- c. The superintendent of public instruction shall report all notices received under this subsection to the legislative council.

1. During each year of the 2009-11 biennium, the superintendent of public instruction shall calculate the payment to which each school district is entitled based on the state transportation formula as it existed on June 30, 2001, except that the superintendent shall provide reimbursement at the rate of:
 - a. Eighty-six cents per mile for schoolbuses having a capacity of ten or more passengers;
 - b. Forty-two cents per mile for vehicles having a capacity of nine or fewer passengers; and

2. The superintendent of public instruction shall use the latest available student enrollment count in each school district in applying the provisions of the transportation formula as it existed on June 30, 2001.
3. If any moneys provided for transportation payments in the grants - transportation line item in the appropriation bill for the superintendent of public instruction, as approved by the sixty-first legislative assembly, remain after application of the formula provided for in this section, the superintendent of public instruction shall prorate the remaining amounts according to the percentage of the total transportation formula amount to which each school district is entitled.

 - a. Adding together the amount of state aid that the district would have received during the 2006-07 school year if in determining the district's ending fund balance the average amount of federal impact aid received by the district during the 2005-06 and 2006-07 school years had been used, rather than the actual amount received during the 2006-07 school year;
