CHAPTER 487

HOUSE BILL NO. 1040

(Legislative Management)
(Taxation Committee)

AN ACT to create and enact a new section to chapter 57-38 and a new subdivision to subsection 7 of section 57-38-30.3 of the North Dakota Century Code, relating to the provision of an income tax credit for purchases of manufacturing machinery and equipment to automate manufacturing processes; to provide an effective date; and to provide an expiration date.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. A new section to chapter 57-38 of the North Dakota Century Code is created and enacted as follows:

Twenty-first century manufacturing workforce incentive.

1. A taxpayer that is a primary sector business is allowed a nonrefundable credit against the tax imposed under section 57-38-30 or 57-38-30.3 for purchases of manufacturing machinery and equipment for the purpose of automating manufacturing processes in this state to improve job quality or increase productivity. The amount of the credit under this section is twenty percent of the cost of the manufacturing machinery and equipment purchased in the taxable year. Qualified expenditures under this section may not be used in the calculation of any other income tax deduction or credit allowed under this chapter.
2. For purposes of this section:
 - a. "Improved job quality" means a five percent increase in average wages or a five percent improvement in workplace safety as documented through participation in workforce safety and insurance safety incentive programs.
 - b. "Increased productivity" means no less than a five percent increase in output or a five percent increase in the number of units produced per automated line per time period.
 - c. "Manufacturing machinery and equipment for the purpose of automating manufacturing processes" means new or used automation and robotic equipment used to upgrade or advance a manufacturing process. The term does not include replacement automation and robotic equipment that does not upgrade or advance a manufacturing process.
 - d. "Primary sector business" has the meaning provided in section 1-01-49.
 - e. "Purchase" includes manufacturing machinery and equipment acquired under a capital lease only for the taxable year in which the lease is executed. A capital lease is a lease which meets generally accepted accounting principles. The qualifying costs of the equipment acquired

under a capital lease is the fair market value of the equipment at the inception of the lease.

3. The taxpayer shall claim the total credit amount for the taxable year in which the manufacturing machinery and equipment are purchased. The credit under this section may not exceed the taxpayer's liability as determined under this chapter for any taxable year.
4. If the amount of the credit determined under this section exceeds the liability for tax under this chapter, the excess may be carried forward to each of the next five succeeding taxable years.
5. The aggregate amount of credits allowed each calendar year under this section may not exceed one million dollars. However, if the maximum amount of allowed credits are not claimed in any calendar year, any remaining unclaimed credits may be carried forward and made available in the next succeeding calendar year. If the aggregate amount of credits claimed under this section exceeds the amount available in a calendar year, the tax commissioner shall prorate the credits among the claimants.
6. If a taxpayer entitled to the credit provided by this section is a member of a group of corporations filing a North Dakota consolidated tax return using the combined reporting method, the credit may be claimed against the aggregate North Dakota tax liability of all the corporations included in the North Dakota consolidated return.
7. A passthrough entity entitled to the credit under this section must be considered to be the taxpayer for purposes of calculating the credit. The amount of the allowable credit must be determined at the passthrough entity level. The total credit determined at the entity level must be passed through to the partners, shareholders, or members in proportion to their respective interests in the passthrough entity. An individual taxpayer may take the credit passed through under this subsection against the individual's state income tax liability under section 57-38-30.3.
8. The department of commerce shall provide the tax commissioner the name, address, and federal identification number or social security number of the taxpayer approved as qualifying for the credit under this section, and a list of those items approved as a qualified expenditure by the department. The taxpayer claiming the credit shall file with the taxpayer's return, on forms prescribed by the tax commissioner, the following information:
 - a. The name, address, and federal identification number or social security number of the taxpayer that made the purchase; and
 - b. An itemization of:
 - (1) Each item of machinery or equipment purchased for automation, including a description of the equipment or system being upgraded or advanced, and an explanation of how the upgrade or advancement will improve job quality or increase productivity;
 - (2) The amount paid for each item of machinery or equipment if the amount paid for the machinery or equipment is being used as a basis for calculating the credit; and

(3) The date on which payment for the purchase was made.

9. Within one year after claiming a tax credit under this section, a taxpayer shall file with the tax commissioner a report that documents the improved job quality or increased productivity required under this section and any other information the tax commissioner determines is necessary for administration of this section. Failure to document the improved job quality or increased productivity requirements is cause to disallow the credit attributable to the noncompliance. The tax commissioner shall provide notice of the disallowed credit to the taxpayer. Within ninety days after the date of the notice, the taxpayer shall file an amended return for each taxable year in which the disallowed credit reduced the taxpayer's tax liability and pay the amount due. If an amended return is not filed timely, the tax commissioner shall disallow the credit and assess any tax due. An assessment of tax made under this subsection is final and irrevocably fixed.
10. Notwithstanding the time limitations contained in section 57-38-38, this section does not prohibit the tax commissioner from conducting an examination of the credit claimed and assessing additional tax due under section 57-38-38.

240 SECTION 2. A new subdivision to subsection 7 of section 57-38-30.3 of the North Dakota Century Code is created and enacted as follows:

The governor, in consultation with the tax commissioner, may enter separate agreements on behalf of the state with the governing body of the Three Affiliated Tribes of the Fort Berthold Reservation, Sisseton-Wahpeton Oyate of the Lake Traverse Reservation, Spirit Lake Tribe, Standing Rock Sioux Tribe, and Turtle Mountain Band of Chippewa Indians, which comply with this chapter relating to the collection, administration, enforcement, and allocation of state sales, use, and gross receipts taxes imposed and collected within the exterior boundaries of the Fort Berthold Reservation, that portion of the Lake Traverse Reservation located in this state, the Spirit Lake Reservation, that portion of the Standing Rock Reservation located in this state, or the Turtle Mountain Reservation. The tax commissioner shall conduct a review of any proposed agreement under this chapter to determine if its provisions can be administered and enforced. An agreement under this chapter must include the sales tax, use tax, farm machinery gross receipts tax, and the alcoholic beverages gross receipts tax.

57-39.9-02. Agreement requirements.

The governor may enter an agreement with a tribe or tribes if the agreement complies with this section.

1. The taxes subject to an agreement under this chapter are the state's sales, use, and gross receipts taxes under chapters 57-39.2, 57-39.5, 57-39.6, and 57-40.2, as may be amended subsequently by the legislative assembly, for taxable transactions and activities occurring exclusively within the exterior boundaries of the Fort Berthold Reservation, that portion of the Lake Traverse Reservation located in this state, the Spirit Lake Reservation, that portion of the Standing Rock Reservation located in this state, or the Turtle Mountain Reservation.

2. Except as otherwise provided in this chapter, the state's sales, gross receipts, and use taxes under chapters 57-39.2, 57-39.5, 57-39.6, and 57-40.2, must apply to all transactions and activities by all persons and entities occurring within the boundaries of the reservation.

