13	<u>1.</u>	<u>The</u>	e board may establish areas in the state, which may be counties, multicounty
14		reg	ions, or other areas, for the purpose of receiving bids from health care
15		net	works. These areas must be established so as to maximize the level and

21			must choose a primary care provider, may be referred by the primary care
22			provider to any medical specialist, and may be admitted by the primary care
23			provider or specialist to any hospital or other facility, for the purpose of
24			receiving the benefits provided under this Act. Under this option, the board,
25			with the assistance of one or more administrators chosen by a competitive
26			bidding process and with whom the board has contracted, shall pay directly,

4	<u>3.</u>	The	board	shall annually solicit sealed risk-adjusted premium bids from competing				
5		<u>hea</u>	lth car	e networks for the purpose of offering health care coverage to				
6		par	ticipan	ts. The board shall request each bidder to submit information pertaining				
7		<u>to v</u>	hethe	r the bidder is a qualifying health care network, as described in				
8		<u>sub</u>	sectio	<u>n 4.</u>				
9	<u>4.</u>	<u>A h</u>	ealth c	are network is qualifying if it does all of the following:				
10		<u>a.</u>	Dem	onstrates to the satisfaction of the board that the fixed monthly				
11			<u>risk-a</u>	adjusted amount that it bids to provide participants with the health care				
12			bene	fits specified in this Act reasonably reflects its estimated actual costs for				
13			provi	ding participants with such benefits in light of its underlying efficiency as				
14			<u>a ne</u> t	twork, and has not been artificially underbid for the predatory purpose of				
15			gaini	ng market share.				
16		<u>b.</u>	<u>Will</u> s	spend at least ninety-two percent of the revenue it receives under this Act

24			<u>(1)</u>	That participants living in an area that a health care network serves are				
25				not required to drive more than thirty minutes, or, in a metropolitan area

3		network serves.
4	<u>d.</u>	Ensures that participants have access, twenty-four hours a day seven days a

19		best practices, including the appropriate use of primary care, medical
20		specialists, medications, and hospital emergency rooms; and the utilization of
21		continuous quality improvement standards and practices that are generally
22		accepted in the medical field.
23	<u>h.</u>	Has developed and is implementing a program, including providing incentives
24		to providers when appropriate, to promote health care quality, increase the
25		transparency of health care cost and quality information, ensure the

27		technology.
28	<u>i.</u>	Has entered shared service agreements with out-of-network medical
29		specialists, hospitals, and other facilities, including medical centers of
30		excellence in the state, through which participants can obtain, at no additional
31		expense to participants beyond the normally required level of cost-sharing,

1		the services of out-of-network providers that the network's primary care
2		physicians selected by participants have determined is necessary to ensure
3		medically appropriate and high-quality health care, to facilitate the best
4		outcome, or, without reducing the quality of care, to lower costs.
5	j.	Has in place a comprehensive, shared, electronic patient records and
6		treatment tracking system and an electronic provider payment system by

15		infrastructure, or creation of excess capacity.
16	<u>m.</u>	Agrees to enroll and provide the benefits specified in this Act to all participants
17		who choose the network, regardless of the participant's age, sex, race,
18		religion, national origin, sexual orientation, health status, marital status,
19		disability status, or employment status, except that a health care network
20		<u>may:</u>
21		(1) Limit the number of new enrollees it accepts if the health care network
22		certifies to the board that accepting more than a specified number of
23		enrollees would make it impossible to provide all enrollees with the
24		benefits specified in this Act at the level of quality that the network is
25		committed to maintaining, provided that the health care network uses a
26		random method for deciding which new enrollees it accepts; or
27		(2) Limit the participants that it serves to a specific affinity group, such as
28		farmers or teachers, that the health care network has certified to the
29		board, provided that the limitation does not involve discrimination based
30		on any of the factors described in this subdivision and has neither been
31		created for the purpose, nor will have the effect, of screening out

