    - (6) Revenue from the leasing of land acquired by the United States for which compensation is allocated to the state under 33 U.S.C. 701(c) (3);
  - d. An amount equal to the total revenue received by the school district during the 2017-18 school year for the following revenue types:
    - (1) Mobile home tax revenue;
    - (2) Telecommunications tax revenue; and
    - (3) Revenue from payments in lieu of taxes and state reimbursement of the homestead credit and disabled veterans credit; and
  - e. Beginning with the 2020-21 school year, the superintendent shall reduce the baseline funding for any school district that becomes an elementary district pursuant to section 15.1-07-27 after the 2012-13 school year. The reduction must be proportional to the number of weighted student units in the grades that are offered through another school district relative to the total number of weighted student units the school district offered in the year before the school district became an elementary district. The reduced baseline funding applies to the calculation of state aid for the first school year in which the school district becomes an elementary district and for each year thereafter. For districts that become an elementary district prior to the 2020-21 school year, the superintendent shall use the reduced baseline funding to calculate state aid for the 2020-21 school year and for each year thereafter.
2.
  - a. The superintendent shall divide the district's baseline funding determined in subsection 1 by the district's 2017-18 weighted student units to determine the district's baseline funding per weighted student unit.
  - b. For any school district that becomes an elementary district pursuant to section 15.1-07-27 after the 2017-18 school year, the superintendent shall adjust the district's baseline funding per weighted student unit used to calculate state aid. The superintendent shall divide the district's baseline funding determined in subsection 1 by the district's weighted student units after the school district becomes an elementary district to determine the district's adjusted baseline funding per weighted student unit. The superintendent shall use the district's adjusted baseline funding per weighted student unit in the calculation of state aid for the first school year in which the school district becomes an elementary district and for each year thereafter.
  - c. Beginning with the 2021-22 school year and for each school year thereafter, the superintendent shall reduce the district's baseline funding per weighted student unit. Each year the superintendent shall calculate the amount by which the district's baseline funding per weighted student unit exceeds the payment per weighted student unit provided in subsection 3.

The superintendent shall reduce the district's baseline funding per weighted student unit by fifteen percent of the amount by which the district's baseline funding per weighted student unit exceeds the payment per weighted student unit for the 2021-22 school year. For each year thereafter, the reduction percentage is increased by an additional fifteen percent. However, the district's baseline funding per weighted student unit, after the reduction, may not be less than the payment per weighted student unit provided in subsection 3.

3. a. For the 2021-22 school year, the superintendent shall calculate state aid as the greater of:
  - (1) The district's weighted student units multiplied by ten thousand one hundred thirty-six dollars;
  - (2) One hundred two percent of the district's baseline funding per weighted student unit, as established in subsection 2, multiplied by the district's weighted student units, not to exceed the district's 2017-18 baseline weighted student units, plus any weighted student units in excess of the 2017-18 baseline weighted student units multiplied by ten thousand one hundred thirty-six dollars; or
  - (3) The district's baseline funding as established in subsection 1 less the amount in paragraph 1, with the difference reduced by fifteen percent and then the difference added to the amount determined in paragraph 1.
- b. For the 2022-23 school year and each school year thereafter, the superintendent shall calculate state aid as the greater of:
  - (1) The district's weighted student units multiplied by ten thousand two hundred thirty-seven dollars;
  - (2) One hundred two percent of the district's baseline funding per weighted student unit, as established in subsection 2, multiplied by the district's weighted student units, not to exceed the district's 2017-18 baseline weighted student units, plus any weighted student units in excess of the 2017-18 baseline weighted student units multiplied by ten thousand two hundred thirty-seven dollars; or
  - (3) The district's baseline funding as established in subsection 1 less the amount in paragraph 1, with the difference reduced by thirty percent for the 2022-23 school year and the reduction percentage increasing by fifteen percent each school year thereafter until the difference is reduced to zero, and then the difference added to the amount determined in paragraph 1.
- c. The superintendent also shall adjust state aid determined in this subsection to ensure the amount does not exceed the transition maximum as follows:
  - (1) For the 2021-22 school year, the transition maximum rate is one hundred ten percent of the district's baseline funding per weighted student unit, as established in subsection 2, multiplied by the district's weighted student units from the previous school year.

- (2) For the 2022-23 school year, the transition maximum rate is one hundred ten percent of the district's baseline funding per weighted student unit, as established in subsection 2, multiplied by the district's weighted student units from the previous school year.
  - (3) For the 2023-24 school year, the transition maximum rate is one hundred ten percent of the district's baseline funding per weighted student unit, as established in subsection 2, plus twenty percent of the difference between the rate under paragraph 1 of subdivision b of this subsection and one hundred ten percent of the district's baseline funding per weighted student unit. The transition maximum is determined by multiplying the transition maximum rate, which may not exceed the rate under paragraph 1 of subdivision b of this subsection, by the district's weighted student units from the previous school year.
  - (4) For the 2024-25 school year, the transition maximum rate is one hundred ten percent of the district's baseline funding per weighted student unit, as established in subsection 2, plus forty percent of the difference between the rate under paragraph 1 of subdivision b of this subsection and one hundred ten percent of the district's baseline funding per weighted student unit. The transition maximum is determined by multiplying the transition maximum rate, which may not exceed the rate under paragraph 1 of subdivision b of this subsection, by the district's weighted student units from the previous school year.
  - (5) For the 2025-26 school year, the transition maximum rate is one hundred ten percent of the district's baseline funding per weighted student unit, as established in subsection 2, plus sixty percent of the difference between the rate under paragraph 1 of subdivision b of this subsection and one hundred ten percent of the district's baseline funding per weighted student unit. The transition maximum is determined by multiplying the transition maximum rate, which may not exceed the rate under paragraph 1 of subdivision b of this subsection, by the district's weighted student units from the previous school year.
  - (6) For the 2026-27 school year, the transition maximum rate is one hundred ten percent of the district's baseline funding per weighted student unit, as established in subsection 2, plus eighty percent of the difference between the rate under paragraph 1 of subdivision b of this subsection and one hundred ten percent of the district's baseline funding per weighted student unit. The transition maximum is determined by multiplying the transition maximum rate, which may not exceed the rate under paragraph 1 of subdivision b of this subsection, by the district's weighted student units from the previous school year.
4. After determining the product in accordance with subsection 3, the superintendent of public instruction shall:
    - a. Subtract an amount equal to sixty mills multiplied by the taxable valuation of the school district, except the amount in dollars subtracted for purposes of this subdivision may not exceed the previous year's amount in dollars subtracted for purposes of this subdivision by more than twelve percent, adjusted pursuant to section 15.1-27-04.3; and

- b. Subtract an amount equal to seventy-five percent of all revenue types listed in subdivisions c and d of subsection 1. Before determining the deduction for seventy-five percent of all revenue types, the superintendent of public instruction shall adjust revenues as follows:
  - (1) Tuition revenue shall be adjusted as follows:
    - (a) In addition to deducting tuition revenue received specifically for the operation of an educational program provided at a residential treatment facility, tuition revenue received for the provision of an adult farm management program, tuition received for the education of high-cost and special education students, and tuition received under an agreement to educate students from a school district on an air force base with funding received through federal impact aid as directed each school year in paragraph 3 of subdivision c of subsection 1, the superintendent of public instruction also shall reduce the total tuition reported by the school district by the amount of tuition revenue received for the education of students not residing in the state and for which the state has not entered a cross-border education contract; and
    - (b) The superintendent of public instruction also shall reduce the total tuition reported by admitting school districts meeting the requirements of subdivision e of subsection 2 of section 15.1-29-12 by the amount of tuition revenue received for the education of students residing in an adjacent school district.
  - (2) After adjusting tuition revenue as provided in paragraph 1, the superintendent shall reduce all remaining revenues from all revenue types by the percentage of mills levied in 2020 by the school district for sinking and interest relative to the total mills levied in 2020 by the school district for all purposes.
5. The amount remaining after the computation required under subsection 4 is the amount of state aid to which a school district is entitled, subject to any other statutory requirements or limitations.
6. On or before June thirtieth of each year, the school board shall certify to the superintendent of public instruction the final average daily membership for the current school year.
7. For purposes of the calculation in subsection 4, each county auditor, in collaboration with the school districts, shall report the following to the superintendent of public instruction on an annual basis:
  - a. The amount of revenue received by each school district in the county during the previous school year for each type of revenue identified in subdivisions c and d of subsection 1;
  - b. The total number of mills levied in the previous calendar year by each school district for all purposes; and
  - c. The number of mills levied in the previous calendar year by each school district for sinking and interest fund purposes.

**Baseline funding - Establishment - Determination of state aid. (Effective after June 30, 2025)**

1. To determine the amount of state aid payable to each district, the superintendent of public instruction shall establish each district's baseline funding. A district's baseline funding consists of:
  - a. All state aid received by the district in accordance with chapter 15.1-27 during the 2018-19 school year;
  - b. An amount equal to the property tax deducted by the superintendent of public instruction to determine the 2018-19 state aid payment;
  - c. An amount equal to seventy-five percent of the revenue received by the school district during the 2017-18 school year for the following revenue types:
    - (1) Revenue reported under code 2000 of the North Dakota school district financial accounting and reporting manual, as developed by the superintendent of public instruction in accordance with section 15.1-02-08;
    - (2) Mineral revenue received by the school district through direct allocation from the state treasurer and not reported under code 2000 of the North Dakota school district financial accounting and reporting manual, as developed by the superintendent of public instruction in accordance with section 15.1-02-08;
    - (3) Tuition reported under code 1300 of the North Dakota school district financial accounting and reporting manual, as developed by the superintendent of public instruction in accordance with section 15.1-02-08, with the exception of revenue received specifically for the operation of an educational program provided at a residential treatment facility, tuition received for the provision of an adult farm management program, and beginning in the 2025-26 school year, eighty-five percent of tuition received under an agreement to educate students from a school district on an air force base with funding received through federal impact aid, until the 2026-27 school year, and each school year thereafter, when all tuition received under an agreement to educate students from a school district on an air force base with funding received through federal impact aid must be excluded from the tuition calculation under this paragraph;
    - (4) Revenue from payments in lieu of taxes on the distribution and transmission of electric power;
    - (5) Revenue from payments in lieu of taxes on electricity generated from sources other than coal; and
    - (6) Revenue from the leasing of land acquired by the United States for which compensation is allocated to the state under 33 U.S.C. 701(c) (3); and
  - d. An amount equal to the total revenue received by the school district during the 2017-18 school year for the following revenue types:

- (1) Mobile home tax revenue;
  - (2) Telecommunications tax revenue; and
  - (3) Revenue from payments in lieu of taxes and state reimbursement of the homestead credit and disabled veterans credit.
- e. Beginning with the 2020-21 school year, the superintendent shall reduce the baseline funding for any school district that becomes an elementary district pursuant to section 15.1-07-27 after the 2012-13 school year. The reduction must be proportional to the number of weighted student units in the grades that are offered through another school district relative to the total number of weighted student units the school district offered in the year before the school district became an elementary district. The reduced baseline funding applies to the calculation of state aid for the first school year in which the school district becomes an elementary district and for each year thereafter. For districts that become an elementary district prior to the 2020-21 school year, the superintendent shall use the reduced baseline funding to calculate state aid for the 2020-21 school year and for each year thereafter.
2. a. The superintendent shall divide the district's baseline funding determined in subsection 1 by the district's 2017-18 weighted student units to determine the district's baseline funding per weighted student unit.
  - b. For any school district that becomes an elementary district pursuant to section 15.1-07-27 after the 2017-18 school year, the superintendent shall adjust the district's baseline funding per weighted student unit used to calculate state aid. The superintendent shall divide the district's baseline funding determined in subsection 1 by the district's weighted student units after the school district becomes an elementary district to determine the district's adjusted baseline funding per weighted student unit. The superintendent shall use the district's adjusted baseline funding per weighted student unit in the calculation of state aid for the first school year in which the school district becomes an elementary district and for each year thereafter.
  - c. Beginning with the 2021-22 school year and for each school year thereafter, the superintendent shall reduce the district's baseline funding per weighted student unit. Each year the superintendent shall calculate the amount by which the district's baseline funding per weighted student unit exceeds the payment per weighted student unit provided in subsection 3. The superintendent shall reduce the district's baseline funding per weighted student unit by fifteen percent of the amount by which the district's baseline funding per weighted student unit exceeds the payment per weighted student unit for the 2021-22 school year. For each year thereafter, the reduction percentage is increased by an additional fifteen percent. However, the district's baseline funding per weighted student unit, after the reduction, may not be less than the payment per weighted student unit provided in subsection 3.
3. a. For the 2021-22 school year, the superintendent shall calculate state aid as the greater of:

- (1) The district's weighted student units multiplied by ten thousand one hundred thirty-six dollars;
  - (2) One hundred two percent of the district's baseline funding per weighted student unit, as established in subsection 2, multiplied by the district's weighted student units, not to exceed the district's 2017-18 baseline weighted student units, plus any weighted student units in excess of the 2017-18 baseline weighted student units multiplied by ten thousand one hundred thirty-six dollars; or
  - (3) The district's baseline funding as established in subsection 1 less the amount in paragraph 1, with the difference reduced by fifteen percent and then the difference added to the amount determined in paragraph 1.
- b. For the 2022-23 school year and each school year thereafter, the superintendent shall calculate state aid as the greater of:
- (1) The district's weighted student units multiplied by ten thousand two hundred thirty-seven dollars;
  - (2) One hundred two percent of the district's baseline funding per weighted student unit, as established in subsection 2, multiplied by the district's weighted student units, not to exceed the district's 2017-18 baseline weighted student units, plus any weighted student units in excess of the 2017-18 baseline weighted student units multiplied by ten thousand two hundred thirty-seven dollars; or
  - (3) The district's baseline funding as established in subsection 1 less the amount in paragraph 1, with the difference reduced by thirty percent for the 2022-23 school year and the reduction percentage increasing by fifteen percent each school year thereafter until the difference is reduced to zero, and then the difference added to the amount determined in paragraph 1.
- c. The superintendent also shall adjust state aid determined in this subsection to ensure the amount does not exceed the transition maximum as follows:
- (1) For the 2021-22 school year, the transition maximum rate is one hundred ten percent of the district's baseline funding per weighted student unit, as established in subsection 2, multiplied by the district's weighted student units from the previous school year.
  - (2) For the 2022-23 school year, the transition maximum rate is one hundred ten percent of the district's baseline funding per weighted student unit, as established in subsection 2, multiplied by the district's weighted student units from the previous school year.
  - (3) For the 2023-24 school year, the transition maximum rate is one hundred ten percent of the district's baseline funding per weighted student unit, as established in subsection 2, plus twenty percent of the difference between the rate under paragraph 1 of subdivision b of this subsection and one hundred ten percent of the district's baseline funding per weighted student unit. The transition maximum is

determined by multiplying the transition maximum rate, which may not exceed the rate under paragraph 1 of subdivision b of this subsection, by the district's weighted student units from the previous school year.

- (4) For the 2024-25 school year, the transition maximum rate is one hundred ten percent of the district's baseline funding per weighted student unit, as established in subsection 2, plus forty percent of the difference between the rate under paragraph 1 of subdivision b of this subsection and one hundred ten percent of the district's baseline funding per weighted student unit. The transition maximum is determined by multiplying the transition maximum rate, which may not exceed the rate under paragraph 1 of subdivision b of this subsection, by the district's weighted student units from the previous school year.
  - (5) For the 2025-26 school year, the transition maximum rate is one hundred ten percent of the district's baseline funding per weighted student unit, as established in subsection 2, plus sixty percent of the difference between the rate under paragraph 1 of subdivision b of this subsection and one hundred ten percent of the district's baseline funding per weighted student unit. The transition maximum is determined by multiplying the transition maximum rate, which may not exceed the rate under paragraph 1 of subdivision b of this subsection, by the district's weighted student units from the previous school year.
  - (6) For the 2026-27 school year, the transition maximum rate is one hundred ten percent of the district's baseline funding per weighted student unit, as established in subsection 2, plus eighty percent of the difference between the rate under paragraph 1 of subdivision b of this subsection and one hundred ten percent of the district's baseline funding per weighted student unit. The transition maximum is determined by multiplying the transition maximum rate, which may not exceed the rate under paragraph 1 of subdivision b of this subsection, by the district's weighted student units from the previous school year.
4. After determining the product in accordance with subsection 3, the superintendent of public instruction shall:
- a. Subtract an amount equal to sixty mills multiplied by the taxable valuation of the school district; and
  - b. Subtract an amount equal to seventy-five percent of all revenue types listed in subdivisions c and d of subsection 1. Before determining the deduction for seventy-five percent of all revenue types, the superintendent of public instruction shall adjust revenues as follows:
    - (1) Tuition revenue shall be adjusted as follows:
      - (a) In addition to deducting tuition revenue received specifically for the operation of an educational program provided at a residential treatment facility, tuition revenue received for the provision of an adult farm management program, tuition received for the education of high-cost and special education students, and tuition received under an agreement to educate students from a school district on an air force base with funding received through federal impact aid as directed each school year in paragraph 3 of subdivision c of

subsection 1, the superintendent of public instruction also shall reduce the total tuition reported by the school district by the amount of tuition revenue received for the education of students not residing in the state and for which the state has not entered a cross-border education contract; and

(b) The superintendent of public instruction also shall reduce the total tuition reported by admitting school districts meeting the requirements of subdivision e of subsection 2 of section 15.1-29-12 by the amount of tuition revenue received for the education of students residing in an adjacent school district.

(2) After adjusting tuition revenue as provided in paragraph 1, the superintendent shall reduce all remaining revenues from all revenue types by the percentage of mills levied in 2020 by the school district for sinking and interest relative to the total mills levied in 2020 by the school district for all purposes.

5. The amount remaining after the computation required under subsection 4 is the amount of state aid to which a school district is entitled, subject to any other statutory requirements or limitations.
6. On or before June thirtieth of each year, the school board shall certify to the superintendent of public instruction the final average daily membership for the current school year.
7. For purposes of the calculation in subsection 4, each county auditor, in collaboration with the school districts, shall report the following to the superintendent of public instruction on an annual basis:
  - a. The amount of revenue received by each school district in the county during the previous school year for each type of revenue identified in subdivisions c and d of subsection 1;
  - b. The total number of mills levied in the previous calendar year by each school district for all purposes; and
  - c. The number of mills levied in the previous calendar year by each school district for sinking and interest fund purposes.

The reduction must be proportional to the number of weighted student units in the grades that are offered through another school district relative to the total number of weighted student units the school district offered in the year before the school district became an elementary district. The reduced baseline funding applies to the calculation of state aid for the first school year in which the school district becomes an elementary district and for each year thereafter. For districts that become an elementary district prior to the 2020-21 school year, the superintendent shall use the reduced baseline funding to calculate state aid for the 2020-21 school year and for each year thereafter.

For each year thereafter, the reduction percentage is increased by an additional fifteen percent. However, the district's baseline funding per weighted student unit, after the reduction, may not be less than the payment per weighted student unit provided in subsection 3.
3. a. For the 2023-24 school year, the superintendent shall calculate state aid as the greater of:
    - (1) The district's weighted student units multiplied by ten thousand six hundred forty-six dollars;

- (2) One hundred two percent of the district's baseline funding per weighted student unit, as established in subsection 2, multiplied by the district's weighted student units, not to exceed the district's 2017-18 baseline weighted student units, plus any weighted student units in excess of the 2017-18 baseline weighted student units multiplied by ten thousand six hundred forty-six dollars; or
    - (3) The district's baseline funding as established in subsection 1 less the amount in paragraph 1, with the difference reduced by ~~forty-five~~forty percent and then the difference added to the amount determined in paragraph 1.
  - b. For the 2024-25 school year and each school year thereafter, the superintendent shall calculate state aid as the greater of:
    - (1) The district's weighted student units multiplied by eleven thousand seventy-two dollars;
    - (2) One hundred two percent of the district's baseline funding per weighted student unit, as established in subsection 2, multiplied by the district's weighted student units, not to exceed the district's 2017-18 baseline weighted student units, plus any weighted student units in excess of the 2017-18 baseline weighted student units multiplied by eleven thousand seventy-two dollars; or
    - (3) The district's baseline funding as established in subsection 1 less the amount in paragraph 1, with the difference reduced by ~~sixty~~fifty-five percent for the 2024-25 school year and the reduction percentage increasing by fifteen percent each school year thereafter until the difference is reduced to zero, and then the difference added to the amount determined in paragraph 1.
4. After determining the product in accordance with subsection 3, the superintendent of public instruction shall:
  - a. Subtract an amount equal to sixty mills multiplied by the taxable valuation of the school district, except the amount in dollars subtracted for purposes of this subdivision may not exceed the previous year's amount in dollars subtracted for purposes of this subdivision by more than twelve percent, adjusted pursuant to section 15.1-27-04.3; and
  - b. Subtract an amount equal to seventy-five percent of all revenue types listed in subdivisions c and d of subsection 1. Before determining the deduction for seventy-five percent of all revenue types, the superintendent of public instruction shall adjust revenues as follows:

(2) After adjusting tuition revenue as provided in paragraph 1, the superintendent shall reduce all remaining revenues from all revenue types by the percentage of mills levied in 2022 by the school district for sinking and interest relative to the total mills levied in 2022 by the school district for all purposes.

5. The amount remaining after the computation required under subsection 4 is the amount of state aid to which a school district is entitled, subject to any other statutory requirements or limitations.
6. On or before June thirtieth of each year, the school board shall certify to the superintendent of public instruction the final average daily membership for the current school year.
7. For purposes of the calculation in subsection 4, each county auditor, in collaboration with the school districts, shall report the following to the superintendent of public instruction on an annual basis:

  - (3) The district's baseline funding as established in subsection 1 less the amount in paragraph 1, with the difference reduced by ~~sixty~~fifty-five percent for the 2024-25 school year and the reduction percentage increasing by fifteen percent each school year thereafter until the difference is reduced to zero, and then the difference added to the amount determined in paragraph 1.
4. After determining the product in accordance with subsection 3, the superintendent of public instruction shall:
  - a. Subtract an amount equal to sixty mills multiplied by the taxable valuation of the school district; and

3. An eligible employee who elects under this section to participate in the retirement plan established under this chapter must remain a participant even if that employee returns to the classified service or becomes employed by a political subdivision that participates in the public employees retirement system. The contribution amount must be as provided in this chapter, regardless of the position in which the employee is employed. Notwithstanding the irrevocability provisions of this chapter, if a member who elects to participate in the retirement plan established under this chapter becomes a supreme or district court judge, becomes a member of the highway patrol, becomes employed in a position subject to teachers' fund for retirement membership, or becomes an employee of the board of higher education or state institution under the jurisdiction of the board of higher education who is eligible to participate in an alternative retirement program established under subsection 6 of section 15-10-17, the member's status as a member of the defined contribution retirement plan is suspended, and the member becomes a new member of the retirement plan for which that member's new position is eligible. The member's account balance remains in the defined contribution retirement plan, but no new contributions may be made to that account. The member's service credit and salary history that were forfeited as a result of the member's transfer to the defined contribution retirement plan remain forfeited, and service credit accumulation in the new retirement plan begins from the first day of employment in the new position. If the member later returns to employment that is eligible for the defined contribution retirement plan, the member's suspension must be terminated, the member again becomes a member of the defined contribution retirement plan, and the member's account resumes accepting contributions. At the member's option, and pursuant to rules adopted by the board, the member may transfer any available balance as determined by the provisions of the alternate retirement plan into the member's account under this chapter.

