ARTICULATION AND REFLECTION OF SUBSTANTIVE CHANGES

The directive assigned to the committee is to "study the provisions of the North Dakota Century Code which relate to agriculture for the purpose of eliminating provisions that are irrelevant or duplicative, clarifying provisions that are inconsistent or unclear in their intent and direction, and rearranging provisions in a logical order." The directive does not authorize a substantive revision of agricultural policy.

Nevertheless, the committee may find it necessary at times to recommend substantive changes to accomplish the stated directive. For historical purposes, as well as interpretive purposes, the committee should ensure that its intent regarding any substantive changes is articulated clearly and reflected accurately in the committee's records.
