2. **Narrative:** *Identify the aspects of the measure which cause fiscal impact and include any comments relevant to your analysis.*

This bill includes a mandatory inflationary increase for all non-state owned Developmental Disability Service Providers equal to the inflationary factor used to develop the Legislative appropriation for the department. For state fiscal year 2006, the inflationary increase is 2.0% and for state fiscal year 2007 it is 2.0%. The Department's regular appropriation is affected.

For the 07-09 biennium, the same inflationary factors were used as we do not know what the actual indices will be at that time.

The amounts for 07-09 are based on projected ending number of people in each DD service for 05-07 and does not include any growth in the caseloads for the 07-09 biennium, although there will most likely be some growth in certain services.

3. **State fiscal effect detail:** *For information shown under state fiscal effect in 1A, please:*

A. **Revenues:** *Explain the revenue amounts. Provide detail, when appropriate, for each revenue type and fund affected and any amounts included in the executive budget.*

The majority of the increased revenues for 2005-2007 and 2007-2009 are federal Medicaid funds.

B. **Expenditures:** *Explain the expenditure amounts. Provide detail, when appropriate, for each agency, line item, and fund affected and the number of FTE positions affected.*

Grants-Medical Assistance expenditures are estimated to increase by \$6,059,621, with \$2,177,036 being from the general fund for the 05-07 biennium.

The Grants-Medical Assistance expenditures for 2007-2009 are estimated to increase by \$6,559,068, with \$2,344,232 being from the general fund.

C. **Appropriations:** *Explain the appropriation amounts. Provide detail, when appropriate, of the effect on the biennial appropriation for each agency and fund affected and any amounts included in the executive budget. Indicate the relationship between the amounts shown for expenditures and appropriations.*

The Department's appropriation as included in the Governor's budget would not need to be increased to account for the bill language. The 2% increase is still contained within HB 1012 after House amendments.