4. After consultation with its actuary, the board shall determine the method by which a participating member or deferred member may make a written election under this section. If the participating member or deferred member is married at the time of the election, the election is not effective unless the election is signed by the individual's spouse. However, the board may waive this requirement if the spouse's signature cannot be obtained because of extenuating circumstances.
5. If the board receives notification from the internal revenue service that this section or any portion of this section will cause the public employees retirement system or the retirement plan established under this chapter to be disqualified for tax purposes under the Internal Revenue Code, then the portion that will cause the disqualification does not apply.
6. A participating member under this section who becomes a temporary employee may still participate in the defined contribution retirement plan upon filing an election with the board within one hundred eighty days of transferring to temporary employee status. The participating member may not become a member of the defined benefit plan as a temporary employee.
  - a. The temporary employee electing to participate in the defined contribution retirement plan shall pay into the plan as provided under section 54-52.6-09.6.
  - b. An employer may not pay the temporary employee's contributions.
  - c. A temporary employee may continue to participate as a temporary employee until termination of employment or reclassification of the temporary employee as a permanent employee.
7. A former participating member under this section who has accepted a retirement distribution pursuant to section 54-52.6-13 and who subsequently becomes employed by an entity different from the employer with which the member was employed at the time the member retired but which does participate in any state-sponsored retirement plan may, before re-enrolling in the defined contribution retirement plan, elect to permanently waive future participation in the defined contribution retirement plan, whatever plan in which the new employing entity participates, and the retiree health program and maintain that member's retirement status. Neither the member nor the employer are required to make any future retirement contributions on behalf of that employee.
8. After December 31, ~~2024~~2023, an eligible employee is no longer allowed to elect participation under this section.

<sup>31</sup> **SECTION 47. AMENDMENT.** Subsection 1 of section 54-52.6-02.1 of the North Dakota Century Code, as created by section 16 of House Bill No. 1040, as approved by the sixty-eighth legislative assembly, is amended and reenacted as follows:

1. Except as otherwise provided under section 54-52-02.5 or 54-52-02.15 or this chapter, effective January 1, ~~2025~~2024, an eligible employee who is first enrolled shall participate in the defined contribution retirement plan under this chapter.

As used in this section, "eligible employee" means a permanent state employee who on December 31, 2024~~2023~~, is a participating member of the public employees retirement system main system plan under chapter 54-42, who has been a participating member under chapter 54-52 for no more than five years, and who is at least eighteen years of age.
2. The board shall provide a three-month election period, from January 1, 2025~~2024~~, through March 31, 2025~~2024~~, for an eligible employee to transfer to the defined contribution plan under this chapter pursuant to the rules and policies adopted by the board.
  - a. An election under this section made by a member of the public employees retirement system under chapter 54-52 to transfer to the defined contribution retirement plan under this chapter is irrevocable.
  - b. For an eligible employee who elects to transfer from the public employees retirement system under chapter 54-52 to the defined contribution retirement plan under this chapter, the board shall transfer a lump sum amount from the public employees retirement system fund to the member's account in the defined contribution retirement plan under this chapter. However, if the eligible employee terminates employment before receiving the lump sum transfer under this section, the election made is ineffective and the eligible employee remains a member of the public employees retirement system under chapter 54-52 and retains all the rights and privileges under that chapter.
  - c. The board shall calculate the lump sum amount to be transferred based on the actuarial present value of the eligible employee's accumulated benefit obligation under the public employees retirement system based on the assumption the eligible employee will retire under the earlier applicable normal retirement age, plus interest from January 1, 2025~~2024~~, to the date of transfer, at the rate of one-half of one percent less than the actuarial interest assumption at the time of the election.
  - d. This section does not affect an eligible individual's right to health benefits under chapter 54-52.1.
3. The state employer of an eligible employee who elects under this section to participate in the defined contribution retirement plan under this chapter shall pay an additional annual contribution of three thousand three hundred and thirty-three dollars for up to three years. Under this subsection, the employer shall pay the additional contribution each year the eligible employee continues permanent employment with the state, beginning January 2026~~2025~~, and extending no further than January 2028~~2027~~.

In addition, the participating member may elect to contribute monthly up to an additional three percent of the monthly salary or wage paid to the participant.

In lieu of assessing a civil penalty or one percent per month, or both, interest at the actuarial rate of return may be assessed for each month the contributions are delinquent. 3. Each employer, at its option, may pay the employee contributions required by this section for all compensation earned after December 31, 1999. The amount paid must be paid by the employer in lieu of contributions by the employee. If contributions are paid by the employer, they must be treated as employer contributions in determining tax treatment under this code and the federal Internal Revenue Code. Contributions paid by the employer may not be included as gross income of the employee in determining tax treatment under this code and the federal Internal Revenue Code until they are distributed or made available. The employer shall pay these employee contributions from the same source of funds used in paying compensation to the employee. The employer shall pay these contributions by effecting an equal cash reduction in the gross salary of the employee or by an offset against future salary increases or by a combination of a reduction in gross salary and offset against future salary increases. Employee contributions paid by the employer must be treated for the purposes of this chapter in the same manner and to the same extent as employee contributions made before the date on which employee contributions were assumed by the employer. An employer shall exercise its option under this subsection by reporting its choice to the board in writing.

<sup>41</sup> Section 27-20.2-21 was also amended by section 11 of House Bill No. 1137, chapter 294.

1. The director may suspend the operator's license of an individual, after hearing, upon proof by a fair preponderance of the evidence, that any of the following apply to the licensee:
  - a-1. Commission of an offense for which mandatory revocation of license is required upon conviction.
  - b-2. Incompetence to drive a motor vehicle.
  - e-3. Unlawful or fraudulent use of an operator's license.
  - d-4. Refusal to submit to an implied consent chemical test on an Indian reservation or in another state. For purposes of this subsection, the specific requirements for establishing a refusal used on the Indian reservation or in the other state may not be considered, and photostatic copies of the records of the other jurisdiction's driver's licensing authority are sufficient evidence of the refusal whether those copies are certified. The suspension must be for the same length of time as the revocation in section 39-20-04. If the refusal arose out of an arrest or stop of an individual while operating a commercial motor vehicle, the period of suspension must be the same as the period of revocation provided in section 39-06.2-10.
  - 2-5. Failure, as shown by the certificate of the court, to pay a fine or serve any other sentence as ordered by a court upon conviction for any criminal traffic offense.
  - 3-6. Failure, as shown by the certificate of the court, to appear in court or post and forfeit bond after signing a promise to appear, if signing is required by law, in violation of section 39-06.1-04, willful violation of a written promise to appear in court, in violation of section 39-07-08, or violation of equivalent ordinances or laws in another jurisdiction. Upon resolution by the operator of the underlying cause for a suspension under this subsection, as shown by the certificate of the court, the director shall record the suspension separately on the driving record. This separate record is not available to the public.
  - 4-7. An administrative decision on an Indian reservation or in another state that the licensee's privilege to drive on that Indian reservation or in that state is suspended or revoked because of a violation of that Indian reservation's or state's law forbidding motor vehicle operation with an alcohol concentration of at least eight one-hundredths of one percent by weight or, with respect to a person under twenty-one years of age, an alcohol concentration of at least two one-hundredths of one percent by weight, or because of a violation of that Indian reservation's or state's law forbidding the driving or being in actual physical control of a commercial motor vehicle while having an alcohol concentration of at least four one-hundredths of one percent by weight. The specific requirements for establishing the violation on the Indian reservation or in the other state may not be considered and certified copies of the records of the Indian reservation's or other state's driver's licensing authority are sufficient evidence of the violation. The suspension must be for the same duration as the suspension in section 39-20-04.1, if the violation does not involve a commercial motor vehicle. If the violation involves a commercial motor vehicle, the period of suspension must be the same as the period of suspension provided in section 39-06.2-10. For purposes of this section, originals, photostatic copies, or electronic transmissions of the records of the driver's licensing or other authority of the other jurisdiction are sufficient evidence whether they are certified copies.

- ~~5-8.~~ Conviction of an offense under this title and it appears from the director's records that the offense contributed to causing an accident which resulted in death or serious personal injury or serious property damage. A suspension may not be imposed if the individual has been sanctioned for the same offense under section 39-06-31.

### HOUSE BILL NO. 1423

(Representatives Thomas, Beltz, Fegley, Grueneich, Kempenich)  
(Senators Elkin, Kessel, Luick, Myrdal)

AN ACT to create and enact a new section to chapter 4.1-01 of the North Dakota Century Code, relating to a model zoning review task force; and to amend and reenact sections 11-33-02.1, 23.1-01-04, and 58-03-11.1 of the North Dakota Century Code, relating to a model zoning ordinance for animal feeding operations and the North Dakota insurance reserve fund.

#### BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

**SECTION 1. AMENDMENT.** Section 11-33-02.1 of the North Dakota Century Code is amended and reenacted as follows:

#### **11-33-02.1. Farming and ranching regulations - Requirements - Limitations - Definitions.**

1. For purposes of this section:
  - a. "Animal feeding operation" means a lot or facility, other than normal wintering operations for cattle and an aquatic animal production facility, where the following conditions are met:
    - (1) Animals, other than aquatic animals, have been, are, or will be stabled or confined and fed or maintained for at least forty-five days in a twelve-month period; and
    - (2) Crops, vegetation, forage growth, or postharvest residues are not sustained in the normal growing season over any portion of the lot or facility.
  - b. "Farming or ranching" means cultivating land for the production of agricultural crops or livestock, or raising, feeding, or producing livestock, poultry, milk, or fruit. The term does not include:
    - (1) The production of timber or forest products; or
    - (2) The provision of grain harvesting or other farm services by a processor or distributor of farm products or supplies in accordance with the terms of a contract.
  - c. "Livestock" includes beef cattle, dairy cattle, sheep, swine, poultry, horses, bison, elk, fur animals raised for their pelts, and any other animals that are raised, fed, or produced as a part of farming or ranching activities.
  - d. "Location" means the setback distance between a structure, fence, or other boundary enclosing an animal feeding operation, including its animal waste collection system, and the nearest occupied residence, the nearest buildings used for nonfarm or nonranch purposes, or the nearest land

- zoned for residential, recreational, or commercial purposes. The term does not include the setback distance for the application of manure or for the application of other recycled agricultural material under a nutrient management plan approved by the department of environmental quality.
2. For purposes of this section, animal units are determined as as provided in subdivision c of subsection 7 of section 23.1-06-15.
  3. A board of county commissioners may not prohibit or prevent the use of land or buildings for farming or ranching and may not prohibit or prevent any of the normal incidents of farming or ranching.
  4. A board of county commissioners may not preclude the development of an animal feeding operation in the county.
  5. A board of county commissioners may not prohibit the reasonable diversification or expansion of a farming or ranching operation.
  6. A board of county commissioners may adopt regulations that establish different standards for the location of animal feeding operations based on the size of the operation and the species and type being fed.
  7. If a regulation would impose a substantial economic burden on an animal feeding operation in existence before the effective date of the regulation, the board of county commissioners shall declare that the regulation is ineffective with respect to any animal feeding operation in existence before the effective date of the regulation.
  8.
    - a. A board of county commissioners may establish high-density agricultural production districts in which setback distances for animal feeding operations and related agricultural operations are less than those in other districts.
    - b. A board of county commissioners may establish, around areas zoned for residential, recreational, or nonagricultural commercial uses, low-density agricultural production districts in which setback distances for animal feeding operations and related agricultural operations are greater than those in other districts; provided, the low-density agricultural production districts may not extend more than one and one-half miles [2.40 kilometers] from the edge of the area zoned for residential, recreational, or nonagricultural commercial uses.
    - c. ~~The setbacks provided for in this subsection may not exceed those established in subdivision a of subsection 7 of section 23.1-06-15 unless the county can demonstrate compelling, objective evidence specific to the county which requires a greater setback within the county, in which case the setbacks may exceed those established in subdivision a of subsection 7 of section 23.1-06-15 by no more than fifty percent. If a setback under this subsection is greater than the corresponding setback established in subdivision a of subsection 7 of section 23.1-06-15, a person whose animal feeding operation will be or has been affected by the applicable county ordinance may request the agriculture commissioner review the ordinance. After the review, the agriculture commissioner shall provide a summary of the review to the attorney general and request an~~

~~opinion from the attorney general regarding whether the ordinance and setback are lawful.~~

- ~~c. A board of county commissioners may not adopt or enforce setbacks applicable to animal feeding operations that exceed the setback distances provided in subsection 7 of section 23.1-06-15.~~
  - d. For purposes of this subsection, a "related agricultural operation" means a facility that produces a product or byproduct used by an animal feeding operation.
9. A person intending to construct an animal feeding operation may petition the board of county commissioners for a determination whether the animal feeding operation would comply with zoning regulations adopted under this section and filed with the department of environmental quality under section 11-33-22 before the date the petition was received by the county. The petition must contain a description of the nature, scope, and location of the proposed animal feeding operation and a site map showing road access, the location of any structure, and the distance from each structure to the nearest section line. If the board of county commissioners does not validly object to the petition within sixty days of receipt, the animal feeding operation is deemed in compliance with the county zoning regulations. If the county allows animal feeding operations as a conditional use, the conditional use regulations must be limited to the board's authority under this section, and the approval process must comply with this section. The county shall make a decision ~~valid~~ determination on the application within sixty days of the receipt of a complete conditional use permit application. If the board of county commissioners determines the animal feeding operation would comply with zoning regulations or fails to object under this section, the county may not impose additional zoning regulations relating to the nature, scope, or location of the animal feeding operation later, provided an application is submitted promptly to the department of environmental equality, the department issues a final permit, and construction of the animal feeding operation commences within three years from the date the department issues its final permit and any permit appeals are exhausted. Any objection or determination that subsequently is reversed, set aside, or invalidated by a court of this state, is not a valid objection or decision for the purpose of calculating a procedural timeline under this section. A procedural timeline imposed by this section continues to be in effect during the pendency of any appeal of a county action or determination. A board of county commissioners may not:
- a. Regulate or impose zoning restrictions or requirements on animal feeding operations or other agricultural operations except as expressly permitted under this section; or
  - b. Impose water quality, closure, site security, lagoon, or nutrient plan regulations or requirements on animal feeding operations;
  - c. Charge fees or expenses of any kind totaling, in the aggregate, more than five hundred dollars in connection with any permit, petition, application, or other request relating to animal feeding operations; or
  - d. Require an existing animal feeding operation to have a permit for improvements or other modifications of an operation that is in current compliance with state and federal regulations or require an existing

operation to have a permit for improvements or other modifications that bring the operation into compliance with state or federal regulations, of the modifications or improvements do not cause the operation to exceed animal numbers of the setback requirement.

10. If a party challenges the validity of a county ordinance, determination, decision, or objection related to animal feeding operations, the court shall award the prevailing party actual attorney's fees, costs, and expenses.

**SECTION 2. AMENDMENT.** Section 23.1-01-04 of the North Dakota Century Code is amended and reenacted as follows:

**23.1-01-04. Rulemaking authority - Limitations.**

1. Except as provided in subsection 2, the department of environmental quality may not adopt any rule for the purpose of the state administering a program under the federal Clean Air Act [42 U.S.C. 7401 et seq.]; federal Clean Water Act [33 U.S.C. 1251 et seq.]; federal Safe Drinking Water Act [42 U.S.C. 300 et seq.]; federal Resource Conservation and Recovery Act [42 U.S.C. 6901 et seq.]; federal Comprehensive Environmental Response, Compensation, and Liability Act [42 U.S.C. 9601 et seq.]; federal Emergency Planning and Community Right to Know Act of 1986 [42 U.S.C. 11001 et seq.]; federal Toxic Substances Control Act [42 U.S.C. 2601 et seq.]; or federal Atomic Energy Act of 1954 [42 U.S.C. 2011 et seq.]; which is more stringent than corresponding federal regulations that address the same circumstances. In adopting the rules, the department may incorporate by reference corresponding federal regulations.
2. The department may adopt rules more stringent than corresponding federal regulations or adopt rules where there are no corresponding federal regulations, for the purposes described in subsection 1, only if the department makes a written finding after public comment and hearing and based upon evidence in the record, that corresponding federal regulations are not adequate to protect the public health and the environment of the state. Those findings must be supported by an opinion of the department referring to and evaluating the public health and environmental information and studies contained in the record which form the basis for the department's conclusions.
3. If the department, upon petition by any person affected by a rule of the department, identifies rules more stringent than federal regulations or rules where there are no corresponding federal regulations, the department shall review and revise those rules to comply with this section within nine months of the filing of the petition.
4. Any person issued a notice of violation, or a denial of a permit or other approval, based upon a rule of the department which is more stringent than a corresponding federal regulation or where there is no corresponding federal regulation, may assert a partial defense to that notice, or a partial challenge to that denial, on the basis and to the extent the department's rule violates this section by imposing requirements more stringent than corresponding federal regulations, unless the more stringent rule of the department has been adopted in compliance with this section.

**SECTION 3. AMENDMENT.** Section 58-03-11.1 of the North Dakota Century Code is amended and reenacted as follows:

**58-03-11.1. Farming and ranching regulations - Requirements - Limitations - Definitions.**

1. For purposes of this section:
  - a. "Animal feeding operation" means a lot or facility, other than normal wintering operations for cattle and an aquatic animal production facility, where the following conditions are met:
    - (1) Animals, other than aquatic animals, have been, are, or will be stabled or confined and fed or maintained for a total of forty-five days or more in any twelve-month period; and
    - (2) Crops, vegetation, forage growth, or postharvest residues are not sustained in the normal growing season over any portion of the lot or facility.
  - b. "Farming or ranching" means cultivating land for the production of agricultural crops or livestock, or raising, feeding, or producing livestock, poultry, milk, or fruit. The term does not include:
    - (1) The production of timber or forest products; or
    - (2) The provision of grain harvesting or other farm services by a processor or distributor of farm products or supplies in accordance with the terms of a contract.
  - c. "Livestock" includes beef cattle, dairy cattle, sheep, swine, poultry, horses, bison, elk, fur animals raised for their pelts, and any other animals that are raised, fed, or produced as a part of farming or ranching activities.
  - d. "Location" means the setback distance between a structure, fence, or other boundary enclosing an animal feeding operation, including its animal waste collection system, and the nearest occupied residence, the nearest buildings used for nonfarm or nonranch purposes, or the nearest land zoned as a residential, recreational, or commercial zoning district. The term does not include the setback distance for the application of manure or for the application of other recycled agricultural material under a nutrient management plan approved by the department of environmental quality.
2. For purposes of this section, animal units are determined as provided under subdivision c of subsection 7 of section 23.1-06-15.
3. A board of township supervisors may not prohibit or prevent the use of land or buildings for farming or ranching or any of the normal incidents of farming or ranching.
4. A regulation may not preclude the development of an animal feeding operation in the township.
5. A board of township supervisors may not prohibit the reasonable diversification or expansion of a farming or ranching operation.
6. A board of township supervisors may adopt regulations that establish different standards for the location of animal feeding operations based on the size of the operation and the species and type being fed.

7. If a regulation would impose a substantial economic burden on an animal feeding operation in existence before the effective date of the regulation, the board of township supervisors shall declare that the regulation is ineffective with respect to any animal feeding operation in existence before the effective date of the regulation.
8.
  - a. A board of township supervisors may establish high-density agricultural production districts in which setback distances for animal feeding operations and related agricultural operations are less than those in other districts.
  - b. A board of township supervisors may establish, around areas zoned for residential, recreational, or nonagricultural commercial uses, low-density agricultural production districts in which setback distances for animal feeding operations and related agricultural operations are greater than those in other districts; provided, the low-density agricultural production districts may not extend more than one-half mile [0.80 kilometer] from the edge of the area zoned for residential, recreational, or nonagricultural commercial uses.
  - c. ~~The setbacks provided for in this subsection may not exceed those established in subdivision a of subsection 7 of section 23.1-06-15 unless the township can demonstrate compelling, objective evidence specific to the township which requires a greater setback within the township, in which case the setbacks may exceed those established in subdivision a of subsection 7 of section 23.1-06-15 by no more than fifty percent. If a setback under this subsection is greater than the corresponding setback established in subdivision a of subsection 7 of section 23.1-06-15, a person whose animal feeding operation will be or has been affected by the applicable township ordinance may request the agriculture commissioner review the ordinance. After the review, the agriculture commissioner shall provide a summary of the review to the attorney general and request an opinion from the attorney general regarding whether the ordinance and setback are lawful.~~
  - c. A board of township supervisors may not adopt or enforce setbacks applicable to animal feeding operations that exceed the setback distances provided in subsection 7 of section 23.1-06-15.
  - d. For purposes of this subsection, a "related agricultural operation" means a facility that produces a product or byproduct used by an animal feeding operation.
9. A person intending to construct an animal feeding operation may petition the board of township supervisors for a determination whether the animal feeding operation would comply with zoning regulations adopted under this section and filed with the department of environmental quality under section 58-03-17 before the date the petition was received by the township. The petition must contain a description of the nature, scope, and location of the proposed animal feeding operation and a site map showing road access, the location of any structure, and the distance from each structure to the nearest section line. If the board of township supervisors does not validly object to the petition within sixty days of receipt, the animal feeding operation is deemed in compliance with the township zoning regulations. If the township allows animal feeding operations as a conditional use, the conditional use regulations must be

limited to the board's authority under this section, and the approval process must comply with this section. The township shall make a decision valid determination on the application within sixty days of the receipt of a complete conditional use permit application. If the board of township supervisors determines the animal feeding operation would comply with zoning regulations or fails to object under this section, the township may not impose additional zoning regulations relating to the nature, scope, or location of the animal feeding operation later, provided an application is submitted promptly to the department of environmental quality, the department issues a final permit, and construction of the animal feeding operation commences within three years from the date the department issues its final permit and any permit appeals are exhausted. Any objection or determination that subsequently is reversed, set aside, or invalidated by a court of this state, is not a valid objection or decision for the purpose of calculating a procedural timeline under this section. A procedural timeline imposed by this section continues to be in effect during the pendency of any appeal of a township action or determination. A board of township supervisors may not:

- a. Regulate or impose zoning restrictions or requirements on animal feeding operations or other agricultural operations except as expressly permitted under this section; or
  - b. Impose water quality, closure, site security, lagoon, or nutrient plan regulations or requirements on animal feeding operations;
  - c. Charge fees or expenses of any kind totaling, in the aggregate, more than five hundred dollars in connection with any permit, petition, application, or other request relating to animal feeding operations; or
  - d. Require an existing animal feeding operation to have a permit for improvements or other modifications of an operation that is in current compliance with state and federal regulations or require an existing operation to have a permit for improvements or other modifications that bring the operation into compliance with state or federal regulations, if the modifications or improvements do not cause the operation to exceed animal numbers of the setback requirement.
10. If a party challenges the validity of a township ordinance, determination, decision, or objection related to animal feeding operations, the court shall award the prevailing party actual attorney's fees, costs, and expenses.

