

Dear Senators,

I am writing in support of HB 1465. I am an independent Neurosurgeon practicing in Fargo who founded Northern Neurosurgery and Spine, PLC in January 2020. I am the only spine surgeon in the Fargo area operating in the ambulatory surgery center setting. As you know, the ambulatory setting significantly reduces costs to patients and health plans. The opportunity to serve a broader segment of the population would provide patients and our community with more access and options for their care. Please vote YES in support of HB 1465.

Respectfully,

Jared
