### FIRST ENGROSSMENT

Sixty-sixth Legislative Assembly of North Dakota

#### **ENGROSSED SENATE BILL NO. 2345**

Introduced by

Senators Wanzek, Dotzenrod, Luick

Representatives Brandenburg, D. Johnson, Pollert

1 A BILL for an Act to amend and reenact sections 11-33-02.1, <u>11-33-22</u>, 23-25-11, 23.1-06-15,

2 and 58-03-11.1, and 58-03-17 of the North Dakota Century Code, relating to animal feeding

3 operations and zoning regulations; to provide an effective date; to provide a contingent effective

4 date; and to provide an expiration date.

### 5 BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

6 SECTION 1. AMENDMENT. Section 11-33-02.1 of the North Dakota Century Code is
7 amended and reenacted as follows:

8 11-33-02.1. Farming and ranching regulations - Requirements - Limitations -

### 9 **Definitions**.

10	1.	For	purposes	of this	section:
				• • • • • •	

11	a.	"ConcentratedAnimal feeding operation" means any livestock feeding, handling,				
12		or holding operation, or feed yard, where animals are concentrated in an area				
13		that is not normally used for pasture or for growing crops and in which animal				
14		wastes may accumulate. The term does not include normal wintering operations-				
15		for cattlea lot or facility, other than normal wintering operations for cattle and an				
16		aquatic animal production facility, where the following conditions are met:				
17		(1) Animals, other than aquatic animals, have been, are, or will be stabled or				
18		confined and fed or maintained for at least forty-five days in a twelve-month				
19		period; and				
20		(2) Crops, vegetation, forage growth, or postharvest residues are not sustained				
21		in the normal growing season over any portion of the lot or facility.				
22	b.	"Farming or ranching" means cultivating land for the production of agricultural				
23		crops or livestock, or raising, feeding, or producing livestock, poultry, milk, or fruit.				
24		The term does not include:				

1			(1) The production of timber or forest products; or
2			(2) The provision of grain harvesting or other farm services by a processor or
3			distributor of farm products or supplies in accordance with the terms of a
4			contract.
5		C.	"Livestock" includes beef cattle, dairy cattle, sheep, swine, poultry, horses, bison,
6			elk, fur animals raised for their pelts, and any other animals that are raised, fed,
7			or produced as a part of farming or ranching activities.
8		d.	"Location" means the setback distance between a structure, fence, or other
9			boundary enclosing a concentratedan animal feeding operation, including its
10			animal waste collection system, and the nearest occupied residence, the nearest
11			buildings used for nonfarm or nonranch purposes, or the nearest land zoned for
12			residential, recreational, or commercial purposes. The term does not include the
13			setback distance for the application of manure or for the application of other
14			recycled agricultural material under a nutrient management plan approved by the
15			department of health.
16	2.	For	purposes of this section, animal units are determined as follows:
17		<del>a.</del>	One mature dairy cow, whether milking or dry, equals 1.33 animal units;
18		<del>b.</del>	One dairy cow, heifer, or bull, other than an animal described in paragraph 1
19			equals 1.0 animal unit;
20		<del>C.</del>	One weaned beef animal, whether a calf, heifer, steer, or bull, equals 0.75 animal
21			<del>unit;</del>
22		<del>d.</del>	One cow-calf pair equals 1.0 animal unit;
23		e.	One swine weighing fifty-five pounds [24.948 kilograms] or more equals 0.4-
24			animal unit;
25		f <del>.</del>	One swine weighing less than fifty-five pounds [24.948 kilograms] equals 0.1
26			animal unit;
27		<del>g.</del>	One horse equals 2.0 animal units;
28		<del>h.</del>	One sheep or lamb equals 0.1 animal unit;
29		<del>i.</del>	One turkey equals 0.0182 animal unit;
30		<del>j.</del>	One chicken, other than a laying hen, equals 0.008 animal unit;
31		<del>k.</del>	One laying hen equals 0.012 animal unit;

1 I. One duck equals 0.033 animal unit; and 2 <del>m.</del> Any livestock not listed in subdivisions a through I equals 1.0 animal unit per-3 each one thousand pounds [453.59 kilograms] whether single or combined-4 animal weightprovided in subdivision c of subsection 7 of section 23-25-11. 5 3. A board of county commissioners may not prohibit or prevent the use of land or 6 buildings for farming or ranching and may not prohibit or prevent any of the normal 7 incidents of farming or ranching. 8 4. A board of county commissioners may not preclude the development of a-9 concentratedan animal feeding operation in the county. 10 5. A board of county commissioners may not prohibit the reasonable diversification or 11 expansion of a farming or ranching operation. 12 A board of county commissioners may adopt regulations that establish different 6. 13 standards for the location of concentrated animal feeding operations based on the size 14 of the operation and the species and type being fed. 15 7. If a regulation would impose a substantial economic burden on a concentrated an 16 animal feeding operation in existence before the effective date of the regulation, the 17 board of county commissioners shall declare that the regulation is ineffective with 18 respect to any concentrated animal feeding operation in existence before the effective 19 date of the regulation. 20 8. A board of county commissioners may establish high-density agricultural a. 21 production districts in which setback distances for concentratedanimal feeding 22 operations and related agricultural operations are less than those in other 23 districts. 24 b. A board of county commissioners may establish, around areas zoned for 25 residential, recreational, or nonagricultural commercial uses, low-density 26 agricultural production districts in which setback distances for 27 concentratedanimal feeding operations and related agricultural operations are 28 greater than those in other districts; provided, the low-density agricultural 29 production districts may not extend more than one and one-half miles [2.40 30 kilometers] from the edge of the area zoned for residential, recreational, or 31 nonagricultural commercial uses.

1		C.	The setbacks provided for in this subsection are subject to approval by the					
2			agriculture commissioner and may not vary by more than fifty percent from be a					
3			greater distance than those established in subdivision a of subsection 7 of					
4			section 23-25-11.					
5		d.	For purposes of this subsection, a "related agricultural operation" means a facility					
6			that produces a product or byproduct used by a concentrated an animal feeding					
7			operation.					
8	<u>9.</u>	<u>A pe</u>	erson intending to construct an animal feeding operation may petition the board of					
9		<u>coui</u>	nty commissioners for a determination whether the animal feeding operation would					
10		<u>com</u>	ply with zoning regulations adopted under this section and filed with the state					
11	1	<u>dep</u> a	artment of health under section 11-33-22 before the date the petition was received					
12		<u>by t</u> l	he county. The petition must contain a description of the nature, scope, and					
13		loca	tion of the proposed animal feeding operation and a site map showing road					
14		acce	ess, the location of any structure, and the distance from each structure to the					
			nearest section line. If the board of county commissioners does not object to the					
15		nea						
15 16			tion within sixty days of receipt, the animal feeding operation is deemed in					
		petit