1			higher-risk enrollees. This paragraph applies only to affinity groups that
2			are in existence as of December 31, 2009.
3	<u>5.</u>	<u>a.</u>	The board shall review the bids submitted under subsection 3, the information
4			submitted by bidders pertaining to whether the bidders are qualifying health
5			care networks, and other evidence provided to the board as to whether a
6			particular bidder is a qualifying health care network.
7		<u>b.</u>	Based on the information about bidder qualifications submitted or otherwise
8			provided under subdivision a, the board shall certify which health care
9			networks are qualifying health care networks.
10		<u>C.</u>	With respect to all health care networks that the board certifies under
11			subdivision b, the board shall open the submitted, sealed bids at a
12			predetermined time. The board shall classify the certified health care
13			networks according to price and quality measures after comparing their
14			risk-adjusted per month bids and assessing their quality. The board shall
15			classify the network that bid the lowest price as the lowest-cost network, and
16			shall classify as a low-cost network any network that has bid a price that is
17			close to the price bid by the lowest-cost network. Any other network must be
18			classified as a higher-cost network.
19	<u>6.</u>	<u>The</u>	e board shall provide an annual open enrollment period during which each
20		par	ticipant may select a certified health care network from among those offered, or
21		<u>a fe</u>	ee-for-service option. Coverage is effective on the following January first. A
22		par	ticipant who does not select a certified health care network or the
23		fee-	for-service option will be assigned randomly to one of the networks that have
24		bee	en classified under subsection 5 as having submitted the lowest or a low bid and
25		<u>as </u>	performing well on quality measures, or to the fee-for-service option if that is the
26		low	est-cost option. A participant who selects the fee-for-service option or a
27		<u>cer</u>	tified health care network that has been classified as a higher-cost network, but
28		who	o fails to pay the additional payment under paragraph 2 of subdivision a of
29		<u>sub</u>	section 7, must be assigned randomly to one of the networks that has been
30		clas	ssified under subsection 5 as the lowest-cost network or as a low-cost network

1	and as pe	rforming well on quality measures, or to the fee-for-service option if that
2	is the lowe	est-cost option.
3	<u>7. a. (1)</u>	On behalf of each participant who selects or has been assigned to a
4		certified health care network that has been classified under
5		subdivision c of subsection 5 as the lowest-cost network or a low-cost
6		network and as performing well on quality measures, the board shall
7		pay monthly to the health care network the full risk-adjusted per
8		member per month amount that was bid by the network. The dollar
9		amount must be actuarially adjusted for the participant based on age,
10		sex, and other appropriate risk factors determined by the board. A
11		participant who selects or is assigned to the lowest-cost network or a
12		low-cost network may not be required to pay any additional amount to
13		the network.
14	<u>(2)</u>	If a participant chooses instead to enroll in a certified health care
15		network that has been classified under subdivision c of subsection 5 as
16		a higher-cost network, the board shall pay monthly to the chosen health
17		care network an amount equal to the bid submitted by the network that
18		the board classified under subdivision c of subsection 5 as the
19		lowest-cost network and as having performed well on quality measures.
20		The dollar amount must be actuarially adjusted for the participant based
21		on age, sex, and other appropriate risk factors determined by the board.
22		A participant who chooses to enroll in a higher-cost network must pay
23		monthly, in addition to the amount paid by the board, an additional
24		payment sufficient to ensure that the chosen network receives the full
25		price bid by that network.
26	<u>(3)</u>	The board may retain a percentage of the dollar amounts established
27		for each participant under paragraphs 1 and 2 to pay to certified health
28		care networks that have incurred disproportionate risk not fully
29		compensated for by the actuarial adjustment in the amount established
30		for each eligible person. A payment to a certified health care network

1		under this subdivision must reflect the disproportionate risk incurred by
2		the health care network.
3	<u>b. (1)</u>	The board shall establish provider payment rates that will be paid to
4		providers of covered services and articles that are provided to
5		participants who choose the fee-for-service option under subdivision a
6		of subsection 2. The payment rates must be fair and adequate to
7		ensure that this state is able to retain the highest quality of medical
8		practitioners. The board shall limit increases in the provider payment
9		rate for each service or article such that any increase in per person
10		spending under the plan does not exceed the national rate of medical
11		inflation.
12	<u>(2)</u>	Except for deductibles, copayments, coinsurance, and any other
13		cost-sharing required or authorized under the plan, a provider of a
14		covered service or article shall accept as payment in full for the covered
15		service or article the payment rate determined under paragraph 1 and
16		may not bill a participant who receives the service or article for any
17		amount by which the charge for the service or article is reduced under
18		paragraph 1.
19	<u>(3)</u>	The board, with the assistance of its actuarial consultants, shall
20		establish the monthly risk-adjusted cost of the fee-for-service option
21		offered to participants under subdivision a of subsection 2. The board
22		shall classify the fee-for-service option in the same manner that the
23		board classifies certified health care networks under subdivision c of
24		subsection 5.
25	<u>(4)</u>	If the board has determined under subdivision c of subsection 5 that
26		there is at least one certified low-cost health care network in an area,
27		which may be the lowest-cost health care network, and if the
28		fee-for-service option offered in that area has been classified as a
29		higher-cost choice under paragraph 3, the cost to a participant enrolling
30		in the fee-for-service option must be determined as follows:

