(Senators Cook, Nelson, Nodland)

AN ACT to create and enact a new section to chapter 57-02 of the North Dakota Century Code and a new section to Senate Bill No. 2184, as approved by the sixty-first legislative assembly, relating to a property tax credit for disabled veterans and to declare Senate Bill No. 2184, as approved by the sixty-first legislative assembly, to be an emergency; to amend and reenact subsection 20 of section 57-02-08 and subdivision c of subsection 1 of section 57-55-10 of the North Dakota Century Code and section 2 of Senate Bill No. 2184, as approved by the sixty-first legislative assembly, relating to the property tax and mobile home tax exemptions for disabled veterans and the effective date of Senate Bill No. 2184, as approved by the sixty-first legislative assembly; to provide an appropriation; to provide an effective date; and to declare an emergency.

**BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:**

**SECTION 1.** A new section to chapter 57-02 of the North Dakota Century Code is created and enacted as follows:

**Property tax credit for disabled veterans - Certification - Distribution.**

1. A disabled veteran of the United States armed forces with an armed forces service-connected disability of fifty percent or greater, who was discharged under honorable conditions or who has been retired from the armed forces of the United States, or the unremarried surviving spouse if the disabled veteran is deceased, is eligible for a credit applied against the first one hundred twenty thousand dollars of true and full valuation of the fixtures, buildings, and improvements of the person's homestead equal to the percentage of the disabled veteran's disability compensation rating for service-connected disabilities as certified by the department of veterans affairs for the purpose of applying for a property tax exemption.
2. If two disabled veterans are married to each other and living together, their combined credits may not exceed one hundred percent of one hundred twenty thousand dollars of true and full value of the fixtures, buildings, and improvements of the homestead. If a disabled veteran co-owns the homestead property with someone other than the disabled veteran's spouse, the credit is limited to that disabled veteran's interest in the fixtures, buildings, and improvements of the homestead, to a maximum amount calculated by multiplying one hundred twenty thousand dollars of true and full valuation by the disabled veteran's percentage of interest in the homestead property and multiplying the result by the applicant's certified disability percentage.
3. A disabled veteran or unremarried surviving spouse claiming a credit under this section for the first time shall file with the county auditor an affidavit showing the facts herein required, a description of the property,

and a certificate from the United States department of veterans affairs, or its successor, certifying to the amount of the disability. The affidavit and certificate must be open for public inspection. A person shall thereafter furnish to the assessor or other assessment officials, when requested to do so, any information which is believed will support the claim for credit for any subsequent year.

4. For purposes of this section, and except as otherwise provided in this section, "homestead" has the meaning provided in section 47-18-01 except that it also applies to a person who otherwise qualifies under the provisions of this section whether the person is the head of the family.
5. This section does not reduce the liability of a person for special assessments levied upon property.
6. The board of county commissioners may cancel the portion of unpaid taxes that represents the credit calculated in accordance with this section for any year in which the qualifying owner has held title to the homestead property. Cancellation of taxes for any year before enactment of this section must be based on the law that was in effect for that tax year.
7. Before the first of March of each year, the county auditor of each county shall certify to the tax commissioner on forms prescribed by the tax commissioner the name and address of each person for whom the property tax credit for homesteads of disabled veterans was allowed for the preceding year, the amount of credit allowed, the total of the tax mill rates of all taxing districts, exclusive of any state mill rates, that was applied to other real estate in the taxing districts for the preceding year, and such other information as may be prescribed by the tax commissioner.
8. The tax commissioner shall audit the certifications, make any corrections that may be required, and certify to the state treasurer for payment to each county on or before the first of June of each year, the sum of the amounts computed by multiplying the credit allowed for each homestead of a disabled veteran in the county by the total of the tax mill rates, exclusive of any state mill rates that were applied to other real estate in the taxing districts for the preceding year.
9. The county treasurer upon receipt of the payment from the state treasurer shall apportion and distribute the payment without delay to the county and to the local taxing districts of the county on the basis on which the general real estate tax for the preceding year is apportioned and distributed.
10. On or before the first day of June of each year, the tax commissioner shall certify to the state treasurer the amount computed by multiplying the property tax credit allowed under this section for homesteads of disabled veterans in the state for the preceding year by one mill for deposit in the state medical center fund.
11. Supplemental certifications by the county auditor and by the tax commissioner and supplemental payments by the state treasurer may be made after the dates prescribed in this section to make such corrections as may be necessary because of errors or because of

approval of an application for abatement filed by a person because the credit provided for the homestead of a disabled veteran was not allowed in whole or in part.

  - a. A paraplegic disabled veteran of the United States armed forces or any veteran who has been awarded specially adapted housing by the ~~veterans' administration~~ department of veterans affairs, or the unmarried surviving spouse if such veteran is deceased, for the first one hundred twenty thousand dollars of true and full valuation of the fixtures, buildings, and improvements.
  - b. ~~A disabled veteran of the United States armed forces who was discharged under honorable conditions or who has been retired from the armed forces of the United States with an armed forces service-connected disability of fifty percent or greater, or the unmarried surviving spouse if the veteran is deceased for a percentage, equal to the percentage of the disabled veteran's certified rated service-connected disability, applied against the first one hundred twenty thousand dollars of true and full valuation of the fixtures, buildings, and improvements.~~
  - e. Any permanently and totally disabled person who is permanently confined to use of a wheelchair, or, if deceased, the unmarried surviving spouse of a permanently and totally disabled person. If the spouse of a permanently and totally disabled person owns the homestead or if it is jointly owned by them, the same reduction in assessed valuation applies as long as both reside thereon. The provisions of this subdivision do not reduce the liability for special assessments levied upon the homestead. The phrase "permanently confined to use of a wheelchair" means that the person cannot walk with the assistance of crutches or any other device and will never be able to do so and that a physician selected by the local governing board has so certified.

~~Any person claiming an exemption under this subsection for the first time shall file with the county auditor an affidavit showing the facts herein required and a description of the property and, in addition, a disabled veteran claiming exemption under subdivision b shall also file with the affidavit a certificate from the United States veterans' administration, or its successors, certifying to the amount of the disability. The affidavit and certificate must be open for public inspection. After the initial filing of a claim for exemption under this~~

~~subsection, the exemption is automatically renewed each following year but the veteran or veteran's unremarried surviving spouse must refile if that person sells the property or no longer claims it as a primary place of residence or if the veteran dies or receives a change in the percentage of the certified rated service-connected disability. A person thereafter shall furnish to the assessor or other assessment officials when requested to do so any information that is believed will support the claim for exemption for a subsequent year.~~

For purposes of this subsection, and except as otherwise provided in this subsection, "homestead" has the meaning provided in section 47-18-01 except that it also applies to any person who otherwise qualifies under the provisions of this subsection whether or not the person is the head of a family. The board of county commissioners is hereby authorized to cancel the unpaid taxes for any year in which the veteran qualifying owner has held title to the exempt property.

~~This subsection does not apply within a county in which a resolution approved by the board of county commissioners is in effect disallowing the exemption under this subsection for the taxable year.~~

## CHAPTER 530

### HOUSE BILL NO. 1166

(Finance and Taxation Committee)  
(At the request of the Tax Commissioner)

AN ACT to amend and reenact sections 57-02-27.1, 57-02-27.2, 57-02-38, and 57-12-09, subsection 4 of section 57-14-08, and section 57-20-03 of the North Dakota Century Code, relating to the deletion of obsolete dates and references for the purposes of valuation and assessment of agricultural lands, assessment of unplatted, undeveloped, and nonagricultural real property located outside of a city, and notice requirements for increased property tax assessments; and to provide an effective date.

#### BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

**SECTION 1. AMENDMENT.** Section 57-02-27.1 of the North Dakota Century Code is amended and reenacted as follows:

**57-02-27.1. Property to be valued at true and full value.** ~~Beginning with the year 1984, all~~ All assessors and boards of equalization shall place the values of all items of taxable property at the true and full value of the property except as otherwise specifically provided by law, and the amount of taxes that may be levied on such property ~~for the year 1984 and each year thereafter~~ must be limited as provided in this chapter. For the purposes of sections 57-02-27, 57-02-27.1, 57-02-27.2, and 57-55-04, the term "true and full value" has the same meaning as provided in subsection 15 of section 57-02-01, except that "true and full value" of agricultural lands must be as determined pursuant to section 57-02-27.2.

The governing body of the city may establish valuations that recognize the supply of vacant lots available for sale.

<sup>226</sup> **SECTION 2. AMENDMENT.** Section 57-02-27.2 of the North Dakota Century Code is amended and reenacted as follows:

#### **57-02-27.2. Valuation and assessment of agricultural lands.**

1. "True and full value" of agricultural lands must be their agricultural value for the purposes of sections 57-02-27, 57-02-27.1, 57-02-27.2, and 57-55-04. Agricultural value is defined as the "capitalized average annual gross return", except for inundated agricultural land. The "annual gross return" must be determined from crop share rent, cash rent, or a combination thereof reduced by estimated property taxes and crop marketing expenses incurred by farmland owners renting their lands on a cash or crop share basis.

---

<sup>226</sup> Section 57-02-27.2 was also amended by section 1 of Senate Bill No. 2052, chapter 531, and section 2 of Senate Bill No. 2244, chapter 524.

2. For purposes of this section, "annual gross return" for cropland used for growing crops other than sugar beets and potatoes means thirty percent of annual gross income produced, "annual gross return" for cropland used for growing sugar beets and potatoes means twenty percent of annual gross income produced, and "annual gross return" for land used for grazing farm animals means twenty-five percent of an amount determined by the agricultural economics department of agribusiness and applied economics of North Dakota state university to represent the annual gross income potential of the land based upon the animal unit carrying capacity of the land.
3. The "average annual gross return" for each county must be determined as follows:
  - a. Total the annual gross returns for the ten years immediately preceding the current year for which data is available and discard the highest and lowest annual gross returns of the ten.
  - b. The agricultural economics department of agribusiness and applied economics of North Dakota state university shall establish a base year index of prices paid by farmers using annual statistics on that topic compiled by the national agricultural statistics service for the seven-year period ending in 1995, discarding the highest and lowest years' indexes, and averaging the remaining five years' indexes. The agricultural economics department of agribusiness and applied economics shall gather the national agricultural statistics service annual index of prices paid by farmers for the ten years ending with the most recent year used under subdivision a, discard the highest and lowest years' indexes, average the remaining eight years' indexes, and divide the resulting amount by the base year index of prices paid by farmers. This amount must be divided into the amount determined under subdivision a.
  - c. Divide the figure arrived at in subdivision b by eight.
4. To find the "capitalized average annual gross return", the average annual gross return must be capitalized by a rate that is a ten-year average of the gross agribank mortgage rate of interest for North Dakota, but the rate used for capitalization under this section may not be less than ~~eight and nine-tenths percent for taxable year 2005~~ and eight and three-tenths percent ~~for taxable years after 2005~~. The ten-year average must be computed from the twelve years ending with the most recent year used under subdivision a of subsection 3, discarding the highest and lowest years, and the gross agribank mortgage rate of interest for each year must be determined in the manner provided in section 20.2032A-4(e)(1) of the United States treasury department regulations for valuing farm real property for federal estate tax purposes, except that the interest rate may not be adjusted as provided in section 20.2032A-4(e)(2).
5. The agricultural economics department of agribusiness and applied economics of North Dakota state university shall compute annually an estimate of the average agricultural value per acre [.40 hectare] of agricultural lands on a statewide and on a countywide basis; shall compute the average agricultural value per acre [.40 hectare] for cropland, noncropland, and inundated agricultural land for each county;

and shall provide the tax commissioner with this information by December first of each year. Fifty percent of the annual gross income from irrigated cropland must be considered additional expense of production and may not be included in computation of the average agricultural value per acre [.40 hectare] for cropland for the county as determined by the agricultural economics department of agribusiness and applied economics. Before January first of each year, the tax commissioner shall provide to each county director of tax equalization these estimates of agricultural value for each county.

6. For purposes of this section, "inundated agricultural land" means property classified as agricultural property containing a minimum of ten contiguous acres if the value of the inundated land exceeds ten percent of the average agricultural value of noncropland for the county, which is inundated to an extent making it unsuitable for growing crops or grazing farm animals for two consecutive growing seasons or more, and which produced revenue from any source in the most recent prior year which is less than the county average revenue per acre for noncropland calculated by the agricultural economics department of agribusiness and applied economics of North Dakota state university. Application for classification as inundated agricultural land must be made in writing to the township assessor or county director of tax equalization by March thirty-first of each year. Before all or part of a parcel of property may be classified as inundated agricultural land, the board of county commissioners must approve that classification for that property for the taxable year. The agricultural value of inundated agricultural lands for purposes of this section must be determined by the agricultural economics department of agribusiness and applied economics of North Dakota state university to be ten percent of the average agricultural value of noncropland for the county as determined under this section. Valuation of individual parcels of inundated agricultural land may recognize the probability that the property will be suitable for agricultural production as cropland or for grazing farm animals in the future. Determinations made under this subsection may be appealed through the informal equalization process and formal abatement process provided for in this title.
7. Before February first of each year, the county director of tax equalization in each county shall provide to all assessors within the county an estimate of the average agricultural value of agricultural lands within each assessment district. The estimate must be based upon the average agricultural value for the county adjusted by the relative values of lands within each assessment district compared to the county average. In determining the relative value of lands for each assessment district compared to the county average, the county director of tax equalization shall use soil type and soil classification data from detailed and general soil surveys.
8. Each local assessor shall determine the relative value of each assessment parcel within the assessor's jurisdiction and shall determine the agricultural value of each assessment parcel by adjusting the agricultural value estimate for the assessment district by the relative value of the parcel. Each parcel must then be assessed according to section 57-02-27. If either a local assessor or a township board of equalization develops an agricultural value for the lands in its assessment district differing substantially from the estimate provided by

the county director of tax equalization, written evidence to support the change must be provided to the county director of tax equalization. In determining the relative value of each assessment parcel, the local assessor shall apply the following considerations, which are listed in descending order of significance to the assessment determination:

- a. Soil type and soil classification data from detailed or general soil surveys.
  - b. The schedule of modifiers that must be used to adjust agricultural property assessments within the county as approved by the state supervisor of assessments under subsection 9.
  - c. Actual use of the property for cropland or noncropland purposes by the owner of the parcel.
9. Before February first of each year, the county director of tax equalization in each county shall provide to all assessors of agricultural property within the county a schedule of modifiers that must be used to adjust agricultural property assessments within the county and directions regarding how those modifiers must be applied by assessors. Before the schedule of modifiers is provided to assessors within the county, the county director of tax equalization shall obtain the approval of the state supervisor of assessments for use of the schedule within the county.
10. For any county that has not fully implemented use of soil type and soil classification data from detailed or general soil surveys for any taxable year after 2009, the tax commissioner shall direct the state treasurer to withhold five percent of that county's allocation each month from the state aid distribution fund under section 57-39.2-26.1 until that county has fully implemented use of soil type or soil classification data from detailed and general soil surveys. The amount withheld from the allocation must be withheld entirely from the portion of the allocation which may be retained by the county and may not reduce allocations to any political subdivisions within the county.

**SECTION 3. AMENDMENT.** Section 57-02-38 of the North Dakota Century Code is amended and reenacted as follows:

**57-02-38. Units of real property for assessment.** In all assessment books and tax lists and in all proceedings for the collection of taxes and proceedings founded thereon, unplatted land and undeveloped land platted before March 30, 1981, not situated within the limits of an incorporated city must be described in subdivisions not exceeding quarter sections. Real property in the platted portion of a city or real property platted on or after March 30, 1981, that is located outside any city and is not agricultural property under the conditions set out in subsection 1 of section 57-02-01, must be assessed separately as to each lot; ~~but when~~. When a building or structure covers two or more contiguous lots or parts of lots owned by the same person the assessment may not be entered separately as to each lot or part of lot, but the tract upon which the building is located must be described and assessed as one parcel. A block which has not been subdivided may be described, assessed, and taxed in a unit of one block. A failure to comply with the provisions of this section does not impair the validity of taxes.

**SECTION 4. AMENDMENT.** Section 57-12-09 of the North Dakota Century Code is amended and reenacted as follows:

**57-12-09. Notice of increased assessment to real estate owner.** When any assessor has increased the true and full valuation of any lot or tract of land or including any improvements thereon ~~to by three thousand dollars or more than and to ten percent or more than the amount of the last assessment, written~~ notice of the amount of increase ~~over the last assessment~~ and the amount of the last assessment must be delivered in writing by the assessor to the property owner, mailed in writing to the property owner at the property owner's last-known address, or provided to the property owner by electronic mail directed with verification of receipt to an electronic mail address at which the property owner has consented to receive notice. Delivery of notice to a property owner under this section must be completed not fewer than fifteen days before the meeting of the local equalization board. The tax commissioner shall prescribe suitable forms for this notice and the notice must show the true and full value as defined by law of the property, including improvements, that the assessor used in making the assessment for the current year and for the year in which the last assessment was made and must also show the date prescribed by law for the meeting of the local equalization board of the assessment district in which the property is located and the meeting date of the county equalization board. The notice must be mailed or delivered at the expense of the assessment district for which the assessor is employed.

**SECTION 5. AMENDMENT.** Subsection 4 of section 57-14-08 of the North Dakota Century Code is amended and reenacted as follows:

4. When any special assessor has increased the true and full valuation of any lot or tract of land ~~together with~~ including any improvements to that lot or tract of land by ~~fifteen~~ three thousand dollars or more and to ten percent or more of the last assessment, written notice of the amount of increase over the last assessment and the amount of the last assessment must be delivered in writing by the special assessor to the property owner ~~or~~, mailed in writing to the property owner at the property owner's last-known address ~~except that no notice need be delivered or mailed if the true and full valuation is increased by less than three thousand dollars, or provided to the property owner by electronic mail directed with verification of receipt to an electronic mail address at which the property owner has consented to receive notice.~~ The tax commissioner shall prescribe suitable forms for this notice and the notice must also show the true and full value as defined by law of the property, including improvements, that the special assessor used in making the reassessment and must also show the date prescribed by law for the meeting of the special board of equalization of the assessment district in which the property is located. ~~This Delivery of notice must be mailed or delivered to the property owner under this section must be completed at least ten fifteen days in advance of the meeting date of the special board of equalization and must be mailed or delivered at the expense of the assessment district for which the special assessor is employed.~~

**SECTION 6. AMENDMENT.** Section 57-20-03 of the North Dakota Century Code is amended and reenacted as follows:

**57-20-03. Form of tax list.** The tax list must be made out to correspond with the assessment books ~~as respects~~ with respect to ownership and description of property, with columns for the valuation and for the various items of tax included in the total amount of all taxes set down opposite such description of property. The amounts of special taxes must be entered in appropriate columns, but the general taxes may be shown by entering the rate of each tax at the head of the proper

column without extending the same, in which case a schedule of the rates of such taxes must be made on the first page of each tax list. The tax lists also must show, in a separate column, the years for which a tax lien has been foreclosed upon any piece or parcel ~~has been sold for taxes~~, if the same has not been redeemed or deeded for such taxes.

**BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:**

**SECTION 1.** Two new subdivisions to subsection 3 of section 57-15-01.1 of the North Dakota Century Code are created and enacted as follows:

Increased, for a school district determining its levy limitation under this section, by the amount the school district's mill levy reduction grant under section 57-64-02 for the base year exceeds the amount of the school district's mill levy reduction grant under section 57-64-02 for the budget year.

Reduced for a school district determining its levy limitation under this section, by the amount the school district's mill levy reduction grant under section 57-64-02 for the budget year exceeds the amount of the school district's mill levy reduction grant under section 57-64-02 for the base year.

<sup>229</sup> **SECTION 2. AMENDMENT.** Section 57-15-14 of the North Dakota Century Code is amended and reenacted as follows:

**57-15-14. General fund levy limitations in school districts.** The aggregate amount levied each year for the purposes listed in section 57-15-14.2 by any school district, except the Fargo school district, may not exceed the amount in dollars which the school district levied for the prior school year plus eighteen percent up to a general fund levy of one hundred eighty-five mills on the dollar of the taxable valuation of the district, except that:

---

<sup>229</sup> Section 57-15-14 was also amended by section 47 of House Bill No. 1400, chapter 175.

1. In any school district having a total population in excess of four thousand according to the last federal decennial census:
  - a. ~~There~~ there may be levied any specific number of mills that upon resolution of the school board has been submitted to and approved by a majority of the qualified electors voting upon the question at any regular or special school district election.
  - b. ~~There is no limitation upon the taxes which may be levied if upon resolution of the school board of any such district the removal of the mill levy limitation has been submitted to and approved by a majority of the qualified electors voting at any regular or special election upon such question.~~
2. In any school district having a total population of ~~less~~ fewer than four thousand, there may be levied any specific number of mills that upon resolution of the school board has been approved by fifty-five percent of the qualified electors voting upon the question at any regular or special school election.
3. After June 30, ~~2007~~ 2009, in any school district election for approval by electors of ~~unlimited~~ or increased levy authority under subsection 1 or 2, the ballot must specify the number of mills, ~~the percentage increase in dollars levied, or that unlimited levy authority is~~ proposed for approval, and the number of taxable years for which that approval is to apply. After June 30, ~~2007~~ 2009, approval by electors of ~~unlimited~~ or increased levy authority under subsection 1 or 2 may not be effective for more than ten taxable years.
4. The authority for a levy of up to a specific number of mills under this section approved by electors of a school district before July 1, 2009, is terminated effective for taxable years after 2015. If the electors of a school district subject to this subsection have not approved a levy for taxable years after 2015 of up to a specific number of mills under this section by December 31, 2015, the school district levy limitation for subsequent years is subject to the limitations under section 57-15-01.1 or this section.
5. The authority for an unlimited levy approved by electors of a school district before July 1, 2009, is terminated effective for taxable years after 2015. If the electors of a school district subject to this subsection have not approved a levy of up to a specific number of mills under this section by December 31, 2015, the school district levy limitation for subsequent years is subject to the limitations under section 57-15-01.1 or this section.

The question of authorizing or discontinuing such specific number of mills authority ~~or unlimited taxing authority~~ in any school district must be submitted to the qualified electors at the next regular election upon resolution of the school board or upon the filing with the school board of a petition containing the signatures of qualified electors of the district equal in number to ten percent of the number of electors who cast votes in the most recent election in the school district. However, not fewer than twenty-five signatures are required ~~unless the district has fewer than twenty-five qualified electors, in which case the petition must be signed by not less than twenty-five percent of the qualified electors of the district. In those districts with fewer than twenty-five qualified electors, the number of qualified electors in the district must be~~

determined by the county superintendent for such county in which such school is located. However, the approval of discontinuing either such authority does not affect the tax levy in the calendar year in which the election is held. The election must be held in the same manner and subject to the same conditions as provided in this section for the first election upon the question of authorizing the mill levy.

**SECTION 3. AMENDMENT.** Section 57-15-31 of the North Dakota Century Code is amended and reenacted as follows:

**57-15-31. Determination of levy.** The amount to be levied by any county, city, township, school district, park district, or other municipality authorized to levy taxes shall be computed by deducting from the amount of estimated expenditures for the current fiscal year as finally determined, plus the required reserve fund determined upon by the governing board from the past experience of the taxing district, the total of the following items:

f. For an individual who is not a resident of this state for the entire year, or for a nonresident estate or trust, the tax is equal to the tax otherwise computed under this subsection multiplied by a fraction in which:

- (1) The numerator is the federal adjusted gross income allocable and apportionable to this state; and

- (2) The denominator is the federal adjusted gross income from all sources reduced by the net income from the amounts specified in subdivisions a and b of subsection 2.

In the case of married individuals filing a joint return, if one spouse is a resident of this state for the entire year and the other spouse is a nonresident for part or all of the tax year, the tax on the joint return must be computed under this subdivision.

- g. For taxable years beginning after December 31, ~~2004~~ 2009, the tax commissioner shall prescribe new rate schedules that apply in lieu of the schedules set forth in subdivisions a through e. The new schedules must be determined by increasing the minimum and maximum dollar amounts for each income bracket for which a tax is imposed by the cost-of-living adjustment for the taxable year as determined by the secretary of the United States treasury for purposes of section 1(f) of the United States Internal Revenue Code of 1954, as amended. For this purpose, the rate applicable to each income bracket may not be changed, and the manner of applying the cost-of-living adjustment must be the same as that used for adjusting the income brackets for federal income tax purposes.

**SECTION 6.** Chapter 57-64 of the North Dakota Century Code is created and enacted as follows:

**57-64-01. Definitions.** For purposes of this chapter:

1. "Combined education mill rate" means the combined number of mills levied by a school district for the general fund, high school tuition, and high school transportation.
2. "Qualifying school district" means a school district that meets the conditions and requirements of this chapter to receive a mill levy reduction grant.
3. "Weighted student unit" means weighted student unit as determined for the school district under chapter 15.1-27.

**57-64-02. Mill levy reduction allocation and grant.** Each qualifying school district in the state is entitled to a mill levy reduction allocation and grant as provided in this chapter, subject to legislative appropriation to the superintendent of public instruction.

1. The mill levy reduction allocation rate for each qualifying school district is equal to the payments to the school district based on the per student payment rate as determined for the school year under chapter 15.1-27.
2. The grant to a qualifying school district may not exceed the smallest of:
  - a. The allocation determined under subsection 1;
  - b. The taxable valuation of property in the school district in the previous taxable year times the number of mills determined by subtracting one hundred mills from the combined education mill rate of the school district for taxable year 2008; or

- c. The taxable valuation of property in the school district in the previous taxable year times seventy-five mills.
3. The grant to a qualifying school district may not be less than the grant to that school district in the preceding school year.
4. The superintendent of public instruction shall report to each qualifying school district by July fifteenth of each year the mill levy reduction grant in dollars available to that school district during the upcoming school year.
5. By December first, January first, February first, and March first of each school year, the superintendent of public instruction shall forward to each qualifying school district installments equal to twenty-five percent of the total mill levy reduction grant the district is eligible to receive during that school year.
6. Allocations to a school district under this chapter are not considered per student payments or state aid for purposes of chapter 15.1-27.
7. For all purposes under law relating to allocation of funds among political subdivisions based on property tax levies, property taxes levied by a school district are the amount that would have been levied without the mill reduction grant provided to the school district under this chapter.

#### **57-64-03. School district levy compliance.**

1. To be eligible to receive a grant under this chapter, a qualifying school district must establish a spending level that does not result in a general fund mill rate exceeding one hundred ten mills. The certificate of levy form filed with the county auditor by a qualifying school district must reflect the revenue to be received by the school district under this chapter and that the general fund mill rate for the school district will not exceed one hundred ten mills unless:
  - a. The district has approval of a majority of the electors of the school district for a higher levy;
  - b. The higher levy is the result of a school district reorganization in compliance with chapter 15.1-12; or
  - c. The higher levy does not produce an amount in dollars exceeding the amount allowed under section 57-15-01.1 for taxable year 2008 reduced by the amount of the school district's mill levy reduction grant under section 57-64-02 for the budget year.
2. The authority under subdivision b of subsection 1 for a school district to levy a general fund mill rate exceeding one hundred ten mills applies for not more than ten taxable years after taxable year 2008 unless a majority of the electors of the school district approve an extension of that authority. Approval by electors of extension of levy authority under subdivision a or b of subsection 1 is effective for not more than ten taxable years at a time. A ballot measure for approval by electors of extension of levy authority under subdivision a or b of subsection 1 is subject to the following:

- a. The ballot measure must specify the number of mills for the general fund mill rate for which approval is sought.
- b. If a ballot measure for approval of authority to levy a specific number of mills is not approved by a majority of the electors of the school district voting on the question, the school district general fund levy limitation for subsequent years is subject to the limitations under section 57-15-01.1 or 57-15-14.