1		a.	Regulate or impose zoning restrictions or requirements on animal feeding				
2			ope	operations or other agricultural operations except as expressly permitted under			
3			<u>this</u>	this section; or			
4		b.	Imp	ose water quality, closure, site security, lagoon, or nutrient plan regulations or			
5			<u>req</u> ı	uirements on animal feeding operations.			
6	(Co	nting	jent e	effective date - See note) Farming and ranching regulations -			
7	Require	emen	ts - L	imitations - Definitions.			
8	1.	For	purp	oses of this section:			
9		a.	" <del>Co</del>	ncentratedAnimal feeding operation" means any livestock feeding, handling,			
10			<del>or h</del>	olding operation, or feed yard, where animals are concentrated in an area-			
11			that	is not normally used for pasture or for growing crops and in which animal			
12			was	stes may accumulate. The term does not include normal wintering operations			
13			for (	cattlea lot or facility, other than normal wintering operations for cattle and an			
14			<u>aqu</u>	atic animal production facility, where the following conditions are met:			
15			<u>(1)</u>	Animals, other than aquatic animals, have been, are, or will be stabled or			
16				confined and fed or maintained for at least forty-five days in a twelve-month			
17				period; and			
18			<u>(2)</u>	Crops, vegetation, forage growth, or postharvest residues are not sustained			
19				in the normal growing season over any portion of the lot or facility.			
20		b.	"Fai	rming or ranching" means cultivating land for the production of agricultural			
21			crop	os or livestock, or raising, feeding, or producing livestock, poultry, milk, or fruit.			
22			The	e term does not include:			
23			(1)	The production of timber or forest products; or			
24			(2)	The provision of grain harvesting or other farm services by a processor or			
25				distributor of farm products or supplies in accordance with the terms of a			
26				contract.			
27		C.	"Liv	estock" includes beef cattle, dairy cattle, sheep, swine, poultry, horses, bison,			
28			elk,	fur animals raised for their pelts, and any other animals that are raised, fed,			
29			or p	produced as a part of farming or ranching activities.			
30		d.	"Loo	cation" means the setback distance between a structure, fence, or other			
31			bou	ndary enclosing a concentratedan animal feeding operation, including its			

1			anima	I waste collection system, and the nearest occupied residence, the nearest
2			buildir	igs used for nonfarm or nonranch purposes, or the nearest land zoned for
3			reside	ntial, recreational, or commercial purposes. The term does not include the
4			setba	ck distance for the application of manure or for the application of other
5			recycl	ed agricultural material under a nutrient management plan approved by the
6			depar	ment of environmental quality.
7	2.	F	r purpos	es of this section, animal units are determined as follows:
8		e	<del>One n</del>	nature dairy cow, whether milking or dry, equals 1.33 animal units;
9		ŧ	<del>One d</del>	airy cow, heifer, or bull, other than an animal described in paragraph 1
10			equale	s 1.0 animal unit;
11		e	<del>One w</del>	reaned beef animal, whether a calf, heifer, steer, or bull, equals 0.75 animal
12			<del>unit;</del>	
13		e	<del>One c</del>	ow-calf pair equals 1.0 animal unit;
14		е	<del>One s</del>	wine weighing fifty-five pounds [24.948 kilograms] or more equals 0.4
15			anima	<del>l unit;</del>
16		1	<del>One s</del>	wine weighing less than fifty-five pounds [24.948 kilograms] equals 0.1
17			anima	<del>l unit;</del>
18		ę	<del>One h</del>	orse equals 2.0 animal units;
19		h	<del>One s</del>	heep or lamb equals 0.1 animal unit;
20		ł	<del>One t</del> i	urkey equals 0.0182 animal unit;
21		j	<del>One c</del>	hicken, other than a laying hen, equals 0.008 animal unit;
22		k	<del>One la</del>	aying hen equals 0.012 animal unit;
23		+	<del>One d</del>	uck equals 0.033 animal unit; and
24		ff	Any liv	vestock not listed in subdivisions a through I equals 1.0 animal unit per-
25			each (	one thousand pounds [453.59 kilograms] whether single or combined
26			anima	Hweightas provided in subdivision c of subsection 7 of section 23.1-06-15.
27	3.	A	oard of	county commissioners may not prohibit or prevent the use of land or
28		b	ildings fo	r farming or ranching and may not prohibit or prevent any of the normal
29		ir	idents of	farming or ranching.
30	4.	A	oard of	county commissioners may not preclude the development of a-
31		е	ncentrate	edan animal feeding operation in the county.

1	5.	A board of county commissioners may not prohibit the reasonable diversification or					
2		ехр	expansion of a farming or ranching operation.				
3	6.	Abo	A board of county commissioners may adopt regulations that establish different				
4		star	ndards for the location of concentratedanimal feeding operations based on the size				
5		of th	ne operation and the species and type being fed.				
6	7.	lf a	regulation would impose a substantial economic burden on a concentratedan				
7		<u>anir</u>	nal feeding operation in existence before the effective date of the regulation, the				
8		boa	rd of county commissioners shall declare that the regulation is ineffective with				
9		resp	pect to any concentratedanimal feeding operation in existence before the effective				
10		date	e of the regulation.				
11	8.	a.	A board of county commissioners may establish high-density agricultural				
12			production districts in which setback distances for concentratedanimal feeding				
13			operations and related agricultural operations are less than those in other				
14			districts.				
15		b.	A board of county commissioners may establish, around areas zoned for				
16			residential, recreational, or nonagricultural commercial uses, low-density				
17			agricultural production districts in which setback distances for				
18			concentratedanimal feeding operations and related agricultural operations are				
19			greater than those in other districts; provided, the low-density agricultural				
20			production districts may not extend more than one and one-half miles [2.40				
21			kilometers] from the edge of the area zoned for residential, recreational, or				
22	I		nonagricultural commercial uses.				
23		C.	The setbacks provided for in this subsection are subject to approval by the				
24			agriculture commissioner and may not vary by more than fifty percent from be a				
25			greater distance than those established in subdivision a of subsection 7 of				
26			section 23.1-06-15.				
27		d.	For purposes of this subsection, a "related agricultural operation" means a facility				
28			that produces a product or byproduct used by a concentratedan animal feeding				
29			operation.				
30	<u>9.</u>	<u>A pe</u>	erson intending to construct an animal feeding operation may petition the board of				
31		<u>cou</u>	nty commissioners for a determination whether the animal feeding operation would				

1	comply with zoning regulations adopted under this section and filed with the
2	department of environmental quality under section 11-33-22 before the date the
3	petition was received by the county. The petition must contain a description of the
4	nature, scope, and location of the proposed animal feeding operation and a site map
5	showing road access, the location of any structure, and the distance from each
6	structure to the nearest section line. If the board of county commissioners does not
7	object to the petition within sixty days of receipt, the animal feeding operation is
8	deemed in compliance with the county zoning regulations. If the county allows animal
9	feeding operations as a conditional use, the county shall inform the applicant of the
10	required procedures upon receipt of the petition, and the conditional use regulations in
11	effect at the time the county receives the petition must control the approval process,
12	except the county shall make a decision on the application within sixty days of the
13	receipt of a complete conditional use permit application. If the board of county
14	commissioners determines the animal feeding operation would comply with zoning
15	regulations or fails to object under this section, the county may not impose additional
16	zoning regulations relating to the nature, scope, or location of the animal feeding
17	operation later, provided an application is submitted promptly to the state department
18	of health, the department issues a final permit, and construction of the animal feeding
19	operation commences within fivethree years from the date of the board's
20	determination or failure to object the department issues its final permit and any permit
21	appeals are exhausted. A board of county commissioners may not:
22	a. Regulate or impose zoning restrictions or requirements on animal feeding
23	operations or other agricultural operations except as expressly permitted under
24	this section; or
25	b. Impose water quality, closure, site security, lagoon, or nutrient plan regulations or
26	requirements on animal feeding operations.
27	SECTION 2. AMENDMENT. Section 11-33-22 of the North Dakota Century Code is
28	amended and reenacted as follows:
29	11-33-22. Regulation of concentrated animal feeding operations - Central repository.
30	<b>1.</b> Any zoning regulation that pertains to a concentrated an animal feeding operation, as
31	defined in section 11-33-02.1, and which is promulgated by a county after July 31,