A tribe or tribes shall impose taxes equal to the state's taxes which conform in all respects with regard to the taxable or exempt status of transactions and activities under chapters 57-39.2, 57-39.5, 57-39.6, and 57-40.2, but must be applied only to those taxable transactions and activities occurring within the exterior boundaries of a reservation which are exempt from state taxes because the transactions or activities occur within the tribe's or tribes' jurisdiction.
4. Chapters 57-39.2, 57-39.5, 57-39.6, and 57-40.2, and title 81 of the North Dakota Administrative Code govern the administration of the taxes subject to an agreement under this chapter.
5. Except as provided in subsection 6, tribally owned and tribal member-owned business entities operating within the boundaries of a reservation are subject to the state's tax or taxes contained in the agreement.
6. Any tax subject to an agreement may not be imposed on a tribally owned entity that solely performs a governmental function or provides essential government services that directly impact the health, welfare, or safety of the tribe and its members, if the tribal entity is identified as such in the agreement. Any other tribally owned business enterprise whose moneys are used, in whole or in part, to fund governmental functions or services, is not subject to the exemption provided under this subsection.

The estimated per capita use tax is ten percent of the per capita sales tax burden. The per capita sales tax burden is determined by multiplying the state tax rate factor by one third of the sales tax burden reported by the most recent "Tax Rates and Tax Burdens in the District of Columbia - A Nationwide Comparison", published by the government of the District of Columbia office of revenue analysis, for a family of three living in the largest city in North Dakota, and earning fifty thousand dollars per year. AN ACT to amend and reenact subsection 5 of section 57-40.3-01 of the North Dakota Century Code, relating to the definition of purchase price for motor vehicle excise tax purposes.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Subsection 5 of section 57-40.3-01 of the North Dakota Century Code is amended and reenacted as follows:

5. "Purchase price" means the total amount paid for the motor vehicle whether received in money or otherwise. The purchase price excludes the amount of a manufacturer's incentive or discount that reduces the amount paid by the purchaser to the seller at the time of purchase. If a motor vehicle or other tangible personal property that will be subject to a sales or use tax imposed by chapter 57-39.2 or 57-40.2 when sold or used is taken in trade as a credit or as part payment on a motor vehicle taxable under this chapter, the credit or trade-in value allowed by the person selling the motor vehicle shall be deducted from the total selling price to establish the purchase price of the vehicle being sold and the trade-in allowance allowed by the seller on a motor vehicle accepted as a trade-in shall constitute the purchase price of a motor vehicle accepted as a trade-in. If a motor vehicle is purchased by an owner who has had a motor vehicle stolen or totally destroyed, a credit or trade-in credit shall be allowed against one or more replacement motor vehicle purchases in a cumulative amount not to exceed the total amount the purchaser has been compensated by an insurance company for the loss plus the amount of the purchaser's deductible at the time of the loss. For a leased vehicle that is stolen or totally destroyed, the credit may not exceed the total amount of motor vehicle excise tax paid. The purchaser must provide the director of the department of transportation with a notarized statement from the insurance company within three years from the date of issuance verifying the fact that the original vehicle was a total loss and stating the amount compensated by the insurance company for the loss and the amount of the purchaser's deductible at the time of the loss. The statement from the insurance company must accompany the purchaser's application for a certificate of title for the replacement vehicle. If the full amount of the credit under this subsection has not been used, the director of the department of transportation shall record on the face of the notarized statement the necessary information to identify the partial use of the credit and shall retain a copy and return the original to the purchaser. In instances in which a licensed motor vehicle dealer places into the dealer's service a new vehicle for the purpose of renting, leasing, or dealership utility service, the reasonable value of the vehicle replaced shall be included as trade-in value provided the vehicle replaced has been subject to motor vehicle excise tax under section 57-40.3-02 and if the new vehicle is properly registered and licensed. "Purchase price" when the motor vehicle is acquired by gift or by any other transfer for a nominal or no monetary consideration also includes the average

value of similar motor vehicles, established by standards and guides as determined by the director of the department of transportation. "Purchase price" when a motor vehicle is manufactured by a person who registers it under the laws of this state means the manufactured cost of such motor vehicle and manufactured cost means the amount expended for materials, labor, and other properly allocable costs of manufacture except that, in the absence of actual expenditures for the manufacture of a part or all of the motor vehicle, manufactured cost means the reasonable value of the completed motor vehicle.

- (4) The state treasurer shall distribute, to the supplemental school district funding pool, the monthly amount needed from each county to provide for thirty percent of the total allocations under this paragraph. To each county that received more than five million dollars but less than thirty million dollars of total allocations under subsection 2 in the most recently completed even-numbered fiscal year before the start of the

 - b. Consult with the state water commission in an open meeting and demonstrate the public need and purpose for the determination to be made.
2. After completing the requirements of subsection 1, the state engineer may proceed with making a final determination of navigability by:
 - a. Providing reasonable public notice of the preliminary finding, legal rationale for the preliminary finding, and opportunity for the public to provide comments for no less than sixty days. The notice must:
 - (1) Include the address and electronic mail address to which public comments may be sent and the deadline by which public comments must be received;
 - (2) Clearly identify the specific body of water or portion of a body of water for which the finding of navigability is sought;
 - (3) State the state engineer will hold a public hearing regarding the preliminary finding before a final determination of navigability is made, and provide the date, time, and location of the public hearing;
 - (4) Be provided to the governing body of each soil conservation district, water resource district, and county adjacent to the body of water or portion of a body of water for which the preliminary finding was made;

 - b. Holding a public hearing regarding the preliminary finding.
3. After completing the requirements of subsection 2 and making a determination of navigability, the state engineer shall prepare a report regarding the determination, including summaries of the information provided to the state water commission, the public hearings held, and the public comments received. The state engineer shall provide the report to the state water commission, send the report by certified mail to any person that appeared at the public hearing required under subsection 2 or provided written comments by the deadline, make the report available to the public, including on the website for the office of the secretary of state, and provide public notice of the report's availability. Accreted lands may be determined to be within the ordinary high water mark of the historical Missouri riverbed channel based on clear and convincing evidence. Areas of low-lying and flat lands where the ordinary high water mark may be impracticable to determine due to inconclusive aerial photography or inconclusive vegetation analysis must be presumed to be above the ordinary high water mark and owned by the riparian landowner.