**57-64-04. Levy reduction priority.** In setting mill rates for qualified school districts, the county auditor shall apply funds allocated to a school district under this chapter for mill levy reduction first to reduce the number of mills levied for general fund purposes and, if allocation funds remain after the general fund mill rate is reduced to zero, the balance must be applied to reduce the high school tuition levy and then to reduce the high school transportation levy of the qualified school district.

**SECTION 7. Property tax relief sustainability fund.** The property tax relief sustainability fund is a special fund in the state treasury. Moneys in the fund may be spent, pursuant to legislative appropriations, for property tax relief programs.

<sup>231</sup> **SECTION 8. REPEAL.** Section 15.1-27-20.1 of the North Dakota Century Code is repealed.

**SECTION 9. APPROPRIATION.** There is appropriated out of any moneys in the general fund in the state treasury, not otherwise appropriated, the sum of \$295,000,000, or so much of the sum as may be necessary, to the superintendent of public instruction for the purpose of allocation of mill levy reduction grants to school districts under chapter 57-64, for the biennium beginning July 1, 2009, and ending June 30, 2011.

**SECTION 10. TRANSFER - PERMANENT OIL TAX TRUST FUND - GENERAL FUND.** The office of management and budget shall transfer the sum of \$295,000,000 from the permanent oil tax trust fund to the general fund on July 1, 2009.

**SECTION 11. TRANSFER - PERMANENT OIL TAX TRUST FUND - PROPERTY TAX RELIEF SUSTAINABILITY FUND.** The office of management and budget shall transfer the sum of \$295,000,000 from the permanent oil tax trust fund to the property tax relief sustainability fund on July 1, 2010.

**SECTION 12. EFFECTIVE DATE.** Sections 1, 2, 3, 4, and 5 of this Act are effective for taxable years beginning after December 31, 2008.

AN ACT to amend and reenact section 57-15-28 of the North Dakota Century Code, relating to discontinuance of county emergency fund levies.

**BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:**

**SECTION 1. AMENDMENT.** Section 57-15-28 of the North Dakota Century Code is amended and reenacted as follows:

**57-15-28. Emergency fund - County.** The governing body of any county may levy a tax for emergency purposes not exceeding the limitation in subsection 22 of section 57-15-06.7. The emergency fund may not be considered in determining the budget or the amount to be levied for each fiscal year for normal tax purposes but must be shown in the budget as an "emergency fund" and may not be deducted from the budget as otherwise provided by law. Each county may create an emergency fund, and all taxes levied for emergency purposes by any county, when collected, must be deposited in the emergency fund, and must be used only for emergency purposes caused by the destruction or impairment of any county property necessary for the conduct of the affairs of the county, emergencies caused by nature or by the entry by a court of competent jurisdiction of a judgment for damages against the county. The emergency fund may not be used for any road construction or maintenance, except for repair of roads damaged by nature within sixty days preceding the determination to expend emergency funds, or for the purchase of road equipment; however, the emergency fund may be used to match federal funds appropriated to mitigate damage to roads related to a federally declared disaster that occurred more than sixty days preceding the determination. Any unexpended balance remaining in the emergency fund at the end of any fiscal year must be kept in the fund. When the amount of money in the emergency fund, plus the amount of money due the fund from outstanding taxes, equals the amount produced by a levy of five mills on the taxable valuation of property in a county with a population of thirty thousand or more, ~~or~~ ten mills on the taxable valuation of property in a county with a population of less than thirty thousand but more than five thousand, or fifteen mills on the taxable valuation of property in a county with a population of five thousand or fewer, the levy authorized by this section must be discontinued, and no further levy may be made until required to replenish the emergency fund.

Notwithstanding section 57-15-01.1, 57-15-19, 57-15-19.4, or 57-15-19.6, if a mistake occurred in the 2008 tax year which resulted in a reduction of the amount intended and approved to be levied by a township, as of the October tenth deadline under section 57-15-31.1, not being levied and the mistake has been brought to the attention of the county auditor by February 1, 2009, the township may include the amount that was mistakenly not levied in the township's levy for a single tax year, or spread among one or more tax years, in tax years 2009 through 2013.
2. If the resulting levy for the tax year exceeds limitations otherwise established by law, the township need not comply with chapter 57-17.
3. After a tax year in which a township's levy increase authority under this section is exhausted, the township's levy must revert to the levy as it would have been determined without application of this section, plus any increase authorized by law or the township may elect to apply subsection 5 to determine its levy limitation.
4. Before any taxable year may be used as a "base year" under section 57-15-01.1, any amount included in that taxable year's levy under this section must be deducted.

Electricity transmission and distribution lines - Differentiation.** Except for purposes of transmission facility siting under chapter 49-22 and regulatory accounting including the determination of the demarcation between federal and state jurisdiction over transmission in interstate commerce and local distribution, for purposes of this title and ~~chapters 57-33 and 57-33.1~~ chapter 57-33.2, lines designed to operate at a voltage of 41.6 kilovolts or more are transmission lines, and lines designed to operate at a voltage less than 41.6 kilovolts are distribution lines.

<sup>232</sup> **SECTION 4. AMENDMENT.** Section 57-06-03 of the North Dakota Century Code is amended and reenacted as follows:

**57-06-03. Operative property defined.** The term "operative property" means any and all property that is not exempt under this chapter by reason of an election filed under chapter 57-33.2 and which is reasonably necessary for use by any company mentioned in section 57-06-02 exclusively in the operation and conduct of the particular kind of business engaged in by it. Any such property held under a contract for the purchase thereof must be considered for all purposes of taxation as the property of the company holding the same. Any such property, real or personal, held by any company under a rental lease must be assessed by the state board of equalization in the name of such company, if an agreement in writing between the owner thereof and such company is filed with the tax commissioner requesting that such leased property be so assessed. Whenever any property of a public utility company required to be assessed by the state board of equalization under the provisions of this chapter is used partly for operative purposes and partly for other purposes, either by the company or by others, all such property that is not exempt under this chapter by reason of an election filed under chapter 57-33.2 must be assessed by the state board of equalization as operative property of the company.

**SECTION 5. AMENDMENT.** Section 57-06-17.3 of the North Dakota Century Code is amended and reenacted as follows:

**57-06-17.3. New transmission line property tax exemption.** A transmission line of two hundred thirty kilovolts or larger, and its associated transmission substations, which is not taxable under chapter 57-33.2 and is initially placed in service on or after October 1, 2002, is exempt from property taxes for the first taxable year after the line is initially placed in service, and property taxes as otherwise determined by law on the transmission line and its associated transmission substations must be reduced by:

1. Seventy-five percent for the second taxable year of operation of the transmission line.

---

<sup>232</sup> Section 57-06-03 was also amended by section 1 of House Bill No. 1382, chapter 532.

2. Fifty percent for the third taxable year of operation of the transmission line.
3. Twenty-five percent for the fourth taxable year of operation of the transmission line.

After the fourth taxable year of operation of the transmission line, the transmission line and its associated transmission substations are exempt from property taxes and are subject to a tax at the rate of three hundred dollars per mile [1.61 kilometers] or fraction thereof of the line located in this state. The per mile tax imposed by this section applies to the transmission line and its associated transmission substations and is subject to the same manner of imposition and allocation as the tax imposed by subsection 2 of section 57-33.1-02 allocation among counties in the proportion that the miles of that transmission line in the county bears to the miles of that transmission line in the state. Revenues received by each county must be deposited in the county general fund.

For purposes of this section, "initially placed in service" includes both new construction and substantial expansion of the carrying capacity of a preexisting line, and "substantial expansion" means an increase in carrying capacity of fifty percent or more.

**SECTION 6.** Chapter 57-33.2 of the North Dakota Century Code is created and enacted as follows:

**57-33.2-01. Definitions.** As used in this chapter:

1. "Collector system" means all property used or constructed to interconnect individual wind turbines within a wind farm into a common project, including step-up transformers, electrical collection equipment, collector substation transformers, and communication systems.
2. "Commissioner" means the state tax commissioner.
3. "Company" means an individual, partnership, corporation, limited liability company, limited liability partnership, cooperative, or any other organization or association engaged in generation, distribution, or transmission of electricity. A company subject to taxation under chapter 57-06, is not a "company" for purposes of this chapter unless it files an irrevocable election with the commissioner to be treated as a company under this chapter by October 1, 2009, for taxable periods after December 31, 2009; by October 1, 2010, for taxable periods after December 31, 2010; by October 1, 2011, for taxable periods after December 31, 2011; or by October 1, 2012, for taxable periods after December 31, 2012. Property subject to taxation under this chapter which is owned by a company that is otherwise taxable under chapter 57-06 which files an election under this chapter is exempt from taxation under chapter 57-06.
4. "Distribution company" means a company engaged in distribution of electricity for retail sale to consumers in this state through distribution lines. The term does not include a municipal electric utility operated under chapter 40-33 and that utility is not subject to taxes under section 57-33.2-03.

5. "Distribution line" means a line to transmit electricity which operates at a voltage of less than forty-one and six-tenths kilovolts.
6. "Retail sale" means transfer of electricity to the end-use consumer for consideration. The term does not include the sale of electricity to a coal conversion facility that became operational before January 1, 2009, and which is subject to taxation under chapter 57-60.
7. "Transmission company" means a company engaged in transmission of electricity through transmission lines.
8. "Transmission line" means a line to transmit electrical energy which operates at a voltage of forty-one and six-tenths kilovolts or more but does not include a line owned or operated by an agency or instrumentality of the United States government.
9. "Wind farm" means all property used or constructed for the purpose of producing electricity for commercial purposes utilizing the wind as an energy source and with a nameplate capacity of at least two thousand five hundred kilowatts. The term includes the collector system.
10. "Wind generator" means an individual wind turbine with a generation capacity of one hundred kilowatts or more which is connected to a transmission or distribution system.

**57-33.2-02. Transmission line mile tax - Exemption.** Transmission lines are subject to annual taxes per mile [1.61 kilometers] or fraction of a mile based on their nominal operating voltages on January first of each year, as follows:

1. For transmission lines that operate at a nominal operating voltage of less than fifty kilovolts, a tax of fifty dollars.
2. For transmission lines that operate at a nominal operating voltage of fifty kilovolts or more, but less than one hundred kilovolts, a tax of one hundred dollars.
3. For transmission lines that operate at a nominal operating voltage of one hundred kilovolts or more, but less than two hundred kilovolts, a tax of two hundred dollars.
4. For transmission lines that operate at a nominal operating voltage of two hundred kilovolts or more, but less than three hundred kilovolts, a tax of four hundred dollars.
5. For transmission lines that operate at a nominal operating voltage of three hundred kilovolts or more, a tax of six hundred dollars.
6. A transmission line initially placed in service after January 1, 2009, is exempt from transmission line taxes under this section for the first taxable year after the line is initially placed in service, and transmission line taxes under this section must be reduced by:
  - a. Seventy-five percent for the second taxable year of operation of the transmission line.

- b. Fifty percent for the third taxable year of operation of the transmission line.
- c. Twenty-five percent for the fourth taxable year of operation of the transmission line.

After the fourth taxable year of operation, such transmission lines are subject to the standard transmission line taxes under this section.

**57-33.2-03. Distribution taxes.** A distribution company is subject to a tax at the rate of one dollar per megawatt-hour for retail sale of electricity delivered to a consumer in this state during the calendar year. Distribution taxes under this section do not apply to the sale of electricity to any coal conversion facility that became operational before January 1, 2009, and which is subject to taxation under chapter 57-60.

**57-33.2-04. Wind generation taxation - Taxation of generation from sources other than coal - Taxation of coal generation not subject to coal conversion taxes.** Wind generators, including wind farms and associated collector systems, generators of electricity from sources other than coal owned by a company subject to taxation under this chapter, and generators of electricity from coal which are not subject to coal conversion taxes under chapter 57-60 are subject to taxes under this section.

1. Wind generators, wind farms, and associated collector systems are subject to taxes consisting of the following two components:
  - a. A tax of two dollars and fifty cents per kilowatt times the rated capacity of the wind generator.
  - b. A tax of one-half of one mill per kilowatt-hour of electricity generated by the wind generator during the taxable period.
2. Grid-connected generators that are part of a project with generation capacity of one hundred kilowatts or more not produced from coal or wind, or produced from coal and not subject to coal conversion taxes under chapter 57-60, are subject to taxes consisting of the following two components:
  - a. Fifty cents per kilowatt times the rated capacity of the generation unit.
  - b. One mill per kilowatt-hour of electricity generated by the production unit during the taxable period.

**57-33.2-05. Taxes in lieu of property taxes.** Taxes imposed by the state board of equalization under this chapter are taxes upon the privilege of doing business in this state and are in lieu of all real or personal property taxes levied by the state or any of its political subdivisions upon real or personal property to the extent the property is owned and used by a company in the operation and conduct of the business of generation or delivery of electricity through distribution or transmission lines. Taxes under this chapter are not in lieu of property taxes on the following:

1. Property taxes on land on which generation, transmission, or distribution buildings, structures, or improvements are located, including buildings,

structures, or improvements used for administrative purposes relating to generation, transmission, or distribution of electricity.

2. City franchise fees on public utilities.

This chapter does not abridge the power of a governing board of a city to franchise the construction and operation of a public utility.

**57-33.2-06. Transmission and distribution line location reports to county auditors.** By May first of each year, each transmission or distribution company shall file, with the county auditor of each county in which any of its transmission or distribution line is located, a report showing the length and nominal operating voltage of its transmission and distribution line within the county and within each taxing district within the county. Reports under this section must be based upon nominal operating voltage, ownership, and location of transmission and distribution lines as of January first of each year. Reports under this section must be prepared to distinguish transmission lines from distribution lines. By April first of each year, the county auditor shall provide each transmission or distribution company having a transmission or distribution line in the county with an accurate map of the county showing the boundaries of each taxing district in the county.

**57-33.2-07. Filing of reports with commissioner.** By May first of each year, each wind farm, wind generator, and generator of electricity from sources other than coal subject to the coal conversion tax and each transmission company, distribution company, and each company that is both a transmission company and a distribution company shall file with the commissioner on a form prescribed by the commissioner any and all information required by the commissioner. The form must include a notice of a company's right to appeal its assessment to the state board of equalization before or at the August meeting of the state board of equalization. Required information includes:

1. a. The company name.
  - b. Whether the company is an individual, partnership, association, cooperative, corporation, limited liability company, or other legal entity and the state or country and date of original organization and any reorganization, consolidation, or merger with references to specific laws authorizing such actions.
  - c. The location of its principal office.
  - d. The place where the company's books, papers, and accounts are kept.
  - e. The name and mailing address of the president, secretary, treasurer, auditor, general manager, and all other general officers.
  - f. The name and mailing address of the chief officer or managing agent and any general officers of the company who reside in this state.
2. A copy of each report filed with any county auditor under section 57-33.2-06.
  3. A report on the megawatt-hours of electricity produced by wind generators and generators of electricity from sources other than coal in

each county in the state and a map showing the location of each generator and its rated capacity, and all components of the collector system, if any.

4. A report on the megawatt-hours of electricity delivered for retail sale to consumers in each taxing district in each county during the most recently completed calendar year.

**57-33.2-08. Delinquent taxes - Penalty.** Taxes under this chapter are due January first for the preceding taxable year and are delinquent if not received by the commissioner by March first following the due date. If any amount of tax imposed by this chapter is not paid on or before March first, or if upon an additional audit an additional tax is found to be due, there must be added to the tax due a penalty at the rate of one percent of the tax due for each month or fraction of a month during the first year during which the tax remains unpaid, computed from March first. From and after January first of the year following the year in which the taxes become due and payable, simple interest at the rate of twelve percent per annum upon the principal of the unpaid taxes must be charged until the taxes and penalties are paid, with the interest charges to be prorated to the nearest full month for a fractional year of delinquency.

**57-33.2-09. Taxes paid on worthless accounts.** Distribution taxes paid from retail sales to accounts found to be worthless and charged off in accordance with generally accepted accounting principles may be credited against subsequent payment of taxes under section 57-33.2-03. If accounts that have been claimed as a credit under this section are later collected, a tax under section 57-33.2-03 must be paid on the amount collected.

**57-33.2-10. Powers of commissioner.** The commissioner may require any company subject to taxes imposed by this chapter to furnish any information the commissioner determines necessary to compute correctly the amount of the tax under this chapter. The commissioner may examine the books, records, and files of a company. The commissioner may conduct hearings and compel the attendance of witnesses and the production of books, records, and papers of any company or person and may make any investigation deemed necessary to obtain a full and complete disclosure of facts necessary to administer the tax under this chapter.

**57-33.2-11. Commissioner to audit reports and state board of equalization to assess tax.** The commissioner may audit reports of distribution companies and transmission companies not later than three years after the due date of the report, or three years after the report was filed, whichever period expires later. The state board of equalization shall assess the tax and, if any additional tax is found due, the commissioner shall notify the taxpayer in detail as to the reason for the increase.

**57-33.2-12. Deficiency, protest, and appeal.**

1. When the amount of taxes due is understated on a return because of a mathematical or clerical error, the commissioner shall notify the company of the error and the amount of additional taxes due. This notice is not a notice of deficiency and the company has no right to protest.
2. If upon an audit the commissioner finds additional taxes due, the commissioner shall notify the company and the state board of equalization of the deficiency in the tax amount. A notice of deficiency

must be sent to the company by first-class mail and must state the amount of additional taxes due and set forth the reasons for the increase.

3. A company has thirty days from the date of mailing of the notice of deficiency to file a written protest with the state board of equalization objecting to the assessment of additional taxes due. The protest must set forth the basis for the protest and any other information that may be required by the state board of equalization. If a company fails to file a written protest within the time provided, the amount of additional taxes stated in the notice of deficiency becomes finally and irrevocably fixed. If a company protests only a portion of the commissioner's finding, the portion that is not protested becomes finally and irrevocably fixed.
4. If a protest is filed, the state board of equalization shall reconsider the assessment of additional taxes due.
5. Within six months after the protest is filed, the state board of equalization shall mail to the company a notice of reconsideration and assessment which must respond to the company's protest and assess the amount of any additional taxes due. The amount set forth in that notice becomes finally and irrevocably fixed unless the company brings an action against the state in district court within six months of the mailing of the notice of reconsideration and assessment.

#### **57-33.2-13. Claims for credit or refund.**

1. A company may file a claim for credit or refund of an overpayment of any tax imposed by this chapter within six months after the due date of the return or within six months after the return was filed, whichever period expires later.
2. A claim for credit or refund must be made by filing with the commissioner an amended return, or other report as prescribed by the commissioner, accompanied by a statement outlining the specific grounds upon which the claim for credit or refund is based.
3. The commissioner shall notify the company if the state board of equalization disallows all or part of a claim for credit or refund. The decision of the state board of equalization denying a claim for credit or refund is final and irrevocable unless the company brings an action against the state in district court within six months of the mailing of the notice denying the claim for credit or refund.

**57-33.2-14. Preservation of records.** Every company required to make a return and pay any taxes under this chapter shall preserve records of retail sales as the commissioner may require. Every company shall preserve for a period of three years and three months all invoices and other records of electricity delivered to a consumer in this state. All of these books, invoices, and other records must be open to examination at any time by the commissioner or any duly authorized agent of the commissioner.

**57-33.2-15. Lien for tax.** The tax under this chapter constitutes a first and paramount lien in favor of the state of North Dakota upon all property and rights to property, whether real or personal, belonging to the taxpayer. The lien is subject to

collection, indexing, and other action in the manner provided in section 57-39.2-13 for sales tax liens.

**57-33.2-16. Corporate officer and limited liability company governor or manager liability.** If a corporation or limited liability company taxable under this chapter fails for any reason to file the required returns or pay the tax due, any of its officers, governors, or managers having control or supervision of, or charged with the responsibility for making, the returns and payments, are personally liable for the failure. The dissolution of a corporation or limited liability company does not discharge an officer's, a governor's, or a manager's liability for a prior failure of the corporation or limited liability company to make a return or remit the tax due. The sum due for such a liability may be assessed and collected under this chapter for the assessment and collection of other liabilities.

**57-33.2-17. Bond.** The commissioner may require a sufficient bond from any company charged with making and filing reports and payment of taxes under this chapter. Any required bond must run to the state of North Dakota and be conditioned upon making and filing of reports as required by law or rule and for prompt payment of all taxes justly due to the state under this chapter.

**57-33.2-18. Deposit of revenue - Report to treasurer.** The commissioner shall transfer revenue collected under this chapter to the state treasurer for deposit in the electric generation, transmission, and distribution tax fund. With each transfer under this section, the commissioner shall provide a report showing the information necessary for the state treasurer to allocate the revenue under section 57-33.2-19.

**57-33.2-19. Allocation - Continuing appropriation.** The electric generation, transmission, and distribution tax fund is appropriated as a continuing appropriation to the state treasurer for allocation and distribution to counties by April first of each year as provided in this section. The commissioner shall make the necessary allocations to the counties. The county auditors shall make the necessary allocations to the taxing districts.

1. Revenue from the tax on transmission lines under section 57-33.2-02 must be allocated among counties based on the mileage of transmission lines and the rates of tax on those lines within each county. Revenue received by a county for each size of transmission line under this subsection must be allocated one-third to the county and two-thirds among the county and other taxing districts in the county based on the mileage of that transmission line and the rates of tax that apply where that line is located within each taxing district. Revenue from that portion of a transmission line located in more than one taxing district must be allocated among those taxing districts in proportion to their respective most recent property tax mill rates that apply where the transmission line is located.
2. Revenue from the distribution company tax under section 57-33.2-03 must be allocated fifty percent to the county in which the retail sale to which the tax applied was made and fifty percent among counties based on the mileage of the distribution company's distribution lines and the rate of tax on those lines within each county. Revenue received by the county under this subsection based on the location of retail sales must be allocated among taxing districts in the county based on the location of the retail sale and the most recent respective property tax levies in dollars within the taxing districts in which the retail sales occurred. Revenue received by a county under this subsection based on mileage

of distribution lines must be allocated among the county and other taxing districts in the county based on the mileage of that distribution line and the rates of tax that apply to the land on which that line is located within each taxing district. Revenue from that portion of a distribution line located in more than one taxing district must be allocated among those taxing districts in proportion to their respective most recent property tax mill rates that apply to the land on which the distribution line is located.

3. Revenue from the generation taxes under section 57-33.2-04 must be allocated to the county in which the generator is located. Revenue received by the county under this subsection must be allocated among taxing districts in which the generator is located in proportion to their respective most recent property tax mill rates that apply to the land on which the wind farm and associated collector system, wind generator, or other generation unit is located.
4. For purposes of this section, "taxing district" means the state, county, and that portion of any political subdivision with authority to levy property taxes which is located within the county.

**57-33.2-20. Penalty.** If any company refuses or neglects to make the reports required by this chapter, or refuses or neglects to furnish any information requested, the commissioner shall use the best facts and estimates available to determine the tax due. The tax must be imposed upon the basis of that information. If any company fails to make the report required under this chapter on or before the first day of May of any year, the state board of equalization shall add a penalty of ten percent of the tax due for failure to make the required report which must be collected as a part of the tax, but the commissioner, upon application, may grant extensions of time within which the returns must be filed. For good cause shown, the commissioner may waive all or any part of the penalty that attached under this section.

**SECTION 7. AMENDMENT.** Section 57-60-06 of the North Dakota Century Code is amended and reenacted as follows:

**57-60-06. Property classified and exempted from ad valorem taxes - In lieu of certain other taxes - Credit for certain other taxes.** Each coal conversion facility must be classified as personal property and is exempt from all ad valorem taxes except for taxes on the land on which such facility is located. The taxes imposed by this chapter are in lieu of ad valorem taxes on the property so classified as personal property. ~~The taxes imposed by this chapter are also in lieu of those taxes imposed by chapters 57-33 and 57-33.1 on cooperative electrical generating plants that qualify as coal conversion facilities as defined in this chapter for gross receipts derived from the operation of such plants.~~

**SECTION 8. REPEAL.** Chapters 57-33 and 57-33.1 of the North Dakota Century Code are repealed.

**SECTION 9. EFFECTIVE DATE.** This Act is effective for taxable years beginning after December 31, 2009.

**BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:**

**SECTION 1. AMENDMENT.** Section 57-34-05 of the North Dakota Century Code is amended and reenacted as follows:

**57-34-05. Deposit of tax revenues - Allocation to counties - Telecommunications carriers tax fund - Continuing appropriation.** Gross receipts tax revenues of up to eight million four hundred thousand dollars under this chapter must be deposited in a special fund in the state treasury, the telecommunications carriers tax fund. Gross receipts tax revenues under this chapter exceeding eight million four hundred thousand dollars must be deposited in the state general fund. The tax commissioner shall allocate moneys in the telecommunications carriers tax fund among counties in the same proportion that taxes paid by telecommunications carriers in locally assessed property taxes and taxes assessed under chapter 57-06 and this chapter in 1997 and received by taxing districts in the county bears to all taxes paid by telecommunications carriers in locally assessed property taxes and taxes assessed under chapter 57-06 and this chapter in 1997 and received by taxing districts in the state. The balance in the telecommunications carriers tax fund, not exceeding eight million four hundred thousand dollars, is appropriated as a standing and continuing appropriation to the tax commissioner for annual allocation to counties under this section. If gross receipts tax revenues available for allocation on the first day of March of any year are less than eight million four hundred thousand dollars, there is appropriated as a standing and continuing appropriation from the state general fund the amount that, when added to gross receipts tax revenues available for allocation from the telecommunications carriers tax fund results in allocation of eight million four hundred thousand dollars to counties per calendar year. On or before the first day of March of each year, the tax commissioner shall certify for payment to the state treasurer an amount determined to be due each county. The state treasurer shall remit the certified amount to the county treasurers according to the allocation made by the tax commissioner under this section not later than ~~the tenth working day in~~ March thirty-first of each year.

For taxpayers that have not earned or claimed a credit under this section in taxable years beginning before January 1, 2007, and which begin conducting qualified research in North Dakota in any taxable year following the fourth taxable year beginning after December 31, 2006, the amount of the credit is equal to twenty-five percent of the first one hundred thousand dollars of the qualified research expenses for the taxable year in excess of the base ~~period research expenses amount~~ and equal to eight percent of all qualified research expenses for the taxable year more than one hundred thousand dollars in excess of the base ~~period research expenses amount~~.
4. For purposes of this section:
- a. "Base ~~period research expenses amount~~" means base ~~period research expenses amount~~ as defined in section 41(c) of the Internal Revenue Code [26 U.S.C. 41(c)], except it does not include research conducted outside the state of North Dakota.
  - b. "Director" means the director of the department of commerce division of economic development and finance.
  - c. "Primary sector business" means a qualified business that through the employment of knowledge or labor adds value to a product, process, or service.
  - d. "Qualified research" means qualified research as defined in section 41(d) of the Internal Revenue Code [26 U.S.C. 41(d)], except it does not include research conducted outside the state of North Dakota.
  - e. "Qualified research and development company" means a taxpayer that is a primary sector business with annual gross revenues of less than seven hundred fifty thousand dollars and which has not conducted new research and development in North Dakota.
  - f. "Qualified research expenses" means qualified research expenses as defined in section 41(b) of the Internal Revenue Code [26 U.S.C. 41(b)], except it does not include expenses incurred for basic research conducted outside the state of North Dakota.
5. The credit allowed under this section for the taxable year may not exceed the liability for tax under this chapter.