1	2007, is not effective until filed with the state department of health for inclusion in the
2	central repository established under section 23-01-30. Any zoning regulation that
3	pertains to concentrated animal feeding operations and which was promulgated by a
4	county before August 1, 2007, may not be enforced until the regulation is filed with the
5	state department of health for inclusion in the central repository.
6	2. For purposes of this section:
7	a. "Concentrated animal feeding operation" means any livestock feeding, handling,
8	or holding operation, or feed yard, where animals are concentrated in an area-
9	that is not normally used for pasture or for growing crops and in which animal-
10	wastes may accumulate, or in an area where the space per animal unit is less-
11	than six hundred square feet [55.74 square meters]. The term does not include
12	normal wintering operations for cattle.
13	b. "Livestock" includes beef cattle, dairy cattle, sheep, swine, poultry, horses, and
14	fur animals raised for their pelts.
15	(Contingent effective date - See note) Regulation of concentrated animal feeding
16	operations - Central repository.
17	1.—Any zoning regulation that pertains to a concentrated an animal feeding operation and,
18	as defined in section 11-33-02.1, is not effective until filed with the department of
19	environmental quality for inclusion in the central repository established under section
20	23.1-01-10.
21	2. For purposes of this section:
22	a. "Concentrated animal feeding operation" means any livestock feeding, handling,
23	or holding operation, or feed yard, where animals are concentrated in an area
24	that is not normally used for pasture or for growing crops and in which animal
25	wastes may accumulate, or in an area where the space per animal unit is less-
26	than six hundred square feet [55.74 square meters]. The term does not include
27	normal wintering operations for cattle.
28	b. "Livestock" includes beef cattle, dairy cattle, sheep, swine, poultry, horses, and
29	fur animals raised for their pelts.
1	
30	SECTION 3. AMENDMENT. Section 23-25-11 of the North Dakota Century Code is

1 23-25-11. Regulation of odors - Rules. (Contingent repeal - See note)

2 In areas located within a city or the area over which a city has exercised extraterritorial 1. 3 zoning as defined in section 40-47-01.1, a person may not discharge into the ambient 4 air any objectionable odorous air contaminant that measures seven odor concentration 5 units or higher outside the property boundary where the discharge is occurring. If an 6 agricultural operation as defined by section 42-04-01 has been in operation for more 7 than one year, as provided by section 42-04-02, and the business or residence making 8 the odor complaint was built or established after the agricultural operation was 9 established, the measurement for compliance with the seven odor concentration units 10 standard must be taken within one hundred feet [30.48 meters] of the subsequently 11 established residence, church, school, business, or public building making the 12 complaint rather than at the property boundary of the agricultural operation. The 13 measurement may not be taken within five hundred feet [.15 kilometer] of the property 14 boundary of the agricultural operation.

- 15
  2. In areas located outside a city or outside the area over which a city has exercised
  16 extraterritorial zoning as defined in section 40-47-01.1, a person may not discharge
  17 into the ambient air any objectionable odorous air contaminant that causes odors that
  18 measure seven odor concentration units or higher as measured at any of the following
  19 locations:
- a. Within one hundred feet [30.48 meters] of any residence, church, school,
  business, or public building, or within a campground or public park. An odor
  measurement may not be taken at the residence of the owner or operator of the
  source of the odor, or at any residence, church, school, business, or public
  building, or within a campground or public park, that is built or established within
  one-half mile [.80 kilometer] of the source of the odor after the source of the odor
  has been built or established;
- b. At any point located beyond one-half mile [.80 kilometer] from the source of the
  odor, except for property owned by the owner or operator of the source of the
  odor, or over which the owner or operator of the source of the odor has
  purchased an odor easement; or

1 If a county or township has zoned or established a setback distance for an animal C. 2 feeding operation which is greater than one-half mile [.80 kilometer] under either 3 section 11-33-02.1 or 58-03-11.1, or if the setback distance under subsection 7 is 4 greater than one-half mile [.80 kilometer], measurements for compliance with the 5 seven odor concentration units standard must be taken at the setback distance 6 rather than one-half mile [.80 kilometer] from the facility under subdivision b, 7 except for any residence, church, school, business, public building, park, or 8 campground within the setback distance which was built or established before 9 the animal feeding operation was established, unless the animal feeding 10 operation has obtained an odor easement from the pre-existing facility.

11 3. An odor measurement may be taken only with a properly maintained scentometer, by 12 an odor panel, or by another instrument or method approved by the state department 13 of health, and only by inspectors certified by the department who have successfully 14 completed a department-sponsored odor certification course and demonstrated the 15 ability to distinguish various odor samples and concentrations. If a certified inspector 16 measures a violation of this section, the department may send a certified letter of 17 apparent noncompliance to the person causing the apparent violation and may 18 negotiate with the owner or operator for the establishment of an odor management 19 plan and best management practices to address the apparent violation. The 20 department shall give the owner or operator at least fifteen days to implement the odor 21 management plan. If the odor problem persists, the department may proceed with an 22 enforcement action provided at least two certified inspectors at the same time each 23 measure a violation and then confirm the violation by a second odor measurement 24 taken by each certified inspector, at least fifteen minutes, but no more than two hours, 25 after the first measurement.

4. A person is exempt from this section while spreading or applying animal manure or
other recycled agricultural material to land in accordance with a nutrient management
plan approved by the state department of health. A person is exempt from this section
while spreading or applying animal manure or other recycled agricultural material to
land owned or leased by that person in accordance with rules adopted by the
department. An owner or operator of a lagoon or waste storage pond permitted by the

1		depa	artment is exempt from this section in the spring from the time when the cover of					
2		the	the permitted lagoon or pond begins to melt until fourteen days after all the ice cover					
3		on t	on the lagoon or pond has completely melted. Notwithstanding these exemptions, all					
4		pers	sons shall manage their property and systems to minimize the impact of odors on					
5		theii	r neighbors.					
6	5.	This	section does not apply to chemical compounds that can be individually measured					
7		by ir	nstruments, other than a scentometer, that have been designed and proven to					
8		mea	asure the individual chemical or chemical compound, such as hydrogen sulfide, to					
9		a re	asonable degree of scientific certainty, and for which the state department of					
10		hea	Ith has established a specific limitation by rule.					
11	6.	For	purposes of this section <del>, a public park is a park established by the federal</del>					
12		gove	ernment, the state, or a political subdivision of the state in the manner prescribed					
13		<del>by k</del>	aw. For purposes of this section, a campground is:					
14		<u>a.</u>	"Business" means a commercial building used primarily to carry on a for-profit or					
15			nonprofit business which is not residential and not used primarily to manufacture					
16			or produce raw materials, products, or agricultural commodities;					
17		<u>b.</u>	"Campground" means a public or private area of land used exclusively for					
18			camping and open to the public for a fee on a regular or seasonal basis;					
19		<u>C.</u>	"Church" means a building owned by a religious organization and used primarily					
20			for religious purposes;					
21		<u>d.</u>	"Park" means a park established by the federal government, the state, or a					
22			political subdivision of the state in the manner prescribed by law;					
23		<u>e.</u>	"Public building" means a building owned by a county, city, township, school					
24			district, park district, or other unit of local government; the state; or an agency,					
25			industry, institution, board, or department of the state; and					
26		<u>f.</u>	"School" means a public school or nonprofit, private school approved by the					
27			superintendent of public instruction.					
28	7.	a.	In a county or township that does not regulate the nature, scope, and or location					
29			of an animal feeding operation under section 11-33-0211-33-02.1 or section					
30			58-03-11.1, the department shall require that any new animal feeding operation					