**SECTION 4.** A new section to chapter 4.1-01 of the North Dakota Century Code is created and enacted as follows:

- b. The sample must be forwarded in a suitable container by parcel post or express, prepaid with the name and address of both parties for inspection by a federal licensed inspector, or a mutually agreed-upon third party, who will examine the grain and adjudge what grade, dockage, vomitoxin level, moisture content, or protein content the sample of grain is entitled to under the inspection rules and grades adopted by the secretary of agriculture of the United States.
  - c. The person requesting the inspection service shall pay for the inspection.
  - d. If the grain in question is damp, otherwise out of condition, or if moisture content is in dispute, the sample must be placed in an airtight container.

2. A licensed public warehouseman or an applicant for initial licensure shall report balance sheets and income statements to the commissioner annually on written application for initial licensure or license renewal if the applicant purchased up to ten million dollars worth of grain during the previous licensing period, or intends to purchase up to ten million dollars worth of grain during the first year of operation.
3. As a condition of licensure, an applicant shall provide the commissioner, upon request, any financial record or bank verification release the commissioner deems relevant for the purpose of verifying the financial information of an applicant pursuant to the requirements of this section.

4. As a condition of licensure, a new applicant must:
  - a. Pass a background check;

    - (3) Is competent and willing to operate a public warehouse in accordance with state and federal regulations; and

#### **4.1-58-08. Public warehouse license - Fee - Posting of license.**

1. A license must be obtained from the commissioner for each public warehouse in operation in this state. A license issued is for one year and terminates on the thirty-first day of July in the year of expiration. An initial annual license application that becomes effective after June first does not expire until July thirty-first of the following calendar year.
2. A license may not describe more than one public warehouse nor grant permission to operate a public warehouse other than the one described.
3. a. The annual license fee for a public warehouse is:
  - (1) Four hundred dollars for a warehouse that purchased up to one million dollars worth of grain during the previous licensing period, or intends to purchase up to one million dollars worth of grain during the first year of operation;
  - (2) Eight hundred dollars for a warehouse that purchased more than one million dollars worth of grain but not more than ten million dollars worth of grain during the previous licensing period, or intends to purchase more than one million dollars worth of grain but not more than ten million dollars worth of grain during the first year of operation; and
  - (3) One thousand two hundred dollars for a warehouse that purchased more than ten million dollars worth of grain during the previous licensing period, or intends to purchase more than ten million dollars worth of grain during the first year of operation.
- b. An application for an annual license renewal received after July fifteenth must include an additional one hundred dollar fee per warehouse.
4. If a public warehouseman operates two or more warehouses in the same city or railroad siding, in conjunction with each other and with the same working

force, and keeps one set of books and records for the warehouses, and issues one series of scale tickets, warehouse receipts, checks, and credit-sale contracts for the grain stored and purchased, only one license is required for the operation of all the warehouses. When two or more warehouses are operated under one license, the license fee is based upon the combined value of the grain purchased by the warehouses during the previous licensing period.

5. The license must be posted in a conspicuous place in the public warehouse.

#### **4.1-58-09. Warehouseman to operate warehouse owned by another.**

A warehouseman may operate under its license a warehouse owned by another person. Storage performed for the person in the entire licensed warehouse is excepted from the storage rate and discrimination provisions contained in sections 4.1-58-19 and 4.1-58-22 to the extent of the person's owned capacity in the warehouse.

#### **4.1-58-10. Receiving stations.**

1. A licensed public warehouseman may establish a receiving station without a separate warehouse license for that facility if:
  - a. The station is colocated with another licensed public warehouse, the operator of which takes delivery of the grain on behalf of the warehouseman that established the receiving station.
  - b. The storage space used by the receiving station is used solely by the receiving station and is not licensed as part of the warehouse located at that site.
  - c. The grain taken in by the receiving station is not commingled with other grain at that site.
  - d. The warehouseman establishing the station requests and receives permission from the commissioner to increase licensed capacity to include the space to be used at the receiving station.
  - e. Grain received at the receiving station is recorded on scale tickets issued by the warehouseman that established the station and is covered by that warehouseman's bond.
  - f. Warehouse-receipted grain received at the receiving station is available for redelivery to the receipt holder at that location even if the station has been closed. A charge for redelivery must be stated in the warehouseman's redelivery policy.
2. The storage space used by a receiving station need not be physically disconnected from the facilities of the other licensed warehouse located at that site.

#### **4.1-58-11. Bond filed by public warehouseman.**

1. Before a license is effective for a public warehouseman, the applicant for the license shall file a bond with the commissioner which must:

- a. Be in a sum not less than one hundred thousand dollars for any one warehouse.
  - b. Be continuous, unless the corporate surety by certified mail notifies the licensee and the commissioner the surety bond will be canceled ninety days after receipt of the notice of cancellation.
  - c. Run to this state for the benefit of all persons storing or selling grain in that warehouse.
  - d. Be conditioned:
    - (1) For the faithful performance of the licensee's duties as a public warehouseman.
    - (2) For compliance with the provisions of law and the rules of the commissioner relating to the storage and purchase of grain by the warehouseman.
  - e. Specify the location of each public warehouse intended to be covered by the bond.
  - f. Be for the specific purpose of:
    - (1) Protecting the holders of outstanding receipts.
    - (2) Covering the costs incurred by the commissioner in the administration of this chapter in the event of the licensee's insolvency.
  - g. Not accrue to the benefit of any person entering a credit-sale contract with a public warehouseman.
2. The aggregate liability of the surety under a bond does not accumulate for each successive annual license renewal period during which the bond is in force but, for losses during an annual license renewal period, is limited in the aggregate to the bond amount stated or changed by appropriate endorsement or rider.
  3. The commissioner shall set the amount of the bond and may require an increase in the amount of a bond as the commissioner deems necessary to accomplish the purposes of this section. The amount of the bond must be:
    - a. Based on the dollar value of the grain purchased; and
    - b. Calculated using the value of the amount of grain intended to be purchased by a new licensee during the first year of operation, or the three-year rolling annual average of the value of grain purchased at the time of license renewal.
  4. The surety on the bond must be a corporate surety company, approved by the commissioner, and authorized to do business within the state. The commissioner may accept cash, a negotiable instrument, or a bond executed by personal sureties in lieu of a surety bond if, in the commissioner's judgment, the cash, negotiable instrument, or personal surety bond properly will protect the holders of outstanding receipts.

5. One bond only may be given for a line of elevators, mills, or warehouses, owned, controlled, or operated by one individual, firm, corporation, or limited liability company, and the bond must be construed to cover the elevators, mills, or warehouses, as a whole and not a specific amount for each.

#### **4.1-58-12. Bond cancellation - Release of surety.**

1. The surety on a bond is released from all future liability accruing on the bond after the expiration of ninety days from the date of receipt by the commissioner of notice of cancellation by the surety or on a later date specified by the surety. This provision does not operate to relieve, release, or discharge the surety from any liability already accrued or which accrues before the expiration of the ninety-day period.
2. Unless the warehouseman files a new bond at least thirty days before liability ceases, the commissioner, without hearing, immediately shall suspend the warehouseman's license and the suspension may not be removed until a new bond has been filed and approved by the commissioner.
3. If a license is suspended under this section, the warehouseman shall give notice of the suspension to each receipt holder having grain stored in the warehouse.
4. The warehouseman shall notify each receipt holder having grain stored in the warehouse that the grain must be removed from the warehouse or the grain will be priced and redeemed in cash in accordance with section 4.1-58-40.

#### **4.1-58-13. Bond discount.**

1. The licensee may request a bond reduction based upon the licensee's conversion policy.
  - a. The required bond is reduced by thirty percent for a licensee that establishes and follows a conversion policy approved by the commissioner of ten days or fewer.
  - b. The required bond is reduced by fifteen percent for a licensee that establishes and follows a conversion policy approved by the commissioner of eleven to twenty-one days.
2. A reduction under this section may not be used to reduce the required bond below the minimum bond set in law.

#### **4.1-58-14. Revocation and suspension.**

1. Except as provided in subsection 2, the commissioner may suspend or revoke the license of a warehouseman for cause upon notice and hearing.

A warehouseman shall publish and post, in a conspicuous place in the warehouse, a publication identifying whether storage will be available to patrons or whether grain will be accepted via cash or a credit-sale contract arrangement.
3. A producer that fails to convert a scale ticket in accordance with subsection 1 forfeits any trust fund or credit-sale contract indemnity fund protection provided under sections 4.1-58-11, 4.1-58-21, and 4.1-58-45.

**4.1-58-19. Warehouse and storage contract - Storage rates - Terminal delivery.**

1. A warehouse receipt must contain, either on its face or reverse side, the following warehouse and storage contract:

#### **4.1-58-20. Covenant against liens may be inserted in warehouse receipt.**

A public warehouseman also may insert in the warehouse receipt the following provision:

If any of the grain embraced in this receipt proves to be covered by a chattel mortgage or other lien, or the partial or absolute title proves to be in someone other than the person to whom this receipt was issued, the same, if discovered before the delivery of the grain, is sufficient reason for the refusal to deliver to the holder of the receipt, or if discovered after the delivery of the grain, the delivery is deemed an additional delivery for which the holder of this receipt, to whom the delivery is made, is accountable.

#### **4.1-58-21. Credit-sale contracts.**

1. A warehouseman may not purchase grain by a credit-sale contract except as provided in this section. All credit-sale contracts must be in writing and must be consecutively numbered when printing the contract. An unsigned contract must be considered an unconverted scale ticket in accordance with section 4.1-58-15. The warehouseman shall retain one copy and deliver one copy to the seller. Upon revocation, termination, or cancellation of a warehouseman's license, the payment date for all credit-sale contracts, at the seller's option, must be advanced to a date not later than thirty days after the effective date of the revocation, termination, or cancellation, and the purchase price for all unpriced grain must be determined as of the effective date of revocation, termination, or cancellation in accordance with all other provisions of the contract. When a public warehouse is transferred under this chapter, credit-sale contracts may be assigned to another licensed public warehouseman.
  3. A warehouseman that uses deferred-payment contracts shall inform producers of bond protection.

#### **4.1-58-22. Discrimination by public warehouseman prohibited - Posting prices.**

1. A public warehouseman may not discriminate:

  - c. In regard to the persons offering grain for sale or storage; or
  - d. Between points or stations except as the marketing factors or transportation costs or grain quality premiums may warrant.
2. A public warehouseman is not required to receive for storage any grain that is heating or otherwise out of condition. Storing grain free of charge is prohibited except as prescribed by law. A warehouseman shall post grain prices paid in a conspicuous place in the office or driveway of the warehouseman's place of business.

#### **4.1-58-23. Issuance of informal memoranda forbidden - Penalty.**

A warehouseman that fails to issue a receipt, as is provided in sections 4.1-58-16 and 4.1-58-17, or issues slips, memoranda, or any other form of receipt embracing a different warehouse or storage contract than is provided for specifically in this chapter, is guilty of a class A misdemeanor.

#### **4.1-58-24. Liability of warehouseman.**

A public warehouseman is liable to the owner for the delivery of the kind, grade, quality, and quantity of grain called for by the warehouse receipt. Unless otherwise agreed, the value of any difference in kind, grade, quality, and quantity must be settled at the price on the local market on the day the warehouseman receives written request for delivery. The warehouseman may withhold from delivery a sufficient quantity of grain, based upon the local market price, to satisfy the value of any difference in kind, grade, or quality.

#### **4.1-58-25. Records to be kept by public warehouseman.**

1. A public warehouseman shall keep a record of all grain received, stored, and shipped, stating the:
  - a. Weight.

#### **4.1-58-26. Reports to be made by public warehouseman - Confidential information - Penalty for failure.**

1. Each licensed and bonded public warehouseman shall:
  - a. Prepare for each month a report giving facts and information called for on the form of report prepared by the commissioner. The report must contain or be verified by a written declaration the report is made under the penalties of perjury. The report may be called for more frequently if the commissioner deems necessary. Information pertaining to the volume of grain handled is a confidential trade secret and is not a public record. The commissioner may make the information available for use by other governmental entities, but the commissioner may not release the information in a manner that jeopardizes the confidentiality of individual licensees.
  - b. File the report with the commissioner not later than the last day of the following month, and failure to file this report promptly is cause for revoking the warehouse license after due notice and hearing.
  - c. Keep a separate account of the grain business, if the warehouseman is engaged in handling or selling any other commodity, and under no circumstances may the grain account and other accounts be mixed.

- d. Submit additional information requested by the commissioner pursuant to a report or an inspection within five business days.
2. The commissioner may refuse to renew a license to any public warehouseman that fails to make a required report.

#### **4.1-58-27. Bailment not a sale.**

When grain is delivered to any public warehouse and an unconverted scale ticket or a warehouse receipt is issued, the delivery is a bailment and not a sale of the grain delivered. The grain delivered may not be liable to seizure upon process of a court in an action against the bailee, except in an action by an owner of the unconverted scale ticket or warehouse receipt to enforce the terms of the delivery or obtain redelivery of the delivered grain. In the event of the failure or insolvency of the warehouseman, all the grain in the warehouse, whether the grain is stored or not, first must be applied at all times to the satisfaction of receipts issued by the warehouseman.

#### **4.1-58-28. Receiptholder's lien.**

Grain contained in a warehouse, including grain owned by the warehouseman, is subject to a first priority lien for outstanding receiptholders storing, selling, or depositing grain in the warehouse. The lien created under this section is preferred to any lien or security interest for any creditor of the warehouseman regardless of the time when the creditor's lien or security interest attached to the grain. Notice of the lien created under this section need not be filed to perfect the lien. The lien created by this section is discharged as to grain sold by the warehouseman to a buyer in the ordinary course of business. The sale does not discharge the lien for an individual receiptholder in the remaining grain in the warehouse.

#### **4.1-58-29. Standard weights to be used - Exception.**

A person purchasing, selling, or storing grain in a public warehouse in this state may not use any measure for the grain other than the standard bushel, and no number of pounds may be used or called a bushel other than the number of pounds provided by law as the standard weight of the kind of grain in question, except during the months of October and November, not exceeding eighty-two pounds [37.19 kilograms], and during the months of December and January, not exceeding seventy-six pounds [34.47 kilograms], may be used as the standard weight per bushel of new ear corn.

#### **4.1-58-30. Federal grades to control - Grades to be posted.**

2. Warehousemen of dry edible beans shall purchase, store, and deliver beans in accordance with the policy of the warehousemen which must be filed with the commissioner and posted in a conspicuous place in the warehouse of the public warehousemen.

3. Other grading standards may be used if mutually agreed to in writing by the warehouseman and the owner of the grain. However, the owner may demand the use of federal grading standards.
4. The commissioner, after a hearing, may prohibit the use of nonfederal grades.

#### **4.1-58-31. Grading of grain - Penalty.**

1. A public warehouseman before testing for grade any grain handled by the warehouseman shall remove and make due allowance for any dockage of the grain made by reason of the presence of straw, weed seeds, dirt, or any other foreign matter.

#### **4.1-58-32. Termination of public grain warehouse storage contracts - Notice to receipt holder.**

1. A storage contract terminates on the date identified in the publication required by section 4.1-58-19. If a different termination date is not identified in the publication, a storage contract on grain in a public grain warehouse terminates on June thirtieth of each year, except for a storage contract on dry edible beans which terminates on April thirtieth of each year.
2. Storage of grain in a public grain warehouse may be terminated by the receipt holder at any time before the applicable date by the payment of all legal charges and the surrender of the warehouse receipt, with a demand for delivery of the grain in storage, or notice to the public warehouseman to sell the stored grain.
3. Upon the expiration of the storage contract, the warehouseman is not obligated to renew the storage contract.
4. At least thirty days before the termination date of a storage contract, the public warehouseman shall notify the receipt holder by mail of the warehouseman's intention to terminate the storage contract on the date identified in the storage contract, unless the receipt holder, before that time, demands redelivery, authorizes sale, extends the storage contract, or enters a new contract with the public warehouseman for restorage. Failure to notify the receipt holder, as required by this section, results in the forfeiture of storage charges accrued for the grain during the previous twelve months.
5. In the absence of a demand for delivery, an order to sell, or an agreement between the public warehouseman and the receipt holder for storage after the termination date of the storage contract, the warehouseman, upon the expiration of the storage contract, may sell at the local market price on the close of business on that day, all stored grain of the receipt holder and tender to the receipt holder the proceeds of the sale, less accrued storage charges, and the public warehouseman's advances upon any previous storage contract of the receipt holder.

#### **4.1-58-33. Reissue warehouse receipts - Provisions.**

Upon payment of all legal accrued charges and the surrender to the warehouseman of a receipt, if the receipt holder and the warehouseman agree to

continue the storage contract, the warehouseman may extend the storage contract or issue a new warehouse receipt to the owner and cancel the former receipt by endorsing on the receipt the words: "Canceled by the issuance of warehouse receipt no. \_\_\_\_\_", inserting the number of the reissue warehouse receipt thereafter, and the holder's name must be signed thereto by the holder or by the holder's authorized agent. The reissue warehouse receipt must be designated by stamping on the receipt: "Reissue of warehouse receipt no. \_\_\_\_\_".

#### **4.1-58-34. Delivery of grain - Demand terminates storage charge.**

On the return and surrender of any receipt and the payment of all lawful charges, the grain represented on the receipt must be deliverable to the owner and is not subject to any further charge for storage after demand for delivery is made and proper facilities for receiving or shipping the grain have been provided. The owner of the receipt shall order the receptacle in which the grain covered by the owner's receipt is to be transported, and the grain must be delivered when the ordered receptacle is in proper condition for loading and is placed at the warehouse. The licensee may not assess receiving or redelivery fees on the grain redelivered during a suspension, following a revocation, or when the owner of the grain is taking redelivery because the licensee is unable to pay for the grain.

#### **4.1-58-35. Grain to be kept insured for benefit of owner by warehouseman.**

A public warehouseman license is not effective unless all grain in storage or on deposit in the warehouse is kept fully insured at the expense of the warehouseman for the benefit of the owner at the current market value of the grain against loss by fire, lightning, internal explosion, windstorm, cyclone, tornado, and other risks of direct physical loss as provided by the insurer in a policy approved by the insurance commissioner. An insurance policy covering grain in a public warehouse may not be transferred or assigned to any person for any purpose, except for grain that is not on warehouse receipt or deposit. The insurance policy must be continuous and may only be canceled in accordance with section 4.1-58-36.

#### **4.1-58-36. Insurance - Cancellation - Suspension of license.**

An insurance company shall give at least ten days' notice to the commissioner and the insured by certified mail return receipt requested before cancellation of an insurance policy required under section 4.1-58-35. #### **4.1-58-38. Refund of license fee by commissioner.**

If requested in writing, the commissioner shall refund the license fee of a public warehouse, or so much as in the commissioner's judgment is just and reasonable, if satisfactory proof is furnished the warehouse has been transferred to some other person, and the new owner has obtained a license for the same warehouse for the

unexpired period for which the original license was issued. If a warehouse is destroyed by fire or other cause, the license fee may be prorated as the commissioner may determine.

#### **4.1-58-39. Transfer of warehouse - Redemption of receipts.**

1. If a public warehouseman desires to transfer a warehouse, either by sale or lease to any other person, the warehouseman shall:
  - a. Notify the commissioner of the warehouseman's intention to transfer the warehouse, giving the name and address of the proposed lessee or purchaser.
  - b. Furnish a statement of all proper claims that may be filed or pending against the warehouseman pertaining to the storage, inspection, and marketing of grain, with a statement of:
    - (1) The number of bushels of grain of each kind and grade in store in the warehouse;
    - (2) The number and amount of receipts outstanding; and
    - (3) The names and addresses of the receiptholders.
  - c. Serve notice by registered mail, at least thirty days before the transfer, upon all receiptholders having claims against the warehouse to call for delivery of the grain covered by the receipts, and to pay all storage charges due, the warehouseman to make no charge for redelivery. The commissioner may waive the thirty-day notice period upon receipt of written consent of all receiptholders.
  - d. Transfer all stored grain undelivered at the expiration of the thirty-day period to the warehouseman's successor, if licensed, or to the nearest licensed warehouse for restorage, taking receipts for the restorage for the owner of the grain transferred.
  - e. Surrender to the commissioner the warehouseman's license for cancellation, at which time the proposed lessee or purchaser shall file in due form for a new license and tender a new bond for review by the commissioner, at which time, the commissioner, first being duly satisfied all the outstanding receipts have been redeemed, or that the redemption of all outstanding receipts has been provided for, the commissioner may permit a new license to become effective for the lessee or purchaser.
2. A sale, lease, or transfer of any warehouse may not be recognized by the commissioner except when made in accordance with this section.

The holder of the receipts, upon due notice, shall accept this price and surrender the receipts.

2. A public warehouseman that voluntarily ceases business or fails to renew an existing warehouse license or has the warehouse license revoked shall notify the commissioner and all outstanding receiptholders of the closing and redeem all outstanding unconverted scale tickets or warehouse receipts at the price prevailing on the date the warehouse closed or at the option of the owner of the receipt redeliver the kind, grade, and quantity of grain called for by the unconverted scale ticket or warehouse receipt.
3. On commingled grain the value of over and under deliveries in quantity, grade, and protein must be settled in cash and priced on the market on the day of closing.

#### **4.1-58-41. Cease and desist.**

If a warehouseman engages in an activity or practice contrary to this chapter or related rules, the commissioner, upon the commissioner's own motion without complaint, with or without hearing, may order the warehouseman to cease and desist from the activity until further order of the commissioner. An order may include any corrective action up to and including license suspensions. A cease and desist order must be accompanied by a notice of opportunity to be heard on the order within fifteen days of the issuance of the order.

#### **4.1-58-42. Agricultural contracts - Mediation or arbitration.**

If a written contract for the sale of grain does not contain provisions to settle disagreements concerning factors not governed by section 4.1-58-04, the parties shall attempt to resolve the disagreements through mediation or arbitration.

#### **4.1-58-43. Licensed warehouse capacity and condominium storage.**

1. Unless an entire warehouse facility is used for nonpublic purposes, all physically connected portions of the facility must be licensed in accordance with this chapter.
2. The warehouseman shall issue receipt memoranda for all grain received.
3. Facilities that are physically connected to the licensed warehouse may be sold under a condominium arrangement or leased to other entities for nonpublic use and sales and lease agreements must be based on the capacity of the bins involved and not on the number of bushels held in the space.
4. The licensee shall provide contents insurance and bond coverage for the space.
5. If a licensee becomes insolvent, the contents of the space must be considered an asset to the trust fund established under this chapter and owners and lessees are entitled to trust fund protection in a manner equal to all other valid grain receiptholders.