6. In the case of a taxpayer that is a partner in a partnership or a member in a limited liability company, the credit allowed for the taxable year may not exceed an amount separately computed with respect to the taxpayer's interest in the trade, business, or entity equal to the amount of tax attributable to that portion of the taxpayer's taxable income which is allocable or apportionable to the taxpayer's interest in the trade, business, or entity.
7. Except as provided in subsection 1, if the amount of the credit determined under this section for any taxable year exceeds the limitation under subsection 5, the excess may be used as a research credit carryback to each of the three preceding taxable years and a research credit carryover to each of the fifteen succeeding taxable years. The entire amount of the excess unused credit for the taxable year must be carried first to the earliest of the taxable years to which the credit may be carried and then to each successive year to which the credit may be carried and the amount of the unused credit which may be added under this subsection may not exceed the taxpayer's liability for tax less the research credit for the taxable year. A claim to carry back the credit under this section must be filed within three years of the due date or extended due date of the return for the taxable year in which the credit was earned.
8. A taxpayer that is certified as a qualified research and development company by the director may elect to sell, transfer, or assign all or part of the unused tax credit earned under this section. The director shall certify whether a taxpayer that has requested to become a qualified research and development company meets the requirements of subsection 4. The director shall establish the necessary forms and procedures for certifying qualifying research and development companies. The director shall issue a certification letter to the taxpayer and the tax commissioner. A tax credit can be sold, transferred, or assigned subject to the following:
  - a. A taxpayer's total credit assignment under this section may not exceed one hundred thousand dollars over any combination of taxable years.
  - b. If the taxpayer elects to assign or transfer an excess credit under this subsection, the tax credit transferor and the tax credit purchaser jointly shall file with the tax commissioner a copy of the purchase agreement and a statement containing the names, addresses, and taxpayer identification numbers of the parties to the transfer, the amount of the credit being transferred, the gross proceeds received by the transferor, and the taxable year or years for which the credit may be claimed. The taxpayer and the purchaser also shall file a document allowing the tax commissioner to disclose tax information to either party for the purpose of verifying the correctness of the transferred tax credit. The purchase agreement, supporting statement, and waiver must be filed within thirty days after the date the purchase agreement is fully executed.
  - c. The purchaser of the tax credit shall claim the credit beginning with the taxable year in which the credit purchase agreement was fully executed by the parties. A purchaser of a tax credit under this

section has only such rights to claim and use the credit under the terms that would have applied to the tax credit transferor, except the credit purchaser may not carry back the credit as otherwise provided in this section. This subsection does not limit the ability of the tax credit purchaser to reduce the tax liability of the purchaser, regardless of the actual tax liability of the tax credit transferor.

- d. The original purchaser of the tax credit may not sell, assign, or otherwise transfer the credit purchased under this section.
  - e. If the amount of the credit available under this section is changed as a result of an amended return filed by the transferor, or as the result of an audit conducted by the internal revenue service or the tax commissioner, the transferor shall report to the purchaser the adjusted credit amount within thirty days of the amended return or within thirty days of the final determination made by the internal revenue service or the tax commissioner. The tax credit purchaser shall file amended returns reporting the additional tax due or claiming a refund as provided in section 57-38-38 or 57-38-40, and the tax commissioner may audit these returns and assess or issue refunds, even though other time periods prescribed in these sections may have expired for the purchaser.
  - f. Gross proceeds received by the tax credit transferor must be assigned to North Dakota. The amount assigned under this subsection cannot be reduced by the taxpayer's income apportioned to North Dakota or any North Dakota net operating loss of the taxpayer.
  - g. The tax commissioner has four years after the date of the credit assignment to audit the returns of the credit transferor and the purchaser to verify the correctness of the amount of the transferred credit and if necessary assess the credit purchaser if additional tax is found due. This subdivision does not limit or restrict any other time period prescribed in this chapter for the assessment of tax.
  - h. The tax commissioner may adopt rules to permit verification of the validity and timeliness of the transferred tax credit.
9. If a taxpayer acquires or disposes of the major portion of a trade or business or the major portion of a separate unit of a trade or business in a transaction with another taxpayer, the taxpayer's qualified research expenses and base period must be adjusted in the manner provided by section 41(f)(3) of the Internal Revenue Code [26 U.S.C. 41(f)(3)].
  10. If a taxpayer entitled to the credit provided by this section is a member of a group of corporations filing a North Dakota consolidated tax return using the combined reporting method, the credit may be claimed against the aggregate North Dakota tax liability of all the corporations included in the North Dakota consolidated return. This section does not apply to tax credits received or purchased under subsection 8.
  11. An individual, estate, or trust that purchases a credit under this section is entitled to claim the credit against state income tax liability under section 57-38-29 or 57-38-30.3.

12. A partnership, subchapter S corporation, limited partnership, limited liability company, or any other passthrough entity entitled to the credit under this section must be considered to be the taxpayer for purposes of calculating the credit. The amount of the allowable credit must be determined at the passthrough entity level. The total credit determined at the entity level must be passed through to the partners, shareholders, or members in proportion to their respective interests in the passthrough entity. An individual taxpayer may take the credit passed through under this subsection against the individual's state income tax liability under sections 57-38-29 and 57-38-30.

Any corporation which is required to file a state income tax return but not required to compute a federal taxable income figure for federal income tax purposes is required to compute such a federal taxable income figure using a pro forma return pursuant to the provisions of the Internal Revenue Code of 1954, as amended, in order to determine a starting point for the computation of state income tax. Any foreign loan and investment company engaged in business in this state, and whose income in this state consists solely of income exempt from taxation under this chapter, need not file an annual report unless specially requested to do so by the tax commissioner, but may file in lieu thereof an affidavit claiming exemption under this chapter. The return must be signed by the president, vice president, treasurer, assistant treasurer, chief accounting officer, or any other officer duly authorized so to act and it and any other declaration, statement, or document required to be made must contain or be verified by a written declaration that it is made under the penalties of perjury. In the event that more than fifty percent of the value of the assets of the partnership consist of intangibles, gain or loss from the sale of the partnership interest is allocated to this state in accordance with the ratio of total North Dakota income to total income of the partnership for its first full tax period immediately preceding the tax period of the partnership during which the partnership interest was sold. In the case of married individuals filing a joint return, if one spouse is a resident of this state for the entire year and the other spouse is a nonresident for part or all of the tax year, the tax on the joint return must be computed under this subdivision.

- g. For taxable years beginning after December 31, 2001, the tax commissioner shall prescribe new rate schedules that apply in lieu of the schedules set forth in subdivisions a through e. - e. Increased by the amount of a lump sum distribution for which income averaging was elected under section 402 of the Internal Revenue Code of 1986 [26 U.S.C. 402], as amended. A taxpayer may claim the reduction in this subdivision only once for each instance of organ donation during the taxable year in which the human organ donation and the human organ transplantation occurs but if qualified expenses are incurred in more than one taxable year, the reduction for those expenses must be claimed in the year in which the expenses are incurred.   6. The tax commissioner may prescribe procedures and guidelines to prevent requiring income that had been previously taxed under this chapter from becoming taxed again because of the provisions of this section and may prescribe procedures and guidelines to prevent any income from becoming exempt from taxation because of the provisions of this section if it would otherwise have been subject to taxation under the provisions of this chapter.

If an election to compute tax under this subsection is made, the tax imposed by subsection 1 for the taxable year must be equal to the sum of the following:
- (1) The tax computed under subsection 1 on North Dakota taxable income reduced by elected farm income.
  - (2) The increase in tax imposed by subsection 1 which would result if North Dakota taxable income for each of the three prior taxable years were increased by an amount equal to one-third of the elected farm income. However, if other provisions of this chapter other than this section were used to compute the tax for any of the three prior years, the same provisions in effect for that prior tax year must be used to compute the increase in tax under this paragraph. (Legislative Council)

(Energy Development and Transmission Committee)

AN ACT to amend and reenact section 57-38-01.8 of the North Dakota Century Code, relating to an income tax credit for installation of geothermal, solar, wind, or biomass energy devices; and to provide an effective date.

**BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:**

<sup>246</sup> **SECTION 1. AMENDMENT.** Section 57-38-01.8 of the North Dakota Century Code is amended and reenacted as follows:

**57-38-01.8. Income tax credit for installation of geothermal, solar, wind, or biomass energy devices.**

1. Any taxpayer filing a North Dakota income tax return pursuant to the provisions of this chapter may claim a credit for the cost of a geothermal, solar, wind, or biomass energy device installed before January 1, ~~2014~~ 2015, in a building or on property owned or leased by the taxpayer in North Dakota. The credit provided in this section for a device installed before January 1, 2001, must be in an amount equal to five percent per year for three years, and for a device installed after December 31, 2000, must be in an amount equal to three percent per year for five years of the actual cost of acquisition and installation of the geothermal, solar, wind, or biomass energy device and must be subtracted from any income tax liability of the taxpayer as determined pursuant to the provisions of this chapter.
2. For the purposes of this section:
  - a. "Biomass energy device" means a system using agricultural crops, wastes, or residues; wood or wood wastes or residues; animal wastes; landfill gas; or other biological sources to produce fuel or electricity.
  - b. "Geothermal energy device" means a system or mechanism or series of mechanisms designed to provide heating or cooling or to produce electrical or mechanical power, or any combination of these, by a method which extracts or converts the energy naturally occurring beneath the earth's surface in rock structures, water, or steam.
  - c. "Solar or wind energy device" means a system or mechanism or series of mechanisms designed to provide heating or cooling or to produce electrical or mechanical power, or any combination of

---

<sup>246</sup> Section 57-38-01.8 was also amended by section 10 of House Bill No. 1324, chapter 545.

these, or to store any of these, by a method which converts the natural energy of the sun or wind.

3. If a geothermal, solar, wind, or biomass energy device is a part of a system which uses other means of energy, only that portion of the total system directly attributable to the cost of the geothermal, solar, wind, or biomass energy device may be included in determining the amount of the credit. The costs of installation may not include costs of redesigning, remodeling, or otherwise altering the structure of a building in which a geothermal, solar, wind, or biomass energy device is installed.
4. A partnership, subchapter S corporation, limited partnership, limited liability company, or any other passthrough entity that installs a geothermal, solar, wind, or biomass energy device in a building or on property owned or leased by the passthrough entity must be considered to be the taxpayer for purposes of this section, and the amount of the credit allowed with respect to the entity's investments must be determined at the passthrough entity level. The amount of the total credit determined at the entity level must be passed through to the partners, shareholders, or members in proportion to their respective interests in the passthrough entity.
5. If a taxpayer entitled to the credit provided by this section is a member of a group of corporations filing a North Dakota consolidated tax return using the combined reporting method, the credit may be claimed against the aggregate North Dakota tax liability of all of the corporations included in the North Dakota consolidated return.
6.
  - a. The credit allowed under this section may not exceed the liability for tax under this chapter. If the amount of credit determined under this section exceeds the liability for tax under this chapter, the excess may be used as a credit carryover to each of the five succeeding taxable years.
  - b. Any excess tax credits earned for wind energy devices installed after September 30, 2008, and before January 1, 2012, may be used as a credit carryover to each of the twenty succeeding taxable years.
  - c. For any tax credits for geothermal, solar, or biomass energy devices installed after September 30, 2008, and wind energy devices installed after December 31, 2011, the excess may be used as a credit carryover to each of the ten succeeding taxable years.
7. All or part of the unused credit allowed under this section may be sold, assigned, or otherwise transferred by the taxpayer to the purchaser of the power generated by the device as part of the consideration in a power purchase agreement, or to any North Dakota taxpayer that constructs or expands an electricity transmission line in North Dakota after August 1, 2007. The taxpayer receiving the assignment of the credit is entitled to claim the credit against that taxpayer's tax liability under this chapter beginning with the tax year in which the power purchase agreement or the tax credit purchase agreement was fully executed by the parties and the geothermal, solar, or wind energy

device is installed. If the credit is transferred to an entity that constructs or expands transmission lines, the amount of credit claimed by that entity in any taxable year may not exceed the actual cost of acquisition and installation of the transmission lines constructed in North Dakota for that taxable year.

- a. A purchaser of the tax credit must claim the credit beginning with the tax year in which the purchase agreement is fully executed by the parties and the geothermal, solar, or wind energy device is installed. A purchaser of a tax credit under this section has only the right to claim and use the credit under the terms that would have applied to the tax credit transferor, except that in the case of a credit that is sold, assigned, or otherwise transferred by the taxpayer to the tax credit transferor, the credit allowed under this section may not exceed sixty percent of the liability for tax of the tax credit purchaser under this chapter. This subsection does not limit the ability of the tax credit purchaser to reduce the tax liability of the purchaser, regardless of the actual tax liability of the tax credit transferor.
- b. The tax credit transferor may sell the credit to only one tax credit purchaser each taxable year. The tax credit purchaser may not sell, assign, or otherwise transfer the credit purchased under the purchase agreement.
- c. If the taxpayer elects to sell, assign, or otherwise transfer an excess credit under this subsection, the tax credit transferor and the tax credit purchaser shall file jointly with the tax commissioner a copy of the purchase agreement affecting the tax credit transfer and a statement containing the name, address, and taxpayer identification number of any party to the transfer; the total installed cost of the qualifying geothermal, solar, or wind energy device; the amount of the credit being transferred; the gross proceeds received by the transferor; and the tax year for which the credit may be claimed. The purchase agreement must state clearly the purchase price associated with the tax credit sold. The taxpayer and the purchaser also shall file a document allowing the tax commissioner to disclose tax information to either party for the purpose of verifying the correctness of the transferred tax credit. The purchase agreement, supporting statement, and confidentiality waiver must be filed within thirty days after the date the purchase agreement is fully executed. The tax commissioner may audit the returns and assess or issue refunds, notwithstanding any other time limitation prescribed under law which may have expired for the purchaser.
- d. If the amount of the credit available under this section is changed as a result of an amended return filed by the transferor or as the result of an audit conducted by the internal revenue service or the tax commissioner, the transferor shall report to the purchaser the adjusted credit amount within thirty days of the amended return or within thirty days of the final determination made by the internal revenue service or the tax commissioner. The tax credit purchaser shall file amended returns reporting the additional tax due or claiming a refund as provided in section 57-38-38 or 57-38-40.

- e. The total amount of credits that can be sold by all taxpayers is limited to three million dollars each biennium. This limit applies on the basis of the date of installation of the geothermal, solar, or wind energy device.
  - f. Gross proceeds received under the purchase agreement by the tax credit transferor for the sale, assignment, or transfer of the tax credit must be allocated to North Dakota. The amount assigned under this subsection may not be reduced by the taxpayer's income apportioned to North Dakota or any North Dakota net operating loss of the taxpayer.
  - g. Within four years after the date of the credit assignment, the tax commissioner may audit the returns of the credit transferor and the purchaser to verify the correctness of the amount of the transferred credit and, if necessary, assess the credit purchaser if additional tax is found due. This subdivision does not limit or restrict any other time period prescribed in this chapter for the assessment of tax.
  - h. The tax commissioner may adopt rules to permit verification of the validity, timeliness, and limitations on the sale of the tax credit transferred under this section.
8. For geothermal, solar, wind, or biomass energy devices installed after December 31, 2006, if ownership of a device is transferred at the time installation is complete and the device is fully operational, the purchaser of the device is eligible for the tax credit under this section. Subsequent purchasers of the device are not eligible for the tax credit.

**BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:**

**SECTION 1. AMENDMENT.** Subsections 1 and 5 of section 57-38-57 of the North Dakota Century Code are amended and reenacted as follows:

1. a. Except ~~when otherwise directed by judicial order, or~~ as otherwise specifically provided by law, the tax commissioner, the tax commissioner's deputies, agents, clerks, and other officers and employees, may not divulge nor make known, in any manner, whether or not any report or return required under this chapter has been filed, the amount of income, or any particulars set forth or disclosed in any report or return required under this chapter, including the copy or any portion thereof or information reflected in the taxpayer's federal income tax return that the tax commissioner may require to be attached to, furnished with, or included in the taxpayer's state income tax return. This provision may not be construed to prohibit the publication of statistics, so classified as to prevent the identification of particular reports or returns, and the items thereof, or the inspection by the attorney general or other legal representatives of the state of the report or return of any taxpayer who shall bring action to set aside or review the tax based thereon, or against whom an action or proceeding has been instituted to recover any tax or any penalty imposed by this chapter. This section does not prohibit disclosure of the fact that a report or return required under this chapter has not been filed if the disclosure is made to further a tax investigation being conducted by the tax commissioner. Reports and returns must be preserved for three years and thereafter until the tax commissioner orders them to be destroyed.
- b. A court of competent jurisdiction may issue an order or subpoena directing the tax commissioner to disclose state tax return information to a local, state, or federal law enforcement official conducting a criminal investigation if the court determines that the facts submitted by the applicant satisfy the following:
  - (1) There is probable cause to believe that a specific criminal act has been committed and that the return or return information constitutes evidence of a criminal offense or may be relevant to a matter relating to the commission of the criminal offense;

- (2) The return or return information is sought exclusively for use in a criminal investigation or proceeding concerning such act; and
- (3) The information sought to be disclosed cannot reasonably be obtained under the circumstances, from another source.
- c. Before obtaining an order under this subsection, a law enforcement official may request information from the tax commissioner as to whether a taxpayer, which is the subject of a criminal investigation for which a return or return information is or may be relevant to the commission of a criminal offense, has complied with the requirements of this chapter. For purposes of this request, the tax commissioner is limited to stating that the taxpayer has or has not complied with these requirements.
- d. Except as required during court proceedings, tax return information disclosed to law enforcement under this section remains confidential during an active criminal investigation, after the investigation, after prosecution concludes, or until the time period for appeals has expired, whichever is later.

1. Except as otherwise expressly provided in subsection 2 for sales of mobile homes used for residential or business purposes, and except as

otherwise expressly provided in this chapter, there is imposed a tax of five percent upon the gross receipts of retailers from all sales at retail including the leasing or renting of tangible personal property as provided in this section, within this state of the following to consumers or users:

- a. Tangible personal property, consisting of goods, wares, or merchandise, except mobile homes used for residential or business purposes and including bundled transactions consisting entirely of tangible personal property.
- b. The furnishing or service of communication services or steam other than steam used for processing agricultural products.
- c. Tickets or admissions to places of amusement or entertainment or athletic events, including amounts charged for participation in an amusement, entertainment, or athletic activity and the playing of any machine for amusement or entertainment in response to the use of a coin. The tax imposed by this section applies only to eighty percent of the gross receipts collected from coin-operated amusement devices.
- d. Magazines and other periodicals.
- e. The leasing or renting of a hotel or motel room or tourist court accommodations.
- f. The leasing or renting of tangible personal property the transfer of title to which has not been subjected to a retail sales tax under this chapter or a use tax under chapter 57-40.2.

  - (4) "Electronic" means relating to technology having electrical, digital, magnetic, wireless, optical, electromagnetic, or similar capabilities.
  - (5) "Load and leave" means delivery to the purchaser by use of a tangible storage media when the tangible storage media is not physically transferred to the purchaser.

(6) "Prewritten computer software" means computer software, including prewritten upgrades, which is not designed and developed by the author or other creator to the specifications of a specific purchaser. The combining of two or more "prewritten computer software" programs or prewritten portions thereof does not cause the combination to be other than "prewritten computer software". "Prewritten computer software" includes software designed and developed by the author or other creator to the specifications of a specific purchaser when it is sold to a person other than the purchaser. If a person modifies or enhances "computer software" of which the person is not the author or creator, the person is deemed to be the author or creator only of such person's modifications or enhancements. "Prewritten computer software" or a prewritten portion thereof that is modified or enhanced to any degree, if such modification or enhancement is designed and developed to the specifications of a specific purchaser, remains "prewritten computer software". However, if there is a reasonable, separately stated charge or an invoice or other statement of the price given to the purchaser for such modification or enhancement, such modification or enhancement shall not constitute "prewritten computer software".

- h. A mandatory computer software maintenance contract for prewritten computer software.
- i. An optional computer software maintenance contract for prewritten computer software that provides only software upgrades or updates or an optional computer software maintenance contract for prewritten computer software that is a bundled transaction and provides software upgrades or updates and support services.

When sellers with a food ratio greater than seventy-five percent sell items that contain four or more servings packaged as one item and sold for a single price, the item does not become prepared food unless the seller's practice is to physically give or hand the purchaser utensils as in subdivision b. Serving size is determined by the label of the item sold. If no label is available, the seller will reasonably determine the number of servings.

**SECTION 6. AMENDMENT.** Section 57-39.4-05 of the North Dakota Century Code is amended and reenacted as follows:

<sup>255</sup> Section 57-39.2-04 was also amended by section 2 of House Bill No. 1289, chapter 557, section 1 of Senate Bill No. 2035, chapter 562, section 1 of Senate Bill No. 2053, chapter 560, section 1 of Senate Bill No. 2090, chapter 561, section 3 of Senate Bill No. 2325, chapter 556, and section 1 of Senate Bill No. 2347, chapter 563.

**57-39.4-05. (304) Notice for state tax changes.**

1. Each member state shall lessen the difficulties faced by sellers when there is a change in a state sales or use tax rate or base by making a reasonable effort to do all of the following:
  - a. Provide sellers with as much advance notice as practicable of a rate change.
  - b. Limit the effective date of a rate change to the first day of a calendar quarter.
  - c. Notify sellers of legislative changes in the tax base and amendments to sales and use tax rules and regulations.
2. Failure of a seller to receive notice or failure of a member state to provide notice or limit the effective date of a rate change shall not relieve the seller of its obligation to collect sales or use taxes for that member state.
3. Each member state failing to provide for at least thirty days between the enactment of the statute providing for a rate change and the effective date of such rate change shall relieve the seller of liability for failing to collect tax at the new effective rate if:
  - a. The seller collected tax at the immediately preceding effective rate; and
  - b. The seller's failure to collect at the newly effective rate does not extend beyond thirty days after the date of enactment of the new rate.
4. Notwithstanding subsection 3, if the member state establishes that the seller fraudulently failed to collect at the new rate or solicits purchasers based on the immediately preceding effective rate, this relief does not apply.
5. Member states may provide for relief of liability for failing to collect tax as a result of a tax change beyond the liability relief required by subsection 3.

**SECTION 7.** Subsection 9 to section 57-39.4-06 of the North Dakota Century Code is created and enacted as follows:

9. Make databases provided under subsections 5, 6, 7, and 8 available to a seller, or certified service provider by the first day of the month prior to the first day of a calendar quarter. Databases must be in a format approved by the governing board and available on each state's website or other location determined by the governing board.

**SECTION 8. AMENDMENT.** Subdivision d of subsection 2 of section 57-39.4-10 of the North Dakota Century Code is amended and reenacted as follows:

- d. ~~Until December 31, 2009, florist~~ Florist sales as defined by each member state. ~~Prior to this date, these items~~ These sales must be sourced according to the requirements of each member state.

**SECTION 9. AMENDMENT.** Subsection 1 of section 57-39.4-11 of the North Dakota Century Code is amended and reenacted as follows:

1. ~~The~~ Except as provided in section 57-39.4-11.1, a retail sale, excluding lease or rental, of a product shall be sourced as follows:
  - a. When the product is received by the purchaser at a business location of the seller, the sale is sourced to that business location.
  - b. When the product is not received by the purchaser at a business location of the seller, the sale is sourced to the location where receipt by the purchaser, or the purchaser's donee, designated as such by the purchaser, occurs, including the location indicated by instructions for delivery to the purchaser or donee, known to the seller.
  - c. When subdivisions a and b do not apply, the sale is sourced to the location indicated by an address for the purchaser that is available from the business records of the seller that are maintained in the ordinary course of the seller's business when use of this address does not constitute bad faith.
  - d. When subdivisions a, b, and c do not apply, the sale is sourced to the location indicated by an address for the purchaser obtained during the consummation of the sale, including the address of a purchaser's payment instrument, if no other address is available, when use of this address does not constitute bad faith.
  - e. When none of the previous rules of subdivisions a, b, c, and d apply, including the circumstance in which the seller is without sufficient information to apply the previous rules, then the location will be determined by the address from which tangible personal property was shipped, from which the digital good or the computer software delivered electronically was first available for transmission by the seller, or from which the service was provided, disregarding for these purposes any location that merely provided the digital transfer of the product sold.

**SECTION 10.** Section 57-39.4-11.1 of the North Dakota Century Code is created and enacted as follows:

**57-39.4-11.1. (310.1) Election for origin-based sourcing.**

1. A state that has local jurisdictions that levy or receive sales or use taxes may elect to source the retail sale of tangible personal property and digital goods under the provisions of this section in lieu of the provisions of subdivisions b, c, and d of subsection 1 of section 57-39.4-11 if the state complies with subsection 3 of this section and the only exception to section 57-39.4-11 is in subsection 2 of this section.
2. A state may source retail sales, excluding lease or rental, of tangible personal property or digital goods to the location where the order is received by the seller if:

order may be subsequently accepted, completed, or fulfilled. An order is received when all of the information necessary to determine whether the order can be accepted has been received by or on behalf of the seller. The location from which a product is shipped must not be used in determining the location where the order is received by the seller.

- f. A state must provide for direct pay permits under section 57-39.4-27 and the requirements of this subsection. Purchasers that remit sales and use tax under a direct pay permit shall remit tax at the rate in effect for the location where receipt of the product by the purchaser occurs or the product is first used as determined by state law. A state may establish reasonable thresholds at which the state will consider direct pay applications, provided the threshold must be based upon purchases with no distinction between taxable and nontaxable purchases. The state shall establish a process for application for a direct pay permit as provided in this chapter. The state may require the direct pay permit applicant to demonstrate:
- (1) An ability to comply with the sales and use tax laws of the state;
  - (2) A business purpose for seeking a direct pay permit and how the permit will benefit tax compliance; and
  - (3) Proof of good standing under the tax laws of the state. The state shall review all permit applications in a timely manner. Notification of authorization or denial must be received by applicants within one hundred twenty days of application. The state may not limit direct pay permit applicants to businesses engaged in manufacturing or businesses that do not know the ultimate use of the product at the time of the purchase.
- g. When taxable services are sold with tangible personal property or digital products under a single contract or in the same transaction, are billed on the same billing statement, and because of the application of this section, would be sourced to different jurisdictions, a state shall elect either origin sourcing or destination sourcing to determine a single situs for that transaction. The state election is required until the governing board adopts a uniform methodology to address these sales.
- h. A state that elects to source the sale of tangible personal property and digital goods under the provisions of this section shall inform the governing board of the election.
4. Compliance with the provisions of this section satisfies a state's eligibility for membership in this agreement as follows:
- a. If a state is in substantial compliance with the provisions of this agreement other than sourcing of sales of tangible personal property and digital goods as provided in section 57-39.4-11, and elects to source sales of tangible personal property and digital goods under this section, the state may become an associate

member state in the same manner as provided for states to become full member states under article VIII of the agreement.

- b. On or after January 1, 2010, a state that becomes an associate member state under this subsection shall automatically become a full member state, provided that at least five states which are not full member states on December 31, 2007, are determined to be in substantial compliance with the provisions of the agreement other than sourcing sales of tangible personal property and digital goods under section 57-39.4-11, and the state has notified the governing board of an election under subdivision h of subsection 3 of this section to source sales under this section and has been found to be in substantial compliance with the provisions of this section.
- c. This section shall be fully effective for all purposes on or after January 1, 2010, provided at least five states which are not full member states on December 31, 2007, have been found to be in substantial compliance with the provisions of the agreement other than sourcing sales of tangible personal property and digital goods under section 57-39.4-11 and have notified the governing board of an election under subdivision h of subsection 3 of this section to source sales under this section and have been found to be in substantial compliance with the provisions of this section. States electing to source sales under this section after that time may become full member states if all other requirements for membership are satisfied.

**SECTION 11.** Section 57-39.4-14.1 of the North Dakota Century Code is created and enacted as follows:

**57-39.4-14.1. (313.1) Election for origin-based direct mail sourcing.**

1. Notwithstanding sections 57-39.4-11, 57-39.4-11.1, and 57-39.4-14, a member state may elect to source the sale of all direct mail delivered or distributed from a location within the state and delivered or distributed to a location within the state under this section.
2. If the purchaser provides the seller with a direct pay permit or an exemption certificate claiming direct mail, the seller is relieved of all obligations to collect, pay, or remit the applicable tax and the purchaser is obligated to pay or remit the applicable tax on a direct pay basis. An exemption certificate claiming direct mail shall remain in effect for all future sales of direct mail by the seller to the purchaser until it is revoked in writing.
3. Except as provided in subsection 2 and this subsection, the seller shall collect the tax according to subsection 1 of section 57-39.4-11. To the extent the seller knows that a portion of the sale of direct mail will be delivered or distributed to a location in another state, the seller shall collect the tax on that portion according to section 57-39.4-14.
4. Nothing in this section limits a purchaser's obligation for sales or use tax to any state to which the direct mail is delivered, except that a purchaser whose direct mail is sourced under subsection 3 shall owe no additional sales or use tax to that state based on where the purchaser uses or delivers the direct mail in the state.

