"SECTION 12. AMENDMENT. Section 54-17.5-01 of the North Dakota Century Code is amended and reenacted as follows:

54-17.5-01. Declaration of findings and public purpose. The legislative assembly finds and declares that North Dakota's lignite industry produces approximately thirty million tons of lignite annually, contributing to our state's and nation's energy independence by generating electricity for more than two million people in the northern great plains region and by producing synthetic natural gas from coal that heats three hundred thousand homes and businesses in eastern states, which is equivalent to over twenty thousand barrels of oil per day. The legislative assembly further finds and declares that North Dakota's lignite industry generates over ~~seventeen~~ twenty-eight thousand direct and indirect jobs for North Dakota, ~~over one~~ nearly three billion dollars in annual business volume, and over ~~sixty-five~~ one hundred three million dollars in annual tax revenue. The legislative assembly further finds and declares that it is an essential governmental function and public purpose to assist with the development and wise use of North Dakota's vast lignite resources by supporting a lignite research, development, and marketing program that promotes economic, efficient, and clean uses of lignite and products derived from lignite in order to maintain and enhance development of North Dakota lignite and its products; support educational activities relating to the lignite industry; preserve and create jobs involved in the production and utilization of North Dakota lignite; ensure economic stability, growth, and opportunity in the lignite industry; and maintain a stable and competitive tax base for our state's lignite industry for the general welfare of North Dakota. The legislative assembly further finds and declares that development of North Dakota's lignite resources must be conducted in an environmentally sound manner that protects our state's air, water, and soil resources as specified by applicable federal and state law.

SECTION 13. STATE FACILITY LIGNITE FEASIBILITY DEMONSTRATION PROJECT. The state facility lignite feasibility demonstration project line item in subdivision 1 of section 1 of this Act includes \$1,000,000 from the general fund for the purpose of demonstrating the feasibility of using lignite at a state-owned facility equipped with coal-fired boilers generating at least 200,000 pounds of steam at 125 pounds per square inch."