#### **4.1-58-44. Insolvency of warehouseman.**

A licensee is insolvent when the licensee refuses, neglects, or is unable upon proper written demand, including electronic communication, to pay for grain purchased or marketed by the licensee or to make redelivery or payment for grain stored.

#### **4.1-58-45. Trust fund established - Trustee.**

1. Upon the insolvency of a warehouseman, a trust fund must be established:
  - a. For the benefit of noncredit-sale receiptholders of the insolvent warehouseman, other than those that have waived their rights as beneficiaries of the trust fund in accordance with section 4.1-58-15; and
  - b. To pay the costs incurred by the commissioner in the administration of this chapter.
2. The trust fund consists of the following:
  - a. The grain in the warehouse of the insolvent warehouseman or the proceeds as obtained through the sale of the grain;
  - b. The proceeds, including accounts receivable, from any grain sold from the time of the filing of the claim that precipitated an insolvency until the commissioner is appointed trustee;
  - c. The proceeds of insurance policies upon grain destroyed in the elevator;

  - f. Unencumbered accounts receivable for grain sold before the filing of the claim that precipitated an insolvency;
  - g. Unencumbered equity in grain hedging accounts; and
  - h. Unencumbered grain product assets.
3. Upon the insolvency of a warehouseman, the commissioner shall act as trustee of the trust fund.

#### **4.1-58-46. Possession of grain.**

Upon the commissioner's appointment, the commissioner shall seek possession of the grain to be included in the trust fund. Upon the commissioner's possession of any grain in the warehouse, the commissioner shall sell the grain and apply the proceeds to the trust fund.

#### **4.1-58-47. Joinder of surety - Deposit of proceeds.**

The surety on the warehouseman's bond must be joined as a party to the insolvency proceeding upon a motion by the commissioner if the commissioner believes proceeds from the warehouseman's bond may be needed to redeem outstanding receipts issued by the warehouseman. If it appears in the best interests of the receiptholders, the commissioner may order the surety to deposit the penal sum of the bond, or so much of the sum as may be deemed necessary, into the trustee's trust account pending a final determination of the surety's liability under the bond.

#### **4.1-58-48. Notice to receiptholders and credit-sale contract claimants.**

1. Upon the commissioner's appointment, the commissioner may take possession of relevant books and records of the warehouseman.
2. The commissioner shall cause a notice of the commissioner's appointment to be published once each week for two consecutive weeks in a newspaper in the county in which the warehouse is located and may notify by ordinary mail the holders of record of outstanding receipts and those that are potential credit-sale contract claimants, as shown by the warehouseman's records.
3. The notices must require outstanding receiptholders and credit-sale contract claimants to file claims against the warehouseman with the commissioner along with the receipts, contracts, or any other evidence of the claims as required by the commissioner.
4. If an outstanding receiptholder or credit-sale contract claimant fails to submit a claim within forty-five days after the last publication of the notice or a longer time as prescribed by the commissioner, the commissioner is relieved of further duty or action under this chapter on behalf of the receiptholder or credit-sale contract claimant and the receiptholder or credit-sale contract claimant may be barred from payment for any amount due.
5. Outstanding receiptholders and credit-sale contract claimants are not parties to the insolvency action unless admitted by the court upon a motion for intervention.

#### **4.1-58-49. Remedy of receiptholders.**

A receiptholder does not have a separate claim for relief upon the warehouseman's bond, for insurance, against any person converting grain, nor against any other receiptholder, except through the trustee, unless, upon demand of five or more receiptholders, the commissioner fails or refuses to apply for the commissioner's own appointment. This chapter does not prohibit or prevent a receiptholder, either individually or with other receiptholders, from pursuing concurrently other remedies against the person or property of the warehouseman, for the whole, or any deficiency occurring in the redemption, of the receipts.

#### **4.1-58-50. Commissioner to marshal trust assets.**

Upon the commissioner's appointment, the commissioner may maintain suits at law or in equity, or any special proceeding, in the name of this state, upon the commissioner's own relation, but for the benefit of all receiptholders against: the insurers of grain; the warehouseman's bond; a person that may have converted any grain; or a receiptholder that received more than the receiptholder's just and pro rata share of grain, for the purpose of marshalling all trust fund assets and distributing the same among the receiptholders. The commissioner shall seek possession of any grain in the warehouse before recourse is had against the insurers of grain, and the remedy against the insurers of grain must be exhausted before recourse is had against the bond, and against the bond before recourse is had against the person honestly converting grain, unless the commissioner deems it necessary to the redemption of the receipts that all the above remedies be pursued at the same time.

#### **4.1-58-51. Power of commissioner to prosecute or compromise claims.**

The commissioner may:

1. Prosecute an action provided in this chapter in any court in this state or in any other state.
2. Appeal from an adverse judgment to the courts of last resort.
3. Settle and compromise an action if it is in the best interests of the receiptholders.

5. Upon payment of the amount of the compromise or of the full amount of an insurance policy, bond, or conversion claim, exonerate the person so compromising or paying in full from further liability growing out of the action.

#### **4.1-58-52. Commissioner's authority - Warehouseman - Trust assets.**

Upon the commissioner's determination continued operation of a warehouseman is likely to result in probable loss of assets to receiptholders, the commissioner may immediately suspend, close, or take control of the assets held in a trust fund described in section 4.1-58-45, or take any combination of these actions as the commissioner deems necessary to begin an orderly liquidation of those trust fund assets as provided in this chapter.

#### **4.1-58-53. Money received by trustee - Deposited in Bank of North Dakota.**

Copies of the report and notice of hearing must be served by the commissioner by certified mail upon the licensee and the surety and by ordinary mail upon all persons having claims filed with the commissioner.
4. 1. Grain buyers that purchase, solicit, merchandise, or take possession of grain in this state shall obtain an annual license from the commissioner. Except as provided in this section, each license expires on July thirty-first of each year. If a licensee's initial license is issued effective after May thirty-first, that license expires on July thirty-first of the following year. The annual license fee for a grain buyer is:
  - a. Four hundred dollars for a grain buyer that purchased up to one million dollars worth of grain during the previous licensing period, or intends to purchase up to one million dollars worth of grain during the first year of operation;
  - b. Eight hundred dollars for a grain buyer that purchased more than one million dollars worth of grain but not more than ten million dollars worth of grain during the previous licensing period, or intends to purchase more than one million dollars worth of grain but not more than ten million dollars worth of grain during the first year of operation; and
  - c. One thousand two hundred dollars for a grain buyer that purchased more than ten million dollars worth of grain during the previous licensing period, or intends to purchase more than ten million dollars worth of grain during the first year of operation.

2. The surety on the bond must be a corporate surety company, approved by the commissioner and authorized to do business within the state. The commissioner may accept cash, a negotiable instrument, or a bond executed by personal sureties in lieu of a surety bond when, in the commissioner's judgment, cash, a negotiable instrument, or a personal surety bond properly will protect the holders of outstanding receipts.

#### **4.1-59-10. Bond discount.**

1. The licensee may request a bond reduction based upon the licensee's payment policy.
  - a. The required bond is reduced by thirty percent for a licensee that establishes and follows a payment policy approved by the commissioner of ten days or fewer.
  - b. The required bond is reduced by fifteen percent for a licensee that establishes and follows a payment policy approved by the commissioner of eleven to twenty-one days.

2. A reduction under this section may not be used to reduce required bond below the minimum bond set by law.

#### **4.1-59-11. Bond cancellation - Release of surety.**

The surety on a bond is released from all future liability accruing on the bond after the expiration of ninety days from the date of receipt by the commissioner of notice of cancellation by the surety or on a later date specified by the surety. This provision does not operate to relieve, release, or discharge the surety from any liability already accrued or which accrues before the expiration of the ninety-day period. Unless the grain buyer files a new bond at least thirty days before liability ceases, the commissioner, without hearing, immediately shall suspend the grain buyer's license and the suspension may not be removed until a new bond has been filed and approved by the commissioner.

#### **4.1-59-12. Revocation and suspension.**

The commissioner may suspend or revoke the license of a grain buyer for cause upon notice and hearing. Notwithstanding any other provision of this chapter, the commissioner shall suspend the license of a grain buyer for failure at any time to maintain a bond.

Every grain buyer, upon receiving grain, shall issue a uniform scale ticket or comparable receipt for each load of grain received. Receipts must be numbered consecutively and one copy of each receipt must be retained and remain as a permanent record. The original receipt must be delivered to the person from which the grain is received, upon each load of grain.

#### **4.1-59-14. Credit-sale contracts.**

1. A grain buyer may not purchase grain by a credit-sale contract except as provided in this section. All credit-sale contracts must be in writing and must be consecutively numbered when printing the contract. The grain buyer shall maintain an accurate record of all credit-sale contract numbers, including the disposition of each numbered form, whether by execution, destruction, or otherwise. Each credit-sale contract must include:
  - a. The seller's name and address.
  - b. The conditions of delivery.
  - c. The amount and kind of grain delivered.
  - d. The price per unit or basis of value.
  - e. The date payment is to be made.
  - f. The duration of the credit-sale contract.
  - g. Notice in a clear and prominent manner that the sale is not protected by the bond coverage provided for in section 4.1-59-09. However, if the grain buyer has obtained bond coverage in addition to that required by section 4.1-59-09 and the coverage extends to the benefit of credit-sale contracts, the grain buyer may state that fact in the credit-sale contract along with the extent of the coverage.

2. The contract must be signed by both parties and executed in duplicate. An electronic signature satisfies this requirement. A holder of an unsigned contract is not eligible for any protection provided by chapter 4.1-62. The grain buyer shall retain one copy and deliver one copy to the seller. Upon revocation, termination, or cancellation of a grain buyer's license, the payment date for all credit-sale contracts, at the seller's option, must be advanced to a date not later than thirty days after the effective date of the revocation, termination, or cancellation, and the purchase price for all unpriced grain must be determined as of the effective date of revocation, termination, or cancellation in accordance with all other provisions of the contract.
3. A buyer that offers deferred-payment contracts shall inform producers of bond protection.

#### **4.1-59-15. Discrimination by grain buyer prohibited.**

1. A grain buyer may not discriminate:
  - a. In the buying, selling, receiving, and handling of grain or in the charges made or the service rendered to owners of purchased grain;
  - b. In the receiving of grain offered for sale, but this chapter does not require a processor to receive or purchase any lot or kinds of grain;
  - c. In regard to the persons offering grain for sale; or
  - d. Between points or stations except as the marketing factors or transportation costs or grain quality premiums may warrant.
2. A grain buyer is not required to receive any grain that is heating or otherwise out of condition.

#### **4.1-59-16. Records required to be kept by grain buyers.**

A grain buyer shall keep such accounts, records, and memoranda concerning the buyer's dealing as the grain buyer as may be required by the commissioner and shall make any reports of purchases of grain as may be required by the rules adopted by the commissioner. The commissioner at all times must have access to the accounts, records, and memoranda.

#### **4.1-59-17. Reports to be made by grain buyers - Penalty for failure - Confidential records.**

1. Each licensed and bonded grain buyer shall:
  - a. Prepare for each month a report giving facts and information called for on the form of report prepared by the commissioner.
    - (1) The report must contain or be verified by a written declaration the report is made under the penalties of perjury.
    - (2) The report may be called for more frequently if the commissioner deems necessary.
    - (3) Information pertaining to the value of grain handled is a confidential trade secret and is not a public record. The commissioner may make

this information available for use by other governmental entities, but the information may not be released by those entities in a manner that jeopardizes the confidentiality of individual licensees.

- b. File the report with the commissioner not later than the last day of the following month. Failure to file this report promptly is cause for revoking the grain buyer license after due notice and hearing.
  - c. Keep a separate account of the grain business. If the grain buyer is engaged in handling or selling any other commodity, the grain account and other accounts may not be mixed.
  - d. Submit additional information requested by the commissioner pursuant to a report or an inspection within five business days.
2. The commissioner may refuse to renew a license to any grain buyer that fails to make a required report.

#### **4.1-59-18. Standard weights to be used - Exception.**

A person purchasing grain may not use any measure for the grain other than the standard bushel, and a number of pounds may not be used or called a bushel other than the number of pounds provided by law as the standard weight of the kind of grain in question, except that during the months of October and November, not exceeding eighty-two pounds [37.19 kilograms], and during the months of December and January, not exceeding seventy-six pounds [34.47 kilograms], may be used as the standard weight per bushel of new ear corn.

#### **4.1-59-19. Federal grades to control - Grades to be posted.**

1. A grain buyer shall purchase grain, except dry edible beans, in accordance with the official grades established by the secretary of agriculture of the United States, except as otherwise provided in applicable rules and regulations adopted by federal officials pursuant to law.
2. A grain buyer of dry edible beans shall purchase and deliver beans in accordance with the buyer's policy, which must be filed with the commissioner and, if applicable, posted in a conspicuous place in the buyer's facility.
3. Other grading standards may be used if mutually agreed to in writing by the grain buyer and the owner of the grain. However, the owner may demand the use of federal grading standards.
4. After hearing, the commissioner may prohibit the use of nonfederal grades.

#### **4.1-59-20. Grading of grain - Penalty.**

A grain buyer, before testing for grade any grain handled by the grain buyer, shall remove and make due allowance for any dockage of the grain made by reason of the presence of straw, weed seeds, dirt, or any other foreign matter. A grain buyer that violates this provision is guilty of a class B misdemeanor.

#### **4.1-59-21. Insolvency of grain buyer.**

A licensee is insolvent when the licensee refuses, neglects, or is unable upon proper written demand, including electronic communication, to pay for grain

purchased or marketed by the licensee or is unable to make redelivery upon proper written demand, including electronic communication. The licensee may not assess receiving or redelivery fees on grain.

#### **4.1-59-22. Trust fund established - Trustee.**

1. Upon the insolvency of a licensee, a trust fund must be established for the benefit of noncredit-sale receiptholders and to pay the costs incurred by the commissioner in the administration of the insolvency. The trust fund consists of the following:
  - a. Nonwarehouse receipt grain of the insolvent licensee held in storage or the proceeds obtained from the conversion of the grain.
  - b. The proceeds, including accounts receivable, from any grain sold from the time of the filing of the claim that precipitated an insolvency until the commissioner is appointed trustee must be remitted to the commissioner and included in the trust fund.
  - c. The proceeds of insurance policies on destroyed grain.
  - d. The claims for relief, and proceeds from the claims for relief, for damages upon bond given by the licensee to ensure faithful performance of the duties of a licensee.
  - e. The claim for relief, and proceeds from the claim for relief, for the conversion of any grain stored in the warehouse.
  - f. Unencumbered accounts receivable for grain sold before the filing of the claim that precipitated an insolvency.
  - g. Unencumbered equity in grain hedging accounts.
  - h. Unencumbered grain product assets.
2. Upon the insolvency of a grain buyer, the commissioner shall act as trustee of the trust fund.
3. All funds received by the commissioner as trustee must be deposited in the Bank of North Dakota.

#### **4.1-59-23. Joinder of surety - Deposit of proceeds.**

Each surety on the insolvent licensee's bonds must be joined as a party to the insolvency proceeding. If it is in the best interests of the receiptholders, the court may order a surety to deposit some or all of the penal sum of the bond into the trustee's trust account pending determination of the surety's liability under the bond.

#### **4.1-59-24. Joinder - Grain broker.**

A licensed grain broker may be joined as a party to an insolvency proceeding if the commissioner determines the grain broker negotiated a grain transaction with an insolvent grain buyer or which was discriminatory, predatory, or in bad faith.

#### **4.1-59-25. Notice to receiptholders and credit-sale contract claimants.**

1. Upon the commissioner's appointment, the commissioner may take possession of relevant books and records of the licensee.
2. If the insolvency involves a roving grain buyer, the commissioner shall publish a notice of the commissioner's appointment once each week for two consecutive weeks in all daily newspapers in the state and may notify, by ordinary mail, the holders of record of outstanding receipts and those that are potential credit-sale contract claimants, disclosed by the licensee's records.
3. If the insolvency involves a grain processor, the notice must be published once each week for two consecutive weeks in a newspaper in the county in which the facility is located.
4. The notice must require outstanding receiptholders and credit-sale contract claimants to file claims with the commissioner along with the receipts, contracts, or other evidence of the claims required by the commissioner.
5. If an outstanding receiptholder or credit-sale contract claimant fails to submit a claim within forty-five days after the last publication of the notice or a longer time set by the commissioner, the commissioner is relieved of further duty in the administration of the insolvency on behalf of the receiptholder or credit-sale contract claimant and the receiptholder may be barred from participation in the trust fund, and the credit-sale contract claimant may be barred from payment for any amount due.
6. Outstanding receiptholders and credit-sale contract claimants are not parties to the insolvency action unless admitted by the court upon a motion for intervention.

#### **4.1-59-26. Remedy of receiptholders.**

A receiptholder does not have a separate claim for relief upon any insolvent licensee's bond, for insurance, against any person converting grain, nor against any other receiptholder, except through the trustee, unless, upon demand of five or more receiptholders, the commissioner fails or refuses to apply for the commissioner's own appointment or unless the district court denies the application. This chapter does not prohibit a receiptholder, either individually or with other receiptholders, from pursuing concurrently any other remedy against the person or property of the licensee.

#### **4.1-59-27. Commissioner to marshal trust assets.**

Upon the commissioner's appointment, the commissioner shall marshal all trust fund assets. The commissioner may maintain suits in the name of the state of North Dakota for the benefit of all receiptholders against the licensee's bonds, insurers of grain, any person that may have converted any grain, and any person that may have received preferential treatment by being paid by the insolvent licensee after the first default.

#### **4.1-59-28. Power of commissioner to prosecute or compromise claims.**

The commissioner may:

  - a. Relevant liens or pledges.
  - b. Relevant assignments.
  - c. Relevant deductions due to advances or offsets accrued in favor of the licensee.
  - d. Relevant cash claims or checks, the amount of the claim.
  - e. Relevant credit-sale contract or noncredit-sale contract, the amount remaining to be paid based on the terms of the contract.
2. The report also must contain the proposed reimbursement to the commissioner for the expenses of administering the insolvency, the proposed distribution of the trust fund assets to receiptholders, less expenses incurred by the commissioner in the administration of the insolvency, and the proposed credit-sale contract indemnity fund payments to credit-sale contract claimants. If the trust fund is insufficient to redeem all receiptholder claims in full, the report must list the funds as prorated.
3. The commissioner shall set a hearing and the appropriate notice for interested persons to show cause why the commissioner's report should not be approved and distribution of the trust fund be made as proposed. The commissioner shall serve copies of the report and notice of hearing by certified mail upon the licensee and the surety and by ordinary mail upon all persons having claims filed with the commissioner.
4. An aggrieved person having an objection to the commissioner's report shall file the objection with the commissioner and serve copies on the commissioner, the licensee, and the surety at least twenty days before the hearing. Failure to file and serve objections in the time set is a waiver of the objection.
5. Following the hearing, the commissioner shall approve or modify the report and issue an order directing payment of the necessary bond proceeds, distribution of the trust fund, payments from the credit-sale contract indemnity fund, and discharge of the commissioner from the commissioner's trust.
6. If an aggrieved person still has objection with commissioner's report after hearing the person may appeal to district court.

1. The commissioner may not be required to pay any filing fee or other court costs or disbursements.
2. The attorney general may appoint outside legal counsel to assist the commissioner in the prosecution of the action and the cost of employing outside counsel must be paid from the trust fund and the credit-sale contract indemnity fund as appropriate.
3. All other necessary expenses incurred by the commissioner in carrying out this chapter, including adequate insurance to protect the commissioner, the commissioner's employees, and others engaged in carrying out sections 4.1-59-21 through 4.1-59-31, must be reimbursed to the commissioner from the trust fund and credit-sale contract indemnity funds as appropriate.

**4.1-59-31. Cease and desist.**

If a person engages in an activity or practice contrary to the provisions of this chapter or related rules, the commissioner, upon the commissioner's own motion without complaint, with or without hearing, may order the person to cease and desist from the activity until further order of the commissioner. An order may include any corrective action up to and including license suspensions. A cease and desist order must be accompanied by a notice of opportunity to be heard on the order within fifteen days of the issuance of the order.

**4.1-59-32. Agricultural contracts - Mediation and arbitration.**

Any such bond must have as surety thereon a surety company authorized to do business in this state. When the commissioner has registered an applicant as a broker-dealer, the commissioner shall notify the applicant of such registration.

  - (4) An individual who represents a broker-dealer registered in this state or exempt from registration in the offer and sale of securities for an account of a nonaffiliated federal covered investment adviser with investments under management in excess of one hundred million dollars acting for the account of others pursuant to discretionary authority in a signed record.
- b. Application for registration as an agent must be made in writing or electronically in a form prescribed by the commissioner, must be signed by the applicant and by the registered broker-dealer or issuer employing or proposing to employ such applicant, duly verified by oath, must be filed with the department, and must contain information the commissioner determines to be necessary concerning the applicant.

- c. The commissioner shall require as a condition of registration that the applicant pass a written examination as evidence of knowledge of the securities business.
- d. The commissioner may also require such additional information as to the applicant's previous business experience as the commissioner deems necessary to determine whether or not the applicant should be registered as an agent under the provisions of this law. If an agent proposes to be self-employed, the agent shall specifically state the particular security or securities the agent proposes to sell in this state in the application, and if said security or securities are exempt under section 10-04-05 or 10-04-06, or have been registered by announcement under section 10-04-07.1, or have been registered by coordination under section 10-04-07.2, or have been registered by qualification under section 10-04-08, then the commissioner may require that said self-employed agent file an indemnity bond running to the state of North Dakota conditioned for the faithful compliance by said self-employed agent with all the applicable provisions of this chapter and for the faithful performance and payment of all obligations hereunder. The bond must be in a form approved and in the amount required by the commissioner.
- e. When an applicant has fully complied with the provisions of this subsection, the commissioner may register such applicant as an agent unless the commissioner finds that such applicant is not of good business reputation, or that the broker-dealer named on the application is not a registered broker-dealer. When the commissioner has registered an applicant as an agent, the commissioner shall immediately notify the broker-dealer of such registration.
- f. Every registered broker-dealer or issuer promptly shall notify the department of the termination of the employment by the broker-dealer or issuer of a registered agent.

Application for registration as an agent must be made in writing or electronically in a form prescribed by the commissioner, must be signed by the applicant and by the registered broker-dealer or issuer employing or proposing to employ such applicant, duly verified by oath, must be filed with the department, and must contain information the commissioner determines to be necessary concerning the applicant.

The commissioner shall require as a condition of registration that the applicant pass a written examination as evidence of knowledge of the securities business; provided, that not more than two officers or managers of an issuer may be registered as an agent for a particular original offering of the issuer's securities without being required to pass such written examination; and provided, further, that no such officer or manager may again register within three years as such agent for this or any other issuer without passing the written examination.