5. A member state that elects to source the sale of direct mail under the provisions of this section shall inform the governing board in writing at least sixty days prior to the beginning of the calendar quarter such election begins.

**SECTION 12. AMENDMENT.** Subsection 4 of section 57-39.4-22 of the North Dakota Century Code is amended and reenacted as follows:

4. The governing board may certify a certified service provider only if that certified service provider certifies that:
  - a. Its system has been designed and tested to ensure that the fundamental precept of anonymity is respected;
  - b. ~~That personally~~ Personally identifiable information is only used and retained to the extent necessary for the administration of model 1 with respect to exempt purchasers and for proper identification of taxing jurisdictions;
  - c. It provides consumers clear and conspicuous notice of its information practices, including what information it collects, how it collects the information, how it uses the information, how long, if at all, it retains the information and whether it discloses the information to member states. Such notice shall be satisfied by a written privacy policy statement accessible by the public on the official web site of the certified service provider;
  - d. ~~Its~~ The collection, use, and retention of personally identifiable information will be limited to that required by the member states to ensure the validity of exemptions from taxation that are claimed by reason of a consumer's status or the intended use of the goods or services purchased and for documentation of the correct assignment of taxing jurisdictions; and
  - e. It provides adequate technical, physical, and administrative safeguards so as to protect personally identifiable information from unauthorized access and disclosure.

**SECTION 13. AMENDMENT.** Section 57-39.4-23 of the North Dakota Century Code is amended and reenacted as follows:

**57-39.4-23. (322) Sales tax holidays.**

1. If a member state allows for temporary exemption periods, commonly referred to as sales tax holidays, the member state shall:
  - a. Not apply an exemption ~~after December 31, 2003,~~ unless the items to be exempted are specifically defined in the agreement part II or part III(B) of the library of definitions and the exemptions are uniformly applied to state and local sales and use taxes.
  - b. Provide notice of the exemption period at least sixty days prior to the first day of the calendar quarter in which the exemption period will begin.

- b. Bundled sales. Member states will follow the same procedure during the sales tax holiday as agreed upon for handling a bundled sale at other times.
- c. Discounts and coupons. A discount by a seller reduces the sales price of the property and the discounted sales price determines whether the sales price is within a sales tax holiday price threshold of a member state. A coupon that reduces the sales price is treated as a discount if the seller is not reimbursed for the coupon amount by a third party. If a discount applies to the total amount paid by a purchaser rather than to the sales price of a particular item and the purchaser has purchased both eligible property and taxable property, the seller shall allocate the discount based on the total sales prices of the taxable property compared to the total sales prices of all property sold in that same transaction.
- d. Splitting of items normally sold together. Items that are normally sold as a single unit must continue to be sold in that manner and cannot be priced separately and sold as individual items in order to obtain a sales tax holiday.
- e. Rainchecks. A raincheck is a means to allow a customer to purchase an item at a certain price at a later time because the particular item was out of stock. Eligible property that is purchased during the exemption period with use of a raincheck qualifies for the exemption regardless of when the raincheck was issued. Issuance of a raincheck during the exemption period does not qualify eligible property for the exemption if the property is purchased after the exemption period.
- f. Exchanges. The procedure for an exchange of eligible property purchased during a sales tax holiday is as follows:

  - (1) If a customer purchases an item of eligible property during the exemption period, and later exchanges the item for a similar eligible item, even if a different size, different color, or other feature, no additional tax is due if the exchange is made after the exemption period.
  - (2) If a customer purchases an item of eligible property during the exemption period, and returns the item and receives credit on the purchase of a different item after the exemption period, the appropriate sales tax is due on the sale of the newly purchased item.
  - (3) If a customer purchases an item of eligible property before the exemption period, returns the item, and receives credit on the purchase of a different item of eligible property during the exemption period, no sales tax is due on the sale of the new item if the new item is purchased during the exemption period.
- g. Delivery charges. Delivery charges, including shipping, handling, and service charges, are part of the sales price of eligible property unless a member state defines "sales price" to exclude such charges. For the purpose of determining a sales tax holiday price

threshold, if all the property in a shipment qualifies as eligible property and the sales price for each item in the shipment is within the sales tax holiday price threshold, the seller does not have to allocate the delivery charge to determine if the price threshold is exceeded and the shipment will be considered a sale of eligible products. If the shipment includes eligible property and taxable property, including an eligible item with a sales price in excess of the price threshold, the seller should allocate the delivery charge by using:

- (1) A percentage based on the total sales prices of the taxable property compared to the total sales prices of all property in the shipment; or
  - (2) A percentage based on the total weight of the taxable property compared to the total weight of all property in the shipment. The seller must tax the percentage of the delivery charge allocated to the taxable property but is not required to tax the percentage allocated to the eligible property.
- h. Order date and back orders. For the purpose of a sales tax holiday, eligible property qualifies for exemption if:
- (1) The item is both delivered to and paid for by the customer during the exemption period; or
  - (2) The customer orders and pays for the item and the seller accepts the order during the exemption period for immediate shipment, even if delivery is made after the exemption period. For purposes of this subsection, the seller accepts an order when the seller has taken action to fill the order for immediate shipment. Actions to fill an order include placement of an "in date" stamp on a mail order or assignment of an "order number" to a telephone order. An order is for immediate shipment when the customer does not request delayed shipment. An order is for immediate shipment notwithstanding that the shipment may be delayed because of a backlog of orders or because stock is currently unavailable to or on back order by the seller.
- i. Returns. For a sixty-day period immediately after the sales tax holiday exemption period, when a customer returns an item that would qualify for the exemption, no credit for or refund of sales tax shall be given unless the customer provides a receipt or invoice that shows tax was paid, or the seller has sufficient documentation to show that tax was paid on the specific item. This sixty day period is solely for the purpose of designating a time period during which the customer must provide documentation that shows that sales tax was paid on returned merchandise. The sixty-day period does not require the seller to change the seller's policy on the time period during which the seller will accept returns.
- j. Different time zones. The time zone of the seller's location determines the authorized time period for a sales tax holiday when the purchaser is located in one time zone and a seller is located in another.

**SECTION 14. AMENDMENT.** Subsection 3 of section 57-39.4-28 of the North Dakota Century Code is amended and reenacted as follows:

3. Except as specifically provided in ~~section 57-39.4-15~~ sections 57-39.4-17 and 57-39.4-33.1, and the library of definitions, a member state shall impose a sales or use tax on all products or services included within each part II or part III(B) definition or exempt from sales or use tax all products or services within each definition. The requirements of this section shall only apply to part III(B) definitions to the extent such definitions are used in the administration of a sales tax holiday.

**SECTION 15. AMENDMENT.** Section 57-39.4-29 of the North Dakota Century Code is amended and reenacted as follows:

**57-39.4-29. (328) Taxability matrix.**

1. To ensure uniform application of terms defined in part II and part III(B) of the library of definitions, each member state shall complete a taxability matrix adopted by the governing board. The member state's entries in the matrix shall be provided and maintained in a data base that is in a downloadable format approved by the governing board. A member state shall provide notice of changes in the taxability of the products or services listed in the taxability matrix as required by the governing board.
2. A member state shall relieve sellers and certified service providers from liability to the member state and its local jurisdictions for having charged and collected the incorrect amount of sales or use tax resulting from the seller or certified service provider relying on erroneous data provided by the member state in the taxability matrix.
3. If a state levies sales and use tax on a specified digital product and provides an exemption for an item within the definition of such specified digital product under subsection 8 of section 57-39.4-33.1, such exemption must be noted in the taxability matrix.
4. Each state that provides for a sales tax holiday under section 57-39.4-23 shall, in a format approved by the governing board, give notice in the taxability matrix of the products for which a tax exemption is provided.

**SECTION 16.** Subsection 4 to section 57-39.4-32 of the North Dakota Century Code is created and enacted as follows:

4. In the case of a transaction that includes an "optional computer software maintenance contract" for prewritten computer software and the state otherwise has not specifically imposed tax on the retail sale of computer software maintenance contracts, the following provisions apply:
  - a. If an optional computer software maintenance contract only obligates the vendor to provide upgrades and updates, it will be characterized as a sale of prewritten computer software.
  - b. If an optional computer software maintenance contract only obligates the vendor to provide support services, it will be characterized as a sale of services.

- c. If an optional computer software maintenance contract is a bundled transaction in which both taxable and nontaxable or exempt products that are not separately itemized on the invoice or similar billing document, the contract shall be characterized as all taxable.

**SECTION 17.** Section 57-39.4-33.1 of the North Dakota Century Code is created and enacted as follows:

**57-39.4-33.1. (332) Specified digital products.**

1. A member state shall not include "specified digital products", "digital audiovisual works", "digital audio works", or "digital books" within its definition of "ancillary services", "computer software", "telecommunication services", or "tangible personal property". This restriction applies whether the "specified digital product" is sold to a purchaser who is an end user or to a purchaser with less than the right of permanent use granted by the seller, or use by the purchaser which is conditioned upon continued payment from the purchaser. Until January 1, 2010, the exclusion of "specified digital products" from the definition of "tangible personal property" does not affect the classification of products transferred electronically that are not included within the definition of "specified digital products" as being included in, or excluded from, the definition of "tangible personal property".
2. For purposes of subsection 3 of section 57-39.4-28 and the taxability matrix, "digital audiovisual works", "digital audio works", and "digital books" are separate definitions.
3. If a state imposes a sales or use tax on products transferred electronically separately from its imposition of tax on "tangible personal property", the state will not be required to use the terms "specified digital product", "digital audiovisual works", "digital audio works", or "digital books", or enact an additional or separate sales or use tax on any "specified digital product".
4. For purposes of the agreement:
  - a. A statute imposing a tax on "specified digital products", "digital audiovisual works", "digital audio works", or "digital books" and, after January 1, 2010, a tax on any other product transferred electronically must be construed as only imposing the tax on a sale to a purchaser who is an end user unless the statute specifically imposes and separately enumerates the tax on a sale to a purchaser who is not an end user. For purposes of this section, an "end user" includes any person other than a person who receives by contract a product transferred electronically for further commercial broadcast, rebroadcast, transmission, retransmission, licensing, relicensing, distribution, redistribution, or exhibition of the product, in whole or in part, to another person or persons. A person who purchases products transferred electronically, or the code for specified digital products for the purpose of giving away such products or code shall not be considered to have engaged in the distribution or redistribution of such products or code and shall be treated as an end user.

- b. A statute imposing a tax on "specified digital products", "digital audiovisual works", "digital audio works", or "digital books" and, after January 1, 2010, on any other product transferred electronically must be construed as only imposing tax on a sale with the right of permanent use granted by the seller unless the statute specifically imposes and separately enumerates the tax on a sale with the right of less than permanent use granted by the seller. For purposes of this section "permanent" means perpetual or for an indefinite or unspecified length of time. A right of permanent use shall be presumed to have been granted unless the agreement between the seller and the purchaser specifies or the circumstances surrounding the transaction suggest or indicate that the right to use terminates on the occurrence of a condition subsequent.
- c. A statute imposing a tax on "specified digital products", "digital audiovisual works", "digital audio works", or "digital books" and, after January 1, 2010, on any other product transferred electronically shall be construed as only imposing tax on a sale which is not conditioned upon continued payment from the purchaser unless the statute specifically imposes and separately enumerates the tax on a sale which is conditioned upon continued payment from the purchaser.
- d. A member state which imposes a sales or use tax on the sale of a product transferred electronically to a person other than the end user or on a sale with the right of less than permanent use granted by the seller or which is conditioned upon continued payment from the purchaser shall so indicate in its taxability matrix in a format approved by the governing board.
- 5. Nothing in this section or the definition of "specified digital products" shall limit a state's right to impose a sales or use tax or exempt from sales or use tax any products or services that are outside the definition of "specified digital products".
- 6. A state may treat a subscription to products transferred electronically differently than a nonsubscription purchase of such product. For purposes of this section, "subscription" means an agreement with a seller that grants a consumer the right to obtain products transferred electronically from within one or more product categories having the same tax treatment, in a fixed quantity or for a fixed period of time, or both.
- 7. The tax treatment of a "digital code" shall be the same as the tax treatment of the "specified digital product" or product transferred electronically to which the "digital code" relates. The retail sale of the "digital code" shall be considered the transaction for purposes of the agreement. For purposes of this section, "digital code" means a code, which provides a purchaser with a right to obtain one or more such products having the same tax treatment. A "digital code" may be obtained by any means, including e-mail or by tangible means regardless of its designation as "song code", "video code", or "book code".

8. Notwithstanding the provisions of section 57-39.4-17, a member state may provide a product-based exemption for specific items within the definition of "specified digital products", provided the items which are not transferred electronically must also be granted a product-based exemption by the member state.
9. For purposes of this section and section 57-39.4-33.2, the term "transferred electronically" means obtained by the purchaser by means other than tangible storage media.

**SECTION 18.** Section 57-39.4-33.2 of the North Dakota Century Code is created and enacted as follows:

**57-39.4-33.2. (333) Use of specified digital products.** A member state shall not include any product transferred electronically in its definition of "tangible personal property". "Ancillary services", "computer software", and "telecommunication services" are excluded from the phrase "products transferred electronically".

**SECTION 19. AMENDMENT.** Section 57-39.4-35 of the North Dakota Century Code is amended and reenacted as follows:

**57-39.4-35. (502) State review and approval of certified automated system software and certain liability relief.**

1. Each member state shall review software submitted to the governing board for certification as a certified automated system as provided for in this chapter. Such review shall include a review to determine that the program adequately classifies the state's product-based exemptions accurately reflects the taxability of the product categories included in the program. Upon completion of the review approval by the state, the state shall certify to the governing board its acceptance of the classifications made by the system determination of the taxability of the product categories included in the program.
2. Each member state shall relieve certified service providers and model 2 sellers from liability to the member state and local jurisdictions for not collecting sales or use taxes resulting from the certified service provider or model 2 seller relying on the certification provided by the member state.
3. Each member state shall provide relief from liability to certified service providers for not collecting sales and use taxes in the same manner as provided to sellers under the provisions of section 57-39.4-18.
4. The governing board and the member states shall not be responsible for classification of an item or transaction within the product-based exemptions product categories certified. The relief from liability provided in this section shall not be available for a certified service provider or model 2 seller that has incorrectly classified an item or transaction into a product-based exemption product category certified by a member state. This subsection shall not apply to the individual listing of items or transactions within a product definition approved by the governing board or the member states.

5. A If a member state determines that an item or transaction is incorrectly classified as to its taxability, it shall notify the certified service provider or model 2 seller of the incorrect classification. The certified service provider or model 2 seller shall have ten days to revise the classification after receipt of notice from the member state of the determination. Upon expiration of the ten days, the certified service provider or model 2 seller shall be liable for the failure to collect the correct amount of sales or use taxes due and owing to the member state.

**SECTION 20. AMENDMENT.** Subsection 1 of section 57-40.2-01 of the North Dakota Century Code is amended and reenacted as follows:

1. "Business", "certified automated system", "certified service provider", "commissioner", "computer software contract", "farm machinery", "gross receipts", "lease or rental", "local governmental unit", "mandatory computer software maintenance contract", "optional computer software maintenance contract", "person", "relief agency", "retail sale", "sale", and "tangible personal property", each has the meaning given to it in section 57-39.2-01.

(Representatives Brandenburg, J. Kelsh, Kretschmar, Vigesaa)  
(Senators Erbele, Taylor)

AN ACT to amend and reenact section 57-40.6-02 of the North Dakota Century Code, relating to the fee imposed for emergency services communications; to provide for a legislative council study; and to provide an expiration date.

**BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:**

<sup>272</sup> **SECTION 1. AMENDMENT.** Section 57-40.6-02 of the North Dakota Century Code is amended and reenacted as follows:

**57-40.6-02. Authority of counties or cities to impose fee on assessed communications service - Procedure.** The governing body of a county or city may impose a fee on all assessed communications services in accordance with the following requirements:

1. The governing body shall adopt a resolution that proposes the adoption of the fee permitted under this section. The resolution must specify an effective date for the fee which is no more than two years before the expected implementation date of the emergency services communication system to be funded by the fee. The resolution must include a provision for submitting the proposed fee to the electors of the county or city before the imposition of the fee is effective. The resolution must specify a fee that does not exceed one dollar per month per communication connection and must be applied equally upon all assessed communications services.
2. The question of the adoption of the fee must be submitted on a ballot on which the ballot title of the proposition includes the maximum monthly rate of the proposed fee authorized under subsection 1. The question of the adoption of the fee may be submitted to electors at a general, primary, or special election or at a school district election if the boundaries of the school district are coterminous with the boundaries of the governing body adopting the resolution proposing the adoption of the fee. The fee is not effective unless it is approved by a majority of the electors voting on the proposition. The ballot must be worded so that a "yes" vote authorizes imposition of the fee for an initial six-year period.
3. If the electors have approved imposition of a fee under this section before July 1, 2005, and the governing body of the city or county has not implemented that fee by June 30, 2005, the approval by the electors remains valid until the fee is implemented and, upon implementation,

<sup>272</sup> Section 57-40.6-02 was also amended by section 30 of Senate Bill No. 2324, chapter 180.

the fee may be imposed for a six-year period and is subject to reimposition under subsection 4.

4. Any political subdivision that desires to increase the fee, subject to the limitations in subsection 1, before the end of the six-year term, must use the same ballot procedure originally used to authorize the fee. The new ballot question may apply to only the proposed increase and not to the original amount or the original term. If the increase is approved, the new amount may be collected for the balance of the original six-year term. If the fee authorized by this section is approved by the electors, the fee may be reimposed for six additional years without resubmitting the question to the electors.
5. In any geographic area, only one political subdivision may impose the fee and imposition must be based on the subscriber service address.
6. In the interest of public safety, where the subscriber's telephone exchange access service boundary and the boundary of the political subdivision imposing the fee do not coincide, and where all of the political subdivisions within the subscriber's telephone exchange access service boundary have not complied with subsection 1, and where a majority of the E911 subscribers within the subscriber's telephone exchange access service boundary have voted for the fee, a telephone exchange access service subscriber whose subscriber service address is outside the political subdivision may receive E911 services by signing a contract agreement with the political subdivision providing the emergency services communication system. The telephone exchange access service provider may collect an additional fee, equal in amount to the basic fee on those subscribers within the exchange boundary. The additional fee amounts collected must be remitted as provided in this chapter.
7. A fee imposed under this section before August 1, 2007, on telephone exchange access service is extended to all assessed communications services and remains in effect until changed under this section.
8. Political subdivisions within an intrastate multicounty public safety answering point may exceed the maximum fee of one dollar to an amount not to exceed one dollar and fifty cents. The governing body of the political subdivision may increase the fee by resolution subject to a vote in that political subdivision at the next general election.

**SECTION 2. LEGISLATIVE COUNCIL STUDY - EMERGENCY SERVICES COMMUNICATION.** During the 2009-10 interim, the legislative council shall consider studying the equity of the 911 fee structure, including consideration of fees, taxes, assessments for services, equity of services, and payments among residents within service areas; fee collection methods; and current and future funding of emergency services communications in the state. The legislative council shall report its findings and recommendations, together with any legislation required to implement the recommendations, to the sixty-second legislative assembly.

**SECTION 3. EXPIRATION DATE.** Section 1 of this Act is effective through June 30, 2012, and after that date is ineffective.

**38-08-06.4. Flaring of gas restricted - Imposition of tax - Payment of royalties - Industrial commission authority.** As permitted under rules of the industrial commission, gas produced with crude oil from an oil well may be flared during a one-year period from the date of first production from the well; ~~or until June 30, 1986, for wells in production prior to July 1, 1985.~~ Thereafter, flaring of gas from the well must cease and the well must ~~either~~ be capped ~~or~~ connected to a gas gathering line, or equipped with an electrical generator that consumes at least seventy-five percent of the gas from the well. An electrical generator and its attachment units to produce electricity from gas must be considered to be personal property for all purposes. For a well operated in violation of this section, the producer shall pay royalties to royalty owners upon the value of the flared gas and shall also pay gross production tax on the flared gas at the rate imposed under section 57-51-02.2. The industrial commission may enforce this section and, for each well operator found to be in violation of this section, may determine the value of flared gas for purposes of payment of royalties under this section and its determination is final. A producer may obtain an exemption from this section from the industrial commission upon application and a showing that connection of the well to a natural gas gathering line is economically infeasible at the time of the application or in the foreseeable future or that a market for the gas is not available and that equipping the well with an electrical generator to produce electricity from gas is economically infeasible.

### HOUSE BILL NO. 1304

(Representatives Skarphol, Hatlestad, Wald)  
(Senators Lyson, Wardner)

AN ACT to amend and reenact section 57-51-15 of the North Dakota Century Code, relating to allocation of oil and gas gross production taxes; and to provide an effective date.

#### BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

<sup>274</sup> **SECTION 1. AMENDMENT.** Section 57-51-15 of the North Dakota Century Code is amended and reenacted as follows:

**57-51-15. Apportionment and use of proceeds of tax.** The gross production tax provided for in this chapter must be apportioned as follows:

1. First the tax revenue collected under this chapter equal to one percent of the gross value at the well of the oil and one-fifth of the tax on gas must be deposited with the state treasurer who shall ~~credit~~:
  - a. Credit thirty-three and one-third percent of the revenues to the oil and gas impact grant fund, but not in an amount exceeding ~~six~~ eight million dollars per biennium; ~~including any amounts otherwise appropriated for oil and gas impact grants for the biennium by the legislative assembly, and who shall credit~~;
  - b. Allocate five hundred thousand dollars per fiscal year to each city in an oil-producing county which has a population of seven thousand five hundred or more and more than two percent of its private covered employment engaged in the mining industry, according to data compiled by job service North Dakota. The allocation under this subdivision must be doubled if the city has more than seven and one-half percent of its private covered employment engaged in the mining industry, according to data compiled by job service North Dakota; and
  - c. Credit the remaining revenues to the state general fund.
2. After deduction of the amount provided in subsection 1, annual revenue collected under this chapter from oil and gas produced in each county must be allocated as follows:
  - a. The first ~~one~~ two million dollars of annual revenue after the deduction of the amount provided for in subsection 1 from oil or gas produced in any county must be allocated to that the county.

---

<sup>274</sup> Section 57-51-15 was also amended by section 31 of House Bill No. 1324, chapter 545.

- b. The ~~second next~~ one million dollars of annual revenue after the deduction for the amount provided for in subsection 4 from oil and gas produced in any county must be allocated seventy-five percent to ~~that the~~ county and twenty-five percent to the state general fund.
  - c. The ~~third next~~ one million dollars of annual revenue after the deduction of the amount provided for in subsection 4 from oil or gas produced in any county must be allocated fifty percent to ~~that the~~ county and fifty percent to the state general fund. All annual revenue after the deduction of the amount provided for in subsection 4 above three million dollars from oil or gas produced in any county
  - d. The next fourteen million dollars must be allocated twenty-five percent to ~~that the~~ county and seventy-five percent to the state general fund. ~~However, the~~
  - e. All annual revenue remaining after the allocation in subdivision d must be allocated ten percent to the county and ninety percent to the state general fund.
3. The amount to which each county is entitled pursuant to this under subsection 2 must be limited based upon the population of allocated within the county according to the last official decennial federal census as follows:
- a. Counties having a population of three thousand or less shall receive no more than three million nine hundred thousand dollars for each fiscal year; however, a county may receive up to four million nine hundred thousand dollars under this subdivision for each fiscal year if during that fiscal year the county levies a total of at least ten mills for combined levies for county road and bridge, farm-to-market and federal-aid road, and county road purposes. Any amount received by a county exceeding three million nine hundred thousand dollars under this subdivision is not subject to allocation under subsection 3 but must be credited by the county treasurer to the county general fund.
  - b. Counties having a population of over three thousand but less than six thousand shall receive no more than four million one hundred thousand dollars for each fiscal year; however, a county may receive up to five million one hundred thousand dollars under this subdivision for each fiscal year if during that fiscal year the county levies a total of at least ten mills for combined levies for county road and bridge, farm-to-market and federal-aid road, and county road purposes. Any amount received by a county exceeding four million one hundred thousand dollars under this subdivision is not subject to allocation under subsection 3 but must be credited by the county treasurer to the county general fund.
  - e. Counties having a population of six thousand or more shall receive ~~no more than~~ so the first four million six hundred thousand dollars is allocated under subsection 4 for each fiscal year; however, a county may receive up to five million six hundred thousand dollars under this subdivision for each fiscal year if during that fiscal year the county levies a total of ten mills or more for combined levies for

~~county road and bridge, farm-to-market and federal-aid road, and county road purposes. Any and any amount received by a county exceeding four million six hundred thousand dollars under this subdivision is not subject to allocation under subsection 3 but must be credited by the county treasurer to the county general infrastructure fund and allocated under subsection 5.~~

~~Any allocations for any county pursuant to this subsection which exceed the applicable limitation for that county as provided in subdivisions a through e must be deposited instead in the state's general fund.~~

- ~~3- 4.~~ a. ~~Forty-five percent of all revenues as may by the legislative assembly be allocated to any county hereunder for allocation under this subsection must be credited by the county treasurer to the county general fund. However, the allocation to a county under this subdivision must be credited to the state general fund if during that fiscal year the county does not levy a total of at least ten mills for combined levies for county road and bridge, farm-to-market and federal-aid road, and county road purposes.~~
- b. ~~Thirty-five percent of all revenues allocated to any county for allocation under this subsection must be apportioned by the county treasurer no less than quarterly to school districts within the county on the average daily attendance distribution basis, as certified to the county treasurer by the county superintendent of schools. However, no school district may receive in any single academic year an amount under this subsection greater than the county average per student cost multiplied by seventy percent, then multiplied by the number of students in average daily attendance or the number of children of school age in the school census for the county, whichever is greater. Provided, however, that in any county in which the average daily attendance or the school census, whichever is greater, is fewer than four hundred, the county is entitled to one hundred twenty percent of the county average per student cost multiplied by the number of students in average daily attendance or the number of children of school age in the school census for the county, whichever is greater. Once this level has been reached through distributions under this subsection, all excess funds to which the school district would be entitled as part of its thirty-five percent share must be deposited instead in the county general fund. The county superintendent of schools of each oil-producing county shall certify to the county treasurer by July first of each year the amount to which each school district is limited pursuant to this subsection. As used in this subsection, "average daily attendance" means the average daily attendance for the school year immediately preceding the certification by the county superintendent of schools required by this subsection.~~

The countywide allocation to school districts under this subdivision is subject to the following:

- (1) The first three hundred fifty thousand dollars is apportioned entirely among school districts in the county.