2       school, business, public building, park, or campground.         3       (1)       If there are fewer than three hundred animal units, there is no minimum setback requirement.         5       (2)       If there are at least three hundred animal units but no more than one thousand animal units, the setback for any animal operation is one-half mile [.80 kilometer].         8       (3)       If there are at least one thousand one animal units but no more than two thousand animal units, the setback for a hog operation is three-fourths mile [1.20 kilometers] and the setback for any other animal operation is one-half mile [.80 kilometer].         10       [1.20 kilometer].         11       mile [.80 kilometer].         12       (4)       If there are at least two thousand one animal units but no more than five thousand animal units, the setback for a hog operation is one-half mile [.80 kilometers].         13       mile [.80 kilometer].         14       kilometers].         15       mile [1.20 kilometers].         16       (5)       If there are five thousand one or more animal units, the setback for a hog operation is one animal operation is one and one-half miles [2.40 kilometers] and the setback for any other animal operator any other animal operator any other animal operator any other animal operator         17       operation is one and one-half miles [2.40 kilometers].         18       mile [1.60 kilometers].         19       b.       The setbacks set forth in subdi	1		perr	permitted under chapter 61-28 be set back from any existing residence, church,				
4       setback requirement.         5       (2)       If there are at least three hundred animal units but no more than one thousand animal units, the setback for any animal operation is one-half mile [.80 kilometer].         8       (3)       If there are at least one thousand one animal units but no more than two thousand animal units, the setback for a hog operation is three-fourths mile [1.20 kilometer].         10       [1.20 kilometer].         11       mile [.80 kilometer].         12       (4)       If there are at least two thousand one animal units but no more than five thousand animal units, the setback for a hog operation is one mile [1.60 kilometers] and the setback for any other animal operation is three-fourths mile [1.20 kilometers].         13       thousand animal units, the setback for a hog operation is one mile [1.60 kilometers].         14       setbacks for any other animal operation is one mile [1.60 kilometers].         15       operation is one and one-half miles [2.40 kilometers] and the setback for any other animal operation is one mile [1.60 kilometers].         19       b.       The setbacks set forth in subdivision a do not apply if the owner or operator applying for the permit obtains an odor easement from the pre-existing use that is closer.         22       c.       For purposes of this section:         23       (1)       One mature dairy cow, whether milking or dry, equals 1.33 animal units;         24       (2)       One dairy cow, heifer or bull, other than an	2		scho	school, business, public building, park, or campground.				
5(2)If there are at least three hundred animal units but no more than one thousand animal units, the setback for any animal operation is one-half mile [.80 kilometer].8(3)If there are at least one thousand one animal units but no more than two thousand animal units, the setback for a hog operation is three-fourths mile [1.20 kilometers] and the setback for any other animal operation is one-half mile [.80 kilometer].10[1.20 kilometers] and the setback for any other animal operation is one-half mile [.80 kilometer].12(4)If there are at least two thousand one animal units but no more than five thousand animal units, the setback for a hog operation is one mile [1.60 kilometers] and the setback for any other animal operation is three-fourths mile [1.20 kilometers].16(5)If there are five thousand one or more animal units, the setback for a hog operation is one and one-half miles [2.40 kilometers] and the setback for any other animal operation is one mile [1.60 kilometers].19b.The setbacks set forth in subdivision a do not apply if the owner or operator applying for the permit obtains an odor easement from the pre-existing use that is closer.22c.For purposes of this section:23(1)One mature dairy cow, whether milking or dry, equals 1.33 animal units;24(2)One dairy cow, heifer or bull, other than an animal described in paragraph 1 equals 1.0 animal unit;26(3)One weaned beef animal, whether a calf, heifer, steer, or bull, equals 0.75 animal unit;28(4)One cow-calf pair equals 1.0 animal unit;29(5)One swine weighing fifty-five pounds [24.948 kilograms	3		(1)	If there are fewer than three hundred animal units, there is no minimum				
6       thousand animal units, the setback for any animal operation is one-half mile         7       [.80 kilometer].         8       (3) If there are at least one thousand one animal units but no more than two         9       [1.20 kilometers] and the setback for a hog operation is three-fourths mile         10       [1.20 kilometers] and the setback for any other animal operation is one-half         11       mile [.80 kilometer].         12       (4) If there are at least two thousand one animal units but no more than five         13       thousand animal units, the setback for a hog operation is one mile [1.60         14       kilometers] and the setback for any other animal operation is one mile [1.60         15       mile [1.20 kilometers].         16       (5) If there are five thousand one or more animal units, the setback for a hog operation is one and one-half miles [2.40 kilometers] and the setback for a nog operation is one and one-half miles [2.40 kilometers].         17       operation is one and one-half miles [2.40 kilometers].         18       any other animal operation is one mile [1.60 kilometers].         19       b. The setbacks set forth in subdivision a do not apply if the owner or operator applying for the permit obtains an odor easement from the pre-existing use that is closer.         22       c. For purposes of this section:         23       (1) One mature dairy cow, whether miliking or dry, equals 1.33 animal units;	4			setback requirement.				
7       [.80 kilometer].         8       (3) If there are at least one thousand one animal units but no more than two         9       thousand animal units, the setback for a hog operation is three-fourths mile         10       [1.20 kilometers] and the setback for any other animal operation is one-half         11       mile [.80 kilometer].         12       (4) If there are at least two thousand one animal units but no more than five         13       thousand animal units, the setback for a hog operation is one mile [1.60         14       kilometers] and the setback for any other animal operation is three-fourths         15       mile [1.20 kilometers].         16       (5) If there are five thousand one or more animal units, the setback for a hog         17       operation is one and one-half miles [2.40 kilometers] and the setback for         18       any other animal operation is one mile [1.60 kilometers].         19       b. The setbacks set forth in subdivision a do not apply if the owner or operator         20       applying for the permit obtains an odor easement from the pre-existing use that is         21       closer.         22       c. For purposes of this section:         23       (1) One mature dairy cow, whether milking or dry, equals 1.33 animal units;         24       (2) One dairy cow, heifer or bull, other than an animal described in paragraph 1 <tr< td=""><td>5</td><td></td><td>(2)</td><td>If there are at least three hundred animal units but no more than one</td></tr<>	5		(2)	If there are at least three hundred animal units but no more than one

<ul> <li>28 (4) One cow-calf pair equals 1.0 animal unit;</li> <li>29 (5) One swine weighing fifty-five pounds [24.948 kilograms] or more equals 0.4</li> </ul>	26		(3)	One weaned beef animal, whether a calf, heifer, steer, or bull, equals 0.75				
29 (5) One swine weighing fifty-five pounds [24.948 kilograms] or more equals 0.4	27			animal unit;				
	28		(4)	One cow-calf pair equals 1.0 animal unit;				
30 animal unit;	29		(5)	One swine weighing fifty-five pounds [24.948 kilograms] or more equals 0.4				
	30			animal unit;				

