15 of an express, contrary indication by the individual set forth in the refusal, an

25 part under section 23-06.6-05.
- 26 2. A donor's revocation of an anatomical gift of the donor's body or part under section
27 23-06.6-05 is not a refusal and does not bar another person specified in section
28 23-06.6-03 or 23-06.6-08 from making an anatomical gift of the donor's body or
29 part under section 23-06.6-04 or 23-06.6-09.

2 amend, or revoke the gift of the donor's body or part under section 23-06.6-09.

3 4. A revocation of an anatomical gift of a donor's body or part under section
4 23-06.6-05 by a person other than the donor does not bar another person from

6 23-06.6-09.

7 5. In the absence of an express, contrary indication by the donor or other person
8 authorized to make an anatomical gift under section 23-06.6-03, an anatomical gift
9 of a part is neither a refusal to give another part nor a limitation on the making of
10 an anatomical gift of another part at a later time by the donor or another person.

11 6. In the absence of an express, contrary indication by the donor or other person
12 authorized to make an anatomical gift under section 23-06.6-03, an anatomical gift
13 of a part for one or more of the purposes set forth in section 23-06.6-03 is not a
14 limitation on the making of an anatomical gift of the part for any of the other
15 purposes by the donor or any other person under section 23-06.6-04 or
16 23-06.6-09.

17 7. If a donor who is an unemancipated minor dies, a parent of the donor who is
18 reasonably available may revoke or amend an anatomical gift of the donor's body
19 or part.

20 8. If an unemancipated minor who signed a refusal dies, a parent of the minor who is
21 reasonably available may revoke the minor's refusal.

22 **23-06.6-08. Who may make anatomical gift of decedent's body or part.**

- 29 7. Upon referral by a hospital under subsection 1, a procurement organization shall
- 30 make a reasonable search for any person listed in section 23-06.6-08 having
- 31 priority to make an anatomical gift on behalf of a prospective donor. If a

1 procurement organization receives information that an anatomical gift to any other
2 person was made, amended, or revoked, it shall promptly advise the other person
3 of all relevant information.

4 8. Subject to subsection 9 of section 23-06.6-10 and section 23-06.6-22, the rights of
5 the person to which a part passes under section 23-06.6-10 are superior to the
6 rights of all others with respect to the part. The person may accept or reject an
7 anatomical gift in whole or in part. Subject to the terms of the document of gift and
8 this chapter, a person that accepts an anatomical gift of an entire body may allow
9 embalming, burial or cremation, and use of remains in a funeral service. If the gift
10 is of a part, the person to which the part passes under section 23-06.6-11, upon
11 the death of the donor and before embalming, burial, or cremation, shall cause the
12 part to be removed without unnecessary mutilation.

13 9. Neither the physician who attends the decedent at death nor the physician who
14 determines the time of the decedent's death may participate in the procedures for
15 removing or transplanting a part from the decedent.

16 10. A physician or technician may remove a donated part from the body of a donor
17 which the physician or technician is qualified to remove.

18 **23-06.6-14. Coordination of procurement and use.** Each hospital in this state shall
19 enter into agreements or affiliations with procurement organizations for coordination of
20 procurement and use of anatomical gifts.

21 **23-06.6-15. Sale or purchase of parts prohibited - Penalty.**

22 1. Except as otherwise provided in subsection 2, a person that for valuable
23 consideration, knowingly purchases or sells a part for transplantation or therapy if
24 removal of a part from an individual is intended to occur after the individual's death
25 commits a class B misdemeanor.

26 2. A person may charge a reasonable amount for the removal, processing,
27 preservation, quality control, storage, transportation, implantation, or disposal of a
28 part.

29 **23-06.6-16. Other prohibited act - Penalty.** A person that, in order to obtain a
30 financial gain, intentionally falsifies, forges, conceals, defaces, or obliterates a document of gift,

1 an amendment or revocation of a document of gift, or a refusal commits a class B
2 misdemeanor.

3 **23-06.6-17. Immunity.**

- 4 1. A person that acts in accordance with this chapter or with the applicable
5 anatomical gift law of another state, or attempts in good faith to do so, is not liable
6 for the act in a civil action, criminal prosecution, or administrative proceeding.
- 7 2. Neither the person making an anatomical gift nor the donor's estate is liable for any
8 injury or damage that results from the making or use of the gift.
- 9 3. In determining whether an anatomical gift has been made, amended, or revoked
10 under this chapter, a person may rely upon representations of an individual listed in
11 subdivision b, c, d, e, f, g, or h of subsection 1 of section 23-06.6-08 relating to the
12 individual's relationship to the donor or prospective donor unless the person knows
13 that the representation is untrue.