- (2) The next three hundred fifty thousand dollars is apportioned seventy-five percent among school districts in the county and twenty-five percent to the county infrastructure fund.
  - (3) The next two hundred sixty-two thousand five hundred dollars is apportioned two-thirds among school districts in the county and one-third to the county infrastructure fund.
  - (4) The next one hundred seventy-five thousand dollars is apportioned fifty percent among school districts in the county and fifty percent to the county infrastructure fund.
  - (5) Any remaining amount is apportioned to the county infrastructure fund except from that remaining amount the following amounts are apportioned among school districts in the county:
    - (a) Four hundred ninety thousand dollars, for counties having a population of three thousand or fewer.
    - (b) Five hundred sixty thousand dollars, for counties having a population of more than three thousand and fewer than six thousand.
    - (c) Seven hundred thirty-five thousand dollars, for counties having a population of six thousand or more.
- c. Twenty percent of all revenues allocated to any county hereunder for allocation under this subsection must be ~~paid~~ apportioned no less than quarterly by the state treasurer to the incorporated cities of the county. Apportionment among cities under this subsection must be based upon the population of each incorporated city according to the last official decennial federal census. A city may not receive an allocation for a fiscal year under this subsection and subsection 5 which totals more than seven hundred fifty dollars per capita. Once this level has been reached through distributions under this subsection, all excess funds to which any city would be entitled except for this limitation must be deposited instead in that county's general fund. ~~Provided, however, that in~~ In determining the population of any city in which total employment increases by more than two hundred percent seasonally due to tourism, the population of that city for purposes of determining the per capita limitation ~~in this section subdivision~~ must be increased by adding to the population of the city as determined by the last official decennial federal census a number to be determined as follows:
- a. Seasonal employees of state and federal tourist facilities within five miles [8.05 kilometers] of the city must be included by adding the months all such employees were employed during the prior year and dividing by twelve.
  - b. Seasonal employees of all private tourist facilities within the city and seasonal employees employed by the city must be included by adding the months all such employees were employed during the prior year and dividing by twelve.

- e. The number of visitors to the tourist attraction within the city or within five miles [8.05 kilometers] of the city which draws the largest number of visitors annually must be included by taking the smaller of either of the following:
- (1) The total number of visitors to that tourist attraction the prior year divided by three hundred sixty-five; or
  - (2) Four hundred twenty eight hundred percent. If a city receives a direct allocation under subsection 1, the allocation to that city under this subsection is limited to sixty percent of the amount otherwise determined for that city under this subsection and the amount exceeding this limitation must be reallocated among the other cities in the county.
5. a. Forty-five percent of all revenues allocated to a county infrastructure fund under subsections 3 and 4 must be credited by the county treasurer to the county general fund. However, the allocation to a county under this subdivision must be credited to the state general fund if during that fiscal year the county does not levy a total of at least ten mills for combined levies for county road and bridge, farm-to-market and federal aid road, and county road purposes.
- b. Thirty-five percent of all revenues allocated to the county infrastructure fund under subsections 3 and 4 must be allocated by the board of county commissioners to or for the benefit of the townships in the county on the basis of applications by townships for funding to offset oil and gas development impact to township roads or other infrastructure needs or applications by school districts for repair or replacement of school district vehicles necessitated by damage or deterioration attributable to travel on oil and gas development-impacted roads. An organized township is not eligible for an allocation of funds under this subdivision unless during that fiscal year that township levies at least ten mills for township purposes. For unorganized townships within the county, the board of county commissioners may expend an appropriate portion of revenues under this subdivision to offset oil and gas development impact to township roads or other infrastructure needs in those townships. The amount deposited during each calendar year in the county infrastructure fund which is designated for allocation under this subdivision and which is unexpended and unobligated at the end of the calendar year must be transferred by the county treasurer to the county road and bridge fund for use on county road and bridge projects.
- c. Twenty percent of all revenues allocated to any county infrastructure fund under subsections 3 and 4 must be allocated by the county treasurer no less than quarterly to the incorporated cities of the county. Apportionment among cities under this subsection must be based upon the population of each incorporated city according to the last official decennial federal census. A city may not receive an allocation for a fiscal year under this subsection and subsection 4 which totals more than seven hundred fifty dollars per capita. Once this per capita limitation has been reached, all excess funds to which a city would otherwise be

entitled must be deposited instead in that county's general fund. If a city receives a direct allocation under subsection 1, the allocation to that city under this subsection is limited to sixty percent of the amount otherwise determined for that city under this subsection and the amount exceeding this limitation must be reallocated among the other cities in the county.

6. Within sixty days after the end of each fiscal year, the board of county commissioners of each county that has received an allocation under this section shall file a report for the fiscal year with the tax commissioner, in a format prescribed by the tax commissioner, showing:
- a. The amount received by the county in its own behalf, the amount of those funds expended for each purpose to which funds were devoted, and the share of county property tax revenue expended for each of those purposes, and the amount of those funds unexpended at the end of the fiscal year; and
  - b. The amount available in the county infrastructure fund for allocation to or for the benefit of townships or school districts, the amount allocated to each organized township or school district and the amount expended from each such allocation by that township or school district, the amount expended by the board of county commissioners on behalf of each unorganized township for which an expenditure was made, and the amount available for allocation to or for the benefit of townships or school districts which remained unexpended at the end of the fiscal year.

Within sixty days after the time when reports under this subsection were due, the tax commissioner shall provide a report to the legislative council compiling the information from reports received under this subsection.

In developing the format for reports under this subsection, the tax commissioner shall consult the energy development impact office and at least two county auditors from oil-producing counties.

the practice and procedure used by the commission at the time the project is certified.

- (2) For purposes of determining the exemption provided for in subdivision a and with respect to a unit where a secondary recovery project was in existence prior to July 1, 1991, and where the industrial commission cannot establish an accurate production decline curve, incremental production means the difference between the total amount of oil produced from the unit during a new secondary recovery project and the amount of production which would be equivalent to the average monthly production from the unit during the most recent twelve months of normal production reduced by a production decline rate of ten percent for each year. The industrial commission shall determine the average monthly production from the unit during the most recent twelve months of normal production and must upon request or upon its own motion hold a hearing to make this determination. For purposes of this paragraph, when determining the most recent twelve months of normal production the industrial commission is not required to use twelve consecutive months. In addition, the production decline rate of ten percent must be applied from the last month in the twelve-month period of time.
- (3) For purposes of determining the exemption provided for in subdivision a and with respect to a unit where a secondary recovery project was in existence before July 1, 1991, and where the industrial commission can establish an accurate production decline curve, incremental production means the difference between the total amount of oil produced from the unit during the new secondary recovery project and the total amount of oil that would have been produced from the unit if the new secondary recovery project had not been commenced. For purposes of this paragraph, the total amount of oil that would have been produced from the unit if the new secondary recovery project had not been commenced includes both primary production and production that occurred as a result of the secondary recovery project that was in existence before July 1, 1991. The industrial commission shall determine the amount of oil that would have been produced from the unit if the new secondary recovery project had not been commenced in a manner that conforms to the practice and procedure used by the commission at the time the new secondary recovery project is certified.
- (4) For purposes of determining the exemption provided for in subdivision b and with respect to a unit where there has not been a secondary recovery project, incremental production means the difference between the total amount of oil produced from the unit during the tertiary recovery project and the amount of primary production from the unit. For purposes of this paragraph, primary production means the amount of oil which would have been produced from the unit if the tertiary recovery project had not been commenced.

The industrial commission shall determine the amount of primary production in a manner which conforms to the practice and procedure used by the commission at the time the project is certified.

- (5) For purposes of determining the exemption provided for in subdivision b and with respect to a unit where there is or has been a secondary recovery project, incremental production means the difference between the total amount of oil produced during the tertiary recovery project and the amount of production which would be equivalent to the average monthly production from the unit during the most recent twelve months of normal production reduced by a production decline rate of ten percent for each year. The industrial commission shall determine the average monthly production from the unit during the most recent twelve months of normal production and must upon request or upon its own motion hold a hearing to make this determination. For purposes of this paragraph, when determining the most recent twelve months of normal production the industrial commission is not required to use twelve consecutive months. In addition, the production decline rate of ten percent must be applied from the last month in the twelve-month period of time.
  - (6) For purposes of determining the exemption provided for in subdivision b and with respect to a unit where there is or has been a secondary recovery project and where the industrial commission can establish an accurate production decline curve, incremental production means the difference between the total amount of oil produced from the unit during the tertiary recovery project and the total amount of oil that would have been produced from the unit if the tertiary recovery project had not been commenced. For purposes of this paragraph, the total amount of oil that would have been produced from the unit if the tertiary recovery project had not been commenced includes both primary production and production that occurred as a result of any secondary recovery project. The industrial commission shall determine the amount of oil that would have been produced from the unit if the tertiary recovery project had not been commenced in a manner that conforms to the practice and procedure used by the commission at the time the tertiary recovery project is certified.
- d. The industrial commission shall adopt rules relating to this exemption that must include procedures for determining incremental production as defined in subdivision c.

AN ACT to amend and reenact subsection 9 of section 57-51.1-03 of the North Dakota Century Code, relating to an oil extraction tax rate reduction for horizontal wells; to provide an effective date; to provide an expiration date; and to declare an emergency.

**BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:**

<sup>276</sup> **SECTION 1. AMENDMENT.** Subsection 9 of section 57-51.1-03 of the North Dakota Century Code is amended and reenacted as follows:

9. The first seventy-five thousand barrels or the first four million five hundred thousand dollars of gross value at the well, whichever is less, of oil produced during the first eighteen months after completion, from a horizontal well drilled and completed in the Bakken formation after June 30, 2007, and before July 1, 2008 April 30, 2009, is subject to a reduced tax rate of two percent of the gross value at the well of the oil extracted under this chapter. A well eligible for a reduced tax rate under this subsection is eligible for the exemption for horizontal wells under subsection 3, if the exemption under subsection 3 is effective during all or part of the first twenty-four months after completion. The rate reduction under this subsection becomes effective on the first day of the month following a month for which the average price of a barrel of crude oil is less than fifty-five dollars. The rate reduction under this subsection becomes ineffective on the first day of the month following a month in which the average price of a barrel of crude oil exceeds seventy dollars. If the rate reduction under this subsection is effective on the date of completion of a well, the rate reduction applies to production from that well for up to eighteen months after completion, subject to the other limitations of this subsection. If the rate reduction under this subsection is ineffective on the date of completion of a well, the rate reduction under this subsection does not apply to production from that well at any time.

**SECTION 2. EFFECTIVE DATE - EXPIRATION DATE.** This Act is effective for wells drilled and completed after April 30, 2009. However, if on May 1, 2009, the exemptions under subsection 3 of section 57-51.1-03 have been reinstated, this Act does not become effective until the first day of the month when the exemptions under subsection 3 of section 57-51.1-03 become ineffective, by operation of the trigger price provision in subsection 3 of section 57-51.1-03. This Act is effective for taxable events occurring through June 30, 2012, and is thereafter ineffective.

AN ACT to create and enact a new subsection to section 57-60-01 and section 57-60-02.1 of the North Dakota Century Code, relating to a credit against privilege taxes on coal conversion facilities for carbon dioxide capture; to amend and reenact section 57-60-03 of the North Dakota Century Code, relating to measurement and recording of carbon dioxide capture; and to provide an effective date.

**BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:**

<sup>280</sup> **SECTION 1.** A new subsection to section 57-60-01 of the North Dakota Century Code is created and enacted as follows:

"Carbon dioxide capture" means removal of carbon dioxide emissions from a coal conversion facility.

- a. For electrical generating plants, carbon dioxide captured is measured using the stack emissions of carbon dioxide from the facility as reported by the continuous emission monitoring system, in compliance with environmental protection agency rules in 40 CFR 75. The percentage reduction is determined by:
- (1) Determining the total carbon dioxide produced from the facility before the capture of carbon dioxide;
  - (2) Subtracting the stack emissions of carbon dioxide from the facility; and
  - (3) Dividing the result of paragraph 2 by the result of paragraph 1 and multiplying by one hundred, which results in the percentage of carbon dioxide captured.
- b. For coal gasification facilities, the carbon dioxide captured is determined by:
- (1) Determining the total carbon input to the facility by multiplying the percentage of carbon content in the coal fed to the facility, determined from the average of coal analysis for the taxing period, times the total tons of coal fed to the facility for the taxing period.
  - (2) Determining the amount of nonemissions carbon by multiplying the percentage of carbon content in all

---

<sup>280</sup> Section 57-60-01 was also amended by section 1 of Senate Bill No. 2036, chapter 584.

hydrocarbon products, except carbon dioxide, leaving the facility times the tons of hydrocarbon products leaving the facility for the taxing period.

- (3) Subtracting the result under paragraph 2 from the result under paragraph 1 and multiplying the result times 3.667 to convert the amount of tons of carbon to tons of carbon dioxide, which results in the total tons of carbon dioxide emissions without capture.
- (4) The amount of carbon dioxide captured for the taxing period measured by a flow meter and converted to tons.
- (5) Dividing the result of paragraph 4 by the result from paragraph 3 and multiplying by one hundred, which results in the percentage of carbon dioxide captured.

**SECTION 2.** Section 57-60-02.1 of the North Dakota Century Code is created and enacted as follows:

**57-60-02.1. Carbon dioxide capture credit - Reporting requirement.** A coal conversion facility that achieves a twenty percent capture of carbon dioxide emissions during a taxable period after December 31, 2009, is entitled to a twenty percent reduction in the state general fund share of the tax imposed under section 57-60-02 during that taxable period. The facility is entitled to an additional reduction of one percent of the state general fund share of the tax imposed under section 57-60-02 for every additional two percentage points of its capture of carbon dioxide emissions. A maximum fifty percent reduction of the state general fund share of the tax imposed under section 57-60-02 is allowed for eighty percent or more capture of carbon dioxide emissions. A coal conversion facility may receive the reduction in coal conversion tax under this section for ten years from the date of first capture of carbon dioxide emission or for ten years from the date the coal conversion facility is eligible to receive the credit.

The operator of a coal conversion facility that receives a credit under this section shall report annually to the legislative council. The report must include:

1. An overview of the carbon dioxide capture project.
2. A status report on the current state of the carbon dioxide capture project, including data on the amount of carbon dioxide produced from the facility before the carbon dioxide capture project and the current carbon dioxide produced and captured from the facility.
3. Any recent changes to enhance the carbon dioxide capture system.
4. Information on the status of federal law and regulations related to the carbon dioxide capture project, including any benefits from the project realized by the operator under federal law and regulations.

**SECTION 3. AMENDMENT.** Section 57-60-03 of the North Dakota Century Code is amended and reenacted as follows:

**57-60-03. Measurement and recording of synthetic natural gas, byproducts, beneficiated coal, or electricity produced and carbon dioxide capture.** The production of synthetic natural gas, byproducts, beneficiated coal, or

electrical power and data necessary to determine the amount of carbon dioxide captured must be measured at the place of production or generation, and any person subject to the imposition of the taxes provided by this chapter shall maintain devices to measure and record the cumulative periodic totals of synthetic natural gas, byproducts, beneficiated coal, and electrical power generated and data necessary to determine the amount of carbon dioxide captured. Any person subject to the taxes imposed by this chapter shall maintain accurate records of the daily and monthly totals of synthetic natural gas, beneficiated coal, and electrical power generated and subject to such taxes and data necessary to determine the amount of carbon dioxide captured. On or before October first of each year, the operator of any coal gasification plant shall file a report with the state health officer listing the quantity of byproducts produced during the year ending June thirtieth of that year. The commissioner shall have access to such records at reasonable times and places.

**BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:**

<sup>281</sup> **SECTION 1. AMENDMENT.** Subsection 11 of section 57-60-01 of the North Dakota Century Code is amended and reenacted as follows:

11. "Repowering" means an investment of more than two hundred million dollars or one million dollars per megawatt of installed nameplate capacity, whichever is less, in an existing power plant that modifies or replaces the process used for converting coal ~~from~~ in its natural form or beneficiated coal into electric power.

**SECTION 2. AMENDMENT.** Subsection 2 of section 57-60-02 of the North Dakota Century Code is amended and reenacted as follows:

2. For electrical generating plants, the tax is at a rate of sixty-five one-hundredths of one mill times sixty percent of the installed capacity of each unit times the number of hours in the taxable period. All electrical energy generating ~~plants~~ units that begin construction or complete repowering are exempt from eighty-five percent of the tax imposed by this subsection for five years from the date of the first taxable production or from the date of the first taxable production after repowering from the ~~plant~~ unit. The board of county commissioners may, by resolution, grant to the operator of an electrical generating plant located within the county partial or complete exemption from the remaining fifteen percent of the tax imposed by this subsection for a period not exceeding five years from the date of the first taxable production or from the date of the first taxable production after repowering from the ~~plant~~ unit. If a board of county commissioners grants a partial or complete exemption for a specific coal conversion facility under this subsection, the provisions of subsection 2 of section 57-60-14 do not apply as that subsection relates to revenue from the specific unit of the coal conversion facility for which the partial or complete exemption has been granted. Notwithstanding section 57-60-14, any tax collected from a ~~plant~~ unit subject to the exemption provided by this subsection must be allocated entirely to the county for allocation as provided in section 57-60-15. AN ACT to amend and reenact subdivision b of subsection 2 of section 57-62-02 of the North Dakota Century Code, relating to allocation of money in the coal development fund.

**BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:**

<sup>282</sup> **SECTION 1. AMENDMENT.** Subdivision b of subsection 2 of section 57-62-02 of the North Dakota Century Code is amended and reenacted as follows:

- b. If the tipple of a currently active coal mining operation in a county is within fifteen miles [24.14 kilometers] of another county in which no coal is mined, the revenue from the production not exceeding the production limitation in a calendar year which is apportioned from that coal mining operation according to this subsection must be allocated, subject to the definitions of terms and the requirements in paragraph 4, as provided in this subdivision. For purposes of this subdivision, the production limitation is three million eight hundred thousand tons [3447302.02 metric tons] through calendar year 1995, three million six hundred thousand tons [3265865.07 metric tons] in calendar years 1996 and 1997, and three million four hundred thousand tons [3084428.12 metric tons] in calendar years after 1997. Revenue from production exceeding the production limitation in a calendar year from that coal mining operation must be allocated only within the coal-producing county under subdivision a. Allocations under this subdivision must be made as follows:
  - (1) Thirty percent must be paid by the state treasurer to the incorporated cities of the coal-producing county and to any city of a non-coal-producing county when any portion of the city lies within fifteen miles [24.14 kilometers] of the tipple of the currently active coal mining operation in the coal-producing county, based upon the population of each incorporated city according to the last official regular or special federal census or the census taken in accordance with the provisions of chapter 40-02 in case of a city incorporated subsequent to such census.
  - (2) Forty percent must be divided by the state treasurer between the general fund of the coal-producing county and the general fund of any non-coal-producing county when any portion of the latter county lies within fifteen miles [24.14

kilometers] of the tippel of the currently active coal mining operation in the coal-producing county. The non-coal-producing county portion must be based upon the ratio which the assessed valuation of all quarter sections of land in that county, any portion of which lies within fifteen miles [24.14 kilometers] of the tippel of the currently active coal mining operation, bears to the combined assessed valuations of all land in the coal-producing county and the quarter sections of land in the non-coal-producing county within fifteen miles [24.14 kilometers] of the tippel of the currently active coal mining operation. The county director of tax equalization of the coal-producing county shall certify to the state treasurer the number of quarter sections of land in the non-coal-producing counties which lie at least in part within fifteen miles [24.14 kilometers] of the tippel of the currently active coal mining operation and their assessed valuations.

- (3) Thirty percent must be apportioned by the state treasurer to school districts within the coal-producing county and to school districts in adjoining non-coal-producing counties when a portion of those school districts' land includes any of the quarter sections of land certified by the director of tax equalization to the state treasurer to be eligible to share county funds as provided for in paragraph 2. The county superintendent of the non-coal-producing counties shall certify to the state treasurer the number of students actually residing on these quarter sections lying outside the coal-producing county and each school district in non-coal-producing counties shall receive a portion of the money under this paragraph based upon the ratio of the number of children residing on quarter sections of that school district within the fifteen-mile [24.14-kilometer] radius of the tippel of a currently active coal mining operation to the total number of schoolchildren from the coal-producing county combined with all the schoolchildren certified to be living on quarter sections within fifteen miles [24.14 kilometers] of the tippel of the currently active coal mining operation in the coal-producing county.
- (4) For the purposes of this ~~subsection~~ subdivision:
  - (a) The terms "currently active coal mining operation in a county", "currently active coal mining operation in the coal-producing county", and "currently active coal mining operation" mean a coal mining operation that produced more than one hundred fifty thousand tons [136077.71 metric tons] of coal in a coal-producing county during the prior quarterly period.
  - (b) The term "coal-producing county" means a county in which more than one hundred fifty thousand tons [136077.71 metric tons] of coal were mined in the prior quarterly period.

- (c) The term "another county in which no coal is mined" means a county in which not more than seventy-five thousand tons [68038.86 metric tons] of coal were mined in the prior quarterly period.
- (d) The terms "non-coal-producing county" and "non-coal-producing counties" mean any county in which not more than seventy-five thousand tons [68038.86 metric tons] of coal were mined in the prior quarterly period.
- (e) In computing each amount to be paid as provided in paragraph 1, 2, or 3 for coal severance tax revenue from coal mined during a monthly period, the state treasurer shall deduct from the allocation the amount of coal severance tax revenue, if any, that the governmental body in the non-coal-producing county received from the coal mined in the non-coal-producing county during the same monthly period.

3. If no part of a payment is characterized as interest, a dividend, or an equivalent payment, and all or part of the payment is required to be made, a trustee shall allocate to income ten percent of the part that is required to be made during the accounting period and the balance to principal. If no part of a payment is required to be made or the payment received is the entire amount to which the trustee is entitled, the trustee shall allocate the entire payment to principal. For purposes of this subsection, a payment is not "required to be made" to the extent that it is made because the trustee exercises a right of withdrawal.
4. ~~If, to obtain an estate tax marital deduction for a trust, a trustee must allocate more of a payment to income than provided for by this section;~~

the trustee shall allocate to income the additional amount necessary to obtain the marital deduction. Except as otherwise provided in subsection 5, subsections 6 and 7 apply, and subsections 2 and 3 do not apply, in determining the allocation of a payment made from a separate fund to a trust to which an election to qualify for marital deduction under section 2056(b)(7) of the Internal Revenue Code of 1986, as amended, has been made or to a trust that qualified for the marital deduction under section 2056(b)(5) of the Internal Revenue Code of 1986, as amended.

5. Subsections 4, 6, and 7 do not apply if and to the extent that the series of payments would, without application of subsection 4, qualify for the marital deduction under section 2056(b)(7)(C) of the Internal Revenue Code of 1986, as amended.
6. A trustee shall determine the internal income of each separate fund for the accounting period as if the separate fund were a trust subject to this chapter. Upon request of the surviving spouse, the trustee shall demand of the persons administering the separate fund that this internal income be distributed to the trust. The trustee shall allocate a payment from the separate fund to income to the extent of the internal income of the separate fund and distribute that amount to the surviving spouse. The trustee shall allocate the balance to principal. Upon request of the surviving spouse, the trustee shall allocate principal to income to the extent the internal income of the separate fund exceeds payments made from the separate fund to the trust during the accounting period.
7. If a trustee cannot determine the internal income of a separate fund but can determine the value of a separate fund, the internal income of the separate fund is deemed to equal four percent of the fund's value, according to the most recent statement of value preceding the beginning of the accounting period. If the trustee can determine neither the internal income of the separate fund nor the fund's value, the internal income of the fund is deemed to equal the product of the interest rate and the present value of the expected future payments, as determined under section 7520 of the Internal Revenue Code of 1986, as amended, for the month preceding the accounting period for which the computation is made.
8. This section does not apply to ~~payments~~ a payment to which section 59-04.2-18 applies.

**SECTION 2. AMENDMENT.** Section 59-04.2-28 of the North Dakota Century Code is amended and reenacted as follows:

**59-04.2-28. (505) Income taxes.**

1. A tax required to be paid by a trustee based on receipts allocated to income must be paid from income.
2. A tax required to be paid by a trustee based on receipts allocated to principal must be paid from principal, even if the tax is called an income tax by the taxing authority.
3. A tax required to be paid by a trustee on the trust's share of an entity's taxable income must be paid ~~proportionately~~:

- a. From income to the extent that receipts from the entity are allocated to income;:
  - b. From principal to the extent that:
    - (1) ~~Receipts~~ receipts from the entity are allocated only to principal; ~~and~~
    - (2) ~~The trust's share of the entity's taxable income exceeds the total receipts described in subdivision a and paragraph 4 of this subdivision.~~
  - c. Proportionately from principal and income to the extent that receipts from the entity are allocated to both income and principal; and
  - d. From principal to the extent that the tax exceeds the total receipts from the entity.
4. For purposes of this section, receipts allocated to principal or income must be reduced by the amount distributed to a beneficiary from principal or income for which the trust receives a deduction in calculating the tax. After applying subsections 1 through 3, the trustee shall adjust income or principal receipts to the extent that the trust's taxes are reduced because the trust receives a deduction for payments made to a beneficiary.

**CHAPTER 589****HOUSE BILL NO. 1074**

(Government and Veterans Affairs Committee)  
(At the request of the Commission on Uniform State Laws)

AN ACT to adopt the Uniform Prudent Management of Institutional Funds Act; and to repeal chapter 15-67 of the North Dakota Century Code, relating to the Uniform Management of Institutional Funds Act; and to declare an emergency.

**BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:****SECTION 1. Definitions.** In this chapter:

1. "Charitable purpose" means the relief of poverty, the advancement of education, the advancement of religion, the promotion of health, or any other purpose the achievement of which is beneficial to the community.
2. "Endowment fund" means an institutional fund or part thereof that, under the terms of a gift instrument, is not wholly expendable by the institution on a current basis. The term does not include assets that an institution designates as an endowment fund for its own use.
3. "Gift instrument" means a record, including an institutional solicitation, under which property is granted to, transferred to, or held by an institution as an institutional fund.
4. "Institution" means:
  - a. A person, other than an individual, organized and operated exclusively for charitable purposes;
  - b. A government or governmental entity, to the extent that it holds funds exclusively for a charitable purpose; or
  - c. A trust that had both charitable and noncharitable interests, after all noncharitable interests have terminated.
5. "Institutional fund" means a fund held by an institution exclusively for charitable purposes. The term does not include:
  - a. Program-related assets;
  - b. A fund held for an institution by a trustee that is not an institution;
  - c. A fund in which a beneficiary that is not an institution has an interest, other than an interest that could arise upon violation or failure of the purposes of the fund; or
  - d. Perpetual trust funds established by article IX of the Constitution of North Dakota.

6. "Program-related asset" means an asset held by an institution primarily to accomplish a charitable purpose of the institution and not primarily for investment.
7. "Record" means information that is inscribed on a tangible medium or that is stored in an electronic or other medium and is retrievable in perceivable form.

**SECTION 2. Standard of conduct in managing and investing institutional fund.**

1. Subject to the intent of a donor expressed in a gift instrument, an institution, in managing and investing an institutional fund, shall consider the charitable purposes of the institution and the purposes of the institutional fund.
2. In addition to complying with the duty of loyalty imposed by law other than this chapter, each person responsible for managing and investing an institutional fund shall manage and invest the fund in good faith and with the care an ordinarily prudent person in a like position would exercise under similar circumstances.
3. In managing and investing an institutional fund, an institution:
  - a. May incur only costs that are appropriate and reasonable in relation to the assets, the purposes of the institution, and the skills available to the institution; and
  - b. Shall make a reasonable effort to verify facts relevant to the management and investment of the fund.
4. An institution may pool two or more institutional funds for purposes of management and investment.
5. Except as otherwise provided by a gift instrument, the following rules apply:
  - a. In managing and investing an institutional fund, the following factors, if relevant, must be considered:
    - (1) General economic conditions;
    - (2) The possible effect of inflation or deflation;
    - (3) The expected tax consequences, if any, of investment decisions or strategies;
    - (4) The role that each investment or course of action plays within the overall investment portfolio of the fund;
    - (5) The expected total return from income and the appreciation of investments;
    - (6) Other resources of the institution;

- (7) The needs of the institution and the fund to make distributions and to preserve capital; and
  - (8) An asset's special relationship or special value, if any, to the charitable purposes of the institution.
- b. Management and investment decisions about an individual asset must be made not in isolation but rather in the context of the institutional fund's portfolio of investments as a whole and as a part of an overall investment strategy having risk and return objectives reasonably suited to the fund and to the institution.
  - c. Except as otherwise provided by law other than this chapter, an institution may invest in any kind of property or type of investment consistent with this section.
  - d. An institution shall diversify the investments of an institutional fund unless the institution reasonably determines that, because of special circumstances, the purposes of the fund are better-served without diversification.
  - e. Within a reasonable time after receiving property, an institution shall make and carry out decisions concerning the retention or disposition of the property or to rebalance a portfolio, in order to bring the institutional fund into compliance with the purposes, terms, and distribution requirements of the institution as necessary to meet other circumstances of the institution and the requirements of this chapter.
  - f. A person that has special skills or expertise, or is selected in reliance upon the person's representation that the person has special skills or expertise, has a duty to use those skills or that expertise in managing and investing institutional funds.