The commissioner may also require such additional information as to the applicant's previous business experience as the commissioner deems necessary to determine whether or not the applicant should be registered as an agent under the provisions of this law. If an agent proposes to be self-employed, the agent shall specifically state the particular security or securities the agent proposes to sell in this state in the application, and if said

security or securities are exempt under section 10-04-05 or 10-04-06, or have been registered by announcement under section 10-04-07.1, or have been registered by qualification under section 10-04-08, then the commissioner may require that said self-employed agent file an indemnity bond running to the state of North Dakota conditioned for the faithful compliance by said self-employed agent with all the applicable provisions of this chapter and for the faithful performance and payment of all obligations hereunder. The bond must be in a form approved and in the amount required by the commissioner.

When an applicant has fully complied with the provisions of this subsection, the commissioner may register such applicant as an agent unless the commissioner finds that such applicant is not of good business reputation, or that the broker-dealer named on the application is not a registered broker-dealer. When the commissioner has registered an applicant as an agent, the commissioner shall immediately notify the broker-dealer of such registration.

Every registered broker-dealer or issuer shall promptly notify the department of the termination of the employment by the broker-dealer or issuer of a registered agent.

Except as prohibited by the Investment Advisers Act of 1940, the commissioner may require an indemnity bond running to the state of North Dakota conditioned for the faithful compliance by the investment adviser and the investment adviser's representatives with all the provisions of this law and for the faithful performance and payment of all obligations of the investment adviser and the investment adviser's representatives. The bond must be of such type as may be approved by the commissioner and must be in such amount as the commissioner deems necessary to protect persons in this state. Any such bond must have as surety thereon a surety company authorized to do business in this state.

The commissioner may by rule or order provide for an examination to be taken by any class of or all applicants, as well as persons who represent or will represent an investment adviser in doing any of the acts which make the person an investment adviser.

When an applicant has fully complied with the provisions of this subsection, the commissioner may register such applicant as an investment adviser unless the commissioner finds that the applicant is not of good business reputation or is not solvent.

A registrant as investment adviser shall notify the department of any change of address.

4. Federal covered adviser.
  - a. Except with respect to a federal covered investment adviser described in subdivision b, it shall be unlawful for a person to transact business in this state as a federal covered adviser unless such person has made a notice filing with the department, in writing or electronically, consisting of a copy of those documents that have been filed with the securities and exchange commission as the commissioner may require by rule or otherwise and the prescribed notice filing fee.

- (2) A federal covered investment adviser without a place of business in this state if the person has had, during the preceding twelve months, not more than five clients that are resident in this state in addition to those specified under paragraph 1.

A notice filing is effective from receipt until the following December thirty-first. It may be renewed by filing with the department, prior to expiration, those documents filed with the securities and exchange commission as the commissioner may require by rule or otherwise, with the notice filing renewal fee.

If the information contained in any document filed with the department is or becomes inaccurate or incomplete in any material respect, the federal covered adviser shall file an amendment with the department whenever such amendment is filed with the securities and exchange commission.

A notice filing may be terminated by a federal covered adviser by filing a notice of termination with the department.

5. Investment adviser representatives. It is unlawful for an individual to transact business in this state as an investment adviser representative unless the individual is registered under this chapter as an investment adviser representative or is exempt from registration as an investment adviser representative or that the investment adviser representative is employed by or associated with an investment adviser that is exempt from registration or a federal covered investment adviser that is excluded from the notice filing requirements.

Application for registration as an investment adviser representative must be submitted in writing or electronically in a form prescribed by the commissioner, be signed by the applicant and if applicable, by the investment adviser employing or proposing to employ the applicant, be duly verified by oath, be filed with the department, and contain information the commissioner determines to be necessary concerning the applicant.

When an applicant has fully complied with the provisions of this subsection, the commissioner may register the applicant as an investment adviser representative unless the commissioner finds that the applicant is not of good business reputation; that the investment adviser named in the application is not a registered investment adviser; or the federal covered adviser named in the application has not made a notice filing with the commissioner, as required by subsection 4. The commissioner shall require as a condition of registration that the applicant pass a written examination as evidence of knowledge of the securities business and comply with any continuing education requirements as prescribed by the commissioner. At the discretion of the commissioner, certain professional designations may be accepted in lieu of an examination.

6. Refusal of registration. If the commissioner has reason to believe there are grounds to refuse the approval of any application under this section, the commissioner may, by order, summarily postpone the approval of any application made under this section. If, after affording an applicant a hearing or an opportunity for a hearing as provided in section 10-04-12, the commissioner finds that there is sufficient ground to refuse to register such applicant as provided in this section, the commissioner shall enter an order refusing to register such applicant. Such order shall state specifically the grounds for its issuance. A copy of such order must be mailed to the applicant at the applicant's business address, and if the application is for registration as an agent, to the registered broker-dealer or issuer or if the application is for registration as an investment adviser representative to the investment adviser or federal covered adviser who proposed to employ such applicant. If the commissioner finds that an applicant has been guilty of any act or omission which would constitute a sufficient ground for revocation of a broker-dealer's, agent's, investment adviser's, or investment adviser representative's registration under section 10-04-11, such act or omission may constitute a sufficient ground for a finding by the commissioner that such applicant is not of good business reputation.

The names and addresses of all persons who have been registered as broker-dealers, agents, investment advisers, or investment adviser representatives, and all orders with respect thereto, and the names and addresses of all federal covered advisers who have made a notice filing must be recorded in a register of broker-dealers, agents, investment advisers, federal covered advisers, and investment adviser representatives in the office of the commissioner. Every registration and notice filing under this section expires on December thirty-first of each year, unless renewed. The commissioner may by order provide for expirations and renewals, including dates, forms, and procedures, adjust registration and notice filing fees to correspond with expiration dates, and do any other thing which may be necessary or convenient in order to participate in a central registration depository or any similar arrangement designed to promote uniformity, to ease regulatory burdens, or to encourage cooperation with other states, the securities and exchange commission, or any registered national securities association or exchange.

#### BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

**SECTION 1.** A new chapter to title 12.1 of the North Dakota Century Code is created and enacted as follows:

##### **Definitions.**

"Abortion" means the act of using, selling, or prescribing any instrument, medicine, drug, or any other substance, device, or means with the intent to terminate the clinically diagnosable pregnancy of a woman, including the elimination of one or more unborn children in a multifetal pregnancy, with knowledge the termination by those means will with reasonable likelihood cause the death of the unborn child. The use, sale, prescription, or means is not an abortion if done with the intent to:
  - a. Remove a dead unborn child caused by spontaneous abortion;
  - b. Treat a woman for an ectopic pregnancy; or
  - c. Treat a woman for a molar pregnancy.
2. "Physician" means an individual licensed to practice medicine or osteopathy under chapter 43-17 or a physician who practices in the armed services of the United States or in the employ of the United States.
3. "Probable gestational age of the unborn child" means what, in reasonable medical judgment, will with reasonable probability be the gestational age of the unborn child.

4. "Reasonable medical judgment" means a medical judgment that would be made by a reasonably prudent physician who is knowledgeable about the case and the treatment possibilities with respect to the medical conditions involved.
5. "Serious health risk" means a condition that, in reasonable medical judgment, complicates the medical condition of the pregnant woman so that it necessitates an abortion to prevent substantial physical impairment of a major bodily function, not including any psychological or emotional condition. The term may not be based on a claim or diagnosis that the woman will engage in conduct that will result in her death or in substantial physical impairment of a major bodily function.

#### **Abortion prohibited - Penalty.**

It is a class C felony for a person, other than the pregnant female upon whom the abortion was performed, to perform an abortion.

#### **Exceptions.**

This chapter does not apply to:

1. An abortion deemed necessary based on reasonable medical judgment which was intended to prevent the death or a serious health risk to the pregnant female.
2. An abortion to terminate a pregnancy that based on reasonable medical judgment resulted from gross sexual imposition, sexual imposition, sexual abuse of a ward, or incest, as those offenses are defined in chapter 12.1-20, if the probable gestational age of the unborn child is six weeks or less.
3. An individual assisting in performing an abortion if the individual was acting within the scope of that individual's regulated profession, was under the direction of or at the direction of a physician, and did not know the physician was performing an abortion in violation of this chapter.

**14-02.1-02.1. Printed information - Referral service.**

1. The department of health and human services shall publish in English, and in every other language that the department determines is the primary language of a significant number of state residents, the following easily comprehensible printed materials:

- a. Geographically indexed materials designed to inform the woman of public and private agencies and services available to assist a woman through pregnancy, upon childbirth, and while the child is dependent, including adoption agencies. The materials must include a comprehensive list of the agencies available, a description of the services they offer and a description of the manner, including telephone numbers, in which they might be contacted, or, at the option of the department, printed materials, including a toll-free, twenty-four-hour-a-day telephone number that may be called to obtain, orally, such a list and description of agencies in the locality of the caller and of the services they offer. The materials must state that it is unlawful for any individual to coerce a woman to undergo an abortion and that if a minor is denied financial support by the minor's parent, guardian, or custodian due to the minor's refusal to have an abortion performed, the minor is deemed to be emancipated for the purposes of eligibility for public assistance benefits, except that those benefits may not be used to obtain an abortion. The materials also must state that any physician who performs an abortion upon a woman without her informed consent may be liable to her for damages in a civil action and that the law permits adoptive parents to pay costs of prenatal care, childbirth, and neonatal care. The materials must include the following statement: There are many public and private agencies willing and able to help you to carry your child to term and to assist you and your child after your child is born, whether you choose to keep your child or to place your child for adoption. The state of North Dakota strongly urges you to contact one or more of these agencies before making a final decision about abortion. The law requires that your physician or your physician's agent give you the opportunity to call agencies like these before you undergo an abortion.
- b. Materials, published in a booklet format, designed to inform the woman of the probable anatomical and physiological characteristics of the unborn child at two-week gestational increments from the time when a woman can be known to be pregnant to full term, including any relevant information on the possibility of the survival of the unborn child and color photographs of the development of an unborn child at two-week gestational increments. The descriptions must include information about brain and heart function, the presence of external members and internal organs during the applicable states of development, and any relevant information on the possibility of the unborn child's survival. The materials must be objective, nonjudgmental, and designed to convey only accurate scientific information about the unborn child at the various gestational ages. The materials required under this subsection must be reviewed, updated, and reprinted as needed.
- c. Materials that include information on the support obligations of the father of a child who is born alive, including the father's legal duty to support his child, which may include child support payments and health insurance, and the fact that paternity may be established by the father's signature on an acknowledgment of paternity or by court action. The printed material must also state that more information concerning paternity establishment and child support services and enforcement may be obtained by calling state public assistance agencies or human service zones.
- d. Materials that contain objective information describing the various surgical and drug-induced methods of abortion as well as the immediate and long-

term medical risks commonly associated with each abortion method, including the risks of infection, hemorrhage, cervical or uterine perforation or rupture, danger to subsequent pregnancies, the possible increased risk of breast cancer, the possible adverse psychological effects associated with an abortion, and the medical risks associated with carrying a child to term.

- e. Materials including information it may be possible to reverse the effects of an abortion-inducing drug but time is of the essence. The materials must include information directing the patient where to obtain further information and assistance in locating a medical professional who can aid in the reversal of abortion-inducing drugs, such as mifepristone and misoprostol.

- f. Materials including a notice that the performance of certain abortions is prohibited by law.

2. The materials required under subsection 1 must be available at no cost from the department of health and human services upon request and in appropriate number to any person, facility, or hospital, and, except for copyrighted material, must be available on the department's internet website. The department may make the copyrighted material available on its internet website if the department pays the copyright royalties.

**SECTION 5. AMENDMENT.** Section 14-02.1-02.2 of the North Dakota Century Code is amended and reenacted as follows:

**14-02.1-02.2. Abortion report form.**

The abortion compliance report form must include a checklist designed to confirm compliance with all provisions of this chapter, chapter 14-02.3, chapter 14-02.6, and section 23-16-14. The abortion data report form must include the:

1. The data called for in the United States standard report of induced termination of pregnancy as recommended by the national center for health statistics; and
2. Whether the abortion was:
  - a. Necessary in reasonable medical judgment and was intended to prevent the death of the pregnant female;
  - b. To terminate a pregnancy that resulted from gross sexual imposition, sexual imposition, sexual abuse of a ward, or incest, as those offenses are defined in chapter 12.1-20; or
  - c. Necessary to prevent a serious health risk.

**SECTION 6. AMENDMENT.** Section 14-02.1-03 of the North Dakota Century Code is amended and reenacted as follows:

**14-02.1-03. Consent to abortion - Notification requirements.**

1. ~~No~~ A physician shall ~~may not~~ perform an abortion unless ~~prior to~~ before such performance the physician certified in writing that the woman gave her

informed consent as defined and provided in section 14-02.1-02 and shall certify in writing the pregnant woman's marital status and age based upon proof of age offered by her. Before the period of pregnancy when the unborn child may reasonably be expected to have reached viability, an abortion may not be performed upon an unemancipated minor unless the attending physician certifies in writing that each of the parents of the minor requesting the abortion has been provided by the physician in person with the information provided for in section 14-02.1-02 at least twenty-four hours before the minor's consent to the performance of abortion or unless the attending physician certifies in writing that the physician has caused materials of section 14-02.1-02 to be posted by certified mail to each of the parents of the minor separately to the last-known addresses at least forty-eight hours ~~prior to~~before the minor's consent to the performance of abortion. If a parent of the minor has died or rights and interests of that parent have been legally terminated, this subsection applies to the sole remaining parent. When both parents have died or the rights and interests of both parents have been legally terminated, this subsection applies to the guardian or other person standing in loco parentis. Notification by the attending physician is not required if the minor elects not to allow the notification of one or both parents or her guardian and the abortion is authorized by the juvenile court in accordance with section 14-02.1-03.1. None of the requirements of this subsection apply in the case of a medical emergency, except that when a medical emergency compels the performance of an abortion, the physician shall inform the woman, before the abortion if possible, of the medical indications supporting the physician's judgment that an abortion is necessary to ~~avert~~prevent her death or ~~for which a twenty-four-hour delay will create grave peril of immediate and irreversible loss of major bodily function~~prevent a serious health risk, and shall certify those indications in writing.

2. Subsequent to the period of pregnancy when the unborn child may reasonably be expected to have reached viability, ~~no~~an abortion, other than an abortion necessary to preserve her life, or ~~because the continuation of her pregnancy will impose on her a substantial risk of grave impairment of her physical or mental health to prevent a serious health risk~~, may not be performed upon any woman in the absence of:
  - a. ~~The written consent of her husband unless her husband is voluntarily separated from her; or~~
  - b. ~~The~~ the written consent of a parent, if living, or the custodian or legal guardian of the woman, if the woman is unmarried and under eighteen years of age.
3. No executive officer, administrative agency, or public employee of the state of North Dakota or any local governmental body has power to issue any order requiring an abortion, nor shall any such officer or entity coerce any woman to have an abortion, nor shall any other person coerce any woman to have an abortion.

**SECTION 7. AMENDMENT.** Section 14-02.1-03.1 of the North Dakota Century Code is amended and reenacted as follows:

**14-02.1-03.1. Parental consent or judicial authorization for abortion of unmarried minor - Statement of intent.**

The legislative assembly intends to encourage unmarried pregnant minors to seek the advice and counsel of their parents when faced with the difficult decision of whether or not to bear a child, to foster parental involvement in the making of that decision when parental involvement is in the best interests of the minor and to do so in a manner that does not unduly burden the right to seek an abortion.

1. ~~No~~ person may not knowingly perform an abortion upon a pregnant woman under the age of eighteen years unless:
  - a. The attending physician has secured the written consent of the minor woman and both parents, if living, or the surviving parent if one parent is deceased, or the custodial parent if the parents are separated or divorced, or the legal guardian or guardians if the minor is subject to guardianship;
  - b. The minor woman is married and the attending physician has secured her informed written consent; or
  - c. The abortion has been authorized by the juvenile court in accordance with the provisions of this section.
2. Any pregnant woman under the age of eighteen or next friend is entitled to apply to the juvenile court for authorization to obtain an abortion without parental consent. All proceedings on such application must be conducted in the juvenile court of the county of the minor's residence before a juvenile judge or referee, if authorized by the juvenile court judge in accordance with the provisions of chapter 27-05, except that the parental notification requirements of rules 3, 4, and 5 of the North Dakota Rules of Juvenile Procedure are not applicable to proceedings under this section. A court may change the venue of proceedings under this section to another county only upon finding that a transfer is required in the best interests of the minor. All applications in accordance with this section must be heard by a juvenile judge or referee within forty-eight hours, excluding Saturdays and Sundays, of receipt of the application. The juvenile judge or referee shall find by clear and convincing evidence:
  - a. Whether or not the minor is sufficiently mature and well informed with regard to the nature, effects, and possible consequences of both having an abortion and bearing her child to be able to choose intelligently among the alternatives.
  - b. If the minor is not sufficiently mature and well informed to choose intelligently among the alternatives without the advice and counsel of her parents or guardian, whether or not it would be in the best interests of the minor to notify her parents or guardian of the proceedings and call in the parents or guardian to advise and counsel the minor and aid the court in making its determination and to assist the minor in making her decision.
  - c. If the minor is not sufficiently mature and well informed to choose intelligently among the alternatives and it is found not to be in the best interests of the minor to notify and call in her parents or guardian for advice and counsel, whether an abortion or some other alternative would be in the best interests of the minor.
3. All proceedings in connection with this section must be kept confidential and the identity of the minor must be protected in accordance with provisions relating to all juvenile court proceedings. This section does not limit the

release, upon request, of statistical information regarding applications made under this section and their disposition.

4. The court shall keep a stenographic or mechanically recorded record of the proceedings which must be maintained on record for forty-eight hours following the proceedings. If no appeal is taken from an order of the court pursuant to the proceedings, the record of the proceedings must be sealed as soon as practicable following such forty-eight-hour period.
5. Following the hearing and the court's inquiry of the minor, the court shall issue one of the following orders:
  - a. If the minor is sufficiently mature and well informed concerning the alternatives and without the need for further information, advice, or counseling, the court shall issue an order authorizing a competent physician to perform the abortion procedure on the minor.
  - b. If the minor is not sufficiently mature and well informed, the court may:
    - (1) Issue an order to provide the minor with any necessary information to assist her in her decision if the minor is mature enough to make the decision but not well informed enough to do so.
    - (2) Issue an order to notify the minor's parents or guardian of the pendency of the proceedings and calling for their attendance at a reconvening of the hearing in order to advise and counsel the minor and assist the court in making its determination if the court finds that to do so would be in the best interests of the minor and the pregnancy resulted from gross sexual imposition, sexual imposition, sexual abuse of a ward, or incest, as those offenses are defined in chapter 12.1-20.
    - (3) Issue an order authorizing an abortion by a competent physician if the court has determined that it would not be in the best interests of the minor to call in her parents or guardian but has found that it would be in the minor's best interests to authorize the abortion.
6. The minor or next friend may appeal the determination of the juvenile court directly to the state supreme court. In the event of such an appeal, any and all orders of the juvenile court must be automatically stayed pending determination of the issues on appeal. Any appeal taken pursuant to this section by anyone other than the minor or next friend must be taken within forty-eight hours of the determination of the juvenile court by the filing of written notice with the juvenile court and a written application in the supreme court. Failure to file notice and application within the prescribed time results in a forfeiture of the right to appeal and render the juvenile court order or orders effective for all intents and purposes.
7. Upon receipt of written notice of appeal, the juvenile court shall immediately cause to be transmitted to the supreme court the record of proceedings had in the juvenile court.
8. An application for appeal pursuant to this section must be treated as an expedited appeal by the supreme court and must be set down for hearing within four days of receipt of the application, excluding Saturdays and Sundays.

9. The hearing, inquiry, and determination of the supreme court must be limited to a determination of the sufficiency of the inquiry and information considered by the juvenile court and whether or not the order or orders of the juvenile court accord with the information considered with respect to the maturity and information available to the minor and the best interests of the minor as determined by the juvenile court. The determination of the juvenile court may not be overturned unless found to be clearly erroneous.
10. After hearing the matter the supreme court shall issue its decision within twenty-four hours.
11. Within forty-eight hours of the hearing by the supreme court, the record of the juvenile court must be returned to the juvenile court and the juvenile court shall seal it at the earliest practicable time.
12. Nothing in this section may be construed to prevent the immediate performance of an abortion on an unmarried minor woman in ~~an~~ a ~~medical emergency where such action is necessary to preserve her life and no physician may be prevented from acting in good faith in such circumstances or made to suffer any sanction thereby other than those applicable in the normal course of events to the general review of emergency and nonemergency medical procedures.~~
13. Nothing in this section may be construed to alter the effects of any other section of this chapter or to expand the rights of any minor to obtain an abortion beyond the limits to such rights recognized under the Constitution of the United States or under other provisions of this code.

**SECTION 8. AMENDMENT.** Section 14-02.1-04 of the North Dakota Century Code is amended and reenacted as follows:

**14-02.1-04. Limitations on the performance of abortions - Penalty.**

1. An abortion may not be performed by any person other than a physician who is using applicable medical standards and who is licensed to practice in this state. All physicians performing abortion procedures must have admitting privileges at a hospital located within thirty miles [42.28 kilometers] of the abortion facility and staff privileges to replace hospital on-staff physicians at that hospital. These privileges must include the abortion procedures the physician will be performing at abortion facilities. An abortion facility must have a staff member trained in cardiopulmonary resuscitation present at all times when the abortion facility is open and abortions are scheduled to be performed.
2. After the first twelve weeks of pregnancy but ~~prior to~~ before the time at which the unborn child may reasonably be expected to have reached viability, ~~no~~ an abortion may not be performed in any facility other than a licensed hospital.
3. ~~After the point in pregnancy when the unborn child may reasonably be expected to have reached viability, no abortion may be performed except in a hospital, and then only if in the medical judgment of the physician the abortion is necessary to preserve the life of the woman or if in the physician's medical judgment the continuation of her pregnancy will impose on her a substantial risk of grave impairment of her physical or mental health.~~

~~An abortion under this subsection may only be performed if the~~

~~above-mentioned medical judgment of the physician who is to perform the abortion is first certified by the physician in writing, setting forth in detail the facts upon which the physician relies in making this judgment and if this judgment has been concurred in by two other licensed physicians who have examined the patient. The foregoing certification and concurrence is not required in the case of an emergency when the abortion is necessary to preserve the life of the patient.~~

4. An abortion facility may not perform an abortion on a woman without first offering the woman an opportunity to receive and view at the abortion facility or another facility an active ultrasound of her unborn child. The offer and opportunity to receive and view an ultrasound must occur at least twenty-four hours before the abortion is scheduled to be performed. The active ultrasound image must be of a quality consistent with standard medical practice in the community, contain the dimensions of the unborn child, and accurately portray the presence of external members and internal organs, including the heartbeat, if present or viewable, of the unborn child. The auscultation of the fetal heart tone must be of a quality consistent with standard medical practice in the community. The abortion facility shall document the woman's response to the offer, including the date and time of the offer and the woman's signature attesting to her informed decision.
- ~~5.4.~~ Any physician who performs an abortion without complying with the provisions of this section is guilty of a class A misdemeanor.

