SECTION 22. AMENDMENT. Section 6-09.4-06 of the North Dakota Century Code is amended and reenacted as follows:

6-09.4-06. Lending and borrowing powers generally.

1. The public finance authority may lend money to political subdivisions or other contracting parties through the purchase or holding of municipal securities which, in the opinion of the attorney general, are properly eligible for purchase or holding by the public finance authority under this chapter or chapter 40-57 and for purposes of the public finance authority's capital financing program the principal amount of any one issue does not exceed five hundred thousand dollars. However, the public finance authority may lend money to political subdivisions through the purchase of securities issued by the political subdivisions through the capital financing program without regard to the principal amount of the bonds issued, if the industrial commission approves a resolution that authorizes the public finance authority to purchase the securities. The capital financing program authorizing resolution must state that the industrial commission has determined that private bond markets will not be responsive to the needs of the issuing political subdivision concerning the securities or, if it appears that the securities can be sold through private bond markets without the involvement of the public finance authority, the authorizing resolution must state reasons for the public finance authority's involvement in the bond issue. The public finance authority may hold such municipal securities for any length of time it finds to be necessary. The public finance authority, for the purposes authorized by this chapter or chapter 40-57, may issue its bonds payable solely from the revenues available to the public finance authority which are authorized or pledged for payment of public finance authority obligations, and to otherwise assist political subdivisions or other contracting parties as provided in this chapter or chapter 40-57.
2. The public finance authority may lend or transfer money to the Bank of North Dakota ~~under~~as follows:
 - a. Under terms and conditions requiring the Bank to use the proceeds to make loans for agricultural improvements that qualify for assistance under the revolving loan fund program established by chapter 61-28.2; and
 - b. Under terms and conditions requiring the Bank to use the transferred proceeds to make loans for infrastructure projects that qualify for assistance under the infrastructure revolving loan fund established under section 6-09-49 and to use the transferred proceeds to support the resources trust fund. Bonds issued for this purpose are payable in each biennium solely from amounts the legislative assembly may appropriate for debt service for any biennium or from

a reserve fund established for the bonds. This section does not require the state to appropriate funds sufficient to make debt service payments with respect to the bonds or replenish a related reserve fund. The bonds are not a debt of the Bank or the state, and the full faith, credit, and taxing powers of the state are not pledged to the payment of the bonds. The obligation of the public finance authority with respect to the bonds must terminate and the bonds are no longer outstanding as of the date appropriated funds and reserves are insufficient to pay debt service on the bonds. In addition to providing funds for transfers to the Bank, the public finance authority may use the bond proceeds to pay the costs of issuance of the bonds and establish a reserve fund for the bonds.

3. Bonds of the public finance authority issued under this chapter or chapter 40-57 are not in any way a debt or liability of the state and do not constitute a loan of the credit of the state or create any debt or debts, liability or liabilities, on behalf of the state, or constitute a pledge of the faith and credit of the state, but all such bonds are payable solely from revenues pledged or available for their payment as authorized in this chapter. Each bond must contain on its face a statement to the effect that the public finance authority is obligated to pay such principal or interest, and redemption premium, if any, and that neither the faith and credit nor the taxing power of the state is pledged to the payment of the principal of or the interest on such bonds. Specific funds pledged to fulfill the public finance authority's obligations are obligations of the public finance authority.
4. All expenses incurred in carrying out the purposes of this chapter or chapter 40-57 are payable solely from revenues or funds provided or to be provided under this chapter or chapter 40-57 and nothing in this chapter may be construed to authorize the public finance authority to incur any indebtedness or liability on behalf of or payable by the state.

SECTION 23. AMENDMENT. Section 6-09.4-10 of the North Dakota Century Code is amended and reenacted as follows:

6-09.4-10. Reserve fund.