**SECTION 3. Appropriation for expenditure or accumulation of endowment fund - Rules of construction.**

1. Subject to the intent of a donor, as expressed in the gift instrument and subject to subsection 4, an institution may appropriate for expenditure or accumulate so much of an endowment fund as the institution determines is prudent for the uses, benefits, purposes, and duration for which the endowment fund is established. Unless stated otherwise in the gift instrument, the assets in an endowment fund are donor-restricted assets until appropriated for expenditure by the institution. In making a determination to appropriate or accumulate, the institution shall act in good faith, with the care that an ordinarily prudent person in a like position would exercise under similar circumstances, and shall consider, if relevant, the following factors:
  - a. The duration and preservation of the endowment fund;
  - b. The purposes of the institution and the endowment fund;
  - c. General economic conditions;
  - d. The possible effect of inflation or deflation;

- e. The expected total return from income and the appreciation of investments;
  - f. Other resources of the institution; and
  - g. The investment policy of the institution.
2. To limit the authority to appropriate for expenditure or accumulate under subsection 1, a gift instrument specifically must state the limitation.
3. Terms in a gift instrument designating a gift as an endowment, or a direction or authorization in the gift instrument to use only "income", "interest", "dividends", or "rents, issues, or profits", or "to preserve the principal intact", or words of similar import create an endowment fund of permanent duration unless other language in the gift instrument limits the duration or purpose of the fund and do not otherwise limit the authority to appropriate for expenditure or accumulate under subsection 1.
4. The appropriation for expenditure in any year of an amount greater than seven percent of the fair market value of an endowment fund, calculated on the basis of market values determined at least quarterly and averaged over a period of not less than three years immediately preceding the year in which the appropriation for expenditure is made, creates a rebuttable presumption of imprudence. For an endowment fund in existence for fewer than three years, the fair market value of the endowment fund must be calculated for the period the endowment fund has been in existence. This subsection does not:
- a. Apply to an appropriation for expenditure permitted under law other than this chapter or by the gift instrument; or
  - b. Create a presumption of prudence for an appropriation for expenditure of an amount less than or equal to seven percent of the fair market value of the endowment fund.

#### **SECTION 4. Management and investment functions - Delegation.**

1. Except as otherwise provided in a gift instrument or by law other than this chapter, an institution may delegate to an external agent the management and investment of an institutional fund to the extent that an institution could prudently delegate under the circumstances. An institution shall act in good faith, with the care that an ordinarily prudent person in a like position would exercise under similar circumstances, in:
- a. Selecting an agent;
  - b. Establishing the scope and terms of the delegation, consistent with the purposes of the institution and the institutional fund; and
  - c. Periodically reviewing the agent's actions in order to monitor the agent's performance and compliance with the scope and terms of the delegation.

2. In performing a delegated function, an agent owes a duty to the institution to exercise reasonable care to comply with the scope and terms of the delegation.
3. An institution that complies with subsection 1 is not liable for the decisions or actions of an agent to which the function was delegated.
4. By accepting delegation of a management or investment function from an institution that is subject to the laws of this state, an agent submits to the jurisdiction of the courts of this state in all proceedings arising from or related to the delegation or the performance of the delegated function.
5. An institution may delegate management and investment functions to its committees, officers, or employees as authorized by law.

**SECTION 5. Release or modification of restrictions on management, investment, or purpose.**

1. If the donor consents in a record, an institution may release or modify, in whole or in part, a restriction contained in a gift instrument on the management, investment, or purpose of an institutional fund. A release or modification may not allow a fund to be used for a purpose other than a charitable purpose of the institution.
2. The court, upon application of an institution, may modify a restriction contained in a gift instrument regarding the management or investment of an institutional fund if the restriction has become impracticable or wasteful, if it impairs the management or investment of the fund, or if, because of circumstances not anticipated by the donor, a modification of a restriction will further the purposes of the fund. The institution shall notify the attorney general of the application. The court shall provide the attorney general with the opportunity to be heard. To the extent practicable, any modification must be made in accordance with the donor's probable intention.
3. If a particular charitable purpose or a restriction contained in a gift instrument on the use of an institutional fund becomes unlawful, impracticable, impossible to achieve, or wasteful, the court, upon application of an institution, may modify the purpose of the fund or the restriction on the use of the fund in a manner consistent with the charitable purposes expressed in the gift instrument. The institution shall notify the attorney general of the application, and the court shall provide the attorney general with the opportunity to be heard.
4. If an institution determines that a restriction contained in a gift instrument on the management, investment, or purpose of an institutional fund is unlawful, impracticable, impossible to achieve, or wasteful, the institution, sixty days after notification to the attorney general, may release or modify the restriction, in whole or part, if:
  - a. The institutional fund subject to the restriction has a total value of less than twenty-five thousand dollars;
  - b. More than twenty years have elapsed since the fund was established; and

- c. The institution uses the property in a manner consistent with the charitable purposes expressed in the gift instrument.

**SECTION 6. Compliance - Determination.** Compliance with this chapter is determined in light of the facts and circumstances existing at the time a decision is made or at the time action is taken, and not by hindsight.

**SECTION 7. Application to existing institutional funds.** This chapter applies to institutional funds existing on or established after the effective date of this Act. As applied to institutional funds existing on the effective date of this Act, this chapter governs only decisions made or actions taken on or after that date.

**SECTION 8. Relation to Electronic Signatures in Global and National Commerce Act.** This chapter modifies, limits, and supersedes the Electronic Signatures in Global and National Commerce Act [15 U.S.C. 7001 et seq.] but does not modify, limit, or supersede section 7001(a) of that Act, or authorize electronic delivery of any of the notices described in section 7003(b) of that Act.

**SECTION 9. REPEAL.** Chapter 15-67 of the North Dakota Century Code is repealed.

**SECTION 10. EMERGENCY.** This Act is declared to be an emergency measure.

1. **Bonds as legal investments and security.** Notwithstanding any other provision of law, the state and all public officers, boards, and agencies, and political subdivisions and agencies of the state, all national banking associations, state banks, trust companies, savings banks and institutions, savings and loan associations, credit unions, investment companies, insurance companies, and other persons carrying on an investment business, and all executors, administrators, guardians, trustees, and other fiduciaries, may legally invest any sinking funds, moneys, or other funds belonging to them or within their control in any bonds issued under this chapter, and the bonds are authorized security for all public deposits.

**SECTION 5. AMENDMENT.** Section 61-39-01 of the North Dakota Century Code is amended and reenacted as follows:

**61-39-01. Findings and declaration of policy.** The legislative assembly declares that many areas and localities in eastern North Dakota do not enjoy adequate quantities of high-quality drinking water; that other areas and localities in eastern North Dakota do not have sufficient quantities of water to ensure a dependable, long-term supply; that greater economic security and the protection of health and property benefits the land and water resources of this state; and that the promotion of the prosperity and general welfare of all of the people of this state depend on the effective development and utilization of the land and water resources of this state and necessitates and requires the exercise of the sovereign powers of this state and concern a public purpose. To accomplish this public purpose, it is

declared necessary that a water authority to store and distribute water to eastern North Dakota be established to provide for the supply and distribution of water to the people of eastern North Dakota for purposes, including domestic, rural water, municipal, livestock, light industrial, and other uses, with primary emphasis on domestic, rural water, and municipal uses; and provide for the future economic welfare and prosperity of the people of this state, and particularly the people of eastern North Dakota, by the bulk purchase of water from the Garrison Diversion Conservancy District delivered by the Red River valley water supply project for beneficial and public uses. The Garrison Diversion Conservancy District may acquire, construct, improve, and own the Red River valley water supply project and may enter water supply contracts with member cities and water districts for the sale of water for consumption within or outside the district or the state. Alternatively, the Lake Agassiz water authority may enter one or more contracts to provide for the authority to acquire bulk water from the Garrison Diversion Conservancy District and may enter water supply contracts with member cities and water districts for the resale of this water for consumption within or outside the state.

The legislative assembly acknowledges that North Dakota and Minnesota communities jointly use the Red River as a water resource. It is in the best interest of eastern North Dakota also to study and possibly provide for the water needs of those Minnesota communities through a Red River valley water supply project, particularly if that project maintains the use of the Red River for North Dakota communities.

In furtherance of this public purpose, the state water commission may provide for the issuance of bonds in accordance with chapter 61-02 to finance the costs of any project to deliver water to eastern North Dakota. This chapter does not abrogate or limit the rights, powers, duties, and functions of the state water commission or state engineer, but is supplementary to those rights, powers, duties, and functions.

**SECTION 6. AMENDMENT.** Section 61-39-03 of the North Dakota Century Code is amended and reenacted as follows:

**61-39-03. Lake Agassiz water authority - Board of directors.** The authority must be governed by a board of directors selected as follows:

1. One member from a city with a population greater than forty thousand located east of state highway 1 and north of state highway 200.
2. One member from a city with a population greater than forty thousand located east of state highway 1 and south of state highway 200.
3. One member from a city with a population of five thousand but not more than forty thousand located east of state highway 1.
4. One member from a city with a population of less than five thousand located east of state highway 1.
5. Two members from water districts located east of state highway 1 and north of state highway 200.
6. Two members from water districts located east of state highway 1 and south of state highway 200.
7. One member from water districts located east of state highway 1.

8. One member from a Minnesota city with a population of more than thirty thousand and which is located within five miles [8.05 kilometers] of this state.

North Dakota city members must be selected for two-year terms by election by cities located east of state highway 1 during the annual meeting of the North Dakota league of cities in every odd-numbered year beginning in 2003. Water district members must be selected for two-year terms by election by water districts located east of state highway 1 during the annual meeting of the North Dakota rural water systems association in every even-numbered year beginning in 2004. The initial selection of members must be at a meeting held by the board of directors of the North Dakota league of cities and by the board of directors of the North Dakota rural water systems association. The initial city members shall serve until the annual meeting of the North Dakota league of cities in 2003 and the initial water district members shall serve until the annual meeting of the North Dakota rural water systems association in 2004. The initial Minnesota city is Moorhead, as it is an associate member of the authority. Moorhead will serve in this capacity until the league of Minnesota cities annual conference in 2006. During even-numbered years thereafter, Minnesota cities within five miles [8.05 kilometers] of the Red River or that use the Red River as a primary water supply may elect their representative. A member may designate an alternate to attend meetings and to act on the member's behalf. The board of directors may designate associate members who are nonvoting members of the board. Notwithstanding the provisions of this section, within two years of the first delivery of water by the Red River valley water supply project, board members must be from a city or water district that has entered a water service contract with the Lake Agassiz water authority or the Garrison Diversion Conservancy District.

## CHAPTER 619

### HOUSE BILL NO. 1101

(Industry, Business and Labor Committee)  
(At the request of Workforce Safety and Insurance)

AN ACT to amend and reenact subsection 10 of section 65-05-08, sections 65-05-08.2, 65-05-09, and 65-05-10, subsection 4 of section 65-05-15, and sections 65-05-17 and 65-05-26 of the North Dakota Century Code, relating to workers' compensation dependency allowances, preacceptance disability benefits, maximum disability benefits, travel and other reimbursement, death benefits, and burial expenses; and to provide for application.

#### BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

**SECTION 1. AMENDMENT.** Subsection 10 of section 65-05-08 of the North Dakota Century Code is amended and reenacted as follows:

10. The organization shall pay to an employee receiving disability benefits a dependency allowance for each child of the employee at the rate of ~~ten~~ fifteen dollars per week per child. ~~Effective July 1, 1989, this rate must be paid to each eligible employee regardless of the date of injury.~~

**SECTION 2. AMENDMENT.** Section 65-05-08.2 of the North Dakota Century Code is amended and reenacted as follows:

**65-05-08.2. Preacceptance disability benefits.** If, after receiving a claim for benefits, the organization determines that more information is needed to process the claim, but that the information in the file indicates the injured employee is more likely than not entitled to disability benefits, the organization may pay preacceptance disability benefits equal to the ~~minimum~~ weekly disability benefit allowed under section 65-05-09. The organization may continue to pay preacceptance disability benefits to the employee during the period the claim is pending, unless the injured employee is not cooperating with requests from the organization for additional information needed to process the claim. The organization may not pay more than sixty days of preacceptance benefits. The organization may only recover a payment made to an injured employee under this section if that recovery is allowed under section 65-05-33. There is no appeal from an organization decision not to pay preacceptance disability benefits.

<sup>297</sup> **SECTION 3. AMENDMENT.** Section 65-05-09 of the North Dakota Century Code is amended and reenacted as follows:

**65-05-09. Temporary total or permanent total disability - Weekly and aggregate benefit.** If an injury causes temporary total or permanent total disability, the fund shall pay to the disabled employee during that disability a weekly benefit equal to sixty-six and two-thirds percent of the gross weekly wage of the employee,

---

<sup>297</sup> Section 65-05-09 was also amended by section 1 of House Bill No. 1064, chapter 621.

subject to a minimum of sixty percent and a maximum of one hundred ~~ten~~ twenty-five percent of the average weekly wage in the state. If an employee is disabled due to an injury, that employee's benefits will be based upon the employee's wage and the organization benefit rates in effect on the date of first disability.

1. If an employee suffers disability but is able to return to employment for a period of twelve consecutive calendar months or more, that employee's benefits will be based upon the wage in effect at the time of the recurrence of the disability or upon the wage that employee received prior to the injury, whichever is higher. The organization benefit rates are those in effect at the time of that recurrence.
2. The disability benefit or the combined disability benefit and dependency award may not exceed the weekly wage of the employee after deductions for social security and federal income tax.
3. When an employee is permanently and totally disabled, must be maintained in a nursing home or similar facility, and has no dependent parent, spouse, or children, as much of that employee's weekly benefit as is necessary may be used by the organization to help defray the cost of the nursing home care.

**SECTION 4. AMENDMENT.** Section 65-05-10 of the North Dakota Century Code is amended and reenacted as follows:

**65-05-10. Partial disability - Weekly benefit.** If the injury causes temporary partial disability resulting in decrease of earning capacity, the disability benefit is sixty-six and two-thirds percent of the difference between the injured employee's average weekly wages before the injury and the employee's wage-earning capacity after the injury in the same or another employment. Partial disability benefits are subject to a maximum of one hundred ~~ten~~ twenty-five percent of the average weekly wage in the state. The combined partial disability benefits, dependency allowance, and postinjury wage-earning capacity may not exceed the preinjury weekly wage of the employee after deductions for social security and federal income tax.

1. The benefits provided by this section are available to any otherwise eligible worker, providing the loss of earning capacity occurs after July 1, 1989. Partial loss of earning capacity occurring prior to July 1, 1989, must be paid at a rate to be fixed by the organization.
2. Benefits must be paid during the continuance of partial disability, not to exceed a period of five years. The organization may waive the five-year limit on the duration of partial disability benefits in cases of catastrophic injury as defined in section 65-05.1-06.1 or when the injured worker is working and has long-term restrictions verified by clear and convincing objective medical and vocational evidence that limits the injured worker to working less than twenty-eight hours per week because of the compensable work injury. This subsection is effective for partial loss of earnings capacity occurring after June 30, 1991.
3. The employee's earnings capacity may be established by expert vocational evidence of a capacity to earn in the statewide job pool where the worker lives. Actual postinjury earnings are presumptive evidence of earnings capacity if the job employs the employee to full work capacity in terms of hours worked per week, and if the job is in a field related to the employee's transferable skills. The presumption may

be rebutted by competent evidence from a vocational expert that the employee's actual earnings do not fairly reflect the employee's earnings capacity in the statewide job pool, considering the employee's capabilities, education, experience, and skills.

**SECTION 5. AMENDMENT.** Subsection 4 of section 65-05-15 of the North Dakota Century Code is amended and reenacted as follows:

4. When an injured worker is entitled to benefits on an aggravation basis, the organization shall still pay costs of vocational rehabilitation, burial expenses under section 65-05-26, travel, other personal reimbursement for seeking and obtaining medical care under section 65-05-28, and dependency allowance on a one hundred percent basis.

**SECTION 6. AMENDMENT.** Section 65-05-17 of the North Dakota Century Code is amended and reenacted as follows:

**65-05-17. Weekly compensation allowances for death claims.** If death results from an injury under the conditions specified in section 65-05-16, the fund shall pay to the following persons, for the periods specified:

1. To the decedent's spouse or to the guardian of the children of the decedent, an amount equal to the benefit rate for total disability under section 65-05-09. All recipients of benefits under this subsection are eligible for benefits at the rate provided in this section, regardless of the date of death of the deceased employee. These benefits continue until the death of the decedent's spouse; or, if the surviving children of the decedent are under the care of a guardian, until those children no longer meet the definition of "child" in this title. If there is more than one guardian for the children who survive the decedent, the organization shall divide the death benefits equally among the children and shall pay benefits to the children's guardians. Total death benefits, including supplementary benefits, paid on any one claim may not exceed ~~two~~ three hundred ~~fifty~~ thousand dollars.
2. To each child of the deceased employee, the amount of ~~ten~~ fifteen dollars per week. This rate must be paid to each eligible child regardless of the date of death. The organization may pay the benefit directly to the child of the deceased employee or to the surviving parent or guardian of the child. Dependency allowance may not be reduced by the percentage of aggravation.
3. In addition to the payments provided under subsections 1 and 2, a payment in the sum of ~~twelve~~ two thousand five hundred dollars to the decedent's spouse or the guardian of the children of the decedent and ~~four~~ eight hundred dollars for each dependent child. If there is more than one guardian of the decedent's surviving children, the ~~twelve~~ two thousand five hundred dollars must be divided equally among the children and paid to the children's guardians.

**SECTION 7. AMENDMENT.** Section 65-05-26 of the North Dakota Century Code is amended and reenacted as follows:

**65-05-26. Burial expenses.** If death benefits are payable under section 65-05-16, the fund shall pay to the facility handling the funeral arrangements of the

deceased employee burial expenses not to exceed ~~six~~ ten thousand ~~five hundred~~ dollars.

**SECTION 8. APPLICATION.** The increase in section 1 of this Act applies to employees eligible for a dependency allowance on or after the effective date of this Act and applies only to dependency allowance payments made on or after the effective date of this Act. The amendment in section 2 of this Act applies to employees who have incurred claimed injuries on or after the effective date of this Act. The increases in the maximums in section 3 and section 4 of this Act apply to employees who have incurred compensable injuries on or after the effective date of this Act. The amendment in section 5 of this Act applies to expenses incurred by employees on or after the effective date of this Act. The increases in section 6 and section 7 of this Act apply to employee deaths resulting from injuries that occur on or after the effective date of this Act.

**SECTION 3. AMENDMENT.** Section 65-05.2-02 of the North Dakota Century Code is amended and reenacted as follows:

The organization shall determine on an annual basis, for a claimant who receives a supplementary benefit under this subsection, supplementary benefit increases equal to a percentage of that claimant's combined weekly benefit. That percentage is equal to the annual percentage change in the state's average weekly wage. The organization shall determine on an annual basis, for that claimant, supplementary benefit increases equal to a percentage of that claimant's combined weekly benefit. That percentage is equal to the annual percentage change in the state's average weekly wage.

### HOUSE BILL NO. 1062

(Legislative Council)  
(Workers' Compensation Review Committee)

AN ACT to create and enact a new section to chapter 65-05.1 of the North Dakota Century Code, relating to workers' compensation rehabilitation services pilot programs; to amend and reenact section 65-05.1-06.1 of the North Dakota Century Code, relating to expansion of workers' compensation rehabilitation services; and to provide for a report to the legislative council.

#### BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

<sup>302</sup> **SECTION 1. AMENDMENT.** Section 65-05.1-06.1 of the North Dakota Century Code is amended and reenacted as follows:

##### **65-05.1-06.1. Rehabilitation award.**

1. Within sixty days of receiving the final vocational consultant's report, the organization shall issue an administrative order under chapter 28-32 detailing the employee's entitlement to disability and vocational rehabilitation services.
2. If the appropriate priority option is short-term or long-term training, the vocational rehabilitation award must be within the following terms:
  - a. For the employee's lost time, and in lieu of further disability benefits, the organization shall award a rehabilitation allowance. The rehabilitation allowance must be limited to the amount and purpose specified in the award, and must be equal to the disability and dependent benefits the employee was receiving, or was entitled to receive, prior to the award.
  - b. The rehabilitation allowance must include an additional twenty-five percent when it is necessary for the employee to maintain two households, when it is necessary for the employee to maintain two households and the employee elects to commute to and from school on a daily basis rather than maintain a second household and the distance from the employee's residence to the school or training institution is at least thirty miles, or when the employee meets other criteria established by the organization by rule.
  - c. The rehabilitation allowance must be limited to one hundred four weeks except in cases of catastrophic injury, in which case additional rehabilitation benefits may be awarded in the discretion of the organization. Catastrophic injury includes:

---

<sup>302</sup> Section 65-05.1-06.1 was also amended by section 1 of Senate Bill No. 2419, chapter 630.

- (1) Paraplegia; quadriplegia; severe closed head injury; total blindness in both eyes; or amputation of an arm proximal to the wrist or a leg proximal to the ankle, caused by the compensable injury, which renders an employee permanently and totally disabled without further vocational retraining assistance; or
  - (2) Those employees the organization so designates, in its sole discretion, provided that the organization finds the employee to be permanently and totally disabled without further vocational retraining assistance. There is no appeal from an organization decision to designate, or fail to designate, an employee as catastrophically injured under this subsection.
- d. Notwithstanding the one hundred four-week limit of subdivision c to facilitate the completion of a retraining program, the organization may award a rehabilitation extension allowance that may not exceed twenty weeks.
- e. The rehabilitation award must include the cost of books, tuition, fees, and equipment, tools, or supplies required by the educational institution. The award may not exceed the cost of attending a public college or university in the state in which the employee resides, provided an equivalent program exists in the public college or university.
- e- f. If the employee successfully concludes the rehabilitation program, the organization may make, in its sole discretion, additional awards for actual relocation expenses to move the household to the locale where the claimant has actually located work.
- f. g. If the employee successfully concludes the rehabilitation program, the organization may make, in its sole discretion, an additional award, not to exceed two months' disability benefit, to assist the employee with work search.
- g- h. If the employee successfully concludes the rehabilitation program, the employee is not eligible for further vocational retraining or total disability benefits unless the employee establishes a significant change in medical condition attributable to the work injury which precludes the employee from performing the work for which the employee was trained, or any other work for which the employee is suited. The organization may waive this section in cases of catastrophic injury defined by subdivision c.
- h- i. If the employee successfully concludes the rehabilitation program, the employee remains eligible to receive partial disability benefits, as follows:
- (1) Beginning the date at which the employee completes retraining, until the employee acquires and performs substantial gainful employment, the partial disability benefit is sixty-six and two-thirds percent of the difference between the injured employee's average weekly wages before the injury, and the employee's wage-earning capacity after retraining, as measured by the average wage in the

employee's occupation, according to criteria established by job service North Dakota in its statewide labor market survey, or such other criteria the organization, in its sole discretion, deems appropriate. The average weekly wage must be determined on the date the employee completes retraining. The benefit continues until the employee acquires substantial gainful employment.

- (2) Beginning the date at which the employee acquires substantial gainful employment, the partial disability benefit is sixty-six and two-thirds percent of the difference between the injured employee's weekly wages before the injury, and the employee's wage-earning capacity after retraining, as determined under paragraph 1, or the employee's actual postinjury wage earnings, whichever is higher.
  - (3) The partial disability benefit payable under paragraphs 1 and 2 may not exceed the limitation on partial disability benefits contained in section 65-05-10.
  - (4) The partial disability benefits paid under paragraphs 1 and 2 may not together exceed one year's duration.
  - (5) For purposes of paragraphs 1 and 2, "substantial gainful employment" means full-time bona fide work, for a remuneration, other than make-work. "Full-time work" means employment for twenty-eight or more hours per week, on average.
  - (6) The organization may waive the one-year limit on the duration of partial disability benefits, in cases of catastrophic injury under subdivision c.
3. If the appropriate priority option is return to the same or modified position, or to a related position, the organization shall determine whether the employee is eligible to receive partial disability benefits pursuant to section 65-05-10. In addition, the organization, when appropriate, shall make an additional award for actual relocation expenses to move the household to the locale where the claimant has actually located work.
  4. If the appropriate priority option is subdivision e or f of subsection 4 of section 65-05.1-01 or subsection 6 of section 65-05.1-01, to assist with work search the organization may award an additional award. The additional award under this subsection is awarded at the organization's sole discretion and may not exceed an amount equal to two months of the employee's total disability benefits calculated under section 65-05-09.

**SECTION 2.** A new section to chapter 65-05.1 of the North Dakota Century Code is created and enacted as follows:

**Rehabilitation services pilot programs - Reports - Data collection.**

1. The organization shall implement a system of pilot programs to allow the organization to assess alternative methods of providing rehabilitation

services. A pilot program may address one or more of the organization's comprehensive rehabilitation services, including vocational, medical, psychological, economic, and social rehabilitation services. The goal of a pilot program must be to improve the outcome of the rehabilitation services offered by the organization to assist the employee in making adjustments necessitated from the employee's injury and to improve the effectiveness of vocational rehabilitation services in returning an employee to substantial gainful employment. Notwithstanding laws to the contrary, a pilot program may address a broad range of approaches, including collaborative efforts between the organization and the employee through which there are variances from the rehabilitation services hierarchy; return-to-work trial periods during which cash benefits are suspended; intensive job search assistance; recognition of and focused services for injured employees who are at risk; and coordination of services of public and private entities. If a pilot program utilizes coordination of services of other state agencies, such as job service North Dakota, department of human services, North Dakota university system, or department of public instruction, the organization shall consult with the state agency in establishing the relevant portions of the pilot program and the state agency shall cooperate with the organization in implementing the pilot program.

2. Each pilot program must include a cost-benefit analysis; a strengths, weaknesses, opportunities, and threats analysis; and employer and employee satisfaction information. The organization shall include in its annual report to the workers' compensation review committee under section 54-35-22:
  - a. Preliminary reports on future pilot programs;
  - b. Status reports on current pilot programs; and
  - c. Final reports on completed pilot programs, including recommendations and proposed legislative changes necessary to implement recommendations.
  
3. The organization shall collect data regarding the status of claims that receive rehabilitation services. The data must include:
  - a. The stage of rehabilitation services at which closure occurs;
  - b. The reason for the closure; and
  - c. Followup data to determine the effectiveness of job searches and returns to work, including postinjury earnings.

The Honorable Jack Dalrymple  
President  
North Dakota Senate

RE: Senate Bill 2018

Dear President Dalrymple:

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have vetoed Section 24 of Senate Bill 2018 and return it to the Senate.

Section 24 unnecessarily duplicates studies and analyses already done by the Department of Commerce and independent economists. The Department of

Commerce conducted an external study that covered similar information proposed in this section during the current biennium and will do another study next biennium. In fact, Senate Bill 2018 already includes a best practices review of the Centers of Excellence program, which the Department of Commerce will expand to cover the information proposed by Section 24.

The State Auditor does fiscal and performance audits of agencies and programs, but this legislation calls for an economic impact study, which is not a function of the Auditor's Office. The State Auditor would have had to hire an outside expert consultant to do the study, which is exactly what the Department of Commerce has already done and will continue to do. Furthermore, the legislation neither authorizes nor appropriates any money to the State Auditor for such a purpose. Finally, the State Auditor already has authority to audit any independent economic analysis commissioned by the Department of Commerce, which is the State Auditor's role.

For these reasons, I have vetoed Section 24 of Senate Bill 2018.