SECTION 4. REVIEWS OF NAVIGABILITY DETERMINATIONS DURING 2019-20 INTERIM. During the 2019-20 interim, the state engineer may review any determinations of navigability of a body of water or portion of a body of water made solely by the state engineer before the effective date of this Act. However, if a court of competent jurisdiction has determined a body of water or portion of a body of water is navigable or non-navigable, the state engineer does not need to review any state agency determination regarding the body of water or portion of a body of water. If the state engineer elects not to begin review of any determination of navigability of a body of water or portion of a body of water made solely by the state engineer before the effective date of this Act during the 2019-20 interim, the determination must be vacated without prejudice to a subsequent determination of navigability under section 2 of this Act. CHAPTER 514

SENATE BILL NO. 2211

(Senators Bekkedahl, Dwyer, Unruh)
(Representatives Keiser, Porter)

AN ACT to create and enact section 61-33-01.1 and a new subsection to section 61-33.1-03 of the North Dakota Century Code, relating to the determination of the ordinary high water mark; to amend and reenact sections 61-33-01 and 61-33.1-02, subdivision e of subsection 3 of section 61-33.1-03, sections 61-33.1-04, 61-33.1-05, and 61-33.1-07 of the North Dakota Century Code, relating to sovereign lands, determining the ordinary high water mark, and the ownership of mineral rights of land subject to inundation by Pick-Sloan Missouri basin project dams; to provide for application; and to declare an emergency.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

²⁵³ **SECTION 1. AMENDMENT.** Section 61-33-01 of the North Dakota Century Code is amended and reenacted as follows:

61-33-01. Definitions.

As used in this chapter, unless the context otherwise requires:

1. "Board" means the sovereign lands advisory board.
2. "Board of university and school lands" means that entity created by section 15-01-01.
3. "Ordinary high water mark" means that line below which the presence and action of the water upon the land is continuous enough so as to prevent the growth of terrestrial vegetation, destroy its value for agricultural purposes by preventing the growth of what may be termed an ordinary agricultural crop, including hay, or restrict its growth to predominantly aquatic species.
4. "Sovereign lands" means those areas, including beds and islands, lying within the ordinary high water mark of navigable lakes and streams. Lands established to be riparian accretion or reliction lands pursuant to section 47-06-05 are considered to be above the ordinary high water mark and are not sovereign lands.
- 4.5. "State engineer" means the person appointed by the state water commission pursuant to section 61-03-01.

SECTION 2. Section 61-33-01.1 of the North Dakota Century Code is created and enacted as follows:

61-33-01.1. Ordinary high water mark determination - Factors to be considered.

²⁵³ Section 61-33-01 was also amended by section 1 of House Bill No. 1202, chapter 513.

The state engineer shall maintain ordinary high water mark delineation guidelines consistent with this section.

1. When determining the ordinary high water mark for delineating the boundary of sovereign lands, vegetation and soils analysis must be considered the primary physical indicators. When considering vegetation, the ordinary high water mark is the line below which the presence and action of the water is frequent enough to prevent the growth of terrestrial vegetation or restrict vegetation growth to predominately aquatic species. Generally, land, including hay land, where the high and continuous presence of water has destroyed the value of the land for agricultural purposes must be deemed within the ordinary high water mark.
2. When feasible, direct hydrological and hydraulic measurements from stream gauge data, elevation data, historic records of water flow, high resolution light detection and ranging systems, prior elevation and survey maps, and statistical hydrological evidence must be considered when determining the ordinary high water mark. The state engineer shall establish appropriate guidelines, technical standards, and other criteria, including use of light detection and ranging systems or other future technological advancements, as necessary, for conducting hydrologic and hydraulic modeling required by this section.
3. Secondary physical indicators, including litter, debris, or staining, may be considered to supplement the analysis of the ordinary high water mark investigation but may not supersede primary physical indicators unless primary physical indicators are deemed inadequate or inconclusive. Physical indicators directly affected by influent non-navigable tributaries, adjoining water bodies, or wetlands may not be used to delineate the sovereign land boundary of a navigable body of water.

SECTION 3. AMENDMENT. Section 61-33.1-02 of the North Dakota Century Code is amended and reenacted as follows:

61-33.1-02. Mineral ownership of land ~~inundated~~subject to inundation by Pick-Sloan Missouri basin project dams. (Retroactive application - [See note](#))

The state sovereign land mineral ownership of the riverbed segments ~~inundated~~subject to inundation by Pick-Sloan Missouri basin project dams extends only to the historical Missouri riverbed channel up to the ordinary high water mark. The state holds no claim or title to any minerals above the ordinary high water mark of the historical Missouri riverbed channel ~~inundated~~subject to inundation by Pick-Sloan Missouri basin project dams, except for original grant lands acquired by the state under federal law and any minerals acquired by the state through purchase, foreclosure, or other written conveyance. Mineral ownership of the riverbed segments ~~inundated~~subject to inundation by Pick-Sloan Missouri basin project dams which are located within the exterior boundaries of the Fort Berthold reservation and Standing Rock Indian reservation is controlled by other law and is excepted from this section.

²⁵⁴ **SECTION 4. AMENDMENT.** Subdivision e of subsection 3 of section 61-33.1-03 of the North Dakota Century Code is amended and reenacted as follows:

²⁵⁴ Section 61-33.1-03 was also amended by section 3 of House Bill No. 1202, chapter 513.

- e. Subsection 34 of section 61-33-01 and section 47-06-05, which provide all accretions are presumed to be above the ordinary high water mark and are not sovereign lands. Accreted lands may be determined to be within the ordinary high water mark of the historical Missouri riverbed channel based on clear and convincing evidence. Areas of low-lying and flat lands where the ordinary high water mark may be impracticable to determine due to inconclusive aerial photography or inconclusive vegetation analysis must be presumed to be above the ordinary high water mark and owned by the riparian landowner.

SECTION 5. A new subsection to section 61-33.1-03 of the North Dakota Century Code is created and enacted as follows:

Upon adoption of the final review findings by the industrial commission, the board of university and school lands may contract with a qualified engineering and surveying firm to analyze the final review findings and determine the acreage on a quarter-quarter basis or government lot basis above and below the ordinary high water mark as delineated by the final review findings of the industrial commission. The acreage determination is final upon approval by the board.

SECTION 6. AMENDMENT. Section 61-33.1-04 of the North Dakota Century Code is amended and reenacted as follows:

61-33.1-04. Implementation. (Retroactive application - [See note](#))

1. Within six months after the adoption of the final review findings acreage determination by the industrial commission board of university and school lands:
 - a. Any royalty proceeds held by operators attributable to oil and gas mineral tracts lying entirely above the ordinary high water mark of the historical Missouri riverbed channel on both the corps survey and the state phase two survey must be released to the owners of the tracts, absent a showing of other defects affecting mineral title; and
 - b. Any royalty proceeds held by the board of university and school lands attributable to oil and gas mineral tracts lying entirely above the ordinary high water mark of the historical Missouri riverbed channel on both the corps survey and the state phase two survey must be released to the relevant operators to distribute to the owners of the tracts, absent a showing of other defects affecting mineral title.
2. Upon adoption of the final review findings acreage determination by the industrial commission board of university and school lands:
 - a. The board of university and school lands shall begin to implement any acreage adjustments, lease bonus and royalty refunds, and payment demands as may be necessary relating to state-issued oil and gas leases. The board shall complete the adjustments, refunds, and payment demands within two years after the date of adoption of the final review findings approving the acreage determination.
 - b. Operators of oil and gas wells affected by the final review findings final acreage determination immediately shall begin to implement any acreage and revenue adjustments relating to state-owned and privately owned oil

and gas interests. The operators shall complete the adjustments within two years after the date of adoption of the review findings the board approves the acreage determination. Any applicable penalties, liability, or interest for late payment of royalties or revenues from an affected oil or gas well may not begin to accrue until the end of the two-year deadline. The filing of an action under section 61-33.1-05 tolls the deadline for any oil and gas well directly affected by the action challenging the review finding or final acreage determination.