(2) Postfertilization age:

- (a) ~~If a determination of probable postfertilization age was not made,~~ the basis of the determination that a medical emergency existed record of the probable gestational age of the unborn child at the time of the abortion. If a probable gestational age of the unborn

child was not made because of a medical emergency, the record must include the basis of the determination that a medical emergency existed.

~~(b) If the probable postfertilization age was determined to be twenty or more weeks and an abortion was performed, the basis of the determination that a medical emergency existed.~~

- b. (Judiciary Committee)  
(At the request of the Supreme Court)

AN ACT to amend and reenact section 12.1-04-08 of the North Dakota Century Code, relating to fitness to proceed.

#### BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

**SECTION 1. AMENDMENT.** Section 12.1-04-08 of the North Dakota Century Code is amended and reenacted as follows:

##### **12.1-04-08. Suspension or dismissal of proceedings - Referral for services.**

1. If the court determines based upon a preponderance of the evidence that the defendant currently lacks fitness to proceed and the defendant is charged with a class B misdemeanor, except a class B misdemeanor under chapter 12.1-17, the proceedings must be dismissed.
2. If the court determines based upon a preponderance of the evidence that the defendant currently lacks fitness to proceed, the defendant is charged with a felony or a class A misdemeanor, and the report as required under section 12.1-04-07 indicates a likelihood the defendant will attain fitness within a specified period of time from the date of the finding upon completion of a course of therapeutically appropriate treatment, the proceedings against the defendant must be suspended. ~~For a defendant charged with a felony, the proceedings must be suspended~~ for a period of up to one hundred eighty days. The court may extend the suspension for an additional three hundred sixty-five days if there is medical evidence to believe the defendant's fitness to proceed will be restored during the extended period. For a defendant charged with a class B misdemeanor under chapter 12.1-17, the proceedings must be suspended for a period no longer than the maximum term of imprisonment for the most serious offense charged. When the court determines, after a hearing if a hearing is requested, that the defendant has regained fitness to proceed, the proceeding must be resumed. If prosecution of the defendant has not resumed or it is determined by the court, after a hearing if a hearing is requested, that the defendant will not regain fitness to proceed within the allotted time, the charges against the defendant must be dismissed.
- 2-3. If the court determines based upon a preponderance of the evidence that the defendant currently lacks fitness to proceed and that the defendant will not attain fitness to proceed, the proceedings must be dismissed. The court may at any time make a referral for other appropriate services. Other appropriate services include:
  - a. Determination of incapacity, by a district court with appropriate jurisdiction following petition by the state's attorney, for the appointment of a guardian or conservator pursuant to chapter 30.1-28 or 30.1-29; or
  - b. Civil commitment of the person pursuant to chapter 25-03.1; or

c. Any other services the court deems appropriate.

- ~~3-4.~~ If the court determines the defendant currently lacks fitness to proceed and the defendant may attain fitness to proceed under subsection 1, the court may enter an order for a course of treatment considering the least restrictive form of treatment therapeutically appropriate.
- a. Unless excused by the court, in a proceeding to determine therapy in an attempt to attain fitness, the defendant shall be represented by trial counsel.
  - b. If the court finds the individual is not able to retain the services of a tier 1a mental health professional and that those services are not otherwise available, the court shall authorize reasonable expenditures from public funds to examine the individual.
  - c. In a motion hearing to resume prosecution, the state or prosecuting authority must show by a preponderance of the evidence the defendant has attained fitness to proceed.
- ~~4-5.~~ If the court orders the defendant committed to a treatment facility in an attempt to attain fitness to proceed under subsection 1, the court shall provide the special custody and commitment terms in the order. The special terms of commitment must include an order for the defendant to accept all nonexperimental, generally accepted medical, psychiatric, or psychological treatment recommended by the treatment facility, including the use of involuntary treatment with prescribed medication without the need for a separate commitment under chapter 25-03.1.
- a. If the order does not indicate the terms of commitment, the director or superintendent of the treatment facility may determine the nature of the constraints necessary within the treatment facility to carry out the order of the court.
  - b. If the court orders an individual committed for therapeutic treatment to attain fitness to proceed, the court shall set a date consistent with the timeline established in this section for a review of the defendant's fitness to proceed. At least sixty days before the date specified for review, the director or director's designee or the superintendent of the treatment facility shall inquire as to whether the individual is represented by counsel and file a written report of the facts ascertained with the court.
- ~~5-6.~~ If the parties to the action have reason to modify the special terms of the commitment order under this section, the parties shall make a motion to the court and the court shall determine by a preponderance of the evidence if the modification of the special terms is necessary and the least restrictive therapeutic alternative therapy in an attempt to attain fitness to proceed.
- ~~6-7.~~ The custodian, guardian, or other person charged with the control of the defendant may take an appeal from the court's order in the manner provided by law.

### HOUSE BILL NO. 1041

(Judiciary Committee)  
(At the request of the Supreme Court)

AN ACT to amend and reenact section 12.1-32-08 of the North Dakota Century Code, relating to restitution.

#### BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

**SECTION 1. AMENDMENT.** Section 12.1-32-08 of the North Dakota Century Code is amended and reenacted as follows:

**12.1-32-08. Hearing prior to ordering restitution, reparation, or reimbursement of indigent defense costs and expenses - Conditions - Collection of restitution for insufficient funds checks - Continuing appropriation.**

1. ~~Before imposing restitution or reparation as a sentence or condition of probation, the court shall hold a hearing on the matter with notice to the prosecuting attorney and to the defendant as to the nature and amount of restitution. The court, when sentencing a person adjudged guilty of criminal activities that have resulted in pecuniary damages, in addition to any other sentence the court may impose, shall order that the defendant make restitution to the victim or other recipient as determined by the court. Restitution must include payment to the owner of real property that is contaminated by the defendant in the manufacturing of methamphetamine for the cost of removing the contamination and returning the property to the property's condition before contamination and to any other person that has incurred costs in decontaminating the property. In determining the amount of restitution, the court shall take into account the reasonable damages sustained by the victim or victims of the criminal offense, which damages are limited to those directly related to the criminal offense and expenses actually incurred as a direct result of the defendant's criminal action. This can include an amount equal to the cost of necessary and related professional services and devices relating to physical, psychiatric, and psychological care. The defendant may be required as part of the sentence imposed by the court to pay the prescribed treatment costs for a victim of a sexual offense as defined in chapters 12.1-20 and 12.1-27.2. The court shall fix the amount of restitution or reparation and shall fix the manner of performance of any condition or conditions of probation established pursuant to this subsection. The court shall order restitution be paid to the division of adult services for any benefits the division has paid or may pay under chapter 54-23.4 unless the court, on the record, directs otherwise. Any payments made pursuant to the order must be deducted from damages awarded in a civil action arising from the same incident. An order that a defendant make restitution or reparation as a sentence or condition of probation may, unless the court directs otherwise, be filed without filing fee, transcribed, and enforced by the person entitled to the restitution or reparation or by the division of adult services in the same manner as civil judgments rendered by the courts of this state may be enforced. Upon thirty days' written notice to the victim's last known address, the court may~~

~~order the judgment imposing a duty to pay restitution or reparation be docketed in the same manner as a civil judgment under section 29-26-22.1.~~

2. If the court has retained jurisdiction after the sentencing hearing for claims of restitution, to make a claim for restitution, the victim shall submit information by affidavit or declaration and, as applicable, documentary evidence within the time specified in the order. The information submitted must describe the items or elements of loss, itemize the total dollar amounts of restitution claimed, and present facts and evidence sufficient to support a finding the restitution is directly related to the offense and the amount awarded. The prosecutor shall serve the defendant with a copy of the information submitted by the victim no later than sixty days following sentencing.
3. The defendant may challenge restitution but must do so by requesting a hearing within thirty days of being served with the written notification of the amount of restitution requested. The hearing request must be made in writing and filed with the court. If no hearing is requested, the court may enter a judgment ordering restitution. A defendant may not challenge restitution after the thirty-day time period has passed.
4. In determining the amount of restitution, the court shall take into account the reasonable damages sustained by the victim or victims of the criminal offense, which damages are limited to those directly related to the criminal offense and expenses actually sustained as a direct result of the defendant's criminal action. This can include an amount equal to the cost of necessary and related professional services and devices relating to physical, psychiatric, and psychological care. The defendant may be required as part of the sentence imposed by the court to pay the prescribed treatment costs for a victim of a sexual offense as defined in chapters 12.1-20 and 12.1-27.2. The court shall fix the amount of restitution or reparation and shall fix the manner of performance of any condition or conditions of probation established pursuant to this subsection. The court may order the defendant to disclose income and assets on forms developed by the state court administrator to facilitate the setting of an appropriate payment plan. The court shall order restitution be paid to the division of adult services for any benefits the division has paid or may pay to the victim under chapter 54-23.4 unless the court, on the record, directs otherwise. Any payments made pursuant to the order must be deducted from damages awarded in a civil action arising from the same incident.
5. An order that a defendant make restitution or reparation as a sentence or condition of probation, unless the court directs otherwise, may be filed without filing fee, transcribed, and enforced by the person entitled to the restitution or reparation or by the division of adult services in the same manner as civil judgments rendered by the courts of this state may be enforced. Upon thirty days' written notice to the victim's last known address, the court may order the judgment imposing a duty to pay restitution or reparation be docketed in the same manner as a civil judgment under section 29-26-22.1.
6. When the restitution ordered by the court under subsection 1 is the result of a finding that the defendant issued a check or draft without sufficient funds or without an account, the court shall impose as costs the greater of the sum of ten dollars or an amount equal to twenty-five percent of the amount of restitution ordered. The costs imposed under this subsection, however, may not exceed one thousand dollars. The state-employed clerks of district court

shall remit the funds collected as costs under this subsection to the state treasurer for deposit in the restitution collection assistance fund. The funds deposited into the restitution collection assistance fund are appropriated to the judicial branch on a continuing basis for the purpose of defraying expenses incident to the collection of restitution, including operating expenses and the compensation of additional necessary personnel. The state's attorneys and county-employed clerks of district court shall remit the funds collected as costs under this subsection to the county treasurer to be deposited in the county general fund.

- ~~3-7.~~ The court may order the defendant to perform reasonable assigned work as a condition of probation, which assigned work need not be related to the offense charged, but must not be solely for the benefit of a private individual other than the victim.
- ~~4-a-8.~~ Under section 12.1-32-07, the court may order that the defendant reimburse indigent defense costs and expenses as a condition of probation.
- ~~a.~~ Unless it finds that there is no likelihood that the defendant is or will be able to pay attorney's fees and expenses, the court, in its judgment of conviction, and in any order or amended judgment following a revocation or other postjudgment proceeding, shall notify the defendant, the defendant's probation officer, and the prosecuting attorney of the presumed amount of costs and expenses to be reimbursed, as determined by the commission on legal counsel for indigents, and of the right to a hearing on the reimbursement amount. The reimbursement amount must include an application fee imposed under section 29-07-01.1 if the fee has not been paid before disposition of the case and the court has not waived payment of the fee.
- ~~b.~~ If the defendant or prosecutor requests a hearing within thirty days of receiving notice under this subdivision, the court shall schedule a hearing at which the actual amount of attorney's fees and expenses must be shown. In determining the amount and method of reimbursement, the court shall consider the financial resources of the defendant and the nature of the burden that reimbursement of costs and expenses will impose.
- ~~b-c.~~ A defendant who is required to reimburse indigent defense costs and expenses as a condition of probation and who is not willfully in default in that reimbursement may at any time petition the court that imposed the condition to waive reimbursement of all or any portion of the costs and expenses. If the court is satisfied that reimbursement of the amount due will impose undue hardship on the defendant or the defendant's immediate family, the court may waive reimbursement of all or any portion of the amount due or modify the method of payment.
- ~~e-d.~~ If at any time the court finds that the defendant is able to reimburse costs and expenses and has willfully failed to do so, the court may continue, modify, or enlarge the conditions of probation or revoke probation as provided in subsection 6 or 7, as applicable, of section 12.1-32-07.
- ~~5-9.~~ If the court finds that the defendant is unable to pay a fine, supervision fee, reimbursement for indigent defense costs and expenses, or restitution or reparations, the court may order the defendant to perform reasonable

assigned work in lieu of all or part of a fine, a supervision fee, reimbursement for indigent defense costs and expenses, or restitution or reparations. The defendant may not perform reasonable assigned work in lieu of restitution or reparations unless the person entitled to restitution or reparations has consented in writing or on the record.

  - a. Loan products primarily limited to the small business administration, United States department of agriculture, or other government loan products; or
  - b. Nongovernmental loan products that are limited to loans to promote community development or home ownership, and these loans are offered with favorable terms including an interest rate at or below the wall street journal prime rate and loan fees of less than a quarter percent of the loan origination balance; or
11. A nonprofit corporation that qualifies as a nonprofit entity under section 501(c)(3) of the Internal Revenue Code [26 U.S.C. 501(c)(3)] which is not primarily in the business of soliciting or brokering loans, if the nonprofit corporation makes five or fewer loans in a given calendar year, makes these loans to promote community development or home ownership, and offers these loans on favorable terms, including an interest rate at or below the wall street journal prime rate and loan fees of less than a quarter percent of the loan origination balance.

### **13-12-05. Application for residential mortgage lender license.**

Every application or renewal for a residential mortgage lender license or branch registration must be made upon forms designed and furnished by the department of financial institutions and must contain any information which the department deems necessary and proper. A branch registration that constitutes a net branch or net branching arrangement is prohibited. The department may further require any applicant to provide additional information which is not requested on the application form. The applicant must register with the secretary of state, if so required.

### **13-12-06. Fee to accompany application for residential mortgage lender license.**

The application for license must be in writing, under oath, and in the form prescribed by the commissioner. The application must give the location where the business is to be conducted and must contain any further information the commissioner requires, including the names and addresses of the partners, officers, directors, trustees, and the principal owners or members, as will provide the basis for the investigation and findings contemplated by section 13-12-05. At the time of making the application, the applicant shall include payment in the sum of four hundred dollars, which is not subject to refund, as a fee for investigating the application, and the sum of four hundred dollars for the annual license fee. In addition, the applicant must pay a fifty dollar annual fee for each branch location registered to engage in residential mortgage lending in this state. Fees must be deposited in the financial institutions regulatory fund.

### **13-12-07. Surety bond required.**

1. Each licensee shall maintain a surety bond in an amount not less than fifty thousand dollars. The surety bond must be in a form prescribed by the commissioner.
2. When an action is commenced on a licensee's bond, the commissioner may require the filing of a new bond.
3. Immediately upon recovery of any action on the bond, the licensee shall file a new bond.

### **13-12-08. Minimum net worth required.**

A minimum net worth must be continuously maintained by every licensee in accordance with this section.

1. Minimum net worth must be maintained in the amount of twenty-five thousand dollars.
2. If the net worth of a licensee falls below the minimum net worth set forth in this section, the licensee shall provide a plan, subject to the approval of the commissioner, to increase the licensee's net worth to an amount in conformance with this section. Submission of a plan under this section must be made within twenty business days of a notice from the commissioner which states the licensee is not in compliance with subsection 1. If the licensee does not submit a plan under this section, fails to comply with an approved plan, or has repeated violations of subsection 1, the commissioner may revoke the license.

### **13-12-09. Expiration and renewal of license.**

All licenses expire on December thirty-first of each year and may be renewed. Renewals are effective the succeeding January first. Applications for renewal must be submitted thirty days before the expiration of the license and must be accompanied by the required annual fees, which are not subject to refund. The form and content of renewal applications must be determined by the department of financial institutions, and a renewal application may be denied upon the same grounds as would justify denial of an initial application. When a licensee has been delinquent in renewing the license, the department may charge an additional fee of fifty dollars for the renewal of the license. A residential mortgage lender license is not transferable. If the commissioner determines that an ownership change has occurred in a sole proprietorship, partnership, limited liability partnership, corporation, or limited liability corporation that was previously granted a residential mortgage lender license, the commissioner may require a new application from the purchaser. The application must be filed within forty-five days from the date change of ownership is consummated. The department shall act on the application within sixty days from the date the application is received but may extend the review period for good cause. The residential mortgage lender license granted to the previous owner continues in effect to the new purchaser until the application is either granted or denied.

### **13-12-10. Powers of the department of financial institutions.**

The department of financial institutions may:

1. Determine the qualifications of all applicants based on financial responsibility, financial condition, business experience, character, and general fitness which must reasonably warrant the belief that the applicant's business will be

conducted lawfully and fairly. In determining whether this qualification is met, and for the purpose of investigating compliance with the chapter, the commissioner may review and consider the relevant business records and capital adequacy of the applicant and the competence, experience, integrity, and financial ability of a person who is a member, partner, director, officer, or twenty-five percent or more shareholder of the applicant.

2. Establish codes of ethical conduct for licensees.

### **13-12-11. Manner in which records to be kept.**

Every residential mortgage lender licensed under this chapter shall keep a record of all sums collected by the residential mortgage lender and of all loans completed as a result of the lender's efforts for a period of six years from the date of last entry. The records of a licensee may be maintained electronically provided they can be reproduced upon request by the department of financial institutions and within the required statutory time period provided in this section. When a licensee ceases operations for any reason, the licensee shall inform the department of the location of the records. In addition, the licensee shall provide the name of the individual responsible for maintenance of the records. The licensee shall notify the department within ten business days of the change of the location of the records or the change of the individual responsible for maintenance of the records.

### **13-12-12. Revocation of license - Suspension of license - Surrender of license.**

1. The commissioner may issue upon any licensee an order suspending or revoking a licensee's license if the commissioner finds:
  - a. The licensee has failed to pay the annual license fee under this chapter or any examination fee imposed by the commissioner under the authority of this chapter.
  - b. The licensee, either knowingly or without the exercise of due care to prevent the same, has violated any provision of this chapter or any regulation or order lawfully made pursuant to and within the authority of this chapter.
  - c. Any fact or condition existing at the time of the original application for such license which clearly would have warranted the department of financial institutions in refusing originally to issue a license.
  - d. The licensee has failed to maintain the required bond.
  - e. The licensee has failed to maintain registration with the secretary of state if so required.
2. The order must contain a notice of opportunity for hearing pursuant to chapter 28-32.
3. If a hearing is not requested within twenty days of the date the order is served upon the licensee, the order is final. If a hearing is held and the commissioner finds the record so warrants, the commissioner may enter a final order. The final order suspending or revoking the license is final.

4. If the commissioner finds that probable cause for revocation of any license exists and that enforcement of the chapter requires immediate suspension of the license pending investigation, it may enter an order suspending the license for a period not exceeding the time required to serve upon the licensee written notice plus sixty days, pending the holding of a hearing as prescribed in this chapter.
5. Any licensee may surrender the licensee's license by providing the department of financial institutions with written notice of its surrender, but a surrender does not affect the licensee's civil or criminal liability for acts committed before the surrender.

**13-12-13. Suspension and removal of residential mortgage lender officers and employees.**

1. The commissioner may issue and serve upon a current or former residential mortgage lender officer or employee and upon the licensee involved an order stating:
  - a. That the current or former officer or employee is engaging or has engaged in any of the following conduct:
    - (1) Violating a law, rule, order, or written agreement with the commissioner.
    - (2) Engaging in harassment or abuse, the making of false or misleading representations, or engaging in unfair practices involving lending activity.
    - (3) Performing an act of commission or omission or practice which is a breach of trust or a breach of fiduciary duty.
  - b. The term of the suspension or removal from employment and participation within the conduct or the affairs of a residential mortgage lender.
2. The order must contain a notice of opportunity for hearing pursuant to chapter 28-32.
3. If a hearing is not requested within twenty days of the date the order is served, or if a hearing is held and the commissioner finds that the record so warrants, the commissioner may enter a final order suspending or removing the current or former employee. The current or former officer or employee may request a termination of the final order after a period of no less than three years.
4. A contested or default suspension or removal order is effective immediately upon issuance on the current or former officer or employee and upon the licensee. A consent order is effective as agreed. Any current or former officer or employee suspended or removed from employment and participation within the conduct or the affairs of a residential mortgage lender pursuant to this section is not eligible, while under suspension or removal, to be employed or otherwise participate in the affairs of any financial corporation, financial institution, credit union, or any other entity licensed by the department of financial institutions.
5. When a current or former officer, employee, or other person participating in the conduct of the affairs of a licensee is charged with a felony in state or

federal court which involves dishonesty or breach of trust, the commissioner may immediately suspend the person from office or prohibit the person from further participation in the affairs of the residential mortgage lender, or both. The order is effective immediately upon issuance and remains in effect until the criminal charge is finally disposed of or until modified by the commissioner. If a judgment of conviction, federal pretrial diversion, conviction or agreement to plea to lesser charges, or similar state order or judgment is entered, the commissioner may order that the suspension or prohibition be made permanent. A finding of not guilty or other disposition of the charge does not preclude the commissioner from pursuing administrative or civil remedies.

### **13-12-14. Prohibited acts and practices.**

It is a violation of this chapter for a person subject to this chapter to:

1. Make or cause to be made any material false statement or representation in any application or other document or statement required to be filed under any provision of this chapter, or to omit to state any material statement or fact necessary in order to make the statements made, in light of the circumstances under which they are made, not misleading.
2. Directly or indirectly, employ any device, scheme, or artifice to defraud or mislead borrowers or lenders to defraud any person.
3. Directly or indirectly, make any untrue statement of a material fact or to omit to state a material fact necessary in order to make the statements made, in the light of the circumstances under which they are made, not misleading in connection with the procurement or promise of procurement of any lender or loan funds.
4. Engage in any unfair or deceptive practice toward any person.
5. Obtain property by fraud or misrepresentation.
6. Solicit, advertise, or enter into a contract for specific interest rates, points, or other financing terms unless the terms are actually available at the time of soliciting, advertising, or contracting.
7. Conduct any business covered by this chapter without holding a valid license as required under this chapter, or assist or aid and abet any person in the conduct of business under this chapter without a valid license as required under this chapter.
8. Fail to make disclosures as required by this chapter and any other applicable state or federal law and regulations.
9. Fail to comply with this chapter or rules adopted under this chapter, or fail to comply with any other state or federal law or rule, applicable to any business authorized or conducted under this chapter.
10. Make, in any manner, any false or deceptive statement or representation, including, with regard to the rates, points, or other financing terms or conditions for a residential mortgage loan or engage in bait and switch advertising.

11. Negligently make any false statement or make any omission of material fact in connection with any information or reports filed with a governmental agency or the nationwide multistate licensing system and registry or in connection with any investigation conducted by the commissioner or another governmental agency.
12. Make any payment, threat, or promise, directly or indirectly, to any person for the purposes of influencing the independent judgment of the person in connection with a loan or make any payment, threat, or promise, directly or indirectly, to any appraiser of a property, for the purposes of influencing the independent judgment of the appraiser with respect to the value of the property.
13. Collect, charge, attempt to collect or charge, or use or propose any agreement purporting to collect or charge any fee prohibited by this chapter.
14. Cause or require a borrower to obtain property insurance coverage in an amount that exceeds the replacement cost of the improvements as established by the property insurer.
15. Fail to truthfully account for moneys belonging to a party to a loan transaction.
16. Conduct another business within the same office, suite, room, or place of business at which the licensee engages in mortgage lending business unless the commissioner provides written authorization after a determination the other business is not contrary to the best interests of any borrower or potential borrower.
17. Enter any agreement that constitutes a precomputed loan.

