

I am writing to encourage members of the Political Subdivision Committee to vote DO PASS on HB1323.

I feel mandating masks is limiting individual freedoms. It should be each person's individual choice whether or not to wear a mask. Any government entity should not be allowed to decide if I can breathe fresh, clean air or not. A mask mandate may seem insignificant and tolerable to some, but I am asking what is next? What freedoms will be we forced to give up? A mask mandate is a gateway to future unfavorable mandates. I feel mask mandates are an abuse of power by the government, which will only continue unless we put a stop to this nonsense. Please protect our freedoms and vote DO PASS on HB1323.

Regards,