SECTION 7. AMENDMENT. Section 61-33.1-05 of the North Dakota Century Code is amended and reenacted as follows:

61-33.1-05. Actions challenging review findings or final acreage determinations. (Retroactive application - [See note](#))

1. An interested party seeking to bring an action challenging the review findings or recommendations or the industrial commission actions under this chapter shall commence an action in district court within two years of the date of adoption of the final review findings by the industrial commission. The plaintiff bringing an action under this section may challenge only the final review finding for the section or sections of land in which the plaintiff asserts an interest. The state and all owners of record of fee or leasehold estates or interests affected by the finding, recommendation, or industrial commission action challenged in the action under this section must be joined as parties to the action. A plaintiff or defendant claiming a boundary of the ordinary high water mark of the historical Missouri riverbed channel which varies from the boundary determined under this chapter bears the burden of establishing the variance by clear and convincing evidence based on evidence of the type required to be considered by the engineering and surveying firm under subsection 3 of section 61-33.1-03.
2. An interested party seeking to bring an action challenging the final acreage determination under this chapter shall commence an action in district court within two years of the date the acreage determinations were approved by the board of university and school lands. The state and all owners of record of fee or leasehold estates or interests affected by the final acreage determination challenged in the action under this section must be joined as parties to the action. A plaintiff or defendant claiming a determination of the acreage above or below the historical Missouri riverbed channel which varies from the final acreage determination under this chapter bears the burden of establishing the variance by clear and convincing evidence based on evidence of the type required to be considered by the engineering and surveying firm contracted by the board of university and school lands under subsection 2 of section 61-33.1-04.
3. Notwithstanding any other provision of law, an action brought in district court under this section is the sole remedy for challenging the final review, recommendations, and determination of the ordinary high water mark, and final acreage determination under this chapter, and preempts any right to rehearing, reconsideration, administrative appeal, or other form of civil action provided under law.

SECTION 8. AMENDMENT. Section 61-33.1-07 of the North Dakota Century Code is amended and reenacted as follows:

61-33.1-07. State engineer regulatory jurisdiction. (Retroactive application - [See note](#))

This chapter does not affect the authority of the state engineer to regulate the historical Missouri riverbed channel, minerals other than oil and gas, or the waters of the state, provided the regulation does not affect ownership of oil and gas minerals in and under the riverbed or lands above the ordinary high water mark of the historical Missouri riverbed channel ~~inundated~~subject to inundation by Pick-Sloan Missouri basin project dams.

SECTION 9. APPLICATION. Sections 1 and 2 of this Act do not apply to the ordinary high water mark study required for the historical Missouri riverbed channel in chapter 61-33.1. This Act does not affect or limit the authority of the state engineer to regulate waters of this state.

65-01-11. Burden of proof in compensation matters - Death certificate.

If the organization or an employer claims that an employee is not entitled to the benefits of the North Dakota workforce safety and insurance law because the employee's injury was caused by the employee's willful intention to cause self-injury, or to injure another, or by reason of the voluntary impairment caused by use of alcohol or illegal use of a controlled substance by the employee, the burden of proving the exemption or forfeiture is ~~upon~~ the organization or ~~upon~~ the person alleging the same; however, an alcohol concentration level at or above the limit set by the United States secretary of transportation in the Code of Federal Regulations in effect on August 1, 2011, or a level of an illegally used controlled substance sufficient to cause impairment found by a test conducted by a physician, qualified technician, chemist, or registered nurse at or above the cutoff level in the Code of Federal Regulations in effect on August 1, 2011, creates a rebuttable presumption that the injury was due to impairment caused by the use of alcohol or the illegal use of a controlled substance. An employer who has a mandatory drug alcohol testing policy for work accidents, or an employer or a ~~doctor~~health care provider who has

reasonable grounds to suspect an employee's alleged work injury was caused by the employee's voluntary impairment caused by use of alcohol or illegal use of a controlled substance may request that the employee undergo testing to determine if the employee had alcohol or the controlled substance in the employee's system at levels greater than the limit set by the United States department of transportation at the time of the injury. If an employee refuses to submit to a reasonable request to undergo a test to determine if the employee was impaired or if an employee refuses to submit to a test for drugs or alcohol after a work accident as mandated by company policy, the employee forfeits all entitlement to workforce safety and insurance benefits arising out of that injury. Any claimant against the fund, however, has the burden of proving by a preponderance of the evidence that the claimant is entitled to benefits. If a claim for death benefits is filed, the official death certificate must be considered as evidence of death and may not be used to establish the cause of death.

If an employee, employer, or medical provider allied health care professional disputes a managed care decision, the employee, employer, or medical provider allied health care professional shall request binding dispute resolution on the decision. The organization shall make rules providing for the procedures for dispute resolution. Dispute resolution under this section is not subject to chapter 28-32 or section 65-01-16. A dispute resolution decision under this section requested by a medical provider allied health care professional concerning payment for medical treatment already provided or a request for diagnostic tests or treatment is not reviewable by any court. A dispute resolution decision under this section requested by an employee is reviewable by a court only if medical treatment has been denied to the employee. A dispute resolution decision under this section

requested by an employer is reviewable by a court only if medical treatment is awarded to the employee. The dispute resolution decision may be reversed only if the court finds that there has been an abuse of discretion in the dispute resolution process. SECTION 2. AMENDMENT. Subsection 3 of section 65-01-15.1 of the North Dakota Century Code is amended and reenacted as follows:

3. A full-time paid firefighter or law enforcement officer is not eligible for the benefit provided under this section unless that full-time paid firefighter or law enforcement officer has completed five years of continuous service and has successfully passed a medical examination which fails to reveal any evidence of such a condition. An employer shall require a medical examination upon employment, for any employee subject to this section. After the initial medical examination, an employer shall require at least a periodic medical examination as follows: for one to ten years of service, every five years; for eleven to twenty years of service, every three years; and for twenty-one or more years of service, every year. The periodic medical examination, at a minimum, must consist of a general medical history of the individual and the individual's family; an occupational history including contact with and an exposure to hazardous materials, toxic products, contagious and infectious diseases, and to physical hazards; a physical examination including measurement of height, weight, and blood pressure; and laboratory and diagnostic procedures including a nonfasting total blood cholesterol test and ~~papanicolaou smear for women~~. If the medical examination reveals that an employee falls into a recognized risk group, the employee must be referred to a qualified health professional for future medical examination. If a medical examination produces a false positive result for a condition covered under this section, the organization shall consider the condition to be a compensable injury. In the case of a false positive result, neither the coverage of the condition nor the period of disability may exceed fifty-six days. This section does not affect an employee's responsibility to document that the employee has not used tobacco as required under section 65-01-15. Results of the examination must be used in rebuttal to a presumption afforded under this section.

