<u>Tattooing, body piercing, branding, subdermal implants, and scarification - Permit - Fee - Adoption of rules.</u>

- 1. A person may not operate a facility providing tattooing, body piercing, branding, subdermal implant, and scarification services without a permit issued by the department under this section. The holder of a permit shall display the permit in a conspicuous place at the facility for which the permit is issued. A permit issued under this section expires annually on June thirtieth. An applicant for a permit shall submit an application for a permit to the department, on a form provided by the department, with a permit fee established by the department. The application must include the name and complete mailing address and street address of the facility and any other information reasonably required by the department for the administration of this section.

The rules must establish health and safety requirements and limitations with respect to the age of an individual who may receive a tattoo, body piercing, or scarification and may prohibit any practice that the health council deems unsafe or a threat to public health.
