23.1-12-17. Registration fee. (Contingent effective date - See note)

1. ~~An owner or operator of a tank shall pay an annual registration fee of fifty dollars for each aboveground or underground tank owned or operated by that person. If after the fiscal year has been closed and all expenses relating to the fiscal year have been accounted for, the fund balance is less than six million dollars, the annual registration fee of fifty dollars is increased to one hundred dollars. If after the fiscal year has been closed and all expenses relating to the fiscal year have been accounted for, the fund balance is five million five hundred thousand dollars or more and the annual registration fee has been increased to one hundred dollars, the fee must be reduced to fifty dollars. If after the fiscal year has been closed and all expenses relating to the fiscal year have been accounted for, the fund balance exceeds nine million dollars, the annual registration fee is reduced to five dollars. Annual registration fees must continue at five dollars until the fund balance does not exceed nine million dollars. Upon the recommendation and approval of the petroleum tank release compensation fund board, the department shall classify tanks with respect to degree of hazard, determine the risks of each classification, and fix the registration fee for each classification at a rate sufficient to provide for:~~
 - a. The payment of the expenses of administration of the fund;
 - b. The reimbursement for corrective action provided under this chapter; and
 - c. The maintenance by the fund of adequate reserves and surplus so the fund may be kept solvent at all times.
2. The department shall establish the schedule of registration fees by rules adopted in accordance with chapter 28-32.
- 2-3. An owner or operator of an existing tank that is discovered at a location that currently and previously has had tanks registered with the fund shall pay an additional twenty-five dollar penalty fee in addition to the registration fee for each aboveground tank and each underground tank owned or operated by that person for each previous year that the tank was required to be registered for which a fee was not paid. The payment includes the fees and the penalty for the failure to register.
- 3-4. An owner or operator of an existing tank at a location that was not previously and continuously registered with the fund, whether the registration was required by law or not must provide the fund with a phase two environmental study conducted by a qualified firm according to American society for testing materials standards. A tank integrity test must also be performed. The environmental study and tank integrity test must be reviewed by the ~~commissioner~~department along with the application for registration with the fund. If the ~~commissioner~~department rejects the application, the applicant is denied eligibility to the fund. However, if the site is remediated and the leaking tank is replaced, the applicant may reapply for registration with the fund. A new installation that is using a used tank must provide tank integrity test results for the used tank. Use of a synthetic liner in an aboveground dike system negates the need for a tank integrity test. The owner or operator of a new tank at a new site or a new tank at an existing site that had a tank

registered at the site previously need only pay the required fees for registration with the fund.

- 4-5. If accepted for registration with the fund, the owner or operator of the tank shall pay an additional twenty-five dollar penalty fee in addition to the registration fee for each aboveground tank and underground tank owned or operated by that person for each previous year that the tank was required to be registered for which a fee was not paid, regardless of ownership in each of those years. The payment includes the fees and the penalty for the failure to register.
- 5-6. The registration fees collected under this section must be paid to the ~~fund-administrator~~department for deposit in the state treasury for the dedicated credit to the petroleum release compensation fund.
- 6-7. If a registration payment is not received within sixty days of July first by the ~~commissioner~~department, a late fee of twenty-five dollars per tank per month must be imposed on the tank owner or operator.

SECTION 16. AMENDMENT. Section 23.1-12-18 of the North Dakota Century Code is amended and reenacted as follows:

23.1-12-18. Reimbursement for corrective action. (Contingent effective date - See note)

1. The ~~administrator~~department shall reimburse an eligible owner or operator for ninety percent of the costs of corrective action, including the investigation, which are greater than five thousand dollars and less than one million dollars per occurrence and two million dollars in the aggregate. An eligible tank owner or operator may not be liable for more than twenty thousand dollars out-of-pocket expenses for any one release. A reimbursement may not be made unless the ~~administrator~~department determines that:
 - a. At the time the release was discovered the owner or operator and the tank were in compliance with state and federal rules and rules applicable to the tank, including rules relating to financial responsibility, rules relating to infrastructure compatibility, and all rules relating to health and safety which were in effect at the time of the release;
 - b. The department was given notice of the release as required by federal and state law;
 - c. The owner or operator has paid the first five thousand dollars of the cost of corrective action; and
 - d. The owner or operator, to the extent possible, fully cooperated with the department ~~and the administrator~~ in responding to the release.
2. The fund shall compensate third parties for corrective action taken for a petroleum release if the provisions of subdivisions a, b, c, and d of subsection 1 were met at the time the release was discovered. Compensation for third-party corrective action includes compensation for costs incurred in returning the real estate to that level deemed duly remediated by the department.
3. The fund shall reimburse the tank owner, operator, or dealer for bodily injuries to a third party caused by a petroleum release if the provisions of subdivisions a, b, c, and d of subsection 1 were met at the time the release was discovered in an amount determined by:
 - a. Findings reduced to judgment in federal or state district court or such other court having jurisdiction over the matter in a proceeding in which the fund has been made a party;

- b. Findings by an arbitration panel agreed upon in writing by the parties in a proceeding in which the fund has been made a party; or
 - c. A written settlement entered into by the parties in which the ~~commissioner~~director of the department or the ~~commissioner's~~department's agent has participated. The settlement must be reviewed and approved by the ~~commissioner~~director of the department.
4. In any civil action against the owner, operator, or dealer for damages resulting from a petroleum release, if the pre-leak condition of real estate is an issue, and if there is no reasonable means of determining the pre-leak condition of real estate, the condition is that which exists at the time the department determines the real estate has been duly remediated.
 5. The fund may not compensate for attorney's fees of owners, operators, or dealers, nor may the fund compensate for exemplary damages, criminal fines, or administrative penalties.
 6. A third party accepting monetary compensation directly from the fund for damages due to a release caused by a tank owner, operator, or dealer covered by the fund is deemed to have waived any cause of action against the fund or against the tank owner, operator, or dealer.
 7. The fund shall reimburse the department for all costs, attorney's fees, and other legal expenses relating to administrative and adjudicative proceedings under this chapter and any subsequent legal proceeding. Any moneys reimbursed must be deposited in the department's operating fund in the state treasury and must be spent subject to appropriation by the legislative assembly.