SECTION 3. A new section to chapter 65-01 of the North Dakota Century Code is created and enacted as follows:

Alternative dispute resolution - Pilot program - Continuing appropriation.

Notwithstanding any other provision of law, the organization may develop and implement pilot programs to allow the organization to assess alternative forms of dispute resolution to resolve disputes with injured employees. The goal of the pilot program must be to develop timely, cost-effective, and amicable options to resolve disputes during any stage in the claim adjudication or appeal process. A pilot program may address a broad range of approaches, including collaborative efforts between the organization and other public or private entities. Participation of an injured employee in the pilot program is voluntary. No more than fifty thousand dollars per biennium from the workforce safety and insurance fund is appropriated to the organization on a continuing basis for payment of organization expenses associated with the pilot program.

²⁷³ **SECTION 4. AMENDMENT.** Section 65-02-21.1 of the North Dakota Century Code is amended and reenacted as follows:

65-02-21.1. Licensure required for psychologists and physiciansallied health care professionals performing utilization review.

PsychologistsAllied health care professionals making utilization review determinations under sections 65-02-20 and 65-02-21 shall have current licenses from the state board of psychologist examiners. Physicians making utilization review determinations under sections 65-02-20 and 65-02-21 shall have current licenses from the North Dakota board of medicine. This requirement does not apply to psychologists or physiciansor conducting independent medical examinations or independent medical reviews under section 65-05-28 shall have current licenses from a state licensing agency within the United States.

SECTION 5. A new section to chapter 65-05 of the North Dakota Century Code is created and enacted as follows:

Medical bills - Electronic acceptance.

The organization shall establish guidelines, systems, and procedures for the acceptance of medical bills and supporting documentation by electronic methods. Health care providers shall submit medical bills and supporting documentation to the organization by this electronic method no later than July 1, 2021.

SECTION 6. AMENDMENT. Section 65-05-09 of the North Dakota Century Code is amended and reenacted as follows:

65-05-09. Temporary total or permanent total disability - Weekly and aggregate benefit.

If an injury causes temporary total or permanent total disability, the fund shall pay to the disabledinjured employee during that disability a weekly benefit equal to sixty-six and two-thirds percent of the gross weekly wage of the injured employee, subject to a minimum of sixty percent and a maximum of one hundred twenty-five percent of the average weekly wage in the state. If an injured employee is disabled due to an injury, that injured employee's benefits will be based upon the injured employee's wage and the organization benefit rates in effect on the date of first disability.

1. Unless otherwise provided in this subsection, if an injured employee suffers disability but is able to return to employment for a period of three consecutive

²⁷³ Section 65-02-21.1 was also amended by section 6 of Senate Bill No. 2184, chapter 523.

calendar months or more, that injured employee's benefits will be based upon the wage in-effect received at the time of the recurrence of the disability or upon the wage that employee received prior to the injury, whichever is higher. If the wage received at the time of the recurrence of the disability is lower than the wage received before the injury and the lower wage is due to the physical limitations of the compensable injury, the injured employee's benefits must be based upon the wage the injured employee received before the injury. It is the burden of the injured employee to show the inability to earn as much as the injured employee earned before the injury is due to the physical limitation related to the injury. The organization benefit rates are those in effect at the time of that recurrence.

2. The disability benefit or the combined disability benefit and dependency award may not exceed the weekly wage of the injured employee after deductions for social security and federal income tax.
3. When an injured employee is permanently and totally disabled, must be maintained in a nursing home or similar facility, and has no dependent parent, spouse, or children, as much of that injured employee's weekly benefit as is necessary may be used by the organization to help defray the cost of the nursing home care.

SECTION 7. AMENDMENT. Section 65-05-10 of the North Dakota Century Code is amended and reenacted as follows:

65-05-10. Partial disability - Weekly benefit.

If the injury causes temporary partial disability resulting in decrease of earning capacity, the disability benefit is sixty-six and two-thirds percent of the difference between the injured employee's average weekly wages before the injury and the injured employee's wage-earning capacity after the injury in the same or another employment. Partial disability benefits are subject to a maximum of one hundred twenty-five percent of the average weekly wage in the state. The combined partial disability benefits, dependency allowance, and postinjury wage-earning capacity may not exceed ninety percent of the preinjury weekly wage of the injured employee after deductions for social security and federal income tax.

1. The benefits provided by this section are available to any otherwise eligible worker, providing the loss of earning capacity occurs after July 1, 1989. Partial loss of earning capacity occurring prior to July 1, 1989, must be paid at a rate to be fixed by the organization.
2. Benefits must be paid during the continuance of partial disability, not to exceed a period of five years. The organization may waive the five-year limit on the duration of partial disability benefits in cases of catastrophic injury as defined in section 65-05.1-06.1 or when the injured worker is working and has long-term restrictions verified by clear and convincing objective medical and vocational evidence that limits the injured worker to working less than twenty-eight hours per week because of the compensable work injury. This subsection is effective for partial loss of earnings capacity occurring after June 30, 1991.
3. The employee's earnings capacity may be established by expert vocational evidence of a capacity to earn in the statewide job pool where the worker lives. Actual postinjury earnings are presumptive evidence of earnings capacity if the job employs the employee to full work capacity in terms of

hours worked per week, and if the job is in a field related to the employee's transferable skills. The presumption may be rebutted by competent evidence from a vocational expert that the employee's actual earnings do not fairly reflect the employee's earnings capacity in the statewide job pool, considering the employee's capabilities, education, experience, and skills.

²⁷⁴ **SECTION 8. AMENDMENT.** Subsection 4 of section 65-05-28 of the North Dakota Century Code is amended and reenacted as follows:

4. If an injured employee, or the injured employee's representative, refuses to submit to, or in any way intentionally obstructs, any examination or treatment, or refuses to reasonably participate in medical or other treatments or examinations, ~~the injured employee's right to claim compensation under this title is suspended until the refusal or obstruction ceases. No compensation is payable while the refusal or obstruction continues, and the injured employee is medically noncompliant. If the organization determines an injured employee is medically noncompliant without good cause, the organization shall discontinue disability and vocational rehabilitation benefits. At any time the injured employee is medically noncompliant, efforts by the injured employee to come into compliance are not considered successful compliance until the injured employee has been compliant for a period of at least sixty days. If the period of medical noncompliance continues for sixty days following the date disability and vocational rehabilitation benefits are discontinued, or a second instance of medical noncompliance occurs without good cause, the organization may not pay any further disability and vocational rehabilitation benefits, regardless of whether the injured employee sustained a significant change in medical condition due to the work injury. The period of the refusal or obstructionnoncompliance must be deducted from the period for which compensation is payable to the injured employee.~~

SECTION 9. REPEAL. Section 65-02-07 of the North Dakota Century Code is repealed.

