Every insurance company, nonprofit health service corporation, and health maintenance organization that offers an accident and health line of insurance shall establish and implement an independent external review mechanism to review and determine whether medical care rendered under the line of insurance was medically necessary and appropriate to the claim as submitted by the provider. For purposes of this section, "independent external review" means a review conducted by the North Dakota health care review, inc., another peer review organization meeting the requirements of section 1152 of the Social Security Act, or any person designated by the commissioner to conduct an independent external review.