 - a. Has had at the time of the appointment at least five years' experience in the construction, inspection, operation, maintenance, or repair of high-pressure boilers and pressure vessels as a mechanical engineer, boilermaker, steam operating engineer, or boiler inspector. An applicant possessing a mechanical engineering degree from an accredited school may substitute that degree for two years of the five years' experience, at the discretion of the department.
 - b. Holds a commission issued by the national board of boiler and pressure vessel inspectors or obtains the commission within one year after the date of appointment by the department.

The owner or user of a boiler of one hundred thousand pounds [45359.24 kilograms] per hour or more capacity desiring to qualify for thirty-six-month internal inspection intervals shall keep available for examination by the chief boiler inspector accurate records showing the date and actual time the boiler is out of service and the reason for being out of service, and the results of the chemical and physical analysis of the boiler water, whether from laboratory analysis of samples taken at regular intervals of not more than forty-eight hours or from continuous online analysers, which will adequately show the condition of the water and any other elements or characteristics of the water capable of producing corrosion or other deterioration of the boiler or its parts. If an inspection discloses deficiencies in equipment or in operating procedures, inspections may be required once every twelve months.

5. The chief boiler inspector may inspect any boiler to which a special inspection applies.
6. The department may suspend or revoke the appointment of any special inspector for cause.

23.1-16-09. Inspection and certificate fees.

1. Upon completion of inspection, the owner or user of a boiler shall pay to the department fees or a combination of inspection and certificate fees. The department shall determine the inspection fees. Certificate fees are determined by section 23.1-16-10. The department shall determine and annually may adjust a fee scale for the internal inspections of power boilers, internal inspections of low-pressure heating boilers, external inspections of all boilers, and inspection of boilers used exclusively for exhibition purposes.
2. Not more than two hundred dollars may be charged or collected for any one inspection of a boiler, except for special inspections made upon request. All other inspections made by the chief boiler inspector, including shop inspections and reviews and special inspections when requested by the owner or user of a boiler, must be charged at a rate not to exceed five hundred dollars per day or three hundred dollars per half day of four hours or less, plus payment for mileage, meals, and hotel expenses as allowed by sections 44-08-04 and 54-06-09, except that the mileage rate for a state-owned vehicle will be the actual amount incurred by the department.

The department shall issue a certificate of inspection for each boiler inspected upon receipt of an inspection report certifying that the boiler is in a safe condition to be operated. The department shall charge a fee of twenty dollars per year for each year that a certificate is valid, or part of a year thereof, for each certificate of inspection issued as the result of inspections authorized under sections 23.1-16-07 and 23.1-16-08. The fees are the liability of the owner or user and must be paid in accordance with rules adopted by the department. A certificate may not be issued for any boiler not in a safe condition to be operated or for a boiler for which the inspection and certificate fees have not been paid in full. A certificate is not valid for a period of more than thirty-six months for power boilers described in subsection 2 of section 23.1-16-07, and no more than twelve months for other power boilers, twelve months for steam traction engines, and thirty-six months for low-pressure boilers except that a two-month grace period may be extended for any certificate. Individuals operating hobby boilers within this state as of July 1, 2007, are considered acceptable for a license without additional training or examination. An individual who is not a resident of this state and who holds a boiler operator license or credential in another state or Canadian province is exempt from licensure as a hobby boiler operator in this state.
4. The department may not issue a certificate of inspection to any owner or user of a boiler who fails or refuses to comply with the rules. The department shall revoke any certificate presently in force upon evidence that the owner or user of the boiler is failing or refusing to comply with the rules.
5. Any owner or user of a boiler may request a hearing before the department within fifteen days from service of an order refusing or revoking a certificate of inspection. Upon approval by sixty percent or more of the qualified electors of the county voting on the question, the board of county commissioners shall impose a county sales tax at the rate approved by the electors on taxable transactions occurring outside of the boundaries of a city within that county if the city has imposed a sales tax for school districts, or subsequently enacts and imposes a sales tax for school districts under section 40-05.1-06.2. Proceeds from the tax imposed must be deposited in a special fund of the county and transferred quarterly to each school district that presented an adopted resolution to the board of county commissioners under subsection 1, in proportion to the tax imposed for each school district, for principal and interest payments on bonds issued for purposes of this section. Any funds in the county special fund at the end of a fiscal year which are unused and unobligated for principal and interest payments on bonds issued for purposes of this section may be transferred to the county general fund. Any tax imposed under this section remains effective until bonds issued under the funding authority of this section have been retired. Any shortfall in funding after application of revenue from the tax imposed for principal and interest payments on bonds issued for purposes of this section is the responsibility of the school district and not the county."