1		(6)	One weaned swine weighing less than fifty-five pounds [24.948 kilograms]
2			equals 0.1 animal unit;
3		(7)	One horse equals 2.0 animal units;
4		(8)	One sheep or weaned lamb equals 0.1 animal unit;
5		(9)	One turkey equals 0.0182 animal unit;
6		(10)	One chicken <del>, other than a laying hen,</del> equals 0.0080.01 animal unit;
7		(11)	One laying hen equals 0.012 animal unit;
8		<del>(12)</del>	One duck or goose equals 0.0330.2 animal unit; and
9		<del>(13)<u>(1</u>)</del>	2) Any weaned livestock not listed in paragraphs 1 through 1211 equals 1.0
10			animal unit per each one thousand pounds [453.59 kilograms] whether
11			single or combined animal weight.
12		<u>d.</u> In a	a county or township that regulates the nature, scope, or location of an animal
13		fee	ding operation under section 11-33-02.1 or section 58-03-11.1, an applicant
14		for	an animal feeding operation permit shall submit to the department with the
15	I	per	mit application the zoning determination made by the county or township
16		unc	der subsection 9 of section 11-33-02.1 or subsection 9 of section 58-03-11.1,
17		unl	ess the animal feeding operation is in existence by January 1, 2019, and there
18		<u>is r</u>	to change in animals or animal units which would result in an increase in the
19		<u>set</u>	backs provided for in this section. The department may not impose additional
20		<u>odc</u>	or setback requirements.
21		<u>e. An</u>	animal feeding operation is not subject to zoning regulations adopted by a
22		<u>COL</u>	inty or township after the date an application for the animal feeding operation
23	I	<u>is s</u>	ubmitted to the department, provided construction of the animal feeding
24		<u>ope</u>	eration commences within fivethree years from the date the application is
25		<u>sut</u>	mitted final permit is issued and any permit appeals are exhausted. Unless
26		<u>the</u>	re is a change to the location of the proposed animal feeding operation or
27		<u>the</u>	re is a change in animal units which would result in an increase in the
28		<u>set</u>	backs under this section, this exemption remains in effect if the department
29		req	uires the applicant to submit a revised application.
30	8.	A permit	ted animal feeding operation may expand its permitted capacity by twenty-five
31		percent	on one occasion without triggering a higher setback distance.

1	9.	Neither a county nor a township may regulate or through any means impose
2		restrictions or requirements on animal feeding operations or on other agricultural
3		operations except as permitted under sections <del>11-33-0211-33-02.1</del> and
4		<del>58-03-11<u>58-03-11.1</u>.</del>
5	SEC	TION 4. AMENDMENT. Section 23.1-06-15 of the North Dakota Century Code is
6	amendeo	d and reenacted as follows:
7	23.1	-06-15. Regulation of odors - Rules. (Contingent effective date - <u>See note</u> )
8	1.	In areas located within a city or the area over which a city has exercised extraterritorial
9		zoning as defined in section 40-47-01.1, a person may not discharge into the ambient
10		air any objectionable odorous air contaminant that measures seven odor concentration
11		units or higher outside the property boundary where the discharge is occurring. If an
12		agricultural operation as defined by section 42-04-01 has been in operation for more
13		than one year, as provided by section 42-04-02, and the person making the odor
14		complaint was built or established after the agricultural operation was established, the
15		measurement for compliance with the seven odor concentration units standard must
16		be taken within one hundred feet [30.48 meters] of the subsequently established
17		residence, church, school, business, or public building making the complaint rather
18		than at the property boundary of the agricultural operation. The measurement may not
19		be taken within five hundred feet [.15 kilometer] of the property boundary of the
20		agricultural operation.
21	2.	In areas located outside a city or outside the area over which a city has exercised
22		extraterritorial zoning as defined in section 40-47-01.1, a person may not discharge
23		into the ambient air any objectionable odorous air contaminant that causes odors that
24		measure seven odor concentration units or higher as measured at any of the following
25		locations:
26		a. Within one hundred feet [30.48 meters] of any residence, church, school,
27		business, or public building, or within a campground or public park. An odor
28		measurement may not be taken at the residence of the owner or operator of the
29		source of the odor, or at any residence, church, school, business, or public
30		building, or within a campground or public park, that is built or established within

19.1146.02003

- one-half mile [.80 kilometer] of the source of the odor after the source of the odor
   has been built or established;
- b. At any point located beyond one-half mile [.80 kilometer] from the source of the
  odor, except for property owned by the owner or operator of the source of the
  odor, or over which the owner or operator of the source of the odor has
  purchased an odor easement; or
- 7 If a county or township has zoned or established a setback distance for an animal C. 8 feeding operation which is greater than one-half mile [.80 kilometer] under either 9 section 11-33-02.1 or 58-03-11.1, or if the setback distance under subsection 7 is 10 greater than one-half mile [.80 kilometer], measurements for compliance with the 11 seven odor concentration units standard must be taken at the setback distance 12 rather than one-half mile [.80 kilometer] from the facility under subdivision b, 13 except for any residence, church, school, business, public building, park, or 14 campground within the setback distance which was built or established before 15 the animal feeding operation was established, unless the animal feeding 16 operation has obtained an odor easement from the pre-existing facility.
- 17 3. An odor measurement may be taken only with a properly maintained scentometer, by 18 an odor panel, or by another instrument or method approved by the department of 19 environmental quality, and only by inspectors certified by the department who have 20 successfully completed a department-sponsored odor certification course and 21 demonstrated the ability to distinguish various odor samples and concentrations. If a 22 certified inspector measures a violation of this section, the department may send a 23 certified letter of apparent noncompliance to the person causing the apparent violation 24 and may negotiate with the owner or operator for the establishment of an odor 25 management plan and best management practices to address the apparent violation. 26 The department shall give the owner or operator at least fifteen days to implement the 27 odor management plan. If the odor problem persists, the department may proceed 28 with an enforcement action provided at least two certified inspectors at the same time 29 each measure a violation and then confirm the violation by a second odor 30 measurement taken by each certified inspector, at least fifteen minutes, but no more 31 than two hours, after the first measurement.

1	4.	A pe	erson is exempt from this section while spreading or applying animal manure or
2		othe	r recycled agricultural material to land in accordance with a nutrient management
3		plan	approved by the department of environmental quality. A person is exempt from
4		this	section while spreading or applying animal manure or other recycled agricultural
5		mate	erial to land owned or leased by that person in accordance with rules adopted by
6		the o	department. An owner or operator of a lagoon or waste storage pond permitted by
7		the o	department is exempt from this section in the spring from the time when the cover
8		of th	e permitted lagoon or pond begins to melt until fourteen days after all the ice
9		cove	er on the lagoon or pond has completely melted. Notwithstanding these
10		exer	mptions, all persons shall manage their property and systems to minimize the
11		impa	act of odors on their neighbors.
12	5.	This	section does not apply to chemical compounds that can be individually measured
13		by ir	nstruments, other than a scentometer, that have been designed and proven to
14		mea	sure the individual chemical or chemical compound, such as hydrogen sulfide, to
15		a rea	asonable degree of scientific certainty, and for which the department of
16		envi	ronmental quality has established a specific limitation by rule.
17	6.	For	purposes of this section <del>, a public park is a park established by the federal</del>
18		gove	ernment, the state, or a political subdivision of the state in the manner prescribed
19		<del>by la</del>	aw. For purposes of this section, a campground is:
20		<u>a.</u>	"Business" means a commercial building used primarily to carry on a for-profit or
21			nonprofit business which is not residential and not used primarily to manufacture
22			or produce raw materials, products, or agricultural commodities;
23		<u>b.</u>	"Campground" means a public or private area of land used exclusively for
24			camping and open to the public for a fee on a regular or seasonal basis;
25		<u>C.</u>	"Church" means a building owned by a religious organization and used primarily
26			for religious purposes;
27		<u>d.</u>	"Park" means a park established by the federal government, the state, or a
28			political subdivision of the state in the manner prescribed by law;
29		<u>e.</u>	"Public building" means a building owned by a county, city, township, school
30			district, park district, or other unit of local government; the state; or an agency,
31			industry, institution, board, or department of the state; and

