

We Are Not Done

Because Quality Water Matters

Quality Water for
Southwest North Dakota

The Southwest Pipeline Project and its award-winning, quality water are the foundation of southwest North Dakota for many reasons....

Quality of Life for Thousands of Residents
Economic Development of the Region
Future Growth of Southwest North Dakota

Southwest Pipeline Project 2021-2023 Biennium Proposed Funding Needs

\$32.5 million

**Intake Pump Station
Strategic Hydraulic Improvements
Rural Distribution Expansion
Treatment Plant Equipment Procurement**

2021-2023 Proposed Funding Needs were submitted for the Water Development Plan prior to the downturn in the Resources Trust Fund revenue. The Main Transmission Line (MTL) Capacity Upgrades from the Ray Christensen Pump Station to Belfied, Davis Buttes, and New England Reservoirs with an estimated project cost of \$8.3 Million are not funded in the current biennium. The MTL Upgrades remain a need for Southwest Water Authority and the Southwest Pipeline Project.

- **Quality drinking water is SWA's top priority 365 days a year, 24/7**
- **State's ROI is now nearly \$14,000 per day**
- **Approaching \$11 million to the Resources Trust Fund per biennium**
- **SWA's water has received multiple international awards for its quality and taste**
- **Governed by a 15-member, publicly elected Board of Directors dedicated to SWA's mission**
- **In the last 25 years, SWA's water sales have increased by nearly a factor of four**
- **The Project pays back on all rural, domestic, municipal and industrial water sales into the Resources Trust Fund**
