Re: HB # 1183

Dear Senator, Burckhard,

On behalf of the North Dakota Environmental Association (NDEHA), and its membership I would like to express our support for the proposed amendments to HB #1183:

1. Creating a board with equal representation of local public health and septic installers.
2. Adding an expiration date of December 31, 2022.

Additionally, we would like to express support for adding back in oversight from the Department of Environmental Quality.

If you have any questions or would like additional information, please feel free to contact me.

Respectively submitted,

Marcie Bata, President
North Dakota Environmental Health Association