1 "School" means a public school or nonprofit, private school approved by the f. 2 superintendent of public instruction. 3 7. a. In a county or township that does not regulate the nature, scope, andor location 4 of an animal feeding operation under section <del>11-33-02</del>11-33-02.1 or section 5 58-03-11.1, the department shall require that any new animal feeding operation 6 permitted under chapter 61-28 be set back from any existing residence, church, 7 school, business, public building, park, or campground. 8 If there are fewer than three hundred animal units, there is no minimum (1) 9 setback requirement. 10 (2) If there are at least three hundred animal units but no more than one 11 thousand animal units, the setback for any animal operation is one-half mile 12 [.80 kilometer]. 13 If there are at least one thousand one animal units but no more than two (3) 14 thousand animal units, the setback for a hog operation is three-fourths mile 15 [1.20 kilometers], and the setback for any other animal operation is one-half 16 mile [.80 kilometer]. 17 (4) If there are at least two thousand one animal units but no more than five 18 thousand animal units, the setback for a hog operation is one mile [1.60 19 kilometers], and the setback for any other animal operation is three-fourths 20 mile [1.20 kilometers]. 21 (5) If there are five thousand one or more animal units, the setback for a hog 22 operation is one and one-half miles [2.40 kilometers], and the setback for 23 any other animal operation is one mile [1.60 kilometers]. 24 b. The setbacks set forth in subdivision a do not apply if the owner or operator 25 applying for the permit obtains an odor easement from the pre-existing use that is 26 closer. 27 For purposes of this section: C. 28 One mature dairy cow, whether milking or dry, equals 1.33 animal units; (1) 29 (2) One dairy cow, heifer or bull, other than an animal described in paragraph 1 30 equals 1.0 animal unit;

1	(3)	One weaned beef animal, whether a calf, heifer, steer, or bull, equals
2	(0)	0.75 animal unit;
3	(4)	One cow-calf pair equals 1.0 animal unit;
4	(5)	One swine weighing fifty-five pounds [24.948 kilograms] or more equals
5	(0)	0.4 animal unit;
6	(6)	One <u>weaned</u> swine weighing less than fifty-five pounds [24.948 kilograms]
7	(0)	equals 0.1 animal unit;
8	(7)	One horse equals 2.0 animal units;
9	(8)	One sheep or <u>weaned</u> lamb equals 0.1 animal unit;
10	(9)	One turkey equals 0.0182 animal unit;
11	(10)	One chicken <del>, other than a laying hen,</del> equals 0.0080.01 animal unit;
12	(11)	One laying hen equals 0.012 animal unit;
13	<del>(12)</del>	One duck <u>or goose</u> equals 0.0330.2 animal unit; and
14	. ,	2) Any <u>weaned</u> livestock not listed in paragraphs 1 through <del>12<u>11</u> equals 1.0</del>
15		animal unit per each one thousand pounds [453.59 kilograms], whether
16		single or combined animal weight.
17	<u>d.</u> <u>In a</u>	county or township that regulates the nature, scope, or location of an animal
18	feed	ding operation under section 11-33-02.1 or section 58-03-11.1, an applicant
19	for a	an animal feeding operation permit shall submit to the department with the
20	perr	mit application the zoning determination made by the county or township
21	und	er subsection 9 of section 11-33-02.1 or subsection 9 of section 58-03-11.1,
22	unle	ess the animal feeding operation is in existence by January 1, 2019, and there
23	<u>is n</u>	o change in animals or animal units which would result in an increase in the
24	sett	backs provided for in this section. The department may not impose additional
25	odo	r setback requirements.
26	<u>e. An a</u>	animal feeding operation is not subject to zoning regulations adopted by a
27	<u>cou</u>	nty or township after the date an application for the animal feeding operation
28	<u>is s</u>	ubmitted to the department, provided construction of the animal feeding
29	ope	ration commences within five years from the date the application is submitted.
30	Unle	ess there is a change to the location of the proposed animal feeding

1			<u>ope</u>	ration, this exemption remains in effect if the department requires the
2			<u>app</u>	licant to submit a revised application.
3	8.	Аp	ermitt	ed animal feeding operation may expand its permitted capacity by twenty-five
4		per	cent o	on one occasion without triggering a higher setback distance.
5	9.	Ac	ounty	or township may not regulate or impose restrictions or requirements on
6		ani	mal fe	eding operations or other agricultural operations except as permitted under
7		sec	tions	<del>11-33-02<u>11-33-02.1</u> and <del>58-03-11<u>58-03-11.1</u>.</del></del>
8	SEC	стю	N 5. A	MENDMENT. Section 58-03-11.1 of the North Dakota Century Code is
9	amende	ed an	d reei	nacted as follows:
10	58-0	03-11	.1. Fa	arming and ranching regulations - Requirements - Limitations -
11	Definiti	ons.		
12	1.	For	purp	oses of this section:
13		a.	" <del>Co</del>	ncentratedAnimal feeding operation" means any livestock feeding, handling,
14			<del>or h</del>	olding operation, or feed yard, where animals are concentrated in an area
15			that	is not normally used for pasture or for growing crops and in which animal
16			was	tes may accumulate. The term does not include normal wintering operations
17			for (	cattlea lot or facility, other than normal wintering operations for cattle and an
18			<u>aqu</u>	atic animal production facility, where the following conditions are met:
19			<u>(1)</u>	Animals, other than aquatic animals, have been, are, or will be stabled or
20				confined and fed or maintained for at least forty-five days in a twelve-month
21				period; and
22			<u>(2)</u>	Crops, vegetation, forage growth, or postharvest residues are not sustained
23				in the normal growing season over any portion of the lot or facility.
24		b.	"Fa	rming or ranching" means cultivating land for the production of agricultural
25			crop	os or livestock, or raising, feeding, or producing livestock, poultry, milk, or fruit.
26			The	e term does not include:
27			(1)	The production of timber or forest products; or
28			(2)	The provision of grain harvesting or other farm services by a processor or
29				distributor of farm products or supplies in accordance with the terms of a
30				contract.