#### **13-12-15. Advance fees prohibited - Exception.**

A residential mortgage lender may not take any type of fee in advance before the funding of the loan, unless the residential mortgage lender is licensed under this chapter. A residential mortgage lender licensed under this chapter may accept an advance expense deposit which may not exceed the residential mortgage lender's good-faith estimate of the actual cost of any appraisal or credit reports performed by an independent appraiser or independent credit reporting agency and required by the originating lender for the evaluation of the potential borrower's loan application. Any expense deposit that exceeds the actual cost of any appraisal or credit report must be promptly refunded to the borrower or credited to the borrower's account at the time of the loan closing. A residential mortgage lender may also charge a fee in advance to lock an interest rate.

#### **13-12-16. Maximum charges permitted for loans - Installment payments - Permitted charges.**

1. Interest charges and other fees must be set at rates, amounts, and terms as agreed to by the parties within the loan contract. A licensee may not contract for or receive finance charges pursuant to a loan in excess of an annual rate of thirty-six percent, including all charges and fees necessary for the extension of credit incurred at the time of origination.
2. Additional charges may be assessed for nonpayment or late payment as agreed to by the parties within the loan contract. A licensee may not contract for or receive charges in excess of five percent of the payment. For loans

originated for fifty thousand dollars or less, these charges may not exceed twenty dollars for each nonpayment or late payment. The charge may be collected at the time of the default or any time after default. If the charge is taken out of any payment received after a default occurs and if the deduction results in the default of a subsequent payment, a charge may not be made for the subsequent default.

3. The restrictions outlined in subsections 1 and 2 do not apply to court costs; lawful fees for the filing, recording, or releasing in any public office of any instrument securing a loan; and the identifiable charge or premium for insurance provided for by rule.

### **13-12-17. Orders and injunctions.**

Whenever it appears to the department of financial institutions either upon complaint or otherwise, that any person has engaged in, is engaging in, or is about to engage in any act or practice or transaction which is prohibited by this chapter, or by any order of the department issued pursuant to any section of this chapter or which is declared to be illegal in this chapter, the department may, in its discretion:

1. Issue any order which is effective upon issuance, including cease and desist, stop, and suspension orders, which it deems necessary or appropriate in the public interest or for the protection of the public, provided that any person aggrieved by an order issued pursuant to this subsection may request a hearing before the department if a request is made within ten days after receipt of the order. A hearing to appeal must be held in accordance with chapter 28-32.
2. Apply to the district court of Burleigh County for an injunction restraining the person and the agents, employees, partners, officers, and directors of the person from continuing the act, practice, or transaction of engaging or doing any acts in furtherance thereof, and for such other and further relief as the facts may warrant. In any proceeding for an injunction, the department may apply for and on due showing be entitled to have issued the court's subpoena requiring the appearance forthwith of any defendants and their agents, employees, partners, officers, or directors, and the production of such documents, books, and records as may appear necessary for the hearing upon the petition for an injunction. Upon proof of any of the offenses described in this section, the court may grant such injunction as the facts may warrant. The court may not require the department to post a bond.

### **13-12-18. Investigations, subpoenas, and examination authority.**

In addition to any authority allowed under this chapter, the commissioner may conduct investigations and examinations as follows:

1. The department of financial institutions in its discretion:
  - a. May make a public or private investigation or examination within or outside this state as it deems necessary to determine whether a person has violated or is about to violate any provision of this chapter or rule, or to aid in the enforcement of this chapter or in the prescribing of rules and forms hereunder. The licensee shall pay an investigation or examination fee and must be charged by the department of financial institutions at an hourly rate to be set by the commissioner, sufficient to cover all reasonable expenses of the department associated with the visitation provided for by

- this section. Fees must be deposited in the financial institutions regulatory fund.
- b. May require or permit any person to file a statement in writing, under oath, or otherwise as the department determines, as to all the facts and circumstances concerning the matter to be investigated or examined.
  - c. May publish information concerning any violation of this chapter or any rule or order under this chapter.
2. For the purpose of any investigation, examination, or proceeding under this chapter, the department of financial institutions may administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda, agreements, or other documents or records which the department deems relevant or material to the inquiry.
  3. In case of contumacy by, or refusal to obey a subpoena issued to, any person, the district court, upon application by the department of financial institutions, may issue to the person an order requiring the person to appear before the department there to produce documentary evidence if so ordered or to give evidence touching the matter in question under investigation or examination. Failure to obey the order of the court may be punished by the court as a contempt of court.
  4. A person is not excused from attending and testifying or from producing any document or record before the department of financial institutions, or in obedience to the subpoena of the department, or in any proceeding instituted by the department, on the grounds that the testimony or evidence, documentary or otherwise, required of a person may tend to incriminate the person or subject the person to a penalty forfeiture. An individual may not be prosecuted or subjected to any penalty or forfeiture for or on account of any transaction, matter, or thing concerning which the person is compelled, after claiming the privilege against self-incrimination, to testify or produce evidence, documentary or otherwise, except that the individual testifying is not exempt from prosecution and punishment for perjury or contempt committed in testifying.
  5. For purposes of initial licensing, license renewal, license suspension, license conditioning, license revocation or termination, or general or specific inquiry or investigation to determine compliance with this chapter, the commissioner may access, receive, and use any books, accounts, records, files, documents, information, or evidence, including:
    - a. Criminal, civil, and administrative history information, including nonconviction data;
    - b. Personal history and experience information, including independent credit reports obtained from a consumer reporting agency described in section 603(p) of the Fair Credit Reporting Act [15 U.S.C. 1681 et seq.]; and
    - c. Any other documents, information, or evidence the commissioner deems relevant to the inquiry or investigation regardless of the location, possession, control, or custody of such documents, information, or evidence.

6. For purposes of investigating violations or complaints arising under this chapter, or for purposes of examination, the commissioner may review, investigate, or examine any licensee or person subject to this chapter, as often as necessary in order to carry out the purposes of this chapter.
7. Upon request, each licensee or person subject to this chapter shall make available to the commissioner the books and records relating to the operations of the licensee or person subject to this chapter. The commissioner shall have access to the books, records, and interviews of the officers, principals, mortgage loan originators, employees, independent contractors, agents, and customers of the licensee or person subject to this chapter concerning their business.
8. Each licensee or person subject to this chapter shall make or compile reports or prepare other information as directed by the commissioner in order to carry out the purposes of this section, including:
  - a. Accounting compilations;
  - b. Information lists and data concerning loan transactions in a format prescribed by the commissioner; or
  - c. Other information deemed necessary to carry out the purposes of this section.
9. In making any investigation or examination authorized by this chapter, the commissioner may control access to any documents and records of the licensee or person under investigation or examination. The commissioner may take possession of the documents and records or place a person in exclusive charge of the documents and records in the place where they are usually kept. During the period of control, a person may not remove or attempt to remove any of the documents and records except pursuant to a court order or with the consent of the commissioner. Unless the commissioner has reasonable grounds to believe the documents or records of the licensee have been, or are at risk of being altered or destroyed for purposes of concealing a violation of this chapter, the licensee or owner of the documents and records may have access to the documents or records as necessary to conduct its ordinary business affairs.
10. In order to carry out the purposes of this section, the commissioner may:
  - a. Retain accountants, or other professionals and specialists as examiners, auditors, or investigators to conduct or assist in the conduct of examinations or investigations;
  - b. Enter into agreements or relationships with other government officials or regulatory associations in order to improve efficiencies and reduce regulatory burden by sharing resources, standardized or uniform methods or procedures, and documents, records, information, or evidence obtained under this section;
  - c. Use, hire, contract, or employ publicly or privately available analytical systems, methods, or software to examine or investigate the licensee, individual, or person subject to this chapter;

- d. Accept and rely on examination or investigation reports made by other government officials, within or without this state; and
  - e. Accept audit reports made by an independent certified public accountant for the licensee or person subject to this chapter in the course of that part of the examination covering the same general subject matter as the audit and may incorporate the audit report in the report of the examination, report of investigation, or other writing of the commissioner.
11. The authority of this section remains in effect, whether a licensee or person subject to this chapter acts or claims to act under any licensing or registration law of this state or claims to act without such authority.
  12. A licensee or person subject to investigation or examination under this section may not knowingly withhold, abstract, remove, mutilate, destroy, or secrete any books, records, computer records, or other information.

### **13-12-19. Response to department requests.**

An applicant, licensee, or other person subject to the provisions of this chapter shall comply with requests for information, documents, or other requests from the department of financial institutions within the time specified in the request, which must be a minimum of ten days, or, if no time is specified, within thirty days of the mailing of the request by the department of financial institutions. If the request for information is in regard to a new application or renewal of an existing application and is not received within the time specified in the request, or within thirty days of the mailing of the request, the department may deny the application.

### **13-12-20. Remedies not exclusive.**

The remedies provided for in this chapter are in addition to and not exclusive of any other remedies provided by law.

### **13-12-21. Penalty.**

A person or company violating any of the provisions of this chapter or any rule or order of the department of financial institutions made pursuant to the provisions of this chapter or who engages in any act, practice, or transaction declared by any provision of this chapter to be unlawful is guilty of a class C felony. The commissioner may impose a civil money penalty not to exceed one hundred thousand dollars for each occurrence and one thousand dollars per day for each day the violation continues after issuance of the order against any person or company who violates a law, rule, written agreement, or order under this chapter. An interested party may appeal the assessment of a civil money penalty under the provisions of chapter 28-32 by filing a written notice of appeal within twenty days after service of the assessment of civil money penalties. A civil money penalty collected under this section must be paid to the department of financial institutions and deposited in the financial institutions regulatory fund.

### **13-12-22. Confidentiality.**

To promote more effective regulation and reduce regulatory burden through supervisory information sharing:

1. Except as otherwise provided in the Secure and Fair Enforcement for Mortgage Licensing Act [Public Law 110-289, section 1512, 12 U.S.C. 5111, et seq.], the requirements under any federal law, chapter 44-04, or section

6-01-07.1, regarding the privacy or confidentiality of any information or material provided to the nationwide multistate licensing system and registry, and any privilege arising under federal or state law, including the rules of any federal or state court, with respect to the information or material, continue to apply to the information or material after the information or material has been disclosed to the nationwide multistate licensing system and registry. The information and material may be shared with all state and federal regulatory officials with mortgage industry oversight authority without the loss of privilege or the loss of confidentiality protections provided by federal law, chapter 44-04, or section 6-01-07.1.

2. For these purposes, the commissioner may enter agreements or sharing arrangements with other governmental agencies, the conference of state bank supervisors, the American association of residential mortgage regulators, or other associations representing governmental agencies.
3. Information or material that is subject to a privilege or confidentiality under subsection 1 is not subject to:
  - a. Disclosure under any federal or state law governing the disclosure to the public of information held by an officer or an agency of the federal government or the respective state; or
  - b. Subpoena or discovery, or admission into evidence, in any administrative process, unless with respect to any privilege held by the nationwide multistate licensing system and registry with respect to such information or material, the person to whom the information or material pertains waives, in whole or in part, in the discretion of the person, that privilege.
4. The commissioner shall take all necessary steps, under any applicable law or rule, to protect the disclosure of information or material that is subject to a privilege or confidentiality under subsection 1. Records subject to a privilege or confidentiality under subsection 1 may be required to be disclosed only pursuant to an order of the court. The court ordering the disclosure shall issue a protective order to protect the confidential nature of the records.
5. Application of chapter 44-04 or section 6-01-07.1, relating to the disclosure of confidential supervisory information or any information or material described in subsection 1 which is inconsistent with subsection 1, is superseded by the requirements of this section.

#### **13-12-23. Change of name or address.**

A licensee is required to submit within twenty business days of the date of change notification of a change of name or change of address. The notification must be in the form prescribed by the commissioner.

#### **13-12-24. Call reports.**

Each licensee shall submit to the nationwide multistate licensing system and registry reports of condition which must be in the form and must contain the information as the nationwide multistate licensing system and registry may require.

#### **13-12-25. Report to nationwide multistate licensing system and registry.**

Notwithstanding state privacy law, the commissioner regularly shall report violations of this chapter, as well as enforcement actions and other relevant information, to the nationwide multistate licensing system and registry subject to the provisions contained in section 13-12-22.

**13-12-26. Disclosure of customer information.**

Except for provisions of chapter 6-08.1 which are inconsistent with this chapter, chapter 6-08.1 applies to all residential mortgage lenders licensed under this chapter.

**13-12-27. Notice to borrower regarding regulation by the department of financial institutions.**

The written contract must contain the following notice in capital letters: NOTICE: RESIDENTIAL MORTGAGE LENDERS ARE LICENSED AND REGULATED BY THE NORTH DAKOTA DEPARTMENT OF FINANCIAL INSTITUTIONS. THE DEPARTMENT OF FINANCIAL INSTITUTIONS HAS NOT PASSED ON THE MERITS OF THE CONTRACT AND LICENSING DOES NOT CONSTITUTE AN APPROVAL OF THE TERMS OR OF THE LENDERS ABILITY TO ARRANGE ANY LOAN. COMPLAINTS REGARDING THE SERVICES OF RESIDENTIAL MORTGAGE LENDERS SHOULD BE DIRECTED TO THE DEPARTMENT OF FINANCIAL INSTITUTIONS.

2. For the purposes of complying with the capital and liquidity requirements of this section, all financial data must be determined in accordance with generally accepted accounting principles.
3. A large servicer that meets the federal housing finance agency eligibility requirements for enterprise single-family seller or servicers for capital, net worth ratio, and liquidity, regardless of whether the servicer is approved for government-sponsored enterprises servicing, meets the requirements of subsections 1 and 2 of this section. Large servicers shall maintain written policies and procedures implementing the capital and servicing liquidity requirements of this section. Large servicers shall have sound cash management and business operating plans that match the size and sophistication of the institution to ensure normal business operations. If approved by more than one entity, the applicant or licensee must meet the highest standard of the entities for which they are approved. Applicants or licensees with a combined portfolio are subject to this standard.
2. An applicant or licensee with a portfolio of loans not subject to any government-sponsored enterprises requirements must maintain liquidity to include operating reserves of 0.00035 times the unpaid principal balance of the portfolio and maintain a minimum tangible net worth as set forth in paragraph a of this subsection or, in lieu of the tangible net worth, maintain a one million dollar surety bond.

This section applies to large servicers as defined in section 13-13-02.

1. Large servicers shall establish and maintain a board of directors responsible for its oversight.     - a. Have appropriate processes and models in place to measure, monitor, and mitigate financial risk and changes to the risk profile of the servicer and assets being serviced.
    - b. Be scaled to the complexity of the organization, but be sufficiently robust to manage risks in several areas, including:
      - (1) Credit risk. The potential that a borrower or counterparty will fail to perform on an obligation.
      - (2) Liquidity risk. The potential that the servicer will be unable to meet its obligations as they come due because of an inability to liquidate assets or obtain adequate funding or that it cannot easily unwind or offset specific exposures.
      - (3) Operational risk. The risk resulting from inadequate or failed internal processes, people, and systems or from external events.
      - (4) Market risk. The risk to the servicer's condition resulting from adverse movements in market rates or prices.

### **13-13-10. Expiration and renewal of license.**

All licenses required under this chapter expire on December thirty-first of each year and may be renewed. Renewals are effective the succeeding January first. Applications for renewal must be submitted no later than thirty days before the expiration of the license and must be accompanied by the required annual renewal fee, which is not subject to refund. The renewal fee must equal five hundred dollars or two dollars and forty cents per one hundred thousand dollars of North Dakota mortgage loans serviced, whichever is greater. The renewal fee shall be based on the average mortgage loans serviced over the previous four quarters ending June thirtieth of the current year as reported on the mortgage call report. The renewal fee may not exceed one hundred thousand dollars. Fees must be paid to the department of financial institutions and be deposited in the financial institutions regulatory fund. The form and content of renewal applications must be determined by the department of financial institutions, and a renewal application may be denied upon the same grounds as would justify denial of an initial application. When a licensee has been delinquent in renewing its license, the department of financial institutions may charge an additional fee of fifty dollars for the renewal of the license. A residential mortgage loan servicer license is not transferable. If the commissioner determines that an ownership change has occurred in a sole proprietorship, partnership, limited liability partnership, corporation, or limited liability corporation that was previously granted a residential mortgage loan servicer license, the commissioner may require a new application from the purchaser. The application must be filed within forty-five days from the date change of ownership is consummated. The residential mortgage loan servicer license granted to the previous owner continues in effect to the new purchaser until the application is either granted or denied.

### **13-13-11. Powers of the department of financial institutions.**

The department of financial institutions has the power to:

1. Determine the qualifications of all applicants based on financial responsibility, financial condition, business experience, character, and general fitness which must reasonably warrant the belief that the applicant's business will be conducted lawfully and fairly. In determining whether this qualification is met, and for the purpose of investigating compliance with the chapter, the commissioner may review and consider the relevant business records and capital adequacy of the applicant and the competence, experience, integrity,

and financial ability of a person who is a member, partner, director, officer, or twenty-five percent or more shareholder of the applicant.

2. Establish codes of ethical conduct for licensees.
3. The commissioner may:
  - a. Order or direct the licensee subject to this chapter to satisfy additional conditions necessary to ensure that the institution will continue to operate in a safe and sound manner and be able to continue to service loans in compliance with state and federal law or regulation where risk to the institution or borrower is extremely high, as determined by a formal review.
  - b. Provide notice that all or part of this chapter is not applicable to an institution where risk to the institution is extremely low, as determined by a formal review.
  - c. Provide public notice of a temporary suspension of all or certain sections of this chapter where economic, environmental, or societal events are determined to be of such severity to warrant a temporary suspension.

### **13-13-12. Manner in which records to be kept.**

Every residential mortgage loan servicer licensed under this chapter shall keep a record of all sums collected and all loans serviced by the residential mortgage loan servicer for a period of six years from the date of last entry. If the records can be reproduced upon request by the department of financial institutions within the required statutory time period provided in this section, the records of a licensee may be maintained electronically. When a licensee ceases operations for any reason, the licensee shall inform the department of the location of the records. In addition, the licensee shall provide the name of the individual responsible for maintenance of the records. The licensee shall notify the department within ten business days of the change of the location of the records or the change of the individual responsible for maintenance of the records.

### **13-13-13. Revocation of license - Suspension of license - Surrender of license.**

1. The commissioner may issue upon any licensee an order suspending or revoking a licensee's license if the commissioner finds that:
  - a. The licensee has failed to pay the annual license fee under this chapter or any examination fee imposed by the commissioner under the authority of this chapter.
  - b. The licensee, either knowingly or without the exercise of due care to prevent the same, has violated any provision of this chapter or any regulation or order lawfully made pursuant to and within the authority of this chapter.
  - c. Any fact or condition existing at the time of the original application for such license which clearly would have warranted the department of financial institutions in refusing originally to issue such license.
  - d. The licensee has failed to maintain the required bond.

- e. The licensee has failed to maintain registration with the secretary of state if so required.
2. The order must contain a notice of opportunity for hearing pursuant to chapter 28-32.
3. If a hearing is not requested within twenty days of the date the order is served upon the licensee, the order is final. If a hearing is held and the commissioner finds that the record warrants, the commissioner may enter a final order. The final order is final suspending or revoking the license.
4. If the commissioner finds that probable cause for revocation of any license exists and that enforcement of the chapter requires immediate suspension of the license pending investigation, it may, upon issuance, enter an order suspending the license pending the holding of a hearing as prescribed in this chapter.
5. Any licensee may surrender its license, but surrender does not affect the licensee's civil or criminal liability for acts committed before the surrender.

**13-13-14. Suspension and removal of residential mortgage loan servicer officers and employees.**

1. The commissioner of financial institutions may issue upon a current or former residential mortgage loan servicer officer or employee and upon the licensee involved an order stating:

    - (1) Violating a law, rule, order, or written agreement with the commissioner.
    - (2) Engaging in harassment or abuse, the making of false or misleading representations, or engaging in unfair practices involving servicing activity.
    - (3) Performing an act of commission or omission or practice which is a breach of trust or a breach of fiduciary duty.
  - b. The term of the suspension or removal from employment and participation within the conduct or the affairs of a residential mortgage loan servicer.
2. The order must contain a notice of opportunity for hearing pursuant to chapter 28-32.
3. If a hearing is not requested within twenty days of the date the order is served, the order is final. If a hearing is held and the commissioner finds that the record so warrants, the commissioner may enter a final order. The final order suspending or removing the current or former employee is final. The current or former officer or employee may request a termination of the final order after a period of no less than three years.
4. A contested or default suspension or removal order is effective immediately upon issuance on the current or former officer or employee and upon the licensee. A consent order is effective as agreed. Any current or former officer

or employee suspended or removed from employment and participation within the conduct or the affairs of a residential mortgage loan servicer pursuant to this section is not eligible, while under suspension or removal, to be employed or otherwise participate in the affairs of any financial corporation, financial institution, credit union, or any other entity licensed by the department of financial institutions.

5. When any current or former officer or employee, or other person participating in the conduct of the affairs of a licensee is charged with a felony in state or federal court which involves dishonesty or breach of trust, the commissioner may immediately suspend the person from office or prohibit the person from further participation in the affairs of any entity licensed or chartered by the department. The order is effective upon issuance and remains in effect until the criminal charge is finally disposed of or until modified by the commissioner. If a judgment of conviction, federal pretrial diversion, conviction or agreement to plea to lesser charges, or similar state order or judgment is entered, the suspension or prohibition is permanent. A finding of not guilty or other disposition of the charge does not preclude the commissioner from pursuing administrative or civil remedies.

It is a violation of this chapter for a person subject to this chapter to:

1. Make or cause to be made any materially false statement or representation in any document or statement required to be filed under any provision of this chapter, or to omit any material statement or fact necessary in order to make the statements made, in light of the circumstances under which they are made, not misleading.

### **13-13-16. Orders and injunctions.**

1. Issue an order that is effective upon issuance, including cease and desist, stop, and suspension orders, which it deems necessary or appropriate in the public interest or for the protection of the public.   3. The district court, upon application by the department of financial institutions, may issue an order requiring a witness to appear before the department, to produce documentary evidence if so ordered or to give evidence touching the matter in question under investigation or examination. Failure to obey the order of the court may be punished by the court as a contempt of court.
  4. No person is excused from attending and testifying or from producing any document or record before the department of financial institutions, or in obedience to the subpoena of the department, or in any proceeding instituted by the department, on the grounds that the testimony or evidence, documentary or otherwise, required of the person may tend to incriminate the person or subject the person to a penalty forfeiture, but no individual may be prosecuted or subjected to any penalty or forfeiture for or on account of any transaction, matter, or thing concerning which the person is compelled, after claiming the privilege against self-incrimination, to testify or produce evidence, documentary or otherwise, except that the individual testifying is not exempt from prosecution and punishment for perjury or contempt committed in testifying.

