

## NORTH DAKOTA WILDLIFE FEDERATION

# **Testimony of John Bradley North Dakota Wildlife Federation House Bill 1017 House Appropriations Committee January 12, 2021**

For the record, I am John Bradley, Executive Director of the North Dakota Wildlife Federation (NDWF). I am here today representing our 1,500 members and 15 affiliated wildlife and sportsmen's club across North Dakota. While I cannot speak for the 100,000 plus hunters and anglers that took to the field last year, I would say our views are representative of many of them.

The Department's budget has always been comprised of revenue from hunting and fishing licenses, and federal excise taxes based on the sale of sporting goods. The Department does not receive any money from the state's general fund. Game and Fish Department programs provide habitat for fish and wildlife, access for hunters and anglers, and other programs which result in billions of dollars to lodges, restaurants, gas stations, bars, and other small-town businesses. 2020 saw an increase in hunting and fishing licenses in North Dakota as residents and non-residents alike, took to the great outdoors to escape the confines of lockdowns, quarantines, and Zoom calls. (License numbers attached) The COVID-19 pandemic and the subsequent Canadian border being closed resulted in increased numbers of sportsmen and women on PLOTS tracts, WMAs, and in the National Grasslands.

But the need for funding has surpassed the amount of funding available to effectively deliver Department programs. If more money is made available, then the Department can significantly improve programs such as PLOTS, land purchases, access to land locked tracts, ice fishing access, habitat enhancements, etc., along with many other important programs benefiting our state's outdoor recreation economy.

Therefore, the 2021 legislation should support a strong, robust Game and Fish budget and provide an increase to the Department's PLOTS and land acquisition line items in the budget. An investment in these programs will benefit our citizens and our local economies.

Thank you for the opportunity to testify. Please do not hesitate to contact me with any questions that the committee might have.

## North Dakota Game and Fish Department License Sales Trend

01/08/2021

\* This report displays change in license sales from 03/15/2020 - 12/31/2020 compared to the same date range of the previous year.

License Name	2019	2020	Percent Change	License Totals
NR FISH LIC	18,171	19,186	5.6%	1,015