1		C.	"Livestock" includes beef cattle, dairy cattle, sheep, swine, poultry, horses, bison,
2			elk, fur animals raised for their pelts, and any other animals that are raised, fed,
3			or produced as a part of farming or ranching activities.
4		d.	"Location" means the setback distance between a structure, fence, or other
5			boundary enclosing a concentratedan animal feeding operation, including its
6			animal waste collection system, and the nearest occupied residence, the nearest
7			buildings used for nonfarm or nonranch purposes, or the nearest land zoned for
8			residential, recreational, or commercial purposes. The term does not include the
9			setback distance for the application of manure or for the application of other
10			recycled agricultural material under a nutrient management plan approved by the
11			state department of health.
12	2.	For	purposes of this section, animal units are determined as follows:
13		<del>a.</del>	One mature dairy cow, whether milking or dry, equals 1.33 animal units;
14		<del>b.</del>	One dairy cow, heifer, or bull, other than an animal described in subdivision a
15			equals 1.0 animal unit;
16		<del>C.</del>	One weaned beef animal, whether a calf, heifer, steer, or bull, equals 0.75 animal-
17			<del>unit;</del>
18		<del>d.</del>	One cow-calf pair equals 1.0 animal unit;
19		e.	One swine weighing fifty-five pounds [24.948 kilograms] or more equals 0.4-
20			animal unit;
21		<del>f.</del>	One swine weighing less than fifty-five pounds [24.948 kilograms] equals 0.1-
22			animal unit;
23		<del>g.</del>	One horse equals 2.0 animal units;
24		<del>h.</del>	One sheep or lamb equals 0.1 animal unit;
25		i.	One turkey equals 0.0182 animal unit;
26		÷	One chicken, other than a laying hen, equals 0.008 animal unit;
27		<del>k.</del>	One laying hen equals 0.012 animal unit;
28		ł.	One duck equals 0.033 animal unit; and
29		<del>m.</del>	Any livestock not listed in subdivisions a through I equals 1.0 animal unit per
30			each one thousand pounds [453.59 kilograms] whether single or combined

1	·		animal weightprovided under subdivision c of subsection 7 of
2			section <del>23-23-11</del> 23-25-11.
3	3.	۸h	oard of township supervisors may not prohibit or prevent the use of land or
4	5.		Idings for farming or ranching or any of the normal incidents of farming or ranching.
	4		
5	4.		egulation may not preclude the development of a concentrated <u>an animal</u> feeding
6	_	-	eration in the township.
7	5.		oard of township supervisors may not prohibit the reasonable diversification or
8		exp	pansion of a farming or ranching operation.
9	6.	Ab	oard of township supervisors may adopt regulations that establish different
10		stai	ndards for the location of concentratedanimal feeding operations based on the size
11		of t	he operation and the species and type being fed.
12	7.	lf a	regulation would impose a substantial economic burden on a concentratedan
13		<u>anii</u>	mal feeding operation in existence before the effective date of the regulation, the
14		boa	ard of township supervisors shall declare that the regulation is ineffective with
15		res	pect to any concentratedanimal feeding operation in existence before the effective
16		date	e of the regulation.
17	8.	a.	A board of township supervisors may establish high-density agricultural
18			production districts in which setback distances for concentratedanimal feeding
19			operations and related agricultural operations are less than those in other
20			districts.
21		b.	A board of township supervisors may establish, around areas zoned for
22			residential, recreational, or nonagricultural commercial uses, low-density
23			agricultural production districts in which setback distances for
24			concentratedanimal feeding operations and related agricultural operations are
25			greater than those in other districts; provided, the low-density agricultural
26			production districts may not extend more than one-half mile [0.80 kilometer] from
27			the edge of the area zoned for residential, recreational, or nonagricultural
28			commercial uses.
29		C.	The setbacks provided for in this subsection are subject to approval by the
30			agriculture commissioner and may not vary by more than fifty percent from be a
	I		

19.1146.02003

		,
1		greater distance than those established in subdivision a of subsection 7 of
2		section 23-25-11.
3		d. For purposes of this subsection, a "related agricultural operation" means a facility
4		that produces a product or byproduct used by a concentratedan animal feeding
5		operation.
6	<u>9.</u>	A person intending to construct an animal feeding operation may petition the board of
7		township supervisors for a determination whether the animal feeding operation would
8		comply with zoning regulations adopted under this section and filed with the state
9		department of health under section 58-03-17 before the date the petition was received
10		by the township. The petition must contain a description of the nature, scope, and
11		location of the proposed animal feeding operation and a site map showing road
12		access, the location of any structure, and the distance from each structure to the
13		nearest section line. If the board of township supervisors does not object to the petition
14		within sixty days of receipt, the animal feeding operation is deemed in compliance with
15		the township zoning regulations. If the township allows animal feeding operations as a
16		conditional use, the township shall inform the applicant of the required procedures
17		upon receipt of the petition, and the conditional use regulations in effect at the time the
18		township receives the petition must control the approval process, except the township
19		shall make a decision on the application within sixty days of the receipt of a complete
20		conditional use permit application. If the board of township supervisors determines the
21		animal feeding operation would comply with zoning regulations or fails to object under
22		this section, the township may not impose additional zoning regulations relating to the
23		nature, scope, or location of the animal feeding operation later, provided an application
24		is submitted promptly to the state department of health, the department issues a final
25		permit, and construction of the animal feeding operation commences within five three
26		years from the date of the board's determination or failure to object the department
27		issues its final permit and any permit appeals are exhausted. A board of township
28		supervisors may not:
29		a. Regulate or impose zoning restrictions or requirements on animal feeding
30		operations or other agricultural operations except as expressly permitted under
31		this section; or

1	t	<b>)</b> .	mpose water quality, closure, site security, lagoon, or nutrient plan regulations or
2		Ī	requirements on animal feeding operations.
3	(Conti	inge	nt effective date - See note) Farming and ranching regulations -
4	Requirem	ents	- Limitations - Definitions.
5	1. F	For p	urposes of this section:
6	a	a. '	ConcentratedAnimal feeding operation" means any livestock feeding, handling,
7		•	or holding operation, or feed yard, where animals are concentrated in an area
8		1	hat is not normally used for pasture or for growing crops and in which animal
9		3	wastes may accumulate. The term does not include normal wintering operations
10		1	or cattlea lot or facility, other than normal wintering operations for cattle and an
11		į	aquatic animal production facility, where the following conditions are met:
12		(	1) Animals, other than aquatic animals, have been, are, or will be stabled or
13			confined and fed or maintained for a total of forty-five days or more in any
14			twelve-month period; and
15		(	2) Crops, vegetation, forage growth, or post-harvest residues are not sustained
16			in the normal growing season over any portion of the lot or facility.
17	b	). '	'Farming or ranching" means cultivating land for the production of agricultural
18		(	crops or livestock, or raising, feeding, or producing livestock, poultry, milk, or fruit.
19		-	The term does not include:
20		(	1) The production of timber or forest products; or
21		(	2) The provision of grain harvesting or other farm services by a processor or
22			distributor of farm products or supplies in accordance with the terms of a
23			contract.
24	C	c. '	'Livestock" includes beef cattle, dairy cattle, sheep, swine, poultry, horses, bison,
25			elk, fur animals raised for their pelts, and any other animals that are raised, fed,
26		(	or produced as a part of farming or ranching activities.
27	С	d. '	'Location" means the setback distance between a structure, fence, or other
28		I	ooundary enclosing a concentratedan animal feeding operation, including its
29		i	animal waste collection system, and the nearest occupied residence, the nearest
30		I	puildings used for nonfarm or nonranch purposes, or the nearest land zoned for
31		I	esidential, recreational, or commercial purposes. The term does not include the