1. The public finance authority shall establish and maintain a reserve fund in which there must be deposited all moneys appropriated by the state for the purpose of the fund, all proceeds of bonds required to be deposited therein by terms of any contract between the public finance authority and its bondholders or any resolution of the public finance authority with respect to the proceeds of bonds, any other moneys or funds of the public finance authority which it determines to deposit therein, any contractual right to the receipt of moneys by the public finance authority for the purpose of the fund, including a letter of credit or similar instrument, and any other moneys made available to the public finance authority only for the purposes of the fund from any other source or sources. Moneys in the reserve fund must be held and applied solely to the payment of the interest on and the principal of bonds and sinking fund payments as the same become due and payable and for the retirement of bonds, including payment of any redemption premium required to be paid when any bonds are redeemed or retired prior to maturity. Moneys in the reserve fund may not be withdrawn therefrom if the withdrawal would reduce the amount in the reserve fund to an amount less than the required debt service reserve, except for payment of interest then due and payable on bonds and the principal of bonds then maturing and payable and sinking fund payments and for the retirement of bonds in accordance with the terms of any contract between the public finance authority and its bondholders and for the payments on account of which interest or principal or sinking fund payments or retirement of bonds, other moneys of the public finance authority are not then available in accordance with the terms of the contract. The required debt service reserve must be an aggregate

- amount equal to at least the largest amount of money required by the terms of all contracts between the public finance authority and its bondholders to be raised in the then current or any succeeding calendar year for the payment of interest on and maturing principal of outstanding bonds, and sinking fund payments required by the terms of any contracts to sinking funds established for the payment or redemption of the bonds.
2. If the establishment of the reserve fund for an issue or the maintenance of an existing reserve fund at a required level under this section would necessitate the investment of all or any portion of a new reserve fund or all or any portion of an existing reserve fund at a restricted yield, because to not restrict the yield may cause the bonds to be taxable under the Internal Revenue Code, then at the discretion of the public finance authority no reserve fund need be established prior to the issuance of bonds or the reserve fund need not be funded to the levels required by other subsections of this section or an existing reserve fund may be reduced.
 3. No bonds may be issued by the public finance authority unless there is in the reserve fund the required debt service reserve for all bonds then issued and outstanding and the bonds to be issued. Nothing in this chapter prevents or precludes the public finance authority from satisfying the foregoing requirement by depositing so much of the proceeds of the bonds to be issued, upon their issuance, as is needed to achieve the required debt service reserve. The public finance authority may at any time issue its bonds or notes for the purpose of providing any amount necessary to increase the amount in the reserve fund to the required debt service reserve, or to meet such higher or additional reserve as may be fixed by the public finance authority with respect to such fund.
 4. In order to assure the maintenance of the required debt service reserve, there shall be appropriated by the legislative assembly and paid to the public finance authority for deposit in the reserve fund, such sum, if any, as shall be certified by the industrial commission as necessary to restore the reserve fund to an amount equal to the required debt service reserve. However, the commission may approve a resolution for the issuance of bonds, as provided by section 6-09.4-06, which states in substance that this subsection is not applicable to the required debt service reserve for bonds issued under that resolution.
 5. If the maturity of a series of bonds of the public finance authority is three years or less from the date of issuance of the bonds, the public finance authority may determine that no reserve fund need be established for that respective series of bonds. If such a determination is made, holders of that respective series of bonds may have no interest in or claim on existing reserve funds established for the security of the holders of previously issued public finance authority bonds, and may have no interest in or claim on reserve funds established for the holders of subsequent issues of bonds of the public finance authority.
 6. The industrial commission may determine ~~that~~ this section is inapplicable in whole or in part for bonds issued ~~under section~~ as follows:
 - a. Under section 6-09.4-06 and as authorized by the sixty-sixth legislative assembly;
 - b. Under section 6-09.4-24; or ~~under~~
 - c. Under the public finance authority's state revolving fund program.

SECTION 24. Section 6-09.4-28 of the North Dakota Century Code is created and enacted as follows:

6-09.4-28. Debt service requirements - Infrastructure revolving loan fund - Resources trust fund.

Each biennium, the public finance authority shall request from the legislative assembly an appropriation from the general fund to meet the debt service requirements for evidences of indebtedness issued by the authority to support the infrastructure revolving loan fund and the resources trust fund.

