ī.

1	<u>—2. а.</u>	The departmental budget submitted by the county social service board in 2015
2		for the 2016 budget may not exceed an amount determined using the-
3		departmental budget submitted in 2014 by the county social service board as a
4		starting point, subtracting the reduction in the county's social service funding-
5		responsibility for 2014 derived from transferring the county social service costs-
6		identified in this subdivision from the county social service board to the
7		department of human services, and applying to the resulting amount the
8		percentage salary and benefits increase provided by legislative appropriations for
9		state employees for taxable year 2015. For purposes of this subdivision, the
10		reduction in the county's social service funding responsibility derived from-
11		transferring the county social service costs identified in this subdivision from the
12		county social service board to the department of human services includes the
13		following:
14		(1) Foster care and subsidized adoption costs that would have been paid by the
15		county after December 31, 2015;
16		(2) The county's share of grant costs for medical assistance in the form of
17		payments for care furnished to recipients of therapeutic foster care services
18		which would have been paid by the county after December 31, 2015;
19		(3) The county's share of the costs for service payments to the elderly and
20		disabled which would have been paid by the county after December 15,
21		2015;
22		(4) The county's share of salary and benefits for family preservation services
23		pursuant to section 50-06-05.8 which would have been paid by the county-
24		after December 31, 2015;
25		(5) The county's share of the cost of the electronic benefits transfers for the
26		supplemental nutrition assistance program which would have been paid by-
27		the county after December 31, 2015; and
28	- <u></u>	(6) The computer processing costs which would have been paid by the county-
29		after December 31, 2015, which exceed the county's costs of operation of
30		the technical eligibility computer system in calendar year 1995 increased by-

1	the increase in the consumer price index for all urban consumers (all items,
2	United States city average) after January 1, 1996.
3	b. The departmental budget submitted by the county social service board in 2016-
4	for the 2017 budget may not exceed an amount determined using the 2015-
5	departmental budget as a starting point and applying to that amount the
6	percentage salary and benefits increase provided by legislative appropriations for-
7	state employees for 2016.
8	c. The budget must include a statement identifying the total savings to the county
9	as shown by a reduction in the amounts that otherwise would have been paid by
10	the county to the department of human services for the costs identified in-
11	subdivision a. The department of human services shall determine the appropriate
12	amount of what each county's costs would have been to help identify each
13	county's total savings.
14	— The county share of the human service budget must be funded entirely from
15	the county's property tax levy for that purpose and the county may not use funds-
16	from any other source to supplement the human services budget, with the
17	exception that the county may make use of the identifiable amount of other-
18	sources the county has used to supplement its human services budget for 2015-
19	and the county may use grant funds that may be available to the county under-
20	section 50-06-20.1.
21	d. The department of human services shall develop a process to review a request
22	from a county social service board for any proposed increase in staff needed as a
23	result of significantly increased caseloads for state-funded human services
24	programs, if the increase in staff would result in the county exceeding the budget
25	limitation established under this subsection. As part of its review process, the
26	department shall review countywide caseload information and consider the option-
27	of multicounty sharing of staff. If the department approves a request for a
28	proposed increase in staff, the county budget limitation established under
29	subdivision b may be increased by the amount determined necessary by the
30	department to fund the approved additional staff.

11	year;		
12			
13	reconciled to the current year of calculation of actual direct and indirect costs as		
14	provided in subdivision a and supplemental nutrition assistance program		
15	caseload and counties must be compensated accordingly in the first quarter of

12		the economic assistance case-months reported for the service area in the base year.
13		a. For purposes of this subsection, "economic assistance net expenditures" means
14		the amount calculated by subtracting the amount paid to the service area in the

17		b. For calendar year 2018 formula payment calculations, the base rate per
18		economic assistance case-month is equal to twenty-two dollars and
19		seventy-eight cents. For calendar year 2019 formula payment calculations, the
20		base rate per economic assistance case-month is equal to twenty-three dollars
21		and ninety-two cents.
22	<u> <u> </u></u>	The director shall calculate each service area's base rate per social service
23		case-month by dividing the service area's social service net expenditures by the social
24		service case-months reported for the service area in the base year.
25		a. For purposes of this subsection, "social service net expenditures" means the
26		amount calculated by subtracting the amount paid to the service area in the base

6	<u>at least 250,000;</u>
7	<u>b. 1.60 to each service area with a yearly economic assistance case-month count of</u>
8	fewer than 250,000 but at least 45,000;
9	<u>c. 1.75 to each service area with a yearly economic assistance case-month count of</u>
10	fewer than 45,000 but at least 22,000;
11	d. 2.00 to each service area with a yearly economic assistance case-month count of
12	fewer than 22,000 but at least 8,000;