SECTION 10. APPLICATION. Sections 1, 2, 4, 6, 7, and 8 of this Act apply to all claims regardless of date of injury.

HOUSE BILL NO. 1188

(Representatives Keiser, Jones)

AN ACT to amend and reenact section 65-05-09.3 of the North Dakota Century Code, relating to the termination of benefits upon retirement; and to provide for application.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 65-05-09.3 of the North Dakota Century Code is amended and reenacted as follows:

65-05-09.3. Retirement presumption - Termination of benefits upon retirement.

1. An employee who has retired or voluntarily withdrawn from the labor force and who, at that time, was not eligible to receive temporary total disability, temporary partial disability, or permanent total disability benefits or to receive a rehabilitation allowance from the organization is presumed retired from the labor market. The presumption may be rebutted by a preponderance of the evidence; however, the subjective statement of an employee that the employee is not retired is not sufficient in itself to rebut objective evidence of retirement.
2. An injured employee who begins receiving social security retirement benefits or other retirement benefits in lieu of social security retirement benefits or who attains retirement age for social security retirement benefits, unless the employee proves the employee is not eligible to receive social security retirement benefits or other benefits in lieu of social security retirement benefits, is considered retired. The organization may not pay any disability benefits, rehabilitation benefits, or supplementary benefits to an employee who is considered retired; however, the employee remains eligible for medical benefits, permanent partial impairment benefits, and the additional benefit payable under section 65-05-09.4.
3. The organization retains liability for disability benefits, rehabilitation benefits, permanent partial impairment benefits, and medical benefits for an injured employee who is receiving social security retirement benefits or other retirement benefits in lieu of social security retirement benefits or who attains retirement age for social security retirement benefits, unless the employee is not eligible to receive social security retirement benefits or other benefits in lieu of social security retirement benefits, and who is gainfully employed and who suffers an injury arising out of and in the course of that employment. The organization may not pay disability or rehabilitation benefits under this subsection for more than three years, subject to section 65-05-09.2, for injuries occurring after August 1, 1997.
4. If an employee is injured within the two years preceding the employee's presumed retirement date, the organization shall pay disability benefits, rehabilitation benefits, or a combination of both benefits for no more than two

years. If the duration of disability benefits, rehabilitation benefits, or a combination of both benefits extends beyond the presumed retirement date, the organization shall convert the benefit to an additional benefit payable at the date the disability ends or when two years of benefits have been paid, whichever occurs first.

5. This section applies to an individual who begins receiving social security retirement benefits or other retirement benefits in lieu of social security retirement benefits or who attains retirement age for social security retirement benefits unless the employee proves the employee is not eligible to receive social security retirement benefits or other benefits in lieu of social security retirement benefits, after July 31, 1995.
6. An injured employee who has received disability benefits that have been discontinued before retirement in accordance with this section is eligible to receive disability benefits after retirement if the injured employee meets the reapplication criteria under subsection 1 of section 65-05-08. Disability and rehabilitation benefits received under this subsection may not exceed three years.

SECTION 2. APPLICATION. This Act applies to reapplications filed after July 31, 2019.

AN ACT to amend and reenact section 39-06-49, subsection 1 of section 39-06.2-07, subsection 2 of section 39-06.2-08, subdivision c of subsection 3 of section 39-06.2-09, sections 39-06.2-09.1, 39-06.2-13.1, and 39-06.2-19, subsections 5 and 6 of section 39-08-13, and subsection 3 of section 39-16-03 of the North Dakota Century Code, relating to driver's license fees.

VETO

March 21, 2019

The Honorable Brent Sanford
President of the Senate
North Dakota Senate
State Capitol
Bismarck, ND

Re: Senate Bill 2244

Dear President Sanford:

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have vetoed Senate Bill 2244 and return it to the Senate unsigned.

Senate Bill 2244 doubles the fees for noncommercial and commercial driver's licenses, impacting more than 163,000 North Dakotans every biennium. The additional \$5.5 million collected by this bill comes directly out of the pockets of state citizens and imposes an unnecessary additional burden on our residents.

This fee increase was not requested in the executive budget. Throughout our strategic review and budgeting process, agencies focused on innovation and reinvention to find ways to fund priorities without exceeding ongoing revenues. Within this framework, the executive budget recommended \$22.5 million to transition our driver's license system from an outdated mainframe. With technology advancements and new methods of service delivery, the transactional cost of providing driver's licenses can be reduced.

Before any fee increase is adopted, especially a fee that doubles the price of a monopolized service essential to nearly all North Dakotans, further study is

warranted. Senate Bill 2130 was signed into law on March 8, 2019, requiring a comprehensive study of state agency fees, including department of transportation fees. Senate Bill 2130 will enable significant information gathering on these fees, to identify a more holistic approach.

Until then, I remain unconvinced that this 100% fee increase is necessary.

Sincerely,

Doug Burgum
Governor

Re: Senate Bill 2015

Dear President Sanford:

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have vetoed Section 19, Recognition of legacy fund earnings for budget purposes, of Senate Bill 2015. Section 19 circumvents constitutional requirements for Legacy Fund earnings and ignores all generally accepted accounting principles by failing to recognize the earnings in the biennium in which they are received. The people of North Dakota spoke clearly when they approved the Legacy Fund measure in 2010, instructing, as outlined in Article X, Section 26 of the North Dakota Constitution that the "state treasurer shall transfer earnings of the North Dakota legacy fund accruing . . . to the state general fund at the end of each biennium."

Section 19 manipulates the recognition of state revenues which artificially reduces the balance of the general fund by hundreds of millions of dollars. It misleads legislators tasked with voting on appropriation bills and taxpayers who deserve to know the true financial status of the state.

For the reasons stated above, Section 19 of Senate Bill 2015 is vetoed.

Sincerely,

Doug Burgum
Governor

MEASURES APPROVED OVER GOVERNOR'S VETO

CHAPTER 531

SENATE BILL NO. 2055

(Senator Wardner
(Representative Pollert)

AN ACT to create and enact a new section to chapter 54-35 of the North Dakota Century Code, relating to the establishment of the budget section; to amend and reenact sections 15-03-04, 15-10-12.1, 20.1-02-05.1, 20.1-02-16.1, 25-04-02.2, 37-17.1-27, 40-23-22.1, 47-30.1-24.1, 48-01.2-25, subsection 16 of section 50-06-05.1, subsection 18 of section 50-06-05.1, and sections 54-06-37, 54-27-22, 54-27-23, 54-44.1-13.1, 54-59-05, and 65-08.1-02 of the North Dakota Century Code, relating to agency requests for budget section approval; and to repeal section 1 of chapter 67 of the 2013 Session Laws, relating to the authority of the state board of agricultural research and education to sell certain real property.

