balance in the Attorney General refund fund estimated at \$394,984 rather than transferring the balance to the general fund. The Attorney General will use the funding to hire two additional FTE positions and for other costs associated with enforcing provisions of Senate Bill No. 2255 relating to telephone solicitations. The Attorney General's 2003-05 biennium appropriation is not changed because the funds in the refund fund may be spent by the Attorney General pursuant to a continuing appropriation.

⁶ Funding for state employee health insurance premiums is reduced from \$493 to \$488.70 per month.

⁷ This amendment reduces funding for information technology by \$393,810 from the general fund, which represents a reduction in information technology funding from the general fund of approximately 20 percent.

Section 3 is added allowing the Attorney General to continue up to \$66,000 of the Attorney General's 2001-03 biennium general fund appropriation for the purpose of defraying the expenses associated with conducting additional criminal background checks during the 2003-05 biennium.

An emergency clause section is added relating to Sections 3 and 4 which were added to the bill by this amendment.

Construction of the Devils Lake outlet - Authorization - Agreement. The state water commission may do all things reasonably necessary to construct an outlet from Devils Lake, including executing an agreement with the federal government wherein the

state water commission agrees to hold the United States harmless and free from damages, except for damages due to the fault or negligence of the United States or its contractors.

SECTION 13. AMENDMENT. Section 61-02.1-02.1 of the North Dakota Century Code is amended and reenacted as follows:

61-02.1-02.1. Funding - Statewide water development projects - Bond issuance amount.

1. The priorities for the statewide water development program for the 2001-03 biennium include municipal, rural, and industrial projects; irrigation projects; general water management projects, including rural flood control, snagging and clearing, channel improvement, recreation, and planning studies; flood control projects; and weather modification projects. The state water commission may provide the funds necessary to construct these projects from money appropriated to the state water commission from the resources trust fund, the water development trust fund, or by issuing bonds in an amount not to exceed twenty million dollars plus the costs of issuance of the bonds, capitalized interest, and reasonably required reserves. ~~The commission may utilize up to five million five hundred thousand dollars from the water development trust fund, the resources trust fund, or from bond proceeds to provide cost share for a flood control channel and levy project designed to provide protection from overland flooding to a city with a population in excess of eighty thousand as of the 2000 federal decennial census. The amount provided may not exceed fifty percent of the city's share of the cost to construct the project. Bonds may be issued utilizing the procedures set forth in chapter 61-02. The proceeds of any bonds issued under the authority provided in this section are appropriated to the state water commission for the purposes set forth in this section.~~
2. If the state water commission determines it is appropriate to do so, it may, in lieu of issuing or in combination with the issuance of bonds pursuant to sections 61-02.1-01 and 61-02.1-02, for all or part of the state's cost share for the projects set forth in those provisions, use funds appropriated to it from the resources trust fund or the water development trust fund. ~~Regardless of the source, the amount of funds used may not exceed the limits set forth in section 61-02.1-02.~~

SECTION 14. CONTINUING APPROPRIATION - DEVILS LAKE OUTLET.

There is appropriated to the state water commission on a continuing basis from the water development trust fund or the resources trust fund in the state treasury, or from bond proceeds from bonds issued by the state water commission, as determined by the state water commission, the amount of funds required by the agreement between the state and the federal government to construct an outlet from Devils Lake to meet its cost-share obligations under the agreement and from any legally available funds to meet its indemnification obligations under the agreement.

SECTION 15. TRANSFER. Notwithstanding section 54-27-25, during the biennium beginning July 1, 2003, and ending June 30, 2005, the director of the office of management and budget shall transfer \$10,070,373 from the water development trust fund to the general fund."
