C. **Appropriations:** Explain the appropriation amounts. Provide detail, when appropriate, for each agency and fund affected. Explain the relationship between the amounts shown for expenditures and appropriations. Indicate whether the appropriation or a part of the appropriation is included in the executive budget or relates to a continuing appropriation.

In addition to the cost of administration, each hedge would have a premium that would vary with the amount of protection in oil price as well as the number of barrels protected. The total premiums for hedge contracts could not exceed \$95,000,000.