VETO

April 9, 2018

The Honorable Brent Sanford
President of the Senate
North Dakota Senate
State Capitol
Bismarck, ND

Dear President Sanford:

Pursuant to Article V, Section 9 of the North Dakota Constitution, I have vetoed Senate Bill 2055 and return it to the Senate unsigned.

Last year, the North Dakota Supreme Court reaffirmed the separation of powers and resolved a dispute between the legislative and executive branches in North Dakota Legislative Assembly v. Burgum, 916 N.W.2d 83. The Court held the legislative assembly "may not delegate to another body the power to make law - to legislate." The Constitution grants the legislative body the authority to create law and appropriate funds. These duties cannot be delegated to a subset of legislators, such as the budget section, which consists of 42 of the legislature's 141 members.

Senate Bill 2055 is fundamentally flawed because it disregards the Supreme Court's ruling and enshrines the budget section's unconstitutional practice of acting as a mini-legislature.

The purpose, powers and duties of the budget section, as proposed in Section 15 of Senate Bill 2055, ignore the Supreme Court's guidance and further undermine the constitutional duty of the executive branch to carry out laws passed by the full legislature.

Instead of addressing the issue raised in *Assembly v. Burgum* and properly balancing authority between the branches of government, Senate Bill 2055 makes the problem worse. For the reasons explained herein, I return Senate Bill 2055 to the Senate, unsigned.

Regards,

Doug Burgum
Governor

INITIATED MEASURES APPROVED

CHAPTER 532

PERSONALIZED VEHICLE PLATES FOR VOLUNTEER EMERGENCY RESPONDERS

This initiated measure would add a new section to chapter 39-04 of the North Dakota Century Code requiring the Department of Transportation to issue red personalized vehicle plates to volunteer emergency responders. The plates would be provided at no cost to the volunteers and would serve as an entrance pass to all North Dakota state parks. Qualifications and verification procedures for the plates would be designated by the Department of Transportation in cooperation with the volunteer organizations.

BE IT ENACTED BY THE PEOPLE OF THE STATE OF NORTH DAKOTA:

SECTION 1. A new section to chapter 39-04 of the North Dakota Century Code is created and enacted as follows:

Special vehicle license plates for volunteer emergency responders.

Upon application, the director shall issue red personalized plates to volunteer emergency responders at no initial or annual cost to the volunteers. Volunteers shall include fire fighters and emergency medical responders. Qualified applicants are eligible to receive one set of plates. Plates may not be displayed on a vehicle with a registered gross weight exceeding 20,000 pounds. The first three digits of the plate are the last three digits of the zip code where the volunteer's department is located. The remaining space may contain up to three characters of the volunteer's choosing. This plate serves as an entrance pass to all North Dakota state parks. In cooperation with the volunteer organizations, the director shall designate qualifications and verification procedures for the plates issued under this section.

INITIATED MEASURES DISAPPROVED

CHAPTER 533

LEGALIZATION OF MARIJUANA

This initiated measure would amend the North Dakota Century Code by removing hashish, marijuana, and tetrahydrocannabinols from the list of schedule I controlled substances in section 19-03.1-05; adding penalties for individuals under the age of twenty-one in possession of, or attempting to distribute, marijuana; and adding penalties for individuals who distribute marijuana to anyone under the age of twenty-one. It would amend the definition for drug paraphernalia in section 19-03.4-01 to only apply to non-marijuana controlled substances. It would amend section 25-03.1-45 to create a process to automatically expunge the record of an individual who has a drug conviction for a controlled substance that has been legalized; create an appeals process for an individual who believes the state did not expunge a record properly; and eliminate the state's sovereign immunity for damages resulting from expungement lawsuits. It would create chapter 66-01 to define the terms marijuana and marijuana paraphernalia; to prevent prosecution for non-violent marijuana related activity; and to nullify and repeal any North Dakota Century Code language which conflicts with chapter 66-01.

CHAPTER 534

ETHICS COMMISSION

This initiated measure would add a new article to the North Dakota Constitution establishing a North Dakota ethics commission. The commission, using funds provided by the legislature, would be responsible for adopting rules related to corruption, elections, and lobbying and for reporting and investigating alleged violations of those rules and related state laws. The measure would provide for prohibitions for lobbyists related to gift giving and delivery of campaign contributions and prohibitions for public officials against lobbying, use of campaign contributions, and conflicts of interest in certain proceedings. The measure would direct the legislative assembly to enact laws that require electronically accessible public disclosure of the source of funds spent (in any medium and in an amount greater than two hundred dollars) to influence statewide and legislative elections and statewide ballot measures or to lobby or otherwise influence state government action.

BE IT ENACTED BY THE PEOPLE OF THE STATE OF NORTH DAKOTA:

SECTION 1. A new article of the Constitution of the State of North Dakota is created and enacted as follows:

Section 1. Transparency.

1. The people of North Dakota need information to choose candidates for office, vote on ballot measures, and ensure that their representatives are accountable. This transparency must be sufficient to enable the people to make informed decisions and give proper weight to different speakers and messages. The people therefore have the right to know in a timely manner the source, quantity, timing, and nature of resources used to influence any statewide election, election for the legislative assembly, statewide ballot-issue election, and state government action. This right is essential to the rights of free speech, assembly, and petition guaranteed by the First Amendment to the United States Constitution and shall be construed broadly.
2. The legislative assembly shall implement and enforce this section by enacting, no more than three years after the effective date of this article, laws that require prompt, electronically accessible, plainly comprehensible, public disclosure of the ultimate and true source of funds spent in any medium, in an amount greater than two hundred dollars, adjusted for inflation, to influence any statewide election, election for the legislative assembly, statewide ballot-issue election, or to lobby or otherwise influence state government action. The legislative assembly shall have an ongoing duty to revise these laws as necessary to promote the purposes of this section in light of changes in

technology and political practices. The legislative assembly shall vest by law one or more entities with authority to implement, interpret, and enforce this section and legislation enacted thereunder. If the laws or rules enacted or an implementation, interpretation, or enforcement action taken under this section fail to fully vindicate the rights provided in this section, a resident taxpayer may bring suit in the courts of this state to enforce such rights.

Section 2. Lobbyists and Conflicts of Interest.

