Testimony in Favor of HB 1268 & HCR 3024

My name is William, I am the CTO of Unifinity a education technology platform that uses Blockchain and crypto to incentivize learning, I run and I am the founder of loud bear creative studios in San Francisco, we are a growing incubator and creative center.

I am an AR/VR video game developer, and full stack software engineer

I think America and her governmental systems need to adopt blockchain technology because America is democratic in nature and democracy thrives when it's well-informed through transparency.

The Internet has been involving for quite some time now, blockchain is the next step and evolution. It should be used most prominently for items that are important in nature. recordkeeping which can drastically affect a persons life and criminal history is by far important enough to have verified on blockchain. Having a third-party, that cannot be corrupted witnessing these important updates or events is not only me beneficial, but could be viewed as necessary to uphold the ideals of supporting a fair journey through due process

When it comes to creating fertile grounds for entrepreneurship technology is by far a radical medium forward to these artist to florist within. Supporting a technology/blockchain Excelerator or incubator will allow the value derived from the scalability of technology, but also the direct economic value that blockchain will help manage, this ultimately will bring great attention and returns to whatever space can properly flourish it. There is a huge worldwide competition, to be the creators of the next digital frontier. America has always been at the forefront of innovation, if we keep our eye on the ball, and let North Dakota swing, we could hit a home run