SECTION 25. AMENDMENT. Subsection 6 of section 21-03-07 of the North Dakota Century Code is amended and reenacted as follows:

6. The governing body of any county may also by resolution adopted by a two-thirds vote dedicate the tax levy authorized by section 57-15-06.6 and subsection 5 of section 57-15-06.7 and may authorize and issue general obligation bonds to be paid by the dedicated levy for the ~~purpose of providing funds for the purchase, construction, reconstruction, or repair of regional or county correction centers, or parks and recreational facilities~~purposes identified under section 57-15-06.6 and subsection 5 of section 57-15-06.7; provided, that the initial resolution authorizing the tax levy dedication and general obligation bonds must be published in the official newspaper, and any owner of taxable property within the county may, within sixty days after publication, file with the county auditor a protest against the adoption of the resolution. Protests must be in writing and must describe the property which is the subject of the protest. If the governing body finds such protests to have been signed by the owners of taxable property having an assessed valuation equal to five percent or more of the assessed valuation of all taxable property within the county, as theretofore last finally equalized, all further proceedings under the initial resolution are barred.

SECTION 26. AMENDMENT. Section 21-03-19 of the North Dakota Century Code is amended and reenacted as follows:

21-03-19. Bonds - Terms.

Bonds issued under this chapter must be authorized by resolution, bear such date or dates, be in such denomination or denominations, be in such form, be subject to redemption with or without premium, and be subject to such other terms or conditions as in the judgment of the municipality are in the public interest of the municipality, and must provide that the last installment of principal falls due not more than twenty years from the date of the bonds or not more than thirty years for bonds sold to the entities under section 21-03-30. The requirements of this section apply to each new issue of bonds, or if so determined by the governing body, to the bonds of a new issue combined with all of the outstanding bonds of one or more designated issues of bonds previously issued and similarly payable from taxes or other sources of revenues, or both, as the case may be.

SECTION 27. AMENDMENT. Section 54-17-40 of the North Dakota Century Code is amended and reenacted as follows:

54-17-40. Housing incentive fund - Continuing appropriation - Report to budget section.

1. The housing incentive fund is created as a special revolving fund at the Bank of North Dakota. The housing finance agency may direct disbursements from the fund and a continuing appropriation from the fund is provided for that purpose.
2. a. After a public hearing, the housing finance agency shall create an annual allocation plan for the distribution of the fund. At least ~~twenty-five~~fifteen percent of the fund must be used to assist developing communities to address an unmet housing need or alleviate a housing shortage.

- b. ~~The annual allocation plan must give first priority through its scoring and ranking process to housing for essential service workers. For purposes of this subsection, "essential service workers" means individuals employed by a city, county, school district, medical or long-term care facility, the state of North Dakota, or others as determined by the housing finance agency who fulfill an essential public service.~~
- e. ~~The second priority in the annual allocation plan must be to provide housing for individuals and families of low or moderate income. For purposes of this second priority, eligible income limits are determined as a percentage of median family income as published in the most recent federal register notice. Under this second priority, the annual allocation plan must give preference to projects that benefit households with the lowest income and to projects that have rent restrictions at or below department of housing and urban development published federal fair market rents or department of housing and urban development section 8 payment standards.~~
- 3. The housing finance agency shall adopt guidelines for the fund so as to address unmet housing needs in this state. Assistance from the fund may be used solely for:
 - a. New construction, rehabilitation, or acquisition of a multifamily housing project;
 - b. Gap assistance, matching funds, and accessibility improvements;
 - c. Assistance that does not exceed the amount necessary to qualify for a loan using underwriting standards acceptable for secondary market financing or to make the project feasible; and

Any assistance that is repaid or recaptured must be deposited in the fund and is appropriated on a continuing basis for the purposes of this section.
- 6. The agency may collect a reasonable administrative fee from the fund, project developers, applicants, or grant recipients. The origination fee assessed to grant recipients may not exceed five percent of the project award.
- 7. ~~The housing finance agency shall maintain a register reflecting the number of housing units owned or master leased by cities, counties, school districts, or other employers of essential service workers. This register must also reflect those entities that are providing rent subsidies for their essential workers.~~
- 8. Upon request, the housing finance agency shall report to the industrial commission regarding the activities of the housing incentive fund.
- ~~9-8.~~ At least once per biennium, the housing finance agency shall provide a report to the budget section of the legislative management regarding the activities of the housing incentive fund. ~~The report must include the following:~~

- ~~a. The overall number of units owned, master leased, or subsidized by political subdivisions or other employers of essential service workers; and~~
- ~~b. A listing of projects approved and the number of units within those projects that provide housing for essential service workers.~~