Sincerely,

John Hoeven

The Honorable David Monson  
Speaker of the House  
North Dakota House of Representatives  
State Capitol  
Bismarck, ND 58505

RE: House Bill 1015

Dear Speaker Monson:

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have vetoed Sections 23, 28, 29, 31, and 32 of House Bill 1015 and returned it to the House.

Section 23 is unconstitutional because it requires executive branch officials to seek prior approval for basic managerial affairs from a subset of the Legislature. This requirement violates the inherent authority of the executive branch to manage state agencies.

The role of the legislative branch is to deliberate upon policies and principles to be adopted in the future and the executive branch is charged with administering those policies and principles. Verry v. Trenbeath, 148 N.W.2d 567 (N.D. 1967). If enacted, the budget section would have to review and approve hundreds of funding requests each quarter that would typically be handled by statewide elected officials and agency directors. This would prohibit elected officials and agency managers from effectively responding to changing public needs and properly managing their agencies.

Section 23 would also place North Dakota agencies in violation of the National Fair Labor and Standards Act, which require agencies to pay annual leave and sick leave to the employee on a timely basis.

Section 28 and 29 require the Department of Commerce to seek budget section approval for a specific building that the full Legislative Assembly has approved and set criteria for its funding. The Supreme Court has said except "as otherwise provided in the constitution, the legislature may not delegate legislative powers to others, including to a subset of its members ...." Kelsh v. Jaeger, 641 N.W.2d 100 (N.D. 2002).

The Legislature may delegate to a body certain powers to ascertain facts; however, the full "Legislature must set forth reasonably clear guidelines to enable the appropriate body to ascertain the facts." Stutsman County v. State Historical Soc. of North Dakota, 371 N.W.2d 321, 327 (N.D. 1985). Sections 28 and 29 give the budget section unfettered veto power over the will of the full Legislature by granting authority far beyond the responsibility to determine that certain criteria or guidelines are being followed. See N.D.A.G. Opinion 2007-L-08.

Similarly, Section 31 usurps the authority of the full legislative body by transferring that authority to a small subset of the Legislature. Also, Section 31, as well as Section 32, prohibit the Governor from submitting proposed legislative initiatives to the Legislature for consideration and directly violate the Constitution. Article V, Section 7 of the North Dakota Constitution states the "governor shall

present ... any recommended legislation to every regular and special session of the legislative assembly." As the North Dakota Supreme Court has opined, "As all of the branches derive their authority from the same constitution, there is an implied exclusion of each branch from the exercise of the functions of the others." City of Carrington v. Foster County, 166 N.W.2d 377, 382 (N.D. 1969).

For these reasons, I have vetoed Sections 23, 28, 29, 31, and 32 of House Bill 1015.

Sincerely,

John Hoeven  
Governor

The Honorable Jack Dalrymple  
President  
North Dakota Senate

RE: Senate Bill 2001

Dear President Dalrymple:

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have vetoed Sections 11, 12, 13, 14, and 15 of Senate Bill 2001 and returned it to the Senate.

Sections 11 and 12 circumvent Article IV, Section 7 and Article IV, Section 13 of the North Dakota Constitution by creating a full-time miniature legislature that disenfranchises the full legislative body.

North Dakota's Constitution created a citizen legislature that is limited to 80 legislative days. The creation of a mini-legislature, which would be comprised of 16 legislators picked by the majority leaders, would represent a fraction of the state's constituents to develop the state's budget.

Furthermore, since statehood the legislature has never developed and submitted its own budget to the full Assembly. The executive branch compiled and submitted the budget from 1889 through 1915 until the State Budget Board was created. That board, chaired by the Governor, was comprised of a majority of elected officials from the executive branch of statewide government. This process

continued until the modern budget process was created in 1965 with the advent of the Office of Management and Budget.

For 120 years, the state has recognized the benefit of presenting a budget which includes a broad perspective from an office holder who is elected statewide. Also, the entire body of the Legislature must have an equal opportunity to shape and consider the budget that represents all of the voters of North Dakota, rather than a budget submitted from only select legislators.

I veto sections 13, 14, and 15 because they intrude upon the function of the executive branch and violate the separation of governmental powers established by the North Dakota Constitution and American jurisprudence. These provisions directly violate the separation of powers doctrine and Article V, Section 7 of the North Dakota Constitution, which states the "governor shall present ... any recommended legislation to every regular and special session of the legislative assembly."

The function of the executive branch is to manage the affairs of the state and that includes the careful budgeting of resources. This budgeting process necessarily involves making recommendations to the Legislature that contain executive branch assessments of the amount and preferred allocation of resources needed to fulfill legislative policies. As the North Dakota Supreme Court has opined, "As all of the branches derive their authority from the same constitution, there is an implied exclusion of each branch from the exercise of the functions of the others." City of Carrington v. Foster County, 166 N.W.2d 377, 382 (N.D. 1969).

For these reasons, I have vetoed Sections 11, 12, 13, 14, and 15 of Senate Bill 2001.

Sincerely,

John Hoeven  
Governor

RE: Senate Bill 2030

Dear President Dalrymple:

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have vetoed Section 2 of Senate Bill 2030 and returned it to the Senate.

Section 2 would allow the budget section to approve a change in or expansion of the state penitentiary building project beyond what was authorized by the 61<sup>st</sup> Legislative Assembly.

During the 60<sup>th</sup> Legislative session, the Legislature approved the prison project subject to approval by the emergency commission and the budget section. The Attorney General later declared the requirement of budget section approval as unconstitutional as a violation of the separation of powers doctrine. N.D.A.G. 2007-L-08. Article X, Section 12 of the North Dakota Constitution reserves the exclusive right to appropriate monies to the full Legislature, and the North Dakota Supreme Court has said except "as otherwise provided in the constitution, the Legislature may not delegate legislative powers to others, including to a subset of its members ...." Kelsh v. Jaeger, 641 N.W.2d 100 (N.D. 2002).

Section 2 suffers from the same constitutional infirmities as the process declared unconstitutional by the Attorney General last session. The budget section cannot change what the full legislative body has already authorized and appropriated.

For this reason, I have vetoed Section 2 of Senate Bill 2030.

Sincerely,

John Hoeven  
Governor

North Dakota Senate

RE: Senate Bill 2024

Dear President Dalrymple:

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have vetoed Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, and 18 of Senate Bill 2024 and returned it to the Senate.

Senate Bill 2024 is unworkable according to both the Attorney General and Agriculture Commissioner, who are charged with executing its provisions.

The amendments to Senate Bill 2024, if enacted, would lead to statutory inconsistencies that would create enforcement ambiguities. According to the Attorney General, North Dakota Century Code sections 53-06.2-01(11) and 53-06.2-08(4) were not amended or repealed by Senate Bill 2024, which creates conflicts in definitions and regulatory oversight.

Senate Bill 2024 was a simple appropriation bill that was amended in conference committee with no public input from the Attorney General or Agriculture Commissioner, the two officials who would be charged with its implementation. The State, the Legislature, and the racing industry would be better served if all parties were able to craft legislation together that addressed the issues facing horse racing in North Dakota.

The vetoed sections of Senate Bill 2024 would not have taken effect for two years. As the Attorney General and Agriculture Commissioner suggest in the attached letter, the Legislative Council should study horse racing, its regulation, and its taxation in an interim committee so all parties can have input into proposed legislation to address the issues raised, but not solved, by Senate Bill No. 2024.

For these reasons, I vetoed Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, and 18 of Senate Bill 2024.

Sincerely,

John Hoeven  
Governor

# INITIATED MEASURES APPROVED

## CHAPTER 636

### TOBACCO USE PREVENTION AND CONTROL PROGRAM

The initiated measure would add seven new sections to the North Dakota Century Code and amend N.D.C.C. section 54-27-25 to establish a tobacco prevention and control advisory committee and an executive committee; develop and fund a comprehensive statewide tobacco prevention and control plan; and create a tobacco prevention and control trust fund to receive tobacco settlement dollars to be administered by the executive committee.

#### **BE IT ENACTED BY THE PEOPLE OF THE STATE OF NORTH DAKOTA:**

**SECTION 1.** Seven new sections to the North Dakota Century Code are hereby created and enacted as follows:

#### **Definitions.** As used in this Act:

1. "Advisory committee" is the nine-member tobacco prevention and control advisory committee responsible to develop the comprehensive plan.
2. "Comprehensive plan" means a comprehensive statewide tobacco prevention and control program that is consistent with the centers for disease control best practices for comprehensive tobacco prevention and control programs and does not duplicate the work of the community health grant program created in chapter 23-28.
3. "Executive committee" means the three-member committee selected by the advisory committee and charged with implementation and administration of the comprehensive plan.
4. "Tobacco prevention and control fund." consists of all principal and interest of the tobacco prevention and control trust fund established by section 2 of this Act.

#### **Tobacco Prevention and Control Advisory Committee - Membership - Terms - Duties - Removal.**

1. The advisory board consists of nine North Dakota residents appointed by the governor for three year terms as follows:
  - a. A practicing respiratory therapist familiar with tobacco related diseases;
  - b. Four non-state employees that have demonstrated expertise in tobacco prevention and control;

- c. A practicing medical doctor familiar with tobacco related diseases;
  - d. A practicing nurse familiar with tobacco related diseases;
  - e. A youth between the ages of 14 and 21;
  - f. A member of the public with a previously demonstrated interest in fostering tobacco prevention and control.
2. The governor shall select the youth and public member independently; the respiratory therapist from a list of three nominations provided by the North Dakota society for respiratory care; the four tobacco control experts from a list of two nominations per member provided by the North Dakota public health association's tobacco control section; the medical doctor from a list of three nominations provided by the North Dakota medical association; and the nurse from a list of three nominations provided by the North Dakota nurses association. The governor must make the appointments within three weeks of receiving the respective list of nominees. If the governor fails to make an appointment within three weeks the association that provided the list of nominees shall select the committee member. In the initial appointments for the advisory committee, the governor shall stagger the terms of the members so that the terms of three members expire each fiscal year and that three members are appointed each year by June 30. Accordingly, the governor's initial appointments must, in some instances, be for terms less than 3 years. The governor shall fill vacancies for the unexpired term as provided in this section.
3. No individual may serve more than two consecutive three-year terms; however terms of less than three years are not considered in determining an individual's eligibility for reappointment.
4. A quorum of the advisory committee is required to conduct business, but the advisory committee may conduct a meeting with less than a quorum present. A quorum is a majority of the members of the committee. Any action taken requires a vote of the majority of the members present at the meeting.
5. The advisory board shall:
- a. Select the executive committee:
  - b. Fix the compensation of the advisory committee and the executive committee: however compensation may not exceed compensation allowed to the legislature. Advisory and executive committee members are entitled to reimbursement for mileage and expenses as provided for state officers in addition to any compensation provided;
  - c. Develop the initial comprehensive statewide tobacco prevention and control program that includes support for cessation interventions, community and youth interventions, and health communication; and

- d. Evaluate the effectiveness of the plan and its implementation and, prior to April 1 of each year; propose any necessary changes to the plan to the executive committee.
6. The governor may remove any member of the advisory committee for malfeasance in office, but the advisory committee is not subject to section 54-07-01.2.
7. No nomination to, or member of, the advisory committee shall have any past or current affiliation with the tobacco industry or any industry, contractor, agent, or organization that engages in the manufacturing, marketing, distributing, sale, or promotion of tobacco or tobacco related products.

**Executive Committee.** The executive committee of the advisory committee consists of three individuals selected by the advisory committee from its membership. The term of each member is for three years. The initial terms of the members must be staggered so that one member serves a three-year term, one member serves a two-year term and one member serves a one-year term. The determination of initial terms shall be by lot. No individual may serve more than two consecutive three-year terms; however terms of less than three years are not considered in determining an individual's eligibility for reappointment. The advisory committee shall fill vacancies for the unexpired term. An individual selected to serve on the executive committee is no longer eligible to serve if they are not a member of the advisory committee. The executive committee is responsible for the implementation and administration of the comprehensive plan, including the appropriateness of expenditures to implement the comprehensive plan. The executive committee may seek the counsel and advice of the advisory committee in implementing the plan, but the executive committee is the final decision maker.

**Powers of the Executive Committee.** To implement the purpose of this Act and, in addition to any other authority granted elsewhere in this Act, to support its efforts and implement the comprehensive plan the executive committee may employ staff and fix their compensation, accept grants, property, and gifts, enter contracts, make loans, provide grants, borrow money, lease property, provide direction to the state investment board for investment of the tobacco prevention and control fund, and take any action that any private individual, corporation, or limited liability company lawfully may do except as restricted by the provisions of this Act.

**Development of the Comprehensive Plan.** The advisory committee must develop the initial comprehensive plan within 180 days of the initial meeting of the advisory committee. The comprehensive plan must be funded at a level equal to or greater than the centers for disease control recommended funding level. Funding for the comprehensive plan must supplement and may not supplant any funding that in the absence of this Act would be or has been provided for the community health trust fund or other health initiatives.

**Conflict of Interest.** No member of the advisory committee or of the executive committee who has a direct and substantial personal or pecuniary interest in a matter before them may vote or take any action on that matter.

**Audit.** At least once a biennium, the executive committee shall provide for an independent review of the comprehensive plan to assure that the comprehensive plan is consistent with the centers for disease control best practices. The executive committee shall report the results of that review to the governor and to the state health officer on or before September 1 in each odd numbered year.

**SECTION 2. Amendment.** Section 54-27-25 of the 2005 supplement to the North Dakota Century Code is hereby amended and reenacted as follows:

**54-27-25. Tobacco settlement trust fund - Interest on fund - Uses.**

1. There is created in the state treasury a tobacco settlement trust fund. The fund consists of the tobacco settlement dollars obtained by the state under ~~sections subsection IX (c)(1) (payments) and X4 (calculation and disbursement of payments)~~ of the master settlement agreement and consent agreement adopted by the east central judicial district court in its judgment entered December 28, 1998 [Civil No. 98-3778] in State of North Dakota, ex rel. Heidi Heitkamp v. Philip Morris, Inc. ~~All Except as provided in subsection 2, moneys received by the state pursuant to the judgment and all moneys received by the state for enforcement of the judgment under subsection IX(c)(l) must be deposited in the fund.~~ Interest earned on the fund must be credited to the fund and deposited in the fund. The principal and interest of the fund must be allocated as follows:
  4. a. Transfers to a community health trust fund to be administered by the state department of health. The state department of health may use funds as appropriated for community-based public health programs and other public health programs, including programs with emphasis on preventing or reducing tobacco usage in this state. Transfers under this subsection must equal ten percent of total annual transfers from the tobacco settlement trust fund of which a minimum of eighty percent must be used for tobacco prevention and control.
  2. b. Transfers to the common schools trust fund to become a part of the principal of that fund. Transfers under this subsection must equal forty-five percent of total annual transfers from the tobacco settlement trust fund.
  3. c. Transfers to the water development trust fund to be used to address the long-term water development and management needs of the state. Transfers under this subsection must equal forty-five percent of the total annual transfers from the tobacco settlement trust fund.
2. There is created in the state treasury a tobacco prevention and control trust fund. The fund consists of the tobacco settlement dollars obtained by the state under section 1X (c) (2) of the agreement adopted by the east central judicial district court in its judgment entered December 28, 1998 [Civil No. 98-3778] in State of North Dakota, ex rel. Heidi Heitkamp v. Philip Morris, Inc. Interest earned on the fund must be credited to the fund and deposited in the fund. Moneys received into the fund are to be administered by the executive committee for the purpose of creating and implementing the comprehensive plan. If in any biennium, the tobacco prevention and control trust fund does not have adequate dollars to fund a comprehensive plan, the treasurer shall transfer money from the water development trust fund to the tobacco prevention and control trust fund in an amount equal to the amount determined necessary by the executive committee to fund a comprehensive plan.

3. Transfers to the funds under this section must be made within thirty days of receipt by the ~~to~~ state ~~settlement trust fund~~.

### STATE CORPORATE AND STATE INCOME TAX RATES

f. For an individual who is not a resident of this state for the entire year, or for a nonresident estate or trust, the tax is equal to the tax otherwise computed under this subsection multiplied by a fraction in which:

- (1) The numerator is the federal adjusted gross income allocable and apportionable to this state; and
- (2) The denominator is the federal adjusted gross income from all sources reduced by the net income from the amounts specified in subdivisions a and b of subsection 2.

In the case of married individuals filing a joint return, if one spouse is a resident of this state for the entire year and the other spouse is a nonresident for part or all of the tax year, the tax on the joint return must be computed under this subdivision.

g. For taxable years beginning after December 31, 2001, the tax commissioner shall prescribe new rate schedules that apply in lieu of the schedules set forth in subdivisions a through e. The new schedules must be determined by increasing the minimum and maximum dollar amounts for each income bracket for which a tax is imposed by the cost-of-living adjustment for the taxable year as determined by the secretary of the United States Treasury for purposes of section 1(f) of the United States Internal Revenue Code of 1954, as amended. For this purpose, the rate applicable to each income bracket may not be changed, and the manner of applying the cost-of-living adjustment must be the same used for adjusting the income brackets for federal income tax purposes.

**SECTION 3. APPLICATION.** The income brackets in subsection 1 of section 57-38-30.3 as provided in section 2 of this Act are the statutory bracket amounts as enacted for taxable year 2001 and do not reflect cost-of-living adjustments that have been made since that time under subdivision g of subsection 1 of section 57-38-30.3. For purposes of this Act, the tax commissioner shall determine income brackets for each taxable year by applying the appropriate cost-of-living adjustment determined under subdivision g of subsection 1 of section 57-38-30.3 for each taxable year after taxable year 2001.

**SECTION 4. EFFECTIVE DATE.** This Act is effective for taxable years beginning after December 31", 2008.

### NORTH DAKOTA LEGACY FUND

A concurrent resolution to create and enact a new section to article X of the Constitution of North Dakota, relating to establishment and use of a North Dakota legacy fund; and to provide an effective date.

#### STATEMENT OF INTENT

This measure establishes a North Dakota legacy fund, provides for deposit of certain oil and gas tax revenues in the fund, and imposes limitations on use of moneys in the fund.

#### **BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:**

That the following proposed new section to article X of the Constitution of North Dakota is agreed to and must be submitted to the qualified electors of North Dakota at the general election to be held in 2010, in accordance with section 16 of article IV of the Constitution of North Dakota.

**SECTION 1.** A new section to article X of the Constitution of North Dakota is created and enacted as follows:

1. Thirty percent of total revenue derived from taxes on oil and gas production or extraction must be transferred by the state treasurer to a special fund in the state treasury known as the legacy fund. The legislative assembly may transfer funds from any source into the legacy fund and such transfers become part of the principal of the legacy fund.
2. The principal and earnings of the legacy fund may not be expended until after June 30, 2017, and an expenditure of principal after that date requires a vote of at least two-thirds of the members elected to each house of the legislative assembly. Not more than fifteen percent of the principal of the legacy fund may be expended during a biennium.
3. Statutory programs, in existence as a result of legislation enacted through 2009, providing for impact grants, direct revenue allocations to political subdivisions, and deposits in the oil and gas research fund must remain in effect but the legislative assembly may adjust statutory allocations for those purposes.

The state investment board shall invest the principal of the North Dakota legacy fund. The state treasurer shall transfer earnings of the North Dakota legacy fund accruing after June 30, 2017, to the state general fund at the end of each biennium.

**SECTION 2. EFFECTIVE DATE.** If approved by the voters, this measure becomes effective for oil and gas produced after June 30, 2011.

**WHEREAS**, Theodore Roosevelt National Park has released a Draft Elk Management Plan/Environmental Impact Statement; and

A concurrent resolution directing the Legislative Council to study workers' compensation laws in this state and other states with respect to prior injuries, preexisting conditions, and degenerative conditions.

**WHEREAS**, under North Dakota Century Code Section 65-02-30, Workforce Safety and Insurance is required to undergo a biennial independent performance evaluation to determine, among other things, whether the agency is providing quality service in an efficient and cost-effective manner; and

**WHEREAS**, an element of the 2008 performance evaluation focused on claims for benefits by injured workers who have degenerative conditions; and

**WHEREAS**, the 2008 performance evaluation included conclusions indicating that none of the claims reviewed which involved preexisting or degenerative conditions were inappropriately denied, but that North Dakota law is more conservative than most other jurisdictions as it relates to prior injuries, preexisting or degenerative conditions, triggers, and aggravations; and

**WHEREAS**, the performance evaluation also recommended the creation of a study group of all the stakeholder groups to review how other jurisdictions' statutes handle those issues;

**NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:**

That the Legislative Council study workers' compensation laws in this state and other states with respect to prior injuries, preexisting conditions, and degenerative conditions; and

A concurrent resolution endorsing the concept of regional capability response to manmade and natural disasters in North Dakota.

**WHEREAS**, North Dakota is prone to natural disasters, is vulnerable to manmade disasters, and is susceptible to a terrorist attack; and

**WHEREAS**, North Dakota is a rural state and depends upon volunteer and limited numbers of response discipline personnel for initial disaster response; and

**WHEREAS**, the Department of Homeland Security through the North Dakota Department of Emergency Services has provided substantial funds to response disciplines throughout the state; and

**WHEREAS**, the resources of firefighters, hospitals, emergency medical responders, law enforcement, and public works personnel for equipment, training, and exercises for first response are limited; and

**WHEREAS**, strategic placement of response equipment and increased cooperation of response disciplines in North Dakota are necessary; and

**WHEREAS**, the Department of Homeland Security has embarked on a comprehensive program to consolidate response through the establishment of regional response areas strategically placed within North Dakota;

**NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:**

That the Legislative Assembly endorses the concept of regional capability response to manmade and natural disasters in North Dakota; and

A concurrent resolution directing the Legislative Council to study the availability of legal representation to assist injured employees in understanding and pursuing Workforce Safety and Insurance decisions.

**WHEREAS**, during the 2007-08 interim, the interim Industry, Business, and Labor Committee and the Workers' Compensation Review Committee studied workers' compensation issues, including receipt of testimony from injured employees who expressed concern with the lack of availability of lawyers willing to represent injured employees in workers' compensation cases; and

**WHEREAS**, the state's workers' compensation laws can be complex and difficult for a layperson to navigate; and

**WHEREAS**, the importance of making knowledge-based decisions in workers' compensation matters is evidenced by Workforce Safety and Insurance's use of legal representation; and

**WHEREAS**, North Dakota law and Workforce Safety and Insurance administrative rules address the terms under which an injured employee may be reimbursed for attorney's fees and costs;

**NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:**

That the Legislative Council study the availability of legal representation to assist injured employees in understanding and pursuing Workforce Safety and Insurance decisions; and

**CHAPTER 651****HOUSE CONCURRENT RESOLUTION NO. 3014**

(Representatives Brandenburg, Belter, Boe)  
(Senators Heckaman, O'Connell, Wanzek)

A concurrent resolution urging Congress not to replace "navigable water" with "waters of the United States" in any Clean Water Act-related legislation considered by Congress.

**WHEREAS**, the Clean Water Act is the foundation of federal and state efforts to protect the nation's water and water resources and one of the primary reasons for the success of the Clean Water Act over the past 35 years is the Act's clear recognition of a partnership between the federal government and state governments to protect these resources; and

**WHEREAS**, this federal-state structure of shared responsibility allows states the essential flexibility they need to protect truly ecologically important and environmentally sensitive areas within their borders while, at the same time, preserving the authority of states and local communities over their own land and water use planning; and

**WHEREAS**, the distinction between federal and state responsibility is set forth in Section 101 of the Clean Water Act which states "[i]t is the policy of Congress to recognize, preserve, and protect the primary responsibilities of States to prevent, reduce, and eliminate pollution, to plan the development and use (including restoration, preservation and enhancement) of land and water resources ... and that the authority of each State to allocate quantities of water within its jurisdiction shall not be superseded, abrogated, or otherwise impaired ..."; and

**WHEREAS**, legislative proposals before Congress that seek to replace the term navigable with a broad definition of waters of the United States would destroy the Clean Water Act's careful calibration of federal and state authority because it would provide federal regulation over virtually every water body in the nation; and

**WHEREAS**, broadening the Clean Water Act with vague and ambiguous terminology will abandon the cooperative federalism policies Congress sought to achieve and will undermine the states' authority to plan the development and use of land and water resources and to allocate water within each state's jurisdiction; and

**WHEREAS**, altering the Act's definitional structure could have dire and unintended consequences by adding further regulatory burdens on states and local communities, usurping state authority to manage vital water resources, including ground water, and imposing substantial costs and delays to replace aging water infrastructure; and

**WHEREAS**, the successes of the last 35 years will not alone yield the solutions in the next 35 years and the intractable water challenges faced today as a nation demand more cooperative federalism, not more federal authority;

**NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:**

That the Sixty-first Legislative Assembly urges the Congress of the United States not to replace "navigable water" with "waters of the United States" in any Clean Water Act-related legislation considered by Congress; and

**BE IT FURTHER RESOLVED**, that the Secretary of State forward copies of this resolution to the President of the United States, the Senate and House Majority and Minority Leaders of the United States House of Representatives and the United States Senate, the chairman of the Committee on Transportation and Infrastructure of the United States House of Representatives, the United States Secretary of Agriculture, the United States Secretary of the Interior, and to each member of the North Dakota Congressional Delegation.

**CHAPTER 652****HOUSE CONCURRENT RESOLUTION NO. 3015**

(Representatives Wald, Grande, Heller)  
(Senators Erbele, Freborg, Wardner)

A concurrent resolution urging Congress to reject the bill known as the Freedom of Choice Act, which would invalidate virtually every abortion-related regulation enacted by the people of North Dakota through their elected officials.

**WHEREAS**, a bill, cited by its sponsors as the Freedom of Choice Act, now being considered by the Congress of the United States, would invalidate most North Dakota abortion-related regulations, including virtually all of the North Dakota Abortion Control Act, most of which is now recognized as constitutional and within the province of state jurisdiction in light of decisions by the United States Supreme Court; and

**WHEREAS**, the Freedom of Choice Act would invalidate the North Dakota informed consent law in its entirety including provisions that give a mother seeking an abortion the right to know the probable gestational age of her unborn child, the name of the physician who would perform the abortion, the particular medical risks associated with the abortion procedure to be used as well as the medical risks associated with carrying the child to term and which give her the right to obtain information about the medical benefits that may be available for her and her child before, during, and after the birth of the child, and objective, scientifically accurate medical facts about the development of the unborn child; and

**WHEREAS**, the Freedom of Choice Act would invalidate North Dakota's requirement that a minor seeking an abortion first obtain consent of both parents or authorization of a court before an abortion because the Freedom of Choice Act, on its face, allows a state to require only "parental involvement" such as parental notification, not consent, and would not even allow the state to require mere notification unless the state law also provides each minor the option of consulting an "other responsible adult," thereby circumventing the involvement of a minor's parents; and

**WHEREAS**, the Freedom of Choice Act only allows a state to protect unwilling individuals, but not hospitals, from having to participate in the performance of abortion when they are conscientiously opposed, and thus it would invalidate North Dakota Century Code Section 23-16-14, which protects the freedom of hospitals, physicians, nurses, and hospital employees to refuse to make their facilities available for the performance of abortions, or to participate in an abortion, exposing North Dakota's hospitals that refuse to perform abortions to lawsuits seeking to force them to do so against their conscience and protecting health care workers from discrimination in the work place; and

**WHEREAS**, North Dakota prohibits the use of tax dollars from being used to pay for abortions on demand, currently taxpayers only pay for abortions that are necessary to prevent the mother's death or where the pregnancy has resulted from rape or incest, the Freedom of Choice Act would require tax funding of abortion on demand even when used as a form of birth control; and

**WHEREAS**, because the Freedom of Choice Act would require a state to prove that any health regulation of abortion is "medically necessary" to protect the health of women undergoing such procedures, those provisions in North Dakota's Abortion Control Act requiring the filing of consent forms, the reporting of complications, and the maintenance of patient records would be held to a higher scrutiny in determining their validity than North Dakota record requirements for other medical procedures; and

**WHEREAS**, the Freedom of Choice Act would invalidate the North Dakota requirement that only licensed physicians perform abortions, the Freedom of Choice Act invites litigation to strike down a physician requirement on the basis that it is not "medically necessary" that physicians, as opposed to other trained personnel, perform abortions; and

**WHEREAS**, the Freedom of Choice Act would make the brutal partial-birth abortion method legal again;

**NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:**

That the Sixty-first Legislative Assembly urges the Congress of the United States to reject the bill known as the Freedom of Choice Act, which would invalidate virtually every abortion-related regulation enacted by the people of North Dakota through their elected officials and to reject any component of the Freedom of Choice Act contained in other legislation; and

A concurrent resolution urging school districts to offer students a course in financial literacy.

