9 received in money or otherwise; provided, however, that when a motor vehicle or
10 other tangible personal property that will be subject to a sales or use tax imposed
11 by chapter 57-39.2 or 57-40.2 when sold or used is taken in trade as a credit or as
12 part payment on a motor vehicle taxable under this chapter, the credit or trade-in
13 value allowed by the person selling the motor vehicle shall be deducted from the
14 total selling price to establish the purchase price of the vehicle being sold and the
15 trade-in allowance allowed by the seller on a motor vehicle accepted as a trade-in
16 shall constitute the purchase price of a motor vehicle accepted as a trade-in. If a
17 motor vehicle is purchased by an owner who has had a motor vehicle stolen or
18 totally destroyed, a credit or trade-in credit shall be allowed against one or more
19 replacement motor vehicle purchases in a cumulative amount not to exceed the
20 total amount the purchaser has been compensated by an insurance company for
21 the loss ~~but not to exceed the total amount of motor vehicle excise tax paid.~~ For a
22 leased vehicle that is stolen or totally destroyed, the credit may not exceed the total
23 amount of motor vehicle excise tax paid. The purchaser must provide the director
24 of the department of transportation with a notarized statement from the insurance

company within three years from the date of issuance verifying the fact that the original vehicle was a total loss and stating the amount compensated by the insurance company for the loss. The statement from the insurance company must accompany the purchaser's application for a certificate of title for the replacement vehicle. If the full amount of the credit under this subsection has not been used, the director of the department of transportation shall record on the face of the notarized statement the necessary information to identify the partial use of the credit and shall retain a copy and return the original to the purchaser. In instances in which a licensed motor vehicle dealer places into the dealer's service a new vehicle for the purpose of renting, leasing, or dealership utility service, the reasonable value of the vehicle replaced shall be included as trade-in value provided the vehicle replaced has been subject to motor vehicle excise tax under section 57-40.3-02 and if the new vehicle is properly registered and licensed. "Purchase price" when the motor vehicle is acquired by gift or by any other transfer for a nominal or no monetary consideration also includes the average value of similar motor vehicles, established by standards and guides as determined by the director of the department of transportation. "Purchase price" when a motor vehicle is manufactured by a person who registers it under the laws of this state means the manufactured cost of such motor vehicle and manufactured cost means the amount expended for materials, labor, and other properly allocable costs of manufacture except that, in the absence of actual expenditures for the manufacture of a part or all of the motor vehicle, manufactured cost means the reasonable value of the completed motor vehicle.