1		<u>(a)</u>	If there are available to the participant three or more certified
2			health care networks classified under subdivision c of
3			subsection 5 as low-cost networks, or as the lowest-cost network
4			and two or more low-cost networks, the participant shall pay the
5			difference between the cost of the lowest-cost health care
6			network and the monthly risk-adjusted cost established under
7			paragraph 3 for the fee-for-service option, except that the amount
8			paid may not exceed one hundred dollars per month for an
9			individual, or two hundred dollars per month for a family, as
10			adjusted for medical inflation.
11		<u>(b)</u>	If there are available to the participant two certified health care
12			networks classified under subdivision c of subsection 5 as
13			low-cost networks, or as the lowest-cost network and one
14			low-cost network, the participant shall pay the difference between
15			the cost of the lowest-cost health care network and the monthly
16			risk-adjusted cost established under paragraph 3 for the
17			fee-for-service option, except that the amount paid may not
18			exceed sixty-five dollars per month for an individual, or one
19			hundred twenty-five dollars per month for a family, as adjusted for
20			medical inflation.
21		<u>(c)</u>	If there is available to the participant only one certified health
22			care network classified under subdivision c of subsection 5 as a
23			low-cost network, or as the lowest-cost network, the person shall
24			pay the difference between the cost of the lowest-cost health
25			care network and the monthly risk-adjusted cost established
26			under paragraph 3 for the fee-for-service option, except that the
27			amount paid may not exceed twenty-five dollars per month for an
28			individual, and fifty dollars per month for a family, as adjusted for
29			medical inflation.
30	<u>(6)</u>	If the	board has determined, under subdivision c of subsection 5, that
31		there	is no certified lowest-cost health care network or low-cost health

1		care network in the area, there is no extra cost to the participant
2		enrolling in the fee-for-service option.
3	<u>8.</u>	Health care providers and facilities providing services under the fee-for-service
4		option under subdivision a of subsection 2 must be encouraged to collaborate with
5		each other through financial incentives established by the board. Providers shall
6		work with facilities to pool infrastructure and resources; to implement the use of
7		best practices and quality measures; and to establish organized processes that
8		result in high-quality, low-cost medical care. The board shall establish an incentive
9		payment system to providers and facilities that comply with this subsection, in
10		accordance with criteria established by the board.
11	<u>9.</u>	Except for prescription drugs to which a deductible applies, the board shall assume
12		the risk for, and pay directly for, prescription drugs provided to participants. In
13		implementing this requirement, the board shall replicate the prescription drug
14		buying system developed by the retirement board for prescription drug coverage
15		under the state employee uniform group insurance plan under chapter 54-52.1,
16		unless the board determines that another approach would be more cost-effective.
17		The board may join the prescription drug purchasing arrangement under this Act
18		with similar arrangements or programs in other states to form a multistate
19		purchasing group to negotiate with prescription drug manufacturers and distributors
20		for reduced prescription drug prices, or to contract with a third party, such as a
21		private pharmacy benefits manager, to negotiate with prescription drug
22		manufacturers and distributors for reduced prescription drug prices.
23	SEC	CTION 8. Subrogation. The board and authority are entitled to the right of
24	subrogation	n for reimbursement to the extent that a participant may recover reimbursement for
25	health care	services and items in an action or claim against any third party.
26	SEC	CTION 9. Employer-provided health care benefits. This Act does not prevent an
27	employer, o	or a Taft-Hartley trust on behalf of an employer, from paying all or part of any