**WHEREAS**, many high school students are very optimistic about their chances for financial success and believe themselves to be financially savvy but tests of their financial knowledge consistently show poor performance; and

**WHEREAS**, many parents believe that financial management is a family matter, best learned at home, but the reality is that many parents are unable or unwilling to teach their own children even basic financial lessons such as how to create and maintain a budget, understand credit, or save for the future; and

**WHEREAS**, many parents are unable or unwilling to address with their children concepts such as the time value of money, compounding interest, risk, diversification, and insurance; basic accounting concepts such as assets, liabilities, and market versus book prices; and the rights and responsibilities of consumers and institutions; and

**WHEREAS**, the market turmoil and credit crisis of 2008 serve to underscore the critical need for improved financial literacy among citizens of all ages; and

**WHEREAS**, requiring school districts to offer students a course in financial literacy would provide an opportunity to ensure that students are better prepared to make sound money management decisions for themselves and that students have a sufficient base of knowledge and understanding about financial matters before they begin making those first independent financial decisions as young adults;

**NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:**

**WHEREAS**, because the Census is the basis for allocation of federal funds relating to social services and community development block grants and is the basis for redistricting of the Legislative Assembly, an accurate and complete count is vital to the entire state; and

**WHEREAS**, the results of the Census are used by federal, state, tribal, and local governments for planning purposes, business and economic development purposes, and funding decisions; and

**WHEREAS**, an accurate and complete count in Census 2010 will assist public officials and business leaders in making decisions related to business development and infrastructure needs; and

**WHEREAS**, census questionnaires take only a few minutes to complete and any identifying information provided through the questionnaire is held confidential for 72 years; and

**WHEREAS**, to achieve a full and complete count that includes segments of the population that have been traditionally undercounted, a partnership among the Census Bureau and the state, political subdivisions, tribal governments, and all public officials is vital in providing current and accurate information to the Census Bureau with respect to address lists, jurisdictional boundaries, and other geographical features;

**NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:**

(Senators Erbele, Taylor)

A concurrent resolution urging the United States Fish and Wildlife Service not to list the black-tailed prairie dog, *Cynomys ludovicianus*, as a threatened or endangered species under the Endangered Species Act.

**WHEREAS**, in 2007 the Forest Guardians (also known as WildEarth Guardians), Biodiversity Conservation Alliance, Center for Native Ecosystems, and Rocky Mountain Animal Defense filed a petition with the United States Fish and Wildlife Service requesting that the black-tailed prairie dog, *Cynomys ludovicianus*, be listed as a threatened or endangered species under the Endangered Species Act; and

**WHEREAS**, the petition filed with the United States Fish and Wildlife Service requested that the black-tailed prairie dog, *Cynomys ludovicianus*, be listed as endangered throughout its range, which includes Arizona, Colorado, Kansas, Montana, Nebraska, New Mexico, North Dakota, Oklahoma, South Dakota, Texas, and Wyoming; and

**WHEREAS**, the United States Fish and Wildlife Service has initiated a status review of the species to determine if the listing is warranted; and

**WHEREAS**, the North Dakota Game and Fish Department has submitted its prairie dog management plan to the United States Fish and Wildlife Service and restated the department's belief that this state's black-tailed prairie dog, *Cynomys ludovicianus*, population is biologically viable; and

**NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:**

**WHEREAS**, the federal government has a long history of burdening states with unfunded mandates; and

**WHEREAS**, the federal government has time and again exhibited little understanding of the fiscal realities that its education mandates have on state and local spending priorities; and

**WHEREAS**, this state should have control over how it spends its own tax dollars for education, rather than be forced by the federal government to support programs the state does not want and does not need;

**WHEREAS**, the Red River Valley Research Corridor initiative was officially launched by Senator Byron L. Dorgan at a meeting he organized in 2002 with the presidents of North Dakota's colleges and universities; and

**WHEREAS**, North Dakota State University and the University of North Dakota serve as the anchors of the Red River Valley Research Corridor with schools and organizations from all corners of the state now fully participating in the statewide initiative; and

**WHEREAS**, these congressionally directed federal investments in the Red River Valley Research Corridor have helped to create and expand national centers of research and education in North Dakota in fields including hydrogen, unmanned aerial vehicles, nanoscale science and engineering, life sciences, high-performance computing, air toxic metals, rural crime and justice, energy technology, aerospace, and nanoscience technology; and

**WHEREAS**, a 2006 economic impact study documented that the federal funding secured by Senator Dorgan has produced \$759 million in economic activity, created more than 10,000 jobs, and attracted new businesses to the state; and

**WHEREAS**, the Red River Valley Research Corridor investments have helped North Dakota become the fastest growing state in federal research and development per capita in the last five years and move up 14 positions in four years in The Milken Institute's 2008 State Technology and Science Index report;

**NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:**

A concurrent resolution urging the United States Drug Enforcement Administration to allow North Dakota to regulate industrial hemp farming without requiring federal applications, licenses, or fees.

**WHEREAS**, industrial hemp refers to the nondrug oilseed and fiber varieties of cannabis that have less than three-tenths of one percent tetrahydrocannabinol and which are genetically distinct from the drug varieties of cannabis, also known as marijuana; and

**WHEREAS**, the flowering tops of industrial hemp cannot produce any drug effect when smoked or ingested; and

**WHEREAS**, it was never the intent of Congress to interfere with or otherwise prohibit the farming, production, and utilization of industrial hemp when it enacted the original Marijuana Tax Act of 1937; and

**WHEREAS**, industrial hemp is grown commercially in more than 30 countries, without undue restriction or complications; and

**WHEREAS**, American companies are forced to import millions of dollars worth of hemp seed and fiber products annually from Canada, Europe, and China, thereby effectively denying American farmers an opportunity to compete and share in the profits; and

**WHEREAS**, nutritious hemp foods can be found in grocery stores nationwide and strong durable hemp fibers can be found in the interior parts of millions of American cars; and

**WHEREAS**, buildings are being constructed using a hemp and lime mixture; and

**WHEREAS**, retail sales of hemp products in this country are estimated to be \$365 million annually; and

**WHEREAS**, the reluctance of the United States Drug Enforcement Administration to permit industrial hemp farming is denying agricultural producers in this country the ability to benefit from a high-value, low-input crop, which can provide significant economic benefits to producers and manufacturers; and

**WHEREAS**, North Dakota State University applied for licensure to conduct multiyear research on industrial hemp in 1999 and received the license from the United States Drug Enforcement Administration in 2008; and

**WHEREAS**, North Dakota State University's license to conduct multiyear research on industrial hemp is valid for only one year; and

**WHEREAS**, North Dakota State University is exceedingly concerned about future license renewals being made in a timely manner, especially in light of the fact that the enclosure required for the research has a construction cost of \$100,000; and

**WHEREAS**, North Dakota has enacted statutes that would allow only stalk, fiber, sterilized seed, and seed oil, which are legal to import, sell, and possess under federal law, to leave the farm and enter commerce; and

**WHEREAS**, the United States Drug Enforcement Administration has the authority under the Controlled Substances Act to allow this state to regulate industrial hemp farming under existing laws and without requiring individual federal applications and licenses;

**NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:**

**WHEREAS**, biotechnology refers to any technique that uses living organisms or parts thereof to make or modify a product or plants, animals, or micro-organisms for specific uses and has been used by humankind for thousands of years to improve plants, animals, and micro-organisms; and

**WHEREAS**, in the last three decades scientific advances in molecular biology have resulted in what is known as recombinant DNA technology or "genetic engineering" with the ability to readily move genetic material between more distantly related organisms; and

**WHEREAS**, pest-resistant and disease-resistant crops developed through biotechnology will preserve and improve the environment by reducing the need for herbicides and pesticides; and

**WHEREAS**, modern biotechnology is being used to increase the productivity of crops and livestock, to improve the quality of life by developing new high-yield crops that require fewer inputs and conserve natural resources, to increase the food supply for a rapidly increasing human population, to produce more nutritious foods with longer shelf lives, and to continue to provide consumers with high-quality, low-cost food products; and

**WHEREAS**, further advances in modern biotechnology may result in improved crops that combat vitamin and mineral deficiencies that afflict hundreds of millions of people worldwide or that can be used to produce life-saving vaccines and biodegradable plastics; and

**WHEREAS**, federal law requires that all foods and food ingredients, whether produced by traditional or modern biotechnology, must be extensively reviewed for safety by the United States Food and Drug Administration and meet the provisions of the federal Food, Drug, and Cosmetic Act before these products may be sold to consumers;

**NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:**

That the Sixty-first Legislative Assembly urges the Congress of the United States to support the responsible use of the beneficial qualities of biotechnology such as pharmaceuticals, anti-immune disease control, biodegradable plastics, and other potential benefits to people and the global environment through high-yield agricultural production; and

A concurrent resolution urging Congress to use common sense principles for congressional action on climate change legislation.

**WHEREAS**, if federal action is taken on greenhouse gas reduction programs, the programs should be developed and implemented by the United States Congress on a bipartisan basis and not by federal agencies acting unilaterally to implement policy outside of the Congress; and

**WHEREAS**, federal action aimed to reduce emissions of carbon dioxide should not impede economic growth, new job creation, or lower the standard of living for all Americans; and

**WHEREAS**, federal action should incorporate a fully transparent cost-benefit assessment yielding a net positive outcome and achieving wide consensus as part of any carbon dioxide emission reduction program so that consumers can be made aware of the potential economic impacts of policies before their implementation; and

**WHEREAS**, federal action should encourage the rapid research, development, demonstration, and deployment, through public-private partnerships, of a broad spectrum of supply-side and demand-side technologies and practices, including energy efficiency, renewable technologies, fossil energy technologies with and without carbon capture and storage, carbon sequestration, and nuclear energy; and

**WHEREAS**, federal action should allow the utility sector to continue to supply consumers with adequate supplies of clean, affordable, and reliable energy and to recover all costs necessary to achieve any greenhouse gas reduction levels sought by public policies; and

**WHEREAS**, federal action should involve all sectors of the economy, all sources and sinks, and all types of greenhouse gases; and

**WHEREAS**, federal action should recognize that climate variability is a global phenomenon that requires comprehensive, long-term, and worldwide responses; and

**WHEREAS**, federal action should recognize that the timeframe for implementation of any greenhouse gas reduction requirements must be scientifically based and tied to technology availability, reliability, and economic feasibility in order to avoid unacceptable impacts on consumers; and

**WHEREAS**, federal action should allow greater access to onshore and offshore public lands for the development of domestic energy resources such as renewables, oil and gas, oil shale, and coal that can be used in power generation technologies that can keep America a leader in economic development; and

**WHEREAS**, federal action should recognize and protect existing and past investment decisions for generation resources such that the net costs of owning and operating existing resources are not increased as a result of any program and that any carbon emission reduction program must be limited in its impact to future investment decisions and tailored to the actual net future growth in demand for energy after application and full use of existing resources;

**NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:**

That the Sixty-first Legislative Assembly urges the Congress of the United States to use common sense principles for congressional action on climate change legislation; and

A concurrent resolution urging Congress, the President, and the North Dakota Congressional Delegation to resist efforts to increase income taxes for individuals, including increases by allowing existing reductions to expire; to permanently eliminate the alternative minimum tax; to reject efforts to increase capital gains taxes; and to consider elimination of capital gains taxes on sales of residential property.

**WHEREAS**, most North Dakotans believe that increasing individual income taxes for any individual is the wrong approach to improving the national economy and North Dakotans have found that the best way to allow the state economy to grow is by avoiding tax increases; and

**WHEREAS**, allowing existing income tax reduction provisions to expire is an income tax increase, regardless of what rhetoric is used to avoid calling it an increase; and

**WHEREAS**, the alternative minimum tax was bad policy when enacted and has been allowed to become worse by inattention of Congress to the point that many unsuspecting middle income Americans are now ensnared by it for reasons no one can justify; and

**WHEREAS**, an increase in capital gains taxes would serve as a disincentive to individual investors at a time when investors already have very little incentive to invest in a struggling economy; and

**WHEREAS**, elimination of capital gains taxes on sales of residential property could bolster the ailing housing market;

**NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:**

**WHEREAS**, the congressional moratorium on the Outer Continental Shelf ended on September 30, 2008; and

**WHEREAS**, Americans are suffering from highly volatile energy prices; and

**WHEREAS**, America needs a comprehensive energy policy that recognizes the roles that all forms of energy can play; and

**WHEREAS**, according to the United States Department of Interior, there are an estimated 86 billion barrels of oil and 420 trillion cubic feet of natural gas on the Outer Continental Shelves; and

**WHEREAS**, the nation's farming, ranching, and business sectors depend on a reliable and affordable supply of energy to run equipment, fertilize crops, and transport products to the market; and

**WHEREAS**, offshore oil drilling would create new jobs that often pay well above the national average; and

**WHEREAS**, production of oil and natural gas has brought billions of dollars in revenue to state and federal governments; and

**WHEREAS**, new drilling techniques and environmentally sound technologies have made drilling and production methods that practically eliminate spills from offshore platforms; and

**WHEREAS**, America's energy producers and North Dakota's oil and gas industry invest billions of dollars into research and development of new energy technologies to make exploration in the Outer Continental Shelf and the Bakken Shale Formation economical; and

**WHEREAS**, the administration's proposal of billions of dollars in new taxes on America's oil and gas industry will discourage investment in new energy technologies and exploration, resulting in a loss of jobs, and more price volatility in energy markets; and

**WHEREAS**, the imposition of a windfall profits tax, or the elimination of incentives to encourage energy production, on oil and natural gas companies will lead to decreased supply and increased prices; and

**WHEREAS**, safe and responsible development and production of domestic energy resources will provide economic benefits, enhance national security, reduce

dependence on foreign sources of energy, and encourage research and development of new energy technologies;

**WHEREAS**, a quarter section of land may have hundreds of individuals with severed mineral rights in relation to that quarter; and

**WHEREAS**, the surface owner may not own any or all of the severed mineral rights, but is burdened entirely with the development of those rights; and

**WHEREAS**, it is often extremely difficult to determine who owns severed mineral rights in this state, whether the owners are governmental entities, residents, or nonresidents who may or may not actively manage the mineral interests; and

**WHEREAS**, there are procedures for the termination of mineral interests in North Dakota Century Code Chapter 38-18.1 that should be reviewed to determine if the statutory provisions are meeting the needs of the people of this state and if issues and abuses have arisen due to the increased oil and gas activity in this state; and

**WHEREAS**, North Dakota receives over \$100 million of annual tax revenue from the lignite industry; and

**WHEREAS**, North Dakota lignite is used to generate electricity for more than two million people in the Northern Great Plains Region and to produce synthetic natural gas from coal that heats 400,000 homes and businesses in Eastern states; and

**WHEREAS**, agriculture is a major industry in North Dakota and is dependent on carbon-based fuels; and

**WHEREAS**, North Dakota's citizens are dependent on fossil fuel-based electricity generation; and

**WHEREAS**, federal, regional, and state initiated cap and trade systems will have a disproportional negative effect on the North Dakota economy; and

**WHEREAS**, Minnesota attempts to regulate greenhouse gas emissions from North Dakota power plants by including emissions from the generation of electricity imported from outside Minnesota and consumed in Minnesota within the definitions of the Minnesota Next Generation Energy Act of 2007; and

**WHEREAS**, should the state of Minnesota not adopt a plan to implement the greenhouse gas emission reduction requirements of the Minnesota Next Generation Energy Act of 2007 by August 1, 2009, the result will be a prohibition against importing fossil fuel-based electricity from new facilities located in North Dakota and entering new long-term power purchase agreements with fossil fuel-based power plants located in North Dakota;

**NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:**

That the Industrial Commission conduct a study of the economic impacts of proposed federal, regional, and state carbon cap and trade systems, including the Minnesota Next Generation Energy Act of 2007; and

**BE IT FURTHER RESOLVED**, that the Industrial Commission report the findings and recommendations of the study to the Legislative Council by September 1, 2010.

(Senators Potter, Krauter, Marcellais)  
(Representatives Kilichowski, S. Meyer, Schmidt)

A concurrent resolution urging the Congress of the United States and the President to enact federal legislation promoting travel to the United States by overseas visitors, thereby promoting the economies of communities across North Dakota and the United States.

**WHEREAS**, travel and tourism generates \$1.7 trillion in economic activity in the United States every year; and

**WHEREAS**, travel and tourism is a powerful economic generator for North Dakota, accounting for \$3.8 billion in visitor spending in the state in 2006; and

**WHEREAS**, travel and tourism promote job creation in North Dakota with as many as 30,240 jobs related to travel and tourism economic activity, 8.6 percent of total employment in the state; and

**WHEREAS**, travel to the United States from overseas destinations has yet to rebound to pre-9/11 levels; and

**WHEREAS**, tourism promotes diplomacy as overseas visitors are more likely to have a favorable opinion of the United States after having visited; and

**WHEREAS**, all major industrialized nations except the United States have national tourism policies and spend significant funds on promoting their destinations overseas, and, in turn, see substantial returns on their investments; and

**WHEREAS**, communities across the state work to promote travel and would benefit from a federal promotion; and

**WHEREAS**, the Travel Promotion Act would benefit North Dakota and every state, create jobs, explain national security procedures, and improve our national image around the world;

**NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:**

That the Sixty-first Legislative Assembly urges the Congress of the United States and the President to enact federal legislation promoting travel to the United States by overseas visitors, thereby promoting the economies of communities across North Dakota and the United States; and

(Senators Wanzek, Miller, Taylor)  
(Representatives D. Johnson, Nelson)

A concurrent resolution recognizing the need for viable and sustainable agricultural practices in this state.

**WHEREAS**, in 2000 the world population was 6 billion and by 2025 it is predicted to reach 8 billion—an increase of 33 percent; and

**WHEREAS**, in 1965 there were 1.1 acres of arable land per person and by 2025 there will be under 0.5 acre per person available for food production; and

**WHEREAS**, in order to accommodate the food needs of a growing world population, it will be important that agricultural producers having operations of all sizes and types explore ways to improve their management practices and focus on using inputs and resources in the most effective and efficient ways possible; and

**WHEREAS**, in order for present-day agricultural producers to leave a legacy of rich, fertile, and productive land to future generations, they should be encouraged to consider incorporating, in their production practices, both the latest scientific research findings and emerging technologies;

**NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:**

That the Sixty-first Legislative Assembly recognizes that agricultural producers of all sizes and types should be encouraged to pursue effective and efficient practices, in order to ensure that agriculture remains viable and sustainable for multiple generations yet to come; and

**BE IT FURTHER RESOLVED**, that the Secretary of State forward copies of this resolution to the United States Secretary of Agriculture and to each member of the North Dakota Congressional Delegation.

(Senators Wanzek, Taylor)  
(Representatives Brandenburg, Froelich)

A concurrent resolution urging Congress to examine carefully the known and potential impacts of implementing a national animal identification system.

**WHEREAS**, to protect the health of United States livestock and poultry and the economic well-being of those industries, it is imperative that an animal disease be traced to its source quickly and effectively; and

**WHEREAS**, when a disease outbreak occurs, animal health officials need to know which animals are involved in the outbreak, where the infected animals are located, and what other animals might have been exposed to the disease; and

**WHEREAS**, a rapid disease response means fewer affected producers, less economic loss, greater preservation of marketability, and increases in markets at home and abroad; and

**WHEREAS**, the national animal identification system is an information system intended to help producers and animal health officials respond quickly and effectively to animal disease events in the United States; and

**WHEREAS**, concerns still exist regarding the effect that a national animal identification system will have on producers, whether it will impinge upon individual rights and privacy, whether it will increase production costs, and whether it will create a large government bureaucracy;

**NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:**

That the Sixty-first Legislative Assembly urges the Congress of the United States and the Secretary of the United States Department of Agriculture to examine carefully the known and potential impacts that implementation of a national animal identification system will have on producers of all sizes and on the livestock industry, and to encourage voluntary participation and undertake further development of the system only after assurances exist that the concerns are either without foundation or significantly outweighed by the system's benefits; and

**BE IT FURTHER RESOLVED**, that the Secretary of State forward copies of this resolution to the Secretary of the United States Department of Agriculture and to each member of the North Dakota Congressional Delegation.

**CHAPTER 694****SENATE CONCURRENT RESOLUTION NO. 4020**

(Senators O'Connell, Grindberg, Wardner)  
(Representatives Berg, S. Meyer, Skarphol)

A concurrent resolution urging Congress to preserve the exemption of hydraulic fracturing from the provisions of the Safe Drinking Water Act and to not enact legislation that removes the exemption for hydraulic fracturing.

**WHEREAS**, Congress enacted the Safe Drinking Water Act to ensure the protection of the nation's drinking water sources; and

**WHEREAS**, since enactment of the Safe Drinking Water Act, the Environmental Protection Agency has never interpreted hydraulic fracturing as constituting "underground injection" under the Safe Drinking Water Act; and

**WHEREAS**, in 2004 the Environmental Protection Agency published a final report summarizing a study to evaluate the potential threat to underground sources of drinking water from hydraulic fracturing of coalbed methane production wells and the Environmental Protection Agency concluded that "additional or further study is not warranted at this time..." and that "the injection of hydraulic fracturing fluids into coalbed methane wells poses minimal threat to the underground sources of drinking water"; and

**WHEREAS**, Congress, in the Energy Policy Act of 2005, explicitly exempted hydraulic fracturing from the provisions of the Safe Drinking Water Act; and

**WHEREAS**, the Interstate Oil and Gas Compact Commission conducted a survey of North Dakota and other oil and gas-producing states which found that there were no known cases of ground water contamination associated with hydraulic fracturing; and

**WHEREAS**, hydraulic fracturing is currently, and has been for decades, a common operation used in exploration and production by the oil and gas industry in North Dakota and all the member states of the Interstate Oil and Gas Compact Commission; and

**WHEREAS**, approximately 35,000 wells are hydraulically fractured annually in the United States, and close to one million wells have been hydraulically fractured in the United States since the technique's inception, with no known harm to ground water; and

**WHEREAS**, the regulation of oil and gas exploration and production activities, including hydraulic fracturing, has traditionally been the province of the states; and

**WHEREAS**, the success of the Bakken Formation and development of domestic oil and gas resources across the United States has been revitalized by technological advancements which include the ability to fracture and stimulate challenging geological formations, such as the Bakken Formation in North Dakota, and thus should not be limited in the absence of any evidence that such fracturing has damaged the environment; and

**WHEREAS**, the Safe Drinking Water Act was never intended to grant to the federal government authority to regulate oil and gas drilling and production operations, such as "hydraulic fracturing," under the underground injection control program; and

**WHEREAS**, North Dakota and other member states of the Interstate Oil and Gas Compact Commission have adopted comprehensive laws and regulations to provide for safe operations and to protect the nation's drinking water sources and have trained personnel to effectively regulate oil and gas exploration and production; and

**WHEREAS**, domestic production of natural gas will ensure that the United States continues on the path to energy independence; and

**WHEREAS**, regulation of hydraulic fracturing as underground injection under the Safe Drinking Water Act would impose significant administrative costs on the state, substantially increase the cost of drilling oil and gas wells, and potentially stop the development of our state's valuable natural resources, including the Bakken and other formations with no resulting environmental benefits; and

**WHEREAS**, regulation of hydraulic fracturing as underground injection under the Safe Drinking Water Act would increase energy costs to the consumer;

**NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:**

That the Sixty-first Legislative Assembly urges the Congress of the United States to preserve the exemption of hydraulic fracturing from the provisions of the Safe Drinking Water Act and urges the Congress of the United States not to enact legislation that removes the exemption for hydraulic fracturing; and

**BE IT FURTHER RESOLVED**, that the Secretary of State forward copies of this resolution to the President of the United States, to the President of the Senate and the Speaker of the House of Representatives of the United States, and to each member of the North Dakota Congressional Delegation.

(Senators Miller, Wanzek, Klein)  
(Representatives Brandenburg, D. Johnson, S. Meyer)

A concurrent resolution urging Congress to recognize the need for United States Department of Agriculture inspection and regulation of horse processing facilities in the United States.

**WHEREAS**, the loss of governmentally regulated processing facilities in the United States has challenged the ability of public and private sector entities to deal with unwanted horses; and

**WHEREAS**, without economically affordable alternatives, individuals are simply abandoning unwanted horses at sale barns, along country roads, and on public lands; and

**WHEREAS**, the abandonment of horses is done without any regard for the horses' welfare and without regard for damage or injury that can be caused by a freeroaming horse on a road or highway; and

**WHEREAS**, the abandonment of horses on public lands may negatively impact herds of wild horses including the introduction of congenital defects and diseases; and

**WHEREAS**, it is estimated that more than 100,000 horses are unwanted by their owners;

**NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:**

That the Sixty-first Legislative Assembly urges Congress to recognize the need for United States Department of Agriculture inspection and regulation of horse processing facilities in the United States and to allow the transportation and processing of horses and the marketing and exportation of safe and wholesome horse meat; and

**BE IT FURTHER RESOLVED**, that the Secretary of State forward copies of this resolution to the President of the United States, the United States Secretary of Agriculture, the President of the Senate and Speaker of the House of Representatives of the United States Congress, the chairmen of the Senate and House Agriculture Committees, and to each member of the North Dakota Congressional Delegation.

(Senators Krauter, Seymour)

(Representatives Amerman, Ekstrom, Wolf)

A concurrent resolution urging Congress and the President of the United States to enact federal legislation to repeal perverse federal tax subsidies to United States companies that move manufacturing operations and American jobs offshore.

**WHEREAS**, the United States has lost millions of manufacturing jobs over the past eight years; and

**WHEREAS**, federal tax laws actually grant a United States company that closes down a United States manufacturing plant, fires its American workers, and moves those jobs to countries like China a large tax break; and

**WHEREAS**, the Internal Revenue Code allows these firms to defer paying any United States income taxes on the earnings from those now foreign-manufactured products until those profits are returned, if ever, to this country; and

**WHEREAS**, this wrong-headed deferral tax break rewards United States firms that move their production overseas and then turn around and import those products back to the United States for sale; and

**WHEREAS**, this deferral tax break puts companies on American main streets at a competitive disadvantage and has contributed to the loss of millions of good-paying American manufacturing jobs; and

**WHEREAS**, repealing this jobs export tax subsidy will not hinder the ability of United States firms to compete against foreign competitors in foreign markets; and

**WHEREAS**, nonpartisan tax policy experts have estimated that this tax subsidy will waste \$15.5 billion of tax revenues paid by hard-working taxpayers over the next 10 years;

**NOW, THEREFORE, BE IT RESOLVED BY THE SENATE OF NORTH DAKOTA, THE HOUSE OF REPRESENTATIVES CONCURRING THEREIN:**

That the Sixty-first Legislative Assembly urges the Congress of the United States and the President to enact federal legislation to repeal perverse federal tax subsidies to United States companies that move manufacturing operations and American jobs offshore; and

**WHEREAS**, President Roosevelt was named the Boy Scouts of America's first honorary vice president and its first and only designated "Chief Scout Citizen"; and

**WHEREAS**, currently these lands are leased at public auction for a maximum lease term of five years; and

**WHEREAS**, state lands have been sold in the past; and

**WHEREAS**, whether and to what extent a preference is given to the lessee should be reviewed; and