1. A lobbyist may not knowingly give, offer, solicit, initiate, or facilitate a gift to a public official. A public official may not knowingly accept a gift from a lobbyist. These prohibitions do not apply if the lobbyist is an immediate family member of the public official. "Gift," as used in this subsection, means any item, service, or thing of value not given in exchange for fair market consideration, including gifts of travel or recreation. However, "gift" does not mean any purely informational material, campaign contribution, or, in order to advance opportunities for North Dakota residents to meet with public officials in educational and social settings inside the state, any item, service, or thing of value given under conditions that do not raise ethical concerns, as determined by rules adopted by the ethics commission. Such rules must be adopted within two years after the effective date of this article. So as to allow for the adoption of these rules, these prohibitions shall take effect two years after the effective date of this article. Appropriate civil and criminal sanctions for violations of this subsection shall be set by the legislative assembly.
2. An elected public official may not be a lobbyist while holding office or for two years after holding office. Appropriate civil and criminal sanctions for violations of this subsection shall be set by the legislative assembly.
3. A lobbyist may not knowingly deliver a campaign contribution made by another individual or entity. "Deliver," as used in this subsection, means to transport, transfer, or otherwise transmit, either physically or electronically. This prohibition does not apply to a person who delivers a campaign contribution to the person's own campaign, or to the campaign of the person's immediate family member. This prohibition shall not be interpreted to prohibit any person from making a campaign contribution or from encouraging others to make a campaign contribution or to otherwise support or oppose a candidate. Appropriate civil and criminal sanctions for violations of this subsection shall be set by the legislative assembly.
4. A statewide candidate, candidate for the legislative assembly, or public official may not knowingly use a campaign contribution for personal use or enrichment. Appropriate civil and criminal sanctions for violations of this subsection shall be set by the legislative assembly.
5. Directors, officers, commissioners, heads, or other executives of agencies shall avoid the appearance of bias, and shall disqualify themselves in any quasi-judicial proceeding in which monetary or in-kind support related to that person's election to any office, or a financial interest not shared by the general public as defined by the ethics commission, creates an appearance of bias to a reasonable person. The legislative assembly and the ethics commission shall enforce this provision by appropriate legislation and rules, respectively. So as to allow for the adoption of such legislation or rules, this subsection shall take effect three years after the effective date of this article.

6. Governments of foreign countries, foreign nationals not lawfully admitted for permanent residence in the United States, and corporations organized under the laws of or having their principal place of business in a foreign country, are prohibited from making contributions or expenditures in connection with any statewide election, election for the legislative assembly, or statewide ballot-issue election.

Section 3. North Dakota Ethics Commission.

1. In order to strengthen the confidence of the people of North Dakota in their government, and to support open, ethical, and accountable government, the North Dakota Ethics Commission is hereby established.
2. The ethics commission may adopt ethics rules related to transparency, corruption, elections, and lobbying to which any lobbyist, public official, or candidate for public office shall be subject, and may investigate alleged violations of such rules, this article, and related state laws. The ethics commission shall maintain a confidential whistleblower hotline through which any person acting in good faith may submit relevant information. The legislative assembly shall provide adequate funds for the proper carrying out of the functions and duties of the commission.
3. The ethics commission shall consist of five members, appointed for four-year terms by consensus agreement of the governor, the majority leader of the senate, and the minority leader of the senate. No member of the ethics commission may hold other public office or be a lobbyist, candidate for public office, or political party official.

Section 4. General Provisions.

1. This article is self-executing and all of its provisions are mandatory. Laws may be enacted to facilitate, safeguard, or expand, but not to hamper, restrict, or impair, this article. This article shall take effect sixty days after approval.
2. For the purposes of this article, "public office" or "public official" means any elected or appointed office or official of the state's executive or legislative branch, including members of the ethics commission, or members of the governor's cabinet, or employees of the legislative branch, and "agency" means each board, bureau, commission, department, or other administrative unit of the executive branch of state government, including one or more officers, employees, or other persons directly or indirectly purporting to act on behalf or under authority of the agency.
3. If any provision of this article is held to be invalid, either on its face or as applied to any person, entity, or circumstance, the remaining provisions, and the application thereof to any person, entity, or circumstance other than those to which it is held invalid, shall not be affected thereby. In any case of a conflict between any provision of this article and any other provision contained in this constitution, the provisions of this article shall control.

HOUSE CONCURRENT RESOLUTION NO. 3048

(Representatives Magrum, Fegley, Johnston, Karls, Satrom, Simons)

A concurrent resolution directing the Legislative Management to consider studying the feasibility and desirability of establishing a wind reclamation fund and whether the statutorily required minimum wind turbine setback distances provide adequate protections to nonparticipating landowners and their property.

WHEREAS, wind power is the fastest-growing source of electricity in the world and North Dakota is a leading state within wind power generation, with 21.5 percent of all in-state generated electricity in 2016 powered by wind; and

WHEREAS, wind energy can be a very environmentally, economically, and socially sustainable source of energy when careful decommissioning planning is undertaken to ensure the costs and benefits are shared equitably and there are no lasting impacts on the physical and cultural landscape; and

WHEREAS, the type of land used for wind energy generation often is agriculture, grazing, recreation, open space, scenic areas, wildlife habitat, and forest management and is typically suitable to areas of grazing or agricultural uses; and

WHEREAS, the agricultural and grazing land uses are disturbed by the construction of a wind turbine, and some intensive agriculture may be adversely impacted during operation; and

WHEREAS, without additional financial assurance requirements, property owners would be burdened with the financial responsibility of restoring land to the original condition after the decommissioning of a wind turbine; and

WHEREAS, establishing a wind reclamation fund would assist property owners with the excess costs associated with removal of a wind turbine, foundation and road removal, site remediation, abandonment, and repairing damage caused during decommissioning; and

WHEREAS, minimum wind turbine setback distance requirements are codified safety measures enacted to protect the land, property, and health of nonparticipating landowners; and

WHEREAS, noise, shadow flickering, ice fall, and turbine failure, produce risks to a nonparticipating landowner's land, property, and health which can be reasonably mitigated, minimized, or eliminated by requiring effective and feasible setback distances;

NOW, THEREFORE, BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF NORTH DAKOTA, THE SENATE CONCURRING THEREIN:

That the Legislative Management shall consider studying the feasibility and desirability of establishing a wind reclamation fund and whether the statutorily

WHEREAS, Roughrider Industries does not use tax dollars to support correctional programs, and all salaries, equipment, capital improvements, and operating expenses are paid from revenues generated from the sale of the products and services; and

WHEREAS, Roughrider Industries may sell directly to nonprofit organizations, political subdivisions, and governmental agencies, including federal, state, and tribal agencies, but may not sell directly to the general public; and

WHEREAS, a comprehensive review and assessment of whether the quality goods and services produced by Roughrider Industries should be expanded to cover additional noncompetitive goods and services, including clothing or computer hardware, is necessary to determine whether a mechanism allowing wholesaling of these additional noncompetitive goods and services directly to the general public would aid inmates in their successful rehabilitation and reintegration into society upon their release;