14 **23-06.6-18. Law governing validity - Choice of law as to execution of document of**
15 **gift - Presumption of validity.**

- 16 1. A document of gift is valid if executed in accordance with:
- 17 a. This chapter;
- 18 b. The laws of the state or country where the document of gift was executed; or
- 19 c. The laws of the state or country where the person making the anatomical gift
20 was domiciled, has a place of residence, or was a national at the time the
21 document of gift was executed.
- 22 2. If a document of gift is valid under this section, the law of this state governs the
23 interpretation of the document of gift.
- 24 3. A person may presume that a document of gift or amendment of an anatomical gift
25 is valid unless that person knows that it was not validly executed or was revoked.

26 **23-06.6-19. Donor registry.**

- 27 1. The state department of health may establish or contract for the establishment of a
28 donor registry.
- 29 2. The department of transportation shall cooperate with a person that administers
30 any donor registry that this state establishes, contracts for, or recognizes for the

1 purpose of transferring to the donor registry all relevant information regarding a
2 donor's making, amendment to, or revocation of an anatomical gift.

3 3. A donor registry must:

4 a. Allow a donor or other person authorized under section 23-06.6-04 to include
5 on the donor registry a statement or symbol that the donor has made,
6 amended, or revoked an anatomical gift;

7 b. Be accessible to a procurement organization to allow it to obtain relevant
8 information on the donor registry to determine, at or near death of the donor
9 or a prospective donor, whether the donor or prospective donor has made,
10 amended, or revoked an anatomical gift; and

11 c. Be accessible for purposes of subdivisions a and b seven days a week on a
12 twenty-four-hour basis.

13 4. Personally identifiable information on a donor registry about a donor or prospective
14 donor may not be used or disclosed without the express consent of the donor,
15 prospective donor, or person that made the anatomical gift for any purpose other
16 than to determine, at or near death of the donor or prospective donor, whether the
17 donor or prospective donor has made, amended, or revoked an anatomical gift.

18 5. This section does not prohibit any person from creating or maintaining a donor
19 registry that is not established by or under contract with the state. Any such
20 registry must comply with subsections 3 and 4.

21 **23-06.6-20. Effect of anatomical gift on advance health care directive.**

22 1. In this section:

23 a. "Advance health care directive" means a power of attorney for health care or
24 a record signed by a prospective donor containing the prospective donor's
25 direction concerning a health care decision for the prospective donor.

26 b. "Declaration" means a record signed by a prospective donor specifying the
27 circumstances under which a life support system may be withheld or
28 withdrawn from the prospective donor.

29 c. "Health care decision" means any decision made regarding the health care of
30 the prospective donor.

- 1 2. If a prospective donor has a declaration or advance health care directive,
2 measures necessary to ensure the medical suitability of an organ for
3 transplantation or therapy may not be withheld or withdrawn from the prospective
4 donor, unless the declaration expressly provides to the contrary.

5 **23-06.6-21. Cooperation between coroner or medical examiner and a**
6 **procurement organization.**

- 7 1. A coroner or medical examiner shall cooperate with procurement organizations to
8 maximize the opportunity to recover anatomical gifts for the purpose of
9 transplantation, therapy, research, or education.
- 10 2. If a coroner or medical examiner receives notice from a procurement organization
11 that an anatomical gift might be available or was made with respect to a decedent
12 whose body is under the jurisdiction of the coroner or medical examiner and a
13 post-mortem examination is going to be performed, unless the coroner or medical
14 examiner denies recovery in accordance with section 23-06.6-22, the coroner or
15 medical examiner or designee of the coroner or medical examiner shall conduct a
16 post-mortem examination of the body or the part in a manner and within a period
17 compatible with its preservation for the purposes of the gift.
- 18 3. A part may not be removed from the body of a decedent under the jurisdiction of a
19 coroner or medical examiner for transplantation, therapy, research, or education
20 unless the part is the subject of an anatomical gift. The body of a decedent under
21 the jurisdiction of the coroner or medical examiner may not be delivered to a
22 person for research or education unless the body is the subject of an anatomical
23 gift. This subsection does not preclude a coroner or medical examiner from
24 performing the medicolegal investigation upon the body or parts of a decedent
25 under the jurisdiction of the coroner or medical examiner.