14	fewer than 8,000 but at least 5,000; and
15	f. 2.35 to each service area with a yearly economic assistance case-month count of
16	fewer than 5,000.
17	<u>2. The weighted rate per economic assistance case-month must be determined by</u>
18	multiplying the weighting factor assigned to each service area under this section by
19	the base rate per economic assistance case-month.
20	
21	<u><u> </u></u>
22	<u>a. 1.00 to each service area with a yearly social service case-month count of at</u>
23	<u>least 10,000;</u>

28	<u>d. 1.60 to each service area with a yearly social service case-month count of fewer</u>
29	than 900 but at least 210;
30	e. 2.00 to each service area with a yearly social service case-month count of fewer
31	than 210 but at least 145; and
31	than 210 but at least 145; and

1	<u>f.</u> 2.50 to each service area with a yearly social service case-month count of fewer
2	<u>than 145.</u>

8	<u>—_1. The director shall calculate the total formula payment by summing the following:</u>
9	a. <u>The product of the service area's weighted rate per economic assistance</u>
10	case-month and the service area's most recently available economic assistance
11	caseload data.
12	<u>b.</u> The product of the service area's weighted rate per social service case-month
13	and the service area's most recently available social service caseload data.
14	<u>2. The director shall adjust the total formula payment as calculated in subsection 1 for</u>
15	minimum and maximum allowable increases as follows:
16	a. For calendar year 2018 formula payment calculations, the formula payment must
17	be at least one hundred two percent but no more than one hundred ten percent
18	of the service area's combined economic assistance adjusted base year gross
19	expenditures and social services adjusted base year gross expenditures.
20	However, if the case-month totals in the service area's most recently available
21	case-month data have increased by more than five percent compared to the
22	service area's case-month totals reported in the previous year for either
23	economic assistance cases or social service cases, the formula payment may
24	exceed one hundred ten percent of the service area's combined economic
25	assistance adjusted base year gross expenditures and social services adjusted
26	base year gross expenditures by the amounts calculated in subdivisions c and d
27	of this subsection.

30	percent of the service area's combined economic assistance adjusted base year
31	gross expenditures and social services adjusted base year gross expenditures.

		-
1		However, if the case-month totals in the service area's most recently available
2		case-month data have increased by more than five percent compared to the
3		service area's case-month totals reported in the previous year for either
4		economic assistance cases or social service cases, the formula payment may
5		exceed one hundred twenty percent of the service area's combined economic
6		assistance adjusted base year gross expenditures and social services adjusted
7		base year gross expenditures by the amounts calculated in subdivisions c and d
8		of this subsection.
9	<u> </u>	If the economic assistance case-month totals in the service area's most recently
10		available case-month data have increased by more than five percent compared
11		to the service area's economic assistance case-month totals reported in the
12		previous year, the formula payment may be increased by the amount resulting
13		from multiplying the service area's weighted rate per economic assistance
14		case-month by the number of economic assistance case-months that exceed one
15		hundred and five percent of the economic assistance case-month totals reported
16		in the previous year.
17	<u> <u>d.</u> </u>	If the social service case-month totals in the service area's most recently
18		available case-month data have increased by more than five percent compared
19		to the service area's social service case-month totals reported in the previous
20		year, the formula payment may be increased by the amount resulting from
21		multiplying the service area's weighted rate per social service case-month by the
22		number of social service case-months that exceed one hundred and five percent
23		of the social service case-month totals reported in the previous year.

services fund. All expenditures by the service area for the relief of the needy must be paid from
the service area human services fund. If, due to unforeseen or other extenuating
circumstances, a service area's formula distribution payment is not sufficient to meet the
expenses of that service area, the board of county commissioners may approve a transfer from
the county's general fund to the service area human services fund upon a majority vote of all
members. The balance of moneys in the fund on January first of each year may not exceed
thirty-five percent of the annual budget for the service area in the previous year or one hundred
thousand dollars, whichever is greater.
<u>50-34-09. Service area human services fund - Transfer.</u>
— If on January 1, 2018, the balance of a service area human services fund exceeds the
limitations in section 50-34-08, the county treasurer shall transfer the amount exceeding the
limitations in section 50-34-08 to the designated county general fund within that service area. A
county receiving a transfer shall reduce its county general fund mill levy for taxable year 2018
by an equivalent amount. If the amount of a county's general fund mill levy is not sufficient to
account for the entire required reduction, the county shall reduce an additional county-wide mill
levy for taxable year 2018 to account for the remainder of the required reduction. If on
January 1, 2019, and on January first of each year thereafter, the balance of a service area
human services fund exceeds the limitations in section 50-34-08, the director shall reduce the
service area's formula payment as directed in subsection 4 of section 50-34-02.
