

I am writing to show my support for HB 1323. I am in awe of how quickly the freedoms of our great state and country have been dismantled. This is a bill that shouldn't even have to be put into legislation if we were truly looking out for the good of the people. Please take a moment to step back, look at data that hasn't been presented by mainstream media. We are under attack and I pray that North Dakota does not fall victim to it. Please vote for a pass on this bill. Let this be an individual choice.

Thank you.