26 **23-06.6-22. Facilitation of anatomical gift from decedent whose body is under**
27 **jurisdiction of coroner or medical examiner.**

- 28 1. Upon request of a procurement organization, a coroner or medical examiner shall
29 release to the procurement organization the name, contact information, and
30 available medical and social history of a decedent whose body is under the
31 jurisdiction of the coroner or medical examiner. If the decedent's body or part is

- 1 medically suitable for transplantation, therapy, research, or education, the coroner
2 or medical examiner shall release post-mortem examination results to the
3 procurement organization. The procurement organization may make a subsequent
4 disclosure of the post-mortem examination results or other information received
5 from the coroner or medical examiner only if relevant to transplantation or therapy.
- 6 2. The coroner or medical examiner may conduct a medicolegal examination by
7 reviewing all medical records, laboratory test results, x-rays, other diagnostic
8 results, and other information that any person possesses about a donor or
9 prospective donor whose body is under the jurisdiction of the coroner or medical
10 examiner which the coroner or medical examiner determines may be relevant to
11 the investigation.
- 12 3. A person that has any information requested by a coroner or medical examiner
13 pursuant to subsection 2 shall provide that information as expeditiously as possible
14 to allow the coroner or medical examiner to conduct the medicolegal investigation
15 within a period compatible with the preservation of parts for the purpose of
16 transplantation, therapy, research, or education.
- 17 4. If an anatomical gift has been or might be made of a part of a decedent whose
18 body is under the jurisdiction of the coroner or medical examiner and a
19 post-mortem examination is not required, or the coroner or medical examiner
20 determines that a post-mortem examination is required but that the recovery of the
21 part that is the subject of an anatomical gift will not interfere with the examination,
22 the coroner or medical examiner and procurement organization shall cooperate in
23 the timely removal of the part from the decedent for the purpose of transplantation,
24 therapy, research, or education.
- 25 5. If an anatomical gift of a part from the decedent under the jurisdiction of the
26 coroner or medical examiner has been or might be made, but the coroner or
27 medical examiner initially believes that the recovery of the part could interfere with
28 the post-mortem investigation into the decedent's cause or manner of death, the
29 coroner or medical examiner shall consult with the procurement organization or
30 physician or technician designated by the procurement organization about the

1 proposed recovery. After consultation, the coroner or medical examiner may allow
2 the recovery.

3 6. Following the consultation under subsection 5, in the absence of mutually
4 agreed-upon protocols to resolve conflict between the coroner or medical examiner
5 and the procurement organization, if the coroner or medical examiner intends to
6 deny recovery, the coroner or medical examiner or designee of the coroner or
7 medical examiner, at the request of the procurement organization, shall attend the
8 removal procedure for the part before making a final determination not to allow the
9 procurement organization to recover the part. During the removal procedure, the
10 coroner or medical examiner or designee or the coroner or medical examiner may
11 allow recovery by the procurement organization to proceed, or, if the coroner or
12 medical examiner or designee of the coroner or medical examiner reasonably
13 believes that the part may be involved in determining the decedent's cause or
14 manner of death, deny recovery by the procurement organization.

15 7. If the coroner or medical examiner or designee or the coroner or medical examiner
16 denies recovery under subsection 6, the coroner or medical examiner or designee
17 of the coroner or medical examiner shall:

18 a. Explain in a record the specific reasons for not allowing recovery of the part;

19 b. Include the specific reasons in the records of the coroner or medical
20 examiner; and

21 c. Provide a record with the specific reasons to the procurement organization.

22 8. If the coroner or medical examiner or designee of the coroner or medical examiner
23 allows recovery of a part under subsection 4, 5, or 6, the procurement organization,
24 upon request, shall cause the physician or technician who removes the part to
25 provide the coroner or medical examiner with a record describing the condition of
26 the part, a biopsy, a photograph, and any other information and observations that
27 would assist in the post-mortem examination.

28 9. If a coroner or medical examiner or designee of a coroner or medical examiner is
29 required to be present at a removal procedure under subsection 6, upon request
30 the procurement organization requesting the recovery of the part shall reimburse

1 the coroner or medical examiner or designee of the coroner or medical examiner
2 for the additional costs incurred in complying with subsection 6.