    - c. Other information deemed necessary to carry out the purposes of this section.
  9. In making any investigation or examination authorized by this chapter, the commissioner may control access to any documents and records of the licensee or person under investigation or examination. The commissioner may take possession of the documents and records or place a person in exclusive charge of the documents and records in the place where they are usually kept. During the period of control, a person may not remove or attempt to remove any of the documents and records except pursuant to a court order or with the consent of the commissioner. Unless the commissioner has reasonable grounds to believe the documents or records of the licensee have been, or are at risk of being altered or destroyed for purposes of concealing a violation of this chapter, the licensee or owner of the documents and records may have access to the documents or records as necessary to conduct its ordinary business affairs.

### HOUSE BILL NO. 1037

(Legislative Management)  
(Judiciary Committee)

AN ACT to amend and reenact section 14-05-24.1 of the North Dakota Century Code, relating to spousal support; and to provide for application.

#### BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

**SECTION 1. AMENDMENT.** Section 14-05-24.1 of the North Dakota Century Code is amended and reenacted as follows:

##### **14-05-24.1. Spousal support.**

1. As used in this section:
  - a. "Length of marriage" means from the date of the marriage until the service of a summons for an action for legal separation or divorce.
  - b. "Material change in circumstances" means a change that substantially affects the financial abilities or needs of the parties and which was not contemplated by the parties at the time of the original award.
2. ~~Taking into consideration the circumstances of the parties, the~~The court may not award permanent spousal support. Upon consideration of the provisions of this section, the court may require one party to pay spousal support to the other party for a limited period of time in accordance with this section upon expressly finding:
  - a. The recipient lacks sufficient property or income or the property or income is insufficient to enable the recipient to provide for the recipient's reasonable needs, considering the marital standard of living; and
  - b. The payor has the ability to supply those means without undue economic hardship. The court may modify its spousal support orders.
3. In addition to any other factors the court considers relevant in determining the amount and duration of spousal support, the court shall consider:
  - a. The age of the parties;
  - b. The earning ability of each party;
  - c. The duration of the marriage;
  - d. The conduct of the parties during the marriage;
  - e. The station in life of each party;
  - f. The circumstances and necessities of each party;

- g. The health and physical condition of each party; and
- h. The financial circumstances of the parties as shown by the property owned at the time of the divorce, including the value of the property at the time of the divorce, the income-producing capacity of the property, and whether the property was acquired before or after the marriage.
4. After considering the factors in subsection 3, the court may award:
- a. Rehabilitative spousal support when it is possible to restore a spouse to independent economic status or to equitably divide the burden of the divorce by increasing that spouse's earning capacity.
- b. General term spousal support when a spouse is not capable of rehabilitation, self-support, or to minimize the burden of the divorce.
- c. Lump sum spousal support as additional marital property to a spouse or the court may otherwise adjust the distribution of the marital property and debt to eliminate the need for spousal support or to reduce the amount or the duration of the spousal support.
5. Except upon written findings by the court which require a deviation beyond the time limits of this section is necessary, spousal support terminates upon the following:

<u>Length of marriage</u>	<u>Duration of spousal support award as percentage of the number of months of the length of the marriage</u>
<u>Less than 5 years</u>	<u>Up to 50%</u>
<u>Between 5 and 10 years</u>	<u>Up to 60%</u>
<u>Between 10 and 15 years</u>	<u>Up to 70%</u>
<u>Between 15 and 20 years</u>	<u>Up to 80%</u>
<u>20 years or more</u>	<u>Duration agreed upon by parties or for a limited time as determined by the court.</u>

6. The court may modify its spousal support order, subject to the following limitations:
- a. If a material change in circumstances occurs during the rehabilitative period, rehabilitative spousal support may be modified.
- b. If a material change in circumstances occurs, general term spousal support may be modified.
7. Upon the filing of a judgment, the parties may not seek and the court may not order a modification of lump sum spousal support.

8. The parties may expressly preclude or limit the modification of spousal support through a written agreement that is part of the judgment for divorce.
9. Unless otherwise agreed to by the parties in writing, spousal support is terminated upon the remarriage or death of the spouse receiving support. The court may require reasonable security from the payor spouse in the event of the payor's death. Immediately upon remarriage, the spouse receiving support shall provide notice of the remarriage to the payor spouse at the last known address of the payor spouse.
- 3-10. Unless otherwise agreed to by the parties in writing, upon an order of the court based upon a preponderance of the evidence that the spouse receiving support has been habitually cohabiting with another individual in a relationship analogous to a marriage for one year or more, the court shall terminate spousal support.
4. Subsections 2 and 3 do not apply to rehabilitative spousal support.
11. There is a rebuttable presumption that spousal support terminates upon the payor's attaining full retirement age for social security purposes. The rebuttable presumption may be overcome if the court determines spousal support should continue based on the following factors:
  - a. The ages of the parties at the time of the marriage, the time of the entry of the spousal support award, and the time of the application for retirement;
  - b. The degree and duration of the economic dependency of the recipient upon the payor during the marriage;
  - c. Whether the recipient has foregone, relinquished, or otherwise sacrificed claims, rights, or property in exchange for a more substantial or longer spousal support award;
  - d. The duration or amount of spousal support already paid;
  - e. The health of the parties at the time of the retirement application;
  - f. Assets of the parties at the time of the retirement application;
  - g. Sources of income, both earned and unearned, of the parties, including whether the payor spouse intends to continue employment;
  - h. The ability of the recipient to have saved adequately for retirement; and
  - i. Any other factors the court deems relevant.

**SECTION 2. APPLICATION.** It is the intent of the sixty-eighth legislative assembly that this Act becomes effective on August 1, 2023, and applies to actions for divorce or legal separation filed on or after August 1, 2023.

    - (5) Revenue from payments in lieu of taxes on electricity generated from sources other than coal; and
    - (6) Revenue from the leasing of land acquired by the United States for which compensation is allocated to the state under 33 U.S.C. 701(c) (3);
  - d. An amount equal to the total revenue received by the school district during the 2017-18 school year for the following revenue types:

  - e. Beginning with the 2020-21 school year, the superintendent shall reduce the baseline funding for any school district that becomes an elementary district pursuant to section 15.1-07-27 after the 2012-13 school year. The reduction must be proportional to the number of weighted student units in the grades that are offered through another school district relative to the total number of weighted student units the school district offered in the year before the school district became an elementary district. The reduced baseline funding applies to the calculation of state aid for the first school year in which the school district becomes an elementary district and for each year thereafter. For districts that become an elementary district prior to the 2020-21 school year, the superintendent shall use the reduced baseline funding to calculate state aid for the 2020-21 school year and for each year thereafter.
2.
  - a. The superintendent shall divide the district's baseline funding determined in subsection 1 by the district's 2017-18 weighted student units to determine the district's baseline funding per weighted student unit.
  - b. For any school district that becomes an elementary district pursuant to section 15.1-07-27 after the 2017-18 school year, the superintendent shall adjust the district's baseline funding per weighted student unit used to calculate state aid. The superintendent shall divide the district's baseline funding determined in subsection 1 by the district's weighted student units after the school district becomes an elementary district to determine the district's adjusted baseline funding per weighted student unit. The superintendent shall use the district's adjusted baseline funding per weighted student unit in the calculation of state aid for the first school year in which the school district becomes an elementary district and for each year thereafter.
  - c. Beginning with the 2021-22 school year and for each school year thereafter, the superintendent shall reduce the district's baseline funding per weighted student unit. Each year the superintendent shall calculate the amount by which the district's baseline funding per weighted student unit exceeds the payment per weighted student unit provided in subsection 3.

The superintendent shall reduce the district's baseline funding per weighted student unit by fifteen percent of the amount by which the district's baseline funding per weighted student unit exceeds the payment per weighted student unit for the 2021-22 school year. For each year thereafter, the reduction percentage is increased by an additional fifteen percent. However, the district's baseline funding per weighted student unit, after the reduction, may not be less than the payment per weighted student unit provided in subsection 3.

3. a. For the ~~2021-22~~2023-24 school year, the superintendent shall calculate state aid as the greater of:
  - (1) The district's weighted student units multiplied by ten thousand ~~one hundred thirty-six~~six hundred forty-six dollars;
  - (2) One hundred two percent of the district's baseline funding per weighted student unit, as established in subsection 2, multiplied by the district's weighted student units, not to exceed the district's 2017-18 baseline weighted student units, plus any weighted student units in excess of the 2017-18 baseline weighted student units multiplied by ten thousand ~~one hundred thirty-six~~six hundred forty-six dollars; or
  - (3) The district's baseline funding as established in subsection 1 less the amount in paragraph 1, with the difference reduced by ~~fifteen~~forty-five percent and then the difference added to the amount determined in paragraph 1.
- b. For the ~~2022-23~~2024-25 school year and each school year thereafter, the superintendent shall calculate state aid as the greater of:
  - (1) The district's weighted student units multiplied by ~~ten~~eleven thousand ~~two hundred thirty-seven~~seventy-two dollars;
  - (2) One hundred two percent of the district's baseline funding per weighted student unit, as established in subsection 2, multiplied by the district's weighted student units, not to exceed the district's 2017-18 baseline weighted student units, plus any weighted student units in excess of the 2017-18 baseline weighted student units multiplied by ~~ten~~eleven thousand ~~two hundred thirty-seven~~seventy-two dollars; or
  - (3) The district's baseline funding as established in subsection 1 less the amount in paragraph 1, with the difference reduced by ~~thirty~~sixty percent for the ~~2022-23~~2024-25 school year and the reduction percentage increasing by fifteen percent each school year thereafter until the difference is reduced to zero, and then the difference added to the amount determined in paragraph 1.
- c. ~~The superintendent also shall adjust state aid determined in this subsection to ensure the amount does not exceed the transition maximum as follows:~~
  - (1) ~~For the 2021-22 school year, the transition maximum rate is one hundred ten percent of the district's baseline funding per weighted student unit, as established in subsection 2, multiplied by the district's weighted student units from the previous school year.~~

- (2) For the 2022-23 school year, the transition maximum rate is one hundred ten percent of the district's baseline funding per weighted student unit, as established in subsection 2, multiplied by the district's weighted student units from the previous school year.
  - (3) For the 2023-24 school year, the transition maximum rate is one hundred ten percent of the district's baseline funding per weighted student unit, as established in subsection 2, plus twenty percent of the difference between the rate under paragraph 1 of subdivision b of this subsection and one hundred ten percent of the district's baseline funding per weighted student unit. The transition maximum is determined by multiplying the transition maximum rate, which may not exceed the rate under paragraph 1 of subdivision b of this subsection, by the district's weighted student units from the previous school year.
  - (4) For the 2024-25 school year, the transition maximum rate is one hundred ten percent of the district's baseline funding per weighted student unit, as established in subsection 2, plus forty percent of the difference between the rate under paragraph 1 of subdivision b of this subsection and one hundred ten percent of the district's baseline funding per weighted student unit. The transition maximum is determined by multiplying the transition maximum rate, which may not exceed the rate under paragraph 1 of subdivision b of this subsection, by the district's weighted student units from the previous school year.
  - (5) For the 2025-26 school year, the transition maximum rate is one hundred ten percent of the district's baseline funding per weighted student unit, as established in subsection 2, plus sixty percent of the difference between the rate under paragraph 1 of subdivision b of this subsection and one hundred ten percent of the district's baseline funding per weighted student unit. The transition maximum is determined by multiplying the transition maximum rate, which may not exceed the rate under paragraph 1 of subdivision b of this subsection, by the district's weighted student units from the previous school year.
  - (6) For the 2026-27 school year, the transition maximum rate is one hundred ten percent of the district's baseline funding per weighted student unit, as established in subsection 2, plus eighty percent of the difference between the rate under paragraph 1 of subdivision b of this subsection and one hundred ten percent of the district's baseline funding per weighted student unit. The transition maximum is determined by multiplying the transition maximum rate, which may not exceed the rate under paragraph 1 of subdivision b of this subsection, by the district's weighted student units from the previous school year.
4. After determining the product in accordance with subsection 3, the superintendent of public instruction shall:
    - a. Subtract an amount equal to sixty mills multiplied by the taxable valuation of the school district, except the amount in dollars subtracted for purposes of this subdivision may not exceed the previous year's amount in dollars subtracted for purposes of this subdivision by more than twelve percent, adjusted pursuant to section 15.1-27-04.3; and

- b. Subtract an amount equal to seventy-five percent of all revenue types listed in subdivisions c and d of subsection 1. Before determining the deduction for seventy-five percent of all revenue types, the superintendent of public instruction shall adjust revenues as follows:
    - (1) Tuition revenue shall be adjusted as follows:
      - (a) In addition to deducting tuition revenue received specifically for the operation of an educational program provided at a residential treatment facility, tuition revenue received for the provision of an adult farm management program, and tuition received under an agreement to educate students from a school district on an air force base with funding received through federal impact aid as directed each school year in paragraph 3 of subdivision c of subsection 1, the superintendent of public instruction also shall reduce the total tuition reported by the school district by the amount of tuition revenue received for the education of students not residing in the state and for which the state has not entered a cross-border education contract; and
      - (b) The superintendent of public instruction also shall reduce the total tuition reported by admitting school districts meeting the requirements of subdivision e of subsection 2 of section 15.1-29-12 by the amount of tuition revenue received for the education of students residing in an adjacent school district.
    - (2) After adjusting tuition revenue as provided in paragraph 1, the superintendent shall reduce all remaining revenues from all revenue types by the percentage of mills levied in ~~2020~~2022 by the school district for sinking and interest relative to the total mills levied in ~~2020~~2022 by the school district for all purposes.
5. The amount remaining after the computation required under subsection 4 is the amount of state aid to which a school district is entitled, subject to any other statutory requirements or limitations.
  6. On or before June thirtieth of each year, the school board shall certify to the superintendent of public instruction the final average daily membership for the current school year.
  7. For purposes of the calculation in subsection 4, each county auditor, in collaboration with the school districts, shall report the following to the superintendent of public instruction on an annual basis:
    - a. The amount of revenue received by each school district in the county during the previous school year for each type of revenue identified in subdivisions c and d of subsection 1;
    - b. The total number of mills levied in the previous calendar year by each school district for all purposes; and
    - c. The number of mills levied in the previous calendar year by each school district for sinking and interest fund purposes.

**Baseline funding - Establishment - Determination of state aid. (Effective after June 30, 2025)**

1. To determine the amount of state aid payable to each district, the superintendent of public instruction shall establish each district's baseline funding. A district's baseline funding consists of:
  - a. All state aid received by the district in accordance with chapter 15.1-27 during the 2018-19 school year;
  - b. An amount equal to the property tax deducted by the superintendent of public instruction to determine the 2018-19 state aid payment;
  - c. An amount equal to seventy-five percent of the revenue received by the school district during the 2017-18 school year for the following revenue types:
    - (1) Revenue reported under code 2000 of the North Dakota school district financial accounting and reporting manual, as developed by the superintendent of public instruction in accordance with section 15.1-02-08;
    - (2) Mineral revenue received by the school district through direct allocation from the state treasurer and not reported under code 2000 of the North Dakota school district financial accounting and reporting manual, as developed by the superintendent of public instruction in accordance with section 15.1-02-08;

- (1) Mobile home tax revenue;
  - (2) Telecommunications tax revenue; and

- e. Beginning with the 2020-21 school year, the superintendent shall reduce the baseline funding for any school district that becomes an elementary district pursuant to section 15.1-07-27 after the 2012-13 school year. The reduction must be proportional to the number of weighted student units in the grades that are offered through another school district relative to the total number of weighted student units the school district offered in the year before the school district became an elementary district. The reduced baseline funding applies to the calculation of state aid for the first school year in which the school district becomes an elementary district and for each year thereafter. For districts that become an elementary district prior to the 2020-21 school year, the superintendent shall use the reduced baseline funding to calculate state aid for the 2020-21 school year and for each year thereafter.
2. a. The superintendent shall divide the district's baseline funding determined in subsection 1 by the district's 2017-18 weighted student units to determine the district's baseline funding per weighted student unit.
  - b. For any school district that becomes an elementary district pursuant to section 15.1-07-27 after the 2017-18 school year, the superintendent shall adjust the district's baseline funding per weighted student unit used to calculate state aid. The superintendent shall divide the district's baseline funding determined in subsection 1 by the district's weighted student units after the school district becomes an elementary district to determine the district's adjusted baseline funding per weighted student unit. The superintendent shall use the district's adjusted baseline funding per weighted student unit in the calculation of state aid for the first school year in which the school district becomes an elementary district and for each year thereafter.
  - c. Beginning with the 2021-22 school year and for each school year thereafter, the superintendent shall reduce the district's baseline funding per weighted student unit. Each year the superintendent shall calculate the amount by which the district's baseline funding per weighted student unit exceeds the payment per weighted student unit provided in subsection 3. The superintendent shall reduce the district's baseline funding per weighted student unit by fifteen percent of the amount by which the district's baseline funding per weighted student unit exceeds the payment per weighted student unit for the 2021-22 school year. For each year thereafter, the reduction percentage is increased by an additional fifteen percent. However, the district's baseline funding per weighted student unit, after the reduction, may not be less than the payment per weighted student unit provided in subsection 3.
3. a. For the ~~2021-22~~2023-24 school year, the superintendent shall calculate state aid as the greater of:

- (1) The district's weighted student units multiplied by ten thousand ~~one hundred thirty-six~~six hundred forty-six dollars;
  - (2) One hundred two percent of the district's baseline funding per weighted student unit, as established in subsection 2, multiplied by the district's weighted student units, not to exceed the district's 2017-18 baseline weighted student units, plus any weighted student units in excess of the 2017-18 baseline weighted student units multiplied by ten thousand ~~one hundred thirty-six~~six hundred forty-six dollars; or
  - (3) The district's baseline funding as established in subsection 1 less the amount in paragraph 1, with the difference reduced by ~~fifteen~~forty-five percent and then the difference added to the amount determined in paragraph 1.
- b. For the ~~2022-23~~2024-25 school year and each school year thereafter, the superintendent shall calculate state aid as the greater of:
- (1) The district's weighted student units multiplied by ~~ten~~eleven thousand ~~two hundred thirty-seven~~seventy-two dollars;
  - (2) One hundred two percent of the district's baseline funding per weighted student unit, as established in subsection 2, multiplied by the district's weighted student units, not to exceed the district's 2017-18 baseline weighted student units, plus any weighted student units in excess of the 2017-18 baseline weighted student units multiplied by ~~ten~~eleven thousand ~~two hundred thirty-seven~~seventy-two dollars; or
  - (3) The district's baseline funding as established in subsection 1 less the amount in paragraph 1, with the difference reduced by ~~thirty-six~~sixty percent for the ~~2022-23~~2024-25 school year and the reduction percentage increasing by fifteen percent each school year thereafter until the difference is reduced to zero, and then the difference added to the amount determined in paragraph 1.
- c. ~~The superintendent also shall adjust state aid determined in this subsection to ensure the amount does not exceed the transition maximum as follows:~~
- (1) ~~For the 2021-22 school year, the transition maximum rate is one hundred ten percent of the district's baseline funding per weighted student unit, as established in subsection 2, multiplied by the district's weighted student units from the previous school year.~~
  - (2) ~~For the 2022-23 school year, the transition maximum rate is one hundred ten percent of the district's baseline funding per weighted student unit, as established in subsection 2, multiplied by the district's weighted student units from the previous school year.~~
  - (3) ~~For the 2023-24 school year, the transition maximum rate is one hundred ten percent of the district's baseline funding per weighted student unit, as established in subsection 2, plus twenty percent of the difference between the rate under paragraph 1 of subdivision b of this subsection and one hundred ten percent of the district's baseline funding per weighted student unit. The transition maximum is~~

determined by multiplying the transition maximum rate, which may not exceed the rate under paragraph 1 of subdivision b of this subsection, by the district's weighted student units from the previous school year.

- (4) For the 2024-25 school year, the transition maximum rate is one hundred ten percent of the district's baseline funding per weighted student unit, as established in subsection 2, plus forty percent of the difference between the rate under paragraph 1 of subdivision b of this subsection and one hundred ten percent of the district's baseline funding per weighted student unit. The transition maximum is determined by multiplying the transition maximum rate, which may not exceed the rate under paragraph 1 of subdivision b of this subsection, by the district's weighted student units from the previous school year.
  - (5) For the 2025-26 school year, the transition maximum rate is one hundred ten percent of the district's baseline funding per weighted student unit, as established in subsection 2, plus sixty percent of the difference between the rate under paragraph 1 of subdivision b of this subsection and one hundred ten percent of the district's baseline funding per weighted student unit. The transition maximum is determined by multiplying the transition maximum rate, which may not exceed the rate under paragraph 1 of subdivision b of this subsection, by the district's weighted student units from the previous school year.
  - (6) For the 2026-27 school year, the transition maximum rate is one hundred ten percent of the district's baseline funding per weighted student unit, as established in subsection 2, plus eighty percent of the difference between the rate under paragraph 1 of subdivision b of this subsection and one hundred ten percent of the district's baseline funding per weighted student unit. The transition maximum is determined by multiplying the transition maximum rate, which may not exceed the rate under paragraph 1 of subdivision b of this subsection, by the district's weighted student units from the previous school year.
4. After determining the product in accordance with subsection 3, the superintendent of public instruction shall:
    - a. Subtract an amount equal to sixty mills multiplied by the taxable valuation of the school district; and
    - b. Subtract an amount equal to seventy-five percent of all revenue types listed in subdivisions c and d of subsection 1. Before determining the deduction for seventy-five percent of all revenue types, the superintendent of public instruction shall adjust revenues as follows:
      - (1) Tuition revenue shall be adjusted as follows:
        - (a) In addition to deducting tuition revenue received specifically for the operation of an educational program provided at a residential treatment facility, tuition revenue received for the provision of an adult farm management program, and tuition received under an agreement to educate students from a school district on an air force base with funding received through federal impact aid as directed each school year in paragraph 3 of subdivision c of subsection 1, the superintendent of public instruction also shall

reduce the total tuition reported by the school district by the amount of tuition revenue received for the education of students not residing in the state and for which the state has not entered a cross-border education contract; and

- (b) The superintendent of public instruction also shall reduce the total tuition reported by admitting school districts meeting the requirements of subdivision e of subsection 2 of section 15.1-29-12 by the amount of tuition revenue received for the education of students residing in an adjacent school district.

(2) After adjusting tuition revenue as provided in paragraph 1, the superintendent shall reduce all remaining revenues from all revenue types by the percentage of mills levied in ~~2020~~2022 by the school district for sinking and interest relative to the total mills levied in ~~2020~~2022 by the school district for all purposes.

5. The amount remaining after the computation required under subsection 4 is the amount of state aid to which a school district is entitled, subject to any other statutory requirements or limitations.
6. On or before June thirtieth of each year, the school board shall certify to the superintendent of public instruction the final average daily membership for the current school year.
7. For purposes of the calculation in subsection 4, each county auditor, in collaboration with the school districts, shall report the following to the superintendent of public instruction on an annual basis:
