2 A. **Bill and fiscal impact summary:** Provide a brief summary of the measure, including description of the provisions having fiscal impact (limited to 300 characters).

SB2156 as amended proposes an additional \$0.25 fee for every passenger car or pickup truck registration or renewal and deposits those fees in a new driver's education fund.

B. **Fiscal impact sections**: Identify and provide a brief description of the sections of the measure which have fiscal impact. Include any assumptions and comments relevant to the analysis.

Section 1 imposes an additional fee of \$0.25 on each registration or renewal of passenger motor vehicles or pickup trucks. This fee is to be deposited in a special driver's education fund which would be administered by the Superintendent of Public Instruction for purposes as described in the bill.

- 3. State fiscal effect detail: For information shown under state fiscal effect in 1A, please:
 - A. **Revenues:** Explain the revenue amounts. Provide detail, when appropriate, for each revenue type and fund affected and any amounts included in the executive budget.

There are approximately 743,600 currently registered passenger and pickup truck vehicles. Under the provisions of this bill, the fee will generate approximately \$361,800 in revenue the first biennium (net of one time programming costs of \$10,000) and \$371,800 for each subsequent biennium.

B. **Expenditures:** Explain the expenditure amounts. Provide detail, when appropriate, for each agency, line item, and fund affected and the number of FTE positions affected.

NDDOT would incur one time computer programming costs of approximately \$10,000. These costs would be deducted from the revenue proceeds prior to distribution to the driver's education fund.

C. **Appropriations:** Explain the appropriation amounts. Provide detail, when appropriate, for each agency and fund affected. Explain the relationship between the amounts shown for expenditures and appropriations. Indicate whether the appropriation or a part of the appropriation is included in the executive budget or relates to a continuing appropriation.

NDDOT would require an addition to its appropriation for the 2019-2021 biennium to cover the \$10,000 of computer programming costs. These costs are not covered under the executive recommended appropriation.
