Hello Members of the House Human Services Committee,

I am writing to you today in regards to HB1307 regarding prohibiting public accommodations from refusing service to individuals who are not "up to date" with vaccinations. I am IN FAVOR of this bill.

I do not believe that there are any known diseases that are so deadly that we cannot have any individuals that are unvaccinated against such diseases, walking about in society. To discriminate against a person due to their vaccination status is absolutely insane. How do you expect to enforce this? We have a right to medical privacy according to HIPPA laws. To force people to disclose personal medical information in order to go to school, to shop, to travel, to work or to attend entertainment and worship facilities, goes against HIPPA. We will not stand for it. I am against having to walk around with "papers" or "vaccine documentation". I am against having my medical information loaded on to my drivers license or having a digital record. This is getting very close to the mark of the beast.

Furthermore, forcing every person in the state to have the exact medicine/ treatment / vaccine / injection / preventative measure will never work. We are all different, with different allergies, diseases, conditions and medical issues. One size does not fit all with medical treatments. Mandating a vaccine for every person and punishing those who refuse to or cannot take the vaccine by allowing businesses to refuse service is not in the best interest of anyone. It will not only physically harm North Dakotans by causing vaccine injuries or death, but it will also further cause division between us. Refusing service to North Dakotans will cause patriotic, God fearing, North Dakota loving people to lose faith in the officials we elected to serve us in public office.

Again, I am in FAVOR of HB1307 PROHIBITING public accommodations from refusing service to those who are unvaccinated.

THANK YOU FOR YOUR TIME.