	•		-
1			setback distance for the application of manure or for the application of other
2			recycled agricultural material under a nutrient management plan approved by the
3			department of environmental quality.
4	2.	For	purposes of this section, animal units are determined as follows:
5		<del>a.</del>	One mature dairy cow, whether milking or dry, equals 1.33 animal units;
6		<del>b.</del>	One dairy cow, heifer, or bull, other than an animal described in subdivision a
7			equals 1.0 animal unit;
8		<del>C.</del>	One weaned beef animal, whether a calf, heifer, steer, or bull, equals 0.75 animal-
9			<del>unit;</del>
10		<del>d.</del>	One cow-calf pair equals 1.0 animal unit;
11		e.	One swine weighing fifty-five pounds [24.948 kilograms] or more equals 0.4
12			animal unit;
13		f.	One swine weighing less than fifty-five pounds [24.948 kilograms] equals 0.1
14			animal unit;
15		<del>g.</del>	One horse equals 2.0 animal units;
16		<del>h.</del>	One sheep or lamb equals 0.1 animal unit;
17		i.	One turkey equals 0.0182 animal unit;
18		j.	One chicken, other than a laying hen, equals 0.008 animal unit;
19		<del>k.</del>	One laying hen equals 0.012 animal unit;
20		ŀ.	One duck equals 0.033 animal unit; and
21		<del>m.</del>	Any livestock not listed in subdivisions a through I equals 1.0 animal unit per-
22			each one thousand pounds [453.59 kilograms] whether single or combined
23			animal weightprovided under subdivision c of subsection 7 of section 23.1-06-15.
24	3.	Ab	oard of township supervisors may not prohibit or prevent the use of land or
25		bui	ldings for farming or ranching or any of the normal incidents of farming or ranching.
26	4.	A re	egulation may not preclude the development of a concentratedan animal feeding
27		оре	eration in the township.
28	5.	Ab	oard of township supervisors may not prohibit the reasonable diversification or
29		exp	pansion of a farming or ranching operation.

1	6.	A board of township supervisors may adopt regulations that establish different
2		standards for the location of concentratedanimal feeding operations based on the size
3		of the operation and the species and type being fed.
4	7.	If a regulation would impose a substantial economic burden on a concentratedan
5		animal feeding operation in existence before the effective date of the regulation, the
6		board of township supervisors shall declare that the regulation is ineffective with
7		respect to any concentratedanimal feeding operation in existence before the effective
8		date of the regulation.
9	8.	a. A board of township supervisors may establish high-density agricultural
10		production districts in which setback distances for concentrated animal feeding
11		operations and related agricultural operations are less than those in other
12		districts.
13		b. A board of township supervisors may establish, around areas zoned for
14		residential, recreational, or nonagricultural commercial uses, low-density
15		agricultural production districts in which setback distances for
16		concentratedanimal feeding operations and related agricultural operations are
17		greater than those in other districts; provided, the low-density agricultural
18		production districts may not extend more than one-half mile [0.80 kilometer] from
19		the edge of the area zoned for residential, recreational, or nonagricultural
20		commercial uses.
21		c. The setbacks provided for in this subsection are subject to approval by the
22		agriculture commissioner and may not vary by more than fifty percent frombe a
23		greater distance than those established in subdivision a of subsection 7 of
24		section 23.1-06-15.
25		d. For purposes of this subsection, a "related agricultural operation" means a facility
26		that produces a product or byproduct used by a concentratedan animal feeding
27		operation.
28	<u>9.</u>	A person intending to construct an animal feeding operation may petition the board of
29		township supervisors for a determination whether the animal feeding operation would
30		comply with zoning regulations adopted under this section and filed with the
31		department of environmental quality under section 58-03-17 before the date the

	Legislative Assembly
1	petition was received by the township. The petition must contain a description of the
2	nature, scope, and location of the proposed animal feeding operation and a site map
3	showing road access, the location of any structure, and the distance from each
4	structure to the nearest section line. If the board of township supervisors does not
5	object to the petition within sixty days of receipt, the animal feeding operation is
6	deemed in compliance with the township zoning regulations. If the township allows
7	animal feeding operations as a conditional use, the township shall inform the applicant
8	of the required procedures upon receipt of the petition, and the conditional use
9	regulations in effect at the time the township receives the petition must control the
10	approval process, except the township shall make a decision on the application within
11	sixty days of the receipt of a complete conditional use permit application. If the board
12	of township supervisors determines the animal feeding operation would comply with
13	zoning regulations or fails to object under this section, the township may not impose
14	additional zoning regulations relating to the nature, scope, or location of the animal
15	feeding operation later, provided an application is submitted promptly to the state
16	department of health, the department issues a final permit, and construction of the
17	animal feeding operation commences within five three years from the date of the
18	board's determination or failure to object the department issues its final permit and any
19	permit appeals are exhausted. A board of township supervisors may not:
20	a. Regulate or impose zoning restrictions or requirements on animal feeding
21	operations or other agricultural operations except as expressly permitted under
22	this section; or
23	b. Impose water quality, closure, site security, lagoon, or nutrient plan regulations or
24	requirements on animal feeding operations.
25	SECTION 6. AMENDMENT. Section 58-03-17 of the North Dakota Century Code is
26	amended and reenacted as follows:
27	58-03-17. Regulation of <del>concentrated</del> animal feeding operations - Central repository.
28	<b>1.</b> Any zoning regulation that pertains to a concentrated an animal feeding operation, as
29	defined in section 58-03-11.1, and which is promulgated by a township after July 31,
30	2007, is not effective until filed with the state department of health for inclusion in the
31	central repository established under section 23-01-30. Any zoning regulation that

1       pertains to a concentrated animal feeding operation and which was promulgated by a         2       county or a township before August 1, 2007, may not be enforced until the regulation         3       is filed with the state department of health for inclusion in the central repository.         4       -2. For purposes of this section:         5       -a. "Concentrated animal feeding operation" means any livestock feeding, handling, er holding operation, or feed yard, where animals are concentrated in an area         7       that is not normally used for pasture or for growing crops and in which animal         8       wastes may accumulate, or in an area where the space per animal unit is less.         9       than six hundred square feet [55-74 square meters]. The term does not include         10       normal wintering operations for cattle.         11       -b. "Livestock" includes beef cattle, dairy cattle, sheep, swine, poultry, horses, and fur animals raised for their pelts.         12       (Contingent effective date - See note) Regulation of concentrated animal feeding         14       operations - Central repository.         15       1.—Any zoning regulation that pertains to a concentrated animal feeding operation and which was promulgated by a county or a township before August 1, 2007, may not be enforced until the regulation is filed with the department of environmental quality for inclusion in the central repository established under section 23.101-10. Any zoning regulation is filed with the department of environmental quality for inclusion i		
<ul> <li>is filed with the state department of health for inclusion in the central repository.</li> <li>2. For purposes of this section:</li> <li>a. 1	SECTION 7. EFFECTIVE DATE - CONTINGENT EFFECTIVE DATE - EXPIRATION DATE.
2	The portions of sections 1, 2, 5, and $46$ of this Act not subject to an existing contingency
3	become effective on August 1, 2019, and remain in effect until the legislative council receives
4	certification from the chief of the environmental health section of the state department of health
5	that all authority, powers, and duties from the environmental health section of the state
6	department of health have been transferred to the department of environmental quality. The
7	remainder of sections 1, 2, 5, and $46$ become effective on August 1, 2019, if the legislative
8	council has received certification from the chief of the environmental health section of the state
9	department of health that all authority, powers, and duties from the environmental health section
10	of the state department of health have been transferred to the department of environmental
11	quality. If, by August 1, 2019, the legislative council has not received certification from the chief
12	of the environmental health section of the state department of health that all authority, powers,
13	and duties from the environmental health section of the state department of health have been
14	transferred to the department of environmental quality, the remainder of sections 1, 2, 5, and $46$
15	of this Act become effective on the date certification is received.
